(Canadian Press.) Washington, June 4.—Assistant Secretary Roosevelt of the navy department, sent a cablegram to Rear Admiral Bagger, late last night, informing him of a report that Huerta's minister of war had ordered the Federal gunboats to blockade Tampico.

Niagara Falls, June 4.—While waiting to hear from General Carranza, whether he would send delegates to the conference here, the mediators planned today to continue their work as would not be affected by the Constitutionalist answer.

Another Battle. Mexico City, June 4.—More than eighty Constitutionalist soldiers were killed and a large number wounded in a fierce engagement which took place yesterday at Lapuerta, in Southern Michoacan, according to a communication by the interior department.

RURAL TROLLEY SERVICE

Some Local Suggestions After a Visit To Boston

A suburbite, who has recently returned from Boston, has drawn the attention of the secretary of the board of trade to the undeveloped possibilities about St. John for an extended suburban trolley service.

"Just look," said he, "at what we miss here by having no trolley-car service to Robesay. What a pleasure it would give to the faded resident of the dusty city if he could get a car trip like this into the country. What a comfort it would be to the tired suburbite; what a revelation of natural beauty for the visiting tourist; what an impetus to suburban residential development."

Terms of Lease For Canada Nail and Wire Company Approved In Committee

The lease of the city lots between Union, lower and Charlotte streets, west St. John to Canada Nail & Wire Works for a site for their nail plant was approved by the common council in committee this morning and will be ratified at a subsequent meeting of the council.

A delegation from the commission of the county hospital was to have been heard regarding the proposal to erect the building of brick instead of wood but the members of the delegation grew tired of waiting and left before the council had concluded its other business.

The council came to order at 12:10, Mayor Frink presiding with Commissioners Wigmore, Russell and Potts, the common clerk and Recorder Baxter present. F. E. Marven was present in person for the nail company.

The first business was the consideration of the terms of the lease of lots between Union, lower and Charlotte streets, west St. John, owned by the city, to the Canada Nail & Wire Company as a site for their proposed plant.

When the location of the lots was taken up it was shown that the site provided did not include all the existing buildings. It was also shown that the street railway encroaches on lots owned by W. E. Scully and the city.

It was found necessary to leave a thirty foot strip in front of the lots to provide for an approach. The site would be 300 feet on the front and 215 feet deep.

Commissioner McLellan said that this only lacked thirty-five feet in the width of the lot. He suggested that the city purchase the property from the Scullys and Company, and the Gordon Nail Works.

The section was adopted, Commissioner McLellan offering. The term of the lease was fixed as fourteen years from June 1. The rental was made \$800 a year for seven years and \$700 a year thereafter.

The company was given the power to use or remove the buildings and chimneys now on the property. The value of the buildings was fixed at \$1,000 as the amount to be deducted from the improvements to be paid for by the company.

Commissioner Wigmore asked if the company should not pay for the buildings they were taking over. He thought them worth more than \$1,000 to the company.

Commissioner McLellan and the recorder pointed out that this would create confusion in the event of the city taking over the property again. The company was given the power to use or remove the buildings and chimneys now on the property.

Terms of Lease For Canada Nail and Wire Company Approved In Committee

Another provision requires the company to provide for the cost of all improvements, no improvements to be paid for except those shown in the vouchers.

The company was enjoined from assigning the lease or sub-letting without the city's permission.

If the company does not operate the plant for at least nine months in every year, except for causes beyond the company's control, the lease is to be forfeited.

The appraisal of the value of the buildings shall not include any material or work not actually incorporated in the building. A new valuation shall be required for all renewals of the lease.

The recorder said that Mr. Cowan, solicitor for the company, had told him that it was understood that at the end of the fourteen years the rent would not be raised and asked if this was so.

The council denied this. The Commissioner McLellan moved that at the expiration of fourteen years the rent for renewals should be fixed by the two-thirds vote of the common council, but amended his motion to make the rental subject to the award of a board of valuers.

The next section provided that after four years the city might terminate the lease upon giving one year's notice, and paying the company the appraised value of the buildings and improvements, not to exceed \$20,000, and the appraised value of the cost of removing and re-installing the machinery, not to exceed \$10,000.

The lease was then adopted as a whole. Mayor Frink remarked that the whole action of the council seemed unwise. The city had purchased this land for \$16,000 and afterwards refused to lease it to Mr. Gordon and now leased it to another company. Other cities, notably Toronto, were facing the problem of finding sufficient room for the harbor frontage and St. John faced the same problem.

He was surprised that the commissioners who were aldermen at the time of the purchase should take this course. Commissioner Potts suggested that, in future, when the mayor had any remarks of this nature to make, he should do so before the council took definite action.

The committee adjourned and reported and the council adjourned, deferring action until the final draft of the lease could be prepared.

The necessity for more efficient and up-to-date fire apparatus was shown at a fire which this morning destroyed the building of Charles Fisher, Spear Cove Road. No. 5 engine was on the scene soon, and although connections were made with a pond about 100 yards distant, but a faint stream of water was all that the engine would produce.

