LIBS. FULL OF FIGHT AS THE WEEK OPENS, LAURIER LEADING

Hochelaga Charges Are
to Come Up This
Afternoon.

GOVT. SUPPORTERS
LACKING STEAM

House Not Likely To Be in
Continuous Sitting Again
Until After Easter.

[Special to The Advertiser.]

Ottawa, March 17.—The beginning of the week and St. Patrick's Day finds the Opposition ready to resume the fight.

Sir Wilfrid Laurier, who was sick in bed with bronchitis last week, came to his office this morning, and though considerably shaken by the severity of the illness, will probably be able to give assistance to his followers during most of the sittings this week.

Hochelaga Charges.

This afternoon the Hochelaga charges will be made. It is understood there will be affidavits and counter-affidavits produced on both sides. These are necessarily from men of not the highest character. Only someone who was mixed up in the affair could make an affidavit, and men who were concerned with telegraphing votes do not make the most convincing witnesses.

This afternoon it is understood that the Government will oppose reference of the charges to a committee for investigation, and the examination of witnesses, but will endeavor to have the matter disposed of in the House on the information contained in affidavits and counter affidavits.

The debate is not likely to last for more than one sitting, and then it is understood that the Government will again offer the naval bill for consideration. For a few days at least the attitude of each side is likely to be a little less stiff.

Government Supporters Amazed.

The Government has taken the measure of the Opposition's strength in a manner never before seen in Parliament, and has found that the Liberal representation is a force to be reckoned with. In the lobbies the Conservative members agree that this is one of the strongest and most resourceful oppositions which has ever assembled at Ottawa, and having tried to beat it by disregarding rules and falling through its majority is almost a failure. The Conservatives feel that it would be well to see what effect a more reasonable attitude would have.

Chief Back in House.

With the two sides in more reasonable frame of mind, there will probably be no more continuous sittings for a few days.

Sir Wilfrid Laurier will get a great reception when he comes into the House today. A cable report has been sent out from England that if Laurier did not force an election now he would retire from the Liberal leadership. Today Sir Wilfrid charged that this was nonsense. In the lobbies he was going to stay with the game, and lead the boys no matter what might be the outcome of the present struggle. Sir Wilfrid believes that the Government will be even weaker with the people than it is today, and that its defeat would be more certain than now.

Rogers Blamed.

There is considerable discussion among the Conservative members today. A good many are inclined to blame Hon. Robert Rogers for getting the party into the difficulties which led to the assault on Saturday night. But those who are admirers of Mr. Rogers are inclined to blame Premier Borden for shrinking from the disorder which was imminent at the time they which he should have gone through with the plan and carried out. Mr. Rogers' promise to pass the naval bill financial clause even if it did even the Liberal had to be named by the speaker and dragged out of the chamber by police.

The next few days will show what the course of the fight will be in the future.

In the meantime both sides are glad of a little rest. The Government does not want to go to the country, and is likely to bring in a bill which will enable them to put on closure in a more regular way than was attempted last night.

JAMES LACKEY IS HELD FOR SHOOTING

Bothwell Man and Companion Partially
Identified by Dying Policeman.

[Special to The Advertiser.]

Detroit, March 17.—James Lackey, painter, aged 28, who spent all of his life up to ten weeks ago in Bothwell, Ont., is under arrest at the central police station on the charge of being implicated in the shooting of Patrolman James Griffin, early Sunday morning.

Lackey and a friend, Robt. L. Snowden, also a painter, were found in the alley where the officer was shot, immediately after the shooting. The dying officer partially recognized Lackey as the man who shot him. Both Lackey and Snowden told different stories, and Lackey is under a severe nervous strain. The police believe that Lackey and Snowden knew who did the shooting. They know who did. Griffin is dying at St. Mary's Hospital with a bullet in his abdomen.

DR. FRIEDMAN GIVES HOPE TO 14 SUFFERERS

Famous Physician Treats
Tuberculosis Cases in
London.

PATHOS IN SCENES
AT THE INSTITUTE

Local Doctors Witness Demonstration—How the Vaccine Was Injected.

When The Advertiser representative, who was invited to see Dr. Friedman's demonstration, reached the Institute of Public Health shortly after 3 o'clock Saturday afternoon, the magician was upstairs, closeted with his mystery, preparing his material, alone, as he is always before his ministrations.

It was later explained to the assembled physicians, by Dr. Friedman's wish, that this apparent secrecy, which had in other places bred suspicion and insinuation, was due entirely to considerations of asepsis—immunity from poisonous or any putrefying agency. The slightest movement in the room might produce conditions inimical to success.

A Tragedy of Hope.

In a waiting-room downstairs were nearly a score of patients, attended by relatives, who had been refused treatment, but who clung pathetically to the hope that they would be admitted in the last resort to the wizard's presence. Many more unfortunate had been turned away in the morning. If some got no further than the portals, it was through no lack of official sympathy.

The director of the institute and the superintendent of the hospital had no alternative in these cases, and performed an unpleasant duty with all possible kindness. Patients came uninvited, unannounced, without medical escort, without certificates from their physicians. Dr. Friedman had strictly imposed a limit on the number of treatments, and patients should have that sanatorium patients should have the preference. Even among those there were two separate processes of selection, the first at the sanatorium, the second at the institute.

In the end the choice was narrowed to 13 or 14, not all of them, however, sanatorium inmates. There was an unspeakable pathos in the disappointment of the discarded ones; scarcely less poignant was the grief of those who were to be treated. To be turned away from the door, to be plunged deeper into despair. Will to these states of mind, this alternate raising and depression of spirits, react unfavorably on sufferers. The claim is made for Dr. Friedman that while in pulmonary cases he selects only those in the early stages, he also chooses only those which have not been making progress. If this is so, rejection is not essentially a bad omen. Whether it is so or not, the patients' physicians should know. A local doctor, who patient was treated by Dr. Friedman, told The Advertiser that the case was in a favorable condition. The vaccine in a Continued on Page Seven.

London's Roads in Almost Impassable Condition Just Now

"My driver's tell me that the roads of London were never in such terrible condition before in the history of the city," said a liverman this morning. During Saturday hawks and taxicabs were taken through deep mud in many places with great difficulty. In some places it was impossible to get the taxicabs through. The changing of the weather, remedied conditions temporarily, but businessmen who have deliveries are fearing the worst when the mild weather sets in again.

THE WEATHER.

TOMORROW—MILD.

Toronto, March 17.—8 a.m. Fairly windy, fair and cold. Tuesday—Fresh southeasterly winds; mostly fair, with rising temperature.

DRAFT BILL OF COMPENSATION ACT

Provisions Under Which the Measure Will Be Operated in Ontario.

MAKE-UP OF THE BOARD

Condition Under Which Workmen Will Be Compensated for Injury or Sickness.

[Canadian Press.] Toronto, March 17.—The draft bill under which the workman's compensation commission is to be appointed and the provisions of the act under which it shall operate, were discussed today before Sir Wm. Meredith, Hon. I. B. Lucas and members of the Legislature and representatives of manufacturers and employers.

The bill is a voluminous affair, and follows closely the lines of the English compensation act. Employers are not liable where partial disability is the result of the negligence, except in cases where the disability is permanent, or where it results in death.

Compensation is to be adjusted according to the requirements of the dependents. It proposes to cover such diseases as anthrax, lead poisoning, mercury, arsenic, diseases peculiar to mining, phosphorus poisoning, etc. Compensation to a widow ceases when she marries again, but a bulk sum for a certain period may be paid to her within a month after notice has been received by the commission of her marriage.

The commission shall have the power of supreme court judges to call witnesses and make examination and to exact penalties for the contravention of the act.

M. C. R. DEPOT AT IONA DESTROYED BY FIRE

Village Was Menaced by Time,
But Bucket Brigade
Saved It.

[Canadian Press.]

St. Thomas, March 17.—The Michigan Central depot at Iona Station was burned down early Sunday morning. A bucket brigade saved the village from destruction, as a high wind was blowing. The first started in the freight shed from tickets and freight supplies were burned. A temporary depot has been shipped from St. Thomas and placed in position for use until a new depot is erected.

GRABBED ROPE AS HE WAS ON BRINK OF DAM

Earle Maben Fell Into Flooded
River When Railing
Gave Way.

[Special to The Advertiser.]

Elora, March 15.—Earle Maben, aged 9, fell into the flooded waters of the Grand River here today, when a railing on which he was sitting, watching the water, gave way, and he had a narrow escape from being swept to death over the dam. A comrade, James Fisher, jumped in after young Maben, and swam 150 yards in an unsuccessful attempt to rescue him. An effort was made to throw the lad a rope as he was going under the bridge, but the first attempt failed. When he was within a few yards of the seething waters of the dam, he managed to grab a bunch of cord thrown by Wm. Duncan, and held on until he was pulled to safety.

IRELAND'S OUTLOOK GREATEST AND MOST HOPEFUL ST. PATRICK'S DAY MESSAGE OF WM. REDMOND

Noted Nationalist, Interviewed Especially for The London Advertiser, Says National Holiday This Year Is Particularly Significant—Says No People Today Have Brighter Prospects Than Those of Emerald Isle.

BY WILLIAM G. SHEPHERD.

Dublin, Ireland, March 17.—This is the greatest and most hopeful St. Patrick's Day that any Irishman in Dublin, Kilkenny, London, Ont., or anywhere else has ever seen.

I've just ridden across the hills of County Wicklow to Delgany to talk about it to an Irishman who lives in a little white house there. His name is William Redmond, and he has fought, in the English Parliament for 30 years, for the rights of the Irish people. He has also visited America eight times, and has collected vast sums of money there to use in this great struggle. It was he that told me what a fine St. Patrick's day this was going to be. "And everybody who knows Ireland knows what I say is true," he said. "Bending over and smiling, he dug a little knot of shamrock out of the lawn. "Even the shamrock knows it, this Irish spring morning! Look how strong and long-stemmed it is and how much there is of it! Ah, the shamrock crop is fine this year!"

"And all this great hopefulness is about home rule in Ireland," he added. "St. Patrick's Day ought to be a great day for the Irish in Canada, too. This home rule victory is largely theirs."

"We are greatly indebted to the Irish in the world for all they have done for us," continued Redmond. "I feel sure that if they had not helped us, as they have, by the sympathy and their money, the position of Ireland would be very different today."

