HEARTRENDING STORY

Of the Death of a Little Girl Five Years Old.

PROBES, Washn., May 2. — With her hand and mouth stained with green from the grass and flowers she had eaten in her desperate hunger, and with her features drawn in the agony of thirst, the body of a five-year-old daughter of W. B. Matthews, former county commissioner, who lost her way on the dreary wastes of Horse Heaven plains, nearly a week ago, was today found by searchers. The child in her agony had crawled into a badger hole on the prairie and died.

From the appearance of the body the child had been dead about 36 hours, and for five days and nights she had been without food or water.

Barefoot when she left home the little girl in her wanderings had bruised and cut her feet and had gathered the tough prairie grass and wound it around them for protection. Beside her in the badger hole lay a bunch of flowers and grass, which she had been eating.

MISSIONARY OWEN

Says Withdrawal of Troops Would Lead to More Chinese Massacres.

PEKING, May 3.—A majority of the foreign ministers will leave Peking next week for the western hills to spend the summer, taking with them military guards for their protection, their intention being to come to Peking for the purpose of holding meetings and attending to necessary business. Missionary Owen, of the London mission, says all the reports show the country to be in a deplorable state. Discontent and intense hatred of foreigners prevail and worse conditions than existed before the siege are threatened. The departure of the troops, he predicts, will be signalled by a massacre of the native Christians. "Those unable to recognise the facts, and reporting otherwise to their governments," says Mr. Owen, "are as wilfully blind as before."

BRIEFS BY WIRE.

J. P. Morgan has contributed \$50,000 to the hospital at Aix Les Bains, France. He and Andrew Carnegie are now in that town.

Sir William Macdonald has given five scholarships in McGill faculty of law. This will enable students to go to Paris, where the post graduate course in French law can be obtained.

The population of London, including the city of London and 28 metropolitan boroughs, is now 4,536,034. This is an increase of 308,717 since 1881.

The South-Western government asks tenders for 100,000 tons of steel rails to be manufactured in that colony. Steel works will have to be established.

Archbishop Bruchesi wrote a letter to the Montreal city council protesting warmly against the character of posters on Montreal fences and literature sold in some shops. The council will take steps to remedy the grievance.

There were two lynchings in Louisiana yesterday. In one case a negro was lynched by negroes for assaulting a six-year old girl. The other was a negro gambler, who had been warned to quit town and refused.

The London Daily Express asserts that control of the European canal is to be a part of J. Pierpont Morgan's plans, so as to secure the delivery of steel into the heart of Europe at the smallest possible expense.

Three hundred troops have been dispatched to the Sialkot district, India, to suppress plague riots. Twenty-five villages are in revolt in the district and several hospital assistants have been killed or wounded.

RUSSIA FEARS TROUBLE.

ST. PETERSBURG, May 4.—Many male students, a number of female students, workmen, liberal leaders, lawyers and literateurs were arrested and one hundred houses were searched here Thursday night, and it is probable throughout European Russia similar tactics were pursued. The object of the movement is to prevent demonstrations on Sunday next, which is regarded as Labor day. The military have been posted near the factories to prevent workmen from coming in to the city.

FOUR CHILDREN PERISHED.

MUSKOGON, Mich., May 4.—Four little children were burned to death yesterday in a farmhouse six miles from this city. The victims were Thomas Westman, aged 3; John Westman, aged 4; Jeanne Kool, aged 4 years, and Henneche Kool, aged 6 months. Mrs. Westman, who was alone in the house washing linen, went out to the well for a pail of water and when she returned found the house in flames. It burned so rapidly that she could not enter it to aid the children, and they perished.

THE WEATHER.

TORONTO, May 4.—Maritime—Fresh to strong northwesterly winds, fair and cool. Sunday, moderate northwest and west winds, fine and milder.

WASHINGTON, May 4.—Eastern states and northern New York—Fair tonight and Sunday, fresh northwesterly winds, diminishing. Western New York—Fair tonight and Sunday, warmer Sunday, variable winds, mostly light northerly.

JACKSONVILLE.

Scenes That Recall the Great St. John Fire.

Residence Portion of City Practically Wiped Out—Misery That Surpasses Description.

