Epidemic Cholera.

BERLIN, June 3.—Cholera is epidemic in Schilln, East Prussia. Two persons have died since Wednesday.

Three Children Killed at a Fair. BERLIN, June 3 .- A stampede of horses caused a general panic at the Neunkirchen fair on Friday. Three horses ran into a merry-go-round, killing three children and wounding ten others.

Last week a mad dog bit six persons in Taner. Two of the six have died of hydrophobia, and the others are under treat.

Discount Rates.

LONDON, June 3. - Rates of discount last week were a for three months and a for 30 days. Silver was dull, owing to the slackening of the demand from China, but closed firmer. On the Stock Exchange a brisk investment business was done, whereas speculation was stagnant. Consols rose 4. American reilroad securities were duil and inactive in the early part of the week, but closed firm.

Against the Lords. GLASGOW, June 3 .- An immense demonstration against the House of Lords was held in this city yesterday. A great procession of trades unions, Liberal associations, Irish bodies and the like marched through the principal streets, and was watched by cheering thousands. A mass meeting was held in Glasgow Green, in which speeches were delivered from six different platforms. A resolution calling upon the Government to abolish the House of Lords was carried amid great enthusi-

The Angio-Belgian Deal.

BERLIN, June 3 .- The Imperial Government's attitude to the last Anglo-Belgium several newspapers it has been asserted needed, and urged the association to suswith a pretense of authority that Germany has sent a protest to Brussels. The only basis for this assertion, however, is that the text of the agreement presented some doubtful points affecting German interests, and that a request for their elucidation was sent to the Belgian Government. In official circles everybody derides the idea that Germany will support France's claim to territories on the Upper Nile, or join in diplomatic campaign against England.

20,000 People at a Funeral. LONDON, June 3 .- Over 20,000 people turned out in Madrid for the funeral of Espatero, the toreador, who was killed last Sunday in a bull fight there. The train which bore his remains to his native place, Seville, was received there by a throng estimated at 50,000. Hardly any other Spaniard of this generation has been thus honored in death. Still though this national hero was gored aad killed by the first bull on the programme and carried off to the chapel adjoining the inclosure, the 8,000 people present insisted on having the remaining five bulls of the corrida duly killed in their turn before

they would leave the inclosure. No Change for Canadian Cattle, London, June 3 -The officials of the pard of Agriculture have reported that

ment between Great Britain and Belgium, Lord Rosebery's declaration last evening flatly denying the right of France to interfere with it by no means meets the difficulty. The French expedition, which is now marching from the French Congo territory towards Bah rel Chazel, will not be deterred, under instructions from Minister Hanotaux, from occupying territory which England holds only upon paper rights. The Earl of Kimberley, Secretary of State for Foreign Affairs, received a communication from M. Decrais, French ambassador to England, explicitly declaring that France holds the Ang.o-Belgian agreement as invalid, and it is absurd to assume in the face of this notification that the commander of the French expedition has not received instructions to occupy the disputed territory. It is the opinion of officials of the Foreign Office that everything points to the ultimate reference of the matter to an international conference or a board of arbitration, but it is a question whether the bellicose Dupuy will assent to either.

The World's Y. M. C. A. London, June 3. - The second day's conference of the Young Men's Christian Association of all lands opened at Exeter Hall at 9:30 a.m. yesterday. The central international committee nominated the following officers, who were unanimously elected: President, Sir George Williams (founder of the Y. M. C. A.); vice-presidents, Count Bernstoff, Alfred Andre, Prince Oscar of Sweden and Norway and H. Thane Miller. Among the honorary vice-presidents chosen are: Cornelius Vanderbilt, of New York; John Wanamaker, of Philadelphia, and Morris K. Jessup, of New York. I. E. Brown, of

Chicago, was made the American secretary. The president made a brief address immediately after taking the chair and then appointed the committees. Among the members on the report of the central international committee are Robert R. Mc-Burney, of New York, and D. A. Budge, of Montreal. At 11 o'clock the first topic of the conference, "The necessity for the presence and power of the Holy Spirit in associations and their work," was opened in English by Rev. Prebendary H. B. Webb, of London; in French by Pastor George Appia, of Paris, and in German by Pastor Krummacher, of Elberfeldt. One hour was given to these addresses.

The central international committee presented its triennial report, giving in detail the work of the committee since the Amsterdam convention three years ago. The report shows that there are over 5,000 associations with nearly 500,000 members. Edward Barde, of Geneva, Switzerland, presented the report of the treasurer of the central committee for the and 1893. It showed that \$4,500 had been expended during the last year, the larger part of which came from American and English friends of the committee.

Reports were made by delegates from different countries giving the important features of association work in each. The report for America said there were now in America 1,400 associations, employing 1,200 secretaries, owning 800 buildings and property to the value of \$18,000,000. The report referred to the influence of the 450 college associations and to the hearty support which the 100 railroad associations are receiving from rallroad officials and to the prominence given to athletics and to the ducational department.

The Rev. H. Bach spoke for France. After telling of the growth of the work in France, he referred to the helpful influence of the American friends in the work of the Paris association, and to the elegant building there, largely the gift of American friends. He mentioned James Stokes, of New York, with especially warm words.

Christian Klug spoke for Germany. At 7 o'clock the evening session opened in Exter Hall. The subject was, "Association work for young men in foreign missionary lands." David McConneghy, formerly secretary of the Philadelphia Association, and now secretary of the Madras, India, Association, and also secretary of the Indian National Council, spoke of the claims of the millions of young men of India and the growth in association work in that country. He gave an encouraging report of the local work in that country (Madras), where he had been secretary for three years, and in Calcutta, where J. Campbell White, representative of the American committee, is secretary. He referred to the last national convention in India, and the stimulus it had given the work all over the country. There are now 74 associations in India. He said the agreement concerning possessions in American committee proposed sending a Africa, has not yet been decided. By new secretary to India, but more are

tain this work, which is so important. The chairman introduced L. D. Wishard, secretary of the American international committee, who spoke of his tour around the world in the interest of the association work. He had visited China, Japan, Malaysia, Siam, Burmah, Ceylon, India, Arabia, Caucasia, Persia, Kurdistan, Asia Minor and Cyprus. He said the student class in the East is, and will be, as it everywhere is, the controlling influence in political and religious work. In China and Japan Government offices are held almost exclusively by college graduates, and if this class of men is reached with religious influence we will reach these nations. Christian associations are at work in Japan, China, Ceylon and India. He referred to the fact that student life in the east was very dissimilar from student life in the west, and that students everywhere were ready to

JOHN AND HIS ANNIE. Glenallen's Villagers Revel in the Gos-

sip of a Well-Planned Elepement. DRAYTON, Ont., June 3 .- The quiet village of Glenallen was thrown into a state of excitement yesterday afternoon, when it was found that Miss Annie, only daughter of John Hought, had eloped with one John Hilborne, of Bloomingdale. Hilborne was working in Glenallen and had been paying attention to Miss Hought for some time. The father had forbidden Hilbourne the house, but

they continued to meet in secret. The father being here Saturday on business an elopement was planned. Two rigs were in waiting at the outskirts of the village. Miss Hought walked out and met them, and the party drove rapidly to and h will not forsake you now." Berlin. The father when informed of the circumstances started immediately for Berlin to prevent the marriage if possible.

East Middlesex Patrons Meet for Organization.

The Peterboro Patron Candidates Decide to Withdraw-W. R. Meredith the Champion Political Shuffler.

SPLENDID LIBERAL MEETING AT ILDERTON. The large Masonic hall was filled Saturday, mostly with the supporters of R. W. Jackson.

The withdrawal of Mr. James Gilmour from the contest appears to put a new complexion upon the whole matter. The chair was occupied by Mr. John

Campbell, of Lobo. Mr. R. W. Jackson addressed the meeting, stating his views with reference to the Government policy, and dealing with the leading questions now being discussed. He regarded the Mowat Administration as a great benefit to the farming community, as well as to every other class. He was therefore prepared to give an independent support to it if elected, and desired the

support and votes of those present. Mr. J. W. Rosser was the next speaker. He answered the objections to the Mowat Administration which had been brought forward by the Patron and P. P. A. candidate, Mr. Shore. Mr. Shore admitted at Ilderton that he had voted for the separate schools 40 years ago, and that since then he has had his eyes opened. He also admitted that he had voted for the National Policy fifteen years ago, but that since then he had had his eyes opened. Mr. Rosser, however, thought that if it took Mr. Shore 40 years in one instance and fifteen years in another instance to get his eyes opened he did not think with sufficient rapidity to represent the electors of East Middlesex. For his part he would rather have a man who would see these matters in the right light at the time they were being discussed and introduced rather than one who took so long to get his eyes opened. He also talked upon the charge of centralization which had been made against Mr. Mcwat with reference to the Baptist College, and completely disposed of the charge.

Mr. A. S. McGregor next addressed the meeting vigorously. He took up the different questions one by one. He agreed with OORE & HENRY—ARCHITECTS AT Mr. Rosser that it was desirable to have a civil engineers, Albion Building, L man who could see right at the start, and don. John M. Wrong, and would get his eyes organed also wrong, and would get his eyes opened also in that respect. He took up the various charges with reference to the separate schools and answered them, also those re-Advertisements under this head a centa wo lating to mining and the crown-lands, and closed a vigorous and eloquent address by asking all present for their support on the

26th of June for Mr. R. W. Jackson. Mr. T. H. Purdom closed the meeting. Market House; residence. corner King a principles, and the reasons why support to vote for him as against Mr. R. W. Jackson, who was himself a farmer and a latron. Believing that it would be in the nterest of East Middlesex to be representd by Mr. Jackson rather than by Mr. shore, he arged the electors on the 26th of une to give him a good majority.

The meeting closed with three cheers for the Queen, Sir Oliver Mowat, the chairman, Mr. Jackson and Mr. Purdom.