NOW TO PROBE DUGAL CHARGES

Commission Meets to Organize—Some of the Witnesses Likely to be Called

The first session of the royal commission appointed for the purpose of inquiring into the charges preferred by L. A. Dugal, is in progress this afternoon in the court house, the session commencing at 2:30 o'clock.

The members of the commission are Hon. H. A. McKewen, of the Supreme Court of New Brunswick, chairman; W. S. Fisher, of Emerson & Fisher, Ltd., and Hon. W. W. Wells, former judge of the county courts of Westmorland and Albert, with George M. McEade as secretary.

Mr. Dugal, who arrived in the city last evening, has as his legal counsel, Frank B. Carvell, M. P., for Carleton county, Dr. W. B. Wallace, K. C., St. John, P. J. Hughes of Fredericton and Mr. Stevens, K. C., of Edmundston. Mr. Stevens was not present today, but will be associated with the others in the later proceedings.

The Premier Fleming, who arrived in St. John last evening, to be present at the two-thirds vote of the common council, was represented by M. G. Teed, K. C., and George W. Fowler, M. P., for Kings-Albert, will be associated with Mr. Teed.

When the court of inquiry was called to order this afternoon the royal commission authorizing the investigation and appointing the members of the investigating board was read and the chairman briefly outlined the purposes of the inquiry. The various legal representatives of the parties were recognized and the commission proceeded to the hearing of the charges.

No evidence was taken today as subpoenas for witnesses could not be issued until the court had convened. This step will be taken and the commission will adjourn until a later date when the witnesses will be called.

Although no announcement was made in advance of the meeting regarding the witnesses to be called it is presumed that they will include W. H. Berry, chief superintendent of scales, Colonel G. T. Legie, deputy minister of lands and mines, and George N. Babbitt, receiver general for the province.

It is also expected that certain members of the legislature might appear as counsel for Mr. Fleming but it is uncertain that their ambitions were discouraged.

Funerals of Twelve of Empress Dead Held Today in Quebec

Streets Thronged By People as Bodies of Five Are Escorted From Irish Church and Seven From Anglican Cathedral

(Canadian Press.) Quebec, June 4.—Marching to music of military bands, passing along the route between double rows of sorrowing spectators, hundreds of maudlin people, representing every class of society, from the very regal party to the humblest of toilers, followed the bodies of twelve of the Empress victims to church and cemetery this morning.

Flags were flying at half staff over public buildings, as well as over a large number of commercial and private places, and during last evening the Irish Catholic church, where the bodies lay, and the Anglican Cathedral where there were seven, were thronged with plying people.

In the Anglican Cathedral the service this morning was attended by many. Those whose friends were from this church were William Williams, trimmer; V. Peterson, carpenter; E. Blaine, H. Newham and H. Perry, stewards; G. J. Thompson, a plumber, and Mrs. E. Jones, stewardess. They were interred in Mount Hermon cemetery, while the victims whose funerals were from the Irish Catholic Church were taken to the parish cemetery. They were Michael McGilnes, chief fireman; H. O'Neil, fireman; James Murphy, Parkinson, steward.

Former Commander at Funeral. His Royal Highness was officially represented by Captain Buller, his A. D. C. He was represented by G. J. P. Moore, local manager, and Captain Walsh, Captain Murray, Quebec harbor master, and the commander of the Empress of Ireland, attended the funeral. Among other C. P. R. officials present were J. A. Webber of Montreal and Fred McMahon, manager of the Hotel Chateau Frontenac.

A moving scene was noticed at the Anglican Cathedral when the organist at the quietest moment of the ceremony played the Titanic hymn, "Nearer My God To Thee." The solemnity of the scene appalled the hundreds of sorrow-stricken mourners.

Reply on Behalf of L. C. R. Moncton, June 4.—(Special)—C. A. Hayes, general traffic manager of the L. C. R., has given out a statement, replying to a complaint of J. W. Black, of Ottawa, a survivor of the Empress of Ireland disaster, that the L. C. R. ticket agent at Rimouski had refused to give tickets to survivors unless prepaid. Mr. Hayes says: "The L. C. R. district passenger agent and the C. P. R. agent were both on the ground and arranged the conditions under which the survivors of the disaster should be taken to their destination. As a matter of fact, the train left as early as it could possibly be organized, and reached Quebec in good time. Everything was done by the L. C. R. management, which possibly could be done to relieve the extraordinary situation and minimize the discomfort of those affected by the disaster."

Beet Greenaway Saved. Montreal, June 4.—The name of Bert Greenaway of Toronto, a second cabin passenger on the Empress of Ireland, was added by the C. P. R. yesterday to the list of survivors.

Ninety Guineas Per Cent. London, June 4.—It is announced that formal notice has been tendered to the London underwriters of the abandonment of the Empress of Ireland. Some underwriters were ready yesterday to re-insure against the risk of total loss at ninety guineas per cent.

