TWENTY PERSONS KILLED IN A SOUTHERN TRAIN WRECK

And Over a Score of Others Were Badly Injured—The Majority of the Victims are Negroes—Death List May be Even Larger.

CHARLOTTE, N. C., July 23.—About 20 persons were killed and more than that number wounded as the result of a head on collision between a through east bound passenger train and an extra freight near Rockingham, N. C., four miles west of Hamlet, at 8.30 o'clock last evening.

Up to midnight the official reports sent to the general office of the Seaboard Air Line showed 17 dead and twenty-three injured had been taken from the wreck. The officials of the road attribute the disaster to the failure of the telegraph operator at Rockingham to deliver orders to the passenger train.

The passenger train was number 44 running from Florida to the north. Engineer F. B. Lewis, of Hamlet, and fireman Hill, of the passenger train, were killed.

It is impossible at this time to ascertain the names of the dead and injured owing to the confusion between the passenger and freight trains on the Seaboard Air Line collision near Hamlet, N. C., yesterday.

WURSBREUING, Bavaria, July 23.—Congressmen Nicholas Longworth and Mrs. Longworth were thrown out of an automobile, but beyond the jolt and the shock of the crash, no serious injuries and reached their destination, Bayreuth, today, in time for the opening of the opera.

SAGE'S DEATH HAS BUT LITTLE EFFECT

He Had Made All Arrangements for Such an Emergency. Friends Believe His Will Contains Some Charitable Bequests—They Say He Was Not a Mean Man.

NEW YORK, N. Y., July 23.—The funeral of Russell Sage who died at his summer home in Lawrence, L. I., yesterday afternoon will be held in the First Presbyterian Church, Far Rockaway, at which Rev. Robt. G. Leitch is pastor, tomorrow afternoon at 4 o'clock.

There is probably no person in the financial world who was better acquainted with Mr. Sage than Henry Clews. The latter said last night: "Mr. Sage was undoubtedly the most important factor in the great affairs of business here long discontinued, and every contract Mr. Sage made in a lifetime extraordinary in its length."

PARLIAMENT REFUSES TO OBEY THE EMPEROR'S PROCLAMATION

The Opposing Interests are Coming Together to Fight the Government—Emperor William Blamed for Advising The Czar—Thousands of Persons Arrested.

ST. PETERSBURG, July 23.—The government's midnight coup d'etat is already having its effect of uniting all the discordant elements of the opposition and it requires little perspicacity to see that an era of repression and all that entails will drive liberal and revolutionary alike to support the most desperate measures. It is already clear that resistance will be made.

General Kiselev is expressed by the liberals here that the military today will surround and capture the members at Viborg on the ground that this constitutes an illegal and revolutionary assembly, under the authority given to Governor General Gerhard, of Finland, a week ago, to close and arrest any revolutionary congress. It is quite likely that this authority was conferred in anticipation of the present contingency.

A NEGLECTED HERO.

What Canada Owe to the Bravery of Wolfe.

Address by Mr. F. C. Wade, K. C., Before the Canadian Club at Winnipeg—Steps to be Taken to Erect a Monument.

WINNIPEG, July 21.—F. C. Wade, K. C., of Vancouver, addressed the Canadian Club on the duty of Canada to Wolfe's grave, and pleaded for a national acknowledgment of the achievements of the hero of Quebec. Concluding his address Mr. Wade said: "In contemplating the grave of Wolfe at the old parish church at St. Alphege in Greenwich one cannot but recall his marvellous bravery and brilliant generalship that planned the attack at the Anse du Foulon, which led to the capture of Quebec and the cessation of this continent to the Anglo-Saxon race. The first impulse to look around for some great monument, some vast mausoleum, or, in default of that, some memorial window, brass or mural tablet, some indication of the love and sympathy, or at the least some sign of gratitude on the part of the Canadian people. But there is nothing. The dark, mysterious crypt is there, as is the iron grating which is pointed to as indicating the exact position of the tomb. These are cold and forbidding enough, but that is all. Canada has done nothing. New England and its lineal successors, the United States, have done nothing. Had it not been for the efforts of private and unknown persons, by whom a beautiful memorial window was placed in the church in 1888, nearly a century and a half after the fall of Quebec, there would be nothing of St. Alphege to indicate that to Wolfe the Anglo-Saxon race on this continent almost owe its existence. Do not the people of Canada owe it to themselves, as well as to the memory of the great fittingly express their appreciation of the heroism of the illustrious peer to whom this continent owes so much? The Canadian Club, after hearing the address, appointed a committee to set wheels in motion towards concerted action by all sister clubs in erecting a suitable monument, and also passed a resolution strongly endorsing the sentiments expressed by Mr. Wade.