"When the Irish Parliament is opened we hope many people will come from the American continent to see what they have done so much to achieve. "How will home rule help the common, every-day man of Ireland?" I asked. "How does liberty help any man?" Liberty will do for Ireland and its citizens what it has done for every free country in the world. Home rule, of course, will take time to show its results but we feel sure that an Irish Parliament will justify itself in a very short time.

*Glenbrook
Delgany
to Wicklow*
This St. Patrick's Day must be the most happy Ireland has ever seen and the hearts of our people here go out to Ireland and all the great leaders of the past who did so much for Ireland in dark days.

William Redmond
February 25th 1913 M. P.
East County Clare

WILLIAM REDMOND.

landlords are being bought out and the people are becoming the owners of the soil. Then, we have now full local government and we have good laws for the laborers and better chances of education. Ireland has seen her worst days! "Things are improving rapidly and we need now only national government to make Ireland a happy and prosperous country. "This St. Patrick's Day will be the most hopeful Ireland has ever seen and the hearts of the people here go out to Parnell and the other great leaders of the past who did so much in the dark days. Also, as I tell you, once again we think with great gratitude of our friends and kinsmen in America and all who have been so good and helpful to us always. "A great St. Patrick's Day it is. It's too bad St. Patrick himself can't be here. There'll be only one greater and that will be the St. Patrick's Day that sees an Irish parliament sitting!"

RIDOUT SUBWAY EAGERLY AWAITED BY SOUTH LONDON

J. C. Duffield To Be Approached
in Regard to the Propo-
sition.

Rumor Says That a Park Is
Planned by City Gas
Company.

South London is hoping the agitation for a subway at Ridout street will not be allowed to subside. That the hill at the gas house could be reduced and the Grand Trunk tracks bridged with provision made for future track elevation, is believed to be feasible.

At the present time the City Gas Company is planning extensive improvements to its plant, one report stating that from \$50,000 to \$75,000 would be spent.

Will Approach Mr. Duffield. As soon as the announcement is made of the company's intention it is probable that President Duffield will be approached and asked to give his support of the proposal to cut down the hill and to make his plans for gas house improvements conform with the house improvement scheme.

One report is to the effect that the gas company plans to move its present plant west on Bathurst street and to improve the space in front by laying out a park. Mr. Duffield stated that the plans would not be ready for some time, and that there was no information to give out at present.

Just What Is Needed. "The subway proposition would afford to South London one fine approach to the city, and it is to increase the value of property. It is hoped that this scheme will be taken up and furthered by the city council. It is one that should commend itself to the whole city and could be done at a very little cost."

Superintendent Davidson of the Grand Trunk is having his engineers make a report on the proposal. It is understood that the removal of liability for accident appeals to the railway.

CALGARY STREET CAR WAS OVERTURNED

[Canadian Press.] Calgary, Alta., March 17.—A crowded street car, coming from the suburbs, overturned at the foot of a steep hill this morning. Nobody was killed, but all the passengers except three were injured.

STEAM EXPERT WILL MAKE LONG DISTANCE REPORT ON STEAM OPERATION OF LINE

Mayor Graham Says Mr. Marshall Cannot Come
Here to Investigate Port Stanley Road, But Will
Frame Up Report at Toronto—Electrical Experts
on the Ground Preparing Statement.

Mayor Graham has announced that a report on the steam operation of the Port Stanley road will be secured from Toronto, where it will be prepared under the direction of Mr. Marshall, whose services the city was unable to secure in London to make a report on the ground.

ELECTRICAL EXPERT HERE. Engineer Eastman has arrived in the city, and in company with City Engineer Brazier went over the Port Stanley Railroad this morning preparatory to reporting on the electrical equipment and operation of the road.

Engineer Warfield, with the assistance of three or four draughtsmen and as many stenographers, has for some days been engaged on the electrical report.

FLOODS AT WINGHAM SWEEP AWAY BRIDGE

Water Put Out Fires in Electric
Light Station and Town
Was Dark.

[Special to The Advertiser.] Wingham, March 17.—The change to cooler weather was all that saved from a repetition of the heavy damage caused by last year's flood. On Saturday the river rose eight feet, and the day the river rose eight feet, and the water came up so rapidly that many of the residents of the lower end of the town made a hurried getaway, fearing that their homes would be swept down the stream.

As it was, a bridge in the Township of Turnberry was carried away, a large portion of the banks near the town torn out, dozens of cellars flooded, one of the dams badly strained, and the electric lighting plant put out of commission. The lights went out about 9:30 on Saturday evening when the back water rushed in over the flood at the electric light station, and soon put the fires out.

The flats and all low-lying points are still under water, but since the weather has stiffened, the water is slowly receding. Many of the farmers going home to the wagon boxes. A house with 30 chickens in it, belonging to a family named Finley, was washed away.

The ice has not yet broken, and it is from 18 inches to 2 feet in thickness, serious consequences are feared if warm weather returns and it goes out with a rush.

[Special to The Advertiser.] Wingham, March 17.—The funeral of Mrs. Wm. Morrow, held this afternoon at the Calvin Cemetery in East Wawanosh, was largely attended. She was 71 years old, and while shopping about Christmas time slipped on an icy walk and fractured her hip. She never rallied from the injuries. Mrs. Morrow came to East Wawanosh about 15 years ago. She leaves one son.

Sunday Sermons From London Pulpits

"Eternal life is one of the fundamentals of our faith, and men today are craving for it."—Rev. R. S. McDonald.

"Seriousness, simplicity and steadfastness are necessary for our salvation."—Rev. R. C. Riddiford.

"Livingstone was one of the greatest men of the last century, and can be named with Moses and Lincoln in his passion to liberate enslaved humanity."—Rev. H. H. Bingham.

REV. R. C. RIDDIFORD PREACHES TO HIS NEW CONGREGATION

Peterborough Pastor Speaks on
Salvation at Egerton St.
Church.

Seriousness, Simplicity and
Steadfastness Essentials for
All Christians.

That seriousness, simplicity and steadfastness are qualities necessary that salvation may be worked out, is the opinion of Rev. R. C. Riddiford, of Peterboro, as expressed in his Sunday morning sermon. Mr. Riddiford preached in the Egerton Street Baptist Church, where he will take the pastorate next month.

In the discussion of his text, "Work out your own salvation," Mr. Riddiford asserted that many obstacles were placed in a person's path while working out salvation.

Sin in a Leech.

Sin in different forms was imminent. He described sin as a parasite, and a leech of hell, which sucks away the life. Paul in his epistle meant that people must get rid of sin when he said, "Work out your salvation."

In his younger days the apostle had been in the throes of sin himself, but he had fought his way through to light with God's aid.

Continuing, the preacher declared that most people had allowed their reputation to suffer for some form of sin. He considered pride and love of money among the worst sins.

The Simple Life.

Seriousness, explained, did not mean offensiveness, but a vivid sense of responsibility, which was an essential attribute. Simplicity contained the meaning of naturalness, unaffectedness, and no duplicity or ambiguity. The simple life was desirable.

To be steadfast one must be firm and guard the good thoughts rooted in the mind. An unwavering character counted for much.

Here the speaker made reference to Dr. Friedman as a typical example of steadfastness, declaring that his antitubercular cure could never have been possible had not the German scientist been sincere and steadfast in his purpose.

Mr. Riddiford wanted his congregation to have that same abiding quality of steadfastness wrought into their lives, and in conjunction with a serious and simple view of life, he was certain that salvation would be worked out for them.

Thinks Industrial Farm Would Benefit Prisoners in Jails

"There is only one thing that gets me. It is that there is not enough work to do here. The time passes much quicker if you are working all day."

The above is an extract from a letter written by a prisoner in the local jail to a friend outside, and expresses the feelings of a large proportion of the men incarcerated in the local institution. Sheriff Cameron stated to The Advertiser this morning that the prisoners appeared much more contented with their lot if there was sufficient work to be done to take up the entire day.

Industrial Farm Needed.

The sheriff is a strong advocate of the industrial farm scheme, and is positive that if the county of Middlesex were to establish such a farm in connection with the local jail that it would prove of untold benefit both to the county and to the prisoners.

"Chapter 78, 2 George V. (1912), has not apparently received the attention from the different municipalities in the province that its importance justifies," stated the sheriff. "This section of the statute extends the methods un-

der the organization of the prison farm at Guelph to any city, county, municipality or group of municipalities with provisions giving them power to establish and maintain industrial farms. Prisoners convicted of offences against the provincial statutes or criminal code may be sent to these farms, which will be almost self-sustaining.

Only Certain Work.

The sheriff was asked if the statutes would permit prisoners to be assigned to the work of improving the roads, and in answer stated that there were some provisions in regard to "extra-mural employment, under which he thought he would be empowered to put men at work under daily pay, but he did not think it was a desirable way of employing prison labor. There have been no cases brought before the attention of the sheriff where prisoners have done work of this nature in Ontario, but he said that it would be quite possible if the municipalities concerned took into consideration the difficulties that would be encountered and make provisions for meeting them.

Have Worked Outside.

The prisoners who have been confined in the London jail, he said, "have done outside work at different times during my term of office. Some years ago they did a considerable amount of work on the West London breakwater, and the boulevard along the river front from King street north is largely the work of the prisoners, and stands to their credit. During the alterations to the courthouse last summer the prisoners did a lot of effective work, such as excavations for the sewer and the steam heating and ventilating systems.

Skilled Labor Required.

"As to the work that remains to be completed, it would not be fair to allow the prisoners to assist, as it will all be done under contract, and skilled labor will be required. However, the large garden plot to the south of the walls was placed under the control of the governor of the jail, by the county council, and the prisoners will spend a considerable amount of their time during the coming spring and summer in the garden, raising produce for jail consumption."

Instinct Makes Men Crave for Immortal Life

Rev. R. J. McDonald, M. A. B. D., of Cobalt, occupied the pulpit of the First Presbyterian Church on Sunday, and in the morning spoke on the subject, "Eternal Life." The text, John xviii, 2, "And this is life eternal, that they might know thee, the only true God, and Jesus Christ, whom thou hast sent."

Fundamental of Faith.

