TO CHANGE WORDING OF THE BIBLE

New Edition Without Any Obsolete Words

READY NEXT YEAR

Conference of Pastors and Editors in Princeton, N. J., Completes Plans and Committee Takes Up the Work—A Statement of Chief Changes

New York, July 4.—The conference of clergymen and editors, for the purpose of arranging a re-terrestrial edition of the English authorized version of the Bible, which conference has been in session in Princeton, N. J., since last week, has adjourned, and the remainder of the work will be done by a subcommittee.

The object of the work is to bring out a new edition of the King James version, correcting obsolete words, etc. The chief changes to be made are summed up briefly as follows:

First. Where a text is misleading it will be changed, as in instances in point: the word "damnation" in 1st Corinthians, xi, 29, may be changed to "condemnation."

Second. Where the authorized version has an obscure rendering of a passage sufficiently clear in the Hebrew or Greek text, it will be changed.

Third. Also where the authorized version is infelicitous in the choice of English words, even if it is actually misleading.

Fourth. Words absolutely obsolete will be dropped for words now within the usage of good writers. The point was discussed that "hall" is still good English, and while not so common, is more dignified than "lump." The word "let" or "hinder" was considered obsolete.

It is understood that the modern usage will be followed thoroughly in the use of pronouns, and, generally, where an author used version rendering is wholly consistent with good present day custom.

It is planned to have this new edition printed in England, in May, 1911, three hundred years after the printing of the first edition of the Bible.

While the committee proper has adjourned, two committees, each consisting of three persons, one on the new edition printed in England, in May, 1911, three hundred years after the printing of the first edition of the Bible.

At the session of the larger committee, there was considerable agitation for a revision of the Bible.

Professor Robert Dick Wilson said that the committee would do no revising, as those who desired the Bible revised had been defeated, but that there would be an adherence to conservative lines, merely replacing old English words whose meaning had gradually changed, with modern words more clearly expressing the intended meaning.

GREAT FLEET OF BRITISH WARSHIPS

There will be 307 Assembled in Annual Manoeuvres This Week

London, July 4.—The most powerful force of warships of one nationality ever gathered together will be engaged in the annual manoeuvres of the British navy, which begin this week. Forty-five battleships and twenty-five armored cruisers, with an aggregate displacement of 1,016,000 tons, representing five complete fleets and part of a sixth, will be employed.

—In addition, there will be a large number of small cruisers, auxiliaries, depot ships, destroyers, torpedo boats and submarines. Admiral Sir William May, admiral-in-chief of the British navy, will command this fleet, and it is estimated that there will be 307 vessels under his orders.

Sir Arthur Wilson will be second in command. It is expected, the various fleets engaged have their usual complement of smaller vessels attached, so that, in the assembled fleet, in addition to the battleships and armored cruisers, will include:

- 15 protected cruisers 60,000
- 8 scouts 24,000
- 29 depot ships, etc. 80,000
- 60 modern destroyers 30,000
- 18 older destroyers 20,000
- 38 torpedo boats 10,000
- 20 submarines 10,000

237 vessels, totaling 233,000

It would seem, therefore, that the total force engaged will not fall far short of 307 ships of all classes, with a total displacement of about 1,240,000 tons. At the moderate computation of \$75 a ton this gives a first cost value of \$468,750,000. The manoeuvres will last about twenty-five days.

Jumped Off Brooklyn Bridge

New York, July 3.—To win a purse of \$250, and two suits of clothes, Otto Eppers, 17-year-old Brooklyn boy, jumped off the Brooklyn bridge. There was a crowd of on-lookers that he spun over and over in the descent, striking the water 135 feet below, head first, with a splash. His rescue was effected by the crew of a tug.

TORE OFF HER CLOTHES TO SAVE BOY'S LIFE

New York, July 4.—Her light clothing ignited by the flames of an overturned kerosene stove as she was preparing warm milk for her sick baby, Mrs. Rosa Moskowitz tore every stitch of her blazing garments from her, seized the child in her arms and fled with the infant from the burning rooms down the fire escape. Neighbors doled her and cared for her and her three children. She will recover.

Noted Racer Skipper Dead

New London, Conn., July 2.—Capt. Andrew J. Constock, is dead at the age of eighty-two. He was master of the schooner yacht Columbia in the race with the British yacht Lyonia for Queen's cup and won three victories. In 1872 he won the Bennett cup at Newport. The Columbia, then owned by Lester Wallack, he had been retired for several years.

NEWS OVER CABLES

Canada's Art Exhibit in Liverpool Gains Praise of London Critics—The Times' Suggestion in Reference to Immigration into Canada from England

London, July 4.—The Winnipeg crew, on Saturday evening, rowed in a heavy rain from Fawley a three min. and 50 sec. and completed the course in 7 min. 50 sec., which is considered fast.

Hon. Maurice Gifford is dead.

In regard to Hon. W. S. Fielding's Dominion Day speech, the Standard newspaper, in connection with the immigration, pointing out that there are a large number of men who are trained for farm work.

In connection with the Canadian art exhibition in Liverpool, the Morning Post says if there is no actual sign of new thought or expression with the pictures and statues exhibited, they will be the beginning of a movement that will produce great things in the future and that there is a distinct evidence of two qualities which have created masterpieces in the past—feeling and observation.

The Times says that in any future history of modern art, the Canadian section must occupy a conspicuous place.

The Times says the day is not far distant, if it has not already come, when the dominions can no longer expect to draw from the best ways to secure it, the very things which we most need at home. They must be content with a good average of the best ways to secure it is to attract their immigrants while they are still young.

John Rogers & Co's Liverpool cable today states that trade in the Birkenhead market was firm at Saturday's quotations.

There were more buyers in the market, and practically everything was cleaned up. Full quotations were: Flour, 100 lb. cwt. from 14s. 10d. to 15s. 6d. and for fed. readers from 18s. 4d. to 18s. 6d.

ON TRIAL FOR PART IN HUSBAND'S MURDER, SHE ATTEMPTS SUICIDE

Altenstein, East Prussia, July 4.—Frau Von Schoenbeck, who has been on trial for a month, charged with complicity in the murder of her husband, attempted suicide by jumping into the river. She was rescued by the police.

Major Von Schoenbeck was killed on Christmas eve, 1908, by Captain Von Grebe, who subsequently "disappeared," trying to had been infatuated with the woman and by her influenced to murder the husband. The captain afterwards took his own life.

A little before her trial, which opened on June 6, Frau Von Schoenbeck married A. O. Weber, a satirical artist in Berlin. During the criminal proceedings the accused exhibited signs of insanity. The case has excited national interest, as it brought into prominence the social conditions existing at the garbians in this and other cities of Germany.

GERMANS AND IRISH IN NEW YORK TO FRATERNIZE

Bella, July 3.—The Vossische Zeitung publication, said to have originated in Philadelphia, to the effect that the German and Irish elements in the United States have decided, after long years of mutual antipathy, to bury the bitches and get together.

