

PECK, OF ALBERT, LIVENED UP THE LEGISLATURE

With Some Very Pertinent Comments on the Bond Transactions as

CARRIED OUT BY THE GOVERNMENT

Through Lack of Their Business Ability Province is Out Thousands of Dollars.

Fredericton, N. B., April 1.—Mr. Peck, of Alberta, was not to be deterred by the bald statements of the Provincial Secretary, who questioned his assertions that someone had made \$200,000 on the recent bond issue of the Government. Mr. Peck in about fifteen minutes last night not only reiterated his former statement, exposing the helplessness of the Government in financing, but produced more proof corroborating his previous statements on the subject. Mr. Peck said an expert bond broker had confirmed his statement that the Government had been the loser by \$200,000 on the bond deal.

He (Mr. Peck) says he purchased one of the bonds at \$8, sold it at par in American dollars, and deposited the American dollars at a premium of 14 per cent. This he thought fully substantiated his claim. Had the Government done as well as he had done, said the gentleman from Alberta, they would have been winners.

The speaker was at a loss to know what the Minister of Public Works was doing with all the monies he was handling. Certainly it was not being expended on the rural roads section, where it was very much needed. The farmers were being ignored by the Public Works Department, and nothing was being done in his county to render them any aid on the highways. In one section of Alberta County the roads were so miserable the farmers were selling their farms and moving out on the line of the automobile roads. They found it impossible to do business properly and with any degree of comfort in that district.

Turning his attention to the current accounts, he found the liability sheet showed \$1,700,000, and he was surprised to see among the listed assets the deficit of \$300,000. He was at a loss to figure out this kind of bookkeeping, but supposed it was because of that tangled system of keeping books which no one seemed to understand, or else it was a Venetian bubble.

The speaker believed it the duty of all members to work for the public good, and the Water Power Bill was worthy of special consideration. He hoped, he said, the Government could find some money to make a test of the foundations for a dam across the Pettaucodis, something very much needed.

The nationalization of the St. John harbor was another project that the Provincial Government should show some interest in, and endeavor to hasten its consummation.

He handed some good advice to the Premier, and said that if he wanted to be successful and useful he should get good men about him and rid himself of barnacles such as the Provincial Secretary, who is better adapted to finding out "how much a goose knows about geometry" than he is for the work of Provincial Secretary.

Mr. Peck's remarks were interspersed with witticisms that provoked much good humor and greatly aided in driving home his telling points. (Continued on page 2.)

SAVAGE ASSAULT BY COLORED MAN

On Young Woman and Those Who Came to Her Assistance—Now Arrested.

Truro, N. S., April 1.—Harry Tynes (colored) entered the home of Miss Millicent Archibald, Queen street, about four o'clock this morning and attempted to assault her in her room.

Miss Archibald struggled and fought off the man, who was striking her with his fists and choking her. Her cries for help brought to her rescue Principal Davis, of the Colchester Academy, and Mr. B. Angus, of the Academy staff, who were lodged in the house. The colored man struck Mr. Angus on the head with a club, rendering him unconscious. Principal Davis grappled with the man, and after a hard and desperate fight struck him with a chair. The blow knocked the man out. Mr. Davis then telephoned for the police and Policeman Johnson quickly was on the scene and handcuffed the colored man who was still lying on the floor.

Mr. Angus had recovered by this time from his knockout and was left to guard the prisoner while Mr. Davis and the police officer searched the house for more intruders. While they were upstairs Tynes recovered from his unconscious state and evading his guard, escaped through an open window and made his way to his home at Smith Island where he was afterwards arrested by Chief of Police Fraser, who was also called to the scene of the trouble.

Tynes was up before Stipendiary Clerk for preliminary examination and was remanded until Sunday.

FARMERS KICK AT FRANCHISE BILL

Declare That Certain Sections Are Aimed at Them Only.

Winnipeg, Man., April 1.—Denunciation of the section in the Franchise Bill before the Federal House which makes it illegal for any association to collect money for political purposes, was made at the conference of the United Farmers' Board of Political Workers held Wednesday.

The opinion expressed, according to W. H. Wood, secretary, that the clause was aimed at the farmers movement. Many felt, he said, that if the government actually proceeded to enact this legislation, popular indignation would be so aroused that no party opposing the government would need large campaign funds.

MEMBERS OFF ON SHORT HOLIDAY

Parliamentary Precincts Virtually Deserted UNTIL TUESDAY

When Railway Estimates Will Come up Again for Discussion.

Ottawa, April 1.—(Canadian Press)—The halls of parliament are virtually deserted today. Practically all the members who are within reasonable travelling distance of Ottawa have gone to their homes until next Tuesday, and those who live too far away to go home are for the most part wishing they were there.

The members during their absence will have the railway budget for discussion, and on their return, it is said the railway estimates will be among the first of the government business taken up.

When the House resumes on Tuesday night, it is expected to be only a matter of a few days until there is an announcement from the government in regard to the sittings of the special committees on Soldiers' Civil Re-establishment and Pensions. It is also estimated that there will likely be an announcement before either of these committees are called upon to begin work, to the effect that the government has not changed its attitude towards cash gratuities, but is as firmly opposed to them as ever.

This, it is understood, was intimated to a delegation of returned soldiers, which met the soldier members of the House earlier in the present week. Several of the returned soldier members of Parliament have also declared themselves as opposed to the idea of cash gratuities, and these say that they have not altered their opinions. They are, in some cases, in favor of the opinion that there should be an increase of pensions in certain directions, and also some provision for students and professional men who are having a hard time to get back to civilian life after their service overseas.

There is talk of the budget speech being delayed until the Prime Minister is back in the House, in which case, there is a prospect of three weeks or a month in duration, there will be no prorogation before almost the end of May. However, the members are talking of getting home about May 2, unless anything unforeseen happens.

BOLD ROBBERY AT OTTAWA BANK

Bandits Held up Officials and Got Away With \$1,000. All There Was on Hand.

Ottawa, April 1.—Three heavily armed men entered the Rideau and Chapel Street branch of the Bank of Nova Scotia here at 2:15 today, covered the teller with a revolver, drove the teller to the rear of the building, and a motion to quash the indictments which were returned by the Grand Jury under the new state law, against criminal syndicalism.

They were returned by the Grand Jury under the new state law, against criminal syndicalism.

They were returned by the Grand Jury under the new state law, against criminal syndicalism.

They were returned by the Grand Jury under the new state law, against criminal syndicalism.

WHY SHOULD AMERICA WANT SO LARGE NAVY

It Surely Cannot be That She Contemplates War With Britain.

USELESS FOR ANY OTHER PURPOSE

There is Need for An Energetic Educational Campaign to Awaken People to the Dangers of the Situation.

London, March 31.—There is growing uneasiness here that America's reported project of a mammoth naval building programme is a direct threat against the British Empire. Mischief makers whose ill-considered sneers are printed on both sides of the Atlantic are making matters worse.

The latest is the publication in the London Herald, a Coalition newspaper of a full page article by Robert Blatchford, a prominent publicist headed "America's Big Navy—Is she preparing to fight us?" Blatchford's article printed in the Daily Mail several years before the war is still quoted by the Northcliffe press to show what he did to warn the British nation.

In the article, Blatchford states that the United States is determined to have a navy stronger than the British Navy before 1924, and asks "Why—unless there is a visible danger of an Anglo-American war. Building this great armada would simply be waste of money for there is no other naval power against which such force be required. And American big navy men don't pretend there is. America has decided to build a gigantic navy in rivalry with ours." It is this sort of thing that I referred to in a recent article urging a plain, open discussion of all alleged grounds of suspicion between England and the United States.

Accompanying Blatchford's article is a photograph of Admiral Benson of the United States Navy, and a reprint statement made by Admiral Sims that early in the war Benson warned him, "Don't let the British pull the wool over your eyes. They would as soon fight them as the Germans."

Blatchford asks whether the American people would ever be used against them, or that the British people would consent to a crime as forcing war upon the British, and he says, "The situation between America and Britain is not at all the same as the pre-war situation between England and Germany. It is a matter of life and death for the British people, and it is a matter of life and death for the American people who ever be guilty of such a crime, provided the nature of the crime should be brought home to them and they understand."

Blatchford concludes by asking for \$5,000,000 "one quarter of the cost of our Dreadnought fleet, to be devoted to the purpose of awakening people all over the world to the peril in which they stand."

A CONSPIRACY AGAINST GOVT

In Chicago, and Those Concerned Must Stand Trial.

Chicago, April 1.—William Bruce Lloyd, millionaire seigneur at arms of the Communist Labor Party, and thirty-seven other defendants must stand trial on indictments charging them with conspiracy to overthrow the government by force. Judge Hebert, in criminal court, today dismissed a motion to quash the indictments which were returned by the Grand Jury under the new state law, against criminal syndicalism.

ROWELL AWAY TO WASHINGTON

Ottawa, April 1.—Hon. N. W. Rowell left yesterday for Washington, where he will remain until after Easter. He is acting minister of internal affairs and it is understood that he has gone to discuss a number of matters with the British Embassy affecting Canada. During the present session a bill will be presented to define the status and functions of the proposed Canadian representative at Washington, and it is believed that this is the principal matter which Mr. Rowell will take up with the British Ambassador and with the United States government.

MAROONED IN THE ICE FIELDS

London, April 1.—A wireless dispatch from Moscow says a dramatic message of distress has been received there from the Arctic ice-fields.

The message sent by wireless asked help for eighty men, women and children, perishing of cold and hunger aboard the steamer Sokoloff, which became ice-bound in the river at Chigra in January and finally drifted into the Kara sea.

Paris, April 1.—France is to receive 100,000 tons of coal monthly by a contract signed with the Belgian Government, in return for Belgian products, according to "Le Soir."

SUGAR \$2.00 ADVANCE

Hull, April 1.—The price of sugar was advanced two dollars per one hundred pounds here today.

BRITISH PRESS COMMENT ON HOME RULE BILL

London, April 1.—The comment of the London newspapers this morning on the vote yesterday in the House of Commons on the Home Rule Bill follows the usual party lines.

The "Daily News," which is equally antagonistic to the Premier and the bill, accuses Mr. Lloyd George of "cynically candid admissions" in the speech he delivered and declares that "the debate had only one effect, namely to express the hopeless impracticability of the measure." The news paper admits that if the bill "is to be forced through it can be made in committee a little less bad than it is" by converting the council and the two parliaments into a parliament and two councils. In this form says the "Daily News" the whole attitude of the Government's critics would be changed.

The "Daily Mail" which strongly supports the bill says the debate produced a marked change in the opinion of the members of the House and the bill will enter the committee stage with great Parliamentary goodwill and an earnest wish to make it sound and practicable measure.

The "Daily Telegraph" which opposes Home Rule in any form blames "the sedulous Irish in Ireland and their supporters in America for their refusal to accept any settlement except stark secession."

The "Daily Chronicle" which is staunchly Lloyd Georgean, believes the enactment of the bill is assured. "Even if Dublin sulks and refuses to carry out Home Rule because it cannot have an independent republic," says the "Daily Chronicle," "the fact that the proffered autonomy is successfully working in Belfast would make it impossible for Dublin to persist in its attitude of wilful secession."

None of the newspapers comment on the parallel drawn by the Premier between the Home Rule Bill and the "Eyes of Dublin" sulks and refuses to carry out Home Rule because it cannot have an independent republic."

The Freeman's Journal says: "The bill can have no other effect than to make confusion more confounded." The Irish Independent says: "The bill was framed on the assumption that the Irish people are idiots and any amount of system of government is good enough for them."

TURK LEADER SAYS WAR WITH BRITAIN

Reported That All Turkey Except Constantinople is Against Allies.

Montreal, April 1.—A London cable to the Montreal "Star" says: Mustafa Kemal, leader of the Turkish Nationalist rebels, has declared war on Great Britain, a dispatch from the Constantinople correspondent of the Morning Post said today.

Buda Pest despatches yesterday quoted the newspaper Pest said as asserting that all of Turkey except Constantinople was in rebellion against the Allies.

ELECTION ACT AMENDED AS TO VOTERS' LISTS

So That Women Who Failed to Register Because They Did Not Want to

MAY STILL BE DRIVEN TO POLLS

When the Referendum on Prohibition is Taken a Few Months Hence.

Assembly Chamber, April 1st, 1920.—The House met at 8 o'clock.

Mr. Burdell presented the report of the committee on standing rules. Mr. LeBlanc presented the report of the committee on Municipalities.

Mr. Baxter introduced a bill relating to street paving and sidewalks in the City of St. John.

Hon. Mr. Tweeddale introduced a bill to provide lime stone to the farms of New Brunswick. He explained that the object of the measure was to authorize the borrowing of \$10,000 under the Provincial Loans Act to pay for a large lime deposit in the Parish of Simonds, St. John County. The bill would amend the New Brunswick Election Act.

Mr. Messervy, for Mr. Smith, (Sunbury) introduced a bill to enable the authorities of St. John's Church, Orancton, to borrow money. He said that on behalf of the people interested he wished to tender his thanks to Dr. Campbell for his services in preparing the bill which he had given free of charge.

Mr. Campbell introduced a bill to amend the Act incorporating the Church of English Inhabitants of St. John.

Hon. Mr. Byrne introduced a bill to amend the New Brunswick Election Act. He explained that the object of the bill was to provide machinery for adding names to voters' lists which had been omitted by revisors. After the lists have been prepared and forwarded to the Secretary-Treasurer, any man or woman qualified to vote could have his or her name added by making affidavit, setting forth the facts and forwarding the same to the Chairman of the Board of Revisors. In cases omitted from the revisors' lists after the same had passed to the sheriff, provision was made for the issuing of certificates by the Secretary-Treasurer, which on presentation to the Deputy Returning Officer would give the right to vote.

Hon. Mr. Byrne introduced a bill to amend the Municipalities Act. He said that the bill provided that areas consisting of 1,000 acres and having a population of 250 could be incorporated. A petition signed by forty ratepayers, after due notice had been given, would be forwarded to the Provincial Secretary-Treasurer who, on taking a census could declare the village incorporated and grant it a name. The council of such village would consist of three members to be elected annually, and they would be given powers with respect to administration of affairs of the village, similar to those contained in the Municipalities and Towns Incorporation Act. The officials to be appointed would be a Treasurer and an Assessor, and both offices could be filled by the same person. He said that he had prepared the bill in response to a demand which came to him from different sections of the province and he trusted it would have the careful consideration of hon. members.

AFLOAT 16 HOURS IN A SEAPLANE

British Officer and Lady Picked up at Sea.

Baltimore, Md., April 1.—After having been adrift in a seaplane for sixteen hours without food or water, Major Sidney E. Parker, of the British Army and Miss Blanche Fraser, were rescued here today on the steamship Hilton, by which they were picked up on Sunday last.

INTER-PROVINCIAL CONFERENCE SOON

To Take Into Consideration Change in B. N. A. Act.

A MATTER OF COURTESY For the Imperial Parliament Can Amend the Act Without Consulting Provinces at All.

Ottawa, April 1.—An interprovincial conference will be held this summer on the question of seeking legislation which would confer on the Dominion Parliament, the right of amending the constitution under the B. N. A. Act. The exchange of views on the subject so far is informal and unofficial. For the most part the proposition is viewed with favor, though Premier Martin of Saskatchewan is out against it.

If such an amendment is secured, the idea at Ottawa is that to give effect to it the concurrence of all the provinces should be necessary. As matters stand at present, and differing from a view that is widely prevalent, the Imperial Parliament, on its own initiative or at the instance of the Dominion Parliament, may without consulting any province.

RAILWAY MAN WAS DISCHARGED

Jury Found Him Not Guilty of Participation in Thefts.

Special to The Standard. Fredericton, April 1.—After being out only a few minutes, the jury with the case of James Dorcas, fireman on the C. N. R., returned a verdict this morning of not guilty on the charge of receiving liquor knowing it to be stolen from the railway. The accused was the only one of a dozen railway men charged in theft of liquor at Napusquam who had pleaded not guilty. P. J. Hughes appeared for the defence and upon his motion Dorcas was discharged from custody.