"The words of the text," said Rev. Mr. McDonald, "are from one of the weightiest of Christ's utterances. Eternal life is one of the fundamentals of our faith and men today are craving for it. Whether we can obtain eternal life depends upon the meaning of the phrase 'knowing God.' To know God we must first know Christ and after that we are approaching eternal life."

Craves Eternal Life.

"Man today," he continued "craves for eternal life, because the instinct for immortality is strong within him, but as he can only obtain it by knowing Christ, he must first become acquainted with him. Eternal life is not a future boon, but it is a very present state and means fellowship with Jesus Christ and with God."

Two Hundred Jews Hold Indignation Meeting Sunday

Two hundred Jewish citizens attended an indignation meeting in Cullis Hall on Sunday afternoon as a result of an article in a local paper in which a layman was alleged to have sounded a note of alarm on the ground that the London Jews were investing heavily in real estate, as a result of which a slum problem might develop. The meeting was closed, and those who remained in the hall after the meeting was ready to be given out to the press, but intimated that the matter would not be dropped until some definite action is taken.

ANGLICAN CHURCHES HOLD CONFIRMATION

Bishop Confirms 88 at Bishop Cronyn Memorial Church.

The largest number of candidates ever confirmed in Bishop Cronyn Memorial Church gathered on Sunday. There were 88 in all, Bishop Williams officiated.

During the ceremony readings were given by Rev. S. R. Heakes, while the candidates were presented by Rev. R. W. Norwood, the rector.

Many Confirmed at St. James' by Bishop Williams

Twenty-one candidates were presented and confirmed at the evening service in St. James' Anglican Church on Sunday. The confirmation exercises were conducted by Bishop Williams, who also preached the sermon on the "Blessings That Christians Enjoy." His remarks were principally directed towards the candidates about to be confirmed.

The bishop stated that Christian blessings were so many that it was impossible to enumerate them all. He would take into account and speak on what he considered the five chief blessings, for which all Christians should be thankful.

The first blessing was the possession of a Christian knowledge of God, which enabled us to see the glory of Christ and that made us able to look upon the throne and address the Being sitting there as Father.

Then Came Knowledge.

The second blessing was a Christian knowledge of man, and the speaker said it was akin of the first. Science, he stated, gave us very meagre information about man, unless it was that he was composed of the same chemical elements as the wild beasts. However, it was plain that man's instinct and aspirations rebelled against such relations, and he should be considered upon a higher plane. There was a higher step, which was living in the Christian service of God. Outside of this relation, man ranks as nothing.

The third blessing to be considered was that of forgiveness. Bishop Williams asserted that such a blessing did not exist in Mohammedanism, Buddhism and many other religions.

Blessed Assurance.

The blessings of the assurance of the resurrection from the dead was spoken of as the fourth blessing. Other religions did not contain this view, and held out no hope after death. However, Christian people knew that by the fact of Christ's existence, we have the assurance that death is not the end of all.

The last-named blessing was possessing the Holy Spirit. The speaker said that many did not admit the Holy Spirit into their lives, and unless they did the work of salvation would never be accomplished.

The bishop then reminded the candidates for confirmation that much would be required of them in their future life. He charged them to let their manner of living be worthy of the blessings and privileges that Christians have. He also would expect them to pass the word of salvation unto others who were unfortunate enough to be in darkness. It was their duty to see that the two-thirds of the world, which he said was existing in darkness, should have the Christian blessings proclaimed to them.

LIVINGSTONE'S MEMORY REVIVED IN CENTENARY

Noted Explorer Was Born in Scotland One Hundred Years Ago.

On Wednesday, March 19, the hundredth year since the birth of David Livingstone, one of the greatest missionaries that ever lived, will be reached. Special services are planned in many of the churches of the city. Yesterday reference was made by several preachers to the centenary.

In some of the larger cities all the Protestant churches will unite in paying tribute to the memory of David Livingstone, whose heroism in carrying the light of the gospel into darkest Africa made him immortal.

BY LADY AUGUSTA GREGORY.

FAMOUS LEADER OF THE PRESENT GREAT REVIVAL OF IRISH DRAMA AND FOLK-LORE.

Every St. Patrick's Day now is bringing us nearer to "the new Ireland!"

Time was when the old memories seemed forgotten, but things are changing.

Now we have Lord Plunkett's plan for complete land reform in the Emerald Isle.

We have a country-wide revival of the ancient industries, all of which are being taught in the Irish schools.

The folk-lore is patiently gleaming the native legends from the old men along the roadsides and from the old women in the cabins.

The Celtic players are going about, spreading the flavor of the ancient land of the saga.

And thus it is that everywhere little bands of enthusiasts are attempting to restore Ireland's old position of "Home."

So that I say this is, so far, the happiest St. Patrick's Day the Irish have ever had!

Newness Everywhere: The Impulse of Easter Fashions Dominates This Store

SPRING MILLINERY—A limitless variety of styles, and styles becoming by very face. There is such wide diversity of shape and color treatment, the hats are so full of style and the allurements of fashion, that any type of face can be suited. Paris peeps out of the smart little hats with all her daintiness in silk and ribbons. Balkan colorings, new ostrich and feather novelties and many colored flowers.

To enumerate or particularize from our extensive variety is impossible. The small hats and the hats not so small, quiet hats, and those of vivid hues, tall hats and those with drooping trimmings, fabric hats and hats of straw, tams, toques, turbans, brimless hats, and many other new and authorized shapes will be seen in this Easter display.

MODERATE PRICES—One outstanding feature of the spring millinery at this store is the very moderate prices of the hats, and after a careful inspection you will find that compared to other seasons you will have your first and second hat for the price you would expect to pay for one, which is principally brought about by the adaptations of Paris styles from our own workroom. See display of Easter Hats from \$6.00 to \$12.00.

Easter Dresses for Girls and Misses

FOR ages from 4 to 14 years. Our assortment of spring styles in Cloth and Velvet Dresses is most attractive and very reasonably priced. With Bedford Cords so popular, the Corduroy Dresses for girls which we have stocked at \$3.75 should meet with much favor. We have just passed into stock a beautiful assortment of spring styles for Easter selling. We mention here three special styles picked from these.

Girls' Serge Dress, \$3.38

and Butter and Cup of Tea or
Coffee, 10c.

IRISH JOKE FOR ST. PATRICK'S DAY

THE FAMOUS IRISH WRITER OF IRISH FOLK STORIES.
[Written for The London Advertiser.]

BY SEUMAS MACMANUS

"Why didn't you go to the assistance of the defendant in the fight?" asked the judge of the policeman.

"Shure and I would have done so."

SEUMAS MACMANUS.

"How are things with you, Mrs."

Woman?"

"Dear, I'm busy as any being in this world."

"Aye, how's that?"

"I do, indeed, and I've got a fine healthy boy that the neighbors say is the very picture of me."

"Man alive, I never mind what they say. What's the harm so long as the child is healthy?"

Said Mrs. Gilfoyle: "Marry, doesn't sufferin' and sorrowin' come to all us women, tubbe sure. Only I'll say this—that ivery bride should know spendin' and not earnin' is woman's wur-ruk. When a man sits by the fire to cry that he can't get wur-ruk, let a woman sit close and cry harder till he finds it. Belave me that knows!"

"Out of work agin, Pat? I thought old Milligan gave you a job."

"He did, indeed, but I'll be kilt before I'll starve to death for the sake of kape-lap alive."

"Hello, Mike, how is it you're not wur-rukin' any more?"

"I struick."

BY LADY AUGUSTA GREGORY.

FAMOUS LEADER OF THE PRESENT GREAT REVIVAL OF IRISH DRAMA AND FOLK-LORE.

Every St. Patrick's Day now is bringing us nearer to "the new Ireland!"

Time was when the old memories seemed forgotten, but things are changing.

Now we have Lord Plunkett's plan for complete land reform in the Emerald Isle.

We have a country-wide revival of the ancient industries, all of which are being taught in the Irish schools.

The folk-lore is patiently gleaming the native legends from the old men along the roadsides and from the old women in the cabins.

The Celtic players are going about, spreading the flavor of the ancient land of the saga.

And thus it is that everywhere little bands of enthusiasts are attempting to restore Ireland's old position of "Home."

So that I say this is, so far, the happiest St. Patrick's Day the Irish have ever had!

"And why did you struick?"

"Well, it was like this. One wake ago, come day after tomorrow night, I was puttin' wur-ruk among a gang uv Otal-lan bier-makers like meself. Well, be-lieve me, I put me finger in and the feller inside gory, ivery mother's son of thim ate the bier of big olons for ivery dinner. Till the risht of the day the smell of thim olons got inter me eyes so that I struick!"

LIVINGSTONE GREATEST MAN OF LAST CENTURY

Rev. H. H. Bingham Pays Tribute to Memory of Explorer Missionary.

"In my opinion, Livingstone was one of the greatest men of the last century, and might be named with Moses and Lincoln in his passion to liberate enslaved humanity," said Rev. H. H. Bingham, in paying centenary tribute to the famous explorer and missionary, at Talbot Street Baptist Church, on Sunday. "David Livingstone, Man Messenger, and Hero," was the theme of his sermon.

At the close of the evening sermon communion was administered to the congregation and twelve new members admitted.

MAGIC BAKING POWDER

SINGLE FARE FOR EASTER VIA CANADIAN PACIFIC RAILWAY

Return tickets will be issued at Single Fare between all stations in Canada, Port Arthur and east, also to Niagara Falls and Buffalo, N. Y., Detroit and Sault Ste. Marie, Mich. Good going March 20, 21, 22, 23 and 24. Return limit March 26, 1913. This is an excellent opportunity for a trip at moderate expense, the return limit being exceptionally long for an event of this nature. Full particulars from any C. P. R. agent. See that your tickets read via C. P. R. City office, 161 Dundas, corner Richmond, London. 67-g

CASE OF FRIEDMAN WHICH SHOWS PROGRESS

First Toronto Patient of the German Physician Is Improving.

Toronto, March 17.—Dr. John Hunter, whose patient, a young woman 18 years old, was the first tuberculosis sufferer to receive Dr. Friedman's treatment in Toronto, stated last night that she was doing very well, and he was quite satisfied with her progress. The girl is afflicted with the disease in the form of an enlarged gland of the neck, and she received two injections of the serum. The usual reaction which Dr. Friedman stated would take place in all surgical cases affected the girl, and her temperature rose to 103 degrees, but it gradually declined, and last night her condition was excellent. Dr. Hunter stated that the girl herself said she felt better. She did not feel the same pressure on the part, and the burning sensation that was noticeable before receiving the treatment was absent. "I am watching her closely, and am quite satisfied with her condition," Dr. Hunter added.

