Different Views of the Situation Taken

Madrid, April 12- 9 a.m.—Complete tranquility prevails this morning at the Spanish capital. There were patriotic demonstrations yesterday evening at Barcelona and Valencia, accompanied by shouts of "Long live Spain," "Long live the army," "Long live Cuba," 'etc., but there were no disturbances. Commenting on the message, the Liberal says: "Although the dispatches are extensive, they do not suffice for the formation of a definite conclusion. The mistranslation of a word or phrase would produce a complete misunderstanding, and absolute dependence upon the accuracy of the first transmission in so serious an affair would be affirms and declares in the name of the nation the right of interference in Cuba. Whether a definite or indefinite period is meant, and whether it is a simple intimation, or a fixed decision regarding coming events, Spain must

protest energetically against the principle, prior to protesting violently against the action. No free people can hesitate to reject by all the means in its power a doctrine annulling its personality and reducing it to ignominious tutelage. Consenting to submit to it intention, hitherto veiled with hypocritical ambiguities. HOUSE COMMITTEES. Washington, April 12.-The senate committee on foreign relations resumed its sitting this morning, all the members present. The committee immediately took up the task before it of formulating a resolution defining its idea of the course to be pursued in the present complications with Spain. Many minor differences were developed, but they were not of such a character as to dispel hope of securing a final agreement. The committee i

hopeful of being able to report today, but the report may be delayed so as to The Republican house committee on foreign affairs is unable to agree. resolution is likely to be adopted to-The Republicans of the house who

joined in the conference movement for aggressive action met in the hall of the old library of congress at 11 o'clock to-With the transfer of responsibility to congress, the White House was wellnigh deserted today by the usual con-

tingent from the capitol. PRESS COMMENT. London, April 12.—The afternoon papers here differ in their statements of President McKinley's message to congress on the Cuban question. The Pall Mall Gazette regards it as strong but temperate, and says: "President Mc-Kinley is right in following the constitutional course of throwing upon congress' answer will be. In our opinion tion, and there is no doubt what congress 'answer will be. America alone, are in reality the de-mands of an informal concert of the EMPEROR WILLIAM'S CONGRATUthe message leaves everything in a state of uncertainty, but says: "President McKinley and congress may well hesitate to accept the really serious responsibility of committing the United States to the recognition of bands of brigands as a government."

The Globe expresses the opinion that "It is a message of abdication," adding: "While the situation in Cuba is eminently unsatisfactory, it is a ques-

tion whether American interference on the lines suggested is likely to improve The Westminster Gazette thinks the president's message "has made out an excellent case for the intervention of the United States," adding: "After all, the United States has large claims for intervention in all affairs in America.

The Venezuela arbitration established a far-reaching precedent." CONGRESSIONAL SENTIMENT. Washington, April 12.-Republican congressional sentiment is crystallizing against recognition of independence, but favorable to speedy intervention. In the senate, Senator Lindsay offered a resolution directing the president in Cuban military operations to act in concert with Gomez. The house committee on foreign af

fairs expect to have Gen. Fitzhugh Lee before them this afternoon. The steering committee of the Republicans of the house are generally agreed to yield the recognition of the existing government, but favor immediate intervention and a declaration that whatever government is ultimately recognized in Cuba shall be republican in form and free from the sover-

UTTEES "MIXED UP."

The senate committee is finding it a very difficult task to reach an agreement on the terms of the resolution it will report. There is by no means the same unanimity that there was when the committee first met and decided to report the Foraker resolutions. The indications at the beginning of today's session were that there would be a return to the compromise proposition which was made prior to the receipt of the message. All the Republican members of the committee, with the exception of Senator Foraker, are un-

derstood to be willing to report on these lines, and it is now believed that for the sake of party harmony he may be induced to join his colleagues. BRITISH CAPTAIN'S CHARACTER-ISTIC REPORT. New York, April 12.-The British fruit steamer Taff arrived today from Port Antonio with a cargo of fruit for the American Fruit Company, having crossed the Atlantic from England via Las Palmas to engage in this trade.

Capt. Canrobert, on arrival at quarantine, greeted the ship news reporters with the statement that he "saw the Spanish flotilla at the Canary Is.ands, and they are coming over to smash your crockery. They arrived as I was about to sail. The authorities sent off word for me to display my bunting, but I told them I didn't know the beggars and would not do it. I only saw them at a distance, and had no chance to examine them."

The Chinese regard Great Britain's action as a step which has saved the empire from dismemberment. [Special to The Advertiser.] Ottawa, Ont., April 12.—Time for re vising the Behring Sea sealing regula-tions, as arranged by the Paris award will take place next October. There is nothing incumbent upon either party to the award to meet for this purpose, but an opportunity was given in the award that this could be done if it was considered that any amendments to the regulations were necessary. It is now understood that such meeting will take place, and that not only wil the sealing regulation, but all other matters in dispute between Canada and the United States will come up for consideration at the same time. FORTUNES WASTED.

In Attempts to Cure Dyspepsia and Other Stomach Troubles.

If Dodd's Dyspepsia Tablets Were Used These Diseases Would Vanish From Canada, at One Hundredth Part of the Outlay.

