### THE POLICIES. ROSE COLLECTION

#### For First Time, a Massachusetts District Elects a Democratic Congressman on National Issues.

BROCKTON, Mass., March 22.—The national political weather cock turned Democraticward in Massachusetts today, when the old colony section, one of the Republican strongholds of the state, placed Eugene R. Foss of Boston, a Democrat, in the congressional seat of the late Wm. C. Lovering of Taunton. Mr. Foss accomplished what is regarded as almost a political miracle, turning a Republican plurality of 14,350 into a Democratic victory of 6460. His opponent was Wm. R. Buchanan of Brockton, Republican.

The result is considered of more than state-wide importance, for Foss, stump- ing the entire fourteenth district, raised the entire fourteenth district, where the two sides and every one of the 44 towns in the district gave Republican majorities, only four months ago at the state elections, a scant dozen remained loyal to the Republicans to-day.

It was the first contest to be decided by the voters since the Payne-Aldrich tariff bill became operative and had a peculiar interest on that account. Foss, who has figured in several campaigns, first as a Republican, and later as a Democrat, with moderate protectionist leanings, is well known in the north- eastern states and in Canada as a champion of Canadian reciprocity, an issue which led him to leave the Republican party last year and become the Democratic candidate for lieutenant-governor. He failed by only 8000 votes to carry the state last time.

Another subject which was discussed in the congressional campaign was the high cost of living. The Democratic campaigner charged that the Payne-Aldrich tariff bill and the failure of the Republican party to regulate the trusts by being mainly responsible for the high cost of living. This attack was met by Senator Henry Cabot Lodge, who delivered an address at Brockton last Saturday night, in which he declared that the tariff had increased principally in articles upon which the duty had been lowered when the tariff was revised last year.

Mr. Foss, in replying to Senator Lodge, presented a list of comparative food prices in Montreal, St. John, N.B., and Boston, which, when done, became a point against the allegation that the cost of provisions is due to a world-wide upward price movement.

The district has recently elected a Democrat to congress. A split in the Republican party, due to the failure of Lodge to carry the state last year, and the fact that Foss was a former Republican and that Buchanan was formerly secretary to Governor Douglas, a Democrat, are the reasons given by the Republican leaders to-night.

Mr. Foss, in a statement to-night, declared the result of the election shows "a demand by the people that the Republican party fulfill its pledge for an honest reduction of the tariff."

"It is a demand for the immediate repeal of sections of the Payne-Aldrich Act, which substitutes retaliation for reciprocity, and threatens commercial warfare with our best customers," he continued.

Mr. Buchanan, the defeated candidate, said: "If the result will serve to convince the Republican leaders at Washington that something must be speedily accomplished in the way of lowering the cost of living, I shall feel that my defeat has not been without value."

### A TARIFF AGREEMENT

#### Report of Temporary Truce Pending Reciprocity Measures.

OTTAWA, March 22.—According to present probabilities, Canada will, in order to secure the continuance of the present U. S. tariff until such time as a reciprocal tariff can be negotiated, be asked to remove the duties on such articles as watch springs, cotton seed oil, cement, silk, and certain fruits, extending to the intermediate tariff.

The Washington authorities hold out the hope that, this done, the matter of lumber and farm dairy produce will later be admitted free.

Congressman is Hopeful. DETROIT, Mich., March 22.—Congressman Denby of this district telegraphed to Ottawa this afternoon: "After a conference with the secretary of state to-day, I feel greatly encouraged to hope for a favorable outcome of the Canadian situation. Negotiations are proceeding in the most friendly spirit and all parties are hopeful."

Niagara Falls Protests. NIAGARA FALLS, Ont., March 22.—(Special.)—Claiming that the tariff war between the United States and Canada would ruin the large volume of business between the two cities on Niagara River, Niagara Falls, N. Y., Board of Trade has passed a strong resolution calling on Representative Simmons and President Taft to maintain the present tariff.

Letters of protest from big manufacturers who have Canadian branches will also be forwarded.

Another One. NORTH TONAWANDA, N.Y., March 22.—The board of trade to-day adopted a resolution opposing a tariff war with Canada. The president and secretary of state are urged to do everything in their power, consistent with the dignity and honor of the government, to continue in effect the present tariff.

