

PEOPLE ENDORSE ATTITUDE OF TAFT

MESSAGES RECEIVED BY PRESIDENT ON TARIFF AGREEMENT FAVOR IT

Washington, Jan. 31.—President Taft refused to discuss an extra session in connection with the reciprocity agreement with Canada, which he has recommended.

Although it has been the custom of the police to clear London of anarchists upon the eve of a public function, which takes the royal family in public, the police have been doubled by the discovery of the coronation plot and the boldness of the band whose leaders thought their death in the battle of Sidney street against an army of police and soldiers.

While a few messages have reached the President criticizing the proposed reciprocity, these have been far in the minority. The President called Taft also that he would have the backing of many influential associations throughout the country.

Toronto Refuses to Protest. Toronto, Jan. 31.—Controller Church, this morning endeavored to secure the approval of the board of control to a motion protesting against the proposed reciprocity treaty between Canada and the United States and calling on the mayor to convene a protest meeting in Market Hall.

What F. W. Peters Says. Vancouver, Jan. 31.—"I am not convinced that the benefits will counterbalance the injuries which will befall us if the normal progress and development of Western Canada," said F. W. Peters, assistant to Wm. Whyte, vice president of the Canadian Pacific Railway, in discussing the features of the proposed reciprocity agreement between Canada and the United States.

Will Bring French Money. New York, Jan. 31.—The Journal of Commerce says: "Closer relations between Canada and the United States will help the Dominion's invasion of the French money market for reciprocity will mean not only freer, but fuller trade between the two countries to the advantage of the Canadian industry. Obviously the railways stand to participate materially in the benefits that would follow the lowering of the tariff bars."

Gilbert Parker's Opinion. London, Jan. 31.—The reciprocity agreement continues to excite keen interest. Sir Gilbert Parker, the Canadian member of parliament for the following in a statement said: "The agreement is a desperately serious thing, and will eventually mean that the Canadians have lost their grip on their own importance. Canada's fight for two generations against American commercial treaties is a source of her progress and wealth. It gave her energy, resourcefulness and determination under this agreement, the United States needs a new field of exploitation for American finance, new opportunities for the overflow of American energy and control of the great Dominion."

BOYS MADE BIG HAUL. Investigation by Police Showed That They Had Secured Much Booty. Port Arthur, Jan. 31.—Called to investigate a case of supposed destruction of two boys occupying a shack on the outskirts of the city, the police found them to be in possession of a large quantity of miscellaneous goods stolen from various merchants of the city. They pleaded guilty before Magistrate Doble.

Net Profits of Over Half Million Showing Made by Traders. The Traders Bank of Canada have reason to congratulate themselves on the excellent showing made by them during the past year. The bank has net profits of \$525,351, which on a capital of \$4,554,500, must be considered as very satisfactory.

Large Rest Account Amounting to \$2,000,000. In addition to the particularly strong in specie, Dominion notes and other quickly available assets, these totaling almost \$2,000,000. The total assets of the bank are \$7,112,000. The bank has a reserve fund of \$1,000,000, and a surplus of \$1,000,000. The bank's business the bank not only paid its regular dividends but also transferred \$100,000 to a rest account, which was used for the purchase of bank furniture, transferred \$100,000 to a rest account, which was used for the purchase of bank furniture, transferred \$100,000 to a rest account, which was used for the purchase of bank furniture.

PLOT TO KILL KING AND QUEEN FEB. 7TH

The Anarchists Planned to Take Advantage of the Opening of Parliament in London on Tuesday

London, Jan. 30.—Scotland Yard has begun a great round-up of international anarchists preparatory to the opening of parliament on February 6, when King George and Queen Mary, accompanied by the Prince of Wales and many high officials of the realm, will drive in royal pomp from Buckingham palace to parliament buildings. Today at least a score of men are under arrest having been secretly taken into custody by government police.

Although it has been the custom of the police to clear London of anarchists upon the eve of a public function, which takes the royal family in public, the police have been doubled by the discovery of the coronation plot and the boldness of the band whose leaders thought their death in the battle of Sidney street against an army of police and soldiers.

