asylum.

In addition to being charged with the murder of Captain Clews, Towers was charged also with shooting David K. Gilmour, assistant chief engineer of the Melita, and the second engineer of the ship, John Holliday, on the same date, with intent to kill

Evidence was given that Towers had admitted in the presence of witnesses that he had shot Captain Clews, and had intended killing Gilmour and other officers of the ship, but his revolver failed him. It was a suppressed regret that stated that he expressed regret that he had shot Holliday, but said he was glad that he had killed Captain Clews, "because the captain was talk-ing about him and turning his friends against him.

Dr. Charles Saunders, For-

Scientist, Visiting in City, Tells of Work to Produce Early Maturing Grain.

Dr. Charles Saunders, native Londoner, who has helped the farmers of the world make millions of dollars through the discovery and propaga-tion of Marquis wheat, has given to Canada what has proved another out-standing and earlier variety, the Gar-net wheat.

The new wheat has been carefully tested for the past 15 years and promises to roll more golden dollars into the pockets of farmers, especially those in the vestern provinces. Dr. Saundurs, who is visiting his sister, Miss A. L. Saunders, Piccadilly

street, gave some interesting infor rigarding the Garnet wheat this afternoon. "It is one of my varieties which I produced some 15 years ago," said Dr. Stunders. "It came from some crosses I made and it is a good variety."

Will Be Great Boon.

"Garnet wheat is earlier in ripen-ing that the Marquis, but I don't Unink it will replace Marquis in disfricts where Marquish is satisfac-tory," continued Dr. Saunders. "In the northern part of the west and W. J. Kilpatrick Tosses Hat iv. the northern part of the other districts where Marquis sometimes doesn't have a chance to ripen properly, the Garnet will no doubt be properly, the Garnet will no doubt be great boon to wheat growers. Value Is Great. Questioned as to the monetary value of the new wheat, Dr. Saun-ders declared that in some sections, such as the Peace river, it would prove of the utmost value and would make farmers a good many dollars.
L. H. Newman, Ottawa, who foilowed Dr. Saunders as dominion cerealist, states, like Dr. Saunders, that Garnet wheat will be most useful in many parts of Western Canada. Garnet seeds were sent out to the various experimental farms and sub-

jected to different climatic condi-Garnet wheat stood up under all these tests. In 1925 the wheat was grown on about 100 selected farms in Western Canada, and its record is one which augurs well for the future of the prairies.

In southern Alberta Garnet wheat ripened and was threshed long be-fore the snow and rain storms came. Marquis and other varieties of wheat are still in the stook. Marquis wheat grown in the same field is still un-threshed. At Morden Man., Garnet FALL OFF GREATLY was grown alongside Marquis wheat.

At the time the Garnet wheat was ready for the binder the Marquis had still ten days or more to go and bore considerable rust, which might easily do it tremendous injury. Garnet wheat is not rust re sisting, but its ability to ripen earlier is a tremendous asset in the fight against this disease.

Grant From City Is Wholly Inadequate, President Declares in Report.

A. E. Barbour was re-elected president of the Children's Aid Society at the 32nd annual meeting held in the court house yesterday afternoon. The treasurer's report showed a deficit of \$876, but this was not disheartening to the large number of members present, as the 1924 deficit was slightly over \$3,000.

Other officers re-elected were: First vice-president, John Stuart, who pre-sided over the meeting in the absence of President Barbour, who is ill; second vice-president, W. R. A. Gordon Beattie, B.S.A. Returning to Africa After Visiting London Home. GROW MANY PEANUTS

Young Londoner Tells of an Impromptu Game With H.R.H. at Kano.