MANITOBA LIVE STOCK ENQUIRY. WINNIPEG, March 22.—A. M. Campbell, chief of Stomach and Diseases, of Nepeawa and R. C. Manning of the city will compose the commission to inquire into the live stock conditions of this province and the alleged monopoly menacing the industry.

### Favor Peace, But Not Disarmament

#### President Taft Also Favors Arbitration for Disputes Wherein National Honor is Involved.

NEW YORK, March 22.—The President of the United States spoke in the cause of world-peace to-night before a brilliant assemblage at the Hotel Astor, who was the honor guest at the banquet of the Peace and Arbitration League. International peace was the keynote of every address, but no speaker advocated the immediate disarmament of nations. On the other hand, all agreed that armistice was not necessary until a more utopian universe shall have come about.

On this point President Taft said: "Because we are in favor of universal peace and in favor of arbitration in order to secure it, we stand together, but we are not in favor of our country giving up that which we now use for the purpose of securing peace, to wit, our armaments in our army and our navy."

Tremendous applause greeted his declarations. He added: "Personally I do not see any more reason why matters of national honor should not be referred to a court of arbitration any more than matters of property or matters of national propriety."

Court even Bernstorff, German ambassador, disagreed with the latter suggestion. Endorsing armed peace, he said: "Altho our emperor has reigned for 21 years at the head of the strongest army of the world, he has never made a war. Our fleet is not for aggressiveness, but for the protection of our coasts and commerce."

The Mexican ambassador, ex-Vice-President Fairbanks, Mayor Cawley, Henry C. Lewis, the banker, also spoke.

### FOREIGNER THE MORE WELCOME?

#### Major Currie Declares British Immigrant to Canada Is Not Given Fair Treatment.

OTTAWA, March 22.—(Special.)—Lumsden investigation committee thought better of their action last evening, in deciding not to report the evidence taken to the house, and Victor Geoffrion, the chairman, to-day reported to the commons both the proceedings and the evidence. Haughton Lennox moved that the whole question of the Lumsden inquiry be taken up on March 31. This was agreed to.

A. H. Clarke (South Essex) stated that the Ontario Government had leased to a Detroit concern the right to take sand from the St. Clair River for a period of five years. People who had been accustomed to take sand from the river were indignant that they should have to pay a royalty to this concern.

Hon. Wm. Pugsley said that if the sand rights belonged to the province, the public works department could not take any action unless operations interfered with navigation, which was likely.

Ban on Tubercular Immigrants. In committee on Hon. Mr. Oliver's bill to amend the immigration act, Clarence Jameson (Digby) suggested that tubercular immigrants be added to the list of diseases debarring entry.

Mr. Oliver said that while recognizing the necessity of excluding patients, it had been thought best not to mention the disease by name.

Dr. Paquet suggested that immigrants should be examined as to their moral fitness and Mr. Oliver said that while it might be possible in European countries, where the records of all individuals are kept, it would not be possible in Great Britain, without unnecessarily hampering the emigration of desirable people.

Crish Wilson (Lennox and Addington) having expressed the opinion that Canada was getting little good from the system of paying a bonus for agricultural classes, the minister said that the home government was making a large increase of British birth.

### WORST YET TO COME IN PITTSBURG CIVIC SCANDAL

PITTSBURG, Pa., March 22.—Nine more former members of councils appeared before the district attorney to-day, confessed to accepting money for their votes while members of the municipal bodies, and were then rushed before Judge R. S. Fraser, where they received their immediate bath in the way of suspended sentence.

While the grand jury adjourned for the day it had returned no indictments, altho the jurors had listened for hours to developments in the bribery scandal, even more sensational than developed yesterday. Men admitted selling their honor for from \$30 upward.

John F. Klein, whose confession Saturday started the upheaval, was before the grand jury late in the afternoon, and continued his narrative of councilmanic graft.

"There was one fellow," he said, "who was a case—a regular shyster for the dough. In the South Seventeenth street business I handed him \$81. He looked at me for a few minutes and then yelled like a stuck pig for an extra ten cents. You know \$81.00 was the standard price in that deal. Well, he got ten cents all right."

The bribery-takers who confessed to the district attorney to-day will testify before the grand jury. District Attorney Blakeley will, as soon as the bribery-takers have been rounded up, go after the bribe-givers. These are said to be bank officials of institutions whose names have never heretofore been breathed in connection with the graft probe of the last two years.

Twenty men have thus far confessed, 37 have been indicted, but not yet confessed and 18 have been indicted. It is said that before the grand jury is dismissed fully 100 persons will be implicated, including the men who supplied the money to do the bribing.