Secret service agents of Russia, France, Germany and Italy are in England to assist in the campaign against lawless characters. The majority of the suspects are being arrested on temporary charges as they are known in police circles. Such accusations as suspected robbery and vagrancy are brought against them and they are held until a convenient time after the coronation event. The men who are being arrested are "held" for investigation, although this is only a phrase, for no investigation is made.

A sentence was passed yesterday by a court that a new plot had been discovered against the lives of the King and Queen and that anarchists had been planning to explode a bomb on the sixth of next month, when the royal procession passes through the city.

All attempts today at verification were futile. However, despite the inability of the newspapers to learn the details of the conspiracy, the report of it came from an authentic source. Extraordinary precautions are being made to guard the entire procession. Solid ranks of police and soldiers will march and secret service police will mingle with the crowds.

POPULAR APPROVAL TO TRADE AGREEMENT

Would Be Effective At Once If Left To The Public, Says United States Paper

Chicago, Jan. 30.—On reciprocity with Canada the Herald-Herald today says: "Already certain members of congress, including the representatives, are in arms against a reciprocity agreement with Canada. Already certain industry interests in the United States are declaring opposition to it. No doubt, this is not wholly unexpected. Reciprocity has always been honored in the breach rather than in observance by many professed, eloquent friends of the abstract proposition. Yet the situation is really grave and critical. This agreement with Canada is fundamentally unlike any other reciprocity treaty of Canada. It is emphatically a trade treaty. If it falls further talk of reciprocity will be farcical and hypocritical. If it falls many so-called revisionists will write themselves down 'Pickenstickers' or 'Pickenstickers'."

"There is now an honest test of protection in a statement said: 'The agreement is a desperately serious thing, and will eventually mean that the Canadians have lost their grip on their own importance. Canada's fight for two generations against American commercial treaties is a source of her progress and wealth. It gave her energy, resourcefulness and determination under this agreement, the United States needs a new field of exploitation for American finance, new opportunities for the overflow of American energy and control of the great Dominion.'"

The Tribune says: "If the real interests of the American people and the wishes of the majority of them considered, the reciprocity legislation to make effective the agreement with Canada, which the President has transmitted to it, would be enacted in a few days."

New York, Jan. 30.—The Herald has received the following dispatch from its Washington correspondent: "On Canadian reciprocity, the senate stands about year 42, nearly 48. This is shown by a hasty canvass made by the Herald reporters. It cannot pass at this session unless sentiment strongly develops among Republican members or unless it sets the solid Democratic vote."

"Apparently it is opposed by 23 Democrats, which shows the smashing of party lines that has followed the publication of the agreement. The present plan is to dole out a vote during the present session and hold the measure in the senate committee on finance. Thus, the attitude of the members of the finance committee becomes of prime importance. The committee is supposed to stand as follows:—Against agreement—Kulke, Rep., Mich.; Boies Throsser, Rep., Pa.; Eugene Hale, Rep., Me.; Henry Cabot Lodge, Rep., Mass.; Porter J. McCumber, Rep., N.D.; Reed Smoot, Rep., Utah; Frank P. Flint, Rep., Cal.; Jos. W. Bailey, Dem., Texas."

In favor of agreement—Merrardo D. Moore, Dem., Miss.; Jas. Tallafra, Dem., Florida; H. Simmons, Dem., N.C.; Wm J. Stone, Dem., Mo.; Abent, Ditch, Dem., R.I.

In favor of agreement—Merrardo D. Moore, Dem., Miss.; Jas. Tallafra, Dem., Florida; H. Simmons, Dem., N.C.; Wm J. Stone, Dem., Mo.; Abent, Ditch, Dem., R.I.

In favor of agreement—Merrardo D. Moore, Dem., Miss.; Jas. Tallafra, Dem., Florida; H. Simmons, Dem., N.C.; Wm J. Stone, Dem., Mo.; Abent, Ditch, Dem., R.I.

THE TRADERS BANK OF CANADA

Proceedings of The Twenty-Sixth Annual General Meeting

The twenty-sixth Annual Meeting was held on Tuesday, the 24th of January, 1911.

