FROSH WEEK STARTS TODAY

WELCOME FROM THE PRESIDENT

COLIN B. MACKAY

It affords me a great deal of pleasure to be able to extend this special welcome to the Freshman Class of 1955. This is the first time that the president has had such an opportunity and I wish to congratulate the editors of the *Brunswickan* on their first Freshman Issue of the oldest College weekly. I trust that it may become an annual institution. We expect that this year's class of new students will be the largest in the history of the University, if one excepts the abnormal veteran enrolments following the last war.

The faculty and administration join with me in wishing that your stay "up the hill" will be a fruitful and enjoyable one. And this it will be if you avail yourselves of all that U.N.B. has to offer. I hope you will agree that your academic work must come first. However, you can obtain much benefit from the various extra-curricular activities on the campus—the athletic program and the various clubs and associations that play a very real part in the integration of our student body. This year you will have the new Memorial Student Centre and it should form the nucleus of your extra-curricular life at U.N.B.

This university has every reason to be proud of its faculty and you will find that your professors will take a sympathetic and personal interest in your scholarship and general development. If you apply yourselves seriously to the task of learning, your stay "up the hill" cannot help but be stimulating and profitable not only for yourselves, but for the whole university community.

It is my wish that I may soon come to know all of you personally. But meanwhile, welcome to U.N.B. and good luck!

COLIN B. MACKAY, President.

CAMPUS TO HAVE MAJOR ART SHOW ON OCTOBER 19

The UNB campus will become a center of major importance in the world of art for a two-week period in October.

At this time, over 100 valuable masterpieces of Canadian and British art will be placed on exhibition in the Bonar Law-Bennett Library. The paintings are part of the collection belonging to the university's honorary chancellor, the Right Honorable Lord Beaverbrook.

The exhibition will open on October 19 and will close November 4.

This is the second year that Lord Beaverbrook has consented to a public exhibition of his collection, which has been carefully built up over many years. Lord Beaverbrook is expected to be present at the opening ceremonies.

The university library will be converted into a large art gallery to house the exhibition. Last year's exhibit, which featured 53 paintings, utilized only one wing of the library.

Visitors from many parts of Canada and the United States are expected to visit the temporary art gallery during the two-week period. Last year, 6,000 persons attended the exhibition.

This year's exhibit will be equally balanced between Canadian and British works. Some 45 paintings by Canadian artists will be on show, and they are representative of all types of Canadian art, from the early colonial period to present-day non-representational art and surrealism.

Works by New Brunswick artists will be included in the exhibit, as Lord Beaverbrook has purchased paintings by Jack Humphreys, Alex Colville, Miller Brittain and Goodridge Roberts.

For the second year, such famous artists as Sir William Orpen, Augustus John, Sir Matthew Smith, Sir Joshua Reynolds and Sir Winston Churchill will be represented in the exhibit.

A study for a portrait of Lord Beaverbrook, painted by Graham Sutherland, will also be shown. Mr. Sutherland's recent portrait of Sir Winston Churchill created a lively controversy in the world of art.

Many New Brunswick high schools were represented at last year's exhibit, as complete classes of students accompanied by their teachers were brought to the campus to view the art show. Among the schools represented here were: Saint John Vocational; St. Mary's High School, Fredericton; Debec High School; St. Stephen High School; and Fredericton High School.

The exhibit was hailed by artists and educationists as a significant educational and cultural event in Canada, and it received widespread attention in art magazines, newspapers, on the radio and television.

HOW ABOUT THAT

Open Letter to Frosh

Frosh Pranks Practical

Well another year has rolled around, and with it a new lot of Freshmen. These frosh must be wondering, just as we did, what their function is during the brief initiation period prior to the fall term.

Initiations at U.N.B. have had a long history and much tradition wrapped up in them. Years ago, Sophomores, unhampered by the large enrolment of today, carried a much more varied and effective programme. The events revolved much more around campus activities, and it is hoped that this year's programme will help revive some of that former "Esprit de Corps", which characterized our predecessors.

