THREE SUSPECTS ARRESTED FOLLOWING FIRE AT HESPELER Big Austrian Arms Factory is Wrecked by Explosion

HESPELER FIRE HAS SEQUEL IN THREE ARRESTS

Evidence Strengthens Theory
That Alien Enemies Dam-
aged Munitions Plant.

EXPLOSION WAS HEARD

Mysterious Stranger Said to
Have Left Valise in
Factory.

Special to The Toronto World.
HESPELER, Ont., Feb. 6.—Two
more arrests were made Satur-
day night by Chief of Police Wilson
of suspects in connection with the fire
which at noon hour Saturday destroyed
the shell department of A. B. Jar-
dine and Company's foundry. While
the fire was destroying the building
Chief Wilson placed John Schmidt under
arrest. Schmidt was lodged in
the town lockup and searched, but so
far as can be learned nothing of an
incriminating character was revealed.

Schmidt, who is an Austrian, has,
according to the authorities, been in
the town at intervals in the past two
years.

Last night the police arrested two
more men of suspicious character, who
have been in the town of late. While
the police refuse to divulge their
names, it is known that the men are
of foreign parentage. The govern-
ment authorities are working on the
case and every effort is being made
to ascertain the cause of the fire.

Residents in Hespeler and surround-
ing district are greatly aroused, and
are positive the fire was started by
enemies.

Heard Explosion.
The theory that Jardine Foundry fire
was of incendiary origin has been in-
creased by discovery of further
evidence. A workman, by the name of
Lewyck, who was eating his dinner
in the factory, heard an explosion and
found the plant in flames. Ernest
Radke, another employe, says he saw
a stranger come into the shop, and
asked for a job, and that he had a
valise which he set down beside a
resin tank. Radke saw it there when
he left the plant at 12:30.

The fire was in the shell department
of the works, which was a building
175 feet by 60 feet, and the loss is now
estimated at between \$35,000 and \$50,-
000.

At noon when the employes left the
factory, which is in the centre of the
town, everything was quiet. The
watchman was the only one known to
be in the building. Numbers of the
men went to a big recruiting meeting
which was being held at noon hour.
Mayor L. E. Westover was speaking and
the soldiers of the 11th Battalion
were present from Galt and Preston.
The meeting had scarcely commenced
when the alarm of fire was given.
The firemen made a quick response
and saved the other buildings.

cided to take no action in the case.

WAR SUMMARY: Today's Events Reviewed

REPORTS by Balkan press agencies convey the information of the
opening of a great artillery duel in the vicinity of Lake Doiran,
north of Saloniki, on the Greco-Serbian frontier, and intimate
that this operation is a preliminary to the contemplated advance of
the Germans, Austrians, Turks and Bulgarians to oust the allies from
Saloniki. It is generally interpreted that the movement against this
port has been delayed, owing to the dwindling numbers and consequent
weakness of the Germans and Austrians, and their prolonged
inactivity is interpreted as a strong sign of their having passed the
climax of their strength and having begun their journey downhill.
The German Emperor did all that he could to induce his Greek brother-in-
law to expel the Anglo-French forces from the port, but the Greeks
had sense enough to realize that as the allies held command of the
sea and as the Greek navy would not last a week of warfare, they
had better remain on the side of the powers holding the whip hand.
So the Germans have to undertake the task which they failed to in-
duce the King of Greece and the pro-German members of his staff
to attempt.

It is now admitted that had the Germans advanced in December
against Saloniki, they would have found the allies holding on to this
harbor by their eyelashes, and they would have had comparatively

PAPERS FOUND IN TRUNK CLUE TO OTTAWA FIRE?

Plan of Parliament Buildings and Other Public
Works Left by German, Who Departed
From Capital in Haste.

By a Staff Reporter.
OTTAWA, Feb. 6.—What may provide a clue to the Ottawa fire is
the discovery of plans of Ottawa and the parliament buildings,
as well as some correspondence, in a trunk left by a German
named Schweiber in the Chateau Laurier.
Some months before the war, Schweiber stayed at the Chateau
Laurier, and went away leaving an unpaid bill of \$116. A few days
before the fire broke out here, a telegram was received from Schweiber
from San Francisco, asking that the trunk be sent on to him, and for-
warding money to pay his bill.
The trunk was opened today by secret service men, and in it were
found letters in German, as well as plans of the city, and also of Cana-
dian harbors. These may provide a clue.

SKODA WORKS BLOWN UP LARGE AERODROME BURNED

Big Austrian Arms Factory at Pilsen, Bohemia,
Partly Destroyed—Germans Lose Num-
ber of New Aeroplanes.