PATRONS ORGANIZE. The Patrons of Industry of East Middlesex held a meeting for organization in the county buildings on Saturday afternoon. There were perhaps fifteen Patrons in attendance, and the chair was occupied by Mr. A. F. Anderson, the county president. Addresses were delivered by the candidate, Mr. Wm. Shore, Allan Bogue and Mr. Alexander, the Patron candidate for North Middlesex. The latter detailed the plan of organization, the method of selecting committees, scrutineers, etc., in vogue in his riding. He gave Mr. Gilmour credit for having good sense in withdrawing from the contest, and expressed the hope that Mr. Shore would be elected by acclamation. Acting on Mr. Alexander's suggestion Mr. Charles Girard, Westminster, was appointed campaign manager. The following township chairmen were also ap-pointed: Westminster, Mr. James Crinklaw, White Oak, Dorcheste t, Thos. Lane, Mossley; Nissouri West, Wm. Scatcherd. Wyton; London township, Joseph Ferguson, Birr; Londou West, R. S. Rockett. Thase chairmen will appoint committees

and select scrutineers. The meeting then adjourned. VARIABLE AS THE WIND. It was settled long ago that Mr. Meredith could take more positions on the same question than any man who has ever igured in our politics. He has been for the ballot and against the ballot; for the Irish electors and against the Irish electors; for the separate school amendments and against the separate school amendments. But in all Mr. Meredith's eccentric and tortuous public record there is revealed no more remarkable performance than that part of his speech at London which deals with the question of prohibition.

PETERBORO PATRONS IN DOUB T. Norwood, Ont., June 2 .- About two months ago the Patrons of Industry of East Peterboro nominated Wm. Quinn, of Douro, for the Legislature. A convention of Patrons was held in the town hall of Norwood yesterday where some discussion took place in regard to Mr. Quinn's expenses. Many of the members favored a withdrawal as the chances of electing the nominee were considered very slim. A motion was carried leaving it to the candidates themselves as to whether they should stand or not, whereupon Messrs. Quinn and Lang withdrew. This leaves two candidates in the field. Thos. Blizzard, M.P.P., the Liberal candidate, and John Lancaster. Both are Patrons of Industry, but adhere more strongly to the old parties.

CARDWELL LIBERALS. TOTTENHAM, June 3. - A large gathering attended the Reform convention here on Saturday, and after several nominations unanimously elected Mr. Wm. Wright, of Bradford, to contest Cardwell. This gentleman will decide by Monday whether he will stay, and if not Dr. Robinson, of Brampton, will accept.

Satisfactory Reports Presented and Unanimously Adopted - Election of Directors-Vote of Thanks to Officers.

The twelfth annual meeting of the shareholders of the Toronto General Trusts Company was held at the company's office on the corner of Yonge and Colborne

at 12 o'clock noon. In the absence of Hon. Edward Blake, the president, Mr. John Hoskin, Q.C., LL.D., occupied the chair, and among those present were: Messrs. E. A. Meredith, LL.D., vice-president; W. H. Beatty, LL.D.; John Hoskin, LL.D. Q.C.; W. H. George A. Cox, J. D. Edgar, Q.C., Edward Galley, George Gooderham, Æmilius Irving, Q.C., Robert Jaffray, J. W. Langmuir, A. B. Lee, G. W. Lewis, Mr. Macmuir, A. B. Lee, G. W. Lewis, Mr. Mac-donald, J. Kerr Osborne, William Ramsay (Bowland, Scotland), J. G. Scott, Q.C., James Scott, and T. Sutherland Stayner. Mr. Langmuir, the manager, was ap-

pointed secretary of the meeting, and the report of the directors for the year ended March 31, 1894, was read as follows: TWELFTH ANNUAL REPORT. The directors of the Toronto General Trusts Company have pleasure in submit-

ting their annual report, accompanied by the usual financial statements showing the business operations of the company for the year ended March 31, 1894. The shareholders will be gratified to find that these statements show that the progress and growth of the company's business during the past year have been greater than in

any previous year of its prosperous history. The value of new estates and work as sumed by the company during the past tweive months is \$2,550,506 65, as compared with \$2,000,212 38 during the preceding year. This large addition to the company's business brings up the aggregate volume of assets remaining in its charge at the close of the year (after the distribution of estate funds to beneficiaries and the closing up of other matters) to very nearly \$10,000,000, not including trusteeships for

bondholders. The varied character of the new work assumed by the company during the year is

seen in the following summary: Administration of intestate estates. \$ 178,619 68 Administration of estates with will 755,823.36 Trusteeships.
Guardianships 122,519 78 Receiverships.

The contest duties and responsibilities of the company, pills will effect a cure of any kidney disease Shore could not be called a Conservative amount of trust funds remaining in the kidneys. company's hands for investment. To adequately cope with this largely-increased volume of business it became necessary to entirely reorganize and increase the staff of the office and to divide the work into two distinct branches, viz., the estates and agency department and the investment department. The new system has now been in operation since the close of the financial year, and your directors have pleasure in reporting that it works most satisfactorily, and that with such additions from time to time as may be found necessary it seems

capable of meeting all future demands on the staff. During the past, as in former years, the company has assumed the position of trustee under mortgages made by corporations to secure their bond or debenture issue, The company's duty was simply to see that the issue of the bonds or debentures was correct and regular, and that the holders of the bonds or debentures were secured the benefit of the assets covered by the trust deed, and in none of these cases has anything been advanced by the company upon the mortgages, bonds or debentures, nor has it assumed any part whatever of the mortgage liability. The directors feel it right to make this explanation as to the company's liabilities in such cases, in order to remove a misapprehension which seems to exist in the public mind on the subject. as in recent articles which have appeared in our papers it is erroneously assumed that at least in one of these cases the company had incurred serious pecuniary liability; in fact, that it had loaned a very large amount of its funds to the corpora-

tion, instead of, as was the case, simply becoming a trustee for the lenders. The number of estates which have come into the company's hands during the past year is very large, but not a few of these are estates where the assets are very trifling and where the amount of compensation which the company received is altogether inadequate for the work performed. Filling, nowever, as it does, the position of a public corporate trustee, your directors have not felt justified in declining, except in very special cases, to undertake the management of these small estates. It has accepted them, however, rather as a matter of accommodation than

for the sake of reward. The profit and loss sheet, herewith submitted, shows the revenues of the company for the year and the various sources from which they were obtained, and also the ex-

penses of management. The net profits for the year, including \$2,983 74, balance brought forward from last year, as will be seen, amount to \$56,-096 11, out of which your directors have declared a dividend of 10 per cent on the paid-up capital stock, absorbing \$21,787 36. The reserve fund has been increased by \$15,000, and now stands at \$240,000, and there has been added to the contingent account the sum of \$15,000, which increases that fund to \$33,325 78. The unappropriated balance at credit of profit and loss

amounts to \$4,308 75. All which is respectfully submitted. JOHN HOSKIN, Vice-president and chairman Executive

Manager. The adoption of the report was moved by Vice-President Hoskin, seconded by Vice-President Meredith, both of whom congratulated the shareholders on the continued prosperity of the company, which was all the more gratifying at a time when commercial depression is so prevalent.

Reference was also made to the misappre-

cent under what would have been charged by individual executors and trustees. It was also pointed out that under the new Surrogate Court rules executors and administrators are required to pass their accounts within eighteen months of the issue of probate or letters of administration, when compensation for management of the estate is fixed by the judge.

The report was unanimously adopted. The usual resolutions of thanks to the directors, executive committee, president, vice-presidents and the manager and staff

were adopted. Owing to a vacancy on the board a bylaw was passed authorizing the appointment of streets, Toronto, on Monday, the 28th ult., the manager of the board of directors, with the designation of managing directors.

The election of directors was then held and resulted in the re-election of the following gentlemen. Hon. Edward Blake, LL.D., Q.C., M.P.; E. A. Meredith, Beatty, W. R. Brock, George A. Cox, B. W. Langmuir, Sir Frank Smith, J. G. Scott, Q.C., James Scott and T. Sutherland Stayner.

At a subsequent meeting of the board the Hon. Edward Blake was re-elected president and Messrs, E. A. Meredith and John Hoskin vice-presidents.

THE QUESTIONS THAT TELL.

"1. Is there a city constituency in Canada that sends to Parliament or to the Legislature the paid agent of another city? "2. Is it right that London should select

as its representative an officer of the city of Toronto? "3. Is Mr. Meredith, city solicitor of Toronto, having solemnly declared that in future the interests of that city would be his first consideration, in a position to be an

independent representative of London? "4. Would Hamilton, Ottawa or Kingston go to Toronto for a representative in either the House of Commons or the Legislature? "5. Why should the progressive city of

Legislature, and has to accept the candidature of a paid officer of Toronto?"

Prendergast's Case. CHICAGO, June 3.-By agreement of counsel the case of Prendergast, the assassin of Mayor Harrison, will not be tried until fall. The case will come up June 11, but will be continued until the September term of court to allow Judge Cheftain to preside, as he will be engaged with civil cases until that time. State's Attorney Kern said that press of business made it necessary

to defer the hearing.

Know Thyself. How important this injunction to every young man! How many ruin their health and future happiness through pernicious practices contracted in ignorance and repented of when too late. Parents, guardians and humanitarians can do no better service to the rising generation than to place in their hands the information and warnings contained in a little book carefully prepared by an association of medical gentlemen, who have had vast ex-perience in dealing with the grave maladies here hinted at, and who feel that they owe it to humanity to warn the young of the land against certain destructive habits which are far more prevalent than any layman can possibly imagine, and which, if persisted in, gradually undermine the constitution and health, and destroy the future happiness of the victim. Cut out this notice and inclose it with 10 cents in stamps (to pay postage) to World's Dispensary Medical Association, 663 Main street, Buffalo, N. Y., and the book will be sent, secure from observation in a plain

sealed envelope. It seems like a contradiction of terms, but it is a fact nevertheless that a long engagement is oftentimes broken off short. East Middlesex Patrons Meet for Organization.

The Peterboro Patron Candidates Decide to Withdraw-W. R. Meredith the Champion Political Shuffler.

SPLENDID LIBERAL MEETING AT ILDERTON. The large Masonic hall was filled Saturday, mostly with the supporters of R. W. Jackson.

The withdrawal of Mr. James Gilmour from the contest appears to put a new complexion upon the whole matter.