TO DEAL WITH KENORA LIQUOR SITUATION

Government May Take Over Bonded Warehouses if Province Willing.

Ottawa, April 1.—The Dominion Government is considering some action in regard to the liquor situation at Kenora, arising out of bonded warehouses for liquor now in operation there. The matter has been discussed in the House of Commons at Kenora, arising out of bonded warehouses for liquor now in operation there. The matter has been discussed in the House of Commons at Kenora, arising out of bonded warehouses for liquor now in operation there.

The question is whether to continue or not the system whereby licensing continues the warehouse the consent of the province should be secured. Such an arrangement was entered into in 1918. Ontario will be willing to discontinue the warehouse at Kenora, according to a statement made in official circles here today and has so intimated to the government.

Some of the cabinet are favorable to being guided by the will of the provinces, while others incline to the view that the matter is essentially one that relates to the inland revenue Department and with which the province has nothing whatever to do. A bonded warehouse it is pointed out, is one in which anything subject to duty or excise, may be stored and in no sense restricted to liquor. The question is one of policy to be determined, but the seemingly prevalent view is that so far as liquor storage is concerned, the will of the province will prevail.

ST. JOHN BILLS IN COMMITTEE

Yesterday, and as Usual May With Considerable Opposition.

CITY DELEGATION WAS ON HAND

Bills from Lancaster Took up Most Time and Will be Further Considered.

Special to The Standard. Fredericton, April 1.—It takes St. John to add pep to Legislative proceedings. It would be dry old session if it was not for St. John bills coming before the committees.

There seems to be a number of members always ready to oppose and block any measure, good, bad or indifferent, proposed in behalf of St. John City or County.

Today was St. John day, when several bills were before the municipal pallies committee, and the old enmity towards anything pertaining to the city again cropped out in fibes and jobs.

An Act to enable the Municipality to secure sites for industrial purposes consumed a great portion of the forenoon session of the committee. The purpose of the bill is to secure authority for appropriation of property for industrial purposes.

Representatives from St. John City were opposed to having the city included in this bill. There were those from the city, however, who believed they should have just such an act in order to help in the greater and better St. John City movement.

There was much discussion on the subject with nothing definite being accomplished. The bill will again be taken up in private session. A bill to provide for collecting in the Parish of Lancaster during certain seasons when the tramps are numerous and break into summer cottages, was the cause of some to-do. A farmer of the parish appeared in opposition to the bill. As it stood the all year residents, mostly farmers, were called upon to pay sixty per cent of the cost of maintaining the police force there. He thought the cottagers were too numerous. In his opinion, was that his own farm was being protected, that the cottagers were contributing their share towards helping up the schools for the children of the natives, and made no complaint. The bill was thrashed out pro and con without anything definite being accomplished, and was finally referred to a private session of the committee.

Lancaster had another bill dealing with Rates and Taxes. The bill provides that no person shall use a horse or operate a motor vehicle on any of the public roads in said parish of Lancaster for a period in excess of thirty days continuously in any one year unless assessed in said parish on the same.

The proponents of the bill propose by the measure to place an extra tax upon motor vehicles to secure a fund which shall go into the bettering of the streets. The measure as it stands was considered rather drastic and considerable feeling was stirred up by the disputants. It also will be accorded a private hearing.

USE OF AIRCRAFT FOR FOREST PATROL

Is Becoming More Common, and Work Will be Greatly Extended This Year.

Ottawa, April 1.—The use of aircraft for forest patrol work and forest mapping is to be extended on a greater scale this season than ever, although the whole question of air patrol in forest ranging is still in its experimental stage.

Last year the Canada Air Board arranged that the St. Maurice forest protective association use two air craft and much good work was carried out. This season the Laurentide Paper and Paper Company is going to use the two machines which the St. Maurice Association had last year. It is also learned that Price Brothers, Quebec, have engaged an aviator who is now in England buying a hydroplane to carry out experimental mapping and ranging work this season. In addition the Air Board, in conjunction with provincial authorities, is contemplating further experiments along the lines carried out last year.

While it is not believed that air patrol can displace existing ground organizations, according to Mr. Leavitt, Chief Forester, Commission of Conservation, it should be able to reduce the necessity of further large extensions and to greatly increase the effectiveness of forest fire prevention, provided the cost does not prove prohibitive, as it is believed will not be the case. It is significant, Mr. Leavitt points out, that the United States Air Service is requesting authority for a large programme of air patrol over the forests of the Western States. The possibilities of air craft in forest mapping appear decidedly encouraging.

JAPANESE EMPEROR ILL

Honolulu, April 1.—Emperor Yoshihito, of Japan, is ill at his winter villa in Hawaii, according to a dispatch from a Tokyo cable to the Nippon Jiji, a Japanese language newspaper here.

GERMANY EVADING FULFILLMENT OF TREATY CLAUSES 12,000 Field Guns and 6,000 Planes Discovered by Allied Commissioners.

FRANCE IS SUSPICIOUS All Sorts of Difficulties Are Raised by Germans in Effort to Gain Time.

Paris March 31.—Three thousand five hundred three-inch field guns have been found by the Inter-Allied Commission in the vicinity of Berlin...

These discoveries and other information in possession of the French authorities have caused considerable skepticism here as to the reason given for the request of the Berlin Government that it be permitted to send troops into the neutral and occupied zones.

The fact that this request came before the Germans had executed any material clause of the treaty, although the time limit has expired on some three acres of its provisions, is declared in French official circles as laying the Germans open to suspicion of making another move in their effort to avoid the carrying out of the engagements they entered into at Versailles.

Particular significance is attached by the French to the discovery of the guns, in view of the fact that the Germans, in a communication to the Allied Commission to which their excess of war material should have been delivered by March 10, said that it made no difference whether this material be delivered or destroyed, and that they preferred to destroy it.

Thus far, however, it was stated by a high official here yesterday, no evidence had been obtained by the commission of any destruction of material by the Germans. Lists have been furnished, it was said, but it has been impossible to verify them up to this time. Premier Millerand declared yesterday in the Chamber of Deputies.

36 Clauses Ignored. In addition to her failure to take any steps to reduce the German armed force to 200,000 men, although the time limit expires in 15 days, as pointed out by M. Millerand, Germany has done little or nothing to regulate the arms, toward execution of about 36 clauses of the treaty on which the limit has already expired.

The only provision so far as France is concerned that has been duly executed is that providing for the delivery of seeds for the spring planting in the devastated regions. It is admitted however that something has been done regarding some of the general provisions such as reduction of the military strength.

Resituation of factory equipment and other things taken from Northern France has been in progress since the armistice but is far from being completed. An inventory of the aeronautic material has been in progress, but no machines have been delivered and the emission of 100,000,000 francs in bonds, the proceeds of which are to be applied to reparations, has not yet been executed.

The delivery of submarines has only been partly regulated, while nothing has been done regarding the delivery of arms and munitions or demobilization of the naval forces. Some of these questions, such as the emission of bonds, under consideration by the reparations commission require a great deal of negotiation, but it is held by the French that with regard to other matters the Germans have raised all sorts of difficulties with the object of gaining time in the hope of evading fulfillment of them.

Non-Delivery of Coal. The point on which the French are declared to be most sensitive at this time is the non-delivery of coal, as provided in the peace treaty. The treaty fixed the maximum at 20,000,000 tons a year, but the reparations commission fixed the annual amount at 10,400,000 tons on the basis of Germany's production in the month of December. Deliveries, however, fell from 300,000 to 150,000 tons monthly.

This is held to be good proof that it is Germany's intention to evade her obligations, as her ability to deliver 800,000 tons a month was determined by the reparations commission. It is said in official circles that either the occupation of the Ruhr Valley by German troops or the organization of a separate Government there would have an undermining effect, if it is not the direct object of further dodging of the execution of the treaty terms.

Charges that the military party in Germany has been secretly working on a reorganization plan for the German army are made by the Journal today. Investigation has revealed this, it declares, and has shown that the list of men who can be mobilized at the first call totals 300,000 in Bavaria alone.

LABOR TROUBLES AT TORONTO. Toronto, April 1.—No labor troubles in connection with the building industry this summer are anticipated by officials of the Builders' Exchange. It is stated that negotiations with the various unions have resulted amicably in practically all cases.

Do not suffer from PILES. Do not suffer from PILES. Do not suffer from PILES. Do not suffer from PILES. Do not suffer from PILES.

Do not suffer from PILES. Do not suffer from PILES. Do not suffer from PILES. Do not suffer from PILES. Do not suffer from PILES.

HOUSE EXPELS FIVE SOCIALISTS Large Majority of New York State Legislature Votes for Expulsion.

Albany, N. Y., April 1.—The five Socialist members of the State Assembly—Louis Waldman and August Colasoun, of New York; Samuel A. Dewitt and Samuel Orr, of the Bronx; and Charles Sokolon, of Kings—were expelled from the Lower House of the Legislature today by an overwhelming majority.

The next step in the fight against the Socialist party, characterized as a "traitorous party" by the Assembly Judiciary Committee which recommended after investigation into the charges of disloyalty against the five Socialist assemblymen, that they be expelled from the assembly will be taken in the legislative tomorrow.

Bills designed to carry out the recommendations of the Judiciary Committee that "appropriate legislation be enacted to the end that hereafter no party, group or political organization in which aliens are acceptable as members, or whose principles, policies or programs are responsive to or determined by an organization, national or state, composed of persons not members of the electorate of the nation or state, shall be privileged to occupy the position of a political party on the official ballot of this state," are expected to be introduced.

"Treason has been committed in the New York Assembly by Republicans and Democrats with few honorable exceptions," says a statement issued today by Louis Waldman and Charles Sokolon, two of the expelled Socialist assemblymen.

New York, April 1.—The five Socialist members of the New York State Assembly today will appeal to the State Supreme Court and if necessary to the United States Supreme Court. John Block, State Chairman of the Socialist Party, announced tonight.

"The fact that action was taken by majority of the assembly does not establish the constitutionality of that action in any way," he said. "The action was an invasion of the constitutional rights of the voters of the five districts the expelled assemblymen represented, as well as of these five men themselves."

Aroostook Jct. Aroostook Jct., March 24.—An entertainment, and comedietta, was given at Aroostook Jct. last week, by the Ladies' Society, and was one of the most successful ever held here, the rehearsal work entailing strenuous work and great credit is due to Mrs. Hooser, Mrs. H. Sloat, Miss Slipp and others.

Program: Opening chorus—O Canada. Reading, hamorons—Miss Slipp. Song, "Whistle Your Troubles Away"—Clifford and Lather Kerrigan. Exercise, "Mother and Helpers". Four little girls.

Recitation in dialects, "The Charge of the Light Brigade"—Mr. Langley. Song—"Why Can't a Girl be a Soldier"—Mrs. Miller. Recitation, "The Nurse"—Glenna Monthie.

Solo—Miss Miller. Intermission—Sale of candy. Comedietta, "A Case of Suspicion". Duet, "Lullaby Time"—Mrs. Hooser and Miss Miller. Tableaux, "Justice".

The whistling songs by the Kerrigan boys gave much amusement especially to the children present, but the persistent whistling of the boys at home caused their father to threaten disaster to anyone who taught them any more whistling songs, as they whistled in the early morning, at noon, evening, and even in the middle of the night, causing all kinds of trouble in a happy family. The great surprise in the entertainment was the excellent dramatic talent in the comedietta, which certainly should be further developed.

FRENCH POSTAL RATES. Paris, April 1.—Increase in French postal rates went into effect today. Domestic letters will carry 25 centimes instead of 15 centimes, but letters to foreign points will go at the old rates. Domestic telegraph rates have also been increased.

"Laxative Bromo Quinine Tablets" E. W. Brown

MARRIED. COTTER-DIXON.—At the home of the bride, March 31, 1920, by the Rev. L. J. Wason, Ashley Alexander Cotter, of Fredericton, N. B., to Lulu Jennie, daughter of Capt. James A. Dixon and Mrs. Dixon, of Young's Cove Road, Queens Co., N. B.

DIED. CLIFFORD.—In this city on April 1, 1920, Ella May, beloved wife of Armstrong B. Clifford, leaving her husband, three sons, one daughter and one brother to mourn. A sleep in Jesus. Notice of funeral hereafter.

IN MEMORIAM. In loving memory of John T. Patterson, who departed this life April 2nd, 1918. Two years have passed, but still we miss thee. Never shall thy memory fade. Loving thoughts shall always linger round the place where thou art laid. WIFE AND FAMILY.

PECK, OF ALBERT, LIVENED UP THE LEGISLATURE With Some Very Pertinent Comments on the Bond Transactions.

(Official Report.) (Continued from page 1.) Mr. Peck said that since occupying a seat in the House he had used his influence on behalf of the County of York. The hon. Minister had said that a lot of time had been wasted in speeches on the floor, yet he had read newspaper clippings and had taken a lot of time. The hon. Provincial Secretary had made an onslaught on him (Peck) because of a reference which he had made in a speech on the floor. He had pointed out that \$1,000,000 of bonds which the Government had sold at 96 had afterwards been turned over at 106 to the small investors. The Government was seeking authority to sell bonds to the amount of \$5,000,000 for the permanent bridge. He believed those bonds should be in small denominations and sold to the farmers and the small investors of the Province.

The Sale of Bonds. As it was not a party question, every hon. member should take hold and help. The hon. Minister of Lands and Mines should commend those bonds to the lumbermen, who would have plenty of money in the fall. The hon. Minister of Agriculture might persuade the farmers to purchase them. With reference to the hon. Minister of Public Works, the general impression prevailed that he was the spendthrift of the administration. He (Peck) claimed that the government had made a blunder in selling bonds to the value of \$2,250,000 in New York, at a time when the exchange rate was rising against Canada. Those bonds had been bought up quickly at 96, and the hon. Minister had made a blunder in selling them at 106. He claimed that \$200,000 had been lost on that transaction. A practical bond dealer informed him that he was absolutely correct in his statements. He had purchased one bond at 99 1/2 and had afterwards sold it for \$100 in America. He had deposited the money in the bank and had been paid a premium of 14 1/2 p. c. Had the Government taken the same course they would have made \$450,000 on the transaction. He had the coupon and the bank receipt, which he could produce in support of his statement. The hon. Provincial Secretary had made an attack on him, and he thought at the time that he was trying to intimidate a young member of the House. He had written a report on the use of the hon. Provincial Secretary. He (Peck) had been referred to as a "wizard" and a "sucker".

He had heard a discussion on Patriotic Potatoes during the last session, and had concluded that the hon. Minister was certainly in the wrong when he said that any hon. member had benefited from the transaction. The hon. member who had spoken with such a sad face that he had heard a discussion on Patriotic Potatoes during the last session, and had concluded that the hon. Minister was certainly in the wrong when he said that any hon. member had benefited from the transaction. The hon. member who had spoken with such a sad face that he had heard a discussion on Patriotic Potatoes during the last session, and had concluded that the hon. Minister was certainly in the wrong when he said that any hon. member had benefited from the transaction.

The hon. Minister of Public Works was spending a lot of money on the roads, although he was doing some good work. The rate of the roads was in a bad state, and the farmers talked of abandoning their farms and moving out to the auto roads. He regretted that the hon. Minister had not been able to persuade the Federal Government to take over the roads, as had been done by British Columbia. The rate of the Province were in an alarming state, and the debt now totalled \$22,000,000. He had a suggestion to offer, which he thought the Government should act upon. Nine-tenths of the stockholders of banks doing business in the Province lived outside. The banks paid 15 p. c. on deposits. He believed they should be compelled by law to carry a certain amount of the bonds of the

Services At The Cathedral Members of Holy Name Society Acted as Guard of Honor at Virgin's Chapel Last Night — Pontifical Mass Celebrated—Services Today.