As a sign that bygone shall be bygone, it is added, it has been decided that the American, German and Irish flags shall be hoisted alongside one another on St. Patrick's Day and on days when the Germans are celebrating their national holidays.

It is also asserted that the sons of the Fatherland and of the Emerald Isle have agreed upon a plan whereby memorial wreaths will be deposited from time to time on statues and monuments erected to the memory of their respective national heroes on American soil.

The Vossische Zeitung heads the news "German-Irish Reconciliation in the United States."

FINE WEATHER AT RENO GREENS THE FIGHTERS

Scenes Are Stirring as Hour for World's Battle Draws Near

Betting Favors Jeffries at 10 to 6 1-2 But is Expected to Swing a Little Towards Johnson—The Final Arrangements of the Pugilists for the Fight This Afternoon.

Reno, July 4.—When the sun that today lifted its rays above the sage brush hills enclosing an ordinarily peaceful valley sets over the Sierras, there will have passed into comparative oblivion one of two mighty men—James J. Jeffries or John Arthur Johnson.

It is first rays shot into barracks-like places where men of home and family were lying in row after row. It glinted through shutters into strange bedrooms where men were sleeping three in a bed and on the floor. It went into the corners of the room and saw red-eyed men grouped at green tables and standing around spinning wheels. And on each of these tables it met its rival, the gold of earth in heaps.

It saw a great bare structure of pine boards with white roped ring in the center waiting. It saw the streets already stirring with the restless life and automobile motors already whirling along the country roads.

A Perfect Day

Out of the southeast came a cool wind and the clear sky gave promise of a perfect day for what may be the last great heavyweight fight in the United States.

Here, between the five of eastern reformers and the deep sea of the Pacific coast police, the pugilists are gathered in their last stand. Never before in the history of the prize ring have so many fighting celebrities and sporting characters met in one street. If anywhere Billy Jordan has to introduce all the pugilists, he will lose his voice long before Jeffries and Johnson make their bows to the public.

Likely Start at 2 O'clock

The morning of the fight brings no change in the details that will make up the setting of the stage. To down the curtain that he would not act as referee, the referee offered this morning to bet \$1,000 that he would officiate. The night passed peacefully at both camps and early this morning the trainers and handlers were busy completing their arrangements to appear at the ring-side promptly and to get out of town tomorrow. The going for the first round is at 12:30 p. m. Pacific coast time, but what with introductions and the fuss of moving pieces, probably will be half an hour later before time is called.

It is probable that the arena, seating 12,000, will be comfortably filled this morning a long line of purchasers was in front of the ticket office. There has been a heavy rain for the past few days and the arena is a veritable sea of mud.

A board of inquiry is meeting today to investigate the dropping of Pie Lovejoy yesterday. His body will be taken this afternoon to the depot and given a military funeral by the company to which he belonged. Interment will take place at his home in Rockland.

The officer of the day tomorrow will be Major Morison, 7th Regiment, while Major Murray, of the 8th Hussars, will be O. M. O. divisional troops. Staff Sergeant Sullivan C. O. C., has been authorized to conduct an inspection of the small arms in camp. Many other inspections will be held this week.

MILLIONAIRE FOE OF MOSQUITOES DEAD

New York, July 4.—Henry Jay Weeks, the first man to start a systematic campaign for the extermination of mosquitoes in this country, is dead of general debility at his country home at Bayville, Long Island. He was sixty-six years old and an architect by profession. His hobbies were killing mosquitoes and protecting shade trees.

Years ago he began pouring oil on swamp land near his estate, greatly to the amusement of neighbors. But he kept up his crusade against the mosquitoes and it was largely through his efforts that the American society for the extermination of mosquitoes was formed. He leaves an estate valued in the millions.

FIGURES THAT TELL STORIES

CANADA'S TRADE WITH THE EMPIRE

Forty per cent. of the total of Canada's trade, imports and exports, for the year ending March 31, 1910, is within the British Empire.

Our exports to other parts of the Empire represent 84 per cent. of total sales, and our imports from the Empire are 39 per cent. of our total purchases.

Of course, Great Britain is our largest market, taking \$186,000,000 of our exports while she sent us a value of \$26,000,000. Newfoundland bought from us \$4,000,000 and sold us \$1,500,000. Australia used \$2,000,000 of our goods, while we bought from her a value of only \$423,000. The British East Indies bought from us \$60,000,000 and sold us \$2,500,000. British Africa bought \$2,350,000 in exchange for \$1,040,000 sent from Canada. Our second greatest source of supply to the Empire is the British West Indies, which sent us \$5,800,000, and they stand fourth in importance of our imperial markets, taking \$2,100,000 of our goods. Hong Kong took \$551,000 from us, and sent us \$245,000. The trade between New Zealand and Canada is pretty evenly balanced. New Zealand, taking \$354,000 and sending us \$375,000. British Columbia does a large trade with Canada, goods, and our purchases from her were very slight, if any. Our imports from the Fiji Islands were \$188,000 in exchange for \$100,000 of our goods. Malta took from us \$11,500.

THE SCOTT LUMBER MILL DESTROYED

Magaguadavic Property Visited by Flames Sunday

PLANNING MILL SAVED

Saw Mill and Machinery Total Loss

Caught From Spark Blown From Burning Refuse—Was Operated for Bank of Nova Scotia—Some Insurance

Fredericton, N. B., July 4.—(Special)—The Scott Lumber Company's saw mill at Magaguadavic was totally destroyed by fire yesterday afternoon. The mill has been in operation six weeks this season, and manufactured about one million and a half of lumber. The men finished work on Saturday night, and most of them went to their homes to spend Sunday. The fire broke out at 1:30 o'clock and the position is that it was set by a spark blown from the dump on the opposite side of the railway track, where edgings and refuse are burned.

The machinery, which is total loss, consisted of rotary, stock, gang, lathe and shingle machines, and engine and twin boilers. The wind was blowing from the south at the time, consequently the planing mill and the season's cut of lumber, with the exception of about 40,000 lbs., and some dimension stuff were saved.

W. J. Scott, president of the company, went to Magaguadavic by early train this morning. The mill has been operated this season by A. C. Dutton for the Bank of Nova Scotia. The property was insured, but to what extent cannot be ascertained here.

A Dramatic Touch

When the fight starts it will be more than a battle between the two principals, Jeffries' chief second will be James J. Corbett, who was champion until whipped by Fitzsimmons. Johnson's chief second and sole advisor will be Billy Delaney. Delaney trained and fathered both Corbett and Jeffries when they were young fellows. He is Jeffries' enemy now and Johnson depends upon him to tell him weak points in his opponent and to advise him just when to sail in. To fight experts this presents one of the most dramatic touches that could be imagined. It will be the test of the best ring generalship this age has produced.

Besides Delaney in Johnson's corner will be Sig Hart, Al Kaufman, Doc Purrey, Prof. Burns and Stanley Kitchell, middleweight champion of the world, who will act as time-keeper for Johnson.

