PROBS.—RAIN OR SNOW

PRICE TWO CENTS

PRESIDENT'S DAUGHTER BECOMES BRIDE TODAY

Jessie Woodrow Wilson and
Francis Bowes Sayre to
Wed in Washington.

BRIDAL PARTY HOLDS A FINAL REHEARSAL.

Gathering today will be brilliant one—Nuptial Party Guests of Naval Officers at Dinner on Ship Board Last Evening.

Washington, D. C., Nov. 24.—The sister of happy anticipation of tomorrow's wedding of Miss Jessie Woodrow Wilson and Francis Bowes Sayre reigned supreme at the White House today.

Through twilight hours in the softly diffused light of the east room, the entire bridal party rehearsed in detail the ceremony of tomorrow. Later the young folks were entertained at a dinner and dance by the officers of the United States steamship Mayflower, the President's yacht, aboard that vessel, anchored at the Navy yard. The elders, that is the relatives and members of the immediate family of the bride and groom, were the guests of President and Mrs. Wilson at dinner at the White House.

The news that the members of the diplomatic corps had decided at the last minute to wear their resplendent uniforms heightened interest in the event, and it proved to be as brilliant a function as has ever taken place in the executive mansion. The diplomats wore conventional mourning

FOUNTAIN AT SUSSEX UNVEILED YESTERDAY

Handsome New Structure
Erected Through the Efforts
of the Ladies of Sussex—
Hundreds Present.

Special to The Standard.
Sussex, Nov. 24.—The reward of two years of effort came to the ladies of Sussex yesterday afternoon when a handsome drinking fountain was unveiled in the square opposite the post office. The fountain, the cost of which was \$1800, all of which was raised by the ladies of Sussex. George W. Fowler, M.P., made a large donation to the fund. The ceremony was presided over by Mrs. C. H. Perry and Mrs. Frank Roche unveiled the structure. Mrs. W. B. McKay turned on the water.

Among those present were Hon. J. A. Murray, J. D. McKenna and Mayor Lamb all of whom delivered appropriate addresses complimenting the ladies on the success of the plan to beautify the town. An interesting feature of the occasion was the presence of the school children who sang the Canadian and at the close of the ceremony the National Anthem.

The fountain itself is constructed of Scotch granite and presents a magnificent appearance. Four columns rising from the base support a large square of granite, which in turn is surmounted by a ball. A drinking trough for horses is situated on the opposite side of the street.

The committee directly in charge of the work consisted of Mrs. Peggy chairman; Mrs. F. H. White, treasurer; Mrs. Frank Lansdowne, Mrs. Frank Roche, Mrs. W. B. McKay, Mrs. Robert McFee and Mrs. J. R. McLean.

The fountain was built and installed by Mr. Kissell, of St. John.

WHAT THE CENSUS COST.

Special to The Standard.
Ottawa, Nov. 24.—It has cost Canada nearly a million and a half dollars to enumerate the fifth census of Canada. The extra staff has been laid off gradually and now practically only the permanent remain. The regular officers of the department are employed in the preparation of statistics in the period between the regular census communication.

AUTOBUS CO. PLANS SUBWAY IN MONTREAL

Canadian Autobus Company
Makes Offer for Thirty
Years.

SUBWAYS IN CITY "BUS" TO SUBURBS

City to Establish Subways—
Company to Furnish Plant
and Both Parties Will Divide
the Profits.

Montreal, Nov. 24.—The offer of the Canadian Autobus Company to the city was handed to the council this afternoon. Briefly summarized it consists of an offer to equip and operate a sufficiently large subway system to take ample care of the congested district of the city in return for a thirty year franchise, the city to receive one-half of the earnings of the system, and the company to provide the plant, cars, power houses, lighting and all other details of equipment at an estimated cost of thirty-three per cent. of the total expenditure of the \$20,000,000 for the project.

Under the terms of the offer, the city is to own and control the subways and the construction of them will be done by either the city or the company as may be agreed, the interests of both parties being safeguarded by the actual work being placed under control of a commission of experts appointed by the city, the company and the government.

The fare on the proposed subways is to be five cents with transfer privileges between the subways and the company's bus lines, the franchise regulations being subject to revision every five years by a committee of experts, while the rates of fares are also subject to revision every ten years by a committee of experts.

The work, if an agreement is reached, is to be commenced in 1914, and is to be finished in 1918, but as the question is so important a one, the directors of the company ask the council that the ratification of any agreement be obtained from the citizens by means of a referendum vote.

CHARITY WORKERS OPPOSED TO STATE FUNDS FOR WIDOWS

New York Commission Hears
Interesting Evidence from
Authorities When Question is
Raised.

New York, Nov. 24.—Opposition to the plan for providing a state fund for widowed mothers was voiced by many charity workers today before the commission appointed by the legislature to investigate conditions with a view to recommending whether such a fund should be created. The commission held its first hearing. Only one person of those who testified came out directly as favoring the plan—Mrs. Josephine Hickey, representing the League of Mothers' Club. She held that the child was the ward of the state, and, with the widowed mother, should be cared for by a public fund. She suggested that this fund should be administered through the board of education.

Private organizations were generally better equipped than the state to administer relief, since they maintained trained investigators and other machinery for carrying on the work.

Statistics were placed before the commission showing that there are 182,500 widows in New York City alone, including 1,500 who are under the age of 25 years.

DOUBLE MURDER IN DETROIT "LITTLE ITALY"

Detroit, Mich., Nov. 24.—Vito and Salvadoro Adamo, brothers, were shot to death today, the assassin using a sawed-off shotgun. The two men were found lying in a street in the Italian colony, but residents of the vicinity declared to the police they heard no shots fired. The weapon was found nearby.

This is the fourth shooting of a similar nature in Detroit's "Little Italy" in two weeks.

AMERICAN RESIDENTS IN MEXICO ASK ASSISTANCE

Those Living in Oil Field District
Fear Violence.

UNITED STATES MAY LAND MARINES SOON

Admiral Fletcher Will Investigate
Conditions and Take
Action if Necessary—Rebels
and Federals in Fierce Battle
Near Juarez.

Washington, D. C., Nov. 24.—In spite of recent reassuring reports from the oil fields on the east coast of Mexico, foreigners in that section are still very apprehensive, appeals to Washington indicating that they believe not only their property but their lives are in danger. Renewed private requests for protection, following closely upon a cablegram from Charge O'Shaughnessy at Mexico City, saying it was rumored there that the United States was about to land marines, caused Secretary Daniels today to instruct Rear Admiral Fletcher, commanding the American fleet, to proceed personally to Tampico and Tuxpan and investigate conditions there.

Much has been left to his discretion and he himself will decide whether it is necessary for him to go ashore for conferences with the constitutionalist leaders, who have occupied the oil territory and are threatening the ports of Tampico and Tuxpan. The Admiral was assured a few days ago by General Aguilar, chief of the revolutionists, that there would be no interference with American or other foreign properties.

Charge O'Shaughnessy's query concerning the landing of marines brought a prompt denial that the United States had ordered such a step. There were no developments in the diplomatic circles of the Mexican situation today.

Much interest attaches to the plans for sending 500 marines to the coast of the latter part of this week to set up there a sort of an advanced base. The Navy Department planned some 30 miles, adjacent government buildings at Pensacola and relieve the government of the necessity of spending money in the construction of new barracks at the northern navy yards, but it is pointed out that the presence of the marines at the southern port at this time will make them much more available to guard the Mexican oil fields than if they were several days' journey farther north. Citizens of El Paso, who are loudly clamoring to their congressional representatives for this reinforcement.

Fierce Battle Raging.
El Paso, Texas, Nov. 24.—Wounded men from the battle opposite Belen, Texas, are crossing the border to the Texas side. One has reached El Paso. He said a general battle was in progress southeast of Juarez.

All American troops at Fort Bliss are being held in readiness for immediate action and additional troops, Troop C, thirteenth cavalry, and Troop D, thirteenth cavalry, are now moving to El Paso to reinforce the patrol.

The battle opposite Belen appeared to be general and artillery was being used by the federals.

FORGES SENATOR'S NAME

When Sidney Moulthrop, erstwhile secretary to Senator James Hamilton Lewis, of Illinois, was arrested before John A. Shields, United States Commissioner, in the Post Office Building, New York, he readily admitted his identity, said he would waive his rights in removal proceedings and was willing to return to Washington to face a charge of forgery. He was arrested on a warrant issued in Washington accusing him of forging the name of Senator Lewis in a check for \$240 and of cashing the check.

CONTRACTS FOR PUBLIC WORKS JUMPS TRACK AT TOP SPEED

Maritime Dredging Company
to do Work at Chocolate
Cove and Near Oak Point,
St. John River.

Ottawa, Nov. 24.—Special.—The contract for section five of the Welland Canal was awarded today to the Canadian Dredging Company at \$1,945,788. This is regarded as an exceptionally low figure, although the section is a comparatively easy one involving little or no rock cutting.

The Maritime Dredging and Construction Company was awarded two contracts, one for the construction of a wharf extension and for dredging at Chocolate Cove, at \$26,872, the other for dredging at Oak Point, N. B. at nineteen cents per cubic yard, or a total of \$6,337.

Dredging to the extent of \$5,945 will be done at Glace Bay, N. B., by the Coastal Dredging and Construction Company.

WATER WASN'T A NAVIGATOR

John Bennett of Schooner Annie
Roberts Makes Startling
Revelation Before Wreck
Commission.

Montreal, Nov. 24.—Frank admission that he did not know even the rudiments of navigation, that while signals from a steamer were a dense mystery to him, that he did not know what range or leading lights were, and that he could neither read or write, were made by John Bennett, formerly mate of the schooner Annie Roberts.

Bennett gave this testimony when he was called to the stand as a witness at the investigation of the wreck of the schooner of North Sydney on October 22 last, as a result of being in collision with the Dominion Coal steamer Wabana.

A GIANT FREIGHTER LAUNCHED ON LAKES

The Naronic Will Be Largest
Vessel on Canada's Great
Inland Seas—Leaves Port
Arthur Docks.

Port Arthur, Ont., Nov. 24.—The giant steamer Naronic, 385 feet long, 58 feet beam, and 22 feet draft, plowed the waters of Thunder Bay and Lake Superior for the first time, when at 2 o'clock this afternoon she left the Port Arthur dry dock for a two and a half hours' tour about the bay to allow adjustment of her compass by Captain Morrison of Sarnia. She will reach four at Port William and leave later in the week for Sarnia, to be delivered by the dry dock company to her owners, the Northern Navigation Company.

M'GILL THEATRE NIGHT ENDED IN FREE FIGHT

Montreal, Nov. 24.—After two years' non-observance, the McGill Theatre Night was resumed tonight but came to an inglorious end when midway through the second act the Glad Eye Company refused to go on with their play and the curtain was run down. The students went back to Molson's Hall where the faculty had prepared a supper for them but by their play and the curtain was run down. The students went back to Molson's Hall where the faculty had prepared a supper for them but by their play and the curtain was run down.

THE CHANNEL TUNNEL

London, Nov. 24.—The government is taking up the question of the construction of a tunnel across the English Channel, and Premier Asquith has invited the Admiralty, the War Office, and the Board of Trade to examine into the question and prepare full reports for submission to the committee on Imperial Defense, which will decide as to its practicability.

OPERATION COSTS PART OF DEFENCE

Claim Increase in Freight Rates
Needed to Save the Situation.

COMMISSION HEARS EVIDENCE IN CASE

Railroads East Mississippi File
Claims for Higher Rates—
Say Earnings Are Much
Lower.

Washington, Nov. 24.—That railroad earnings are not commensurate with the increased cost of operation, higher taxes and wages, and additions to equipment necessary to meet commercial demands of the country, was submitted today to the Interstate Commerce Commission by representatives of the railroads arguing for an increase in freight rates.

The claim filed by railroads operating in the territory east of the Mississippi and north of the Ohio and Potomac Rivers was upheld in a preliminary outline of the railroad situation by Daniel Willard, president of the Baltimore and Ohio railroad, representing for the occasion the western roads, and Frederick A. Delano, president of the Western railroad, on behalf of the Central Traffic Association.

Statistics tending to show the curtailment of the earnings as compared to increased costs were submitted by an accounting committee composed of C. M. Bunting, controller of the Pennsylvania railroad, W. C. Wishart, statistician of the New York Central lines, W. H. Williams, third vice-president of the Delaware and Hudson Company; C. F. Crawford, controller of the Erie railroad, and G. M. Shriver, second vice-president of the Baltimore and Ohio Railroad.

CELEBRATED BROTHERS MEET AND CLASP HANDS

Reunion in New York Yesterday
Between Bramwell
Booth and Ballington Booth,
Sons Salvation Army Head.

New York, Nov. 24.—After an estrangement of seventeen years, Bramwell Booth and Ballington Booth shook hands today as the luncheon guests of a mutual friend.