All last night, in the Cathedral on Water Street, members of the Holy Name Society acted as guard of honor at the Virgin's Chapel, where the Blessed Sacrament was placed in the Respository yesterday morning. At 9 o'clock yesterday morning Solemn Pontifical Mass was celebrated. His Lordship Bishop LeBlanc presided, with Rev. Dr. Louis Guerin, C. S. C., St. Joseph's University, as high priest. The Rev. Wm. M. Duke was deacon, and Rev. J. Elhatton, of the Chatham diocese, sub-deacon. Rev. P. Hantgan, Rev. F. F. Walker and Rev. Harold L. Coughlan were the deacons of the holy oils. The chanters were Rev. M. P. Howard, Kingsclear, and Rev. J. Walter Holland, St. George. Rev. A. P. Allen and Rev. R. McCarthy were masters of ceremonies. Rev. J. McEbert, Sussex, Rev. P. H. D. Casarain, port chaplain, and Rev. Simon Oram were in the sanctuary.

During the Mass the holy oils for the use of the diocese were blessed by His Lordship. At the conclusion of the Holy Sacrifice, a procession was made to the altar of the Virgin, where the Blessed Sacrament, followed by the priests and altar boys, to the Altar of Reparation in the Virgin's Chapel. The Sacred Host will remain there until the Mass of the Presanctified this morning.

Last evening there was tenebrae and sermon. This morning the Mass of the Presanctified will take place, the Way of the Cross will be recited in the afternoon, and in the evening there will be tenebrae and a sermon. Rev. J. Elhatton, who acted as sub-deacon yesterday morning, is the representative of the Chatham diocese, for whom the oils were also blessed.

PREPARATORY SERVICES In all the Anglican Churches last evening services in preparation for the Holy Communion were held.

EASTER TRAVEL WILL BE HEAVY According to Present Indications at Montreal.

Montreal, April 1.—Easter travel promises to be heavy this year out of Montreal, according to indications furnished. Enquiries at the Windsor Station tonight elicited the information that the Canadian Pacific trains were carrying large numbers of travellers out of town in all directions, and that the Grand Trunk officials at Bonaventure station said much the same story as was told at Windsor station. The absence of special holiday fares, increases in regular fares and higher rate of exchange had all appeared to cut down tourist traffic to the United States to the minimum.

Province and allow interest at the rate of 5 p. c. The Government had a deficit in 1919 of \$27,686, and strange to say, were showing it on the books as an asset.

The matters he had referred to were of a kind upon which all could unite. It was an age of reconstruction was that of St. John harbor development of water powers was the most important question of the day, and should not be a matter of party politics. He recently had been in Ottawa and had observed the wonderful results of the application of hydro-electric development. The reference which had been made to water power development in connection with the introduction of the Water Power Bill, he agreed with, but he regretted that no reference had been made to the great dam at Hopewell Cape and the possibilities of developing power in that section of the country. Another matter of importance was that of St. John harbor development. Lumber destined for overseas was held up there in considerable quantities. If there was not an improvement in the lumber market elsewhere. Even at the present time some lumber was being shipped to England by way of Boston. The Federal subsidy was another matter of importance, and it was a fact recognized by all that New Brunswick had not received her full share of the value of the Northwest lands. In connection with this matter he had a word of advice to give the Premier, and that was the next time he went to Ottawa as a member of the Terms Delegation, not to rush at first into a Liberal Convention and have the word sent out that that was what he went for. If he received the same treatment there which he gave to his opponents, this Province would get very little. The Premier was a young business man who should be of value whether in opposition or in the Government. What he should do, however, was to get about him the best men obtainable, shake off the barnacles and gather new cabinet timber.

A DANGEROUS WARNING —BLEEDING GUMS Are your gums tender? Do they bleed when brushed? If so—watch out for Pyorrhoea.

This disease of the gums, which afflicts four out of five people over forty, not only destroys the teeth, but often wrecks the health.

In Pyorrhoea, the gums become spongy, then recede; the teeth decay, loosen and fall out or must be extracted to rid the system of the infecting Pyorrhoea germs which breed in pockets about them. These germs lower the body's vitality and cause many diseases.

You can keep Pyorrhoea away. Visit your dentist often for tooth and gum inspection, and use Forhan's For the Gums.

Forhan's For the Gums prevents Pyorrhoea—or checks its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums firm and healthy—the teeth white and clean.

Start using it today. If your gums have receded, use Forhan's according to directions, and consult a dentist immediately for special treatment.

35 and 60c tubes in Canada and U. S. If your druggist cannot supply you, send us direct and we will mail tube postpaid.

TAXATION OF WAR FORTUNES IS PROPOSED

Sir John Anderson Says Fifteen Thousand Million Dollars Can be Obtained in Britain.

SAME SCHEME MAY BE TRIED IN THIS COUNTRY

Would Make All Profits Disgorge Money Obtained Because of War Conditions With Exception of \$25,000.

By Alexander M. Thompson. (Expert Writer on Social and Labor Topics.)

The clearest point of light which has yet been shed upon the darkness of our financial problems shines in the scheme submitted to the Parliamentary committee on war fortunes taxation by Sir John Anderson, chairman of the board of inland revenue. Sir John confidently claims that this scheme five thousand million dollars can be recovered from 340,000 persons whose wealth has increased more than \$25,000 since 1914.

He admits difficulties in collection. But he suggests that payment might be made by extended instalments as he adopts the suggestion that the tax might be a limited partnership with the government, by which the latter's claim would be covered by interest in the business or property involved.

Sir John Anderson, of course, does not pretend that the scheme will itself solve our financial difficulties, but, as he says, "it opens up a vista." It is a base from which many avenues may diverge. Its importance lies in the fact that it definitely tabulates the principle that the ought to be no private property in the margins, surplus and increments of the State's production and that which have accidentally resulted from the abnormal conditions of war.

Many men have made fortunes of these margins simply because the State's repetition of the principle could not help them, however narrow, become sources of huge profit through the unprecedented vastness of the State's production and that true that some unscrupulous money grabbers deliberately exploited the opportunity, but while some were honest and some were not, the fact is that it is a fact to be charitably remembered upon them.

Under the profits, in spite of themselves, through the fluctuations of international exchanges. The shortage of goods has automatically increased the capital of property-owners. And now in the steady upward-sweep of values we are all so "crowded" by prices that we are all impelled, in self-protection, sympathetically with my views and bitter anger against the profiteers, at the same time showed most cheerful readiness to "do a bit" on their own. One lady, for instance, wrote from a little Midland town to say how awfully sorry she was for the poor officer whose faithful efforts to find a flat I had described, and then offered very kindly to let him have two rooms in her house. The rooms, she mentioned, were not luxuriously furnished but "homely," and "we have no bath, but that could be managed all right." She was good enough to offer these two rooms for \$50 a week.

While landlords of houses at low rentals have been legally prevented from profiteering, the unrestricted tenancy of these houses, by allowing restrictions on landlords is to cease, the position of the homeless will become desperate indeed.

In the case of business premises the rents are soaring to utterly inaccessible heights. I hear of a man who pays \$200 a year for permission to sit

Muscles Mean Nothing when the nerves fall down. The nerves control the muscles. The stomach feeds the muscles.

HAWKERS' NERVE & STOMACH TONIC has no equal as a nerve food, blood maker and invigorator. It is an excellent remedy for depression and dependency.

Read what Rev. Wm. Lawson, formerly of German Street Church, St. John, has to say.

"On several occasions I have suffered from severe nervous exhaustion and general debility. I was advised to use Hawker's Nerve and Stomach Tonic and have great pleasure in testifying to its restoring, tonic, invigorating, and building up properties."

Sold by all druggists and general stores at 50c. The same price everywhere. Please genuine Hawker's Company's name. HAWKERS' LITTLE NERVE PILLS. IS A SAFE AND SPEEDY REMEDY FOR ALL COLIC AND COLDS. HAWKERS' LITTLE NERVE PILLS. CORRECTS ALL STOMACHILLS. THE CANADIAN DRUG CO., Limited, ST. JOHN, N. B.

TAXATION OF WAR FORTUNES IS PROPOSED

Sir John Anderson Says Five Thousand Million Dollars Can be Obtained in Britain.

SAME SCHEME MAY BE TRIED IN THIS COUNTRY

Would Make All Profiteers Disgorge Money Obtained Because of War Conditions, With Exception of \$25,000

By Alexander M. Thompson. (Expert Writer on Social and Labor Topics.)

The clearest point of light which has been shed upon the darkness of our financial problems shines in the scheme submitted to the Parliamentary committee on war fortunes taxation by Sir John Anderson, chairman of the board of inland revenue.

Sir John Anderson, of course, does not pretend that the scheme will by itself solve our financial difficulties, but, as he says, "it opens up a wide vista."

Many men have made fortunes out of these margins simply because they could not help themselves. Contracts with any sort of margin, however narrow, become sources of huge profit through the unprecedented vastness of the State's repetition orders.

Traders made profits, in spite of themselves, through the fluctuation of international exchanges. The shortage of houses has automatically increased the capital of property-owners and now, in the steady upward-sweep of values, we are all so "crowded" by prices that we are all impelled, in self-protection, to push our claims, whether for our labor or our belongings.

Our purpose should be to humanize the State in all its ramifications. We have to make the people understand that the time is for ever past when they realize by bountiful experience that the State is not an apannage of royal privilege, nor a grinding political machine devised for the furtherance of ambitious vanities, but that it represents the beneficent majesty of their collective soul.

TO A SOVEREIGN. Lines written on finding one after many years in an old coat pocket. (After Robert Burns.)

Here's One You Can Spring. Once in a while a newspaper prints something extraordinarily true. We do not know who was responsible for this one in the Toronto Globe, the of New York or the editor, but it is worth passing on.

TO SETTLE TROUBLES IN RUHR DISTRICT

Extension of Time to Discuss Proposed Terms Has Been Arranged.

Dusseldorf, April 1.—(By the A. P.)—An agreement was reached at Muenster last night upon a compromise arrangement for settling the troubles in the Ruhr District, according to the editor of the Moderate Labor newspaper in this city.

There can be nothing simpler than taking a convenient little tablet four times each day until your weight is reduced to normal.

RULES FOR SUCCESS FROM MANY SOURCES

Marshall Field & Co.'s rules for success: To do the right thing, at the right time, in the right way; to do some things better than they were ever done before; to eliminate error; to know both sides of the question; to work for the love of the work; to anticipate requirements; to develop resources; to recognize no impediment; to master circumstances; to act from reason rather than rule; to be satisfied with nothing short of perfection.

Put all of your eggs in one basket and watch that basket.—Carnegie. Employ an hour and a half every other evening in some important and constructive cultivation of the mind.—Arnold Bennett.

PROVINCIAL LABORATORY'S GOOD WORK

Wisdom of Appointment of Dr. Abramson Shown by Work Which Has Been Done.

NEARLY THREE THOUSAND TESTS

During the Year—Chief of Laboratories Recommends Changes and Extension to Enhance Usefulness of Laboratory.

The report of Dr. H. L. Abramson, chief of laboratories, for the year 1919-20, is a most interesting document and reveals the wonderful work which has been accomplished by him since his appointment to the position, and shows the health department made no mistake when they secured his services. Dr. Abramson makes a number of recommendations for the increasing of the usefulness of the laboratory and these would receive sympathetic consideration by the government.

The report is as follows: Dr. George G. Meiville, Chief Medical Officer, Fredericton, N. B. I beg to submit the following report, for transmission to the Honorable, the Minister of Health.

H. L. ABRAMSON, Chief of Laboratories. The matter for this report has been compiled largely in tables which accompany this note. Table I shows that 2200 examinations have been performed. Of these, 569 have been done for the General Public Hospital of St. John under a grant to the Laboratory from the Commissioners of the General Public Hospital. This grant is \$500.00 per annum. This grant is to be increased to \$1000.00 per year beginning with August, 1919.

Considerable of the outside work has been done for the Department of Soldiers' Civil Re-establishment. This has been largely Wassermann Tests. Table II shows the work done for the city of St. John under a special grant for this purpose. It will be noted that 410 examinations for fat content and 163 examinations for bacterial count have been done, making a total of 569 examinations. Next year, it is expected that the number of examinations will be considerably increased.

Table III presents the distribution of Vaccine Virus (Smallpox) throughout the province. It will be noted that 23,600 capillaries have been distributed. A number of the Sub-District Boards of Health have not, at this writing, reimbursed the Department for vaccine sent them. This is due, in all probability to the fact that the boards have not met for the passing of bills. Table IV presents the cash receipts distributed according to the character of the work performed. It is to be noted that the total is \$3995.64. Except for one item of \$227.50 which was in payment of Vaccine Virus, all of this money was received for laboratory work done. This total does not include the \$1000.00 grant from the city of St. John, which is being sent to the laboratory now. It includes the following table shows the work done at the laboratory during the year ending October 31, 1919:

Examinations.	Gen. Pub. Hospital	Outside.	Total.
Urine	153	413	566
Sputum	187	211	398
Water	24	65	89
Stomach Contents	6	12	18
For Treponema Pallidum	21	144	175
Feces	7	33	40
Milk, Human	11	11	22
Wild	153	153	306
Throat Cultures	145	114	259
Wassermann Tests	101	368	469
Blood Counts	3	46	49
Autogenous Vaccines	2	3	5
Spinal Fluid	17	8	25
Blood Cultures	2	3	5
Section of Tissue	7	39	46
Other Bacteriological	11	22	33
Animal Inoculations	1	1	2
Total	655	1641	2296

N. B.—The above is exclusive of bacteriological and chemical control of the milk supply of the City of St. John, done under a special grant from the city of St. John, N. B. which numbered 669.

From A Child Was Constipated

According to the best medical authorities, fully three-fourths of the people of the civilized world suffer in some form from constiveness or irregular action of the bowels. There is no doubt that many distressing diseases are caused by constipation. It gives rise to sick and bilious headaches, jaundice, heartburn, floating specks before the eyes, catarrh of the stomach, biliousness and the painful, troublesome piles. Therefore, it is of supreme importance to health that the bowels be kept regular. Simple food, fruit, etc., should be used, and rich food and stimulants of all kinds avoided. This, with the use of Milburn's Laxa-Liver Pills to regulate and establish healthy action of the bowels cannot fail to give permanent relief in the most obstinate cases. Mrs. Letitia Walman, Orillia, Ont., writes:—"From a child I was always very badly constipated, and I can well remember when quite young, my mother giving me senna tea nearly every morning, and I got to dread it. After taking Milburn's Laxa-Liver Pills for a while I am not troubled with constipation any more."

Milburn's Laxa-Liver Pills are 25c a vial at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't say "I wish I had!" No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and color and shine through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

\$250.00 which is owing to the laboratory from the General Hospital. If these two items are included, the total cash receipts would be above \$600.00.

The most important need of the laboratory at this present time is more room. Our little space allotted to us by the General Public Hospital is more than crowded. It makes accurate work difficult. To be efficient, laboratory work must be accurate. Further, the lack of space limits our usefulness. The laboratory cannot do all the work that its personnel can perform for lack of room. It cannot make efforts to get more work because of the cramped condition of the working space.

A crying need is a private consulting room where persons desirous of consulting the laboratory about very private matters, such as Wassermann tests, Treponema examinations, gonococcus examinations, can come without the fear of persons knowing or surmising the business that brings the person to the laboratory. A number of persons to my knowledge have refused to consult the laboratory because of this state of affairs. The St. John physicians are chary of sending their patients to the laboratory because of the possibility of undesirable publicity.

We need more room for expansion of our work. It is the intention of the laboratory to engage in some of the latest refinements in microscopical study of the blood, but this is impossible until we get more room. We have only one centrifuge in our laboratory. This is the most useful appliance in our laboratory. If this mechanism should get out of order, we would have to stop during Wassermann tests and milk examinations. We have no room for a reserve centrifuge. These are a few of the strong arguments for more room. Aside from this we should have a building to house the laboratory which can be used as headquarters for the St. John Sub-District Board of Health. If Nova Scotia can afford to have a laboratory building, New Brunswick is not so poor but that she can make the necessary expenditure.