Northern Nigeria does not yet offer very extensive market for the larger agricultural implements "made in Canada" or elsewhere, according to A. G. Beattie, B.S.A., superintendent of the experimental farm at Kano, in the northern part of the British colony on the west coast of Africa Mr. Beattle, a native of this city, speaks today to the Export club of the Canadian Manufacturers association in Toronto, on the subject of trade possibilities in Nigeria. He is on his way back to Africa after

holiday visit to London. "We have one plow drawn by oxen at the farm," he laughingly admitted but it would scarcely pay a native to own a plow on his small holding. Just now, in fact, we are in the midst of an experiment to see whether turning over of the sod with a plow meets with more success than the

digging of the natives."

Mr. Beattie, who is a graduate of the Ontario Agricultural College. Guelph, received his appointment two years ago last summer to the Nigerian civil service, department of agriculture.

Big Peanut Trade.

"The chief crops with which w are experimenting are peanuts and cotton," he stated. "We are becoming quite formidable rivals of the United States in the peanut growing industry. Last year we shipped 128,-000 tons of shell peanuts." "The Durbar held in Kano in honor

of the Prince of Wales last spring," he declares, "was a striking tribute to the efficacy of British administraion in the best interest of the people hemselves. Thirty-one chiefs or themselves. Thirty-one chiefs of 'kings' of Northern Nigeria took part the Durbar, taking their places in

the procession. "It was difficult to believe that n more than thirty years ago these kings' and their followers were almost continuously engaged in petty warfare, and that it would have been practically impossible for them to neet without a clash.'

Played Polo With Prince.

Mr. Beattie took part in a pole game with the Prince of Wales.
"It was after the prince had played his scheduled game," he recalled "Some of us who were looking on had our polo ponies along and some-one suggested we should have a game. was under way, and wanted to know if he couldn't get in on it.

"One striking incident revealed the fine sportsmanship of the prince. A rather heavy chap had a good chance for the health of the striken health of the st for the ball, but there was danger in getting it of knocking the prince off his horse. He didn't exactly like to do this. The prince got the ball, but

The contrast between life on an experimental farm in Canada and on the west coast of Africa is illustrated by the regime for the day follow-ed by white people. The superin-tendent is in his office at 7 o'clock, and at 9 half an hour is devoted to breakfast. In hot weather work continues until 2 o'clock, the lunch-eon hour. After that sleen until eon hour. Tells Youths Not To Turn Down Spiritual For Material Things.

"For God's sake, young people, and for your own sakes, do not turn from the things of the spirit for things materials," pleaded Dr. C. W. Gordon at St. Andrew's United church last night. Dr. Gordon, better known as Ralph Connor, was addressing a meeting of young people, many of them students at the university and Normal school.

"Do not be as the young man whom the famous artist Hofmann has so feelingly painted in conversation with the Christ. This young fellow, a polished gentleman of the time, and one of the two recorded in the Scrip. tures as 'being loved by Jesus,' turned aside from the opportunity Jesus offered him, and went again to the luxuries of his own fine home Where did Jesus offer to lead him? Jesus was taking his disciples over the hill and down on the other side to the gates of the big city, where he would touch the eyes of the blind man back to sight, where he would meet the unclean leper, outcast of his people, and return him to his family whole again

But this youth hesitated, and gazed on the gnarled hands of Peter and the rough uncultured faces of the desciples, felt that they were not in his class and went his way, and from that day to this we hear no more of struggle for money and power kil that finest feature of your youth your idealism."

"I envy you young people your blessed youth," said Dr. Gordon. "It value of youth. We only have it tunities for heroism and sacrifice, to the Christian all the best things

It later transpired that the cable was ill-advised and premature, doing criticism by placing responsibility for both the it appeal and the semi-official despatch on minor all because it thinks most of them will be dead secretaries of the cabinet. At the time, however, this explanation was not forthcoming, and the positions taken by Premier King and Mr. than that. Meighen were based on the evident actuality of the imperial message.