A rather interesting custom, some thirty years ago, (although not connected with freshmen) might be worth a mention. It concerned the burning of Anna, Anna being "Analytical Geometry". In those days, analytical geometry was compulsory and when the course was finished several enterprising members of the class stole a cart, or buggy, and called it "Anna". The class then met in a local wood-lot or some other suitable place, and, while the cart burned, the student with the highest marks was made to read an oration prepared by a Senior. These speeches would not, however, bear reprinting here.

We hope that the Frosh, while not concocting a plan like the above, will feel that they have become an integral part of the University, proud of their Alma Mater and prepared to lift their University to greater heights.

The Pep Rally during Frosh Week is designed to acquaint our new students with some of our songs and yells and to impress upon them the need for this college spirit.

Sports night is intended to familiarize you with our fine sports facilities, including swimming, volley ball, ping-pong, and shuffleboard. The tour of the campus on Tuesday afternoon has been found to be of great value in making our buildings and facilities better known to the new student. Should you have any difficulty in finding a classroom, or a professor, ask anyone. He'll be glad to help!

You will note that on your instruction sheet mention is made of the necessity of wearing your beanies until Christmas. This is not to single you out as a stranger; instead, it is hoped that in wearing these distinctive hats Frosh will find it easier to get to know one another. It will also enable upper classmen to help our newcomers get orientated.

So there you are, ready to run the gauntlet! Remember that it's good fun; and (if it's any consolation to you!) — you're not alone.

Barry Toole,
Chairman,
Freshman Initiation Committee

HIGH REGISTRATION EXPECTED TOTAL SHOULD TOP 950

Registration for the 1955-56 sessions at the University of New Brunswick rolls into full gear this morning, as officials anticipate a record enrolment at the provincial university.

Monday will be given over exclusively to freshman registration, which gets under way at 9 a.m. in the Lady Beaverbrook Gymnasium. Information from the registrar's office indicates that the freshman enrolment alone should reach about 340. This would make it the largest freshman class ever to register at UNB, save for the abnormal veteran enrolment after the Second World War.

Students in other years will be registering tomorrow in the gymnasium. When the final figures for all years are added up, it is expected that this session's enrolment will top the 950-mark. It will be some time, however, before a final figure can be compiled.

Students returning to UNB will find many changes on the campus. Work has progressed on landscaping around the buildings, and the new Memorial Student Centre, which was officially opened during the last Encaenia, is now in operation.

One of the outstanding features of the centre, is the new, modern cafeteria, a facility which is expected to be well used during the coming year.

Freshman week activities are expected to be as lively as in past years. Chairman of the initiation committee, Barry Toole, has organized a program which will last from September 27 to October 1, ending with the Freshman banquet and dance. Place and time will be found on mimeographed forms, which will be distributed to freshmen.

While students are looking forward to an active year in 55-56, the university has just emerged from one of the busiest summers ever experienced on the campus. The combined summer school, sponsored jointly by UNB and Teachers' College, boasted the largest enrolment ever experienced at the annual sessions.

A number of national and local conventions were held on the campus, the last of which was the first seminar of the Atlantic Provinces Economic Council. Facilities of the Memorial Student Centre were extended to most groups meeting here.

Other conferences taking place on the campus were: the first conference on the Basic Problems in Education, which was organized by the New Brunswick Teachers' Association, the Department of Education of the Province and the University of New Brunswick.

In addition, UNB played host to the Canadian Federation of Home and School Associations, the National Federation of Newman Clubs, the Girl Guides Association, among others.

EMPLOYMENT NOTICE

The University is attempting to set up a registry of students who may wish part-time employment during the late fall and winter months. The public relations office, situated in the basement of the Arts Building (under the President's Office) is acting as a clearing house for part-time employment opportunities in Fredericton. Students wishing to enter their names for part-time employment are asked to present themselves at the public relations office.

GREETINGS FROM SRC VICE-PRESIDENT

IRIS BLISS

Dear Fellow Students:

Welcome to the University of New Brunswick! On behalf of the Student's Representative Council I extend to all students, and especially to those who are coming to our campus for the first time, best wishes for an enjoyable and successful year at U.N.B.