Yesterday and to-day Klein worked the telephone overtime trying to get the former president of the common council, William Brand, to come forward and tell his story. Brand was to have gone to the penitentiary, but his incarceration was deferred because of the illness of a daughter, and partly in the hope that he would confess.

Klein also telephoned Joseph C. Wasson, who enters the penitentiary Monday. As a result Wasson, too, will join the band of penitents.

### THREE WOMEN DROWNED BY OVERTURNING OF BOAT

TEESWATER, Ont., March 22.—A sad drowning accident occurred at Joseph Semple's farm, four miles from Teeswater, when Mrs. Semple, her daughter Christie, and Mrs. Elliott, a relative from Liverpool, England, were drowned in the Teeswater River. Mrs. Elliott's daughter, Miss Elliott, was the only one of the party saved.

The river runs thru the farm, just below the house, and they had intended rowing up the river and crossing over to a neighbor's, but owing to the swollen condition of the river, and the strong current at this spot, the boat was swept down the river and overturned before they had taken hold of the oars.

The accident was seen by Miss Kate Semple, and she immediately called her brother, who managed to rescue Mrs. Elliott as she was being swept around a bend in the river. She is still in hospital.

The bodies of Mrs. Elliott and Mrs. Semple were recovered at Grant's bridge, half a mile away.

### WILL FILE NEW TARIFF

Telegraph Companies May Try to Satisfy the Publishers.

OTTAWA, March 22.—(Special.)—Apart from the important ruling by the board of railway commissioners that flat rates on press despatches are to be abolished, the most important result of the press-night conference, which was concluded here to-day, is that the telegraph companies agreed to withdraw the tariffs filed under the judgment given on the application of the district attorney to-day.

The Western Associated Press, and the newspaper managers later on, will file new tariffs by April 20. Should the new tariffs not be acceptable to the newspaper managers, the railway board will hear objections later on. The commission will hold sittings in Winnipeg in the course of a month, any representations which the western newspapers desire to make will be heard there. The eastern publishers will, if the necessity arises, be heard at Ottawa.

It is understood that the C. P. R. Telegraph Co. will consent to maintaining a flat rate on the Associated Press service to newspapers, tho at a small increase in the price.

### Help the Good Work

"I might say on behalf of the society that we are in hearty sympathy with the good work you are doing, and we will endeavor to help you all we can."

This is an extract from a letter from William Munns, president of the West End Christian Temperance Society, and he refers to the campaign to raise twenty thousand dollars for the erection of a Newboys' Home and Gymnasium.

This project surely is one to which the Christian people of Toronto should give their hearty support. The proposed home will keep the newboys off the streets when they have no business there; will put them under the refining influence of expert boy workers; and for these reasons it will be supported by societies such as the above.

### WON'T AFFECT HEREDITARY PRINCIPLE.

LONDON, March 22.—The large majority by which the House of lords to-day carried Lord Rosebery's third resolution is rather the register of a popular opinion than the forerunner of any effective reform.

### NEW ZEALAND VISITORS ON EDUCATIONAL QUEST

Two interesting visitors from New Zealand called on The World last night. They were E. K. Lomas of Dunedin, teacher of the Selwyn Collegiate School, and A. G. Johnson, teacher of the Boys' High School of Timaru. They are on five months' leave of absence, and will visit some of the chief cities of America to investigate educational matters, the trip being undertaken at their own expense.

The New Zealanders have already visited Montreal and inspected some of the chief educational institutions of the metropolis. To-day they go to Niagara Falls, thence to Chicago and back to New York, where they will separate. Mr. Lomas is returning to England and Mr. Johnson to return to New Zealand via overland to Vancouver.

"New Zealand," said Mr. Lomas, "is just now experiencing the past year's exampled prosperity. Our chief industries are wool and frozen-mutton, which comprise a fourth of our total exports. In the past year we exported these commodities about six million pounds sterling value."

Speaking of the schools, he said he found the important ruling by the board of railway commissioners that flat rates on press despatches are to be abolished, the most important result of the press-night conference, which was concluded here to-day, is that the telegraph companies agreed to withdraw the tariffs filed under the judgment given on the application of the district attorney to-day.

To obtain the best legal advice available, the chief objects in view were to secure a street railway served so far as possible for all the people of Toronto, and to guard the street railway franchise which the city intended to take over in 1921. He wished it understood that he was not personally antagonistic to the railway.

