## THE WALTHAM CONVERTIBLE BRACELET WATCH

IS easily the first favorite with the ladies. Why? Because of its dainty beauty and abiding accuracy. But that is not all. It appeals to the ladies also because of the many different ways it can be worn. On the case is a little "eye" that folds back snugly against the case when it is desired to wear the watch on chain, brooch or ribbon. You really ought to see this beautiful watch and we shall be pleased to show it to you at any time.

is a most interesting account of a Health Centre established in one of the towns across the border, which is a good example of what might be done in many of our Canadian communities.

Bridgeton, New Jersey, is a city of approximately 15,000 inhabitants. The surrounding territory is settled by farmers. There are about five villages within a radius of ten miles of Bridgeton, each having a population from 300 to 1,000 persons. After the war, Bridgeton's large and enthusiastic Red Cross organization decided to continue its work for humanity and therefore established in Bridgeton a Health Centre.

The centre secured commodious floor rooms in the centre of the town. These are used for offices, rest room and comfort station, nurses' lounge and class room for teaching the Care of the Sick, the holding of clinics and for general health purposes.

Two Red Cross Public Health Nurses are hired. One of these was assigned to give one-half of each day to school work and the other half day to home and bedside nursing. A second nurse was assigned to bed-nursing and child welfare work. In order to make the most of the nurses' time a small automobile was purchased. This was marked with the name of the Red Cross and the initials, "Public Health Service."

Three rooms of the Public Health Centre are used by the farmers, particularly their wives and families, as a rest room and meeting place. After the farmer's errands have been accomplished there is always the open door and a comfortable chair until the husband arrives. The various family health problems may be presented to the nurses on duty who freely give safe counsel, and very excellent results have been obtained.

A third nurse has been requested by the Red Cross and when she has been assigned, the school nursing service will be extended to four of the village villages.

In Bridgeton, the Board of Education pays for the time the nurse devotes to the school work. The Boards of Education in the farming district will be asked to take over a portion of the expenses of such health service when it has been demonstrated to them that this service is of value. In the Bridgeton schools much has been accomplished by the nurses. Eyes that have needed glasses have been fitted. The nurse in many instances has found it necessary to visit the home and explain in detail to the parents just why the expenditure for the child should be made. Undernourished children have received proper nourishment through the instrumentality of the Red Cross Nurse. Parents were only too glad to be told why their children were weak or stunted in growth. Children and adults in the first stages of consumption have had the advantage of a trained nurse and that means proper instruction in preparing food and in the care of such persons. A charge of 50 cents for each visit is made, but it is only accepted when the person receiving the service can afford to pay.

The Bridgeton Health Centre has secured a woman as a social service worker. She is one of their own citizens and as soon as her course is completed she will begin her duties, and those responsible for the work are confident that most excellent results will follow.

During the present summer, the nurses have been visiting the various farms to make a survey of living conditions and the health of each family, particularly the health of the children. All this data will be indexed and recorded. Such aid as can be given by an organization that has for its object the improvement of the public health, will be extended to the families requiring assistance.

From a few visits a month, this health service has grown to cover from three to four hundred visits per month and these do not include visits to school children.

### The Hired Dollar.

men who boldly bargain for man's cringe at hiring dollar labor. It looms up to them as a monstrous thing forever set in wait for them. They do not realize that the power of debt work as mightily for a man as it does against him. More men have risen in debt than have fallen through it. Debt carrying disaster in its wake is so in the vast majority of cases just one or two reasons; either the man who borrows goes too far beyond depth, or he secures the money to spend it in some enterprise in which he is not thoroughly versed.

A man operating a farm cannot keep year in and year out, enough to allow himself a margin beyond the interest on the money invested, he is committed to his business; for it is this margin that presents his worth to a man. Failing to secure this margin for his personal security would be far better off to sell the land and equipment and invest in a safe-bearing paper.

Few men mount to positions which in size match their full capacity. It is doubtful that there exists a man who has not the ability to manage a business a trifle larger than the one he heads, provided of course he has made some measure of success.

One Middle West farmer of large acres thinks that the stumbling block of so many farmers is that they have the wrong goal. They make it their aim to get out of debt. Once they have taken the icy plunge they harass themselves until with heart-breaking sacrifice they have paid off every dollar. He believes they should increase their debt as rapidly as they can with sound judgment.

The man who is courted by the banker is the man who borrows, not because he is a prospective victim of the foreclosing mortgage, but because the intelligent heavy borrower is usually a big money maker.

Look through closets carefully for signs of moths or other pests.

Sunshine will keep milk pails clean and fresh, it won't hurt to let it dry in the barn.

Plants making the house and yard attractive, flowers add actual money to the place. Plant some tulip bulbs this fall.

## SCHOOL

The way of others who may be seen. See Rom. 14: 13-21.

35. Who Hath Woe? The moral rendering of the Hebrew is "Who hath (or who saith) oh? Who (or saith) alas!" Oh, and alas, strife, and complaining, and words without cause, and redness of face are the lot of those who drink excess.

The mixed wine was prepared by adding various aromatic herbs and spices for the purpose of heightening flavor and increasing the strength of the wine. Maspero, describing the Egyptian practice, says, "The wines, the most delicate, are not drunk in their natural state; they are mixed with aromatic and various drugs, which give them a delicious flavor and tenfold to their strength. This operation is performed in the hall, over the eyes of the revellers. An earthenware mortar before a table pounds the stone mortar the intoxicating substances, which he moistens from time to time with some essence. His companions have poured the contents of the amphorae (i.e., wine jars) into these bowls of chased silver which he holds to their chests. As soon as the mixed paste is ready they put some of it into each bowl and carefully dissolve it. The cupbearers bring the cups, draw out the wine, and offer it to the guests." The wine when it is mixed, the description is of wine at its best, when it is most attractive. It is red, it sparkles, it glides smoothly over lip and tongue. The Revised Version renders the last clause of verse 31, "when it goeth down smoothly." Its attractiveness and its pleasant flavor but conceal its poison, which is like that of the serpent. The intoxicated person sees strange things (Rev. Vers.), and out of his distorted fancies he speaks perverse things. He becomes giddy and nauseated as one afflicted with sea-sickness.

When he awakes from his drunken sleep he congratulates himself that he has not felt the blows of some companion or adversary who have inflicted upon him. He decides that he will seek the wine yet again.

# 500 DEAD AND THOUSANDS HOMELESS AS RESULT OF ITALIAN EARTHQUAKE

### Many Towns and Villages Wrecked and Much Suffering to Inhabitants for Want of Food, Medicine and Shelter.

A despatch from Rome says:—Italy is again suffering from an earthquake disaster, the extent of which has not yet been measured. It is known, however, that hundreds of people have been killed and thousands injured. Many small towns and villages have been wrecked, and although assistance is being hurried from all parts of the country to the afflicted area, there is much suffering for want of food, medicine and shelter for the people.

Fivizzano, where the damage to buildings was especially heavy, was a flourishing little town perched on the slopes of the Apennines. It possessed an old town wall and also the ruins of a castle. The whole scene is now one of ruin, with numbers of the inhabitants buried under the debris. Groans and cries were heard on all sides as rescuers worked feverishly to extricate the injured and the bodies of the dead.

A later despatch from Rome says:—The Epoca estimates that the dead in the earthquake exceed 500, and the homeless more than 20,000.

“Every earthquake disaster is for Italy like a lost battle,” said ex-Premier Luzzatti, after the Avezzano catastrophe, and this is now repeated in Tuscany. Though not so great, the present disaster recalls the distant tragedy at Messina.

A despatch from Florence says:—Already some of those working bravely to rescue and help the sufferers from the earthquake have been killed. At Fivizzano three men, including a carabinieri, were trying to move masonry, from behind which they heard the groans of someone imprisoned, when a new earth shock occurred, the wall falling on all three and crushing them in eight of the on-lookers.

King Victor Emmanuel, accompanied by Queen Helena and Princess Yolanda, passed through the smaller villages which suffered disaster from the earthquake. In these places, if the tragedy was on a smaller scale, the inhabitants were afflicted perhaps to a greater degree because of the impossibility of providing for the outlying districts promptly.

Most of the vessels have been managed by British companies in behalf of the Reparations Commission. They have now been definitely allotted to British ownership. The proceeds of the sale will form a part of the German indemnity.

Experts, who expect low prices, in view of the present falling rates, say the Germans are bound to complain that the British Ministry of Shipping threw the liners on the market in a slump period instead of during a boom.

It is considered most likely that the biggest liners will be bought by the present operating companies, the Imperator and the Kaiserin becoming Cunarders. Lord Inchape declined to auction the vessels, declaring that the invitation of bids would bring better prices.

Susan Agnes Macdonald was created a Baroness in her own right on the death of her distinguished husband, in recognition of his public services. She was born in 1836, the daughter of the Hon. T. J. Bernard, P.C., of Jamaica, B.W.I., and married the Honorable Sir John Alexander Macdonald, ex-Premier of Canada, in 1867. The family home is at Earncliffe, near Ottawa.

More modern kings and queens in statuary lines are now in demand for decorations of London squares and streets, especially people known to the present generation, says a London Dispatch. Therefore the Office of Works has decided that various statues of kings of bygone days must be removed to give place to new.

King George III. will leave his pedestal at the entrance to Pall Mall and King William IV. will be deposited from his wonted throne in the City. Lord Napier leaves Waterloo place and probably will be succeeded by King Edward VII. Lord Napier goes to Trafalgar Square. Sir Rowland Hill will be removed from behind the Royal Exchange.

New statues of heroes of this war to be erected are those of Lord Roberts and Kitchener somewhere near the War Office and the Horse Guards Parade, and Lord Fisher, near the Admiralty.

The Australian Wheat Board estimates the crop at 167,000,000 bushels. The record price of ten shillings a bushel is expected by the farmers.

The world's harvest prospects show a total yield just equal to requirements. The wheat crops of Canada, the United States, Spain, Italy and Switzerland are estimated at 95 per cent. of the yield of 1919. Rye, barley and oats in most countries greatly exceed the average. Potatoes in Canada, the United States and Switzerland are estimated at 184 per cent.

