THE UNITED STATES AND SPAIN MUST SURELY COME TO BLOWS!

REPRESENTATIVES PASSED THE RESOLUTION

Which Means That Warlike Measures Are to Be Adopted

SENATE FOREIGN COMMITTEE'S REPORT

Was Delayed Till To-day, Owing to the Representations of Mr. Hoar—Debates in Both Houses Were Vigorous and Exciting—In the Lower House There Was Almost a Riot, but the War Resolution Passed Almost Unanimously.

Washington, D. C., April 13.—The resolution of the Foreign Affairs Committee, calling upon the President to intervene at once to stop the war in Cuba, passed the House shortly after 6 o'clock by a vote of 322 yeas to 19 nays.

THIS IS THE RESOLUTION:

"Resolved, that the President is hereby authorized and directed to intervene at once to stop the war in Cuba, to the end and with the purpose of securing permanent peace and order there, and establishing by the free action of the people thereof a stable and independent government of their own in the island of Cuba; and the President is hereby authorized and empowered to use the land and naval forces of the United States to execute the purpose of this resolution."

SENATORS VOTE FOR INTERVENTION—BUT DELAY.

The Senate Foreign Relations Committee has reported to the Senate resolutions for immediate armed intervention and establishment of a stable independent government. A minority of four members report in favor of Cuban insurgents' independence.

The following is the majority resolution reported to the Senate by Senator Davis immediately upon the coming of the Senate at noon to-day:

"Whereas, the present conditions which have existed for more than three years in the island of Cuba, so near our own borders, have shocked the moral sense of the people of the United States, and have been a disgrace to Christian civilization, culminating, as they have, in the destruction of a United States battleship with two hundred and sixty-six of its officers and crew, while on a friendly visit in the harbor of Havana, and cannot longer be endured, as has been set forth by the President of the United States in his message to Congress on April 11, 1898, upon which the action of Congress was invited. Therefore, resolved,

"First, that the people of the island of Cuba are and of right ought to be free and independent.

"Second, that it is the duty of the United States to demand, and the Government of the United States does hereby demand, that the Government of Spain at once relinquish its authority and government in the island of Cuba, and withdraw its land and naval forces from Cuba and Cuban waters.

"Third, that the President of the United States be and he hereby is directed and empowered to use the entire land and naval forces of the United States and to call into the actual service of the United States the militia of the several States to such extent as may be necessary to carry these resolutions into effect."

The reading of the report occupied forty-seven minutes. Mr. Hoar demanded that the resolution lie over under the rules until tomorrow. The Vice-President reversed his decision on the point of order.

THE MINORITY REPORT.

Mr. Foraker yielded to Mr. Turpie, who presented a minority report from the Foreign Relations Committee, as follows:

"The undersigned members of the Committee on Foreign Relations cordially concur in the report made upon the Cuban resolutions, but we favor the immediate recognition of the Republic of Cuba, as organized in that island, as a free, independent and sovereign power among the nations of the world."

It was signed by Senators Turpie, Mills, Daniel and Foraker. It looks as if the conservative Senators would delay the Cuban resolutions by debate. Senator Davis said there was no disposition to unduly press the question, though it would be pressed as rapidly as possible. The speaking would, in itself, be sufficient to throw the case over until to-morrow.

The chair decided Senator Hoar's point of order well taken.

WAR THE ONLY TOPIC.

Suppressed Excitement Along With Feeling That Events Are on the Taps Which Will Make History.

Washington, April 13.—War between two powerful nations was the sole topic of discussion in the Senate to-day. Such excitement, suppressed though it was, such a feeling that the country was on the verge of events that would make history for all time to come; such eloquent and impassioned speeches, have not been known in the Senate since the exciting days when the country was convulsed by the greatest war of modern times.

Notwithstanding the crowd in the galleries, the great semi-circular chamber was almost as silent as if it were deserted. Conversation was conducted in low whispers, all seeming to feel as if from the very air they breathed that events historic and momentous were about to occur.

A full quarter of an hour before the Senate was to convene, Mr. Davis, chairman of the Foreign Relations Committee, entered the chamber and quietly went to his seat in the center of the Republican side. He carefully placed on his desk a bulky package, which all knew to be the fatal resolution and report from his committee upon which peace or war might hinge.