The meeting was private, and, according to an announcement, was a "brotherly one entirely concerned with personal matters." Presumably the suggested amalgamation of the Salvation Army and the Volunteers of America of which the brothers are the respective heads, was not broached.

TO PUNISH FRAUD IN MAPLE SUGAR PRODUCT

Special to The Standard.
Ottawa, Nov. 24.—There are few Canadian industries wherein fraud and deception are more brazenly practiced than in the manufacture of maple sugar and maple syrup. The Department of Inland Revenue has now under consideration drastic regulations designed to protect the legitimate producer and to penalize those who persistently violate the law. A standard was defined some time ago. It is now intended to increase the penalties for violations of it while rigid enforcement will be provided for.

FREDERICTON NOTES

Special to The Standard.
Fredericton, Nov. 24.—Dr. Murray MacLaren, Dr. W. W. White, and other members of the U. N. B. Senate, arrived tonight for the meeting of the Senate tomorrow. The Finance Committee of which Dr. Murray MacLaren is chairman, met this evening at the office of Registrar Havelock Coy.

William Patterson, who is upwards of 80 years of age, died at his residence in Kingsclear late this afternoon. His sister, Mrs. Eliza Jarvis, is also seriously ill, having caught cold while visiting her brother.

MISS FORBES ROBERTSON
AN ACTIVE SUFFRAGETTE.
Birmingham, Eng., Nov. 24.—Miss Forbes Robertson, a sister of Sir Johnston Forbes Robertson, the actor-magician, was sentenced today at the assizes here to a fortnight's imprisonment on a charge of smashing a window on the occasion of Premier Asquith's visit to Birmingham in July. The judge offered the defendant the alternative of a fine but she decided to go to prison.

ALLEGED COLD STORAGE CONSPIRACY TO COURTS

Attorney General McReynolds
to Hold an Investigation
Now.

GOODS HELD TO KEEP LIVING COST HIGH.

Congressional Enquiry May
Result in Criminal Prosecutions—U. S. Navy Bought
Beef in Australia Cheaper
Than at Home.

Washington, Nov. 20.—Another federal investigation into the high cost of living, promising criminal prosecutions, if Attorney-General McReynolds can find an alleged cold storage conspiracy, got under way today and a congressional investigation of a different phase of the cost of living problem was threatened. While special agents of the department were sifting charges that eggs, poultry and dairy products are being piled up in cold storage to maintain high prices and even force them higher, Representative Britten, of Illinois, is preparing to ask for a congressional investigation into the price of meat.

The proposal for a meat investigation was prompted by an announcement that the navy had bought nearly 300,000 pounds of Australian fresh beef at a half-cent a pound lower than the best prices of American packers, and 120,000 pounds of canned corned beef from the Australian packers at eight cents a pound cheaper than the lowest price in the United States. The price paid was 11.90 cents a pound for the fresh beef and 15.37 cents for the corned beef.

Announcing his intention to ask for a congressional investigation of the navy's beef contract, Congressman Britten declared he wanted to develop why the public could not benefit by the advantage of buying from Australia if the navy could do so.

The proposal for a meat investigation was prompted by an announcement that the navy had bought nearly 300,000 pounds of Australian fresh beef at a half-cent a pound lower than the best prices of American packers, and 120,000 pounds of canned corned beef from the Australian packers at eight cents a pound cheaper than the lowest price in the United States. The price paid was 11.90 cents a pound for the fresh beef and 15.37 cents for the corned beef.

MONTREAL BUSINESS MAN RAISED CHECK FROM \$54 TO \$54,000

James Birchough Arraigned
on Serious Charge—Court
Surprised at Amount Invol-
ved in Case.

Montreal, Nov. 24.—James Birchough, one of the best known real estate men in Montreal, with an office in the Merchants Bank building, pleaded not guilty today when arraigned before Judge Lafontaine on a charge of raising an accepted cheque of the Merchants Bank of Canada from \$54 to \$54,000. Birchough asked Judge Lafontaine if he could not be admitted to bail, pending the enquiry, which His Honor fixed for next Monday. A personal bond of \$10,000 and two securities of \$10,000 each, or \$20,000 was the bail fixed by Judge Lafontaine.

Birchough was taken to the jail at Bordeaux, being unable to furnish the required amount.

Accustomed as are lawyers and court attendants to cases of forgery, the amount represented in the case was startling. Not only was the amount in itself astonishing but the fact of the alleged raising of an accepted cheque from \$54 to \$54,000 was something that could not be understood.

PREFER TANGO TO MILITARY SERVICE

British Territorial Army Now
62,000 Men Short—Plans
on Foot to Make Soldiers'
Life Attractive.

London, Nov. 24.—Premier Asquith tomorrow will receive a deputation which is to propose measures such as increased pay and certain privileges, to attract men to the territorial army, which is 62,000 short. The voluntary system under which the territorials are recruited is considered by many persons to have been a failure from the beginning. Viscount Haldane, lord high chancellor, speaking in London tonight, complained that young men were attracted by football, golf and, latterly, by the tango, rather than by service in defence of their country.

WASKATCHEWAN WHEAT CROPS VERY VALUABLE.

Winnipeg, Nov. 24.—The government of Saskatchewan today announced that the grain harvest this year will be valued at \$110,000,000, of which \$71,000,000 is represented in wheat and \$39,000,000 in oats. The total production was 243,500,000 bushels, of which 112,500,000 bushels was wheat, 110,210,000 bushels oats, and \$375,000 bushels barley.

STRIKE IN SCHENECTADY.

Schenectady, N. Y., Nov. 24.—It was voted tonight to call out all union workmen at the plant of the General Electric Company here at 7:30 o'clock tomorrow morning. Trades union officials in a statement to the newspaper men announcing the strike say 12,000 men are affected by the order.

AN AVIATOR KILLED

Chantilly, France, Nov. 24.—M. Corbon, a French aviator, was killed today, when he fell with his monoplane while flying near here.

CHORUS LADY ACCIDENTAL SHOOTING IS MADE BIG HIT LAST EVENING THE VERDICT

Thompson-Woods Company Seen in New Type of Production—Large Audience Delighted.

Rose Stahl's international success, "The Chorus Lady" was the bill selected by the Thompson-Woods Stock Company for their vehicle this week, and the first production last evening, was received by the large audience with such manifest approval as to indicate that the choice was a wise one.

"The Chorus Lady" leaves something to be desired from a literary standpoint, but as a play, abounding in strong scenes, and heart gripping situations and lines, it is excellent.

The character of Patricia O'Brien, the slangy, ignorant but worldly-wise member of the chorus, has been made a type for others of the class, but these imitators can hardly be said to have improved on the original.

Miss Brandt is reminiscent of Miss Stahl in the role, with a possible reservation in the opening act, where their conceptions differ. In the second act, set in the dressing room of the chorus girls in the Lyric theatre, the production was hardly as frank as in the original, but this was rather an improvement. It is in the climax of the third act, in the scene in the apartments of Crawford, and in her short scene in the last act, that Miss Brandt rises to heights.

The third act shows the talented lady in powerful emotional vein which has not been excelled on the local stage for years, and ranks among the very best work of the kind ever done here by an emotional actress.

Throughout Miss Brandt carried the part with an artistic conception of the character. She did not overdo any portion of it, and this fact goes farthest to establish her as a real artist. Her makeup and dressing were good, especially in act 1.

Miss Marjorie Davis had her favorite part in Nora, and she did it very well. It is very much a selfish, trispid little role, but Miss Davis brought to it in her earlier scenes a freshness and whimsicalness which made it lovable. In the third act she was altogether the frightened child, while in the last act her indifference to the sacrifice of the heroic Patricia, who offered her good name in order that Nora's young life might not be spoiled, was a faithful conception.

Miss Davis has been seen in more congenial roles, but from a standpoint of artistry, she has hitherto, given us nothing quite as good as her Nora O'Brien.

Miss Bridges as Mrs. O'Brien was cast in one of those delightful motherly parts she plays so well. Her direct was rich and true, bringing memories of "shamrock and potheen" in a most convincing manner. In the later two acts she was seen in more congenial roles, but from a standpoint of artistry, she has hitherto, given us nothing quite as good as her Nora O'Brien.

Miss Derby as Sylvia Simpson, the conventional show girl, was sufficient, but languid and self-satisfied in bringing out the dramatic ideas of the character. Those who have seen this excellent actress in other bills will not like her in this, but her rendition of the part was faithful, and that is what was required.

Incidentally, mention might be made of good work by Miss Pauline Baird as the wardrobe woman, and Miss Kathleen Walker as Lou Archer. Both are local girls and did well in professional company. Miss Delmore and Miss Bishop were also adequate in the roles assigned to them.

"The Chorus Lady" is not a man's bill, and consequently Messrs. McHenry, Weyler and St. John were not as much in evidence as ordinarily. Mr. McHenry had the part of Dan Mallory, and played it for all there was in it. Mr. Weyler was the Dick Crawford of the production, and was just sufficiently polished to be, as artist intended, a most undesirable companion for impressionable young girls.

Mr. St. John had the best opportunity of the three in the role of O'Brien, and with Miss Bridges contributed much of the comedy. His dialect was a feature, and he did not overdo, although there was an ever present temptation. Mr. Drummond, Mr. Fleming and Mr. Hodge were seen in minor parts.

Enquiry Into Death of Joseph Caples Held Last Evening.

ADVISE MORE CARE IN HANDLING GUNS

Jury Cautions Parents to Impress Danger of Firearms on Children—Tells of Accident.

In the court house last night an inquest into the death of Joseph Caples, who on November 9th was accidentally killed by a bullet from a rifle in the hands of another lad, Arthur Donovan, on the Donovan farm, on the Old Westmorland Road, was conducted by Coroner Roberts.

The jury brought in a verdict of accidental shooting. The following were the jurymen: Geo. W. Mullin, foreman; Alfred Corbett, Joshua Corkery, Henry Niles, John McManus and Fred A. Estey.

In bringing in its verdict the jury strongly recommended that the proper authorities should be instructed where laws are made regarding the sale of firearms to advise all dealers in such articles.

The jury also recommended that all persons before purchasing firearms be made record their names, age, address and such record be given to the chief of police and filed with him. A word of caution to parents to impress on children the danger of firearms was added to the verdict.

An interesting point which came out in the course of the evidence was the fact that by a recent amendment made to the criminal code it is illegal to sell firearms of any description to a minor.

The amendment was assented to on June 6th, becoming effective ninety days afterwards. According to the unamended section of the code provision was made for revolvers and automatic pistols, but not for rifles.

With the change now effective, all firearms are brought under the heading of the first witness called was Arthur Donovan, who sworn, said he was 12 years old. He told of being with Young Caples the day before the accident, and also on the day of the fatality.

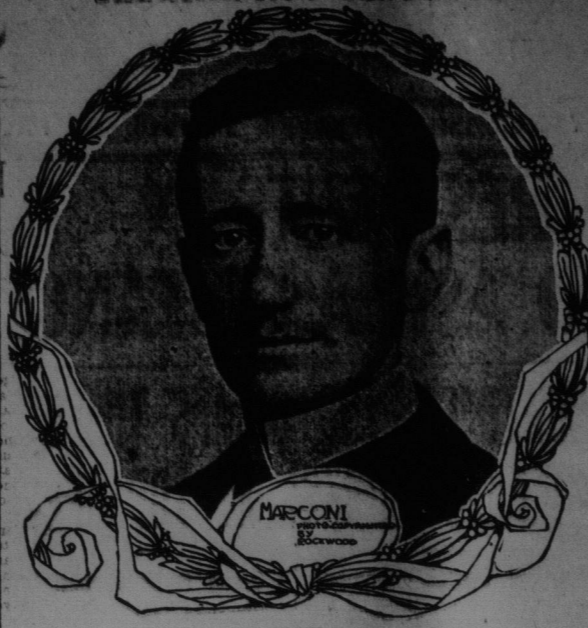

On Saturday afternoon he and Caples were out together and were shooting with a 22 calibre rifle part of the time. They intended going shooting on the following day, Sunday.

The arrangement was that they and two others were to go shooting on Sunday. That morning (Sunday) the witness said he had fired a few shots. On their way from church the boys arranged to go out in the afternoon.

After dinner in company with young Caples he started out. The other two boys who were to have accompanied them, William Lawlor and Marjorie Donovan, would not go, so they went alone. After spending most of the afternoon shooting they started for home and then decided to play cowboy Indian.

Here, asked to describe the game which he designated as cowboy Indian, the lad said "we were supposed to be two cowboys. A band of Indians attacked us and killed Joseph (young Caples) and I was standing over him to keep the Indians away. When the shot went out of the gun I was supposed to be protecting his body from the enemy. We had only one shot left when we started to play the game. As the shot went off he must have raised his head. I didn't see him do so, I had one eye shut at the time. I didn't know at the time that he was shot, but my hand on his head, I thought

TRANSMITS VOCAL SOUNDS ACROSS THE ATLANTIC OCEAN BY WIRELESS.

