MEMORIAL TO S. AFRICA'S DEAD

Inspiring Words by Earl Grey, Sir Mortimer Clark and Lieut.-Col. Robertson at Unveiling of Tablet in Armouries.

Teach me to live that I may dread
The grave as little as my bed.
Teach me to die that I may rise
Glorious at the awful day.

With the solemn strains of the "Evening Hymn" on the Queen's Own Band were opened the proceedings last night in the armouries at the unveiling of the memorial to the members of the Toronto Garrison who lost their lives in the South African war.

The occasion was surrounded with all the pomp and dignity that the vice-regal presence and an imposing military display could furnish, the arena being covered with troops of all ranks and the local corps being in attendance, while the dusky files of the Queen's Own lined the whole building.

"Patriotism makes no greater demand on a free citizen than that he should lay down his life for his country and there is probably no higher type of citizenship that that which combines with a full discharge of the civil duties a regard for the defence of home and country against the foe."

"No war can happen without pain, and the Canadians in the South African war, as far as Canadian sentiment was concerned, when that call came were prepared, for our sympathies had gone out to the motherland from the beginning of the very first conflict, and when Canada was asked to give its quota of men to support the imperial troops in the field a Dominion from end to end, Canada is not a warlike but a peaceful country, but a call to arms has never come to her."

"Here I desire to express the acknowledgments of the committee and officers of the garrison, both to Capt. W. C. Mitchell, the originator of the suggestion, that this tablet should be erected, and to Harry Nichol, who presented the beautiful design. Small and simple as it is, it should be unveiled by no other hand than that of his majesty's highest representative in this country, for it signifies the giving of life for the empire. For another reason also we deem ourselves fortunate in your excellency's presence with us on this occasion."

Ready to Die!
His colleagues, then arose.
"Is it my privilege to unveil the tablet which your generosity has erected to the valor of your comrades who have enjoyed the high privilege of offering their lives in South Africa for their King and the British Empire?"

As Col. Robertson had pointed out, pursued his excellency, a thrill of sentiment had passed thru the Dominion at the call to arms, and the response carried a thrill of amazement and admiration thru the entire world.

IS THERE NO BETTER WAY?

There are times when our secular press can be, and is, no more than a tool of the party. And such a time is now upon us in the fair Province of Ontario.

Mr. Whitney and his government should be made to face their responsibility relentlessly, and the opposition press will fall in its duty if it does not make them so face it, in the light of the whole province they were elected to serve, but that is no excuse for a campaign of misrepresentation and false emphasis.

ST. JOHN'S BANK CRASH HITS 900 DEPOSITORS

MONTREAL, May 27.—(Special.)—A special issue of the Provincial Bank and Montreal, were to-day appointed liquidators of the Bank of St. John's. The creditors met first and Justice Laflamme of the Montreal district of the superior court took his seat. In front of him was a strange gathering.

Those who had placed their money in the ill-fated bank numbered orphans, farmers, priests, gardeners, mothers, fathers and prosperous merchants, the deposits running from ten, fifteen, twenty, a hundred and up to five hundred dollars, which in nearly every case in these lower amounts, are simply wiped out.

Over the railing stood a farmer from Sherbrooke, who had sold his farm for \$7000 and took the money to the bank three days before it failed.

Facing the judge at the table was a man who placed his savings for her wedding, a tressoussau, \$125, are lost," said a farmer, "and we do not expect to get a cent back."

Charles Latour, a farmer, had placed \$14,500 in the bank a few days before Mr. Roy made his announcement. It is gone. The creditors it was explained that there are 900 depositors and they placed in the bank's keeping \$266,000. Of this the province demands a deposit of \$45,000 and the circulation of the bank is \$216,000. This would leave about \$45,000 to pay the depositors, but meanwhile there are liquidation expenses. The plan between those who are on either side is that if the Roy family will give up the waterworks, the Town of St. John's will buy it for about \$200,000. It is admitted that some time ago, but there is now a feeling that it would pay to relieve the suffering by buying at an advanced sum, even if the taxes are slightly higher. It is felt that the works could be made to pay even at that sum.

