BERLIN TO HAVE FURNITURE SHOW

Thirteen Towns Will Be Represented at the Second Annual Exhibit Opening on Monday.

BERLIN, Ont., Jan. 9.—(Special)—The second annual furniture exhibition will be held in the market buildings here, opening next Monday, and will continue for five days. It is promised to be a successful one, as up to date forty-one manufacturers from thirteen furniture towns will exhibit. There are eighteen from Berlin, five from Waterloo and eighteen from outside points, including five from Toronto and others from Hespeler, Elora, Durham, Lucknow, Goderich, New Hamburg, Wolstead, Elmira, Princeton and Mull.

On the evening of Thursday, the 14th, there will be a banquet tendered the buyers and exhibitors. It is hoped that the exhibition will lead to an annual event and a permanent furniture men's building, for which several sites are available.

There is a movement on foot here to have a special factory inspector appointed for Waterloo County only to look after the varied interests of employer and employe in the three hundred factories in the county with headquarters at Berlin.

BROWN COMMITTED TO TOMBS.
NEW YORK, Jan. 9.—(Can. Press).—Frederick Brown, who is wanted in Montreal on a charge of transferring and concealing his assets with intent to defraud his creditors in bankruptcy and of having by false pretences obtained \$1000 from the Bank of Montreal, was committed to the Tombs prison today to await examination in extradition proceedings on Jan. 17.

3rd Instalment of Correct Answers In The Toronto World's GREAT PROVERB CONTEST

The examining and checking of the Proverb sets submitted in The Toronto World's Proverb Contest was begun on Monday last, and the work is progressing rapidly. During the examination of the Proverbs The World will publish, each day, instalments of the correct Proverb answers. The third instalment is published today.

CORRECT PROVERB ANSWERS Nine to Twelve.

- Jack-of-all-trades and master of none. —Pg. 61
- When poverty comes in at the door love leaps out at the window. —Pg. 48
- He burns his candle at both ends. —Pg. 20
- Straws show which way the wind blows. —Pg. 45

The fourth instalment of correct answers will appear in tomorrow's World, and contestants who desire to compare the correct answers with their duplicate copies must

SWEEPING TARIFF REDUCTION IN U.S.

Every Article Should Be Subject to Competition, Is the View of Democratic Leader Underwood.

TALK OF CAMERA TRUST

Earthenware and Glassware Schedules Up For Consideration — England Supplies Only Competition.

WASHINGTON, Jan. 9.—(Can. Press).—"I would like to see a competitive tariff all along the line," announced Chairman Underwood of the ways and means committee, Democratic leader of the house, after the hearing on the earth, earthenware and glassware schedules today.

Underwood has been hearing arguments aimed at securing a lowering of the tariff of 35 and 50 per cent. to 25 and 30 per cent. on china, earthenware, porcelain, stone and crockery ware.

Mr. Underwood continued, "as if schedules 38 and 34 are more competitive, than most of the paragraphs we have dealt with, that is my judgment, subject to reservation. If any information is brought out that might develop to the contrary."

Disagreed With Importers.

This view was radically divergent from the presentation of the importers' case by Mr. S. Pitcairn of New York City, whose protest against the "exorbitance of the present tariff," and portrayal of the details of the business of bringing in English and other earthenware and other products led to sharp colloquies with Representative Payne of New York and Longworth of Ohio.

Mr. Pitcairn said that under the present tariff at earthenware importations were steadily going down. Mr. Payne suggested that if the witnesses' statements were true, the importers would go out of business in thirty days. Mr. Pitcairn cited what he said was actual experience and Mr. Payne attacked them.

British Competition Keen.
Mr. Pitcairn said that 90 per cent. of the imported earthenware was English. "Eliminate the English earthenware," he contended, "and you will have no competition in earthenware in this country." He suggested a 25 and 30 per cent. ad valorem on these products and changes in the classification.

Mr. Pitcairn has heard of undervaluations at New York, but knew nothing of them, that he had no knowledge of any protection in France, importers, and that the importers had to sell their goods here at 50 per cent. higher prices than American products. Several other importers of other products urged lower tariffs, while retention of the present rates was the object of representatives of American manufacturers.

J. N. Neenan of Cleveland, president of an association of window-glass workers, pleaded for the present tariff protection on window-glass to guard against the Belgian products. He told of conditions among Belgian workmen have to sign. Some of the committee were sent to Washington by the National Window-glass Association, the companies, but they came at the instance of his workmen's organization.

"The association didn't pay your expenses?" he was asked.

"Absolutely not," he replied.

A charge that a photographic trust exists in this country was made in the testimony of William O. and G. S. Genest of New York City. They contended that the Eastman Kodak Company controlled seven-eighths of the business in every branch of the industry in this country. William O. Genest said that in present companies here could not successfully compete with the Eastman Company.

"Would the removal of the 45 per cent. duty open the American market to the foreign commerce?" asked Representative Harrison of New York.

"It would enable us to compete," said the witness. "The profits of the Eastman Company are so enormous that it would hardly be possible to state the point at which it could not afford to sell a camera at a profit."

The witness said that putting cameras on the free list would benefit everybody.

ROOSEVELT AGAINST FUSION WITH G.O.P.

Progressives Have No More in Common With Republicans Than Democrats, He Replies to Munsey.

NEW YORK, Jan. 9.—(Can. Press).—Theodore Roosevelt replied today to a proposal advanced by Frank A. Munsey yesterday to bring the Progressives and Republican parties together. He said:

"I am simply speaking as one of the men in the ranks of the Progressive party. Personally, I strongly feel that we should no more enter into a combination with the Republican machine than with the Democratic machine. I should believe that all good Progressives, who may happen yet to associate with the Republican party or the Democratic party, will see and see a chance to do so at government, and the practical achievement of social and industrial reform, only in the progressive party."

"We welcome all honest men who believe in our principles, if they come in with us they shall have exactly the same that any other group has of the party management. I hold that we are under the same obligations to our constituents as to any ex-Republicans."

To my mind, the whole attitude of the present responsible for the leadership and management of the Republican party shows that it would be foolish to combine with them.

Replies to Taft.
Mr. Roosevelt referred to a recent speech by President Taft, in which he said that the result of the Chicago convention was "a triumph for the permanence of Republican institutions."

Mr. Roosevelt then reviewed the elections in Arizona, Michigan, Indiana, Washington, California, and some other states where the Progressives received heavy votes, and added: "The triumph for the permanence of Republican institutions of which Mr. Taft speaks was the triumph of fraud and theft, and it was rebuked by the figures given in the various districts in which it was perpetrated. "Until the managers of the Republican party can get out of the hands of swindling the people and imposing the will of the bosses, when they declare by a two-to-one majority at the primaries in the reverse way, is not the method in which to achieve the triumph of the permanence of Republican institutions, it is idle to discuss getting together with the managers of the party in the statement Mr. Roosevelt asserted that the Republican party shows that under the present management of the party they cannot be trusted not to cheat, not to swindle."

ALD. ROWLAND HAS LIST OF MOTIONS

Wants Many Improvements in the Second Ward, Especially in the North End.

Ald. Rowland is going to see that the first meeting of the council is more than a formal affair. He is going to move that cluster lights be placed at all important intersections, all lanes so lighted, and that a lighting system be placed on the large bridges over the Don; the board of control lease the old General Hospital on Gerrard street as soon as it is vacated; the M.O.H. report on the licensing of all boarding houses; and having supply mains in Moore Park; seating accommodation be provided on the western portion of Riverdale Park; Esplanade street, from Yonge to Berkeley, be made passable; a playground be secured to take the place of the one taken over by the C.N.R.; Mount Pleasant Cemetery be annexed; the judge commissioner report on how the city car lines may be extended to serve the people in North Toronto; and the streets in North Toronto on which pavements should be laid.

TODAY

IS the day you've been waiting for—the day of

THE WORLD'S BIG BOOK BARGAIN

The day that every reader who presents a coupon will get a set of Everybody's Cyclopedia (usual selling price is \$12 a set)

COMPLETE IN 5 VOLUMES, \$1.98

No other charge—just a coupon such as is printed on the first page of this issue, and you get the complete five volume set all at once.

THE MOST USEFUL SET OF BOOKS ON EARTH

Illustration greatly reduced in size, but, just as it looks—complete in five large octavo volumes, bound in English cloth—magnificently illustrated in color and monotone—usually sells for \$12 a set, but TODAY, complete, for \$1.98 and the coupon. Mail orders filled as explained in coupon.

OUR GUARANTEE
We positively guarantee to refund the amount paid by any reader who finds after receiving Everybody's Cyclopedia that it is not entirely satisfactory and as represented.

THE TORONTO WORLD

TODAY by THE WORLD
40 Richmond St. W., Toronto
Branch Office: 15 MAIN ST., HAMILTON

This is the Day of Sale
Five Big Volumes, \$1.98
REGULARLY SELLING AT \$12

Here is the greatest bargain in books ever placed before the people of Toronto. Five handsome volumes of Everybody's Cyclopedia, bound in English cloth, for the small sum of \$1.98. The great Dictionary and Bible series conducted by The World were considered the marvels of the age. This is a greater bargain. It was only because a syndicate of leading newspapers placed the largest order ever given to a printing house that such an offer can be made.

The price of the large Cyclopedia Sets is usually so high, from \$50 to \$100, that they are invariably sold on the installment plan. The publishers of "Everybody's Cyclopedia" took advantage of these facts, and from a revision of all these various large and good cyclopedias they have compiled all that is good—all that is necessary—and have merely eliminated or condensed that which would be of interest to a specialist or technical student.

The coupon below must be presented with each order. See announcement on page 2.

CLIP THIS COUPON

The Toronto World
EVERYBODY'S CYCLOPEDIA
—DAILY COUPON—

This coupon, if presented at the Head Office of The Toronto World or at the Branch Office, TOMORROW, will entitle the bearer to one five-volume set of Everybody's Cyclopedia (regularly selling at \$12).

For \$1.98

MAIL ORDERS, ADDRESS THE WORLD, TORONTO, CAN.

The Sets are too bulky to be sent by mail, but out-of-town readers can have them for the \$1.98, the set to be sent by express, shipping charges to be paid by the receiver. OUT-OF-TOWN READERS need not wait until the days of distribution, but send orders any day of the week and shipments will be made promptly on the distribution days.