Vocal sounds, but not actual words, have been transmitted by wireless telephone across the Atlantic Ocean from Clifden, Ireland, to Glace Bay, Nova Scotia, according to a statement made by William Marconi, the inventor of the wireless telegraphy.

Signor Marconi declared that no conversation was held in the recent experiments made by him.

As regards the part supposed to have been played by the moving picture in the tragedy he had found that all the pictures are well-censored before being presented here, and also after coming into the city. But if a jury should find that such a particular picture is apt to influence the youth so strongly as to indirectly be responsible, it is the duty of the jury to see their influence to have such pictures omitted.

The jury then retired and after about a half hour brought in the following verdict: We, the coroner's jury, called together for the purpose of considering the death of Joseph Caples, find that deceased came to his death by a shot from a 22-calibre Remington rifle in the hands of Arthur Donovan, on Sunday, Nov. 9, 1913, on the old Westmorland road. Police, or whosoever it may be, be instructed by the government when laws are made relating to the sale of firearms to at once advise all dealers in the same of such laws.

We would further recommend that a law be enacted prohibiting the sale of revolvers to any person, until the name, age and address of the prospective buyer be obtained and a complete record of such be made and filed with the chief of police.

We would also like to point out to all parents the advisability of keeping firearms from their children.

GEORGE W. MULLIN, foreman.

Told The Truth "When you pressed to me you said you were not worthy of me!" "Well what of that?" "Nothing; only I will say for you that whatever else you were, you were no liar."—Houston Post.

Up-To-Date "Your former speeches were models of oratory," said the solicitous friend. "Now you are using colloquialisms congruously near slang." Yes, replied Senator Sorghum, cheerily; "these are 1913 models."

LADY VICTOR PAGET, WHO GAVE BIRTH RECENTLY TO A DAUGHTER

Arthur Donovan was here recalled and questioned by one of the jurymen as to where he got the idea of the cowboy Indian game.

"When we went to the moving picture show we saw it there and were trying to imitate it," he replied.

"Were you much impressed by the picture?"

A—Yes. Sergeant Kiplatrik, the next witness called, told of going with the coroner to the scene of the accident and of finding two guns, one a 32 calibre Remington rifle and the other a 12 gauge shot gun.

He is frequently brought in contact with minors handling guns. Most of these he got them to go out shooting. Until recently there has been no law prohibiting the sale of rifles to minors. The law had to do only with the sale of automatic pistols and revolvers, but not rifles. Now, however, there is an amendment which makes it illegal to sell rifles to a minor except according to an order from their parents, and not rifles. Now, however, there is an amendment which makes it illegal to sell rifles to a minor except according to an order from their parents, and not rifles. Now, however, there is an amendment which makes it illegal to sell rifles to a minor except according to an order from their parents, and not rifles.

WHAT OF THE SENATE?

It appears to be well settled that the next session of the Dominion Parliament will be convened early in January. What will be accomplished in the way of useful legislation is not so definite, nor can it be while conditions at Ottawa continue as they are. Let us itself, the Government, through the people's representatives in the House of Commons, could and would accomplish much that would be of benefit to Canada. Hampered and hindered as it is by the collection of Laurier-owned puppets who decorate the Senate Chamber, the performance of useful work is only carried on in the face of great difficulty.

Last session the Borden Government introduced many measures of importance, but not all of them found their way to the statute books. The most notable of these was the Naval Aid Bill, in which the Premier attempted to liquidate in part, Canada's debt to the Empire. After stormy scenes the Government overcame the Blockers' Brigade and the Commons and the bill authorizing the Canadian people to contribute \$35,000,000 for Dreadnoughts for the Motherland's navy was passed on to the Senate. There it was killed.

In order to make good his pledges to the farmers of Canada, Premier Borden introduced another measure, the purpose of which was to grant \$10,000,000 for the improvement of the roads—an expenditure and a proposal in which every farmer was vitally interested. This, too, was defeated by the Liberal Senate in response to the orders of Sir Wilfrid Laurier. With this, the shameful record of last session, what is the outlook for the coming one?
Canadians, by an overwhelming majority, chose Rt. Hon. R. L. Borden to administer the affairs of this country. In his pre-election canvasses he pledged himself to "fill Canada's duty to the Empire and to vote money for the improvement of our roads. After careful consultation with the authorities of the British Admiralty he framed his Naval Aid Bill, giving, not tin-pot ships of the Niobe and Rainbow class, but precisely what the Admiralty asked for and suggested as the most desirable form of assistance.

For both the Naval Aid Bill and the Good Roads Bill he was backed by a direct and positive mandate from the Canadian people. Yet Laurier and his puppet Senate brazenly boasted that the will of the people should not be carried out. And they have, temporarily, made good on their boast. As conditions now are they may make good again. How long will the voters of Canada stand for this domination by the non-representative body of Grit partisans, such as at present control the Canadian Senate?

ATTRACTING NEW SETTLERS.

An interesting letter from Mr. James Gilchrist, Provincial Superintendent of Immigration, is published in another column of The Standard this morning. Mr. Gilchrist is at present in Great Britain engaged in a missionary enterprise conveying to the millions of New Brunswick, the land of Comfortable Homes, and he is keeping busy. To those familiar with the immigration methods of the former Administration, the fact that a Government official performs the duties attached to his office, may occasion more or less surprise. There have been gentlemen sent to Britain as missionaries, prior to 1908, who have built up a record as charming after-dinner speakers, but Mr. Gilchrist is not of that stripe. He does not hunt for new settlers with the waltz and wine, nor from the upholstered luxury of a London club. New Brunswick wants the man for the farm and on the farm New Brunswick's emissary seeks him out.

Mr. Gilchrist, in company with Mr. Bowdler, New Brunswick's resident agent in Britain, has interviewed many prospective settlers and delivered illustrated lectures. That is practical work. If a business house had an especially fine stock of goods, but did not advertise, how long would it be before customers came, unbidden, to inspect and purchase? New Brunswick occupies a position corresponding to that of the business house. We have a splendid stock of fine farm lands, productive orchards, the finest climate in the world and conditions of life and work that should make special appeal to our brothers overseas. Mr. Gilchrist and Mr. Bowdler are the commercial travellers for the firm and they are doing their work well. As an evidence of this it may be said that when the Superintendent of Immigration sailed from Liverpool on December 10th, he will bring with him the lead of Comfortable Homes a party of twenty-five new settlers. And more will follow.

What is due to the men who are ad-

vertising and selling New Brunswick's wares in competition with the world, but even more credit is due to the energetic and businesslike Administration which realized the necessity of sending out the salesmen.

They have been successful, but as yet the campaign has only commenced. Even as it is, however, the present Government has done more in any one year to bring settlers to this province than was accomplished by the united efforts of all their predecessors.

THE COST OF LIVING.

With smug hypocrisy the Liberal papers are seeking to place upon the shoulders of the Borden Government the burden of responsibility for the increased cost of living. Liberal papers and Liberal speakers have made common clamor with their cry for cheaper food, cheaper clothing and incidentally a "lower tariff." The outcry might be impressive were it not for the fact that the people realize that all the activity is for the purpose of concealing facts which are very damaging to the Liberal Party.

No longer ago than 1911, the last year of the Laurier regime, and when his protegee, Hon. W. L. Mackenzie King, was Minister of Labor, that gentleman caused to have compiled a statistical report of comparative prices throughout Canada from 1890 to 1910, and the report shows an interesting condition and one which, at the same time, is damaging to the pretensions of Laurier and his followers to be the real fathers of the cheaper living campaign.

During the last six years of Conservative government, from 1890 to 1896, the prices of food products were gradually reduced, reaching their lowest point in 1896-97. From the very first year of Laurier rule there was an increase, and the record of the Liberal regime is one steady climb in the price of food products, with the highest point being reached in the last year of the Liberal administration.

These are facts gleaned by Mackenzie King and it is impossible for the Liberals to refute, or deny them. Yet, in spite of this record, the Liberals today are audaciously declaring that the responsibility for the high cost of living rests upon the Government. A counterfeited canvass at best that will not stand the acid test of investigation.

THE COURAGEOUS TELEGRAPH.

The Telegraph is still afraid to publish Sir Wilfrid Laurier's speech at Ste Hyacinthe, but instead, continues to quibble and evade the issue by insisting that The Standard should print it. This is the veriest of pretence. The Standard intimated that Sir Wilfrid on that occasion made certain sneering references to the British government. Either he did or did not. If he did not there is an easy way for the Telegraph to prove it by publishing the full text of the speech, not an expurgated edition prepared for New Brunswick consumption. If the Telegraph harbors the impression that this newspaper is bluffing there is but one way to call that bluff. Print the whole speech, word for word as Sir Wilfrid uttered it. Otherwise there is but one construction to be placed on the Telegraph's attitude. The Standard has no intention of engaging in a "You're another" controversy with the Telegraph for the game is hardly worth the trouble.

The mission of the Free Kindergarten Association should appeal to all classes of citizens. The kindergarten work should, as in other cities, form a part of the regular school systems. In time it will, but until that time comes, it is good to know that an active organization has it in hand and is obtaining results.

Public interest in the United States is divided between two great rival topics, the Mexican trouble and the approaching marriage of Miss Jessie Wilson, daughter of the president. Latest despatches from the front announce that the bride-elect has had her wedding gown fitted by her New York modiste and has rehearsed the ceremony. In the meantime Huerta is still on the job.

If all the bad ammunition manufactured in the Quebec arsenal under Liberal rule could be discharged from the ammunition canons on the Niobe and Rainbow what a splendid explosion it would make to celebrate the end of the period of Laurier mis-rule.

Conservative ward and parish meetings will be held tonight. It is the duty of every man with the welfare of his party at heart to be in attendance and help to effect the best possible organization.

One month and then Christmas. Have you started your Christmas shopping yet?

DIARY OF EVENTS

THE PASSING DAY

THE WHITE HOUSE WEDDING.
In France the fete of Sainte-Catherine, the patroness of spinsters, is celebrated each twenty-fifth of November as "the festival of old maidhood" when young ladies who have passed the quarter century mark without acquiring the title of "Madame" are supposed to walk abroad in white Sainte-Catherine bonnets, symbolical of their unmarried state. It is, of course, merely a coincidence that the beautiful and charming young woman who is to be the thirteenth White House bride—and she is just twenty-five, by the way,—should have chosen the fete of Sainte-Catherine as her wedding day.

All the world is interested in the romances of kings, princes and presidents and their sons and daughters, and a White House wedding always attracts world-wide attention. The first of the series of nuptial ceremonies performed in the Executive mansion at Washington was that which united Lucy Payne, sister of Dolly Madison, and Justice Todd of the Supreme Court. An almost unbroken tradition and display marked the function, and many democrats of that time, 1811, pointed to it as proof that the United States was tending toward monarchy. The second White House wedding was performed the following year, 1812, when Anna Todd, the last for a long time to come, as the American people are not given to electing bachelors to high office.

A period of twenty years passed before the White House again echoed to the sound of wedding bells. Miss Alice Roosevelt—"Princess Alice"—was the bride, and the Congressman was the groom. For the younger girls, the following petition is most popular: "A husband, St. Catherine; a handsome one, St. Catherine; a rich one, St. Catherine; a nice one, St. Catherine; and soon, St. Catherine." Elderly spinsters usually omit a part of this prayer, and say simply: "A husband, St. Catherine; and soon, St. Catherine."

ST. CATHERINE'S DAY.
St. Catherine, whose festival is celebrated on this day by the pious maidens of many lands will seek her good husbands. For the younger girls, the following petition is most popular: "A husband, St. Catherine; a handsome one, St. Catherine; a rich one, St. Catherine; a nice one, St. Catherine; and soon, St. Catherine." Elderly spinsters usually omit a part of this prayer, and say simply: "A husband, St. Catherine; and soon, St. Catherine."

FIRST THINGS
OLE BULL.
The first American appearance of Ole Bull, the renowned Norwegian violinist, was at the Park Theatre in New York seventy years ago today, Nov. 25, 1843. Bull was born in a small town in Norway. His father was the church, but from his early childhood he manifested a passion for music which could not be denied. His first teacher was a German violinist, was not much impressed by his Norwegian pupil, and discouraged rather than encouraged his ambition. Bull then returned to America and attempted to plant a Scandinavian colony in Pennsylvania, but lost most of his fortune in the project, and returned to the concert field. He was the first great favorite with Americans, and his death, which occurred at Bergen, Norway, in 1880, was sincerely mourned by thousands on this side of the Atlantic.