The following Directors and others were present, namely:—A. H. Brown, Wm. Stewart, E. Galley, Edwin J. Thorpe, Jas. Linton, Rev. Wm. Cooper, N. E. Soule, Andrew Semple, Geo. Le Riche, Rev. J. S. Williamson, S. Elliot Mills, Jas. Burnside, James L. Lovering, M. Garvin, J. K. Niven, Jas. Anthony, A. M. Scott, Dr. Carrigue, T. Dickinson, James J. A. Halhaus, L. Bauer, H. L. Playner, R. L. McIntyre, T. J. S. Skinner, Harry G. Horton, G. T. Bastedo, Dr. Jas. Wallace, Geo. Waton, C. D. McLeod, Dr. J. P. Overholt, Jos. E. Ballie, Gordon Grant, F. A. Yale, F. J. Winton, A. G. Knowles, E. C. Jackson, E. E. Newman, A. B. Ord, R. H. Harvey, J. A. Laird, W. G. G. Turnbull, Geo. Blair, E. W. Bain, H. S. Strathy, C. D. Warren, J. P. Johnston, K. C. C. Kiosper, W. J. Sheppard, Misses Eand L. Hedges, George F. Hedges, Mrs. G. F. Hedges.

The President, Mr. C. D. Warren, took the chair, and appointed the General Manager to act as Secretary of the meeting.

On motion Messrs. George Le Riche and Edward Galley were appointed scrutineers. The General Manager then read the following Statement: Statement of the result of the business of the Bank for the twelve months ending 31st December, 1910.

The net profits for the twelve months after making provision for bad and doubtful debts, and reserving accrued interest, amounted to \$ 324,531 30 Balance at credit of Profit and Loss last year 102,448 40

Appropriated as follows, viz:—Dividend No. 56, quarterly, at the rate of 8 per cent per annum for the quarter ending 31st December, 1910, 87,000 00 Dividend No. 57, quarterly, at the rate of 8 per cent per annum for the quarter ending 31st December, 1910, 87,000 00 Dividend No. 58, quarterly, at the rate of 8 per cent per annum for the quarter ending 31st December, 1910, 87,000 00 Dividend No. 59, quarterly, at the rate of 8 per cent per annum for the quarter ending 31st December, 1910, 87,000 00

GENERAL STATEMENT, 31ST DECEMBER, 1910. ASSETS. Gold and silver coin current, 150 57 Dominion Government Demand Notes, 2,815,353 00 \$ 4,331,103 57

Notes of and checks on other Banks, 2,020,936 82 Balance due from other Banks, 20,070 56 Balance due from Provincial Government Securities, 561,569 27 Dominion and Provincial Government Securities, 561,569 27

LIABILITIES. Capital Stock paid up, 4,554,500 00 Reserve Fund, 2,300,000 00 Dividend No. 59, payable 24th January, 87,000 00 Former Dividends unpaid, 802 58 Interest accrued but not received, 1,000,137 18

STUART STRATHY, General Manager. Our Shareholders are constantly increasing, and now number 1,812. It is not needful for me to refer to the wonderful progress the country at large is making. This progress is manifest to all. Suffice it to say our Branches extend fairly well throughout the Dominion, and we are in a position to take advantage of the growth of the country, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the increase in the value of our assets, and the increase in the value of our liabilities, and the increase in the value of our capital, and the increase in the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our interest, and the increase in the value of our income, and the the value of our reserves, and the increase in the value of our profits, and the increase in the value of our dividends, and the increase in the value of our

FREE MARKET FOR WESTERN FARMERS

Winnipeg, Jan. 27.—Speaking as a whole, the Canadian Middle West is immensely pleased with the reciprocity agreement in that it provides a free market for the products of the prairie farmer south of the international border. It is recognized that to some extent trade avenues will be diverted north and south instead of east and west, and that American railroads and American millers will benefit from the increased population and increased production of wheat and beef...

C.P.R. Feels Result. There are a number of considerable number of dissidents from the chorus of approval. Prominent among these are the lumber and fruit industries of British Columbia, which see their profitable prairie market threatened by American competition...

