#### Correspondence

A Letter From the Water Commissioners.

First, as to your statement that the Komoka scheme is the costliest.

the value of any scheme to the city at present is to estimate the cost per million gallons of the water to be obtained from it. The independent scheme is estimated to relieve the present system to the extent of 500,-000 gallons only, and the annual cost of this system to supply this amount Farthing breakfasts have been start- is \$24,000, which is at the rate of \$48,ed in Exeter for the children of the 000 per million gallons. Compare this with the Komoka scheme from which

Sir Douglas Brooke, fourth baronet. we will receive, not two million galof county Fermanagh, has died at lons as stated in your editorial, but three million gallons as estimated by A letter addressed to "The man who our engineer, for a total cost of not wears the tallest hat in Bristol" has more than \$35,000 a year, when the three million gallons are being used, and a cost of less than \$30,000 at the outset, when we will not require so large a quantity. At the highest figure mentioned above the cost per million against \$48,000 per million for the In-In the name of fairness and justice,

We want to state in the most emphatic manner that the Komoka AT 6 O'CLOCK scheme courts the fullest investigation, and the publication of every fact, efit by bequests of £7,500 under the but conclusions such as were drawn dependent system is cheaper than Ko-

You then spoke of the division of comparison unless we adopt some such commissioners hoped to get it down in looking at two barrels of flour of un-

# .adies' "Knit-to-Fit" Underwear

STORE NEWS TODAY.

Stop for a moment at our Ladies' Underwear Department (even if you don't intend to purchase) and ask to see the Knit-to-Fit Garments. Examine the seams inside, which are handfinished with silk, and see the silk-crocheted edges. Notice how elastic they are, also the softness

"KNIT-TO-FIT" Garments are washable, and never shrink, providing care is taken to soak them before washing. Avoid unnecessary rubbing. Ammonia added to the water will keep the fabric soft.

"KNIT-TO-FIT" Garments are so fashioned that there is no ridge or seam to cause discomfort to the wearer, and being so fine and soft does not irritate the most tender skin; being glove-fitting will greatly help to get a perfect fit in your dresses.

#### Separate Garments "Knit-to-Fit" Combinations

Fine White Wool Vests, high neck, long sleeve, silk finished, each ............\$1.75 .. White Wool Tights, knee length, each ...... \$1.75

Heavy Wool Vests, in natural and white, high neck, long sleeve; tights to match, per garment ..... \$2.00

BABY PERISHED IN FLAMES

Defective Flue Fires the House While the Parents Were Absent.

Charlottetown, P. E. I., Dec. 30.-Caledonia, 50 miles from here, was the scene of a deplorable event on Saturday afternoon, resulting in the death of a little girl about a year old, the daughter of Joseph McLeod. About 1 o'clock, while McLeod was away working in the woods and Mrs. McLeod was about the barn, the house caught fire from a defective flue. The three children, aged, respective, 4 years, 1 years and 1 year, were in the kitchen at the time, and the two elder children

The mother frantically rushed into the door of the blazing building to the rescue of her child, but was driver back by smoke and flames. Her hair was scorched from her head, and her face was terribly burned in the unavailing effort to save her little one The building with all its contents was destroyed and the child perished.

WILLFUL MURDER **BRAMPTON CHARGE** 

TOUCHED HOT PIPE.

Ottawa, Dec. 30. - The child of Mr. Fred Dimelle, an electric raflway motorman, rolled out of bed in Mechanicville last night, and its legs touched the hot stovepipe. It was so badly burned that it died.

LONDON, TUESDAY, DEC. 31. THE WATER COMMISSIONERS'

#### LETTER.

In another column appears a lengthy epistle from the water commissioners. These gentlemen are very dogmatic in defense of the Komoka scheme. They use uncalled-for language in resenting warning intending immigrants through some criticism of their pet project in its agencies that unless they possess this journal, but they have not been too careful in their own statements

For instance, they say that the independent system would effect a saving of only 500,000 gallons a day, at a cost of \$24,000 a year, or \$48,000 per million gallons, and they utterly ignore the circumstance that much of the cost of the system would be borne by propertyholders protected by the highpressure service, who would be re-

springs in September showed an aggregate flow of 2,134,080 gallons. It

the yield much lower?