ROME, Feb. 6, via London, 7:30 p.m.—
Austria's arms factory, the Skoda
works, at Pilsen, Bohemia, has been
partly destroyed as the result of an ex-
plosion, according to a despatch from
Bucharest, Roumania, to the Messag-
gero.
According to a Geneva despatch,
fire has virtually destroyed the Johan-
neshal aerodrome, just outside of Ber-
lin, according to private telegrams
from Munich and Stuttgart received at
Basel today. Six or nine new aero-
planes are reported to have been de-
stroyed in the blaze which is said to
have been the work of spies. No lives
were lost.

The Skoda armament works are
the most important of the large calibre
gun manufacturing in the Central Em-
pire. They make the large siege guns
and howitzers which have been so ex-
tensively used in trench warfare. The
Krupp gun works are the chief pro-
ducers of lighter field artillery, mak-
ing a success with the bigger
weapons.

GERMANS AND NATIVE TROOPS INTERNED IN SPANISH GUINEA

MADRID, Feb. 6, 2 p.m.—Nine hun-
dred Germans and fourteen thousand
of their colonial troops from the Ger-
man colony of Kamerun, have
crossed the border into Spanish Gu-
inea, according to an official announce-
ment made here today. The troops
have been disarmed and interned.
This is taken here to indicate that
the Franco-British campaign in Ka-
merun is nearing a conclusion.
The Franco-British campaign against
the Kameruns, a German protectorate
in western equatorial Africa, was be-
gun in the spring of 1915. French and
British official reports have told of the
occupation of Nguandere, one of the
chief trading stations, which from its
situation, was the centre of the Ger-
man resistance, of the taking of Ti-
niba, 137 miles from the Nigerian bor-
der, and the recent capture of
Towns of Duing, Nkan, Lolodorf, and
the retirement of large convoys into
Spanish Guinea.

The Kamerun protectorate has an
area of 191,130 square miles and has
a population of 2,540,000, including
about 2000 whites. The only other
possession of the Germans in Africa
not conquered by the allies is the pro-
tectorate of German East Africa,
which has an area of 384,000 square
miles and a population of 5,500,000.

ALLEGED GERMAN SPY ARRESTED AT WINGHAM

Plans of Buildings and Bridges
Reported Found in Schatte's
Possession.

WINGHAM, Ont., Feb. 6.—On the
order of Colonel Sherwood, head of
the Dominion Police, Adolph Schatte,
aged 29, a member of the Wingham
band and an alleged German agent,
was arrested tonight by Provincial Of-
ficer Phippen and a detachment of
soldiers. Schatte is said to be wanted
on charges of espionage. It is re-
ported that drawings of buildings,
bridges, etc., in different parts of
western Ontario, were found among
his personal effects.
An investigation is to be held in
connection with the finding of a box
of cordite in a car of goods which
arrived here yesterday over the G.

discovery.

GERMAN SOCIALISTS ISSUE NEW CIRCULAR

Weekly Publication Replaces Vor-
warts as Organ of the
Party.

BERLIN, Feb. 6, via London, 12:30
p.m.—The Socialist national commit-
tee has decided to issue a weekly
circular for expressing the official
decisions of the party management
and its views on critical develop-
ments. From discussion in the So-
cialist press it appears this action
was taken because the Vorwarts,
which hitherto occupied the position
of the official party organ, recently
rebelled and now maintains an atti-
tude hostile to the national commit-
tee.

Tagliche Rundschau Points
Out Penalties Lying in
Complete Backdown.

WASHINGTON, Feb. 6.—President
Wilson and Secretary of State Lansing
are expected to confer tomorrow on
the latest tentative draft of the com-
munication the German Government
hopes will bring the negotiations over
the Lusitania disaster to a satisfactory
termination.

The president has had the tentative
draft before him since Friday night.
In it, German officials say, the Berlin
foreign office has gone as far as it
possibly can to meet the position of the
United States.

In the case of the Lusitania, the
submarine commander acted in ac-
cordance with orders. The general in-
structions not to sink liners without
warning were given, it was said tonight,
by high German authority, on the day
after the Lusitania went down. It was
said that Germany withheld announce-
ment of the fact for strategical naval
reasons.

To Pay for Lives Lost.
In the latest proposal, Germany as-
sumes liability for the American lives
lost, offers reparation by the payment
of indemnity and assures the United
States that the killing of Americans
was without intent. The destruction
of the liner was a act of reprisal for
the British blockade under the orders
in council, according to the German
view, and reprisals should not be ap-
plied to neutrals. The tentative com-
munication also states that "the
method of conducting submarine war-
fare in the North Sea has been mod-
ified because of friendship for the
United States and because of the fact
that American lives had been lost."

The British orders in council were
not issued till after the Germans be-
gan their submarine warfare against
British merchantmen.

BERLIN, Feb. 6, via London.—In a
leader, headed "The American Crisis,"
the Tagliche Rundschau is disposed
to take a serious view of the situation
existing between Germany and the
United States. It begins by saying:

his whereabouts. At 151 Al-
bert street where Mr. Lavelle has
rooms, he has not been seen since
Thursday afternoon.

