Bluenose Shows Way To Elsie; Wins The First Schooner Race

YANKEE SOME THREE MILES BEHIND AS N. S. VESSEL FLASHES OVER LINE

Course Covered in Record Time—Bluenose, Outmanoeuvred at Start, Overhauls Rival and Wins by More Than Ten Minutes—Wind About 25 Miles an Hour.

(Canadian Press) S. S. Tyrion, Halifax, N. S., Oct. 22—Romping around the forty mile course in record time, the Canadian challenger, Bluenose, Capt. Angus Walters, today defeated the American defender Elsie, Capt. Mary Welch, in the first race of a series to decide the ownership of the international fisherman's trophy, emblematic of the blue ribbon of the North Atlantic fishing fleets. Bluenose, the bigger vessel carrying approximately 2,000 square feet more sail, had the better of Elsie on every point of sailing. Captain Mary Welch of the American defender outmanoeuvred his rival at the start and got the better of him in a luffing match fifteen minutes later but was unable to maintain his advantage, and dropped steadily astern after leaving the first mark, at which he was second boat. While the Bluenose demonstrated that she had an edge on her American rival on the reaches, it was not until the windward work on the fourth leg commencing that the Canadian vessel demonstrated her absolute superiority in the prevailing wind of the day, which lowered around twenty-five knots.

Early in the windward work, Welch attempted to set his balloon, carried twice his foretopmast, and while this did not appear to interfere with the American's speed by the wind, it undoubtedly held him up back on the close reach to the finish line.

S. S. Tyrion, off Race Course, Halifax, N. S., Oct. 22—A twenty-five knot wind from the northwest greeted Elsie and Bluenose when they put out this morning for the first race of a series to decide the championship of the North Atlantic fleets of the U. S. and Canada.

The schooners carried four lower sails and main topsails as they cruised about back of the starting line. No. 8 course was chosen for the race. This meant a reach of six miles to the inner automatic buoy off Chebucto Head, a six mile run down the water to the southeast automatic buoy, a reach of nine miles to Shut-in-Island buoy, a dead beat of twelve miles to inner automatic with a possibility of further windward work on the race to the finish line, six miles away.

Elsie Takes Lead. In manoeuvring Bluenose went weather berth, and at the one minute gun both vessels bore away for the starting line. Elsie was the first to cross with Bluenose a length behind. Official starting time—Elsie, 9:00.0; Bluenose, 9:00.4.

At 9:08 Elsie, still in lead, went to weather of Bluenose. Passing Meagher's 35th lighthouse Elsie had established a lead of 150 yards, and was gradually increasing it. Bluenose seemed to be making the heavier weather. Passing Sandwich Point both schooners were carrying all sail.

Off Herring Cove Bluenose seemed to be gaining. Walters tried for the weather berth but Welch prevented him. At 9:20 Bluenose swung off for the mark and a few minutes later was neck and neck with the American.

Bluenose Catches Up. Bluenose passed the first mark the inner automatic ahead, unofficial time being—Bluenose, 9:22.30; Elsie, 9:30.20. Passing the buoy the Bluenose eased sheets for the broad reach to the southeast automatic 64 miles away on a southeast course. A range of light grey, Bluenose a lead of 150 yards. At 9:42 Elsie, to weather, had drawn up on Bluenose. Both boats had sails wet from rain. At 9:47 the Elsie was right up on Bluenose's weather quarter. At 9:50 there was a choppy sea and the Elsie was holding at twenty-five knots. At 9:51 the boats were running neck and neck with Bluenose to weather. At 10 the boats were less than two miles from second mark, and the Elsie after dropping back 120 yards had again drawn up close on Bluenose.

Canada Around First. At 10:05, with the buoy less than a mile away. Both boats were racing neck and neck. It looked like close quarters for the Bluenose in the globe round the mark for the broad reach of nine miles on the next leg of the course. At this point both schooners doused their foretopmast. A few minutes later they gybed and headed for the mark. The gybe gave the Bluenose the weather position.

At 10:07 both vessels, with mainsails up, were racing for the buoy. The Bluenose rounded the buoy with a lead of 200 yards. Official time at southeast automatic buoy were—Bluenose, 10:10.29; Elsie, 10:11.03. The estimated speed was ten knots. At 10:15 the Bluenose had a lead of 600 yards and both schooners had recast foretopmast and staysails.

At 10:30 Bluenose appeared to have increased her lead slightly. The wind has moderated to about 20 knots. As the schooners reached for the third mark the Bluenose seemed to be heeling over to starboard, while Elsie was heeling over to the puffs.

At 10:35 the racers were three miles from Shut-in-Island buoy, the third mark. The range gave the Bluenose a lead of between 600 and 700 yards. The wind was holding at 20 knots. Lead increased. At 10:45 the Bluenose had a further increased her lead. Each schooner had a man aloft, and the buoy, less than two miles away, was easily visible.

POPULAR BROADWAY LIGHT OPERA STAR IN UNIQUE RECITAL AT IMPERIAL OCT. 31

Miss Leola Lucy, well known soprano and one of Broadway's most popular light opera stars, will be heard in a unique concert at Imperial Theatre on Oct. 31st. Assisting Miss Lucy on this occasion will be Adrien Freiche, violinist, pupil of the great master, Leopold Auer, and Raymond Barry, the brilliant young American pianist.

While still very young, Miss Lucy showed an exceptional talent for singing, which she put to use at her first opportunity. Her musical career began in New York, where she was first engaged as a chorus girl. This was followed by several seasons of hard work in some of the biggest musical successes on the road, during which time she worked and studied and denied herself all the pleasures which are supposed to be a part of the life of a chorus girl.

During her first season on the road, Miss Lucy's ability was quickly recognized, and she was made understudy to Annabelle Whitford, in a prominent musical show. This was her opportunity to get the training she so much desired, and when she returned to New York she found herself a full-fledged singer.

In the coming recital, Miss Lucy will sing in comparison with her voice as recorded by the New Edison, to enable those in the audience to judge whether or not the living voice can be made to live forever. A superb programme has been arranged, a programme that will reveal all the fascinating qualities of the glorious voice of the young soprano. At times her living voice will be heard alone; at times she will sing in unison with her re-created voice; at other times she will sing duets with herself. The audience will try to pick the golden threads of tone apart—to say which one lives for a moment and which one has been made immortal. Can it be done? St. John people will have an opportunity of hearing this question answered.

CUTLERY THAT CUTS

It is not always to be had in every hardware store. Quite a lot of Cutlery is made to look at—and to sell. Cutlery is really a most important branch of our hardware business, and we devote a lot of attention to it. In the matter of Table Knives, Carving Sets, Tool Knives, Pen Knives, Razors, Shears and Scissors we have probably got the largest, as we certainly have the best, stock in this vicinity. All other kinds of hardware at low prices.

THE EVENING TIMES AND STAR, ST. JOHN N. B., SATURDAY, OCTOBER 22, 1921

The Evening Times and Star

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

THE ISSUE DOWN HERE Premier Meighen has made an appeal to the people of the maritime provinces to stand by the tariff—a protective tariff. He declares himself an out-and-out protectionist. There is no doubt, he says, as to where he stands.