The chair was occupied by Mr. John Campbell, of Lobo. Mr. R. W. Jackson addressed the meeting, stating his views with reference to the Government policy, and dealing with the leading questions now being discussed. He regarded the Mowat Administration as a great benefit to the farming community, as well as to every other class. He was therefore prepared to give an independent support to it if elected, and desired the

support and votes of those present. Mr. J. W. Rosser was the next speaker. He answered the objections to the Mowat Administration which had been brought forward by the Patron and P. P. A. candidate, Mr. Shore. Mr. Shore admitted at Ilderton that he had voted for the separate schools 40 years ago, and that since then he has had his eyes opened. He also admitted that he had voted for the National Policy fifteen years ago, but that since then he had had his eyes opened. Mr. Rosser, however, thought that if it took Mr. Shore 40 years in one instance and fifteen years in another instance to get his eyes opened he did not think with sufficient rapidity to represent the electors of East Middlesex. For his part he would rather have a man who would see these matters in the right light at the time they were being discussed and introduced rather than one who took so long to get his eyes opened. He also talked upon the charge of centralization which had been made against Mr. Mcwat with reference to the Baptist College, and

completely disposed of the charge.

If and surveyors, 213 Dundas street. I field Block. H. C. McBride, F. W. Far meeting vigorously. He took up the different questions one by one. He agreed with Mr. Rosser that it was desirable to have a man who could see right at the start, and predicted that Mr. Shore would in time EMOVED—J. A. wrong, and would get his eyes opened also wrong, and would get his eyes opened also in that respect. He took up the various VETERINARY SURGEON charges with reference to the separate schools and answered them, also those relating to mining and the crown lands, and closed a vigorous and elequent address by asking all present for their support on the

26th of June for Mr. R. W. Jackson. Mr. T. H. Purdom closed His address was mostly confined to general principles, and the reasons why support should be given not only by Reformers, but by Conservatives as well, to Mr. R. W. Jackson as against Mr. Shore. The contest was not really between the old lines. Mr. Shore could not be called a Conservative candidate, nor could Patrons be expected to vote for him as against Mr. R. W. Jackson, who was himself a farmer and a Patron. Believing that it would be in the nterest of East Middlesex to be representd by Mr. Jackson rather than by Mr. shore, he arged the electors on the 26th of une to give him a good majority. The meeting closed with three cheers

or the Queen, Sir Oliver Mowat, the chairman, Mr. Jackson and Mr. Purdom. PATRONS ORGANIZE. The Patrons of Industry of East Middlesex held a meeting for organization in the county buildings on Saturday afternoon. There were perhaps fifteen Patrons in attendance, and the chair was occupied by Mr. A. F. Anderson, the county president. Addresses were delivered by the candidate, Mr. Wm. Shore, Allan Bogue and Mr.

Alexander, the Patron candidate for North Middlesex. The latter detailed the plan of organization, the method of selecting committees, scrutineers, etc., in vogue in his riding. He gave Mr. Gilmour credit for having good sense in withdrawing from the contest, and expressed the hope that Mr. Shore would be elected by acclamation. Acting on Mr. Alexander's suggestion Mr. Charles Girard, Westminster, was appointed campaign manager. The following township chairmen were also appointed: Westminster, Mr. James Crinkaw, White Oak, Dorchester, Thos. Lane, Mossley; Nissouri West, Wm. Scatcherd. Wyton; London township, Joseph Ferguson, Birr; Londou West, R. S. Rockett. Thase chairmen will appoint committees

and select scrutineers. The meeting then adjourned. VARIABLE AS THE WIND. It was settled long ago that Mr. Meredith could take more positions on the same question than any man who has ever figured in our politics. He has been for the ballot and against the ballot; for the Irish electors and against the Irish electors; for the separate school amendments and against the separate school amendments. But in all Mr. Meredith's eccentric and tortuous public record there is revealed no more remarkable performance than that part of his speech at London which deals

with the question of prohibition. PETERBORO PATRONS IN DOUB T. Norwood, Ont., June 2 .- About two months ago the Patrons of Industry of East Peterboro nominated Wm. Quinn, of Douro, for the Legislature. A convention of Patrons was held in the town hall of Norwood yesterday where some discussion took place in regard to Mr. Quinn's expenses. Many of the members favored a withdrawal as the chances of electing the nominee were considered very slim. A motion was carried leaving it to the candidates themselves as to whether they should stand or not, whereupon Messrs. Quinn and Lang withdrew. This leaves two candidates in the field. Thos. Blizzard, M.P.P., the Liberal candidate. and John Lancaster. Both are Patrons of Industry, but adhere more strongly to the

old parties. CARDWELL LIBERALS. TOTTENHAM, June 3. - A large gathering attended the Reform convention here on Saturday, and after several nominations unanimously elected Mr. Wm. Wright, of Bradford, to contest Cardwell. This gentleman will decide by Monday whether he will stay, and if not Dr. Robinson, of Brampton, will accept.

Satisfactory Reports Presented and Unanimously Adopted - Election of Directors-Vote of Thanks to Officers.

The twelfth annual meeting of the shareholders of the Toronto General Trusts Company was held at the company's office on the corner of Yonge and Colborne streets, Toronto, on Monday, the 28th ult.,

at 12 o'clock noon. In the absence of Hon. Edward Blake, the president, Mr. John Hoskin, Q.C., LL.D., occupied the chair, and among those present were: Messrs. E. A. Meredith, LL.D., vice-president; W. H. Beatty, George A. Cox, J. D. Edgar, Q.C., Edward Galley, George Gooderham, Æmilius Irving, Q.C., Robert Jaffray, J. W. Langmuir, A. B. Lee, G. W. Lewis, Mr. Macdonald, J. Kerr Osborne, William Ramsay Bowland, Scotland), J. G. Scott, Q.C.,

James Scott, and T. Sutherland Stayner. Mr. Langmuir, the manager, was appointed secretary of the meeting, and the report of the directors for the year ended

March 31, 1894, was read as follows: TWELFTH ANNUAL REPORT. The directors of the Toronto General Trusts Company have pleasure in submitting their annual report, accompanied by the usual financial statements showing the business operations of the company for the year ended March 31, 1894. The shareholders will be gratified to find that these statements show that the progress and growth of the company's business during the past year have been greater than in

any previous year of its prosperous history. The value of new estates and work assumed by the company during the past twelve months is \$2,550,506 65, as com pared with \$2,000,212 38 during the preceding year. This large addition to the company's business brings up the aggregate volume of assets remaining in its charge at the close of the year (after the distribution of estate funds to beneficiaries and the closing up of other matters) to very nearly \$10,000,000, not including trusteeships for

bondholders. The varied character of the new work

assumed by the company during the year is seen in the following summary: Administration of intestate estates.\$ 178,619 68 Administration of estates with will Receiverships..... Committeeships

To adequately cope with this largely-increased volume of business it became necessary to entirely reorganize and increase the staff of the office and to divide the work into two distinct branches, viz., the estates and agency department and the investment department. The new system has now been in operation since the close of the financial year, and your directors have pleasure in reporting that it works most satisfactorily, and that with such additions from time to time as may be found necessary it seems

capable of meeting all future demands on the staff. During the past, as in former years, the company has assumed the position of trustee under mortgages made by corporations to secure their bond or debenture issue. The company's duty was simply to see that the issue of the bonds or debentures was correct and regular, and that the holders of the bonds or debentures were secured the benefit of the assets covered by the trust deed, and in none of these cases has anything been advanced by the company upon the mortgages, bonds or debentures, nor has it assumed any part whatever of the mortgage liability. The directors feel it right to make this explanation as to the company's liabilities in such cases, in order to remove a misapprehension which seems to exist in the public mind on the subject, as in recent articles which have appeared in our papers it is erroneously assumed that at least in one of these cases the company had incurred serious pecuniary liability; in fact, that it had loaned a very large amount of its funds to the corporation, instead of, as was the case, simply

becoming a trustee for the lenders. The number of estates which have come into the company's hands during the past year is very large, but not a few of these are estates where the assets are very trifling and where the amount of compensation which the company received is altogether inadequate for the work performed. Filling, nowever, as it does, the position of a public corporate trustee, your directors have not felt justified in declining, except in very special cases, to undertake the management of these small estates. It has accepted them, however, rather as a matter of accommodation than

The reserve fund has been increased by \$15,000, and now stands at \$240,000, and there has been added to the contingent account the sum of \$15,000, which increases that fund to \$33,325 78. The unappropriated balance at credit of profit and loss amounts to \$4,308 75.

All which is respectfully submitted. JOHN HOSKIN, Vice-president and chairman Executive Committee.

The report was unanimously adopted. The usual resolutions of thanks to the directors, executive committee, president, vice-presidents and the manager and staff were adopted.

THE QUESTIONS THAT TELL. "1. Is there a city constituency in Canada that sends to Parliament or to the Legis-

lature the paid agent of another city? "2. Is it right that London should select as its representative an officer of the city of Toronto?

"3. Is Mr. Meredith, city solicitor of Toronto, having solemnly declared that in future the interests of that city would be his first consideration, in a position to be an independent representative of London? "4. Would Hamilton, Ottawa or Kingston go to Toronto for a representative in

either the House of Commons or the Legislature? "5. Why should the progressive city of London alone advertise that it has no one within its bounds fit to represent it in the Legislature, and has to accept the candidature of a paid officer of Toronto?"

Prendergast's Case. CHICAGO, June 3.-By agreement of counsel the case of Prendergast, the assassin of Mayor Harrison, will not be tried until fall. State's Attorney Kern said that press of business made it necessary

to defer the hearing.