THE HUMAN PROCESSION!
A FIGHTING BARON.
Baron Simon Joseph Fraser Lovat, distinguished in the South African war as a leader of the Scouts, was born in Scotland forty-two years ago today. He is the sixteenth of the Fraser clan to hold the title of Baron Lovat and many of his ancestors held high positions under Scottish kings. He is the owner of an estate of over 150,000 acres in the Highlands. He married in 1910 a daughter of Lord Ribblesdale, and she has given him a direct heir to the peerage and the chiefship of the clan. Two months ago the Lovat Scouts held a reunion at Beaufort Castle, Lord Lovat's ancestral home, and presented their former commander with a gift in the form of a symbolically decorated oak door, for the ballroom of the castle. Lord Lovat's sister, the Hon. Marjorie Fraser, is a Roman Catholic nun and nurse.

IN LIGHTER VEIN

Genuine Pity.
"Mr. and Mrs. Whiffer never have any arguments."
"How does that happen?"
"Mr. Whiffer won't argue."
"The poor woman!"

Installation Plan.
"Why doesn't dachshund come when I call him? The idea of sulking on me."
"He's coming as fast as he can," said the man's wife. "He's got his front legs stumped."

Well Named.
"We call our office boy the Little Dragon."
"What little fellow, eh?"
"Oh, no; it's because he has to be booted and spurred before we can get anything out of him."

Her Thrift.
"So Maude caught the rich old guy, after all?"
"Yes, she always did say her honeymoon was going to be of the harvest kind."

Meant Ostriches.
Mrs. Newbury—Oh, Jack, you haven't eaten half of my biscuits. Really, we have to throw away so many scraps, we ought to keep chickens.
Nicholas—Chickens! You mean ostriches.

Not Proper for Ladies.
A nervous matron was upbraiding her negro maid and the servant remained silent. This exasperated the mistress, who shouted:
"Mandy, why don't you say something. Why do you keep quiet?"
"Cause, missy," replied Mandy, meekly, "it takes two to make a fight, an' it ain't propah foh ladies to fight."

At His Own Price.
"So you sold that mule for \$8."

HEAD AND NOSTRILS

STUFFED FROM GOLD
"Pape's Cold Compound"
ends a cold or grippe
in a few hours.

Your cold will break and all grippe misery end after taking a dose of "Pape's Cold Compound" every two hours until three doses are taken. It promptly opens clogged-up nostrils and air passages in the head, stops mucus discharge or nose running, relieves sick headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stuff up! Quit blowing and snuffling! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitute.

Papers Left in Care of A. I. dalen College, Oxford

Servant, Explain Conditions Have Been Ad

In the autumn of 1873 a brig called the "Marie Celeste" left New York for Genoa. Several weeks passed; the crew received a notice from the United States consul at Gibraltar as follows:

"The American brig Marie Celeste of New York, was brought into the port by the British barque Del Gratia Marie Celeste picked up on high sea on December 5th abandoned. Brig in perfect condition but was taken possession of admiralty court as derelict. Fate of crew unknown."

The following article explains the mystery:

It was in the early autumn of 1873 that the Mary Celeste sailed out of New York for Europe. She was a smart brigantine on one could wish to see, and looked as new as if she had just come out of the maker's hands. We were bound for Genoa with a cargo of spirits, and I think I might say that no boat of her size—about a hundred tons—rot across the Atlantic that autumn with so little damage to the Mary Celeste. It was not only the exterior that was good. Everyone of her first joining her was struck by the comfort of the fore-cabin. The light was better by day and by night, the seemed more ventilation, and the bunks were wider and more comfortable than usual, to a tall man like myself was a very pleasant discovery. In fact, if only the men in the fore-cabin had had their instincts as to the matter of their little ship, they would have been more boldly sportsmanlike, and would have been almost as good as sailing in the cabin itself. Curiously, I had intended that this was my last voyage in her, though not owing to the reasons which necessitated my seeing myself later, but because my father—my only relative—had just died and I did not wish to return to America for some time. I had also another and more private reason.

The party aboard consisted of ten men besides the captain and mate, and in addition, we carried two passengers in the cabin—viz, the captain's wife, Mrs. Briggs, and "Baby," their little girl. Though well beyond those years which would have justified the name, she never went by another, so far as I can remember. Moreover, she gave me for rather a mother did a portrait of herself taken when she was two years old, and natural did it seem to think of her little girl. That is the only name written on the back of the picture myself. I fancy Baby was about seven or eight years old, and as she was bright and pretty as a flower as she blew in the wind or basked in the sunny plains of life, was indirectly the cause of our disaster. I

The True Solution of the Mystery Surrounding the Disappearance of the Crew of the Brig Marie Celeste

Papers Left in Care of A. Howard Linford, M. A., Magdalen College, Oxford, by Abel Fosdyk, an Old Servant, Explain Mystery for Which Many Solutions Have Been Advanced by Sailors and Writers

In the autumn of 1872 a brig called the "Marie Celeste" left New York for Genoa. Several weeks passed; the owners received a notice from the United States consul at Gibraltar as follows: "The American brig Marie Celeste of New York was brought into this port by the British barque Dei Gratia, Marie Celeste picked up on high seas on December 5th abandoned. Brig in perfect condition but was taken possession of by admiralty crew as a derelict. Fate of crew unknown."

The following article explains the mystery: "It was in the early autumn of 1872 that the Mary Celeste sailed out of New York for Europe. She was a smart brigantine as one could wish to see, and looked as new as if she had just come out of the maker's hands. We were bound for Genoa with a cargo of spirits, and I think I might say that no boat of her size—about six hundred tons—got across the Atlantic that autumn with as little damage as the Mary Celeste. It was not only the exterior that was good. Everyone on first joining her was struck by the comfort of the fore-cabin. The light was better by day and at night, there seemed more ventilation, and the bunks were wider and longer than usual, which to a tall man like myself, was a very pleasant discovery. In fact, if only the men in the fore-cabin had had their instincts in the matter of the light, they would have been almost as good as being in the cabin itself. Curiously, I had intended this to be my last voyage in her, though not owing to the reasons which necessitated my secreting myself later, but because my sister—my only relative—just died, and I did not wish to return to America for some time. I had also other and more private reasons.

The party aboard consisted of ten men besides the captain and mate, and, in addition, we carried two passengers in the cabin—viz, the captain's wife, Mrs. Briggs, and "Baby," their little girl. Though well beyond those years which would have justified the name, she never went by any other, so far as I can remember. More over, she saved me a rather nice mother did a portrait of herself taken when she was two years old, and so natural did it seem to think of her as "Baby" that that is the only name written on the back of the picture by myself. I fancy Baby was about seven or eight years old, and as she was a bright and vivacious flower as ever blew in the wind or basked in the sunny plains of life, was indirectly the cause of our disaster. She gave a few words of description of her.

Rather square-built and short, she had the appearance of a sturdy girl, but yet there was a look of delicacy in her pale face which was only relieved by a little colour after fits of coughing. She had eyes that looked as if they were a little dim, and her mother used to call them "green," but though I should not have used that word, yet I can find no better—there were large, dark, dark lashes. Her hair was long but not very curly, and when the sun shone on it there was a burnished or chestnut look in it, just a dash of red. I once called her "Carrots," and was in marked disgrace for several hours. She wore usually a dark blue jersey and short fronted, white muslin. Her little girls, she wore short socks and stockings. She had plump little legs and rather large feet. When the weather in any way admitted of it, she would be on deck crooning little songs or talking to the crew. I think it was her favourite, as I used to tell her stories as I did my work. But, unfortunately, the weather was usually too bad for her to be up much.

The crew were, in the following: taking the fore-cabin as a starting point: Joe, who was ship's carpenter, had the bunk above me, and Robin, so-called I believe, because he was a curious fellow, in the next to me, and William Fred and Ginger—whose real name, I fancy, was Odell—and the boy opposite side. In the cross-bunks there was Darcy, a nigger youth, who, I rather think, was a stowaway. At any rate, I quite well remember that Captain Briggs, who evidently was under the impression we were thirteen on board, whereas we were fourteen, saying to the man at the door (I think it was the older Williamson): "If I hear any more nonsense about thirteen being on board, I'll jolly well knock your head off, and then I shall knock your head off."

BAD BLOOD IS THE DIRECT CAUSE OF Pimples.

Pimples break out on the face and body, and it is impossible to get rid of them, unless you cleanse the blood of all its impurities. Burdock Blood Bitters is without a doubt, the very best medicine for this purpose.

This old, and reliable medicine has been in use for nearly forty years, and has a reputation unequalled by any other preparation for removing all the impurities from the blood and banishing the pimples.

Mr. Edward Paquette, Nevan Centre, Ont., writes:—"One month ago my face was covered with pimples and a rash. I had tried a number of these so-called blood purifiers with no avail. Seeing an almanac of yours in which you strongly recommend Burdock Blood Bitters, I decided to try a bottle, and after I had taken it I could see a decided change, and after using three bottles more all the pimples had completely disappeared."

tween the sides and the ship a slanting fall of water was put on each side. Further, a step was put below, and on the top a small barrel was placed for a sea. This was always called "Baby's quarter-deck." Here she would sit and croon little songs, or walk to and fro and call out: "Ship on the port-bow." This was always an expression I ever heard her use, and she used it quite irrespective of any ship being visible or not.

The second incident occurred when the coming upon what looked at first like a dead whale. As we approached this mysterious object the mate saw through the glasses that there were men on it, and came to the conclusion, which subsequent events proved to be right, that it was a ship turned turtle. As we approached we could see three men on her; it was not until we were alongside that we saw a fourth, or nearly so, and it was apparent that one man was dead, and even decomposed, which made us think the weather had been colder than we supposed. The second and third proved to be dead, though apparently only recently, but the fourth man was suddenly seized by the region of the chest, but that proved far from being the case. We leaved to and fro, and the boat, but then a difficulty presented itself. The ship's bottom was one mass of barnacles, and it stood some way out of the water. After several ineffectual efforts, at last the mate, with his hands much cut and bleeding, got on top and crawled along to the boat. He was nearly dead, and could do nothing for himself. A rope was fastened under his armpits, and very slowly and gingerly the mate tried to move him.

It was some time before he discovered that another rope was fastened round his waist and hidden by a mass of seaweed. This was not a very pleasant discovery, but I should believe it, only they were so much spread about that I should have thought it impossible to find them. I should very much like to know what wonderful thing happened that night, and if anybody else saw it besides our captain, I should be glad to hear about it.

When at last he was got on board he was taken below and put into blankets and a little rum poured over his head. He was about four o'clock in the afternoon, and I heard no more of him till I took some supper down into the cabin. As, however, I had heard that he was still alive, but had not spoken. In the morning he was in the same condition, but he had once seemed to be better, though he realized that there was something on life, but seemed unable to get up. In the evening the captain's wife came up and said she had been trying for a long while to get him to give his name, and she was very anxious that he had plainly said "Ebenzer," and after a little while had added "Bristol." It was, at that time, as I have said, that he was hoping for, but alas! it was destined to be all the information that we were ever to get, for in the night he slipped his cable and went to his long home.

On the following day we carried his body up on deck and quietly committed it to the sea. I have not heard of him since. I have taken such infinite pains to rescue him but a few hours before. So did poor Ebenzer of Bristol, and I have not heard of him since. I have not heard of him since. I have not heard of him since.

Child Almost Strangled

You never know what minute a child will develop bad cold or be seized by croup. For this reason it takes a great burden off every mother's mind to have Dr. Chase's Syrup of Pinellids for her little boy with most satisfactory results. His throat would fill up with phlegm so that he could scarcely make a sound, and he would surely strangle. He grew worse, and had frequent bad attacks, so I began using Dr. Chase's Syrup of Pinellids and Turpentine. I had only a bottle used when the strangling ceased. This medicine had a wonderfully soothing effect, and he had no more trouble. I had only a bottle used when the strangling ceased. This medicine had a wonderfully soothing effect, and he had no more trouble.

There are imitations, but the genuine Dr. Chase's Syrup of Pinellids and Turpentine bears the portrait and signature of A. W. Chase, M. D., the famous Receipt Book author.

"What!" shouted the captain; "you mean to say a man can't swim in his clothes?" That remark was repeated by the captain partly in answer to the mate's remarks and partly in talking to himself for several minutes, somewhat after the following style: "Not an ordinary man can't," repeated the mate.

"A man—can't—swim—in—his—clothes—hey?" "You mustn't judge by yourself; you're an exceptional swimmer. There aren't many that can swim like you." "So—a—man—can't—swim—in—his—clothes—hey?" "You know what I mean—generally speaking, a person who can swim in the ordinary way, or—"

"A—man—can't—swim—in—his—clothes—hey?" "Well, never mind about that now, dear; come and have your breakfast. I'll get it ready for you." "I'll go—going—to—have—my—breakfast—yet."

"Not going to have your breakfast? Stuff and nonsense!" "I'm not going to have my breakfast yet."

"Why not, pray?" "I'm going to have a swim in my clothes, and I don't want to get wet."

"You're not—don't you think it?" "Oh, aren't I? We shall see about that."