Mr. J. E. Overholt. Mr. J. E. Overholt, vice-president of the C.P.R., is inclined to take a pessimistic view, and this is reflected at the head of the lakes, where a considerable diversion of traffic is feared from the all-Canadian lake and rail route...

Mr. J. E. Overholt. Mr. J. E. Overholt, vice-president of the C.P.R., is inclined to take a pessimistic view, and this is reflected at the head of the lakes, where a considerable diversion of traffic is feared from the all-Canadian lake and rail route...

Mr. J. E. Overholt. Mr. J. E. Overholt, vice-president of the C.P.R., is inclined to take a pessimistic view, and this is reflected at the head of the lakes, where a considerable diversion of traffic is feared from the all-Canadian lake and rail route...

but those who can be seen to get an opinion on the reciprocity treaty are all very much in favor of it. Millers and farmers are especially pleased, although one mill man points out that part of the gain will be offset by the loss of British Columbia trade in food wheat, which can be bought cheaper from Washington and Oregon...

Will Meet Opposition. That the agreement will meet with much bitter opposition from Republicans and probably in the border states and Canada is a fact which is already apparent. In the Senate the Progressives are quite generally opposed to the agreement...

President Taft Will Make a Strong Fight. Washington, Jan. 27.—Shags began to look up the pathway of the Canadian reciprocity agreement today before it has been out of the hands of the commissioners twenty-four hours...

Reduce High Cost of Living. President Taft believes the mutual benefits of the proposed trade agreement will be in a position to carry all Canadian goods to the United States...

Good Chance of Success. The overturning of the Republican majority in the House of Representatives will be made in the complexion of the Senate after March 3rd, is thought by some to apply to the President with more than an even chance of success...

Democracy Will Support It. Seven Democrats on the committee are believed to be in sympathy with the agreement and it is certain that four Republicans will vote to report it. This makes a clear majority of 18...

with a majority vote of both Houses (officially commenting upon the reciprocity proposals). It is doubtful if anything can be done prior to March 4th. Business in Congress especially in the Senate will be so congested that state as to make a filibuster possible...

Great Boon to Canada. Winnipeg, Jan. 27.—The Tribune says: "While profound disappointment may be experienced in the fact that so little has been done in regard to the agricultural implement duties, there will be universal satisfaction over the binding nature of the deal which provides for the removal of duties entirely from food-stuffs, including wheat. It is one of the great boons the country has been...

Tariff Reformers See Absorption of Canada. London, Jan. 27.—The scope of the reciprocity agreement between the United States and Canada came as a surprise to the British public. No one had expected so many changes to the free list or such tariff reductions as the details of the proposed measure reveal...

Canadian Newspaper Opinion on Agreement. Ottawa, Jan. 27.—The Ottawa Morning Citizen, Conservative, does not make any comment on the tariff agreement, editorially, but the parliamentary correspondent says that Mr. Fielding's explanation reveals an agreement on the part of Canada to make certain concessions and on the part of the United States to recommend concessions to the consideration of Congress...

Some Extremist Talk. Toronto, Jan. 27.—A special to the Telegram from Washington this afternoon says: "The reciprocity agreement goes into effect, it seems impossible that we can hope for preference in the British markets, as under its terms, American natural products would find no outlet in the Canadian port in order to secure the benefit of the British preferential duties."

Mr. Fielding's Advice and Take GIN PILLS. "I think GIN PILLS are the first thing for the kidneys. When first I felt the pain in my back, that made me quite ill. A friend gave me six of your GIN PILLS and after I had taken a box and before half of it was gone, I had lost all the backache. It did seem to get rid of the pain. I always keep a box of GIN PILLS in the house and if I feel the pain coming back, I take about half a dozen pills and 2 is gone. If any one tells me, what a pain they have in their back, I say 'Go and buy GIN PILLS.'"

Paying store accounts periodically by cheque is safer than paying cash for each purchase. Handling cash is always attended with a certain amount of risk. The use of cheques avoids this and besides puts your home accounts on a business basis. Open a checking account at THE TRADERS BANK OF CANADA. EDMONTON, ALTA.

THE TRADERS BANK OF CANADA. EDMONTON, ALTA. Branches throughout the Dominion. Capital and Surplus \$1,500,000.

