## PASSING OF TARIFF BILL BY LAFOLLETTE AND POINDEXTER DEMOCRATS ARE HIGHLY ELATED

Senate Gives Majority of Thirteen for Revision Measure, Two Louisiana Democrats Bolting on Free Sugar—Conferees From Both Houses Will Adjust Details Speedily.

WASHINGTON, Sept. 9.—(Can. Press.)—The Democratic tariff revision bill passed the senate at 4:43 o'clock this afternoon, amid a burst of applause that swept down from the crowded galleries and found its echo in the crowded floor of the senate. Its passage, by a vote of 44 to 37, was attended with surprises in the final moments of the voting, when Senator Lafollette, Republican, cast his vote with the Democrats, and was joined a few moments later by Senator Poindexter, Progressive.

The Democrats had counted through the long tariff fight on losing the votes of Senators Ransdell and Thornton of Louisiana. Democrats who voted against the bill today because it would put sugar on the free list. Until the names of Senators Lafollette and Poindexter were actually called, however, no one knew definitely the stand they would take, and their votes were greeted with enthusiastic applause.

Will Stimulate Business. President Wilson tonight expressed great gratification over the end of the long struggle in the senate. Senator Simmons, chairman of the finance committee who had piloted the bill thru the finance committee, the Democratic caucus and the senate, predicted that its passage would bring immediate stimulus to the business of the country.

As it passed the senate, the tariff bill represents an average reduction of more than four per cent. from the rates of the original bill that passed the house, and nearly 23 per cent. from the rates of existing law. In many important particulars the senate has changed the bill that passed the house, and a conference committee of the two houses will begin work Wednesday or Thursday to adjust these differences. Leaders of

(Continued on Page 7, Column 6.)

## ANTI-JAPANESE FEELING STRONG

Government of China Conciliatory, But Unable to Repress People—Consul's Messenger Assaulted.

PEKIN, Sept. 9.—(Can. Press.)—The Japanese consul at Nanking, today reported to the Japanese legation here another anti-Japanese incident at Nanking. As the consul's messenger carrying a small flag, designating his nationality, was traveling thru the city yesterday, he was assaulted by Chinese soldiers. They took from him the Japanese flag, and after tearing it up, trampled the pieces underfoot.

The situation in Nanking apparently does not alarm the Pekin Government. The Chinese officials, realizing the country's feebleness, expressed a willingness to accede, to any demands that Japan may make. The authorities, however, seem unable to prevent the prevailing anti-Japanese feeling from breaking out occasionally.

The hope of the Chinese, it is felt in foreign circles here, reposes largely in the preamble of the Anglo-Japanese alliance, government officials believing that Great Britain does not desire Japanese aggression. The Japanese legation here still is without instructions with regard to formulating demands to be made on the Chinese Government in reparation for the killing of several Japanese subjects in Nanking, recently, but it is expected they will be severe.

An Interesting Millinery Opening. The opening of Dineen's millinery parlors for the autumn season is announced for today. The Dineen selection of ladies' hats is always exclusive, and the styles for this season are exceptionally tasteful. The designs are adapted with the fashionable color yellow and black, employing such lustrous materials, as velvet, plush and fur. The small hat is still in vogue in soft and flexible shapes, with the brim sharply turned. An early visit to the Dineen Millinery Parlors will prove interesting to lady shoppers. The W. & D. Dineen Company, 140 Yonge street, have made their usual careful preparations for this event.

## Fire Wipes Out Village

NORTH BAY, Sept. 9.—(Can. Press.)—Doux Rivieres, a small village on the C.P.R., sixty-seven miles east of North Bay, was practically wiped out this afternoon by a fire which started in the supply headquarters of the Hawkesbury Lumber Company, destroying warehouses and offices of that firm and spreading to residences. The adjoining hotel, owned by M. Cottenham, was destroyed. Also the postoffice, the residence of Postmaster Jardine, the C.P.R. station buildings and the residence of Agent J. R. Bowles. In all about a dozen buildings were burned, partly insured.

## PEOPLE'S CAUSE HAS TRIUMPHED

President Wilson So Declares, Following Success of Tariff Bill in Senate.

WASHINGTON, Sept. 9.—(Can. Press.)—President Wilson tonight issued the following statement:

"A fight for the people and for free business, which has lasted a long generation thru, has at last been won, handsomely and completely. A leadership and a steadfastness in counsel has been shown in both houses of which the Democratic party has every reason to be proud. There will be no weakness or confusion or drawing back, but a determined and unflinching command of circumstances. I am happy to have been connected with the government of the nation at a time when such things could happen, and to have worked in association with men who could do them. There is every reason to believe that currency reform will be carried thru with equal energy, directness and loyalty to the general interest. When that is done this session of the sixty-third congress will have passed into history with an unrivaled distinction. I want to express my special admiration for the devotion, intelligence and untiring work of Mr. Underwood and Mr. Simmons and the committees associated with them."

Commends Bolters' Courage. When the president was asked to comment on the votes of Senator Lafollette and Senator Poindexter, he expressed very warm admiration for their "conscientious independence and courage."

The president, while always confident that the Democratic majority would be kept intact to insure the passage of the bill by a safe margin, had been hoping for the votes of progressive Republicans. He told some of his friends tonight that aid of this kind outside the party ranks was one of the concrete evidences that the Democratic party was progressive.

## GIRL KILLED IN LEAP TO STREET

Mystery Surrounds Tragedy of Montreal Boarding House and Police Are Investigating.

MONTREAL, Sept. 9.—(Can. Press.)—An unidentified girl, apparently about 15 years of age, either fell or jumped from the fourth floor of a Notre Dame street boarding house late tonight, and was dashed to death. The police are holding Pierre Valade, 21 years of age, in whose room the girl is thought to have been, and are instituting a thorough investigation.

The girl was only partially dressed when picked up on the sidewalk, and blood stains upon her clothing suggest that she had been assaulted and was attempting to escape when she met her death.

London Company at Princess. One of the best farce comedies that have come to this country from across the big pond, "The Lady of Ostend," is at the Princess this week. The delightful comedy is being presented by Mr. Lawrence Brough and a company of London players. There will be a matinee today.

## RACE TRACK MAN IS MURDERED AT OTTAWA

Body of Abe Rubenstein of Brooklyn, Employed as Bookmaker at Recent Meet, Found in Cellar of Empty Building—Was Missing Some Days.

OTTAWA, Sept. 9.—(Can. Press.)—The body of Abe Rubenstein of Brooklyn, N.Y., an employe of Nathan Shapiro, a bookmaker of St. Louis, Mo., was found in the cellar of a vacant building on Somerset street, late this afternoon, under a pile of coke, while nearby was a bloodstained trunk, in which the remains had evidently been taken to the place.

Rubenstein was last seen the night of Thursday, August 28, last, and his employers notified the Ottawa police the following day of his disappearance from his rooms and work at Connaught Park race meet. The body was badly decomposed, but that Rubenstein was murdered, the police have no doubt.

Have a Clue. The police are working on a strong clue obtained from a real estate man, who has the renting of the place. On Saturday, August 30, a man who gave no name, called at the real estate agent's, and obtained the keys of the building, saying he wanted to open a clothing store and was looking for a location. He was given the keys and retained them until the following Tuesday.

In the meantime, the police think the body of Rubenstein had been packed in the trunk, thus committing the murder awaiting an opportunity to dispose of it. Between Saturday and Tuesday following, the body is thought to have been taken to the place, which is a house recently remodeled into an apartment, with several stores on the ground floor. The discovery today came as the result of neighbors complaining of the stench.

Rubenstein's address was Lee avenue, Brooklyn, where he resided with his widowed mother and sister. No arrests had been made in the case up to a late hour tonight. The police are searching for the hackman who took the trunk containing the body, to the Somerset street house.