We at this University are extremely fortunate to have this year two new buildings for our use. The Lady Beaverbrook Rink, generously donated by Lord Beaverbrook is situated at the foot of College Hill and will be open for skating, hockey and possibly curling in the very near future. The Student Memorial Centre was completed last spring through the successful efforts of the Associated Alumni and Alumnae of the University. This centre will fill a great need on the campus and it is hoped that all will enjoy friendly and intellectual associations with fellow students and faculty.

The Student's Representative Council is the governing body of the students. The members of the council which will control your extra-curricular activities this term and part of the next, were elected last spring by the students of

(Continued on Page Two)

To Whom it may concern:

The regular publication of THE BRUNSWICKAN will begin on Wednesday, October 5. At present, freshman to senior, wishing to join the staff please contact me at THE BRUNSWICKAN office in the Student Centre, or call 9004, or sign one of the lists on any bulletin board.

Meetings will be held in THE BRUNSWICKAN office at 5:00 p.m. on Thursday and 7:00 p.m. Monday and any student interested is requested to come.

We need editors, reporters, photographers, and stenographers and a Business Manager. No previous experience is necessary, if you are interested, we will train you.

All we can offer is the opportunity to participate in an important part of campus life, the opportunity to improve your writing abilities, the possibility of taking a trip or two away, the satisfaction of producing a newspaper for others to read, and a lot of work. There is an honorarium for the Business Manager.

If there is not, within two weeks, sufficient response to this call for staff, and it becomes impossible to produce this paper, it will disappear from the campus. Only you the students will lose out.

We have a new office, excellent facilities, a printing contract, sufficient advertising income and S. R. C. support to publish a good paper, and people to train you for the job.

The cards are on the table; how about it?

Fred Drummie

VOL. 88 FREDERICTON, N.B. SEPTEMBER 26, 1955

Surprise And Hello . . .

A Brunswickan out this early is as unheard of as a year-book being out on time, but the impossible happened last May and, well, here we are. To the new students on the campus, probably reading their first Brunswickan, we bid hello. This newspaper is a weekly epistle containing news, sports, features, controversial topics, and typographical errors, being the oldest college newspaper in Canada, founded in 1867. (both Canada and the Brunswickan) we are a might proud of it.

A look around the campus shows many changes over the summer: the Lady Beaverbrook Rink is completed, the Student Centre is open for business, a new football field is in evidence, and miracle of miracles, the rooms on the top floor of the men's residence have been painted. Just what is this world coming to!

Although the staff of this paper is at present non-existent we hope you will respond to our appeal and make this the newspaper it can and should be. The gags, stories and events which will be printed on these pages in the next six months will be done by, or for, the students Up The Hill. This then is your newspaper from the first to the last. Read it! Enjoy it! and, if you like, come and help write it.

★ ★ ★

It's Fifty Fifty . . .

Half a university education is found in the lecture room and labs, the other in the things you do and the people you meet during the four or five years you spend earning your degree.

A big university can give much in the way of excellent formal education but in its largeness the students' individuality is lost. The smaller university often cannot afford to offer degrees of high calibre but the students benefit from close contact with his fellows. At U.N.B. we are achieving a good compromise. Our degrees are respected, our standards are being raised steadily, yet we have less than one thousand students and each has the opportunity to meet and make friends with many. In fact, it is unavoidable.

Our athletic and recreational facilities are second to none, students can play sports and on teams which they couldn't hope to at a larger institution. Our undergraduate societies are as many and varied as clouds on a windy day. To graduate with a degree is the aim of all, but the memories of campus life you will carry with you will often mean more. All the various societies, clubs, and teams want new members, it would pay if you join one or two.

Whether you are a freshman or a senior you are wanted and you can benefit yourself. The freshman should understand that in university all are equal, the upper classmen may have been here longer but you are just as important and capable, probably more so, you will be here for four or five years, they, only one. Take a look around, then do something. This is your university, the buildings and professors have been provided, only you can put life into it.

★ ★ ★

Freshman Week . . .

Freshmen are no doubt facing the coming week with some apprehension of what will come at them. Indeed their life will be made uncomfortable; but not miserable, even though the axiom behind Freshman Week is, Misery Loves Company. The

. . . The Longest Week of Your Life . . .