It is What We Have Been Showing For They Say. Ottawa, Jan. 27.—Martin Burrell, Conservative of British Columbia, said: "It is the cruellest and most unjustifiable blow to the fruit industry of British Columbia and to the whole of Canada, that ever was struck. For the fruit industry of British Columbia, which is at the development stage, the agreement constitutes a disaster of the first order. It is an equivalent to the pulpwood question, I think steps should be taken to prevent the sale of pulpwood by private individuals. Why about 85 per cent of the pulpwood purchased by Americans comes from private lands and only 10 per cent of crown lands. The removal of the duty on rough sawn lumber will stimulate the industry. The removal of the duty on rough sawn lumber will stimulate the industry. The removal of the duty on rough sawn lumber will stimulate the industry."

HOW CINCINNATI VIEWS RECIPROCITY. This cartoon is the work of a Canadian artist, Mr. H. W. Wandland, of Woodstock, Ont., in the Cincinnati Commercial Tribune. The same paper says editorially: "In ties of blood, in mutual ideals, and in industrial interests, the two nations are much nearer together than one would infer from the operations of the tariff and the northern boundary. Closer business relations and increased trade are bound to result from the understanding which has been reached, and there can be no doubt that the people of both countries will be benefited."

MASSEY-HARRIS CO'S MANAGER VIEWS THE PACT WITH ALARM

Declares That Reduction of Duty on Farm Implements Will Have Effect of Diverting Trade to Chicago—Says This is Particularly True of Trade in Plows and Seed Drills—Is Not So Greatly Alarmed Over Reduction on Builders and Motors.

Toronto, Jan. 30.—Mr. Findlay, assistant general manager of the Massey-Harris Manufacturing Company, which employs some thousands of hands, when asked what effect the change would have on the business of his company, made the following statement: "Off-hand, I can say it is a very serious matter for implement manufacturers. We have been made the scapegoat as usual."

"The reduction of 2 to 5 per cent on binders and mowers will not be so far-reaching a matter as the 5 per cent on plows and seed drills and machinery of this class. Mowers and binders are made in the United States by one company only, with a branch in Canada. The new arrangement means that a vast amount of western business that has been coming to eastern Canada will be diverted and transferred to Chicago. At 15 per cent, when the matter of freight rates is considered, Chicago has an advantage over eastern Canada. Prices in eastern Canada are already so low that no reciprocal arrangement of the present kind could benefit the farmer."

"I would expect that one large manufacturing house with a branch here will do the greater part of its manufacturing for Canada in Chicago, under this arrangement. The reductions rendered by the United States government on implements are absolutely no value in Canada. While our reduction in this line is a very valuable matter for manufacturers of implements in the United States."

"You mean to say in effect, Mr. Findlay, that the whole of the east is being taxed to build railways and Canada? While our reduction in this line is a very valuable matter for manufacturers of implements in the United States."

"The British Columbia Lumber and Shingle Association is to hold a meeting today when the situation will be discussed. John Hendrick, president of the British Columbia Lumber and Shingle Association, will leave for Ottawa on Tuesday, and while at the leading lumbermen there with respect to the agreement."

M'CURDY FLEW TO WITHIN TEN MILES OF HAVANA CUBA

Canadian Aviator Makes Splendid Attempt at Long Over-Sea Flight From Key West, Florida, to Havana—Was Compelled to Drop Into the Sea Ten Miles From His Destination—Was Rescued Unharmed.

Key West, Fla., Jan. 29.—J. A. D. McCurdy, the Canadian, began his flight from Key West to Havana at 7.30 o'clock this morning. The aviator got away after waiting nearly a week for favorable winds and sea. The torpedo boat destroyers, assigned to the Navy Department to convey him, and several lighthouse tenders, steamed to sea to take positions where they could mark his way to the Cuban city and rendezvous. McCurdy should have fallen into the sea. The flying was stationed sixty miles from Key West, the others at short intervals.

Key West, Fla., Jan. 30.—McCurdy was compelled to alight after flying within ten miles of Havana, because his lubricating oil ran short. Havana, Jan. 30.—McCurdy was sighted by the torpedo boats of the Cuban fleet, three hours after he started from Key West. He dropped into the water ten miles from Havana, but was rescued unharmed.