I trust that the matter of more room will receive the serious consideration that it deserves.

H. L. ABRAMSON, Director.

done at the laboratory during the year ending October 31, 1919:

POLICE COURT CASES YESTERDAY

Gladstone Johnson Sent up for Trial for Threatening His Sister With a Knife—Stowaway and Two Alleged Thieves Remanded.

In the police court yesterday morning Gladstone Johnson was charged with assault. His sister, Mrs. Evelyn Skimner, testified that the accused threatened her with a knife last Friday in her home in Union Alley. Her little girl corroborated the mother's evidence. The prisoner was sent up for trial.

Vincent Omario, a stowaway, taken from the steamer Millbrook was remanded until the ship was ready to sail.

Two drunks pleaded guilty and were remanded.

Further evidence was taken in the case of Cornelius Flynn and Kenneth Morris charged with the theft of several bags of oats the property of Marie Zeig and the case was postponed until Wednesday next.

Two fifteen year old girls were charged with street walking and after some evidence was heard they were remanded until Saturday morning.

A by-law case against Miss Taxer charged with trespassing on the C. N. R. property was taken up and further adjourned until next Tuesday morning.

Thin, Nervous People Need Bitro-Phosphate

Weak, thin people—men or women—nearly always nervous wrecks; thus conclusively proving that thinness, weakness, debility and neurasthenia are almost invariably due to nerve starvation. Feed your nerves and all these symptoms due to nerve starvation will disappear.

Eminent specialists state that one of the best things for the nerves is an organic phosphate known among druggists as Bitro-Phosphate, a five-grain tablet of which should be taken with each meal. Being a genuine nerve builder and not a stimulant or habit-forming drug, Bitro-Phosphate can be safely taken by the weakest and most delicate sufferer, and the results following its use are often simply astonishing!

By strengthening the nerves, weak tired people regain energy and vigor, thinness and irregularity give way to plumpness and curves; sleep returns to the sleepless; confidence and cheerfulness replace debility and gloom; dull eyes become bright, and pale, sunken cheeks regain the pink glow of health.

CAUTION—Bitro-Phosphate, the use of which is inexpensive, also wonderfully promotes the assimilation of food, so much so, that many people report marked gains of weight in a few weeks. Those taking it who do not desire to put on flesh, should use extra care in avoiding fat-producing foods.

IS PROHIBITION GERMAN DESIGN?

Liberty League Speaker Puts This Question to Meeting.

SAYS HE IS SUSPICIOUS

Wonders if Attempt Made to Cause Division in Canada.

Toronto, March 30.—"Is it not possible that Germany is attacking us through the United States?" was the question which W. J. D. Penly, of Cobalt, told a meeting held last night in St. George's Hall, under the auspices of the Central Branch, Citizens' Liberty League had been brought to his mind by the influx of controversy causing propaganda from the American side of the border. He quoted from the Christian Guardian a statement which he said had been made by Rev. S. D. Chown, D.D., with reference to the activities of the Liberty League in Cobalt, as follows: "The measure of their hatred is the measure of their fear, but we have no programme but to make them hate us some more."

"Can you imagine a doctrine of hatred coming from a Christian man?" queried Mr. Penly, who added that it was doctrine of hatred of class against class which caused revolution. He prefaced his following remarks with the assertion that he did not put them out as facts but in order that you may

The Buying of "Cheap" Tea, is a peculiar circumstance--The less you pay, the more it costs

"SATADA"

Is so full of intrinsic goodness, that you get full value on every purchase

have the same suspicion that I have. "We don't know who the prohibitionists in the United States are," he went on. "It isn't the country but some element there. Some element in the United States which may be of German origin could benefit by trouble caused in Canada or in England."

The speaker declared that at the present time an agitation setting Protestants and Catholics against each other was being carried on in the United States and he held that any such attempts tending to divide the community was not wanted in Canada. "When the church is being prostituted for political purposes, it cannot be a Christian church," he asserted, and added, "So when these anti-saloon people arrive here with their division-causing talk, let's say to them, 'We will not be separated from our Catholic friends.'" He pointed to these present to "line up" with the Liberty League, which, he said, aimed to oppose anything antagonistic to the unity of the people.

Charles Townsend, who acted as chairman, in echoing the call for new members, remarked: "The Government is pretty careful of what they do in spite of the pressure of the Referendum Committee, because if it is their move next and we are ready."

Your Choice of a Dozen Charming and Really Good Designs in Metal Beds—

The New Achievement of Simmons Limited

LOOKING at these beautiful new Simmons Bed designs in her accustomed store—a woman might perhaps be justified in wondering why no one has ever thought before to follow the accepted design principles in metal beds.

There is a very good reason—and it explains, too, why even today only Simmons Limited is able to produce designs along these lines.

The trouble lies in the limitations imposed by the old-style tubing. It has a seam running the full length of the tube. It cannot be worked into the shapes. It is apt to be rough—does not take the enamel smoothly.

For years, Simmons Limited has been working on this problem of bettering metal bed design.

To accomplish what it was after—such charming models as the "Florentine," illustrated above in Twin Pair—it had to invent a tubing that is truly seamless.

All these new designs are made with the Simmons Seamless Steel Tubing—a new invention of the greatest practical importance.

Square and trim—free from joint, seam and roughness. Beautifully smooth, so that the enamel lies tight and evenly all over—does not scratch, check or chip.

YOU will find these fine new Simmons designs in Beds Built for Sleep in the leading stores. Quiet beds, with the Simmons Pressed Steel Corner Locks—free from squeak or rattle.

Your choice of many different patterns—and of Twin Pairs and Double Width in each pattern. Enameled in the accepted Decorative Colors, and in Mahogany, Oak and Circassian Walnut.

Simmons Springs, too—"Waldorf" Box Springs—Composed of finest oil-tempered double-cone spirals, mounted on a frame of seasoned hardwood and upholstered with heavy layers of white cotton felt. Covered with attractive ticking. Finished with roll edge. A spring that really does give freely to all the contours of the body, yet supports the spine in any sleeping position.

And some very charming Brass Beds and Children's Cribs, together with Simmons Mattresses and Pillows—all built for sleep by Simmons Limited.

Simmons Beds, Springs, Mattresses and Pillows cost little if any more than the ordinary merchandise of the average store.

A post card to us will bring you the names of Simmons merchants near your home.

OTTAWA DEFEAT AND WON T

At Toronto Last Night Final Cup, Emblematic of Championship—Game Score Six to One.

Toronto, April 1.—Ottawa defeated Seattle tonight by six to one in the Stanley Cup, emblematic of the World's professional hockey championship. For two periods the battle was close and until Rowe, the star Seattle defenseman, was injured, the Warriors led the edge on the play. Seattle went completely to pieces in the last twenty minutes and Ottawa in its straight goals.

Seattle never gave up trying to Darragh scored the fourth goal. Rowe fought a gallant battle and had Rowe not been injured, might have won the title. All of the Ottawa players showed splendid form but Jack Darragh stood out as their most effective goal-getter, he tallying no less than five of the goals.

Chances were considered bright that Seattle would break the jinx that it always pursued in visiting team Stanley Cup matches but for the tenth time the teams can true form.

BASEBALL BANNERS BEEN USED

Extravagance in Great American Lead to Class Distinction His Best Season.

(By Wilbur B. Hanna.) To those who have watched with some apprehension the trend of the long purse baseball clubs of the major leagues to those who loathe baseball—it must have been a relief to read that the Cincinnati club has no intention of parting with Kopta Roush to make a deal with the Giants. Salutary sentiments if they are lived up to.

Deals are legitimate always if carried on under sensible bounds. The revive interest. So does the appearance of new faces in a ball team. Material, tones up a who's who. The bankroll, however, has too prominent a place in the picture of luring strength to clubs and players to the two New York and Philadelphia Sox clubs.

Who have purchased at extravagant prices of ball players which emphasize the ability of the affluent member of the leagues to buy material that is overabundant in the market. The practice weakens the others and does baseball harm in the cities that weakened no matter how much the money may put the profitable city strengthened on the road to busy territories and possibly a pennant.

Such practice tends to create class distinctions right in the same league which is not a desirable state and has no place in the democracy of sports. It tends to create the feeling that certain clubs of a league are but feeding for others and relieves certain clubs of the responsibility of developing an equal extent with all the other new material. Without constant and steady effort to develop new material baseball cannot last, and a club should be allowed to evade the share of it. Recourse as a last thing to the bankroll when hurried for playing strength will tend to encourage that evasion.

Wise Step by American. The American League took a wise and timely step when it resolved to increase the period in which the ban is against interclub trading. The National League's standpoint on the matter was reactionary. Intellectually the National League has been more alive than the American, but here is one instance when it wasn't.

In producing a situation which calls for less brazenness of the check-book—to whatever extent beyond rational and sound practice has gone—the clubs that sell are equally blameworthy with those who buy. There is no case of one set of team signing and the others being sinners against. There always have been deals in baseball. There were big ones many years ago, big ones too numerous to mention, but not on such a money scale as now and with the development by one club of a star only to find him eventually landing with the club with the biggest coffers—nothing like so flagrant as now.

Wherein the Boston Red Sox club profited in a playing sense in the Ruth with the Yankees is beyond the foresight of any man, but if it really did have such idea in mind it does not appear in such a bad light as otherwise. A club has the moral right to dispose of any star if it thinks it can strengthen by so doing.

The trouble is that when huge sums of money change hands, and generally from the same set of clubs, the motive of the sellers appears to be one not of strengthening on the field but financially. And the further away from the playing season the transactions are to better the impression on the fan, for then they appear less in the light of frantic efforts to strengthen for immediate needs.

The process of gathering, developing and building really first class teams has been so infrequent that it must be extremely difficult. Witness the scarcity of such teams as the Boston of the nineties, the Orioles of those days, the old Tobean Cleveland, Pirates of '92, the Cubs and the Athletics. But how such constructionists as Seale, Hamilton, Tebeau, Clarke and Mack do stand out in baseball history.

THE STANDARD'S SPORTING SECTION

OTTAWA DEFEATED SEATTLE AND WON THE CHAMPIONSHIP

At Toronto Last Night Fifth, and Last Game for Stanley Cup, Emblematic of World's Professional Hockey Championship—Game Tie for First Two Periods—Final Score Six to One.

Toronto, April 1.—Ottawa defeated Seattle tonight by six to one and won the Stanley Cup, emblematic of the World's professional hockey championship. For two periods the battle was close and until Rowe, the star Seattle defenseman, was injured, the West-Canadians had the edge on the play. Seattle went completely to pieces in the last twenty minutes and Ottawa ran in five straight goals.

Seattle never gave up trying until Darragh scored the fourth goal. They fought a gallant battle and had Rowe not been injured might have won the title. All of the Ottawa players showed splendid form but Jack Darragh stood out as their most effective goal-getter, he tallying no less than four of the goals.

Chances were considered bright that Seattle would break the final that has always proved the visiting team out in Stanley Cup matches, but for the tenth time the teams came true to form.

The line-up and summary follows:

Ottawa	Position	Seattle
Benedict	Goal	Holmes
Gerrard	Defence	Rickey
Cleghorn	Defence	Rowe
Nighbor	Centre	Poynton
Boncher	Left Wing	Riley
Darragh	Right Wing	Walker
McKell	Substitutes	Morris
Brodeur	Substitutes	Nichols
Donnelly	Substitutes	Murray
Broadbent	Substitutes	Tobin
Referee—Copp	Substitutes	Montross

The Summary
First period—Seattle, Rowe, ten minutes; 2, Ottawa, Boncher, 6 minutes.
Second period—No score.
Third period—3, Ottawa, Darragh, 6 minutes; 4, Ottawa, Gerrard, 4 minutes; 5, Ottawa, Darragh, 3 minutes; 6, Ottawa, Darragh, 17 minutes; 7, Ottawa, Nighbor, 30 seconds.

In an endeavor to make track work an important part of the athletic activities at McGill a professional coach will be secured to devote his time entirely to this branch of sport. The use of professional coaches has been of great advantage at the college in developing all of the other branches of sport among the students as a whole and the addition of a track coach to the long list promises to be the cause of a big increase in this line of endeavor in athletics.

The McGill Track Club numbers some very good men and they should make quite a showing in the season. In the intercollegiate meet last fall they carried off the honors by a large margin and, notwithstanding the severity of the weather at the time, their performances equaled, and in many cases bettered those of the competitors in the Dominion championships a few months earlier. In the selection of the college team members several of the men who won their events in the championships were chosen and they being beaten by men of their own team.

The team will include Hamilton who made such a remarkable performance by winning the half mile and three mile races on the same afternoon last year. Kennedy won the Dominion championship in the eight and broad jump and will be seen with the McGill team; he will also take part in the sprint, hurdles, and javelin throwing contests and is chosen by many a likely man for the participation of decathlon contests. Ant-diff is well known as a good miler, having won the Dominion championship for this event and is a good performer in the pole vaults. Hay, John and King are three of the fastest 220 and 440 yard men ever seen on a local track and are all enthusiastic members of the team. Foss, in the broad jump, is one of the best in the Dominion and is steadily improving, so that Kennedy was pressed to the utmost to win last year and would only secure a tie with Foss in the high jump.

In order to keep the men at the top of their form throughout their period of training an endeavor will be made to arrange competitive work with the M. A. A. and other local clubs throughout the spring, as well as with American college teams. There have always been numerous invitations to the Canadian colleges to participate in the American college meets, but as they took place in the spring, this was found impossible. Contests of this kind, if they can be arranged, will do much to breed a friendly feeling between the universities and the clubs of the line and they should be encouraged.

McGill To Enter Olympic Track Team

Trials to be Held This Spring in Order to Choose the Team to Represent Canada at Antwerp.

McGill will enter a track team in the Olympic trials to be held this spring in order to choose the team to represent Canada at Antwerp in the summer. This will be the first time that the university has continued its athletic activities after the close of the session and every effort will be made to round out one of the best teams in Canada in the trials they will have as competitors among other their traditional rivals, Toronto University.

For many years intercollegiate track activities have suffered from the fact that weather conditions late in the fall have hampered them in their attempts to have big meets. The Olympic trials will be held late in the month of June and the teams should be in the best of conditions by that time. Toronto has had a team in training all winter and the McGill men have been turning out now for indoor work in order to get in shape. As soon as the snow leaves the ground work will be commenced to get the track at the Molson stadium in shape and the men will work out there.

The work of Mays, McInnity and Warhop is familiar to New Yorkers. Joe Kelly and William Dineen, who can go back a long way, say that next to Mays, Billy Rhines, the brilliant Providence star of many years ago, who could and did pitch underhand with great effectiveness. Howard Ehmke of the Detroiters has thrown the ball on occasion, and Gus Wehling, a crackerjack with the Athletics, almost as long ago as Radburn used it.

MOST SUBMARINE OF ALL PITCHERS IS CARL MAYS

Rhines His Prototype With Warhop and McInnity Also in Underhand Group—Iron Men on Diamond—"Stuff Without Control" of Little Value.

(By William B. Hanna in New York Sun and Herald.)
Jackknifed. Fla., March 27.—Carl Mays is the most underhanded of all underhand pitchers. The Yankee star pitches from closer to the ground than any who have employed this distinctive form of delivery. There have not been many. The number has been very small compared to the number of pitchers, and considering how effective this delivery has been.

Mays, Joe McInnity and Jack Warhop are the three most noted underhand pitchers of this era of the game and the only ones who employed it as a steady thing. Mays practically pitches nothing else. McInnity occasionally threw from overhead. He used the overhead delivery for a fast ball.