OTTAWA, Feb. 6.—Only two more
bodies have been recovered from the
ruins of the parliament buildings. On
Saturday the body of J. B. R. Laplante
was found and today that of another
victim, a man, was found, with the
nozzle at the end of a hose under his
arm. It is believed the body is that
of Dominion Policeman Desjardins,
but positive identification is impos-
sible.

The remains of E. B. Law, M.P., Al-
phonse Desjardins and Randolph Fan-
ning have not been found.

A report on Saturday night that the
east block was on fire sent the cap-
ital into another spasm of excitement.
The east block contains the premier's
office, finance department, justice de-
partment and others.

The fire brigade had only been
called, however, for a slight new out-
break in the east end of the main
building, which was still standing.

BIG PLOT TO INVAD CANADA LAID BARE?

New York Herald Says Secret
Service Has Made Sensa-
tional Report.

PLOT AGAINST CANAL

Mausser Rifles Shipped to Border
and German Officers in
Control.

NLW YORK, Feb. 7.—The Herald
this morning prints a lengthy story
to the effect that the Canadian secret
service has uncovered a plot of enor-
mous proportions, the object of which
was the invasion of Canada and the
destruction of the Welland Canal. The
Canadian secret service agents work-
ing on this side of the border, are re-
ported by The Herald to have submit-
ted these findings to their govern-
ment.

"That two hundred thousand Mau-
sers rifles had been secretly purchased
by German agents and were being
shipped to points along the Canadian
border."
"That scores of German army offi-
cers recently have arrived in the Uni-
ted States in guise of Belgian refugees
and from neutral parts of Europe, with
the object of heading an armed
force for the invasion of Canada."

To Destroy Canal.
"That the principle of this secret
movement is the destruction of the Wel-
land Canal and crippling the shipment
of 30,000,000 of Canadian wheat to the
allies."
"That one-third of the output of Am-
erican munitions plants has been pur-
chased by German agents masquerading
as agents for the allied governments,
and that these war supplies, the greater
part composed of rifles, are stored se-
cretly."
"That the destruction of the Canadian
parliament buildings at Ottawa last week
and the attempted destruction of a man-
ufacturing plant in the same city on Feb. 2
were the work of German sympathizers."

TWO ANTIPODES PREMIERS DUE HERE SHORTLY

Thru Honolulu.

EN ROUTE TO LONDON

Important Trade Matters Will
Be Discussed With Sir
Robert Borden.

By a Staff Reporter.
OTTAWA, Feb. 6.—Premier Fishes
of Australia and Premier Massey of
New Zealand are on their way to Ot-
tawa, and have passed thru Honolulu.
They will be met at Vancouver by re-
presentatives of the Canadian Gov-
ernment and conveyed here on a gov-
ernment train.

The Australasian premiers will pro-
ceed from Ottawa to London, where
they will hold a conference with the
imperial authorities.

It is understood that Sir Robert
Borden will not accompany them to
London, but Messrs. Fisher and Mas-
sey, after discussing various matters
of imperial concern with the British
Government, will return to Ottawa and
a conference will be held here. The
expectation is that the leading ques-
tion to be discussed in Ottawa will be
the promotion and protection of inter-
imperial and inter-allied trade. The war
arrangements are thoroughly perfected.

Sir Robert Borden, when asked to-
night if he could give any information
regarding the visit of the Australasian
premiers, said: "I have been familiar
with their arrangements, but they are
confidential and I cannot say anything
at the present time."

A despatch from Honolulu reported
the arrival of the premier of Aus-
tralia on board the steamer Makura,
on the way to Vancouver. It was said
that he was to accompany Sir Robert
Borden to London to attend an imperi-
al conference. It was said that the
premier boarded the steamer seven miles
from Sydney from a launch, and that
every effort was made to keep secret
his identity.

WARFARE OF TRENCHES PROCEEDS WITH VIGOR

French and British Continue to
Wreck German Defensive
Positions.

PLANES BROUGHT DOWN

Reservoirs of Asphyxiating Gas
Exploded, Blow Into
Trenches of Foe.

Special Cable to The Toronto World.
LONDON, Feb. 6.—Little new save
the continuance of the artillery actions
is reported from the western front of
the war today.

British and French batteries carried
out a destructive fire against the Ger-
man positions in front of Boesinghe
in Belgium, and they destroyed two
German heavy batteries to the east of
this point by large shells. German
works on the Chassemy plateau, east
of Soissons, were cannonaded by the
La Bassee Canal. The British gun-
ners shelled the hostile trenches on
the front between the Ancre and
the Somme Rivers. The Ger-
mans claim the British shelled the
detachments which attempted to ad-
vance southeast of Neville and south
of the La Bassee Canal were repulsed.
German aircraft showed some activity
about Ypres and German batteries
again shelled Elverdinghe.