The coal mine owners to discuss wage anomalies, and more important than all, they insisted on their right to dictate to the Ministry and Parliament as to the disposition of the profit made from the export of coal.

The result was a complete deadlock, and the country now has nothing in sight to prevent the strike beginning September 27.

IN THE LIVE STOCK ARENA AT THE NATIONAL EXHIBITION. "Robin Hood," first prize winner in the two-year-old Ayrshire class, owned by J. B. Stansell, Stratfordshire, Ontario.

## TO SELL GERMAN SHIPS IN LONDON

### Forty Liners Form Part of the German Indemnity.

A despatch from London says:—Forty former German liners, totalling nearly 400,000 tons, including the Imperator, the Kaiserin and the Prinz Friedrich Wilhelm, were offered for sale by Lord Inchape, in behalf of the Government.

Experts, who expect low prices, in view of the present falling rates, say the Germans are bound to complain that the British Ministry of Shipping threw the liners on the market in a slump period instead of during a boom.

It is considered most likely that the biggest liners will be bought by the present operating companies, the Imperator and the Kaiserin becoming Cunarders. Lord Inchape declined to auction the vessels, declaring that the invitation of bids would bring better prices.

## Baroness Macdonald Passes Away in England

A despatch from London says:—Baroness Macdonald, of Earncliffe, widow of the great Canadian Premier, Sir John Alexander Macdonald, died on Sunday.

Susan Agnes Macdonald was created a Baroness in her own right on the death of her distinguished husband, in recognition of his public services. She was born in 1836, the daughter of the Hon. T. J. Bernard, P.C., of Jamaica, B.W.I., and married the Honorable Sir John Alexander Macdonald, ex-Premier of Canada, in 1867. The family home is at Earncliffe, near Ottawa.

## England to Erect Statues to Heroes

More modern kings and queens in statuary lines are now in demand for decorations of London squares and streets, especially people known to the present generation, says a London Dispatch. Therefore the Office of Works has decided that various statues of kings of bygone days must be removed to give place to new.

King George III. will leave his pedestal at the entrance to Pall Mall and King William IV. will be deposited from his wonted throne in the City. Lord Napier leaves Waterloo place and probably will be succeeded by King Edward VII. Lord Napier goes to Trafalgar Square. Sir Rowland Hill will be removed from behind the Royal Exchange.

## Record Price for Australian Wheat

The Australian Wheat Board estimates the crop at 167,000,000 bushels. The record price of ten shillings a bushel is expected by the farmers.

## Utilization of Canadian Coal.

It is a considerable strain upon public patience to be subjected to severe shortages of fuel from time to time, and, on the other hand, to read frequent statements to the effect that about one-sixth of the total coal resources of the world is possessed by Canada.

To promote a more general understanding of the nature of the numerous problems involved in making greater use of our own fuel resources, the Commission of Conservation carried out a thorough survey of the whole situation, and, in 1918, published the results of a volume entitled Conservation of Coal in Canada, compiled by W. J. Dick. Mr. Dick made a very exhaustive study, covering the following problems:

- (1) Improvement of Canadian mining methods;
(2) Cheap power problem in the Prairie Provinces;
(3) Domestic fuel problem of the Prairie Provinces;
(4) Utilization of low grade fuels;
(5) The coking of coal.

Perhaps the most illuminating feature of the report is the examination of the extent to which the use of Canadian coal is controlled by freight rates.

Conservation of Coal in Canada is one of a series of publications issued by the Commission of Conservation to afford the best possible understanding of Canada's fuel and power resources and problems. Copies are freely available on application to the Commission.

## H.R.H. Makes 3-Weeks' Stay in Bermuda

A despatch from London says:—The Prince of Wales is due to reach Bermuda on September 14. He will leave Bermuda on October 3, and arrives at Portsmouth on October 11.

## Harvest in Prussia Shows Big Decrease

A despatch from London says:—The Prussian harvest officially is estimated at considerably less than that of last year, according to a wireless despatch from Berlin.

BARONESS MACDONALD DEAD IN ENGLAND. Widow of the great Canadian Premier, Sir John Alexander Macdonald, whose death in England has been announced. She was created a Baroness by Queen Victoria, but the title dies with her, as she leaves no male heir.

## Weekly Market Report

### Wholesale Grain.

Toronto, Sept. 14.—Manitoba wheat—No. 1 Northern, \$2.82 1/2; No. 2 Northern, \$2.79 1/2; No. 3 Northern, \$2.75 1/2; No. 4 wheat, \$2.58 1/2, in store Fort William.

Man. oats—No. 2 CW, 85 1/2c; No. 3 CW, 84 1/2c; extra No. 1 feed, 84 1/2c; No. 1 feed, 83 1/2c; No. 2 feed, 83 1/2c, in store Fort William.

Man. barley—No. 3 CW, \$1.28 1/2; No. 4 CW, \$1.22 1/2; rejected, \$1.12 1/2; feed, \$1.12, in store Fort William.

American corn—No. 3 yellow, \$2; nominal, track, Toronto, prompt shipment.

Ontario oats—No. 3 white, 75 to 80c; Ontario wheat—No. 2 Winter, per car lot, \$2.80 to \$2.40, shipping points, according to freight.

Peas—No. 2, nominal. Barley—\$1.80 to \$1.35, according to freight outside.

Buckwheat—No. 2, nominal. Rye—No. 3, \$1.75, nominal, according to freight outside.

Manitoba flour—\$19.25, new crop. Ontario flour—\$10.40 to \$10.50, bulk sea-board.

Milled feed—Car lots, delivered Montreal, freight, bags included: Bran, per ton, \$62; shorts, per ton, \$61; good feed flour, \$3.75.

Country Produce—Wholesale Cheese—New, large, 28 1/2 to 29c; twins, 29 to 29 1/2c; triplets, 29 1/2 to 30c; old, large, 33 to 34c; do, twins, 33 1/2 to 34 1/2c; Stilltons, old, 35 to 36c; new, 33 to 34c.

Butter—Fresh dairy, choice, 49 to 50c; creamery prints, 50 to 52c. Margarine—35 to 36c.

Eggs—No. 1, 59 to 60c; selects, 65 to 66c.

Beans—Canadian, hand-picked, bus., \$4.75; primes, \$3.25 to \$3.50; Japans, 10 to 11c; Limas, Madagascar, 15c.

Maple products—Syrup, per imp. gal., \$3.40 to \$3.50; per 5 imp. gals., \$3.25 to \$3.40. Maple sugar, lb., 27 to 30c.

Honey—Wholesalers are now offering the following prices to farmers: 23 1/2 to 25c per lb. for 30 and 60 lb. pails; 23 1/2 to 25 1/2c for 10-lb. pails, and 24 to 25c per lb. for 5 and 2 1/2 lb. pails; \$7.50 case, 15 sections case.

### Provisions—Wholesale.

Smoked meats—Hams, med., 47 to 50c; heavy, 40 to 42c; cooked, 64 to 68c; rols, 34 to 36c; cottage rolls, 38c to 41c; breakfast bacon, 50 to 62c; backs, plain, 52 to 54c; boneless, 58c to 64c.

Cured meats—Long clear bacon, 27 to 28c; clear bellies, 26 to 27c. Lard—Pure tierces, 27 to 28c; tubs, 28 1/2 to 29c; pails, 29 to 29 1/2c; prints, 29 1/2 to 30c. Compound tierces, 21 1/2 to 22 1/2c; tubs, 22 to 23c; pails, 23 1/2 to 24c; prints, 26 1/2 to 27c.

Montreal Markets. Montreal, Sept. 14.—Oats, No. 2 C W, \$1.06; No. 3 CW, \$1.04. Flour, new standard grade, \$14.25. Rolled oats, bag 90 lbs., \$5.25 to \$5.40. Bran, \$2.25. Shorts, \$37.25. Hay, No. 2, \$22.25. Car lots, \$30. Cheese, finest easterns, 26c. Butter, choicest creamery, 61 to 62c. Eggs, fresh, 66c.

Montreal, Sept. 14.—Butcher steers, good, \$11 to \$12; med, \$9.50 to \$11; com., \$7.50 to \$9.50; butcher heifers, choice, \$10.50 to \$12; med., \$5.50 to \$10; common, \$5.50 to \$8; butchers' cows, choice, \$9 to \$10; med., \$5.50 to \$8.50; canners, \$3 to \$4; cutters, \$4 to \$5; butcher bulls, good, com., \$4.50 to \$6; Good veal, \$13 to \$15, med., \$10 to \$12; grass, \$6.50 to \$8. Ewes, \$6 to \$7.50; lambs, good, \$12.50; com., \$10 to \$12. Hogs, off car weights, \$16.75, \$20.75 to \$21; sows, \$15.75 to \$16.75.

Canadian teachers, in the efforts being made towards a reduction of the fire loss.

Fire Prevention Day will give a splendid opportunity for bringing this subject to the attention of pupils and should produce good results.

The Governor-General has, by proclamation, set aside Saturday, October 9, as a day on which to specially emphasize the great loss which Canadians, individually and collectively, are sustaining through destruction by fire of both natural and created resources.

At a time of high building costs and acute scarcity of material, we are burning buildings at a criminal rate. Our fire loss of last year, viz., \$23,500,000, or approximately \$2.90 per capita, was the highest per capita in the world.

Not only is this a complete loss of national wealth, but its replacement creates increased competition for available building supplies, thus enhancing prices for new building. How can we hope to overcome the housing shortage when, in Ontario alone, last year 5,804 dwellings were damaged or destroyed, causing a loss of \$1,753,337? There were also 744 frame barns destroyed, at a loss of \$1,189,906, of which \$577,736 was uninsured.

Lightning damaged or destroyed 1,102 buildings in Ontario, involving a loss of \$506,885, of which \$212,778 was not covered by insurance. None of these farm buildings were equipped with lightning rods, whereas but two buildings protected by lightning rods were damaged, and these to the amount of \$22 only.

Matches were again responsible for the largest number of known fires, 1,143 in Ontario originating therefrom. Practically every fire due to matches is the result of carelessness.