the commissioners make no allowance it would seem that even more than at that for reduction in the cost of pumping, that has been accomplished. Not only through the saving of spring water, have conventions along the lines deand in the outlay for pumping ma- scribed been signed by the delegates, chinery. The assertion that the cost to be presented to their respective of collecting the Cronyn and White springs on the north would be far ed a sort of federation, the object of greater than the cost of the Komoka which is to propagate the principles of scheme is a wild exaggeration. These peace and progress. These conventions, springs would flow by gravity to the if they mean anything, can only be high-pressure pumping station, where intended as guarantees of a better the water could be pumped by separate understanding, and as such must tend machinery into the domestic mains. to actual advancement toward political Before they would be needed the city union. could impound the Kilworth springs, which would flow by gravity to the ly-formed federation, as it appears Springbank pumphouse.

sioners admit that some years hence, clearer conception of the policies and if the present Komoka bylaw carried, politics of the United States, in order they would ask for more money for that any suspicion of the latter's moan hydraulic plant to improve the tives now held by the people of the city's fire-fighting facilities. The expenditure of the \$400,000 now de- effects of such an educational cammanded would leave the city with an paign, it is felt, cannot but be in the inadequate water pressure, and would direction of broadening the Central bring no relief in insurance rates.

### A WISE IMMIGRATION POLICY.

Judging from some of his remarks In the House the other day, the Opposition leader would have the people of Canada believe that the Government tle temporary congestion of the labor market that may at present exist in a for knowledge beyond the great North few industrial centers of the country. As a matter of fact, the policy of the Government has been to prevent overcrowding, and in carrying out that policy, while holding the brightest prospects to the agriculturist, the railway navvy and the domestic servant, it has done its utmost to discourage the immigration of skilled mechanics.

In comparing the immigration policles of the present Government and its predecessor, Hon. Mr. Oliver points out that the former from the outset appreciated the fact that people are necessary to make the country, and that if there is to be wealth produced in the West there must be people there cil in the list of nominations. Vote to produce it. One of its first duties for the best men, regardless of polion assuming power was to set about ties and "slates." getting the people. The first step was to attempt to bring back from the States those hundreds of thousands of native Canadians who had up to that time found their homes in the neighboring republic. A vigorous campaign

Meanwhile, the British and continental fields were not forgotten. The Government put forth its best energies chance to sell out. to liduce from these countries a stream of immigration of the classes ourp rairies and make productive the this been done in the first place, efforts. Canadians began to come back the circumlocution office is still strongfrom the neighboring states, bringing ly intrenched.

was entered upon.

others with them; people came from Britain and the continent; the great western country felt the thrill of life; production increased, and so did wealth, trade and prosperity. And as the prairies of the West became pro-

> Contrast this with the results of the do-nothing policy of the Conserva- She's always after checks. tive Government. Prior to 1896 skilled labor was leaving Canada so fast that our neighbors enacted an alien labor law aimed particularly at this country. The tide has since turned. While Canadians to the commercial centers of the republic, the exodus is more than balanced by the influx of Americans into the Dominion.

The Dominion Government has acted wisely in notifying its agents in Europe to discourage the sending of immigrants during the winter, and in bers of the hunt. sufficient means to support themselves during the winter months, they will not be allowed to land. This action will tend to inspire confidence abroad in the Canadian immigration propaganda.

#### NEW ERA IN CENTRAL

There are strong indications that Central America, which for generations has been the theater of revolutions, with a comic opera flavor, is couped by lower insurance rates. The about to enter upon an era of peace will triumphantly demonstrate that she commissioners have no right to pose and progress such as it has never beas sticklers for fairness in argument fore known. Far-sighted men have when they overlook this essential fea- long considered what now constitutes mother and leader of society. ture of the independent system. Again, five distinct republics as destined by although the present saving of spring nature as a single political organizawater by the substitution of river tion, and the experience of those sepwater for uses other than domestic, is arate states has for many years pointestimated at 500,000 gallons, the saving ed to their union as the only true ten years hence, by reason of the solution of their difficulties, and the growth of the city, would be much only way by which they may secure a in the paper the other day that one fell proper place among the nations in the in Texas not long ago that weighed over babbling. The commissioners protest that the arts of peace. [Punch.] Neighbor-And what did the doctor

Old Man-'E said no more medicine, but if ye talk a little walk of a mornin' on the common, and get the air, mebbe you'll live to be a oxygenarian.