JACKSONVILLE, Fla., May 4. 1 a. m.—The most disastrous fire in the history of this city began yesterday shortly after noon in a small factory, from a defective wire, according to the best belief, and burned for nearly ten hours. In that time a property damage estimated from \$10,000,000 to \$15,000,000 was caused.

According to the city map one hundred and thirty blocks were burned, many of them in the heart of the business and residential section. The estimate of houses to the blocks is ten, hence thirteen hundred of them went up in smoke. Many of the finest public and private buildings were destroyed, including hotels, theatres, churches and residences.

Mayor Bowden at 1 o'clock this morning says the property loss will exceed fifteen millions. Ten to fifteen thousand people are homeless. The situation is one approaching desolation in a large section of the city. The width of the devastated area is 13 blocks. Within this space practically everything is blackened ruins.

At 10.15 o'clock the fire was under control, having practically burned itself out. The suburban settlements, with the exception of La Villa, are intact. La Villa was badly hurt. Thousands of persons are on the streets to-night homeless, with practically all of their worldly possessions upon their backs. The depots of the railways situated in the southeastern section have been turned into temporary lodging houses and hospitals. Luckily the weather is fine, so that there will be no suffering on that score.

JACKSONVILLE, Fla., May 4.—J. A. Farish, conductor of the Southern railway train number 28, worked for three hours in the flames, and saw much of the suffering and desolation wrought by their devouring fury.

"Practically the entire residence section of the town is in ruins," he said. "and of this section only four or five blocks remain. Thousands of people are homeless, and in want, and many of them are leaving the city. The houses and barns burned like tinder."

A scarcity of water increased the difficulties of the firemen. The misery that has been wrought passes description.

JACKSONVILLE, Fla., May 4.—W. W. Cleveland, on whose premises the fire originated, and who was one of the heaviest losers, dropped dead from excitement. A street negro, carrying a trunk on his head from a burning building, went crazy from the horror of the situation. He ran around in a circle with the trunk on his head until he sank exhausted and died. Women ran through the streets, tearing their hair and clothes, and in several instances had almost denuded themselves when they were caught by friends and led to places of safety.

Horses hitched to trucks could not be cut loose quickly enough, and many of them ran wild through the demoralized throng. At night the military was ordered to guard the household goods piled high in the streets.

PROTESTANT AND CATHOLIC.

There Can be no Reunion of Christendom. (New York Sun.)

The discussion of the question of the union or reunion of Christendom in a Congressional association at Baltimore last week induced the preaching of a sermon on the subject, on Sunday, by a Universalist minister of that city, in which he took the ground that the project is neither feasible nor desirable. It cannot be denied that there is much justification for his position.

As he held, such unity involves agreement as to the final seat of authority in religion, and it could not be reached without the abandonment of either the Catholic or the Protestant position; and incidentally of the position of the Episcopal church as against the Roman Catholic. If the union should ever come, therefore, it would result from the loss of conviction in Protestantism and the destruction of its very genius. It would mean the striking of the Protestant flag, the end of Protestantism, its complete surrender to Rome, for the whole history of Rome affords assurance that it would yield nothing to Protestantism and make no compromise with it. The recent refusal of the pope to acknowledge the validity of the Anglican orders is evidence enough of that disposition and that determination. No union of Protestantism with Catholicism is possible without unconditional acceptance of the papal sovereignty and the absolute authority of the Roman Catholic Church. Everything distinctive of Protestantism must be destroyed.

If such a surrender was possible what would be the result of it? The whole current of religious thought would be changed completely. It would be a square reversal of which the consequences, both religious and intellectual, would be the most momentous in history. One of them would be the accession of a great part of Protestantism to the ranks of free thought; and that access would be the more important because the disposition which induced the surrender in the rest would indicate an ominous decadence of vital and aggressive religious conviction in Protestantism. If surrender came it would be more to complete infidelity than to the authority of the Church of Rome.

A consideration for his comfort attracts a man; a continuation of this makes him your most humble slave.

SENATOR ROSS DEAD.

A Leading Figure in Quebec and Federal Politics.