Public education and a recognition of personal responsibility are essential to a reduction of the fire waste. It is particularly essential to interest the younger generation, through the

## HEADS CANADIAN BATTLE-FIELDS COMMISSION.

General Mewburn, former Minister of Militia, who is named chairman of the new body appointed by the Government to establish memorials on the fields of France and Flanders.

Be sure the water is at boiling point before putting in vegetables to be cooked. Place the saucpan over the hottest part of the stove so that it may boil as quickly as possible, and be careful that the boiling does not cease until the contents are thoroughly cooked and ready to be dished.

## BRITISH COAL MINERS REFUSE GOVERNMENT PROPOSALS

A despatch from London says:—The coal miners' Executive conferred on Thursday with Sir Robert Horne at the Board of Trade and declined to accept any of the proposals put forward by the Government.

They refused to submit their claim for increased wages to the Statutory Industrial Court; they refused to meet

## BRITISH COAL MINERS REFUSE GOVERNMENT PROPOSALS

The coal mine owners to discuss wage anomalies, and more important than all, they insisted on their right to dictate to the Ministry and Parliament as to the disposition of the profit made from the export of coal.

The result was a complete deadlock, and the country now has nothing in sight to prevent the strike beginning September 27.

NEW GOVERNOR-GENERAL OF AUSTRALIA.

King George has appointed the Rt. Hon. Lord Forster, P.C., G.C.M.G., to be the Governor-General and Commander-in-Chief for the Commonwealth of Australia.

## To Undertake Trans-Canada Aerial Flight

A despatch from Ottawa says:—The first cross-Canada airplane and seaplane flight is expected to be made in the last week of September. A seaplane will fly from Halifax to Winnipeg and from that city to Vancouver. The journey will be completed by airplanes, flying in relays. The seaplane will be piloted by Colonel Leckie, and the names of three of the airplane pilots who will take part in the flight have been announced. They are Captain G. A. Thompson, of Winnipeg; Captain J. B. Home-Hay; Captain D. C. Carruthers, of Kingston, Ontario. All three are flyers with excellent records overseas. They have been provisionally selected for the trip and it is likely that three or four other names will be announced in the course of a few days. There will also be another seaplane pilot named to act as reserve pilot on the first leg of the journey.

## World's Harvest Equal to Needs

The world's harvest prospects show a total yield just equal to requirements. The wheat crops of Canada, the United States, Spain, Italy and Switzerland are estimated at 95 per cent. of the yield of 1919. Rye, barley and oats in most countries greatly exceed the average. Potatoes in Canada, the United States and Switzerland are estimated at 184 per cent.

## Eastern Cities and Housing Accommodation

The housing situation throughout the Maritime Provinces is even more serious than elsewhere in Canada. Large numbers of immigrants enter Canada by the east every month; and if housing accommodation was sufficient, large numbers of these would be retained in the cities and towns of eastern Canada. The industries are in need of much more labor than is usually available; and it is felt that the strongest steps must be taken to secure shelter for the newcomers. In Halifax itself even many of the explosion victims are without adequate dwellings. Only some building permits for dwellings were issued here last month; and the present month's building outlook is not bright.

In Sydney the situation is also tense, and many families are hard put to obtain any shelter at all. It is feared that many people will be forced to reside in hotels this winter as no other accommodation is available and hotel accommodation itself is decidedly scanty.

Killed by Train

On Wednesday forenoon a fatal accident took place at the Milverton C.P.R. station whereby John R. Kerr, the only son of Mrs. William Kerr, of Milverton, lost his life. No one witnessed the accident but when the train was passing out of the yard those on the platform noticed the body of a man lying across the rail on the north side of the main track and was immediately recognized as that of Johnnie Kerr. The body was lying face downward with head, shoulders and arms clear of the rail with feet and body between the rails. The wheel had passed over the upper part of the body and the track was badly bespattered with blood and portions of the interior organs. The last man to speak to him was Mr. Robert Thorndyke, who, on his way up town saw him standing on the ground between the engine tender and the express car on the side of the train remote from the station. He asked him if he were going on the train to which he replied "Yes." Thorndyke then proceeded on his way up town. Mr. F. L. Crawford managed to attract the attention of the officials of the departing train when they stopped and backed up and conducted an investigation. Dr. Tye and Chief Harmer were notified and they in turn called up Crown Attorney McPherson and Coroner Rankin, of Stratford. They ordered that the body be not disturbed until viewed by the coroner. Johnnie was a young man only a little over 30 years of age and was a painter by trade.—Milverton Sun.

The Home Town

Some folks leave home for money  
And some leave home for fame,  
Some seek skies always sunny,  
And some depart in shame,  
I care not what the reason  
Men travel East and West,  
Or what the month or season—  
The Home Town is the best.  
The Home Town is the glad town  
Where something real abides;  
'Tis not the money, mad town  
That all its spirit hides.  
Though strangers scoff and flout it  
And even jeer its name,  
It has a charm about it  
No other town can claim.  
The Home Town skies seem bluer  
Than skies that stretch away,  
The Home Town friends seem truer  
And kinder through the day;  
And whether glad or cheery  
Light-hearted or depressed,  
Or struggle fit or weary,  
I like the Home Town best.  
Let him who will, go wander  
To distant towns to live,  
Of some things I am fonder  
Than all they have to give.  
The gold of distant places  
Could not repay me quite  
For those familiar faces  
That keep the Home Town bright.

Stabbed Himself in Abdomen

During a fit of despondency brought about by a long illness of nervous trouble James Boyd, a bachelor farmer of 45 years, residing near Elmwood on the Bentinck side, stabbed himself five times in the abdomen at an early hour on Thursday morning last and was found by relatives, who went out in search of him, standing against an old stump in the field with the blood gushing from his wounds. He was removed to the house and later brought to the Bruce County hospital at Walkerton, where Dr. Sinclair sewed up the terribly lacerated abdomen and where the patient is now progressing as favorably as possible, with bright prospects for his ultimate recovery.

Grateful For It

A man stepped up to a well-known preacher once and said: "Well, sir, I am an evolutionist, and I want to discuss the question with you. I am also an annihilationist, I believe that when I die that will be the end of me." That God for that! devoutly ejaculated the minister as he walked off and left the man perfectly dazed.

There's lots of cheap advice lying around, but it is generally as useless as it is cheap. If some of the wise guys could sit back and listen to themselves, the disgust would knock them senseless if they had sense enough to be knocked. The silent man may not always be a sensible man, but it's safe to guess that a sensible man is generally a silent man. An empty barrel makes the best noise, but an empty man may be noisy whether he is empty or full; and he has about as much sense one time as the other.

Don't think because you can talk louder than the other fellow you are having the best of the argument. Noise is not always convincing, in fact, it is often the reverse. Of a certain King it was said: "He never did a foolish thing and never did a wise one," and the same may be said of some who are not kings. Of some it might be said they never said or did anything wise. The world is made up of strange mixtures.

# BIG SALE

## Ladies Sample Coats

Extra quality cloths, newest styles and best of workmanship at a price that is ridiculous for this quality of goods.

Look these over on Friday or Saturday or on the Mildmay Fall Show Day, Sept. 21st.

### Special

Everyone entering the store Friday, Sept. 17th or Tuesday, Sept 21st will be given a numbered ticket. At 10 a. m. and 4 p. m. the holder of the lucky card will receive a beautiful prize.

The Store for Big and Honest Values

### The Climax

### The End

Time is getting short. Everything must go. We still have \$25,000 of choice merchandise at prices that beggar description.

Don't wait till after Sept. 22nd. Everything must be sold and chances are there won't be anything left when we open on the morning of Sept. 23rd.

### Constipation Cured by Christian Science

Seventy five people out of one hundred can be cured by Christian Science methods, which proves the great power of the Mind over the Digestive Apparatus and the frequency of Nervousness as a cause of Constipation.

When these methods fail Hacking's Kidney and Liver Pills are recommended. They are purely vegetable and do not gripe or irritate; many people have found them excellent for Headache, Dizziness, Bad Breath, Coated Tongue, Loss of Appetite, Indigestion, Gas on the Stomach, and many other evils that are due to Constipation.

Where there is Extreme Nervousness and you are "all run down" and "tire easily" it would be just as well to take Hacking's Heart and Nerve Remedy along with these Pills. This combination goes well together and restores the good health of your younger days. The Heart action becomes normal, the Nerves take on new Life, Power and Vigor and the "human machine" becomes full of "pop" and vitality.

If you are tired of sickness and have lost the Power, Ability and Nerve Force to do your daily work and your Nerves are all Shattered just give these two Remedies a trial and we will positively guarantee beneficial results. Go to your dealer to-day and ask for Hacking's, and do not take any other kind for if you do you will be fooled right at the start and you will not get the results that we guarantee, Hacking's Limited, Listowel.

J. P. PHELAN DRUGGIST

"I say, Harry," said a miner to his mate, "what's a Cosmopolitan?" Harry thought for a moment before he replied:—

"Suppose there was a Russian Jew living in England with an Italian wife, smoking Egyptian cigarettes near a French window in a room with a Turkish carpet on the floor. If this man drank American cream sodas while listening to a German band playing 'Come Back to Erin,' after a supper of Dutch cheese made up as a Welsh rarebit, then you might be quite safe in saying that he was a Cosmopolitan."

Late authorities on algebraic problems tells us that men should marry the hustling type of girls. Girls are willing to hustle for a man who wants that kind of a girl.

### War a Great Leveller

A lieutenant was asking an Italian private what seemed to the latter a number of unnecessary questions: "Peter, what did you do with your peanut wagon when you were drafted?" "I sold it," said Pete. "And what did you do with the organ?" "I sold that too." "And what did you do with the monkey?" "Oh, they drafted him and made a lieutenant out of him," replied Pete.

### Pat and the Photograph

The photographer's clerk was very preoccupied in showing some samples of work to prospective sitters when Patrick Maloney stalked into the studio and intimated that he would like to know what the pictures were worth. "Like that, five shillings a dozen," said the girl, handing him one. Pat gazed long and earnestly at the photograph of a very small baby sitting in a wash basin. "Share now," Pat shyly asked, "phwat would it cost me wid clothes on?"

