Private Roy Burke Killed

Mrs. Ethel Burke, of Arbeau, N. B., has received word that her husband, Private Roy Burke, of the 15th battalion, was killed in action on June 16th.

## Presentation to Miss Harrison

The Summerside Journal of the 28th ult. has the following:

"At the close of the evening service in the Presbyterian church on Sunday, a short social singing service was held, the occasion being in honor of Miss Alice M. Harrison, who has resigned her position as organist and choir director, the duties of which she has faithfully and most capably discharged for over three years. After a few solos which were beautifully rendered by members of the choir, Rev. H. J. Fraser, on behalf of the choir and congregation addressed Miss Harrison, and complimented her highly upon the most able manner in which she had directed the musical affairs of the church. He was profuse in his thanks for the valuable services Miss Harrison had rendered. On behalf of a few of Miss Harrison's friends Mr. Fraser presented her with a purse of \$50. Miss Harrison made a most suitable reply. She said she had been happy in her work and greatly regretted the necessity of leaving Summerside. Mr. Neil McLeod, K. C., addressed a few appropriate remarks which were most complimentary to Miss Harrison. Miss Harrison will be greatly missed in Summerside, especially in musical circles. During her stay here she has worked hard and well for every good cause—and with a thought of reward, and all will join with the Journal in wishing Miss Harrison every happiness in her new home.

Letter From Col. Mersereau

A letter received by Mayor Fish from Lt. Col. Mersereau is being held till next week owing to a pressure for advertising space. Col. Mersereau says he requires 100 more stalwart men from the Miramichi.

## HYMENEAL

Harrison-Smith

The Vancouver World of the 13th ult. has the following: "Very quiet, but exceptionally pretty was the marriage which was solemnized at 8:30 o'clock last evening at the Kilsilano Methodist church, when Vera Louise, second daughter of Mr. and Mrs. Thomas S. Smith, of 2486 Third Avenue West, was united in marriage to Mr. William Harrison, of Halifax, N. S. The guests included only members of the family, but a number were present to do the honor to witness the ceremony, which was performed by Rev. G. G. Brown, pastor of the church. The bride was attended by her sister, Miss Reta Smith, as bridesmaid and Mr. Harold Crosby acted as groomsmen. Little Master Lorne Kyle, a tiny nephew of the bride, made a sweet little ring-bearer. The bride was given in marriage by her father. Preceding the ceremony the "Bridal Chorus" was played by Mrs. Galpin, and during the ceremony the beautiful solo, "Love's Coronation," was sung by Miss Eura Leeson. After a short visit at the coast Mr. and Mrs. Harrison will leave for Halifax, where they will make their future home. The bride's numerous friends regret that her marriage means her removal from the city, as she has a large number of friends among whom she has been very popular."

Mr. Harrison above mentioned is a son of Rev. Dr. and Mrs. Harrison of Newcastle, who leaves this week to take charge of the Methodist church at Marystown.

By profession Mr. Harrison is an electrical engineer and has been in the employ of the Canadian Westinghouse company for several years.

## Campbell-Cornish

The marriage took place on June 25th at St. Luke's parsonage, Chatham, of Miss Lillian M. Cornish, daughter of Mr. J. T. Cornish, of Chatham, to Mr. Alex. Campbell, of Lower Napan, Rev. Mr. Pinkerton, assisted by Rev. W. B. Roseborough, of Loggieville, officiating. The bride was dressed in ivory satin, veil and orange blossoms, and carried a bouquet of white carnations. She was attended by Miss Lillian Whitehouse, who wore white voile with pink silk and hat to match. The groom was supported by Mr. Lee Gillis. After the ceremony the party repaired to the bride's home where a sumptuous supper was served. The groom's present to the bride was a gold wrist watch, and to the bridesmaid a gold brooch; to the groom a pair of gold cuff links. The bride's present to the groom was a pearl stick pin. The bride was the recipient of many beautiful presents, including gold, silver, cut glass and cheese. The happy couple will reside in Lower Napan.

## Morrison-McKnight

A very pretty wedding took place at Dunstaffnage, Chatham, on Wednesday afternoon, when Miss Annie N., daughter of the late Alexander McKnight of Lower Napan, was united in marriage to Robert Morrison, Burnt Church. The bride looked charming in a travelling suit of blue with hat to match. The principal were unattended, Rev. D. Henderson performed the ceremony, and immediately thereafter the happy couple drove to the home of the bride's parents, where a reception was given to a large circle of friends and luncheon served. Mr. and Mrs. Morrison will reside at Burnt Church, where they will be at home after August 1st. Many beautiful presents were received.

## Moore-Goss

At Campbellton at the home of the bride's parents, Mr. and Mrs. Charles Goss, on Thursday morning, June 29 their only daughter, Florentina Phillips, was united in marriage to Samuel Edward Moore of Amherst, N. B., formerly of Woodstock, N. B.

## Closing Exercises Bamford School

The public examination was held on the afternoon of June 29th. Quite a number of visitors were present. An interesting program of songs, recitations, drills, etc., was effectively carried out by the children in the Primary Department, under the direction of Miss Stohart, the teacher. After these exercises a few words were spoken by the visitors on the school and the progress of the scholars. Parent-teacher Associations were touched on and the need for more cooperation between the school and the home. After singing God Save the King and partaking of a treat kindly furnished by the trustees, the visitors departed and the school was dismissed.

# The Miramichi Hospital Officially Opened

## Many People Visit the New Building and Gratefully Admire the Beneficence of Mr. Ernest Hutchinson, the Donor--The Speeches

A goodly number of citizens of Newcastle and Chatham and many residents of the county, assembled Saturday afternoon to inspect the new Miramichi Hospital, and honor its donor and builder, Mr. Ernest Hutchinson, of Douglstown, by attending the public opening of that institution. All present were shown over the building from basement to topmost story and expressed themselves surprised and delighted with the perfection of the building and the thoroughness of its equipment, and realized as never before the meaning and value of Mr. Hutchinson's princely gift to the people of his native county.

Shortly after three o'clock the chair was taken on the spacious balcony of the Hospital by W. A. Park, chairman of the Hospital Board. The balcony was filled with guests of the day--the Hospital, Town and County Officials, and others, with their ladies--while the rest of the multitude were grouped on the Hospital steps and the wide lawn in front, where all could plainly hear the voices of the speakers.

### W. A. Park

Mr. Park said that many of those present could remember the first day of the Dominion, and had watched it growing ever since. He could not be accused of boasting when he said that we had a county equal to any in the world. Not only were our natural resources varied and inexhaustible, but we had the right kind of men. Our young men had gone forward unflinchingly to do their duty in the great war and we were proud of them. We were proud of the leading men of the country. All the men who have made money were doing something for the good of the people. All were proud of the man who built the Hospital, and were proud of the many in the Dominion who were likewise helping. It was a little over a year ago when the corner stone of this building had been laid. The whole work since had been done under the personal supervision of Mr. Hutchinson. No contractor had had charge. The building was one of the best in Canada, and a great boon to the community.