Buried With Honors. Southampton, Eng., Jan. 28.—The body of Capt. Charles Barr, the noted American skipper, was buried today with all honors the local yachtmen were able to bestow. The officers and crew of the Thomas Lipson's steam yacht, Erin, were the pallbearers, and the casket was covered with the Stars and Stripes and the Union Jack.

LIBERALS REGARD FIGHT AS ENDED

T. P. O'CONNOR SAYS LIBERALS HAVE DETERMINED TO PUNT VETO QUESTION.

(By T. P. O'Connor). London, Jan. 29.—Between the two English parties there remains the same curious contrast. On the Liberal side there is confidence and fixity of purpose and a solid unity, while the Tories still quarrel and still vacillate between the tactics of reason and despair. The first cabinet council revealed the absolute unity of every section of Liberals, every man realizing that only one course was possible, namely, to go right straight on with the fight against the Lords and carry the veto bill. Peacefully, if possible, or by the creation of new powers, if the latter end is proclaimed by the Tories.

Regard Fight as Won. All of the Liberal papers adopted the same attitude, and among the Liberals the hopefulness even goes to the extreme length of regarding the veto fight as already finished and won. The optimism leads to a cynical disbelief of all declarations of "dying in the last ditch" by the Tories, but Austin Chamberlain, second in command to A. J. Balfour, and chief of the Protectionist party, has said in the House this week by proclaiming his adherence to the policy of fighting without a compromise. This may mean a policy of filibustering by which the veto bill could be held up until the coronation, and both sides look to that date as the central factor in the situation.

Will Force Situation. The Liberals will meet this filibustering by feverish and fierce tactics in order to hurry up and close the fight before June. Already they propose to take up all the time of the House of Commons on the veto question. This step would be revolutionary in parliamentary annals and some growth may come from the agitation and the sectional leaders, but undoubtedly the general spirit of all the Liberals is to sacrifice everything, not only the veto, but to its quick termination. If necessary this drastic action will suppress the rights of private members, which have been sacred for centuries. The Liberals may take other steps such as time may show necessary.

On the other hand, the Tory party this session will bring into the House of Commons a large number of private members' bills, and will filibuster in the easiest way to catch the public eye and achieve notoriety. This may mean an attempt to even the Tories to prolong the struggle. All these forebodings of the course of the fight may be falsified by the events as they arise. They also leave out of account the ardent desire of the new King, not to create the coronation in the middle of such a fierce factional fight. They also leave out of account the knowledge which at least is within the mind of every backwoodman, that the Liberals look with intense delight at the prospect of overthrowing the present House of Lords with hundreds of new peers, drawn from such pliant material as the great absentee landlords and the other self-made men of the English middle classes.

Redmond has just come to London and will start private discussion, doubtless in a few days, regarding the details of Home Rule legislation at the next year. The absence of Lloyd George makes some difficulty in getting to close quarters, he being the most friendly and nimble member of the cabinet in dealing with the difficulties.

There are little indications that as between proposing Home Rule for Ireland exclusively, and Home Rule for all round, some members of the cabinet favor the tackling of the whole problem.

Washington, Jan. 29.—Senator Beveridge in a statement issued tonight commented that the proposed reciprocity agreement with Canada and praised President Taft for urging its ratification.

"Every believer in Canadian reciprocity," said Senator Beveridge, "must applaud the message of the President to Congress. That message is unanswerable. The details of the itemized agreement may be important to some, but after all they are of small consequence compared with getting the policy going; I feel that some who imagine they may be hurt by certain items of the agreement will find that they are not hurt at all, but really helped."

WESTERN URBAN POPULATION HAS DOUBLED IN FIVE YEARS

Twelve Cities Show An Aggregate Increase of 110.3 Per Cent in Half Decade—In 1910 the Increase is 22.6 Per Cent—Individual Instances of Astonishing Growth.

Table showing population statistics for various cities from 1905 to 1910. Columns include Year, Population, and Increase. Cities listed include Brandon, Calgary, Edmonton, Fernie, Lethbridge, Medicine Hat, Moose Jaw, Portage la Prairie, Regina, Winnipeg, and Total 12 cities.

