His Refuse to Accept a New and Reduced Wage Schedule.

Markham Woolen Mills. Commanded reduction of their employees of 25 per cent. has been refused to consent. The employees have accepted the proposal of the company was that they should be reduced to 25 per cent. of the original wages, and all reduced to a cut of 10 per cent. The employees have signified their unwillingness to accept a reduction of half of their wages, and a counter proposal this, and made a halt to the reduction of wages. They consider, to make the reduction of wages, the original proposition. A feature of the original proposition makes it peculiarly obnoxious to the employees, and they have refused to accept the reduction of wages.

Now a well established fact in science that nervousness is due to impure blood. Therefore the true cause of nervousness is by purifying and enriching the blood. The best purifier is Hood's Sarsaparilla. Read this letter:

THE T. EATON CO. LIMITED
190 Yonge St. Canada's Greatest Store. Toronto.
190 YONGE STREET, Feb. 21, 1896.

Always Attractive!

This store is never monotonous. In season and out of season it maintains general interest in merchandise of every sort. New things come trooping along every day and novelties crowd each other in quick succession. We buy and sell quick enough to keep stocks always fresh and the store constantly attractive.

We've no room here for dullness or stupidity. This business is the focus for thousands of eyes all over Canada, and the success of one season is never high enough mark for the next. Keeping busy in midwinter is no easy task, and yet the store is its own evidence. We're doing now what would have been impossible ten years ago, and sales are jumping ahead at a great rate. There's every inducement for people to buy just when we say, and anticipate needs in February instead of waiting till spring. It amounts to a revolution in trade and a revelation in economy. Nothing like it was ever known before, and the success we're earning now will form the basis for still larger success twelve months hence.

In spite of a liberal system of education there are lots of people who need to know this store better. They scold us now and weave all sorts of romance around the business, but we keep right on doing our duty as public servants, satisfied that right makes might, and firm in the conviction of the greatest good to the greatest number. We're under obligations to do better this year than ever before. If we don't, make us pay well for our negligence.

New Arrivals!

There's no stretch of the imagination that can picture the tens and carloads of new goods literally pouring in on us from all over. A big force of men are busy unpacking and delivering to the several departments, which means that goods go on sale fast as received. Instead of confining ourselves to one or two stocks we take a hop, skip and a jump through the store and this is what we find:

Goods that represent the novelty of newness and the newness of novelty. No occasion for misrepresentation and no possibility of rebasing old stock, since everything here is up-to-date. Evidence of that fact is all over the store. We've no old goods to sell and you'll find none. That means fresh, clean stocks and bright, attractive displays.

Double-Headers!

Half the trains that run this weather are obliged to have two engines. The tracks are slippery and snow-drifts interfere with the regular schedule. Hence what railroad men call "double-headers."

Trade at this season of year is just as obstinate. Instead of abiding by dull conditions we put on more steam and crowd things for all they're worth. There's an enthusiasm about busy activity in February that other stores know nothing of. But there's nothing strange about it when you consider these values:

THE GOVERNMENT TAKE OFF

How Much Must the Alex. Cameron Estate Pay for the Property?

The estate of the late Alexander Cameron is valued at \$500,000, and the question of what amount the property owes the province is in dispute. The case, which was to have been argued before Mr. Justice Street yesterday, was adjourned for a week. The executor claims that only \$5000 is yet due to the Government, and that the balance is not to be divided for some years. A test case will be made out of the matter.

At the instance of Hugh Patterson, the motion to prevent the registration of J. B. Davis as owner of property on Dufferin-street, purchased from the late J. B. Davis, has been postponed a week.

The Master of the ordinary is looking into the assignment of the late William Bell to Assignee Campbell.

An effort is being made to unseat Ald. Bercow of St. Catharines for having a contract with the council. The Single Court dismissed the application for a writ of habeas corpus in the case of L. J. Lawrence.

Alexander McGregor is now clerk of the Master in Chambers, vice A. T. Blair, promoted.

Robert Christie, Inspector of Prisons, is seeking to recover from James Walker of Orillia certain overcharges alleged to have been made for some months by Walker. A. McDonald of Orillia, said to be the defendant.

A commission will go to Winnipeg to examine Mrs. Bannister, daughter of Mrs. Cline, who was killed by a train. The commission will also examine the driver of the train, and the witnesses.

Mrs. Jane Longbottom claims that Dr. W. M. Britton, who was examined by her in her suit for \$5000 damages for injuries caused by a fall on an icy sidewalk, has thereupon sued the doctor for \$3000 damages for alleged trespass.

Ad. Bennett, who is in the London City Council chamber has been declared sane.

Non-Jury Settlements.—A. Smith v. Hartford, Clarkson v. Doran, Barrett v. Marks.

Divisional Court, 11 a.m.—Bell v. O'Gersburgh, re Gurney, Hunt v. Gurney, Robertson v. Park, Queen v. Kilby, Queen v. Stewart, Hughlin v. Cropper.

A Refugee in Trouble.

The monthly meeting of the Children's Aid Society was held yesterday, and showed great work done for the helpless, neglected little ones.

The agent's monthly reports covered January and indicated that the officers of the society could not have had much time to go skating, sleighing and enjoying the recreation of many others do this winter weather. In other words that they had been very busy all the time.

Children admitted to the Shelter numbered 48; those discharged numbered 30.

A Charitable Trust.

The annual meeting of the Toronto Savings Bank was held yesterday, and the report of the trustees was read.

The meeting of the Toronto Unemployment Committee was held yesterday, and the report of the committee was read.

TRADE IN CANADA

R. G. Dun & Co. say Business is Interupted by Snowstorms.

Montreal reports that the late intense cold and blocked roads have interfered to some extent with the movements of travelers in country parts, and that business has been a quiet one. In the city, too, business between houses has been slack, and brokers report some difficulty in making sales. Collections, as might be expected, show no notable improvement, but failures are reported as being hardly so numerous, and are among the smaller class of traders mainly. There is no relaxation of the stringency in the money market; there is a difficulty in obtaining call money at even 1 1/2 to 2 per cent, and it is said American banks have been unable to obtain the same rate on undoubted security. There have been no notable changes in the merchandise values there, and a further advance in sugar is not probable.

The trade situation at Toronto is practically unaltered. The movement of merchandise has been small, restricted in a measure by the heavy fall of snow. The stock market of the country roads are almost impassable. Farmers' sales of produce in consequence have been small, and the retail merchant did a small trade, and in many cases has waited longer for the service of the country roads. The whole business has not been particularly good. The markets are pretty well supplied, and prices are low. There is a further decline in wheat this week, and as compared with the settlement prices are about 5 cents lower. Flour is also a shade lower. The money market is "calling" for loans on stock, and the uncertainty of the situation prevents the banks from making loans.