These were the decisions arrived at yesterday by the special committee of the city council appointed to deal with questions of street railway policy. Ald. ### TORONTO TO HAVE ACCESS TO VIADUCT DOCUMENTS

Order Made by Railway Commission—Losses Thru Run-offs During Construction.

J. S. Fullerton, K.C., acting for the city on the viaduct and grade separation issue, before the Board of Railway Commissioners for Canada, secured permission to have access to any vouchers or papers bearing on the subject held by the Grand Trunk Railway at Montreal, despite the reluctance of counsel, G. F. Shipley, K.C., and M. K. Cowan, K.C., to consent to their removal from the main office. The company's lawyers said they had no objection to the city's officials making an examination of any papers at Montreal; but Mr. Fullerton contended that this would entail considerable expense for transportation besides being a great inconvenience. He wanted the railway to forward any papers on demand.

Mr. Cowan said the documents would be too valuable to be allowed out of the office, and, besides, should the city demand them all, it would take a box-car to convey them up here.

"If there is to be so much trouble, it might be reasonable to make the railways do the work themselves without bothering the municipality at all," suggested Chairman Mabey.

Mr. Fullerton agreed to accept copies of what was required, providing the companies would let the city look at the originals in Montreal when desired, and so the order was made.

The company's lawyers wanted a ruling that the one-third of cost of building bridges and lowering tracks west of Bathurst-street, that is to be paid by the city, should include losses on rolling stock or accidents, thru run-offs in the course of construction. Both parties agreed to allow the board to make settlement in such cases.

Regarding the maintenance of pavements, sidewalks, sewers, and water connections, which Mr. Shipley considered should fall on the city, and the maintenance of bridges, tracks and sidings which he said should be borne by the railways, decision was reserved.

The Grand Trunk was ordered to pull up, within 6 months, its industrial siding serving the Davis and Doty inlets at Oakville, which was constructed along a roadway when it might have gone thru the Electric Development property, and also to pull up, within 60 days, a spur to Shields and Hillmer's plant. This required the re-reading of orders previously made by the board. It was shown that Mr. Davis of the first named firm was mayor at the time the order was made, and that Mr. Hillmer of the latter company was in the council. This was a reason why no objection had been made at the time.

**Dangerous Crossing.**

The Grand Trunk was ordered to eliminate the level crossing in Dorchester Township, Middlesex, 20 per cent. to be paid by the grade crossing fund, 15 per cent. by the county and 65 per cent. by the company.

Gates were ordered for the Michigan Central crossing at Tilson-avenue, Tilsonburg. The town will pay 10 per cent. Seven persons have been killed at this point.

Decision was reserved on the application for the protection of the G. T. crossing, 1-2 miles west of Acton.

The board's engineer will report on the approaches, fences and cattle guards within 30 days.

Hilton's application for a subway under the G. T. tracks crossing the seventh line in Eglinton Township, was disallowed, but the company was ordered to improve the approaches so as to comply with the general order of the board under which they should be 20-ft. wide.

The question of protecting the level crossing at Elizabeth-street, Toronto Junction, and Dundas-street in Etobicoke Township was adjourned pending negotiations which have been entered into between the city and county regarding a subway.

**Tariff on Apples.**

The Grand Trunk and Canadian Pacific Railways were ordered to alter their freight tariff on apples to specify green or evaporated goods. This came thru a complaint of Messrs. MacFarlane and Field, of Hamilton, that the companies accepted payment on a carload of evaporated apples from Dundas to Winnipeg at commodity rate for "apples," but collected fifth class, the contention being that the amount prepaid was justified by the commodity tariff itself.

John Foster Reece, a farmer near London, dropped dead while dressing. Nine out of nineteen Chinese laundries in Quebec have been officially declared unsanitary.

### GIRLS DISCUSS STRIKE

**Tobacco Workers Held Meeting at Labor Temple Last Night.**

Sixty girls were on hand at the Labor Temple yesterday to discuss the strike situation at the Milligan Cigar Factory. The girls have been receiving four cents a pound for fillers and ten cents a pound for wrappers. They are asking that these rates be increased to five cents and 12 cents respectively.

A picket of 12 strikers were in front of the Milligan factory on East Wellington all day, but no molestation took place. It is stated that the union cigar makers may refuse to work with the girls who take the places of the strikers.