The lawyer was drawing up Enpeck's will.

"I hereby bequeath all my property to my wife," dictated Enpeck. "Got that down?"

"Yes," answered the lawyer.

"On condition," continued Enpeck, "that she married within a year."

"But why that condition?" asked the man of the law.

"Because," answered the meek and lowly testator, "I want somebody to be sorry I died."

A French painter has destroyed all his pictures because people did not seem to show much appreciation over them. This is the self-sacrificing spirit we would like to see inculcated in the spring poet.

The squadron's mascots, a pair of cats were stowed away in an aeroplane when the 12th U. S. Aero Squadron moved out of El Paso, Texas. When the squadron arrived at Nogales, Arizona, after a long flight there were six cats. The four new-comers were born about 5000 feet above the arid lands of Arizona while travelling anywhere from 100 to 125 miles per hour. These are believed to be the first recorded births in the air.

### A Mental Obsession.

The confession of Arnel Love that he murdered his mother, for which crime his father was hanged at Owen Sound, has been shattered by the statements made by him since he has been under the observation of alienists at Queen St. Asylum, Toronto. The story he told at the trial has been compared with his confession and with statements made by him since his confinement, and the doctors are now convinced that he had nothing to do with the actual killing of his mother.

The doctors at the trial were unanimous that the woman was killed, not with a butcher knife, but with a hunting knife, but Love sticks to his story that he used a butcher knife. He told the doctors that he had revisited the scene of the crime only once before he was brought here for observation, and that he did not think seriously of the crime. From this statement alone the doctors are sure that the confession made to Rev. Mr. Sharpe was an "obsession which drifted into his mind."

There is on record a statement made by the father to Dr. Praelan, coupling with the general denial of the crime "a certain point a finger at the boy." The father protested that while the lad was in the house at the time, he was asleep and knew nothing of the crime until the next morning when he pressed his father to tell him where his mother was.

From a confession made by the boy and certain peculiarities noticed since his confinement, the authorities are of the opinion that Arnel Love is a mental defective and must for some months remain under observation and treat-

ment. Whether or not he will recover sufficiently to secure his release cannot be decided now, but in any event if he is given his freedom it will be conditional upon his not returning to Grey county, where the murder was committed.

Mrs. Hannah Love was murdered, doctors who made the autopsy declared, on Dec. 9, 1912. The body was found by her husband Henry Love, in the cellar of their home at Ceylon, Grey county, 3 days later. Henry Love was arrested. His son, Arnel, said his father had told him to say that he had seen a stranger in the neighborhood, whom the lad later admitted that he had not seen. The father was hanged for the crime on May 27, 1913.

### Serving Witnesses For Green Trial

High Constable Briggs was in town yesterday serving witnesses for the Green trial which is scheduled for the Assizes at Walkerton on November 15. The witnesses are the same as at the Coroner's inquest. One of our citizens, William Heinmiller, will serve as a juror. Under the amendment of the Ontario Legislature jurors receive 13c a mile and \$4 per day which is certainly not exorbitant, considering the charges for meals and lodgings these days. The County Council has the power to pass a bylaw to make the pay \$5 per diem.—Chesley Enterprise.

It's easy enough to be pleasant when your automobile is in trim, but the man worth while is the man that will smile when he has to ride home on the rim.

## If You Have High Blood Pressure You Must Be Careful

When the Blood Pressure is much above normal there is always the danger of rupture of a blood vessel, most frequently in the Brain and producing a stroke, or in the Kidneys, producing Bright's Disease. One should guard against over-exertion or excitement and take

**HACKING'S HEART AND NERVE REMEDY** to dissolve the Uric Acid deposits that form in the Veins and Arteries, making them hard and brittle. This remedy is a wonder; it builds up the entire system by Purifying the Blood, Strengthening the Heart and by producing a normal and healthy condition of the Nerves.

Mrs. Wm. Morley, of Palmerston, used quite a number of boxes of Hacking's Heart and Nerve Remedy and they benefited her so much and she was so pleased with them that she recommends them to all her friends who have this trouble or who are all run down and Nervous. She says "you must be sure to get Hacking's."

Constipation is one of the aggravating causes of High Blood Pressure and it is advisable to use Hacking's Kidney and Liver Pills to drive out the Poisons that generate in the system. These two preparations go well together and you should buy a few boxes from your dealer to-day, Hacking's Limited, Listowel, Ont.

J. P. PHELAN DRUGGIST

### An Interesting Contest

One of the most spectacular sporting contests ever arranged in this country will be contested on Sept 25 next, when thousands of Rexall Homing Pigeons, racing in pairs, will fly from points within a radius of 500 miles of St. Louis back to the home lofts in that city.

In order to make possible this race, which will be officially observed by a detail of Army Officers sent by the Pigeon Section of the Signal Corps, the biggest pigeon lofts in the world were constructed by the United Drug Company. The best breeding homing pigeons purchasable were procured, 500 in all, and placed in the breeding lofts. From this nucleus upwards of 6,000 of the speediest best trained thoroughbred homers have been reared. Each is trained to the hour and many are expected to set a new speed mark and smash old records.

Pigeons are going to be sent to Rexall druggists within 500 miles of St. Louis. At a specified hour a pair of these birds will be released by the Mayor, or a girl delegated by the mayor, and sent on its way to the home loft. Each bird will carry a bird message to the Governor of Missouri, who personally will be at the Rexall loft to receive it. Handicaps as to time and distance have been worked out, and the first bird to arrive in the Rexall loft will win the golden prize.

The race is to be the crowning feature of the annual convention of the United Drug Company at which upwards of 8000 Rexall druggists from all parts of the country will meet. At the same time the new \$1,000,000 factory erected by the United Drug Company for the manufacture of all Rexall products for the Western States will be inspected for the first time by the Rexall delegates.

### Prices Coming Down

The Labor Gazette for the month of August gives the following figures which may be of interest to our readers:—The price movement has again marked by decreases in wholesale prices of many materials and seasonal changes in foods, some of which were increases and some decreases. The net result was another decline in the index number of wholesale prices which fell to 336.8 for July as compared with 349.3 for June, 356.8 for May, 294.9 for July, 1919 and 134.6 for July, 1914. The chief decrease for the month were in grains, fish, fruits and vegetables, textiles and lumber with increases in livestock and meats, butter and sugar, coal and coke, some building material and some chemicals.

In retail prices, the average cost of a family budget of staple food in some sixty cities averaged \$16.84 at the middle of July as compared with \$16.92 for the middle of June, \$13.77 in July, 1919, and \$7.42 in July 1914. The chief decreases for the month was in potatoes with slight decreases in a number of other lines and increases in some meats, in eggs, and in sugar. Coal, wood and rent were also higher.

### Mildmay Fall Show.

The big event of the season will be the Mildmay Fall Show on Monday and Tuesday, Sept. 20 and 21. Bigger and better than ever, with a fine list of special attractions. Don't miss the Mildmay Fair.

Mr. and Mrs. Herman Graef, Clifford, Ontario, announce the engagement of their daughter, Laura Doris, to Edgar L. Eckenswiler, Clifford. Marriage to take place the latter part of September. Globe.

## Terrible Tragedy

One of the most shocking events in the history of the town took place on Saturday night shortly after midnight at the Grand Central Hotel.

Mr. Dan Cummins, Jr., who was the last to retire, when he went up to the second story, heard someone moaning in the third flat and ran up accompanied by Lorne Smith, who had just come in from the garage. They saw some one in flames running from one room to another. Following him they found it to be George Coutts, a boarder at the hotel who had thrown himself in agony on the bed. They tried to get the burning garment off him, but not succeeding, one smothered out the fire with blankets while the other hurried to the other room and succeeded in throwing the burning bed-clothes out of the open window in time to save the building from destruction. A few minutes more and that would have been impossible.

A doctor was brought as quickly as possible and with the assistance of Messrs. D. Cummins, Lorne Smith and Pat Murphy, who occupied the next room, and W. & L. Gilstorf, what relief was possible was given to the sufferer whose hands and body were frightfully burned. He was taken to the Strathcona hospital where he lingered until late Sunday evening, when he succumbed to the pain and shock.

There is no doubt as to the cause of the fire. Only a short time before the discovery of the fire, the deceased had gone to bed perfectly sober. A package of cigarettes, with one taken out, and a few matches was found on a chair beside the bed. He had evidently gone to bed, lighted a cigaret, fallen asleep and allowed the cigaret to drop from his hand to the bed. Being a heavy sleeper the fire had made considerable headway before he was aroused, and could not be put out before he was fatally burned.—Mount Forest Rep.

## A True Dog Story

Monday afternoon Dr. Beesley, looking out of his residence window, saw two dogs running at play in the yard of the Bamford silk mill, says the Warren N.J. Journal. One of the dogs belonged to Louis Mackey, the other he did not know. While the doctor was observing them the Mackey dog ran headlong into the water raceway in front of the mill. The banks at the raceway are almost perpendicular, and Dr. Beesley, knowing that the dog would be unable to get a foothold in the bank, and would most likely be unable to get a foothold in the bank, and would most likely drown was about to go to its rescue when he observed the other and nobler dog show much excitement and running up and down along the raceway. Finally he saw it creep down the steep bank and grab the neck of the young dog and pull him out of the water.

A true dog story and an incident that makes one marvel at the intelligence displayed oftentimes by some of our so-called "dumb" animals.—Our Dumb Animals.

## John Scanlon Farm Sold

Beaver Glen Farm, the palatial home of Mr. John Scanlon, on the Durham Road, 3 1/2 miles west of the G.T.R. station here, was sold this week to the Hydro Electric Commission for \$16,000. The property which comprises 123 acres contains valuable mar. deposits for making cement, and this substance will be mined and shipped to the Hanover Cement works. As Mr. Scanlon came to this farm when a child of eleven months with his father, the late John Scanlon, who bought out a squatter's rights and afterwards cleared the property from a dense forest into the wide fertile fields it now contains, the present occupant has resided continuously on it for the past sixty years. He has the privilege of remaining another year on the farm, after which he will retire to live in Walkerton. In his proposed removal Brant will lose and the County Town gain an estimable citizen, and one who would be an asset to any community.