"Give me the money that is paid to doctors every year, for their vain efforts to cure Indigestion, Dyspepsia, Biliousness, Wind on the Stomach, and other stomach troubles, and I'll clothe every ill-clad person, feed every hungry one, build houses for the homeless, and build a church or a school house at every cross-road in the Dominion." So spoke a physician a few days ago. He did not over-estimate the enormous waste of money in this direction. Hundreds of thousands of dollars are thrown away yearly on this purpose. If all who suffer from these diseases would quit doctoring, and use Dodd's Dyspepsia Tablets, hundreds of thousands of dollars would be saved, and hese stomach diseases would be unknown in Canada. For Dodd's Dyspepsia Tablets cure these complaints, as certainly as the sun melts the snow. If you don't believe it-test them. They'll convince you by curing you. The doctor who restricts himself to the treatment of one disease can cure that disease when the physician who treats all diseases fails. Just so with Dodd's Dyspepsia Tablets and stomach diseases. Dodd's Dyspepsia Tablets were made to cure these diseases

Dodd's Dyspepsia Tablets are sold by all druggists, at 50 cents a box, six poxes \$2 50, or will be sent on receipt of price by the Dodds Medicine Company, Limited, Toronto.

-Handsomely Equipped.

They Will Have All the Comforts

The Grand Trunk Railway have adopted a new and excellent plan, which will do away with the inconvenience of having their repair and road men (when at work on the road) putting up at hotels or returning

They have had constructed at the car shops here a set of three cars, known as the "road department equip-They consist of a dining kitchen and sleeping car. The kitchen car is fitted up much the same as a residential kitchen. There is a large steel range, and a refrigerator in one end, while in the center is the sink. A neat pantry and cupboard are also at hand. Pots, frying pans, dishes of all kinds and every utensil to prepare and serve an excellent meal are at the convenience of the cook. A large carving table stands on one side of the car. A regular cook will be taken along to look after this department. The dining car is arranged with two

long tables which stretch nearly the length of the car. The seating benches are movable, and can be taken up and stowed under the tables, leaving a large space in the center which can be used for a sitting or smoking room. The foreman's office is situated in one end of this car. It is about 12x8 feet square, has a bunk, wardrobe, lamp, desk and all writing material. The sleeper is fitted up with ten double sections or a sleeping capacity of twenty persons. Each bunk is fitted up with mattress, quilt, blankets and sheets, just the same as in any There are racks and hooks for hanging clothing on, and a small stove in one

Each of the above cars is also supplied with a water tank of 100 gallons capacity, and all are well lighted and ventilated. The men when on the road will jus work the regulation day hours, and

then repair to their department cars. which will be side-tracked until the repairs or track laying is finished. A second set of three cars is under onstruction. Mr. King, superintendent of the car said that everything possible would be done to give the men "all the

Concluding Paragraphs of President McKinley's Message.

The concluding portion of President McKinley's message to congress had not been received when The Advertiser went to press last evening. It is as Reference is then made to the blowing up of the Maine, and to the report of the court of inquiry, the members

of which, the president adds, "command the unqualified confidence of the government. After quoting the reports of the United States and Spanish courts of inquiry, the president says: In any event, the destruction of the Maine, by whatever exterior cause, is a patent and impressive proof of a state of things in Cuba that is intolerable. That condition is thus shown to be such that the Spanish Government cannot assure safety and security to a vessel of the American navy n the harbor of Havana on a mission of peace, and rightfully there. As to

the question of fact which springs rom the diversity of views between he report of the American and Spanish boards, Spain proposes that the fact be ascertained by an impartial investigation by experts whose decison Spain accepts in advance. To this have made no reply. In my annual message to congress, in December last, speaking to this question, I said: "The near future will

demonstrate whether the indispensable condition of a righteous peace, just alike to the Cubans and to Spain, as well as equitable to all the interests so intimately involved in the welfare of Cuba, is likely to be attained. If not, the exigency of further and other action by the United States will remain to be taken. When that time comes that action will be determined in the line of indisputable right and duty. It will be faced without misgiving or hesitancy in the light of the bligation this government owes to itself, to the people who have confided to it the protection of their interests honor and to humanity. The long trial has proved that the object for which Spain has waged the war cannot be attained. The fire of insurrection may flame or may smoulder with varying reasons, but it has not been, and it is plain that it cannot extinguished by present methods. The only hope of relief and repose from condition which can no longer be endured is the enforced pacification of Cuba. In the name of humanity. the name of civilization, in behalf of endangered American interests, which give us the right and the duty to speak and to act, the war in Cuba must stop. In view of these facts and of these considerations, I ask the congress to authorize and empower the president to take measures to secure a full and final termination of hostilities between the government of Spain and the people of Cuba, and to secure in the island the establishment of a stable government, capable of maintaining order and observing its international obligations, insuring peace and tranquility and the security of its citizens, as well as our own, and to use the military and naval forces of the United States as may be necessary for these pur-

And in the interest of humanity, and to aid in preserving the lives of the starving people of the island, I recommend that the distribution of food and supplies be continued, and that an appropriation be made out of the public treasury to supplement the charity of our citizens.

IN HER BRIDAL DRESS. After Mourning Her Dead Lover Ten

Years, a Young Woman Commits Suicide. Chicago, April 12.-Miss Lillian Higgins, attired in her bridal dress of white that had been folded away for ten years, and with a bouquet of spring flowers in her hand, lay down to joi in death the lover who had preceded her ten years ago. She killed herself at the home of her aged father, with whom she lived.