COMMISSION TO RULE CIVIL SERVICE

Two Deputy Ministers to Be Appointed—A General Reorganization Planned.

OTTAWA, May 27.—The bill which Hon. Sydney Fisher is to introduce in the commons in a few days is in many respects a radical departure from the present civil service act.

It places the civil service under the more or less direct control of a permanent commission of two members, who are to have the rank of deputy ministers.

MANY BRILLIANT SCENES AT OLD COVENT GARDEN

LONDON, May 27.—Covent Garden was resplendent to-day in brilliant decorations in honor of the coming of the King and Queen of England and opera to-night the King's command and Melba and Tetrazzini sang.

The audience included practically all the diplomatic corps, a host of peers and peeresses, the ministers of state and their wives and other high officials. Melba and Tetrazzini both were in splendid voice and routine opera to-night was a shadow of a doubt.

MR. MCPHERSON DOESN'T WAIT FOR A BOMB TO EXPLODE BUT REPLIES TO RUMOR

Declares Positively That Stories of Mishandling of Election Protest Funds Are Not Correct.

W. D. McPherson, at the meeting in the West End Y. M. C. A. Hall last night, went somewhat into details as to his conduct in connection with the handling of the Conservative party funds in 1900, in regard to which such rumors affecting himself have been going the rounds. He may have been acting on the homely maxim:

"Thrice armed is he who hath his quarrel just." "But four times he who gets his blow in first."

FOSTER DIGGS UP GOLD STORAGE SCANDAL

Connects Sir Frederick Borden With a Company That Got a Government Subsidy.

OTTAWA, May 27.—(Special.)—gold storage scandal occupied the whole of a short day. This was one of the grievances which the opposition is entitled to air to prevent the house getting into supply, and if the fight on election bill goes on, as it probably will, a new one every day is promised.

It was after 4 o'clock this morning when Hon. Mr. Fielding expressed the opinion that the minister of customs had done all any man could to obtain the payment of his officials' salaries, and there was nothing to be gained by prolonging the struggle any further. When Mr. Foster asked what the business would be this afternoon the finance minister sharply retorted, "Estimates."

Mr. Foster's speech consisted almost wholly of excerpts from the government return. It was intended to show that Sir Frederick Borden, his son-in-law, and some others were interested in the formation of a company which asked the subsidy from the government for the construction of the cold storage warehouse at St. John, New Brunswick.

The return showed that in October, 1905, F. E. Williams made the first application to Hon. Sydney Fisher. On April 8, 1907, Williams wrote to Hon. Mr. Fisher, in which he refers to the proposal of Sir Fred. Borden and his son-in-law, and asks the government to consider on account of priority, of his application.

Mr. Foster pointed out that the government agreed to give the company 30 per cent of the amount expended for construction, payable in instalments. This would amount to \$45,000. Besides this grant, the New Brunswick Government guaranteed the principal and interest on bonds up to \$50,000.

GREY COMPANY IS SCORCHED AGAIN, BUT THE LOSS IS NOT HEAVY. Fifteen hundred dollars damage was done to the foundry and equipment of the W. & J. E. Geary Iron Works by fire, which broke out from unknown cause at 10.53 last night. The fire was discovered in the first and second floors of the building by the watchman, who turned in an alarm. It was quickly extinguished by the department. This is the fourth fire within easy recollection at this foundry.

SHARPENED BROAD KNIFE FOR WORK OF BUTCHERY

Weapon Used by Creighton Recovered—He Still Lives and Has Prospects for Recovery.

OWEN SOUND, May 27.—(Special.)—An inquest was opened this morning into the Creighton tragedy of yesterday, in which his wife and two daughters were murdered, and was adjourned until to-morrow evening. Creighton is still alive and will likely recover. The bullet penetrated the right cheekbone and lodged in the neck.

The knife used by Creighton in his butchery was a broad knife which had apparently been in use for some time, and had been ground sharp and to a very fine point. It was found in Creighton's room beside the wreck of a small stand, which he had evidently knocked over. Creighton directed the searchers where they found the knife, and told them they would find the revolver under his wife's pillow.