### CERTIFICATES OF ORIGIN.

**PARIS, March 22.—(C. A. P.)—**The Canadian section of the British chamber of commerce is taking up with the French Government the question of certificates of origin required on goods imported from Canada.

**Disaffection on British Battleship.**

LONDON, March 22.—The battleship Irresistible has been isolated at Plover Roads since March 12, owing to disaffection among the crew.

The sights of the big guns were thrown overboard on the night of March 12, and the most rigid investigation has failed to reveal those responsible.

Earl Grey is spending a week's holidays in New York.

**I Will Send This Book Free**

To anyone who will mail me this coupon I will send free (freely sealed) my finely illustrated book regarding the cause and cure of disease. This book is written in plain language, explains many secrets you should know. It tells how you can cure yourself in the privacy of your own home without the use of drugs.

Don't spend another cent on doctors and their worthless medicines. Nature's remedy cures to stay cured. You should know about it.

If you suffer from weakness of any kind, rheumatism, lame back, sciatica, lumbago, debility, drains, loss of power or stomach, kidney, liver or bowel troubles, you must not get to get this book.

Don't wait another minute.

The reason so many people neglect to use my Belt is that they fear it will fall, like other things they have tried. Now, the security that I offer to the doubtful man is that he need not pay for my Belt until it does for him what I say it will do; if he in turn will give me reasonable security that he will pay me when cured. Put aside these testimonials. Don't make any difference whether you know that Dr. McLaughlin's Electric Belt cured them or not. Give me reasonable security. I will arrange the belt and send it to you, and you can

**PAY WHEN YOU ARE CURED**

Pick out the men who have worn my Belt. See them with head erect, chest expanded, the glow of health in their cheeks, courage in their hearts, and a clasp of the hand that tells you, "I am a man."

Mr. Samuel J. Barnett, North Gower, Ont., says:—"I received a Belt from you some four years ago, and I wish to say that it was all it does for me, having cured me of indigestion and other ailments, and I now feel like a new man, giving all the credit to your Belt. Anyone giving it a good trial, I know, will feel as I do."

Cut out this coupon now and mail it. I'll send the book without delay, absolutely free. Call if you can. Consultation free.

**DR. M. O. McLAUGHLIN, 112 Yonge Street, Toronto, Can.**  
Dear Sir.—Please forward me one of your Belts, as a favor. \$15.00

### HAMILTON APPOINTMENTS

### HEALTH BOARD DISPUTE POWER OF CONTROLLERS

Will Again Try and Appoint Inspectors—Proceedings in the Works Committee.

HAMILTON, March 22.—(Special.)—Members of the board of health tonight roasted the board of control for cutting down their appropriation, and a committee will see if the health board have not the power to appoint new inspectors. The controllers were accused of being autocratic and discourteous. Merchants will be notified to clean their areas. The health report for February showed 738 cases of measles.

A squad of plainclothesmen were employed this afternoon to arrest six Chinamen, who neglected to obey summonses to the police court to answer charges of gambling on Sunday. The police succeeded in finding only two of the "Key Ring and Sam Lee."

The assize court was occupied all afternoon with the case of Geo. Hund, who brought suit against the city and the T. H. & B. for damages for the death of his son, fatally injured by falling over one of the walls at the east end of the T. H. & B. tunnel. Justice Britton will inspect the place.

Mrs. Swain, 22 Augusta-street, widow of the late John Swain, died tonight at the age of 67 years. She is survived by daughter Mrs. William Bellhouse and Miss Swain.

**Buffalo Team Win.**

This evening, for the fourth time, the Buffalo Germans defeated the Hamilton Independent basketball team. The locals led at half time 7 to 5, but the final score was 20 to 16 in favor of the Germans, who now claim to be champions of America. The line-up: Buffalo (20)—Herd and Rhode, forwards; Shell centre; Miller and Faust, defence. Hamilton (16)—Harvey and Mellon, forwards; Arnold, centre; Chadwick and McKeown, defence.