On September 18 Premier King summoned the cabinet in special session, as a result of which he issued the following statement:

"It is the view of the government that public opinion in Canada would demand authorization on the part of parliament as a necessary preliminary to the despatch of any contingent. The amounting to \$5,000,000. government is in communication with members of the cabinet at present in Europe with a view to ascertaining whether the situation would justify the summoning of a special session of parliament. With this procedure one would now expect that Mr. Meighen must have been in full accord. although the premier did not go to the extent of suggesting a general election to determine Canada's answer. Mr. Meighen, however, at that time declared a very different attitude. He was, indeed, scathingly critical of Mr. King. He stated publicly and emphatically that Canada's answer should have been an immediate affirma-

The advent of Friday night means more than usual this week, as it brings with it London's first dip into senior hockey for the 1925-26 campaign against Toronto canoe club, the newest and perhaps the youngest entry into senior O H A. company.

The combat will be one of youth, for Coach Marsden's outfit will come close to the slim aggregate of years hung Hero of Unassisted Double up by the Toronto crew, and it will contain an interesting element of fraticidal strife, as the visitors have no less than four ex-Aura Lee juniors and the Londoners have three from the same clan in Moore, Foster and Mc-Pherson. Young Shrimp MacPherson, if he roams away from the center ice baseman of the Boston Americans, hero position, will run into his brother John of the unassisted triple play in the on the right wing of the new senior world series of 1920, and accurate fielder on the light wing club. The ex-Aura Lee players of the in general, is on the way to be manager Toronto Canoe club are Stark in goal, of the Mobile club of the Southern McKay on the defence, Clayton at cen-er and J. MacPher-r-r-son at right

wing.

Sitting in the London coaching pew and far from disinterested in this family fight, will be Bill Marsden, who fathered this now-divided clan into the championship of the O. H. A.

The Londoners look to be all set for a fast 60-minute clip. But none of them will be asked to go the full route, for Marsden intends to sub frequently and give every man on the squad an adequate chance to show his wares.

PRESTON ALL SET.

Special to The Advertiser.

Preston, Nov. 17.—The Riversides, who have had two 60-minute grinds at the Hamilton arena during the week, will work out again on Hamilton ice Wednesday night. Trainer McAvoy says the local squad will be ready for their first exhibition game with Walker-ville intermediates at Windsor's new ice palace on Friday night, Nov. 20.

Alvin Schlagel, ex-hockey star and referee, has been in charge of the team at their previous workouts at Hamilton, and no doubt will remain in this capacity throughout the season.

This year's squad looks 75 per cent stronger than those of the past three years, and they should make a great showing in the senior O. H. A. race. With opposition for every position on the team, the players are getting right down to business. The members of last year's team have to give their best to hold their positions.

The players who have turned out so far and are trying to obtain regular positions are: Goal, Schmaltz Cobocidefence, Ashley, Talbot, Skelly; center, Arnott Burns; right wing, Ware, Groh; lef wing, Clarke, Julka, Kreason.

association.

The infield of the Cleveland club has never been quite the same since Wamby was transferred to Boston. In his first year at Boston he was one of the best infielders in the American league, despite his years of experience and legs that were reported to be breaking down, and Cleveland felt that the trade had borne down heavily on its corns.

Wamby has never had managerial experience, as he went straight out of the Cedar Rapids, Iowa, club, to Cleveland in 1914 for the sum of \$1,250. He was born in Cleveland, and first played basebull with Concordia College.

This business of having basebull players and managers write for the papers during the world series has worked up a lot of opposition among the professional newspaper writers every year. The action of the New York Chapter of the Baseball Writers' Association of America, Monday night, in passing a resolution which virtually approves the practice, will come as something of a surprise to some of the other chapters, particularly the one at Chicago. There the writers had gone on record as opposing player-writers, and a similar attitude was taken by James M. Goold of St. Louis, president of the association.

The New Yorkers simply decided it was not proper for them to attempt any regulation of what form of baseball matter shall appear in the papers.