NEW SHAMROCK OUT TO STRETCH HER SAILS

Lipton Challenger Seems to Impress Observers Favorably

Portsmouth, Eng., June 4.—Shamrock IV, Sir Thomas Lipton's new challenger for the America's Cup, went out today for her first sail stretching spin in the vicinity of Spithead. She was accompanied by the Shamrock III. The wind was light and fluky and quite inadequate to test the capabilities of the challenger.

Under her huge mainsail and her aloof foresail she maneuvered handsily, however, and picked up way quickly after tacking. The towering mast of the new yacht quite dwarfed that of the old Shamrock. Sir Thomas Lipton was on board the challenger together with Charles E. Nicholson, her designer and William Burton, an amateur yachtsman, who is to command the Shamrock IV.

Greenwich, June 4.—As a result of her victory yesterday the Yacht Resolute is now the favorite for the cup defense honors. The Defiance, which has been kept out of the present series by ailments, is an uncertain quantity, but experts declare she will have to show marvellous form to defeat the Resolute in the official contests in August.

PATIENCE HAS BEEN EXHAUSTED

Government To Take Grip With Militant Trouble

WHOLESALE ARRESTS. Matter to Be Treated as Vast Conspiracy Against Public Order—No More Releases Under Hunger Strike Game of Wild Women

(Canadian Press.) London, June 4.—A cable from London to the Tribune says: "Valid statements in the ministerial newspapers indicate that the end of the militant suffrage movement is now in sight. The government's patience is exhausted, and it feels that it will have the public behind it in drastic measures now in contemplation. It is proposed to treat the whole movement as a vast conspiracy against the public order; wholesale arrests will be made and forcible feeding resorted to in virtually all cases, with no more releases of prisoners under the 'Cat and Mouse Act.'"

The law officers of the crown are considering what action shall be taken against subscribers to the funds of the Women's Social and Political Union, a complete list of these having been discovered in a raid on the militant headquarters at Kingsway. This was hinted at a year ago.

Mrs. Fankhurst is recuperating after her recent hunger strike in a house near Buckingham Palace. The house, being watched continually by the police, who anticipate that a secret attack on the king may be attempted.

Their new office is a thoroughly up to date building with a large skylight, giving good light to all parts. The fixtures are of good quality and the new home for the North End branch presents a fine appearance within as well as from the street. R. E. Smith will continue to be manager of the branch.

SON OF HON. W. P. JONES MARRIED IN WOODSTOCK

(Special to Times.) Woodstock, N. B., June 4.—A wedding of much interest took place in St. Luke's church this morning at half past six o'clock, when Miss May E. Marley, daughter of Mrs. W. W. Hay, was united in marriage to Charles Jordan Jones, son of Hon. W. P. Jones. The ceremony was performed by Rev. A. S. Haell in the presence of a large number of friends. Mr. and Mrs. Jones left by auto for Skiff Lake, where they will spend their honeymoon.

NEW KING OF ALBANIA GIVES UP; MEANWHILE BALKAN PEACE THREATENED

Paris, June 4.—The chancelleries of Europe have decided to accept the abdication of King William of Albania, and are now casting about for a Moldavian prince to take his place. Revolt is spreading in Albania, the peace of the Balkans is menacing the peace of the Balkans.

HAVE NO WORD AS TO FINDING FRANK HAMILTON

The body of Frank W. Hamilton of this city, is still amongst the missing in the Empress of Ireland disaster. His father and J. J. Mitchell are in Quebec, but no word was received from them today.

At Pettitville this afternoon the body of Adjutant Everett DeBrow was laid to rest, while mourning relatives and sorrowing friends stood by grieving over the suddenness with which his summons had come, and the loss sustained by his death. The funeral service was conducted by Staff Captain Coombs of this city, assisted by Adjutant Parsons and officers from Fredericton, Sussex, Springfield, Moncton and Amherst.