French artillery Saturday shelled
the bridgehead at Venimieul and Ger-
man works at Vendresse and Cernay
on the Somme-Rheims front; it
caught in the open a German column
on the march east of St. Souplet; it
damaged the hostile defences on the
Navarin plateau; it bombarded enemy
trenches and shelters north of St.
Thomas between the Aisne and the
Argonne; it was active in the Coin-
court and Domreve regions in Lor-
raine; and French infantry occupied
the northern rim of a crater at Haute
Chevauchee formed by the explosion
of a German mine. Sergeant Pilot
Gunter of the 17th day squadron en-
gaged a German aeroplane in the
Fries region, and drove it to earth in
flames, placing the 17th day squad-
ron in a hostile machine to his credit.

German trenches in the region of
Maison de Champagne were constant-
ly shelled by French guns since Wed-
nesday. The French war office reported
today. Another German aeroplane was
brought down in flames by a French
battalion.

After the French were able to ver-
ify the result of their shell fire against
German organizations on the Navar-
in plateau in Champagne, they re-
ported tonight that the trenches
bombarded were seriously wrecked
and several munitions depots were
blown up. Moreover, reservoirs con-
taining asphyxiating gas were demol-
ished and emitted waves of the gas
which spread out and was driven back
by the wind waves over the German
lines.

STOP THE RUMOR MONGERS.

Something should be done to stop the
rumor-mongers, who spring up all over
Toronto nearly every Sunday. Week after
week the newspapers are besieged with
telephone enquiries on Sunday nights for
information about some absolutely foolish
yarn.
Yesterday people from all parts of
Toronto and Ontario were calling up The
World asking if it was true that so-and-
so's munitions plant had been blown up;
whether it was true that the Ottawa mint
had been destroyed, and other "cock-and-
bull" stories. These dangerous rumor-
mongers should be suppressed.

MAYOR FROWNS UPON
ELIMINATING PROCESS

Deprecates Methods Employed by Officers at Recruiting Meetings.

CONSCRIPTION ONLY-WAY

Eligible Young Men Must Be Made Fulfill Duty, Says Speaker at Loew's.

Conscription in Canada was strongly advocated by F. S. Washington, K.C., crown prosecutor, at the meeting at the afternoon recruiting meeting in Loew's Theatre yesterday, held under the auspices of the Toronto Citizen's Recruiting League. Following several selections by the 2nd Battalion Band (48th Highland) and Bandmaster Hunt, Mayor Church opened the meeting by declaring that the people of Canada had received a severe lesson in Hun methods during the past week. It being his opinion that the burning of the parliament buildings at Ottawa was the doing of the enemy. "They are hitherto somewhat the methods that have been used at some of the meetings with a view to getting men to enlist," stating that he did not approve of the practice of asking people to stand up and then working the eliminating process until only those eligible for service were left standing.

"The Dominion of Canada has not yet given all she can give," declared Mr. Washington, who has had one son killed in action, and has another training for overseas service. His remarks as to the way the United States is dealing with the sinking of the Lusitania by German submarines, and the subsequent loss of American lives, was almost withering. "They are hitherto almost left and left about it," he declared.

Compulsion Only Remedy. Turning to the question of conscription, Mr. Washington declared that there were married men who wanted to go but they wouldn't because they knew some young lads would get their job. "There is only one remedy," said the speaker, "and that is conscription," the remark being greeted with loud applause. "Why should the young men who are going across the seas fight for the young men who are taking their exercise around the billiard table?" he asked. He declared that the Scotch City of Hamilton had applauded every reference he had made to conscription and that the politicians opposed conscription because they were afraid of public opinion, which he thought favored it.

Christianity in Fight for Its Existence. Stirring Speeches at Khaki Club Recruiting Rally in Templars' Hall.

At the Templars' Khaki Club, West Queen street, stirring appeals for active service recruits made by Rev. (Capt.) W. A. Cameron, Miles Vokes, ex-Controller McCarthy, Rev. (Fr.) John Coburn and Ald. R. H. Graham, resulted in three men joining the colors. This was a good showing because, although the patriotic rally was well attended, the audience consisted very largely of women, children and soldiers. Miles Vokes presided.

Rev. W. A. Cameron declared the great conflict was not only Canada's war but Christianity's war. He said that there were some things worse than war, a reign of militarism being one of them. He called on the Canadian-born to enlist.

TO SAVE EYES

Is the Object of This Free Prescription—Try It if Your Eyes Give You Trouble.

Thousands of people suffer from eye troubles because they do not know what to do. They know some good home remedy for every other minor ailment, but they neglect their eyes. Their eyes are not sufficient to drive them to an eye specialist. As a last resort, they charge them to an optician or to the five and ten-cent store and buy a pair of glasses that they do not need, or which are used a few months, do their eyes more injury than good. Here is a simple prescription that every one should use. It is Bon-Opto; two ounces water. Use three or four times a day to bathe the eyes.