SALESMEN'S CONVENTION.

In accordance with their usual custom, the annual convention of the salesmen of the E. W. Gillett Company, Limited, is being held at the head office of the company during the present week.

Representatives from every province and also Newfoundland, numbering about forty, are in attendance. For the purpose of mutual advantage and to further the interests of the company, the representatives of the company have their own organization and follow out a pre-arranged program at each of their annual conventions. Matters of general interest in connection with their work is discussed at regular sessions, which are held both morning and afternoon.

The following have been elected for the next annual convention to be held in January, 1914: Chairman, J. W. Powell; vice chairman, A. E. Pott; committee of arrangements, Messrs. J. E. Holden, William Menzies and S. D. White.

The conventions are always interspersed with attendance at the local theatres as guests of the company. After the performance at Shea's Theatre last evening a banquet was given by the company at the Hotel Moseop. After the cravings of the inner man had been amply satisfied and the remnants of the fray removed, William Doble, the president of the company, proposed the toast to the king, which was enthusiastically received and which brought forth a strong volume of almost melody. From the toasts and speeches which followed a strong feeling of fellowship and loyalty to the company was evidenced.

At the close of a very pleasant evening they all clasped hands, and the familiar strains of "Auld Lang Syne" floated out on the stilly night to the wonderment of the late wayfarer.

HAMILTON HOTELS.

HOTEL ROYAL
Largest, best-appointed and most centrally located, \$3 and up per day. American plan.

to study the feasibility of constructing a huge jetty across the Grand Banks of Newfoundland.

The idea, at which the members of the board were at first inclined to "hear but later adopted, was explained by its originator, G. L. Ricker, a Brooklyn engineer.

Mr. Ricker declared that, however wild this project might seem at first, it had received the endorsement of many engineers, and even the United States Hydrographic Office, had considered it feasible. He estimated the cost at \$20,000,000.

LEAKAGE FROM PLANT FEAKAGE
MAKES MILLIONS OF GALLONS DAY

Commissioner Harris' Report Shows Startling Condition of Affairs at Island Plant—Mayor Hocken Would Engage a British Expert to Report on the Entire Water System of Toronto

Leakage from reservoir outward: 6.5 million to 6.8 million gallons per day.

Leakage into reservoir: Sometimes as much as 1.5 million gallons per day.

The report of Works Commissioner Harris on the island filtration plant, which was made public by Mayor Hocken yesterday, and which disclosed the most startling facts, may be productive of at least one of the most important results of the year.

In handing the report to the board of control at its first meeting and proposing that the board be called to choose the best filtration expert in the old land to come to the city and solve the difficulty.

Following is the filtration report in full, as submitted to the board of control by James Milne, his mechanical engineer:

"The report of the works commissioner is of a startling nature, and is not unexpected. It gives account of the extent of the leakage, the amount of water lost, and the cost of the same.

"On Sunday, the 6th inst., as per your suggestion, we made a test for leakage on the clear water reservoir, and the following are all particulars:

"Lake level, 414 inches.
"Height of water in reservoir at commencement of test, 371 inches.
"Height of water in reservoir at end of test, 374 inches.
"Duration of test, 10 a.m. to 1 p.m., 3 hours.

"Average gain per hour, 1 inch or 1.2 inch.
"Area of gain per 24 hours, 38.8 inches, or 2.4 feet.
"Area of reservoir, 2.5 acres.
"Calculations:
"2.4 x 43,560 = Total area in square feet.
"2.4 x 43,560 x 24 x 62.5 = 1,427,400 gallons per 24 hours.

"It may be argued that this was not a test under ordinary working conditions, seeing that the reservoir was for the greater part of the day at a level lower than the lake level; consequently, while the total leakage in 24 hours may be 3 million and one-half million gallons, yet it cannot be denied that at times during the day the rate of leakage would be much greater.

"We also made a test on the filter beds on the 5th inst., and the following are the results:

"Drop in Drop in Drop in
inches inches inches
Filter No. 11 a.m. 12 noon 1 p.m.
1 5-16 3-4 11-16
2 1-8 1-8 1-8
3 1-8 1-8 1-8
4 3-16 1-16 1-16
5 1-8 1-8 1-8
Scut out.

"From this you will see that the leakage as per this test, with plant in operation, is very much less than when the plant is not in operation. This can be particularly accounted for by the fact that when cleaning filters the sludge cake must be kept open all the time in order to keep the water level below the level of the sand, so that the men can work. The water is drained into the lagoon. Further, any leakage on the 72-inch raw water pipe would not be included in this test.

"Commenting upon the report yesterday, Commissioner Harris said: 'The meters in use at the filtration plant are of the Venturi type, and are not the most accurate known for the service measurement of large quantities of water. When the discrepancy was made apparent I had the Builders' from Foundry of Providence, R. I., U.S.A., who manufacture the meters in question, send an expert to the plant. He found that the 72-inch meter which measures the total input to the plant was depending on the rate of flow thru the meter, the percentage of error being greater at the higher and lower at the lower rates of flow. The rate of flow is always high. The 12-inch meters which measure the output from the filter beds to the clear water reservoir were also tested, and while some gave slightly high readings at the lower results, the differences practically neutralized each other.'

"Should the waterproof, or lost by leakage, amounts to 4.88 million gallons per day for the period commencing Sept. 1 and ending Dec. 31, 1912. This represents a loss between the pumping station and the point at which the filters deliver water to the clear water reservoir.

"Under the heading of 'Clear Water Reservoir Test,' in Mr. Milne's report, you will observe that during the three-hour test the flow into the clear water reservoir was at the rate of 1,427,400 gallons per 24 hours. This, to my mind, constitutes probably one of the most serious features of the whole proposition, inasmuch as it is essential that this reservoir should be as nearly waterproof as possible in order to preserve the efficiency of the whole installation. It is but fair to state that the level in the reservoir is, for a portion of the higher than that indicated at the time of test, and when such higher level obtains the rate of flow would naturally decrease, but during hours of maximum demand the level is at least as low as shown during the test.

"The report of the works commissioner is of a startling nature, and is not unexpected. It gives account of the extent of the leakage, the amount of water lost, and the cost of the same.

"On Sunday, the 6th inst., as per your suggestion, we made a test for leakage on the clear water reservoir, and the following are all particulars:

"Lake level, 414 inches.
"Height of water in reservoir at commencement of test, 371 inches.
"Height of water in reservoir at end of test, 374 inches.
"Duration of test, 10 a.m. to 1 p.m., 3 hours.

"Average gain per hour, 1 inch or 1.2 inch.
"Area of gain per 24 hours, 38.8 inches, or 2.4 feet.
"Area of reservoir, 2.5 acres.
"Calculations:
"2.4 x 43,560 = Total area in square feet.
"2.4 x 43,560 x 24 x 62.5 = 1,427,400 gallons per 24 hours.

"It may be argued that this was not a test under ordinary working conditions, seeing that the reservoir was for the greater part of the day at a level lower than the lake level; consequently, while the total leakage in 24 hours may be 3 million and one-half million gallons, yet it cannot be denied that at times during the day the rate of leakage would be much greater.

"We also made a test on the filter beds on the 5th inst., and the following are the results:

BETTER SYSTEM
TO COLLECT TAXES

Mayor Hocken Intends to Plan One Which Will Do Away With Delays.

THE FEDERAL SQUARE
Scheme May Be Brought to an Issue Inside of the Next Three Weeks.

Mayor Hocken yesterday announced two important steps he will take as soon as the board of control and council get settled down for business. One is action on the proposed federal square project, which he said he hopes to bring to an issue inside of two weeks; the other is the question of reforming the present practice of dealing with overdue taxes. That the latter matter is a vital one to the city is shown by the fact that nearly 10 per cent. of Toronto's taxes have not yet been paid. This is in spite of the fact that the payments last year were the largest in the past 20 years.

Under the present regulations, a penalty of only five per cent is enforced for the non-payment of taxes, no matter how long payments have been delayed. This means that property owners are allowed the use of city money at a charge of only five per cent.

The injustice to the city of the existing regulation was pointed out to the board of control last year, and the board, after discussing the question fully, was unanimously of the opinion that an annual rate of five per cent should be charged. No action was taken on the idea, however, as the council is now determined to have the question brought before council, and if sufficient members are favorable to the idea, to have the city seek legislation to have the regulation changed.

Concerning the federal square project, Mayor Hocken said he had, however, that the erection of a theatre on Teranlay street opposite the city hall, would be a great help to the city. He then returned to the city hall, where he was met by a number of city officials.

YORK COUNTY
COUNTY DESIRES
THREE MARKETS

Council Will Continue Its Fight For Better Market Facilities in Toronto.

PHONE RATES TOO HIGH
Residents of Late Town of North Toronto Want Relief From Heavy Charges.

Although two members of the market committee of the York County Council will not be members of the county council this year, namely, ex-Reeve John Watson of York Township, and ex-Reeve W. D. Annis of Scarborough Township, yet their better market facilities are obtained. If the members of the city council are of the same opinion as they were prior to the election, the market committee, established in Ward Seven, another at North Yonge street, and a third in the eastern part of the city, should be able to take up this matter of better markets at an early date.

The citizens of the late town of North Toronto, who are suffering under the high telephone rates, are taking up the cudgels for them, and to secure them cheaper telephone rates, they are asking a great relief, as at the present time a phone for a residence is as high as \$90, or \$46 a year, and for a business office, \$100 per year, and \$130 with a house connection.

The Rowell Liberal Club will hold their monthly meeting in the Masonic Hall next Monday evening, A. B. Farmer, who has been elected president of the club, will be the speaker. The public are invited to attend. On Monday, January 20, the club will hold a special meeting for the purpose of electing a new president. The speaker will be the Rev. Mr. McIntyre, who will be the speaker.

One is action on the proposed federal square project, which he said he hopes to bring to an issue inside of two weeks; the other is the question of reforming the present practice of dealing with overdue taxes. That the latter matter is a vital one to the city is shown by the fact that nearly 10 per cent. of Toronto's taxes have not yet been paid. This is in spite of the fact that the payments last year were the largest in the past 20 years.