CREW OF NORWEGIAN BARK RESCUED

The Undal was Bound from St. John to Newport

NEW YORK, July 22.—When the American liner New York docked here today she brought details of the thrilling rescue of the crew of the Norwegian bark Undal, from St. John, N. B., for Newport with a cargo of deals, on July 19th. Eleven men were taken from the ship by boats after leaving New York. Captain Carlsson, of the Undal reported that he sailed from St. John on July 16th, shortly after leaving port the Undal began to leak and in spite of ceaseless pumping by the crew, the vessel after some days became waterlogged. Finally the New York bore down and seeing the distress signals sent her boat alongside, which took off all hands.

JUDGES APPOINTED AT CABINET MEETING

OTTAWA, July 22.—The new court of appeals and the reorganized court king's bench of Manitoba have been brought into force and the new judges were appointed at Saturday's cabinet meeting. The court of appeals is as follows: Chief Justice, H. M. Howell, K. C., puisne judges, A. E. Richards, Wm. E. Pardon and P. H. Phippen. In the order mentioned. D. A. MacDonald, Portage La Prairie, was appointed to the king's bench as chief justice Dubuc with Justice Mathers and Justice MacDonnell. Formerly the king's bench comprised a chief justice and three puisne judges, and now it will consist of the chief justice and two judges.

Messrs. Richards and Pardon have been moved up to the court of appeal and one new judge, Mr. MacDonald, takes their place on the king's bench. So long as Chief Justice Dubuc remains chief justice of the Manitoba, but as soon as he ceases to be chief justice of the king's bench, the chief justice of the court of appeal becomes chief justice of Manitoba. The tender of H. Johnson of Montreal for the furs brought by the mounted police from Fullerton to Ottawa, was accepted, it being the highest. It cost in service and other ways about \$200 to obtain the furs from the natives, and they were bought by Johnson for \$195.

SAYS GORKY IS MORE MARRIED THAN MANY

Prof. Zueblin, of Chicago, Alms Some Hard Blows at U. S. Marriages.

CHICAGO, July 22.—Professor Charles Zueblin and the faculty of the University of Chicago were amazed yesterday at the publication of a summary of the professor's lecture yesterday before the summer school of teachers, in which he was quoted as favoring "probationary marriages."

"I am somewhat radical on the marriage question," said the professor, "but I never advocated probationary marriages."

"Motherhood is the chief interest of the human race," said Professor Zueblin in his lecture. "Unsexed animals cannot attain so high a degree of development as sexed animals. Sex is necessary. Without it the greatest progress cannot be made."

"Gorky is more married to his wife than are many Americans of today. The attitude manifested by the American people toward him and his wife for she was just as much his wife as the laws of Russia would allow—seemed to be characterized by hydrophobia. At the very time that Gorky and his wife were ejected from the hotels, a third of the Americans there were in a much more objectionable state than he. Our society will not bear examination."

"To preserve the heritage of children and protect them, it is, of course, imperative that we have a legal marriage. As long, however, as we are so much more concerned with the label than with the real thing, there will be this attitude toward marriage."

Here are some of the professor's epigrams:

"There can be and are holier alliances than the marriage bond than within it."

"Marriage in the United States was placed in the church in 1888, nearly a century and a half after the fall of Quebec, there would be nothing of St. Alphege to indicate that to Wolfe the Anglo-Saxon race on this continent almost owe its existence. Do not the people of Canada owe it to themselves, as well as to the memory of the great fittingly express their appreciation of the heroism of the illustrious peer to whom this continent owes so much? The Canadian Club, after hearing the address, appointed a committee to set wheels in motion towards concerted action by all sister clubs in erecting a suitable monument, and also passed a resolution strongly endorsing the sentiments expressed by Mr. Wade."

GERMAIN ST. BAPTIST

Eloquent Sermon and Fine Music Heard Yesterday by Large Congregations

Rev. Merritt L. Gregg, a Kings county boy, who has recently accepted a call to one of the leading churches of Providence, R. I., presided in the Germain street Baptist church yesterday morning and evening. Rev. Mr. Gregg is a graduate of Bates College, and a speaker of eloquence and power. His sermons were heard by very large congregations.

A feature of the service was the Pine street male quartet, composed of Ross M. Beasley, H. C. Haskins, W. H. Cook and E. C. Garland. Their parting was the best heard here since the quartet of the Germain street Baptist church next Sunday, when Rev. Mr. Gregg will also preach. They may also give a concert in the church, the interval they will visit Rev. Mr. Gregg's old home near Sussex.

THE ENGLISH UNEMPLOYED.

Mr. John Burns on the Relief Problem.

LONDON, July 21.—In the house of commons today John Burns, president of the local government board, dealing with the unemployed problems and the relief measures of the government last winter, declared that the labor bureau's penal colonies and farm colonies had failed, and that the relief works had sterilized the worst kind of casual labor and had produced irregularity and checked the natural movement of labor. The government, he said, would tide the unemployed over next winter and for that purpose had decided to make a grant of £1,000,000.