The chamber filled rapidly, and when the Vice-President's gavel fell nearly every Senator was at his desk. Scarcely five minutes had elapsed after the session convened before the Vice-President recognized Mr. Davis. An instant hush fell over the chamber. Mr. Davis presented to the Senate the resolution and report from his committee, and requested that they be read. The resolution was as given above.

Two Remarkable Speeches.

Following the presentation of the report and after Mr. Hoar (Massachusetts) had insisted that consideration of the resolution go over until to-morrow on a point of order, came two of the most remarkable speeches yet delivered on the Cuban question. Mr. Foraker (Ohio) and Mr. Lodge (Massachusetts), both brilliant and impressive orators, presented different phases of the Cuban situation. Mr. Foraker advocated the direct recognition of the independence of the Cuban republic, and with an eloquence and vehemence seldom heard in the Senate, splendidly maintained his position. A sharp colloquy between him

WAR CANNOT BE AVOIDED.

War between the United States and Spain can now be averted only by the immediate and complete surrender of Spain to all claims upon Cuba. There is, however, no prospect of Spain humiliating herself, on the contrary, extensive preparations are being made to carry on war. Defences are being set up on the Balaeric and Canary Islands, and on the coast of Morocco. Cruisers have been sent out to take over two ironclad boats purchased in Hamburg, and the employees at the Government arsenal of Ferrol, Cadix and Cartagena are working night and day, turning out munitions of war. General Blanco, in Cuba, has been advised by the Spanish War Office to suspend hostilities against the insurgents, "according to the circumstances in each district." So war is still being waged wherever the bands of hostile insurgents come upon the Spanish troops.

His Assistant Was Adelbert Wycott, a Man Who Had Money, But Whose Mind Was Unsound—Wycott, After the Shooting, Swallowed Carbolic Acid and Died—Mr. Carson Will Likely Recover.

Pictou, Ont., April 13.—The shooting of Mr. A. S. Carson by Adelbert Wycott occurred this morning about three miles from Pictou on Mr. Carson's farm. Wycott, who is a neighbor, owns and lives on an adjoining farm. He went over to Mr. Carson's and met him in the yard, and after some time spent in conversation Wycott drew a revolver and fired. The first shot grazed Carson's head, the second passed through his clothes and the third shot took effect in the fleshy part of the hip, where the bullet remains imbedded. The wound is not considered dangerous.

SHOOTING CASE AND SUICIDE.

Mr. A. S. Carson, Farmer Near Pictou, Has a Bullet in His Hip.

Mr. Wycott is a man of about 45 years old, and has been prominent in business and political circles for some years. Adelbert Wycott is the same Wycott who tried to commit suicide by cutting his throat at an hotel in Kingston last fall. At that time he had some \$10,000 in cash in a value in his room. His father died some ten or twelve years ago, leaving an estate of \$40,000, Adelbert being the sole executor.

Since the affair in Kingston last fall efforts have been made to get the estate out of his management. Mr. Carson, as a friend, has been trying to effect a settlement, and it is supposed the conversation between Wycott and Carson this morning prior to the shooting was regarding the estate. It is thought Wycott's mind is unsettled, caused by worry.

Wycott Kills Himself.

Mr. Wycott, who shot Mr. Carson this morning, has just died from the effects of a dose of carbolic acid. Two constables went with a warrant for his arrest this forenoon, but were afraid to approach him. About 5 o'clock he took carbolic acid, which he must have had in the room, and died in a few minutes. The wound to Mr. Carson is not considered dangerous.

In the Event of War.

"What will we do for good Havana cigars if a war should close all the ports of Cuba?" asked a patron of Muller's, yesterday. "Well," said Mr. Muller, "I have enough Havana to last my trade a year. If I do not sell my whole stock and I will not, if war is declared. Then we have the imported Manillas, grown in the Philippine Islands, another Spanish possession. They are good cigars, much milder than Havana, and they are just the thing for them, when they are cured well."

TORONTO GIRL DEAD IN TOLEDO.

An Autopsy Disclosed That Eleanor Robertson Was the Victim of a Criminal Operation.

Toledo, Ohio, April 13.—(Special)—After the coroner and several other physicians had to-day made an autopsy on the body of Miss Eleanor Robertson, aged 19, late of Toronto, Ont., but for some months past employed as typewriter in this city, it was announced that the deceased had come to her death by a criminal operation. The death certificate issued by Dr. W. G. Gardner, who attended the young woman, gave inflammation of the intestines as the cause. The dead girl's father, John Robertson, was about to take the body to Toronto, when the coroner intervened. The arrest of a prominent local physician is hourly looked for. A local business man is said to have betrayed the unfortunate girl.