OTTAWA, May 4.—Dr. J. J. Ross, conservative senator for Quebec, died at 2 a. m. today at St. Anne de la Parade, Quebec.

Senator Ross was born at Quebec Aug. 18, 1833. He was president of the provincial College of Physicians and Surgeons, and honorary president of the Champlain Agricultural Society. In 1881-2 he was commissioner of agriculture and public works in Quebec, and resigned in 1887. He sat for Champlain in the old Canadian Assembly from 1861 until the union, when he was returned to the commonsense and to the legislative assembly. He resigned his seat in the latter and was appointed to the legislative assembly the same year. He was appointed to the senate in 1887 and was speaker of that body from 1891 to 1896. From May 17, 1896, he was a member of Sir Charles Tupper's ministry.

SOUTH AFRICA.

LONDON, May 4.—The war office has received the following report from Lord Kitchener, under date of Pretoria, May 3rd: Ten Boers have been killed, three wounded, thirteen have surrendered and 230,000 rounds of small arm ammunition, 100 wagons and 7,079 horses have been captured since last report.

THE HALIFAX MYSTERY.

HALIFAX, May 4.—The Eastman-Cross suicide has not yet been identified. The police today received a letter from New Hampshire from a husband, who says his wife disappeared four years ago with his child. He thinks the suicide may be his wife and the picture that of his baby. He asks that the photo be forwarded to him for examination. The police will not give the writer's name nor his town.

THE DEATH ROLL.

LONDON, May 4.—Stanley Leighton, who had represented conservatives as a member for the County division of Shropshire since 1885, died at 6.10 this morning. He was born in 1837.

ST. PAUL, Minn., May 4.—W. J. Footner, vice-president and general manager for the Northern Express company, died suddenly of apoplexy at 2 o'clock this morning.

CIRCUS MAN DISINHERITED.

TOPEKA, Kas., May 4.—Mrs. Allan Sells Greenman, by her will, has given \$200,000 to the Topeka Orphans' Home, she disinherited her adopted son, Willie Sells, the circus man, because the latter objected to her marriage to Mr. Greenman, from whom she was divorced. She left \$65,000, however, to Willie Sells' son, Allen Sells.

DESERTS DRENCHED BY RAIN.

SALT LAKE, Utah, May 4.—For over 36 hours almost the entire Rocky Mountain and Inter-mountain regions have been soaked by a rainfall that in many places has gone far beyond all recorded storms. The miles of waste forming the deserts of Utah, Southern Nevada and Northern Arizona and New Mexico, have received a drenching the like of which has never before been known. Places which have been dried up for years are filled with water, streams that have almost entirely dried up in the past years of drought are now raging torrents, and low lying farms and grazing lands are covered. In districts where irrigation has been the only means of bringing moisture to the soil, the only question now is how to keep the water out, and reports of broken ditch embankments and flooded farm-lands are numerous.

GERMAN AFFAIRS.

BERLIN, May 4.—In well informed quarters, the representative of the Associated Press hears the sensational news that Emperor William wants Count Zedlitz Trustschler to become Prussian minister of the interior. The Count is now chief president of Hesse-Lassau in Cassel, and was formerly Prussian minister of education. It was under his administration that the famous school law was framed in the special instance of the Emperor. The law, however, was dropped eventually because of the intense indignation it aroused in liberal circles, who could not resist his influence. He is a great favorite with the Emperor, the count's reactionism will reign in the new cabinet. Count Von Bülow, it is considered certain, will avoid everything that might offend the centre and the conservative parties, and to change in the system will be inactivated, since the government needs both the conservative and centrists in the Reichstag.

NEVER LEFT THE ROAD.

(Blue Ridge, Ga., Post.) An old negro in a neighborhood town arose in prayer meeting and said: "Blessed be and amen, I been a mighty mean nigger in my time. I had a heap er ups and downs—spec'ally downs—since I lined de church. I stole chickens and water melons. I cussed. I got drunk. I shot craps. I plashed udder coons wid my ranor, an' I done er sht er udder things, but, thank de good Lawd, brudder's and sister's, I never yet lost my religion."

CORN CUTTING COST A LEG.