SAD DROWNING OF MAINE PEOPLE

AUGUSTA, Me., July 22.—Clarence, the 19-year-old son of Mr. and Mrs. Wm. Storey of Hallowell, was drowned today in Cascade Pond, Hallowell. He could not swim, but was persuaded to enter the water by companions, who promised to look after his safety. He jumped from the dam into the water, 15 or 20 feet deep and did not rise. The frightened boys attempted to save him by repeated diving, but were unsuccessful. The boy has not yet been recovered.

LIMERICK, Me., July 22.—While in bathing with several companions today, Guy H. Furlong, 19 years old, son of Jefferson Furlong, was drowned in the Pond at Limerick Mills. The boy was recovered.

At 2 this morning he was awakened by revolver shots, and in his study he found the girl lying dead. Clipped in her hand was a scrap of paper bearing the words: "Forgive me; I could not live without you."

Slight-of-Hand Trick to Puzzle Audience Becomes painful Reality.

LONDON, July 21.—A mishap, highly amusing to those who witnessed it, but doubtless anything but humorous to the victim, occurred at a comic singing and variety concert at Preston last night.

After giving an exhibition of coin swallowing, one of the competitors, Thomas Marsden, of West View, Ribblesdale lane, tried to swallow a watch which he borrowed from the wife of the proprietor of the show.

He swallowed the watch all right; in fact, too well, for he could not get it back. The poor fellow went outside the marquee and stood on his head against a wall, but the watch could not be moved.

Other remedies were tried in vain, and two doctors who were summoned could not retrieve the unfortunate man, who still retains the watch.

Jimmy Walker, whose mysterious disappearance caused great disturbance to his aunt, has returned home. The prodigal is none the worse for his experience at Woodstock and Mossop.

House of Lords Committee Approves Litter Bill Against Selling Cigarettes to Minors.

LONDON, July 21.—The committee of the house of lords on Juvenile Smoking has reported in favor of legislation on the lines of Sir Ralph Littler's bill in the house of commons. This measure provides a penalty for selling cigarettes to a child under sixteen years of age imposing a penalty on a child found in possession of cigarettes or smoking tobacco, and authorizing the police, schoolmasters and park keepers to stop youths from smoking and to confiscate their tobacco.

IRELAND IN A GLASS HOUSE.
Many of Her Cattle Failed Tuberculin Test.

LONDON, July 22.—The Dundee Advertiser quotes the statement of R. T. Houston, Secretary of the Armaugh Agricultural Technical Instruction Committee, to the effect that for eight years he has subjected over 200 Irish cattle to the tuberculin test and 164 failed to pass the test. The Advertiser says those who live in glass houses should not throw stones. The Irish should be the last to cast imputations on the purity of Canadian cattle, yet with the Canadian and other supplies stopped, upon Ireland we would have to depend for our stores.

THE HARVARD GIRL AT THE OPERA HOUSE TONIGHT.
The rivalry among the various managers of musical comedies has been settled in the opinion of all by awarding the Spitz and Nathanson Amusement Company, big musical favor "The Harvard Girl" the credit of being the best attraction of its kind. Never before has a musical comedy met with the success which "The Harvard Girl" has gained since the first performance. While the inaugural event of the season is set for one week in Chicago, the most prominent theatre, the tremendous success was achieved by this clever company, was the cause of extending the engagement to a four weeks' continuous run. During the antics of the play, many funny scenes, novelties, the latest music and dances will be introduced. "The Harvard Girl" is an organization of twenty beautiful women, ten clever comedians, the entire scenery is the realization of an artist's dream, while the costumes are elaborate and magnificent in every detail.

TEACHERS COMING TO CANADA.
There is hope that the British public will in the next few generations learn something about Canada. Not less than two thousand teachers have applied for passage to this country under Mr. Noyes's scheme and perhaps they will be able to teach the rising generation that children may go out of the houses here occasionally without being eaten by bears, in spite of the recent declaration of one of those men who now direct the policy of the empire.

RUSSIA.
Russia's parliament has been dissolved and the revolution brought one step nearer. Emperor Nicholas was unable to choose any other course than the one he has taken, though a year ago he was in a position to have made his name the greatest of all in the long line of Russian rulers. Through personal weakness and the influence of unwise counsellors he failed to take advantage of the opportunity which opened before him. The end of the Russian monarchy as it exists at present is in sight, for although a new parliament will be summoned it will not be any improvement on the last from the emperor's point of view, but will undoubtedly follow in the course adopted by that one which has just come to an end.