Edgar Willett of the Detroiters threw the underhand ball well, but never was in the class with Mays, who is the best of any of them at it unless we accept Charles Radburn, the brilliant Providence star of many years ago, who could and did pitch underhand with great effectiveness. Howard Ehmke of the Detroiters has thrown the ball on occasion, and Gus Wehling, a crackerjack with the Athletics, almost as long ago as Radburn used it.

DODGERS' PITCHERS VALUED AT \$210,000

Every time one of the seven Brooklyn Superba pitching aces starts a ball game, exactly \$40,000 worth of human chattel gets into action. In other words, the pitching staff of the Brooklyn team is valued, in the aggregate, at \$210,000. The other four twirlers under contract, may be considered as representing the war tax.

These are figures given out by William Robinson, agent of the team. Manager George Stallings of the Boston Braves had offered one of his outfielders and another pitcher, presumably Hank Gowdy, for either Ed Pfeffer or Burleigh Grimes. Robble might have welcomed such a trade when Outfielder Tom Griffith refused to return to the game. The Superba chairman was willing to give Pfeffer for McInnity and Mays, of

Heathcote and Schupp of the St. Louis Cardinals to fill the vacant outfield. Branch Rickey wanted Zack Wheat too and the deal was called off. Then came Bernie Uels and Robble has been blessing Rickey ever since for insisting on Wheat as a side issue.

BASEBALL BANKROLL HAS BEEN USED FREELY ENOUGH

Extravagance in Great American Sport, if Persisted in, Will Lead to Class Distinction—Ernie Shore Hopes to Have His Best Season.

(By William B. Hanna.)
To those who have watched with some apprehension the trend of the long purse baseball clubs of the major leagues—to those who love baseball—it must have been a relief to read that the Cincinnati club has no intention of parting with Kopt and Roush to make a deal with the Giants. Salutary sentiments if they are lived up to.

Deals are legitimate always if carried on under sane bounds. They revive interest. So does the appar-ance of new faces in a ball team. New material, tones up the whole. The bankroll, however, has been too prominent of late as a means of giving strength to clubs and part-iculary to the New York and the White Sox clubs.

Who have purchased at extravagant prices of ball players which empha-size the ability of the affluent mem-ber of the leagues to buy material developed and developed by others. The practice weakens the others and does baseball harm in the cities thus weakened no matter how much they may put the profitable city thus strengthened on the road to busy tur-nisles and possibly a pennant.

Such practice tends to create class distinctions right in the same league, which is not a desirable state and has no place in the democracy of sport; tends to create the feeling that cer-tain clubs of a league are the check-ers for others and relieves certain clubs of the responsibility of developing to an equal extent with all the others new material. Without a constant and steady effort to develop new ma-terial baseball cannot last, and no club should be allowed to evade this share of it. Recourse to a steady check to the bankroll when hard pressed for playing strength will tend to encourage that evasion.

Wise Step by American.
The American League took a wise and timely step when it resolved to increase the period in which the ban is against interclub trading. The National League's standard course in the matter was reactionary. Intely the National League has been rather more alive than the American, but here is one instance when it wasn't.

In producing a situation which calls for less brandishing of the check-book—to whatever extent beyond ra-tional and sound practice has gone—the clubs that sell are equally blame-worthy with those who buy. There is no case of one set of teams sinning and the others being sinned against. There always have been deals in baseball. There were big ones many years ago, big ones too num-erous to mention, but not on such a money scale as now and with the development by one club of a star only to find him eventually landing with the club with the biggest coffers nothing like so frequent as now.

Wherein the Boston Red Sox club profited in a playing season the Ruth with the Yankees is beyond the foresight of any man, but if it really did have such idea in mind it does not appear in such a bad light as otherwise. A club has the moral right to dispose of any star if it thinks it can strengthen by so doing.

The trouble is that when huge sums of money change hands, and generally from the same set of club, the motive of the sellers appears to be one not of strengthening on the field but financially. And the further away from the playing season the transactions are to better the impres-sion on the fan, for then they appear less in the light of frantic efforts to strengthen for immediate needs.

Local Bowling

THE CITY LEAGUE.
In the city league on Black's alleys last night the Nationals lost to McInnity by three points. Following is the individual scores:

Ramsey	103	86	77	366	83.23

Tonight the Western Union and T. S. Simms will roll.
RELAY RACES HELD AT THE BOYS' CLUB
Intermediates and Juniors Contested Last Night and Winners Received Prizes—Busy Week Enjoyed by the Members.

Last night at the Boys' Club in their room City Road, the Vice-president A. W. Covey, led the boys in relay races. There were two teams—inter-mediate and Junior—and the finals were won for the intermediates by Kenneth Donaghue and Robert Cum-mings. The Junior prize winners were Edward Greer and George Dun-phy. The prizes were baseballs and jackknives. Three cheers were given for Mr. Covey. Five minutes before the club closed Mrs. W. C. Good gave a talk on the meaning of Passion Week, telling the boys that they could help to make the world a better place by remembering the example set them by the Master.

This week has been a busy one at the club. On Monday President W. K. Halcyon was present and had some personal talks with the members. Tuesday evening Mrs. A. J. Malchay played for a drill and led in the sing-ing, and Judge Ritchie gave one of his interesting talks. On Wednesday, Messrs. Woodworth and Robert-son of the Y. M. C. A. showed three reels of pictures which were greatly enjoyed.

The club will be closed today, but will reopen Monday with a good pro-gramme.

always has intended, to return to the States, where he has made his home with his own and his wife's family, this weighing very heavily against Lewis's chance of winning another belt, and taking it straightway out of the country. The middleweight situa-tion is complicated by the fact that he had control of the belt one year ago, but who retired a few years ago, now announces he still is the champion and will defend the honors against any one. On top of the O'Keefe edition comes the announcement that Jim Sul-livan, the former middleweight belt holder, and Tom Gummer are to meet at the National Sporting Club for a contest, announced as being for the

Tire Values

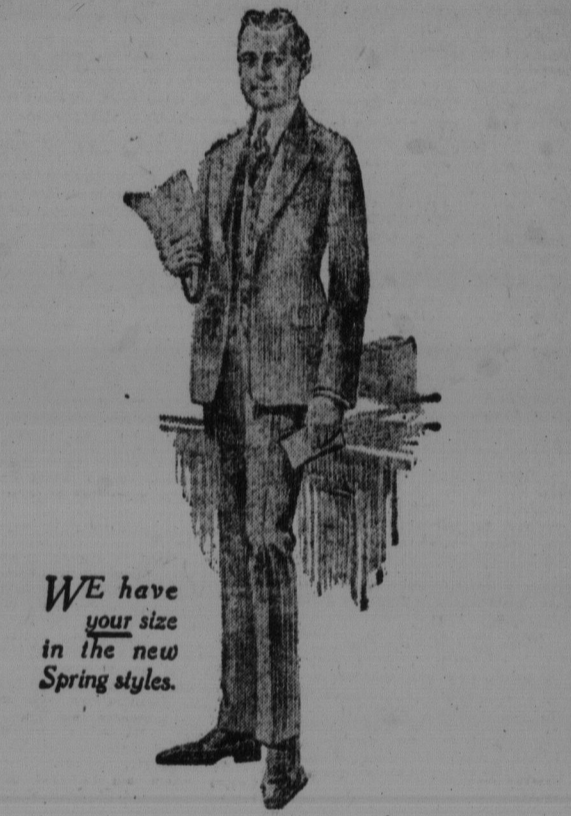

The luxury of riding on Maple Leaf Cords is warranted by the low cost per mile. The value of a tire must be based on its service over a given period. Maple Leaf Tires have made good. We were sure they would when we designed them. The best of workmanship and the finest materials combine to carry out a design that embodies years of experience in tire construction.

Maple Leaf Tires first achieved popularity with a Non-Skid fabric tire selling at the price of Plain Treads. Locate the dealer near you who carries Maple Leaf, Plain Treads, Non-Skids and Maple Leaf Cords, and ask him to show you real tire values.

The St. John Standard
Published by The Standard Limited, 83 Prince William Street, St. John, N. B., Canada. H. V. MAURINNON, Manager and Editor.

MR. MURRAY'S SPEECH
The Telegraph, referring to Mr. J. A. Murray's speech in the course of the Budget debate on Wednesday, says: "He dealt largely with past issues, and with labored references of the old administration."

It any, Herbert Hoover has made a definite announcement, saying that he would accept the nomination of the Republican party—"If it is felt that the issue necessitate it, and it is demanded of me."

Mr. Hoover further says if the Republican party adopts a forward-looking, liberal, constructive platform on the treaty and on economic issues and proposes measures for sound business administration, he will give it his support.

Despatches from Paris say that Germany is not keeping to the military terms of the treaty and that a new German army is being secretly organized, reports that follow quickly on the recent report of 6,000 cannon being found in Germany, contrary to the treaty provisions.

Some amendments to the Election Act are now before the Legislature, which go to provide that people who are entitled to vote and whose names have not been sent to the revisors, may have them entered on the list upon application, with proper proof.

Passover, the traditional Jewish Feast of Unleavened Bread, begins at six o'clock this evening, and ends Saturday, April 10.

During the Passover week the Matzo, unleavened bread, is eaten. This food is characterized as the "bread of affliction" and is a reminder of the hasty exodus of the Israelites from the land of oppression.

After several months of hesitation, during which the American public has been uncertain as to which party now stood for the Presidency he desired.

Swift's Premium Hams and Bacon

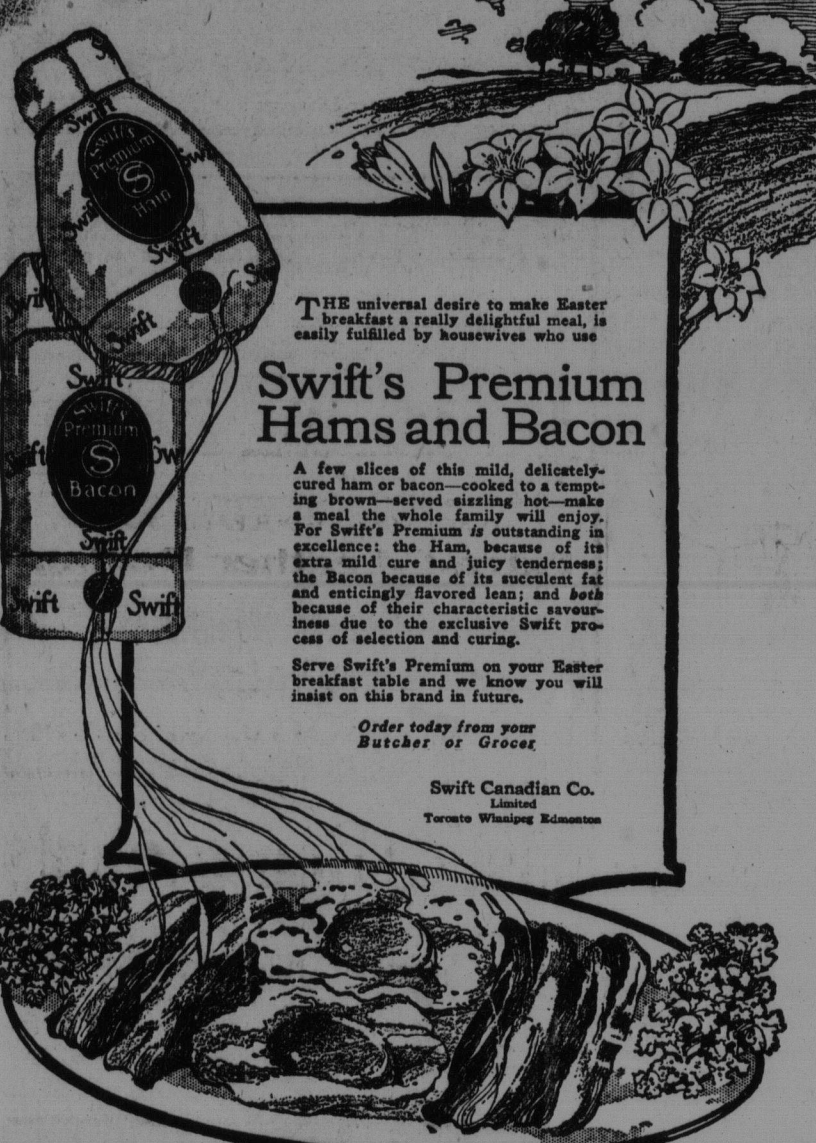

THE universal desire to make Easter breakfast a really delightful meal, is easily fulfilled by housewives who use

A few slices of this mild, delicately-cured ham or bacon—cooked to a tempting brown—served sizzling hot—make a meal the whole family will enjoy. For Swift's Premium is outstanding in excellence: the Ham, because of its extra mild cure and juicy tenderness; the Bacon because of its succulent fat and entirely flavored lean; and both because of their characteristic savouriness due to the exclusive Swift process of selection and curing.

Serve Swift's Premium on your Easter breakfast table and we know you will insist on this brand in future.

Mayor Receives Some Information

In Connection With Fight Over Local Improvement Tax—General Debts and Improvement Debts of Other Canadian Cities.

In connection with the fight over the local improvements tax, Mayor Hayes has collected information regarding the general debts and improvement debts of the cities in Canada. Western cities have large general debts compared with St. John and in addition usually a considerable debt against local improvements, mainly paved streets. Calgary, for instance, with a population of 85,000 has a general debt of \$15,000,000, and a local improvement debt of \$3,339,159. St. John, N. B., with a population of 54,000 has a general debt of only \$4,912,400, and a local improvement debt of \$15,000. Edmonton, Alberta, with a population of 55,000 has a general debt of \$31,000,000 and a local improvement debt of \$4,000,000. If St. John was in the same class as Edmonton, it would have a debt given times as great as its present one, and a lot of citizens might have the Blues. However, Edmonton owns its electric lighting and power system, its street railway and telephone systems, and has a revenue from its public utilities after deducting operating expenses, of \$767,000.

Victoria, B. C., with a population of 45,000 has a general debt of \$12,300,000, and a local improvement debt of \$6,800,000. Regina with a population of 40,000 has a general debt of \$8,700,000, and a local improvement debt of \$1,500,000. Ottawa, with a population of 100,000 people has a general debt of \$12,000,000, and a local improvement debt of \$3,000,000.

St. John has the lowest per capita debt of a list of 26 cities of which information has been obtained by the Mayor. St. John's per capita debt is about \$21; Quebec's \$143; Montreal \$150; Regina \$200; Vancouver, \$208; Victoria \$300; Ottawa \$123; Hamilton \$100.

Give generously on Saturday, Tuesday for the Children's Home, Wright street.

Policeman Charged With Liquor Sale

There was no let up in the police court yesterday from the opening in the morning until late in the afternoon. A case that caused the most interest and which took up most of the time, was that where Police Constable Frederick Gaudet of the local force was charged with selling liquor to Fred Gavin of Prince Edward Island.

Gavin was arrested while on his way home to the island from St. John when he was found with liquor on his person and at that time claimed that he purchased the liquor from Police Constable Gaudet on March 4th. Following the statement, Gavin was finally brought to St. John by Inspector Amos Belliveau of Moncton, and the charge laid against Gaudet.

Gavin was placed on the stand yesterday and testified that on the night of March 4th he met policeman Gaudet on Brussels Street and at his request the policeman sold him a bottle of whiskey for \$4.50. At the time policeman John McElhinney was present. On cross examination by John Barry, the witness admitted that Steve Stapleton was also present. Earlier in the day he said that he procured a prescription from Dr. Dalton and bought a bottle of whiskey with it, paying \$3.50 in a drug store. Policeman Gaudet testified that on the night in question he was with Policeman McElhinney and met Gavin with Steve Stapleton. Gavin was drunk and witness advised him to go to the Prince Albert hotel where Gavin said that he was staying. He denied giving Gavin any liquor. Stapleton had been drinking, and left in company with Gavin.