Under the present regulations, a penalty of only five per cent is enforced for the non-payment of taxes, no matter how long payments have been delayed. This means that property owners are allowed the use of city money at a charge of only five per cent.

The injustice to the city of the existing regulation was pointed out to the board of control last year, and the board, after discussing the question fully, was unanimously of the opinion that an annual rate of five per cent should be charged. No action was taken on the idea, however, as the council is now determined to have the question brought before council, and if sufficient members are favorable to the idea, to have the city seek legislation to have the regulation changed.

Concerning the federal square project, Mayor Hocken said he had, however, that the erection of a theatre on Teranlay street opposite the city hall, would be a great help to the city. He then returned to the city hall, where he was met by a number of city officials.

THE FEDERAL SQUARE
Scheme May Be Brought to an Issue Inside of the Next Three Weeks.

Mayor Hocken yesterday announced two important steps he will take as soon as the board of control and council get settled down for business. One is action on the proposed federal square project, which he said he hopes to bring to an issue inside of two weeks; the other is the question of reforming the present practice of dealing with overdue taxes. That the latter matter is a vital one to the city is shown by the fact that nearly 10 per cent. of Toronto's taxes have not yet been paid. This is in spite of the fact that the payments last year were the largest in the past 20 years.

This is in spite of the fact that the payments last year were the largest in the past 20 years.

W. W. HILTZ ELECTED CHAIRMAN
BY THE BOARD OF EDUCATION

Trustees Ellis and Hopkins of Ward Seven Voted For Dr. Noble, But He Cast His Ballot For Mr. Hiltz—Presentation to Dr. Conboy, the Retiring Chairman—Standing Committees Appointed.

At 8.30 last night the members of the board of education were ready for Secretary Wilkinson to open the inaugural meeting. The officials of the board on the side seats and six citizens, three of each set, formed the spectators.

Trustee Brown led off in a round of applause when the secretary read the official appointment of Trustees Bond and Dineen as representatives of the separate school boards.

When the names of the trustees were called, in alphabetical order, for a vote on the chairmanship, 11 named Trustee Hiltz.

Trustees Ellis and Hopkins, the Seventh Ward representatives, named Dr. Noble. That valiant champion of school system reforms, however, cast his vote for Trustee Hiltz. The latter refrained from voting. The vote was: Hiltz 11, Noble 2. Dr. Noble joined in the applause when the result was announced.

Honor Appreciated.
Chairman Hiltz said that the honor of being elected to the position of presiding officer of a board of education of a city of half a million population was one which he gratefully appreciated.

Trustee Brown testified to the faithful service given as chairman by Dr. F. J. Conboy.

Trustee Shaw said that the ability with which Dr. Conboy had performed his duty had not been exceeded by any of his predecessors.

Trustee Dineen endorsed the tributes of the other speakers, as Dr. Conboy was just the class of chairman who promoted progress.

Chairman Hiltz, on behalf of the board presented Dr. Conboy with a handsome case of silverware.

Grateful for Help.
Dr. Conboy said he felt most grateful for the feelings expressed by those who had presented him with the beautiful case of silver, of which he would always be very proud. He was grateful for their help, support and cooperation in the past year. He thanked all the officials, who he believed were every one of them doing their utmost to promote the best interests of the educational system of the city. The handsome majorities which the re-elected trustees testified to the confidence of the electors in the sincere desire of the members of the board to serve the city. He valued very highly the resolution of appreciation passed at the last meeting and the large evidence of it presented last night.

The following standing committees were elected:
Management—Dr. Mackay, chairman; Jackson, Noble, Dineen, Lewis, Fairbairn, Dr. Conboy, Dr. Hopkins.
Property—McTaggart, chairman; Jackson, Shaw, Boland, Brown, Smith, Hodgson, Ellis.
Finance—Chairman of management and property committees and Trustees Brown (chairman) and Hodgson.
Advisory Industrial—Hiltz, Srav, Mackenzie, Dr. Stevenson, Richardson, Dineen, Fairbairn, Ellis, Noble. Chairman to be elected.
Advisory Educational—Dr. Conboy, Dr. Hopkins, Smith, Hodgson, Under Bradshaw, Bailey, Marriott. Chairman to be elected.
The next meeting of the board will be on Thursday, Jan. 22.

Curling Single Rink Preliminary

Twenty-Five Single Rinks Retire Preliminary Night

R. Rennie, Queen City, Runs Up Top Score—Twenty-Five Games of the First Round Will Be Played Tonight.

Parkdale made the best showing preliminary night in the single rink competition, winning all four games played. Little Lakewick was next in percentage, and have still ten left on the fighting line, losing only one of the seven games. The Granites won four and lost three. It was a bad night for Toronto with seven in the casualty list. High Park, the new-comer, failed to win a game. Aberdeens won two and lost three. There were all sorts of scores, close and one-sided. Col. R. Rennie made top score of the night, 21, the R. B. Rice, also of Queen City, only played four games and scored 14, including an "eight." No. 23 was a favorite, being resolved by Saunders, West Toronto, Beauty of the Granites and Lightbourns of Toronto. Tom Rennie's total was 24.

FAMOUS OLD ORIOLE PLAYERS

That the old Oriole players who won three successive pennants for Baltimore were about the best that baseball ever has produced is shown by the number of them still employed at making history. Only the other day it was announced that Jack Doyle, the old first baseman, has been signed to scout for young players by the Chicago White Sox.

Why Should It Be So?

"Why should this be so? To vouch it is no proof without more certain test."

—OTHELLO, Act I, Sc. III.

If every decision you arrived at were correct, you would be wealthier and wiser than the author of the Proverbs. There is, however, one conclusion, the truth of which every smoker may prove for himself, viz., that the DAVIS "NOBLEMAN" CIGAR ("TWO FOR 25c") is equal to high-grade imported cigars at twice the price. "NOBLEMAN" is the finest Havana leaf, made by skilled Cuban workmen. How can "imported" brands be better? "Why should it be so?" To vouch it is no proof, without more certain test." Compare "NOBLEMAN" with imported, and you will quickly realize how you may save 50 per cent.

"NOBLEMAN" also, 2-for-a-quarter. "FANTASMA" also, 10c straight. "CONCHA FINA" also, 3 for 25c.

St. Matthews Win. At Broadview Rink last night St. Matthews defeated their old rivals, Broadview, in the first game of the juvenile series of the Beaches League by the score of 8 to 1. The first avenue boys have resurrected their club again and have started on another laurel-hunting session. The winners lined up as follows: Goal, Nicholas; point, Anderson; cover, Woodley; rover, Winters; centre, Broadhurst; right wing, Thompson; left wings, C. Simpson and P. Jones. Referee: J. Watts.

An Additional Pleasure

Hold a bottle of Cosgraves (chill-proof) Pale Ale to the light—get the glint of it, its sparkling purity—it is appetizing in its bright clearness even before you put a glass of it to your lips. Then taste

Cosgraves Pale Ale

The promise in its beauty is more than realized by its tang, its palate searching deliciousness—you can fairly taste the purity of it; the fine barley, malt, and selected hops and the careful ageing that make it above all the very beer for you.

Order a case from your dealer—he will gladly supply you—but should it happen for any reason that he cannot or will not, call us up.

Motorcycle Club Elect Officers

The annual elections of officers for the Toronto Motorcycle Club were held at the new club quarters on Wednesday evening, with the following results: President, Fred O. A. Johnston; vice-president, W. Stoner; secretary, H. J. Stillaway; treasurer, Dr. Carvel; executive committee, A. E. Humphrey, W. Banfield; touring committee, Maclean, H. Barnes; competition committee, H. Marshall; auditors, A. E. Humphrey, G. C. McLaughlin; social committee, C. J. Spears, W. Porter, G. Franklin; legal action, W. E. McCarthy. After the business of the meeting was over there was some entertainment in the form of music and recitation until the refreshments were announced, when the boys repaired to the small room, where coffee and sandwiches were served. A few more bright numbers concluded the evening's program.

MAHER'S HORSE EXCHANGE.

The auction sale of horses, etc., at Maher's yesterday drew a big crowd, many of whom were buyers. Consignments, while not very large in number, were up to a high standard of quality and covered all classes, resulting in that the majority of them were sold. Prices were a little easier all this week, which probably accounts for the big week's business done at these stables. Trade was mostly local and confined, with a few exceptions, to medium-priced stock. A few representative buyers were: S. Falls, Port Hope, Ont.; the T. Eaton Co., Ltd.; Ontario Sewer Pipe Co., Mississauga, Ont.; John Groves, A. Giesler, E. Jule, Norwich, Ont.; R. Graves, J. J. Walsh, E. B. Sparrow (part car load), John Demman, Birch Bros., Jas. Freer, P. Lee, J. Hill, M. Frost, H. E. Scott, F. Duncan, R. Humphrey, F. A. Musgrove, B. Mar-

ARENA PRACTICE HOURS.

The amateur hockey practice hours at the Arena have been changed, as follows, to go into effect on Monday: U.C.C., 3 to 4. St. Andrew's, 4 to 5. Parkdale, 5 to 6. Toronto R. and A.A., 6 to 7. U.C.C., 2 to 3. St. Andrew's, 3 to 4. Varsity, 4 to 5. Toronto C.C., 5 to 6. St. Michael's, 6 to 7. Parkdale, 6 to 7. U.C.C., 2 to 3. St. Andrew's, 3 to 4. Varsity, 4 to 5. Toronto R. and A.A., 5 to 6. Parkdale, 6 to 7. St. Andrew's, 2 to 3. U.C.C., 3 to 4. Varsity, 4 to 5. St. Michael's, 5 to 6. T.C.C., 6 to 7. Friday—U.C.C., 3 to 4.

GRATTAN ROYAL IN FOUR HEATS WINS 2.30 PACE AT DUFFERIN

Remarkable Going in First Heat—Silver Tail Lands the Trot—Free For All Is Unfinished.