Two heads, four arms and four legs, all on one perfectly formed body of a child born to Mr. and Mrs. William Goodman, is a matter of interest to the medical fraternity in Suffolk, Virginia. The parents of the freak are also parents of nine other children, all of whom are normal and healthy. The child has two well-developed heads growing into one neck, and two arms on each side of a normal body, and four legs, two on each side.

The coal dealers are announcing that it is necessary to increase the price of coal to the consumer, because of the increase in freight rates. The railways were compelled to increase freight rates because of the increase in wages to employees. The employees may soon find it necessary to ask further increases in wages because of the high cost of coal. In that event the railway will announce a further increase in freight rates and the coal dealers a further increase in the price of coal. This is an illustration of what is called a vicious circle; but it is really a spiral; not a circle at all.

## When to Buy Flour

Now is the time to lay in a stock of Flour made from old wheat, and Flour that has been milled two months ago makes the Best Bread. Flour made from new wheat should be three months old before using.

I have a small quantity of old Flour on hand, and first come, first served.

Also Feed of all kinds at Right Prices.

Cash paid for Butter, Eggs, Dried Apples, etc.

## The Sweet Clover Market

The sweet clover seed market this year does not seem very promising, at least, not as yet, and if something does not happen to create a change, there is not much likelihood of much seed changing hands this fall. Last year's crop sold at a good price, the seed houses vying with each other in securing business. As a result they bought more clover seed than they had a market for. On the other hand the acreage under sweet clover this year is reported as easily double that of last, and the result of throwing this surplus on the market will have but one tendency—to reduce the price. So far as the Chronicle could ascertain, the seed companies so far have quoted no price at all—they are simply overstocked now, and are not going to buy until they see a way out. Of course, conditions may change before the winter is over; we are merely giving publicity to information we received from one who ought to know.—Durham Chronicle.

## Mistakes in Taxes

So many mistakes are being made by merchants in connection with their sales and luxury tax entries, the department of inland revenue is at a loss to know just where to take up the cudgels. Sales slips set on to Ottawa, according to instructions, are coming back for corrections. In many cases taxes have been imposed where they should not have been; others have not charged enough tax; things which should have been taxed have been neglected. From Blyth, Crediton, Mount Bridges, Forest, Clinton and Lucan there are numerous slips presented which are not correct and the number from London may be in three and four figures. The mistakes have all to be rectified where the charges have not been made up by the merchants. The combined total to be received in this way will be a material sum.

### Worn-Out, Weak Men and Women Testify

Chatham, Ont.—"For many years I suffered with stomach trouble and I tried many remedies but they seemed to be a failure—my stomach seemed to be getting worse instead of better. One day I came in possession of a bottle of Dr. Pierce's Golden Medical Discovery and took it. My stomach seemed completely cured. I have great faith in this medicine and hope any sufferer that reads this will give the 'Discovery' a trial. One tried, you will never be without it."—C. TITUS, Jr., 25 Duke St.

New Wiltshire, P. E. I.—"I suffered three years with bronchial asthma. I was so weak I could hardly walk three steps at a time. I could not sleep so would get up and stay up the rest of the night. One day a friend advised me to use Dr. Pierce's Golden Medical Discovery so I sent my druggist for a bottle and when I had taken half of it I felt a great deal better. When I used that bottle I sent for two more, and when I finished the third bottle I was completely cured. It is over two years since I first took Dr. Pierce's Golden Medical Discovery and I have not been troubled a day with asthma since."—ALEX. McLEOD.

Hamilton, Ont.—"I have suffered with rheumatism for the last five years and I have only taken three bottles of Dr. Pierce's Auric (anti-uric-acid) Tablets and three bottles of Golden Medical Discovery and am nearly cured. I also had that dread disease, Spanish Influenza, leaving me in a terrible condition. Only those who have leaves one in. I am sure if it had not been for Dr. Pierce's medicines and advice I certainly would have died. Dr. Pierce's medicines to any sufferer with kidney trouble or to anyone run down after having the 'flu'. Also try Dr. Pierce's Pleasant Pellets for constipation."—MRS. ESTHER LA GRANDY, 64 1/2 James St. North.

A dispatch from Winnipeg says: One million bushels of new wheat have already passed through Winnipeg, according to the estimate of a prominent grain exchange official. A large part of the wheat grades No. 1 Northern, and the percentage is said to be higher than in previous years.

## CAROLINE RODMAN The Accomplice

By JANE GILL.

### PART I.

It is queer that no one thought of Caroline's money when the report came that Peter Helm's horses had been stolen and the thieves were still at large. Of course, no one would have remembered, no one would have felt much uneasiness, for the Staley boys weren't likely to bother any one but Peter Helm, whom they thought they had cause to hate.

Just the day before she had arrived at her uncle's farm in her pretty new blue traveling suit, and her pretty new traveling bag. Out of the traveling bag she had taken an old wallet which contained the money. Bill by bill she had spread it over the dining room table until she had made a tablecover of yellow paper on top of the white damask one.

"Five hundred dollars!" she announced proudly. "And more in the bank!" She opened her bankbook that her aunt and uncle might read the neat little figures which announced her balance there.

"Did Aunt Hearty leave you all that?" exclaimed Uncle Aaron. "Part of it she left me, and part of it I earned at teaching," Caroline told them. "And I'm going to buy a farm with it."

They laughed at her. "Why Caroline Rodman, child, what do you know about farming?"

"I guess I know more than lots of farmers. I spent half my evenings reading it up in books," she told them a little defiantly.

They laughed again, and Uncle Aaron explained very kindly to her that just about the first thing she would have to do to make a farm go would be to forget all the fine notions she got from the farming books.

Then he turned to his wife as if Caroline weren't there. "Of course, if she's set on getting a farm, there is that Staley farm that Peter Helm has. We might get a good man to run it for her."

"Mrs. Rodman shook her head. "Even if she got a good man," she objected, "I don't think farming is the work for a girl."

Then she addressed Caroline. "You'd better go back to teaching. Teaching is a lot nicer and more ladylike. 'I hate teaching,'" retorted Caroline a bit defiantly, for this prompt attempt to disillusionment annoyed her.

"Well, anyhow, what did you bring all that in cash for?" inquired Uncle Aaron.

"For the first cash payment," Caroline told him promptly. "Of course, if that was silly," Uncle Aaron scolded her kindly. "A cheque would have done just as well, you know."

Aunt Rodman fretted a little. "I don't like all that money in the house. 'Oh, it's safe enough,'" her husband reassured her, "but we'll take it to the bank when we go in on Saturday." The good woman's anxiety was only partly mollified. "I suppose it's safe enough," she admitted, "but just the same, you lock it in your trunk, Caroline, and keep the key with you all the time."

And yet, twenty-four hours later, when the exciting news came that there were three young horse thieves

Caroline's brow clouded a little, but she did not answer. Five minutes later she was out on the front verandah, an old red sweater of Cousin Arthur's thrown over her shoulders, waving good-bye to her aunt and uncle.

"You'll be back in time for supper, won't you, Uncle Aaron?" she asked. "I am coming right straight back, dear."

Looking at the clouds, Caroline shivered. "Isn't it windy, and isn't it cold? It's going to storm. Be sure and get home before it storms, Uncle Aaron."

"I will," he promised, and rode off. He came back just as Caroline was taking a pan of graham muffins from the oven.

"Supper will be ready in a few minutes," she told him, and just then her young cousin Arthur burst into the room.

"Where's mother?" he demanded, excitedly. "Gone down to spend the night with Mrs. Jennings."

"Cracky!" he ejaculated, with a low whistle. "That's going to leave you all alone."

"Alone? Why, what do you mean?" "Just saw the sheriff, and he's calling on all the men around here to help him hunt for the Staley boys. And, of course, father and I have got to go. As far as they can make out, they are still somewhere in the county. By rights we ought to be starting now."

"I'll have supper on the table in a minute," Caroline promised. A few minutes later at the supper table her uncle asked her: "You are sure you aren't afraid to stay here alone?"

"Of course not," she assured him. "Well, I really don't think you need be, for I don't believe they'll bother any one else around here. They'll be trying to get out of reach. But if you are afraid I'll leave Arthur here with you."

"I'm not the least bit afraid," she repeated. And even after they had gone she felt not the slightest fear. She washed up her dishes, and then, with a plate of apples, a magazine and the old cat for company, prepared for a comfortable evening in front of the kitchen stove.

The storm which had threatened in the afternoon was beginning to rattle the windows of the old house, and there was a sound like the throwing of sand against the glass, which she knew was sleet.

She tried to read, but found she couldn't. The house was beginning to creak—the wind, as only an old house can—groans from the cellar and stranger shrieks and moans from the garret, until it filled her with uneasiness. Half ashamed of herself she rose, locked the doors, drew down the blinds and wished that there were locks on the old-fashioned windows.

(Continued in next issue.)

### With a Smile.

Meet whatever the world may bring with a smile and jog along; There's always a song for the song you sing if your heart is in the song.

And when you meet the world with a smile it's sure to smile on you. While over your head the sun burns bright and the velvet skies are blue.

Meet whatever the world may bring with a cheery hope and trust; Kick up your heels and dance along, and sing and smile and be just. Whatever you give the world it gives a measure of that and more.

To add in the end as you bend to the wealth of your little store.

Meet whatever the world may bring with a faith that naught can shatter; There's always something that's not just right, there's always something the matter.

But the heart that goes along with a song, and the lips that go with a smile.

Shall win a song for their own ere long and a smile from the after-while.

### Inventions by Negroes.

In the practical application of scientific principles as embodied in useful inventions the negro has long held an important place.