It is appalling to think of the number of men that will be written about this fight before another summer. Not only every man, but almost every thought of the day will be about it. In the cold figures of the telegraph companies' estimates 700,000 words of press matter will be sent over the wires if Johnson wins. If Jeffries wins it will be much less. They estimate about 200,000 words.

A force of 100 telegraph operators has been sent to Chicago as far east as Chicago has been gathered in this little desert city. A carload of modern equipment was sent on from the east and set up. Tourist sleepers were packed for the accommodation of these. Extra precautions have been taken along the line to safeguard the wires and the company has increased its roster in all the principal offices and reporter stations from coast to coast.

One wire official said that outside of the San Francisco district of 1000 telegraph operators have been handled for a single event in the history of telegraphy. And yet the telegraph goes to the real life of a gathering of this sort that no eye can see and no pen can tell.

REMEMBERS SON OF FORMER SWEETHEART

IN MAKING HIS WILL

Newburyport, July 4.—Edward C. Gove of Newburyport, finds himself \$2,500 richer through a romance in which his mother figured in her youthful days. More than twenty years ago she lived in Fitchburg and later entered the employ of the Boston & Maine and became an engineer. Seven years or so after separating from his former sweetheart, Rounly returned to Newburyport and found that she had married and had a little boy, the Edward C. Gove of the present day. Old acquaintance was renewed and Rounly became firmly attached to the little fellow, often telling him he would remember him in his will. Gove, as he grew older, had forgotten this promise and was accordingly greatly surprised when he received word from a Boston law firm that he was one of the beneficiaries of the will of Mr. Rounly, who had died a year ago. The later years of Rounly's life were spent in Romeville, N. B.

SHOT TRYING TO GET IN BOARDING HOUSE

Toronto, Ont., July 4.—(Special)—Jac. Crawford, colored, finding himself locked out of his boarding place in York street yesterday, attempted to get through the window. The proprietor William N. Davis, also colored, fired two shots at him and both passed through Crawford's heart, one inflicting a plunging wound. Davis was arrested, charged with shooting with intent to kill.

Iron Works for Calgary

Calgary, July 3.—From seventeen pounds of iron ore found within fifty miles of Calgary, ex-Alderman Watson, local representative of a Boston syndicate, controlling forty million dollars, secured five pounds of excellent iron ore of fine grain and suited for the manufacture of steel.

According to Mr. Watson, mountains of such ore exist within twenty-five miles of the railroad. Mr. Watson says that within a few months the work on a steel plant and rolling mills will be started in Calgary. A new line of railroad will be built from the mills to the mine.

WHITE PLAGUE VICTIMS IN UNITED KINGDOM 60,000 IN LAST YEAR

London, July 6.—Sixty thousand persons died last year in the United Kingdom from consumption, and there are between 300,000 and 400,000 people now suffering from tuberculosis. One person in every ten dies of this disease — which the National Association for the prevention of Consumption points out is a purely infectious disease, and is preventable.

Figures supplied by the association show that directly and indirectly the "scourge" costs the country \$40,000,000 a year.

Some of the items which make up this bill are as follows:—Spent by Poor Law institutions, \$7,500,000. Friendly societies (in relief), \$3,250,000. Charitable institutions, \$2,500,000.

Loss in wages to working classes, \$15,000,000. Tuberculosis kills as many people as all the following infectious diseases collectively:—Smallpox, typhus fever, scarlet fever, measles, diphtheria, enteric fever, dysentery, whooping cough.

ALBERT SCHOOL AND JOHN JOYCE'S BARN HIT

Terrific Downpour of Rain; Almost Incessant Growling of Thunder During the Night—The Worst Since 1899—Wind Reached Nearly 30 Miles An Hour

Fredericton, N. B., July 4.—(Special)—The worse thunder storm in eleven years was experienced here last night and during this morning. There was almost incessant thunder all through the night, and the downpour of rain was very heavy coming down in perfect sheets between 7 and 8 this morning.

Considerable damage was done in Carleton this morning. The cupola of the Albert street school, West End, was damaged, the lightning cutting in and knocking off the shingles and tearing off part of the cornice. At the head of Rodney street, a barn owned by John Joyce was struck, and the doors were torn off and thrown into the road. The streets were flooded, water for a time. In the harbor and bay a big sea was running, and the waves in Courtenay Bay made a wild roar.

The rain began at 11:45 last night and from that time to 7 this morning, 1.42 inches fell. The thunder storm lasted longer than in any electric storm since July 22, 1899.

The general direction of the wind was east, but it shifted to all points. Between 7 and 8 this morning it was twenty-eight miles an hour, easterly, but at times it blew much stronger.

Two two-masted schooners at anchor in the island eddy, were reported having a rough time of it this morning, and it was feared for a time that they would drag their anchors and go on the breakwater, but they managed to ride out the storm in safety.

GEN. OTTER SURPRISES THE CAMP

Chief of Staff Visits Island Militia Unexpectedly—Mr. Butler's Private Secretary Married

Charlottetown, P. E. I., July 4.—(Special)—Brigadier General Otter, chief of staff of the Canadian Militia, accompanied by Major Eaton, director of training paid a surprise visit to the militia camp here on Saturday, and was inspecting the lines before the local officers realized he was here. Yesterday the usual custom of holding a church parade was departed from and service was conducted by Chaplain Fullerton on the camp grounds. General Otter was present.

Major Pennock, ex-change officer of Australia, was also in camp. General Otter expressed himself well pleased with the general condition of the camp, and left today for Sussex and Alibon.

Fred. McCourt, private secretary of manager Butler, of the Dominion Iron & Steel Company, was married today to Miss Ida Byrne, in St. Dunstan's cathedral.

FREDERICTON HAD ROUGH TIME OF IT

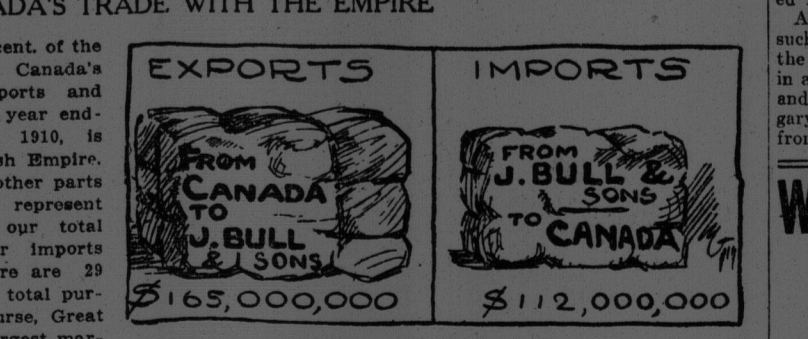

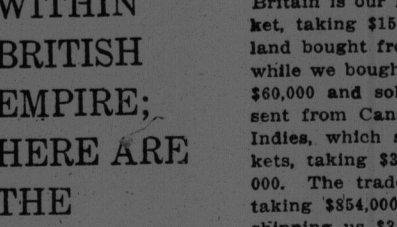

Fredericton, N. B., July 4.—(Special)—The worst storm experienced here in years set in at 10:30 o'clock last night and raged until after daylight. Rain fell in torrents, accompanied by heavy thunder. So far as can be learned the lightning did no serious damage.