HOUSE DESTROYED, ENGINE DID NOT DO ITS WORK WELL

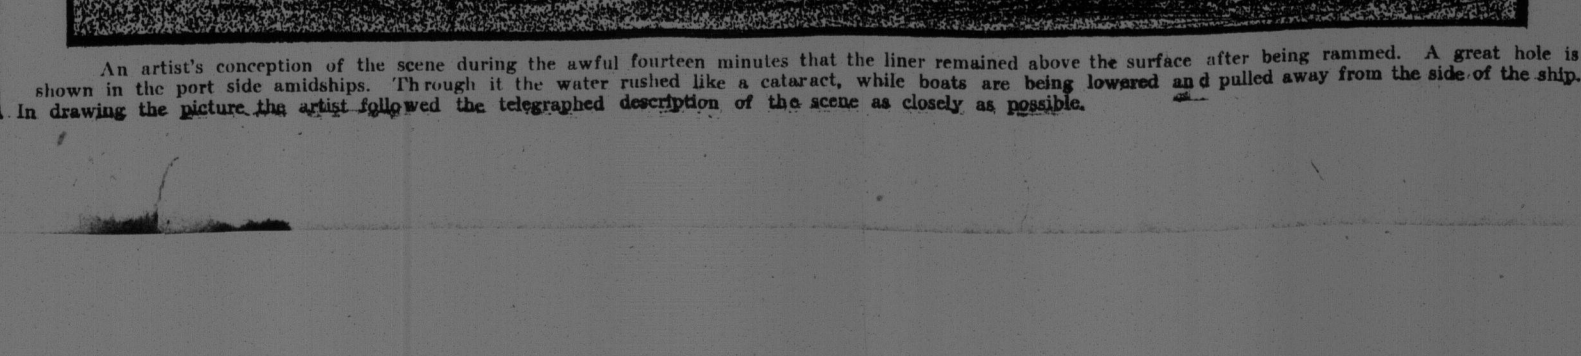

The necessity for more efficient and up-to-date fire apparatus was shown at a fire which this morning destroyed the building of Charles Fisher, Spear Cove Road. No. 5 engine was on the scene soon, and although connections were made with a pond about 100 yards distant, but a faint stream of water was all that the engine would produce.

Another alarm was sent in from box 121, near Stetson & Cutler's mill, Indian town, and No. 4 engine from City Road, responded, arriving at the fire perhaps half an hour after the blaze started, and succeeded in extinguishing the blaze, but not before the house was almost a total loss.

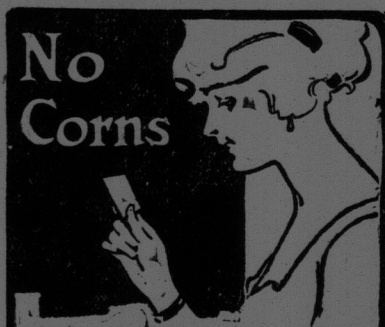

The fire is a hard blow to Mr. Fisher. He has spent a great deal of money on the house recently, enlarging and improving it and to meet his loss there is a cent of insurance. It was felt by those who witnessed the fighting of the blaze that if the apparatus had been able to get a stream on the house as soon as No. 5 engine had arrived, that the damage done would have been only slight.

Mr. and Mrs. Fisher have the sympathy of the entire community. Mr. Fisher's brother, who also resides with them, is an invalid and has not been able to work since last December.

Just Before the Final Plunge; The Ill-fated Empress

An artist's conception of the scene during the awful fourteen minutes that the liner remained above the surface after being rammed. A great hole is shown in the port side amidships. Through it the water rushed like a cataract, while boats are being lowered and pulled away from the side of the ship. In drawing the picture the artist followed the telegraphed description of the scene as closely as possible.

SEVENTY YEARS OF CHURCH HISTORY

Congregational Church Observes Anniversary-The Congregation Meets For Social Evening

The members of the Union street Congregational church, and their friends, held an enjoyable social evening last night in connection with the celebration of the seventieth anniversary of the founding of the church.

Rev. Ralph J. Haughton, pastor of the church, welcomed those present and spoke of the early history of the church as an inspiration for the members of today.

C. H. Prewelling read letters of congratulatory letters from former pastors and others who had been connected with the church.

Letters were also received from the following persons who had formerly been connected with the church: Rev. W. T. Gunn, Toronto, Secretary of the Congregational Union of Canada; Rev. C. H. Harrison, pastor of the Federated church, Pullman, Wash.; Rev. J. W. Cox, of Sheffield, N. B., for twenty-five years secretary of the Congregational Union of New Brunswick and Nova Scotia.

During the evening the following musical programme was carried out: piano solo, Miss Hazel Slocum; solo, Miss Minnie Myles; solo, Mrs. Perry; solo, Mrs. Frank Waters; accompanists, Miss Belle Sinclair, Miss Hazel Slocum. The enjoyable function ended by the singing of God Save the King.

Joseph Ulrich of San Antonio, Tex., a former employe on the New York Tribune, who recently passed away at the age of 88, for some time foreman of the composing room, attributed his promotion to the fact that he could read Horace Greeley's writing.

THE LONDON BOBBY.

(New York Sun.)
Americans probably appreciate the London policeman, or constable, as he is officially known, more than any other visitors to the English capital.

The guardians of the other capitals of Europe were not so obliging. The Paris policeman, many of whom have served in the army as non-commissioned officers, cultivate a brusqueness that because they invariably give her answers to the best of their knowledge.

The Berlin policeman is not a person to be trifled with. He is military to his fingertips, has no time for pleasantries or answering what he considers useless questions. Though he salutes women he is quite ready to take into custody any one who violates one of the thousand or

WIELDING THE CLUB.

The Standard this morning serves notice on those Conservatives who have been criticizing Mr. Hazen that they must refrain from such criticism in future or take the consequences.

Of course everybody understands that while the Standard ostensibly addresses itself to the Liberals it is really wielding the club over the heads of the many members of its own party who have had sufficient courage to assert that Mr. Hazen in the matter of the Guelph agreement and some others has failed to safeguard the interests of his constituency.

A POLITICAL DEAL.