"What are you taking on so about?" said the mate. "I didn't mean you. We all know you can do anything in the water."

who, clasped hold of me, and we went down, down, down, locked in each other's embrace, turning over and over through the cold, gurgling water. I strained and struggled, pulled, tugged, kicked, and bit; I bent back and tried with all my might to rid myself of the incubus which clutched me. At last I got my left arm at full length against the forehead of my enemy, and in utter desperation—I can only plead that as my exertions failed, I turned with all my might my thumb into his eye. Instantly his grasp relaxed—but to what good? How could I ever regain the surface—nearly bursting, as I already was, for want of breath?

"Oh! at last the air! Oh, that gasp, what it was to me! I have often heard it said that we never know the value of a thing till we have lost it. I know it now. Who could ever realize that a breath of God's pure air could mean so much to anyone? But it was not for long; almost immediately my head went under again. I quickly struggled up, coughing, choking, panting, and realized that the mate had said, that it is not easy to swim in one's clothes."

I determined to get on my back and see if I could not regulate my breathing. The kidneys become clogged up, get sluggish and filter or strain out only a part of the poisonous waste matter and uric acid, all the rest remains in the blood and circulates through the system, where it lodges in the joints and muscles, and causes all the trouble.

The only way to overcome this is to make your kidneys work properly. You can easily and surely do this by taking a little Croxone, which never fails to act promptly. Croxone not only cleans out the clogged kidneys, strengthens them and makes them active, but it neutralizes and dissolves the poisonous waste substances, and uric acid, that scratch and irritate and cause rheumatism, so the kidneys can filter it from the blood and drive it out of the system. The Croxone is believed to be the most remarkable preparation ever known for the prompt relief and cure of rheumatism, kidney troubles, and bladder disorders. It is entirely different from other remedies. It is so prepared that it is practically impossible to take it without results. Relief follows the first few doses, and you will be surprised how quickly stiff, sore, swollen joints and muscles, rheumatic pains, and all such misery cease.

SURE WAY TO END RHEUMATISM

Ease Stiff, Sore Joints and Muscles, Makes Pains and Backache Promptly Vanish.

Get Rid of Piles at Home

Simple Home Remedy, Easily Applied Gives Quick Relief and Prevents All Danger From Operation.

Don't even think of an operation for piles. Remember what the old family doctor said: Any part of the body cut away is gone forever. One or two applications of Pyramid's Pile Remedy will cure you in a remarkably short time. The congested veins are reduced to normal and you will soon be all right. Try this remarkable remedy. Sold everywhere at drug stores. Send for a free trial package and prove beyond question it is the right remedy for your case, even though you may be wearing a pile truss.

Send For Free Trial Package and Prove It in Your Case.

Pyramid Drug Company, 452 Pyramid Bldg., Marshall, Mich. Kindly send me a trial treatment of Pyramid Pile Remedy at once, by mail, FREE, in plain wrapper, so I can prove its splendid results.

BUSINESS IN STOCK MARKET ALMOST AT A STANDSTILL

New York, Nov. 24.—Trading all but ceased today on the stock exchange. It is necessary to go back a quarter of a century to find a duller market than today's. Most of the time the ticker was silent. Not one of the favorite stocks moved up or down as much as a point. When the five dreary hours of trading had come to an end, it was found that the total business was only 57,300 shares. Brokers with nothing else to do went back into musty records to find a day as dull, and learned that there had not been one since the blizzard of 1888, when trading on the exchange was practically stopped. On March 12 of that year the total was 15,905.

CLOSING LETTER ON COTTON MARKET

New York, Nov. 24.—The recent ginning report showing comparatively full figures for the first half of November apparently rendered the trade more susceptible to increased private crop estimates, and the appearance of one or two of these over the week end was a signal for renewed selling in this morning's cotton market. The decline of 10 points, however, uncovered a good demand and from both the spinners and shorts and the market more than recovered its early losses. Southern spot houses were credited with buying on today's decline. Reports are coming in of very little cotton left in either the eastern or western belts. Bull interests are anticipating that the next ginning figures will be comparatively higher owing to the rapid moving of pickings, but predict a perpendicular falling off in these returns for the month of December.

CLOSING COTTON LETTER FROM JUDSON & CO.

New York, Nov. 24.—The recent ginning report reporting comparatively full figures for the first half of November apparently rendered the trade more susceptible to increased private crop estimates, and the appearance of one or two of these over the week end was a signal for renewed selling in this morning's cotton market. The decline of 10 points, however, uncovered a good demand and from both the spinners and shorts and the market more than recovered its early losses. Southern spot houses were credited with buying on today's decline. Reports are coming in of very little cotton left in either the eastern or western belts. Bull interests are anticipating that the next ginning figures will be comparatively high owing to the rapid moving of pickings, but predict a perpendicular falling off in these returns for the month of December.

NOON LETTER ON CHICAGO GRAIN AND PRODUCE STOCKS

New York, Nov. 24.—The market has been practically stagnant this morning. The attack on Steel, which was printed in the form of an advertisement in many of the morning papers, produced absolutely no effect. The stock opened down 3/4 point, but promptly recovered and has been motionless ever since. Throughout the rest of the list, inertia has prevailed. Rumley Common broke to 14 1/2, a new low record, but elsewhere, throughout the list fluctuations were confined to the smallest kind of fluctuations. The announcement that a million and a half more gold had been engaged for export to Canada, produced no effect upon the market, and there was no further news from Mexico to give any inkling that any fresh developments could be expected from that quarter. Many important issues like Canadian Pacific have not even opened up to the present writing. Bonds \$246,500. Sales noon 31,000. E. & C. RANDOLPH.

CHICAGO GRAIN AND PRODUCE CLOSING STOCK LETTER FROM RANDOLPH

Chicago, Nov. 24.—Wheat firmer on higher Liverpool cables and unfavorable crop reports from Northern Argentina, where there has been too much rain, but the trade on the whole has been light. There appears to be little in the situation at the moment to cause much price changes. Corn—Somewhat higher early but slipped off later. The market on the whole has an easy undertone, and selling clerks report that May Corn has been sold to the leading bull interest at 86 cents, indicating that they have sold considerable of late. It seems to be the impression that they are going short of May against their holdings of December. Oats—Dull with local element doing bulk of trading. Provisions—Opened higher with pigs. Fair commission house demand. A. O. SLAUGHTER & CO.

LIDLAW & CO'S CLOSING STOCK LETTER

New York, Nov. 24.—Up to 2 o'clock today transactions on the stock exchange were slightly over 42,000 shares. The smallest full day's previous record in recent years was in July, 1911, when the total was around 86,000. This eloquently tells the story of today's stock market. The bear advertising in the morning papers directed at the Steel Corporation failed to even create comment and had absolutely no effect on the market. The feeling prevailed that the market would not do very much until important matters now pending at Washington had been definitely settled. Meanwhile the impression is growing that the market has perhaps discounted the worst and that any change at all should be for the better. LIDLAW & CO. N. Y. COTTON RANGE.

PRODUCE PRICES IN CANADIAN CENTRES

Montreal, Nov. 24.—CORN—American, No. 2 yellow, 82 @ 83. OATS—Canadian western No. 2 40 1/2 @ 41. No. 3, 39 1/2 @ 40. BRICK SATISFACTION

It's not a difficult thing making bricks, but it's a different thing making good bricks, bricks that give satisfaction to the contractor and to the owner of the building. "Acadia" Brand Bricks are made in the most up-to-date and best equipped brick plant in the Maritime Provinces—and by men who know what good bricks mean. The General Manager of this Company was formerly a contractor, and he knows what contractors want. That's the reason why less through bad bricks has been eliminated—there is that uniformity of size, color and quality so much desired by all who handle bricks. There is money in it for contractors who use "Acadia" Brand Bricks. It's a duty every contractor owes to himself to try a sample shipment. NOVA SCOTIA CLAY WORKS, LTD. Head Office, Halifax

FINANCIAL CLOSING LETTER ON MONTREAL EXCHANGE

(F. B. McCURDY & CO.) Montreal, Nov. 24.—This was one of the duller days in the history of Wall Street and trading on the local exchange was unusually light. Price changes were for the most part, however, unimportant. Iron opened forty as compared with forty and half at the close on Saturday. The latter weakened to thirty-nine a three quarters. No information has been received in Montreal concerning the success of the public offering of five-year six per cent. notes of Dominion Steel Corporation which was made in London last week. The company is particularly successful in its operations last year and there has been talk of a dividend declaration. It is probable however that this will be deferred for some time and in meantime as there is a somewhat raw market for new issues, the price of stocks a sharp advance in the price of Dominion Steel is not altogether probable. About the middle of the week there was a considerable amount of interest in Hiltre and the price advanced to forty-three and a half. The company is understood to be in a strong position as its connection with one of the Canadian railways of rather intimate character and steady market for its coal seems to be assured. The buying movement last week was further stimulated by the rumor that a dividend declaration was imminent. The buying was restricted, however, and this morning the price fell away to forty-one and a half. Cement Common was one of more active issues today, the price remaining steady at thirty-one and a half. About the middle of the week was considerable buying of this stock both here and in England and prediction was freely made that the price would rise. Under existing money conditions however a projected rise was exceedingly difficult. Interest in the stock market was steady and present level and some of the larger local houses look for other advances to be made.

CITY COUNCIL REFUSES IN TWO MATTERS - RENTALS COME IN TIME.

The City Council met yesterday afternoon and transacted a good deal of routine business. The acting commissioner recommended that renewal lease of the term of seven years each follow, upon the common clerk satisfied that the several persons entitled thereto: D. J. Gillis, lot No. 855, Dukes annual rental \$50. Mathew Cavanaugh, lot No. 9 G. Dukes rental annual rental \$20. St. John Real Estate Company No. 84, Queens ward, annual rental \$20. James Stirling, lot No. 862, 1 ward, annual rental \$20. Bartholomew Rogers, lot No. 863, Dukes ward, annual rental \$20. Bartholomew Rogers, lot No. 864, Dukes ward, annual rental \$20. J. M. Robertson, lot No. 737, G. ward, annual rental \$20. George Tippet, lot No. 3, big Lancaster, annual rental \$20. Randolph and Baker Ltd., lot 4 and 5, Greenhead, Lancaster, rental \$250. The recommendation was adopted.

FINANCIAL AND COMMERCIAL NEWS AND COMMENT

CLOSING LETTER ON MONTREAL EXCHANGE

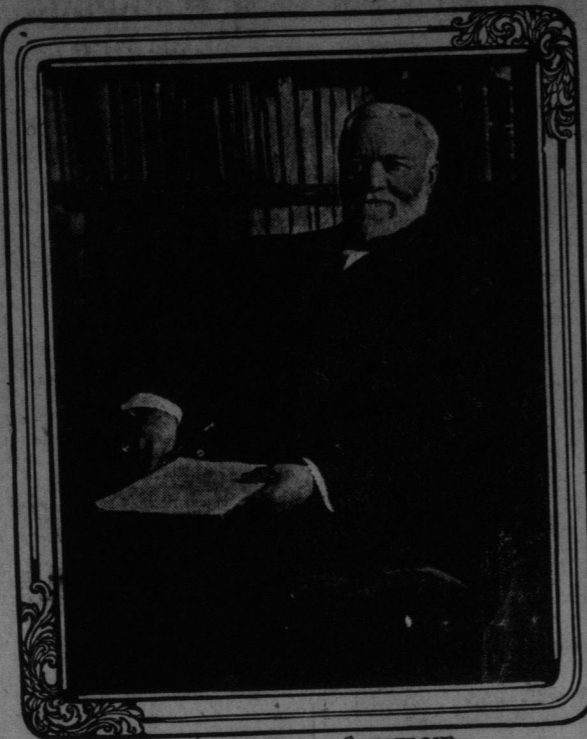

(F. B. McCURDY & CO.)
 Montreal, Nov. 24.—This was one of the dulldest days in the history of Wall Street and trading on the local exchange was unusually light. Price changes were for the most part, however, unimportant. Iron opened at 20 1/2 as compared with forty and a half at the close on Saturday and later weakened to thirty-nine and three quarters. No information has been received in Montreal concerning the success of the public offering of five-year six per cent. notes of the Dominion Steel Corporation which was made in London last week. In so far as the corporation is concerned the financing is arranged but an announcement that the issue was readily taken up by the investing public on the other side would undoubtedly have a stimulating effect on the stock as it would be an evidence of confidence with which Dominion Steel is regarded by foreign interests.

Sherwin Williams was a little weaker at fifty-three. The company was particularly successful in its operations last year and there has been within the past few weeks renewed talk of a dividend declaration. It is probable however that this will be deferred for some time and in the meantime as there is a somewhat narrow market for non-dividend paying stocks a sharp advance in the price of Sherwin Williams is not altogether probable. About the middle of last week there was a considerable amount of interest in Hillcrest and the price advanced to forty-three and a half. The company is understood to be in a strong position as its connection with one of the Canadian railways is of rather intimate character and steady market for its coal seems to be assured. The buying movement last week was further stimulated by the rumor that a dividend declaration was imminent. The buying was restricted, however, and this morning the price fell away to forty-one and a half.