The local firemen and a number of excursionists went to Houlton this morning by special train.

Rev. H. E. Dibble, rector of Fowler, Cal., formerly of Oronoco, arrived here Saturday to spend three months' vacation. Mrs. Dibble and children will join him in a few days.

The York Municipal council will meet in semi-annual session here tomorrow.

Rev. J. W. McConnell and family will today for Essex and Sydney.

Fashion Hints for Times Readers

RAGATTA COSTUME OF BORDRED NET

For fete occasions the net dresses are very girlish and dainty, and when mounted over a color these little frocks are especially charming. Care must be taken, however, to have the colored slip of the most delicate tint or the effect will be common. This cream net dress is built over a slip of faint biscuit yellow and the gir-

le and hem are of some creamy yellow color. The hat is of leghorn with a black shirred net crown over the straw and at one side a net cabochon, centred with tiny yellow roses. This hat is dainty model for midsummer is matched by a white parasol with a yellow rose Dresden pattern, and a tan border.

The Furnace of Gold

By PHILIP MIGHELS Author of "The Pillars of Eden," etc.

CHAPTER XLII—(Continued) The rider pricked again, impatiently. Instantly Surry's old-time fulminate was jarred into violent response. He went up in the air prodigiously, a rigid, distorted thing of hardened muscles and engine-like activities. He came down like a new device for breaking rocks—and the bucking he had always loved was on, in a fury of re-entire the place.

"Good boy!" said Van, who stood up stiffly, craning and bending to watch the man in the saddle as he rode. But the man in the saddle was a rider. He sat in the loose security of men who knew the game. He gave himself over to becoming part of the bronco's very self. He accepted Surry's momentum, spine-disturbing jolts, and sudden gyrations with the calmness and art of a master.

All this Van beheld, as the pony bucked with warning enthusiasm, and again his head descended to the depths. It was not the bucking he had hoped to see. It was the show, the show from everywhere in town they appeared to pour upon the scene. The word went around that the riding, Captain Hunter, called for Havana, Cuba, on Saturday with a general cargo, including about 25,000 barrels of potatoes.

Meanwhile, Surry was rocking madly all over the place. Chasing a couple of cows that roamed at large, charging at a monster pile of household furnishings, barely avoiding the feed-trough, set in the center of the place, scattering men in all directions, and raising a dust like a concentration of steam, the bronco waxed more and more hot in the blood, more desperately wild to fling his rider headlong through the air. But still the rider clung.

"Van had lost all sense save that of worry, love for his horse, and desire to see him win his vital struggle. His pride for Surry's response to himself—for a proving low in the bronco, being possessed his nature. He leaned far forward, awkwardly, following Surry about. "I'm ashamed of you, Surry!" he began to cry. "Surry! Surry! where's your pride? Why don't you do him, boy? Why don't you show them? Where's your pride? My boy! My boy!—don't you love me any more? You're a baby, Surry! You're a baby!" He paused for a moment, following still and watching narrowly. "Surry! Surry! You're gone, if you let him ride you, he'll kill you! You're a baby, Surry! You're a baby!"

"I want to see you, Surry!" he wailed, "of the wonder of it, either Morrisey's medicine made of you, Surry!" he began to cry. "I'm ashamed of you, Surry!" he began to cry. "Surry! Surry! where's your pride? My boy! My boy!—don't you love me any more? You're a baby, Surry! You're a baby!"

Father Morrisey's No. 7 Cured His Rheumatism in 3 Weeks.

Father Morrisey's prescription, called No. 7, cures Rheumatism completely, as well as quickly. N.B. Gladly testifies: "I was troubled with Rheumatism so badly that I could not get up my wagon once. After using his medicine for three weeks I was completely cured, and felt like a boy. I'm now 60 years of age, and in good health."

"I can truly testify to anyone suffering from Rheumatism to use this medicine at once." "Father Morrisey's No. 7 Tablets act directly on the kidneys, invigorating them so that they can thoroughly cleanse the blood of the Uric Acid which causes the Rheumatism, and thus permanently cure."

through his glass and set the course by the compass and angles of his transit. Anna he signaled the two to wait, and Beth sat down to watch him come, "set up" and wave them onward as before. She was thus alone, as the end of the chain, for hours at a stretch. So often as Pratt came up from the rear and established a secondary line of instruments she asked how the line was working out, and what were the prospects for the end. "Don't look at the end of the chain," she said, "Pratt, with never varying patience. "We'll know before we die."

In the heat that poured from sky and rocks it might have been possible to touch the surveyor's prediction. But Beth went on. Her exhaustion increased. The glare of the cloudless sky and greenless returns seemed to burn all the moisture from her eyes. The terrible silence, the dread austerity of mountains so rock-ribbed and desolate, oppressed her with a sense of awe.

She was toiling as many a man has toiled, through the ancient, burlesque surface of gold, so intensely physical all about her; and she was toiling no less painfully through the furnace of gold, that love must ever create so long as the dream must be burned from humans or that the bulb of honor, loyalty, and faith may shine in its purity and worth.

She began to feel, in a slight degree, the heat that poured from the sky and rocks, and Dave had undergone for many weary years. It was not their weakness for the gold of earth that had drawn them relentlessly on in lands like these; it was more their fate, a species of doom, which like the helpless pupae that we are, we must all at last respond.

She felt a new weight in the crumpled "Laughing Water" claim had been suddenly bereft of all they possessed after their patient years of serving here in this arid waste of minerals. The older men in Van's partnership, she pitied.

For Van she felt a sense of championing love. His cause was her cause, come what might—and he had no other. He no longer kept alive her hope. Her passion to set herself to rights in his mind was great, but secondary, after all, to the love in her heart, which would not, could not die, and which, by dint of its intensity, would fight to the last.

Alone so much in the burning land all day, she had long, long hours in which to think of Van, long hours in which to contemplate the silence and the vast desolation of this mountain world. Her own burning, offering the heat of air and earth; a sense of the address her heart would know without Van's love once more to hear of the death of their infant daughter, which occurred yesterday. DRINK CURE A MIRACLE

No. Just Sound Science.

Many drunkards are sent to jail when what they need is medicine. Drink has undermined their constitutions, inflamed their stomach and nerves, until craving must be satisfied, if it is not removed by a scientific prescription like Samaria.

Samaria Prescription stops the craving, restores the shaking nerves, builds up the health and appetite and renders drink distasteful, even nauseous. It is odorless and tasteless, and dissolves instantly in tea, coffee or food. It can be given with or without the patient's knowledge.