James Farish Creighton is about 35 years of age. His father was one of the earliest settlers, running a general store, which was continued after his death by his four sons. Creighton has three brothers and one sister, all of whom reside in Owen Sound.

About 12 years ago Creighton disposed of his book and stationery business to enter his brother's office as an assistant collector, which position he has filled more or less ever since. He was married about 20 years ago to Miss Beattie Seldon, but they did not live together for a number of years. For this he was largely responsible and ungenerous. Many times in his wife's rate, it is now said, he threatened to take her life. She died a little over a year ago.

A few months ago, after the death of his first wife, he married Mrs. Chapman of Ypsilanti, Michigan, who had been a frequent visitor with friends in Owen Sound. Their married life appeared to be happy. Creighton being apparently devoted to her two daughters. His drunken habits, however, had caused a rupture and he had returned to his home in the States. This seems to have affected Creighton, who has frequently been seen intoxicated recently. In the case of the late Mrs. Creighton, it is under local opinion. Once an hotelman who was in contact with her, in a letter, reproached her with giving him liquor. He replied that when refused his language was so blasphemous that it was thought better to let him alone. The revolver which was found in the hardware store of Christie & Co., on Monday evening, Victoria Day.

An incident in the apparently true story which was freely discussed here to-day, shows that there were frequent quarrels in the Creighton family. The women were American and Creighton was a Canadian by birth. The whole family went to the Presbyterian Church on Sunday morning. God Save the King was sung at the close of the service, and the women refused to join in the singing. They were home Creighton asked them why they didn't sing. They replied that they did not propose to sing the United States was their native land.

Whereupon, it is said, Creighton informed them, with much personality, that he would not have one around his house who would not be loyal to the British flag. A Port Huron, Mich., despatch says that Mrs. Creighton's parents, Judge Edward Harris, and Mrs. Harris, are being a physician and a lawyer. In her youth Mrs. Creighton was one of the leading society girls of Port Huron, and her family stands high in social, business and professional circles in Michigan.

Mrs. Creighton while still Mrs. Chapman and before she had married Creighton while traveling with her husband in the south. After Creighton's death she returned to Ypsilanti and pressed a suit hard to win Mrs. Chapman. Creighton was somewhat odd in appearance and was not very well liked by the Creighons. He did not favor him for some time, but finally married him, the marriage was not known for several weeks later.

VOTE FOR A REFERENCE ON THE POWER CONTRACT

But Council is Expected to Reverse the Decision of the Special Power Committee.

HAMILTON, May 27.—(Special.)—At the meeting of the special power committee this evening Mayor Stewart and Aldermen Jutson and Bailey fought strenuously to free the citizens of Hamilton from the exactions of the Cataract monopoly by closing a contract with the Hydro Electric Commission. They were outvoted to-night, but it looks as if they will win out in the council Monday evening. By the vote of Aldermen Sweeney, Allan, Gardner and Clark it was decided to recommend the council to submit a resolution in opposition to the people for a third time, although the ratepayers have already voted twice in favor of the Hydro Electric power. Aldermen Allan, Sweeney and Gardner tried to get a motion thru that the committee interview the Cataract power commission, but they were defeated by the vote of the council. Friday evening, Aldermen Clark and Gardner stating that they supported the resolution to submit the question to the people, they reserved the right to change their vote when the question came up in the council.

The fight in the council Friday evening will be close. There are Aldermen Clark and Gardner, who are getting inspirations from some source as to all kinds of tricks to evade the council. The council will be called on to vote on the power contract. It is expected that the council will vote in favor of the Hydro Electric power. Due to Neglect. The jury that investigated the death of Fred Sutton, the young man fatally injured by being run over by a Brantford and Hamilton Railway car, returned a verdict this evening to the effect that the accident was due to the neglect of the company in not providing lights and aprons for its cars.