The works committee this evening decided to ask the Ontario Railway and Municipal Board for permission to issue debentures for \$70,000 for water-works extension, and \$3,000 extra for the waterworks shops. The committee is willing to give up the right to the gravel pit property near the Desjardins Canal. Engineer MacCallum recommended that he be asked to build a retaining wall and fill in the property as his railway will cross the canal, 12 feet above the grade, or on the same level as the high level bridge. The wall and filling in would cost about \$350, and these conditions were regarded as too onerous. The matter was referred to a sub-committee to modify the terms. The Canadian people notified the city that when they quoted a rate of \$25 a month for supplying power to the city, they counted upon delivering power at 2200 volts, which would mean that the city will have to supply transformers, as it requires the power at 550 volts. They wanted \$30 a month for 550 volt power, and the committee recommended the amended contract.

The Works and Company were refused permission to build a switch along Kelley-street to their factory.

**Want Army Fences Moved.**

The government will be required to move back the fence behind the drill hall because it is encroaching on Hughson-street. The bricklayers complaining that the city was employing men who were not members of union, and an investigation was promised. A deputation will be sent to Pitt, Mich., to inspect the work of the stone crusher they counted upon delivering power at 2200 volts, which would mean that the city will have to supply transformers, as it requires the power at 550 volts. They wanted \$30 a month for 550 volt power, and the committee recommended the amended contract.

# EATON'S EASTER BARGAINS

## Only Three Shopping Days In Which to Complete the Easter Preparations

The individual who, chilled by the laggard frosts of winter, and pinched by keen March winds, deludes herself into the conviction that Spring is still far distant, and gives no thought to her Easter hat and gown until the last hours of Lent—this dilatory one is not now meted out the punishment that was once her unhappy portion. She may saffly forth, to-day, on Thursday, or even on Saturday, and at EATON'S array herself from crown to toe—from a coronet braid to a patent leather shoe. And she may gather together this complete equipment within the confines of one building. The EATON Store and the

cult of the ready-to-wear have revolutionized the whole matter of purchase, and the sin of procrastination is covered better than it deserves.

Easter has come early, but has not taken us unawares, for there is here a preparedness that will withstand the most frenzied order of the "eleventh hour." The endless range of suits and coats makes it possible for taste, fastidious to the last degree, to secure one that will answer every requirement, and the hats are so varied and truly captivating that choice will hang only on becomingness. Gloves, veil, neckwear and blouse can be quickly selected in their respective sections.

EASTER IS APPROACHED IN THE EATON STORE BY A BROAD AND BUSY HIGHWAY.

### 2 Extra Specials in Young Women's Suits

At the last moment the opportunity of buying an Easter suit at big saving presents itself to you in these two specials:

The \$10.00 special is made of a good quality of Panama cloth, in colors of ashes of violet, aeroplane, amethyst, pearl grey, peacock, blue, navy and black. The coat is semi-fitted in single-breasted style with long shawl collar and fastening with three buttons, the skirt is pleated in one of spring's newest styles. A pretty suit for young women's wear; sizes 32, 34 and 36 bust; skirt lengths 35 to 38. Thursday bargain ..... **10.00**

The \$15.00 special affords exceptional value. It's made from a beautiful quality of all-wool diagonal wide wale serge in colors of fume, ashes of roses, marine blue, amethyst, ashes of violet, green, grey and blue. The coat is in the semi-fitting single-breasted style, with the fashionable Tuxedo collar, inlaid with silk to match cuffs and fastens with three buttons, the skirt is pleated in a strictly new design; in all it's as fashionable and stylish a suit as you'd wish to wear and is a decided "snap" for so low a price; sizes 32, 34 and 36 bust; 35 to 38. Thursday bargain ..... **15.00**

### 3 Rousing Bargains in Women's Suit Section

3 specials for a record day's business, each at tremendous savings, await Thursday's early shoppers—values such as we haven't equalled this season, for instance, women's stylish wash suits at \$2.95 and tailored suits of all-wool wide wale serge at \$10.00. A well-known maker cleaned up his entire stock of wash suits to us at a big price concession for cash, we pass them on Thursday. They're made of white linen, diagonal, khaki suiting, and heavy crash linen, the coats are in the newest spring styles, with long lapels, some in contrasting shades, others perfectly plain tailored; sizes 32 to 42. Football Soccer was Disciplined Athletics Clubs to Fete S.M.C. Cricket Zingari's Program

Note and Comment

Bert Colyer, the gentleman rider, who was on John Griffin II. at Jacksonville yesterday, tho on the card as belonging to Chicago, he is a good Canadian bred and born in Quebec.

Jim Harvey, lacrosse player of fifteen years ago, left for the west yesterday prior to which he was presented with a gold locket suitably engraved by a number of the old Edlums. Woody Teger had the speech, and in reply the recipient among other things had said: "Woody would be returned to the council."