Read what it did for L. G. Vanover: "I was so anxious to get my husband cured of his drinking habit that I went up to your remedy there. I had a terrible time giving him the medicine. He had a great deal of trouble with it. I was so anxious to get him cured that I was willing to try anything. I was so anxious to get him cured that I was willing to try anything. I was so anxious to get him cured that I was willing to try anything."

Now, if you know of any unfortunate meeting Samaria. Please tell him or her of his family or friends about it. If you have any friend or relative who is forming the drink habit, help him to release himself from its clutches. Write today.

A FREE TRIAL PACKAGE of Samaria Prescription, with booklet, giving full particulars, testimonials, price, etc., will be sent absolutely free and postpaid if you send sealed package to anyone asking for it and mentioning this paper. Correspondence sacredly confidential. Write today.

A VERBAL AFFLICTION

The member of the legal and political junta whose task it is to provide editorial matter for the Standard set out in today's issue to destroy the Liberal government at Ottawa. An article which contains a thousand words or more concludes as follows: "The Liberal administration, by the very policies which have aided the progress from a one-sided point of view of industry, has lowered the birth-right of the people for a mass of postage for the politicians. Most people only see the politician receiving his mass of postage, and not seriously troubled—being often inclined to a sneaking admiration for the apparent astuteness of the paltry pilferer whose activities are merely despicable. But when it is realized that the Liberal administration is undermining the foundations of social well-being and national greatness, not so much as its members are petty grafters, as because its policies, being dictated by the spirit of a political economy long since outlawed by the evolution of society, tend to corrupt the business and public morality of the times, and, by concentrating power in the hands of great aggregations of capital, promote monopolistic control of industry, and what the appetite for public plunder—when the people realize this, they will change their present lenient attitude to the political grafter, and recognize graft as a venereal disease afflicting the whole body politic."

CHARMING RESORTS

The party of ladies and gentlemen connected with the local press who on Saturday afternoon accepted an invitation to sail on the little steamer Premier from Rothesay to Moss Glen, Clifton, Reed's Point, Gondola Point and Fair Vale, on the Kennebecasis, enjoyed a delightful listing. But they were also more than ever impressed with a knowledge of the peculiar charm of places within easy reach of St. John for suburban residence.

THE OTTAWA JOURNAL SAYS

"There are a good many Ottawa holders of both C. P. R. and G. T. R. stock, who will be glad to learn that while some railways across the line are by no means earning big dividends, the C. P. R. and Grand Trunk are probably in a better position than ever before."

THE TORONTO WORLD DECLARES

"The Toronto World declares that there are too many text books, and too many changes. In the course of a vigorous article it says: 'Cheap school books are a blessing. Fewer school books would be a greater blessing and produce a greater good. What pinches the parent is the number of school books and their continuous changing. Every subject has its own text book. In other days, and not more derogate either, the text book was for the teacher and the advanced scholar. Now the bespectacled infant has his library of books. Some day we will refrain from bowing down and worshipping our perfect educational system and attend to its faults. Then there will still be cheap school books, but fewer of them.'"

TO THE SPECTATOR ON MOUNT ROYAL

The spectacle of Count de Lesseps flying over his city of Montreal on Saturday must have been one of absorbing interest.

UNDER THE ROSE A VAGABOND.

He has been one with the external night, One with the wind and surge and the sea. The stars have pierced him with their light From dateless, fathomless immensity. He has been one with lowland streams that pass By tortuous ways to dim untrodden coasts. One with the fading leaf, the seeded grass, One with the world's enigmas and its ghosts.

HE HATH BEEN HERE

He hath been here and there, a homeless shade, Treading in paths of obstacle and mire; He hath been in the wilderness and made A haunt of northern ice and tropic fire. He hath defied his feet, for he hath trod Morass and bog of the uncharted wild; Yet stayed his spirit very near to God, And in his heart the wonder of a child.

Putnam, Conn., July 1.—Stricken with heart failure while testifying in his own behalf, in a suit for \$5,000 brought against him by Rev. Father Arthur De Bruycker, Anthony Blum, a Boston broker, confessed to and received absolution from the priest, who is in charge of St. Mary's Roman Catholic Church, at Wilhamatic, had invested in a mining venture through Blum, and lost his money. He accused the broker of misrepresentation, and sued him for \$5,000. The case was being tried before Judge Wheeler, in the Superior Court, this afternoon.

MILLIONS OF BOXES OF APPLES TO BE SHIPPED FROM WEST

Market Value of Crop at Present. Prices are Placed at \$27,000,000 to \$29,000,000. Spokane, Wash., July 4.—Buyers for commission houses in New York, Chicago, Boston, Philadelphia and other large distributing centres, traveling in the northwest and Pacific states, estimate that 15,000 cars, or from 9,500,000 to 10,000,000 boxes of apples, suitable for eastern markets, will be shipped from commercial orchards in Washington, California, Colorado, Oregon, Idaho, Montana and Utah this season. It is also estimated that between 3,000 and 4,000 cars will be required to supply the local and European trade. The market value of the crop in the several states is placed at from \$27,000,000 to \$29,000,000 at present prices, which are likely to advance because of the decreased crops in Ohio, Missouri and other central apple states. Buyers say that the Pacific and New England states will supply the bulk of the apple crop this year. The last statement is borne out by the United States government reports for June, just received in Spokane.

Washington is given first place, with an output estimated at 4,500 cars, of which the Yakima valley will contribute between 2,000 and 2,500 cars; Wenatchee valley, 1,800 to 2,000 cars; other districts in eastern Washington, including Walla Walla and Spokane valleys, 800 cars; western Washington, 300 cars. Colorado, including 2,500 cars in the Grand valley, 4,000 cars; California, 4,000 cars; Oregon, 1,200 cars; Idaho, 700 cars; and Utah and Montana, 700 cars. Eastern Washington is credited with the largest increase in acreage and crop in the country.

Arrangements are being made in various parts of the district to hold several thousand cars in cold storage until early next spring. Four warehouses are being equipped in Spokane, the shippers saying there will be sharp advances in prices all over the country before the Christmas holidays.

INQUIRY INTO THE DEATH OF SIRACUSA

The first session of the inquest into the death of Diego Siracusa, who was found bleeding and unconscious in the bedroom of his home in North street two weeks ago, was begun Saturday afternoon by coroner Bryerman in the court house.

Giovanni Rossi, or "Andy Rossi," who was arrested on suspicion of shooting him, was brought in from the jail by Detective Killen to hear the evidence. For some reason, perhaps because he did not understand what was passing, Rossi showed little interest in the proceedings, and sat most of the time looking at the floor.

At one point in the evidence, the coroner addressing the prisoner, said that if he wanted any questions asked the witnesses and would write it on a piece of paper and hand it to him he would, if he thought it a fair and proper question, put it to them. It was brought out during the afternoon that not only had Rossi threatened Siracusa's life but had also said that he himself would commit suicide by taking cyanide.