The prescription and the simple Bon-Opto system keeps eyes clear, sharpens the vision and quickly overcomes inflammation and irritation; weak, watery, overworked, tired eyes and other similar troubles are greatly benefited and often cured by its use. Many reports show that wearers of glasses have discarded them after a few weeks' use. It is good for the eyes and contains no harmful ingredients. It is a simple, sensitive eyes of an infant or the aged, or the Crayford can fill this prescription, or the Valma Drug Co. of Toronto will fill it for you. Try it and know for sure what real eye comfort is.

PACIFISTS ARE CRAZY
SAYS CHIEF JUSTICE

Cling to Swords Until Victorious End, Declared Sir Glenholme Falconbridge.

AT LOEW'S LAST NIGHT

The Eligible Men Who Stay at Home Will Get Little Consideration After War.

"Pacifists, old women of both sexes, who advocate a peace propaganda at this time are either crazy or fools. There can be no peace; we will cling to our swords until the 'victorious end,' declared Chief Justice Sir Glenholme Falconbridge to the big audience at the recruiting meeting in Loew's Theatre Sunday night.

Sir Glenholme's criticisms of the eligible man who stays at home were as fiery and sarcastic as any made previously at a recruiting meeting in Toronto. There would be no place in Canada for the stay-at-homes after the war, he said. The only accommodations he could likely get would be among the Digger Indians, who subsist on earth worms and insects somewhere in the deserts of Nevada.

Intern All Germans. Chairman Dr. Allen, referring briefly to the burning of the parliament buildings at Ottawa, which he characterized as a German outrage, said that if he were premier he would intern every German in Canada. In Germany, he said, such an act would have resulted in the shooting of a score or so of British subjects. "A few more such acts of deliberate murder, for the two women were murdered, and Canadians will not be lagging in recruiting activity."

Dutch are Indignant Over Sinking of Ship. Newspapers Call for Punishment of Commander of Submarine Which Destroyed Artemis.

THE HAGUE, Netherlands, Feb. 5. (Via London)—Dutch newspapers, both pro-German and anti-German, are unanimous in demanding from Germany prompt explanation of the report of the torpedoing of the Dutch tank steamer Artemis by a German torpedo boat in the North Sea. The newspapers call for punishment of the German commander, who was responsible for what is described as a violation of law and an unjustifiable act of war against the Netherlands.

SIXTEEN THOUSAND SHAVES
FREE FOR SOLDIERS

LONDON, Feb. 5.—A Brighton hair-dresser and his son have, during fourteen months, given over 16,000 shaves or haircuts free of charge to soldiers at the 2nd Eastern General Hospital, Brighton. They begin work every day at 5.45 a.m., and give up their early-closing half-holiday. It was stated recently that Nottingham hair-dressers had given over 10,000 free shaves and hair-cuts to wounded soldiers.

TO NEGOTIATE PEACE

Vienna's Explanation Why Peace Negotiations With Montenegro Are Delayed.

LONDON, Feb. 5.—Vienna newspapers state that peace negotiations with Montenegro have not yet begun, according to a Vienna despatch transmitted by Reuters' Amsterdam correspondent. The reason given is that neither Prince Mirko, second son of King Nicholas, who remained in Montenegro, nor the three Montenegrin ministers, who remained, possess any authority to engage in the negotiations.

ALDERMEN IN ACCORD
WITH BOARD'S REPORT

Opinion is That Monday's Council Meeting Will Not Be Very Long

COMMISSION GETS BUSY

Toronto's Transportation Scheme to Be Attended to With Vigor.

While the board of control's report dealing with matters for consideration at Monday's council meeting includes many items of importance in connection with the civic government, it does not appear that the meeting will be a long or contentious one, as the items reported on are largely in accord with the present opinions of the aldermen. For some reason or other no mention is made in the fire department situation. It being generally believed that the controllers are anxious to get the matter into more definite shape before presenting it to the council.

Following the advice given in one of the clauses of Mayor Church's inaugural address, it is recommended that the council pass a resolution that the city take over and acquire the Toronto Railway Company at the conclusion of their agreement in 1921. A transportation commission is also recommended, the same to consist of six members as follows: The mayor (ex-officio), one member to be appointed by the city council, the works commissioner, corporation council or city solicitor, city treasurer, and chief engineer of the Toronto Harbor Commission.

Duties of Commission. The duties of the commission will be to prepare the way for the taking over of the Toronto Railway Co. in 1921; the administration of civic car lines; the regulation of existing street railways and radials within the city, and, in addition, deal with the whole transportation problem of Greater Toronto for all time, and also secure adequate relief as soon as possible from inadequate transportation facilities. To lay down a policy regarding the entrance of radials; to take charge of applications to the legislature, the Ontario Railway and Municipal Board and the law courts; to enforce the terms and provisions of the agreement with the Toronto Railway Company; to lay down a policy over all transportation matters within the city. The said commission to report to the city council from time to time and no conditions are to be incurred without the sanction of the city council, from time to time.