Money Missing. Rubenstein had about \$200 on his person when last seen, and it is probable that robbery was the motive for the crime, or that he may have been killed in an altercation. To the clerk in the Russell House, where he was last seen, he stated on Thursday night, August 28, that he had an engagement with a woman friend, whose residence had been found to have been next door the place where the body was found. This woman, Miss Ouzine Legault, when questioned by the police, stated that on the Tuesday morning following Rubenstein's disappearance, she heard knocking, and noticed a trunk at the bottom of the stairs. It later disappeared, and she did not think anything further of the matter, until the stench from the decomposing remains commenced, and the police found them today. Rubenstein had not kept the engagement with her, she said.

An autopsy will be performed on the body by Dr. Campbell Laidlaw, tomorrow.

## KING'S NAME TAKEN FROM TOAST LIST

Australian Laborite Mayor Declares Himself Republican Parliament May Act.

MELBOURNE, Sept. 9.—(C.A.P.)—Much political capital is being made out of the action of Labor member Webber, who, on becoming mayor of Richmond, withdrew the name of King George from the toast list of the first official dinner. Webber declared himself a convinced republican and defended his conduct in retaining office while holding anti-monarchical views. It is stated tonight that parliament is contemplating action. Liberal political associates are denouncing Webber as disloyal.

## Czar of Russia Watching His Troops

The above snapshot depicts the Czar of Russia, watching the movements of his army on the occasion of the annual autumn manoeuvres, which have recently taken place. The Czar is seen in centre, next to the Grand Duke Michaelovitch, who is pointing out to the emperor a feature of interest.

## ONTARIO'S MINES CONTINUE TO PRODUCE INCREASING WEALTH FOR THE PROVINCE

Large Increases Shown in the Gold Production During the Past Six Months—Cobalt is Holding Its Position, But Other Camps Are Creeping Into Prominence.

The mines of Ontario continue to yield their wealth in ever increasing quantities. The first six months of the present year show positive advances in several particulars according to the returns made to the Ontario Bureau of Mines. The gold output exceeds that of last year by nearly two million dollars in value, and pig iron has climbed up over a million increase. Silver on the other hand has dropped a little.

The actual returns are as follows:

Quantity.	Value.
Gold, ounces	106,091 \$2,711,147
Silver, ounces	13,890,892 7,698,713
Copper, tons	5,813 825,615
Nickel, tons	12,194 2,514,414
Iron ore, tons	82,827 141,324
Pig iron, tons	359,450 5,061,840
Cobalt ore	79 7,574
Cobalt and nickel oxides	404,060 136,347

Gold and Silver. Most of the gold came from Porcupine, the chief producers being the Hollinger and Dome mines, both of which have been steadily at work. The narrow veins in the rough Oakes camp are proving to contain rich ore.

The most productive silver mines for the half-year were the Nipissing, Coniagas, Le Rose, Kerr Lake, McKinley-Barragh-Savage, Buffalo and Crown Reserve, all of which have held a leading place for years. Cobalt, Townsite, Casey Cobalt, and Seneca Superior are coming into prominence.

## SALISBURY BEACH FIRE SWEEP HUNDREDS OF BUILDINGS BURNED

Two Hundred Thousand Dollars is Estimated Loss at Massachusetts Summer Resort—Guests Escape From Hotels—Only One Man Seriously Injured.

SALISBURY BEACH, Mass., Sept. 9.—(Can. Press.)—This summer resort was swept by a fire late today and this morning, a church, six hotels and 150 cottages being destroyed. Two hundred thousand dollars worth of property was wiped out within an area three-quarters of a mile long and two hundred yards wide, including much of the central part of the resort.

The Cushing Hotel and its annex, which contained three hundred rooms, was the principal building burned. The Atlantic House, which had two hundred rooms, Castle Mona, Hotel Leighton, the Newark Hotel and Hotel Comet having a capacity of a mile long and two hundred yards wide, including much of the central part of the resort. The Cushing Hotel and its annex, which contained three hundred rooms, was the principal building burned. The Atlantic House, which had two hundred rooms, Castle Mona, Hotel Leighton, the Newark Hotel and Hotel Comet having a capacity of a mile long and two hundred yards wide, including much of the central part of the resort. The Essex block, a business building, the postoffice building and the Phillips Bazaar crumpled before the flames which also destroyed several of the beach attractions. The hotels were still fairly well filled with guests and the cottage colony populous, despite a warning season, but injuries were few and minor. Only one man was seriously hurt.

SNATCHES A WATCH. Snatching a watch and chain from the hand of Samuel Turner at Richmond and Spadina late yesterday, Halsted Haldred, 167 Leonard avenue, ran down a side street. Turner called Mounted Constable Tuft. The officer soon pursued the foreigner. The chase led down several streets and after a jump over a few fences Haldred was taken into custody.

## BRANTFORD POLICE HOLD INDIAN WHILE SEARCHING FOR A CLUE TO FOUL MURDER OF SCHOOLBOY

### To Protect Immigrant Girls.

MONTREAL, Sept. 9.—(Can. Press.)—A determined effort to stamp out the traffic in immigrant girls and their exploitation by employment bureaus is to be made by the Montreal presbytery. Headed by Rev. John Chisholm, who brought to the attention of the presbytery meeting today the unwholesome influences by which such girls are generally surrounded on arrival here and the manner in which they are often floored by employment bureaus, a strong committee of the presbytery was formed to investigate the entire question.

## GERMAN AIRSHIP MET DISASTER

Fifteen Men Drowned When Naval Zeppelin Was Drawn Into Water by Hurricane.

Special Cable to The World. Copyrighted by The Toronto World and N. Y. World. BERLIN, Sept. 9.—A naval Zeppelin called L. No. 1 met a hurricane when off the island of Heligoland about 7 o'clock tonight. It was driven to water and sank before succor arrived. The machine started out in connection with the fleet manoeuvres.

Among those who lost their lives were Capt. Metzger, commander of the Marine Airship Division; Capt. Hanne, commander of the wrecked airship, and Baron Von Maltzahn. Seven of the crew were rescued and 15 men perished. The airship remained afloat for three hours. The hurricane came on so suddenly that it was impossible for the commander to reach a landing. Torpedo boats were immediately despatched to the scene and rescued some of the crew. Sixteen others are missing and it is certain that they perished.

The news of the disaster was sent to Heligoland by wireless about 8:30 o'clock and later the entire fleet searched the spot where the airship sank, but owing to the heavy sea a rescue was impossible. The only names of those saved are Lieut. Wendt, Grimm and Levmann.

## WOMAN SLAIN NEAR WINDSOR

Had Been Beaten Over Head With Blunt Instrument and Body Hidden in Cornfield.

WINDSOR, Sept. 9.—(Can. Press.)—Shortly before 8 o'clock tonight, the body of a well-dressed woman was found hidden in a corn field, near Old Castle, eight miles from Windsor, with all indications pointing to murder.

The woman, who was of medium height, and about 35 years old, evidently had been terribly beaten over the head with some blunt instrument. Her body bore evidences of a fierce struggle. Her hair was disarranged, her face a mass of cuts and bruises, while her clothes were torn to shreds.

Coroner Brien of Essex, was notified, and will conduct the investigation. He is of the opinion that the woman is the victim of some person who lay in wait for her, as she was passing along the road, not far from the field, which is a part of a farm owned by Michael Robinson, Sr.

Constable Frank Brown of Essex, arrived in Windsor at 10 o'clock tonight, and asked the aid of the Windsor police in investigating the woman's death. An inquest will be held tomorrow, when it is hoped the body will be identified. The body was discovered by Frank Robinson, Jr., a farmer's son, who was passing thru the field at dusk.

HAVE FAITH IN BARNIA. BARNIA, Sept. 9.—(Special.)—A syndicate of commercial men has purchased a large tract of land inside the city limits here and will hold it as an investment, having faith in the future of Barnia. This same land was sold about a year ago and the present price is about 100 per cent. higher than last year.

Charlie Dawson, Police Say, Inquired for Taylor at the Livery Stable on Monday Night, When Boy Was Last Seen Alive—Body Hacked in Terrible Manner.

BRANTFORD, Sept. 9.—(Special.)—In the arrest tonight of James Taylor, a local Indian, on a nominal charge of vagrancy, local police are hopeful that they have taken an important step toward solving the mystery of the death of Charlie Dawson, the 12-year-old boy whose body, terribly mutilated, was found in a ditch near Cainsville, four miles from the city, early this morning.