SUFFERED THREE YEARS

Bill Dr. Morse's Indian Root Pills cured his Kidney Trouble

There are few diseases that cause more acute suffering than Kidney Trouble, and Mr. F. A. Thomas, of Sudbury Ont., is one of those who know it. He writes:

"For over three years I suffered from kidney disease. First I thought I had sprained my back, for suddenly the pain would catch the small of my back and it would be impossible for me to sit down. I myself up for several minutes. A dull ache across the kidneys was a constant pain. My urine was thick and yellow. Tried medicines, but they failed. I was advised to try Dr. Morse's Indian Root Pills, as they had cured many of my friends. A few boxes did it. A complete cure. I now enjoy the blessings of good health, which was this remedy."

Don't neglect kidney trouble. It's too dangerous as well as so painful. That old, reliable family remedy, Dr. Morse's Indian Root Pills, has cured thousands and will cure you. It is equally effective in curing constipation and its attendant evils, biliousness, indigestion and sick headaches, and in purifying the blood. A box at your druggist's.

Gouldthrite a Suicide

Detroit, Mich., July 3.—The body of Frank S. Gouldthrite, Canadian government official, was found today floating near Trenton (Mich.), a little village a few miles south of Detroit, by Trenton fishermen.

Ottawa, July 3.—Mrs. Frank Gouldthrite, wife of the late superintendent of stationery at the government printing bureau, who returned to Ottawa yesterday from Detroit, was notified this evening of the finding of her husband's body in the Detroit river.

Mr. Gouldthrite's flight from Ottawa two weeks ago, he had with difficulty been persuaded by her not to end his life by leaping into the Chaudiere falls. For over half an hour, standing on the inter-provincial bridge at the falls, she pleaded with him not to carry out his intention. At that time he compromised on flight from the city, but when he left he told her he would never be brought back alive.

On Saturday afternoon on Lily Lake, Charles Carlin, James Levine, Hattie Crawford and Annie Sheppard were in a boat which capsized. The men got ashore and but for the promptness of James Collins and Mr. Bridges, the women might have been drowned.

AN IDEAL OUTING ON THE PREMIER

Newspaper Party Enjoy Beauties of Kennebecasis

THE WILLOWS OPEN

A Stay There and a Welcome by Mr. Waddell—A Visit to Mr. Carter's Fine Farm—The Trip on the Premier as Fine as One Could Want

Delightful weather, magnificent scenery and the bountiful hospitality of their hosts, combined to make the outing given to representatives of the city newspapers and their ladies on Saturday afternoon, an event long to be remembered. The party to the number of twenty-five, left the city on the I. C. R. suburban train at 11:35 Saturday afternoon and went to Rothesay where they boarded the ferry steamer Premier, as guests of the owners.

They were received and ably looked after on the trip that followed by Captain Robert G. Earle, Henry Gilbert and Edward S. Carter. The steamer cast off from her wharf about 2:15, after taking on a large number of passengers and a team. The former made themselves comfortable with chairs and camp stools, about the deck and prepared to enjoy the scenic beauties of the Kennebecasis, while the latter philosophically awaited the time they should reach their destination at Moss Glen.

The first stop was at Long Island, where half a dozen of the passengers disembarked to visit the wharf. The journey was replete with scenic interest, and it has proved a great boon to the people of that section, as it enables them to visit the scenic beauties of the Kennebecasis in a comparatively short time. Formerly it was necessary to go about the smaller island, while now they can go directly between the two.

At Moss Glen

On leaving Long Island the high cliff, known as the "Minister's Face," loomed in sight and then a landing was effected at Moss Glen. Here several of the party, attracted as "roastabouts" in clearing the decks for the passage of the horse and wagon. Then the journey was resumed, with Clifton as the next stop.

"Sugar Loaf" mountain was passed and was made the subject of some interesting anecdotes by Mr. Carter. After landing the Clifton passengers, it was announced that the next stop would be "The Willows," or Reed's Point, and several members of the press party and left home with a very meagre dinner, brightened up at the thought of sitting down to a meal at this resort famous for years as the hospitable domicile of Hughie McCormack, the world's champion speed skater. The light breeze induced by the speed of the steamer and the bracing air of the country had had the effect of making everyone feel hungry, though some were inclined to deny it until they saw the feast spread out for them by Manager Roy Waddell and Mrs. Gallagher, who is in charge of the cuisine at "The Willows."

At The Willows

On tying up at the wharf the captain announced that the boat would remain about an hour and the party trooped off to explore the country, which is one of the prettiest spots on the river. First, however, camera fiends in the crowd, snapped the group in various attitudes and then in smaller groups. The crowd amused themselves in roaming through the fields picking wild-flowers, rowing on the river or just resting and enjoying the beauties of the scenery. Some explored the spacious hotel, with its large airy rooms and broad verandas, all newly repaired and painted, and Manager Waddell talked of his plans for again making "The Willows" as popular as in years gone by. The house had been closed for the last three years, but now it has been renovated from cellar to attic, painted inside and out and is as neat and clean as a new pin.

Mr. Waddell, by the way, is a nephew of Mr. Waddell, and is most obliging and courteous. He has been fortunate in securing Mrs. Gallagher to looking after the culinary duties, for her fame is known to nearly everyone who has commended on the river. She was for many years at the

Daily Hints for the Cook

THIN COOKIES.
One-half cup butter, 1 1/2 cup sugar, 1 egg well beaten, 3/4 cup flour, 1/2 teaspoon vanilla. Cream butter, add sugar, little by little, then egg, flour and flavoring. Put on buttered sheet in teaspoonfuls, spreading thinly with knife dipped in cold water. Leave about 1 inch apart and put on in centry corners and bake. These are very delicate and have to be watched as they cook quickly. Remove to other plate while warm, in light box.

CODDISH SALAD.
Put a thick piece of white codfish, soaking over night. In the morning pour the water, put on fresh cold water and let come to a boil. Try, and if still salt, repeat, as it wants to be tender and soft. Cook fish, pick up, in flakes, cut a hard boiled egg in pieces, mix with it and some chopped lettuce, line a dish with crisp leaves, cover with the mixture and pour salad dressing over it.

STRAWBERRY SOUFFLE.
Put 1/4 cup butter and 1/2 cup milk into a saucepan over fire. When hot add 1/4 cup each sifted flour and sugar mixed. Stir constantly until the mixture cleaves from the sides of the pan; then turn on the yolks of three eggs (well beaten), with 1/4 cup of strawberry preserves, and mix thoroughly. Then carefully in the stiffly-beaten whites of three eggs. Bake in a buttered pudding dish in moderate oven 30 or 40 minutes. Serve about strawberry preserves and whip cream—sweetened to taste and flavored with vanilla.

CUCUMBER PICKLES.
One gallon of vinegar, 2 cups sugar, 2 tablespoons mustard, 1/2 cup salt, 1 table-spoon each of cinnamon, cloves, allspice and ginger, pepper to taste, 2 large onions sliced. Use vinegar cold. Keep in a cool place and stir from bottom once in three days. After two weeks, add a small piece of alum.