When Miss Higgins was 19 years of age death carried away a young man to whom she was betrothed within a few days of the time set for their wedding. For ten years she bore up under the sorrow that at last over-whelmed her. During the last three weeks friends of the young woman noticed that she seemed more than usual to show her old sorrow, and was in depressed spirits and conversation. Sunday evening she spent in writing letters to friends. Yesterday she was found dead in her room. She had taken laudanum.

The most pleasant and harmonious held its annual Easter vestry meeting naster, had rendered excellent service. the most pleasant and harmonious The rector's report stated that the ever held. The reports were very the good work being accomplished. Their new building had cost \$7,959, and of this \$6,400 had been borrowed on mortgage, and the rest had been subscribed. The general receipts for the year mounted to \$3,408. Some \$243 was spent on chancel improvements and sundries.

The rector, Ven. Archdeacon Davis, occupied the chair and made an eloquent address, reviewing the work being done and thanking the choir and officers of the church. This is Mr. Davis' 25th year as rector of St. James' Church Mr. R. B. Hungerford was elected

rector's warden, and Mr. J. M. Dillon as people's warden. The sidesmen elected were: East side, Messrs. Foster, R. E. Davis and Lawson; west side, Messrs. Webb, Hart

Mr. Harry Pope was re-elected vestry clerk. Auditors elected-Messrs. Lawson and R. E. Davis. Special votes of thanks were tendered to the following for presentations to the church: R. W. Puddicombe, large window; Mrs. C. S. Hyman, beautiful brass lectern; Mrs. Burkholder, handsome memorial window: Mrs. Clifford, two brass prayer desks:

Archdeacon Davis, brass pulpit, and to Mr. Thomas Kent for his generous donation of \$400. The building com-mittee, wardens and other officers were also tendered thanks. Reference was then made to the high standing of the choir, and it was decided to increase the salary of Mr. V. Reeve, organist and choir master. The sexton's salary was also increased. The usual grant was made to the Sunday school.

A committee was appointed, with Mr. John Pope as chairman, to see the contributors and ascertain whether the Sunday offerings could be increased.

St. Paul's Canon Dann presided over St. Paul's vestry in the absence, through illness, of the Dean of Huron. Those present S. Pearce, churchwardens; A. G. Smyth, vestry clerk; and Messrs. G. F. Irwin, W. T. Strong, E. Paul.

The meeting appointed R. Bayly, Q.C., E. Pauli and Dr. C. A. Sippi as delegates to the synod. Messrs. W. J. Reid and J. S. Pearce were re-elected churchwardens. The churchwardens, in their report, noted the marked improvement in ordinary collections since the introduction of the coupon system on June 1. They hoped all pewholders would become subscribers. Some 22 acres of land had been added to the west side of Woodland cemetery, which was being steadily beautified and improved. The financial statement was:

A Safe Entry, Through Canada to the Yukon Gold Fields.

The Ottawa correspondent of the Toronto World sends a communication to that paper, which says:

"Within a very recent period the Government has had an eye-opener in regard to the Stikine route, which has put an entirely different complexion on the condition of affairs since the contract was signed in January. Negotia-tions with Washington regarding the regulations to be enforced at Wrangel took place long after the Mann-Mc-Kenzie deal, instead of long before, and what is the nature of the comnunication which Sir Julian Pauncefote has had to make to the Dominion American Government takes a liberal riew of the treaty of Washington, and is prepared not only to concede the free navigation of the Stikine, but manshipment at Wrangel without paymonths. Our American friends turn round and ask the British ambassador what do you propose doing during the other months? Canada's reply is: 'Oh, our people will travel up the river on house, and it is a physical impossibility for men, with dogs or horses, to travel under such conditions.

'Well, then,' says Sir Julian, who is carrying on the conversation for Canada, 'our people will land on the shore and follow the windings of the river all the way up to Glenora.' 'Ah,' replies the head of the treasury department, 'but the free naviga-

tion of the Stikine can only apply to the waters of the Stikine. Nothing will justify your contention that Canada has the right of free access to or through the 30-mile strip of coast, which we claim as our own. treaty rights refer to the river and to the river alone. "Thus it is that Sir Julian has had

to convey the unwelcome news to the Government that the railway policy which, in such a hasty way, they en- five times as much to maintain the at a bicycle. It is pretty clear that the correspond-World, in the above story, has drawn largely upon his imagination

We believe we are correct in saying Government ce Canada have ora. Whoever has taken the trouble contract which the majorty of the Dominion Senators did the the injury to defeat, knows that the Government of Canada contracted for the construction of a road from Teslin Lake during the present season, to be opened throughout by September. The Dominion Government also made the additional arrangement | with Messrs. Mann & Mackenize, the contractors, for an extension of the road to Portland Canal or Observatory Inlet, both within Canadian territory.