Know Thyself. How important this injunction to every young man! How many ruin their health and future happiness through pernicious practices contracted in ignorance and repented of when too late. Parents, guardians and humanitarians can do no better service to the rising generation than to place in their hands the information and warnings contained in a little book carefully prepared by an association of medical gentlemen, who have had vast ex-perience in dealing with the grave maladies here hinted at, and who feel that they owe it to humanity to warn the young of the land against certain destructive habits which are far more prevalent than any layman can possibly imagine, and which, if persisted in, gradually undermine the constitution and health, and destroy the future happiness of the victim. Cut out this notice and inclose it with 10 cents in stamps (to pay postage) to World's Dispensary Medical Association, 663 Main street, Buffalo, N. STRUCK BY A BAT. WINDSOR, June 3 .- An accident oc curred here Saturday in a ball game that resulted in a boy about 9 years of age being seriously injured. H. Walker, who was batting, accidentally let his bat fly from his hands. The boy, who was standing near, was struch on the breast. He fell to the ground and when raised could not speak. Blood cozed from his nose, caused probably from the fall upon his face or from internal injuries by the blow from the heavy bat. He was removed to a neighboring house and medical attendance promptly summoned. It is thought his injuries are not fatal.

Mr. Foster has brought down another batch of tariff changes. The protected manufacturers, who have succeeded in producing the proper arguments in quantities satisfactory to the Government, like the little birds sung of by Lord Tennyson, "have their wills." Go to Ottawa and see the Government and get what you want; the elections are coming on. It is to be hoped that the eyes of the farmers are open to what has been going on at Ottawa this session. The protectionist Coxeyites have had it all their own way. If the armers or laborers flocked to Ottawa as he protected manufacturers have been doing, there would probably be raised the cry that they were intimidating the Govto-day. Ramapa won, Roche second, Henry of Navarre third. Time, 1:52½; distance, ernment and the Legislature, and that they ought to be sent to prison. That is wha was done to the other Coxeyites who went to Washington, but then they were not protected manufacturers. "Had we," said one indignant Coxeyite, "gone to Washington for the purpose of demanding that the protective tariff be maintained, we would have been received with open arms."

An application has already been made for this year's award of the celebrated prize the "Dunmow Flitch of Bacon." The prize was instituted in 1244, for "that married couple who will go to the priory and, kneeling on two sharp-pointed stones, will swear that they have not gurreled nor repented of their marriage within a year and a day after its celebration." The awarding of the flitch has been revived of late years, and is the occasion of a great festival of fun. It will be awarded this year some. time in August.

-We adopted the ballot system from England and politicians there are all agreed that it is a perfectly secret ballot .- Sir Oliver Mowat at London.

-Sir Oliver Mowat is in favor of the enfranchisement of women. Good for Sir Oliver! He would have much appreciated the bright sayings of a bright woman from Ottawa who spoke on that subject on Saturday night.

-"If the people want the Government House abolished, it shall be abolished. They have only to instruct their representatives that that is their opinion and the Government House shall be discontinued .- [Sir Oliver Mowat at London.

-Mr. Edward Blake, M. P. for Longford, is a member of the Royal Commission | ability has been generally recognized. He which is to inquire into the financial relations between Great Britain and Ireland. Mr. Blake is in constant demand to address | that high standard of management which great popular audiences in England and characterized it during the control of Hon.

-Mr. Hunter, the well-known evangelist, is known to belong to a Conservative family, but in a recent illustration he spoke of "our own noble and loved Premier, Sir Oliver Mowat." He is indeed a Grand Old Man, and every citizen of his native Province should be proud of him.

-Bishop Thorold, himself a member of the Upper Chamber by virtue of his office, says that in the House of Lords no one listens. Of what use, then, is that alleged "deliberative" body? A great mass meeting in the commercial capital of Scotland on Saturday answered that as at present constituted it is worse than useless. It must be radically mended or ended.

-The Toronto World denounces Principal Grant as "that trimming and timeserving adventurer" because he has asserted that "Ontario cannot afford to dismiss Sir Oliver Mowat." Principal Grant is a Conservative, but he knows that the Province of Ontario has been well ruled by Sir Oliver, and he is not prepared to try the rash experiment of turning out the head of the best Government that Canada has ever possessed.

-In some remarks in the W. C. T. U. Convention on "Purity in Literature, Art and Fashion," by Mrs. Todd, of New Brunswick, the lady speaker, in alluding to the Breckinridge trial at Washington, is reported as saying that "the very worst reports of the horrible affair at Washington had been published in the Canadian papers." Mrs. Todd has been misinformed as to the Ontario newspapers, at all events. The Breckinridge business was conspicuously left alone by the daily and weekly newspapers of this Province.

-The leader of the Opposition in the Ontario Legislature had to go back to 1872, a year before Sir Oliver Mowat came into power, to try and fasten a charge of maladministration of the Crown Lands upon the Ontario Government. This fact resulted in the conversion to Liberal principles of at least one Conservative. He has written us to say that an Opposition so scarce of legitimate grievances as to the country's resources, and with no declared policy regarding the great staple industry of the country, agriculture, is too weak to stand alone, and must continue in the Indeed, but for the laxity of the Dominion nursing state for four years to come. Therefore, he cannot trust it.

-The great question of Provincial polities to which our principles apply is that of Separate Schools. It does not appear to sent from this country. me that the past relation of the parties to the question permits any line to be drawn by our (Equal Rights) association in favor of or against one party rather than the other. Whatever accretions have gathered round the Separate School Act have had, I think, the concurrence of all. Neither party can charge the other with developing separate schools, while the recent modifications in the Separate School law are in substance what our platform demands. - [Principal ities, on went the embargo on Canadian

A MIDDLESEX BOY. It may not be generally known to AD-

VERTISER readers that Hon. Wm. Harty, the new Commissioner of Public Works in Ontario, is a native of Middlesex. Such is the case, however, Mr. Harty having been born in the township of Biddulph, of which district his respected parents were pioneers. Mr. Harty received his early education in Kingston, and, adopting a commercial life, he speedily took a front position in the business world of Eastern Ontario. In 1870 he was elected a member of the Kingston Board of Trade, and in 1873 and 1874, though still a very young man, he was chosen president of the board and sent as a delegate to the Dominion Board of Trade. The summer session of the Dominion Board in 1874 was held in St. John, N. B., to consider the basis of the reciprocity treaty negotiated by the late Hon. George Brown with the United States commission appointed for that purpose. He was for awhile partner in the wholesale grocery firm of James Harty & Co., and upon the death of the senior member in November, 1868, he succeeded to the complete control of the business, and carried it on for the period of ten years, when he retired, selling out to his brotherin-law, Mr. C. Bermingham, Mr. Harty was a director of the Kingston and Pembroke Railway, and a member of the executive committee of the board from its reorganization in January, 1875, until he retired in 1879. He took a prominent part in organizing the company who are at present owners of the Canadian Locomotive and Engine Works, and became managing director of that important business, severing his connection with the company in 1888. Since then he was for several years general manager for Canada of the Equitable Life Insurance Company of New York. He recently retired from that position and became one of the three trustees of that company for Canada, the other trustees being Sir Richard Cartwright and Mr. Hugh Ryan, of Toronto. He has also done considerable successful financing in connection with railways. Mr. Harty has always taken a very active interest in the affairs of the city in which he made his home, and was a member of the city council from \$1879 to 1881, when he retired, re-entering municipal life, however, for a few years in 1885 at the urgent request of many ratepayers. He was for some years chairman of the finance committee, and the finances of the city, which were in very poor shape when he assumed that position, were, while under his control, immediately improved. Mr. Harty entered the Legislature some

years since, capturing Kingston from the Conservatives when Mr. Metcalfe sought election for the Dominion Parliament. In the Legislature the new Minister has been one of the most popular members, and his enters upon his new office with the brightest prospects that he will maintain for it C. F. Fraser. Middlesex county is proud of the fact that among her sons can be registered the second Premier of the Province (Hon. Mr. Blake), and two of the ablest members of Sir Oliver Mowat's Administration, Hon. G. W. Ross and Hon. Wm. Harty.

A GOOD MAN LEAVING LONDON. Yesterday Rev. James Ballantyne, M.A., preached his farewell sermon in South London. The reverend gentleman will be forthwith inducted into an important pastoral charge in the city of Ottawa. We need hardly say that we deeply regret the loss from our midst of a man possessed of so much grace, general accomplishments and power as Mr. Ballantyne; and in this expression we feel sure that we but echo the thought of every resident of this city. Mr. Ballantyne is one of the most scholarly men in the Presbyterian Church. He is a man of winning disposition, and yet of strong persistency of character. London's loss is the distinct gain of the capital of the Dominion. The best wishes of the best men and women of London go with Mr. Ballantyne and his family to their new

CANADIAN LIVE STOCK EMBARGO AND ITS CAUSE.

Canadian farmers may just as well make up their minds that they will not be able to ship "stockers" to the British market this year, and proceed to adapt themselves to the situation. The cablegrams from London assert that the lungs of suspected animals landed by the steamships Toronto of the Dominion line and the Laurentian of the Ailan line, three weeks ago, have been examined by experts who claim that they have discovered contagious pleuro-pneumonia in them. As the disease is not known to exist in any part of Canada, this discovery is a mystery, and the real cause of the contagion should be probed to the bottom. We do not wonder at the British authorities being so careful, seeing the terrible ravages of pleuro-pneumonia, from time to time, among the cattle of the British Isles. But it does seem remarkable that while every now and again Canadian cattle are discovered to be suffering from this contagious malady when they reach a British port, no genuine case is discovered in the Dominion. authorities in observing the quarantine laws on the borders of Manitoba and the Northwest Territories, we question if ever any one would have seriously questioned the general healthfulness of the live stock

It was an evil day when the Dominion Government placed it in the power of the representative in Ottawa of the chief British Conservative journal to lay before the English public the fact that Canadian quarantine regulations on the Northwest border were flagrantly and persistently ignored. To these quarantine regulations, the British authorities, up till the exposure, trusted to keep Canadian cattle free from infection. The moment the dislive stock. It was costly neglect.

AN OBJECT LESSON.

The meetings of the Dominion Women's Ch ristian Temperance Union in this city have made a profound impression—an impression that was intensified by the powerful address of Mrs. Barney, of Rhode Island, superintendent of W. C. T. U. Prison Work in the United States. The impression has been cumulative, and it will doubtless grow more powerful during the meetings

It is an entirely erroneous impression that this great world-wide organization confines itself merely to temperance agitation. As its field is the world, so do its objects of thought and of work-for it is a band of workers-cover the whole field of philanthropy and social well-being.