The Borden government has extended the hand of help to the Whitney government in Ontario. It has jammed through the house a bill to repay the depositors in the wrecked Farmer's Bank.

WESTERN CONDITIONS.

While the period of financial depression during the past year has been severely felt in the western provinces, and there is still much unemployment in the cities, the people appear to be adjusting themselves to the changed conditions with some degree of success.

I AM NOW in a position to build these beautiful Summer Cottages at a very low price. Why should you spend your summer in a smoky city when you can have a beautiful Summer or Winter Cottage just outside the city limits? Here is a chance of a lifetime.

In other words the property value was considerably more than doubled in five years, and this year it is expected the assessment value will run to about \$820,000,000. It is pointed out the increased valuation is not fictitious, since the population of Winnipeg increased from 100,000 in 1908 to 210,000 or more in 1913.

The last issue of Canadian Finance refers to the fifth annual tour of the middle west by Winnipeg business men, during the present month, and sets out facts which show the remarkable growth of such places as Calgary and many others along the route to be covered by the touring party.

SIR THOMAS SPEAKS

In an interview published in the Montreal Journal of Commerce Sir Thomas Shaughnessy, discussing business conditions generally in Canada says: "Canada had been halted a little in her upward march of progress, but she will soon forge ahead with greater strides than before."

"I don't think your father feels very kindly towards me," said Mr. Morningstar. "You misjudge him. The morning after you called him my he seemed quite worried for fear I had not treated you with proper courtesy."

WALKED FLOOR AT NIGHT TO QUIET IRRITATED NERVES

Monotony as well as over-excitement is often an unbearable strain on the nerves. And who can say that woman's work in the home is not dreadfully monotonous? Doing the same thing day after day, year in and year out, gets on the nerves, and after a while the strain is more than the system can stand.

WALKED FLOOR AT NIGHT TO QUIET IRRITATED NERVES

Meas. J. E. Berryman, 85 Bay street north, Hamilton, states: "I was so very nervous that frequently I could not sleep at all, and would be so uneasy that I could not remain in bed, but would have to get up during the night in order to quiet my nerves. I also suffered considerably from faintness and dizzy spells, and, though I had doctored for some years, I never seemed to get anything that did me any real good until I began the use of Dr. Chase's Nerve Food. It almost immediately, and after a regular use of this preparation I believe that it has effected a permanent cure."

A CRIPPLE FROM RHEUMATISM

Tortured Four Years Until He Took "Fruit-a-lives"

Ridgetown, Ont., May 21st, 1913. "Your 'Fruit-a-lives' cured me of Rheumatism. It was the only medicine that made any impression on me. I was a terrible sufferer from Rheumatism, and was a cripple completely, not being able to do anything. I doctored with four different physicians, but they did not help me. Other advertised remedies were equally unsatisfactory, and I have taken several."

Some neighbor of mine told me that "Fruit-a-lives" helped him, and I took them faithfully every day and the result was marvellous. For over two years now I have been free from any Rheumatic pains whatever, and give "Fruit-a-lives" the full credit for making a remarkable cure.

W. T. RACHER. If you are subject to Rheumatic Attacks, Sciatica, Lumbago or Neuralgia, take "Fruit-a-lives" right now and start the permanent cure which "Fruit-a-lives" will complete if taken faithfully: 50c. a box, 6 for \$2.50, trial size 25c. At dealers or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

Elder Sister The One: "Who is the girl that just passed?" The Other: "That's Miss Nutt." The One: "What?" The Other: "Clara."

Old Lady: Does your horse ever shy at motors? Cabby: "Lor' bless er, no lady; 't didn't ever shy when railway trains first come in."

One Virtue "When you proposed to me you said you were not worthy of me." "Well, what of that?" "Nothing, only I will say for you that whatever else you were, you were no liar."

Angelic Customer: "But is he a good bird?" I mean, I hope he doesn't use dreadful language." Dealer: "It's a saint, lady; sings 'Gloria' beautiful. I 'ad some parrot' work used to swear something awful, but you'll believe me, this 'ere bird converted the lot."

Symbol of Bygone Days. I saw a sight this morning That made my fancy fly Back over the years in visions Of blissful days gone by. 'Twas but a tiny symbol, But oh, how it did grip! A bow of gauzy ribbon, Tied on a buggy whip.

Discourtesy "I don't think your father feels very kindly towards me," said Mr. Morningstar. "You misjudge him. The morning after you called him my he seemed quite worried for fear I had not treated you with proper courtesy."

"I asked me how I could be so rude as to let you go away without your breakfast."

Butternut Bread tastes just like that; it recalls your childhood days, and you eat it with that keen relish that gives zest to your meals.

INVISIBLE AEROPLANE

German Invents One With Wings of Transparent Celluloid.

A German engineer named Knobel, living at Munster, has invented a more or less invisible aeroplane, which is considered in military circles to be of considerable value for war purposes.

Instead of having the ordinary cloth fabric, or other visible material, used for the wings, this particular aeroplane is constructed of a transparent variety of celluloid, which is likewise said to be fireproof.