There was great excitement at Dufferin Park track yesterday when Grattan Royal, J. E. Gray's noted pacer, driven by Nat Ray, made a real world's record for a mile over a two-dam track on ice. Mr. Ray asked the judges to waive disqualification in this race, as he intended to start his horse a fast mile, which the judges consented to. After several scores they were given to the word with Grattan Royal in the second tier. His time was taken separately and he rested off the mile in 2:12 1/2. This is certainly a wonderful performance, and stamps the son of Grattan a very fast individual. The second heat Grattan Royal did not finish the race, as he intended to start his horse a fast mile, which the judges consented to. After several scores they were given to the word with Grattan Royal in the second tier. His time was taken separately and he rested off the mile in 2:12 1/2. This is certainly a wonderful performance, and stamps the son of Grattan a very fast individual.

Another surprise was in the 2:15 trot when Margot Leonard, a decided favorite, with Toronto racers, was beaten in straight heats by Silver Tail, owned by Ward and Sheppard, and driven by Arthur Bedford. Silver Tail was real good, but it kept her busy to stall of the rush of Roy Brook in the last heat, who all but nipped her at the fire. Silver Tail ran a beautiful race, never lifting her nose from wire to wire during the three heats, while Margot Leonard was not at her best, being unsteady, something very unusual for her. Margot won her two starts. The Hillcrest meeting, and was a decided favorite in the pools. How often the sure things go down, but such is the nature of the game, and it is the uncertainty which makes the sport popular.

In the free-for-all, which was unfinished, Richard S., the Baronsmore gelding, owned by Messrs. Ward and Sheppard, won the two first heats, and was beaten by the third by Nettie Ethon, when the race was put over till Friday at 2 p.m., when it will be finished. The admission will be free, and this will conclude one of the best ice meetings given by the Dufferin Driving Club, who have the distinction of having a world's record made at their meeting. The summary follows: 2:30 pace, purse \$500. Grattan Royal, b.h., J. E. Gray, 1 1 1 1. Star Point, b.h., Collins, 1 1 1 1. London (Roy), 1 1 1 1. Gold Standard, ch.g., M. Burkhardt, 2 2 2 2. Baronsmore, N.Y. (Brohman), 2 2 2 2.

The University College Girls' Hockey Club held their first practice yesterday afternoon at Varsity Rink. Miss Barry of last year's team looked to be best of those on the ice.

The Hickey and Pascoe hockey team would like to arrange a game with any other gentlemanly ice clothing team. Dunfield preferred.

And Now Jeff Is Thoroly in Sympathy With the Moose By "Bud" Fisher

JEFF, I WANT TO GO HUNTING, YESSIR, HUNTING! I WANT TO SHOOT WILD ANIMALS.

BUT, MUTT, WE CAN'T, THE GAME LAW IS OUT ON MOOSE AND DEER.

YES THAT'S TRUE, JEFF, BUT I WANT TO SEE BLOOD FLOW—I WANT TO SEE THE PROSTRATE FORM OF A LIVING THING STRETCHED UPON THE GROUND.

I KNOW, BUT THE GAME LAW—

AH, JEFF, I HAVE IT! WITH YOUR ASSISTANCE I CAN GRATIFY MY DESIRE FOR BLOOD.

HOW?

JUST HOLD THAT POSE BUT RAISE THE CHIN A TRIPLE HIGHER.

FRIDAY MORNING, JAN. 10, 1913.

LET'S HAVE IT NOW.

One week of parcel post in the United States has brought the big express companies to their knees. Wells-Fargo Company have announced in San Francisco that their company will compete with the government, giving better service at the same rates. The other big companies will, no doubt, follow in the wake of Wells-Fargo Company. Government competition may be less desirable than government monopoly, but it serves a great purpose in compelling the private corporations to improve their service and lower their rates.

The express companies in Canada will continue to maintain their present rates so long as the Dominion Government charges sixty-four cents for carrying a package weighing four pounds, and refuses to accept a package weighing more than four pounds at any price. When are Canadians to get relief?

Just now the postoffice department is postponing parcel post on the plea that the rates must be regulated by distance, and that therefore zones must be established, as in the United States. Why is the zone system necessary for packages any more than it is for letters? The flat rate produces some glaring inequalities, but it is popular with the people. No one in Toronto grudges a two-cent stamp for his letter to Whitefish, although a similar stamp will carry his neighbor's letter to Dawson City, Glasgow, or Manila.

Postmaster-General Pelletier could begin a parcel post service tomorrow by changing the regulations respecting fourth-class mail matter. He could increase the limit of weight from four pounds to eleven pounds, and reduce the rate from sixteen cents a pound to eight cents, or even six. The zone system has advantages, but it is the flat rate which has made the postoffice so successful. It is easier to make the experiment with the flat rate than a zone system. But the railways are urging that the zone system be given a most careful study. That's a word liked by railway lawyers.

MELON MEMORIES.

Last August it was announced from Ottawa that the Canadian Pacific Railway Company had applied to the governor in council for permission to increase its capital stock by a new issue of the par value of \$60,000,000. It was at the same time announced that these new shares would be allotted to the stockholders at \$175 per share—the market value of the C. P. R. at that time being above \$280. The world insisted that the new shares would be worth in the neighborhood of \$275, and that the proposed allotment simply meant amelon to the stockholders of \$90,000,000.

Many railway-owned and railway-controlled journalists and half-rate financial experts arose to confront us. We were told, and the public was told, that the issue of the new stock would immediately bring down the market price of C. P. R. to the neighborhood of \$175. Some journals were more cautious than others, and some, no doubt, expressed their honest convictions. It would be amusing to recall just what prophecies were made as to the future selling price of C. P. R. last summer by the journalistic defenders of the melon and the melon patch.

Now, what did happen? There was a fall in the price of Canadian Pacific Railway stock shortly after the first announcement of the coming melon, but this was attributed to a fear that the Borden government would not grant permission to cut the melon. The stocks revived when the world was passed around that another melon, just as good, would be out by the company without so much as saying "By your leave," to the government. On Oct. 2 last the melon was sliced up and being passed around to the stockholders.

Has Canadian Pacific, in consequence, fallen to \$175 or \$200? No, it stands today at \$266 1/4. All stocks are a little off just now, but the C. P. R. is not depreciated by the new issue. At any rate, the stockholders who today are getting at \$175 \$60,000,000 of stock, worth in the market \$266 1/4, are cleaning up by the melon route about \$65,000,000, and smilingly ask:

"Well, what are you going to do about it?"

"CONSTRUCTIVE STATESMANSHIP."

"There is no capacity for constructive legislation at Ottawa or Toronto, but it will not always be so," says The

In the Railway Commission Chamber.

Will equality of treatment in the matter of freight rates between the east and west be brought about by the Dominion Railway Commission, or must the basic principle at stake be enunciated by parliament?

The hearing now on at Ottawa before the Dominion Railway Commission may result in great good, but its progress so far has been disappointing. To an observer, it looks as if the lawyers were running away with the court. Chairman Drayton apparently does not command the situation as did the late chairman, Hon. J. P. Mabee. In the trial now going on there is frequently a babel of voices, and a stranger entering the courtroom might well wonder what it is all about.

The commission has its courtroom in the handsome station recently erected at Ottawa by the Grand Trunk Railway Company. The lawyers are on both sides, by using the elevator and the tunnel, can go bareheaded to the courtroom to their suites in the Chateau Laurier, or to their from the courtroom to the train shed below. About half the floor space of the courtroom is covered with a platform upon which the lawyers perform. The members of the commission sit like a bench of judges upon a high platform at one end of the courtroom.

For the last day or two M. K. Cowan, K.C., has been examining railroads with humorous sallies, not always relevant, but always enjoyed. He has a voice that draws attention, and he is, it is said, of the lawyers on the whole, somewhat of the discomfiter. The latter are said to feel that appointed by the Dominion Government. The latter are said to feel that the Cowan and his clients butted in. The enquiry was conducted on foot by the Dominion Government, and M. K. represents the provincial governments of Saskatchewan and Alberta. It is further said that Cowan's effort has been to prove discrimination against the west, while counsel for the Dominion to prove that the west, while on the wrong track, and prefer to claim and prove that the western rates are unreasonable.

Should the commission, in deciding the case, decline to go into the question of discrimination and simply order some reductions in certain rates as being extortionate, nothing will have been accomplished in the way of indicating the principle of equal rates for all parts of the country. The railway companies are trying to smother the commissioners with quantities of documentary evidence. They have filed exhibits, schedules and every trunk filled with duplicates of some of the exhibits. These trunks, all huge trunks filled with duplicates of some of the exhibits, and of the same size and pattern, are scattered throughout the courtroom, and every now and then a lawyer goes to his trunk, unthinkingly, and then wildness of typewritten manuscript, looks at it thoughtfully, and then locks the trunk up again. It is quite impressive.

The lawyers in the case between them draw down three thousand dollars a day. They are apparently quite willing to put in as many days as possible at this rate. The members of the commission are made up and they are meek as sheep. Perhaps their minds are so dulled by the case that they are merely letting the lawyers perform. They may never decide the case until the general impression is, that some reduction of rates will be ordered, but that the big principle involved in the equalization of freight rates will have to be dealt with by parliament.

Globe in an article on cold storage.

It is unfortunately true that constructive statesmanship has not been a feature of Canadian politics whatever party was in power. The hydro-electric scheme is the biggest thing of the sort that has been done, and opposition to it is keenest among the politicians. Sir Wilfrid Laurier had, and probably has, no use for it. Sir John Gibson fought it tooth and nail. Sir James Whitney, if The Globe is to be believed, was led, if not carried, into it. The "interests" are always considered first and all their legislation is destructive so far as the people are concerned.

Do we want parcel post? The interests say no and the government is in a swither. Do we want assessment in reform and taxation reorganization in general? Our constructive statesmen know of nothing better than driving a nail in the rickety place, and letting it go for a while longer. In many respects Canada is the most reactionary country in the western group. France, Germany, England are all ahead of us in important respects. Norway laughs at our telephone situation.

We are in the grip of the Trust force. It pursues us everywhere. We are paying \$2 a ton more for coal than is necessary—perhaps \$2. Our high cost of living we joke about in public, and martyr our wives for in private. The railways own us body and soul and the street railway holds our note of hand for anything else we possess. The Liberals had 83 years in Ontario and 35 in the Dominion, and the Conservatives have had most of the rest of the time, and they have brought us to this state between them. And The Globe has been aiding and abetting since 1855 and now deplores the absence of constructive statesmanship, because, perhaps, it has been getting 1911 eggs out of cold storage, and would rather eat them and die than confess that the party racket is played out.