The board's endorsement is given to the report of the parks commissioner that the unpaved roads leading to the artillery quarters at Exhibition Park be put in reasonable condition. The work being estimated to cost \$100,000.

Amend Hydro Radial Act. A recommendation is made that the council request Sir Adam Beck to make application to the Ontario Legislature at its next session for an amendment to the Hydro Radial Act, which will make it clear that the clause regarding the control of the streets will not give the Hydro-Electric Power Commission the right to use or interfere with any street other than those named in the schedule. The clause is quoted as follows: "In consideration of the premises and of the agreements herein set forth, each of the corporations for itself, and not one of the other, agrees with the commission to furnish a free right of way for the railway and for the power lines of the commission over any property

of the corporation upon being so requested by the commission, and to execute such conveyance thereof or agreement with regard thereto as may be desired by the commission."

To confirm the Barnes report to the Ontario Railway and Municipal Board and compel the Toronto Railway Company to build, put on and operate two hundred additional cars on their system, with a penalty of \$500 per day for every breach of the act in relation thereto.

For the information of council it is stated that the contract for cement has been awarded to John E. Russell at \$1.33 per barrel. A contract has also been awarded to the American La France Fire Engine Company of Canada for three six-cylinder tractors for the use of the fire department at a cost of \$18,881. Chief

Smith recommended this type of machine.

ACTION FOR DAMAGES AGAINST RAILWAY CO. An action has been entered at Osgoode Hall by Mrs. Katie Grant, 34 Langley avenue, on behalf of herself and three children against the International Railway Company. The action is to recover damages for the death of her husband, Sidney W. Grant, who was killed in the Queenston wreck, in July last.

1915—A Record Year
In every particular the business of the London Life Insurance Company reached high-water mark in 1915. In new business written, in gain in business in force, in gain in income, in gain in assets, and in surplus earnings the year's operations show the most favorable results yet attained.
The following comparative statement speaks for itself:
1909 1911 1913 1915
Insurance in Force \$14,189,613 \$20,237,984 \$27,116,375 \$34,620,327
Insurance Issued 5,011,227 7,369,183 8,826,189 11,060,511
Total Assets 2,927,055 3,588,797 4,645,695 6,075,523
Policy Reserves 2,667,513 3,278,616 4,226,152 5,459,242
Premium and Interest Income 754,307 959,185 1,295,840 1,666,122
Rate of Interest Earned 6.57% 6.68% 6.81% 7.08%
Notwithstanding the strain of the war conditions, of which this Company has borne its full share, the favorable results experienced in recent years has made it possible to introduce a still further increase in the scale of profits apportionable to Participating Policies. The new scale comes into effect in 1916.

Prohibition Fallacy Exploded
A FAVORITE slogan of the Prohibitionists is that liquor is the chief cause of poverty. Remove the drink, they say, and sobriety and thrift will take the place of drunkenness and pauperism. Facts and figures, absolutely incontrovertible, have, of course, again and again been marshalled to show that Prohibition States are poorer and less sober than License States; and as to nations and races, there are on the Prohibition side the Turks, the Arabs, a few Malay Aborigines, and so on; but these do not seem to be adduced as shining examples by our friends, the Citizens' Committee of One Hundred.
Drastic Legislation versus Education
It is beginning to be seen, however, that sobriety, with its attendant blessings, is to be brought about, not by drastic legislation, but by education in its widest sense. This truth is emphasized in the Report for 1915 of The Children's Aid and Protective Society of the Oranges, N. J., which says: "The Society firmly believes that its work along educational lines among the families with which it deals from year to year has been a prime factor in reducing intoxication."
Prohibition Crusaders Should Study the Question
In the same strain Mary E. Garbutt, Women's Christian Temperance Worker, points out that if a man is employed only a part of his time and his wages are low, poverty must as a matter of fact follow, whether he drinks or not; while former Mayor "Tom" L. Johnson, of Cleveland, Ohio, uttered a wise truth when he said: "There are more people who drink because they are miserable than there are people who are miserable because they drink."
The difficulty with most of these Prohibitionist crusaders—although one does not like to say so—is that they are ill-informed, having studied these questions only superficially and only from one side. To get down to bed rock requires time, patience, and honest research; but it is so easy and pleasant to make sensational speeches and hurl denunciations at opponents amidst the applause of sympathetic audiences.

CODERE FOUND GUILTY REPRIEVE TO BE ASKED

Prisoner, Maintained His Innocence and Received Verdict Without Visible Emotion.

INSANITY PLEA FAILED

Evidence Showed Murder of Sgt. Ozanne Was Deliberately Planned.