Doctors Go on Record. The Ontario Medical Association this afternoon dealt with the case of a child murder and passed the following resolution: That whereas destruction of children for any other cause than the preservation of the life of the mother is deliberate murder, and whereas, the perpetration of this act by members of the medical profession not only inflicts the pain of death, but also brings discredit on honorable profession, we, members of the association, take this opportunity of stating that this association has always condemned the strongest possible terms this criminal practice. These officers were elected: Dr. Herbert Hamilton, president; Dr. J. B. MacCallum, vice-president; Dr. E. Stanley Byrnes, secretary; Dr. J. E. Davy, Hamilton, assistant secretary; Dr. H. M. Russell, treasurer.

NOTES FOR CHINAMEN THEY'RE NOT POLITICIANS

Why Saskatchewan Has Decided to Debar 'Em From Franchise—A Constitutional Issue.

REGINA, Sask., May 27.—The whole of the afternoon sitting of the house was taken up with the consideration of the new election law. The government stated its intention of shutting out from the franchise not only Chinamen by birth, but British subjects born of Mongolian parents at Hongkong or elsewhere in British territory. The attorney-general said he was prepared to take responsibility for the constitutional side of the question.

Brown of Souris said they should not shut Chinamen out of franchise any more than they should shut out Doukhobors and other people brought into this country. The reason given by the government for shutting out Chinamen is that it is impossible to get a franchise at any election. A plea for a franchise for educated Indians did not meet with favor from the government.

J. M. WALKER DISCHARGED. Upon the promise of his counsel, A. E. McDonald, that J. M. Walker would deliver over a quantity of paint to the owner, Judge Winchester yesterday instructed a jury in sessions that they might take a lenient view of the evidence in the prosecution of Walker for receiving the goods knowing them to be stolen.

No Change in Textile Strike. MONTREAL, May 27.—(Special.)—The textile strike is still in an undecided condition. The officials of the Dominion Textile Company are waiting for an official notice from the Canadian Government of the appointment of W. L. Mackenzie King, deputy minister of labor, as a royal commissioner to enquire into the state of trade in the textile industry. A. B. Mole, manager of the Dominion Textile Company, said there was absolutely no change in the strike situation.

TRUST THOSE WHO TRUST.

Whistling to raise the wind is not a very profitable occupation save that it helps to pass the time. But the wind does come sooner or later and then the sailor on the sea has the advantage over the opposition castaways of Ontario. Just now its spokesmen on the platform and in the press are assiduously piping in various keys and profess to feel already the favoring breeze that is to wait the party into the official haven.

Several prominent members of the present government are known to favor a large delegation of parliamentary powers to national representative bodies and this appears to be the only method by which the mother of parliaments can be relieved of her plethora of business and thus enabled to devote more time and consideration to the great imperial problems on which so much depends. While it is not at all probable, in view of the congested state of the session, that the "Home Rule for Scotland" bill will pass even the house of commons, the large majority in its favor is a sign of the times.

President Fallières' enthusiastic reception in England has prompted a leading Paris paper to suggest that a formal treaty of alliance may be substituted for the moral accord of 1904. And after reviewing the possible contingencies of a continental war, it concludes that France would not be proportionately benefited by such an alliance unless the British army were so reformed in organization and recruitment as to be capable of energetic action on the continent.

For quite a number of years the Scottish Home Rule Association has carried on an energetic propaganda in support of its leading object. It has been instant in season and out of season, has provided the public with occasional amusement and has been tolerated rather than supported. Yet it would be a mistake to suppose that the delegation of purely Scottish business to a local representative body would be unwelcome. The truth is that Scotland has always got from parliament whatever her people made up their minds to insist upon.

President D. R. Wilkie of the Imperial Bank and his efficient staff have reason to congratulate themselves on the satisfactory 33rd annual report presented to the shareholders on the 27th inst. The enviable position already attained by this banking institution is further augmented by the story the report tells for the past twelve months. Finally the year with a net profit of \$721,175, this bank shows unmistakable signs of careful business management.

All critical observers agree that the imperial parliament has too much to do. Much of its valuable time is spent on affairs of purely local interest that could far better be dealt with by a delegated authority. A few years ago Scottish pressure secured that enquiries connected with private bill legislation should be conducted in Scotland and there is no good reason why all this class of parliamentary business should not be taken by a national council.

THE OWEN SOUND TRAGEDY.