Toronto, Nov. 17.—At a meeting of the O.R.F.U. executive held here tonight the dates were set for the remaining games in the intermediate, junior and interscholastic series.
Hamilton Tigers and Kitchener intermediates who finished their group on even terms, with five wins and one loss each, will play a sudden-death game on Saturday at Galt. The winner of this game will meet Sarnia in the final.

The two remaining teams in the junior series, Argonauts of Toronto and Dundas, will play a home and home series, the first game in Dundas next Saturday and the return game in Toronto a week later.

Four teams are left in the interscholastic series. Oakwood Collegiate and University of Toronto Schoois of Toronto: Hamilton Central and St. Catharines collegiates. The latter two teams will play in Hamilton the following Monday. The Oakwood and University of Toronto schools series has not been arranged as yet. Ontario baseball league for the past four seasons, announced today his intention to resign within next two weeks.

Halligan said he would turn over his office, which also includes that of secretary and treasurer, soon as clubowers pay outstanding debts.

"I'm tired and gray-haired from begging, borrowing travelling, arguing in an effort to keep the Mint league up to the standard set. If the various clubs would work along business lines, the task would not be bothersome. But they don't. And so I've had to patch things up."

Halligan, considered one of the most thorough baseball men in the minor leagues, says he will not quit his office, however, until every bill has been paid. That includes the Flint club, too.

"The league has been prosperous before, and it can be prosperous now," he declared. "The Flint team, had it been tarefully managed and trained this year, would have produced somewhere between \$5,000 and \$8,000 profit.

Supervision of coaches Dr. Smith and Webb Bowman, they were put through a stiff hour's workout.

This is the second week of practice for the purple and white basketers and the players are beginning to round into season form. They lack real condition yet, but that is the least of their worries.

The seniors last year proved to be the form in the side of Queen's march to the group honors, and the veterans of that season's campaign are back in the fold doing their stuff.

One member of last year's junior squad, Clare Bice, has graduated to the senior ranks and is holding his own with the rest of them, while Frank Tlr-ville, formerly of Windsor, is a welcome addition to the squad.

The teams are practicing every Tuesday and Thursday nights at the armories, and judging by the progress made so far, the purple and white will make a splendid showing in the intercollegiate ranks this winter.

Six Queens Regulars Now Under Weather, But Hope To Be O. K. Saturday.

Special to The Advertiser.

Toronto, Nov. 17.—Reg DeGruchy and Joe O'Brien will be the officials in the Queens-Balmy Beach play-off on Saturday at Varsity stadium. These same two officials handled the match between the Kingstonians and the East Enders last fall, and generally speaking gave satisfaction to all. Their hardest task, of course, will be the spotting of the Queen's running interference, but Billy Hughes' team have played so many games with the outfits of the other unions that they are just as much at home under the C. R. V. code as their own Intercollegiate set.

Frank Shaughnessy, the famous "Shag" of McGilli, will be head linesman, and this completes the similarity between this and last year's officials. Shag held the same job at the surprising till between Queens and

The two teams, however, have changed somewhat. Roy Reynolds the big middle wing of the champions, is not with them now, but "Red" Mc-Kelvey, who was out of the finals with injuries last fell, is in there again, while another change will be Norrie for Airth, the latter who was injured early this year, being hardly in shape yet for a titular struggle.

The famous Queens backfield is still the same Batstone-Leadley-McKelvey combination, but Voss and Chantler are getting more chance all the time to strut their stuff, and may be in for a good part of the Beach game. "Bubs" Britton at flying wing for the champs is their only real newcomer, and in this match "Bubs" will be playing against his old teammates. a haifback and he was their star ball carrier when they stacked up against Queens.

The Balmy outfit will present a much different front than they did for this struggle last year. Britton, Frank Commins, Jack Bell, Morris Hughes, Archie Stewart, Ike McLean, Warren Smythe and Yip Foster, who took part in the tussle, have drifted away and many new faces can be seen in their line-up.