Canadian Associated Press Cable. LONDON, Feb. 6.—Twenty minutes after retiring the jury at the Winchester assizes returned on Saturday afternoon a verdict of guilty against Codere, late lieutenant of the 41st Battalion, indicted for the murder of Sgt. Ozanne of the 9th Mounted Rifles.

"You add nothing about the state of his mind," enquired Justice Darling. "We find him guilty," gravely responded the foreman. "I am not the man who did it," he declared, standing erect and showing no signs of emotion.

"Georges Codere," said the judge, "with the black cap on his head and a black and white sash, you have said you are not the man who did it. There is not the slightest possible doubt you are the man who did it. The only ground upon which you could have defended successfully was that which the jury have carefully considered and have rejected, which was that you were not sane when you killed him. The circumstances of the case show this was a carefully thought out murder. You had resolved upon some time before you did it in order either to obtain money to which you were not entitled or to avoid paying money you were bound to pay. The jury have carefully considered all the circumstances of the case and have come to the conclusion that the plea that at the time you committed this crime you were insane is not made out. I have only one duty to perform."

Then followed the sentence in the usual form, the prisoner and judge, to all appearances, being equally unmoved. Codere turned calmly round and went down the steps to the cells. The judge left the bench, and in another moment, still in scarlet robes, he was driven from the castle courtyard in a motor brougham. Mr. Foot, K.C., leader of the circuit, had pleaded eloquently that the accused was not mentally responsible.

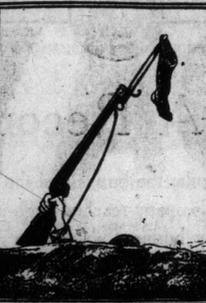

Sherbrooke Lawyer's Evidence. One of the chief witnesses was Emil Rioux, K.C., of Sherbrooke, who had known the accused several years. After testifying to Codere's general mental instability, Rioux, who was the colonel of the militia regiment to which Codere at one time belonged, spoke of how accused was known commonly as "Fou Codere." One day when the regiment was marching thru the streets, Codere suddenly dashed from the ranks and threw a casual look at the judge because he seemed to think the man had no right to look at the regiment.

Asked why none of the accused's relatives had attended, Mr. Rioux said they had been under the impression that their evidence could be taken by a commission. The judge seemed interested to learn from this witness that in the criminal courts such procedure was permissible in Quebec. Canon Gunning, the venerable Catholic chaplain at Winchester Jail, spoke of the accused as seeming to have no realization of his crime. "May I say nothing I have said here has any connection with direct spiritual ministrations," added Canon Gunning.

"I would not have you asked anything you might have learned in that capacity the judge assured him. Experts Testified. Two mental experts gave directly contrary conclusions of their independent examinations of the prisoner. One of these mentioned the common estimate was that one out of every 100 of the population of England was insane.

"Thomas Carlyle put the proportion much higher," dryly remarked the judge. Directing judge, Justice Darling, while urging them to give full consideration to all the incidents submitted to show the prisoner was not responsible, pointed out that to establish defence on the ground of insanity it must be clearly proved that at the time of the commission of the act the accused was laboring under such defect of reason or diseased mind as not to know the nature and quality of the act, or if he did know that, he did not know he was doing what was wrong. Agent - General Pelletier says a petition for a reprieve will be submitted to the home secretary.

DIVINE SARAH'S MESSAGE TO WOMEN OF BRITAIN

Be Brave, Sure is the Victory That Awaits My Countrymen and Allies.

Madame Sarah Bernhardt has sent the following message to the women of Britain: "In this tragic hour my message to every woman in Britain is 'Be brave! Sure is the victory that awaits my brave countrymen and their allies. Men must fight but this is not the time for women to weep. They must be strong in faith, active in work, inspiring as ever by their love and patriotism, the magnificent courage of their countrymen. France will never forget what Britain has done and is doing. French women and British women join hands in a bond of mutual sympathy and affection, rejoicing together in our glorious future and of our eternal friendship cemented in the war."

OTTAWA APPREHENSIVE OF FURTHER OUTRAGES

Proposal That Royal Commission Investigate Great Fire Relieves Tension-Little.

FEDERAL POLICE LAX?

Strangers Were Allowed to Roam Almost at Will Thru Buildings.

By a Staff Reporter.

OTTAWA, Ont., Feb. 6.—Intense anxiety and alarm prevail in Ottawa today as the conviction grows that a German plot is menacing the capital. The mysterious burning of the parliament buildings was followed yesterday morning by the no less mysterious burning of the Grant-Holden street. This factory on Albert street, engaged in the manufacture of tents, uniforms and other supplies for the militia department, was in the case started on the ground floor and spread with such marvellous rapidity as to utterly destroy a large six-story building within a few hours. That both fires were the work of incendiaries is almost universally believed, and public anxiety was further increased by a report that an effort had been made to fire the armories. "Although the report was officially denied, it is believed to have had some foundation in fact."

Commission Probe Inadequate.