Have these promises been fulfilled? In regard to transportation rates, recent history tells the tale, and St. John people are especially well informed on the subject. It was at a meeting of members of the Canadian Manufacturers' Association in the Board of Trade here that the first step was taken to make a vigorous protest against a railway policy which it was said by Conservatives as well as Liberals would put maritime province manufacturers out of business.

Joyous news comes from Fredericton. The Valley Railway and the old Canada Eastern division are to be put in shape to carry export freight to St. John. There is to be a new bridge at Fredericton. But wait—have we not heard something of the sort before? And why nothing done? How much is likely to be done before Dec. 31? And after Dec. 31, if the Meighen government is returned, what will happen? We will go on being fed on promises as before, and the traffic will go to American ports—the ports of that country which Mr. Meighen would fear with such an abhorring terror if the Liberals ever get into power.

At the recent state convention of the Republican party in New York one declaration said: "As we must sell as well as manufacture, no tariff law should be enacted in the unsettled economic conditions of the present that will prevent us from re-establishing the profitable exchange of foodstuffs and commodities by burdening those to whom we must sell to such an extent as to make it impossible for them to sell to us, and therefore to buy from us."

Montreal Gazette: "Rev. W. T. Graham, speaking at Toronto on behalf of the Baptists, voiced a strong objection to the giving of religious instruction in the public schools. He put it that his denomination did not wish to have its views thrust upon the schools, and what its members would not like to do to others, they would not like others to do to them. Dr. Graham's is a logical position. If the spokesman of all faiths took a like stand it would be hard to raise religious issues in politics."

The United States government has taken a decided stand against a railroad tariff. Some of the labor leaders are defiant, and there seems to be a disposition to disregard the government's wishes in the matter. That is a very unwise attitude to assume, for the people at large will stand behind the government.

The liquor inspectors last night discovered a large amount of liquor about to be shipped out of St. John. There is much liquor being consumed in St. John in places the location of which appears to be well known to so many people that action in these cases might reasonably be expected.

THE TORIES WISH TO SAVE THE COUNTRY FROM THE FARMERS—except in constituencies where their support of a farmer candidate might embarrass the Liberals. In such a case the farmers are quite all right from the Tory standpoint.

Canada needs a higher type of statesmanship, and Messrs. Baxter, Jones and Smith of New Brunswick ask that they be sent to Ottawa to see that the goods are delivered.

Col. Canby has resigned as a director of the Railway Board in order to run for parliament. Are not some resignations from the legislature due hereabouts?

CUTTING DOWN TROTTERING MARK

Minute Has Been Taken Off Record. Peter Manning's Performance Marks It—Columbus Said to be First Trotter to Make a Record of 2.80.

When Peter Manning set the record at 1.57 3/4 in Lexington some days ago his performance completed an advance of more than a minute in the record of the trotting horse for one mile since the beginning of authenticated harness racing on measured tracks built for the purpose nearly a hundred years ago, writes Gurney F. Gue.

A Forgotten Record. Lady Suffolk has always been credited with the first record of 2.50 or better under saddle as well as in harness, but the old files of the Spirit of the Times show that the distinction of starting the trotting era rightfully belongs to the bay gelding Columbus that Peter Whalen campaigned before Lady Suffolk had started her first race.

Lady Suffolk Equals Mark. Lady Suffolk and the Morgan trotter Beppo equalled the record of Columbus when Beppo trotted the mile in 2.26 when she was sixteen years old.

DECISIVE STEPS FOR CHURCH UNION

Action of Presbyterians, Methodists and Congregationalists at Toronto Meeting.

Toronto, Oct. 22.—Four decisive steps that pave the way for union of the Presbyterian, Methodist and Congregational churches of Canada, were taken at yesterday's session of a joint union committee of the three bodies.

The convention of the Metropolitan Methodist church, the representatives authorized the drawing up of a bill necessary to the formation of a united church, provided for the widest possible measure of departmental co-operation pending the consummation of organic union, encouraged local union between weak sustaining congregations of the three denominations, and within an hour had assumed the proportion of a bill.

Preparation of the legislation necessary to give effect to the union of the three denominations was placed in the hands of a joint committee of fifteen, composed of six Methodists, six Presbyterians and three Congregationalists. The body was authorized to secure the necessary legal assistance, to report to the union committee and through it to the supreme courts of the three churches.

MANY ENJOY IRISH CONCERT

An Irish concert given in St. Vincent's auditorium last night, was an occasion of rare delight. After the performance, M. E. Agar, president of the Self Termination for Ireland League under whose auspices the concert was held, thanked the performers and the members of the city concert band for their services. The object of the concert was to raise funds for to pay off the debt of the New Brunswick branch.

VENEZUELOS AND BRIDE IN NEW YORK

New York, Oct. 22.—Former Premier Venizelos of Greece arrived yesterday on the Aquitania for a honeymoon tour of the U. S. with his young bride, who was Miss Helena Schilias, daughter of a Greek business man.

HALT BUSINESS FOR TWO MINUTES, ARMISTICE DAY

Ottawa, Oct. 22.—(Canadian Press.)—His Excellency the governor-general has received a despatch from the secretary of state for the colonies proposing that on November 11, Armistice Day, there should be a complete suspension of business as far as possible, beginning at eleven a. m., and continuing for two minutes. The Canadian government has adopted this suggestion, and it is requested that the rite be observed throughout the dominion.

BLIZZARD IN WEST

The Storm Means Hold-up in Farm Work for Several Days.

Regina, Oct. 22.—Following an all-night rain, a heavy snow storm started in the Regina district a little before noon yesterday, and within an hour had assumed the proportion of a blizzard.

The snow was drifted by a high wind out of the north. It is estimated that eighty-five per cent. of the threshing operations in Saskatchewan have been completed. Yesterday's storm will put a stop to farm work for several days.

Calgary, Oct. 22.—The amount of hail during the last summer proved the largest in the history of Alberta. Approximately the damage reported was eleven per cent. of the total crop, or almost double what it has been in any year since 1918.

BIG LIQUOR SEIZURE

A box car which was being loaded on Water street, near Pettungill's wharf was raided last night about eight o'clock by Chief Inspector Hawthorne and local inspectors. They found the car apparently filled with bags. Further investigation of the ends of the car revealed cases and barrels filled with liquor done up in bags. The men worked until midnight transferring the goods to places of safety where guards were placed over them. Several cases had been tampered with. The seizure was the largest ever made in this province, as there were forty-five cases of Five Star Haig and Haig and eight forty gallon casks of Bourbon whiskey, valued at more than \$10,000. There was no address of either consignee or shipper.

R. G. Graham, chief inspector of taxation; N. P. McLeod, inspector of taxation at St. John; T. W. Fuller, assistant chief architect of the department of post offices and H. W. Woods, district superintendent of post offices, held a consultation yesterday in regard to more commodious quarters for the provincial taxation branch. The result was that the branch will secure larger quarters in the post office building. The amount of work that has poured in on the taxation department, made their present quarters in the Dominion Savings Bank wholly unsuitable.