Cement Common was one of the more active issues today, the price remaining steady at thirty-one and a half. About two months ago there was considerable buying of this stock both here and in England and the prediction was freely made that it would cross forty. Under existing money conditions however a protracted rise was exceedingly difficult and interest in the stock subsided. It has for weeks however been steady around its present level and some of the larger local houses look for another advance before long.

F. B. McCURDY & CO.

TO-DAY ANDREW CARNEGIE IS SEVENTY-EIGHT YEARS OLD

MR. ANDREW CARNEGIE
PHOTO. COURTESY OF FRANK BECK

"King Andrew I. of the Billionaire Dynasty of Carnegie,"—as the French journalists dubbed the famous steel magnate and giver of libraries when he visited Paris and was received with royal honors at the Elysee by President Poincaré—will celebrate his seventy-eighth birthday today. The Laird of Skibo Castle, as he is known in his native Scotland, assuredly has a budget much greater than most European sovereigns, and he has been received on terms of equality by the German Emperor, Queen Wilhelmina, the Belgian King, and other monarchs.

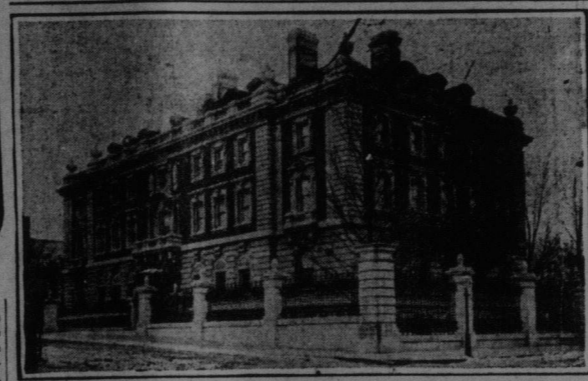

Mr. Carnegie has been spending the Autumn months in Scotland, and last month he distinguished himself as a fisherman by landing a salmon weighing thirty pounds, the largest fish caught in the River Ship, in Sutherland, during the season. Angling is the steel king's favorite recreation, and he attends peace meetings and gives away libraries.

Mr. Carnegie was born in Dumfries, Scotland, Nov. 25, 1835, and came to America at the age of twelve. The family settled in Pittsburgh, and the future multi-millionaire entered industrial life as a weaver's assistant in a cotton factory. His next job was as a telegraph messenger boy in Pittsburgh, at a salary of \$2.50 per week. He mastered telegraphy, invested his scanty savings in a sleeping car company, through which he gained the nucleus of his fortune; increased his fortune by shrewd investments in oil lands, and after the civil war, in which he served as superintendent of eastern military railways and government telegraph lines, he commenced his career as an iron and steel manufacturer, introducing into America the Bessemer process of making steel.

Last year, on his birthday, the steel king said: "Earth becomes more like heaven to me every year. I get a higher opinion of the human race each anniversary of my birth, because I know so many men and women possessed of almost angelic minds."

Exterior of house in which Andrew Carnegie was born.

ANDREW CARNEGIE'S NEW YORK HOME.

UNIQUE THEATRE HAS STRONG BILL

Audiences Yesterday Much Pleased with Programme—Interesting Drama and Excellent Comedy.

In the present show at the Unique Theatre the management have a bill which offers variety in its best form and one which cannot fail to call forth favorable comment from the most critical. With a thrilling two reel drama and a bright comedy picture along with other attractions the show gives all that is desired by motion picture patrons and offers a complete bill.

In the feature film of the programme, "Ashes," the audience is given something novel in the motion picture field. The drama, written in two parts, is a recent release of the Reliance Company, and depicts an interesting true to life story with Irving Cummings as the leading character. "Ashes" deals with the surrounding conditions in the year 1861 and portrays life up till the year 1913. Carrying through it a strong plot, this moving picture production offers special opportunities and the members of the Reliance Company cast in the various roles give it the polished finish necessary to bring out the fine points. The picture is interwoven with a strain of love about which hinges a nefarious plot, and the production of "Ashes" is complete and thorough in every detail.

"Love and Rubbish" is one of those comedies which keeps the audience in convulsion of laughter and is replete with ridiculous and laughable situations. It means ten minutes' merriment with side stitching moments. The picture fairly bristles with humorous scenes.

Altogether the present bill is one difficult to outclass.

EVANGELIST IN A STRONG ADDRESS

Evangelist Lowell C. McPherson preached last evening on the subject "Born Again," in the Douglas avenue Christian church. He read the interview Nicodemus had with Jesus in Jerusalem, as recorded in John 3, and said in part:

"This is one of the nineteen private interviews with Jesus recorded in the New Testament. How many more we do not know, because it is my belief they were daily and on many occasions. This is a most encouraging passage to the true believer in the Christ. He who believes in the God of chance has no pleasure here.

"I believe Nicodemus was an honest, discreet inquirer of Jesus, and that he went at night for the contact with the wonderful Teacher, because he wished not to precipitate opposition to Him and thus prematurely hinder His ministry. But Nicodemus finds the Great Teacher responsive and very gracious. He was a perfect man behind His Message."

MAKING HEADWAY IN WHITE PLAGUE FIGHT

Dr. Townshend, superintendent of the Jordan Memorial Sanatorium, who was in the city yesterday, stated that they had 25 patients at the institution. Since the sanatorium has been opened 15 patients have been discharged from the institution. Of these two were incurable, four were apparently cured, and the remaining ten had obtained a rest and instruction which it was hoped would enable them to keep on the road to recovery. Any patient who has been in the sanatorium is at liberty to consult Dr. Townshend at any time, and an effort is made to keep in touch with patients who have left the institution.

COMMISSIONERS TO CONSIDER INCREASING CITY RENTALS

City Council Refuses Application of Donaldson Line in Two Matters—To Renew Leases—Low City Rentals Come in for Discussion, but Dropped for Time.

The City Council met yesterday afternoon and transacted a good deal of routine business.

The acting commissioner of lands recommended that renewal leases for the term of seven years each from the last day of May last issue, as follows, upon the common clerk being satisfied that the several persons are entitled thereto:—

D. J. Gillis, lot No. 555, Dukes ward, annual rental \$50.

Mathew Cavanaugh, lot No. 9 block G, Dukes ward, annual rental \$30.

St. John Real Estate Company, lot No. 65, Queens ward, annual rental \$20.

James Stirling, lot No. 362, Prince ward, annual rental \$20.

Bartholomew Rogers, lot No. 941, Dukes ward, annual rental \$20.

Bartholomew Rogers, lot No. 942, Dukes ward, annual rental \$20.

J. M. Robertson, lot No. 737, Queens ward, annual rental \$20.

George Tippett, lot No. 3, block D, Lancaster, annual rental \$24.

Randolph and Baker Ltd., lot No. 4 and 5, Greenhead, Lancaster, annual rental \$250.

The recommendation was adopted.

Increase in Rentals

The mayor said there were about fifty applications for renewals of leases, but the chamberlain had refused to take the rent tendered, as he had instructions to wait for an order in council. He thought there should be an increase of twenty per cent. on rentals of \$10 or under, and an increase of ten per cent. on rentals between \$10 and \$20. The city would have to renew the leases, or purchase the improvements. Some of the city lots were rented at nominal figures. The question was, whether, in view of the rising values of land, it would not be good business to take up the leases.

Com. Asar said rentals of \$10 or less should be a joke. Down in the Valley household rentals were about \$1 a foot. He thought each lease should be dealt with on its merits, and that the city should get more money.

The mayor said there was a great deal of talk about the land tax, but it would be difficult to introduce it while the city owned about one third of the land, for which it was only getting a low rental.

Com. McLellan suggested they might tax the tenant's equity in his lease.

The matter was then dropped.

George Burns was granted a lease of a lot on Morris street, Fairville, at a rental of \$30.

The Donaldson line applied for permission to erect a landing camp on platform, on Water street, near the building now under lease to T. McAvity & Sons. The mayor said that if a passenger platform was erected it should be under the control of the

FOOTBALL ATHLETICS BOWLING

LOCAL BOWLING YESTERDAY

ON VICTORIA ALLEYS.

There were two matches in the two men league on the Victoria alleys last night with the following results:

Kiley	Total Ave.
81 78 99 101 100 459-91.45	
Sloum	81 84 93 85 92 445-89
172 162 192 186 192 904	
Labbe	101 96 95 96 92 480-96
Featherstone	89 89 87 89 80 438-87.25
190 189 182 185 172 918	

Each team winning three points, the fourth string proved very close, Kiley and Sloum winning out by one pin.

Tonight's Games.

At 8 p. m., Baxter and Evans vs. Ferguson and Roxborough.
At 9.15 p. m., Kiley and Sloum vs. Berton and McLeod.

The Roll Off.

In the roll off for the prize of an umbrella D. Foshay won with a score of 123.

ON BLACK'S ALLEYS.

In the Commercial league match on Black's alleys last night the T. S. Simms Co. team won four points from T. McAvity and Sons. The individual scores follow:

T. S. Simms and Co.	
Derringer	70 92 82 244-81.13
Simms	85 84 70 239-79.23
Boyd	87 80 80 227-75.23
Lewis	58 65 89 222-74
Pugh	92 85 76 253-84.13
382 406 397 1185	

T. McAvity and Sons.	
Nixon	64 68 83 215-71.23
Ramsey	81 77 67 225-76
Triffa	67 65 70 202-67.13
McKenzie	67 61 74 202-67.13
Forshay	69 81 74 224-74.23
349 352 368 1068	

Weekly Roll Off.

In the weekly roll off D. Foshay proved the winner with a score of 94, and the prize was a pair of bowling shoes. He proved the winner in both the Vic's and Black's.

Tonight's Games.

In the City League the Pirates and Wanderers will bowl. In the Commercial League Barnes and Company will be the contestants against Ames, Holden, McCready Co.

The Trophy Tournament.

The Brunswick Balke Colander trophy tournament opens tomorrow morning and the receiving of entries from the local Y. M. C. A. and Sussex makes seven teams to fight for the prize. The two last entries were received yesterday.

TROUBLE IN PRO HOCKEY

Halifax, N. S., Nov. 24.—The general opinion here is that there will be no professional league hockey in Halifax during the winter season. Advice received here from Sydney say they are prepared to go on with the league. New Glasgow wants a bonus of \$100 for every game played in Halifax, but the Arena here will not pay it.

The Arena directors met today but no information was given out as to what action was taken in regard to the arrangements between the Socials and the Arena, but it is understood that there was no change from the previous decision. The Arena had already offered a percentage of the receipts to the local team which, however, was not acceptable.

THE SOCCER LEAGUE.

The game on the Marathon grounds between the St. Johns and the Caledonians on Saturday afternoon was a very keenly contested one from the start to finish. The St. Johns' defence was too good for the Caledonians' forwards with the result that the score at the finish was St. Johns, two; Caledonians, nothing.

On the Barrack Square the Cape Company team entertained the Fairville team and won rather easily by a score of 7 to 1.

The following is the league table to date:

P. W. L. D. F. A. Pts	
Caledonians	4 3 1 0 9 3 6
St. John	3 2 1 0 10 8 4
Cape	1 1 0 0 7 1 2
Fairville	4 0 4 0 4 18 0

Two points for a win, one for a draw.

LOCAL BOXING.

A large number of the members of Jack Powers' Athletic Club were present at the gym last night to watch some of Mr. Powers' pupils work, and considerable cheerfulness was shown by those who have learned their skill through the coaching of Instructor Powers.

A youngster named McKel won the decision on points over O'Leary, and for a wind up Garret won the decision over Gallist.

GOV. TENER WILL BE REAL BOSS

New York, Nov. 24.—It is believed in sporting circles here that Governor John K. Tener, of Pennsylvania, who is slated for election as president of the National Baseball League at the annual meeting, which will be held here on December 9th, will at once become "the real boss" of the league affairs, although he will draw no salary as league president until expiration of his term as Governor, January 1, 1915. It is understood that, if elected, Governor Tener would find time to visit league headquarters in this city at least two days each week, and to be an active member of the National Baseball Commission upon automatically becoming a part of that baseball court on January 1, next.

While Secretary John A. Heydler will probably be given more authority than he hitherto has had, and decide many of the details of National League affairs during the next year, it is understood that Governor Tener will pass final judgment upon all important matters, such as the selection of umpires, the decision of protested games, and the adjustment of disputes between club owners.

As member of the National Commission it would become his duty to vote with President Ban Johnson, of the American League, for a chairman of the commission, who is elected annually. August Hermann, owner of the Cincinnati team, has been elected chairman since 1903, and he is again the sole candidate for the chairmanship.

When Mr. Tener completes his term as Governor of Pennsylvania it is expected he will move his family to this city, so that he can devote his entire time to league affairs.

