Captain Parker charges Chipman, who resides near by, with leading his horse over, with the intention of robbing him. Chipman saps the Captain was drunk and drove over the bank, and that he (Chipman) went to the rescue.

The Magistrate said he had no hesitation in calling the assault a mean, cowardly, uncalled for and unmanly one, and committed with every aggravating circumstance. It could not be justified, but he was not clear whether under the statute it could be called an aggravated astin hand and reverend mien before the ture course. This will be one of the most enjoyable evenings of the course. The change of sentiment in a few years is illustrated by the appearance of Mr. Lanergan on the Institute platform. He will, no doubt, remember that, previous to building the Lyceum, he went with hat tute it could be called an aggravated astin hand and reverend mien before the Mass and Mr.

Liverpool and New York. A FRENZIED MAN STABS HIS FALSE WIFE

Thomas Christopher, a one-legged blacksmith, living near Bedford, Lawrence Co., Ind., entertained a neighbor, John Morrow, last night, Morrow having put up with him for the night. Suspecting an undue intimacy between Morrow and his wife, for a time he watched closely and entering his wife's room about ten and his wife, for a time he watched closely and entering his wife's room about ten o'clock he verified his suspicions. In a fit of frenzy, and armed with a knife, he stabbed his three children, then his wife, and turning upon John Morrow dealt him two cuts on the face. Morrow threw him down, took the knife from him, and plunged it into his body ten or a dozen times, killing him instantly. Mrs. Christopher was stabbed in the abdomen, and her bowels protruded from the wounds. It is thought that she and one child will die.

CANAL BOATS CRUELLY ABANDONED IN A GALE-THE TERROR OF PEOPLE ON

New York, Oct. 21.

A Poughkeepsie dispatch says great indignation is expressed by the boatmen over the conduct of the captain and pilot of the steamer and her tow entered Haverstray Bay, the wind was blowing a gale and notwithstanding one or two boats broke from their fastenings no attention was paid them, but instead, some on board the Alida cut the main hawser which kept them together, and set them adrift. The greatest panic at once ensued on all the boats, and the shrieks of the women and children could be heard above the moaning of the storm. The disengaged boats, all heavily laden, were driven by the wind and tide up the river and striking the steamboat Syracuse forced her with her tow against the dock at Verplanck's Point, tearing away all the sails and crushing in the sides and bows of many vessels. All the women and children who were in the tow huddled together on one boat, and were, with great difficulty, got on shore, where they were kindly cared for by the villagers. The Alida passed down the river and the Syracuse collected her tow. Six boats were lost laden with apples, lumber, marble, lime and grain. The shores near Strong Point were strewn with lumber, and thousands of apples were floating on the river. The schooner China sunk last night near Grass Point. The water in the Hudson is extraordinarily high. All the docks are submerged. In many places the railroad track is covered.

New York, Oct. 21. New York, Oct. 21.

Additional particulars of the raid upon counterfeiters in Tennessee and North Carolina are received. The crusade was the most extended, strategetic, and well-directed ever organized, and resulted in the arrest of about 60 outlaws, with quite a number yet to be heard from. The desperadoes belong in the main to a counterfeiting fraternity, who are banded together by fearful oaths, and deadly ties, known only to themselves, and they have spread broadcast their bogus issue to such an extent as to vitiate the genuine. The circulating medium is nearly one spread broadcast their bogus issue to such an extent as to vitiate the genuine. The circulating medium is nearly one third of it and in some cases it is so widely used as to well nigh bankrupt smaller merchants and tradespeople. After consultation by the authorities at Washington it was determined to place the entire matter in the hands of Col. Whitely, Chief of the U. S. Secret Service Corps, by whom, with the assistance of Attorney General Williams, plans were matured to entrap and capture the guilty parties. Whitely selected from his corps a number of the most experienced officers of the Secret Service. The officers obtained the confidence of the counterfeiters and communicated their doings to the District Attorney at Knoxville, Tenn., and Ashville, N. C. The officers became aware of the organization of counterfeiters in the district in separate gangs all of them co-operating and working together.