CURED OF CONSTIPATION

Mr. Andrews praises Dr. Morse's Indian Root Pills.

Mr. George Andrews of Halifax, N.S., writes: "For many years I have been troubled with chronic Constipation. This ailment never comes single-handed, but I have been a victim to the many illnesses that constipation brings in its train. Medicine after medicine have taken order to find relief, but one and all left me in the same hopeless condition. It seemed as though I had been cursed by the one ailment that caused so much trouble, yet at last I read about these Indian Root Pills. That was indeed a lucky day for me, for I was so impressed with the statements made that I determined to give them a fair trial. They have cured my stomach and bowels. I am cured of constipation, and I claim they have no equal as a medicine. For over half a century Dr. Morse's Indian Root Pills have been curing constipation, if it be of the chronic kind, with all the ailments which result from them. They cleanse the whole system and purify the blood. Sold everywhere at 25c a box."

WEASKIWIN RESENTS AN INCORRECT REPORT

Story Published in Calgary Paper That the Water System was in Trouble Is Strongly Repudiated—Council Take Up Matter at Special Meeting.

Wetaskiwin, Jan. 28.—A special meeting of the council was held Thursday evening to decide what action should be taken as to the paragraph appearing in the Calgary News Telegram of Calgary under the heading "Wetaskiwin in Sore Straits." This article was strongly denounced by the meeting and the city clerk instructed to communicate with the editor asking for a public retraction. The article in question stated that the city's water supply was in a very bad state, and that the water works were in a state of disrepair. The council members expressed their indignation at the report, which they felt was a gross misrepresentation of the city's water supply situation.

On Thursday Judge Heist finished hearing the 1910 assessment appeals. That of E. Nunneley, vs. P. P. Spence, was the last appeal heard. The assessment was raised, was decided in favor of an increase, \$200 per lot being added. Rev. G. Co., vs. E. D. O'Brien, two lots adjoining his residence were reduced, \$75 per lot. This may mean an attempt to even the Tories to prolong the struggle.

A lengthy resolution drafted by a committee of 17 men was unanimously adopted. It set forth that the proposed agreement would seriously affect the Canadian fruit and vegetable industries and would mean ruin to thousands of growers, and concluded by protesting against the abrogation of the present duties and calling upon the government to find some other means of securing transportation rates for a monster deputation to Ottawa. Meetings will be held this week at the smaller fruit centres in the district and another mass meeting will be held in this city next Saturday.

Expect a Declaration. The annual dinner of the Ohio society is to be held in this city tomorrow night and President Taft is to be one of the speakers. It is expected he will take this occasion to say something about reciprocity. Political leaders are wondering if he will tell what he intends to do if Congress should ratify the reciprocity agreement at the present session. There has been much talk of an extra session if the reciprocity bill should be passed. It is known that much of this talk was brought from White House by men who enjoy the confidence of the President.

The introduction by Representative McCall of Massachusetts of a bill for the ratification of the Canadian agreement indicates that there will be little delay in bringing such a bill to act on the agreement at the present session. The introduction by Representative McCall of Massachusetts of a bill for the ratification of the Canadian agreement indicates that there will be little delay in bringing such a bill to act on the agreement at the present session.

Bellevue Taft Has Won. London, Jan. 29.—British experts in international politics believe that in the outcome of Washington-Ottawa reciprocity negotiations, Mr. Taft has won no only a distinct triumph but also a larger advantage in the general relations between the United States and her northern neighbor. Congressional ratification are extended to Mr. Bryce, the King's ambassador and to Mr. Knapp as the president's "far seeing adviser."

It is assumed that so far as the American Congress is concerned, the "strictly limited arrangement will be ratified with out much ado." Less confidence is felt as to the reception of the agreement in the United States.

PRESIDENT TAFT IS DETERMINED

BELIEVES WHAT HE HAS RECOMMENDED FOR RECIPROCITY AGREEMENT IS RIGHT.