The team that will "Custer" for Toronto this week in the Dominion playoffs is a wonderful example of the force of "Flaming Youth." Ten of the Balmy toddlers can still play junior. It would be quite a junior team. Most of the others are but little over that mark. The average age of the squad is 22 years. They are young and up and coming and all local boys, as the saying goes. They lost their faith in Santa Claus during the league season after having four hairline decisions on touchdowns all called against them. But they still believe in Horatio Alger.

Last year a team from the Beach was entered in the O. R. F. U. amidst a loud burst of mirth. No one had ever heard of half the boys that made up slopped along somehow and ended up slopped slo

werted. This was the first victory for thing to a nervous breakdown in the final.

SIX CASUALTIES.

Kingston, Nov. 17.—For the first time this year Queens seniors have an extensive casualty list, with no fewer than six of the regulars being under the weather. The chances, however, are that most of them will be in shape for the Balmy Beach game in Toronto on Saturday. "Pep" Leadley is suffering from an attack of lumbago, and is at his home. Harry Batstone and Jimmy Wright both were in the hospital yesterday Batstone with a severe cold, and Wright with a sprained ankle, The latter, however, left hospital this morning and is able to hobble about. "Uncle" Bill Muirhead suffered an injured shoulder in Saturday's game, while "Red" McKelvey and "Bozo" Norrie had injuries to the knee which were very painful. The entire casualty list is being looked after by Dr. W. Campbell, and hopes are entertained that all will be ready for Saturday's game. Chicago, Nov. 17.—The Chicago butter market appeared no more than steady today with an unsettled undertone apparent in some quarters. Supplies were not heavy, but dealers were inclined to keep goods moving, although they were not willing to offer concessions. Centralized was barely steady, with offerings fairly liberal.

Montreal, Nov. 17.—The receipts of butter in Montreal were 92 packages, as against 1,256 for the same day last week. The tone of the market was very firm at the late advance in prices noted on account of the limited supplies coming forward and the steady demand for domestic account. A fair volume of business was done, and the market on the whole was moderately active. The trade in a wholesale jobbing way was reported fair, and prices were unchanged.

Montreal, Nov. 17.—Owing to the pronounced strength in the Canadian cash wheat dituation, a much firmed feeling prevailed in the local spring wheat flour market. The export business was reported rather quiet, but the movement for domestic and country account continues steady, and the market in this respect was moderately active. The trade for winter wheat flour was quiet, but the undertone to the market was very firm.

The demand for white corn flour was somewhat limited at \$6.80 to \$7 pet barrel, in jute bars, delivered to the trade.

The feature of the millfeed trade was the stronger feeling that developed in the market, and millers generally advanced prices for all lines \$1 per ton. The tone of the market for standard grades of rolled oats was firm under a steady demand.

Chicago, Nov. 18.—Wheat prices here underwent a quick early setback today, influenced by the fact that the Liverpool market was unresponsive to yesterday's sharp advance on this side of the Atlantic. Besides, some of the cropnews from Argentina today was of a reassuring nature. Other advices, however, were that Argentine weather conditions remained unfavorable, and that crop etstimates for Argentina must be reduced more than 18,000,000 bushels. Chicago opening quotations, ½c to 1c lower (new style), were followed by declines which carried December down to \$1.50\forall and May to \$1.52\forall s.

Corn and oats sympathized with wheat weakness. After opening at ½c to ½c lower, the corn market underwent a moderate further drop.

Oats started at ½c decline to a shade advance, and held near to initial figures.

HIT SECESSION TALK

Canadian Press Despatch Winnipeg, Nov. 17 .- The Maritime delegation had not ventured forth to recite their picayune troubles or inflict local difficulties upon the conference, declared J. D. McKenna, member of the St. John, N.B., board of trade, in presenting the problems of the Maritime provinces to the associated boards of trade of Canada here today. "We are here to state frankly and honestly those matters which we consider the people of Canada should know and accord sympathetic assistance in solving," he

declared.