When the emperor a year ago decided to create an assembly of representatives of the people there seemed to be some hope for Russia, as the very act of such creation held out the prospect of a new constitutional government. But as time passed and the representatives saw they were quite devoid of power and likely to remain in that condition, their usefulness vanished and they became merely a gathering of men whose one aim was to overthrow the government. They were never a united body, and frequently their differences were the cause of serious trouble, but on one point they were solid and that was their opposition to the government. All of their efforts ended in revolution, the only difference being that the various parties followed different courses in order to reach the end. The parliament was not a constructive assembly and would not have been even if full powers had been given. It was intended to be nothing more than an advisory board and its advice would be accepted if the emperor and his council thought fit. It was composed of men who had suffered and whose first aim was to relieve their millions of fellow sufferers of the burdens which they were bearing. Thus the different matters of importance introduced in the assembly were not aimed at the building up of a constitution but rather at the destruction of existing institutions and without suggesting very much to take their places. It was of course impossible for the emperor to accept all the suggestions offered. He acted against the advice of those nearest the throne in certain circumstances, but these only served to encourage the members of the assembly in their demands. It was seen for some time that the dissolution of parliament was inevitable. Those who brought about their own destruction bear in their efforts to undermine the government, and this influence was of course increased by the very fact that they had been chosen as representatives. Thus the parliament became more than anything a hotbed of treason, the centre of the revolutionary movement. There was nothing left for the emperor but to dissolve the house. Its continued existence would mean only the spread of that disaffection which is noticeable in every part of the empire.

But the time has passed for a peaceful settlement of the questions which now vex the country. The revolution is not far distant and even the great show of troops in St. Petersburg will not prevent the outbreak. A new parliament may be summoned but it will be found to be even more determined than the one which has just now been dissolved, and perhaps the members will not differ among themselves to such an extent.

In Russia it is not now a question of whether there will be a revolution. The only uncertain point is when the final outbreak will occur, and it may not now be too early to even guess at the date of the murder of Emperor Nicholas at the hands of the people. The French revolution was accomplished by a nation which was then as highly civilized as any in Europe, yet the horrors of that time were such as have been beyond the description of the ablest writers. What will the history of the present time be? The barbaric nation which has for ages suffered under abuses such as were never dreamed of by the French?

THE CATTLE QUESTION.
The attention of Canadian cattle raisers and shippers is directed to the fact that in an inspection of Irish cattle only 35 out of 290 passed the tuberculin test. Ireland it might be observed has been very strongly opposed to the removal of the embargo on Canadian cattle, which, by the way, are healthy. Perhaps the secret is in the fact that the English public under present conditions must draw the principal part of its beef from Ireland. There is something consoling in the fact that English while shutting out healthy Canadian cattle is importing diseased ones from the Emerald Isle.

TEACHERS COMING TO CANADA.
There is hope that the British public will in the next few generations learn something about Canada. Not less than two thousand teachers have applied for passage to this country under Mr. Noyes's scheme and perhaps they will be able to teach the rising generation that children may go out of the houses here occasionally without being eaten by bears, in spite of the recent declaration of one of those men who now direct the policy of the empire.

Yes! We had noticed that your hair was looking pretty thin, and that it lacked luster and life. But we didn't like to speak of it. THE BEST SUBSTITUTE.
(No young man or woman should be allowed to marry who has no hobby.—F. C. Gould.)

Amanda, through the living night I scrutinize the stars above,
For sleep has vanished from me quite
Since I have been possessed of love.
But one sad thought oppresses me,
And partially my ardor dampens
How much more charming you would be
If you collected postage stamps!

A goddess well might grudge your grace,
A fairy envy your form;
The sweet expression on your face
Speaks of a heart that's fond and warm.
There's poetry within your eyes,
And music in your limpid laughs—
You'd be, indeed, a peerless prize
If you went in for autographs!

Forgive me if I thus allude
To what is your one only flaw,
Nor, little lady, think me rude
If I on your indulgence draw.
This sound advice I trust you'll take,
When it is whispered in your ear.
Make up your mind at once to make
A hobby of a hobby, dear!

SOAPY.
The Barber (lathering customer and gazing out of window)—"I tell you, sir, the man who shaves himself keeps the bread and butter out of some barber's mouth."
The Customer (sternly)—"And incidentally the lather out of his own!"

POOR PAY.
The Lecturer—"Labor, hard labor, is the only pathway to success."
"Tramp (from the back seat)—"Ain't true, guv'nor. I done six months of it once, and came out no richer than I went in."

COULD NOT REMEMBER.
Traveler—"Can you tell me, my man, where the Roman camp is about here?"
Rustic—"Now, sir, I've heard tell there used to be a Roman camp about here, but 'twas away my time."

CAUSE FOR THANKFULNESS.
Guest—"Look here, this mirror is so fearfully dirty that I can't see my face in it."
Hotel Servant—"It strikes me you ought to be thankful for that instead of making trouble about it."

WATCH HER.
"Pa, what's a cynical smile?"
"Your mother will show you, my son, the next time I tell her I can't spare all the money she wants!"