THE EVENING TIMES AND STAR, ST. JOHN N. S., SATURDAY, OCTOBER 22, 1921

Excellent Report and Suggestions on the Work in St. John by District Commissioner G. L. Short—News of the Local Troops.

An outstanding feature of a meeting of the St. John district council of the Boy Scouts Association this week was the report read by G. L. Short, district commissioner. It was as follows:

Mr. President and Members of the Council—

In commencing my report I might point out that I was appointed district commissioner in October of last year and upon investigation I decided that the Boy Scout movement was not well enough known in St. John. I accordingly asked how many Scouts we had in this district and I was told there were five hundred (500). I therefore decided that it would be in the best interests of the movement to put on a large display of some kind and at a meeting, at which each Troop in town was represented, the roll was called and the Troops were asked to state how many Scouts they could depend on for a display. To my surprise the total was only one hundred and twenty-five (125), and I therefore thought that it was imperative that something should be done to inject new life in the Movement. As this meeting was unanimously in favor of a display, it was decided to go ahead with our plans with the following objects in view:

First—To see what the troops could do.

Second—To give the troops something definite to work on.

Third—Advertisement of the movement.

Fourth—Money.

The question of funds was placed fourth, as at that time we were not in any great need of financial assistance and we wished to be able to use all our energies in helping the various Troops and in bringing the display before the public. I think we may say that the Display was an undoubted success. The majority of the troops took great pains with their work and performed in a very creditable manner. Several Troops, however, did not come up to expectations and we immediately took steps to help them along. About sixteen hundred people attended, and after paying all accounts, we had a small balance on the right side. I therefore think that we can claim to have reached all our objectives, particularly as regards bringing the Movement before the public.

I would like to express my thanks for the assistance of Mr. W. V. B. Hiddell who only arrived in town a few days before the display, but whose help in that short time, and on the night of the Display itself, was invaluable.

Our next publicity move was to stage a relay race in conjunction with the Rothsay troops. It was at first decided to send two messages, one from St. John and one from Rothsay, by means of two lines of boys stationed each quarter of a mile, but it was afterwards thought that this distance was too great and accordingly we arranged for one line of boys each to run two hundred and twenty yards. Messages were started simultaneously from Rothsay and St. John and the best time made was fifty-four minutes and thirty seconds. It is hoped to make this an annual event and I think that next year we should have no trouble cutting down the time considerably.

We next arranged to take four boys from each St. John Troop for a day's outing in the country. Accordingly the party was taken to Riverside by train and they told that they were to try and reach the Rothsay Consolidated School by going across country and endeavor

organization rules of the Boy Scouts' Association. I found that there was a great dissimilarity in the methods used by scoutmasters, some being governed by the Canadian handbook and others by "Scouting for Boys" (English handbook), and also that there was a tendency to use individual methods.

I also think that weightier emphasis should be given the Good Turn. To my mind this is the mainspring of the whole movement, for, I am sure, if the boys of a troop are known to do their daily good turn there would be no need to examine this troop for efficiency in other departments, as this could be taken for granted. I do not think it is sufficiently recognized that we are a "public service" body, as I am sorry to say that I have found selfishness in several places when the troops were asked to perform some act of public service. I strongly recommend that a definite programme for each meeting be drawn up by the scoutmaster at least one week in advance, as I consider the absence of such a programme fatal. I would also draw attention to a fact that is emphasized time after time by the chief scout, Sir Robert Baden-Powell, and that is that the patrol, not the troop, is the training unit, and therefore that scoutmasters should endeavor to develop inter-patrol competition. This can be done by specialized patrols and in many other ways. I do not think that sufficient attention is given to discipline. A strict but not harsh discipline should be laid down at the beginning, and be carefully enforced. This movement has for one of its purposes the building up of the character of the boy, but if the boy proves absolutely incorrigible and will not live up to the spirit and letter of the scout law, he should be asked to leave the troop.

I would urge upon scoutmasters to make the utmost use of the newly-formed troop committees. This committee stands as a sort of god-father to the troop and should assist the scoutmaster by helping to instruct the boys or obtaining instructors and in many other ways too numerous to mention. As we have now nineteen troops and twelve packs of Wolf Cubs in this district I would recommend that two deputy commissioners be appointed, and beg to nominate Major J. T. McGowan and Mr. Grover Martin, the former to help by helping to instruct the Scout Troops and the latter of Wolf Cub packs. I would strongly recommend that scoutmasters subscribe to the Headquarters Gazette, issued in London, England. This contains a monthly letter from the chief scout, Sir Robert Baden-Powell, and also letters from scoutmasters and other officials all over England, which should be most helpful to our scoutmasters here.

In conclusion, I would like to record my sincere thanks to our retiring president, Mr. A. C. Skelton, whose assistance at all times has been a tower of strength and without whose help we should have had the utmost difficulty in carrying on our work in St. John.

G. L. SHORT,
District Commissioner.

tion as this is a very important feature of our Scout work.

3rd St. John (St. Andrew's) Troop.

This troop was fortunate enough to secure J. W. Bengough, cartoonist, for Monday evening. Mr. Bengough is the best known cartoonist and entertainer in Canada and a good evening's entertainment is ensured to all who attend.

6th St. John (Edith Ave.) Troop.

The scouts of the sixth troop were entertained on last Monday evening at the home of Mr. and Mrs. Franklin. Games were enjoyed by all and Supporter's Badges were presented to Mr. Franklin and Mr. Elliott in recognition of the good work they have been doing in the interests of this troop. Refreshments were served with the assistance of Miss Edna Franklin.

10th St. John (Little River) Troop.

The regular meeting of this troop was held on Friday evening in their hall at Midwood at which meeting the ladies of the Community Club served refreshments. The East St. John boys paid a visit to the troop and addresses were delivered by the Rev. Mr. Lawson and the Scoutmaster of the East St. John troop.

17th St. John (Trinity) Troop.

A good attendance was recorded at the weekly meeting of this troop. An important feature of the meeting was the promotion of Leslie Leck and Roland Knaut to the rank of Patrol Leaders, and

Griffith Bishop and Watson De Mille as seconds. Last Saturday afternoon the members of the troop under Troop Leader R. Whelpley, spent an enjoyable afternoon in Rockwood Park.

1st St. John (Trinity) Pack.

On Wednesday evening this pack held a very enthusiastic meeting; a good attendance was recorded, and all the Cubs are making good progress with their star work.

GAVE DEMONSTRATION OF NEW THEFT-PROOF AUTOMOBILE DEVICE (Montreal Herald.)

A demonstration of a new theft-proof automobile device, invented by a French-Canadian, was given before Chiefs Belanger and Lorrain, this morning. The instrument is an electrical affair, which automatically locks the starter and blocks the gasoline intake. The lock and key arrangement, which has always been somewhat of a worry to motorists, and is usually done away with, and is replaced by a combination knob, similar to a door lock, on the steering wheel. When the motorist wishes to start the car, he turns the knob by twisting the knob.

The machine by having the lock connected with the klaxon, and when an effort is made to start the car, the klaxon immediately begins to give a warning. The instrument was attached to a car, and went through all the tests without a hitch this morning.