The wings thus made let the light through, so that at a height of 2,000 feet it is almost impossible to detect the aeroplane at all. The machine is also fitted with a silent motor.

A further advantage is that the avia-

tor has an unobstructed view in all directions.

A WEEK-END AT PUBLIC LANDING

The Times Man Has a Restful Time And Tells About It

If a gentleman with a cottage on the river offered you the key of the cottage and possession of the premises for the week-end, what would you do? If you could get away you would do exactly as the writer did—take some members of your family and the aforsaid key and spend the week-end where the cherry and apple trees are in bloom, on the banks of the lovely St. John.

Saturday afternoon was not one of the most desirable sort on which to set forth for an outing, but if the rain beat against the windows of the steamer Gnome, and the cabin was crowded with passengers, you remembered the farmer and the crops and the forest fires, and regarded the rain rather as a benediction than the reverse. As the steamer passed up the river, calling at the familiar stops from Sand Point onward, the observer noted that the number of cottages along the river increases each year, and the smoke from chimneys here and there proclaimed the fact that people have been moving up river rather earlier this year than usual.

To the surprise of those who had not previously gone out of town, the trees were seen to be almost in full leaf, with here and there in the groves the white loveliness of blooming cherry trees. In fact the countryside appeared in all the charms of early summer, that could not be concealed by the driving rain or the mists that hung low on the hills.

But the rain had almost ceased when the steamer arrived at Public Landing, where nearly a score of the passengers went ashore. The fine new wharf at that place had stood the test of the ice last winter and belied the fears of those who had thought it would be carried away.

At Public Landing the cottage where the Times man found shelter has a beautiful maple tree on either side, a row of cedars standing thickly along the front, and apple trees just bursting into blossom on the hill-side behind. In the garden beds the cucumbers had pushed their leaves above the soil, and there were other evidences of coming vegetables and fruits, to be the joy of the household a little later in the season.

Public Landing is a convenient place of sojourn, for besides the excellent wharf there is a store which has been enlarged since last year, and is now conducted by Fred Dykeman, along with the post office and telephone station. The telephone rate from the Landing to St. John has been more than cut in two since last year, and the line is on the Westfield circuit. Some improvements have been made to cottages, and the indications are that the landing will have more visitors than usual this year.

It is amazing how one's appetite is affected by a short trip into the country after a whole winter spent in town. The cucumbers had pushed their leaves above the soil, and there were other evidences of coming vegetables and fruits, to be the joy of the household a little later in the season.

Another night of restful sleep terminated at six o'clock in the morning when Donville Walsh, who had promised the night before to be at the alarm clock for the newspaper man, beat a tattoo on the door, with a warning that the steamer was soon to be at the wharf. If the sail up the river on Saturday afternoon in the rain had been somewhat unpleasant, the sail downward on Monday morning was perfectly delightful. The air was warm and the sky clear, and the passen-

gers were able to remain on the outer deck enjoying the beautiful scenery. A week-end at any resort along the river brings one back to town again wonderfully refreshed, and with a new outlook that is worth even more.

COL. AND MRS. BOOTHBY MOVE TO WATERVILLE. (National Hotel Reporter.)

On May 1, 1914, Frederick L. Boothby, who was at that time and for many successive years occupied the position of general passenger and ticket agent of the Maine Central Railroad Company, began occupying, with Mrs. Boothby,

a handsome suite of apartments in the Palomoth Hotel at Waterville. It was on that date that Orrin M. Shaw, long since deceased, and for many years proprietor of the Bangor House at Bangor, Maine, became the lessee and manager of the hotel, which was then the leading hotel of Portland and one of the finest in the state.

The Palomoth has, during the thirty-seven intervening years between 1877 and 1914, had many proprietors and managers, but Colonel and Mrs. Boothby have continued to occupy their suite in the hotel, without interruption, during this very lengthy period.

Now, however, they are moving out of the hotel and will repair to the "old homestead" in Waterville, Me., there to spend their declining years surrounded by old friends and acquaintances, and possessing the respect and affection of many admiring and affectionate friends scattered throughout the length and breadth of the Pine Tree state.

Both Colonel and Mrs. Boothby were born in Waterville and their youthful days were spent in the pleasant university town. Mrs. Boothby was the daughter of Waterville's leading hotel keeper, and Mr. Boothby entered the employ of the Maine Central Railroad Company at an early age and while still a resident of Waterville. They have a delightful home there, which they will henceforth occupy and where it is hoped