By an Act of the Legislature the Trustees were incorporated. The Board was composed of the following: F. M. Tweedie, vice-pres.; D. J. Buckley, E. A. McCurdy, Treas.; Allan J. Ferguson, sec.; Howard Williston, F. D. Swin, M. L. A.; Wm. Anderson, L. Doyle, Joseph McKnight, Messames E. H. Sinclair, O. Nicholson and John Morrison; G. Percy Burchill, James Robinson, Peter Forsythe, with himself as president. These held office for four years, four going out the first year by lot, and four the second, and four the third, and four each year thereafter. The Act provided for four more trustees, each to hold office one year--one from the county council, which had granted the Hospital \$1000 a year, one from the Newcastle Town Council, which had granted \$500 a year; one from the Highland Society, whose grant was \$300, and one from the physicians of the county.

It was not necessary, continued Mr. Park, to say much about the donor. He was well known. He had employed a first class architect, Mr. Heans of St. John, and the work had been well carried out under the foremanship of Mr. John Edgett of St. John, who in completing the job had maintained his high standard. The Trustees deemed this the fitting occasion of presenting Mr. Hutchinson with an address. Mr. Hutchinson, because of indisposition, was not present, but Mrs. Hutchinson had consented to receive it for her husband.

The Address

Mr. Park then read the address as follows: Ernest Hutchinson, Esq., Douglstown, New Brunswick.

We, your fellow-citizens of the county of Northumberland, desire on this happy occasion to tender you an expression of our warmest admiration. The gift to your fellow-citizens of this beautiful hospital, fully equipped is a benefaction so great and so rare, that we would be cold indeed

if we did not try to show you by this tribute that we are sincerely anxious to express our keen appreciation of your most generous and worthy act. This hospital will stand, not only as a monument, keeping alive your memory long after it might otherwise have passed away, but also as an evidence of your charity and sympathy towards suffering humanity. We hope that in imagination you will allow to pass before you the long procession of those whose miseries shall be relieved by the excellent and thorough arrangements of this hospital, and that you will often call to mind the striking tribute paid to that great man, Lord Lister, whose labors and achievements made your gift a possibility. "He enabled more people to attain a natural conclusion to their lives than were killed in all the wars of the nineteenth century." And we also hope that others will have an ever-increasing appreciation of the benefit and blessing a good hospital is to a city and community. We congratulate you on the possession of the good taste which led you to become your own executor.

You have the joy of seeing your thought take shape and grow into a thing of beauty and abiding worth. Thus your beneficence becomes likable, and that mercy of which Shakespeare spoke when he said, "It is twofold--it blesseth him that gives and him that takes."

May you live long to watch and follow with kindly and helpful interest this beautiful and useful building, which today starts on its errand of mercy, dedicated to the relief and comfort of mankind and which solicits the co-operation of everyone in the effort to make it an ever-increasing benefit to all who dwell on the banks of our beautiful Miramichi.

On behalf of the Citizens.

(Sgd.) W. A. PARK.

G. PERCY BURCHILL, A. J. FERGUSON, JOSEPH MCKNIGHT, HOWARD WILLISTON, Committee.

Newcastle, N. B., July 1st, 1916.

Hon. L. J. Tweedie

Hon. L. J. Tweedie replied for Mrs. Hutchinson.

He regretted that Mr. Hutchinson was not present to receive what was his just due--the address, which was couched in language not a bit extravagant but strictly true. A larger heart was developing all over Canada. Today the teaching of the Nazarene Carpenter's son was more evident than ever they were. Mr. Hutchinson did not wish any thanks or expect any fulsome flattery. But he has made this offering to the public out of the goodness of his heart. It would help the county, help the physicians, who have not had the opportunity of having operating rooms, etc., near them before. On behalf of Mr. and Mrs. Hutchinson, he thanked the Committee for the address, and the people for their attendance at the opening ceremonies. He (Tweedie) hoped the people would now take care of the hospital without further assistance from the donor, but if such assistance were really needed, Mr. Hutchinson would still be ready to help.

There was no better gift to the public than a hospital. The poor had not been able to always get proper attention, but now no reason why they should not receive the greatest benefit from this institution and feel the greatest gratitude to the donor. The thanks of Newcastle, the whole county and the whole North Shore were due the latter. There was no hospital in the whole province that excelled or equalled the gift of Mr. Hutchinson today. It was the greatest gift N. B. had ever received as a hospital, and the greatest hospital erected by one man. He regretted the absence of the Governor of the province, also he was sorry the town children--the fathers and mothers of the next generation--were not present to take notice of the proceedings. Were they there, he would advise them as he had advised those of Chatham High School, to save their moving picture and candy money and endow a hospital bed for

the Canadian soldiers. The Chatham pupils had sent him \$53-\$50 for a bed and \$3 for cost of cabling the money. That was real self-denial. Mr. Park had referred to our great country, whose natal day we were now celebrating. Great progress had been made, but only the fringe of Dominion development had yet been touched. In 1867 the sum of \$15,000,000 was thought sufficient to run the country. Today millions, almost billions, were being expended in the war alone. No one knew what development was in store for us. Its greatness could not be imagined.

### Letters of Regret

Mr. Park read letters of regret at not being able to be present from His Honor Lt. Gov. Wood, Warden John W. McNaughton of Northumberland Co., and from Supt. Kenny of Halifax Hospital.

### W. S. Loggie, M. P.

Mr. Loggie was the next speaker. He said it gave him great pleasure to attend, as it did at the laying of the corner stone last year. He congratulated the Northumberland people on having such an institution ready to welcome the afflicted from any part of the county. True there had long been a well equipped and well managed hospital in Chatham. But now there was one for the upper end of the County, as well, that would serve that section in a peculiar manner. Hospital work was philanthropic, and the whole county was to be congratulated.

Who is the hero in this country? asked Mr. Loggie. We have sent our boys, who have gone into the battle prepared to give their lives for the sake of their country. We call them heroes and rightly so, for they have offered a sacrifice for something worth while, and so had Mr. Hutchinson made a sacrifice for something worth while. The hospital was a good thing for our girls who wished to train as nurses. This county was to be congratulated on having sent forth so many nurses to the present war. They were all doing their duty nobly at the front, nursing our brave boys back to health and strength. Oh, it was worth while to suffer and die for the British flag! It was likewise worth while that Mr. Hutchinson should do this great thing for the people of Northumberland. Mr. Hutchinson was a very generous gentleman, and deserved the thanks that were being so heartily extended to him. He (Loggie) endorsed every word in the address and hoped that Mr. Hutchinson would live long to watch the hospital develop. It would be a high honor for the people of the County to render assistance in the upkeep of the institution, which he trusted, would be a blessing to the community. He wished the war were over, so that the boys and girls at the front might receive the rewards and care they deserved.

Hon. John Morrissey

Hon. Mr. Morrissey was the next speaker, and re-echoed the sentiments of the previous speakers. He was glad that the community had such a man as Ernest Hutchinson, Douglstown had sent its quota of good men all over the country--yes, all over the world; but Douglstown had had no man with a bigger heart than Ernest Hutchinson. When Mr. Hutchinson had laid the corner stone last year, there had been some suspicion of who was financing the affair. Now we know that Newcastle parish has a man with a heart big enough to do this. Mr. Hutchinson should be proud of his wife, anyway--the Miramichi wives were the best in the world. Mr. Hutchinson asked no thanks, but some people get what they do not ask for, so he must accept the thanks of the public. He must take pride in his work as he passes up and down by the hospital, and he will be able to say that while he was given the possession of money he had made good use of it.