TIME FOR A CHANGE

(Moncton Transcript.)
In spite of the assurances of Premier Meighen that the present tariff policy is all right, and that the country is making splendid progress under it, even some of his strongest supporters are declaring that things are not all right. Some of them view with manifest alarm the exodus of people to the United States which, according to American records, is now twice as large as it was during the last year of the Laurier regime. Happily, for this information it is unnecessary to rely on opponents of the Government; one of its journalistic supporters, the Toronto Telegram, having gone into the subject very thoroughly, and brought forth a statement of facts that is sure to receive very wide attention, and open the eyes of the public generally. The Telegram figures make a grand total of 815,429 Canadians who have emigrated from Canada to the United States during the past decade. Manifestly it is time for a change in the general trade policy of the Government is concerned. While Premier Meighen is going up and into a state of frenzy over the home market, the very people who should constitute a rapidly growing market at home are slipping out of the country at a rate of \$200 a month. It is time that the public woke up over this matter. Certainly it is, and the public is awakening. If a young nation, such as Canada, with such rich natural resources, and so much vacant land to offer settlers, cannot retain even the population that comes to it, what hope is there for it in an industrial and financial sense? The people have patiently borne the heavy debt and resulting taxes which are the legacy of the war, and have done so confidently because they have thought that it was only a matter of time until the rapid growth of population would lighten the burden very appreciably. Now they find, from sources that cannot be questioned, that instead of the population increasing, it is, in a comparative sense, decreasing. If people are to flock over to the United States at the rate of 100,000 a year, which is the rate at which they are now leaving, what chance is there for a lightening of burdens? Very little.

MAY LIMIT SUGAR CROP

Cuban Authorities Consider Plans to Solve Crisis in the Industry.

Havana, Cuba, Oct. 19.—Sale of Cuba's sugar surplus as quickly as possible on the best available terms and a reduction in the 1921-22 crop were discussed today at a conference with President Zayas by the Federal Sugar Finance Commission and representatives of the Cuban sugar industry. It was announced that the President would take up the various phases of the situation with all parties to formulate definite measures for the quick sale of surplus and the limitation of coming crops. Government officials had nothing to say in relation to press reports from New York published today that American banking interests had announced there would be months of delay in floating a Cuban loan.

THIEF MAKES BIG MISTAKE
Detroit Football Players Convince Him Fighting Doesn't Pay.

Detroit, Oct. 22.—Charles Leriche, a "second story worker," is telling as much of the world as he can see through two badly manhandled eyes that he made the mistake of his life when, the police charge, he broke into the Gamma Beta Fraternity house, where the most of the University football players spend their nights.

Tom Kennedy, a substitute linesman who is barred from the regular squad because he weighs 190 pounds, found Leriche in a storeroom. Leriche threatened to shoot, but Tom switched on a light, grabbed the gun, and yelled for the rest of the football men.

Then came Leriche's big mistake. He offered to fight anybody in the house. Tom Kennedy, the 200-pound centre, and a half dozen 180 pounders offered themselves, but it was finally left to the Jerry Kennedy to represent the squad.

A collection was made of Leriche by Patrolman Lawler.

"Better in police station than in that Boston College lineup next Saturday," remarked Leriche.

FLOOD COUNTRY WITH COUNTERFEIT BILLS
Bootleggers and Liquor Runners Are Believed Allied.

Seattle, Wash., Oct. 22.—Liquor runners, operating on a large scale, and bootleggers, in league with exceedingly clever counterfeiters, are flooding the northwest, especially Seattle, Tacoma and Spokane, with thousands of dollars in bogus \$10 federal reserve notes, it was made known through Captain W. B. Jarrett of the United States secret service. Money transactions in illicit deals for large quantities of liquor make the passing of the counterfeit notes easy, Captain Jarrett said, and virtually impossible to trace.

Merchants are often the ultimate losers, and not the bootleggers and liquor runners, the secret service finds. The money is passed along to stores by the persons who sell the liquor. The losses are said to be heavier to Canadian merchants and banks than to persons on this side of the international boundary.

Two men arrested at Ferris, B. C., trying to purchase liquor for the Seattle trade, it is alleged, had 160 of the bogus ten dollar notes.

TWO MINUTES OF SILENCE
Dead Will Be Remembered on Armistice Day.

Ottawa, Oct. 22.—In compliance with the request of the British Colonial Office, the Canadian Government will shortly issue a proclamation calling upon all Canadians to observe the two minutes of silence from 11 o'clock in the forenoon until two minutes after, on Friday, November 11, the anniversary of the actual signing of the armistice. Special commemoration ceremonies will be held on Monday, November 7, as provided by the act passed at the last session of Parliament. The two minutes of silence will be observed on November 11 in order to make this mark of respect to those who fell, and in memory of the ending of the war, uniform throughout the Empire. As usual all movement will cease, for the period, including ships and trains. The ceremonies on the legal holiday, November 7, will be under the supervision of local patriotic and soldier organizations.

DR. CHASE
Has Taught the People How to Keep Well

The Dr. Chase Plan of Health

Confidence in Dr. Chase

Founded on His Integrity of Character and the Unusual Merits of His Medicines.

If there was ever a physician who commanded the confidence of his patients that physician was DR. CHASE.

No one could meet him and converse with him without realizing that he was a man of skill, who was in love with his profession and only anxious to relieve the suffering and disease of his fellow men.

You cannot read the famous Dr. Chase's Receipt Book without appreciating the unflinching zeal of its author in searching out the best receipts and prescriptions which were known to the medical profession.

When his attention was turned to selecting medicines to be placed on the market for public sale it was with whole-souled effort that he tested out the prescriptions which he considered most suitable for this purpose.

And so it is that the integrity of character which marked the efforts of DR. CHASE are indelibly stamped on every medicine which bears his portrait and signature, and people have learned to have the utmost confidence in them because of the splendid results which they have accomplished.

Every Man His Own Physician

But the doctor soon got the idea that people should know how to look after their own common ills, and set about in a large way to supply them with the necessary information.

By means of his Receipt Book, the circulation of which has since run into millions, and his well-known Almanac and booklets of many kinds, Dr. Chase has spread throughout the civilized world the gospel of "Every Man His Own Physician."

This plan enabled the doctor to devote his attention to more serious cases, and he soon became known far and wide as a specialist in the treatment of diseases of the kidneys, the liver, the heart and other vital organs of the human system.

A paper entitled "The Need of Greater Missionary Effort" was read by the secretary. Other members entered into the discussion and Rev. C. A. Stewart, pastor of the church, addressed the meeting and congratulated the society on the excellent work it had made last year and expressed the hope that next year would be even more successful. The members of St. Philip's church had taken a great interest in missionary work and elevated their country to a high place among the African Episcopal churches of the maritime provinces.

TRAFFIC CASES

Royden Thomson, charged with speeding and not giving the proper signals at the corner of Main street and Paradise row, said he was not in the vicinity at the time. The case was dismissed.

O. W. Wood was charged with operating car No. 3823 without displaying the proper license. Policeman McNamee testified that the accused owned the car and that his chauffeur had been notified that the sign should be changed. He said that it had been in operation as a jitney and had had a taxi license.