LETTERS TO THE EDITOR

For Clean Streets

Editor Times—While we are advocating a better, bigger and busier St. John, we should add a cleaner St. John. Now the tourist season is opening, and many strangers will visit our city, it would be well for property owners and tenants to see to it that waste materials are not deposited in the streets. Dr. Melvin, chief medical inspector, tells us that contagious disease may be carried on postage stamps; then what chance we run of catching disease from the refuse thrown in the streets by the unthinking persons. Friday afternoon a property owner, by the way, a business man, in Brussels street, was seen to walk to the edge of the sidewalk and drop banana peelings by the curbstone. Let business and the younger folk will soon follow the good example, of making St. John an ideal city for the tourist and the person or persons desiring of opening new industries in our midst.

Wishing Dr. Melvin and the board of health, success in the endeavors at cleaning up. I remain,

St. John, N. B., July 4.

AMUSEMENTS FOR OURSELVES AND OTHERS

FREE AIRSHIPS, GOOD SHOW, ETC., AT NICKEL.

This week looks fair to be an especially break one at the Nickel Theatre. This afternoon the first of the Free-Airships will be held, when one hundred little airships will be given to boys and girls and a surprise and a treat is in store for the lucky ones. This little toy solves the problem of aviation and is instructive as well as entertaining. The following announcement is made: "Tonight full telegraphic returns of the Jeffries-Johnson contest at Reno, Nevada, will be told from the stage as the big sporting event proceeds. Extra seats for the crowd back of the transparent curtain. The programme itself is a good one, containing the following feature: Miss Betty Duff in the romantic number 'If I Were a King'; Geo. Lind, of New York, in the Biograph lecture film, 'The Face at the Window' (in reality the great play Madame X); one of those fine Jones comedies by Edison, entitled 'Fortune's Fool,' and a merry farce, 'All on Account of Laundry Mark.' The orchestra will have new selections and the show will last over an hour. Extra films at the matinee."

BIG FIGHT RETURNS AND NEW ACT AT THE LYRIC.

By a special arrangement the returns from the big fight at Reno will be announced from the stage at the Lyric tonight. They figure that in all probability the wire will be working long before 7 o'clock, and the first announcement will be made at 8:45.

The Lyric management are sorry to announce that Rube Dickinson, who was to appear this week, will not be able to reach the city until the latter part of the week and therefore will not open his engagement until Monday next. However, he is worth waiting for, and has an enviable reputation.

Lafayette and Toohay, comedians, will be the attraction this week. This team comes recommended as a first rate comedy number, excellent stagers and never-fail laugh-makers.

GOOD PROGRAMME AT "UNIQUE" RETURNS OF THE FIGHT TONIGHT.

The result of every round of the great contest between Jeffries and Johnson today will, it is announced, be told at the "Unique" tonight. The first account is supposed to arrive a little after 7 o'clock. An excellent picture programme has also been arranged. A Latin tale of the west is to be the leader, entitled, "The New Boss of Bar X Ranch." Lubin photographers located beautiful bits of woodland for the background for this story. Feats of horsemanship add much excitement, the riding being very daring. The other numbers are "Tragedy," a novella, "Pa, Ma and the Baby, comic, and two others. Tiny Williams, who will conclude her engagement Wednesday night, will sing "You are the Boy for Me." Her farewell matinee will be Wednesday afternoon.

"STARS" NEW SHOW WITH FIGHT BULLETINS.

The Star announces that it is not going to be one whit behind the other picture houses tonight in giving full details of the big fight at Reno between Johnson and Jeffries. It has a fine show as well, including the Biograph dramas, "In the Foot of State," the western playlets, "The Bandit's Mistake," and "The Bed Man and the Treasurer," and three highly instructive new films (a) A Trip Through Norway," (b) Building the Canadian Northern Railway, and (c) Annette Kellerman, the Mermaid. Master Hanlon will enter upon his last week in a new song and there will be plenty of good music.

EUCCHARISTIC CONGRESS

Montreal, July 4.—The housing of the visitors at the coming Eucharistic Congress has been occupying the careful attention of the committee for some time, and it has now been decided that the various bishops and their secretaries shall be lodged either at the Archbishop's Palace or in the Presbyteries, the religious communities and in some private families.

More than 2,000 priests will be lodged in the religious houses, where the cost of board and lodging is \$1.50 a day.

For convenience of general visitors to the congress, the congress committee publishes a list of hotels, boarding houses and private families, where visitors to the congress can be accommodated. All are requested to secure their rooms as soon as possible, above all those who intend to stay at the hotels.

During the congress there will be various other social and religious entertainments.

Local Horse News

Some local horse races were—

At North Sydney, Billy won the 21st class, Lady Dip the 22nd, and Union Jack the 24th class.

Quincy A., owned by Theo. Killen, Halifax, won the free-for-all at Summerside in straight heats, defeating McDougal and Queen Marie in 2:22, 2:25, 2:28 the first heat being a reduction of his record. Commodore Equiset won the 2:35 trot in 1:12 1/2, and Longboat won the 2:35 pace in 1:10. The two-year-old Billy Achille the Great created a sensation at New Glasgow. Competing against three-year-olds, one of which had been recently imported from Boston, he won with ease, his last heat being in 1:20, and the last quarter in 28 seconds, a 2:24 clip for a two-year-old. Achille the Great was driven by her owner and breeder, W. H. Musgrave, Halifax. The colt is bred by the Nova Scotia Government station Achille, and the dam is Mr. Musgrave's mare Karava by Kremlin.

DROWNING AT CAMP SUSSEX ON SUNDAY

A gloom was cast over the Camp at Sussex yesterday, by the drowning of one of the soldiers boys who attempted to save comrades, while swimming in the river near the camp.

The unfortunate soldier was an English lad, Frederick Lovejoy, aged sixteen, hailing from Rockland, Carleton county. His companion was Russell Paget, of Lower Woodville, near Rockland, and both were members of No. 5 Company, 6th Regiment.

That young Paget was saved is due to the timely arrival of Sergeant Willard Ridout and Russell Boyer, who reached the spot in time to pull him out of the river and after a little revived him, although for a time he was unconscious.

A soldier named Pomythe, had his head badly cut, by striking it on a rock, while swimming. Fifteen of the men were prosecuted by the lost yesterday.

Church services were held in the morning. Rev. Canon Nesles, chaplain of the 14th Regiment, preached in the open air, and the Roman Catholic troops paraded to St. Francis Xavier church, where Rev. Fr. McDermott, celebrated high mass.

They were to leave this morning for Wolford, but likely the storm delayed the start.