Mayor C. E. Fish

Mayor Fish of Newcastle spoke as follows:

Lenora gave a little cry. She turned triumphantly towards the inspector. "All recollection as to its locality had escaped me," the professor continued sorrowfully. "I remember that it was on the anniversary of his having been with me for some fifteen years that I decided to show him some substantial mark of my appreciation. I knew that he was looking for a domicile for his father and mother, who are since both dead, and I requested a house agent to send me in a list of suitable residences. This, alas! was the one I purchased." Quest glanced around the place. "I think," he said, "that the professor's statement now removes any doubt as to Craig's guilt. You are sure the house has been closely watched, inspector?" "Since I received certain information," French replied, "I have had half a dozen of my best men in the vicinity. I can assure you that no one has entered or left it during the last twenty-four hours." They made their way to the piazza steps and entered by the front door. The house was an ordinary framework of moderate size, in poor repair, and showing signs of great neglect. The rooms were barely furnished and their first cursory search revealed no traces of habitation. There was still the broken skylight in the room which Lenora had occupied, and the bed upon which she had slept was still crumpled. French, who had been tapping the walls down stairs, called to them. They trooped down into the hall. The inspector was standing before what appeared to be an ordinary panel. "Look here," he said, glancing out of the corner of his eye to be sure that Laura was there, "let me show you what I have just discovered." He felt with his thumb for a spring. In a moment or two a portion of the wall, about two feet in extent, slowly revolved, disclosing a small cupboard fitted with a telephone instrument. "A telephone," the inspector remarked, pointing to it, "in an unoccupied house and a concealed cupboard. What do you think of that?" The professor shook his head. "Don't ask me," he groaned. French took the receiver from its rest and called up the exchange. "Inspector French speaking," he announced. "Kindly tell me what is the number of the telephone from which I am speaking, and who is the subscriber?" He listened to the reply and asked another question. "Can you tell me when this instrument was last used?" "When?" "Thank you!" The inspector hung up the receiver. "The subscriber's name," he told them dryly, "is Brown. The number is not entered in the book, by request. The telephone was used an hour ago from a call office and connection was established. That is to say, that someone spoke from this telephone." "Then if your men have maintained their search properly, that someone," Quest said slowly, "must be in the house at the present moment." "Without a doubt," the inspector agreed. "I am going to search the front room on the first floor before we do anything else," said Quest. "I think that if you wait here I may be able to show you something directly." Quest ascended the stairs and entered a wholly unfamiliar room on the left-hand side. He looked for a minute contemplatively at a large but rather shallow cupboard, the door of which stood open, and tapped lightly with his forefinger upon the back part of it. Then he withdrew a few feet, drawing out his revolver, deliberately fired into the door a few inches inside. There was a half-stifled cry. The false back suddenly swung open and a man rushed out. Quest's revolver covered him, but there was no necessity for its use. Craig, smothered with dust, his face white as a piece of marble, even his jaw shaking with fear, was wholly unarmoured. He seemed, in fact, incapable of any form of resistance. "Walk out of the room," Quest ordered, "in front of me—go! Now turn to the right and go down the stairs." They all gave a little cry as they saw him appear, a trembling, pitiful creature, glancing around like a trapped animal. He commenced to descend the stairs, holding tightly to the banisters. Quest remained on the landing above, his revolver in his hand. French waited in the hall below, also armed. Laura gripped Lenora's arm in excitement. "They've got him now!" she exclaimed. "Got him, sure!" On the fourth or fifth stair Craig hesitated. He suddenly saw the professor standing below. He gripped the banisters with one hand. The other he swung out in a threatening gesture. "You've given me away to these bloodhounds!" he cried—"you, for whom I have toiled and slaved, whom I have followed all over the world, whom I have served faithfully with the last breath of my body and the last drop of blood in my veins! You have brought them here—tracked me down! You!" The professor shook his head sorrowfully. "Craig," he said, "you have been the best servant man ever had. If you are innocent of these crimes you are clear yourself. If you are guilty,

# SEVEN YEARS TORTURE

Nothing Helped Him Until He Took "FRUIT-A-TIVES"

ALBERT VARNER

Buckingham, Que., May 3rd, 1915. For seven years, I suffered terribly from Severe Headaches and Indigestion. I had belching gas from the stomach, bitter stuff would come up into my mouth after eating, while at times I had nausea and vomiting, and had chronic Constipation. I went to several doctors and wrote to a specialist in Boston but without benefit. I tried many remedies but nothing did me good. Finally, a friend advised "Fruit-a-tives". I took this grand fruit medicine and it made me well. I am grateful to "Fruit-a-tives", and to everyone who has miserable health with Constipation and Indigestion and Bad Stomach. I say take "Fruit-a-tives", and you will get well.

ALBERT VARNER.

# Agricultural Gardens

That the policy of the Federal Government in providing a subsidy of ten million dollars, spread over a period of ten years, towards furthering agricultural education in the different provinces, is bearing good fruit is abundantly proven by the second annual report of the Commissioner of Agriculture, for the year ending March 31st, 1915, which tells in detail how the money has been applied. It shows that while much remains to be done before the work is perfected in rural schools a great deal has been achieved. Teachers have had to be trained and for this purpose, short courses have been held in connection with all the agricultural colleges, generally in the summer vacation, and the attendance has everywhere been satisfactory. Funds for this purpose came out of grants made by the Dominion under the act. New buildings have been erected, old buildings enlarged, schools better equipped, higher salaries and more experienced instructors engaged, teachers specially trained, college extension work greatly extended, boys and girls' competitions encouraged, the district representative system widened and developed, demonstration methods increased in number and improved in scope and character, and women's work at home and abroad aided institutionally and otherwise. In short, there is not a branch of agricultural education or of home economics in any of the provinces that has not been beneficially influenced by the operation of the act in providing more funds than would otherwise have been available for these activities. The provinces having been left free to use the grants, which have increased from \$700,000 in 1914 to \$900,000 in 1915—and will be \$1,000,000 each of the succeeding six years—each of them thought fit within the purposes intended, the applications have not all been identical, but in the report every item in detail is set forth. The story of every province is told, furnishing interesting reading for every well-wisher of the agricultural industry and every member of the farming community. A letter to the Publications Branch of the Department of Agriculture, Ottawa, will bring the report free of all charge.

NO SONG TO SING?  
No song to sing, tho' some 'ould may wait  
For your word of hope till it is too late?  
No song to sing, tho' the ring of cheer  
Might heal a wound or dry a tear?  
No song to sing, tho' your kindly word  
Might wake a dream that had never stirred?  
No song to sing, tho' the weary-worn  
Upon life's path all bruised and torn  
Might travel stronger 'neath their load  
I but your song woke on the road?  
No song to sing, to soothe life's smart,  
Although you hear the breaking hearts?  
No song to sing, tho' perhaps someday  
You will face the song that slipped away?  
No song to sing, tho' perhaps your strain  
Might echo o'er and o'er again:  
And souls it helped be true and brave  
Drop tears and flowers on your grave?

Instructive Lecture on Japan Followed by Presentation to Dr. and Mrs. Harrison and Miss. McLeod

More than 100 people, from various churches, listened with rapt attention to Miss Anna O. McLeod, who lectured in the Methodist church last Wednesday night on her six years' experience as a missionary in Japan.