MORNING NEWS OVER THE WIRE
 At Milltown, N. B., yesterday, the corner stone of the new post office was laid, with Hon. J. K. Fleming officiating. There was a large gathering in attendance.
 A bottle, picked up yesterday in Lake Superior, contained a message signed "Oliver," telling of the sinking of the steamer Henry B. Smith, lost with all hands in a fierce storm last November. The message said the steamer was breaking in two, and sinking.
 In an automobile accident in Montreal yesterday Mrs. E. Rowland, aged forty years, and her daughter, Miss E. Robit, were instantly killed. A street car

jumped the track, crashing into the machine.
 Sylvia Pankhurst yesterday made the dire threat that she would lie on the steps of the House of Commons in London until Premier Asquith gave her a hearing.
 President Poincaré has requested Rene Viviani, minister of public instruction, to form a new French ministry.
The Holiday.
 Large crowds of people went out of the city yesterday for the holiday, either to suburban cottages, or on public or private boating excursions. Many spent the day fishing. The Temple Band excursion to Brown's Point was largely attended. The party went up the river on the steamer Champlain and had a pleasant time. The St. John Power Boat Club and the Royal Kennebecasis Yacht

Club fleets had almost every boat out yesterday. At Seaside Park a concert was given by the City Cornet Band, while at Rockwood there was a picnic by the members of the Royal Lookout Class of Coburg street Christian church, under supervision of the pastor, Rev. W. M. Ross.
SEUMAS MacMANUS WRITES OF HIS SENTENCE
 To the Editor of the New York American—
 "Sir—Will you let me fix public attention upon a verdict that is going to be famous in future centuries and in worlds yet unmaped by Mr. Roosevelt?
 After a number of burglaries had been brought to a peaceful issue in the town of Plainfield, a policeman, bent on vindicating the efficiency of the force, saw, an equitably burglarious-looking person, returning from the post office one night, cross the quiet tree-shaded avenue directly to the house that has the honor of holding me, then saunter up and down, (a highly suspicious action to which I am prone), pause once or twice (in poetic ecstasy) and resume the suspicious exercises again.
 From the shadows opposite the vigilant guardian of the law pounced upon his prey and demanded where the prey lived and what was his name.
 I joked my persistent companion up and down the block; his temper got the better of him and he arrested me. For charge he was able, the morning after, to recall that I had called him in "loud and profane language" a qualified fool—the profanity being expended on the qualification. The real fact is that I had forgotten to name him so.
 His chief, when he found what had happened, in the kindest, most gentlemanly spirit, tried to have the thing quieted. But, in the interest of justice, I refused.
 It is fortunate that I did so. For it has resulted in legal history being enriched by a verdict which, for acumen and brilliancy, takes precedence of any legal pronouncements in the world's history from the days of Dogberry to those of Plainfield Police Judge De Mesa—a verdict that will outlive and relegate to obscurity even the famous one of the Arkansas Jury, who found the prisoner guilty of murder in the first degree, because though he hadn't killed the victim, he had the year before, stolen the foreman's gray mare.
 This wonderful verdict, which is destined to go down to dim posterity in the bright annals of New Jersey Jurisprudence, was:
 "I find you not guilty of disorderly conduct, as charged, and the case is dismissed. But as you should have given the officer your name, I find you guilty of indiscretion and suspend sentence."
 Now where is that audacious fellow who said that fact was stranger than fact!

FOR WIDER DIVORCE LAW
Proposed English Measure Would Put Sexes on the Same Basis
 London, June 3.—Another divorce law reform bill has come to the front in addition to Lord Gorell's matrimonial causes bill.
 Lord Gorell's measure embodies recommendations of both the majority and the minority reports of the royal commission which recently inquired into the working of the divorce laws.
 That of the minority report is signed by the Archbishop of York, Sir William Anson, M. P.; Sir Lewis Dribbin, and the late Lord Gorell.
 The majority report goes further, and its recommendations are embodied in a bill which has been read for the first time twice in the House of Commons. This bill is supported by the Divorce Law Reform Union.
 The secretary of the union said it would be pushed forward in preference to Lord Gorell's measure.
 "Our bill," he said, "gives perfect equality between the sexes. It would enable any married man or woman to sue for divorce on any of the following grounds: Misconduct, desertion for three years or upward, cruelty, incurable insanity after five years' confinement, habitual drunkenness, and imprisonment under a committed death sentence."
 "Lord Gorell's bill, on the other hand, although it puts the sexes on an equality, does not allow divorce on any additional grounds, save that of desertion for seven years."

MONDAY-WATCH FOR SPECIAL ATTRACTIONS!

Ever Bake Bread on a Gas Range? You'd be surprised and delighted at the results and the amount of time and labor you can save, especially if you have a Gas Range that will give you the Best Service with the least fuel, which is invariably true of McClary's Gas Ranges. which are built on the most approved modern, scientific lines. The ovens are double lined, thus keeping the heat just where it is wanted—in the oven. The linings, which are removable, are rust-proof and easily kept clean. In the style shown here—a favorite for private dwellings and apartments—the oven bottom is of cast iron, which holds the heat better and maintains an even temperature. The finish is of baked enamel, and the broiler and match trays are of finest porcelain enamel finish.