ENGLISH FIRM GETS CONTRACT

Bids For Cast Iron Pipe Considered Today — Some Were Opened Before Proper Time

At a special meeting of the water and sewerage board held this morning tenders were opened for the supply of about 314 tons of cast iron pipe for that department. Through some oversight, a number of tenders for this contract were opened at the regular meeting of the water and sewerage board on Wednesday last, and it was announced that the tender of Singleton Dunn & Co. had been accepted. The advertisement for tenders had, however, stated that the tenders would close July 2, and several of the bids which were sent in on that date had to be considered, consequently a meeting was called for this morning, when all the bids were considered. There were ten in all, and it was decided to recommend to the council that the contract be awarded to the Staveland Coal & Iron Co. of Chesterfield, Derbyshire, Eng., whose bid was the lowest. They quoted 12 inch pipe, \$7.15; 10 inch, \$7.20; 8 inch, \$7.30; 6 inch, \$7.35. Other tenders were: Cambden Iron Works, Singleton, Dunn & Co., Watson Jack & Co., D. Y. Stewart & Co., Stanton Iron Works, U. S. Cast Iron Pipe & Foundry Co., Vroom & Arnold, T. McAvity & Sons, and W. H. Thorne & Co. Several matters of minor interest were brought up, and were referred to the engineer to bring in a report.

McLAUGHLIN AND OTHERS SELECT SPEEDY TRIALS ACT

Judge Forbes said this morning that Charles T. McLaughlin, the boy who is charged with assaulting several little boys; Quinn and Gallagher, charged with assault, and Macrae, for escaping from custody, had elected to be tried under the speedy trials act. The time for hearing their cases has not yet been set.

WALTER STILLWELL IS MARRIED IN COLORADO

Word of the marriage of Walter Stillwell, formerly of this city, to Miss Lulu Snyder, of Nebraska City, Colorado, has been received here. The ceremony took place on June 20. Mr. Stillwell, who was for many years employed as an engineer with the St. John Railway Company is now occupying a good position in the office of the Chicago, Burlington & Quincy Railroad, in Denver, Col. He is a son of Mrs. E. A. Stillwell, Princess street. His many friends here will wish Mr. Stillwell and his bride every happiness.

DEATH OF MISS CATHERINE BYRNE

The death of Miss Catherine Byrne occurred suddenly at 1:30 o'clock this afternoon at her home, 100 City Road. She was the daughter of the late Felix and Mary Byrne. She had been ailing for some time but was able to be out yesterday. This morning she was stricken with paralysis for the third time and soon passed away. She leaves two brothers—James W. of the mechanical staff of the Times-Star, and Edward J., of Chicago, and one sister—Miss Mary, at home.

Dr. Boyle Travers treated very comfortably last night, and if he continues to improve within the next twenty-four hours, there will be great hopes for his recovery.

CHINESE PETITION TO THE COUNCIL

Twenty-nine Laundrymen From Celestial Empire Here

ROOM FOR ONE MORE

Ask that 30 be Limit and Annual Fee be \$10—Some Aldermen Want to Vote Chief Clerk \$300 for Western Trip

The monthly meeting of the common council is being held this afternoon in the council chamber of the court house. One of the first matters to come up will be the reading of the returns of the recent by-election, in which William E. Scully was elected to succeed J. King Kelley, resigned as alderman-at-large. Alderman Scully will take his seat again today. There is likely to be some discussion on the matter of the lease of the Mispec pulp mill, to Stetson, Cullis & Co. This is dealt with in the report of the water and sewerage board. The matter of the grant of \$200 to Chief of Police Clarke, for expenses in attending the Chief Constable's Association convention in Vancouver, will likely be taken up again, as several of the aldermen favor a grant of \$300 as recommended by the safety board. The bills and by-laws committee will report on the matter of sidewalks and snow shovelling, to which their attention was directed by the communications have been received. The following communications have been received: A. H. Hastings, K. C., calls attention to the disgraceful and dangerous state of North street. Chris. Nichol complains about treatment received from Constable Alfred M. Sherwood. The Canadian Pacific Railway Co's Telegraph, appeals against the assessment for the year 1910. James Desmond and Timothy Desmond submit an account of \$37 for storage of pipes on their property on the Loch Leonard Road.

The Chinese laundrymen doing business in the city state that there are now twenty-nine Chinese engaged in laundry business in the city and they ask the common council to make regulations limiting the number of their countrymen to be allowed to engage in the laundry business to thirty, and imposing an annual license fee of \$10 on each of them. The St. John Real Estate Co., applies for a lease of Nos. 735-734, Duke street, Dukes ward. James Morgan and others of the Early Closure Association, ask that they be granted an audience at the next meeting of the common council. James Hoy applies for appointment as constable.

THEFT OF COPPER WIRE CHARGED

Variety of Cases in Police Court Today — Dr. Dickie Case Off Till Tomorrow

Morris Goldberg, a junk dealer, was charged by the St. John Railway St. John company in the police court this morning with stealing copper wire from them. Robert J. Cochrane, of the Company, said that thefts of wire had been going on during the last three years. One of their teamsters had reported on Saturday that he had seen Goldberg on the dump burning the covering off of a quantity of copper wire. Goldberg said that the wire had come into his possession with a shipment of junk from Campbellton. His honor remarked that people would hardly send stuff of that class as junk, if they knew anything about the business, but Israel Goldberg, brother of the accused, explained that the wire was among a lot of other copper articles. Judge Ritchie told the Goldberg that they could go with Mr. Cochrane and if they were able to substantiate their story to the company's satisfaction it would be sufficient, if not further would be heard of the matter.

The case of James Walsh, aged 74, charged by Michel Clunen with stealing an umbrella, tea pot and frying pan, was taken up. Clunen told of Walsh, who was taken in the same house with him in Brussels street, calling and offering for sale an umbrella. On examination it was found that the witness that the umbrella was his own, for which he had paid 50 cents some weeks previous. Patrolman McFarlane was notified and a search revealed a missing tea pot though Clunen could not positively identify the frying pan as his.

John McGoldrick, charged with buying junk from minors, was fined \$20. D. Mullin, K. C., who represented him, announced that the case would be appealed.

The case of Dr. Frank H. Dickie, charged by David Watson with abasing a horse, the property of the latter, was postponed till tomorrow afternoon at 3:30, on request of S. M. Wetmore, secretary of the S. B. C. A., who said that the legal representative of the society, J. King Kelley, was out of the city and would not be back till tomorrow morning. Dr. Dickie was allowed on a \$30 deposit. E. S. Ritchie appeared for him. Fred Babineau was fined \$8 for drunkenness, and Arthur Howe was remanded on the same charge. John McDonald was charged by Harry Solen of the D. A. R. with stealing a knife, the property of the company, and cutting cargo coverings on the steamer Prince Rupert. He was remanded.

HAPPY TIMES ON THE CENTENNIAL GROUNDS

The Centennial school playground will be opened tomorrow morning. Miss Beckman will be supervisor and Miss Turner assistant. At the meeting of the National Women's Council in Halifax a resolution for the censorship of dramas and shows was defeated, an inspector being favored. Dr. Gordon's resolution for the appointment of a woman on the commission on technical education, was carried.

Stores open till 11 o'clock tonight.