Look Harris, inspector, said that the accused had been given a taxi license. The mayor had refused at the time to give him a jitney license but later he (Harris) told him to go to his office and see about one. He had warned the accused against using his car as a jitney but had seen a jitney sign on it. The case was postponed till Wednesday at 10.30.

Charles Bishara, charged with driving truck No. X-274 without license, pleaded not guilty. Inspector Harris testified that he had warned Bishara two months before. He was allowed to go on a promise to get his license today.

Eric Thomson was charged with exceeding the speed limit in Prince Edward street on the 20th instant. Sergeant McLeese said that he saw him in car No. 14297 and that he was driving at about eighteen or twenty miles an hour. The case was postponed till Monday.

THE MAYOR AND HYDRO QUESTION

Hopes That Local Organizations Will Discuss Distribution Matter and Notify Him of Decision.

Discussing the matter of hydro-electric distribution with a member of the Times staff this morning, Mayor Schofield said he hoped that the citizens generally had studied the report of the general meeting on the matter, as published in the newspapers on Thursday, October 20, and that they might discuss the issue thoroughly.

"It seems to be absolutely certain," he said, "for every engineer is of the opinion that the power is there, and it is certain that the government is bringing it through and that the city should get some benefit from it."

The main question he said was how the people should obtain this benefit. There were three ways open for the distribution and one of these would have to be adopted. They were:

- (1)—By the city going into the business and distributing the power, which he said would be a very costly plan.
- (2)—The distribution of the power through the N. B. Power Company's distribution system, the company agreeing to pass on every saving that is visible.
- (3)—By the city buying out the power company, as suggested at the meeting on Thursday.

The situation was a serious one, so the mayor said, and he hoped where it was of such vital importance that every organization would take it up and discuss it and he expressed the hope that the decisions would be communicated to him.

SEND IT TO THE CAPITAL TONIGHT

Valuable Liquor Which was Seized in St. John Last Night.

Under the eye of Chief Inspector Hawthorne, the forty-five cases of Scotch whiskey and eight cases of Bourbon whiskey seized here last night by prohibition inspectors, will go forward to the New Brunswick Board of Liqueur Vendons at Fredericton tonight. The chief inspector said this morning that the seizure while not being the largest quantity ever taken in New Brunswick was in his opinion the most valuable, as he was certain that it was all imported goods. The value of the lot was at least \$10,000.

It was said this morning that while the inspectors were at work removing the seized liquor from the car in which it was located, a young lady was observed at the vicinity two or three times. One of the inspectors endeavored to get close enough to her to identify her but she managed to elude him and was not seen afterwards. The ownership of the consignment has not been definitely established.

PROSECUTING FOR VIOLATION OF FIRE AND GAME LAWS

Fredericton, N. B., Oct. 22—Lt.-Col. H. C. Sparling of St. John, arrived here on Friday night to make preparations for the arrival of Lieut. General Sir Henry Burdall, K. C. B., inspector general of Canada, who will inspect the officers' training corps of the U. N. B. and other units in this city.

The department of lands and mines is taking steps toward the erection of more lookout towers for fire protection of crown lands and other timber areas. An announcement will be made within the next week.

The department has received a report from cases tried at Norton on the 19th, for illegal setting of fires which damaged woodlands. Two were dismissed and seven convictions were obtained. In one case, a fine of \$50 was imposed and in six fines of \$10 each.

The sentences were suspended on condition of no repetition of the offence.

Several prosecutions for violation of the game act were carried on in various parts of the province this week under direction of Chief Game Warden G. F. Blundell. Other cases are pending. Game wardens and other officials have been very active this season in prosecuting.

DINGLEY OFF ROUTE OCT. 29

Alfred C. Currie, local manager of the Eastern Steamship Company, arrived home today from Boston where he was on a business trip in connection with the strike in the States all of the company's steamers will be placed on the Boston-New York service. Mr. Currie said that if possible a small vessel would be secured this year to continue the service from this port to Boston, but next year in all probability the regular service would be continued all the year round.

Juvenile Adventurers Undertake Long Hike

Three Boys and Girl, Equipped With 10 Cents and 22 Calibre Pistol, Taken to Ottawa Detention Home.

(Ottawa Journal.) Undismayed by the terrors of the night or by the long journey, four children, not one of them more than 15 years old, last Saturday night commenced to walk to Ottawa from Arnprior.

At Sittsville the constable discovered that the little band of intrepid walkers had moved on to Bell's Corners, ten miles nearer Ottawa, reaching there early yesterday morning.

In the party is one girl, Yvonne Leconte, and three boys, one a brother of the girl, Gerald Leconte, aged 11; Antoine Deschene, aged 15, all of Arnprior, and Thomas Middleton, 14 years old, of Ottawa.

During their long walk the party stopped at a number of villages and towns between Arnprior and Ottawa. All that time they had scarcely any sleep, and managed to get their food as best they could. Afraid that they would all be packed home again if discovered, they were rather chary about giving information about themselves and rather shunned the daylight.

Keeping guard over them was little Gerald, the 11-year-old hero. Armed with a cheap 22 calibre pistol, he marched in the vanguard ready to protect the honor of the group to the last ditch.

Middleton, who is declared to live in Ottawa, and who worked in Arnprior, is said to have induced the group to undertake the venture. He explained that work could be obtained in the city, and young Miss Leconte readily fell in with these plans. Her mother did not wish her to walk. The others were attracted by the spirit of adventure.

Steadied the Boys.

Seen at the Detention Home last night the children looked none the worse for their adventure. Yvonne Leconte seemed to be a bright, intelligent little person. She was the most courageous of the party and, when the others wished her to turn back at different times, she remained steadfast.

She wished to come to Ottawa because she believed she could find work there so as to help her mother. Her father was dead and the only support of the family of seven was her brother, Eugene, a lad of 17, who worked in the bush.

With true feminine instinct she provided for the group which-travelled with very little impediments but still with sufficient to keep them comfortable on the journey. Included in two kits, one a real army one, and the other one impregnated from a potato bag, were four loaves of bread, two pounds of meat, two pounds of butter, half a pound of tea, a cup, two table knives, two spoons of thread, a needle, a flashlight, three sweaters, and some extra apparel for the entire party.

In the evening the quartette usually went under a tree, and gathering fuel, lit a fire around which they sat and sipped some steaming tea.

Not Afraid of The Dark.

"Were you not afraid of the darkness?" was the query. "Oh, no. It did not bother us. We usually clambered up on a fence and sat there the whole night through. One of us was always awake while the others nodded. Early in the morning about 6:30 o'clock we were up betimes and away on another leg of the journey."

When the trip was commenced the party had between them not inconsiderable fortune of 35 cents. About 25 cents of this was spent in buying ginger ale and candy in stores along the way, while 10 cents still remained in the treasury of the organization when they reached Ottawa.

An exciting moment during the walk

was the capture of a squirrel. Seven shots were fired before it was bagged. The tail was later exchanged in true Tom Sawyer style for a rusty pen-knife. An entire box of cartridges was fired at different targets.

Young Middleton was the one most concerned of the lot. He was afraid she was worrying about him. She was employed as a cook with one of the construction gangs employed in building "good Roads" as the children called them. He wanted to help her, and that was the reason he decided to come to the city. At the same time he regretted his step now since he was afraid it would cause her a great deal of worry.