The announcement of the prime minister that a commission would be appointed to enquire into the parliament buildings fire has done little to allay the popular unrest. It is felt that the job is one for the best detectives in the world, and that an enquiry by a royal commission will not go far to solve the mystery. The Dominion secret service, it is pointed out, is naturally inclined to put forth the theory of accident, because any other theory, if adopted, would reflect upon their guardianship of the building. If the fire extinguishers were tampered with, as now seems probable, and a fire was started in so public a place as the reading room, there must have been some carelessness on the part of the Dominion police. It is therefore felt that an executive part of the investigation should be placed in other hands, and some members of parliament and leading citizens will urge the government to employ the best detectives on the continent and give them a free hand. The fact is, since parliament opened strangers have roamed almost at will over the parliament buildings. The ordinary messenger or policeman does not know all the members by sight, and after getting in trouble two or three times by interfering with the castle court, gets disgusted and allows everybody to go by him. It was a matter of comment at the meeting of parliament in Toronto Memorial Museum on Friday that the gallery was largely filled with an indiscriminate crowd for whom no person vouches.

WANT AN OPPORTUNITY TO WORK ON MUNITIONS

Result of Investigation Not Encouraging to Toronto Women.

The part to be taken by women in the making of fuses, is a much debated subject just now in Toronto. Anticipating a call and openings in this direction, the Women's Emergency Corps, with Mrs. Willoughby Cummings at its head, have had communication with J. W. Flavell of the Imperial Munitions Board, and have also investigated conditions and possibilities regarding the employment of women in Toronto factories.

Results are not encouraging. It turns out that the complete fuse is not made in Toronto, the finishing fine work of the interior, on which women might be employed, being all done in Quebec. When arrangements for this were made, it was with the impression that women workers in factories were more plentiful in the eastern city than in Toronto. This, however, omitted the knowledge brought to light, thru the enquiries and other activities of the Women's Emergency Corps, that there are many of those considered as members of the injured class, willing to train for, and work at, the fuse.

The mechanism of the fuse is as fine in parts as that of a watch, and in England, the pliable, smaller hand of the woman has been found in many instances to be even more adaptable than that of the man. Women in many parts of Ontario have expressed their willingness to take a hand. Opportunity alone, it seems, is wanting.

A FEW DAYS more, and our unparalleled Bible Distribution will be ended. But the cordial intimacy established by its means with our readers will endure for years. THE TORONTO WORLD TORONTO - HAMILTON urges its readers to lose no time in clipping the daily coupon in this paper. The Bible As Literature (For Young Men and Young Women!) It is not sacrilege to study the Bible as literature. On the contrary, only when we first learn to appreciate it as the greatest literary treasure this world possesses, do we begin to understand its true religious value.

PAN ZARETA, TOP WEIGHT, CLEVERLY WON HANDICAP

After Rough Journey in Early Stages—Grumpy Won Second Feature.

NEW ORLEANS, Feb. 5.—Pan Zareta, H. S. Newman's six-year-old Abe Frank-Caddie Griffith mare, thoroughly demonstrated her right to the title of "Queen of the Turf" at the Fair Grounds today, when she shouldered an impost of 140 pounds and beat a field of crack handicap sprinters over the 5 1/2-furlong route. The game little mare had a rough trip in the early part, but in the stretch she came thru her field and managed to win by half a length. She negotiated the distance in 1:06 1/2, which is within two-fifths of a second of the track record. This made her third win out of four starts at the meeting, and the forty-ninth victory of her racing career out of 110 starts. Today's racing card was high-class with two handicaps as the feature. The track was fast, and the attendance the largest of any Saturday.

Time 1:02 1-5. O Tis True, Chitra, Shadrack, Sordello and Duquesne also ran.
SIXTH RACE—Five furlongs: 1. Lord Wells, 106 (Pitz), 5 to 1, 3 to 1 and 3 to 5. 2. Ruth Strickland, 95 (Wolstenholme), 3 to 1, 1 1/2 to 5 and 3 to 5. 3. The Leak, 100 (Urquhart), 3 to 1, 6 to 5 and 3 to 5. Time 1:02 3-5. Fenrock, Palm Leaf, Caribell, Bulgar, Frontier and Fred Levy also ran.

SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATIONS.

The sole holder of a family, or any male over sixteen years old, may homestead a quarter-section of land in the Dominion of Manitoba, Saskatchewan or Alberta.

Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency) on certain conditions.

Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least eighty acres, on certain conditions. A habitable house is required, except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price, \$3.00 per acre.

Duties—Six months' residence of each of three years after earning homestead patent, also fifty acres extra cultivation. Pre-emption patent may be obtained as soon as homesteaded patent on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside on the land each of the three years, cultivate fifty acres and erect a house worth \$300.

Duties—Cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

W. W. COBY, C. M. G., Deputy of the Minister of the Interior. N. B.—Unauthorized publication of this advertisement will not be paid for—64888.