WORKING BY TIME.
Barber—"How long do you want your hair cut?"
Customer—"How long? Well, I want to accept all the suggestions offered. He acted against the advice of those nearest the throne in certain circumstances, but these only served to encourage the members of the assembly in their demands. It was seen for some time that the dissolution of parliament was inevitable. Those who brought about their own destruction bear in their efforts to undermine the government, and this influence was of course increased by the very fact that they had been chosen as representatives. HIS AGE.
Scene: A London omnibus. Two ladies of somewhat mature age discussing their respective golf handicaps.
First Lady—"What are you? Second Lady—"Thirty years, I was 15, now 18. First Lady—"Oh, I've been 17 all along! Elderly party (rather merry, who has been sitting)—"Ho, yuss, sir, I've stuck at 19—Punch."

GOT ONE BACK.
"I've written several plays."
"Did I not tell you I was a success?"
"Yes, I once got a manuscript of mine back from a manager."

ON THE BLEACHERS.
Philomene—"Hans! Mr. Shouter a beautiful voice?"
Virginia—"It must be lovely to sit next to him at a baseball game."

PAYING GUESTS.
Mrs. Smith—"Don't you hate gossiping boarders?"
Landlady—"Well, I'm happy when my house is full of roomers."—Butterfly.

FILLS THE BILL.
Mrs. Jenkins—"You must miss your husband dreadfully."
Mrs. Weeds—"I do, but my youngest daughter is like him. She tries to regulate the grammar and manners of the whole family."

WELL RATHER.
Gracey, I heard Maud is going to marry a man worth \$5,000,000. Gladly—Yes, and she says he is her affinity. Gracey—I don't doubt it. Any man with that much money might well be any girl's affinity.—Sidney Town and Country Journal.

IN COSTUME?
The vicar of Thames Ditton announces that during the boating season special seats will be reserved in his church for persons who wish to attend in boating costume. It remains to be seen now whether a similar concession will be given to bathers.—Punch.

SENSITIVE.
Kind Lady—"How long is it since you have done any work?"
Stuffy Sam—"Pardon me, mum, I'm rather sensitive about my age."

CONSOLING.
The Grocer—"I thought I'd ask; er, you see I'm a little worried about that bill."
Mrs. Movesome—"The idea! Don't you worry any more. Why, I'd owe it to you forever before I'd cheat you out of it!"

A GENTLE HINT.
"Now," said the fussy old gentleman, putting one of the biggest plums in his mouth and picking up another, "what is the sense of speaking that notice read, 'French plums for sale'? Don't you see that 'French plums' would be enough to put you off, suppose that everybody knows they are for sale?"
"I dunno," answered the grocer; "some folks seem to think I'm giving them away."
And the old gentleman put back in the box the second plum he was taking.

PEACE NOW REIGNS
IN CENTRAL AMERICA.

Agreement Reached as a Result of Roosevelt's Efforts—Everyone is Happy.

WASHINGTON, July 21.—The closing chapter of the peace negotiations was marked by the exchange of congratulations between the participants in the efforts to terminate the dangerous state of affairs in Central America. The plenipotentiaries, themselves, sent cable messages to President Roosevelt and to President Diaz, of Mexico, as well as to their home governments, and President Roosevelt and President Diaz returned the acknowledgments of these tributes. The underlying expression was that the Marblehead Peace Pact would be historical in Central America, as it certainly would go far to prevent any hostile collision between the small republics for many years to come, constituting as it does a warning to each that the great northern republics have a strong selfish interest in the maintenance of peace at their doors. The complete agreement was very gratifying to the officials here, in view of the happy effect it is likely to have on the Rio conference just beginning.

Article 2.—Exchange of prisoners; the release of political prisoners; general amnesty recommended.
Article 3.—Vigilance of emigrants in order to prevent abuse of asylum.
Article 4.—To negotiate treaty of friendship, commerce and navigation with two months.
Article 5.—Any difficulties over treaty and all future complaints between the three countries shall be submitted to arbitration by the president of the United States and the president of Mexico.
Article 6.—This treaty made with the moral sanction of the mediating nations and others assisting at the conference, namely, Costa Rica and Nicaragua.

PASSENGERS SMUGGLED.
Secret Agency Discovered Among Employees of Steamship Line.

LISBON, July 21.—Twenty-two people, smuggled aboard the Nile, who had arrived from Rio Janeiro, have been arrested.
The authorities have discovered a secret agency carried on by a number of the staff employed by the Royal Mail steamers to convey passengers between Europe and South America for the payment of greatly reduced fees, which went into the employes' pockets. It has been found that his illicit traffic has been carried on for a long time.

WALITZED FOURTEEN HOURS.
Italian Dancing Master Makes Record.

PARIS, July 21.—Corsini Guattiero, an Italian dancing master, won a \$200 prize for dancing the waltz for fourteen hours at the Tivoli Vaux Hall yesterday. The best of his five opponents could dance for only eight hours.