He was remanded however, and the court ordered that a doctor attend him. Another man was arrested last night on a charge of lying and lurking in a barn. PLANTING TREES WHERE OLD TIMERS HAD BEEN FELLED FOR SUBURBANITES

Now Regret That so Many Were Cut Down and so Others Are Being Started. It may sound strange to the ears of residents in the city and in other parts of the country but it is nevertheless a fact that trees are now being planted in some suburban sections where, only a few years ago, fine predecessors which would today lend shade and enchantment to the surroundings, were cut down. In the advance of the city dwellers towards the country, taking up summer cottages along the lines of the I. C. R. and C. P. R. they have in many cases hewn down fine trees to make the clearing for their homes, or perhaps to cause a lawn or garden to be made about the house. Now many regret their action and are hastening to remedy the mistake by planting young trees. This is particularly true at one station along the line of the C. P. R. which is a wide bare tract of trees in the vicinity of summer cottages. Many fine, wide-branched ones with spreading tops and extensive shade were chopped away to allow more room about the grounds surrounding the house. That they did not allow more to stand is now the regret of many who have built. Of course there is something in the argument that too many trees about a house are apt to cause dampness, but this cannot be said of homes at some of the suburban resorts which are practically devoid of trees of any size. While it is true that the trees which have been cut down are a way to be replaced, the grounds have been beautified with hedges in many cases or attractive lawns have been made, but still those who are now building at the suburban resorts are making particular pains to see to it that the trees are not stripped from the grounds surrounding the new cottages, but only as many are necessary to allow the work of clearing and building.

SEGEE MATTER GETS INTO COURT AGAIN

Before Chief Justice McLeod in the Chancery Division this morning was the case of the Turnbull Real Estate Company, Limited vs. John A. Segee, a motion was made by W. A. Irving, K. C., for the plaintiff to commit the defendant for contempt. In November, 1911, in a suit of ejectment between these parties, judgment was given in favor of the plaintiff, and a writ of possession was served on the defendant. A writ of injunction was also granted and served on the defendant, restraining him from taking possession of the lands in question. On May 18 the plaintiffs learned that the defendant was erecting a house on their lands and commenced action to commit Segee for disobedience to the order of the court. H. J. Smith appeared this morning and took technical objections to the motion. His Honor said that he would give judgment on Saturday morning, and suggested that in the meantime Mr. Smith arrange with his client to stop possession. THAWING WATER PIPES IN JUNE

This is Experience Today in Connection With Sugar Refinery. The problem of thawing water pipes in June is one that is seldom met in this climate, but that is the difficulty which the contractors for the erection of the sugar refinery are trying to solve today. A service pipe to supply water for use during construction was laid last year and precautions were taken which were thought to guard against any possibility of frost. The pipes were laid to a depth of four feet in a hot bed of manure, but in spite of this it froze solid during the exceptionally cold winter. There has been no sign of thawing by natural process, so this morning steam was quite a wide swath as a thawing machine was maintained, it seemed to have no noticeable effect on the ice.

JARVIS SENTENCED TO THREE YEARS IN PENITENTIARY

The following paragraph relates to a young man who went on the road for a St. John wholesale house, but was charged before he really did any business, and then cashed drafts on them and cut a wide swath as a thieving financier before he was rounded up, as recently described in the Times. Theophilus Jarvis, the young man who pleaded guilty of forgery, has been sentenced by Stipendiary Fielding of Halifax to three years in Dorchester Penitentiary. Jarvis passed a Bank of Nova Scotia check from the Annapolis Royal branch for \$100 at the Halifax branch of the Royal Bank of Canada and was brought back from Quebec by Detective Kennedy, who worked up the case against Jarvis.

FAIRVILLE NEWS

Community Council Meeting — Playground Equipment Secured — Fresh This Morning. A meeting of the Community Council was held last evening with the president, Doctor J. V. Anglin, in the chair. J. W. Linton, chairman of the equipment committee for the playground, reported that all material had been secured and would be actively commenced next week on installing it. Three collecting committees, of which Councillor John O'Brien is chairman, submitted lists of subscriptions and amounts. J. J. Hennessey, treasurer, also reported as to finances on hand to date. Some have not yet paid in amounts promised. Votes of thanks and appreciation were passed to the trustees of the Orange Hall and the ladies who supervised the taggers so successfully. It was decided to form a Playgrounds Committee consisting of a president and secretary with ladies to be nominated by Doctor Anglin. J. Hennessey and H. M. Stout. This committee will supervise the management of the playground. Matters of general interest to the community life were then talked over and on motion of Rev. Mr. Townshend a communication will be sent to the councillors requesting that the law in relation to dog taxes be enforced and asking that proper legislation be secured to prohibit the throwing of waste paper or other rubbish in the streets. Another meeting will be held in two weeks when it is expected other plans will be advanced by the council. It might be interesting for well meaning residents to bear in mind that the condition of the streets and the matter of the watering cart are matters dealt with by the highway board and within the jurisdiction of no other body. If the streets are not in a satisfactory state the highway board should be interviewed and if that is not satisfactory, the next election time efforts should be made to induce men to run with different ideas as to the public good. A substantial white frost was noticed early this morning and some outside suburbs report a thin coating of ice. The holiday was generally observed in Fairville, practically all the stores being closed and many people took advantage of the occasion to visit elsewhere.