Taylor was employed at the livery stable of Leslie Anguish, and the police state that the boy acquired for him between 8 and 9 o'clock last night. Whether he and the boy went out together or not has not been definitely ascertained, but it is known that Taylor secured a rig from the stable and went out. Taylor had not been questioned even as to his whereabouts at a late hour tonight and he did not even know for what he was being held. In the meantime High Constable Kerr and Detective Chapman were scouring the district for further clues as to the boy's movements last night. The arrest of Taylor is regarded, however, as a most important development in the case. Has Police Record.

The boy had frequently visited the livery stable in question and knew Taylor well. He liked horses and was fond of going out with the men. Taylor, the man being held by the police, is regarded as a half-witted fellow. He has been in the police court many times in recent years on various charges.

What is regarded as one of the strongest clues in connection with Taylor's arrest on a vagrancy charge is the finding by the police of brownish spots on his clothing. An analysis will be at once made to determine the nature of the spots.

A strip taken from the belt worn by the boy finally established his identity as Charlie Dawson, son of John Dawson, teamster, employed by the T. E. Ryerson Co. A schoolmate

(Continued on Page 7, Column 6.)

## SAID HE HAD BIG CONTRACT

J. L. Allan Alleged to Have Jumped Board Bill and Obtained Money by Fraud.

Altho he still claimed to be a master of finance, and insisted that he was engaged on a government contract, J. L. Allan, who claims to come from Montreal, was arrested in Fort William last night, at the instance of the Toronto police. It is alleged that he ordered six machines from the Whitefield Machinery Company of Front street, under false promises and that he jumped his board bill of \$150 at the home of Mrs. S. Jeffries, 349 Jarvis street.

According to the story told the detectives, Allan claimed to have a contract for \$48,000 with the government, for removal of stumps and trees from the experimental farm at Fort William. He is said to have ordered the six machines for stump pulling, and to have borrowed \$50 from the Whitefield firm. He is also alleged to have engaged Mrs. Jeffries' husband to work for him on the farm and to have kept him idle several months without pay.

Allan left town with one of the six machines the other day, and the firm enquired at the parliament buildings, where it was found he had no contract with the government. Detective Tipton left for Fort William last night to bring him back.

## BURNS-PELKY BOUT FAKE, SAYS LATTER

Chatham Man Breaks Away From Contract and Makes Confession.

PORTLAND, Ore., Sept. 9.—(Can. Press.)—Stung by a guilty conscience and smarting under alleged ill-treatment by Tommy Burns, Arthur Pelky today cancelled Burns' managerial contract and simultaneously unburdened a confession. In a strong statement delivered to Escoe Fawcett, sporting editor of The Oregonian, Pelky makes the charge that he and Burns faked their six round fight at Calgary March 28 last. Pelky alleges that Burns lured him west from Chatham, Ont., and then finding him broke forced him into a "fixed" match and staged nightly reversals of the bout in a game.

Tremblay Appeal Goes to London

Necessary Deposit Has Been Made—Ontario Orangement Helped.

MONTREAL, Sept. 9.—(Can. Press.)—By the deposit this morning of the fees required for the appeal of cases to the privy council the way was cleared for the transfer of the Tremblay-Depatie fourth cousins marriage case to London.

The fees amounted to \$200 and were deposited by Arnold Wainwright, lawyer for Mrs. Tremblay, and Depatie.

The Tremblay-Depatie dispute is one in which the Roman Catholic bishop of St. Hyacinthe annulled the marriage of fourth cousins, who were married without the necessary dispensation.

Mr. Wainwright was then authorized by Mrs. Tremblay to appear before the privy council, and funds for the purpose were provided by a number of Orangemen in Ontario.

School Inquiry Will Be Resumed Today

In Progress for Over Two Years, Long Drawn Investigation Will Go Another Lap.

Judge Winchester will resume this morning the investigation into the contracts and accounts of the board of education. Plumbing contracts will be again taken up.

"I cannot tell if the investigation will go on steadily to a finish," Judge Winchester said. "It has my inter-est and by counsel being unprepared."

The investigation was ordered two and a half years ago, and since that examination are wishing that it was over and done with.

Torontonians in Royal Honor List

Many Promotions and Appointments to the Order of St. John.

OTTAWA, Sept. 9.—(Can. Press.)—On the recommendation of the Duke of Connaught, grand prior, and approved by his majesty, several promotions and appointments in the Order of the Hospital of St. John of Jerusalem have been made.

Major Henry Bridges Yates, M.P. of Montreal, is promoted from the grade of esquire to knight of grace.

Mr. W. E. George of Toronto, an created knight of grace; Mr. E. J. Chamberlain, president of the Grand Trunk Railway system, an honorary knight of grace; and Mrs. A. E. Gooderham of Toronto, a lady of grace.

Mr. W. E. George of Toronto, an created knight of grace; Mr. E. J. Chamberlain, president of the Grand Trunk Railway system, an honorary knight of grace; and Mrs. A. E. Gooderham of Toronto, a lady of grace.

GOOPS

Henry Hurst

Remember, children, Don't crowd ahead like Henry Hurst. He wants the first, The girls will have to take the rest.

Or wait on them at any rate! Don't Be A Goop!

Musicians Are Interested

More than a passing interest is being shown by leading members of the music profession in the 1914 play-plan of the Old Firm of Heintzman & Co., Limited, which was exhibited at the Canadian National Exhibition this year.

The investigation was ordered two and a half years ago, and since that examination are wishing that it was over and done with.

Efficient Housekeeping

By Henrietta D. Grauel, Domestic Science Lecturer.

Laundry Preparations

BLUING may be done economically at home, but the saving is so slight it is the one used in the largest laundries in this city.

Use rain or elster water when making it. Use the mixture through several thicknesses of the muslin of your blotting paper.

Ball bluing: This usually consists of ultramarine mixed with gum or starch. Of course, one cannot make the balls at home, but one can make little blocks that may be used in the same manner.

Another hint that the editor of this column knows to be as practicable as it sounds is to do with washing comforters. The writer says: "Soap all soiled spots on the comforter with a good suds and rub with a small brush."

Select a bright, warm sunny day and do the work in the early morning, so there will be time for the covers to dry before night.

The Garden Rache

CONDUCTED BY RACHE R. TODD M.D. Christmas Bulbs.

We are putting them now. We are putting white French Roman hyacinths, yesterday, just having found out that this variety is the first to flower.

The blue French Roman is somewhat later than these first two mentioned, and unfortunately the flowers are not by any means so profuse.

These are in variety called the white Italian, flowering a few days later than the white French Roman, but a kind most lovely, having blossoms that slowly turn pink—blossoms that are refined and feathery, altogether very lovely.

These points regarding the exact time of blooming are necessary to know, if you desire to have a succession of bloom. Those who have decided on window boxes, or pots containing several plants, will be glad to know just how to manage to have their boxes or pots continue flowering several weeks, and not need interfering with.

Narcissus. Polyanthus narcissus are bulbs which require treatment. However, attention to a few points is an important point, so important that I shall put it in one line by itself, just to emphasize it.

The bulbs should be started in the dark light. They must not be set away in the darkness to perfect the roots; they need all the light they can get, from the first moment they are potted.

Regarding the first plan, as the bulbs must be started in the dark light, a continuous effort should be made by having one large glass bowl from which the bulbs are removed.

More than a passing interest is being shown by leading members of the music profession in the 1914 play-plan of the Old Firm of Heintzman & Co., Limited, which was exhibited at the Canadian National Exhibition this year.

The investigation was ordered two and a half years ago, and since that examination are wishing that it was over and done with.

WANT EASIER REGULATIONS

Deputation to See Customs Minister Regarding Entry of Motorists.

OTTAWA, Sept. 9.—(Can. Press.)—Some of the chief directors from Toronto of the Ontario Motor League, with directors of the Ontario Valley Motor Car Association, will form a deputation that will wait on Hon. Dr. J. D. Reid, minister of customs, at 11 o'clock on Thursday morning.