#### AN AMERICAN TRIBUTE TO CANADA.

[Philadelphia Evening Bulletin.] Reports from Canada indicate that there has been comparatively little reduction in ndustrial output there during the past sixty days, while no such complaints as to the scarcity of available currency as those which have been made in the United States, are heard on the other side of the border. This may have been due in part to the fact that the Dominion has a currency system of its own which permits greater degree of elasticity than that which prevails in this country. Whether this is the case or not, the Canadians appear to be forging ahead in the road of material progress at a rate which should attract more attention than is commonly given to it among Americans.

#### WHY SANTA CLAUS IS TRUE. [Joel Chandler Harris, in Uncle Remus' Magazine.

There is nothing truer, or more wholethy imagination. The legend of Santa further hearing next week. Claus is true, for the reason that it connects the childish mind with the mysteries of religion, and is a long step in the direction of real belief. The farmer is not only a firm believer in Santa Claus, who is a part of a great Christian festival, but

he believes also in fairies, and the basis of that belief is very simple. How could a healthy imagination invent anything that has no trace of truth in it? How can the ideals of youth and of old age lend themselves so cunningly to a scheme that think the matter over, and it will be readily perceived that the farmer has something more than possibility on his

# NGLAND STIRRED BY OKUMA'S TALK

His Outspoken Discussion India Rouses British Business Men.

London, Dec. 29. - Count Okuma's speech before the Kobe Chamber of Commerce, in which he talked about "European oppression" of India dilated upon the treasures of that land and declared that the natives are now "looking to Japan for protection," is proving England's biggest Christmas nut to crack. It elicits startling headsay that I ever have. Josiah was reading lines in the newspapers and has set the political and commercial clubs

"We told you so!" exclaim the journalists and politicians, who have been growing ever more suspicious of Japan for many months. "Our brown allies not only aspire to send their people and their trade in every direction, but dream of the time when Japanese power will be supreme in the far east." The friends of Japan reply that Count Okuma's speech was meant for home consumption only and that anyway it contemplates nothing but trade

expansion. "It is the veriest baby act," declared Alfred Stead, "for us to com-It doesn't hurt to let him make a fool of are complaining, about the legitimate growth of Japanese competition in the Indian trade. Why should not the islanders cut into this or any other trade, if they can? When the Prince rain and before daylight, the Rev. On the promise that "Mrs. Balcom" tive, "but let's compromise this thing. If of Wales came home from his great trip around the world didn't he cry, go after all the business in sight? It is perfectly clear that the Japanese question is quite as acute with hang my head with shame, and let it go the British as with the Americans and that it presses from several points of Green street, in this city, where they never cease to call the Imperial Government's attention to the fact that Balcom, taking with them their baby panion, or Mr. and Mrs. Balcom, as they have definite views concerning boy. Whither they went has not yet to be born in mind in London. The foremost men in the manufacturing, trading and shipping world of the mother country continually remind the King's ministers that Britain's stake in Asia and the Pacific is great, and girl was made through the fact that ish policy which consigns this stake to the uncertain future.

The newspapers insist today that the admiralty is committed to the project of a strong cruiser force with its base lished last week in connection with a at Esquimalt. Inquiries at the admiralty indicate that this is likely, but Cooke had deserted Floretta Whaley. that the object of the departure, so far Yesterday afternoon a representative from being to spike America's strategic guns in the Pacific, is to form the nucleus of a British fleet in that lived. # Our January Whitewear Sale Commences Thursday, January 2

CHAPMAN'S WHITEWEAR SALE marks the first burst of the New Year's reanimated business. For some time past our customers have been inquiring when we were going to put on the MUSLIN UNDERWEAR AND EMBROIDERY SALE. Today's announcement answers the query. This sale awakens new interest in shopping, and is always looked forward to-

Good Whitewear, properly made and trimmed, is very hard to secure at anything like old wholesale prices. The goods offered during this sale were bought early, and at old prices. You would expect to pay more to the manufacturer if you bought wholesale, than we will charge you by the piece. Daintiness prevails in every thread, in every frill, in every stitch, in every inch of snowy white.