Edward Matthews, prominent in Tammany politics in the Twenty-first ward, New York, has his right leg amputated on Wednesday at Bellevue hospital. About a week ago he cut a corn on one of his toes and gangrene poisoning set in. The toe was cut off first, and it was found necessary yesterday to take off the leg above the knee. Mr. Matthews is 55 years old and his condition is serious.

LIFE'S TRAGEDIES.

Canada has of late contributed a con-
siderable number to the long and
melancholy list of deaths by suicide.
The causes leading up to self-destruc-
tion are as various as the circum-
stances, beliefs and temperament of
the unhappy victims. In some cases
this evidence of insanity is clear; in
many there can only be the assump-
tion that at the moment of death the
mind had lost its balance. The num-
ber of persons who do take their own
lives is an indication of the tremen-
dous pressure, the suffering and tem-
porary incident to modern life; since
for every one who commits the deed
there are great numbers who are
tempted, and who are only deterred
by religious belief, an inherited and
developed sense of duty, or an obsti-
nate courage that will not yield to de-
spair. Many a man or woman goes
about with a smiling front, hiding
secrets that gnaw the heart, and bear-
ing burdens that drive weaker souls
to the wall. Those who withstand the
temptation and fight the battle through-
out are the heroes of common life. Human
nature is more or less selfish, and the
mocking counsel to "tell your troubles
to a policeman" is perhaps too much in
evidence. One is prone to think that
one's own troubles are enough to be
considered, and it is with many of us
more natural to expect sympathy than
to extend it. When real human sym-
pathy becomes all-embracing, a fruit-
ful source of despondency and suicide
will disappear. But that consumma-
tion is a long way off, and may only
be reached by the slow process of a
gradual development. Over against
it is the eager desire for wealth and
position, and the keen and pitiless
competition of modern life. That such
an era will one day dawn, however, is
the dream of the philosopher and the
hope of all. Without such hope there
is a pitiful world, and human life
a tragedy more forbidding than man's
imagination in its most riotous mood
has ever pictured.

REGULATE THE TEMPERATURE.

The Star will, perhaps, not be going
beyond its sphere if it refers to a
matter which relates to churches and
other places of public assembly. On
Sunday last complaint was made that
some of the city churches were too
cold, and some others uncomfortably
warm. Like complaint has been made
of places where secular assemblies meet.
It is, of course, especially desirable that
the temperature in the churches should
be properly regulated, since many will
go there who would not risk draughts
or chills in a place of amusement. At
this season it is of course easy to con-
tract cold, and such a contingency
should be carefully guarded against.
The proper heating of a large build-
ing is perhaps no easy task, but if it
is too hot or too cold the people are
certainly not in a favorable mood to
receive either instruction or entertain-
ment.

A valuable hint comes from Chicago.
It is announced that a movement is on
foot to have the sessions of the city
council opened with prayer by a chap-
lain. Mayor Daniel should take this
matter into serious consideration. In
St. John it might also be desirable to
keep the chaplain on hand during the
session to direct the minds of the citi-
zens toward higher aims when there
is danger of a rupture between the re-
presentatives of the north end, west
end and south end. Our council is not
so large, but is much more vigorous
in its stormy moods than that of the
western city.

The complimentary dinner at which
Mr. H. P. Timmerman was entertain-
ed by leading business and profes-
sional men last evening at the Union Club
was a graceful tribute to an able rail-
way manager and a courteous gen-
tleman, who goes to a more important
post with the best wishes of the peo-
ple of St. John.

The death occurred yesterday at
Chatham of Capt. John Brown, aged
82 years. Deceased was a native of
Cape Breton, and has resided in Chat-
ham for nearly 30 years. His wife,
formerly Miss Longard, of Halifax,
survives him.

Miss Katie F. Wisdom and Miss
Maud B. Blythe, of this city, have
passed examinations in the arts course
at McGill very successfully, the for-
mer being fourth and the latter fifth in
the list. Miss Maud Parkin, daughter
of Dr. George R. Parkin was tie for
second place in the same year.

Alex. Watson has painted an excel-
lent portrait of Judge Forbes in his
official robes as grand master of the
Masons. It is on exhibition in the win-
dow of Messrs. Holman & Co., King
Street. The picture is admirably done,
and has been generally praised.