The Government of Canada never for a moment contemplated the construction, under the Washington treaty, of a sleigh road from Port Wrangel to Glenora. Canadians have the right to navigate the river during the winter as well as during the summer season, but no one for a moment has contemplated a road upon the ice, however excellent it might be, as a permanent means of communication. While the Government of Canada might be entitled to use the road by the river in the winter, it would certainly not be entitled to use the land of the United States on which to construct a road. It is indeed too absurd to require argument to suggest that there was ever any intention on the part of our authorities to depend upon the Stikine alone, except during this season and the early part of next sum-

We have no doubt whatever, if the British Columbia Government is ready to join the Dominion authorities, that railway will be completed to Portand Canal or Observatory Inlet at a very early day, and so there will be a road reaching from inland navigation to the sea in Canadian territory, and capable of being used throughout the

entire year. The Government of Canada has no ntention-nor would the people of this country sustain them if it so undertook -to establish a line of railway to the Yukon region which would have its terminus in the United States or in the at present disputed territory. To do so would be to injure the interests of Canada, and to build up commercial centers whose sympathies would be wholly with the United States. The trade of the Yukon territory must, as (ar as good government can compel it, take over the island as its ward, in feetly satisfied that the people of the troublesome problem on its hands. Along its entire length it is probable that a large mining population will find scope for their energies. It would hardly be a patriotic move for the Government and people of Canada to undertake to build up United States cities and to open up the trade of so important a district to the United States, leaving it closed tuthorities? In effect it is that the against the merchants and manufacturers of this country.

The Government of Canada justified its action-and it was perfectly justifiment of duty. Nothing could be fairer han that, but how long will it last? At the very outside limit navigation of the Stikine does not exceed five are thoroughly competent contract to black kenzie & Mann, because of the urgency of the situation. McKinley Goes Slow; Will Congress Stampede?

President McKinley's message, printed in The Advertiser yesterday afternoon, is a strong document in one reprevailed in Cuba could scarcely be put in language more caustic. Law and order have failed in the island, President McKinley says; the Spaniards are unable to restore them; the situation is intolerable; the trouble has continued president desires Congress to give him the right to use the army and navy of the United States to establish good government in Cuba. War might or might not result from such a course; but the president says he does not mean to concede Cuba's right to independence at this stage.

The armistice which Spain has declared brings a new element into play. What Congress will do must be revealed in a very short time. The general opinion of the masses of the people has, up till now, been in favor of a vigorous policy for the driving out of Spain from the island, even were war necessary to secure that result. Calmer second thoughts seem to have modified the views of many of our neighbors. It is generally recognized that war is no unlimited pienic, and that win or lose armed hostilities are certain to bring irreparable loss to the participants. There has also been a certain growing misgiving as to whether the great mass of the people of Cuba are fit for independent self-government. The question has come up as to whether, in the event of Spanish rule being thrown down in Cuba, the United States Government, in spite of its protests to the contrary, might not be compelled to done by Canadians. It is evident that the financial interests of the country-the influence of those who have anything to lose by a clash of arms and the disturbance of commerce incident thereto-have been exercised in the direction of moving Mr. McKinley to seek for a peaceful settlement of the question. These interests do not look for hostilities at the present time. The quotations of stocks at the close of yesterday's dealings, as chronicled in last night's Advertiser, were on the whole somewhat higher, proving that the belief was that a way out of the difficulty may be found without

Nevertheless, we must bear in mind that the Senate and House of Representatives of the neighboring republic are liable at any moment to stampede in favor of drastic measures, and to sweep the president and every other halting agency before them.

Spring is a Wolf In Sheed's Clothing...

The gentleness of Spring, of which the poets sing, is, to a certain extent, visionary. There is more disease and sickness wasted about on the gentle spring breezes than is carried along by the gales of a blizzard. "When Spring unlocks the flowers that paint the laughing soil," it also frees from the frozen

clutch of winter the imprisoned germs of disease. Each melting pile of a winter's collection of dirt and snow exhales disease-ladened fumes. Your health, at this critical season of the year, depends on whether your system is strong enough and your blood pure enough to withstand the disease that lurks in the spring atmosphere.

ABBEY'S EFFERVESCENT SALT

purifies the blood; strengthens the system; imparts energy to every portion of the body; prevents disease. IT IS NOT ONLY A SPRING MEDICINE. It is a general all-the-year-round tonic, in all climes at all times. Its use in the spring-time will do you more good than many self-styled spring medicines. The daily use of Abbey's Effervescent Salt gives robust, energetic health and a clean system. Do you take it daily? If not commence now. You could not choose a better time.

MONTREAL, April 11.-The live stock market is never of much account here on Easter Monday, and today was no exception. There were about 125 head of butchers' cattle and a few calves, sheep and lambs offered for sale at the east end abattoir today. Very few sales were made during the foreoon, and prices continue about the same as on Thursday, quality considered. The highest figure paid for cattle was about 4c per lb, but some were

held for more. It is probable that more that half the cattle will have to be held for a future market. There have been no live hogs on the market since Saturday morning; the last sale reported was at 4% c per 1b. NEW YORK, April 11.-Beeves-Re-

Senatorial Views of the President's Message.

Foraker, of Ohio, Has No Patience With the Document.

The Conservative Element Indorses Its Recommendations.

Future Relations of Spain and the United States Now in the Hands of Congress.

Gen. Lee's Significant Toast-U. S Consulate at Santiago De Cuba Mobbed.