Editor World: It is seldom that a tragedy strikes home to so many estimable people as that which turned a nestling hillside cottage at Owen Sound into a shambles on Wednesday morning. The citizens of Owen Sound know the perpetrator of the deed, and they need not be told the moral that it teaches.

James Farish Creighton sowed the wind and he reaped the whirlwind. He was the black sheep of a family which has exceptional claims upon the people of Owen Sound as useful, enterprising, public-spirited and pious citizens. There are those bound to James Creighton by ties of blood who will not descend one title in the estimation of their fellow-citizens. They have lived well and have merited much. They ring true and need not feel humiliated.

Had there been many conjectures as to the actual depth of the rock-bed which underlies the City of Toronto. But before the construction of the new building for the Robert Simpson Co. Limited, had been begun, the company made enquiries of various drainage men and contractors as to the depth at which rock-bed would be reached for foundations.

It had remained for the member for North Toronto, with his suspicious nature, to make this discovery; but he believed his (Borden's) statement would receive more credence than any statement of Mr. Foster. Dr. Daniel of St. John, who replied, observed that Sir Frederick was the last man who should preach morality.

considered unfair, coming from a minister of the crown, and he stated further that Sir Frederick had said that he had influence enough to secure a subsidy for his own company.

Enclosed a letter from Hon. H. R. Emmerson, in which that gentleman promised that he would not allow Sir Frederick's scheme to interfere with the claims of the Williams concern, and that it was not desirable to have a cabinet minister getting a concession from the government. Mr. Emmerson thought there were various methods of doing things, and his methods were usually successful.

Mr. Foster denied vehemently, that Sir Frederick proceeded to tell that Mr. Foster "is mentally crooked and morally crooked." "Not that I care," put in Mr. Foster, "but let them go."

He confessed that his letter to Williams was, in loose language, so that Mr. Foster was able to base his whole case upon the case of Mr. Joseph Chamberlain to show that, even if Sir Frederick Borden were connected with a company, he was not violating the Independence of Parliament Act, Mr. Chamberlain being, he said, a member of a screw manufacturing company, which had large contracts with the government.

Mr. Fisher went on to say that in writing of the company to Williams as one with which the minister of militia was "connected," he meant only in the sense of his being an advocate of a worthy public utility. Williams had been given every chance and put on the same footing as the New Brunswick Company. Indeed he had waited for five months before closing the contract with the New Brunswick Company for the construction of a cold storage warehouse in St. John.

LONDON, May 27.—With the closing at Jersey City to-day of the state's case against Theodore Whitmore, charged with killing his wife, the state's case against the alleged murderer to-day when Frederick W. The contention of the prosecution is that Whitmore sought to convey by these two letters the information to Mrs. Schmitter that her sister was still alive.

Two Per Cent. Counted Add 27 to His Poll—Will Continue for Six Weeks. NEW YORK, May 27.—The actual recounting of the ballots cast in the last majority election was begun to-day, after a delay of more than two years.

The contents of two ballot boxes were counted in the presence of Justice Lambert of the supreme court and resulted in a net gain for W. H. Hearst of 27 votes in the two precincts counted. There are 1940 precincts in the greater city. Mayor McClelland's plurality had been 157 and McClelland 156 in this box.

One of the boxes counted to-day, which showed a net gain of 15 votes for Mr. Hearst, was the subject of a complaint before the grand jury by a Socialist watcher at the polls that alleged that the boxes for Hearst and McClelland had been tampered with in the original count. McClelland had 163 and Hearst 153. In to-day's recount Hearst had 157 and McClelland 156 in this box.

Counsel for Mr. Hearst said he believed the recount would be completed within six weeks.

One result of the establishment of equal rights, continued his excellency, between Briton and Boer, has been to cause those who had fought against the Canadians to regard themselves as British subjects and to see a greater future in the empire than that outside it.

In conclusion he hoped that the tablet might remain to incite and stimulate successive generations to come with alacrity and enthusiasm to the assistance of their comrades.

At a bugle signal Earl Grey then drew the cord releasing the Union Jack which draped the tablet and the flag fell to one side, revealing the list of heroes.