Miss McLeod, who is home on furlough, was a resident of Newcastle before taking up her noble work in the East. The chair was occupied by Rev. Dr. Harrison who, in a few well-chosen words, introduced the speaker of the evening. Dr. Harrison noted with pleasure the wonderful fact that the contributions to missions had not diminished during the war.

Miss MacLeod spoke, at length, in a most interesting manner. For six years she had been longing for an opportunity to speak to the home people.

Christ's last command was to preach the gospel to every creature. If there are heathen at home, it is their own fault—they have heard the gospel or, at least, have had an opportunity of hearing it. It is a wonderful privilege to preach the gospel. There is no pleasure anything like that one experiences when she sees the Gospel being received and appreciated, as she had had seen in Japan.

The Japanese are a most interesting people. They are very polite. They bow very often, and much time is taken up in salutations, both on the streets and in the houses. On leaving a Japanese house you must say to your host or hostess, "I have been very rude to you!" The reply will be, "Oh, not at all." etc.

The Japanese children are very interesting and very little different from our own except that each has a yellow face, black hair and black eyes. Japanese gardeners plant trees of other than flowers. Their houses have no privacy. The partitions are all of paper and all doors are sliding doors, with paper panels, generally, instead of glass.

In machinery and science the Japanese cities are entirely up-to-date, but the social customs of the people have changed very little in 50 years. Boys and girls go to the same school up to the fourth or fifth grade, then they are separated, and do not mingle at all. The moral ideals of the people are too low to make the mingling of the sexes advisable at present. Youths do not choose their own life partners—it is done for them by their elders, and beautiful girls are very often given in marriage to men entirely unsuitable except as to wealth and social position, thus making countless homes unhappy and making divorces frequent.

There is no real home life in Japan as Christians know home life. When the missionary sees a Christian girl married to a Christian man he knows that an ideal home will be started. And this brings the question: Is God in all so-called Christian homes? There are many schools in Japan, 98 per cent. of the children are said to attend them. They go for four years, and then the attendance falls off. There are not enough high schools.

Why Mission schools? Not to give a mere education, but to give a Christian education. Children of Mission Schools never forget what they learn, and often convert their elders. There are many such cases. The Gospel works in Japan. Japanese Christians are earnest and generous. Christianity is permeating the whole of Japan. The Emperor, himself, gladly received the gift of a Bible from American Japanese Christians. Japan and China are rapidly becoming our neighbors. The trip from Newcastle to Yokohama takes only 17 days. If we want these coming neighbors to be clean, honest, friendly, brotherly, we must do our best to Christianize them. More missionaries must be sent and at once. Miss McLeod's address was followed by a Congregational Social, at which a good musical program was provided, and refreshments served by the ladies. Mrs. Follansbee presided. During the evening Rev. Dr. and Mrs. Harrison, who were spending their last week in the parsonage here, and Miss McLeod, were the recipients of heartfelt addresses, to which they were feelingly replied. The addresses were as follows: Dear Dr. and Mrs. Harrison. "The time is drawing near when as pastor and congregation our relations must be severed. You have spent the full term of four years with us, and in accordance with the discipline of our church you are leaving us for another field of labor. The years you have lived in Newcastle have been marked by many changes both in church and national life and in the life in many of our homes, but we

July 3—The roads in this locality are not so good this summer, as they usually are, owing to poor work being done. The Misses Addie and Phoebe Somers who have been away in Brewer, Maine, for the last few months, have returned home. Mr. Miles McAllister left here on Wednesday for Maine, accompanied by Mr. Leo Murphy of Lytleton. Miss Jean Ashford of Newcastle, spent a few days of last week with friends here. Mrs. Frank Matchett of Lytleton, was the guest of Miss Dellah McDonald one day last week. Miss Maudie Chambers who has been very ill, is quite well again.

THE WAR-TRANS-ATLANTIC U-BOATS

We all realize, now, that Germany had been preparing for this war for more than a generation. She specialized in several modern branches of war equipment—Zeppelins, U-boats, machine guns, and enormous cannon (busy Berthas.) Since the outbreak of war it is, of course, very difficult to get details of her plans or developments. But we may be sure that much greater developments have probably been made in many lines, since the beginning of the war. During the war, Germany showed numerous unexpected and exceptionally important improvements in her submarines and it has been continually rumored that she has been developing and building a fleet of submarines perfectly capable of crossing the Atlantic, get-

As a result of one woman's interest and initiative \$55.00 was realized and forwarded for Red Cross Work.

Judge Scores a Jury The verdict of the jury of the York Circuit Court, Thursday, in finding Charles Stenick not guilty of charges against him brought forth strong expressions of disapproval from Mr. Justice Crockett, who presided at the trial. Judge Crockett declared that the verdict was a complete miscarriage of justice and most reprehensible, saying that upon the prisoner's own evidence he was guilty upon the count for assault. There had been an expose of moral degradation by evidence in this case, the worst that had defiled the records of the court. The charge was misconduct on the part of the prisoner with his wife.

Catarrah Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c. F. J. CHENEY & CO., Toledo, O.

The convention spent the afternoon in Bay du Vin, the guests of the Miramichi druggists. Business was finished in the evening. A council of 12 were elected, and they elected the following officers for ensuing year:—Pres. A. W. Coombs, St. Marys; Vice-pres. C. P. Hickey, Chatham; Sec., Geo. O. Spencer, Moncton; Registrar, Benson Mahony, St. John; Treas. C. A. Burdick, Fredericton. Those who remained over till next day visited Hotel Dieu and expressed themselves as delighted with the institution and its equipment and especially the immaculate cleanliness that pervaded the whole building.

Two Marriages at McNamee On Wednesday afternoon, June 28th, at the residence of the bride's father, Mr. James Stewart, John Frederick Miner, of New Brandon in the parish of Ludlow, son of Mr. and the late Mrs. Daniel Miner, was united in marriage to Miss Hester Edna, daughter of Mr. and the late Mrs. James Stewart. The happy couple were supported by Mr. and Mrs. Harry Lyons. Later in the afternoon at the residence of the bride's parents, Herbert Price, son of Mr. and Mrs. Charles B. Price of Priceville, in the parish of Ludlow, took to himself as wife Miss Mary Grace, daughter of Mr. and Mrs. Charles Stewart. The best man and bridesmaid on this occasion were Douglas R. Price and Miss Hattie Stewart. A large number were present at each service and many gifts were bestowed upon both couples by their respective friends. Both ceremonies were performed by the Rev. W. J. Batz of Newcastle, who was assisted by his son, the Rev. Alban F. Brje, curate-in-charge temporarily of the parish of Ludlow and Blissett.

Happy Hour Thursday Francis X. Bushman and Beverly Bayne, the crowned king and queen of the silent drama, will be seen here at the Happy Hour on Thursday in "The Wall Between," a silent five act Metro wonderplay. This production is far the more pretentious feature in their long careers on the screen. It is a military masterpiece and affords an excellent opportunity for the staging of scores of thrilling scenes. "The Wall Between" was produced under the personal direction of John W. Noble, of the Metro staff, who is a graduate of West Point and saw seven years active service as an officer in the army. A typical military scene will be seen in this feature and more than two thousand persons appear in the production. "The Wall Between" was produced by the Quality Picture Corporation for the Metro program.