The other adventurers were not much concerned—though they had had a good start for home again.

Mr. John Keane, city charity officer, visited the children yesterday and is

writing to all their parents before taking action. In the case of the young girl there will be no difficulty at all placing her, since she is a bright child and work for her may be provided in the home of a doctor here.

RED CROSS ACTIVITIES

A meeting of the Red Cross Society was held Friday afternoon in the depot on Prince William street with the president, R. T. Hayes, in the chair. The treasurer report by C. B. Allen showed total receipts for September to be \$25,071.14 and expenditures \$786.30, leaving a balance of \$24,284.84. Reports were read from branches at Baie du Vin and Riverside, Albert Co. It was decided to lead a wheel chair to the General Public Hospital. An epidemic of typhoid in Chatham was reported. Miss Mural, of Wilson's Beach, wrote of having organized classes in home nursing and of a Red Cross enrollment campaign being carried on there. Miss Farnib of Minto and Miss Armstrong of Baie du Vin wrote to tell of their work. M. Marven of the Home department of the Soldiers' Settlement Board wrote to thank the society for the use of their rest room at Chatham. The British Empire War Relief committee wrote telling of the distribution of contribution funds. It was decided to send Miss Helen Jarvis, the secretary to a conference of the executive at Toronto on November 14. The head office wrote that the meeting of the central council would not be held in St. John. The programme for the annual meeting of the local society was discussed and Mrs. Harold Lawrence and Miss Jarvis were appointed a committee to look after it. Mrs. W. R. MacMillan gave a report of the Jacquet River branch. Mr. Hayes reported for the Victorian order of nurses. The secretary, Miss Jarvis read a report of the society's activities for the month telling of the formation of several new branches and of gifts from several people. The membership enrollment sent to the head office contained more than 10,000 names.

TRIBLE DEED BY BOY OF 3

Ties Little Girl to Grindstone and Turns Handle Until She is Dead.

Providence, R. I., Oct. 22—Mary Spilla, three years old, was found strangled to death on a grindstone in the yard opposite her home on Elm street, Valley Falls.

Less than a half hour before she had been playing with John Ducko, who is ten months older. Johnny, it is alleged, led a cord around his playmate's neck and, after fastening it to the shaft of the grindstone, turned its handle until Mary was dead.

"I don't like her, any more," he said, it

is asserted, when the deed was done. Mary's brother, Benny, took his sister's hat home when he stepped in the yard of John Zajac and saw her lying there. Eddie Spilla, ten years old, went to the scene a few minutes later to see little Mary being taken from the grindstone by Mr. Zajac, who gave the child's body to Mrs. Victoria Wojac, another neighbor of the Spilla family.

Men and women of the neighborhood went to the Spilla home when they heard of the tragedy and the house was filled with the cries of hysterical mothers. Eight other children, whose ages ranged from 1 1/2 to nineteen years, are in the Spilla family.

MESSAGE OF DEATH

Declaring it was a message of death when a humming bird lit on her head, Mrs. Polly Ann Walker, of Hazard, Ky., friends tried to dislodge her mind of the idea and took her away for a visit. Suddenly she decided to return to her home, was taken ill on the way, and died within a week after she had received the so-called "message."

The Light for the Dining-Room

—just naturally demands the use of LACO NITRO Lamps. A well lighted dining table is an essential factor in your tasteful decorations—enhancing the beauty of the table effects and playing an important part towards the pleasure of the repast and success of your entertaining.

LACO NITRO Lamps, either in your central fixtures or in enclosed or shaded portables, provide the most effective lighting for the Dining table, as their pure white light strengthens the whiteness of your table linen and the beauty of your silver, while at the same time bringing out the natural color of your china, and even imparting an enticing attraction to your viands.

An electric bulb, correctly made, is literally a marvel of mechanical ingenuity. Examine a LACO NITRO closely and you will wonder how it can be sold for the price it costs.

Laco Nitro Lamps are made in Canada. Factory and Head Office—Montreal. They are sold by best Electrical and Hardware Dealers throughout the Dominion.

"Pedlars" Calling on Householders Ask to be Paid by Check.

(Toronto Mail and Empire)

If a man comes to your door purporting to be a pedlar and attempts to sell you an article and suggests that you pay him with a check, be sure you do not comply with his suggestion. Recently reports have been received of alleged pedlars working from house to house, endeavoring to sell household articles on the check-payment system. An outstanding case of this nature was reported yesterday when one of these itinerant salesmen attempted to sell an article and asked that he be paid the "five-cents purchase by check. Owing to the present prevalence of check raising and forged checks, householders cannot be too particular to whom they give out their checks.

One bank official stated that hardly a day goes by without a report being received from one of the branches of some irregular check being presented for payment. It is only the unsleeping watchfulness of the officials which prevents many of these checks from being honored.

Evidence has been secured which would tend to connect a well-known American check crook with the recent raised checks which was passed on the Standard Bank, the forger raising the check from \$15 to \$1,500, after he had "marked" with the bank's acceptance stamp for the smaller amount. The handwriting of the American crook was almost identical with that of the Standard Bank check. He is also wanted in a Western United States city for a crime of a similar nature. The loss sustained through the passing of the raised check in Toronto was borne by a company with which the bank was under bond.

DANCE TICKETS ARE HANDED OUT AFTER EACH SUNDAY SERVICE

Nottingham, Oct. 22—It is not often a church provides a dancing academy for its congregation. One has been provided, however, for the worshippers by St. Catherine's church, Nottingham, and dance tickets will be distributed as the congregation leaves the church every Sunday morning.

Dancers must undertake to attend church on Sunday mornings. The rules stuck on the church door state that those who attend will have to have been at St. Catherine's for worship on the previous Sunday morning. A ticket will be given them each Sunday after service. They will be expected to attend service in the church after the class on Saturdays.

The vicar says it is not a missionary move. It is not to bribe or attract people to church or to provide cheap amusement for all and sundry. "It is meant for those who wish to dance in wholesome surroundings. We therefore have to see they are genuinely our own people. We have to apply a strict test."

Can France Disarm?

"France must remain armed as long as her security has not been assured," announces Premier Briand, who is expected to head the French delegation to the arms parley. "No country more than ours desires to limit military burdens," he declares; but he goes on to make it no less emphatically clear that any reduction of the size of the French army must depend upon the elimination of the German menace—in other words, an Allied understanding for the protection of France. Says the Paris Temps, expressing a point of view echoed in dozen of its contemporaries: "The security of France means the peace of Europe. It is a basic condition of economic and political solidarity in the world."

President Harding's call to the Washington Conference says that the question of naval armament will "naturally have first place," although "it has been thought best not to exclude questions pertaining to other armaments." How naval disarmament can end war on land seems to puzzle the French, who recall that Belgium and France were not invaded by a navy in 1914, and who at this moment see the jealous nations of Europe facing each other within easy marching distance. "France has not the slightest intention of abandoning what she considers her just right to security," says Paul Scott Mower in October Current Opinion. Unless France can be assured of the moral support of the Allies, "the French delegates will not discuss the reduction of land armament," declares the New York Tribune.