At the time of Confederation promises were made by the leading men of Upper and Lower Canada o good things to come for the Mari-times when federated. off Atlantic City. The night was clear and cold, the sea calm. The blaz started in the aft hold and was in started in the ait noid and was instantly fought by members of the crew. About 11 p.m. some of the passengers noticed smoke and their anxious inquiries brought assurances from Captain Devereaux and his staff that there was no danger. How-ever, the flames continued to spread and the smoke became more notice-Many of the passengers left

their cabins. At 11:45, according to some of the passengers, the vessel's whistle was blown and all hands were advised to ome on deck. All were reassured here was no serious danger.

Comes to Anchor.
Previously, at 11:18 p.m., Captain Devereaux sent out an s. o. s. message. There was immediate response and he found that the nearest ship to him was 20 miles away and the next 40 miles. The Lenape, with little fire showing but with great volumes smoke pouring from her after hold, came to anchor about two miles off the Delaware shore. The mouth of the bay here is ten miles wide. Shortbefore 2 o'clock the pilot boat Philadelphia began taking off the passengers. After the rules of the sea had been

complied with in taking care of men, women and children, other vessels turned their attention to the burning

ship.

DOZEN MEETINGS

Much Oratory, Committee Believes.

Meetings to discuss issues in the nunicipal campaign will likely folow along much the same lines as in former years, despite the fact that the ward system of electing aldermen has been abolished.

At Monday's meeting of the city council, the chairmen of No. 1 and No. 2 committees, with the mayor and city clerk, were appointed to draw up a tentative schedule of meetings The opinion was expressed by some of the aldermen that it might be possible to have only five or six meetings this year, one in each ward and

couple of big central meetings. The consequent saving in the out put of oratory was pointed out, which led Ald. Douglass to remark: "As I will not be in the running this year, I move that meetings be held every

met, it seems probable that there will be at least ten or twelve meetings. The place of meeting will in all cases, except central mass meetings, be in city schools, the city having se cured free use of these in return for shouldering the expense of electing members of the board of education. Practically none of the publi schools is centrally located as regards the ward boundaries in which they are situated, and it will likely be decided to hold at least two meetings in every ward, at which aspiring can-didates will have an opportunity of expounding their views to electors.

The three bylaws will also be explained at these meetings, it being one of the duties of the mayor to thoroughly acquaint the citizens with the details of all bylaws submitted to the ratepayers.

Special to The Advertiser by a Staff Reporter.

Toronto, Nov. 18 .- The feature of ne second day's meetings of the 24th annual convention of the women's institute of Central Ontario, which opened in Hygeia hall today, was a brief history of the institutes, with a glimpse into the future by Superintendent George A. Putnam, and in the afternoon, report on household economics, immigration and publicity.

Mr. Putnam referred to the rapid growth of the institutes as evidenced at a recent international convention of women's institutes held in Brus sels, Belgium, when representatives From Italy, France, Belgium, Czecho-Slovakia, Poland, Lithuania, Finland, Scotland, Switzerland, Hungary and

England were in attendance. Twenty years ago there were women institutes outside of Ontario, but in England and Wales alone there are now 3,373 institutes, with a mem-Might Be Possible To Save first women's institutes, with a ment-bership of well over 200,000. The institutes were advised that they would do well to continue their general educational program during the coming year, stressing education, health confusions for women and health, agriculture for women, and labor-saving equipment for the farm home, and to always have, as mosof the institutes do, some community

undertaking in hand.
The speaker appealed with every confidence for a continuance of the splendid activities and earnest serice which have placed the women' institutes in the forefront of women's

rganizations. Until noon today more than six hundred delegates had registered for

the convention, coming to the city from all parts of the province. Must Aid Girls.