The T. & D. soccer people demonstrated last night that they are going to keep their game clean. Yes, it was reported with alleged wit that this association would be the recruiting ground for the M.C. League to which Tom Robertson reports that the latter will be some dumping ground.

Haltmore News: Joe Kelley, the big manager in Toronto, and that his team bed yesterday with the covers tucked up tight under his chin and his eyes sternly fixed on the ground.

Kelley said that things were in fine shape in Toronto and that he was waiting for the first time since September when he met Frank Klaus in a six-round bout in Pittsburgh.

More fight present staff floats out of San Francisco to the effect that Gleason and Berger are about to start an eastern tour.

St. Mary's Granitic Lawn Bowling Club has a very fine 12-hole asphaltic course already under way.

The ladies of the town will form a club, and have offered them the use of their green.

Acocose vs. Longboat. The twelve-mile race at Riverside rink Saturday night between Longboat and Acocose is creating a lot of interest.

# DISTINCTIVE CLOTHES FOR EASTER

If we have the pleasure of supplying your Easter suit or overcoat, you may rest assured it will be quite correct, and furthermore you will be in a class different from others, inasmuch as our styles are out of the ordinary and designed with taste and skill, which places them on a plane beyond the regular ready-to-wear garments. At no period of our history have we gone so extensively into strictly hand-tailored suits and overcoats as we have for this season. When we tell you that the tailors who are making our garments are only able to turn out two coats per week, you will have some idea of the skilled labor we are giving you in garments all ready to slip into and wear for Easter Sunday.

## OUR IDEA

is to save you the trouble and inconvenience of being measured and fitted by a tailor, and at same time guarantee you a much prettier, more classy and stylish garments.

Perhaps you haven't stopped to think that it won't be long before almost every man will buy his clothes ready-to-wear--just same as his boots and shoes. We are making it possible NOW, TODAY. We have the goods, and are here to demonstrate them. We don't say they are the CHEAPEST, meaning by that low priced, you don't want that kind of clothing, and there are lots of houses to sell it, if you do. Ours is the better kind. Priced to win CONFIDENCE and lasting GOOD WILL, from \$15.00 to \$40.00 for suits and overcoats. If we can make it any stronger, we'd just add that our guarantee of good faith is,

Your Money is in Our Cash Drawer Waiting for You Any Time You Feel That You Have a Complaint to Make.

IS THAT FAIR?

For the Meat Grower and Food Producer

MORE AND BETTER LIVE STOCK. Agricultural and live stock production in Canada, great as it is, is not keeping pace with the rapid increase of population, and a rapid advance in the cost of living is taking place in consequence.

The need of the hour is more intelligent agriculture, more acres under cultivation, and better methods, better seed, better care of crops, more and better farm management, so as to preserve the fertility of the soil instead of exhausting it.

This country, with its wonderful natural resources, its marvelous array of labor-saving agricultural machinery, the intelligence, freedom, thrift and enterprise of its agricultural population, and its splendid systems of transportation, needs only to study the demands of consumers at home and abroad, and direct these elements to the production and distribution of the best in abundance, in order to prosper as no nation has ever done.

This applies with special emphasis to meat and draft animals, and animal products of all kinds. To those who study methods of the highest economy and efficiency, and strive to reach the highest degree of excellence in live stock production, will belong the greatest rewards, not only in direct pecuniary profits, but also in the growing fertility of their soil.

Those sections of the nation where the policy has been most persistently and consistently followed are today inhabited by the most wealthy, prosperous and intelligent people on the earth, who wield the most powerful public influence.

MORE GOOD BEEF. The world's markets are all short of good beef and the too early marketing of unmaturing beef cattle half finished is a sacrifice that we cannot afford.

The beef man and the high price of grain is responsible for this sacrifice. Already Canada and the United States are short of good beef cattle and to a greater extent the European nations want more good beef than they can produce, we must therefore feed well and fully develop our cattle to get all the good beef we can.

The improved beef breeds give ample early maturity, but we should fully develop the cattle before they are marketed.