BOUITS OF THE WEEK

Tuesday

Freddie Welsh vs. Phil Bloom, Frankie Burns of New Jersey vs. Art Ed and Young Sieger vs. Young Rummie, New York.
Geo. Chip vs. Tim O'Neill and J. Helton vs. Young White, Racine.

BIG WRESTLING CARNIVAL.

Boston, Nov. 24.—Gustaf Fristenky, the Bohemian heavy weight champion, Ivan Mamutoff, who is a member of the czar's bodyguard, and Alex Aber, the Finlander, who has not lost a fall in ten years, are among the wrestlers who have come to America seeking a match with Champion Gotch.

While waiting for the champion to decide if he will defend his title the foreigners will display their skill against other wrestlers. Manager George Tubey has secured them for his wrestling carnival in Mechanic's building Thursday night.

They will appear in finish matches against Lenhardt, the German, Litofsky, the Jewish heavy weight champion of America, and Karl Lemm, respectively. The latter match will be at Greco-Roman style, the first of its kind in Boston in many years, while the others will be at catch-as-catch-can.

In addition, Cyclone Burns will meet LeGrange with a thirty-minute limit, while Peter Goulette of Wood street, will face Jim Follows, the Greek, in the curtain raiser.

TWO GREAT FOOTBALL PLAYERS

FRANK CAVANAUGH HEAD COACH TALKING TO CAPTAIN HOGSETT DARTMOUTH. Head Coach Frank Cavanaugh and Captain Hogsett, of Dartmouth, are the "big ones" up at the "green" college. Every student in Hanover looks up to them—in fact, they worship them—for didn't Cavanaugh, with Hogsett's help, turn out one of the best football teams in the country?

SPORTOGRAPHY

by "GRAVY"

Looking over the list of the present champions of the prize ring, one is forced to confess that they do not assay very high.

Beginning at the top, Jack Johnson, who must still be credited with the heavy weight title, is far from being a popular fighter. There are left very few places on the map of the habitable globe where the big black would be permitted to put on the gloves for a title bout. A great fighting trim, Jeanette is growing old, and McVey has been eliminated.

Those two divisions which have produced some of the greatest boxers in boxing history, the middle weight and water weight classes, are without title holders. There are several claimants in the "middle" class, but it would be sacrilege to mention any of them in the same breath with Jack Dempsey, Bob Fitzsimmons, Kid McCoy, or Stanley Ketchell, nor even with such near-champions of the past as "Brooklyn Jimmy" Carroll, Jim Hall or George Gardner.

The water weight division is even worse off. McParland might go for that title, but there is nobody for him to fight. And this is the class that once had such champions as Tommy Ryan, Billy Smith and Joe Walcott.

Willie Ritchie is a clever boxer, and so is Freddie Welsh, but the most devoted of their admirers will hardly class them with Jack McAllister, Joe Gans or Kid Lavigne.

Johnny Kilbane, as a feather weight, doesn't compare with Ike Weir, Terry McGovern, or Young Corbett, but with Abe Attell in his prime. And where, among any of the boxers of today, will you find one that has mastered the game so thoroughly as George Dixon? This question is hardly fair, however, for the little negro had few, if any, peers in the whole history of the game. A Dixon is born only about once a century.

Pugilistic Champions Don't Assay Very High

This question is hardly fair, however, for the little negro had few, if any, peers in the whole history of the game. A Dixon is born only about once a century.

THIS DATE IN RING ANNALS

Nov. 25.

1903—Bob Fitzsimmons defeated George Gardner in 20 rounds at San Francisco. The previous year Gardner had fought 20 rounds with Jack Johnson, and was defeated by a narrow margin. He was a hard-hitting, fearless fighter, and one of the best of the middleweights of his time, although he did not win the title. He was a native of County Clare. Besides his bouts with Ruby Robert, and Jack Johnson, he took part in about a hundred others. He whipped Peter Maher, twice defeated Jack Root, had two victories over Joe Walcott, and won over a number of other good men.

1905—Joe Jeanette won his 2nd round from Jack Johnson at Philadelphia.

1908—Freddie Welsh defeated Abe Attell in 15 rounds at Los Angeles.

1910—Johnny Kilbane and Benny Kauffman fought 12-round draw at Akron.

TY COBB LEADS ALL

Chicago, Nov. 24.—Ty Cobb outdistanced the field in the race for the batting honors of the American League, according to the official averages, which were announced today. He was fifteen points ahead of Hendrickson of Boston, his nearest rival, while Jackson of Cleveland, who gave the "Georgia Peach" such a pretty race up to the last month of the campaign, was seventeen points behind.

Cobb has a mark of 390, Jackson had 373 mark. Tris Speaker of the Red Sox was fourth in the list with 366, while Eddie Collins was fifth at 345. Franklin Baker had 336 and LaJole 335, while Melvin ranked at 326. Grandall of Washington was up with the leaders at 318, while Milan was close with 299.

ST. JOHN ATHLETIC CLUB SPORTS

The Maritime Indoor champion sports to be held by the St. John Athletic Club in the Victoria Rink on Wednesday evening, Nov. 26th, will be the greatest athletic meet ever held in St. John. The club has already received over eighty entries, beside several telegrams from clubs stating that as the events are so arranged that the winner of each heat only is sure of a place in the finals. W. E. Stirling, holder of the Maritime mile championship, has entered for the 880 yard, 1 mile and 5 mile events, and will do his very best to uphold his reputation as a fast and game runner. There are many others entered who will push these runners to the limit judging from their work in practice.

The holding of these sports is a big undertaking for such a young club and they deserve that the people of this city should patronize them as never before, and thus encourage them to go on with the boosting of athletic sports.

An event of this kind is one of the best advertisements that our city could have; it is also of great moral value, as it is an incentive for young men to lead clean lives so that they may be able to participate in future events, therefore should be encouraged.

IF DONNELLY PROFESSIONAL MEANS TROUBLE

Toronto, Nov. 24.—Honorary coach Dr. Arthur Wright states that the inquiry from Halifax regarding Donnelly's amateur standing does not come as a surprise to varsity. "We heard all kinds of rumors about him when in Montreal, and would have raised an objection to his playing had it not been for the fact that McGill defeated us and we did not want to be accused of doing any squealing."

It is now up to the Intercollegiate Athletic Association to get to the bottom of this. If Donnelly is really a professional he has endangered the status of every member on the McGill team or opposing teams, who have played with or against him knowing him to be anything but an amateur. If the rumor got to the Varsity players it must have been known elsewhere, and there may be a grand old shake up in intercollegiate rugby circles.

What effect this will have on McGill's right to the intercollegiate title is not as yet known, but the Varsity authorities state they will take no action. McGill beat them on the field and that is good enough for the club and white.

WRESTLING TONIGHT

Everything points to a big attendance at the wrestling match tonight when Anderson, the champion middleweight of the world, and a western middleweight, Frank Carpenter, of Chicago, will be the contestants. Anderson will arrive in this city this morning and is placing his championship belt up against a purse of money that he can throw the westerner two falls out of three.

Dan McDonald was in a match with Anderson a couple of weeks ago and is acting as the matchmaker for a local promoter.

The three-sided, triple grates will wear three times as long as the ordinary range grates. This one feature is well worthy of your consideration—there are many other exclusive ones which you should investigate before purchasing your range.

McClary's Pandora Range

Sold in St. John by QUINN & CO., Main Street

EMPRESS COMING

Special Cargo for St. John Householders.

The Consumers' Coal Co. have chartered schooner "Empress" to load at New York. She will load another 700 tons of their special American Anthracite. This special coal is drawing trade for the Consumers' Co. from all quarters of the city. Late buyers would do well to stock up with this coal either for heating or cooking purposes. The Consumers' Co.'s address is 331 Charlis street, opposite Broad street, or telephone Main 2670.

A Long Wait.

"Johnny, I don't believe you've studied your geography."

"No, mum, I heard pa say the map of the world was changing every day, an' I thought I'd wait a few years till things got settled."—Brooklyn Life.

Tommy-Pop, what is a shepik?
"Tommy-Pop—A shepik, my son, is a man who doesn't believe the good things he hears about himself."

The True S...

(Continued from page 5)

I now noticed that Bill looked strange, as if he had been drinking, and I was not sure again for fear of upsetting the little craft, and, indeed, I lean well back to keep it balanced with Bill's eyes on me. He did not answer; nevertheless, I clung tenaciously to the edge and slid. He was huddled up and lying on his chest, although in a very awkward attitude, while the end of one leg still dangled in the water. I could now see the whole of the starboard side of the ship, and I was horrified to find no rope or chain hanging down, so that even if we were not aground I did not see how we could get on board.

I do not think, up to this point, had entered my head that nobody was left on the ship. It is difficult at a distance of time to speak with certainty, though I have so many times gone through these dreadful hours both waking and in dreams, but I fancy my mind was that the captain had the sole attention of those on the ship, and that they were trying to get me out of the water. For a moment I remembered that I had heard of a ghastly silence which attracted attention for the first time. I heard no voice on the ship, no orders, no cheer, "Aye, aye, sir," or anything audible. What if everybody was on board, and there was no rope down anywhere to get back by? But surely I remembered that nine people had been of the rigging, and Ginger was, I saw him last, not on the platform at all. Not for one moment did I think of the fact that nine people had been drowned in about three or four minutes. Yet this is what must have occurred, for Bill and I made eleven made fourteen, which completed the tale. As to whether these three were still on the other side of the ship, could not tell, but I already began to dread the worst.

At last a very light breeze sprang from the water and I saw the water and the starboard side of the vessel. At a glance I saw nothing, but I was not alone. I could get on board, but the idea came to me that if I could get along and stand up my full height on the deck, I might be able, by using my fingers, to raise myself. I used the rigging fittings and got aboard. Immediately I was in the rigging, I tried to paddle the raft along, but after an exhausting effort I had only succeeded in turning the raft round on its axis. I could see the dorsal fin of the shark moving quickly about just beyond the water's surface, and following motions closely. I had discovered, to my unexpressed joy and also horror, the captain's head. I could only see it at intervals as a slint of light playing on water in front of him prevented seeing him continuously. I saw the water almost inch by inch, as if I could find Joe or Bill, but they were nowhere to be seen. I recalled the captain must have been at three or four hundred yards off, distance is very difficult to judge. After watching him for a time, the ship came again between us. I listened intently for any "Ahoy!" I heard nothing—nothing, that is, the occasional moan of the poor fellow on the platform. For a while, so still was the air, the five positions of the ship and the remained the same. The current took us, but gradually we separated. The ship, being larger, went I suppose, slower than we, and which. The sun mounted inch by inch in the sky, and burned at with grateful warmth, while the water, like a great lake, was a rattle of dried leaves, feebly blowing my platform. But not till after I did any breeze catch the sails of the ship, then, when I did it, I saw only to do so in order to torment further, for it drove the vessel close to me and then past me, and no more or more away. A sudden hope arose in me like a mighty hope that some passing vessel would see the corpse and make inquiry. No signs of the rain could be seen, not of an eye. I was alone upon the water. I had never realized what "alone" really meant, and a feeling, when once realized, the language can describe.

Such is the writer's account of the mystery of the "Marie Celeste", suffering no one to be seen, and his final rescue, do not be deceived on that subject; but they are so interesting, and so vividly described, that we give them here in what abbreviated form.

I had for some time imagined the poor fellow, who was on the platform was dead, though his was still grasped round the edge of the plank; but towards evening he moved, and I slipped into the water. Then, for the first time, I saw either side of his face. The platform falling, had evidently caught with the corpse and had literally his head right open from the side of his forehead straight down cheek, just escaping the eye's mouth. So wide did this wound gape that I could see his teeth. I saw the hole in his cheek, I saw that the door of the platform, where he had been lying was covered with blood, though I had noticed it before. The body floated easily right in front of me, and I found out some hours later that the end of the coat was caught in a white protrusion. It floated at an angle of thirty degrees with the surface of the water, the feet uppermost and the head thrown back, being deeper than any water.

It was now impossible for me to feel any worse than I already did, the loss of my friend left me perfectly calm. My cup of woe was what mattered it to me if it flowed? One difference was however, by the event. The platform no longer steady, and I stood with my feet apart to balance it. Also it slowly, very slowly, swung, for I was sometimes to the sun, which was soon to set, sometimes I was back to it. We could I watched it, near the horizon, as it touched, and inch by inch lowered itself in the glistening sea. It seemed almost to add to my awful thirst, which had now become a great agony for an hour or two it set dip in the liquid fire. I now no longer any real hope of r...

THE WEATHER.

Maritime—Strong winds and gales, northeast, shifting to northwest and west; with rain or snow.

Washington Forecast.

Washington, D. C., Nov. 24.—North New England—Local snows Tuesday morning, followed by fair; Wednesday fair, moderate northwest and northern winds, becoming variable Wednesday.

Toronto, Nov. 24.—A disturbance is developing tonight south of Nova Scotia while a pronounced area of high pressure is centered south of the Great Lakes. Very strong winds have prevailed today in the lake region.