Constructive legislation to the average politician spells Socialism, and the interests want to save us from that fate.

TOWN PLANNING.

In 1910 the Housing and Town Planning Act of 1909 came into force in Britain, and has been taken advantage of by numerous municipalities. The town planning section enables local authorities to prepare a scheme affecting any land likely to be used for building purposes, having due regard to sanitary conditions, amenity and convenience, and providing for parks, spaces, recreation grounds and housing under the supervision of the local government board. Local authorities are given compulsory powers to remove or alter existing buildings and to acquire land subject to compensation for injury, but when property is enhanced in value any local authority is entitled to recover one-half the amount by which the value of the property is enhanced.

Last year the legislature of New Brunswick passed an act granting somewhat similar powers. As briefly summarized in the December number of Conservation, issued by the Dominion Commission of Conservation, it provides that:

"Any town or city council may prepare a town planning scheme, but before it is acted upon, it must be approved by the government. This, all future developments in the towns and cities of the province are carried out under government supervision; and ample provision has to be made for suitable traffic highways, proper sanitary conditions, open spaces for parks and playgrounds, the number and nature of buildings per acre, etc.

Local commissioners, appointed subject to government approval,

shall be the responsible authorities for supervising and development of new town areas. These commissioners are given important powers to compel conformity to the law, but private rights, when injured, must receive compensation.

Past experience, it is observed, has made it plain that "such regulations are, in the case of cities and towns are, essential if cities and towns are to be developed along sane and healthful lines. It would be to the advantage of the other provinces to follow the lead of New Brunswick in this important matter.

Toronto will tubulate shortly.

Canada is not exporting butter to England. But Denmark and Ireland are, and they have plenty of margarine over there also.

How do you like dasheens? Baked, boiled, fried or mashed? The dasheen is an aroid, and there are hundreds of varieties of them, and one of them, the hasu-lmo, can be eaten raw. The dasheen has a leaf like the "elephant's ear," and they grow twelve and a half tons to the acre. The dasheen is coming after the mурphy.

HOME LIFE ASSOCIATION OF CANADA.
 In another column of this issue will be found the statement of the Home Life Association of Canada for the year ending Dec. 31, 1912. At that date the net invested assets totaled \$1,441,033.39, and the net outstanding and deferred premiums, interest and dues, due and accrued, etc., were \$75,090.05, all in \$1,516,123.44. As against this were commissions payable, death claims awaiting completion, premiums and interest paid in advance, amounting to \$4,444.08, and reserves on policy contracts, surrendered on lapsed policies, and for depreciation of securities, standing at \$1,275,697.23, thus leaving a net surplus of policyholders' accounts of \$26,132.13. The total assets for security of policyholders comprise the reserves and surplus of \$1,691,715.36, and the capital subscribed, subject to call, of \$780,800, in all \$2,472,515.36.

The auditors report that the books, vouchers and securities have been correctly kept and are truly set forth in the statement.

SOCIAL SERVICE COMMISSION NOTICE.

It is the purpose of the Social Service Commission to issue cards of endorsement to charitable and philanthropic organizations of which the commission approves, which cards should be carried, and presented by the collectors of funds from the public. The commission requests the charitable public to assist the commission in this, one of their initial steps, by requiring presentation of the card of endorsement.

GRAIN-GROWERS' OFFICERS.

BRANDON, Jan. 9.—(Can. Press).—R. C. Henderson was re-elected president and G. S. Wood, vice-president, of the Manitoba Grain-Growers' Association this afternoon by a unanimous vote, no candidates being put in the field against them.

OUR LANGUAGE

From where the lights flash weird of nights on the igloo's icy side to the palm-fringed strands of the southern lands our speech runs free and wide, at our lips it talks we oft may balk the words we try to spell, yet our statements backed by a show of fact when we say "it is now in vain to scold our ancient sires in a way profane for the sounds in use by their fathers, yet we are not to be careless in haste, for the words which were made to spell and write they had never heard, and we built each word as best should please their sight. When a scene they'd paint there was no word in our language to describe it; they took a chance on such consonants as pleased their private views, the vowels placed without and there, so that he who reads from these early screeds must puzzle in their dark letters, and when we find we fail would drink from the ancient English loam, what a time the men of that day had when the gods were heard to speak. When some spiky word has our feelings stirred, and we're mad from lip to lip, let us not forget that our quest in vain for not quite in the awful plight of the lads in Chauver's school. Our feelings poor and hearty as they are, when the time drew nigh for the daily try at their Early English Prose. Sherwood Hart.

At Osgoode Hall ANNOUNCEMENTS.

January 9, 1913.
 To-day is the last day for entering appeals, and sixty-nine cases have been entered for the January sittings of the appellate division, commencing on 13th inst.

No further cases can be entered for the January sittings without leave, but cases proper for February court may be entered for that court.

Judge's chambers will be held on Friday, 10th inst., at 11 a.m.

Master's Chambers.
 Before J. S. Cartwright, K.C. Master. Spitzer Brothers v. Union Bank—T. Moss for plaintiffs, D. W. Saunders, K.C. for defendants. Motion by plaintiffs for an order for production by defendant of all books, etc., appertaining to the questions at issue between the parties.

Judgment—The plaintiffs should give now such particulars as they are able to furnish with leave to serve further particulars as they may come to their knowledge, and defendants should attend to the inspection of such of the cheques, etc., as are in plaintiffs' possession. Time for delivery of statement of defence to run from such inspection. Costs of this motion to defendants in the case.

Hutchison v. Miller—Tennent (Hunters and H.) for defendant. Motion by defendant for an order vacating certificates of lien and his pendens, the claim having been paid. Order made. Loveland v. McNamara—J. T. White for plaintiff, H. Howitt for defendant. Motion for plaintiff for an order adding defendant as a party plaintiff in his consent filed.

Order made. Costs to defendant in any event. Edgewood v. Allen—F. Aylesworth for defendant, W. H. McFadden, K.C. for third party. Wildfield (Anderson and McM.) for plaintiff. Motion by defendant for an order for directions of trial of third party issue. Usual order made. Costs to plaintiff in any event, and as between defendant and third party in the third party proceedings.

Clarke v. Campion—H. J. Martin for plaintiff, R. U. McPherson for defendant. Motion by plaintiff for judgment under C.R. 603.

At defendant's request motion enlarged until 15th inst.

Single Courts.

Before Meredith C. J.
 Ontario Bank v. Taylor—M. L. Gordon for plaintiff, S. Denison, K.C. for defendant. Taylor v. Martin for defendant. Hamilton. Motion by plaintiff for an injunction. By consent of parties motion enlarged until 13th inst. all preliminary objections reserved.

Winchell v. Frank—J. A. Macintosh for plaintiff, J. A. McEvoy for defendant. A. Frank, M. H. Ludwig, K.C. for third party. Motion by plaintiffs for an order continuing injunction herein.

By consent motion enlarged for two weeks. Injunction continued meantime. Phillips v. Phillips—J. A. Macintosh for plaintiff, J. F. Boland for Bank of Ottawa. No one for defendant. Phillips. Motion by plaintiff for an order continuing injunction herein. Motion enlarged until 13th inst. Injunction continued meantime.

Loveland v. McNamara—J. T. White for plaintiff, R. McKay, K.C. for defendants. Motion by plaintiff for an order for receiver and injunction. Men enlarged for one week. Collis v. Rotkin—W. J. McLarty for plaintiff. No one contra. Motion by defendant for judgment upon an award. Order that plaintiff be at leave to enforce award as tho it were a judgment. Judgment for plaintiff.

Abell v. City of Toronto—A. Moss for plaintiffs, C. M. Colquhoun for the city, J. E. Jones for the Canadian Ry. Co. Motion by plaintiffs for an order restraining defendant from closing the street known as Abell street in the city of Toronto. Motion enlarged to trial, the defendant, the Canadian Ry. Co., undertaking to speed trial. Injunction not continued meantime.

Trial.

Before Britton, J.
 Lindsey v. Le Sueur—J. F. Heilmuth, K.C. for plaintiff, G. F. Shepley, K. C. and H. P. Hill (Ottawa) for defendant. An action by G. S. Lindsey, son and executor of the estate of Charles Lindsey, a son-in-law of the late William Lyon Mackenzie, to compel delivery by the defendant, W. D. Le Sueur, an author of Ottawa, of certain documents and extracts which the defendant now has, and which he obtained from the collection of the late William Lyon Mackenzie for the purpose of writing this book, and it is alleged represented that the work would be entered upon by him in sympathy with the character he was to depict. Upon this representation plaintiff allowed defendant free access to the papers, and for months resided in plaintiff's house, obtaining the information sought. Defendant completed his manuscript, sent it to Morang & Co., and it was rejected, plaintiff says, because it was partisan and unfair. The conduct of defendant warranted plaintiff and Charles Lindsey in thinking that defendant intended to write William Lyon Mackenzie as one of the men who can fairly be called, speaking colloquially, one of "The Makers of Canada."

I find, as a fact, that defendant gave the Lindseys to understand that his views and feelings towards Mackenzie were friendly, that his attitude in presenting Mackenzie to the public was friendly, and that he had no feeling or opinion which would prevent him as a writer from truly presenting the facts and circumstances of Mackenzie's life and character. At the time of defendant's arrangement with plaintiff, the defendant did hold strong views against Mackenzie, and intended to write of Mackenzie, not as one of the makers of Canada, but as a "puller down."

If defendant obtained possession of the only double-track line, making connections with through trains for the south. Full particulars, berth reservations and tickets may be secured at Grand Trunk ticket offices; Toronto city office, northwest corner King and Yonge streets. Phone Main 4209.