PRINCESS MARY CONFIRMED

Large Crowds Gathered at Buckingham Palace.

London, March 16.—Princess Mary, the only daughter of King George and Queen Mary, was confirmed by the Archbishop of Canterbury in the Chapel Royal at Buckingham Palace this afternoon. All the members of the royal family, and many members of the household and servants of the palace were present. Large crowds assembled outside the palace to witness the arrival of the Queen-Mother Alexandra.

WILLIAM KERLEY DROPS DEAD AT ST. THOMAS

Prominent Citizen and President of Lord's Day Alliance.

[Canadian Press.]

St. Thomas, March 15.—Returning from an evangelistic meeting last night, William Kerley, a prominent citizen, suddenly succumbed to a paralytic stroke. He was 75 years old, and was president of the Lord's Day Alliance and secretary of the Temperance and Moral Reform League. He was locally known as "the man who stopped the Sunday cars," namely the operation of the Traction line from London to Port Stanley through St. Thomas on Sundays. For his activity in this respect he came in for a great deal of criticism.

LONDON TEAM IS FAVORITE
FOR TONIGHT'S BIG GAME

Combination Work Should Prove More Effective on Big Ice Than Individual Work With Weight Behind—Big Crowd of Rooters Will Go Down to the Queen City.

The intermediate championship of the O. H. A. will be decided this evening in Toronto, and either London or Collingwood will wear the title tomorrow. No matter who wins there is not a bit of doubt that the game tonight will be one of the fastest and hardest fought that ever marked an intermediate championship final, and the defeat of the London and Collingwood teams are evenly matched, and yet are not evenly matched. They are as totally different in some respects as it is possible for hockey teams to be, and the deficiencies of one are counterbalanced by the deficiencies of the other.

Collingwood a Heavy Team.
Collingwood is probably the heaviest team in the intermediate series, while London is undoubtedly one of the lightest. The average weight of the London team is 133 pounds, while the average weight of the Collingwood seven is estimated at 166. However, this big difference in weight is counteracted upon by the difference in the style of play. London plays a combination game, while Collingwood plays the individual style of hockey. The superiority of combination play over individual work is measured by the difference in weights between the two teams. What London lacks in weight it makes up over Collingwood in team play. It was because of this fact that London was able to hold the Collingwood team down so well on Collingwood ice. It was combination that enabled London to swamp Collingwood in the last five minutes of play in the northern town after the Collingwood players had tired themselves out in trying to use their superior weight.

London Should Win on Big Ice.
Tonight's game should be much the same as the one in Collingwood, in as far as the play is concerned. The Collingwood rink is nearly as large as the Toronto Arena, and London's combination

should prove particularly effective. With a big crowd of rooters behind them, the London team should win out on the big ice.

The Toronto papers pick London to win on superior combination, and the Toronto fans will be pulling for the local boys. This will be a great advantage. With a crowd of three or four thousand behind them, rooting, the London players' chances of landing the title of intermediate champions are particularly bright.

No Quitters on the Team.
The team has been working out faithfully on the Toronto ice, practices being held on Friday and Saturday. All the players are in splendid condition, and are ready to play the game of their lives. They all realize the great task before them, but there is not a quitter in the bunch, and the honors are just as good as won by London.

The players will not arrive back in this city until tomorrow noon, and if they win the championship it is likely a reception will be given them. It is said that arrangements are under way at present to give the boys a welcome should they be successful—the city will be theirs.

Juarez Results.

Juarez, March 15.—The following are the race results today:
First race, 4 furlongs, 2-year-olds, purse—1 Osapie, 2 May I, 3 Orb. Time 1:47 1-5.
Second race, 1 mile, 3-year-olds and up, selling—1 Jack o' Lantern, 2 Ocean Queen, 3 Duda. Time 1:39 2-5.
Third race, 6 furlongs, 3-year-olds, selling—1 Azura, 2 Amity, 3 Vireo. Time 1:13 4-5.
Fourth race—Six furlongs, 3-year-olds and up, handicap—1 Kootenay, 2 Irish Gentleman, 3 Lackrose. Time 1:11 3-5.
Fifth race, 6 furlongs, 3-year-olds and up, selling—1 Gemmill, 2 Transparent, 3 Sir Barry. Time 1:13.

Thorpe Rawest
Ever—J. McGraw

Marlin, Texas, March 16.—Here is Manager McGraw's opinion of J. Thorpe, disqualified Olympic hero, after watching the Indian at work during the first two weeks of the training season:

"Thorpe knows little or nothing about baseball. He may learn it after long, patient coaching, but he is the rawest recruit I ever had. He will be carried along first because he is a drawing card, and second, because he will develop into a great ball player."

ROLLER HOCKEY PROVES
POPULAR IN AYLMER

Interesting Game Played There Last Week Between Two Town Teams.

[Special to The Advertiser.]
Aylmer, March 15.—A hockey match was played at the roller rink last night between the Reds and the Blues of Aylmer, and proved to be an interesting and novel event.

The teams were quite evenly matched and the game was interesting from start to finish, resulting in a victory for the Reds by one goal, score 4 to 3. This being the first game played in the rink, the lights were not arranged as well as they might be. However, before another game takes place the management will have the lights rearranged, and additional ones put in, which, from a spectator's point of view, will be decidedly better.

A white puck will in future be used, instead of a black one, which will also improve the game for the onlookers.

The fast St. Thomas seven are expected to play a game with the Reds here on Friday evening, March 28. The management would also like to hear from a London team, if there is one in the city.

CARL CASHION IS "THERE"
THIS YEAR, WATCH THE
WASHINGTON CLUB!

BY BILLY EVANS,

Umpire of the American League.

If Carl Cashion delivers the goods this year, critics will begin to dope Washington for the American League pennant. Cashion is Clarke Griffith's biggest problem. In the big fellow Griffith has a pitcher with everything save control.

His speed rivals that of Walter Johnson. His physique is more massive, denoting ability to start heavy work.

His delivery is just "funky" enough to make him all the more deceptive. At one time base runners ran wild upon Cashion, but how he makes them hug the bags. Control is the one thing he must get to be a great pitcher, and it seems he should be able to acquire this essential.

Every club has considered a pennant in good shape. Last year Walter Johnson, Bob Groom and Tom Hughes carried the burden of the Nationals. Cashion, when used, generally performed nobly, lack of control being his only blemish.

Every now and then Cashion would come across with a game in which he would have almost perfect control, and critics would begin to pick the team as a pennant winner, and perhaps in the next game Cashion would be as wild as a Texas Javelin.

But no matter how wild he might be, Cashion never failed to show a brand of pitching that was unimpaired when he managed to get the ball over the plate. I recall a game he pitched last year, when Henry caught in a three-run inning and myself did more acrobatic stuff than the headline tumbler in a three-ring circus.

Cashion gave something like 11 bases on balls, yet he won his game. When the pinch came he could get the ball across.

CARL CASHION.

Any pitcher who can do this surely has something on the ball.
Tom Hughes is a veteran. He has had a great deal of trouble with his arm of late, but it would not be surprising if he came through with another good year this season. If he does, Griffith need not worry.
If the break goes against Hughes—if he fails to be a winner, then Cashion must show if he Nationals are to take a hand in the world's series.
If Cashion is right, keep your eye on the Nationals in 1913.

SCOTLAND WON AND LOST
IN BIG FOOTBALL FIXTURESDefeated Ireland in Dublin, But
Lost Rugby Game to
England.

London, March 15.—Two international matches were on today's football program. Scotland met Ireland in soccer in Dublin, while Scotland's Rugby champions faced England at Twickenham. The Dublin game resulted in a Scottish victory by 2 to 1. It was a keenly-contested fight, which Ireland deserved to win. The Irish forwards played brilliantly, continually attacking the Scottish goal, which McKnight endeavored only ten minutes from the start. Scotland's defense never began to improve, and six minutes later, Ireland completely outwitted the Irish backs, gave Scotland a lead. Before the interval Bennett added another from a corner, and soon afterwards McKnight shot one for Ireland.

Fast play characterized the second half. The Irishmen made desperate attempts to equalize the score, but ill-luck, coupled with magnificent defensive work by Coleman, Walker and Brownlie, thwarted all their efforts.

By far the most important of today's games was the Rugby international between England and Scotland at Twickenham, which, after a splendid contest, resulted in a victory for the Rose by three points to nothing. Mr. L. G. Brown, of Oxford University, scored the winning try in the first half.

Enormous public interest centred in this fixture, the spectators including all classes of society from the Prince of Wales downward. England had to go outright for the win, for though a draw would have given them the Rugby championship, it would not have obtained the Calcutta Cup, neither would it have won the triple-crown distinction which has been denied the mother country since 1892. Today's results:

Rugby International.
England 3, Scotland 0.
(Played in Dublin.)
English League—Division 1.
Aston Villa 1, Notts County 0.
Bristol Wanderers 2, Tottenham H. 0.
Bradford City 2, Manchester C. 1.
Chelsea 1, Everton 3.
Liverpool 4, Middlesbrough 2.
Manchester U. 1, Sunderland 0.
Newcastle U. 0, Blackburn R. 1.
Sheff. Alb. 2, Sheffield Wed. 0.
Sheff. U. 4, Derby County 1.
Woolwich A. 1, West Brom. 0.
English League—Division II.
Burnley 3, Bury 1.
Clapton O. 1, Huddersfield T. 1.
Glossop 2, Leeds City 1.
Hull City 0, Grimsby T. 0.
Leicester F. 3, Bradford 0.
Notts Forest 4, Bristol City 1.
Preston N. E. 4, Fulham 0.
Stockport C. 0, Barnsley 3.
Wolverhampton Wanderers 4, Blackpool 0.
Lincoln City 0, Birmingham 1.
Southern League.
Exeter City 3, Queen's Park R. 1.
Farnborough 1, Brentford 0.
Brighton and H. 1, Gillingham 0.
West Ham U. 0, Northampton 0.
Watford 3, Reading 2.
Merthyr T. 0, Southampton 0.
Bristol R. 4, Stoke 0.
Coventry City 2, Norwich City 0.
Crystal Palace 1, Plymouth A. 0.
Swindon T. 2, Millwall 1.
(Replayed Fourth Round Tie.)
Clyde 1, Dundee 1.