The publications of Henry E. Baker, of the United States Patent Office, set forth a record altogether and comparably favorable. These inventions run the whole gamut, from Banneker's clock in 1754 to Forten's invention of apparatus for managing sails, including Lewis's invention of a machine for picking oakum; Henry Blair's patents on a corn harvester; William B. Purvis's patents on electric railways, a fountain pen, magnetic car, balancing device, etc.; Dickinson's patent for playing the piano; Ferrell's patents in heating of different improvements in heating for a trolley wheel; Charles V. Riecker's inventions, including a device for registering the call on a telephone and detecting the unauthorized use of that instrument; Granville Wood's inventions; the inventions of John Ernest Matzinger, including the first machine that performed automatically the operations involved in attaching soles to shoes.

Then there are the latter-day and wartime inventions, including war bombs, machine and aircraft guns, explosive bullets, submarines and diving suits.

Teacher: "So you admit the unfortunate lad was carried to the pump and then drenched with water? Now, sir, what part did you take in this disgraceful affair?" Jones (meekly): "The left leg, sir."

## Woman's Interests

### Planning Our Work.

No two homes can be run alike. Still we are all glad of suggestions. Here is a work-schedule which you can alter if it does not entirely suit your needs:

Laundry—The washing should be done on Tuesday. All preparations should be made Monday night. The clothes should be put to soak at that time and left soaking over night. Heavy work, such as lifting water, should be done by the men. If you have not a washing machine, it will save doctor's bills to buy one.

Ironing—Rough dry as many of the pieces as possible. This is done by folding your clothes as you take them from the line and putting them under pressure. Underwear, sheets, towels, and all flat pieces should be done in this way.

Cleaning the house—Part of the cleaning should be done each day, so that a great deal of cleaning does not have to be done at one time. Lamps should be cleaned and filled once a day.

5.00-6.00—The family arises. Each member turns back bedding, smooths out lower sheet and beats up the pillow.

The man starts the fire. The cereal in the fireless cooker should be hot.

Take care of poultry.

Do the milking.

6.00-6.15—Prepare breakfast. (Use toast rather than muffins—cereal and fruit are already cooked. The table has been set the night before and covered with a large cloth.)

6.15-6.45—Breakfast.

6.45-7.15—Start dinner in fireless (meat dish and dessert).

7.15-7.45—Wash dishes (breakfast dishes and those from night before). The dishes may be placed back on table and the table covered.

7.45-8.15—Put house in order. Clean one room a day. There may be no need of frequent dusting. In fact, it should be remembered that dust "sitting tight" hurts no one and is only harmful when blowing in the air. If it is a question of using energy for dusting or of resting, it would be wiser, in your case, to rest.

If beds are in a room used only for sleeping, they may be left open all day.

8.15-10.00—Work in garden. Prepare vegetables for dinner.

10.00-11.00—Rest.

11.00-12.00—Finish preparing dinner (vegetables).

12.00-12.30—Dinner.

12.30-2.00—Dishes washed, kitchen put in order and supper preparations made.

2.00-3.00—Rest.

3.00-4.30—Mending, sewing.

4.30-5.00—Taking care of poultry.

5.00-6.00—Milking.

6.00-6.30—Supper prepared. Cereal for next morning started while fire is burning, and then put in fireless cooker. If you have none, either buy or make one.

6.30-7.00—Supper.

7.00-7.30—Dishes scraped, rinsed and piled, to be washed next morning. Table set for breakfast.

Some super-active women and women with babies or growing families, will doubtless shout scorn at this schedule as being silly and impractical, but just the same, a time-and-work schedule is one of the best helps in the world, both to urge us forward and to hold us back. It is simply a movable plan pointing to a general path of system in the day's work.

### Dressing to Please Hubby.

A good many people go about with the idea that a woman dresses in order to make herself pleasing in the eyes of men. Very little credit is given by such people to a woman's natural instinct to make the best of herself for her own satisfaction.

To bolster up their argument they quote the woman who "lets herself go" after marriage. But slatterns are, luckily, in the minority, and the average married woman is as interested in the dress problem as her unmarried sister. But does the married woman dress to please her husband?

Some men have strange ideas where women's dress is concerned, but in the main they prefer it to strike the feminine note that "something soft and clinging" still holds. And for color they like semi-shades.

It takes a woman to know best what suits her, because the average man has not taken up the study of woman's dress. Hubby has to be educated on many points.

One charmingly frocked matron told me that it took her a long time to educate her husband. "Tom wanted me to wear those delicate shades in which you would dress

a Watteau type of beauty," she said. "You see, his mother was one of the fragile rose-bud type, and he thought it perfection. She always looked as dainty as a Dresden shepherdess."

What Tom didn't realize was that his mother and his wife were entirely different in style and type. Kitty was a dark-skinned, flashing-eyed beauty, and looked superb in black, relieved with rich colorings. As a Dresden shepherdess she did not shine. She managed to prove to Tom that she could not copy his mother, mainly by experiments.

"So you see," she said, "I don't dress to please my husband, but I've managed to make him pleased with the way I dress."

All happily married women study their husbands' tastes where dress is concerned, because they know so well that if they want to remain fine birds in the eyes of their loved ones they must pay attention to the feathers. But a clever woman gets what she wants and manages to make her man think he wanted it.

Dress alone won't hold a man's love, but it will help to keep his attention. There are wives who grumble because their husbands never notice what they are wearing.

"Oh," cried one such wife, "so long as his meals are ready to time John is peaceable. That's all he thinks I'm here for. He never notices me. If I were to come down to breakfast in curlers and dressing-gown he wouldn't notice. Luckily, I have some respect for myself, or I might become a slattern."

But she was wrong. John did notice and he appreciated. Unfortunately, like so many married men, he forgot to mention the fact. Eye went on making the best of herself, and down in her heart I don't doubt but that she did it as much for her husband as for herself.

During the days of courtship a man indulges his girl's craving for flattery and attention. He will rave over her foot in its pretty satin slipper, but when, later on, he scolds her for not putting on strong boots on a wet day she imagines that he no longer cares about her good points. Most women are super-sentimentalists.

Very few men exist who care to see their wives going about as frumps, and most of them appreciate a woman's attempt to look pleasing in the eyes of other men, for possession is sweeter when the article possessed is coveted by others.

The husband who insists on choosing his wife's clothes is rare. He may like to help choose them, and a sensible woman will encourage his interest. If he expresses a liking for a certain color and style she tries to please him, knowing that there are details where she may let her fancy roam. So long as she studies and satisfies the broad outlines of his ideas on dress he is pleased.

Very few men like their wives to wear clothes that "hit you in the eye." They prefer their women to be "neat but not gaudy."

### Sinks High and Low.

There is a right and a wrong method of installing a sink. When it is placed at the right height it serves the purpose for which it was meant, adds ease and enjoyment to the routine duties of the kitchen work, and makes the kitchen a much more satisfactory workshop.

The housewife should assume more authority when the sink is being installed. There is no regulation height for placing the sink but it should be at such a height that the one who is to use it can stand without stooping, and thus relieve the strain on the muscles of the back.

The following table gives the comfortable height for tables, sinks, ironing boards and other working surfaces according to the height of the woman who is to use them.

Height of worker.	Height of working surface.
4'10"	33½"
4'11"	34"
5'	34½"
5' 1"	35"
5' 2"	35½"
5' 3"	36"
5' 4"	36½"
5' 5"	37"
5' 6"	37½"
5' 7"	38"
5' 8"	38½"
5' 9"	39"
5'10"	39½"

### Not a Laying Bird.

Tommy had been laughing. His mother did not know what to do with him. She wanted to confine him somewhere, but he showed signs of breaking everything in any room she put him into.

She thought herself of a place where there was nothing to break and where he could not work any serious revenge. He was carried into the garden and locked up in the fowl-house. He was silent—this was something beyond his capacity to talk about. But as his mother was going away his head appeared behind the wires.

"Mamma!"

His mother stopped.

"Mamma, you can lock me in here if you like, but I won't lay any eggs!"

### FROCKS FOR THE SCHOOL GIRL

9426—Embroidery Design No. 992  
9648—Embroidery Design No. 987

9426—Dress. Sizes 6 to 14. Price, 25 cents. Transfer design No. 992.  
9648—Girl's Dress (with straps, in Eton effect). Price, 25 cents. In 6 sizes, 4 to 14 years. Size 8 requires, checked, 2 yds. 36 ins.; plain, 1/2 yd. 36 ins. wide.

McCall Transfer Design No. 987. Price, 15 cents.

These patterns may be obtained from your local McCall dealer, or from the McCall Co., 70 Bond street, Toronto, Dept. W.

### CONSTIPATED CHILDREN.

Children who suffer from constipation, indigestion or any of the other ailments due to a clogged condition of the bowels will find prompt relief through the use of Baby's Own Tablets. The Tablets are a mild but thorough laxative which can always be depended upon to regulate the bowels and sweeten the stomach. They are absolutely safe and are sold under a guarantee to be entirely free from opiates or other injurious drugs. Concerning them Mrs. Thomas A. Boutot, Lake Baker, N.B., writes: "I am pleased to state that Baby's Own Tablets were of great help to me when my baby was suffering from constipation." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

### Stockings of Human Hair.

All the hair combs in a Chinese household are saved as carefully as if they were nuggets.

In course of time they are spun into long threads and woven into stockings. The popular belief is that stockings of human hair keep out the wet better than any others.

At one time the Japanese made use of human hair in church erecting. It was the custom for church-going people to give some of their hair as a free-will offering when a temple was being built.

Such a structure at Tokio had the beams and rafters held in place by one of these human hair cables. Placed end on end, this human hair rope measured 4,528 ft. long, was 7 in. in diameter, and weighed 3,847 lb., no fewer than 350,000 persons contributing before a sufficient quantity was obtained.

### Mixing Lime With Commercial Fertilizer.

Lime added to commercial fertilizers, before reaching the soil, may have one or all of several bad effects: (a) The usual practice in the past has been to advise against mixing of lime directly with nitrogenous fertilizer materials, such as ammonium sulphate, bone, tankage, dried blood, and similar materials, for the reason that ammonia nitrogen would be released and wasted; (b) The formation of a hard, lumpy physical condition in goods containing sodium nitrate or calcium nitrate is likely to take place. These objections are not so serious as they would appear. At any rate, there can be no danger when lime and fertilizers are added to the soil separately, especially if a few days elapse between the liming and fertilization.