Here are some sure-blooming bulbs to choose from. (Now, do keep this in mind, because we will have no time for more than a few weeks to answer questions concerning them as the old woman says, to do in the next few weeks.)

Double Roman, white, double orange cup. Grand monarch, white with primrose cup; later than the paper white, double solid, deep yellow, orange cup.

Lesson in Scientific Complexion Renewing (From The Family Physician).

Everyone has a beautiful skin underneath the one exposed to view. Bear that in mind and it will be easier to understand the correct principle in acquiring a lovely complexion.

It has been discovered that ordinary methods used to be had at any drug store, will absorb these worn-out particles, the absorption, while hastening the work, goes on gradually enough to cause no inconvenience, in a week or two the transformation is complete.

The fresh, healthy, youthful under skin is then slowly in evidence. You who are not satisfied with your complexion should get an ounce of mercurochrome wax and try this treatment. Use the wax nightly, like cold cream, washing it off mornings.

ENTHUSIASM REIGNS AT HOWARD SCHOOL

Pupils and Parents Gather to Witness Prize Giving for the School Gardens.

A very successful horticultural exhibit was held last evening at Howard School on High Park avenue when a large number of the prize-winners were present to witness some really fine exhibits of flowers and vegetables.

The children of Howard School have taken hold of the Horticultural Society work very enthusiastically, and the prize-winners were splendidly results from their amateur gardening.

The winner of the silver medal for the best kept garden was Mary Martin and Sydney Wrench and George Montgomery who were tied for second place, will each receive the bronze medal of the society.

The prize list was as follows: Fourth book classes—Carrots: Norman White, Marjorie Shantz, Gladys Hallman, etc.

will pay for The Sunday World for one year, by mail to any address in Canada or Great Britain. Delivered in Toronto or for sale by all newsdealers and newsboys at five cents per copy.

Postage extra to United States and all other foreign countries.

Subscribers are requested to advise us promptly of any irregularity or delay in delivery of The World.

WEDNESDAY MORNING, SEPT. 10

THAT MYSTERIOUS GOLD RE-

Under our Bank Act banks can not only issue their own notes to an amount equal to their paid up capital, and for six months in the year, an additional amount equal to 15 per cent. of their combined capital and real account; but under the act as amended last session, they can now deposit gold in a central gold reserve in Montreal and issue their own notes for a like amount.

The World has been at a loss to understand how this new privilege was to be worked out; was the gold coin or gold certificates that the bank carried as reserve against circulation to be taken out of the bank and pledged elsewhere against a further issue of bank notes? If so then it looked like inflation.

We have persisted in seeking for further information and explanation, and perhaps at last we are getting some. Yet even The London Times, which printed what looked like an inspired deliverance, had failed to give what now The Toronto News deigns to impart, namely that the gold to be deposited by the banks in the central gold reserve is to be got by rediscouinting its customers' paper.

Rediscouinting is an important feature in British banking and is a safety valve; here, either in the United States or Canada, it has been regarded as a sign of weakness or even got advances when a bank sold or even got advances on the paper it had already discounted. On its merits we have at the moment no objection to rediscouinting as it is practiced in Europe, and an American journal came out the other day in favor of the practice of it in the United States because of its merits. But if this was the object of the creation of the central gold reserve, we think Finance Minister White owed it to Parliament and to the country to explain it in that light when he was on his feet. He left it to good dead men to get solved.

If our banks are to rediscout their paper in order to get gold, therefore they will have to do it with other Canadian banks, private capitalists, or foreign banks. New York is getting to be a rediscout centre; perhaps they will get it there. Rediscouinting their commercial paper by banks is the basis of the regional banks in Europe, and in the United States countries, with this difference that what are in reality national notes (greenbacks) are taken for the paper and let out again by the banks—they are to be expressly prohibited from issuing their own notes. We even foresee that under such a process the proposed regional banks of the States will supply gold to ease off Canadian stringency.

Still further, The News goes on to divulge that even paper under discount may be deposited in the gold reserve against an issue of bank notes. Certainly we do not think this is in law, if they are allowed to do this who is to pass on the paper when so offered? The United States propose to appoint national boards for this purpose in connection with the regional banks.

Hon. Mr. White really owes the country an explanation.

AN IRASCIBLE JUDGE.

The Thaw case seems to be getting on the nerves of our magistrates and judges in Quebec. The arrest and imprisonment of Mr. Jerome at Coaticook seems to have been inspired largely by the spirit which prompts the village boy to heave a brick at a stranger on general principles. The New York Tribune also takes exception to the following remarks delivered by Mr. Justice Gervais of the King's bench, one of the judges who granted the latest writ of habeas corpus. According to The New York Times, his lordship said:

One thing that I find most objectionable in this case is all these foreign lawyers, sheriffs, bailiffs, and other foreign officials coming into this country and hurting the dignity of British sovereignty in the courts of our land. We are quite able to take any necessary action in regard to strangers in our midst without any intervention from such people as these, and we intend to do so. No interference will be tolerated.

The judge as a member of parliament was the soul of good nature, but a strong partisan and easily excited. The Tribune, we think, does him an injustice in describing the above deliverance as a "stump speech."

It has been quite customary in the past for Canadian officers to visit American cities, for the purpose of

identifying, recovering and bringing back persons whose presence was required by the Canadian courts. We have no doubt that American lawyers and peace officers in the past have frequently visited Canada upon similar missions.

Perhaps Justice Gervais was nettled at the quite unnecessary number of New York officials and quasi-officials who have been enjoying a holiday at Coaticook.

A SERIOUS YONGE STREET PROBLEM.

Whether the city buys the street railway franchise or whether it decides to make an arrangement with the Metropolitan Railway for the joint double-tracking of Yonge street, north of the C. P. R. tracks, it is absolutely certain that the city must not only widen Yonge street north of the crossing, but must double-track it, repave it and perhaps rewire it, at the earliest possible moment, if possible beginning with the spring of 1914. That being the case, how is the enormous traffic of which that street is the artery, to be accommodated during the time these works are under way? There must be an alternative street either to the east or to the west. There are talked of and one is pretty well under way, viz. that of Mount Pleasant avenue, about a quarter of a mile east of Yonge. A great part of this avenue is now open up, but it is absolutely blocked by Mount Pleasant Cemetery, and a way must be found to put the road through the cemetery so as to make it a thoroughfare, both relieving Yonge and as a substitute street during the reconstruction of the main street. It is idle to think of making a parallel street three-quarters of a mile east of Yonge street by way of the Belt Line railway, as proposed by the Cemetery Trust; it must not be more than a quarter of a mile east of Yonge street. A way must also be found to bring it down from the top of the hill across the C. P. R. tracks into Rosedale and most likely across the Reservoir ravine so as to get to Yonge street south of the tracks.

The other road west of Yonge street, and which seems to be handicapped with the name of Duplex avenue, is in more or less uncertainty at the present moment. One thing that interferes is the fact that all that portion of Yonge street west of Mount Pleasant Cemetery and the lots west of Yonge street, and which involves somewhat the approach to Duplex as proposed is at the present moment actually in the township. It is, therefore, in the interest of settling the problem to have the cemetery lot, and the portion of the township west of Yonge street, in the city limits.

The situation, therefore, calls for the fullest consideration by the city commissioners and his associates, and of the consideration of the mayor, board of control, Chairman of Works Dunn and the council, so that when we start to overhaul Yonge street we may have one, and if possible, two alternative groups available for public use.

THE ONLY WAY. Notwithstanding all the efforts made to discredit the principle of public ownership and operation of general services an utilities, it continues to command support. Its progress has been due not so much to acceptance of theoretical arguments as to lively experience of the conduct of public services by companies controlled by capitalists, whose object was to feather their own nests rather than to meet fairly and squarely the public need. It has taken the United States many years to realize the futility of a policy which under the guise of protecting private enterprise provided the means of establishing monopolies to the public disadvantage. Now that public service corporations are being required to fulfill their obligations they have started the cry of condemnation.