TORONTO CANOE CLUB
BEAT SENIOR CHAMPST. R. and A. A. Team Beaten Decisively by Score of Six to Three—
Game a Good One.

Toronto, March 17.—Toronto Canoe Club again won a notable victory over the running by Midland that the Toronto public had not given them enough credit, and on Saturday night at the Arena they demonstrated their worth by defeating the T. R. and A. A. senior O. H. A. champions by 6 to 3. Their victory was not a fluke one. In all departments they had it on the champions and handed the crowd a real surprise.

The teams:
Toronto Canoe Club—Goal, Lunan; point, Waugh; coxswain, Gooch; rover, Romeril; centre, Swan; right wing, Rescor; left wing, Dorr.
T. R. and A. A.—Goal, Addison; point, Hunter; coxswain, Heffernan; rover, McKenzie; centre, Meeking; right wing, Brown; left wing, Burrell (McLean).

The ball player who didn't know Jim Thorpe when he was a professional is now a curiosity. The latest is Johnny Clancy, a Cleveland recruit, who says he was Thorpe's room-mate when they played in the Eastern Carolina League. And he never told it before.

SIDELIGHTS ON SPORT

By Jinx.

Billy Borland threatens to become
the Sammy Smith of hockey.

At that, Bill is some singer. You ought to have heard him singing out the stations on the way home from Collingwood.

Probably Collingwood would agree to waive the championship if Billy Borland threatened to sing.

No, Albury, Jimmy Grannary's suggestion that the London team carry green sticks and play with a green puck against Collingwood Monday night, has not been officially adopted. Jimmy always sticks up for the Irish.

The fact that George Wardrop uses a baseball mitt on one hand during a game should be excuse enough for some ballplayers to use a hockey stick when going to bat.

Billy Borland has selected that in-

spiring solo, "Collingwood, Poor Collingwood," as his donation to the program at tonight's game.

Toronto will take on the appearance of a real live city this evening, with so many Londoners present.

This is Billy Borland's birthday. May he celebrate it by scoring a dozen goals against Collingwood tonight.

The Guelph baseball club has an outfield of Fryer, Wright and Dunn. Almost as hot a proposition as that Collingwood forward line.

Collingwood colors are orange and blue. And this is St. Patrick's Day. What kind of a chance have those northerners, anyway?

The Acadian Cowbell Symphony is coming in for some notoriety. The members will make themselves heard at Toronto tonight.

GUELPH ROSTER
IS NOW COMPLETELouis Cook Has Likely Bunch
of Leafs for This
Season.

Guelph, Ont., March 15.—The lineup of the Guelph Maple Leafs of the Canadian League is now complete and the fans are anxiously waiting for the players to report so as to get a line on the new ones. Manager Cook has written to President W. A. Mahoney, stating that he would like to have the pitchers and new men report about April 15 or 16, and then have the rest report about the 21st. The following are the players who will be asked to report: Pitchers Roy C. Schuyler, Wm. Tietz, jun., Walter McEwan, Charles F. Behan, Wm. Schaeffer, Tony Dorbeck, Ned Bartlett and Arthur R. Anderson; first base, Ed S. Whitmyer; Walter L. Brady and Arthur Dolan; second base, Louis Cook; catchers, Fred Watson and Frank Daniels; outfield, Jack Fryer, Wm. Wright, and Joseph P. Dunn; infield, Ranson McManus, John Schaffer, L. E. Witte, Thomas E. Seurneyck and D. E. Drumme.

Charleston Results.

Charleston, March 15.—The races here today resulted as follows:
First race, purse \$300, 2-year-olds, selling, 6 furlongs—Etheburg IV, 1, Fairy Godmother 2, Kelly 3. Time, 1:16 1-5.
Second race, purse \$200, 4-year-olds and up, selling, 6 furlongs—Tony W. 1, York Lad 2, Veneta Storme 3. Time, 1:18 2-5.
Third race, Calhoun selling stakes, 2-year-olds, 4 1/4 furlongs—Gordon 1, Chas. Cannell 2, Pleasure 3. Time, 56 1-5.
Fourth race, purse \$350, 3-year-olds and up, 1 mile—Flora Finn 1, Paton 2, Early Light 3. Time, 1:43 2-5.
Fifth race, purse \$300, 3-year-olds and up, selling, 1 mile—Cherryola 1, Billy Vanderveer 2, Ella Grane 3. Time, 1:42 2-5.
Sixth race, purse \$300, 3-year-olds and up, selling, 6 1/4 furlongs—Mack 3, Etheburg 1, J. J. Quinn 2, Silas Grump 3. Time, 1:09 2-5.
Seventh race, 4-year-olds and up, selling, 1 mile and 1 furlong—Naughtly Lad 1, Lucky George 2, Annie Sellers 3. Time, 1:57.

WINNIPEG ALL-STARS LOST.
Boston, March 15.—The Winnipeg All-Stars were again defeated at the Boston Arena tonight, the Boston Athletic Association hockey seven shutting them out 5 to 0. Capt. Harry Gardner, of the championship Harvard College team, was in the locals' goal and played a remarkable defence game.

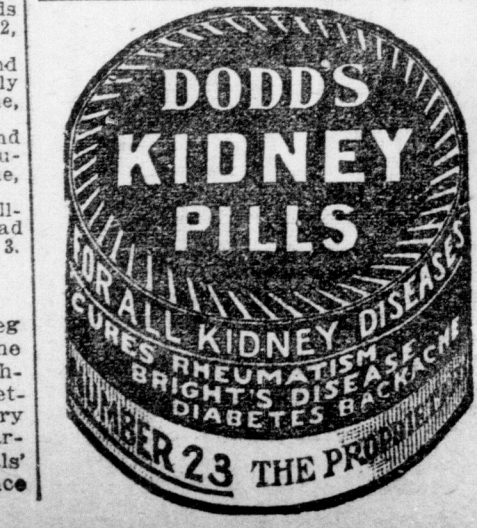

BUFFALO BOY BROKE
RECORD TO BEAT KIVIATJoe Driscoll Ran Great Race and Beat
Olympic Champion in
Fast Time.

Buffalo, March 15.—Joe Driscoll, a Buffalo boy, won a notable victory over Abel Kiviati, the Olympian champion, when he defeated the New York crack in a three-quarter-mile run at the Seventy-fourth Regiment games here tonight, and broke a world's record in doing it. Driscoll started from scratch with Kiviati, at his own request. The two men mowed down the field easily, and in the final sprint Driscoll outran the New Yorker, and won by three yards.

The time was 3:07. The previous indoor record, 3:08 2-5, was held by Kiviati. The last lap of the race was one of tremendous excitement, and had the great crowd cheering every second.

Tom Halpin also broke an indoor record when he romped away from a big field in the quarter-mile run and won handily in 49 2-5. The previous record was 49 2-5, held by Rosenberger, of the N. Y. A. C.

Harry Davis is to be used by Connie Mack to instill the old Athletic spirit into the recruits. He may also be used to keep it instilled in certain of the veterans who forgot it last year and imbibed distilled instead of instilled spirits. However, this is a mean remark, for the offending ones have already promised to be good and have been forgiven.

The Advertiser Will Tell You the Score Call 3-6-7-0 or Come Down Town

The Advertiser has leased a special wire to the Arena Gardens, Toronto, for tonight, and will receive a full account of the final game in the intermediate series for its readers.

Call 3-6-7-0 and Secure the Score

There are four trunk lines entering The Advertiser office, and as many calls as can be handled over these wires will be answered.

In addition a tabloid account of the game will be bulletined at The Advertiser office.

"The Advertiser Is the First With the Latest."

PROFESSIONAL SOCCER LEAGUE HAS BEEN FORMED

Ottawa, Toronto, Hamilton, and
Buffalo Teams Will Com-
prise Organization.

[Canadian Press.]
Montreal, March 17.—A professional soccer football league, which will comprise teams in Montreal, Ottawa, Toronto, and Hamilton, has been organized. These four cities have left nothing undone in arranging the details for the launching of the new body. The first annual meeting was held at the Windsor Hotel on Saturday night, the following devoted to the game being in attendance: H. W. Watson, Hamilton; W. T. Elliott and W. West, Toronto; J. Jackson, Ottawa; A. Friedman and F. Calder, Montreal.

The name of the league will be the International Football Association, and will consist of six clubs, in Ottawa city, Hamilton city, Toronto city, Montreal city, Queen City, and Montreal players. Home and home matches will

be played, and the schedule will be drawn up to avoid clashing with the baseball games.

Failure of any of the clubs to complete their engagements means the forfeiture of their bond, which is \$250. Each club is required to deposit a like sum with a trust company in the city.

The following honorary officials were elected:
Presidents—Hon. R. L. Borden, Sir Wilfrid Laurier.

Vice-Presidents—Hon. Sir J. Gibson, Sir H. Pellatt and Hon. M. J. C. Doherty, who has already accepted office.

President, A. Friedman; vice-president, W. T. Elliott; second vice-president, F. Calder; third vice-president, J. Jackson; secretary and treasurer, W. H. West. The council will meet alternately at Montreal, Hamilton, Ottawa and Toronto.

Application will be made immediately to the governing body for affiliation. It was also agreed that the D. F. A. will have first call on all professional players for representative matches.

"KNOCKOUT" BROWN TORONTO BOOSTERS FOUGHT A DRAW WILL MEET TRAIN

Went Twenty Rounds With Big Welcome for London Fans
"Bud" Anderson at and the Acadian Cow-Bell
Los Angeles. Symphony Orchestra.

Los Angeles, March 15.—Upsetting the calculations of even the most conservative fight followers in Los Angeles, "Knockout" Brown, of New York, and "Bud" Anderson, of Portland, Oregon, this afternoon fought 20 slashing rounds at the Vernon Arena to a draw. By going the limit, the boys surprised nearly all the fight followers at the arena, as it was argued that because each was a hard hitter the fight would not go more than ten or fifteen rounds. Six thousand fans were present, bringing the gate receipts to approximately \$10,000.