Archibald McLeod is in jail at Char-
lottetown, charged with the murder of
his mother at Rose Valley, on April 9.
The verdict of the jury was that she
had come to her death either by chok-
ing or strangulation. The McLeods of
Rose Valley are a well-known family
and some of the members occupy high
positions in various cities in Canada.
It was brought out in the evidence that
half of the farm on which Archibald
McLeod lived, belonged to his mother,
and would become his at her death.

orders his own medicines for
the disease, and has
his patient use Vapo-Cresoline at the

of diphtheria, scarlet fever, measles,

there is no remedy its equal for

whooping-cough in a few days.

"Danger of Being Side-Track"

The expression "Side-Track" is ordinarily used by business
men with a tone of vexation, to explain the non-arrival of expected

us. Our goods are all here. We have a full line of **Crockery,

PARLIAMENT.

The bill to amend the dominion elec-
tion act was further discussed in par-
liament at Ottawa yesterday, and passed
its third reading, as did bills to
amend the franchise and post-office
acts. An amendment to the election
act offered by Mr. Fowler to guard
against repetition of the Rotherby
frauds was accepted.

The supplementary estimates for
railways and canals include \$57,000 for
increased accommodation at Sydney;
\$17,000 for additional conveyer at St.
John, and \$70,000 for improved ferry
service at Canoe. These were passed.

On Tuesday Hon. Mr. Fielding will
move for the annual grant of \$30,000 to
P. E. Island in settlement of all claims
in respect to non-maintenance of effi-
cient steam communication between
the mainland and the island.

TO CONSIDER BOER PETITION.

How Far Has New Orleans Been Used
as a War Supply Depot by the Brit-
ish?

WASHINGTON, May 1.—The petition
of Gen. Pearson, formerly of the Boer
army, who is now in this country, ask-
ing the president to inquire into al-
legations in connection with the ship-
ment of horses, mules and munitions
of war from New Orleans to the Brit-
ish army in South Africa, has been re-
ceived at the state department. Gen-
eral Pearson maintains that these ship-
ments are contrary to the neutrality
features of the Treaty of Washington
between Great Britain and the United
States for the settlement of the Ala-
bama claims.

While the administration indorses
the action of the United States Dis-
trict Court in New Orleans in declin-
ing to stop the shipment of supplies to
South Africa on the ground that it has
no jurisdiction and the persons bring-
ing the action on which the decision
was based had sustained no injury by
the shipments, it has recognized that
the establishment of a war supply de-
pot at New Orleans by Great Britain
might be contrary to the Treaty of
Washington and the petition will there-
fore get the most careful considera-
tion.

LITTLE NELLIE'S TRUST.

Who will not sympathize with the lit-
tle girl whose mother, having punit-
ished her on the Sabbath, forbade
her to play with dolls on the day of
rest and gladness? On one Sunday,
however, the little mother noted that
the frock in which she had dressed one
of her babies on Saturday was wrink-
led. So she whisked it off and was
pressing it with a tiny iron when her
mamma came along with reproving
fairs.

"Don't you know this is Sunday,
Nellie, and you should not labor?"
"Oh, mamma, I impatiently answer-
ed the busy-body, 'God knows this lit-
tle iron isn't hot.'"

LONDON MARKET EXCITED.

LONDON, May 4.—Business on the stock exchange today opened very excited and nervous, reflecting yesterday's reaction in New York. The market here was more excited and of greater magnitude than any heretofore since the boom commenced. Attention was attracted to the fact that American causes, some of which declined so heavily during the rush for realizations that they dropped several dollars below parity, and buyers were difficult to find. Subsequently prices somewhat steadily with practically no trading doing, awaiting New York's opening.

STOCK MARKET.

NEW YORK, May 4.—Wall street—The nervous sentiment caused by yesterday's sharp break in prices here was reflected in some wide declines for Americans in the London market this morning. At two o'clock, the London market showed a loss of 4 1/2 there, Union Pacific, Atchafon, Denver and Rio Grande, Reading, Baltimore and Ohio and New York Central from 1 to 2 1/2. The selling in London was attributed to cable orders from New York, and the fact that there was feverish and excited in response. Some violent declines were shown, but St. Paul and Missouri Pacific strongly supported, the former running up 1 1/2 and the latter two points. Atchafon, Union Pacific, Reading, Baltimore and Ohio showed the most acute weakness.