Among the latest cities to express revolt against the exploitation of its public services is San Francisco, which has suffered severely from the Wall street group control by the Wall street group

that owns its transportation system. Confronted with very similar conditions to those of Toronto San Francisco started street railway extensions of its own and recently appealed for power to issue bonds for \$2,500,000 in order to make extensions. The proposition carried by close on 26,000 more votes than the required majority of two-thirds, and only one district of the city failed to give it. The San Francisco street railway franchise holders committee, every outrage possible in the way of over-capitalization, bad service and political debauchery. Their methods have been revealed and discredited and the citizens of San Francisco have come out overwhelmingly for public ownership.

THE PEACE MOVEMENT. Theoretically every thoughtful man and every woman is against war, and to be associated with the universal reign of peace is an easy way to pose as a thoroughly up-to-date Christian. Abolitions of this kind mean little except to those who are immediately interested, whether of set belief or on account of the easily won reputation that the association brings. Peace congresses are unimpeachable in intent, are attended by men and women whose altruistic motives cannot be impugned and whose aims and objects deserve the highest possible regard. But their debates and discussions are usually far removed from the real questions that are presented by the actual world conditions.

These are increasingly operating against war, especially among the nations that compose what may be termed the world comity. Modern science is steadily undermining the old notion that every nation is an independent and isolated unit that can live unto itself alone. Little more than a century ago a nation waging successful war could live on the countries that it overran and solace itself with the conviction that its armies in the field imposed no burden on its toilers at home. All that has been changed by the growing recognition of the fact that the nations of the world are no longer independent, but are interdependent, and that their mutual interests require that each should be maintained at the highest point of efficiency. Peace congresses that devote themselves to this side of the movement against war would yield better results than are likely to follow from visionary world reconstructions.

SAFE ON SECOND. By a vote of 44 to 37 the United States senate has concurred in the tariff reduction bill which passed the house over three months ago. True, the measure has been amended to a considerable extent, but generally speaking the amendments have been in the direction of freer trade. That the two houses will compose their differences is certain and the bill will soon become law.

The Democratic senators from Louisiana, noted, but Senators Leffollette and Poindexter, Progressives, voted with the Democrats.

The Globe should take comfort. Toronto still has a Laurier avenue. It will last longer than a dredge.

We must all admit that Mr. Albert Chamberlain is a man of faith. But Mr. George Henry can show him the works.

Mr. S. H. Blake, K.C., states that "the churches are too full of sin to permit of the working of the Holy Spirit in them." But the churches will only take this as a legal opinion.

The apostolic press is still apparently unable to distinguish between a "reciprocity pact" which tied Canada hand and foot to the chariots of the United States and the natural development of trade. That advantages possibly resulting to Canadians argument frequently advanced during the campaign of two years ago. Events may justify it.

MANY CASES FOR GENERAL SESSIONS

Court Reopened Yesterday by Judge Denton With Record List of Cases.

With no less than 165 cases to be disposed of, the court of the general sessions was formally opened for its fall sitting by Judge Denton, officiating in the absence of Judge Morgan, yesterday morning.

Altho the list is an exceedingly heavy one, cases of a serious nature are not nearly so numerous as last year, and in his address to the grand jury the judge commented upon this consolatory aspect of a big list of criminal offences.

This morning at 10 o'clock, with Crown Attorney Greer prosecuting, His Honor Judge Morgan, on the bench, and Alex. McCowan, the newly-appointed sheriff of York County, officiating, the wheels of justice will in reality be set in motion.

The following is the list: Theft 37, false pretences 11, forgery 1,ounding 3, breach of Trade Mark Act 1, conspiracy 3, picketing 3, fortune-telling 4, attempted extortion 2, procuring 3, bigamy 1, indecency 1, attempted indecent assault.

The Grand Jury. The grand jury are: James Chalmers, yeoman, George James, James D. Dridge, gardener, Humber Bay; T. H. Kilgour, auditor, Toronto; C. E. Lundy, farmer, Newmarket; Fred E. Saunders, architect, Toronto; Walter Scott, farmer, East King; F. L. Smith, Textile Company manager, Toronto; A. B. Starr, farmer, Whitechurch; Frank Steckley, farmer, Whitechurch; Wm. Stollery, contractor, Toronto; Charles Thompson, merchant, Toronto; J. Thompson, merchant, Toronto; Wm. Tyrrell, merchant, Toronto.

The Philosopher of Folly

By Sherwood Hart. EVENING ECHOES. The shades of night were falling and the cats were caterwauling and my neighbor's dogs were tuning up in praise of Lunt's charms; and another neighbor's chickens started in to raise the dickens as they called their sprill defiance to the nearby Saunders farm; and a parrot near was squawking out some imitation talking while a villain with a fiddle sawed his shrilling ear in half, and across the road there floated, hoarse and harsh an ill-brazen-throated, what some folks took for music, and some for phonograph. Farther off an old panny gave forth discordant notes unbecomingly, and a person with a cornet near was playing evening air, and a piccolo-piper piped, while anon a coon trotted past the other varied notes till I shrieked in my despair. And I moaned, "It is a pity that the dwellers in the city who are called honest toilers must be forced to stand this row. I would like to set the bobbies on the people with such hobbies, and on folks whose pets kyoodle, crow or catwallow or meow. There should be a law compelling people in the city dwelling in a corner near with noise and to still their animals. Then when we are thru our labors we might get to the out neighbors, and our houses would be lighted up with double-act amimals.

Thousand Islands and Return \$7.50. Including Meals and Berth. Another popular week-end outing to Alexandria Bay on Saturday, Sept. 13, by steamer Toronto, leaving Toronto at 2.30 p.m. and arriving back in the city Monday morning at 7.00 o'clock. Tickets will include berth and evening dinner in each direction, also family tour by observation yacht among the islands. Tickets and full information at Rehelien & Ontario Navigation Company ticket office, 46 Yonge street, corner Wellington street. 345

ENTIRE COMPANY EXECUTED. PIEDRAS, Negras, Mexico, Sept. 9. (Can. Press.)—The execution of an entire company of federal soldiers, captured after a severe fight near San Bueno Ventura, was officially reported to Constitutional headquarters today by Col. Villare, in command of a large body of insurgents operating about Monclova.

MANY INJURED IN WRECK OF FLYER

Three Trainmen Fatally Hurt and Many Passengers Shaken Up.

NEW MADISON, Ohio, Sept. 9. (Can. Press.)—The New York-St. Louis flyer, on the Pennsylvania Railroad, was derailed four miles west of here at 9.40 this morning, injuring 35 of the 72 passengers, and fatally injuring three of the crew.

Six coaches went into a cornfield on one side of the track, the engine and tender striking a bridge abutment on the other side of the track and turning one span of the bridge into the air. The rear coach remained on the rails and the next coach, tho off the track, did not overturn.

None of the passengers were seriously hurt, but two men were so badly crushed and scalded it is believed will die, and a chef in the diner was seriously scalded. The engineer suffered a severe scalp wound.

The wreck occurred on a sharp curve, where the track was weak, the train traveling in 1912, showing a great falling off in this, the most serious of crimes.

When seen by The World at the Queen's Hotel last night, Col. Sherwood, who was passing thru Toronto on his way to Ottawa, said that he considered the above fact spoke great deal, not only for the efficiency of Canadian laws, but also brought out the effect the strict enforcement of such was having on the minds of the criminally disposed.

He considered the very rigid regulations to which those entering Canada had to come up to also had much to do in keeping down the increase in crime.

CORNWALL VOTES GRANT. CORNWALL, Sept. 9. (Special.)—At the regular meeting of the town council the question of making a grant towards securing the annual meeting of the Eastern Ontario Dairymen's Association for Cornwall in January next came up, and after some discussion it was unanimously decided to grant the sum of \$300 towards the expense of the meeting, provided it is held in Cornwall. Prominent men engaged in dairying from all parts of the county will deliver addresses at the meeting.

Prescott and Return \$10.00. Including Meals and Berth. The Richelieu & Ontario Navigation Company on Saturday, Sept. 12, will run an attractive week-end outing via steamer Toronto at 2.30 p.m.; to Prescott and return. Tickets will include meals and berth for the complete round trip. The Thousand Islands and St. Lawrence River district is now most attractive. Tickets and full information can be obtained at ticket office, 46 Yonge street, corner Wellington street. 345

OTTAWA'S POLICE CHIEF IN TORONTO

Colonel Sherwood Says That Serious Crime at the Capital is on Decrease.