Be sure and read about the many items of interest, ready for opening day, Thursday next. NIGHTGOWNS, made of nainsook, trimmed

# PREY TO ANARCHY

The Conditions in the Kingdom Cause Serious Anxiety To Thinking Men.

Rome, Dec. 29. The conditions in Italy at present are causing the gravest anxiety to all thinking men. Sodoctrines are playing havoc with the discipline of the army, and mutinous outbreaks among conscripts are becoming dangerously common. The condition of the soldiers is so wretched that the

anarchists have plenty of sympathetic material to work upon. The civil service division is on the verge of a strike for better pay and more security of tenure. The salaries fixed last in 1865 bear no tolerable relation to the enormously increased cost of living in 1907, and after 30 years of

service an official is liable to arbitrary dismissal at the caprice of a superior. The problem of the unemployed has reached an acute stage. Since absolute famine prevails in the earthquakestricken districts there has been a large influx of unskilled, desperate peasants into the larger towns and the cities. There is no work for this army and the result is that there has been an appalling increase of crimes of violence ail over the kingdom. The Government is making an endeavor to cope with the situation, but in a halfhearted way. One expedient is the announcement that Parliament will make a law, punishing the carrying of any sort of a firearm or dagger without a permit. Every day the public

is shocked by some new horror. With this army the anarchists naturally are making great headway. Their defective education makes any appeal of the kind, especially effective to the naturally impulsive, passionate

Italian nature. The press is continually exhorting the Government to adopt sterner measures for the treatment of the problem of the unemployed and their evils, but with a Government already overburdened with the cost of militarism and with the taxpayer already so oppressed there is no available fresh source of revenue to carry on any reforms.

The present aeronautical activity recalls the kite craze of 55 years ago when kite carriages were being exensively built and experimented with. With the aid of two large kites a carriage was pulled 25 miles an hour. A Greek soldier, dressed for the march, although he wears a sword b his side, yet carries a shovel that carefully protected against the weather by a leather case.

#### **Cures Bronchial and Catarrhal** Diseases Thoroughly.

Think of it. A medicine that can enter and cure the lungs! A medicine so healing so balsamic and antiseptic that every trace of cold and soreness goes before it.

"Catarrhozone" is so certain in catarrh, bronchitis, that every case is quickly cured. Experiment no longer-cure is guaranteed if you use Catarrhozone—a veritable death to catarrhal diseases, because it destroys their cause and reme-

dies their effects. Delightful and simple to use, quick to act, sure results. Why delay? Better get Cattarrhozone today.

Large size, sufficient for two months' treatment, price \$1.00; small (trial) size, 25c-dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

'I know that he has Lane, where Arthur Collins produced "The grandeur of nature and comfort can talk of your love for your brother, behaved shamefully, I know that he babes in the Wood." A valiant effort was shelter to any part of Switzerland. made to find a child there, but not one was discovered. There are children's matinees, of course, but one wonders what would become of the pantomimes if left to the support of the matinees.

Perhaps the most noticeable feature of pronounced music hall tendency to use current events as a basis for humor. The famous Druce-Portland case, Diablo, and even recent incidents in the lives of the actresses were utilized in this respect this

"His Last Dollar" Tonight.

"His Last Dollar," the popular rois in five acts.

"The Walls of Jericho."

"The Walls of Jericho," which is the New Year's attraction, matinee and evening at the Grand, is by Alfred Sutro, a young English author, and of dramatic writing. His great success came with the first production of this play, although previous to this he was more than favorably known in the world of literature by reason of his English translations of the works of Maeterlinck. "The Walls of Jericho" was the greatest success of its year In both London and New York, enjoying in both cities runs of extended duration.

"Merchant of Venice."