Visitors to the regular sessions of the Convention at the Congregational Church have remarked a knowledge of parliamentary usages, a decorum of procedure, a management of business "with neatness and dispatch," that would make the fortune of any Parliament in the world. Something of this is doubtless due to the remarkable quickness, brightness and good-natured tast of the very able presiding officer, Mrs. Williams, of Montreal. But the Provincial vice-presidents and the members of the Convention as a whole, are women of undoubted ability.

It is something of an object lesson to observe all this ability, and culture, and high character, and consecration; and then to reflect that these women are refused the opportunity of recording their opinions where they will tell effectively, namely, at the ballot box! With a woman at the head of the governmental affairs of the British Empire for half a century, and possessing a record that no male monarch has ever equaled, it is surely a crude idea that the women of Canada should not be allowed to participate in government even at the primary places of CHILLS AND FEVER, FEVER AND legislative power, namely the booths where the votes of the people are deposited! Such an exclusion is idiotic. As the Duke of Weimar said of the power of the First Napoleon in the noontide of his glory, "It is unjust, it cannot last."

CONSUMMATION TO BE WISHED FOR. NEW YORK, June 3.—The Herald says: Capitalists in New York who control the chief coal railroads in Ohio stated yesterday that the soft coal strike, so tar as Ohio, Pennsylvania and Indiana are concerned, will undoubtedly be settled next Tuesday, or Wednesday at the latest. An understanding, they say, has been reached with President McBride, of the United Workers, whereby, it is expected that the operators of these three States will meet the men half way. Ohio mine owners, it is said, saw that it was to their interests to offer the men an advance of 10 cents a ton, although the latter demanded 20 cents, and according to Mr. McBride the Ohio districts are willing to compromise on that basis. Since that time the Indiana and Western Pennsylvania bituminous mine owners have oined hands with the Ohio interests on he same terms.

A SETTLEMENT IN ONE PLACE. LEAVENWORTH, Kan., June 3.—The coal miners' situation that appeared so serious Friday night seems to be peacefully settled. Yesterday through the efforts of citizens the mine owners and a strikers' committee held a protracted conference, during which they came to an agreement. The mine owners agreed to allow a check weighman to be paid by men placed at each shaft and to pay the present high wages if the price of mining was not lowered at other places. The men agreed to return to work at Riverside and Home mines on Monday.

RIOTERS HOLD SWAY CANNELLSBURG, Ind., June 3.—The riotous strikers hold full sway here, and nothing will be done to stop their desperate work until the militia arrives. They tore up the Evansville and Terre Haute tracks, ditched cars, and ruined railroad property right and left. They have built rough fortifications, and the news that the militia is coming has made them very ugly. The town is in a state of terror.

HOLDING UP TRAINS. JACKSON, Ohio, June 3.—There are now in the various places in Jackson county fully 3,000 miners ready for any action necessary. They have congregated in large numbers at the various railroad towns in the country. Each crowd has its leader and they hold up every train that passes, A half dozen cars of anthracite coal were set off to-day, but were finally permitted to go, as it was not in competition with soft coal production. Coal is becoming so scarce that nearly all business is suspended. The Baltimore and Ohio Southwestern have taken off all passenger trains but those which carry the United States mails.

Proceedings of the Dominion W. C. T. U. Convention.

A Tribute to the Mowat Government's Temperance Record

From Brampton-The Minister of Education Praised for Temperance Text-Books-Mrs. Williams Re-Elected President.

Saturday Afternoon.

This might aptly be called the children's session of the convention. The regular routine business and reports of the union were first dealt with, and at 4:30 the children's exercises were taken up. The church was well filled. Mrs. Williams presided and gave the little ones who had gathered from the various Sunday schools a pleasant welcome. Mrs. Todd also delivered an address, in which she warned the children of the evils of intemperance and hoped that on their reaching mature age they would engage in the work. The programme was conducted entirely by the children and comprised recitations and choruses.

Mrs. Cavers, of Galt, presented a very acceptable paper on "Sabbath Observance," in which the work of the department was reviewed. It had been given prominence from platform and pulpit and by distribution of circulars. The enforcement of the Sunday liquor law was unsatisfactory, and it was recommended that the matter be brought before the Methodist conferences.

"The Union Signal," the journal of the W. C. T. U., was reported upon by Mrs. Ure, of Montreal, who urged that every Province should be well represented in its columns monthly. Mrs. Ure was accorded a hearty vote of thanks for her services as

Mrs. Todd, of St. Stephen, N. B., read an able report on "Purity i Art and Fashion." Though the department did not afford many attractions, it was desirable that it should contain more. None was of greater importance, yet it was somewhat difficult to get workers. As a general rule, postmasters were uninformed of the law regarding objectionable matter passing through the mails. The union had waited upon the Postoffice Department, Ottawa, and were informed that all that could be done was the prohibition of obscene papers. Impure literature was being circulated pretty freely, and a promise had been given for assistance in its suppression. Some Canadian papers had published disgraceful reports of a recent trial at Washington, but the papers would not print such matter if it was not sought after by certain classes of people.

Several unfavorable comments were made by the ladies upon the loose manner in which obscene literature passed through the mails. Several spoke strongly against bills which were posted around the streets to advertise theatricals. It was a shame that women should be insulted in such a

Miss Sanderson presented a report on "Purity," containing many good thoughts. Temperance work at fairs and exhibitions was reviewed at some length by Mrs. Rugg, or Stanstead Plain. In many places the work was very successful and netted handsome profits.

Miss Gilmour favored the convention with a solo, which was greatly appreci-

Ontario months, making a total of fourteen, with an active membership of 600, and 100 on the honorary list. These unions carry on places, notably London, Hamilton, Toronto. and St. Catharines have taken grand proportions. Quebec reported steady progress. The Maritime Provinces have eight unions, an increase of two; 180 with sailors, fishermen and lumbermen, active and 94 honorary members. The eight unions, an increase of two; 180 sum total reported by four of the unions was \$1,090. Manitoba was making prog- sent assistance. Another item of work ress, although somewhat slow. British Columbia has experienced a marked advance. The total number of unions for the Dominion was 37.

The reading of the report created some discussion upon the matter of "Social

Small Pill. Small Dose Committee Work," in which a large number of the members participated. Mrs. Sanderson said that care should be taken in this regard, and she knew of a town where the "Y's" were going to have a

parlor social. The president of the "W's" was invited to open the evening with prayer, but on her arrival at the house she heard that the social was going to wind up with a dance.

Mrs. Maxwell, of Paris, presented an account of the evangelistic work, at which there was no reason for complaint.

The question of "Scientific Temperance Instruction" has been steadily growing in favor. Mrs. Noyes, the superintendent, in writing of its progress in the Ontario schools, said: "Our earnest request for improved legislation has been granted. The work has been greatly promoted during the year, by the amended regulations of the Ontario Minister of Education respecting the teaching of physiology and temperance in the public schools

of Ontario and the adoption of a new and excellent text-book on the subject. The new regulations place the subject in the compulsory list for the high school entrance and public school leaving examinations, thus insuring the attention of teachers to it." In the Maritime Provinces the study has been made compulsory.

"Peace and Arbitration," was the title of Mrs. McDonnell's (Toronto) report. It was most attractive, and related to a branch of work not before touched upon in the convention. Many editors, it said, were giving the matter their attention. Notwithstanding the military display in connection with the opening of the new armory in Toronto, a structure that will cost the people of Canada \$260,000-a sum sufficient to erect an agricultural college in every Province of the Dominion -there was introduced in the Dominion Parliament by Mr. Edgar, seconded by Mr. Dickie, a resolution in favor of universal peace and for the settlement of all interna tional disputes by arbitration. Hon Wilfrid Laurier and Sir John Thompson both spoke in favor of it. This following in the wake of the bill introduced by the Ontario Legislature for the appointment of a board of conciliation and arbitration for the settlement of industrial disputes (Manitoba having already passed such a measure) was a notable gain for the year. Like the liquor traffic, the military system had ever

Saturday Evening.

The sixth session of the convention was held in the Dundas Center Church Saturday evening. The edifice was crowded to the doors with the delegates and their friends. The platform was very tastefully decorated with plants and flowers. After devotional exercises by the president, Mrs. Williams, and an anthem by the choir, the following members of the executive took their places on the platform: Mesdames Sanderson, Bullock, Cavers, Edwards, Todd and Miss Tilton, Ottawa, Dominion treasurer.

The president announced that Mrs. J. K. Barney, of Rhode Island, would deliver her lecture entitled "Clean Hands" on Monday evening at Queen's Avenue Methodist Church.

Mrs. Sanderson, president of Quebec Province, was the first speaker. She stated Ontario has been her home for most of her life, but circumstances had compelled her to make her home in Quebec. It was a beautiful country; farms were very cheap, and the Province was rich in mineral wealth, but the Protestants are steadily moving to the west. She thought, though, that a reaction would soon set in and the country would be filled up again. The population of Quebec was about 1,300,000, of whom only 200,000 were Protestants. In ten counties there was an average of only 1 Protestant to 1,000 Roman Catholics, and in 23 counties there was an average of 1 Protestant to 4 Catholics. It was in these counties that most of the W. C. T. U. work was carried on. Outside of the cities a great deal of local option is in force, and the French people seemed to favor temperance. A eading politician had stated that if a plebiscite was taken a majority of the French would vote for it. There were ten organized county unions, with a member. ship of 2,000. They hold a series of temperance meetings first in one church and then in another, and they seem to be a great benefit and very popular. In concluding her remarks Mrs. Sanderson stated that Quebec was watching Ontario in her struggle with the great evil, as Ontario had done more work than Quebec would ever

be able to de. Mrs. Bullock represented the Maritime striking word-picture of the priest coming Provinces in the absence of the president. slong the road, who passed by on the She said that the temperance sentiment was growing rapidly, and the fresh breezes stopped and looked on the wayfarer, but of the Atlantic seemed to freshen it and help it to grow stronger. The department of evangelistic work was being taken up more and more. The lady superintendent injured man and binding up the wounds, was doing grand work among the prisoners in the big cities of Nova Scotia and New could have been heard in any part of the leads with three new unions in twelve held monthly, and in some districts weekly, which proved very interesting and instructive. They also had a "Little Girls' twenty departments of work, and in several the streets, and whose parents gladly sign Home" for waifs and strays picked up off away all claim to them. In connection with this a mothers' meeting for working women was held on Sunday afternoons, Good work was also done in connection the seaside unions, but inland societies also was a "Woman's Exchange," where working women could sell their work with so little commission charged that it was almost a charity. In closing, Mrs. Bullock earnestly asked that the children be edu-