Groves-Huson A very pretty wedding was that of Miss Grace Purdy Huson, of Chatham, and Frederick Sylvester Groves, of Calais, Me., which was solemnized at the home of the bride's uncle and aunt, J. L. Stewart, M. L. A., and Miss Stewart, Chatham. The bride was given in marriage by her uncle. The charming bride was dressed in white silk crepe de chine with an overdress of white charmeuse, satin trimmed with white satin ribbon, and lilies of the valley, and wore a bridal veil of silk embroidered net caught up with a wreath of lilies of the valley, carrying a shower bouquet of white roses, sweet peas, lilies of the valley and maidenhair fern. The house was prettily decorated for the occasion by the girl friends of the bride. Immediately after the ceremony a reception was given to a large number of friends. Miss Lou Mersereau ushered the guests to the dining room where dainty refreshments were served. Those assisting were Mrs. Groves, Miss Vera Murray, Greta Godfrey, Miss J. Lyon, Millerton; and Mrs. Royce W. Brewster, Brewer, Me. Mr. and Mrs. Grover left on the Maritime on a short honeymoon trip, after which they will reside in Calais. Mrs. Groves traveled in a suit of grey serge with hat to match. She was the recipient of many handsome and costly presents which testified to the high esteem in which she is held by a large circle of friends.

How to Have Dry Buildings IRON doesn't wear out, it rusts out. Ready Roofings don't wear out, they dry out. Do you know how important this difference is? This is a tremendous difference. There is a tremendous difference between a roof that stays there, being thick, the felt holds this saturating compound in it. It is the skill used in the saturating, plus the chemical composition of the saturating compound that makes Panamoid a wonderful roofing.

DANAMOID ROOFING Panamoid is made of the best felt that can be obtained. It is tough, fibrous, strong. This is uniformly saturated with a non-soluble compound that stays there. Being thick, the felt holds this saturating compound in it. If you want dry roofs at low cost, come in and get some Panamoid Roofing. Very easily installed. Canadian-Panama Mfg. School Gardens

We believe in home gardens; in gardens around or adjoining the home, no matter how humble and our schools that home may be. And what is more, we believe in people who have homes of their own cultivating them to their best ability and resources, and making them produce more and produce better year by year.

But we believe in school gardens as well. We believe in every school, in every country district, as well as in every town, making a garden adjoining or around their school building, cultivating it as well as they can, and looking after it every year. Teachers, as well as trustees and school boards, can get interested and enthusiastic in this good work, and in turn share some of their interest and enthusiasm with the boys and the girls who attend the schools.

We hear a great deal these days on the subject of Back to the Land. That is of getting the younger generation interested in the soil, in its proper cultivation, in producing far more than we do as far as grain, vegetables, flowers, etc., are concerned; and in this way adding to the wealth of the country and providing employment and exercise for many. We have thousands nay millions, acres of idle land, growing nothing but weeds and wild grass. Would it not be better every way to use some of this unused and vacant land for good purpose, namely, in cultivating it and making it produce something that will add to the country's wealth and our own comfort?

One way of doing something in this direction is school gardens. Get the young folk imbued with a love for plants, flowers and vegetables. If there is a garden already around or adjoining your school, get them to work at it and in it; get them to make it produce more and better each year. It will make the school building more attractive outside, besides furnishing a little employment during leisure hours, for restless hands and feet.

Here are some of the advantages of school gardens: 1. They enable boys and girls to remain longer in school. 2. They utilize for productive purposes unused land and labor, and thus contribute to the wealth of the community. 3. They provide experience for boys and girls in an occupation that may be the means of a livelihood. 4. They provide an exercise that utilizes school work. 5. They provide an opportunity for a business experience. 6. They stimulate industry by providing school pupils with wholesome employment, and incidentally save them from the evils attending idleness. 7. They necessitate the clearing up of back yards and vacant lots, thus contributing to the hygienic and aesthetic conditions and enhancing land values.

School gardens will be the means in the end of awakening in the mind of boys and girls a love for the beautiful and attractive, in nature, and in this way making them more active and zealous in working and cultivating the home garden, and making the home more attractive and pleasant.

The School Garden Association of America, in special Convention assembled in the city of Detroit, December 23rd, 1915, unanimously resolved the following:—"Whereas the experiments in School and Home Gardening in the United States and Canada during the past fifteen years, have proved beyond a doubt the fundamental value of bringing children more directly into touch with mother earth;

Whereas, particularly the school garden, supported directly by the boards of education as in many of the large cities in the U. S., have shown the undoubted importance of school gardens when more directly supported.

Therefore, be it resolved that every Board of Education in America be urged to start at least one school garden in connection with home gardening in a public school, which experiment shall be properly supported and maintained throughout the entire year, including the summer vacation."

This resolution was duly seconded, and unanimously approved by the Convention. We would bring this to the notice of school trustees and school boards in every town, village and country district in this land of ours, in the hope that good may come out of it.—New Glasgow Enterprise.

HEAT FLASHES, DIZZY, NERVOUS

Mrs. Wynn Tells How Lydia E. Pinkham's Vegetable Compound Helped Her During Change of Life.

Richmond, Va.—"After taking seven bottles of Lydia E. Pinkham's Vegetable Compound I feel like a new woman. I always had a headache during the Change of Life and was also troubled with other bad feelings common at that time—dizzy spells, nervous feelings and heat flashes. Now I am in better health than I ever was and recommend your remedies to all my friends."—Mrs. LENA WYNN, 2512 E. O Street, Richmond, Va.

While Change of Life is a most critical period of a woman's existence, the annoying symptoms which accompany it may be controlled, and normal health restored by the timely use of Lydia E. Pinkham's Vegetable Compound. Such warning symptoms are a sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude, and dizziness.

For these abnormal conditions do not fail to take Lydia E. Pinkham's Vegetable Compound. One way of doing something in this direction is school gardens. Get the young folk imbued with a love for plants, flowers and vegetables. If there is a garden already around or adjoining your school, get them to work at it and in it; get them to make it produce more and better each year.

WEDNESDAY JULY 5th, 1916  
THE ALLIES' OFFENSIVE

It would appear as though the long expected offensive of the Allies has commenced in real earnest. For some few weeks past it has been apparent that some movement on a large scale was in contemplation on the Western front, so that the public has become more or less prepared for events which are likely to follow. It will be little however to look for any very striking result immediately, for the deadlock which has existed has been most intense and cannot be broken through for offensive action very quickly. The successes which the British forces may expect to gain will not be so much spectacular as permanently advantageous; small gains which can be maintained will be infinitely more beneficial than a brilliant advance which cannot be held.

It has been commonly reported that the Kaiser and his generals have held the men of Kitchener's army in but small esteem declaring that it was impossible to make competent fighters out of civilians. It is probable however that if the German War Staff have not already changed their views on this subject, they will very shortly be compelled to do so, as they see that the new British army is able to stand up against the best that Germany can bring against it. As month after month has gone by, it has seen Kitchener's armies hard at work bearing the practical military game in all its phases, and bearing it so well, that there is now no longer any question as to their efficiency. Kitchener gave the allied cause no greater service than he furnished by refusing to send untrained troops against the enemy in the face of popular restlessness and impatience at Britain's apparent military inactivity.