PREACH GOSPEL OF TAX REFORM
 N. W. Rowell Will Make a Short Tour Before the Opening of the Legislature.
 N. W. Rowell, K.C., leader of the Ontario opposition, and a number of his colleagues will begin a tour shortly, the whole history of the tax reform doctrine of tax reform. The Liberal members will address four or five public meetings before the opening of the session. Mr. Rowell of the opinion that the vote for assessment reform in Toronto was one of the most encouraging and significant signs in the whole history of the tax reform movement in Ontario. He believes that it was a very emphatic condemnation of the "autocratic and unprogressive attitude of the present" on this important question. It shows that Sir Jas. Whitney has commenced to realize the strength and volume of the protest not only by the press of his party, but by all classes of citizens, he said.

HALF A MILLION FROM THE T. & N. O.
 Provincial Government Railway Earned That Amount Net During the Last Fiscal Year.
 The total net revenue of the Ontario Government railway—the T. & N. O.—for the past year amounted to \$529,933. This fact was given out yesterday by the provincial treasurer, Col. Matheson. The gross operating revenue was \$1,707,450; the operating expenses, \$1,177,517; the net operating revenue being \$529,933. The revenue from one source was \$125,500 and townships \$77,831, making the total of \$529,933. The fixed charges are \$750,000.

CHRISTIAN SCIENTIST FOUND DEAD.
 LONDON, Jan. 9.—W. N. Miller, formerly president of the Christian Science Church, was found dead today in an armchair in a room adjoining the church. Mr. Miller was born in Nova Scotia.

Historical Tablet at Niagara
 (Special.)—James Munro of this city has placed upon the old masonry wall at Niagara-on-the-Lake for the Niagara Historical Society, which restored the building, a tablet with the date of erection and restoration. Governor Simcoe occupied the building in 1785, when Niagara, then Newark, was the capital of Upper Canada.

FLOODS IN OHIO GETTING SERIOUS
 City of Wheeling Is Cut Off and Ten Thousand Men Are Idle.

BIG LOSS IN PITTSBURG
 Hundreds of Homes Are Flooded and Scores of Manufacturing Plants Are Closed Down.

WHEELING, W. Va., Jan. 9.—(Can. Press.)—The Ohio River reached a stage slightly under 44 feet tonight, and this city is in the midst of its most disastrous flood, with the exception of the visitations of 1854 and 1907. Tonight the Baltimore and Ohio Railway brought its last passenger train from the east. The train ploughed through 15 inches of water for a quarter of a mile before reaching the station. Railroads, trolley lines and steamboats are all out of commission, and the city is practically isolated from the outside world.

PITTSBURG, Jan. 9.—(Can. Press.)—The crest of the river flood reached here today with a stage of 31.3 feet, eleven feet over the danger mark. Tonight the water is receding. A large area, including a number of streets in the business district, suffered inundation, and the loss is heavy.

PUBLIC NOTICE
 We have in stock for the purpose of sale, two put up in balls made by us in accordance with Canadian Letters Patent Number 10721, issued for new and useful improvements in balls of twine. These balls are so wound that in unwinding they will not be come matted or tangled. Special prices will be quoted upon large quantities. Dated at Toronto this 25th day of January, 1913.

JOHN LECHE, LIMITED
 11 Wellington Street West, Toronto

THE WEATHER

8 p.m.—A pronounced area of high pressure over the Atlantic coast states and another, accompanied by decidedly low temperatures, is centered over the western provinces. The weather today has been for the most part fair and quite cool, from the lake region to the maritime provinces.

Street Car Delays.
 Thursday, Jan. 9, 1913.
 12.05 p.m.—Sleigh on track at Markham street; 5 minutes' delay to eastbound Queen cars.
 9.01 a.m.—Held by train, 6 minutes' delay to King cars.
 5.19 p.m.—College and Yonge auto stuck on track; 5 minutes' delay to westbound College and Carlton cars.
 7.14 p.m.—G.T.R. crossing, Front and John, held by westward train; 5 minutes' delay to Bathurst cars.
 7.47 p.m.—G.T.R. crossing, Front and John, held by train; 6 minutes' delay to Bathurst cars.
 7.55 p.m.—G.T.R. crossing, Front and John, held by train; 4 minutes' delay to Bathurst cars.
 8.49 p.m.—G.T.R. crossing, Front and John, held by train; 9 minutes' delay to Bathurst cars.

BIRTHS.
 HEPBURN—On Thursday, Jan. 2, 1913, to Mr. and Mrs. John T. Hepburn, a son, stillborn.

MARRIAGES.
 GRAHAM—MORRIS—On Thursday, Jan. 9th, 1913, by the Rev. David Lang, at Bloor street Presbyterian Church, Jessie Galletly, eldest daughter of Mr. and Mrs. Alexander Ritchie Morris of Hamilton, Ontario, to Robert Philip David Graham, Toronto, eldest son of David Graham, Hamilton, Ont.

DEATHS.
 CAMPBELL—On Thursday, Jan. 9, 1913, at the residence of his son-in-law, J. McMaster, 14 Sylvan avenue, Toronto, Thomas Campbell, in his 92nd year.
 Intermment on Saturday afternoon at Mount Pleasant Cemetery. Funeral private.
 CLARKE—On Wednesday, Jan. 8, 1913, at St. Michael's Hospital, William F. Clarke, in his 65th year.
 Funeral from his late residence, 148 Spruce street, Friday, the 10th inst., at 4 p.m., to St. James Cemetery.
 DREW—At Guelph, on Wednesday, Jan. 8, 1913, Maria Louisa, widow of Geo. A. Drew, Esq., Judge of the County of Wellington, in her 78th year.
 Funeral from her late residence on Saturday, the 11th inst., at 3.15 p.m., to St. James Church, where the service will be held at 3.30, thence to St. George's Cemetery.
 HEPBURN—On Saturday, Jan. 4th, 1913, 508 Ossington avenue, Catharine C. Douglas, beloved wife of John T. Hepburn, aged 35 years.
 Funeral on Friday, 10th inst., at 2.30 p.m., to Mount Pleasant Cemetery.
 LAWSON—On Jan. 8th, 1913, at her late residence, Highland Creek, Rachel Taylor Lawson.
 Funeral from the above address on Saturday, at 2 p.m., to West Hill Cemetery, Melville.

MASON—At Markham, on Thursday, Jan. 9, 1913, of pneumonia, Robin Mason, druggist, beloved son of Arthur and Evelyn Mason.
 Intermment Saturday, at 2 p.m., Crawford street, Agnes Watson, in her 67th year.
 Funeral Saturday, Jan. 11, at 2 p.m., to Mount Pleasant Cemetery.

FRED. W. MATTHEWS
 FUNERAL DIRECTOR

 MOTOR AMBULANCE SERVICE
 NEW DAILY FOR SARNIA.

SARNIA, Jan. 9.—(Can. Press.)—It is stated that a new daily paper is to start in Sarnia within a few months. No doubt another daily paper could be had if there were sufficient subscribers. The town is now growing rapidly and a second daily would be a benefit. It is stated that a number of prominent business men of Sarnia are willing to take stock in the new venture.

WOULD REMOVE SARNIA OFFICIAL.
 SARNIA, Jan. 9.—(Can. Press.)—It is rumored here that a petition is soon to be circulated in Sarnia asking for the resignation of one of the officials at the town hall.

BANK'S PROFITS LIKE BRITISH STEAMER WEALTH OF ALADDIN

In Four Years First National Bank Paid Dividends of Two Hundred and Twenty-Six Per Cent.
PRACTICES DEFENDED
 George F. Baker Sees No Real Harm in Interlocking Directorates, He Tells Investigators.

WASHINGTON, Jan. 9.—(Can. Press.)—Enormous profits by the First National Bank of New York City were recounted today by George F. Baker, chairman of the board of directors of the bank, as a witness before the house money trust committee. Mr. Baker furnished the committee with records showing that since its organization in 1863, with a capital of \$500,000, the bank has made profits amounting to more than \$30,000,000.

In the four years since 1908, Mr. Baker told the committee, the bank had paid dividends of 226 per cent, or more than twice the total capitalization, which is now \$10,000,000. When the capital was increased in 1901, a special dividend of \$3,500,000 was declared, Mr. Baker said, to enable the stockholders to take up the additional investment. In 1908, in order to provide \$10,000,000 of cash for the organization of the First Securities Co. to take over the business, "which the bank did not do under the law," Mr. Baker said, a special dividend of \$10,000,000 was declared. This was in addition to the regular yearly dividend.

Samuel Undermyer, counsel for the committee, from the figures supplied by Mr. Baker, calculated that the First National in 1878, that institution has paid dividends of 18,550 per cent on its original capitalization. "Shrink From Publicity," Mr. Baker flatly opposed the suggestion made by Mr. Undermyer, lawyer, to make public the assets of the bank and its stockholders might know the nature of securities held by the bank. Mr. Baker declared that he saw no possible good that could come of such a provision.

"That there is no impropriety in one man holding directorships in two or more potentially competitive banks, railroads or industrial corporations, is a matter of fact," Mr. Baker said. "It is a matter of fact that the directors of the bank are not in a position to disclose the nature of securities held by the bank. It is a matter of fact that the directors of the bank are not in a position to disclose the nature of securities held by the bank."

Disapproves "Voting Trust"
 The witness did not object to the "voting trust" form of control of corporations, by which the stockholders turn over their voting rights to a committee of directors, but he would disapprove of it if stockholders desired it. He further said that the voting directors of the bank are not in a position to disclose the nature of securities held by the bank.

Interlocking Directorates.
 Mr. Baker stated that his bank and the National Bank of Commerce, J. P. Morgan & Co. had three directors in common. He said that the interlocking directorates of the bank and the National Bank of Commerce, J. P. Morgan & Co. had three directors in common.

THREE PROMOTERS FOUND GUILTY.
 NEW YORK, Jan. 9.—(Can. Press.)—Cameron Spear, Charles L. Turney and C. A. Foster, who were charged with the federal court charged with using the mails to defraud in the promotion of a company to sell shares of stock, were found guilty tonight of all five counts in the indictment. Real was found not guilty.

GRAVE FEARS FOR SAFETY OF SNOWDON RANGER WITH ITS CREW OF FORTY MEN.