FOOD FOR THOT

SKI TOW

Why then is skiing not such a popular sport in Fredericton? The answer is very simple. If you want to come down the hill, you first must climb. Only the most ardent skiers are willing to go out week after week and spend 10 to 15 minutes climbing for a 35 second run. What all skiers would like to see is a tow. This is the 'missing' item. When, and if we get a ski tow, enthusiasm will definitely go up and we will have the best hill in the maritimes.

But putting in a tow is not an easy task. Besides financing the project there is the problem of location in order to give maximum benefits to all. The first step is to be taken this spring when the 4th year Foresters will make a topographic survey of the hill.

The installation involves more work than most people think. A trail must be cleared and leveled out; posts must be erected; a shack for the motor must be erected, and devices to take up rope slack must be installed.

The financial problem is the most acute. A rough estimate of costs would be \$1500, of which the rope would cost \$400 and the motor about \$500. If properly cared for, the rope would last from 4 to 5 seasons and the motor indefinitely.

So one can see that this project is still a skiers dream, but with University aid, or possible donations this dream may become a reality in the near future. This is indeed food for thought.

WINTER CARNIVAL

It is suggested that on the third or four week-end of January, 1956, a winter carnival be staged on the campus. This could be so arranged as to give many of the societies and clubs, as well as individual students, an opportunity to work towards an end which would provide all with a good time, publicize the university abroad, raise the morale and abilities of our varsity teams, and unite our students more closely with those on other camps.

A carnival would undoubtedly provide an enjoyable week-end for all, students and faculty alike. As a secondary benefit from the carnival the university would receive extensive, good publicity, not only in the newspapers, but on radio and in television, but by word of mouth by the visitors who will return home with a good impression of U.N.B. and Fredericton. With this in mind I propose that the first UNB Carnival be staged on the dates January 26-29 of 1956.

The events of such a winter carnival could be made up of some combination of the following:

- 1) Hockey games in the new rink, possibly involving teams from other Maritime universities.
 - 2) Men's basketball games in the gym.
 - 3) Woman's basketball games in the gym.
 - 4) Swimming meet.
 - 5) Ski meet and general skiing at Royal Road.
 - 6) Exhibition water polo.
 - 7) Snow Shoe races.
- Around these athletic events the following could be staged:
- 1) Carnival Queen contest—var-

ious universities could be asked to send their campus queens to enter competition.

- 2) Crowning of the queen at a carnival ball.
- 3) Snow sculpture contest on the campus.
- 4) Torch light parade.
- 5) One night stage show—with selections from the revues of several universities.
- 6) Sleigh rides.
- 7) Fireworks.
- 8) Photo Salon.

To undertake this a committee would definitely have to be set up before the end of the school year. A central chairman would be needed with three sub-chairmen immediately under him, one in charge of athletics, one in charge of social events, and one concerned with publicity, accommodations, etc. This latter committee would be responsible for the important phases of pre-carnival organization and the success of the affair would depend upon the effectiveness of their work.

With this setup of committees and adequate support on the campus there is no reason why a carnival of this sort couldn't draw spectators from other campuses by the hundreds. If it were not run for profit the admissions collected could go towards defraying the expenses of the visiting teams, a point which would be well received at other schools. The benefits to the students, the university, and the city, particularly the merchants, would be incalculable. The financial risks involved might be great but the eventual return would warrant it.

activities of the week are designed to give the new students a chance to get acquainted and make friends as soon as possible, not to cause physical pain or give an outlet to sadistic-minded upperclassmen.

Uncertain policies concerning Freshman Week on other campuses have led to their abolition. In many cases the hazing turned into a week of punishment for coming to university rather than a welcome. We are proud that at U.N.B., in recent years, our Freshman programme, run entirely by the students, has become a progressively better affair. To the freshman who has to undergo the ordeal it is much like taking medicine; it is awful at the time but the best thing for you.

GREETINGS FROM

(Continued from Page One)
 their respective classes. As the organization which binds all campus life together the S.R.C. is the interest and responsibility of each and every student. I urge you to become fully acquainted with your governing body.

Sincerely,
 Iris Bliss,
 2nd Vice-President S.R.C.