Crime in Canada is on the decrease, according to Col. Sherwood of Ottawa, chief of the Dominion police. Up to the present time, 1913 had witnessed only seven convictions for murders compared with twenty in 1912, showing a great falling off in this, the most serious of crimes.

When seen by The World at the Queen's Hotel last night, Col. Sherwood, who was passing thru Toronto on his way to Ottawa, said that he considered the above fact spoke great deal, not only for the efficiency of Canadian laws, but also brought out the effect the strict enforcement of such was having on the minds of the criminally disposed.

He considered the very rigid regulations to which those entering Canada had to come up to also had much to do in keeping down the increase in crime.

CORNWALL VOTES GRANT. CORNWALL, Sept. 9. (Special.)—At the regular meeting of the town council the question of making a grant towards securing the annual meeting of the Eastern Ontario Dairymen's Association for Cornwall in January next came up, and after some discussion it was unanimously decided to grant the sum of \$300 towards the expense of the meeting, provided it is held in Cornwall. Prominent men engaged in dairying from all parts of the county will deliver addresses at the meeting.

Prescott and Return \$10.00. Including Meals and Berth. HUGE LOSS IN U.S. CORN CROP BUT WHEAT BREAKS RECORDS. Shrinkage in Corn More Than Six Hundred Million Bushels, While Wheat Should Exceed by Six Million Bushels Banner Crop of Twelve Years Ago.

WASHINGTON, Sept. 9. (Can. Press.)—An enormous loss in the prospective production of corn, and indications of the biggest wheat crop ever produced, were the features of the government September crop report issued this afternoon.

Hot weather and drought in a number of the principal corn growing states during the month ending September 1, caused a deterioration of corn, which experts calculate has resulted in the loss of 321,000,000 bushels, reducing the corn crop estimates to 2,351,000,000 bushels. This destructive weather caused a loss of about 300,000,000 bushels during July, and the August loss brought the total up to 621,000,000 bushels since the first estimates of corn crop prospects were made by the government.

Texas alone of the six great corn growing states held her own during August. Nebraska was the hardest hit, the deterioration there during the month amounting to 30 per cent, bringing the condition of the crop to 27 per cent of a normal. The loss in Missouri was 29 per cent, the crop being 41 per cent of a normal. Kansas reported a condition of 10 per cent of a normal, the lowest ever recorded and a loss of 20 per cent, during the month; Illinois, with the greatest acreage of any state planted to corn, reported a condition of 62 per cent, a loss of 10 per cent. Iowa reported 75 per cent, a loss of 2 per cent, Oklahoma 39 per cent, a loss of 5 per cent.

Bountiful Wheat Crop. Never before in the history of the country has there been such a bountiful wheat harvest as has been gathered this year. This was due principally to the bumper crop of winter wheat. Today's estimate of the spring wheat crop showed increased prospects for that crop, making the total production 248,000,000 bushels, or an increase of 42 per cent, over the August estimate. This increase brought the estimate of total wheat crop of the country to 754,000,000 bushels or six million bushels more than the great record crop of 1901.

Cost of Living Still on Upward Trend, August Showing Increase. OTTAWA, Sept. 9. (Can. Press.)—The cost of living index number took another jump upwards last month from 132.5, the figures for July, to 133.2. In August, 1912, the figures were 132.8, so that there was nearly a three-point increase in August of this year compared with the same month a year ago. "And," say the officials at the labor department who compile the average cost of prices every month, "the prospects for any pronounced drop in the average cost of the commodities classified under the list of necessities of life, are not very bright."

The cause for the advance in the average cost last month was principally due to the increase in price of potatoes, eggs, canned lobster, anthracite coal, grains and fodder. Such things as beef, lamb, butter, lake trout, whitefish, canned peas, honey and coffee dropped a few points. Meats are a little higher in price than they were a year ago, but grains and fodder are lower.

100% Beer Goodness. Says The Pure Food Expert— "Of all the brews I have ever tested, O'KEEFE'S come nearest to perfection. "I score them 100% beer goodness because O'Keefe's Pilsener Lager O'Keefe's Special Extra Mild Ale O'Keefe's Gold Label Stock Ale O'Keefe's Special Extra Mild Stout are brewed only with our good Canadian Barley, choicest imported Hops, and filtered spring water. Because of the high percentage of nutriment they contain, I cordially recommend them as the best health-drink for the whole family." "The Beers That Are Always O. K." THE O'KEEFE BREWERY CO. LIMITED, TORONTO. If your dealer will not supply you, telephone us Main 758 or Main 4455 and we will see that you are supplied at once.

Passing of Tariff Bill Helped

(Continued From Page 1.)

both houses predict that the confer-

ence will consume less than two

weeks' time.

Conferees Appointed.

The senate endeavored today to

hasten the bill on its progress to the

White House by naming its members

of the conference committee as soon

as the bill passed. Vice-president

Marshall appointed Senators Sim-

mons, Stone, Williams and Johnson,

Democrats, and Senators Penrose,

Lodge and La Follette, Republicans, as

the senate conferees. Senator Stone

withdrew from the committee and

Senator Shively was appointed in his

place. The conferees, it was reported

tonight will be Representatives

Underwood, Kitchin and Rainey,

Democrats, and Payne and Fordney,

Republicans. Each house will have an

equal vote in the conference commit-

tee. The conferees do not name the

members of the conferees.

The final struggle began at 4 o'clock

when under a previous agreement ar-

guments were pending

FACING NEW WAR

WITH MAD MULLAH

Great Britain May Have to

Launch Another Punitive

Expedition.

LONDON.—British taxpayers are

worried over the prospect that prece-

dent and prestige may demand another

war against the Mad Mullah in Som-

aliland just before parliament adjourns

the country was disturbed by news of an-

other "incident"—one of the old fam-

ilar stories. Two thousand of the

Mullah's tribesmen surrounded a Brit-

ish company of 150 natives, with three

white officers, at a point 300 miles

from Berbera. The little force was

driven into a "sariba" or fenced camp

by British officers, at a point 300 miles

Tennis Ontario Results

LADIES WIN FROM MEN IN DOUBLES

Interesting Exhibition Match Put on at Tennis Tournament—Summary.

Splendid progress was made yesterday in the Ontario lawn tennis championships. The ladies' events were started. Miss Mary Brown, the United States national champion, defeated Miss Andrus in the open singles in straight sets.

Considerable interest was displayed in the exhibition match between Mrs. Williams and Miss Brown in doubles. The match was played in the afternoon.

The mixed doubles will be commenced today. In this event Miss Brown is paired with Burns, and Mrs. Williams with Robert Baird, present Canadian singles and doubles champion.

Tuesday's Results.—Men's Open Singles Championships.—G. Laing defeated I. A. Bernhardt, 6-4, 6-2, 6-0.

Men's Doubles Championships.—Bennett v. Heath: Kinghan v. Blumenthal. 6-0, 6-0.

Women's Open Singles Championships.—Miss Mary Brown defeated Miss Andrus, 6-0, 6-0.

Women's Doubles Championships.—Mrs. Williams and Burns defeated Miss Brown and Baird, 6-2, 6-1.

Mixed Doubles.—Mrs. Williams and Burns defeated Miss Brown and Baird, 6-2, 6-1.

Rugby Getting Ready For the Fray

ARGOS TALK NOTHING BUT RUGBY AT ANNUAL FOOTBALL SMOKER

Ted Whale Among the Great Throng in Attendance—Nine of Last Season's Varsity Players Will Be Missing at First Practice Next Monday.

The Argonaut Rowing Club held their annual football smoker last night at the club house and over two hundred football enthusiasts filled the spacious club rooms. A good time was the outstanding object and they let loose from the start.

The Varsity Rugby Club will hold their first practice on Monday, Sept. 15, at 4 p.m., and then for the good old workouts with Doc Wright and Harry Griffiths.

The Central Y.M.C.A. team will hold their first practice this evening at Broadview at 8 o'clock.