PHILADELPHIA, Jan. 9.—(Canadian Press.)—Fears that have been entertained regard the safety of the overdue British steamship Snowdon Range, which sailed from here Nov. 23 for Leith, were intensified today when the captain of the Swedish steamship Vesterland reported that on Dec. 19, when about 700 miles west of Scotland, he saw a steamship burning blue lights and sending up rockets. At 4 o'clock on the morning of the 19th Capt. Christiansen of the Vesterland said he was in communication with the vessel on the 19th. The vessel was bound from Philadelphia for Leith and wanted to be towed to Belfast. The disabled steamship signaled its rudder was broken, that all lifeboats had been swept away in a storm and that it had been rolling in heavy seas in this condition for 14 days.

The vessel was unable to take the other boat in tow, but offered to take off the crew. This offer, the skipper of the Vesterland said, was refused, and the steamship soon lost sight of each other. The Snowdon Range is about eight days overdue and carried crew of nearly forty men. It was loaded with a general cargo.

PACIFIC COAST SWEEP BY TREMENDOUS SEAS

ASTORIA, Ore., Jan. 9.—(Canadian Press.)—As the two survivors of the lost steamer Rosecrans crossed the bar today on their way to Seattle, they saw 32 of their shipmates smother in the surf, they watched the steam schooner Westerner overwhelmed by a huge wave. When she righted her bulwarks had been swept away and her deckload of lumber was floating in the entrance to the Columbia River. No survivors were seen.

Tremendous seas were pounding the North Pacific coast today, although the furious gale of yesterday has abated, and vessels were in trouble wherever they tried to cross the breaking bars. At Portland anxiety was felt for the steam schooner Rochelle, in ballast on her way to Seattle, and 48 hours overdue, with 15 men on board. The lumber carrier Fifield, bound for San Francisco, lost her deckload of Cape Blanco, on the Oregon coast.

SCHOONER MAY BE LOST.
 ROCKLAND, Maine, Jan. 9.—(Can. Press.)—Driven ashore on the Fiddler, a dangerous reef near North Haven, was the steam schooner Lena White, bound for New York from Whiting, Maine, will probably be a total loss. When the vessel struck last night, a short distance from the reef. They will be brought here by a tug tonight.

College Buys the Rutherford Home
 Property Adjoining Haverall College on Jarvis Street to Be Used For Extension of Playgrounds.

Haverall Ladies' College has purchased the Rutherford home at 373 Jarvis street and has remodelled the house for use as a teachers' residence. The grounds will be turned into tennis courts and skating rinks. The Rutherford property is adjoined at the south by the college buildings, and at the east by the Rutherford home. The purchase price was \$75,000 for the land which has a Jarvis street frontage of 209 feet, and a depth of 175 feet.

"PANTHER" IS SAFE.
 Unfounded Reports Gave Rise to Grave Alarm.
 WASHINGTON, Jan. 9.—(Can. Press.)—The "Panther," a naval repair boat, proceeded to Cape Cruz, on the southern coast of Cuba, and will be on duty for torpedo practice to be part of the winter manoeuvres of the Atlantic fleet.

RETAILERS WANT PAID QUARTER MILLION FOR HILLCREST ACREAGE

Northcliffe Land Development Company Have Bought a Tract on Davenport Road Just East of Dufferin Street—Paid Ten Thousand Dollars an Acre.

Paying \$10,000 an acre, the Northcliffe Land Development Company, promoted by Goulding and Hamilton, has purchased 25 acres of the Bull estate property on the north side of Davenport road, just east of Dufferin street, running to within a block of St. Clair and west of Springmount avenue. The tract is the last piece of one of vacant land on the edge of the hill above the city. The Turney estate east of Ossington has still 32 acres unsold.

The estate of T. H. Bull, the lawyer, who died six or seven weeks ago, sold 31-2 acres E. E. Bull, a nephew, eight acres, and Armstrong and Cook, 81-2 acres. The property will be subdivided and sold in the spring by Goulding and Hamilton, at prices ranging from \$40 to \$150, the last for the billow frontage.

"OLYMPIC" PLACED IN A NEW SKIN
 Sister Ship of Late Titanic Will Embody Every Modern Marine Engineering Device.

NEW YORK, Jan. 8.—The White Star Line has received cable advice from Liverpool today regarding the progress made in the important construction work on the mammoth steamship "Olympic" now at the Belfast yards of Harland and Wolff, and the steamer has now been definitely scheduled to leave Southampton on April 2 sailing from New York on the return trip April 12, for Plymouth, Cherbourg and Southampton.

The chief object of the construction work, which will entail an enormous expense, is the introduction of an inner skin of heavy steel plates, covering throughout the hull. The present published reports to the effect that oil fuel would be transported between the outer and inner plates of the "Olympic" is entirely unfounded. Coal will continue to be used as the only fuel for the big steamer.

"Olympic" will embody everything that modern marine engineering can devise. The recent published reports to the effect that oil fuel would be transported between the outer and inner plates of the "Olympic" is entirely unfounded. Coal will continue to be used as the only fuel for the big steamer.

Similar safeguards are being introduced into the new "Britannic," the 8th Arcturion Brigade, Ottawa, will succeed the late Gen. Drury as commander of the 6th division, Halifax, N. S.

TWO SALES OF CORNER LOTS

St. Clair and Appleton Buy Was Profitable—Corner of Home-wood Sale.

The north-east corner of Appleton and St. Clair avenues has been sold to a Moorefield man by M. Barber, broker, at \$10,000, giving the vendor \$8,500 profit in four and a half months.

The frontage is 110 feet, and the depth 200 feet. John D. Ivey has sold his home at 123 Carlton street, the west corner of Home-wood avenue, to T. E. Harter for \$15,000. The lot is 23 feet 10 inches by 139 feet, and the total assessment \$15,000.

TORONTO SHOULD GIVE SOME MONEY
 To Assist in the Maintenance of the University, Says President Falconer.

President Falconer, of Toronto University, took the opportunity while addressing the Empire Club at McCowen's yesterday on "Universities of the Empire," to declare his opinion that the city of Toronto should contribute to the maintenance of the cost of learning which is located here. The speaker's remarks dealt chiefly with the visit to England last summer, when he attended the proceedings of the Congress of the Universities of the Empire. He stated that at the conclusion of his formal congress the delegates made a tour of England and Scotland, paying visits to all the leading universities of both countries.

"What particularly struck me," said President Falconer, "was the manner in which these seats of higher learning in the large cities of the provinces were supported by the municipalities. For example, Manchester contributes £16,000, and Birmingham, I think, £14,000. The lesson should not be lost on us. If these cities of the old land are willing to act so generously toward their respective universities, I think that we have reason to hope that some day Toronto as a city may see its way clear to do something substantial for our university."

MAY PARALYZE TEXTILE TRADE.
 LONDON, Jan. 9.—(Can. Press.)—The textile trade in Yorkshire is in danger of coming to a standstill through a strike of dyers for higher wages. Six thousand dyers have quit work in the Bradford district; 5000 more have given notice that they will quit in a week. The employers are unwilling to grant the increase demanded, but they want to impose a system of piecework, to which the dyers are opposed.

LT.-COL. MORRISON MAY SUCCEED.
 KINGSTON, Jan. 9.—(Special.)—A report here says that Lt.-Col. E. W. B. Morrison, Ottawa, officer commanding the 8th Arcturion Brigade, Ottawa, will succeed the late Gen. Drury as commander of the 6th division, Halifax, N. S.

A Hot Dish for a Cold Day
 It is not easy to warm a poorly nourished body. Heat and strength do not come from overcoats or flannels. Bodily warmth and vigor come from foods that are rich in blood-making, tissue-building material.

SHREDED WHEAT

is all fuel-food—no waste, no indigestible material to clog the system and tax the vitality. Two Shredded Wheat Biscuits, heated in the oven and served with hot milk and a little cream, for breakfast, will supply all the heat and strength needed for a half day's work. Not "pre-digested," but "ready-to-digest," not compounded, flavored or "treated" with anything—just plain, whole wheat, steam-cooked, shredded and baked a crisp, golden brown. It makes delicious combinations with baked apples, stewed prunes or other fruits, fresh or preserved.

REMARKABLE STRIDES MADE BY CANADA'S BIGGEST FAIR

Despite Adverse Weather Conditions, the Canadian National Exhibition Last Year Showed an Increased Profit, According to Annual Report Published Complete Yesterday.

The exhibition of 1912 faced adverse weather conditions and yet came through with an increased profit. While the wet season and its accompanying late harvest kept the farmers at the attendance, says the report, the financial report gives evidence that the increase in the number of animals shown on the grounds despite the drizzling rain on Labor Day were the greatest on record.

The report reads in part: "While the improvements of 1911 added more to the appearance of the grounds than anything previously done, it remained for 1912 to add to the work in such a way that the exhibition city drew its tribute of admiration from almost every visitor. The new Dufferin museum, striking and start the stranger through the gates in a frame of mind to appreciate the magnitude and completeness of the exhibition. The new government building is one of the finest on the grounds and the fact that the Dominion Government contributed \$100,000 and the Ontario Government \$25,000 towards its construction, official recognition of the national scope of the exhibition. The new police and fire station, in addition to its ornate appearance, provides comfortable quarters for two bodies of men whose efficiency entitles them to the best of the exhibition. The article in manner in which the park department had laid out the grounds with flower beds and shrubbery is also worthy of special mention, as well as the attention given to cleanliness and order.

The depression of the railway tracks by the Grand Trunk Railway has added much to the appearance as well as the safety and convenience of the Dufferin street entrance.

The accommodation for exhibition visitors leaves nothing to be desired, while the sidings for loading and unloading stock and other heavy exhibits are vastly improved. The Grand Trunk deerskins department, in addition to the substantial and attractive character of this great improvement.

The various criticisms have given rise to a suspicion that the live stock department is deteriorating. It is well to remember that in 1911 we had more live stock than we could accommodate. There was a falling off this year so far as the number of animals shown, but the same is true of all the other larger exhibitions. This is accounted for by the wet season and the farmer—the small exhibitor—at home and also by the scarcity of high-class stock in Ontario. Quality was again a feature of this year's fair, the parade of prize-winners on review day making a fine display of high-class horses and cattle as was ever seen in Canada. However, your board recognizes the fact that the need for improvement and a movement is now under way which we hope will leave no room for complaint in 1913.

The judging this year was above the average, and your board wishes especially to commend the system followed by Mr. Copland in judging Short-horns and Clydes, who marked in his book opposite the animal the reasons for his decisions.