RAILROAD TO TESLIN LAKE.

British Columbia Will Give a Subsidy of \$4000 a Mile for a Line From a B.C. Port.

Ottawa, April 13.—(Special)—Information was received from British Columbia to-day that the Legislature of that province to-day voted \$4000 a mile for a railway from a British Columbia port to Lake Teslin. Dan Mann was informed of the fact, but declined to express any opinion about the matter, except that he expected some such action.

SPANIARDS BOUND TO DEFEND THEIR RIGHTS

Doctrines of McKinley's Message Cannot Be Accepted.

INTERVENTION IN CUBA NOT TOLERABLE.

Consciousness of Its Rights, and the Resolution to Maintain Them, Will Inspire the Nation, as They Inspire the Government, to Direct and Defend the Sacred Interests at Stake—Gloomy Feeling at Madrid Last Evening—More Talk of Mediation.

A WARLIKE RESPONSE FROM SPAIN.

The Spanish Government has issued an official note saying "The doctrines contained in the message are incompatible with the sovereignty and rights of the nation, and are an interference in the international affairs of this country."

The official note also says: "A firm consciousness of its rights, united with the resolution to maintain them, will inspire the nation, as they inspire the Government, with the serenely necessary in this difficult moment to direct successfully and defend energetically the sacred interests which are the patrimony of the Spanish race."

GLOOM AT MADRID.

The Very Worst Impression Prevails at the Spanish Capital—Ministers Are Mute.

Madrid, April 13.—The very worst impression prevails this evening. Again the Bourse has declined. Ministers say that there is no news.

Advice received from Cartagena confirm the report that the United States Consul and the United States Vice-Consul at that port, both of whom are natives of Spain, have resigned.

A report is current that Cardinal Rampolla, the Papal Secretary of State, telegraphed the Madrid Government to-day an assurance that peace between Spain and the United States will not be disturbed.

DETERMINED TO RESIST.

Ministers of War and Public Works Express the Government's Intention to Resist Attacks on Spanish Sovereignty.

London, April 13.—The Madrid correspondent of The Daily Mail, telegraphing at 5 o'clock this evening, says: "Lieut-General Cortes, Minister of War, and Count Xiquena, Minister of Public Works, both told me in a conversation this afternoon that the Government was finally resolved to resist every attack, direct or indirect, on the sovereignty of Spain in Cuba. They said, also, that they were sure this line of conduct on the part of Spain would certainly be supported by the European powers, more especially because the negotiations were based on an acknowledgment of Spanish sovereignty in Cuba."

They told me that the conduct of Spain would be adjusted to that of the United States, and that, in face of the fact of the continuance of naval and military preparations in the United States, Spain was fully justified in carrying on her preparations. Finally, the Ministers said to me: "Our resolution at the Cabinet Council was taken unanimously, and we shall maintain it with all the necessary energy."

CARLISTS ARE LOYAL.

Don Carlos Calls on His Followers to Respond to the Valor of the King in This Crisis.

Madrid, April 13.—Upon the re-assembling of the Cortes, Col. Genaro Alas (retired), lately elected a deputy for Sancti Spiritus, Spain, has been elected a deputy for the Cortes. He has evacuated Cuba, reserving his sovereignty and a yearly royalty with an arrangement as to the debts.

Don Carlos has issued a manifesto, in which he says: "The Carlist who will desert will be traitors." If the Spanish Government does not venture on war, but permits the loss of Cuba, then Carlists, who do not respond to the voice of the King will also be traitors.

Perfect tranquility continues to reign in Madrid. The news from Barcelona and Saragossa is that groups of people are demonstrating in the streets. The police and civil guards, together with the civil authorities in these two towns are trying to disperse the demonstration.

Spanish Press Hostile.

El Correo, the organ of Senor Sagasta, says: "The Madrid press is unanimous in its unfavorable judgment upon President McKinley's message, and public opinion has received the document with marked hostility. Special indignation is caused by the clause referring to intervention, and by a hypocritical lamentation over Cuban misfortune, which have been greatly augmented by support given the rebels by a part of the American people and probably the American Consul in return."