Galt Collegiate Rugby Club has re-organized with the following officers: Hon. president, Principle Caracoles; president, J. S. Cameron; secretary-treasurer, H. O. O'Neil; manager, J. S. Cameron.

Newmarket St. Paul's Cricket Club would like to arrange a game at home for Saturday next, Sept. 13, at 11 a.m.

The American A.A. will hold a meeting in St. Stephen's Church tomorrow night at eight o'clock, to draw up the football schedule.

The Independent League will wind up the season this afternoon, when Weston and Mowats play at Willowdale Park.

Salina, Kan., Sept. 9.—Christopher Christenson has at his home in Marquette two half tons in one box, the nests being separated by a partition which extends from the top of the box to an inch and a half of the bottom.

An Announcement

We have absolute faith in the unfailing progress of Toronto, and we have stood behind our properties; watched with interest the success they have attained, and now our slogan is

"BIGGER AND BETTER THAN EVER"

McEACHREN SURVEYS is all that is needed to ensure success. We own every survey we put on the market. We develop. We improve. We put in streets—see that sidewalks, roads, sewer and water conveniences are installed.

With "BIGGER AND BETTER THAN EVER" in mind, we have been preparing since May for the property we are about to announce.

Tomorrow we will tell you of our scheme of development. Not what we are going to do, but

WHAT WE HAVE DONE

Come in and get all the facts and let us take you over the property.

Come to our big sale Saturday.

On Every Winding Hillside Road, Pleasure Goes Drifting By

THESE are automobile days. On every pleasant road you will find happy parties drifting along enjoying the beautiful scenery and the fresh air.

New sights are constantly opening up for them, new joys and new delights. But you don't need to be told why you ought to have an automobile. What you want to know is how to get one.

It's a comparatively simple matter to get a machine, once you know how. In the Want Ads of this paper every day there are used cars advertised for sale.

These cars are in first-class condition, and are rare bargains. You can easily find one that will suit you at a price that will suit you.

Practically every automobile owner who has a car for sale comes right to these columns to sell it. And the bigger the bargain he has the quicker he comes.

Again and again you will find machines advertised in these columns for hundreds of dollars less than they are actually worth.

Anybody can own an automobile these days. Thousands upon thousands of used cars are being sold every year. An average of one family in twenty-six now owns a car. If you are not one of these owners, by all means become one.

See the cars that are For Sale in the Classified Section of this paper. Answer some of these Ads; investigate these offers.

And mention this paper please when you answer an Ad.

**LOTS OF MONEY MADE  
IN AUTOMOBILES**  
Packard Company Had Profits of  
Two Millions Last  
Year.  
CHICAGO, Sept. 9.—Net earnings of  
the Packard Motor Car Co. for the  
fiscal year ended Aug. 31, were approximately  
\$2,000,000. This figure is  
after deducting the usual heavy al-  
locations for depreciation and other  
low-cost items of reserve. These net  
profits are substantially as good as in  
the 1912 year, when the balance for the  
stock was \$2,150,000, equal to the 7 per  
cent dividend on the \$3,000,000 pre-  
ferred stock and 35 per cent. on the  
\$2,000,000 common, which is owned  
closely held by Detroit interests and  
which has a market value of around  
\$300 per share, although it has never paid  
a dividend.

**Regarding a Trustee**  
Great care must be exercised in selecting a trustee if the ap-  
pointment is to give permanent satisfaction. We offer the  
services of this company, as in a position to accept the heavy  
responsibility imposed, and able to perform the exacting duties  
satisfactorily.

**SPECIALTIES UP IN  
TORONTO MARKET**

General Trend Was Easier,  
But Inactive Issues Redeem-  
ed the Day.

**RECORD ON ST. LAW'CE**  
Navigation Stocks in Demand  
—Liquidation on a Nar-  
row Market.

The firming up of prices which  
marked the course of the Toronto  
Stock Exchange late on Monday after-  
noon gave way to a reactionary tone  
yesterday, centered liquidation on a  
narrow market, bringing about a set-  
back in most of the favorite issues.  
The decline was quite orderly, and in  
most instances did not run into ma-  
terial figures, but it was quite suffi-  
cient to demonstrate the fact that  
speculative interest was not extensive  
enough to support an upward move-  
ment without the usual intermediate  
downturns.

While the trend was easier, the real  
feature of the day was the action of  
a couple of the specialties, which  
broke away from the general disposi-  
tion and scored sharp advances. Thus  
St. Lawrence Navigation, which rose  
from 123 to 128 in the preceding ses-  
sion, got up further to 131, which gave  
a net gain of 8 points for the week to  
date and made a new high record  
since 1908. The buying represented  
the response to rumors that the com-  
pany would be taken into the Canada  
Transportation Lines merger, the  
same traders were more inclined to  
attribute the rise to the prospect of a  
larger dividend payment in January  
next. For the year 1912 the company  
paid 8 per cent., and the optimists are  
talking of at least 10 per cent. for  
this year. The stock opened in January  
at 100 and rose to 129 during the  
boom in April, since when it has sold  
as low as 115. The range last year  
was 90 to 117.

**Recovery in Steel.**  
Dominion Steel Corporation was  
another firm spot in our market, but  
the movement was really a response  
to that in Montreal. The shares  
closed on Monday here at 44 1/2 and  
were up almost 4 points yesterday,  
reaching 48, and closing only fractionally  
below that. Brokers said that the  
recent decline had been overdone  
and sentiment was much cheered by  
the declaration of the usual dividends.  
Meanwhile the steel trade is in a gen-  
erally favorable condition.

In the general list small declines  
were the rule and were really more  
representative of the real character  
of the market than were the incidents  
chronicled above. Brazilian, which  
dropped a point, to 92, Twin City  
dropped to 107 and closed on offer.  
Cement was off a point, to 14 1/2,  
and Spanish River lost a share  
fraction to 16 1/2. Several other  
issues gave small recessions for the  
day.

**C.P.R. STOCKS LISTED.**

LONDON, Eng., Sept. 9.—The Cana-  
dian Pacific Railway has listed  
\$2,745,481 cumulative preference four  
and 67,166,153 perpetual debenture  
four.

**RAILWAY EARNINGS  
SHOW UP POORLY**

Canadian Roads Report First De-  
crease in Years—Gains  
Across Border.

Complete returns of Canadian rail-  
road earnings for August beyond the  
predictions made recently that the  
month would show a decrease com-  
pared with 1912. The gross receipts  
of all roads reporting fell 2.5 per cent.  
below last year, that being the first  
instance in years that a decline had  
been registered. It compared with a  
gain of 1.2 per cent. for the first three  
weeks of the month, an increase of  
2.8 per cent. for the whole of July, 6.1  
per cent. in June, 7.5 per cent. in May,  
7.6 per cent. in April, 7.8 per cent. in  
March, 4 per cent. in February, and  
20 per cent. in January. The continu-  
ance in the C.P.R. returns of being  
responsible for the poor exhibit, for  
the other lines have had a steady in-  
crease.

The United States roads made a  
much better showing last month than  
did our own systems, the gross of all  
railways reporting an increase of  
0.5 per cent. over 1912. This com-  
pared with a gain of 4.6 per cent.  
in July, 7 per cent. in June, 8.2 per  
cent. in May, 2.7 per cent. in April,  
5.5 per cent. in March, 4.1 per cent. in  
February, and 13.9 per cent. in Janu-  
ary.

**HOLLINGER PROFITS  
ARE INCREASING**

Record of Last Four Weeks  
Only Exceeded Once Be-  
fore—New Discoveries.

Profits of the Hollinger Gold Mines  
made a further gain during the four  
weeks ended Aug. 12, evidencing the  
remarkable progress which the com-  
pany is making. The gross profits for  
that period were \$141,732, a figure only  
exceeded once in the history of the  
company, and showed an increase of  
about \$12,500 over the preceding four  
weeks, and of \$17,500 over the period  
ended June 17.