STUDENT CENTRE OPEN

AT THE OPENING CEREMONY

Description of Centre

The dominant characteristic of the Memorial Student Centre is the memorial feature. The Memorial Wall, of green slate, bears the incised gilt inscription:

"At the going down of the sun
And in the morning
We will remember them"

and the dates of the two world wars. The Union Jack and the Canadian Ensign complete the Memorial Wall which is lighted by means of a skylight during the day time and by special lights after dark. In front of this wall is a base for a specially designed case which will contain the Book of Remembrance. In this book, which will be dedicated in the Fall, it is hoped to have a picture and biography of each alumnus who paid the supreme sacrifice.

A brass plaque in the area of the Memorial Wall bears the following inscription:
"This building has been erected by the alumni, alumnae and friends of the university as a living memorial to the University of New Brunswick war dead. It is a place where students, faculty, graduates and friends may gather together in fellowship and understanding. Opened May 12, 1955."

The Common Room on the second floor is without doubt a show place. Large picture windows show a panorama of the Campus, St. John River, and Nashwaak Valley which is literally breath taking. A column of multi-color quartzite containing back to back fireplaces is extremely well designed. Two of the walls consist of vertical beech boarding of random widths; the other two walls are plaster, painted pale green. The floor of the Common Room is hardwood. Three green carpets, modern furniture upholstered in red, yellow, green and beige plastic, lamps, maple-color coffee table and end tables add to the Common Room, and the appearance of it on opening day was greatly improved through the kindness of Fredericton artists who offered their pictures for the occasion.

The Ladies' Lounge is also dominated by a picture window which offers the same view as the Common Room, but here the similarity ends. The Ladies' Lounge has a wall to wall rug of a gold color. The furniture is upholstered in fabrics which are red, green and white all with black and metallic threads interwoven. The coffee table, the end tables and the arms of the settees are done in ebony. This room has full drapes which have a geometric design and colors to blend with the rug and furniture. The walls are turquoise and recessed in one of them behind double beautifully grained birch doors is a kitchenette.

The ante-room between the Common Room and the Ladies' Lounge has been made into a music room. It has the same view and a carpet and furniture similar to that of the Common Room. The wall opposite the window is rose, the other walls are beige. It is hoped to have a combination radio and record player and possibly a small piano in this room.

A suite of offices for the S. R. C., Brunswickan and the Year Book are located on the second floor. A small inner office for the use of the S. R. C. has been partitioned from the general S. R. C. office, which is large enough for several desks and filing cabinets for campus organizations. A wicket has been provided through which tickets to games, plays, red and black revue, etc., may be sold, or S. R. C. passes, Yearbook, etc., distributed to the students.

On the opposite side of the upper lobby from the S. R. C. are two offices for the use of the alumni secretary and his staff.

A men's cloak room and wash room, another display case and bulletin board may also be found on this floor.

Most of the lower floor is devoted to the cafeteria and kitchen. The cafeteria is "L" shaped, and may be divided by means of modern-fold doors when it is desired to use part of it for a banquet, a meeting or for the projection of moving pictures. The walls of the banquet section have been finished in vertical oak boarding. The floors are tile with the dominant colors cherry and grey. The drapes with which it darkens the banquet section of the cafeteria for moving pictures are royal blue. The tables are maple, have a special stain resisting finish and will accommodate 150 people at one sitting. Tables and chairs for fifty more people can be added if necessary.

The Conference, or Committee Room, has been furnished with a maple board table and red upholstered chairs.

An all-purpose, or utility, room has been deliberately left unfinished. It is a place where the students may cast their plays, red and black revue, do their preliminary rehearsing, make scenery, etc. This room will also serve as a meeting place for campus organizations and will be available for singing.

LETTER FROM THE DIRECTOR

It is a rare pleasure to announce that the Memorial Student Centre has been completed and on behalf of the University I invite the students to make full use of its facilities.

May I first of all point out that the new building is a war memorial. It honors the U.N.B. war dead of two world wars; hence the memorial wall which is the dominant feature of the building. A book of remembrance in which it is hoped to have a picture and write-up of each alumnus who paid the supreme sacrifice is still to come.