At the conclusion of his performance Guattiero was examined by the doctor, who found that he had lost only one pound in weight.
The pianist played 248 different waltzes.

RING STARTS A STRIKE.
Curiosity to See if on Girl's Hand Makes 1000 Hands Idle.

MILAN, July 21.—An engagement ring worn by a girl employed at the Venice cotton mills has led to a strike of all the hands.
The girls left their work to examine the ring, and an overseer, in trying to get them back to their places, handed one of them rather roughly, whereupon they all struck work.

A detachment of workmen afterward asked to discuss the question with the manager, but were told it was no business of theirs. They, too, left work, and there are now 1000 hands on strike.

AMBUSHED BY REBELS.
German Staff Surgeon and Thirty-five Native Followers Massacred.

BERLIN, July 21.—News has been received from German East Africa that the distinguished German staff surgeon, Dr. Viehe, and thirty-five native followers have been massacred by native rebels, under the warlike chieftain, N'Gosi, in the vicinity of Songea. About three weeks ago Dr. Viehe and his followers had encamped in the forest, when the rebels sprang out of ambush and attacked them simultaneously on all sides. Before they had time to organize resistance all of them had been butchered.

PARIS, July 21.—Mme. Sarah Bernhardt believes that she has discovered another Rostand, a handsome young man of 22, named Rene Frenaut, whose first play ("La Nuit Perverse") she has promised to produce in September. The new genius called on her yesterday, and obtained permission to read his play to her. It is a three-act drama in verse, and the reading began at midnight. When he finished at 3 a. m. Mme. Bernhardt kissed him enthusiastically on both cheeks, declared the play a masterpiece, and promised to produce it.

FEDERATION OF LABOR ENTERS POLITICS.
Campaign Matter Sent to All Unions in the States Calling Upon Workmen to Organize.

WASHINGTON, July 22.—The executive council of the American Federation of Labor today made good its decision of several months ago to enter the field of politics in the interest of trade union movement and to exert all members and friends of organized labor to work for the election to political office of men known to be favor- quarters of the Federation the council today issued its "campaign program" addressed "to all organized labor and friends in the United States." It sets out that the trade union movement has kept and proposes to keep pace with the rapid changes in industrial affairs and that the working people cannot hope to maintain their rights or a progressive position in the varying phases of modern society unless they organize, "and exercise all their functions, which, as workmen and citizens, it is their privilege and their duty to exercise."

FORTY PAUPERS GO ON STRIKE.
But Threat of Fines Frightens Them Back to Work—Lack of Potatoes the Grievance.

WATERBURY, Conn., July 21.—Forty paupers in Brookside Home, the town poor house, went on strike early this morning and refused to go to work on the farm in the vegetable gardens. The reason they gave was that they were not properly fed.

James P. Morris, superintendent of the department of charities, tonight said the superintendent of Brookside, Patrick Brennan, had run short of potatoes and on account of delay in delivery it was necessary to leave potatoes off the breakfast menu.

This annoyed the inmates and they refused to go to work. After a delay of half a day the authorities threatened to fine the offenders, and this frightened them into submission. Mr. Brennan was ordered to keep a more generous supply of potatoes on hand to avoid such friction in the future.

LAWYERS HUNT BURGLAR.
Man Stole His Guard With Weapon Given Him by Woman.

PARIS, July 21.—A burglar named Neveu was sentenced today in the courts here to five years' imprisonment and was being taken back to the cells when a woman rushed up, threw his arms around his neck, and kissed him repeatedly.

During her affectionate demonstration she managed to slip a knife into his hand. With this she stabbed his guard and fled. Immediately there was an uproar, and all the court made after him. The lawyers, in confusion and alarm, fled the way, and recaptured the prisoner before he got out of the building. The woman was captured in the street.

A MODISH RIDING HABIT.

6374, 6372—Riding is becoming more and more the recreation and delight of the American woman and no more healthful exercise can be found. While many continue to favor the side saddle the up-to-date and sensible rider uses the cross saddle. In this way she gains the true exhilaration and enjoyment belonging to the devotee of the stirrup. Here is a habit composed of a coat in long hip length and divided skirt fashioned after the latest mode and extremely becoming and sensible. The coat is close fitting with trig little collar. The skirt is one much liked by riders. It is circular in shape fitting smoothly over the hips and rippling full about the edge. A slight fulness is allowed on the inner seam over the knee so that no pulling nor tightness can occur. Black is the most popular color for these habits and a heavy broadcloth or cheviot may serve as material. The pattern is not difficult to follow and the vester amply may complete it with no difficulty. The skirt consists of two pieces and requires no hanging, the pressing of the seams and edges being the most difficult part. In the medium size 8 yards of 50 inch material are required.
6374—4 sizes, 23 to 42 inches bust.
6372—4 sizes, 29 to 30 inches waist.
The price of these patterns is 20 cents but either will be sent on receipt of 10 cents.