The first title of "The Merchant of laden with the scent of spring. Out- know, but every penny of it will be Venice," printed in 1600, was: "The wardly all things were peaceful-full repaid. I promise, no matter how I excellent history of the Merchant of earn it, that I will pay it back to you. Venice, with the extreme cruelty of The day had been a wearing one for I will do anything—anything in my Shylock, the Jew, towards the said merchant, in cutting a just pound of his flesh. And the obtaining of Portia Since yesterday morning he had by the choyce of three caskets. Writ-

SAVINGS BANK DEPARTMENT Interest at best current rates paid quarterly

Whatever amount of money one puts by in an investment—whether it is \$10,000 or \$100—the first consideration is the security of the investment.

If added to the security there is a profitable dividend, the investment becomes an ideal oneexactly the kind that the saving people of Ontario most desire.

The Debentures of this Company are such an investment, safe beyond question. Assets totalling over \$10,000,000 are pledged to their redemption. Thus their security is absolutely safeguarded. They pay 4 per cent. per annum.

Put your savings into this safe and profitable form of investment. Write asking for full particulars.

THE MOST RELIABLE and Successful Authority—Greatest success in the treatment of Hernia (Rupture) Varicoccie (Faise Rupture) of all known agencies in modern times. He who makes a speciality of ene department must certainly be more experienced and capable than those having "many irons in the fire." Don't put off your case, believing it to be simple—Remember neglect often proves fatal. Have your case attended to now, and thus avoid danger. Stop wasting time and money elsewhere but come to one whose life-long study has taught him what to do. Do not despond or be detarred from seeking further advice, or because of repeated failures consider your case incurable. Because others failed in your case you have become discouraged. This is the very time you should consult me as my reputation has been made in curing hepeless (co-called) cases.

LADIES suffering from Navel or any form of Rupture should not hesitate in having their case attended to at once. Everything strictly private and professional.

MOTHERS—Look to your children—Now is the time to have them cured, while young. Den't allow them to grow up handicapped in the race of life, with rupture.

MEN OFALLAGES are within reach of all, the poor man as well as the rich. Terms can be satisfactorily arranged, no reasen why you should not consult me at once, during this visit.

# VARICOCELE, FALSE RUPTURE

from this terrible affliction in some way.

There is no other affliction to which man
is heir that so completely unfits him for the The universal tendency of these conditions is to grow worse and more compileated—leading to impotency, nervous debility, wasting, structure, lumbago, sexual structure, etc. Do you intend to allow this insidious affliction to sap away year vitality? It is doing so now and if not checked will result in the above conditions. No matter how serious your case may be, time afflicted, or the failure you may have experienced in trying to be cured by medicine—free trials, or Electric belts—my Biotone system will cure you; the wormy veins return to their normal condition and hence the sexual organs receive proper mourishment, the parts become vitalized and manly powers return. No temporary benefit, but a PERMANENT one. NO OPERATION necessary. No detention from business. If you have had the usual experience you have no doubt spent large sums of money and If you have had the usual experience you have no doubt spent la or quantities of time searching for the remedy that I offer you here.

# A Chat About Thoroughbreds With a Celebrated Ex-Starter

Mr. C. J. Fitzgerald Talks of and a nominal fee of \$10 is charged for Race Horses and Racing Interests.

Mr. C. J. Fitzgerald, a former London boy, well known from coast to coast, first as a newspaper man, as a race meet starter, and later as the Guard, a phenomenal horse, one time Federation Changes Olympic president of the Brighton Beach Racing Association, is in the city, visiting friends and relatives.

> In an interview with The Advertiser this morning Mr. Fitzgerald talked in a very interesting manner on money of matters, and on turf subjects.

> > Lauds Our Banking System. In discussing the money stringency

Mr. Fitzgerald stated that it had been tem was not solid, and that the Canadian system was. The opinion obtained in New York that had the Canadian banking system been in vogue on the other side, there would have been no stringency in the money market at this time. However, the prevailing opinion in

New York was that as soon as the two presidential nominees were known, matters would at once readjust them-Under the present American form

of banking and style of selecting nominees for the presidency the stringency had to come, and it was the general opinion in the States that it was well have it and have d with i Prosperous Turf Season.