**There's no waste to Grape-Nuts**  
and it saves sugar, for it contains its own sweetening

No cooking is necessary and the likable flavor of this wheat and malted barley food is equaled only by its economy. Grocers everywhere sell Grape-Nuts.

### A MOTHER'S TRIALS

#### Care of Home and Children Often Causes a Breakdown.

The woman at home, deep in household duties and the cares of motherhood, needs occasional help to keep her in good health. The demands upon a mother's health are many and severe. Her own health trials and her children's welfare exact heavy tolls, while hurried meals, broken rest and much indoor living tend to weaken her constitution. No wonder that the woman at home is often indisposed through weakness, headaches, backaches and nervousness. Too many women have grown to accept these visitations as a part of the lot of motherhood. But many and varied as her health troubles are, the cause is simple and relief at hand. When well, it is the woman's good blood that keeps her well; when ill she must make her blood rich to renew her health. The nursing mother more than any other woman in the world needs rich blood and plenty of it. There is one way to get this good blood so necessary to perfect health, and that is through the use of Dr. Williams' Pink Pills. These pills make new blood, and through their use thousands of weak, ailing wives and mothers have been made bright, cheerful and strong. If you are ailing, easily tired or depressed, it is a duty you owe yourself and your family to give Dr. Williams' Pink Pills a fair trial. What this medicine has done for others it will surely do for you.

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50c. a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### Feathered Frauds.

Apart from the natural camouflage which speckled feathers and patches of color, like dazzle painting on ships, afford birds for their protection, there is no doubt that birds have little tricks which, consciously or instinctively, they employ to frighten away intruders. Can anyone doubt that the long neck of goose and swan, and the hissing sound they both make, is a good imitation of the snake in the grass? Of course, it is necessary to think of these birds in their wild state, nesting among the reeds. A marauding fox, or wolf, or pine-martin, happens along, intent on eggs for breakfast at least, or, better still, a tender gosling or cygnet. Suddenly, out darts the snake-like neck hissing like a whole basketful of serpents, and the intruder turns tail and flees from the poisonous spot.

The wryneck builds its nest in the hollow of a tree, and if any prying person should thrust a hand into his hole he hears a most menacing hissing, and he withdraws the hand smartly, lest the adder should bite him. Even the blue titmouse, an inoffensive little bird enough, will imitate a snake, producing a most alarming hiss if her nest is approached by cat or human.

The well-known dodge of the lapwing to lure the egg-gatherer from her eggs is another case of cute trickery. The lapwing, or plover, makes her nest on the ground, and when she sees a stranger approaching she flies, just in front of him, constantly seeming to fall, as if her wing were injured or broken. Naturally, boy or man will make some attempt to catch her, and that is exactly what she wants!

### Tigers Are Poor Sailors.

It is really pathetic to see a tiger on board ship. He whines, his eyes water, and he constantly paws his stomach, in which he has such a nasty feeling.

Horses suffer very badly from mal de mer, as also do oxen, but oxen make heroic attempts not to give way to their feelings.

Most wild animals hate the sea, and how miserably until seasickness quiets them. Polar bears, however, as one would naturally expect, are quite at home at sea and always enjoy a trip.

Elephants get seasick, but they can be cured, although the prescription would cost a lot of money to make up nowadays. It consists of a bucketful of water to which has been added some quinine and three and a half pints of whiskey!

Scot weighing one ton will result from burning one hundred tons of coal.

The Atlantic, the second largest of the four great oceans, has an area of 30,000,000 square miles.

### Business is Business.

"Business is Business," the Little Man said.  
"A battle where everything goes, Where the only gospel is 'get ahead,' And never spare friends or foes. 'Slay or be slain,' is the slogan cold, You must struggle and slash and tear.

For Business is Business, a fight for gold, Where all that you do is fair!"

"Business is Business," the Big Man said.  
"A battle to make of earth A place to yield us more wine and bread, More pleasure and joy and mirth; There are still some bandits and buccaneers

Who are jungle-bred beasts of trade, But their number dwindles with passing years And dead is the code they made!"

"Business is Business," the Big Man said.  
"But it's something that's more, far more: That makes sweet gardens of deserts dead, And cities it built now roar Where once the deer and the grey wolf ran

From the pioneers' swift advance; Business is magic that toils for man, Business is True Romance.

"And those who make it a ruthless fight Have only themselves to blame If they feel no whit of the keen delight.

In playing the Bigger Game, The game that calls on the heart and head, The best of man's strength and nerve; Business is Business," the Big Man said, "And that Business is to serve!"

### Mansions of Mud.

In order to solve the housing problem, a builder at Los Angeles is putting up two hundred attractive mud houses.

He is copying the idea from the ancients and South American natives, who used to build their houses of wet soil, mixed with straw, cast in moulds of required size, and left in the sun to dry.

Generally speaking, any earth with a clay base, that makes it cohesive when watered, can be used for the purpose. The straw in the mud serves a purpose similar to that of steel reinforcement in concrete.

The mud mansions built scores of years ago by the Mexicans are to-day in splendid condition, although somewhat damp and insanitary. These faults, however, are being remedied. For instance, whereas the old Dons were satisfied to plaster their walls with mud, and protect this with a coating of whitewash in which had been incorporated tallow and cactus juice while the lime slaked, the present-day builder prefers to cover them with hard cement plaster thoroughly to anchor into the walls—generally three coats—and waterproof throughout with an all-mineral compound evolved by himself and conceded by chemists to be virtually everlasting.

The builder makes these claims for the houses now under construction: That they are everlasting, meaning that the occupants will never know the annoyance or expense of the usual repair bills. That they are sound-proof, so that howling winds, rattling roofs, or other noises will not be heard within. That they are non-conductive and fire-proof, cool in summer and warm in winter.

Minard's Liniment Co., Limited  
Dear Sirs,—I had a Bleeding Tumor on my face for a long time and tried a number of remedies without any good results. I was advised to try MINARD'S LINIMENT, and after using several bottles it healed all up and disappeared altogether.

DAVID HENDERSON  
Bellevue Station, Kings Co. N.B.  
Sept. 17 1904

### Wheat.

Present prices of wheat will make it worth while to use fertilizer, even if it produces only a moderate increase in yield.

This was discussed at considerable length at a recent gathering of grain growers in Chicago, and the general feeling was as given in the above paragraph. One man in attendance was particularly insistent in setting forth the economic value of this plan.

He realized that the price of fertilizer was considerably higher than in 1914, he said, but referred to a recent Government report which shows that an acre of farm crops could buy more fertilizer last year than it did in the years immediately preceding the war. As a land owner himself, he said he believed the landlord could well afford to insist that his tenant buy fertilizer, sharing half the cost with him.

To substantiate his statement, he quoted figures based on the results of actual farm operations, showing that on a 160 acre farm—being farmed on the shares, two-thirds to the renter and one-third to the owner—he could pay half the cost of the fertilizer and still receive \$170 more for his rental than he would if no fertilizer had been used; and the tenant would be better off by \$410.

The twenty-six aldermen of the city of London are chosen for life.

### Blind Babies—An Appeal.

An Open Letter to the Generously Disposed.

A few weeks ago I came across in the London Spectator an appeal by Sir Arthur Pearson, in behalf of a specially helpless class of the community, in which he says:—

"At Sunshine House, Chorley Wood, we have 25 babies who are being taught to be little normal human beings, so far as that is possible, from their earliest days until the age of five, when they are transferred to the residential schools for the blind. There are enough poor blind babies in the Kingdom to fill six Sunshine Houses, and I want money to enable me to start the other five."

From this it would appear that in England there is room and need for six homes for blind babies and only one in existence. But here, in this favored Canada, nothing has heretofore been done in this direction, except a movement commenced last year by the late Mr. T. Hope Churchill, of Toronto, who after collecting between one and two thousand dollars, specially deposited in a local bank to the credit of the fund, asked me to aid him in raising a sufficient sum to purchase premises for the proposed home. Having warm sympathy with Mr. Churchill's praiseworthy enterprise, I promised to give him the necessary assistance, but circumstances prevented me undertaking the work until the present time, and meanwhile death suddenly removed Mr. Churchill. Now, in order that the money collected may be utilized for the purpose for which it was subscribed, a Charter (without stock subscription) is being secured so that the incorporated company can legally and properly lay claim to the money in the bank, and proceed to carry out the objects for which the Charter is sought, viz.:

"To provide a refuge for baby and infant blind, to provide free scientific care, training and maintenance, to save the lives of even a few of the many of such unfortunates who, for lack of such service, perish every year; and to return these little ones to their parents, at school age, with normal healthy bodies and sound minds."

Such, in brief, is the task before the promoters. Money is urgently required to carry it to successful completion. Canadians have never been known to turn their backs on any deserving cause, claiming their aid, and surely this appeal will meet with a generous response. Help now, without waiting to be called upon by a collector, so that the close of the year may see "The Blind Babies' Home, Nursery and Kindergarten" in successful operation in the Capital City of Canada. Cheques may be made payable to "Canadian Blind Babies' Home." All remittances will be promptly acknowledged.

C. BLACKETT ROBINSON,  
188 Dufferin Road, Ottawa.

### LET "DANDERINE"

### SAVE YOUR HAIR

Get rid of every bit of that ugly dandruff and stop falling hair

A little "Danderine" cools, cleanses and makes the feverish, itchy scalp soft and pliable; then this stimulating tonic penetrates to the famished hair roots, revitalizing and invigorating every hair in the head, thus stopping the hair falling out, or getting thin, dry or fading.

After a few applications of "Danderine" you seldom find a fallen hair or a particle of dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.

A few cents buys a bottle of delightful "Danderine" at any drug or toilet counter.

### BITS OF HUMOR FROM HERE & THERE

In Repose.  
"I see ye have a new hired man, Ezra," said Eben Potter. "How is he doing?"  
"Resting considerable easier than the other one did, thank ye!" replied the grim farmer.

### Brought Up to His Trade.

A clergyman was visiting a certain large prison, and by dint of persuasion and pleading, was endeavoring to wring from the criminals a promise to reform when at last they found themselves free again.