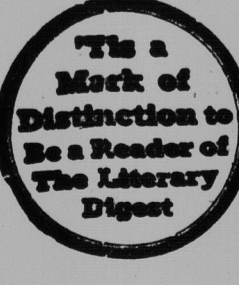

The uncompromising attitude of France in this instance finds considerable support among American editors. But while we find the general attitude of the American press toward France's position to be one of sympathy, in many instances this sympathy is mingled with misgiving. If Premier Briand adheres to his stand, avers the New York World, "then, so far at least as land armaments are concerned, the Washington Conference fails from the start." Equally pessimistic, but less sympathetic, is Mr. Hearst's New York American, which proclaims that "it may confidently be taken for granted that neither Japan, England nor France has the remotest intention of abandoning imperialism or militarism at the Washington Conference," and insists that "the United States should not make any sort of alliance with any other Power or Powers." There is "not a chance" of the United States entering into any such alliance, declares the Des Moines Register.

SAYS PAPERS TO BE SMALLER

A Look Into Future at Press Congress of World—The A. B. C.

Honolulu, Oct. 20.—Herbert L. Bridgman, business manager of the Brooklyn Standard Union, told the Press Congress of the World he believed the newspaper of tomorrow would be smaller than those of the present. On that point he asked:

"Why, in blind competition to print everything which everybody wants, print so much that nobody wants? He expressed the opinion that the size of the newspaper would resolve itself largely into a commercial problem, saying: 'If the space can be sold for more than it costs it will be. Otherwise curtailment will follow, depending upon price of newsprint, labor and other materials of production.'

"The retail selling price will doubtless follow the same laws, but both size and price are the body, not the soul of the newspaper of tomorrow.

"Whatever may happen, it is my belief that if they were smaller they would be better, though this thing must not be pressed to the vanishing point. But how many features, supplements, insets, journals and other appendages could we discard with resignation and advantage. Considering other phases of the newspaper of tomorrow, he said: 'Nothing is more certain than if the rapid and amateur circulation statement law, enacted in spite of ignorance, were repealed every self-respecting publisher would rejoice, not so much on his own account, but because a gratuitous insult on the whole profession had been withdrawn and a standing premium on falsehood and official incompetence abated. 'If the government really cared to vindicate its own good name and faith and would check postage payments, with sworn statements of circulation, the utter absurdity of the whole disgraceful situation would be demonstrated.

"Newspapers have firmly established their standards and code of honor and no more effective testimony of the fallacy and feebleness of the government in business can be found than the difference in value between a postal affidavit and an A. B. C. certificate, a badge of honor which every newspaper is proud to wear."

Mr. Bridgman declared that in advertising the future was bright, speaking not of quantity but of quality. "The newspapers of their own accord and by common consent, long before laggard legislators awake to the situation, cleaned house and cleaned it thoroughly, and if the business office can secure response and co-operation from the editorial rooms the job is finally and effectively completed. As to the advertising rates, those of the newspapers of tomorrow will be higher than those of today and they ought to be. Not only will the service be more valuable in respect to quantity but its quality and prestige will be sensibly advanced."

In this connection Mr. Bridgman suggested that the newspaper establish a unit of value.

"Hates," Mr. Bridgman affirmed, "will be maintained. Here there is no middle ground. Integrity of rates, all things to all men, is to a newspaper as credit to the banker, virtue to a woman and the newspaper which trifles with it is doomed."

Downing prophetic power, he said

LIGHT-SIX TOURING CAR NOW \$1725

This is a Studebaker Year

Study the LIGHT-SIX feature by feature—then consider the new low price!

THIS remarkable light-weight six-cylinder car combines all that we believe the critical owner expects in an automobile. It was built up to that expectation. And because it is manufactured complete in the Studebaker plant with middlemen's profits eliminated—Studebaker is able to offer it today at the new low price.

At all driving speeds the LIGHT-SIX is remarkably free from vibration. Its powerful 40-horsepower motor is an

exclusive Studebaker design—built complete in Studebaker factories. The flexibility—the power—and the economy (21 to 26 miles to the gallon) of the LIGHT-SIX motor are qualities not to be found in the average six-cylinder car.

You can have the advantage of this motor's wonderful gasoline economy and the satisfaction of its smoothness of operation only by owning a Studebaker LIGHT-SIX.

No motor car ever before offered to the public has represented so much in automobile values as the LIGHT-SIX at the new price. SEE this remarkable car. DRIVE in it. KNOW why Studebaker refers to it as "The World's Greatest Light-weight Automobile."

"That the newspaper of tomorrow will be the great educator of the people of the whole world seems inevitable and yet we may go too far in organization and impersonalism.

"The newspaper of the future will thrive and prosper just as it serves the people, is faithful to them and its own convictions of duty. The absolute, continuous certainty that this is so, that not only prosperity but life depends on it is the heritage which the newspapers of the present hands on to that of the future."

the American Art Galleries, the returns for the first 138 pieces were \$7,055.

A circular Chinese porcelain jardiniere sold to Henry Symons & Co. for \$125; E. Z. Noorian paid \$300 for two, 2-foot 5-inch porphyry vases, mounted in culvre dore Louis XVI style. To Symons went a Dresden porcelain clock mounted in culvre dore, Louis Philippe period, for \$220.

A pair of bronze candlesticks, style of Gouthiers, 5 feet, 4 inches high, sold to Sam Sucker for \$420; a sculptured green marble group, 4 feet, 8 inches high, "Rape of the Sabinas" after Jean de Bologne, sold to J. Bentley for \$380; two beautiful sculptured statuary marble torches, 7 feet high, Italian renaissance style, were bought by Bentley for \$300, and Disalvo Bros. paid \$165 for a statuary marble centre table of the same style.

The sale will be continued this afternoon.

GRAY-DORT

Unusual Distinctiveness of Design
at a Remarkable Price

Wm. Pirie, Son & Co.
42 Sydney Street
St. John, N. B.

There can be no question of the unusual beauty of the new Gray-Dort closed models. Their reception at the Canadian National Exhibition proved that.

At their price, they represent the very highest investment value.

They offer health-protection and comfort for the whole year. They operate at the meagre minimum

cost, and their initial cost is so greater than slightly larger open models costing more to run and offering no such comforts.

Their acknowledged beauty and ease of handling are particularly important to women motorists.

This is Gray-Dort Closed Car Week. We cordially invite you to view these cars at our show-rooms.

C. A. S. C. took all four points from the R. C. E. C. The winners totaled 1188 and the losers 1071.

RING

Mike McTigue Wins. Mike McTigue of New York, champion middleweight of Canada, scored a technical knockout over Buck Crouse in the sixth round of a bout held in Montreal last night. After being outpointed for three rounds, McTigue came back strong and knocked Crouse down four times in the sixth. Crouse was dragged to his corner and when partially re-

lived rushed at McTigue and had to be separated by officials and spectators. In the semi-final Roddy McDonald of Gloucester Bay knocked out Spike Sullivan of Montreal.