Most of the lower floor is given over to the cafeteria which Industrial Food Services Limited has been engaged to operate. Mr. Stanley Cooke is the manager. We know from summer school that the quality of the food and the moderate prices are very acceptable. The Oak Room incidentally may be reserved by any student organization for a banquet. Between meals and in the evenings hamburgs, hot dogs, milk shakes, coffee, soft drinks, sundaes, etc will be served.

The Conference Room is available to any campus organization or committee for a meeting. In order to avoid conflicts a reservation book will be kept in the Alumni Office. Temporarily the All-Purpose Room on the lower floor has been allotted to the COTC. Later in the term it will be available for whatever purposes the students wish to use the room.

The Common Room, the Ladies' Lounge and a little Music Room will be found on the second floor. All these rooms have a magnificent view of the city, the Saint John Valley and the mouth of the Nashwaak and I think that there will be general agreement that they are ideal for relaxation.

Finally a suite of offices will be found for the use of student organizations. The President of the S.R.C., the Brunswickan and Yearbook have private offices. The largest office is intended to be shared by the officers of the S.R.C. and the organizations which come under the student governing body. These facilities should provide a stimulus for worthwhile extra-curricular activities.

In conclusion let me say that I look forward to my association with the students in my capacity of director of the Memorial Student Centre and that I have high hopes for the building. It will, I predict, promote understanding, good fellowship and a healthy college spirit. It should, in fact, enrich the experience of each student during his, or her, years Up the Hill.

J. C. Murray,
Director, Memorial Student Centre.

Three N.B. Students Awarded Legion Scholarships

In a joint announcement, J. Chester MacRae, president of the New Brunswick Provincial Command, Canadian Legion, and Mrs. C. H. Bedyea, president of the New Brunswick Command Ladies auxiliary to the Legion, the special committees meeting in Fredericton has awarded scholarships to students who will enter university as freshmen this year.

Miss Jean Y. Baird, Union Mills, Charlotte County, received a \$200 scholarship from the New Brunswick Provincial Command to assist her with her studies at UNB where she will take an arts course leading to a Bachelor of Science degree. Miss Baird has been active in sports and dramatics during her high school career, as well as a leader in church activities including president of the Young Peoples' Group, and a Sunday School teacher. Miss Baird's father had served overseas in the First World War, and served throughout the Second World War with the RCAF in Canada and Labrador.

Robert W. Trevors, Chatham, was awarded a \$200 New Brunswick Command scholarship to assist him in a course in mechanical engineering at the University of New Brunswick. Mr. Trevors has been active in the high school cadet corps, a member of his student council as well as being active in sporting circles. Mr. Trevors' father served overseas in the Second World War for nearly five years.

John Stickles, Plaster Rock, was awarded Ladies' Auxiliary Command scholarship No. 2 to assist him in his course of business administration at the University of New Brunswick. Mr. Stickles has been active in the Air Cadets, president of the student council, editor of his school paper and yearbook as well as taking part in school sports and holding an office in his church Sunday School organization. His father served with distinction during both World Wars.

'55 Year Book Outstanding

The 1955 Year Book adjudged a notable accomplishment in the annals of U. N. B. extra-curricular activities has earned two special alumni awards, each to the value of \$50.00, for its co-editors Bill Barwick '55 and Trudy Gunn '55. Ever since Sam Davis '38 and Art Leger '38, editor and business manager respectively, put out the first issue of "Up the Hill" each edition has been much the same. The 1955 book, however, is different from beginning to end including the cover design. The text is well written, the photos well chosen and reproduced. Text and pictures combined give the book greater coverage of the year 1954-55 at the University.

The special awards were voted at the Encaenial meeting of the Associated Alumni on May 11 and were presented to the co-editors by the Alumni Secretary during the roll call of classes at the Encaenial Dinner the same evening.

Moose Flemming Returns As Football Coach

FOOTBALL PRACTICES BEGIN

Canadian football practice sessions began on Tuesday, September 20th and are continuing this week at College field starting at 4.00 p.m. All students interested in turning out go to College field equipped with old clothes and sneakers.

Practices will commence in the evening starting on Monday, October 3rd beginning at 7.00 p.m. Coach Flemming and his staff will be ready to train any new members who wish to try out for the team.