The tablet was erected by the officers of the garrison, who take an interest in athletic sports and spend a considerable number of winter evenings in the armories, and the movement has been on foot for about five years. No public subscription has been received.

At the head of the tablet is the word "Resurgant" and the names follow.

Tragedy in the Bay of Fundy—Only Two of the Crew Are Saved.

HALIFAX, May 27.—Eighteen men went to their death in the Bay of Fundy last night, when the Dominion Atlantic Railway's liner, "Boston," crashed into the Boston schooner, "Fame," and sent her to the bottom.

Only two of the schooner's crew being rescued. A thick fog, which enveloped the schooner's lights as if in a shroud, was the cause of the disaster.

The dead are: Capt. Thomas Fay; Bernard Daley; Thomas Stapleton; Michael Welby; Thomas Powers, Sr.; Thomas Powers, Jr.; Thomas Murphy, all of New Brunswick; William Fisher and John Roy of Nova Scotia; Michael Corner, William Bailey, Barney Cashin of Boston.

Eight other names are unknown to the two survivors, who are John Clark, St. John's, and Edward Pitta, Halifax.

The "Fame" had been out from Boston at half speed last night, about one hundred miles east of Boston Light, the lights of the "Boston" suddenly loomed up dead ahead, about 300 feet from the liner's bow.

Life-boats were swung out from the steamer, but the wreck of the schooner went down within two minutes.

The "Fame" had been out from Boston on a fishing trip for four weeks. It was their intention to start for home to-day, as they had a catch of 100,000 pounds. Two men drifted away in a dory several days ago, and had been given up for lost.

DROWNED IN A POND. Sad Accident Takes Place Near Crosshill.

CROSSHILL, May 27.—A sad drowning accident occurred on Sunday afternoon near Crosshill, Ont. Two young men, William Campbell, only son of William Campbell of Crosshill, and Charles Parquette, a traveling merchant, who was staying at Mr. Campbell's home, were seen to walk in the afternoon, and having reached a large pond of water on the farm of Miss Playford, the two young men went in for a bath.

They were in the water but a few minutes, and only a few feet from shore, when one of the young men, Campbell, was seized with cramps and called to his friend for help. His friend went to the rescue, but as Campbell was going down for the last time, when Parquette was within reach, Campbell seized his arm, and he, too, was dragged under water by Campbell. Two boys who were on the bank became alarmed and ran for assistance.

A hired man who was working for Mr. Playford was soon on the scene and managed to get the two boys out. He was restored to life by the timely arrival of Charles Byers, who, as soon as the body was removed from the water, began artificial respiration, and in two hours of hard work the young man was breathing naturally.

Half an hour later Parquette was removed from the water the body of Campbell was found.

Through its wonderful cleansing, purifying powers on the blood, and its renovating action on the entire system, Burdock Blood Bitters has made thousands of cures of different skin diseases during the past thirty years it has been on the market.

SCANDAL IN BOSTON. Officials of Boiler Making Plants Arrested.

BOSTON, May 27.—Six of the leading officials of as many boiler making plants and structural iron works were arrested by police inspectors this afternoon, charged with conspiracy to defraud the City of Boston.

This follows a report of the Boston finance commission, which revealed an elaborate conspiracy between boiler makers and structural iron works in relation to the amount of each other's bids on competitive city contracts.

The report was brought to the attention of President Roosevelt, who commented upon it in a recent message to congress.

THE STRAWBERRY CROP. Dealers Predict a Bountiful Supply at a Price Within the Reach of All—How to Eat Strawberries and Enjoy Them.

A glut in the strawberry market is the prediction of fruit dealers in nearly all sections of the country. Reports from the growers of berries indicate that the coming crop will be better than for many years.

A larger acreage has been devoted to the fruit. It is predicted that lovers of berries will be able to eat all the good berries they want at moderate prices.

It is a fact that many persons cannot eat strawberries without discomfort. The full enjoyment of this delicious fruit is denied to thousands whose stomachs do not take kindly to the peculiar acid of the numberless little seeds which it contains.