SENATORIAL COMMENT. Washington, April 11.—The president's message did not, after the first reading, receive the indorsement of a majority of the senators, and many excused themselves from speaking about it until they could have time for carejections were based on the ground that ing the rights of the Cubans. The World surprisingly little. There is not senators who have been especially a word to suggest that Spain has in noted for their conservatism were any way sinned against the United pleased, but they were the exception to the rule, and many of these, who The crisis arises from the determinahad in the past few days shown a tion of the American Government to position. A large number of the Democratic senators refused to express themselves at all, as did several Republicans, on the ground that as they publicans, on the ground that as they could not speak in complimentary terms they would say nothing at all. Receipts, 135 cars, which included 22 on the subject of the message was that cars of Canadian stock; there was a of Senator Foraker, Republican, from is still inevitable unless Spain makes fairly active demand for good fat butchers' light steers, good fat cows and heifers at steady to strong prices; the president's own state, and a member of the committee on foreign relations. He said: "I have no patience" common grades were about steady, but with the message, and you can say so. Senator Mills (Democrat), of the same committee, said: "Without referring to the message specifically, you can say I am for the indeps idence

of Cuba, and for war on account of the Maine. Senator Cullom (Republican), also of the foreign relations committee, commended the document. He said: "It is a strong paper, a well prepared and careful review. The senate may go farther than the president recommends, but it will have a strong influence in shaping the course of

events." Senator Hawley, chairman of the committee on military affairs, pronounced it an able paper, and said he thought it would meet with general approval. Said Senator Elkins (Conservative

Republican): "It states the case admirably, and it will be sustained by the people and by congress." Senator Allison, chairman of the committee on appropriations, would only say: "It is a very good message." Senator Hale (Republican Conservative), chairman of the committee on naval affairs, said: "The message is admirable in all respects, especially so in that it points out the way whereby Cuba can be a good government and be free without bringing us into awkward international complications." Senator White (Democrat), of Cali-

fornia, who opposes any interference in the Cuban question by this coun-try, would only say that "the administration appears to be getting all Senator Tillman (Democrat) thought was illogical, and that the president's recommendation of means was inadequate to accomplish what he

wants to do. Senator Pettigrew said: "It is the weakest up. It sums up the situation by saying we must recognize neither belligerents nor independence, but intervene to stop the war. Spain has already accomplished this result, by granting a cessation of hostilities, thus leaving us nothing to do but to continue to make appropriations to feed the Cuban people.

The senate committee on foreign relations, after hearing the message read, went into session, but reached no definite conclusion. From the fact that the Republican members held a consultation after the meeting adjourned, and what was said regarding it, the inference was drawn that some strong measure was necessary in order to carry any action by the committee through the senate. A declaration of war was talked of, and a declaration that the people of Cuba should be free, coupled with authorization to the president to bring this about by armed intervention was suggested. It is well known that any proposition advanced will meet in the senate with an amendment declaring the independence of the present Cuban Government, and to so frame a resolution as to carry a majority of the senate and at the same time meet the recommendation of the president, is the result which the foreign relations committee is trying to secure.

The temper of the house could not be accurately determined, but there, as in the senate, the proposition for Cuban independence has to be met. Any report from the committee en foreign affairs that does not carry with it this feature will be antagonized by many Republicans will favor it,

THE SITUATION.

The future relations of the United States to Spain and to Cuba now rests with congress. The foreign committees of both houses have now the subject in their control, and after due deliberation will report to their respective branches what they consider should be decided to dispose of their stock and the attitude of the United States on

resent. The work, which has aring in on him so much, has him out on the street.

BRITISH COMMENTS. London, April 12.-The Daily News, commenting editorially upon the president's message to congress, says: "The message is a vigorous and able document. Undoubtedly it means war, unless Spain agrees to make final terms with the insurgents and to recall her troops from Cuba. It must convince Europe that the cause for American intervention is a very strong one. President McKinley's refusal to recognize the independence of Cuba on the ground that it would nullify America's claim to interfere is sound sense, and a staggerer for the jingoes; but Spain must loyally co-operate with him if

war is to be averted." London, April 12 .- The leading British papers comment on President Mc-Kinley's message.
The London Standard says: "The undisguised disappointment of the jin-goes at the subdued and cautions tone of the message cannot fail to cheer the friends of peace. Assuming an obligation to send the message at all, one could hardly have been drafted on lines less calculated to cause superfluous offense. It is a pity, how-ever, looking to the attitude of Spain, that President McKinley could not have further postponed the message."

The Times says: "The message is not couched in harsh language, though it leads up to a policy which involves harsh judgment although one justified

Many Members Said to Favor a by the sentiment of the civilized world on the treatment of Cuba." After expressing a fear that Spain's offer of an armistice comes too late, the Times comments upon the "grave responsibility which President McKinley throws upon congress." It thinks that if debate could be suspended for a week there might be a chance of peace, and it expresses regret that President McKinley "surrendered his initiative," adding, "He was fully entitled to keep the question in his own titled to keep the question in his own hands and thus to have gained timean indispensable condition of peace." The Morning Post says: "The studious vagueness of the message-except in that it plainly notifies Spain to choose ful perusal. The Daily Graphic thinks the president's message is bound to lead to war. It says: "Spain will, of course, resist interventiin, and war will result. But the duty of the United States lies not the less in the path now marked out for her by the president."