"The most important paragraph," says El Eco, "is the last, which the Government properly answers in last night's official statement, and in the publication of Senor Polo de Bernabe's memorandum, showing the sacrifice Spain has made for peace. The congressional debates prove President McKinley's tight position, and it is still doubtful whether he will succeed in controlling the warlike elements in America."

El Heraldico de Madrid (independent) says: "The message has removed the mask American policy has worn for so long. It shows a close diplomatic action, leaving Spain face to face with her

True enemy, the author of the war, who has taken advantage of the honesty of Spanish diplomats, despising Spain as Napoleon despised her, and to pay dearly for the blunder as Napoleon paid for his. The people's judgement of the situation had been more just than the Government's, and hence have come the public manifestations in the streets.

It is to be hoped, however, that the people will not weaken the hands which hold the reins at the present critical moment. Only two courses are open: either to close Spain's history in the new world, feeling ignominiously before the boots of Washington, or to leave to arms the decision of the quarrel. Last night's official note leads to the belief that the Government favors the latter alternative, which is in harmony with the national sentiment.

LONDON TIMES.

Says Any Interference in Cuba Will Be Considered in Madrid as an Injure to Spanish Honor.

London, April 13.—The Madrid correspondent of The Times, telegraphing Wednesday and describing the "unfavorable" opinions held of the message by the Government, the press and public, says: "The elements of a nation whose unity of judgment seemed threatened at one moment by interposition, which are now regarded here as well intentioned but mischievously sketched in design, are once more fusing into firm accord, leaving matters much as they were ten days ago."

"The effect of the message on this country must, be considered both sentimentally and practically. With regard to sentimental considerations the earlier paragraphs of the documents were bound to injure Spanish pride, which is no doubt

Two Remarkable Speeches.

Following the presentation of the report and after Mr. Hoar (Massachusetts) had insisted that consideration of the resolution go over until to-morrow on a point of order, came two of the most remarkable speeches yet delivered on the Cuban question.

Mr. Foraker (Ohio) and Mr. Lodge (Massachusetts), both brilliant and impressive orators, presented different phases of the Cuban situation.

Mr. Foraker advocated the direct recognition of the independence of the Cuban republic, and with an eloquence and vehemence seldom heard in the Senate, splendidly maintained his position.

A sharp colloquy between him and Mr. Hoar followed. Mr. Hoar insisted that the resolution be postponed until to-morrow on a point of order.

THE SLATER SHOE

"Slater Boot Trees."

The wear and shape retention of a shoe may be doubled if, when taken off the foot, it be put on a tree the exact shape of the shoe. The tree thus retains the shape and fiber tension and the shoe its form. It wears with a tendency to run over on heels. A good idea is to have two pairs of shoes alternately "tree'd" and worn. Each pair will thus give double service if allowed a rest-day between wear-days. Trees to fit the various shapes of Slater Shoes, at \$1.00 per pair.

THE RAILWAY COMMITTEE Had Before It a Good Deal of Business Yesterday.

Extension of Time Granted Queenston Heights Bridge Company-Canadian Pacific Wants a Good Deal, But Objections Were Raised Against Blanketing Power-General News From the Capital.

Ottawa, April 3.—(Special.)—Mr. A. Munro Orlie secured from the Railway Committee this morning an extension of time for the Queenston Heights Bridge Company, Mr. Orlie stated that the delay was not caused by the company's fault, but was due entirely to disputes regarding title to the land required on the Canadian side.

Mr. Neil Kingston was present to advise the granting of permission to the Calgary & Edmonton Railway Company to make connection near Macleod with the Crow's Nest Line. The head office of the company is changed from Montreal to Toronto, the bill passed.

Several measures affecting British Columbia or the Yukon were reported. The Lewis River Railway Company and Miles Canyon and White Horse Railway Company bills were adopted. One company will build around the rapids on the left bank of the Yukon, the other on the opposite side.

Canadian Pacific Wanted More.—A sweeping measure, affecting the Canadian Pacific Railway, affecting British Columbia, was greatly amended. The company sought power to build branch lines in British Columbia without specifying their location.

Messrs. Morrison and Maclean strongly opposed granting this power, the former claiming it would enable the company to squeeze out an independent company, as the Kato & Sloan, Judge Clark did in the company thought it would be a good thing to acquire these powers. It is difficult to see how this plan would be effective, and the clause proposed to give the Canadian Pacific power to acquire these powers for transportation of ore and other freight, and also tramways to connect with the Canadian Pacific in British Columbia.