Brown showed a vast improvement this afternoon over his last performance, when Joe Rivers knocked him out in the tenth round. He had more speed, was accurate with his punches, and appeared to suffer no serious impediment from the fast pace Anderson set. The boys alternated in the role of aggressor, and the general consensus of opinion gave each the best of ten rounds of the milling.

McClarys Claim Honors

The Sports Editor, Advertiser:
Dear Sir:—In last night's paper you advertised the London Rolling Mills as league champions and McClarys as runners-up. Well, I would like you to put it in the paper that McClarys were champions of the league and the London Rolling Mills were the cup winners.

I would like you to state that the time for the meeting is at 8 o'clock at York street dining-room.

McClarys—Won 3, drawn 3—9. Rolling Mills—Lost 1, won 2—3 points; one game defaulted to them.

Yours truly,
CAPT. MCCLARYS.

The American League having ruled that players of visiting teams must dress on the grounds in club houses provided for them, it will be in order to send out a travelling inspector to see that some of the club houses are fitted up to the players' satisfaction. Some complaints were heard last year.

CITY COUNCIL DOINGS.

To put through the license reduction will require some tall hustling. Meantime lots of corn will be tramped on. The cure is "Putnam's," the old reliable corn extractor that has been curing corns and warts for years. "Putnam's" never fails, 25c, at all dealers.

PRES. FITZGERALD CHOOSSES HIS UMPIRES

Picks Out Four Good Indicator
Handlers for Canadian
League.

Toronto, March 17.—President J. P. Fitzgerald, of the Canadian Baseball League, announced that he has appointed his umpires for the season. Only one member of last year's staff has been retained. Those appointed are:
William Halligan, of Buffalo, one of last season's arbitrators, and formerly with the National League.
W. J. Daly, of Rochester, highly recommended by "Slick" O'Loughlin as good as the best men working in the big leagues.
R. McLaughlin, of Buffalo, recommended by Judge J. J. McGowan, president of the Buffalo International Baseball Club. McLaughlin umpired in the Canadian League last season, until he was disbanded in July.
R. W. Black, of Camden, N. J., formerly of the International League staff.

SAM LANGFORD WON IN THE FIRST ROUND

Defeated Jim Barry, of Chicago, at
Brisbane, Australia.

Brisbane, Australia, March 16.—Sam Langford, the Boston pugilist, today defeated Jim Barry, of Chicago, in the first round. This is the second time Barry has been beaten by Langford, their last fight occurring at Melbourne in May, 1912, when the men went eleven rounds.

BROKE HURDLE RECORD.

Los Angeles, March 17.—Fred Kelly, Olympic champion, won a 120-yd. high hurdle race in the 15 seconds record time of 15 seconds at the track meet by the University of Southern California and Stanford University. Three watches made this time even faster than that taken out by the official timer, catching it at 14.4-5.

Juarez Results.

Sunday's Results.
El Paso, March 16.—The races today resulted as follows:
First race, 6 furlongs—King Lear 1, Daylight 2, Ishodah 3. Time, 1:12.4.
Second race, 1 mile—Rosetta 1, Hidden Hand 2, Loan Shark 3. Time, 1:14.1-5.
Third race, 6 furlongs—Definite 1, Star 2, Percy Henderson 3. Time, 1:12.4-5.
Fourth race, 1 mile—Queen 1, Win-a-Win 2, Time 3. Time, 1:13.8.
Fifth race, 6 furlongs—Minerose 1, Dominica 2, Parlo 3. Time, 1:12.3.
Sixth race, 8 furlongs—Frank G. Hogan 1, Edmond Adams 2, Delaney 3. Time, 1:13.

In figuring on the expense of the proposed tour of the world of the Americans and the New York Nationals, President Charles A. Conkley, of the Chicago club, estimated the total at \$50,000. He expected to take 15 players, and the cost per man he finds will be about \$1,500. The New York Club, he said, would take a like number of players.

DR. FRIEDMAN

Continued From Page One.

might accelerate recovery, but nothing more.

Waiting For Dr. Friedman.

Upstairs in a classroom were gathered nearly half a hundred spectators, nearly all physicians and medical students. The postponement of the demonstration from hour to hour since 10 o'clock in the morning prevented the attendance of many doctors. A number from outside points, who had come to the city at a moment's notice on early morning trains, were unable to wait for the clinic, and returned home deeply disappointed. Some of them were disposed to criticize the arrangements, but these were outside the control of local officials. Dr. Friedman had reached the city late Friday night tired out by his work at Montreal, Ottawa and Toronto, and he could be forgiven for preferring his convenience to that of others.

On the east side of the room sat six or seven male patients selected for treatment. They were not a specially consumptive-looking group. All were alert and apparently cheerful, save an Indian youth, with a tuberculous ankle, who dozed in his invalid chair, seemingly indifferent to his surroundings. Just before the demonstration began they went to an adjoining room. All

carried their chairs, excepting the Indian, who was wheeled.

Enter Dr. Friedman.
Dr. Friedman finally emerged from his seclusion in the laboratory and was greeted with a salvo of applause. He is probably not over 40 years of age, about 5 feet 10 inches in height, very erect, with a fair breadth of shoulders, and a well-poised head, good-looking, and notably keen-looking. His white, but not sickly, complexion accentuates the brightness of his eyes. Hair and moustache, light brown. Features refined to the point of delicacy. Carefully groomed; with close-fitting black trousers, with clamorous white stripes, gave a foreign touch to his sartorial make-up, which was almost dandified.

Spectators noticed his extraordinary briskness of movement, and his cato-like way of speaking. Evidently he is naturally nervous and high-strung, though on Saturday he was a model of coolness and precision in his work. He conversed only in German, with those around him, and once he spoke a sentence of correct English to the assembly.

The Introduction.
Dr. Friedman, bowing slightly in acknowledgment of the applause, walked straight to a table and busied himself with the sterilizing of needles in two dishes of boiling water, first sterilizing his hands with ordinary soap and water. While he was thus engaged, Mr. Beck, who had induced him to come to London, explained that Dr. Friedman had counted on treating 50 or 100 patients in Montreal and Ottawa only, but had treated 200, including Toronto, and had extended his Canadian visit beyond his first plans. Though urged to return to New York, Dr. Friedman asked what New York proper facilities for demonstrating his treatment, and these he had been freely given in Canada, for which he was grateful.

A visiting physician further explained that Dr. Friedman's vaccine was injected both intravenously (into the veins), and intramuscularly (into the muscles). For pulmonary consumption the injection was intramuscular, and was followed by a swelling at the side of the injection. An intravenous injection was followed by fever. The dosage was entirely individual.

The Treatment.

As each patient walked in for treatment Dr. Friedman lifted a needle from the sterilizing dish with a small pair of forceps, and inserted the needle into his hypodermic syringe, and flashed the proper dose of his precious vaccine out of a small yellow bottle, having previously determined the dosage by consulting a card inscribed with the patient's record. Each record was read to the assembly by Dr. Elliott, superintendent of the Gravenhurst Sanatorium. The handling of the first patient, a man of apparent 30 years, in the second round in the right disease, was a lobe in the right disease, and one in the left, affected, was typical of the treatment of all the pulmonary cases. Dr. Benjamin put a dab of iodine over the gluteal (put the needle at the point of the right hip), and Dr. Friedman inserted the needle at the point, taking only a few seconds. Few of the patients were in the room more than five minutes.

Dr. Friedman worked with great rapidity. The physicians present had nothing but the thought of his "cure." Upon the patients themselves the psychological effect was immediate; in this itself should be helpful, on the faith cure theory. A look of mingled gladness and hope shone in the eyes of the young man as he walked briskly downstairs, out into the street, and home, unaccompanied. One young woman, after receiving her injection, waved her hand gaily to her husband, who was looking on.

The Kind of Cases.
The second patient, a man of about 40, had an interesting medical history. He had been a patient of Dr. Friedman's for a year, and had been treated for tuberculosis again last September, but he had lost five pounds since then, and his right upper lobe and half the lower lobe were involved. He was treated like the first patient.

The third was a young woman who stopped work last September, and whose illness had been rather acute for three months. She had been given extra nourishment to keep up her weight, and showed no improvement. She had all the usual symptoms, coughing, expectoration, at a night-sweat, high temperature, and a certain loss of the day. The fourth patient, a girl, had the same symptoms, though somewhat less pronounced; the right and left lungs both involved.

Joint Diseases.
A well-known physician was the first one treated for a joint disease. He had a tuberculous ankle, and, as in other cases of joint tuberculosis, there were two injections, one intramuscular, the other intravenous, the latter being given in the arm. The ankle, the trouble beginning sixteen months ago. He had not been able to work since last November, and was the only patient receiving treatment who was unable to stand.

The next was a young man, whose general appearance gave no indications of the presence of the dreaded disease, which was in the left knee-joint. He walked by the side of the street, and seated himself quite unconcerned, and smiling and chatting with Dr. Friedman and his assistants, while measurements of the swollen knee were being made preparatory to ad-

The Wise Mother

She knows what her little folks need to make them sturdy and red-cheeked.

She knows that good rolled oats are the right food. And she knows that the oats must be thoroughly cooked.

So she gives them Tillson's Rolled Oats, because Tillson's are the very best obtainable and because she can cook Tillson's thoroughly in 15 minutes.

Result: She has healthy, happy children, who are always ready for school-time, play-time and meal-time.

Tillson's Oats

Rolled Thinnest—Cook Quickest (15 minutes)

Try Tillson's tomorrow. Your grocer has them. Sold only in packages—never in bulk. Two sizes—10c and 25c. Each 25c package contains a handsome dish of good English porcelain.

CANADIAN CEREAL AND FLOUR MILLS LIMITED, Toronto, Canada

ministering the vaccine. His was a case of two years' standing. As in every case of bone and gland tuberculosis, he received two injections, one in the veins of his arm and the other in the muscles of the hip. He left the room without assistance, and apparently hopeful and happy.

Lung Cases.

All the other cases were of pulmonary tuberculosis. Three young women, all apparently under 25 years of age, followed in order. The first, while appearing very frail and delicate, bore in her countenance the evidences of a new-born hope. She walked with interest the preparations being made, and waved her hand joyfully to her husband.