"The most prosperous season we ever had," said Mr. Fitzgerald, in response to a question regarding turf matters. It was during the latter part of Oc-

tober that the depression was first felt in money markets, but people nevertheless found themselves still able to patronize the races, until the end of the season in November.

Talks of Colin Colin is Mr. Fitzgerald's ideal of a

horse, and he dilated on this beauty at length. The history of this famous horse is

fairly well known in London, but a few remarks on the subject, when

was probably the most phenomenal. It must be very pleasant for Gun-The match was fast and hard, ever seen on a race-track. Colin start- ner Moir to receive such proof of his

BEER\* BENEFITS THE WHOLE BODY (NO OTHER FOOD-BEVERAGE DOES THAT MUCH)

OT six people in a thousand (and those six have either diabetes or gouty tendencies) can get anything but real good from the use of good beer with their meals. Because that kind of beer (and no other kind is brewed in Ontario) benefits the whole body of the normal adult,-enriches the blood, vitalizes the stomach, makes kidneys and liver active, builds flesh and betters nerves.

### Beer Is Not A Mere Tonic

Good beer, drank with meals and at bedtime, is not merely a tonic--for a tonic simply gets one part of the system to work better for a while, by stimulating its activity, while beer, rightly used, does the whole system permanent good.

### Beer Builds Up Thin Folks

That is why good beer is such a notable flesh-builder, and why it is so effective in changing the too-white blood of aenemic people into the red, strong, healthy blood of the vigorous. It has qualities that are very valuable to women, especially. It is distinctly NOT an intoxicant, nor a hurtful stimulant. Ask your doctor if beer wouldn't be good for you as an item of

\* BEER is a term which covers lager, ales, porter and stout; and, in the practise of Ontario brewers, implies beverages made under most hygienic conditions from Ontario barley (the best in the world) malt, hops, and pure water.

# NEW YORKERS ARE RAILWAY BUILDING SHOWS INCREASE

# TAFT EXPLAINS WALL ST. PANIC

Breaches of Trust and Violations of Law Held To Have Caused Recent Flurry.

Boston, Dec. 30 .- Secretary of War Wm. H. Taft spoke here tonight on the panic of 1907, its probable effects and the relation to it of the policies of the national administration. Referring to the causes of the recent

monetary panic, he said: "For eight or nine months past, there were indications that the loanable capital of the world was near exhaustion. This result was brought about not only by the enormous expansion of business plants and business investment, which could not be readily converted, but also by the waste o capital in extravagance of living and by the Spanish war, the Boer war and the Russian-Japanese war, and in such catastrophes as Baltimore and San Francisco. It became impossible for the soundest railroads and other enterprises to borrow money for new construction or reconstruction.

"The condition was not confined to this country, but extended the world over, and was made manifest in the countries of Europe, even before it was felt here.

"The conclusion cannot be avoided that the revelations of irregularity, issues of stock, violations of law, and lack of rigid state or national supervision in the management of some of our largest insurance companies and financial corporations shocked investors and made them withhold what little loanable capital remained available. Such disclosures had much more effect, probably abroad than they had week to consider the case, and told remote distance, the revelations creat-Mr. Wilson that if there was any ed distrust in our whole business fab-

"When, therefore, two or three institutions, banks, and trust companies, supposed to be solid, were found to have their capital impaired by stock jobbing of their officers, the public

was easily frightened, and the run upon banks began." Secretary Taft took a hopeful view

of the situation. "The injurious consequences to follow from this panic are not likely to be so long drawn out or to result in such disastrous industrial depression reason that the condition of the country makes it so much easier to resume business gradually, to accumulate Amer. Cotton Oil. capital, and then to renew the enter- Atchison, com. prises which had to be abandoned for

DEFAULTS ON INTEREST

Steamship Company Announces Its Inability to Pay on Bonds.

ment has been made on behalf of the Consolidated Steamship Lines by N H. Campbell, the treasurer, that the company would default on interest on its \$60,000,000 collateral trust bonds. due today. The official statement explains the reason for the default: "The inability of the company to make the payment of interest on its bonds of the above date is chiefly due to the fact that while it has made most substantial earnings, after paying interest or the underlying bonds, and with other interest and general charges owing to the prevailing financial conditions, it has been compelled to devote its earnings to the payment for new ships recently completed or under construction, and is unable to meet the coupons

# BRISK DEMAND AT LAST MARKET

No Trouble in Selling Produce in All Lines Today-A Good Year.