At last he came to a square-jawed, low-browed ruffian.  
"My poor, misguided man, how did you come to take up thieving, to break into houses, and rob innocent folk?"  
"I learnt it in an excellent school, mister," replied the hardened villain.  
"Ah, alas! I suppose from very childhood you were brought up among thieves?"  
"Yus; when quite a youngster I was apprenticed to a food profiteer."

### Sarah's Idea of Security.

Sarah and her mother had gone to a neighbor's for a few days to help cook for the threshers. Sarah had to go home one morning to do the chores, but she returned in a surprisingly short time, very well pleased with herself.  
"Well, sary, did you git through with the work a'ready?" asked her mother.  
"Yes, ma, I milked the cow, put the milk away and fed the chickens, and then I come right over. I locked the door too."  
"Well, that's a good girl, Sary. What did you do with the key?"  
"Hung it on the door knob, ma."

### MONEY ORDERS.

Buy your out-of-town supplies with Dominion Express Money Orders. Five Dollars costs three cents.

### Rings on Fishes' Scales.

Several theories have been advanced to explain the rings that close examination shows on the scales of fishes. The favorite theory is that they denote the age of the fish—a ring to a year, like the rings that show the age of a tree. Ichthyologists in many European countries have made a careful study of the matter and have deemed it of enough importance to make it the subject of a report published as a British bluebook. They hold that the scales do tell with near approach to accuracy the age of salmon and herring; as to other fish they are in doubt. The Norwegians maintain that the rings bear relation merely to the length of the fish. It has been found that the food of the fish and the temperature of the water that they inhabit have an influence on the scale rings.

### Mrs. Lilian Taylor Tells How Cuticura Healed Her Baby

"Our baby was two weeks old when his face became very red and terribly itchy, and he was fairly crazy rubbing and scratching till the skin broke and bled. He could not sleep, and did nothing but cry. His face looked as though he might be disfigured for life.

"I thought I would give Cuticura Soap and Ointment a trial. I found the free sample so good that I bought more and two cakes of Cuticura Soap and a fifty-cent box of Cuticura Ointment healed him." (Signed) Mrs. Lilian M. Taylor, Box 99, Brackbridge, Muskoka, Ont., Dec. 30, '18.

Cuticura Soap to cleanse and purify, Cuticura Ointment to soften and soothe and Cuticura Talcum to powder and perfume are ideal for daily toilet purposes.

Soap 25c, Ointment 25c and 50c. Sold throughout the Dominion. Canadian Depot: Lyons, Limited, St. Paul St., Montreal. Cuticura Soap shaves without lather.

Minard's Liniment Relieves Distemper

### "FREEZONE"

Lift Off Corns! No Pain!

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you can lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

### Why Saints Have Halos.

Saints have halos because a country boy made a curious mistake some hundreds of years ago when he first began to paint holy pictures. In order to keep the rain from discoloring the statues of saints that stood just under the eaves of churches, the church authorities used to place wooden disks over them. Giotto, when a boy, assumed that the disks were an essential part of the sacred figures. At first he painted above the head of each saint a disk that looked like the bottom of a tub; later he made it a mere circle, dark at first, but more and more luminous in successive pictures until it became the circle of light that painters ever since have used as the symbol of sanctification.

### Minard's Liniment For Dandruff.

A road has been built in England with leather waste mixed with tar.

### MOTHER!

"California Syrup of Figs" Child's Best Laxative

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its fruity taste. Full directions on each bottle. You must say "California."

### ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Headache, Neuralgia, Toothache, Earache, and for Rheumatism, Lumbago, Sciatica, Neuritis, like Aspirin marked with the name "Bayer" or you are not taking Aspirin at all.

Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over ninety years. Now made in Canada. Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocarbonylchloride of Salicylic acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their genuine trade mark, the "Bayer Cross."

PRETTY important event—those first uncertain steps—the first thing you think of is a

## KODAK

WHILE it is all very simple the Kodak way, the experts in our photographic department are more than ready to give you the benefit of their experience and to help make good picture-making all the easier.

Kodaks from \$11.21 up—they are all auto-graphic—an invaluable feature for pictures of the youngsters where the date and title are often half the interest.

## Liesemer & Kalbfleisch

### The Lady Knew

"Speaking of going to Heaven," said a gentleman to a lady during dinner, "what worries me the most is, how am I going to get my overcoat on over my wings?"  
"Don't let that worry you," said the lady sweetly. "All you need to concern yourself about is how you are going to get your hat over your horns."

There appears to be a cruel fate attending Harvey Maurer, of Clifford, when he travels. Last year while returning home from a season teaching school in Saskatchewan, he was held up and robbed of \$800 at Saskatoon, most of which he recovered. This year while coming home from teaching school in the same place in Saskatchewan he had

his grip snipped from the train at Toronto. Among the contents of the grip was a good overcoat, an expensive kodak and a small amount of money.—Express.  
The general township levy for public schools is now \$600 for each school instead of \$300 as under the old act.

### S. SIDERSON

Mildmay  
I buy Wool, Hides, Poultry Rags, Rubber and Metal and pay the highest prices. Call up Bell Phone 38, and I will call on you.  
Satisfactory dealing guaranteed.

### School Fair Dates, 1920

Oct. 1	Friday	Tiverton
4	Monday	Riversdale
6	Wednesday	Gillies Hill

### CARLSRUHE.

Mr. Solomon Schwandt has sold his farm in Brant to Chas Doerr of near Chepstow, who is to be given possession next spring.

Conrad Russman has sold his farm on the 10th concession of Carrick, to his neighbor, Edward Krohn, and has purchased another farm a mile and a quarter southeast of Listowel. Mr. Krohn is now the possessor of 325 acres of land in Carrick.

Misses Mary and Veronica Weber of Kitchener, and Mr. and Mrs. Joseph Ansted of Pinkerton visited relatives and friends here on Sunday.

Rev. Father Leyes of Hamilton, accompanied by his father, George Leyes, spent Saturday and Sunday in Hanover and Karlsruhe. Rev. Father Leyes assisted in the parish church at Hanover.

Mr and Mrs Louis Kuntz of Formosa, and Messrs Albert and John Flach and their two sisters, Kate and Hannah, attended the funeral of their uncle, Mr. John Hesch.

### LIVE STOCK MARKETS

#### TORONTO.

With 5500 cattle on sale at the Union yards Monday, the market was generally all the way from 75c to \$1.00 per lb lower. The general quality of the cattle was fair to medium, and what few good and choice butcher cattle were there sold more quickly than the others, but at a more lower level than a week ago.

There were no very choice steers on sale, and outstanding prices were made, and quite a number of cattle were sold for feeding purposes. The cow trade was fairly steady for good cows, but slow and dragging on the medium and common classes.

The prospects are favorable for cattle of prime quality, but the outlook for the other grades is no better.

With around 7000 sheep and lambs on the market, the best lambs sold from 13 to 15c; cull lambs 9 to 10c; yearlings, choice, 9 to 10c; choice handy sheep, 7 to 4c; heavy sheep, 6 to 8c. The lamb market on the whole was off from 75c to \$1 per cwt.

Calves—With around 600 calves on sale, the market was easier on all classes, with the exception of real choice veal. Choice calves sold from 18 to 19c; medium, 15 to 17c; common, 10 to 13c; heavy fat, weighing from 270 to 325 lbs, sold from 10 to 12c.

The hog market is unsettled, packers bidding on the basis of 18c, f o b, and 19c fed for Tuesday's shipment.

### ADDITIONAL LOCALS.

Venice, Italy, have taken possession of the military arsenal.

Messrs. S. Stroeder and J. Lawrence spent Sunday in Kitchener.

Miss Mary Bohmer is spending a couple of weeks with relatives at Kitchener.

Plums, which are a very heavy crop this year are selling at from 1 to 2 cents per pound.

Miss Lemay Miller of Elmira, is visiting Mr. and Mrs. Henry Weber at Was-koda, Man.

Anthony Kunkel purposes moving his family back from Cargill, and is looking for a house here.

Mesdames Mitchell and Eby of Kitchener, spent last week with their sister, Mrs. John Bohmer.

Mrs. M. Mullen, Mr. and Mrs. Adams and baby, all of Buffalo, were guests of Mrs. Kate Dickson during the past two weeks.

Miss Elizabeth Bohmer was at Walkerton last week attending the funeral of her niece, Cecelia Cunio, who died on Thursday last after a short illness with brain fever.

Mildmay Fall Show.  
The big event of the season will be the Mildmay Fall Show on Monday and Tuesday, Sept. 20 and 21. Bigger and better than ever, with a fine list of special attractions. Don't miss the Mildmay Fair.

Stinson's local merchant of Forest, Ont., offers \$1000 for charity if anyone proves that his prices are higher than the mail order houses. A citizen of that town made the statement and so far has not gone after that \$1000. It's the same everywhere. There are people who accuse the local merchant of high prices without fair investigation.

## Style Information

### Fall 1920

**Suit coats** are no longer in accord with the prevailing idea as to smartness. The coat is the chief feature, skirts being fairly plain with novelty pockets and belts. Pin tucks and silk braid and buttons are principally used for trimming. The collars are mostly of the convertible type.

**Coats** may be worn belted or loose. One of the most prominent features will be an extremely large cape collar. Silk twist stitching, furs and fur fabrics will be largely used for trimming. Owing to the prohibitive price of furs, plush and other fur fabrics, made in three-quarter length coats after leading fur models, are likely to be much in demand. Very large collars will top these elegant appearing coats and when worn open cling close to the shoulders giving a slender drooping shoulder line.

**Skirts** are all made on slender graceful lines with a tendency to be fuller and relying somewhat on pleats to dispose of the width. Plaids promise to be much in vogue.

**Dresses** are given their style character in many cases by the simple lines of a drop waist line known as the sweater effect. For tailored styles full length sleeves will dominate. The three quarter sleeve which usually flares at the elbow will be shown in dresses for afternoon wear. Sash effects and pleated skirts are likely to be popular. The materials mostly used are satin, taffeta, wool tricotine and serge, with lace collars, embroidery and braid for trimming.