Washington, Jan. 29.—Embarrassed is a mild word to define the predicament which the Republican managers of Congress have found themselves since President Taft submitted his programme for a commercial treaty with Canada. High protectionists confident of sympathy of the executive have not hesitated to go to the White House with predictions that the party will be disrupted if the programme is insisted on. Insurgents, many of whom have become unaccustomed to visit the White House at all, have been pursuing the policy of silence. While some of them are ready to admit that the proposed programme is in line with their arguments in the past they fear to adopt it lest they bring upon their heads the wrath of the agriculturists.

President Taft appears to be about the only one who is showing no concern about the situation. He is said to have met all arguments against the agreement with a determination to disregard mere political objections, whether they come from stand-patters or insurgents. He believes what he has recommended to be right, and he has made it clear so long as he continues to believe he cannot be discredited from using every force at his command that advance legislation to put the agreement into operation.

Talk Realized Arguments. That President Taft realized fully what arguments would be advanced by protectionists against freedom of trade relations with Canada is proved by the fact that not a single member of the ways and means committee of the House or the financial committee of the Senate has been heard of since such of those who were believed to be outside of political influence. Progressive Republicans are deriding some comfort from the fact that Senator Aldrich and Speaker Cannon and numerous other stand-patters' guards' apparently were as much in the dark as any one about the President's plans. The Progressives admit that the situation is mystifying. They knew they had not been called in during the negotiations with Canada's prominent fruit men offered to pay them that the stand-patters were equally neglected.

Expect a Declaration. The annual dinner of the Ohio society is to be held in this city tomorrow night and President Taft is to be one of the speakers. It is expected he will take this occasion to say something about reciprocity. Political leaders are wondering if he will tell what he intends to do if Congress should ratify the reciprocity agreement at the present session. There has been much talk of an extra session if the reciprocity bill should be passed. It is known that much of this talk was brought from White House by men who enjoy the confidence of the President.

FRUIT GROWERS ENTER AN EMPHATIC PROTEST

Niagara District Men Fear Effect of Removal of Duty on Fruit and Vegetables—To Organize Deputation 1,000 Strong for Ottawa.

St. Catharines, Ont., Jan. 29.—With only one day's notice, a big mass meeting of the Niagara district fruit growers was held here yesterday to protest against the reciprocity agreement as affecting the fruit industry. Both political parties were represented and while the speeches were moderate in tone, the sentiment was plain hostile to the Washington agreement. It was decided to organize a deputation of one thousand fruit growers to go to Ottawa and some of the prominent fruit men offered to pay the expenses of two, three or four other delegates.

A lengthy resolution drafted by a committee of 17 men was unanimously adopted. It set forth that the proposed agreement would seriously affect the Canadian fruit and vegetable industries and would mean ruin to thousands of growers, and concluded by protesting against the abrogation of the present duties and calling upon the government to find some other means of securing transportation rates for a monster deputation to Ottawa. Meetings will be held this week at the smaller fruit centres in the district and another mass meeting will be held in this city next Saturday.

TRAPPER FROZEN ON TRAIL

Homey Wilson's Remains Found Where He Was Overcome by Cold and Perished.

Toronto, Jan. 29.—The Provincial police force received word on Saturday that the body of Homer Wilson, a trapper supposedly to have been devoured by wolves about fifty miles north of Gowanus was found on the tracks of the national transcontinental railway. The unfortunate trapper had evidently been overcome by cold and in respect to over classification and frozen to death. The body was found by a portion of the search party effect of the award of the arbitrators, which discovered Wilson's wife nearby dead from exposure and lack of food and brought her to Gowanus.

Washington, Jan. 29.—Although it may be some time before the reciprocity question is discussed on the floor of the Senate, the work in which different sections of the floor of either house, it overrides were examined and notes taken on all other subjects in the corridors and each cut.

DEDUCTIONS TO BE MADE

Over-Classification on National Transcontinental Routes Half a Million Says Commissioners.

Ottawa, Jan. 29.—Half a million approximately is to be deducted on some of the routes of the national transcontinental railway. The national transcontinental railway department has been over-classified and frozen to death. The body was found by a portion of the search party effect of the award of the arbitrators, which discovered Wilson's wife nearby dead from exposure and lack of food and brought her to Gowanus.