cated to temperance. On account of Mrs. Thornley being engaged with the work of the convention, Mrs. Cavers, the former president of the Ontario Union, spoke on the work of that union. It was the eldest daughter, having een organized seventeen years, and now has a membership of 6,000. This union has had a lot of hard work during the last year in canvassing and working for the temperance plebiscite. They were working hard, also, in keeping this matter before the people. The Government is constantly hearing from the temperance unions, and individual members are reminded of their duty towards the subject of temperance in the House. Memorials had been sent to the Legislature for an improvement to the Tobacco Act, and to the Dominion Government, to do their duty in regard to the French Wine Treaty. The Government had also received a memorial on the Franchise Bill, to show them that the W. C. T. U. had not dropped that subject. Mrs. Cavers also spoke on the grand rally of prohibitionists where they had been so ably represented by Mrs. May R. Thornley and others. They had also been represented before Sir John Thompson at Ottawa. The Ontario Union were very grateful for the admirable temperance text-books which the public schools were informal ballot. compelled to use. They had been agitating

the best book, according to the opinions of most of the teachers, that the schools could use. In closing Mrs. Cavers said: "Let every voter do his duty in going to the polls this month, so that the grand work

done by the plebiscite will not be undone by the election." Mrs. Edwards, of Ottawa, gave her paper on "Woman's Suffrage." Mrs. Edwards stated that it was drafted from the bill which had been presented to the Legislature. Individual members of the House were being educated to the question, and politicians no longer criticised it, but were studying it out and watching results wher ever it was in operation. So far the developments had been very favorable. Mr. Mills was to have brought the question before the House, but on speaking to different members they seemed so unfavorable to it that he had dropped the bill. Mr. Dickie had introduced a bill on April 6, but this one only had reference to unmarried women and widows. Married women with one son she thought had more at stake in the country than childless millionaires. It was the best wives and mothers who wanted the franchise. Women teachers for the most part were young girls, and so they ought to have few motherly women on the school board where they could look after the interests of their offspring. The unanimous vote of the women would be cast for the right. The old adage says, "All things are honorable in love and war," but love had been dropped out, and now nations were dropping out the word 'war' and supplementing 'politics' so that it now read. 'All things are fair in politics." If rightcousness was the basis of the government, what a glorious future Canada would have. Mrs. Edwards spoke in conclusion of a few objections made by men to woman's franchise. A lawyer had once said: "No one should vote for men to do what they were unable to do themselves." In looking over statistics, out of 1,000 ministers 900 would be unfit for war; out of 1,000 doctors 700 would be unfit; 540 lawyers out of 1,000, and men over 45 years of age would be

unfit for active service, and so should not be franchised. Another objection was urged that women's suffrage would cause dissention in the home. No upright man would quarrel with his wife on account of her having a on account of her having a different opinion than he had. The third reason was that women would be willing to give up the kind consideration they get from man. It would not make a woman less ladylike or less womanlike to help in the governing of her country. A fourth reason

was that it would increase the responsibility of women. Mrs. Tilton, the Dominion treasurer, then made an appeal from the Dominion W. C. T. U. for help in carrying on its grand work for home and native land. The audience responded with a large offertory, during which the choir sang a very beautiful anthem. Mrs. Williams personally thanked the choir for the service they had rendered.

Mrs. Todd, of New Brunswick, was the last called upon, but she did not keep the audience long. In the construction of log houses, she said, there were always chinks to be filled in. She was very glad to fill the gap, but called on the organist for the

At Victoria Hall.

The large hall in the Y. M. C. A. could not afford accommodation for over half the number that sought admission yesterday afternoon to hear Mrs. J. K. Barney, of Rhode Island, who in response to a request from the W. C. T. U., gave an address entitled "From Jerusalem to Jericho." Mrs. Williams, president of the Dominion Union, occupied the chair, while on the platform were Mrs. Todd, Mrs. Thornley, and about twenty delegates to the convention, a number of leading citizens, and the choir of the Y. M. C. A., which assisted in the praise service at the opening.

The lecturer was very briefly introduced by Mrs. Williams, and as she stepped forward was cordially received. Mrs. Barney is a very earnest speaker, and was listened to with intense interest from beginning to end. Mrs. Barney uses no notes, has an excellent flow of language, and now and then relates incidents which are very amusing and sometimes very sad, and more than once she brought tears to the eyes of men and women alike. In her introduction Mrs. Barney read extracts from Luke's Gospel where the road leading between Jerusalem and Jericho is spoken of, and which was familiarly known in early times as "the bloody way." The story of a certain man, who while traveling on that road tell among thieves and was wounded and other side; then came the Levite, who rendered him no assistance. As Mrs. Barney described the action of the Samaritan in coming along, helping the the effect was marvelous. The fall of a pin hall, and tears came to the eyes of many listeners. The lecturer also described the departure from home of a young man; how in the first few months he is heard from regularly, but how he is soon drawn into the maelstrom of social evil and stranded, and how after his ruin he is passed by unheeded by the robbers who have deprived him not only of his means and good charter, but of his strength and mind. These robbers on the highway were compared with the liquor dealers, and the rough road as the one over which all have to travel. "Yet," said Mrs. Barney, "in bringing you up to the Christianity of the nineteenth century we find that these robbers are licensed, and we appropriate the results of the traffic. That is just where we stand. I want to ask you how it happens, how it is that in a century like this it is allowed - a century when temperance work is so far advanced? Let us call a halt. Let the women who love their homes and native land cause a halt of this great army which is marching downward and lead on the work of rescue."

Monday Morning.

After routine this morning the executive committee reported that Quebec city had been chosen for the 1895 cenvention. Invitations had been received from Vancouver, Halifax, Montreal and Quebec. The committee also recommended the affiliation of the W. C. T. U. with the National Women's Council of Canada. The discussion on this latter point was left over

from the president of the Brampton Temshe stated that the president of the club, originally a strong Conservative, intends this year to support the Ontario Government because of the latter's attitude towards prohibition. (Applause.)

The election of officers followed, and during the selection of president. Mrs. Thornley occupied the chair. Mrs. Ella F. M. Williams was re-elected president on

The other officers were also re-elected, ncluding Miss Tilley, Toronto, correspondng secretary; Mrs. A. O. Rutherford. cronto, recording secretary; Mrs. Tilton, Ottawa, treasurer. Each officer was received with applause and each thanked the delegates in turn.

"Can a Boy Forget His Mother?" was the name of a duet that was sung by Misses Ruse and Gott in beautiful voice and inflection. Mr. Moxon accompanied. Mrs. J. K. Barney, superintendent of penal, charitable and reformatory work in World's W. C. T. U., was down for a Bible reading. In speaking of the White Ribbon of the order she said: "It's a blessed bond that binds our hearts together in this work for God and home and every land."

"It always seems such a precious hour when with my Bible I can give the message to the dear women," said Mrs. Barney in commencing her Bible reading. "One woman said to me in the vestibule: 'Oh, I do hope you will give us something practicable, and I thought to myself I

will give you all you can practice.' The word "Watch" was the foundation of the reading, and Mrs. Barney told of one woman, a president of the W. C. T. U. who held so many offices that she had no time to pray. "Get out of some of them," said Mrs. Barney. "Get out of some of them as soon as you can.'

"What! Quit the W. C. T. U.?" "Yes, quit anything," replied Mrs. Barney, "only find time to pray.

"We live in such a time of rush and restless activity that there is so much fear that that will take the place of spiritual power. Take time for prayer. Let something else go-something that won't matter when you get on the other side.

"Don't talk about the monotony of work. Go on with your work, and the inspiration you will get there, I tell you, has got to tell. If the women of this country would take into their hearts this message of ours, 'For God and home and every land,' this great temperance question would be within one generation of settlement."

Mrs. Barney spoke of one woman's earnestness in the work after ten years' apathy. "Why," she said, parenthetically, "if this convention was half as earnest as it ought to be to bring the world to Christ the world would call you crazy. We can never be too busy doing God's work (we might be in doing our own work) and keeping his commandments. What he said unto one he said unto all-'Watch.' You must use in the early parts of your lives opportunisober,' 'Watch as we endure affliction,' and Watch unto prayer.' We are to 'watch and pray for all saints."

The session closed with devotional exercises. The church was well filled during the time Mrs. Barney gave the Bible read-

In the evening the assistant minister, Mr. W. -What might have happened to the richest Province in the Dominion if any easy-going politician had had charge of its strong hox! What plunder there was for a gang! We have timber limits worth tens of millions; we could stand a debt of twenty or thirty millions as easily as Quebec. A politician of easy virtue would have lavished these millions on heelers and hangers on, who, in return, would be enthusiastically voting him a god. Does not this thought throw some light on what we have escaped, and on what we owe to the man who has been in charge of our strong box for 22 years ?-[Principal Grant.

Cinder Contract for the Bicycle Track Let-Splendid Park Probable-The Coming Relay Race.

GREAT GAMES IN ENGLAND.

Playing for Derbyshire against Hampshire, Mr. L. G. Wright scored 142, not out; and in the Essex v. Leicestershire match Pougher was credited with an inties to watch with Jesus. 'Watch and be nings of 109, not out. Mr. W. G. Grace also played a faultless innings of 88 for Gloucestershire against Sussex. Notts has been beaten by Surrey by an innings, Lancashire has suffered the same fate at the hands of Yorkshire, and Somerset, minus the greatest of English lett-handed batsmen, has gone down with terrible ease before the Middlesex cracks. The most dramatic victory, however, has been that of Warwickshire, which has defeated Kent by eight wickets, and has scored its third cessive triumph over first-class counties. Nothing like it has been seen in English county cricket since the meteoric rise of Somersetshire some two years ago. In passing, one notes with pleasure that "W. G." opens his first-class season (is it not his 30th?) with a modest contribution of 88. THE WHEEL.