Mr. Morrison again raised objection to granting this power, but the bill was not over by restricting tramways to connecting with the Canadian Pacific. The Government-in-Council to be given before commencing construction. The company will give public notice of application and deposit plans of proposed tramways with the Department of Railways. The bill was then reported.

This Bill Was Held Over.—The Nelson & Skeena Railway (Canadian Pacific) asked for power to build branch lines under authority of the Governor-in-Council. Mr. Morrison opposed the bill, as it would give the company power to acquire these powers. The bill was held over.

Judge Clark said he admitted that the bill was not a good thing, but he was prepared to accept a decision from that standpoint. The bill was postponed.

Judge Robinson's Salary Matter.—The Nelson & Skeena Railway, Judge Doyle of Huron and Judge Macgregor of Carleton were among the members of the committee. Messrs. Morrison and Maclean urged the salary of the judge to be reduced to the salary of the other judges of the court.

Major Sherwood, Commissioner of Dominion Police, received a telegram from Donnelly, Ontario, to the effect that the man named Donnelly, who was in the office, and who gave his name as McDonald, had been identified as the notorious man who was in the office of the late Mr. Justice Gwynne. Mr. Donnelly was arrested and taken to the police station. He was held for three days, and then released.

Personal and General.—Mr. C. W. Taylor of The Globe, Mr. R. L. Atkinson of The Star, Mr. J. H. Brown of The Daily News, and Mr. J. H. Brown of The Daily News, were in town to-night. Mr. Irving is taking out a patent for an electric lamp. Mr. N. G. Wallace of Woodbridge is here on business. Hon. J. M. Gibson is in town.

Tired in the Morning.—Sleep Does Not Seem to Refresh. Weak Nerves and Poor Blood the Cause. Do you feel wretched, weak and miserable in the mornings—as tired as when you went to bed? It's a serious condition—no serious to neglect, and unless you have the nervous system strengthened and the blood enriched by Milburn's Heart and Nerve Pills, collapse is almost certain to ensue.

Mr. Fred. H. Graham, a well-known physician of Barrie, Ont., says—"I have had a great deal of trouble with my heart for four years. I was easily agitated and any excitement caused my heart to throb violently. I had dizziness and shortness of breath, and often arose in the mornings feeling as if I were going to faint. I was terribly nervous. Milburn's Heart and Nerve Pills have done wonders for me. They have restored my heart to regular healthy action, giving me back sound restful sleep, and making my nervous system strong and vigorous. Milburn's Heart and Nerve Pills cure Palpitation, Faint Spells, Shortness of Breath, Dizziness, Nervousness, Sleeplessness, Dyspepsia, Anemia, Female Troubles, Affect of Gripe, Debility, or any condition arising from Disordered Nerves, Weak Heart or Watery Blood. Price 50c a box, or 2 for \$1.25, at all druggists, or sent by mail. T. MILBURN & CO., Toronto, Ont.

Laxa-Liver Pills Banish Bad Bowels.—The Laxa-Liver Pills banish bad bowels, and give the system a thorough cleansing. They are a safe and reliable remedy for all cases of constipation, indigestion, and general debility. Price 50c a box, or 2 for \$1.25, at all druggists, or sent by mail. T. MILBURN & CO., Toronto, Ont.

REPRESENTATIVES PASSED THE RESOLUTION.

Continued from page 1. scented by Senator Turpie. It also went over until to-morrow on a point of order.

ON THE HOUSE SIDE. The Foreign Affairs Committee's Report for Immediate Action Was Passed.

The House of Representatives to-day, after one of the most exciting and memorable days in its history, by a vote of 222 to 19, adopted a resolution which nine-tenths of its members believe make war with Spain inevitable. It is a fact which was grudgingly commented upon to-day by members, as they spoke of the future, that every war in which the United States has engaged began in April, and that to-day was the anniversary of the fall of Fort Sumter, which aroused the patriotic fervor of the North and made the four years of civil strife a certainty.

The resolutions adopted direct the President to intervene at once in Cuba to restore peace and secure to the people of this island "a stable and independent Government of their own," and authorize him to use the army and navy to execute the purpose of the resolutions.