The Daily Mail and Daily Telegraph admit that the message leaves the question of immediate war undetermined, but declare the eventuality of war certain, "as it is impossible for Spain to accept the only conditions which will avert war"

The Washington correspondent of the Daily News says he believes that peace is secured, President McKinley "having succeeded in dividing the advocates of The correspondent also says: "The pacific tendency of the message is sufficiently proved by the fury of the jingoes."

The Berlin correspondent of the Times, with reference to the German Government's protestation of absolute neutrality, says: "Scrupulous neutrality on the part of the government does not, however, prevent the Hamburger Nachrichten (Bismarckian) from comparing the United States to an incendiary, who, after setting a house on fire, strives to demonstrate his innocence by seconding the efforts of the fire brigade." WOMEN WILL TALK.

CAN'T BLAME THEM FOR TEL-LING EACH OTHER HOW TO GET RID OF WEAKNESS, NERVOUSNESS AND ILL HEALTH.

It's only natural that when a woman finds a remedy which relieves her pains and aches, restores her health and strength, puts color in her cheek and vitality in her whole system, she should be anxious and desirous to let others

know about it. Mrs. R. V. Thompson, who resides on Archibald St., Moncton, N. B., tells the following story:-"My heart was in a very weak condition, and I was troubled with starting pains through my left side, which sometimes almost took my breath away. I doctored a great deal and had advice from the physicians, also took many remedies, but they only gave me disappointment. From the very first Milburn's Heart and Nerve Pills gave me relief. My appetite improved, I gained in strength every day and now feel restored to perfect health. My heart now acts regularly and naturally, and the feelings of nervous anxiety have entirely gone away."

DAN GODFREY

Heintzman & Go. Piano.

The approaching visit of Dan Godfrey, the well-known composer, and band master of the Grenadier Guards Band, and professor of the Royal College of Music, London, Eng., suggests the letter written by Mr. Godfrey to Heintzman & Co., at the time that this firm made their exhibit at the Colonial Exhibition in London, Eng. This is the letter:

MR. GEORGE HEINTZMAN:

DEAR SIR, -- As you invited me to test your pianos at the Exhibition (Colonial) in comparison with others, I had the pleasure of trying them yesterday, and I must say they astonished me. The concert grand has a fine tone quality, being full and powerful. The singing quality, especially in the treble part, is beautiful, and the instrument is well balanced throughout the whole scale. As regards your uprights, they are, especially the large, beautiful-toned instruments. I was specially charmed with them. I must say I am not surprised at the success you have met with your instruments in England.

(Signed) DAN GODFREY.

UNITED STATES CONSULATE MOBBED.

Kingston, Jamaica, April 12 .- It became known yesterday that a few nights before Mr. Hyatt, the United States consul at Santiago de Cuba, left that port under instructions for Port Antonio, Jamaica, a mob of Spaniards made a demonstration before the consulate, and threw tomatoes, eggs and stones at the Stars and Stripes floating over the consulate. The crowd which took part in this demonstration had just left a theater where a per-formance had taken place for the purose of raising funds to increase the strength of the Spanish navy. The Spaniards surrounded the consulate, outing "Death to Americans!" "Long live Spain!" etc., and in so doing pelted the flag as described. The mob was

building operations begin, but they are only rumors. Mr. Joseph Hawthorne, secretary of the Bricklayers' Union, said no trouble was anticipated. The union was sufficiently strong to cope with anything which might come up. A special meeting, he said, was held on Saturday night to consider a special case—that of a city contractor who had employed two non-union stonemasons.

The union bricklayers refused to lay brick on the foundation, and although it was completed last week no more work had been done. Mr. Hawthorne thought everything would be amicably settled without friction. He hoped soon to see the Normal School in course of erection, as this would be a boon to the trade. There is not likely to be any difficulty over wages. The scale of 331/2 cents per hour, or \$3 per day, will remain in force. Another meeting will be held on Monday night.

-Jottings Around the City Hall.

About 200 ladies, gentlemen and children met Prof. Speedie, the Kirmess director, in the city hall yesterday afternoon. Prof. Speedie at once picked out volunteers for the following dances: The Greek Scarf, Portuguese Tambourine, Scottish Baby, Flower Gavotte, Garland, Maypole, Flower, Gypsy and Russian Sleigh Bell. Classes for the British Flag Drill were also chosen, and the young ladies who will personify the Gypsy Queen, Kirmess Queen and Goddess of Liberty were singled out. Prof. Speedie could place nearly 200 more volunteers, as he has yet to form several groups, including Ireland, in the Irish jig; Holland, in the Dutch wooden shoe reel; the Greek dance for Greek ladies, and England, in the fishers' hornpipe. The gentle-men for the cake walk are asked to come out on Wednesday evening at 8 o'clock. All young ladies willing to participate in the British Flag Drill are also asked to meet the professor at 3 o'clock Thursday afternoon. He will be at the city hall every afternoon and evening until the Kirmess is ready, but no one needs to drill more than three times a week, and then only for an hour and a half. Mr. Speedie came to London direct from East Liverpool, Ohio, where a Kirmess closed Saturday night. He is much pleased with the prospects here. CHAPTER IV. While Mabin was still talking to Runolph in the road between The Towers and Stone House, a tall parlor-maid, in snow-white French cap and ends passed them, on her way from the former to the latter house, bearing a letter in that you should be in such a hurry to the latter house, bearing a letter in that you should be in such a hurry to go there!" objected Ethel. "But person heaten."