Policeman McElhinney corroborated the statements made by Gaudet. Steve Stapleton testified that Gavin came to Officer Gaudet's house on Brussels Street where witness boarded on the night of the 4th, about nine o'clock. Gavin had been drinking and they went out for a walk and Gavin asked witness if he could procure any liquor and witness said that he could not. Gavin left witness and returned later with two bottles of liquor. They had several drinks in an alley off Brussels Street. They met Officers Gaudet and McElhinney and Gaudet advised Gavin to go home and to bed if he wished to catch his train in the morning. Witness took Gavin to the Prince Albert. The Officer did not have a drink nor was there any liquor produced in his presence. While taking Gavin to the hotel they had another drink.

Gavin was recalled and said that he told a falsehood when he testified that he (Gavin) left him to get a bottle. He also said that Policeman McElhinney was not telling the truth, and that he, witness, was sober. In answer to Mr. Barry, Gavin admitted that he had told the court that he had paid three separate prices for the same liquor, also that he had said that he got one bottle, and then two. Mr. Barry asked that the case be dismissed in view of the contradictory evidence of the witness for the Crown which was in direct opposition to three other witnesses.

Magistrate Ritchie said that it was a serious state of affairs if officers of the law were allying themselves with the bootleggers, and emphasized the grave necessity of the officers sticking up to their oath. Both Gaudet and McElhinney were charged with their duty by not arresting Gavin and Stapleton, as the two were under the influence of liquor. The case was adjourned until Saturday morning at ten o'clock.

As a result of the evidence brought out by Gavin, Dr. Dalton was arrested on the charge of illegally prescribing liquor. The doctor pleaded not guilty and said that he only prescribed after a thorough examination of the patient and prescribed what he thought he needed. A decision will be given in this case on Tuesday.

Had Suffered Since Childhood

Forced to Stay in Bed Days at a Time from Indigestion and Weakness—Tanlac Proves Merit.

"I can't begin to express my gratitude for what Tanlac has done for me. It has been the greatest help in the world to me, and has overcome troubles that have been with me since childhood," said Mrs. Annie S. Smith, of 152 Preston St., Halifax, Nova Scotia, when speaking with the Tanlac representative at Kinley's drug store.

"Even as a child I had a very weak stomach, and of late years it has been much worse. I cannot say that I had a great deal of pain, but I had a faint, weak, empty feeling, like imagining a person would have who is starving to death, that seemed to take every ounce of strength and life out of me. I also had frequent attacks of indigestion when I could retain nothing except a cup of tea, and when anything I ate would form gas and cause me great distress. Sometimes I went for two or three days at a time without a bite of solid food. Of late these attacks occurred so often that I would scarcely get over one before I would be down with another. I had absolutely no appetite, and what I ate seemed neither to satisfy me nor give me strength. I can hardly describe to you how weak I was at times, but I often had to stay in bed for days at a time, hardly able to raise my hands or to speak above a whisper. I had the most frightful sick headaches, my nerves were all on edge, and I felt despondent and depressed.

"But Tanlac has changed all that for me, and I am like a different woman today. I began to improve from the very first dose, and before I had finished the second bottle I noticed that my stomach was much stronger, and that I could digest my food perfectly. I soon had a splendid appetite, and that faint, empty exhausted feeling left me. My nerves are much better, and I never have sick headaches now. I have improved wonderfully in every way, and feel better and stronger than I have done for years past. I cannot praise Tanlac too highly, and I shall certainly recommend it to my friends."

Tanlac is sold in St. John by Ross Drug Company and the leading druggist in every town, under the personal direction of a special Tanlac representative.—Advt.

THE STANDARD'S FINANCIAL SECTION

QUOTATIONS IN ST. JOHN MARKET

Several sharp rises were noted in the St. John market this week. In wholesale groceries, molasses was on the way upward and sold for ten to twelve cents higher than last week it was quoted at from \$1.40 to \$1.45 a gallon. There was a rise of a quarter of a dollar in white-eyed beans, canned good were also stronger. In wholesale meats, mutton rose two cents per pound while pork dropped a cent a pound. In the City Market prices were firm with the exception of eggs, case eggs were selling at from \$0.52 to eight cents less than last week and could be bought at from \$0.52 to \$0.55 a dozen. Fresh eggs dropped five cents a dozen and were sold at from \$0.50 to \$0.55. Imported spinach and ripe tomatoes were offered in some of the stalls for the first of the season in wholesale fruits, bananas dropped one to three cents a pound. A rise of a cent a pound was noticed in green and salt hides.

SUGAR TRADING WAS THE BIG FEATURE

Montreal Market Has Quiet Day—Brazilian Gains One Point.

(F. B. McCurdy & Co.)
Montreal, April 1.—The local stock exchange was rescued from exceptional dullness only by reason of the activity in sugar, trading in which exceeded 2,700 shares, out of a total of 6,132 for all stocks. The activity in sugar was evidently more by reason of the buying than the selling, as indicated in the disposition shown by the stock to advance. From a low point of 83 reached yesterday the stock opened one point and sold high as 84 2/4. The street watched the movements in this stock with much interest, but seems undecided what to do. There is a general feeling that the price is bound for higher levels eventually, though in many quarters there seems an impression that a further decline may precede the advance. Brazilian was again one of the most active stocks and the tendency of prices was upward, possibly in sympathy with the strength in sterling exchange. Other public utilities were dull and almost unchanged in price, though Detroit still displayed a firm tone at 113. Iron and steel stocks were neglected and practically unchanged in price.

BANK OF ENGLAND GOLD RESERVE LOSS

(F. B. McCurdy & Co.)
London, April 1.—Bank of England in this week's reports shows a further gold loss of £3,611,000, or about \$18,000,000 at normal exchange. This presumably reflects additional shipments to New York paying off Anglo-French loan.

October 38 1/2 38 50 38 50
Cotton
(F. B. McCurdy & Co.)
New York, April 1.—Trade interests and Liverpool were among the more prominent buyers and there was evidence of a further broadening demand based on the development of trade buying and unfavorable weather conditions over the gold loss of \$18,000,000. At forty cents, May has shown considerable nervousness, due to the fact that this price is close to a tenderable basis with some grades in the eastern markets. The cotton exchange will be closed until Monday.

PRICES HIGHER ON NEW YORK MARKET

Call Money at Ten Per Cent.—Car and Foundry Up Ten Points.
(F. B. McCurdy & Co.)
New York, April 1.—The character of the trading did not change at all this afternoon except for pronounced strength in a few specialties and a little firmness in the general market when call money was held pretty well within bounds and did not lean above ten per cent. United States Realty was the strongest specialty, gaining seven or eight points in further reflection of the vast improvement which has taken place in city real estate and renting returns. Corn products also was quite buoyant, as well as Car and Foundry and Crucible, the last named recovering about ten points on shorts evening up. The oil stocks moved up in the same way towards the close.

WALL ST. QUIET

Early Trading Slow, But More Active Later.
New York, April 1.—About the middle of the afternoon the market began to get more active, at least in spots and in the last hour, a general covering movement developed in which the list regained the losses it had made earlier in the day, while some stocks, including oil, motors and some miscellaneous issues made substantial gains over last night's close. Shortly before the close call money advanced to 10 per cent. after having remained at 8 per cent during the day. The general upturn in prices in the late afternoon, coming on the eve of a double holiday indicates that the market was in good technical position but was not of sufficient force or scope to be regarded as of much significance. Sales 608,900 shares.

AMENDMENTS TO TRUST AND LOAN ACT

House of Commons, Ottawa, March 30.—(By Canadian Press).—At the opening of the House of Commons, this afternoon, Sir Henry Drayton introduced two bills, the first to amend the Trust Companies Act, and the second to amend the Loan Companies Act. The Minister explained that the object of these two bills was to provide for annual inspection of trust and loan companies. There was, he said, provision in the present bill which empowered the Government to invite an inspection of these companies when it was necessary to do so. There will be a danger, however, that such inspection might be too late, and it was thought wise to make provision for annual inspections. The bills were given first reading.

INCREASE IN CUSTOMS REVENUE

There was an increase of \$200,000.57 in customs revenue in St. John in March, compared with the same month last year:
1920 1919
Duties \$572,946.76 \$372,760.84
S. M. Fund 2,526.49 2,704.84
Total \$575,473.25 \$375,465.68
For the fiscal year 1919-1920 the increase was \$2,031,021.89. The total for 1919-20 was \$5,209,514.87; for 1918-19, \$3,178,492.98.
quotation at a gain 5-18, while steel, motors, and oils finished at irregular but moderate gains or losses. Sales amounted to 600,000 shares. Bonds were heavy, especially high grade rails, including Pennsylvania 2's and 4 1/2's. Liberty 3 1/2's also yielded, but foreign issues, notably United Kingdom of 1917, hardened. Sales, per value, aggregated \$25,525,000. Old U. S. Bonds unchanged on call.

Rev. Moorhead Legate Gave Delightful Talk Before Y. W. P. A. at Meeting Last Evening—\$100 Voted to Provincial Memorial Home—Plans Made for Easter Cheer.

"We have been pincered into an age of women." These words, quoted from the speech of a British statesman, were used by Rev. Moorhead Legate in his splendid talk given before members of the Young Women's Patriotic Association, last evening. The rooms at the G. W. V. A. were well filled, and the address was greatly appreciated, regret being expressed that the talk could not be longer owing to lack of time.

Mr. Legate was introduced by Miss Alice Fairweather, president, and he congratulated the Association on their decision not to demolish. There is, he said, a great purpose for such work as this society has accomplished.

In Australia, where there was no conscription, girls had done wonderful things in the way of recruiting. In his own church he knew of three engagements which were broken because the man did not see that his duty was to go to fight against the tyranny of wrong. When the men mobilized, the girls organized and did what they could to make the soldiers' departure glad and the sense of their mission high. The young women formed societies and kept such a supply of comforts going to the soldiers that it was said that no army in the field were better supplied with home comforts than the Australians. When the wounded soldiers arrived back, the girls met the boats, dispensed with the military ambulances, got bands to march ahead and personal attendants, the men to their home or to hospital. Mr. Legate said he was glad to tell about Australia, because in Canada it seemed to be thought of as only a spot in the world and to be very little known.

In Egypt, where the speaker went with his unit, the women of the country took absolutely no part in doing anything for the soldiers. The Egyptian army took no share in the war, or many reasons, but splendid service was given by the small band of British, French and Italian women. They organized societies and the soldiers on leave, telling them of suitable hotels or boarding places, a very necessary duty in Cairo, where men on leave had been known to be dragged, robbed and murdered.

In the hospitals in Palestine too high a tribute cannot be paid to the nurses and Y. A. D. S. In the Australian hospitals to which Mr. Legate was attached, the work usually done by orients was done by the nurses, and the speaker stated he had seen frequently nurses lift a husky soldier into a wheeled chair. There was never a complaint from the nurses, and when they were sent on sick leave down to Cairo the doctors said that they were never content until they could get back to their work.

After his transfer to the Western Front, the work of women was seen in Italy, France and England, where all possible work was done by them. The pathetic number of French widows was feelingly commented upon. Men have been educated by the war into a new sense of woman and to realize that their sphere is no longer limited to the fireside.

Mr. Legate closed his most interesting talk with an offer to show, at a future time and for the benefit of the Association, lantern slides of his war experiences and views of life in Australia. He spoke of having read the Y. W. P. A. report for last year and of being impressed with the work done for the community at large, and pledged his support in any possible way to the society.

A vote of thanks was moved by Miss Charlotte Dodge, first vice-president.

GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia To Overcome Trouble—Caused by Fermenting Food and Acid Indigestion.

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion." Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloated right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

SEE SKIRT COME OUT OVER NEW

"Diamond Dyes" Put Bright, Rich Color in Old, Faded Apparel.

Don't worry about perfect results. Use "Diamond Dyes," guaranteed to give a new, rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton or mixed goods.—Dresses, blouses, stockings, skirts, children's coats, feathers, draperies, coverings.

The Direction Book with each package tells so plainly how to diamond dye over any color that you can not make a mistake.

To match any material, have druggist show you "Diamond Dye" Color Card.

Newcastle

Newcastle, March 26.—A very fast and interesting basketball game was played in the Temperance Hall on Thursday evening between Newcastle and St. John's. The Newcastle team, coached by E. T. and St. Luke's team from Chatham, and was won by the former by a score of 24 to 20.

The annual meeting of the Young Ladies' Bible Class of the Wesleyan church was held on Thursday evening, at the home of Miss Edith McLean, when officers for the ensuing year were elected as follows:—President, Miss Edith McLean; Vice-president, Miss Iney M. Copp; Treasurer, Miss Bessie Dick; Secretary, Miss Janet L. Copp; Teacher, Rev. F. T. Berran. Lookout Committee, Misses Edith McLean, Bessie Dick and Mrs. Robert Jeffrey; Social Committee, Mrs. B. F. Malby, Misses Lydia Copp and Evelyn Price. Sick and Visiting Committee, Misses R. M. Rogers, Bessie Jeffrey and Louise Atchison.

The inter-collegiate debate at Fredericton on Wednesday evening was of much local interest and the witty Dalhousie speaker here as one of the team from that University is a Newcastle boy, John R. Nicholson who is a son of Dr. Robert Nicholson and a law student at Dalhousie.

INNOVATION AT HARVARD.

Cambridge, Mass., April 1.—The Harvard engineering school today announced a new plan of instruction for the junior year. Students may in future spend half the time sampling sea in factories, within easy reach of the city.

Business Meeting. Letters were read by Miss E. A. Ward, secretary, from a soldier's mother, whose family had been assisted from A. C. Skilton, thanking the Y. W. P. A. for congratulations upon his recent Scout honor; from Mrs. G. Akerley, asking for co-operation in the "Provincial Memorial Home" Tag Day, read from Miss A. L. Brock.

Miss H. Short, treasurer, reported a substantial balance on hand and the receipt of \$50 from Sgt. Baynton, of the Artillery, for catering at their dance. Reports were given by Miss Bertha Boyer for East St. John, stating that a new magazine had been purchased for each soldier for Easter and two new records. Miss Borden reported that \$100 had been raised for the Provincial Memorial Home for Children, and \$10 to Miss de Soyres to purchase toys for the children there. Ten dollars was voted to Miss Stella Allingham for comforts for sailors in the General Public Hospital, Grants of coal and boots made to families in need were ratified. It was reported that a committee to solicit members for the Anti-Tuberculosis Association had been formed in Mothesey, with Miss Hattie Henderson as convener. It was voted to assist with a luncheon for the delegates to the National Council of Women in June, and plans were discussed for a dance to be held after Easter.

Now She Enjoys What She Eats

Upper White Head, N. S. "I suffered for years with Stomach Trouble and indigestion and could not get anything to help me. I shall never forget the first day I started taking OLIVEINE EMULSION. Now I am practically well. I recommend OLIVEINE EMULSION to anyone suffering from Stomach Trouble."

OLIVEINE EMULSION

The Great Health Restorer builds up and strengthens the whole system, and is the best possible tonic for children as well as grown folk. Druggists and General Stores have this favorite medicine. Ask for it by name and insist on having the genuine.

Prepared by Fraser, Thomson & Co. Limited, COOKSHIRE, Que.

Excellent Reports Were Received

At Meeting of the King's Daughters Held Yesterday—Much Good Work Done by Order During the Month

A largely attended meeting of the St. John Branch and City Union of the King's Daughters was held at the Guild rooms, Chipman Hill yesterday with Mrs. A. Pierce Crockett presiding.

Mrs. George Bishop, treasurer, reported all bills paid and a good balance on hand.

Miss Lillian Pritchard reported on letters received and sent.

Mrs. R. A. Corbett, convener of the spiritual committee, reported on the Sunday Gospel meetings held during the month of March, which were in charge of individual members. Mrs. A. E. Kinard was in the chair and Mrs. E. Atherton Smith was the speaker who took for her subject: "The Home." The soloist was Mrs. A. Pierce Crockett, and four new members were received.