Some persons the soggy white flour dough of "shortcake" makes a bad matter even worse. Almost any person who has a heart not made of business entirely can eat strawberries and Shredded Wheat biscuit with perfect safety and fullest enjoyment.

It is a layer of Shredded Wheat biscuits in an oven until the shreds are crisp, then crush a cavity of berries with your fingers and fill with the berries in their own juices; then pour milk or cream over it and sweeten to suit the taste. The combination makes a most wholesome and delicious dish—more easily digested and much more nutritious than the ordinary shortcake.

You can make the same appetizing combination with raspberries or any other berry. A dish that is a kind of fresh fruit. A dish that is made by partly filling a small bowl with red raspberries, then covering with a layer of Shredded Wheat crumbs (made by crushing two crisp biscuits in the hand), then adding a little cream and sugar. Such a lunch is most easily digested. The Shredded Wheat itself contains more real nutriment than meat or eggs and contains less fat than any other food to its healthfulness and palatability. A more ideal summer diet could not be imagined.

They will preserve peace and are willing to be sworn in as special constables in order to carry this out.

AS A WARNING. C. P. R. Closing Down One Shop After Another.

MONTREAL, May 27.—"We stand as we did in the beginning. The legal department is looking after the future."

Such was the terse comment of David McNicoll, general manager of the Canadian Pacific Railway, when asked to-day regarding the trouble the company is at present having with its men.

The closing of the shops at McAdam Junction, N.B., is looked upon here as a warning to the men, and unless the men in the east cease their bickering and attempts to embroil themselves in the question of the west, it is taken as a fact that the C.P.R. will continue the policy and close down one shop after another until practically all have discontinued work.

F. A. Acland of the Ottawa labor department who has been in conference with Mr. McNicoll for the past couple of days, has left for Ottawa without settlement.

NEW MIMICO BUILDING. Plans for Workshop to Replace Burned Building Submitted.

Plans of a new structure to replace the workshops of the Mimico Industrial School, recently destroyed by fire, were submitted at a meeting of the board yesterday afternoon. The new building is to occupy the old site and is to be of the same general design, but will be of fireproof material and will have concrete floors and roof. The cost is estimated at \$100,000, and there is \$7000 insurance money on hand.

Supt. Ferrer reported that there were 207 boys in attendance April 30, as compared with 222 on March 31. Work has been greatly hampered owing to the loss of the workshops, but temporary rooms have been fitted up. Expenditures for the first three months of the year were \$961.38, and revenue \$957, leaving a balance of \$345.

BAPTIST SUNDAY SCHOOLS. Their Growth in the Past Year—Some Problems. E. O. White, in thanking the Baptist Sunday School Association for his re-election Tuesday as statistical secretary, took the opportunity to administer 14 of the schools for failing to cooperate with him in compiling his annual reports. He had to collect them on Sunday last.

He reported 34 Baptist Sunday schools in the city, with 977 officers and teachers, 158 Bible class scholars, 433 scholars in the morning body, and 1920 scholars and 1922 attendants at infant classes, a total increase of 341 over last year. In addition there were 10,356 in the cradle roll, making a grand total of 10,356 in all departments. There were 11,064 books in the libraries. The total collections amounted to \$10,416, out of which \$345 was paid in expenses and \$484 was subscribed to missions, leaving a balance of \$410.

Baptists from the Sunday schools to the churches aggregated 232. One of the problems of the new executive is to discover why it is that out of 15 schools there are only 323 boys, as against 1233 girls.

The home department has been taken up by only five schools. These pastors report that it is of as much assistance as a deputy minister. Officers were elected as follows: President, E. L. Ratcliff; 1st vice-president, J. Wallis; 2nd vice-president, C. C. Bodley; secretary-treasurer, H. G. Hawkins; statistical secretary, E. O. White.

NOT IN THE MERGER. Owen Sound Cement Companies Haven't Been Approached. OWEN SOUND, May 27.—(Special.)—Referring to the reported merger under way, to include Portland cement interest in this section of the country, your correspondent called upon the officers of the local concern, and without exception they stated that they had not been approached on the matter.

While there may be a purely local consolidation of two or three interests, nothing definite has been arranged, but certainly this move has no connection with the proposed \$25,000,000 proposition.