THE GREAT RELAY RACE. "Rex," the London Bicycle Club reporter,

"Now that the Queen's Birthday meets for this year are a thing of the past, all the talk and excitement among the bicycle clubs is the great relay race from Sarnia to Montreal on June 15. "Are you training from heart disease at noon to-day. The old for the relay?" is a common question every wheelman is asked these days, and if you have to confess that you are not, why you are promptly told that you are not in the swim at all. Nevertheless the London boys are doing their best to hold up their end of the stick.

"Capt. Wade, of the L. B. C., has eight relays of two riders each, in training for night an insurance agent who has her life the event. The Sarnia Club bring the packet to Strathroy Corners, where Manville and Radway will be in waiting and carry it on to Lobo. There White and C. Tambling take it and go on to the fifth concession, where Beltz and Bennett will be

ready to go to Elginfield, and J. Tan and Sherbrooke take it from there t Creek, from which place Wade and go to St. Marys.

"When White and Tambling meet, and Bennett at the fifth concession come on to the 'Guns' in Victoria where Sweeney and Bryant will be w to go on to Crumlin. From there N head and Foot go to Thamesville and on to Ingersoll, thus making two di routes to the east, one via St. Marys the other via Ingersoll, at which place local clubs will take it up and carry of good work. With fine weather and

roads a good record is almost assured. "The farmers along the way are quested to keep their dogs chained that they will not bother the cyclists.

BASEBALL. Abbie Johnson, of London, is play again with Buffalo after warming bench for a few weeks. He is doing v but the team is in hard luck.

The boot and shoe clerks of the hereby challenge the T. E. Mara base club to play a friendly game of ball, same to take place on Erie flats at 6 o'al Wednesday evening. ATHLETICS.

LONDON'S NEW GROUNDS. Next year the Forest City sporting ganizations will no doubt have a park which they will feel proud. Mr. W. Reid is at the head of the movement promises to leave nothing wanting. Th will be: 1, a bicycle track; 2, a new locat for the baseball diamond; 3, new grand star which will keep the rain out; 4, new a much larger bleachers; 5, a cricket cres and football grounds. All these are to in the spacious grounds in London We The only person left out is the fisherms but he can dangle his legs over the bree water close by. The plans for the negrounds are now being prepared, and is expected that everything will definitely decided upon in a few days. T bicycle track will be one-quarter of a mi and will be a cinder track at that. T contract for the material has been let to t McClary Company. New entrances as exits will also be arranged.

-I would like to hear from both leade a distinct repudiation and denunciation any organization that is based on the prescription of any class of our people on r ligious grounds. We need a union of a good men in Canada, and we dare not sa to any man that he must abandon the r igion of his mother before he can be ex pected to be treated as a citizen. On th third ground, then, I say, we cannot affor to dispense with the services of Sir Olive Mowat .- [Principal Grant.

The Dairy Market.

LONDON, June 2.—There was a large attendance at the cheese market to-day—far larger than on any market day since the season opened. Before the sales were held a committee of buyers met a committee of sellers who were objecting to the half-pound up-beam weight recently introduced to allow for shrinkage during shipment to the old country. This system of weighing prevails in the Eastern Provinces, and the buyers refused to change the rule. All sales were made on that understanding. It was agreed, however, that private sales could be made off the market on any day but Saturday. More cheese was sold, but prices ranged lower than last week. Thirty-seven factories were represented, with a total of 5,305 boxes, mostly colored. There were sold 3,951 boxes at prices ranging from 9c, 91-16c, and %c. Following are the factories 91-16c, and 93c. Following are the factories represented:

cleared of sale stock. There were some very good heavy Western Ohio corn-fed wethers on offer, which were taken for export, and some choice handy weight yearlings also brought the top prices quoted. Choice to best export wethers, \$4 50 to \$475; good to choice handy, 90 to 100 lbs, \$4 to \$425; culls, common to good, \$150 to \$250; lambs, choice to fancy, \$490 to \$5; good to choice, \$450 to \$465; spring lambs, common to extra, \$350 to \$5.

Hogs-Receipts, 18 to 20 cars. Market opened with buyers and sellers apart, but the latter had to concede the point, and the early sales of the day were all of 10c lower than those of yesterday, the bulk of the sales being at one price for all grades; but by noon, with the arrival of four or five decks more and more favorable western reports, the market ruled stronger. Packers are still light purchasers and would not give over \$490 for their sort, and the general quality of the hogs was fairly good. Pigs were in light supply and the pens were fairly well cleared at noon, with the exception of late arrivals. Yorkers, good, \$190; good heavy, \$490; roughs, \$4 to \$450; pigs, \$490 to \$5.

The Police Mill.

Police Magistrate Parke was confronted with an unusually long docket in the Carling street court this morning. Mrs. Catherine Collins, of the Wharncliffe road, South London, was charged by her husband Jeremiah with insanity. Evidence pro and con was given. Mrs. Collins, one witness said, had threatened to kill her husband because he had two women in the house with him. Another witness stated that Mrs. Collins had threatened the life of her husband when the latter was confined to bed through illness. She was committed for removal to the asylum. George Henry Adams, whose wife accuses him of non-support, will have to stand his trial in a higher court. Fourteen awning cases, in which a number of Dundas street merchants figured, were disposed of. Geo. Morrison and Jas. Watson were dismissed on a charge of vagrancy. The Parkhill Arson and Local Highway Robbery Cases-Grand Jurors.

The County Court of Middlesex was opened at the court house at I o'clock this afternoon by Judge Wm. Elliot. Col. Macbeth, clerk of the court, called

the list of grand jurors, the following answering to their names: John Armstrong, Newbury; F. L. Brooks, Granton; Alfred Culver, Delaware; George L. Griffith, Exfrid; John Hobbs, London West; John Hobbs, West Nissouri; James Husband, Metcalfe; John L. Hill, Caradoc: William Jackson, North Dorchester; Thos. Jennings, McGillivray; Frank Lawson, London; Benjamin Laughton, Metcalfe; George Lipsitt, London township; Chas. W. Leonard, London; Alex. Mc-Intyre, Wardsville; R. M. McElheran, Geo. T. Mann, John A. Matthews and Edward Manigault, London; W. A. Ogden, Strathroy, John Patching, McGillivray; Roland H. Shields, Mosa, John T. Shipley, Lobo, and Irvin Vanderburg, West Nis

souri. Judge Elliot then briefly addressed the jury, defining the duties which they would be called upon to perform. He complimented them on the light crimical docket, upon which there were only two case entered-The Queen vs. Benjamin Short, arson; and the Queen vs. James Hobbins and Hugh Simple, highway robbery.

The jury then retired to consider the evidence for the crown in both cases, R. M. McElheran being chosen foreman.

CHINESE BECOME NATURALIZED. Crown Attorney Magee read certificates under the Naturalization Act, proclaiming the following as British subjects:
Jung Huck, Jung Wing and Jue
Sing, three local laundrymen who have labored over the washtub for three years. Paul Henry Cook, Thos. W. Ellis, Ed. Wunderlich, James Graham (readmitted), Dack Howe, Wm. A. Clayton, Richard Thomas Wilson, John Richards, Albert Hightman, James Craig, James Herrick and George Richards (Strathroy), were also naturalized.

MRS. WATSON LEAVES TOWN. The case of the Queen vs. Mrs. Susannah Watson, abduction, was also entered, but will probably be struck off. Mrs. Watson lived on Ridout street next to a family named Doucette. The parties were not on the best of terms and after Tillie Doucette disappeared from home last fall Mrs. Watson was charged with abduction, Mr. McPhillips was acting for the accused, but was unaware that she had left town until a short time ago, when he sent word for her to be ready for trial. It then leaked out that Mrs. Watson, together with her husband and children, had removed to Michigan.

AN APPEAL CASE. Notice was given that A. H. Wesley, of Glencoe, would appeal against a conviction secured by W. J. McRenner for practicing medicine without a license. Wesley once, in preference to paying a heavy fine, served a term in jail.

THE ARSON CASE. 25c Per Pound. string for to his shoe store in Parkhill, will likely stand his trial to-morrow. There are about 25 witnesses for the crown, and some interesting developments may be looked for.

No cases being ready, court adjourned until 10 a.m.

Reports of a Deadly Landslide in

Charlevoix, Quebec. Great Loss of Life-Meagre Particulars

as Yet. MONTREAL, June 4 .- A special from Quebec states that news comes from Charlevoix county, 90 miles below here, that a terrible landslide has occurredthat ten houses were percipitated into the Red River, and that there has been a great

loss of life. Details are lacking, but the occurrence is similar to the accident that happened at St. Alban about a month ago.

Reform Union. The progress of this movement will force the conference of the National Liberal Federation to be held at Leeds, to pass resolutions advocating more extreme measures. The speaker says the unity of the Liberals and their political future depend upon the result of the

anti-Lords campaign. The Queen's Denial.

London, June 4 .- It very rarely happens that the Queen condescends to take any notice of published gossip respecting members of the royal family. The fact that this week she caused to be telegraphed from Balmoral in the daily Court Circular an emphatic contradiction of the report that the Princess Alix of Hesse, recently betrothed to the Czarewitch, was taking the waters at Harrogate in order to cure a long standing internal complaint, proves beyond question that her Majesty was deeply moved and highly incensed at the audacity of a newspaper scribe in daring to suggest that her to suggest that her granddaughter's constitution is unsound. The Queen's irritation as a grandmother and matchmaker is natural and understandable. The Czarewitch is himself a weakling, and if it should prove to be true that his affianced bride's health had been undermined, his big, burly father would beyond doubt break off the match. The probability is that there is nothing organically wrong with the young princess, but it is absurd for the Queen to delare that the report of her ailment is "absolutely without foundation." The Westminster Gazette, which gave prominence to the original report, flippantly remarks with regard to the contradiction that "any allusion to the indisposition of any Railroad in West Virginia by burning royal person appears to be considered at court as a species of treason, the court preferring that the ailments of such personages shall be ignored until the rattles are in their throats; and when the sovereign or prince or princess happens to be dangeroasly ill the public are always informed that the invalid is going on favorably, although, as a matter of fact, he or she is at that time going as fast as possible to the grave."