Horses.

This year a change was made whereby an entire breed is judged each day, giving a chance to see the breed in its entirety in one day. The change is a decided improvement. The thoroughness probably provoked most comment. They were strong individuals.

Now Feels Strong and Vigorous

And Fit for Any Amount of Work as the Result of Using Dr. Chase's Nerve Food.

It is so easy to overlook the warning given by headaches, indigestion, falling memory, lack of energy, to concentrate the mind, irritability and worry over little things, that many a man does not realize the danger until on the verge of breakdown.

Like the writer of the letter quoted below, you can call a halt to the wasting process and restore vim and energy to the nervous system by using Dr. Chase's Nerve Food. This great food cure has a wonderful record of cures.

Mr. J. Hurlbert, 28 James street, Toronto, Ont., writes: "I was very much run down in health and as a consequence my nervous system was very much exhausted. Close confinement at my work, I think, brought on the trouble. The continued use of this preparation has thoroughly restored my system so that I feel strong and vigorous and fit for any amount of work. I have also used Dr. Chase's Kidney-Liver Pills and Ointment with splendid results and recommend them at every opportunity." Dr. Chase's Nerve Food, 50 cents a box, all dealers or Edmondson Bates & Co., Limited, Toronto.

dually and numerically, and the exhibit far outclassed anything seen in previous years. Clydesdales showed a falling off in numbers, but the quality improved up to the high standard of former exhibitions. Shires were stronger than last year, and some of the best animals of any breed on the grounds. Hackneys were light in the breeding classes, in harness horses the show was as strong as ever before. Standard breeds, thoroughbreds, roadsters and hackneys all had their quota of beauty. It was an exhibit that could not fail to satisfy horse lovers.

Cattle.

In the dairy breeds, Ayrshires showed a heavy falling off numerically, but the quality was as good as ever seen at the fair. Holsteins, practically equal in numbers to last year's record, in quality were superior to anything previously shown at Toronto. Jerseys, the exhibitors were few, had some well filled classes, and again the quality was of a very high order.

In the beef cattle, Shorthorns showed a falling off in numbers, but the quality of the nonbreed stock was from Manitoba, Saskatchewan and Alberta, as well as Ontario, while the class was quite as high in quality as that of any former year. Aberdeens were not out in large numbers, but the competition was keen in all the most every class. Galloways showed a falling off in entries, as also did grade and fat cattle.

While there have been more sheep in the pens at some previous exhibitions, the exhibits of nonbreed stock were especially strong, and were quite up to last year's imported stock. Foot and mouth disease, in the old country, has been a constant menace, and has been a stimulus to the sheep-breeding industry of Canada.

There were some empty pens in the swine section this year, but the exhibition may seem monotonous, but certainly was no falling-off in quality. The most prominent breeders of the country fought it out in the different classes, the small exhibitors apparently being at home looking after the harvest.

The dairy exhibits were one section of the agricultural department which showed a decided improvement. Entries came from as far west as British Columbia, and as far east as Eastern Quebec. There were about 100 more entries in the cheese classes than in 1911, and nearly as many more in butter. The Quebec exhibits got most of the butter prizes, the scores on both butter and cheese were high, and the results very close. The butter-making contests also brought keen competition, and excited wide interest.

Fowls and Poultry.

There was a falling-off in the entries in this department, in sympathy with most other agricultural departments, but the number of creditable all breeds being well represented, and the prize winners birds that would be at home in any kind of competition. The stock was just above the average of other years.

Art Building.

The display of paintings in the art gallery this year included collections from England, France and the United States. It comprised many famous paintings, and the average of merit, according to the critics, was well above that of any previous year. So popular has this department become that by general request it was decided to make it possible for art lovers to view the pictures in comfort, by improving the display of the paintings. This was done by the addition of certain hours. This not only proved popular, but added a considerable sum to the revenue of the exhibition. At other points, worthy of special mention is the increase in the number of total sales of the exhibition, and evidence that in the near future the art galleries of our exhibition will be the popular places on the continent for art lovers who wish to add to their collections.

That the applied art building has a length come into its own as one of the attractions of the exhibition was shown by the crowds that thronged it every day. The original sketches by the leading black and white artists of this continent and Europe brought not only numerous admirers, but many graphic and applied art and architectural drawings were there in exceptional merit, that the display from every standpoint could only be termed an unqualified success.

Government Building.

That the government building came to fill a long-felt want was evidenced by the display of natural resources of Canada, that found space between its walls. The provinces represented were British Columbia, Saskatchewan, Manitoba, and Ontario, and the fact that they were allowed to put up fixtures of a permanent nature led them to go to greater expense to make their exhibits complete. With Ontario's great pyramid of sheaves as a centerpiece, the display spread out into everything that goes to make Canada the granary of the empire. It is also worthy of note that the West India Islands were represented by most interesting exhibits of their products and manufactures, which deservedly attracted a great deal of attention.

Public school exhibits from Vancouver were pleasing proof that the educational department is widening its scope and becoming as national as the older departments of the exhibition. And in truth the educational display of this year occupied the south wing of the government building left little to be desired.

It comprised dergarten to the college, including interesting and instructive exhibits by the Ontario Board of Health. A noted addition to the natural history display was a live exhibit of sea reptiles and insects, which was both instructive and attractive. This department grows more comprehensive every year, and is now one of the most important of the exhibition.

Dogs and Cats.

The dog show this year was the largest in the history of the exhibi-

Letter Box Outrages ARE HEAVILY PUNISHED

LONDON, Jan. 9.—(Can. Press.)—Long sentences were passed today on two of the militant suffragettes, many of whom in recent months have engaged in a campaign of destruction of the mails. May Billingham and Louisa Gay, two of the first to be arrested in connection with these outrages, were brought up for trial at the Old Bailey today and condemned to eight months' imprisonment each.

May Billingham, who is a cripple and is unable to get about except in a tricycle, already has been imprisoned on several occasions in connection with the suffrage campaign.

REGRET DEAKIN'S RETIREMENT.

MELBOURNE, Jan. 9.—(C. A. P.)—The resignation of Alfred Deakin, opposition leader, on account of ill-health has been received with regret on all sides. For 27 years he has played a prominent part in Australian affairs, and his countrymen consider him the best-known dominion statesman next to Sir Wilfrid Laurier. His successor as opposition leader will probably be Mr. Cookhead of the free trade wing.

Ward One—100,000.

Ald. Robbins has given notice of motion for the passage of a bylaw dividing Ward One at Greenwood ave. with the object of securing additional representation. This change could not become effective for a year, said Mr. Robbins. "By that time Ward One will have a population of 100,000."

DR. A. W. CHASE'S 25c CATARIN POWDER 25c.

It is directed to the diseased parts by the action of the air passages, stops drops in the throat and relieves the eyes. It is a new discovery and has been found to be a most effective remedy for all cases of Catarrh of the Throat, Larynx, and Bronchi. It is a most effective remedy for all cases of Catarrh of the Throat, Larynx, and Bronchi. It is a most effective remedy for all cases of Catarrh of the Throat, Larynx, and Bronchi.

EMPLOYERS' LIABILITY REDUCES NUMBER OF ACCIDENTS NEARLY

Tendency to Raise Rates When Carelessness Is Shown Creates More Regard For Employes by Employers, Says F. W. Hinsdale of Washington — His System Is to Assess For Temporary Disablement on Current Cost and Pensions For Widows by Capitalized Cost.

F. W. Hinsdale, chief auditor of the Washington State Workmen's Compensation Commission, appeared before Sir William Meredith, at the parliament buildings yesterday, in order to answer the criticisms of Mr. C. P. Tecumseh Sherman, the New York expert, who was called to give evidence before the local commission. He also had valuable information which will prove of some use to Ontario.

Mr. Hinsdale was questioned by all those representing the different bodies affected. "How System Works." "Can you give your system works?" asked F. W. Wegener. "The industries are divided into 40 factors and the rates are assessed according to the operation of each, according to hazard. The initial premiums are made chargeable at the average rate of 1 1/2 per cent. of the wages for the first year and we automatically call for more money as it is needed, said the western expert.

"What about your funds?" asked Mr. Wegener. "They have been sufficient so far," said he, "but, of course, we cannot speak authoritatively on that as we have not been in operation for more than a year. "On what basis do you compensate for disability or death?"

"We set aside \$4000 as a reserve fund, invested at about 5 per cent, which we pay to a widow of 50 years of age. This is the basis on which we work. Of course, there is some difficulty in the case of a child as age is concerned. Our law provides that if a widow remarries, she is a quit claim, one year's pension is given to her and the children are looked after up to the age specified."

"In the case of temporary disability, we do not pay, but we do pay periodically in the case of the disability lasts, but the case of a lost arm or leg we usually pay the amount in full at once. "Gaining Experience. "Mr. Wegener—"What about increased rates?"

"Mr. Hinsdale—"The law has not been in operation very long, therefore it is too early to say. We expect the rate first, and then call for additional assessments according to increased liability when such exist. "Have any losses occurred?"

"Well, some people have assigned when a judgment has been made against them. This would make such a judgment practically worthless. Our law does not demand that an employer should come and tell us what his pay roll is. Another thing is this, when a judgment is given and a man refuses to pay, we have to take action against him."

"What has been your experience with employers of short term labor?" "We, of course, cannot imagine an employer of labor not doing anything towards protecting his employees by installing every device possible. Legislation gives rise to class organization according to industry. These employers will eventually get together and employ inspectors to look after their own interests. This, of course, results in reduction of accidents and consequent reduction in the amount of the insurance cost out of the business class."

9th Annual January Sale

A Sale of Scotch, Irish and West of England Tweed Suitings

\$22.50 Regular prices \$45.00, \$40.00, \$36.00, \$31.50, \$27.00 and \$25.00

This is a quick sale. One must take advantage of it early, to secure the choicest selection. The quality of these suitings, the great saving in price, make it imperative for you to act at once, if you want one or more of these suits at this remarkable low figure.

We keep only one class of cutters—the best; only one class of tailors—the best; and we adhere strictly to a standard which requires that every Broderick suit, irrespective of price, shall have the Broderick individuality in its lines.