The next, a young girl, whose appearance was almost robust, was the early stages of the disease, only one lung having been affected. Her father had died of tuberculosis only a short time ago.

A more advanced stage was then presented. The patient was very weak and was supported by a nurse while the injection was made. She, too, seemed to have the courage of a new hope, and smiled bravely as the nurse assisted her from the room.

A man of 40, and one of about 25 were the next to submit to the simple operation. Following them came a more advanced case, a young man who had been at first rejected, but who remained in the building, sustained by his plucky young wife, and ed by his physician. While his temperature was being taken, Dr. Friedman conversed in low tones with his two assistants, Dr. Benjamin and Mr. Hunt. Then he began a careful examination of the patient, tapping with their fingers in several places on his chest and back, and listening with critical ear to the sounds produced. Stethoscopes were also applied to the young man's chest by two of his assistants and by Dr. Hill, the director of the institute. Absolute silence was asked for during this part of the examination, and the only sounds that could be heard were the breathing of the group of doctors and medical students, who craned forward in their chairs, anxious not to miss the slightest detail. When the examination was completed, the doctors conferred together in whispers for several minutes, and then proceeded to give the injection, which, as far as could be seen, differed in no way from those which had preceded it. No remarks were made about the features of the case until the young man had left the room.

The Last Case.

After seeking Dr. Friedman in Montreal, and also in Toronto, a boy of about 20 years of age faced the physician, with a face radiant with joy. He was the last case treated. His was the last case treated. He was of good physique, and received the injection in his hip without flinching. He left the room with "Hope" written in every line of his visage.

Dr. Friedman then announced that the clinic was concluded. He received an ovation from those who had witnessed his demonstration, and loud hand-clapping resounded through the room. It was 5:30 o'clock when the group of spectators filed out of the room and left the institute.

ALBERTA'S TREASURER TAKEN BY DEATH

Hon. Malcolm McKenzie Succumbs to Short Illness at
Edmonton.

[Canadian Press.]
Edmonton, March 16.—Shortly after 1 o'clock this morning, Hon. Malcolm McKenzie, provincial treasurer of Alberta, passed away in the General Hospital, victim of peritonitis, after a brief illness lasting less than a week. He was conscious almost to the last, and his wife and her sister, Miss Henry, of Winnipeg, were at the bedside when the end came.

Mr. McKenzie was in the House last Friday, and attended a convention at Claresholme, where he was again nominated on Saturday, contracting a severe cold and being compelled to seek medical treatment on his return to the city. For a few days nothing serious was feared, but yesterday he rapidly grew worse.

Mr. McKenzie was admitted to be one of the most useful members of the Legislature. He came west 25 years ago, and entered upon the practice of law, first at Calgary and afterwards at Claresholme, where for a time he was in partnership with F. W. G. Haultain, now chief justice of Saskatchewan. He was born in Kincardine, Bruce County, Ont.

GIVEN THE GO-BY

Stratford Not Included in the C. P. R. Development Program.

[Special to The Advertiser.]
Stratford, March 15.—Stratford will not be considered on the C. P. R. development program, according to a letter received today by Mayor Greenwood from J. W. Leonard. This action is the result of the citizens voting not to let the C. P. R. have the only entrance the company claims it would consider.

TO CURE A COLD IN ONE DAY.

DIAMOND ROBBERY AT NEW YORK CITY NETTED BIG SUM

Gems to the Value of \$300,000 Taken From a Pawnbroker's Shop.

Thieves Tunnel Into Place, Evade Burglar Alarms, and Make Clean Getaway.

New York, March 16.—Uncut diamonds and diamond jewelry valued at \$250,000, perhaps \$300,000, were stolen on Saturday night from the vault of Martin Simons & Sons, pawnbrokers, 94 Hester street. The thieves tunneled under a cellar wall, popped up through the floor and got into the vault by making a hole through two feet of brick. In doing this they evaded a network of burglar alarm wires, and made no sound that was heard outside. They came and went through a hole in the ground so small that a child would have to squirm to pass through it. The contents of the vault were worth about \$300,000. Negotiable bonds worth \$130,000 they cast aside, and \$100,000 in negotiable notes they scattered on the floor of the vault or jammed in pigeon-holes. Neither did they take many thousands of dollars worth of gold watches. Diamonds were their game. The bundle of loot that they carried away must have staggered them. Nobody saw them go. Because of recent East Side robberies there is a special detective squad scattered through that territory. The store is protected also by a patrol system. Yet the perpetrators of this huge robbery worked their will and went away, and there isn't a clue except tools and gloves that they left in the store.

The janitor of the building, descending tonight to get some coal, found a little hole through the coal-bin wall, by which the burglars had entered the pawnbroker's cellar. He flew to tell the police, and that the burglary was discovered.

Thought Impregnable.

The vault in which the pledged articles were kept is so strong and so well protected by electric wires that Simons believed it impenetrable. It is 9 feet high, 12 feet long, and about 10 feet wide. It has a double steel door with a combination lock. The burglars didn't bother with the door or the lock. They didn't have to. All around the vault is a casing of plaster. Beneath it is solid masonry, clear down to the cellar.

The top of the vault, underneath the brick shell, is a solid steel sheet made of regular railroad rails, laid side by side lengthwise of the vault. Everywhere outside the vault are wires of the burglar alarm system. The walls of the store are wired. The floor is wired. The cellar is netted with electric wires, five inches apart, and tampering with any of them would bring a flock of patrolmen to the store. The burglars dug every wire, store. The burglars dug every wire, store.

When the burglars reached the pawnbroker's shop they found a stepladder conveniently near. On it they mounted the vault, and once on top started digging. First they tried to dig their way into the vault near the centre of the top surface. They did get through the brick and bumped into the steel rails. At that point, that point of attack they shifted to a point at the top of the side wall, whether the rails did not extend. They made a big hole in the brick as they penetrated the side wall, and laid bare the wall of the vault itself.

FOUND ON TRACKS

Body of Unknown Man Picked Up Near Bothwell.

[Special to The Advertiser.] Bothwell, March 16.—The body of an unknown man, supposedly a tramp, was picked up by the crew of a west-bound freight about three miles west of the depot here this morning, and taken to Thamesville. It is thought the unfortunate man was beating his way and fell off the train during the night.

TEESWATER WILL HAVE MORE LIGHTS

Council Decides to Install a Large Number of New Ones.

[Special to The Advertiser.] Teeswater, March 16.—At the last meeting of the council it was decided to accept an offer to increase the number and power of the town lights. On the main street the lights will be doubled in number and of 100 candle power, and on the side streets a double number, and of 50 candle power. The new lights will be installed at once.

A lot of misunderstanding and misapprehension was cleared up.

FRIEDMAN TREATS TWELVE PATIENTS AND LEAVES FOR N.Y.

Between 60 and 70 Sufferers Sought Treatment by Scientist. Doctors From Out of Town Not Well Pleased With Reception.

After spending the day in this city and inoculating twelve sufferers with the new serum, which he believes to be a cure for tuberculosis, Dr. Friedrich Friedman, German scientist, upon whom the eyes of the civilized world have been cast since the announcement of his discovery, left Saturday night for New York, where he will continue to give treatments.

Arrival Not Pre-Announced.

With the exception of a few persons, the arrival of Dr. Friedman in London on Friday night at a late hour was unexpected. The Londoners, who went to Ottawa to witness his demonstration there, returned with the information that although a pressing invitation had been extended Dr. Friedman to come here, he did not expect to be able to extend his Canadian trip this far.

Was To Be 10 O'Clock.

Ten o'clock at the Institute of Public Health was the hour at first set. Later it was found necessary to postpone the clinic until the afternoon. It was given between three and four.

In order that they should benefit by such advantages as usually come to those who arrive early, many physicians, medical students, relatives and friends of ailing ones, besides a throng of the curious, gathered at the Institute of Public Health on Ottawa street at an early hour. Contrary to expectations none were admitted.

Remained Outside.

Even the out-of-town doctors, some of whom had come from places as far distant as Sarnia, were not extended the slightest courtesy. Those in charge at the institute declared that their orders provided for such a reception, and that they were without alternative.

The weather was not pleasant. A drizzling rain descended intermittently. Preceding days had brought warm weather, the ground had lost its winter frost, and lay soft and wet, and a perfect March day. Out of the north came sweeping gusts of chilling March wind. It was an unfortunate day to stand outside, as hundreds did at the institute.

Went Away Discouraged.

Some of the doctors who had come from other places to gain whatever added knowledge they could for the benefit of their patients, are said to have been so offended and discouraged by the chilliness of their reception that

"Hello! Are you an ad?"
"No—I'm a teacher!"

"I'm teaching millions daily that

WRIGLEY'S SPEARMINT

improves digestions by making up for food that isn't chewed enough. I'm teaching how it preserves and brightens teeth by the friction and refreshing mint leaf juice.

"I'm teaching how it sharpens appetite by helping digest anything eaten before. I'm teaching smokers to refresh their mouths—to purify their breaths—before kissing their little ones at night. I'm teaching people to 'Look for the spear' so they will get the genuine.

"Millions have learned these benefits. Millions more are learning fast. They even

FLOOD WASHED AWAY MANY HYDRO POLES

New Hamburg Was Without Power For Some Time.

[Special to The Advertiser.] Walkerton, March 17.—The turn to cooler weather was welcomed here yesterday and today, as the Saugeen was rising so rapidly that it was feared that considerable damage would result. The ice went away with a rush on Saturday afternoon, and the water rose rapidly, flooding many cellars. There is a lot of snow and water in the swamps yet to come, and had the mild spell continued a big flood would certainly have resulted.

DID \$5,000 DAMAGE.

[Special to The Advertiser.] New Hamburg, March 17.—The water in the Nith reached the highest mark here, yesterday since 1882. There was an immense jam above Stewart's mill, but the cement structure stood the strain. As a result of the hydro poles being carried away the town was without power for a time. About \$5,000 damage was done.

OYSTER SUPPER

Members of Thorndale Bible Class Had a Most Enjoyable Time.