The Allies are showing a lively eagerness for the combat founded on the conviction which has never failed the men of all ranks, that victory is certain. The fact that it may be dearly bought troubles them not at all. They know it will come, and each man is intent on doing his part. Those who have not yet heeded the call to action, must lose no further time if they wish to take any active part in moulding the glorious history now in the making.

**A TRAITOR'S DESERTS**

The result of the Casement trial indicates what all those who play false to their country may expect, and unless the culprit in this case was to be treated as lacking in ordinary sanity, it was impossible for the jury to come to any other conclusion than they did.

Casement lent himself to Germany as the instrument by which the Kaiser attempted to turn to his own advantage whatever unrest existed in Ireland, as a result of the unfortunate Home Rule difficulties. In the plot against Great Britain fomented in Ireland, he appeared as the personal representative of the Kaiser, as was shown by his conduct when in Germany, and by the fact that he returned to Ireland on a German ship. His conduct while in Germany when he attempted under the Kaiser's auspices to win Irish prisoners of war from their allegiance, was one of the most flagrant exhibitions of treason in the annals of history.

An appeal has been entered on behalf of this quondam "Sir" Roger, but British judges are not influenced by maudlin sympathy; and the life of this degraded individual weighs but small in the scales of justice beside the lives of the hundreds of better men who have been done to death by the blind mischief of which Casement is the most notorious representative.

**AFTER THE WAR**

The Allies Conference on trade matters which met in Paris last week was called upon to discover and decide upon matters of the greatest importance for the commercial future of the entire world.

In the year before the war, according to statistics recently published in the German press, Germany sold £167,000,000 worth of goods to various parts of the British Empire, or a round third of her total exports. The armies and fleet with which Germany has for the last 22 months been trying to "hack her way through" were built from the profits which Britain allowed her to reap in our open markets.

It is the imperative duty of the Paris conference to come to such de-

**"Peppina" Causes Riot at Theatre**

Police Called to Handle Crowds When Mary Pickford Appears in Famous Players-Paramount Picture

Reserves from two police precincts were called to handle the crowds which stormed the Broadway Theatre, New York, in their efforts to see Mary Pickford in the longest picture in which she has ever starred, "Poor Little Peppina," and in which she is being presented by the Famous Players Film Company.

Never in the history of the Broadway Theatre, since its conversion into a motion picture house by Paramount, has any film approached the record made by "Peppina," according to Manager Langford. The former record for the house was held by Geraldine Farrar in "Temptation" but on the opening day, Sunday, February 20, the record established by the prima donna was decisively eclipsed by Mary Pickford and the same held true for Monday.

On Tuesday and Wednesday the mob which stormed the theatre in ever increasing numbers made it necessary for Manager Langford to call for the assistance of the police. One hour after the first contingent of reserves had arrived on Tuesday in response to the management's appeal, another squad was dispatched to their assistance as they were unable to cope with the situation.

Adolph Zukor, President of the Famous Players Film Company, was well pleased with the showing which the picture has made, but was not the least surprised.

"Though we were all firmly convinced that 'Peppina' was the greatest thing Miss Pickford has ever done on the screen," he said, "we carefully avoided making any claims for the production in our advance announcements because our opinion would naturally be discounted as mere 'press stuff.' Accordingly we

announced 'Peppina' simply as the longest feature in which Miss Pickford has ever appeared, and her first Italian characterization. We left it for the critics to call it her greatest triumph, and they have been unanimous in so doing.

"Poor Little Peppina" is the biggest and most thrilling original story in which Miss Pickford has ever been seen on the screen. Opening in Italy, the scene of action changes to Sicily and then, when the kidnapped American girl makes her escape as a stow-away, dressed as a boy, New York supplies the setting for the rest of the action. Here the little runaway, still preserving her disguise, becomes a "newsie," a bootblack, a fruit vendor and a messenger boy. But her adventures narrowly escape coming to a very sudden end when she becomes employed in an opium den in which she again encounters the man who had stolen her several years before.

Escaping from the den, she later succeeds in preventing the man, Soldo, from murdering the one man whose kindness to her has won her devotion. Though she herself is nearly killed in the effort to save her friend, she is successful and her heroism is the means of restoring her to her real parents.

Ever since she could remember, Lois, which is her real name, has offered a little prayer when she retired. After she was stolen by the Italian, she was reared as a Sicilian and forgot her native tongue. When she is injured, she mutters the forgotten prayer in her delirium, which is the ultimate means of her identification.

This production will be shown at the Happy Hour Friday, Price 10 and 15 cents.

Mr. Hutchison's gift was an example of the humanitarian tendencies of modern religion. When people heard of the unknown donor of such an institution as a hospital, most of them knew at once that it was Mr. Hutchison. If it had been a sectarian or class affair, it might have been harder to locate the giver, but as the donor of such a humanitarian institution Mr. Hutchison was the most likely man, and the Chatham World had been bold enough to at once venture its opinion that Mr. Hutchison was the man. The hospital was expected to be a home for both rich and poor. But there would be too many people who would look on the hospital as a charitable institution. These must be undecided. Every patient that can pay should pay. Where the poor are treated for nothing the rich are expected to pay more than cost. He himself had been treated at a first class hospital, and when settling with the surgeon the latter asked him if he were a member of the N. B. Legislature. When he said yes, then he was asked on what side he was, Government or opposition. When he said opposition, "Oh, well," said the surgeon; "my fee will be \$100; if you had said Government, it would have been \$1000. The Royal Victoria's charge for patients from outside Montreal

is \$1.50 a day, one week's pay in advance.

The world should be thankful for young lady nurses. There was something in their training that brought out the angelic side of their character. He hoped few would have to go into the hospital, but those that had to would have cause to be thankful for such an institution.

Mr. Park thanked the speakers. He announced that the hospital would be open for visitors each Wednesday afternoon from 3 to 5. Also that Messrs. A. J. Ferguson, E. A. McCurdy and himself were a finance committee to solicit subscriptions, which he hoped would be liberally forthcoming for the upkeep of the magnificent gift Mr. Hutchison has made. After the National Anthem by the audience led by the band, which had rendered several pieces of excellent music, during the afternoon, the crowd dismissed with hearty cheers for His Majesty the King.

Nurse Accepts Position  
Miss Alice Norwood, of Gagetown, who graduated from Victoria Hospital a few months ago, has joined the staff of the Miramichi Hospital. Miss Norwood is to be in charge of the operating room at this institution.

R. A. N. Jarvis spent the holiday with relatives in Fredericton.

**Miramich Hospital Formally Opened**

(Continued from page 1)

This is a day unprecedented in the history of the Miramichi by any event of equal importance to our people. With the progress of the world there comes to us new necessities. In our time, much is being done to educate us in the care of our bodies and in providing for the care of the sick. We are bound together in undeniable bonds of dependence and obligation from the cradle to the grave—no man can live wholly unto himself—and he who searches out something that can be of use to all mankind or will help to relieve suffering is truly a public benefactor. I know the giver of this magnificent gift, Mr. Hutchison, has little relish for personal praise. I also know the people, for whom I have the privilege of speaking on this occasion, are fully aware of the nobility of mind and generosity of his personal supervision, and which moved him to give to his native country this hospital—erected, furnished, equipped, and paid for, under his personal supervision, an edifice for which he this day dedicates to the relief of the sufferings of the afflicted.