In conversation the secretary-treasurer of one of the companies with which is identified interests in several other Portland cement plants now in operation, that gentleman stated that in March he had been asked to give figures on the value of the plant and its earning capacity. He declined to comply with the request.

AN UNSOLVED PROBLEM. KANSAS CITY, Mo., May 27.—An unsolved problem before the General Assembly of the Presbyterian Church is the scarcity of men for the ministry.

"With four million Presbyterian communicants," said the Rev. S. W. Enead of Pittsburg, chairman of the board of education, "we have only 117 in training for the ministry."

Growing at Hanlan's. This is going to be a record-breaking week at Hanlan's Point, which has aptly been termed "the playground of the people." Notwithstanding the immense crowd at this popular place on the holiday many thousands are continuing to cross the bay and enjoy themselves. In addition to the many interesting features always to be found at the Point, there is an open air free performance of plays, music and evening. Among the acts presented are: George and Georgie, the comedy acrobats on the bounding pad; Madame Montague's troupe of trained birds, and Johnstone, the most daring and fearless of bicycle riders.

The Napoleon (Foot-rite) Shoe

Of all the 20 improvements of the clever-looking Napoleon Shoe the feature which best pleases the eye of the buyer is the Artistic Arch. Special lasts are made for every pair of Napoleons—foot-sculptured lasts—and inside there is a stout steel arch which snugly holds the instep.

That free, athletic stride which marks the man of action is not possible when the arch support of the shoe fails in its function.

Showing the Napoleon Shoe is a pleasure—whether you come to see or to buy.

PROMPT ACTION OF WEST TORONTO MAN SAVES BOY

Liberal Candidate Speaks in Doncaster—Conservatives Hold Meeting in Earlscourt.

WEST TORONTO, May 27.—An accident which might have been attended with serious consequences, occurred on Dundas-street about 5 o'clock to-night. A little Jewish boy about 3-4 years old, while playing on the street opposite J. H. Rowntree's grocery store, corner of Clendenan-avenue, was struck by the corner of the fender of a Suburban touring car going at a fair rate of speed. The child, thrown by the fender out of danger of the front wheel, and somehow rolled back over and dragged the little fellow out of danger, the car wheel would have passed over his body. The mother, who lives on Maria-street, had come shopping and the child followed her across the commons without her notice. A few bruises on the little fellow's face and limbs seemed to be the only injuries received. The motorman and conductor were not responsible for the accident.

MR. HOSSACK DECLARES

What He Told Some Liberals Who Had Objected to His Abolish the Bar Platform.

Also many people may have gone to Douglas Hall at Bloor and Bathurst-street last night expecting to hear a declaration from D. C. Hossack that he was running as an out and out Liberal. In the provincial campaign there was no such announcement made. Quite to the contrary, Mr. Hossack's address could not be interpreted as favoring either party and he had a lot of nice things to say about both.

He sometimes thought that a wrong view was taken of politics. It should make no difference to anybody who heard the Liberal party in the coming election, he wanted them to distinctly understand that he was not assisting the support of the Liberal party if they didn't feel agreeably disposed toward his policy. He was decidedly an independent. A man who takes strong views with both parties, as he had, surely had a conscientious claim to independence, and it was a matter of ordinary common sense that when the electors cast their votes for Mr. Shaw or for himself, so long as they demonstrated that they had heartily endorsed the Liberal platform, they were casting a ballot.

In this remark the speaker smoothed over a little the enthusiasm of the meeting by W. H. Shaw, federal candidate in North Toronto, who had a few minutes before said that Mr. Hossack should receive the popular support of the electorate because he was business enough to discharge his obligations, which was more than could be said of a namesake of his own who was also running.

Mr. Hossack continued that John Shaw and he had been living in the same neighborhood for a number of years and they had always found his opponent perfectly upright and worthy of support, by virtue of the great amount he had done for the residents in his section of the community while in municipal office. Aid. Jas. Hales, who was present, while he said he didn't feel much at home in a Liberal gathering because he owned the liquor traffic so that some but paid government commission-ers would have the right to dispense liquor.