Although only 19 members—15 Democrats, 3 Republicans and 1 Populist—dissenting upon the final vote, the proceedings were marked by a bitter and acrimonious display of partisan feeling. Mr. Adams, acting chairman of the Foreign Affairs Committee, was recognized shortly after 3 o'clock by the Speaker, and asked unanimous consent for the consideration of the resolution adopted by his committee.

The resolution was preceded by the following preamble: Whereas the Government of Spain for three years past has been waging war on the Island of Cuba, against a revolution by the inhabitants thereof, without making any substantial progress toward the suppression of said revolution, and has conducted the warfare in a manner contrary to the laws of nations, by methods inhuman and unprovoked, causing the death by starvation of more than 200,000 innocent non-combatants, the victims being for the most part helpless women and children, inflicting intolerable injury to the commercial interests of the United States, involving the destruction of the lives and property of many of our citizens, entailing the expenditure of millions of money in patrolling our coasts and patting the high seas, in order to maintain our neutrality; and

Whereas this long series of losses, injuries and burdens, for which Spain is responsible, has culminated in the destruction of the United States battleship Maine in the harbor of Havana, and in the death of 266 of our seamen; and whereas the President is hereby authorized and empowered to use the army and navy to execute the purpose of this resolution.

Minority Report. A minority report signed by five Democrats and one Silverite was also read. It was as follows: Resolved, That the United States Government hereby recognize the independence of the Republic of Cuba.

Mr. Henderson said that the independence of Cuba was recognized by the United States in 1895, and that the President was hereby authorized and empowered to use the army and navy to execute the purpose of this resolution.

More Excitement. Mr. Henderson's statement that the Republicans were ready for a roll call caused Mr. Johnson to rise with a violent protest and challenge, and out of this grew another exciting scene, which was quickly settled by the sergeant-at-arms with the mace. During the row between Mr. Johnson and Mr. Henderson, the galleries hissed and members rushed down the aisles, and Mr. Johnson yelled out his "remonstrances" against an unparliamentary proceeding.

Mr. Johnson demanded that Mr. Henderson's roll call of our country's honor, be answered on the floor of the House. "Cheer upon cheer greeted this statement," Mr. Henderson declared, "and the question on the adoption of the order." The roll call was then taken, and the vote stood: Ayes 222, Nays 19.

Mr. Bartlett (Republican, Maine) attempted to offer an amendment to the resolutions of the President. It was not taken, and the vote was taken on the resolutions. The vote was: Ayes 222, Nays 19.

Thomas Johnson, 15 McFarlane lane, was under arrest last night on a charge of stealing some wearing apparel from J. C. Graham.

SPANIARDS BOUND TO DEFEND THEIR RIGHTS.

Continued from page 1. and a feeling in this country that all other nations should be merely spectators. It is not known what action President McKinley will take, but what he does will presumably be based upon what pleads he has a right to do, and both the plea and the action are in the eyes of the world.

After yesterday's council, the Ministry maintained little less than its usual reserve. It is not known what action President McKinley will take, but what he does will presumably be based upon what pleads he has a right to do, and both the plea and the action are in the eyes of the world.

They Mean War. Resolutions Embodying Such Demands Render Negotiation and Compromise Impossible.

London, April 14.—The Times, commenting editorially this morning on the resolutions submitted yesterday (Wednesday) to Congress, says: "They embody demands which cannot be addressed to a sovereign power without rendering negotiation and compromise impossible. Even if they do not amount to a declaration of war, they are in the nature of a declaration of hostilities, and are a challenge to a violent and offensive response, offering gratuitous provocation to the other side of the world."

Second Day's Proceedings at the Annual Conclave in Toronto.

Interesting Papers and Animated Discussions—Topics for Teachers and Inspectors at the Public-Schools in the Sections—Grand Hall at Night.

The second day saw all the departments in full blast, plentifully attended. Fully one hundred delegates put in a first appearance yesterday morning.

