COST OF LAND PURCHASE ACT

SECRETARY BIRRELL ASKS FOR HALF A BILLION

Original Estimate Proves Insufficient-Irish Nationalists Support Bill.

London, Nov. 24.-Another Irish land bill, to facilitate the carrying out of the previous Land Purchase Act, was introduced in the House of Commons ast night by the chief secretary for Ireland, Augustine Birrell. The chief secretary dealt in huge figures. He \$500,000,000 made by one of his predepresented \$125,000,000, which had practically exhausted the amount realized from the issues of land stock. Pending transactions represented \$260,000,000.
The government intended to raise the money necessary to complete these transactions, leaving about \$500,000,000 to be dealt with later,

The secretary said he proposed an gaged in an expensive policy, but he declared that land purchase had worked such marvels in Ireland that the government did not hesitate to ask of the House of Commons to add materially to the burdens of the Imperial exchequer, which he proposed should assume liability of the entire loss entailed through the issue of the stock below par. The loss would total \$3,-300,000 a year, which he proposed the Imperial exchequer should lift from the shoulders of the Irish ratepayers. Continuing, he said the government proposed to ask for power to make the acquisition of the unequaled grazing lands of the west of Ireland, which had been such a done of contention, and which had led to such lawlessness in in this direction would be an economic and political blunder of the first mag-

A substantial subsidy has been given by the Mexican government. It is the intention to maintain the same tariff as is now in force by the Pacific Mail and Kosmos lines, except in some instances where the present rates those companies force business to the Atlantic and Gulf coasts of the United States, which could be readily handled on the Pacific.

Special attention will be given to the Sound and British Columbia. The German steamers Ella and Erna, with

class and 24 second class passengers.
With these two steamers calling at tral America, as far south as Corinto on the southward voyage, and Central American ports, Salina Cruz, Manzan-illo, San Blas, San Diego or Los Angeles and San Franciscoon the north-ward voyage to Victoria and Puget Sound, it will be possible to maintain a four-weekly schedule. Other steamers will be held in readiness to augment the service as soon as conditions

warrant. Accommodation will be provided for passenger service also. The Erna and Ella are now loading in Japan for this coast, and the regular service will be started soon after the first of the year. These