Mrs. Robesay McLaughlin, convener of the hospital committee, reported that Mrs. Stanley Smith and Mrs. Roy Gregory of the Comfort Circle made many visits to the hospitals where they distributed oranges, apples, candy and magazines. They came across a young Scotchman who was very lonely and put him in touch with friends who made him happy. A young English girl who came out on a steamer, and who is bound west, also looked after.

Mrs. John Foster, convener of the Travellers' Aid committee, reported that every thing was very satisfactory and gave great credit to the matron for her splendid management during the present time when prices are so high and a balance on the right side was reported.

Mrs. W. H. Nico, convener of the Mothers' Pensioners, reported that they had received a request to meet two girls who came out on the S.S. Grampian and were bound west; also three boys and three young women who were arriving at that port.

A special committee on repairs reported that the work was about all completed with the exception of the kitchen and the dormitory.

A donation of three dollars from Miss Helen Barker, and one dollar each from Mrs. A. Pierce Crockett and Miss Ada Thomson were acknowledged.

It was decided to send another resolution regarding Mothers' Pensioners, Minister of Public Health, and Miss Thorne the provincial secretary of the King's Daughters at Fredericton.

Minor changes were made in the constitution. Copies of the constitution call were received.

The International convention will meet in St. Louis on May 20-24.

The Remedy. "I told the boss to look at the dark circles under my eyes and see if I didn't need a half day off."

Second Office Boy—"What did he say?"

First Office Boy—"He said I needed a bar of soap."

HOW TO MAKE BRITTLE NAILS FIRM

Many women bemoan the fact that their nails are so brittle they break off and never attain the rounded, almond shape so attractive on dainty fingers.

You may overcome this if you remember that the breaking of nails usually starts at the corners. The first aid in overcoming brittleness will be found in frequent manicuring. Your nails should be carefully and thoroughly filed and manicured once each week. A daily shaping of the corners with a fine emery board will help overcome brittleness. In filing your nails shape them closely at the corners and into a rounded point at the center.

It is said that brittle nails are due to a lack of lime in the system. You might ask your doctor about taking a little lime water internally—lime water such as is often given to children under the direction of a physician.

Supply Oils Direct. Pure vasoline or cold cream rubbed into your nails—taking care to work the grease well into the base around the cuticle—will soften them and help overcome brittleness. Olive oil is also effective against brittleness when applied in this way.

A lotion which is said to be good for brittle nails is made of the following ingredients: Table salt—30 grains. Almond oil—1-2 ounce. Powdered resin—30 grains. Powdered alum—30 grains. White wax—30 grains.

Melt the wax and resin together over a slow fire, stirring them constantly until they are thoroughly melted. Then add, first the oils, then the salt, and lastly the alum. When the ingredients are thoroughly mixed pour the lotion into a porcelain jar and allow it to cool. A jar with a screw top should be used so the mixture can be kept airtight.

MADE WITH GELATINE

Gelatin dishes with hot water are no longer confined to orange and lemon jellies, but may be of any fruit flavor, while nuts added make them more nutritious. Besides its use in dessert gelatin also enters into certain salads and cold luncheon dishes.

Gelatin as it comes in the ordinary package cannot be dissolved in a hot liquid, but must first be soaked in cold water until it will take up no more; then dissolve in the hot liquid which forms the basis of the dish.

Never boil gelatin, but stir in the hot liquid until dissolved and remove immediately from the fire. The instantaneous and ready-to-use gelatin of course saves time, as they dissolve at once in boiling water.

Observe exactly the directions given on the box of the brand of gelatin you use. Most of the standard makes allow two ounces of the gelatin to a very scant quart of liquid; this will give a clear quivering jelly that is firm and elastic.

When the dissolved gelatin is to be added to whipped cream or whipped mixtures, as in Bavarian creams, parfaits, etc., it must be cooled before it is beaten in; otherwise it will settle in a firm mass at the bottom of the mould.

Two ounces of gelatin are about four level tablespoonsful.

Moulded Salmon Salad. Remove the contents from a medium sized can of salmon, rinse thoroughly and quickly in hot water and separate in flakes. Mix together one teaspoonful of salt, one tablespoonful of sugar, half a tablespoonful of flour, one teaspoonful of ground mustard and a quarter of a teaspoonful of paprika, and moisten with enough cold water to form a paste. Blend gradually with one and a half tablespoonful of melted butter, three-quarters of a cupful of milk and one-quarter of a cupful of vinegar. Cook all over hot water until thickened and add the yolks of two beaten eggs and three-quarters of a tablespoonful of granulated gelatin softened in two tablespoonful of cold water. Stir for a moment to set the egg and dissolve the gelatin and add the salmon and two chopped hard boiled eggs. Turn into a square mould, rinsed with cold water, and chill on the ice. Serve cut in slices and surround with a border of lettuce hearts moistened with French dressing.

Ginger Bavarian Cream. Soak one tablespoonful of gelatin in a quarter of a cupful of cold water. Beat the yolks of two eggs with a few grains of salt and one-third cupful of

Prune Jelly. Wash a pound of prunes, and soak them overnight in water sufficient to cover. Cook the prunes in the same water until they are tender, add sugar to sweeten, strain off the juice, and remove the stones from the fruit. To two and a half cupfuls of the prune juice add the juice of one orange and one lemon; put on the stove and let come to a boil, then add an ounce of gelatin softened in a cup of cold water, and stir till it is dissolved. Add the prunes, and turn into a mould. Serve with whipped cream.

Apply the lotion to each nail with a bit of absorbent cotton and allow it to remain on your nails as long as possible. It is advisable to apply this treatment may be given at least three times a week, or daily, if possible, until a decided improvement in the texture of your nails is observed.

If your nails, besides being brittle, are ridged or fluted, dip them daily in the above fifteen minutes. It will probably be necessary to continue this treatment for a week or two at least until your nails assume a normal appearance. When your nails are undergoing this treatment avoid polishing powder.

Dipping your hands in and out of water is very bad for their beauty. If your hands must be immersed in water for a long time in doing light or heavy laundry work, you should always dry them thoroughly when you are through and apply a good oil or cream, such as cold cream, glycerine and rosewater, olive-oil and vaseline. Glycerine and lemon juice, in equal parts is one of the best things in the world for your hands.

Any of the above applications will help to overcome brittleness of your nails or redness of your hands due to immersion in water or exposure to the air.

Today At The Imperial Theatre

Dorothy Dalton, the irresistible star, will be the premiere player in today's Thos. H. Ince production, "His Wife's Friend."

The Easter programmes at the Keith house will be as follows: Monday, "The Life Line," Maurice Tourneur's masterly production of the Drury Lane spectacle drama "The Roman Rye." On Wednesday the light opera star's quantity diverting matinee "Jubilo" ("In de year of Jubilo"), and on Friday Wallace Reid in the gasping comedy "The Lottery Man," or drawing lots for a hubby.

The Imperial is already replete in its fresh Easter garb of window drapes, lobby fabrics, appropriate frame decorations, etc. On Monday the stage will be converted into a superb representation of a Venetian piazza with moonlight effects. The fragrance of spring flowers and bursts of blossom on all sides impart a seasonal sensation to the nose and eyes.

"My wife can't be fooled." "Then how on earth did you ever induce her to marry you?"

ADMIRERS OF THIS BEAUTIFUL EMOTIONAL STAR will be captivated with her exceptional artistry in this very wholesome drama of the fireside.

OPPOSITION MEMORANDUM MANY PERTINENT

Premier Foster Admits Re-promises of E. S. Carter Government—Minister of Stenographers.

The opposition are keeping the government on the defensive all the time this session, and the questions on the order paper are causing the premier and his colleagues a great deal of anxiety. Those of Hon. J. A. Murray in regard to the utterances of Mr. E. S. Carter of the government are the responsibility of the government for those utterances, made the Hon. Mr. Foster admit, but he had to acknowledge that the promises were to be made by Mr. Carter.

The questions and answers were: Q. 1.—Is the government aware that Mr. E. S. Carter, a candidate in the County of Kings in the last Provincial election, speaking at Central Green, on February 18th, 1917, as reported in the Valley Railway, stated: "I want to announce that the policy of the opposition party, and I make this announcement with the consent and approval of my leader, Mr. Foster, is that where rivers are wide and bridges impossible the farmers shall not be punished for this fact of nature by having to pay high forage tolls, but shall be provided with the same privileges by free forage as the people are who cross at bridges without paying tribute. Furthermore, let me tell the people of Long Reach, as well as the people of Greenwich, that when the Valley Railway is completed the farmers who live on the Kingston side can cross to the western side of the river without charge, as of course the same privilege will be of course the river live on the western side of the river to reach Kingston parish. Year after year in the fall and spring, there has been one loud voiced complaint by the people of Baywater, Lands End, White Head, Holderville, Clifton, Kingston, Moss Glen, and all the busy little spots on the Kingston Peninsula that there was no way of getting to the markets in the fall and the breaking ice in the spring. The plan of the opposition to overcome this is to so protect O'Leary boats from the winter of their way through this forming ice until it is fit to cross at the safer places. The details of this plan as proposed, and the way they can make it work out he was well satisfied, to the thorough satisfaction of the people, and it was up to them to say whether they wanted this improvement on their present conditions. If they were satisfied with what they had at present they should vote for the present government but if not, and if they wished to strengthen the hands of the opposition, they should vote for those who propose to assist them.

Ans.—The government is assured that the report of Mr. Carter's speech is substantially correct.

Q. 2.—Was the Hon. Mr. Foster, referred to in this statement, aware of the policy announced by Mr. Carter, and if so, did he have his consent and approval?

Ans.—Hon. Mr. Foster was consulted by Mr. Carter with reference to the announcement respecting free forage for the benefit of the people of Kingston Peninsula and made the statement in question.

Q. 3.—Have free ferries been established between Kingston side of the St. John river and the western side of the river?

Ans.—Free ferries have been established between Kingston Peninsula and St. John from Baywater to Somerville and from Kennebels Island to Millville, on which ferry, known as "The Millidgeville Ferry" serves the people of the place named in Mr. Carter's speech, namely, Baywater, Lands End, White Head, Holderville, Clifton and Moss Glen and another free ferry at Gondola Point, Fredericton.

Q. 4.—The Premier has proposed to further accommodation, Reed's Point, Kingston and Perry's Point as well as a large number of people living along both shores of the Kingston Creek and through the Midlands. As the St. John and Quebec Railway was not operated until last fall, a free ferry at any point between the eastern and western banks of the St. John river in the Parish of Greenfield would not have served any purpose and the matter has not been given consideration.

Q. 5.—If so, how many? and where?

Ans.—Answered by answer to No. 4.

Q. 6.—If no free ferries have been established, when does the government propose putting them in operation to accommodate the people of Baywater, Lands End, White Head, Holderville, Clifton, Kingston and Moss Glen, as outlined by Mr. Carter in his remarks referred to?

Ans.—Answered by answer to No. 3.

Hon. Mr. Tweeddale had to admit that the number of permanent stenographers in his department had been increased from three to seven, calling for a salary expenditures of \$4,000 per year.

Mr. Dickson, Kings, made the enquiries in this case the questions and answers being as follows:

Q. 1.—How many stenographers were employed in the Department of Agriculture in 1916?

Ans.—There were ten (10) stenographers employed in the Department of Agriculture in the year 1916—three permanent and seven temporary.

Q. 2.—How many are employed in the Department of the present time?

Ans.—There are seven (7) stenographers employed in the Department of Agriculture at the present time, four in Fredericton, two in office of District Representatives at Moncton and Chatham, and one in Elementary Agricultural Education Division, at Sussex.

Q. 3.—In what divisions of the Department of Agriculture are the stenographers at present engaged and for whom do they work?

Ans.—The divisions of the Department of Agriculture are the various stenographers work and the salaries they receive are as follows:—

John Johnston, stenographer for Minister of Agriculture and Secretary for Agriculture, salary, \$800.00.

Florence Coy, stenographer for Superintendent of Livestock Division, salary, \$500.00.

Christine Tennant, stenographer for Provincial Horticulturist, salary, \$600.00.

Dorothy Tweeddale, stenographer

OPPOSITION MEMBERS ASK MANY PERTINENT QUESTIONS

Premier Foster Admits Responsibility for "Free Ferry" Promises of E. S. Carter and Not Carried Out by Government—Minister of Agriculture Increases His Staff of Stenographers.

The opposition are keeping the government on the defensive all the time in the present session, and the questions on the order paper are causing the premier and his colleagues a great deal of anxiety. Those of Hon. J. A. Murray in regard to the utterances of the responsible members of the government for those utterances, made the Hon. Mr. Foster squirm, but he had to acknowledge that the promises were to be made by Mr. Carter.

The questions and answers were: Q. 1.—What the government aware that Mr. E. S. Carter is a candidate in the County of Kings in the last Provincial election, speaking at Central Ground, on February 19th, 1917, as reported in the press, and in which he "wants to announce that the policy of the opposition party, and I make this announcement with the consent and approval of the former Mr. Foster, is that where rivers are wide and bridges impossible the farmers shall not be punished for this fact of nature by having to pay high tolls, but shall be provided with the same privileges by free ferries as the people who cross narrow bridges without paying tolls. Furthermore, let me tell the people of Long Reach, as well as the people of Greenwick, that when the Valley Railway is completed the farmers who live on the Kingston side can cross to its west side of the river without charge, and as of course the same privilege will be of course the same for those who live on the western side of the river to reach Kingston parish. Year after year in the fall and spring, there has been one loud voiced complaint by the people of Baywater, Lands End, White Head, Holderville, Clifton, Kingston, Moss Glen, and all the busy little spots on the Kingston Peninsula that there was no way of getting to the markets in the fall and the breaking ice in the spring. The plan of the opposition to overcome this is to protect the ferry boats that they can make their way through this forming ice until it is fit to cross at the safer places. The details of this plan as proposed can be made by Mr. Foster, who worked out he was well satisfied, to the thorough satisfaction of the people, and was not to be surprised that they wanted this improvement on their present conditions. If they were satisfied with what they had at present they must accept the present government but if not, and if they wished to strengthen the hands of the opposition, they should vote for those who propose to resist Mr. Carter.

Q. 2.—What amounts are held from time to time in cash by such Board? Ans.—Amounts vary, and depend entirely on the assessments received. Q. 3.—In what bank, and the credit of what account are such cash amounts deposited and by what means is their withdrawal safeguarded? Ans.—Amounts are deposited in the Union Bank of Canada to the credit of the Workmen's Compensation Board, and withdrawals are made by means of cheques signed by the Chairman, countersigned by Chief Accountant, or in the absence of the Chairman, by the Vice-Chairman, and countersigned by the Chief Accountant; in the absence of the Chief Accountant, cheques are signed by two Commissioners. Q. 4.—In what manner are the investments of the Board held and by whom and under what circumstances can such investments be withdrawn from that custody and sold? Ans.—Investments of the Board are in the custody of the Board in the Safety Deposit Box in the Union Bank of Canada, and if sale is necessary, such sale would be made by an order from the Board.

IN THE EDITOR'S MAIL

Mr. Editor: Allow me space in your paper to give my views along with Mr. Connors concerning the M. V. Law. Mr. Connors has, I think, given the right view of things. Our Constitution stands for equal rights, but does the man with the automobile get it? First, he pays \$5.00 to register, then he has to pay as much per H. P.; he paid 60 cents per hundred lbs., no kick was coming. We were given a license to stand our money was used on the road, and any man with a car likes to see good roads. Now he has to pay \$0 cents per hundred lbs., quite an advance, but that's not all. If his neighbor wants him to run him in to town he has to pay an additional tax. Now an automobile would be rated as personal property, but has not his property tax already been paid? This extra tax has cost him close up to \$20.00. But this is not all, he is supposed to know enough to drive a car, but his judgment is not good enough to know when to take his car out, he is supposed to ask Mr. So and So else you have to pay a fine. What about the man who has already paid his property tax on his horse and wagon? He uses it to do his work. He has paid no extra taxes with his team. If you call this fair play, is it not time to call a halt? If the people that own cars have to pay for the upkeep of the roads, he at least wants the privilege of earning enough with his car without paying for it. If a few dollars comes his way of an evening, there is such a thing as riding a poor horse to death. I hope the man with the auto and the vote will not be backward in saying so, the first time he has a chance. I think the time has come for a change. I beg to sign myself as one who would like to see FAIR PLAY.