NBCRFU LISTS TEAMS

Teams in the New Brunswick Canadian Football Union this year will include St. Thomas College, St. Joseph's University, Moncton Trojans, Saint John, and the University of New Brunswick. There will be an exhibition game during the season with the newly-formed team of Mt. Allison University.

The league schedule has not been set up as of press time.

MOOSE ALSO TO TRAIN BASKETBALLERS

Frederick Gerard (Moose) Flemming, widely-known New Brunswick athlete, has joined the athletic staff of the University of New Brunswick, P. C. Kelly, university physical education director, announced here today.

Mr. Kelly said that Mr. Flemming will act as coach in football and basketball at the provincial university.

A son of New Brunswick Premier Hugh John Flemming "Moose" has had a season and a half in professional baseball with The Tigers. He signed up in June, 1953 and after spring training, he was optioned to Wilkesbarre, Pa., in the Eastern League. He hit .310, led the league in triples, and played left field in league All-Star Team.

"Moose" attended Bowdoin College in Maine, and received his B.A. there in 1954 with a major in Political Science. At Bowdoin, he was a four-letter man in football, basketball, track and baseball.

In 1953, he was on the All American Intercollegiate Baseball Team. In baseball, he also made the All New England and All State teams while he played football on the All State and All New England Teams.

MANY CHANGES

The time was when the U. N. B. Campus was quiet and almost deserted when the University was not in session. No longer is this true.

Since Encaenia the national convention of the Home and School and Girl Guides have been at U. N. B. The delegates lived in Lady Beavertrook's Building and the Maggie Chestnut House

Name Dr. W. D. Pacey To Royal Society

FREDERICTON (Staff Special) — Head of the department of English at the University of New Brunswick, Dr. W. Desmond Pacey, has been named a fellow of the Royal Society of Canada.

Elected to the English language humanities section at the society's annual meeting in Toronto. Dr. Pacey is the author of several books and a number of articles, and has also contributed to the CBC's Canadian short story programme.

His "The Selected Poems of Sir Charles G. D. Roberts" will shortly be published by Ryerson Press.

NEW ORGANIZATION OPERATING; STUDENT, FACULTY GROUP REPLACES AAA.

Students returning to the University of New Brunswick this fall will be faced with an enlarged and more energetic athletic programme.

This comes as a result of reorganization of the administration of athletics on the campus effected recently. A representative body made up of students, members of the university faculty and administration, and a representative of the alumni, have been invested with control of university athletics.

Known as the University of New Brunswick Athletic Board, the new body replaces the former system where all control of athletics lay with the Student's Representative Council. The new system brings UNB into line with most other Canadian universities, which operate under similar schemes.

The reorganization was prompted primarily by a lack of continuity in the administration of the provincial university's athletic programme under the old system, plus an inefficient system of budgeting. Under the new Board, the athletics budget is included in the overall University budget, and accounting and payment of bills will be done through the university's business office.

Already, the Senate of the university has increased its grant for athletics for 1955-56, and an additional \$8,000 will be available for the various activities in the programme.

This fall, more money is available to improve travelling conditions for the teams; a fund has been set up to look after hospitality for visiting teams, something which has not been included on previous budgets; and additional funds will be available for supplies and equipment.

A Maritime Football clinic, held on the campus of the provincial university recently, which was attended by representatives of many Maritime universities and which was led by McGill University coaches, also forms part of the enlarged programme.

The new Board is composed of 15 members, under the chairmanship of the University president, Dr. Colin B. Mackay. Other members are: Jack Ernst, president of the Students' Representative Council; Eric Bonnyman and Eric McAlary, president and vice-president respectively of the Amateur Athletic Association; Iris Bliss, Michael Caughey and Greg Hayter, members of the SRC; Pete Kelly and Amby Legere, director and assistant director respectively of athletics; Beverley Macaulay, Business Manager of UNB; Dr. Ella Milham and Dr. Lewis Miller, non-voting faculty members; Prof. R. H. B. McLaughlin and Dr. A. P. Stuart, faculty members; and Dr. B. L. Jewett, alumni representative.

Up to now, the Board has held two meetings and planning for the 1955-56 athletics programme at UNB is well under way.