MEMBERS OF RUSSIA'S OUTLAW PARLIAMENT IN SOLEMN CONCLAVE

Parliament is Dissolved and Revolution is Imminent. Will Adopt a Manifesto That People be Summoned to Stand by the Dispersed Members as a Body.

ST. PETERSBURG, July 22.—The following dispatch has been received from a representative of the Associated Press who accompanied the members of parliament to Viborg, Finland, it is dated Viborg, midnight.

Two hundred members of Russia's outlaw parliament are gathered here at the Hotel Bellevue, awaiting the arrival of Count Herzen, M. Stakovich and other prominent members of the right before opening the session.

Although the news of the dissolution of parliament spread throughout the empire warning them against premature divided action and specifically instructing them when the signal was given to extend the strike gradually and carefully, avoiding collisions at the beginning.

While M. Stolypin, who succeeds M. Goremykin, as premier, undoubtedly is a much stronger man than his predecessor, he probably will be unequal to the task of piloting the country through the revolutionary upheaval.

FOREIGN POWERS NOT INFORMED. Perhaps the most remarkable feature of the events connected with the dissolution of parliament is that the government carefully avoided notifying the representatives of the foreign powers of what was coming.

PARIS, July 22.—The dissolution of the Russian parliament attracts widespread comment and disappointment in this city.

 Russell-Greenfields' Trouble

MONTREAL, July 22.—It is understood that Mackenzie and Mann outbid the C. P. R. and purchased the Qu'Appelle, Long Lake and Saskatchewan railway for the sum of \$50,000,000. The purchase of this railway, which has had a traffic arrangement since 1880, secured an option on the road for \$15,000,000. They allowed this option to expire and the Canadian Northern stepped in and secured the road, which runs from Regina to Prince Albert, a distance of 240 miles, and which gives the Canadian Northern an entry into southern Saskatchewan.

MONTREAL, N. B., July 22.—Quite a number of petty robberies are reported in the trail of the Barnum and Bailey circus, which visited here Saturday, and in whose wake followed the usual band of sharks and fakirs which always follow large organizations of this kind. The losses as a general rule were petty ones, and were the result of robberies perpetrated by a gang who came from St. John. The heaviest loss reported is named Smith, belonging to Salisbury, who on the morning express from St. John was robbed by a pickpocket of a wallet containing one hundred and twenty-one dollars, and the thief escaped by jumping from the car window as the train entered the Moncton yard.

Don't have your eyes tested in a hurry unless you want the wrong glasses. The idea of testing sight in a few minutes is ridiculous. D. Boyaner, optician, 21 Dock Street, takes plenty of time and makes the glasses right.

A meeting of the governors of the Boys' Industrial Home will be held in the mayor's office at 2.30 o'clock this afternoon. The claims committee meet this afternoon at three o'clock, but no special business is expected to come up before the meeting.

The National Grand Lodge of the I. O. O. F. in the United States will meet this week in Boston. On Tuesday there will be a meeting of the veterans, and on Wednesday a meeting of the Juvenile Institute. The regular session of the lodge will open Thursday morning.

There is such a demand for space for industrial exhibits at the St. John exhibition that practically all the available space is taken. There are, however, a few choice spots left, and any industry not yet located should apply for space at once.

The death took place in Dorchester, Mass., on July 16, after a lingering illness, of Freddie Holder, only son of the late James Holder, of St. John, N. B., aged fourteen years. The funeral took place last Wednesday at the residence of his mother, Mrs. F. W. Brown, Dorchester, Mass.

A meeting of the ladies and gentlemen in charge of the Cathedral picnic will be held in the St. Vincent de Paul rooms, Waterloo Street, tomorrow evening at 7.30 o'clock. The meeting is called for the purpose of arranging for the annual picnic which is to be held at Torryburn on August 8th.

The police have up till this morning been unable to locate Henry Gord, the Russian Jew, charged with bigamy and it is believed that he has left the city. J. King Kelley appears this morning and said he represented the parties involved in the case. He said that Mrs. Gord, No. 1, was going to return to Russia and try to procure a Russian and English divorce and that would settle the case.

If you can judge by the crowds present at the Victoria rink on Saturday afternoon and evening, roller skating is once more the sport of St. John. The City Cornet Band furnished a choice programme of music, both afternoon and night. Tomorrow evening is "ladies' night," and only ladies, old ladies and escorts will be allowed on the floor. The Artillery Band will furnish music. Watch tomorrow's papers for further announcements.

HERE IS A QUESTION FOR PUBLIC SCHOOL GRADUATES.

Many young persons after leaving the high school or eighth grade are willing to take positions with the hope of advancement at a salary of two dollars per week—others enter the Curtis Business University, Ltd., purchase a course at sixty to ninety dollars, entitling them to the unlimited benefits of the employment bureau with no limit placed on time for completing, and in six to nine months are placed in positions paying from \$300 to \$600 per year.