We are proud of the fact that a son of our own homeland, who has mingled with us throughout the years of his active and useful life, who knows our faults and our frailties, our short-comings and our abilities, and has measured them with his world-wide experience, this day, quietly, unostentatiously, and with good will toward all, presents to us a gift, so great and far-reaching, in mercy, goodness and charity, that words fail to adequately express our appreciation. This hospital shall always remind us of our esteemed benefactor. It will stand as a monument, whose inscription will be carried in the hearts of a grateful people, in remembrance of his fellow feeling for his fellow man. From this day there lies before us a new responsibility. It is yours, it is mine, it is ours, to see that this hospital service shall not be hampered for want of support. Its doors are wide open—all here are equal, and we should give to it our kindly feeling and substantial support and in this way, more than any other that one can conceive, will we help our suffering fellow-creature, and I am sure the donor will be gratified to see that we have been worthy of his benefaction.

J. L. Stewart, M. L. A.  
The last speaker was Ald. J. L. Stewart, M. L. A., who spoke in the absence of Mayor Stacey of Chatham, who was unable to be present. Mr. Stewart assured his audience that the town of Chatham joined most heartily in congratulating Newcastle on this happy event. They had had for years a good hospital in Chatham, and so were fully able to appreciate the benefit that a hospital would be to Newcastle. Now the latter would be able to realize also the great benefits a hospital confers.

## In The Year 1600 He Predicted This Great War

A Monk Gave Dates and Description of the Terrible Struggle Now in Progress. --- Most Remarkable Prophecies That Appear to Be in Course of Fulfillment in a Very Astonishing Manner

(Translated from the French by Ex-Malo)

A writer in the French magazine "Lectures pour tous" has published a number of prophecies relating to the war, dating back to 900 years ago, some of which are most remarkable and appear to be in course of fulfillment in a very astonishing manner.

It is the case that most of the great events in history have been announced long, often centuries, in advance, with more or less exactitude by persons gifted with the apparent power of looking into the future. As Campbell expressed it, "Coming events cast their shadow before them." It will be interesting to summarize a few of the most striking of these predictions.

The true Antichrist—Dating back to A. D. 1600, in Latin, a monk, the brother Johannes, the author, we read:

"1. The true Antichrist will be one of the monarchs of his time, a son of Luther; he will call on God and give himself out to be his envoy.

"2. He will have only one arm, but his armies will be innumerable, and will have for their device 'God With Us,' the like unto the legions of hell.

"3. For a long time he will act through intrigue, treachery and robbery; his spies will spread all over the world, and he will be master of the secrets of the powerful.

"4. He will have learned men in his pay, who will certify and prove that his mission is holy.

"5. One will recognize the Antichrist by many characteristics; he will massacre everywhere priests, monks, women, children and old men. He will have no mercy; he will pass with a torch in his hand like the Barbarians, but invoking the name of Christ.

"6. His words of deceit will resemble those of the Christians but his acts will be those of Nero and of the Roman persecutors; there will be an eagle in his armorial bearings, and there will be one also in that of his disciple, the other evil monarch.

"7. Though he is a Christian he will die under the curse of the Pope Benedictus, who will be elected at the beginning of the reign of Antichrist." (The present pope was elected at the beginning of the war, the 3rd of September.)

"8. One will no longer see priests or monks confess and absolve the fighters, because for the first time, priests and monks will be fighting with their other citizens.

"9. To conquer the Antichrist, the combined effort of all the kingdoms will be necessary, for the cock, the leopard and the white eagle will not get to the end of the black eagle unless the prayers and vows of the entire human race come to their aid." (The cock symbolizes France, the leopard England, and the white eagle Russia.)

"10. The Army of the Antichrist will surpass all imagination in numbers; it will have Christians, among its cohorts. There will be Mohammedans and savage races among the defenders of the Lamb."

(In our ranks are fighting all the races of Africa and India.)

"11. When the Beast sees that he is lost he will become furious; it is necessary that during month the beak of the white eagle, the spur of the cock, and the claws of the leopard tear him to pieces."

"12. One can well see that the fight which will take place where the Antichrist forges his arms will not be of human beings alone. The three animal defenders of the Lamb will there utterly destroy the last army of the Antichrist."

Westphalia and Essen are indicated in both this prophecy and the following one as the scene of the final battle which decides the overthrow of German power. Thus, in 1854, the following prophecy was discovered in the archives of a monastery at Mayence as regards the place of combat and leadership of the armies of France. It says:

"He will pursue the enemy of France marching from victory to victory, until the day of divine justice. That day he will command seven different winds of soldiers against the war, dating back to 900 years ago, some of which are most remarkable and appear to be in course of fulfillment in a very astonishing manner.

(These three towns are in Westphalia, the allies are seven in number, and their enemies were three for long.)

In the end the leader of the French will win the victory, two of his enemies will be utterly destroyed, those left of the third will fly towards the extreme east.

A curious prediction, dated 1700, found among the Archives of Canterbury is worth noting. It says:

"When carriages travel along the roads without horses. When one can speak from one end of the world to the other. In the year 1914, May will talk of war; June will declare it; July will declare it; August will see tears in the eyes of wives and mothers."

It was in May that the interview between William II, and the Archduke, heir to the throne of Austria, took place; in June the assassination of Serajevo; in July, the German mobilization.

## A Cause of Indigestion

People Who Complain of This Trouble Usually Are Thin Blooded

Thin blooded people usually have stomach trouble. They seldom recognize the fact that thin blood is the cause of the trouble, but it is. In fact, thin, impure blood is the most common cause of stomach trouble; it affects the digestion very quickly. The glands that furnish the digestive fluid are diminished in their activity; the stomach muscles are weakened, and there is a loss of nerve force. In this state of health, nothing will more quickly restore the appetite, the digestion and normal nutrition than good, rich, red blood. Dr. Williams' Pink Pills act directly on the blood, making it rich and red, and this enriched blood strengthens weak nerves, stimulates tired muscles and awakens the normal activity of the glands that supply the digestive fluids. The first sign of improving health is an improved appetite, and soon the effect of these blood-making pills is evident throughout the system. You find that what you eat does not distress you, and that you are strong and vigorous instead of irritable and listless. This is proved by the case of Mrs. J. Harris, Gerard St., Toronto, who says: "About three years ago I was seized with a severe attack of indigestion and vomiting. My food seemed to turn sour as soon as I ate it, and I would turn so deathly sick that sometimes I would fall on the floor after vomiting. I tried a lot of home remedies, but they did not help me. Then I went to a doctor who gave me some powders, but they seemed actually to make me worse instead of better. This went on for nearly two months and by that time my stomach was in such a weak state that I could not keep down a drink of water, and I was wasted to a skeleton and felt that life was not worth living. It was not married at this time and one Sunday evening on the way to church with my intended husband I was taken with a bad spell on the street. He took me to a drug store where the clerk fixed up something to take, and my intended got me a box of Dr. Williams' Pink Pills. By the end of the first week I could feel some improvement from the use of the Pills, and I gladly continued taking them until every symptom of the trouble was gone, and I was again enjoying the best of health. These Pills are now my standby and I tell all my friends what they did for me."