An English breeder in London Farm and Home gives practical advice to farmers in Canada as well as in England. "I do not think farmers in general have a very clear idea of what is meant by the term 'baby beef,' and if asked what they supposed it to refer to, many would say, 'early maturity.' But getting a bullock ready for the butcher at two years old would be so described inasmuch as comparatively few animals are slaughtered under three years. 'Baby beef' is a very different article, difficult and expensive to produce, and with a very dubious profit attending its production. Those who advocate the adoption of the baby beef system have in their minds the slaughter of the animals at one year old, and to make them worth killing at that age they must be forced on from birth just the same way as young show animals are forced. There must be no stinting of new milk, which is the most expensive article of food known to breeders, and there must never be a check from first to last. Exhibitors know what this means, and what it costs, and, I for one, fall to see where the profit lies in producing these phenomenal youngsters for the ordinary market. It is admitted, too, that to be successful the calves must be highly bred or they will not be sufficiently precocious for the purpose. Early maturity is not another virtue, and there is nothing like keeping the young stock going from the first, and bringing them out at two years old, without that terrible check so many receive in the straw-yard during their second winter."

The Bedfordshire Agricultural Society supplies pure bred bulls to the farmers in the country. Over a hundred farmers are using the bulls and the committee are buying more bulls to extend the good work. Store stock is held at such high price for good feeders that farmers will raise more of their own cattle to get better quality to feed and market more profitably.

HIGH COST OF LIVING. Chicago See Meat Products Take Another Big Advance.

CHICAGO, March 22.—Previous gains in meat prices were made to look insignificant yesterday when an increase of 1 to 3 1/2 cents a pound was announced in the cost of dressed mutton cuts. This was accompanied by an advance of 1 1/2 cent in dressed beef cuts, and 1 1/2 cents a pound in the value of live chickens.

Shortage in the available supply of sheep and lambs and the fact that packers are paying the highest prices ever recorded for live muttons at the stock yards were the reasons given for the sharp rise in the price of mutton products. The advance brought mutton racks to 18 1/2 cents a pound, legs and loins to 16 cents, and stewing and boiling to 12 1/2 cents. Live stock traders say they do not believe that the present deficit in the supply of sheep and lambs will be overcome before July, and in the meantime they look for both the live and dressed offerings to sell at still higher prices. Live lambs at the stock yards sold up to \$10.00 a hundred pounds, while best sheep reached \$8.75.

61 CARS AT CITY YARDS DEMAND BOOSTS PRICES

Sheep, Lambs, Calves are Very Firm—Hogs Hold Steady at \$10 Per Cwt.

The railways report receipts of 61 cars of live stock at the City Market, consisting of 822 cattle, 1122 hogs, 418 sheep and 181 calves.

The market was good and prices 10c to 15c per cwt. higher. Everything was bought up before the noon hour.

Butchers. Geo. Rowntree bought for the Harris Abattoir Company 250 cattle, at \$5.50 to \$5.75; 100 sheep, at \$5.50 to \$5.75; 100 lambs, at \$5.50 to \$5.75.

Trade in milkers and springers is not nearly as strong, and prices were reported at \$3 to \$5 each.

Veal Calves. About 200 veal calves sold at \$4 to \$8 per cwt.

Sheep and Lambs. The market for sheep and lambs was strong. Ewes sold at \$5.50 to \$6.25; rams, \$5.75 to \$6.50.

Hogs. Hog prices firm, at \$10 for selects, fed and represented, and \$9.75 for culls at country points.

Representative Sales. Corbett & Hall sold: 11 butchers, 575 lbs. each, at \$5.50; 17 butchers, 550 lbs. each, at \$5.50; 2 cows, 1025 lbs. each, at \$2.10.

Market Notes. Maybee & Wilson topped the market for three butchers, weighing 1130 lbs. each, at \$7 per cwt.

REASONS FOR HIGH PRICES. In an address at Orillia lately Mr. J. W. Flavell of the Davies Packing Co. said: "In this province we have this year less milk cows than we have had at any time during the last six years. In beef cattle we have less than at any time in the last ten years; in poultry we have less than we have had during the last three years. In a simple matter like these we have had less than we have had at any time in the last several years; and these have been years of great expansion in population, particularly in population in towns and cities or in districts peopled entirely by consumers, such as mining camps or railway construction camps. News-papers, cabinet ministers, breeders, departments of agriculture, farmers, middlemen, exporters, who alone in the group have shown adequate enterprise adequate expenditure, adequate courage, and who have provided facilities for the easy distribution of a volume of products which should be produced from a great acreage which is the heritage of these two peoples on either side of the international boundary line."