Ashville, aware of the organization of them co-operating and working together. each gang numbering 5 to 8 members, reckless, determined and thoroughly armed. Each gang was fully aware of the movements of others and communication movements of others and communication movements of others and communication and 12 Thread Fleecy YARNS, SHETLAND YARNS, S is such as to enable them to summon aid at short notice. Becoming communicative the counterfeiters told where the illicit money was made. It came direct from Ohio and was in denominations of 50 cents fractional currency, 10 dollar national bank notes, 50 dollar U. S. legal tenders of the series of 1869. It was transported into Tennessee and North Carolina as any other commodity by wl olesale jobbers, and dealers, with regularity and precision, and supplied to customers and triends in sums to suit, according to all demands of trade. In addition to the currency trade there was also extensive dealing in counterfeit Mexican dollars, which were principally put off on travellers and emigrants going to Texas and the far West. This money was manufactured in Kentucky. The transactions in both kinds of money were enormous. The criminals include men in every station in life, lawyers, doctors, justices of the peace, post masters, United States deputy marshalls, clerks of courts and numerous merchants. Warrants of arrest for 70 persons have been issued. It is thought 75 arrests will be made.

Ayer's Sarsaparilla.

FOR PURIFYING THE BLOOD, nothing has ever been offered which can compare with this Extract of Sarsaparilla. It is found a great promoter of health, when taken in the spring, to expel the humors that rankie in the system at this season of the year. Many complaints have their crigin in the spring, and in the causes above mentioned, for which no better remedy has ever been devised. By its use multitudes can spare themselves from the endurance of feul eruptions and ulcerous sores, through which the system strives to rid itself of corruntions, if not assisted to do this through the nutral channels of the body by an alterative medicine. Cleanse out the vittated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find its inpurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find its inpurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find its inpurities bursting through the skin in pimples, eruptions, or sores; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people an joy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all it well; but with this pabulum of life disordered, there can be no issting health. Prepared by DR. J. C. AYER & CO.

Hints of Styles. Although new and startling changes of modes have been heralded by merchants and dressmakers for a month past, the "openings" show few radical difference from last season's garments. There are some changes, but the general effects are similar. The line is more marked than eretofore between dresses intended only for house wear and those for the street, and for evening dresses overskirts have abdicated in favor of elaborately orna-

ented trains. The most noticeable alteration is the plainness and tastefulness of the walking uits. A majority of them are made with and a skirt really artistic by reason of its and a skirt really artistic by reason of its appropriateness. The others, as a rule, are made with a single skirt and jacket basque, which unites the desirable qualities of basque and polonaise, and has the awkwardness of neither.

The reliaquishment of overskirts, predicted at regular intervals for the last two years, seems to be an accomplished fact.

years, seems to be an accomplished fact. They are still made, of cours; but the most elegant dresses are without them. For home costumes, overskirts are simulated by trimmings; for street, the jackets and polonaises take their place; and ets and polonaises take their place; and for full and dinner toilette, no pretens f overskirt is made. There is a severity in the style of the new costumes, restful and pleasing to eyes wearied with the involved and meaneyes wearled with the involved and mean-ingless trimmings of the past. Trim-mings are by no me ins firsal e; but they are generally flat and much simpler in design. Gimps and Tringes, woolen and linen laces are as frequently employed as flounces and puffs, and appear by com-purion, the essence of simplicity. The redingote is, in a measure, responsible

piricon, the essence of simplicity. The redingote is, in a measure, responsible for this change, as its plainness demands plainness in the accompanying garments. Buttons are assuming more modest proportions; and though still striking the vision with pain a lefrontery, they seem less of an excrescence than formerly. Skirts are as scant as ever in front and on the sides; the fullness being drawn as far back as possible. The width of walking dresses is not more than three yards and a half or less than three and a quarter around the bottom.

The puff in the back of trained skirts was so popular last winter that it is re-The puff in the back of trained skirts was so popular last winter that it is revived. It is pretty and graceful, and if it leads, as is to be hoped, to sp a ly diminishing of, and final dispensing with, the inelegant and unseemly bustle, it will be a blessing in pleasing disguise. The trains of evening dresses are covered with diaphous puffings, and garlanded with dainty vines of flowers and berries more frequently than they are trimmed with stiff and heavy flounces of the same; but, whatever the decoration, it is arranged with a carefully studied irregularity, of

The fashion of ornamenting the fronts and backs of suits without regard to each other, or to the rules of good taste, still exists; but is likely to die soon of its own ugliness.—Home and Society; Scribner's for November. It is seldom that a woman who com- 2,000 BARS very best REFINED mits suicide selects the ugly method of cutting her throat with a razor, but when

she does do it, she evidently wishes to see that it is done properly. A woman in San Francisco was lately found with her throat cut in front of a looking glass. It was not very well done, however, and it is possible she was only taking a last look at herself in obedience to the ruling

PATENT MEDICINES 48 Charlotte Street, ST. JOHN, N. B.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of Vinegar Bitters?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of Vinegar Bitters in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of Dr. Walker's Vinegar Bitters are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.