LOCAL MARKET.

London, Tuesday, Dec. 31. Today's market was the last for the year 1907, and it was avery creditable one. 8h attendance exceeded last Tuesday's crowd by a considerable number. Those who brought in produce today had no trouble to sell, there being a brisk demand in every line, and prices were firm to higher. If an accurate statement of the amount of business transacted on the market could be had, it would reach several hundred thousand dollars. While there have been many shady transactions during the y. r. the bulk of the business has been conducted in a creditable manner. An example should be made of those who indulged in sharp practices, as it is to the interest of the farmers and citizens to keep the good name of the market above

Grain-Oats advanced in price several cents over Saturday's quotations; sales were made at \$1 54 to \$1 58 per cwt. Hay and Straw-There was an excellent demand for the 18 loads of hay offered; were a little firmer, at \$17 and \$17 50. Straw sold at \$8 per ton. There will be a good demand for hay and straw

at Friday's market. Butter and Eggs-Butter was scarce and firm, at 26c for crocks and 27c for pound rolls. Eggs were scarce, at 30c to 32c for fresh-laid and 25c for held stock.

Poultry-Turkeys were firm at last week's higher prices sales were made at 15c to 16c per lb wholesale; one fancy lot sold at 17c; geese were higher, at 10c to 11e per lb; ducks, 10c to 11e; chickens, 10c per lb; old fowl, 7c to 8c; everything was Dressed Hogs-Despite the fact that the

dealers look for ad rop in the price of live hogs, those who had dressed hogs for sale had no difficulty in disposing of them at the highest prices so far this month; sales were made at \$7 75 and \$8 per cwt. There was not avery large quantity of vegetables or apples offered, and the same

may be said of butchers' meats; prices were unchanged. OIL MARKETS.

Paterson, N. J., Dec. 31. - In a fit of jealous rage, Charles Bennett, a baker, shot and killed Jennie M. Cappa, a handsome Italian woman, 22 years of age, and then killed himself last night. Although married, Benlate made, best, 113/c to 12c; do, common nett had for some time been very attentive to Miss Cappa. She boarded with Mr. and Mrs. Blanchard, and Bennett frequently called on her. done his home, and it was Bennett's habit to stand in the hallway and whistle, as a signal to Miss Cappa to come downstairs. He did this last night and Miss Cappa answered and met him. A young Italian had recently been paying his addresses to Miss Cappa, and Bennett was very jealous. In an angry talk with her in the hall last night he demanded that she give up her new admirer, and when she refused he shot her in the head and then shot himself, falling across her body. Both were instantly killed.

# S. S. Mount Royal of C. P. R. Line Not Yet Reported and Fears Are Expressed as To Safety.

Halifax, N. S., Dec. 30.—Heavy gales have lately prevailed on the Atlantic and several steamers are overdue at various maritime ports. More anxiety is felt over the C. P. R. liner Mount Royal than over any other, as she is now twenty-three days out on a voyage which ordinarily takes but ten days. A vessel that left Antwerp five days afterwards arrived four days

On Dec. 7 she sailed from Antwerp for St. John, and since then has not been heard of. She is commanded by Capt. Purcell, and is of 4,596 tons. She has 395 passengers on board.

Fourteen days out from Liverpool, the Allan liner Sicilian arrived at St. Johns, Nfld., yesterday and relieved the anxiety which was being felt for her. This voyage usually takes six or seven days, but a bolsterous gale which the steamer encountered detained her. On several days the steamer made practically no headway, and everything movable was swept from her-

Montreal, Dec. 30.—The officials of the C. P. R. Steamship Company say that there is no need for anxiety concerning the steamship Mount Royal, which is now several days overdue. Many other vessels report severe storms, and have been delayed a number of days on their passage across the Atlantic. They say that the Mount Royal is a good staunch vessel,