The total profits from Jan. 1 to Aug.  
12 were \$925,000, or about 28 per cent.  
on the outstanding capital of \$3,200,000. Meanwhile the surplus has  
grown from \$251,801 on Dec. 31 to  
\$225,242 on Aug. 12, the latter figure  
being about 2 1/2 per cent. on the  
capitalization.

During the period ended Aug. 12 the  
mill ran 92 per cent. of the possible  
running time, treating a total of 11,654  
tons, of which 188 tons were for the  
Acme Gold Mines, leaving 11,466 tons  
for the Hollinger. The average value  
of the ore treated was \$18.37, the ap-  
proximate extraction 97 per cent. and  
the milling costs \$1.87 per ton. This  
compared with a treatment of 10,056  
tons in the previous four weeks. The  
average value of the ore treated was  
\$19.70 in July, \$16.50 in June, \$17.53 in  
May, \$22.44 in April, \$19.81 in March  
and \$27.87 in February. It will be  
noted that the ore being treated is con-  
siderably lower grade than that milled  
earlier in the year.

**Get Rich at Depth.**  
Manager Robbins reports that the most  
important result of recent develop-  
ment has been the discovery of the  
No. 1 vein at the 425 foot level, as an-  
nounced recently. The vein shows a  
width of ten feet and was reached at  
a distance of 285 feet from the bottom  
of the shaft. The characteristics of  
the ore are no different from those of  
the upper levels and assays show a  
value of \$13 per ton. The raise on the  
main shaft from the 300 foot level is  
within 17 feet of ending there. Sinking  
by hand was continued on the pro-  
specting shafts of veins Nos. 7 and 4.

**Development work in the mine is  
being pushed.** There is now a total  
of 16 headings advancing in ore; four  
upon the 100-foot level, seven upon the  
200-foot level, three upon the 300-foot  
level and two upon the 425-foot level.  
Besides this they are doing a consid-  
erable amount of cross-cutting, and  
during the four weeks have picked up  
the following veins:

No. 5 vein upon the 100 foot  
level, No. 8 vein upon the 200 foot level  
and No. 4 vein upon the 300 foot level.  
Thirty-seven drills are working double  
shift.

Working costs for the period under  
review show a big reduction, being  
\$273 per ton of ore milled, comparing  
with \$620 in February. The cost, which  
was the previous lowest cost re-  
corded.

**Extraction is increased.**  
It is interesting to note that the ex-  
traction at the mill was increased from  
95 per cent. of the values in the ore  
in June to 97 in July and to 97 in  
August. This is the best work ever  
done at the plant.

The figures given compare as fol-  
low:

Profit. Surplus. Ore mill-  
ed. Total.  
All 1912 . . . . . \$361,801 . . . . .  
1911 . . . . .  
Jan. Feb. . . . . 241,609 413,402 . . . . .  
Mar. . . . . 179,242 541,696 . . . . .

**LONDON COMMENT ON  
SILVER POSITION**

Stocks Are Large and Speculators  
Fear a Top-Heavy  
Market.

Bar silver at 59 5/8 is slightly under  
the high level of a couple of weeks ago,  
but is still two cents above the low re-  
cord of the year to date, established  
during March. London agents received  
yesterday stated that the stocks in  
London were still extremely large,  
about \$4,000,000, which accounted for  
the easier tone, speculators being loth  
to take the bull side as long as sup-  
plies were so large. The demand of  
the market was, however, fairly good,  
despite the fact that some considered  
the weight of stocks made the situa-  
tion top-heavy. Meanwhile, Indian  
speculators appeared willing to sell  
forward silver on any sign of firmness  
in rates. This counteracted the effect  
of a good demand from China, and held  
the price within comparatively narrow  
limits. The range on silver is as fol-  
lows: 1912, high 64 1/2, low 54 5/8;  
1913 to date, high 62 3/4, low 56 5/8.

**BRITISH CONSOLS.**

**REPORT ON CROPS  
LIKED BY "STREET"**

Official Estimate Proved  
Rather More Favorable Than  
Had Been Expected.

**STOCKS CLOSED STRONG**  
Condition of Spring Wheat  
Regarded as Reassuring—  
Money Rates Stiffen.

**NEW YORK, Sept. 9.**—It was not  
until after the appearance of the gov-  
ernment crop report, in the last hour  
of today's trading, that the stock  
market showed some appearance of  
activity with a decisive movement up-  
ward, but business was unusually light  
and fluctuations possessed little sig-  
nificance. Pending receipt of the crop  
figures the traders preferred to mark  
time, and the final movement was up-  
ward, with a fair degree of activity  
in the bidding for important stocks.  
Previous losses were made up and not  
a few of the standard shares ended  
the day with small gains.

Speculators bought stocks in the last  
hour of the trading, while the stock  
market showed some appearance of  
activity with a decisive movement up-  
ward, but business was unusually light  
and fluctuations possessed little sig-  
nificance. Pending receipt of the crop  
figures the traders preferred to mark  
time, and the final movement was up-  
ward, with a fair degree of activity  
in the bidding for important stocks.  
Previous losses were made up and not  
a few of the standard shares ended  
the day with small gains.

**DOMINION IRON  
STRONG FEATURE**

Declaration of Regular Divi-  
dend Allowed Traders to  
Make Profitable Turn.

**MONTREAL, Sept. 9.**—A rally in  
iron and a further advance in Power,  
lifting the price to a new high for the  
movement of the stock market today.  
Features in local stocks today. The  
outstanding feature of the market con-  
sisted of the announcement of a regu-  
lar dividend and from an opening  
at a few points, notably in Brazilian,  
which fell 1 1/2 and recovered only 1-4  
of the loss, and in Macdonald and  
Spanish River, both of which, while  
closed, closed about 3-4 lower on the  
day. The dominant feature of the  
market was the announcement of the  
Quebec Railway infusing no strength or  
activity in the issues of that company,  
which fell 1 1/2 and recovered only 1-4  
of the loss, and in Macdonald and  
Spanish River, both of which, while  
closed, closed about 3-4 lower on the  
day. The dominant feature of the  
market was the announcement of the  
Quebec Railway infusing no strength or  
activity in the issues of that company,  
which fell 1 1/2 and recovered only 1-4  
of the loss, and in Macdonald and  
Spanish River, both of which, while  
closed, closed about 3-4 lower on the  
day. The dominant feature of the  
market was the announcement of the  
Quebec Railway infusing no strength or  
activity in the issues of that company,  
which fell 1 1/2 and recovered only 1-4  
of the loss, and in Macdonald and  
Spanish River, both of which, while  
closed, closed about 3-4 lower on the  
day. The dominant feature of the  
market was the announcement of the  
Quebec Railway infusing no strength or  
activity in the issues of that company,  
which fell 1 1/2 and recovered only 1-4  
of the loss, and in Macdonald and

GRAIN PRICES TURNED HEAVY

Good Outlook for Fall Plowing Weakens Wheat—Corn Irregular.

CHICAGO, Sept. 9.—Improved prospects for fall plowing had a weakening effect today on wheat. The government report turned out even more bullish than expected regarding wheat, with corn just as bullish as looked for, and about as predicted. Net changes in the market were: Wheat 1-4c to 7-8c decline, corn 1-2c loss to 1-4c to 1-4c gain, oats of a sixteenth to 1-4c, proso millet less expensive by a shade to 1-4c.

Wheat speculators took notice of news in the winter crop region, a change from the recent conditions of wet baked soil that had made plowing out to impossible and had seriously threatened to diminish the acreage for next year. Another element acting in a buying side was the general opinion that the Washington estimate due at the close would prove much larger than as total figured out a month ago.

It developed that some direct export business in wheat had been done from Chicago. There was an offset, too, in the resumption of threshing. The market was a smaller entity for "plate" parcels at the advance and easier spot market.

Corn opened with shorts covering 1-4c higher and further advanced during morning. The steady American cables, Macdonald's news of a belief in a bullish American government report caused the advance. The advance was checked by a smaller entity for "plate" parcels at the advance and easier spot market.

WINNIPEG GRAIN EXCHANGE. Wheat—Open High Low Close. Sept. 9. 87 1/2 87 3/4 87 1/2 87 3/4. Oct. 87 1/2 87 3/4 87 1/2 87 3/4.