You can get Dr. Williams' Pink Pills from any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## N. B. Trade Has Been Brisk

St. John exported last year \$120,040,590 worth of goods (\$20,000,000 more than Boston). Halifax exported in the same period \$26,843,487; balance in favor of St. John, \$93,199,103. The figures for the different Maritime Province ports are as follows:

New Brunswick imports for the fiscal year ending March, 1916, reached a total valuation of \$14,852,932. St. John imported \$11,165,463 worth; St. Stephen, \$50,422; Moncton, \$813,046; Fredericton, \$96,373; Woodstock, \$432,279; Bathurst, \$272,064; St. Andrews, \$200,739; Chatham, \$144,295; Sackville, \$89,930; McAdam Junction, \$87,559; Campbellton, \$59,712; Newcastle, \$32,259; Dalhousie, \$8,891.

New Brunswick ports exported during the year \$131,241,957 worth of domestic and foreign goods. St. John led with \$120,042,590; McAdam Junction, \$5,388,754; Campbellton, \$1,128,894; Newcastle, \$1,121,072; Chatham, \$537,146; Moncton, \$651,440; Woodstock, \$612,274; Dalhousie, \$464,061; Bathurst, \$357,727; St. Stephen, \$337,168; St. Andrews, \$185,073; Sackville, \$15,348.

Nova Scotia imported \$18,516,375 worth of goods in the year, of which \$9,863,799 went to Halifax, New Glasgow came next with \$2,176,252, and Sydney followed with \$1,963,829. Nova Scotia's exports for the twelve months reached \$46,831,013. The port of Halifax exported \$36,843,487; Sydney \$7,266,782; Pictou, \$4,988,744; Yarmouth, \$2,412,796; North Sydney, \$7,942,890.

Admiral Jellicoe was the champion winner of the service when he was a midshipman.

Some of the friends of the Maple Glen congregation, presented the retiring pastor, Rev. Dr. Harrison, with a very useful and seasonable gift which he gratefully acknowledged through the columns of the Advocate.

**Appointed Curate at Cathedral**  
Rev. Alban F. Bate, son of Rev. J. Bate, Rector of Newcastle, as present curate in charge of Ludlow and Blissett, has been appointed curate at Christ Church Cathedral, Fredericton, succeeding Rev. H. E. Bennett, who goes to Cambridge and Waterborough parish.

**Arrived Safely**  
Mrs. J. Quinn received a cablegram yesterday from her nephew, Lance Corporal R. H. Morrissey of the St. Francis Xavier Hospital Unit, which stated from Halifax recently, stating that they had arrived safely at Folkestone, England.

**Ernest Ahearn Dead**  
The death of Ernest Ahearn, a young and popular barber of Chatham, occurred in the Hotel Dieu hospital in this town yesterday afternoon about three o'clock. The deceased young man has been undergoing treatment there for the past six weeks, but news of his death came as a surprise to Newcastle friends. During the summer he was one of the staff at O'Brien's shop here and was considered good at his trade. He was 33 years of age.

**Taking Normal Exams.**  
The following students are standing the Normal School Entrance Examinations at Doaktown this week: Annie L. Murray, Zillah M. Betts, Beulah Hannan, Edith M. Mitchell and Annie L. Turner, Doaktown; Edward Beaton, Gladys L. Crawford, Matilda E. Hawes, Iva M. McCrae and Lorna E. Walls, Blackville; Geo. A. Hovey, Ludlow; Annie J. Densmore, Napanogan; Pearl Mersereau, Lillian Morehouse and Ida G. Sutherland, Blissett, and Estella J. Spencer, Boiestown.

**W. C. T. U. Reading Room**  
The W. C. T. U. Reading Room was opened Thursday 29th at 7.30. The weather was very stormy, but it was considered a good omen as that was thought more men would take advantage of the bright cosy rooms of Mitchell Hall and the interesting reading matter to be found there. But such was not the case. Still the move seemed such a good one, in the eyes of those who did come that the committee feel encouraged to persevere in their efforts to establish a permanent place of rest and recreation for those who feel a desire for the same. Strangers will be made very welcome.

**Next Friday the hall will again be open for reading, writing, music etc., but no more lunches will be served, until justified by the attendance.**  
The small fee of five cents is asked for the privileges granted. Some one will always be in attendance at times stated rain, or shine. Also on rainy afternoons the hall may be open.

The committee would feel very grateful for donations of books from any one interested in the work, the same may be left in care of Mrs. Leard who will number them and acknowledge receipt.

### A Complaint from North Esk

Newcastle, 3rd July, 1916  
To the editor of the Union Advocate, Newcastle

Dear Sir,  
Good roads are a blessing, but a greater blessing is to have good officials to see that the money of the hard working ratepayers is properly expended. We have been told by many writers that the greatest invention for smoothing roads and keeping them in repair is the split rail drag, and we who have seen it work and the after effects must praise the invention and the inventor; but it has fallen to the lot of the Supervisor of roads for the Parish of North Esk to improve on that invention by adding to it a handle by means of which he is able to put into his own pocket three dollars a day, or thereabouts, of the ratepayers' money by holding the handle of his new toy.

Rather than applying his mighty brain in trying to improve on the split rail drag, would it not be in the interest of the ratepayers and their roads if he would make an official trip over the road from the Mill Stream to Wayerton and then, when he has done so, devote his surplus time and energy in repairing such road, widen the same (if it be narrowed any more men with wheel barrows will not be able to pass on it) fill in the holes and divert the water from the road bed to the ditches or, if no ditches, to the side so that his friends and the general public would be able to utilize the short road to Newcastle and not be compelled to drive all round the river. I have suggested to his friends that if they wait long enough on the Supervisor they may be able yet before the summer is gone to drive their automobiles on the Chaplin Island road.

Yours truly,

RATEPAYER.

## Sir Max Aitken Gives Fine Proof of Loyalty

### Canadian "Eye-Witness" at Front Doing a Splendid Work and Positively Refuses to Accept Remuneration

Ottawa, July 3.—Sir Max Aitken, eye-witness for the Canadian forces in Flanders, has forwarded to the government a statement of the cost of this service to April of this year. Sir Max in his review of the work states that total expense for seven months was \$2,400 and of this over \$1,000 was spent in cables and postage. Regarding his own remuneration he writes: "I have drawn no pay and no personal expenses and I will persist in this decision throughout."

Visits of two groups of newspaper men to the front were practically financed by Sir Max Aitken personally and did not cost the government anything.

The duty of the "eye-witness" is to furnish to the Canadian press a weekly communique and to compile and publish an official record of the work of the Canadians in Flanders. Already one volume of this, "Canada in Flanders," has appeared. On this volume Sir Max Aitken expended of his own money \$8,000. The sale has been phenomenal and profits amounting to \$2,500 have been given to Lady Drummond for the Maple Leaf Club. The work has also been translated into French at the personal expense of Sir Max. Of the Canadian non-commissioned officers and men employed at the front in gathering and compiling war records eight have been wounded and six invalided through sickness.

Messrs. Willis Nicholson and Charles Rao went to Moncton on Sunday Limited, and returned last night.