**College and High School Section.**  
Prof. W. Gardner Hale's paper upon "The Place of the Humanities in Education" was the feature of yesterday's session. He sketched the origin of humanistic studies from the Renaissance. Then he passed in rapid review the courses of a college course, and then he sketched a college course gave discipline, power of expression, information, outlook and sense of the noble and beautiful in literature. The training of the mind to accurate action could be had from humanistic studies as well as from scientific studies. What one carried away from college as a permanent possession was outlook, horizons, background, appreciation, "to see life steadily and see it whole." The most practical acquisition to have was power of seeing rightly and in its broader relations what men see less rightly and more narrowly, and of so expressing that that others may see it as he does. He concluded by saying, "Let us not believe that the day is coming when man will be defined as a manufacturing animal, and the college as a factory for the production of which, in popular phraseology, nothing useful is taught." [Applause.]

**Modern Language Section.**  
"Shelley's Interpretation of Nature" formed the subject of an interesting address by O. P. Edgar, Ph.D., of Victoria University. Splice was added to the address by the numerous quotations read to illustrate the subject.

**Public and H. S. Trustees.**  
Colonel Deacon took the chair among the trustees yesterday. A committee was appointed to consider the advisability of memorializing the Minister of Education regarding the H. S. Act, which requires the trustees to maintain a country school for the maintenance of the public schools. The committee was composed of Messrs. Barrett, Stewart, and Stewart.

**Physical Culture Section.**  
You will find a great treat in the Toronto Physical Culture Association. The program commences at 8 o'clock on Monday, April 19th.

**Deserators Votes for Smelting.**  
Deserators, Ont., April 13.—The bill for the granting of a bonus for smelting works in Deserators was voted on here today, which resulted 207 for and 27 against.

influencing element in the teacher's personality is a life guided by morality and religion. The teacher should first be good, then intelligent.

**Public School Section.**  
In an upper room well-attended by a large audience heard Prof. J. G. Hume lecture on "Moral Training in the Public Schools." The Public School teacher is the parents' assistant, and the parents are the Public School teacher's assistants.

**Kindergarten Section.**  
Miss M. E. McIntyre's paper upon "The Place of the Gifts in the Kindergarten System" was well received by the audience. She said the gifts were valuable in play and typical in form.

**Training Department.**  
The "Professional Training of Teachers" was discussed by F. Wood, Esq., of Hope College, Ontario. He held that the supply of teachers was largely in excess of the demand.

**Inspection Department.**  
Inspector W. F. Chapman, president of this section, was the most interesting speaker. He discussed the most important points in the inspection of schools.

**Inspection Department.**  
A goodly number of papers in this branch. The report of the Ontario Educationists' Association was read by Mr. J. D. Deacon.

There is something in the nature of the westerner that will come out. The wildness is there and the wildness, and he cannot get rid of them. THE NORTH TORONTO DEADLOCK.

The proper authority to intervene in the deadlock which delays the extension of the Street Railway service to Mount Pleasant Cemetery is the Ontario Legislature. Our electric railway legislation is incomplete inasmuch as it makes no provision for compelling any electric line to afford running rights over its tracks to another company.

THE PRESIDENT'S MESSAGE.

The President's message, however, it may be viewed, has cast upon Congress the duty of initiating action to stop the war in Cuba. In December last, a similar communication was made by the Executive, recommending that the Government of Senor Sagasta be given ample opportunity to carry into effect its decrees offering practical autonomy to Cuba.

The present message reiterates, though with less detail, that position and takes its stand upon intervention on so-called humanitarian grounds. While this is put in the forefront, the reasons given assert other considerations which are more easy of comprehension.

These additional reasons are common to all nations, except that the United States is the nearest great power. They are the necessary result of any war. They would, if valid at all, justify England in taking a hand in an insurrection in France or Germany, or Russia interfering in India or China under similar circumstances.

In truth the humanitarian argument, from an international point of view, carries the matter no further. It is no doubt true that a private citizen, annoyed by lights next door in which some one is getting injured, may be justified in interfering, but he may do so only in aid of the civil power or it can act.

New Bicycles

There is, perhaps, very little difference in value between the best wheel of half-a-dozen of the best makers, as they are all built upon almost exactly the same lines, so far as the ordinary man can judge.

Bicycle Saddles

and in ordering your new bicycle you should insist upon having it fitted with a "Rational" saddle. Your dealer may at first prefer to fit it with a cheap saddle, hygienic only in name, but it is for you to have what you want, and afterwards your dealer will be benefited, because his customer will be both satisfied and pleased—though he may make a little less money from the first sale.

THE RATIONAL

the handsomest saddle on the market, stands on its own conspicuous merits and is now recognized all over the country as the only really comfortable bicycle saddle from start to finish.