INDIANTOWN NOTES.

River Cargoes Light-Lumber and Building Notes.

The freights offering for the different river steamers this year are much smaller than usual. At this season extra heavy cargoes are looked for, but so far they have not come up to expectations. Later on in the season the freights which are being taken at present might be considered large ones, but for the spring, when the greatest work of the year should be done, the business is disappointing.

THE CANADIAN JUBILEE SINGERS.

The large advance sale of tickets indicates that when the Canadian Jubilee Singers and Imperial Orchestra appear at Rymouth street Methodist church on Monday evening next, May 6, they will be greeted with an audience limited only to the capacity of the building—and no doubt the unbounded enthusiasm and rapturous applause that they awaken everywhere will be repeated here. Rev. J. L. Brandt, Valparaiso, says: "I have known the Canadian Jubilee Singers for four years, heard them frequently, consider them by far the best of any jubilee singers on the road. They are immense."

Mrs. Gutterman, moving in that street, the child came along the neck with her arm so severely that death ensued quickly. Coroner Roberts viewed the remains and gave permission to have them buried.

BLUE OUTLOOK FOR DRIVES.

The reports concerning the lumber drives on the upper St. John have, until lately, been very hopeful, but W. H. Murray, who is in Fredericton today on his way to the headwaters takes a very different view. He says that the prospects are decidedly gloomy, and that of 40,000,000 of his cut, he does not expect to get out over 10,000,000 feet. The water has fallen rapidly.

Ripley's Habit cloth at 69c. per yd.

Whoever heard tell of "RIPLEY'S" PURE FINISHED HABIT CLOTHS being sold at 69c. per yard, \$1.00 is more like the price that you are usually asked to pay for this standard dress cloth. 50 inches wide and a good weight. Nearly every one knows what it is to buy a piece of dress goods with "Ripley's" name stamped on it, especially the pique finish. Perhaps you do not know what "pique finish" means.

It is this—After being woven the goods are put through a process which makes them absolutely unshrinkable, dye will not change, will not spot or mark with water, will not cookie or get heavy with rain and will stand wear and sea water better than any other goods made, and they have a higher finish. These goods at 69c. have a broadcloth finish. Come in five colorings, navy blue, fawn, black, gray and drab.

Ripley's Wool Amazon at \$1 15 per yd.

13 inches wide. A most excellent material for a fine class of tailor-made garments. It has the same to be said of it as the line at 69c. with respect to wear and withstanding water marks.

SPITTER DELAYS A FUNERAL. Had a Burial Permit in His Pocket When He Was Arrested—Corpses Had to Wait.

The funeral of John Hayden of 428 West Thirty-ninth street, New York, which was to have been held at 1.30 o'clock Wednesday afternoon, was delayed for nearly two hours because Joseph Smith, an employee of Palm & Reamy, undertakers at 428 West Thirty-ninth street, was thoughtless enough to spit in a street car. Smith was sent to the board of health at the last minute for a burial permit. He was returning in a Sixth Avenue car with the paper in his pocket when he spat on the floor. Policemen Johns of the Sanitary Squad saw him and haled him to the West Side police court, where Magistrate Meade held him in \$300 bail for trial.

Mark Twain's utterances on serious questions are enough to make every body glad that he never knew his career by trying to be a statesman instead of a humorist.

Another man has been wounded in a Paris duel. If this sort of thing continues the accident insurance companies will have to be a little more careful in selecting risks in that town.

Who have a funeral at 1.30 o'clock. Unless they get that permit the funeral cannot take place.

"Send the permit by a messenger," said the magistrate.

But Smith thought it a good chance to get a bondsman. Instead of sending the messenger with the permit, he sent a message to his employers to bail him out. It was nearly 1 o'clock when three other employees of Palm & Reamy reached the court. There was no magistrate there then to take the bail they offered. Finally they got Smith to send the burial permit to them. Then they went back and had the funeral. Smith was left in jail.