POST-WAR HOUSE-KEEPING IN ENGLAND

The English People Are Living Under Very Changed Conditions Now-a-days.

London, March 29.—(By Mail)—English housekeeping is undergoing a revolution. The old-fashioned methods, the lack of modern improvements, the general cumbersome and much serving which marked the old regime are rapidly giving place to the brisk labor-saving methods, so characteristic of Canadian houses. The new ways have come for the same reason that they have come to this country, the lack of servants. The servant problem, so familiar to the new world has now definitely established itself here.

MORE PERMANENT STREETS AT ST. STEPHEN

St. Stephen, March 29.—Despite the fact that the city is suffering from a string of heavy rains, the city council is determined to proceed with the improvement of the streets. The council has passed a resolution to the effect that the city shall proceed with the improvement of the streets, and that the city shall proceed with the improvement of the streets, and that the city shall proceed with the improvement of the streets.

AROOSTOOK

Aroostook Jct., March 31.—Signs of Spring are here, the freshets are running, and most of the snow has disappeared, though it is still thick in the woods. An interesting match at Aroostook Jct. was played on the 29th inst. The match was between the Aroostook Jct. team and the Aroostook Jct. team. The match was played on the 29th inst. The match was between the Aroostook Jct. team and the Aroostook Jct. team.

AROUND THE CITY

THE TRAINS.

The McAdam train, due at 9 p. m., was forty minutes late last evening. All the other trains were on time.

REMOVING DEBRIS

Workmen and teams are engaged in removing the debris from the ruins of the building destroyed by fire last winter on the corner of Mill street and Paradise Row.

PRESIDENT HANNA COMING.

President Hanna, of the Canadian National Railways, has promised to address the Board of Trade and the business men of the city when he next comes to St. John. He is expected here shortly.

BADLY INJURED.

Yesterday morning while working in a mill, Roy Belding of 105 Hazen Street was struck in the face by a piece of wood which broke his jaw bone. He was taken to the General Public Hospital for treatment.

OFFICE CLOSED.

The Naval Transport office, 94 Prince William street, which was opened here after the outbreak of war, and which for the last two years was in charge of Captain A. J. Mulcahy, was closed Wednesday evening.

A PRIVATE SHOWING

Invitations have been issued by the Canadian Universal Film Company for a private showing of the Universal Jewel production "The Virgin of Stanbon" to be held at the Imperial Theatre on Monday evening April 13 at ten thirty.

LIBRARY ROBBERED

Some persons entered the Free Public Library Wednesday night or early yesterday morning, forced open a desk and stole a cash box containing a small amount of money and some papers. A few dollars were taken from a drawer at the receiving counter.

TO DEMOLISH PARSONAGE

Contractor W. T. Colwell has the contract of demolishing the Main St. Baptist Church. Parsonage and the work is to be finished inside of three months and the ground cleared of all debris. It is the intention of the Church to eventually erect a modern Sunday School building on the land.

TO SUPPORT BILL.

C. C. Kirby, president of the St. John Branch of the Engineering Institute of Canada, A. Gray, G. G. Hare, J. A. Grant and A. R. Crookshank went to Fredericton yesterday morning to support the bill to govern the engineering profession in this province.

A SLIGHT FIRE.

An alarm from box 312 was sent in yesterday afternoon about 2.30 o'clock for a slight fire in the residence of Thomas Halsey, Rockland Road. The blaze started in the kitchen, and was believed to have originated from the stove. It was extinguished by the chemical before much damage was done.

ILLUSTRATED LECTURE.

An illustrated lecture was given last evening in the Victoria Street Church schoolroom, with the pastor, Rev. G. Hudson, in the chair. A number of slides on the "Life of Christ" were shown and explained briefly by Rev. H. L. Elisor. After the lecture an offering was taken, the proceeds of which will go towards missionary work.

INJURED GOING TO FIRE.

Andrew Myls, a call fireman was quite badly injured yesterday morning while on his way to the fire on Millville Ave. He attempted to board No. 4 hose cart as that vehicle was passing the corner of Main and Simonds streets and was thrown heavily to the street, injuring his head and receiving a severe shaking up. He was treated by Dr. C. M. Pratt and later removed to his home on Simonds street. He will probably be confined to the house for a few days.

POPULAR PRESENTATION.

George G. Graham a popular C. N. R. employee left on Wednesday evening for Perth, Ont., where he intends to take up duty farming. Previous to his departure, N. R. Dearnsay, general passenger agent for this district, presented a valuable set of pipes and a purse of gold to Mr. Graham on behalf of his associates. Mr. Graham has been Port Agent of the passenger department at West St. John for some years, coming here in winter and serving at Quebec in summer. His place here has been filled by the appointment of Joseph E. Fontaine.

Thistle Club Annual Meeting

Banquet, Election of Officers, and Presentation of Prizes at Bond's Last Evening—Dr. L. A. Langstroth Chosen President—The Club's Record.

The Thistle Curling Club held their annual meeting and dinner last evening at Bond's restaurant, Charlotte street, and about 75 members were present. After a dainty supper had been partaken of the election of officers took place as follows:
Dr. L. A. Langstroth, President.
R. S. Ritchie, Vice-president.
H. W. Stubbs, Treasurer.
Rev. W. O. Raymond, Chaplain.
T. C. Ledingham, Secretary.
W. A. Shaw, the past president of the club, after the election of officers presented his trophies to the winners of the President matches, who were as follows:
Skips—A. J. Machum, R. S. Ritchie, H. Melvin and R. M. Bartsch.
The prizes consisted of lockets suitable for use on watch chain. Mr. Shaw after making the presentations received hearty cheers from all present, as an appreciation for his past services to the club.
H. W. Stubbs and T. C. Ledingham then presented the winners of the Junior trophies with their prizes which consisted of silver watch fobs. A silver bar over a small cross beam with a small curling stone attached to the end was the decoration of the fobs. The receivers were as follows:
Skips—D. Currie, D. Cameron, F. Holman, F. Roderick.
During the past curling season the reports which were presented showed that the club had played fifteen matches, and of this number they were the losers of only two. The total number of points for the season was 1,681 against 1,401. The above number gives the Thistle's majority of 280 points. They have played 109 rinks, have won on 64 and lost on thirty-seven, and tied on eight.
Last year's membership was the largest the Thistle Club has ever had, it having ninety-three members.

AUTOMOBILE ASSN. REGULAR MEETING

Decided Last Night to Entertain Press Association in June—President Regan Delegated to Convention in Winnipeg—Other Matters.

The regular monthly meeting of the New Brunswick Automobile Association was held in the Board of Trade rooms last evening with President T. F. Regan in the chair. Considerable routine business was transacted. A. E. Schofield brought up the matter regarding the visit to St. John in June of the Press Association the delegates numbering about 240. It was suggested that the Automobile Association take some part in entertaining the visitors and it was proposed to give them an automobile drive to points outside the city.
The matter of road improvement was brought up and discussed for some length. Commissioner Fisher who was present stated that he hoped to have the stretch between Coopers Corner and the One Mile House completed this season.
An invitation was read from the Canadian Good Roads Association inviting President Regan to be present at the Seventh Annual Convention to be held in Winnipeg, June 1, 2, 3, and 4. It was resolved that Mr. Regan attend.
F. A. Dykeman brought up the matter of having a motor repair act as it was pointed out that in some cases owners of automobiles are obliged to pay for the time expended by inexperienced workmen. The secretary was instructed to communicate with the American Automobile Association along the lines and report at the next meeting.

Ten Candidates For Civic Honors

S. Herbert Mayes, Fred Campbell and Charles B. Williams Entered the Field Yesterday—W. L. Harding Has Been Approached But Has Not Yet Decided.

Ten candidates now make the slate for the office of commissioner at the coming civic election. Fred A. Campbell, President of the Trades and Labor Council; S. Herbert Mayes, contractor and Charles B. Williams, agent, are the three latest men to enter the field. The other candidates are G. Fred Fisher, John Thornton, James H. Frink, Hugh H. McLellan, C. T. Nevins, Robert Logan and John A. Chesley.
The nominations close at noon on Monday next and it is possible that other citizens may be induced by friends to run. W. L. Harding, retired wholesale grocer stated yesterday that he had been approached but had not definitely decided to enter the field. The present candidates are actively engaged in canvassing and every one feels quite confident of being elected.

ROYAL STANDARD CHAPTER MEETING

The regular monthly meeting of the Royal Standard Chapter I. O. O. F. was held at the residence of Mrs. R. H. Anderson, Queen Square, yesterday afternoon, the regent, Mrs. J. Pope Barnes, presiding. Four new members were elected. It was voted that the Chapter federate with the Local Council of Women. Ten dollars was contributed toward the expenses of an English woman who is being assisted to return home, and \$650 for expenses of the Municipal Chapter.

Dead Body Found In Fishing Boat

Lobster Fisherman Found in Boat on Green Island by Captain of Government Steamer—Companion Missing—Body Taken to Yarmouth.

Yesterday morning J. C. Chesley, agent of Marine and Fisheries received a telegram from Yarmouth that two men in a fishing boat had left Deep Cove about eight miles from Pubnico, and had been missing for some time. Chesley wired the Captain of the D. G. S. Aberdeen to search for the men. Later in the afternoon Mr. Chesley received wireless messages from the Captain of the steamer that he had found the boat on Green Island with one dead body in it, but there was no trace of the dead man's companion; further that the steamer was then proceeding to Yarmouth with the remains. Mr. Chesley then wired the coronor of Yarmouth of the word received and requested that the official should meet the steamer on her arrival.
As far as can be learned here last night the death of the fisherman and the disappearance of his companion is somewhat of a mystery, and a telegram received by The Standard from Yarmouth last night does not throw much light on the sad affair. The telegram is as follows:
Special to The Standard.
Yarmouth, April 1.—The D. G. S. Aberdeen arrived here at six o'clock this afternoon bringing the dead body of Clifford Atkins, a native of Stony Island, and lobster fisherman from Deep Cove.
He left that fishing station at an early hour yesterday morning and the last seen of him alive was at about eight o'clock hauling his lobster pots in the vicinity of Gannet Rock Ledge.
He was accompanied by another man named Nickerson, also of Stony Island, but he has not yet been found. This morning the missing boat was reported to the Aberdeen and the steamer left shortly after in search of it. Nothing was seen or heard until she was returning to port. When she was signalled by the keeper of Green Island who reported the boat ashore there. The body was taken from the boat aboard the Aberdeen and brought here where an inquest will be held before the coronor tomorrow morning. Atkins was a man of about thirty years of age and leaves a wife and three children.

BADLY INJURED IN A SAW MILL

George Ward Had Left Arm Torn and Cut by Saw in Mill at Bloomfield—Brought to Hospital Here for Treatment.

George Ward, aged 21 years and a resident of Bloomfield, N. B., met with a very bad accident yesterday afternoon, when his left arm was badly torn and cut by a large saw. He was employed in a saw mill at Bloomfield. Shortly after the accident Ward was taken to a nearby house where he received first aid. He arrived in the city last evening on the 9.30 Truro express, and was conveyed to the General Public Hospital in the ambulance. He was reported at the hospital late last night to be doing as well as could be expected.

WILL REST EASIER

Mothers of children living in the vicinity of Chalmers Hill or Union street will rest easier in the future, as the E. L. Ruddy Co. have erected a large bill board around the vacant lot at the corner of Prince William and Union streets, thus closing in the old cellar which in these Spring days has resounded a young lake and has offered a capital experimenting station to youngsters with a nautical turn of mind.

HAD LEG FRACTURED

William McAuley, a C. N. R. night watchman on the Long Wharf had the misfortune to stumble off a staging in the dark early yesterday morning and fall on the railroad track, fracturing his leg. The ambulance was called and the man taken to the hospital for treatment.

SPECIAL SERVICES

Last night's service at Charlotte Street, West End Baptist Church was conducted by Rev. Isaac Brindley of Tabernacle Baptist Church who exchanged with Rev. J. H. Jenner, Mr. Brindley took for his text "Lord I will follow Thee but," and preached upon the hindrance to discipleship. Mrs. James Patterson sang several very fine solos.

SERVICE AT TABERNACLE

Rev. J. H. Jenner conducted the service at the Tabernacle Baptist Church last evening taking as the subject of his sermon "Not far from the Kingdom."

OBITUARY.

Mrs. Ella May Clifford
Friends of Ella May, wife of Armstrong B. Clifford, Deputy Sheriff, will learn with regret of her death which occurred yesterday at her home 140 Mecham street, at the residence of one brother several months. The deceased leaves to mourn her husband, three sons, William, Ronald and Harold, also one daughter, Ethel, who was as one brother, William J. Armstrong of this city. She was the daughter of the late Peter and Mary Anderson of this city and was beloved by a wide circle of friends. The arrangements for the funeral will be made today.

Exploiting The Atlantic Fisheries

Halifax Business Man Here Thinks Government Should Develop Policy of Co-operation—Fisheries Are as Yet An Undeveloped Asset.

"With all the talk of Maritime Union and Maritime Conference, it is a wonder that the Government of these provinces do not put their heads together and develop a policy of co-operation in the work of exploiting the Atlantic fisheries," remarked a business man from Halifax to a Standard reporter last evening. "Now and then the Maritime Governments hold a conference, but they generally talk about getting more money from the Federal Government and compensation for the national lands handed over to the Western Provinces. So far as I know they have never discussed what might be done to develop the fisheries that are located in their doors. Yet the fisheries are as yet an undeveloped asset."
"The Federal Government has done something to help open new markets in the west for Atlantic fish by paying special subsidies to the railways to run fish cars. But Ottawa has a rather dim view of the fisheries. So far as I know there is only one member of Parliament who professes to have enough knowledge about the fisheries to make a speech about them."
"Methods of fishing have changed in the Maritime Provinces, and the value of the catch has increased, but there has been little real development. When the increase in prices is considered it does not appear that Nova Scotia is landing a much larger catch today than it did forty years ago in the days of the Washington Treaty. This is surprising, because in the last thirty years the fisheries of England, Germany, France, Holland and other countries have developed enormously. On the Pacific Coast there has been a development of the fisheries on a great scale."
"Many ports in the Maritime Provinces which years ago fitted out fleets of fishing vessels now have only a few gasoline boats engaged in the fisheries. And it is not that the fishing grounds have been depleted. While the Canadian Grand Bank fleet has become smaller and smaller, fishing vessels from France and other countries have been crossing the ocean in increasing numbers to take fish off our shores."
"Our Provincial Governments spend a great deal of money to encourage agriculture and place up-to-date technical information at the disposal of farmers, but they do practically nothing for the fishermen. The assumption is that the fishermen cannot be taught anything. But this is a mistake. The trouble is that too many of our fishermen are not up to date in their methods of catching fish or curing them. Now a large loss is incurred annually, because methods of utilizing all parts of fish have not been developed to any extent, or only in a few localities."

SEAMEN'S INSTITUTE CONCERT ENJOYED

An excellent concert was given last evening at the Seamen's Institute, by the members of the S. S. Melita's company, before a large and most appreciative audience. The concert was under the care of Captain Watson of the steamer Somerset were entertained at the Institute. Captain and Mrs. Mulcahy were also present at the entertainment. Songs were rendered by Messrs. Brown, Foster, Boardman, Simons, McKay, Kennedy and Farrell. The piano and vocal selection by Messrs. Brown and Barton were also enjoyed.
Mrs. Smith again proved herself invaluable as an accompanist.