found that the Powers had aiready received Mrs. Dale's invitation to Mabin. In truth, it had put both husband and wife into a position of some difficulty. For while on the one hand they were delighted at this opportunity of getting "the one too many" off their hands for a time, yet there were the opinions of their neighbors to be considered ; and the tide of public feeling had set in strongly against the lady

If her hair had been dank instead of fair it would have made all the difference. The beauty which goes with brown hair and a more or less dark complexion is not so startling, not so sensational, as the loveliness of pink and white and gold which made Mrs. Dale so conspicuous. If, again, she had not been in mourning, and such pretty mourning, they would have been readier to make allowances for her eccentricities. But the knowing ones had begun to discover that there were discrepancies in her attire, that her mourning was either too deep for diamond rings to be permissible, or not deep enough for the heavy black veil

So that, in short, it was now almost universally admitted that this person time, or without unnecessary hurry. with the too showy carriage and horses and the dangerously pretty face, was friend, Mrs. Haybrow, was expected on an individual to be avoided; and it a short visit before the migration fail-was decided that her reluctance to en- ed to check the fury of the packers. "I think, dear, that it would hardly do," murmured the lady, hoping that hobbling along the garden path, rather think that much importance should be with her views. "You must have heard the way in which people talk about this Mrs. Dale, so that it would be thought very strange if we let Mabin stay with her. "Not scold, of course; but I am sure she would disapprove," said Mrs. Rose "Ah. I thought so. Well, I will give the old lady something to talk about then. Mabin shall stay with Mrs.

Dale if she wishes." "She will wish it, of course. Girls always wish to do the very things which are not proper for hem." "You may be quite satisfied. Emily, that what I allow my daughter to do is quite proper." said Mr. Rose, severely, as he left the room.

Mrs. Rose sighed. She had not told him, because it would have been of no use, that she had to be more particu-Lar than he about Mabin, because, being the girl's step-mother only, she was the more exposed to the gossip of the neighborhood-a fear she dreadedthan her husband was. But she vented

Emily and Ethel, who were 14 and 12 years of age, insipid and spiritless

young persons, with little brown eyes and little brown pigtails, teased her with questions about her visit of the "Is it true that her hair's dyed? asked Emily, getting Mabin into a cor-

She had a superstitious feeling, in spite of her reputed strength of mind, that anything worth having ought to rather difficult to get. In spite of all her loyalty to her heroine, too, she thought more often than she wished about Rudolph's ridiculous fancy that Mrs. Dale was watched. And although she always dismissed the thought by saying to herself that Rudolph was in love with the lovely widow, and therefore fancied things, she was anxious to meet him again, and to learn whether he still thought that the fair tenant of The Towers was being watch-

In the meantime, great confusion reigned at the Stone House. Everybody was immersed in the horrors of "packing up," and it was impossible to go upstairs without encountering people staggering under the burden of a heap of things which would have been better left behind. "I have thought for a long time," writes Mrs. Rose Petty, of Lockville, Chatham Co., N. C., "that I would not do you justice if I did not write and tell you how I was cured of that dreadful disease called consumption, by using Dr. Pierce's Golden Medical Discovery. I had measles and pneumonia both at the same time, and came near dying, and as soon as I was able to go out I was taken with grip, and then followed consumption. My physician did all he could for my relief but I received none. I tried everything that I could hear of that was good for a cough but grew worse, and would have died soon had I not commenced using the 'Golden Medical Discovery.' I felt improved before the first bottle was finished. I took six bottles, and after that I felt better and stronger than in ten years before. "That depends," said Rudolph, looking down with interest at the driedup blossoms of the lilac trees. (To be Continued.)

Plans Were

Something Was Done by the Hospital Committee.

McBride & Farncombe's Design Was Approved by It.

Their Preamble Ended-Balloting by the Doctors Close-Another Meet-

ing Friday.

The hospital building committee did something last night. And when they got "going," they covered a good deal of ground. (McBride & Farncombe's plans for the new building were adopted, Mr. McBride was appointed the architect to superintend its construction, the building was named the Vic-

toria Hospital, and other details were considered. The doctors, when they balloted on the several plans Good Friday night were not of the one mind apparently that they were supposed to be. Fortytwo of them had previously declared in favor of the trust plans, yet the ballots showed only 24 in favor of the trust plans, while there were 20 in favor of McBride & Farncombe's plans. All the members were present, and Ald. Winnett was also on hand.

The chairman, Ald. Carrothers, reported on the meeting of the medical men Friday night, and said that he and the secretary had opened the ballotbox during the afternoon, and were ready to announce the result, which the secretary then reported as follows:

second choices in each case be added together, and the results compared. Ald. Hunt considered that would be unfair. It would be better, he argued, itect Matthews, and the one for Architect Bodley, had been marked with reference to the McBride, and Moore & Henry plans.