At last night's session Dr. Magrate Patterson, magistrate of the Toronto women's police court, and convener of the standing committee of health for the institutes, urged the women of her audience to give thought to the problems of farm girls drifting

Dr. W. J. Knarr, director of rural school organizations, in the Ontario department of education, was another department of education, was another speaker of last evening. He declared boys in particular needed good surroundings for physical activity and sports at school. He added that high school education should be given without the necessity of the pupils leaving the home community, and was in favor of rural part-time education.

MEIGHEN SPELT DOOM FOR PARTY IN QUEBEC

Ignoring Province Made Fall Inevitable, Taschereau Declares.

ANSWERS ATTACK

Quebec Premier Charges Conservative Leader Guilty of Faith Breach.

Canadian Press Despatch. Quebec, Nov. 17 .- The Right Hon. Arthur Meighen, leader of the opposition, was the instrument of his wn defeat in Quebec, at the last ederal elections.

He had ignored Quebec by not deivering any public addresses in the province, and he also shared, as a nember of the Borden cabinet of 1916, equal responsibility with the then prime minister for the breach of faith which the Conservative government of that day practiced in establishing conscription after Sir Rorbert Borden had stated in the house of commons that there would be no conscription.

be no conscription.

Such, in sum, is the allegation brought by Hon, L. A. Taschereau, premier of Quebec, against the leader of the opposition in a statement of the Canadian Press tonight.

Issued to the Canadian Press tonight.

"However, we had conscription. I The statement is in reply to Rt. Hon. Mr. Meighen's speech at Ham-liton last night, where Mr. Meighen took exception to the manner in which the Liberals of Quebec con-

ducted the last campaign.
In his statement Mr. Taschereau "The Hon. Mr. Meighen, in the course of an address delivered yes-terday at Hamilton, and which was terday at Hamilton, and which was reported in the press, gives free rein to the spite and bitterness that the last elections have caused him. After taking care to throw a few bouquets at our province in order to cover his attack better, Mr. Meighen declared that the Liberal party in Quebec had resorted to dishonest means and that our good people had been deceived.

"In order to support his assertion he has deigned to pick upon myself and to reproach me for what

"The citation of Mr. Meighen is incorrect—even if he did take them from a Liberal newspaper. One cannot attribute to a public man everything that a reporter makes him say in the course of an electoral struggle. But I have no objection to repeating in substance what I said to the good people of the Island of Orleans.

"The Conservative party, I re-

Three Times Fire Has Destroyed the Home of Fred Caron of Paincourt-Death of Valuable Horse Trapped Latest Misfortune.

Special to The Advertiser by Staff Correspondent. Chatham, Nov. 17.—Fred Caron, Paincourt farmer, although stalked by bad luck, is not going to allow himself to be discouraged by his un-

fortunate experiences of the past five years. In that time his home has been consumed by fire thrice. The first time, his dwelling was destroyed by fire of an accidental nature. The second time, the fire, which destroyed his house and farm buildings, was thought to be the work of an incendiary.

Last week his home was again destroyed when a quantity of gasoline exploded as his daughter was occupied in cleaning clothes. This morning he drove to the city to file papers to claim partial insurance on the last fire loss. One of his horses, bought recently at a price of \$175, slipped on the icy pavement near Chatham, injured its spine, and had to be shot.

POSTPONES LADIES' NIGHT

At a meeting of the Kiwanis executive committee Tuesday at noon it was decided to postpone the ladies; night that was to be held this Friday evening. The Kiwanians are now planning to hold this entertainment along with the boys' Santa Claus night, about Dec. 18.

The Kiwanians thought it best to postpone the dance so as not to conflict with the bockey match and the commercial travellers' meeting, which fall on the same night.

The executive will now go ahead with its plans to make a gala night on Dec. 18. At 7 o'clock Saturday morning, the taggers from the Salvation army and on the streets, Mrs. (Col.) McAmmond was in charge of one lot of Salvationists, while Mrs. (Command-