Question—Would it not pay to borrow the money at 12 per cent. interest in order to secure the training and benefits above mentioned, remembering that only one-half the tuition fee is repayable in advance and balance not payable until position is secured. Take last week's happenings as an example. One young man after spending six months at the combined course secures a city position at \$400 per year. Another after nine months training is offered over \$600 salary. A young lady with six months training secures a position at \$300 per year—another after one year's training takes a position at \$500 per year. Many positions are secured through the Curtis Business University employment bureau by its experienced pupils at salaries of a thousand to fifteen hundred dollars per year, showing that the efforts of the institution for the advancement of its pupils, old and new, never relax.

CITY MAY ASK \$25,000 FOR WEST SIDE PROPERTY.

C. P. R. Not Anxious to Pay That Much—Big Expenditures to be Made by the Railway.

It is understood that at a meeting of the committee on west side improvements held last week to consider the sale of Protection street property to the C. P. R., the members estimated the price to be asked at anywhere from \$15,000 to \$25,000. Some of them wanted to hold out for all they could get, while others, who were inclined to be more reasonable, thought that \$15,000 would be nearer a fair amount. This property includes not only the shore front but all the land on which the buildings on the south side Protection street are situated. From these properties the city draws ground rent, the total annual receipts being \$375, which is capitalized at five per cent. would mean \$7,500. While the C. P. R. own the outer portion of the shore beyond the Protection street front, the city shore property is of very little value, so the property on which the houses are situated is really the only part which is of any practical worth. The C. P. R. expect to purchase all the houses on Protection street as their lease expires, and that the expenditure for the houses will amount to probably \$25,000. An estimate has been prepared of the new work which it is proposed to do in the construction of an auxiliary freight and passenger yard, and this estimate calls for a total outlay of \$81,000. In addition to these amounts the railway will spend thirty-five or forty thousand dollars in increasing the accommodation at Bay Shore and in view of these expenditures the company think that the city might give the Protection street property at a low valuation. It is not probable that the railway will consider the proposition if the city holds out for a price anything like \$25,000.

WILL SOON BUILD NEW CHARLOTTE ST. BARRACKS

Salvationists Waiting for the Plans to Arrive From Toronto.

Ensign Freeman of the Salvation Army will leave on Tuesday for Sydney to see the superintendent in connection with the construction of a new barracks in that place. The army have a prosperous future in that locality and much good work has been done there. The Army officials here are awaiting orders from Toronto to proceed with the work of putting up a new barracks on Charlotte street, and making alterations in the rescue home. The new barracks will be located on the site of Number 1 barracks and will be considerably larger than the old place. The work will begin soon as the plans are forwarded from headquarters. The alterations in the rescue home will be to the extent of some \$2,000 or upwards. The top story in the building will be finished, and the second flat remodelled. In the latter will be placed four rooms for doctors and nurses from the general public hospital doing maternity work at the home. The children's nursery will be removed to the upper flat. These alterations will be completed in time to accommodate about twice as many inmates as it does at the present time.

THE CHARGE OF STEALING AGAINST EDWARD LEPAGE

Edward Lepage, the young Frenchman who was arrested on Friday by Detective Killen on suspicion of stealing \$22 from Leopold Lamont, this morning pleaded not guilty.

An interpreter was in court and Leopold Lamont was the first witness. He said he knew Lepage and the money stolen was one ten, two fives and two ones. The money was locked in a tin box which was in his trunk. He told Lepage he had some money stolen and Lepage said he did not believe it. The box was taken as well as the money, and he did not see the box until produced by Detective Killen last Friday. Lepage never existed, he was trying to get him back the money. To Lepage the witness said that the box was not taken by a man named Moore but that Lepage took the box. He thought at one time Moore took the money. Lepage took the box for he told Detective Killen so.

Albert Green, of 21 North Street, said that Lepage came into his place of business about the second week of June and asked if there was a swill barrel or some place where he could put a parcel. He left the parcel and witness opening it found a tin box that was broken open. Witness kept it thinking the matter suspicious and handed it over to Detective Killen on Friday last when he called for it. There was a pair of broken scissors in the box. He knew the prisoner for about six months.

Lepage was then remanded for three days, until the detective could obtain other witnesses.

NEW TRAINS FOR THE BOSTON-ST. JOHN ROUTE.

The Star learns that the Canadian Pacific, Maine Central and Boston & Maine Railroads are contemplating the joint construction of a number of trains to perform the Boston-St. John service, and that while no actual work has yet been begun these new trains will probably be ready for the route in two to three months. There is a feeling that the present rolling stock, exclusive of locomotives and Pullman cars, is not what it should be, and the new trains will be thoroughly modern in every way. They will consist only of first and second class coaches, the present Pullmans being used.