The Gazette then affirms that Princess Alix has been in delicate health for several years past and that she has undergone 'cures" at Badnauheim, Schwalbach, and other places. The Gazette suggestively adds that the Princess would not have buried herself at a small Yorkshire watering place at the height of the London season if she were in perfect health. This is certainly the popular view, and the prevailing skepticism is not likely to be removed until an authoritative statement shall have been made as to the nature of the Princess' malady.

"Turn to the Right.

Hence it was that when the first feeble again, they and the light stole in on me the spring woods. The sunshine which reached my watery eyes was softened by its passage through great trees, which grew and expanded as I zazed up into them, until I stopped, out of breath, and saw that each became a verdant world, with all a world's diversity of life. Grown tired of this, I had still long avenues of shade, carpeted with flowers, to peer into; or a little wooded bottom—where the ground fell away on one side—that blazed and burned with redthorn. Ay, and hence it was that the first sounds I heard, when the fever left me at last, and I knew morning from evening, and man from woman, were the songs of birds calling to their mates.

Mademoiselle and Madame de Bruhl, with Fanchette and Simon Fleix, lay all this time in such shelter as could be raised for them where I lay; M. Francois and three stout fellows, whom Maignan left to guard us, living in a hut within hail. Maignan himself, after seeing out a week of my illness, had perforce returned to his master, and no news had since been received from him. Thanks to the timely move into the woods, no other of the party fell ill, and by the time I was able to stand and speak the ravages of the disease had so greatly decreased that fear was at an end.

I should waste words were I to try to describe how the peace and quietude of the life we led in the forest during the time of strength, to lie all day in shade or sunshine saw, in another sphere-these things might have sufficed for happiness without that a sweeter and deeper and more lasting joy.

Of which next. I had not begun to take noticelong before I saw that M. Francois and madame had come to an understanding; such an one, at least, as permitted him to do all for her comfort and entertainment without committing her to more than was becoming at such a season. Naturally this left mademoiselle much in my company; a circumstance which would have ripened into passion the affection I before entertained for her, had not gratitude and a nearer observance of her merits already elevated the feeling into the most ardent worship that even the youngest lover ever felt for his mistress.

In proportion, however, as I and my love grew stronger, and mademoiselle's presence grew more necessary to my happiness-so that were she away but an hour I fell amoping-she began to draw off from me, and absenting herself more and more on long walks in the woods, by-and-by reduced me to such a pitch of misery as bid fair to complete what the fever had left undone. If this had happened in the world I think it likely that I should have suffered in silence. But here, under the greenwood, in common enjoyment of God's air and earth, we seemed more nearly equal. She was scarce better dressed than a sutler's wife; while recollections of her wealth and station, though they assailed me nightly,

ness which forest life and the duties of a nurse had fostered. So it happened that one day, when she had been absent longer than usual, I took my courage in my hand and went to meet her as far as the stream which ran through the bottom by the redthorn. Here, at a place where there were three stepping-stones, I waited for her; first taking away the stepping-stones, that she might have to pause, and, being at a loss, might be glad to

youth and of that fair and patient gentle-

She came presently, tripping through an alley in the low wood, with her eyes on the ground, and her whole carriage full of a sweet pensiveness which it did me good to see. I turned my back on the stream before she saw me, and made a pretense of being taken up with something in another direction. Doubtless she espied me soon. and before she came very near; but she made no sign until she reached the brink, and found the stepping-stones were gone.

Then, whether she suspected me or not, she called out to me, not once, but several times. For, part'y to tantalize her, as lovers will, and partly because it charmed me to hear her use my name, I would not turn at once

When I did, and discovered her standing with one small foot dallving with the water, I cried out with well-affected concern, and in a great hurry ran towards her, paying no attention to her chiding or the pettish haughtiness with which she spoke to me. "The stepping-stones are all on your sipe." she said imperiously. "Who has moved them?"

I looked about without answering, and at last pretended to find them; while she stood watching me, tapping the ground with one foot the while. Despite her impatience, the stone which was nearest to her I took care to bring last-that she might not cross without my assistance. But after all she stepped over so lightly and quickly that the hand she placed in mine seemed scarcely to rest there a second. Yet when she was over I managed to retain it; nor did she resist, though her cheek, which had been red before, turned crimson and her eyes fell, and bound to me by the link of her little hand, she stood beside me with her whole figure

"Mademoiselle," I said gravely, summoning all my resolution to my aid, "do you know of what that stream with its steppingstones reminds me ?"

She shook her head but did not answer. "Of the stream which has flowed between ns from the day when I first saw you at St. Jean," I said in a low voice. "It has flowed between us, and it still doesseparating us.

"What stream?" she murmured, with her eves cast down, and her foot playing with the moss. You speak in riddles, sir.'

"You understand this only too well, mademoiselle," I answered. "Are you not young and gay and beautiful, while I am and I a soldier of fortune, not too success. ful. What did you think of me when you first saw me at St. Jean? What when I came to Rosny? That, mademoiselle," I continued with fervor, "is the stream which flows between us and separates us; and I know of but one stepping-stone that can

bridge it.' She looded aside, toying with a piece of thorn-blossom she had picked. It was not redder than her cheeks.

"That one stepping-stone," I said, after waiting vainly for any word or sign from "is Love. Many weeks ago, mademoiselle, when I had little cause to like poets.

> "Ah!" I cried in sharpest pain.

"But," she continued, looking up at me on a sudden with eyes that told me all, "because I love you I am willing to csoss it-to cross it once for ever, and live beyond it all my life-if I may live my life with you." I fell on my knee and kissed her hand again and again in a rapture of joy and gratitude. By-and-by she pulled it from me. "If you will, sir," she said, "you may kiss my lips. If you do not, no man ever

After that, as may be guessed, we walked every day in the forest, making longer and longer excursions as my strength came back to me, and the nearer parts grew my recovery sank into my heart; which had familiar. From early dawn, when I brought known, save by my mother's bedside, little my love a posy of flowers, to late evening, of such joys. To awake in the morning to when Fanchette hurried her from me, our sweet sounds and scents, to eat with re-viving appetite and feel the slow growth of being filled full of all beautiful things love, and sunshine, and rippling streams, as it pleased me, and hear women's voices and green banks, on which we sat together and tinkling laughter, to have no thought under scented limes, telling one another all of the world and no knowledge of it, so we had ever thought, and especially all we that we might have been, for anything we had ever thought of one another. Sometimes-when the light was low in the evening-we spoke of my mother, and once-but which added to each and every one of them that was in the sunshine, when the bees were humming and my blood had begun to run strongly in my veins—I spoke of my great and distant kinsman, Rohan. But mademoiselle would hear nothing of him, murmuring again and again in my ear, "I have crossed, my love, I have crossed." (To be Continued.)

"Remarkable Cure of Dropsy and Dyspepsia."-Mr. Samuel T. Casey, Belleville, writes: "In the spring of 1884 I began to be troubled with dyspepsia, which gradually became more and more distressing. I used various domestic remedies and applied to my family physician, but received no benefit. By this time my trouble assumed the form of dropsy. I was unable to use any food whatever except boiled milk and bread; my limbs were swollen to twice their natural size; all hopes of my recovery were given up, and I quite expected death within a few weeks. Northrop & Lyman's VEGETABLE DISCOVERY having been recommended to me, I tried a bottle with but little hope of relief; and now, after using eight bottles, my Dyspepsia and Dropsy are cured. Although now 79 years of age I can enjoy my meals as well as ever, and my general health is good. I am wellknown in this section of Canada, having lived here 57 years; and you have liberty old, or almost old, and dull and grave? to use my name in recommendation of your You are rich and well-thought-of at Court, Vegetable Discovery, which has done such wonders in my case."

from Coburg (Truth says) all Prince Albert's letters to his brother, the late Duke Ernest, which are to be placed in the "secret library" at Buckingham Palace, where the whole of her Majesty's political correspondence and papers are kept. Prince Albert corresponded regularly, and very confidentially with his brother, who never would consent to return the letters to the Queen; and he gave great offense to her Majesty by printing (without permission) some of Prince Albert's private communications in the "Memoirs," which he published a few years ago. Prince Albert's other correspondents on the continent were the late Emperor William and the late King of the Belgians, and his letters to them were recovered long ago. King Leopold sent his collection to the Queen in 1862, and those written to the Emperor were brought to England by her Majesty in 1888, when she visited Berlin shortly after the death of the old Emperor.

Toronto General Trusts Company. We publish elsewhere the report of the Toronto General Trusts Company, one of our most important and prosperous finan-

cial institutions. The extraordinary growth of the company may be inferred from the fact that now at the end of its twelfth year it has under its control close upon \$10,000,000 of assets, and the new business which came into its hands during the past twelve months in one or other of its trusts capacities amounts to no less than \$2,-500,000.

The rapid growth and success of trust companies is not, after all, a matter of wonder. The advantages which a corporate trustes possesses over an individual trustee are so numerous and so manifest that it is not strange that now, when the public has a chance of exercising a choice, they prefer using the former to the latter. The corporate trustee is always present, always ready to act. He does not change his locality, and you always know where to find him He cannot die, and he cannot abscond. Add to this that the large capital and reserves of this trust company aford very substantial security for the faithful performance of its duties. These qualifications belong to corporate trustees in general, but the Toronto General Trust Company has further special advantages which commend it to the public of Ontario. It is well understood that the company has transacted its large business up to the present time to the entire satisfaction of the courts and of the parties interested, and whoever employs the company feels confident, in placing his property in the company's hands, either by will or otherwise, that its Dair. safety is secured beyond a peradventure, that his wishes will be promptly, efficiently and economically carried out, in a word, that the interests of those for whom he wishes to provide will be faithfully safeguarded; and he has the further satisfaction of knowing that it is not imposing a burden upon a friend and exposing him, it may be

to serious pecuniary loss. Farmers' picnic to Model Farm, Guelph, June 14. Fare from London, St. Luuch