AROUND THE CITY

A Small Fire

Yesterday afternoon, between four and five o'clock, a fire was discovered in a lighter lying in the Lower Cove slip. A still alarm was sent in to No. 2 fire station and the chemical responded. The fire was quickly extinguished. The damage was small.

For Faithful Service

George E. Merryfield, representing Lever Brothers of Toronto, one of the best known knights of the grip in the provinces is in the city. Yesterday when asked why he wore such a happy smile he produced a large engraved watch appropriately engraved and presented to him by his firm in recognition of faithful service for fifteen years.

A Street Rumor

There have been reports on the street that Sullivan, the detective from the Bureau agency, who gave evidence at the police enquiry, was brought here by the Fire Underwriters' Association. A member of the association stated last evening that the underwriters had a detective here some months ago looking for the frebug, but that they were not responsible for bringing Sullivan here.

Didn't Stop For Good Bye

Another escape from jail occurred yesterday, when William Golding made a get-away. Golding was arrested a few days ago on a charge of fighting and sentenced to imprisonment. Yesterday, in company with other members of the chain gang, he was working about the court house and when the guard's attention was distracted left without the formality of a valedictory. He was still at large last night.

Ladies Frightened

A number of citizens, some of them ladies, complained yesterday afternoon, shortly after five o'clock that King street was being used like the street in a country village and that they were given a considerable fright. There was great hurrying of the ladies and children to the curb stones at the corner of King and Charlotte streets, when a number of large bullocks were driven by two youths through the streets. There was nothing left for the citizens to do but get out of the way or be knocked down by the frightened animals.

Irene Cormier's Case

Up to a late hour last night there had been no development in connection with the mysterious disappearance of Irene Cormier, who has been missing from home for six weeks. Police are busy on the case and are following a number of clues. Speaking of the matter last night Chief Clark said he had definite information, but he had had conversations with a number of persons and was sure that the little one is in good hands. He discredited the theory about her being taken by a band of gypsies. The secrecy as to her whereabouts seems to be maintained by fear that the girl may be forced back to the home which she left of her own accord.

The Little Things that add to personal appearance can be found at F. A. Dykeman & Co.'s store in abundance. Pleated frilling, in white, cream and black, in all widths, from 10 cents up to 60 cents. The new net Bolero which is selling so freely in the large American centres is on sale there in a large variety of styles from 25 cents to \$1.00. Their neckwear for Christmas has arrived, and these can be had in all conceivable shapes, 15 cents to \$2.50. Fichu lace collars, fancy stocks, bows, Bulgarian collars and many other styles. The handkerchiefs display is superb. Those daintily embroidered handkerchiefs half inch hem, that are made by the Swiss needle girls, 15 cents to 75 cents each.

The committee in charge of the Scottish Night have arranged for recitations to be held in the Master Painters' Hall, Market Building, corner Charlotte and North Market streets, this evening and Friday evening, at 8 o'clock. Members of St. Andrew's Society and their friends are invited to be present.

Under the Palms.

Come to the Portland Methodist church Tuesday evening, November 25th, and hear the musical event of the season, "Under the Palms," sung by a chorus of 100 voices. Soloists: Mrs. A. E. Loggie, soprano; Miss Gastz, contralto; J. Arthur Coster, tenor; James W. Griffin, bass; Mrs. Clara Lench, reader. Admission 25 cents.

THE PRINCE WILLIAM HOTEL.

FREE KINDERGARTEN TO NOTE

T. H. Estabrooks Advances Idea of Utilizing Referendum Feature of Commission Government—Excellent Reports Show St. John Kindergarten Well Known Abroad.

The idea of utilizing the referendum feature of the commission form of government in order to take a plebiscite on the question of having the public through constituted authority assume the responsibility of supporting the work of the kindergarten schools was advanced by T. H. Estabrooks at the annual meeting of the Free Kindergarten Association held in the Board of Trade rooms last evening. Mr. Estabrooks expressed the opinion that the work of the kindergarten schools was so generally appreciated that if the question of their maintenance was put to a referendum vote there would be no doubt whatever of the willingness of the rate payers to pay for the schools.

The meeting which was largely attended was presided over by the president of the association, Mrs. F. E. Holman. In opening the meeting the president delivered an interesting address, reviewing the work of the year, and offering suggestions for the extension of the usefulness of the kindergarten system. She gave an historical sketch of the growth of the movement in St. John from the first free kindergarten established in the Victoria School to the present time. At a recent meeting of the association, she said, it had been decided to ask the Board of Education to assist in the work by starting a training school in the Normal School, but the Superintendent of Education, while commending the work, had expressed the view that the board had no funds and something should be left to private enterprise. The speaker felt that the work was too important to be undertaken by a private association, and that the burden of maintaining the school properly belonged to the state. The school in Murray street, North End, with Miss Norton and Miss Kate Dishart in charge. Mrs. Manning Doherty gave an interesting address, dealing with kindergarten work in Toronto.

W. F. Hatheway regretted that the city commissioners were not present and said education generally in New Brunswick was backward as compared with other provinces.

T. H. Bullock said that if the Board of Education had its attention strongly directed to the needs of kindergartens the school trustees might be induced to take up the work as a public enterprise.

Rev. F. S. Porter and A. M. Belding spoke appreciatively of the work of the association.

Treasurer's Report.

The report of Mrs. C. F. Woodman, the treasurer, showed that the association had in hand on September 30th of last year a balance of \$1,070.80; that the receipts for the current year were \$2,222.00, and the expenditures \$2,124.27. The association starts the year with a balance on the right side of \$1,169.

Within the last two months the teachers have been given a slight increase in wages.

Secretary's Report.

The secretary, Miss M. G. Gunn, submitted a report on the season's work, stating that the fourth kindergarten, under the control of the association was opened in January in Murray street, North End, with Miss Norton and Miss Kate Dishart in charge.

Mrs. Manning Doherty gave an interesting address, dealing with kindergarten work in Toronto.

W. F. Hatheway regretted that the city commissioners were not present and said education generally in New Brunswick was backward as compared with other provinces.

T. H. Bullock said that if the Board of Education had its attention strongly directed to the needs of kindergartens the school trustees might be induced to take up the work as a public enterprise.

Rev. F. S. Porter and A. M. Belding spoke appreciatively of the work of the association.

Supt. Gilchrist will Bring 75 British Immigrants on Corsican Sailing December 10th.

The following letter received by a friend in this city from James Gilchrist, provincial immigration superintendent, shows just what sort of good work the local government's officers are doing in Great Britain:

London, W. C., Nov. 10th, 1913.

Dear Mack,—I thought you would like to know what I have been doing since coming over here besides interviewing a large number of intending settlers and making the acquaintance of the various officials, Dominion and others. I have delivered six illustrated lectures on the province, in Lincoln, Huntingdon, Cambridge and Kent and Mr. Bowdler has given as many more.

On Wednesday, 12th inst., we are going to Scotland for three weeks and will have two illustrated lectures every night at widely separate points from Inverness to Dumfries, amounting in all to over 30.

I am bringing out a large party with me, sailing on Dec. 10th, per steamer Corsican, about 75 in number, including married couples, single men and some few domestic servants.

These families are all experienced farmers.

I have also disposed of four of our ready-made farms with brief prospectus for a lot more, and there are others coming with capital sufficient to buy farms on their own account.

I will write you from Scotland giving list of places where we speak and other particulars.

Yours truly,
JAS. GILCHRIST.

A POLICE WOMAN FOR ST. JOHN CONSIDERED

The Executive Committee of the King's Daughters held a meeting yesterday afternoon. Mrs. George A. Henderson presided. After routine business was transacted, the desirability of having a police woman in the city was discussed.

Mrs. Henderson reported that the City of Ottawa employed two who made a specialty of looking after young girls on the streets in the evenings. She also spoke about the triennial convention of the King's Daughters recently held at Kingston, Ont.

A social meeting will be held at the guild next Saturday night when Mrs. Henderson will give a complete report of this convention.

SUGGESTS DOOR ON WEST SIDE

Matter of Removal of Coal Pocket Dropped After Discussion—Renewal Not Requested.

At the meeting of the City Council yesterday the mayor brought up the matter of the coal pocket on the West Side and said the council had not received an application from the Dominion Coal Company for a renewal of the lease. The council had notified the company some time ago that the lease would not be renewed. The lease would expire on December 1st.

Com. Wilmore said that the company should not be allowed to destroy the property of the travelling public, and ought to be required to go to the Dunn wharf.

Mayor Frink stated that he had suggested to the West Side delegation the possibility of granting the Dominion Coal Company an extension of the lease in order to have time to find new quarters. Later he had met Mr. MacKenzie of the Dominion Coal Company, who said the Dunn wharf would have to be reconstructed to serve the company's purposes, and considerable dredging would have to be done. Mr. MacKenzie thought it would take nine months before the Dunn wharf could be made available.

The mayor did not think the Dominion Coal Company would reconstruct the Dunn wharf without a long lease, and the city was not inclined to spend any more money on West Side wharves.

Com. Wilmore said the people of the West Side undoubtedly had a grievance. He suggested that the question of covering the floats might be considered. Mr. Starr had rather thought the idea a good one.

The mayor said he had received a telephone message from Mr. Cushing, saying that the Dominion Coal Company would take its steamers through the falls, and discharge coal near the C. P. R. tracks at the mill. In view of the C. P. R.'s acquisition of coal mines in Queens county, perhaps the railway would not take so much coal at St. John.

Com. Agar said it was easy to criticize. The city wanted the kind of business the Dominion Coal Company was bringing here—the transport of coal to the city. He thought that by putting a roof over the ferry floats, the grievance could be removed.

After some further discussion the matter was dropped.

THE HIGH TEA AT ST. PETER'S

Annual Entertainment Opened Last Evening with Large Patronage—Those in Charge.

With a large attendance and a generous patronage for the various attractions, the annual high tea of St. Peter's parish was opened last evening at St. Peter's Hall, Elm street.

The bean boards, wheel of fortune, spin wheels, and other popular games are conspicuous about the building and these were in full swing through the tea are along the usual line. Music furnished last evening by the St. Peter's orchestra.

The following are on the tea tables: Green table in charge of Mrs. James P. Quinoy; James Howard, William Kennedy, Thomas Martin, Thomas Loyd M. D. Sweeney, James Phillips, James O'Donnell, John McFarlane, Hilary Sweeney, Edwin Emery, William Dalton, James Kennedy, P. M. O'Neill, M. T. James, M. Gallinger, Mrs. J. H. Hall, Elm street, James Sprull, James Covey, Warton, G. Cady and William McAnulty; Misses Margaret McCarty, Nellie McFarlane, Annie Goslin, Annie Goslin, Edna Creary, Margaret Creary, Alice Casey, Annie and Nellie Tracey, Kathleen McIntyre, Ida Kennedy, Kathleen Moriarty, Mary Hanson, Margaret McPeck, May McAndrews, T. Dalton, Kathleen Quinn, Ames Marr, Mary Flynn.

McMillan, M. McMahon, Ida Keenan, J. N. Durick, J. Murphy, A. Kelly, J. Doherty, M. McCluskey, M. McGarrigle, G. Coll, Ethel Walsh, Jene Walsh, R. Kirvan, M. Courten, K. Coughlan, Jennie Burns, Annie Dever and Susan O'Hara.

Ice cream booth, Mrs. J. Hillis; Misses J. O'Neill, J. Cleary, T. McQuinn, E. Dryden, T. McElveth, E. Phillips, R. Phillips and M. McGovern.

Fancy table, Misses Mary Tierney, Mary Murphy, M. O'Brien, Mary Kelly, Mrs. J. Sweeney, Bricet Hillas, Mesdames Thomas Butler, Patrick Marry, Herbert Lyons, Marvaret Corkney, William Husker, Alfred Dever and Kathleen McMillan.

THE CANADIAN CLUB EXECUTIVE MEETS.

A meeting of the executive of the Canadian Club was held yesterday afternoon with George A. Henderson presiding. Routine business was transacted and some discussion held on plans for the winter months. Arrangements were made to have two able speakers address the members during the month of December. After the business of the meeting was concluded the following were elected to membership: R. J. Wilkins, C. M. Wilkins, J. H. Vaughan, Rev. W. N. Townsend, H. H. McEellan, Rev. W. H. Barracough, Dr. J. P. Dunlop, H. McCollough, Dr. J. D. Maher, Alfred Burley, G. S. McBeth, M. D. Emsack.

FIFTY POUNDS IS NEW PARCEL POST LIMIT

Washington, D. C., Nov. 24.—Postmaster-General Burleson has recommended to the Interstate Commerce Commission that the maximum weight of parcel post packages be increased from twenty to fifty pounds for all distances.

The Xmas season gifts will be numerous this year by the interest taken in the drawing that is going on at Neckwear Fancy Goods Co.