The ballots were produced, and show-Mrs. Dale, although Mr. Rose had callbeen given to Mr. McBride's plans. Ald. McPhillips asked as to the number of ballots cast, and the chairman replied that 50 medical men had voted,

Moore & Henry's plans received within one vote of all the others. He did not attached to the second choice. The mayor held that the fact that the Craddock plan had received no firsts and nine seconds showed that And then above the wall she saw the there had been the intention on the part of some to knock out some other plan. He wanted the ballots looked up

The secretary found that of the nine, six voted for the Moore & Henry plan, two for the McBride & Farncombe and one for Bodley. The motion of the mayor to con-

sider the first and second choices to gether was put and carried. "Well," said the chairman, "you don't need long to count it up. It stands 28 Ald. Wilkey-I consider the Moore & Henry plans the choice of the medical men of the city. The Mayor-I don't look on it that

Ald. Wilkey-It is the first choice that ounts, and Moore & Henry's plans have received within one of all the others. I move that they be accepted. The Mayor-I move that McBride's plans be accepted.

The chairman said a seconder was necessary, and Ald. Jolly filled the bill. Ald. Gerry said the question was, Could McBride & Farncombe's plans be built for \$70,000? If it would not cost more than the Moore & Henry plan he would favor it, because there was more

been taking a great deal of pains, and we are ignoring them altogether. The Chairman-None of the trust have ever been here to see these plans. The question of cost was raised. The mayor said that Mr. McBride had figured it up very closely, and found that the cost would be \$69,300 on his plan. Ald. Hunt, in defining his position, said that while of the opinion that the medical profession was unanimous in their choice of one plan, he was prepared to stand by them. But the majority of four he did not consider of any im-

portance. The mayor and Ald. Wilkey each added to their motions provisos that the building be completed, including heating apparatus, for \$70,000. The mayor's motion carried, Ald.

Wilkey voting nay. "Make it unanimous," said the mayor. "No," said Ald. Wilkey. "My vote stands. But I am with you now." On motion of Ald. McPhillips, the name of the new hospital was unanimously fixed as the Victoria Hospital.

A discussion as to the time of completion ensued. Seven months was stated as the probable time. Mr. McBride being sent for, was asked what percentage he would charge. He replied that he expected the usual fee of 5 per cent. But he would be willing to pay for a clerk of the works. Ald. Wilkey asked if it were not customary on a big job for the architect

to charge less than 5 per cent. Mr. McBride said it was not. "Any architect who accepted less than 5 per cent had no business in the associa-

tion," he said.
Ald. McPhillips moved that the warden of the county council be notified of

Winged Pest Drives a Baltimore Church Congregation Almost to

Baltimore, Md., April 12.-The rector, congregation and Sunday school of the Protestant Episcopal Church of All Saints, at the corner of Baltimore and Monroe streets, are almost in despair over an ever-increasing pest of winged bugs, which have made the lower rooms practically useless, says the American.

The bugs are here, there and everywhere in the Sunday school rooms, and they are not numbered by hundreds or by thousands, but by millions. The supply seems to be inexhaustible. They eat their way through the flooring, put holes in the carpet, and spread themselves over the floor so thickly as

After a short residence in Ontario, Dr. and Mrs. Wilson will move to Nebraska. Varied and costly were the wedding presents, among which was an elegant gold watch for the bride,

the gift of her father. The groom's gift to the bride was a beautiful opal pearl ring." WESTERN FRUIT PROSPECTS. Government Inspector Fisher has returned to the east via Windsor, after an extended trip through the southern part of Essex county gathering data for an extensive report on the San Jose plague. He secured numerous specimens of this plague in its various stages. He reports the fruit trees to date as in an uninjured condition by the late frigid wave, noticing but a few trees that seemed to be affected, and he felt assured that if no further cold snaps came they will be all right.

FORMER LONDONER WEDS. The St. Thomas Times thus chronicles the marriage of a former Londoner to an estimable young lady. Very many friends of the groom in this city will wish him and his helpmeet long life and much happiness in the new sphere upon which they have entered: "A quiet wedding took place in Trinity Church at 10 o'clock this morning when Mr. James S. Brierley, proprietor of the Journal and Montreal Herald, was united in marriage to Miss Alice Gossage, daughter of Col. B. W. Gossage, of this city. Rev. Canon Hill performed the ceremony. Mr. and Mrs. Brier-ley left on a wedding trip to Toronto. Miss Eleanor Brierley, sister of the groom, acted as maid of honor. The bride was becomingly attired and the ceremony was witnessed by a large number of persons."

EXCITING PAPER CHASE. The juniors of the Y. M. C. A. gave a paper chase yesterday afternoon. A finer day could not have been desired, with snap and vim, and report having enjoyed their run immensely. The hares were C. Williams and A. Treleaven. They started at 2:22 and arrived back at 2:59. The hounds finished in the following order: Gordon Butler, Percy Charles Screaton, James Porteous, Geo. Walsh, John Ferguson, Allan Fisher, Harry Treleaven, Fred Jeffrey, J. Rod-gers, C. Hutton, C. Swift and R. Spry. The route taken by the hares was Queen's avenue to Waterloo street, then south to King, through a lane to York, east to Colborne, down Colborne to Simcoe, up Simcoe to Maitland, then to Hill street, across the railroad track Trafalgar, and William streets, down iver bank to Wellington, and north to the association building.