St. John Boxers. A sporting event which is creating considerable interest in Fort Fairfield will be staged under the management of Walter Lovely, Post No. 27 of the American Legion, on November 3, when "Young" Pooler and Brewer will meet Ira Putnam of the American Legion. Both are reputed to be exceptionally clever and are said to be in the pink of condition for the boxing bout. It is also planned to have Ted Merritt of St. John meet Stanley Zelman in the semi-final.

Rocky Kansas Wins. Recently Ted Merritt met Mike Haddock of Millinocket and the bout was said to be a thriller. Haddock was clever, but his age was against him, and Merritt disposed of him in the second round. The main bout between Ira Putnam and Jack Ryan of St. John was a decided Ryan was reported in poor condition, and in the second round his seconds threw up the sponge to save him from further punishment.

Rotseyas Defeats Fredericton. Rotseyas Collegiate football team defeated Fredericton High School team at Rotseyas yesterday by a score of 13 to 8. At the end of the first half both teams were tie 5-5, but in the second the Fredericton's defense crumbled and Rotseyas scored two tries and converted one.

St. John Boy Making Good. Many friends will be interested to learn that "Bert" Wilkes of this city, who is a student at Toronto Varsity, studying dentistry, has accomplished what is considered "the impossible" and made the senior rugby team during his first year. He went out with the dental team in the inter-faculty games and was then asked to turn out for practice with the senior team and in a recent game broke through his opponents' guard and scored a try on a spectacular run. The following day the senior team notified him that he was appointed receiving quarter and is in that position today playing against McGill. Wilkes formerly captained the St. John High football team and was one of the leading players in the league at that time.

Adapted From the Great Parisian Play "BILLIONS" The Best Picture Yet Made By This Star

AS MAY BE SURMISED, THE PLOT OF "BILLIONS" revolves about people of wealth and high position. Nazimova's role is that of a Russian Princess, who is widowed when the Bolsheviks blow her titled husband to atoms with a bomb. She has been estranged from the Prince and is in New York, living in the heart of the uptown art colony of the metropolis, left home the meeting place for the cleverest members of artistic Bohemia, when the story opens.

BETTER THAN "THE RIVER'S END" Says the Motion Picture News. A SCREEN PLAY ADAPTED FROM A JAMES OLIVER CURWOOD STORY HAS NEVER FAILED TO BE RICH IN ENTERTAINMENT VALUES. Of all his documents which have reached the silver sheet none have come to it with the breadth, the humanities, the realities of "The River's End" because it is more consistent in theme and characterization. It has a power, a grip, a spiritual note and lifelike dimensions which are caught by the spectator, so much so, that one forgets the lapse of time—forgot the environment and is truly transported to the Hudson Bay district itself. As gripping as its story which builds evenly and surely to powerful climaxes—climaxes which contain twists and surprises and keeps one guessing at the outcome—it is the manner in which it is developed by Edwin Carewe which makes it stand forth so splendidly. He has collected a marvelous array of backgrounds.

LAST WORLD WAR HAS BEEN WAGED

Another is Morally and Economically Impossible—Faith in This Belief Must be Supported by Works, However, Says Sir Geo. E. Foster.

"We have, I believe, lived through the last great world war," declared the Rt. Hon. Sir George Foster, speaking before the Montreal Women's Club Monday afternoon. "I believe we cannot in this great world of humanity permit another such war, nor can we afford it," he added. "There is such a thing as moral sense in the world. There has been hung up before us an object lesson such as has never been given before. Scrimmages there may be, alley fights among nations, contentions which will result in a war here or there; but a world war such as we have had, that I believe we shall never have again. Not only does the moral sense of the world and humanity forbid it, but the economic sense, aroused as it never has been before, says and will say with increasing war like that again. If we had another world war it would not be a replica of what we have just gone through, but it would be a world war a hundred times more destructive and paralyzing than that through which we have passed, because all the resources of science and scientific investigation which have been invoked for the construction of destructive machinery during the last eight years will go on intensifying, so that the world war of the future will go far towards not only the destruction of the wealth of the world but to the destruction of the life and morale of the world, as well. For these two reasons I believe we have seen our last great war."

Baby's Own Soap so fragrant and refreshing

Having shown how, according to his argument, Sir George Foster proceeded to say that with faith there must be works also. If he thought the whole world was going to sit down and not profit by that lesson, then he would have no hope and prospect of fulfillment of this hope and belief. If, however, that faith was accompanied by works, then it would make the impossible certain both on moral and economic grounds. Sir George went on to suggest that women could be apostles of peace, and it was upon their shoulders to see that it was maintained. He spoke of the aftermath of the war and of the fact that the task of reconstruction was much more difficult than that of heroic and display war work performed under the inspiration of tenseness. He mentioned certain agencies to which they should look, instancing first the League of Nations, upon which matter he dwelt in detail; then the British Empire as a factor for peace and thereby, the union of the English-speaking nations. If all the English-speaking nations were bound together for this purpose, there would be 400,000,000 under the British flag and another 100,000,000 in the United States. Limitation of Armaments. The forthcoming Washington conference on the limitation of armaments was discussed by the speaker, who asserted that this was going to mark the greatest step forward that had ever been chronicled if it succeeded, and, if it failed, it would mark disappointment and retrogression; "therefore my argument is that it will not fail," he added. Sir George outlined the naval positions of the leading powers, showing that Great Britain, Japan and the United States were the chief parties interested in the question of naval disarmament, and that in this connection the first step was to decide what were their respective objectives and aims in the Pacific.

PRESIDENT TO KING.
This was the reply of President Harding of the U. S. to a cablegram from King George, in which His Majesty expressed his appreciation of the bestowal of the United States Medal of Honor on Britain's "Unknown Warrior."
George, said:
"On behalf of the congress and the people of the United States I wish to acknowledge with heartfelt thanks your generous message. It was with deep respect and appreciation of the superb valor and steadfastness of the British land and sea forces and the British nation in the war, that General Pershing made the gift of the Congressional Medal of Honor to the Unknown British Warrior."
"I now bear with keenest emotion of your desire to confer upon the Unknown

United States soldier your highest decoration for valor, the Victoria Cross, that medal which for years has denoted recognition of the most self-sacrificing patriotic service. I am sure that the people of the United States will join with me in grateful expressing in this noble tribute the British appreciation of the high and courageous purpose of the young American who stood beside your valiant soldiers in the battle line on land and sea.
"I greatly prize this opportunity, also, to thank you for your good wishes for the success of the conference on the limitation of armaments. I believe with you that the British and United States representatives will cordially co-operate along with other nations to bring about such international understanding as will make possible and desirable a reduction

of the burden of armaments through diminishing possible causes of war."
MOTION PICTURES IN CHURCH
(Ottawa Journal).
Ottawa is one of the first cities in Canada in which the church has realized the opportunity afforded by moving pictures for instruction and clean entertainment. Rev. R. B. Whyte, of Knox Presbyterian church, has arranged for an exhibition of suitable motion pictures tomorrow evening. There will be shown a screen interpretation of Goldsmith's well known story "The Vicar of Wakefield," in which Sir John Hare heads a distinguished English cast. The programme also includes a film story of the Good Samaritan, with a modern application, and a Canadian film showing the wonders of the Canadian Rockies. T. J. Palmer, A. R. C. O., is to accompany these pictures on the organ.