[Special to The Advertiser.] Thorndale, March 15.—The Excelsior Bible Class held an oyster supper in the Masonic Hall on Thursday evening. On account of the bad roads the crowd was not as large as it otherwise would have been. An excellent supper was served, after which a good program was furnished, consisting of selections by R. H. Hudson, of London; Miss Kernohan and Miss Brown, soloists; Miss Duffin, Miss Sinker and Mr. H. B. Mossip, elocutionists. A number entitled "The Peasant's Son" was given by Messrs. Stapleton, Carrothers, McLeod and Miss Brown.

MELBOURNE.

Melbourne, March 16.—Mr. E. O. Richards has left on a business trip to the West. He expects to be absent six weeks.

Mr. John McDougall has left with a settler's car for his home in Systre, Sask. Mr. J. McGugan, of Muirkirk, visited friends here recently.

A supper and social evening will be held in the Presbyterian Church on Wednesday evening next. The "Peasant's Son" was given by Messrs. Stapleton, Carrothers, McLeod and Miss Brown.

Some of the farmers in this locality are busy at making maple syrup.

WOMAN WAS SWEEPED OVER THE CATARACT

Slipping Into River Near Brink of American Falls, She Was Whisked to Death.

Niagara Falls, Ont., March 16.—Miss Josephine Kigittich, of 53 Titus street, Buffalo, N. Y., slipped into the river from Luna Island and was carried over the American fall at 5:30 o'clock this afternoon. The accident was witnessed by Mr. Wogsick Naciejowski and Miss Mary Naciejowski, of Buffalo. So far as the reservation authorities could learn, no one else saw the unfortunate woman go over the falls.

According to the story told the authorities by the two surviving members of the party, the three Polish women came here from Buffalo early this afternoon and wandered over to Luna Island. Miss Kigittich walked toward a clump of bushes near the river's edge, and as she did so pointed out to a sign warning the public to beware of going on the ice near the edge of the island and warned her companions to heed it. Next moment the two women heard a scream.

Turning, Mrs. and Miss Naciejowski saw their companion struggling in the river. Three seconds later her body disappeared over the falls. At the point where the woman fell into the river the current is very swift. It is only about 50 feet above the brink of the cataract.

Immediately after the accident, Mrs. and Miss Naciejowski reported the matter to Reservation Secretary Chas. N. Atwood. They were greatly agitated, and the official had difficulty in learning their story. They were placed on a Buffalo-bound trolley and returned home.

DEAD ON THE ROAD

Remains of James Gallagher Found by Farmer Near Stratford.

[Special to The Advertiser.] Stratford, March 16.—While driving to the Stratford market early on Saturday morning, Thomas Woods, a farmer of Ellice Township, discovered the body of James Gallagher, of Hamilton, lying dead beside the roadside. It is thought that he was stricken with a paralytic stroke while walking from Sebringville to his daughter's farm near the village of Kinkora. Besides a widow he leaves seven daughters and two sons to mourn his loss, most of the children residing in Hamilton. Coroner J. P. Rankin, of Stratford, deemed an inquest unnecessary.

The Good Breakfast

The New Hot Porridge

Post Tavern Special

As a brisk, happy start-off for the day this fetching blend of wheat, corn and rice is just the right thing.

YOUR HAIR IS FLUFFY, BEAUTIFUL AND LUSTROUS IN A FEW MOMENTS

Girls! Get a 25-Cent Bottle of "Danderine" and Try This—Also Stops Falling Hair; Destroys Dandruff.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it down your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair. Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lot of it, surely get a 25-cent bottle of Danderine from any drug-gist or toilet counter, and just try it.

THE HOME BANK OF CANADA

A savings account in the bank is a reserve fund that may be conveniently drawn upon in time of distress, or whenever the opportunity arises to take advantage of some promising investment. Establish your reserve fund with the Home Bank. Full compound interest paid on savings deposits of one dollar and upwards.

At the Grand Trunk Car Shops Library

A view of the handsomely-appointed library at the Grand Trunk carshops. More than half of the men in the shops are regular patrons of the library, which has 4,000 volumes—a much larger collection than that possessed by most small towns. All the leading magazines are available, and at the noon hour and in the evenings the rooms are thronged by the men of the different departments.

CARSHOPS EMPLOYEES HAVE ONE OF FINEST PRIVATE LIBRARIES TO BE FOUND IN THE COUNTRY

Handsomely Decorated Room Given to Men by Company for Use as a Reading Room—400 Volumes by Best-Known Writers, Together With Encyclopedia, Scientific Works, Magazines and Daily Papers Make Library One of the Best-Equipped—Mr. W. Allaster, Librarian, and Mr. T. Treleven Work Hard to Make It Success.

If one should take an Ottawa car to the corner of Rectory and Campbell streets, then walk east a few hundred yards until he arrives at the Grand Trunk carshops, he would find one of the most modern and best-equipped private libraries in Canada within the smoke and oil-stained brick walls.

As soon as a visitor asks to be shown through the building the first place he is taken is to the library. It is in a room about 45 feet long and 20 feet wide, and the men of the Grand Trunk carshops should be given considerable credit for the way it is equipped and the neatness and cleanliness in which it is kept.

Credit With Librarian.
To Mr. W. Allaster, who has been librarian for the past fifteen years, belongs a great deal of credit for to him it is a great pleasure to look after the many hundreds of books, and see that they are properly listed and in good condition when they are returned. To him it is a labor of love, for Mr. Allaster loves the books as a miser loves his gold.

Mr. Thomas Treleven, superintendent of the shops, has taken a great interest in the library all the time he has been employed in the shops, and particularly in the fourteen years he has held his present position.

Room Is Well Furnished.
When one enters the library, with its well-finished floors, its huck-upholstered chairs and long benches, he is immediately struck with the handsome furnishings. Oil paintings and statues adorn the walls on both sides and at the east end a huge blackboard extends across the wall. This is used for notices at times and by lecturers.

Advices Reading Adviser.
When an Adviser reporter visited the place a notice advising the men to read The London Advertiser for reliable news, completely occupied the board. A majority of the men believed this to be true, if one were to judge by the number who claimed that they were readers of London's popular evening paper, and others who said they intended to subscribe for it at once.

At the same end as the blackboard and almost under it, a fine organ is located, and the men are allowed to use this during noon hours.
Straight down the centre of the room a table, perhaps 35 feet long, extends, and this is covered with all the popular fiction magazines as well as periodicals dealing with railroading, engineering, poultry-raising, and in fact everything that man seeking information could wish for.

Papers and Magazines on Table.
Twelve daily papers are also on the table as well as weeklies from England, United States, and Canada, while a huge atlas adorns the centre of the table and maps of every country of the world can be found in the room.

At the extreme west end of the room 4,000 volumes from the pen of nearly every author who has ever at-
tended to an operation for appendicitis.

worked of fiction, adorn the shelves, while many books written by modern authors are also to be found.
In one corner a rack containing the International Encyclopedia stands, while opposite it is the Science of Railways in twelve volumes.
Hao Membership of 200.
There are about 400 men employed in the carshops, and more than 300 of them are members of the library. A charge of 50 cents a year, or less than one cent a week, is made to the members and they are allowed to take the magazines, books or papers home for their families to read. This system has proved so popular that the committee recently decided to list a woman's magazine for the wives and daughters of the workmen.

Established Fifteen Years.
When the carshops were moved back to this city from Brantford fifteen years ago the room in which the library is located was given to the men and also a substantial donation to purchase books. Since then the company has allowed the men to hold an excursion to out-of-town points every summer, and the proceeds of this is handed over to the library committee to purchase new books and equipment for the library.

A managing committee composed of the following men have charge of the purchasing: G. Powe, chairman; W. Butler, J. Rogers, H. McLaren, W. McLachlan, G. Burnaby and H. Warner. This committee, together with a board of directors are elected every year by the members of the library.

The personnel of the board of directors is: A. Allen, president; T. Beattie, vice-president; J. Summer, second vice-president; A. Jackson and J. Hawkins, auditors; A. Tory and J. Phillips, trustees.

Is In Flourishing Condition.
The library is in a flourishing condition at present, and a fine surplus is on hand after a purchase of nearly one hundred books, which was made only last week.

The men of the shops are proud of their library, and well may they be, for as has already been said it is as fine as there is to be found in the country, and in many respects is considerably better equipped than some of the public libraries.

RECEIVES GASH IN HEAD
Wm. Hill, Yardman, Slipped on Ice in East London and Was Injured.

While walking along the tracks in the East London yards this morning, Wm. Hill, a yardman, slipped on a piece of ice and cut a deep gash in his head. He recovered sufficiently after a short time to walk to his home after having the wound dressed.

The friends of Mr. T. Cuttill, C. P. R. conductor, of East London, will be pleased to hear that he is recovering nearly every author who has ever at-

SOLD 27 LOTS OFF COBBLEDICK FARM

Dr. Mugan Reports Many Sales in East London Last Week.

LONDON IS BOOMING

Estimated That Five Hundred New Houses Will Be Built in London This Year.

That a building boom, which will extend from Chelsea Green on the south side, to Knollwood Park on the north side, will be started as soon as the weather permits, and that it will be the biggest boom which London has ever witnessed, is an asserted fact. Every contractor in the city is busy estimating costs of houses and stores, and the registry office has been besieged the past two weeks with men anxious to have property changes listed.

Sold 27 Lots During Week.
About four months ago, Dr. Mugan, together with several other men, purchased a farm in East London, known as the Cobbledick farm. Before it was surveyed applications for lots were made, and last week 27 were sold for about \$9,000.

Asked what price he was getting a foot, Dr. Mugan replied that some of the lots were selling for as high as \$14 per foot.
Other lots of land all over East London have been sold during the winter and numbers of lots sold off them, but a great many of them have not been listed yet.

Local contractors report that every day they have inquiries from all over the district, making inquiries about jobs in London this year.

Expects Record Year.
Last week Mayor Graham reported that 400 London lots have been sold in Winnipeg, and the advantages of buying property in London this year are being told in Toronto, Ottawa, Montreal, and other Canadian papers, through advertisements every day.

Several large factories are to be built in the new districts, and it is expected that the contract for the erection of the new building will be let this week. Two London contractors are figuring on the job, and it is quite likely that one of them will secure the work.

It is estimated that 500 new houses will be built in London this summer, and Building Inspector Piper claims that building permits will amount to more than \$2,000,000 this year.

SUFFRAGETTES AGAIN MOBBED

Speakers at Hyde Park Pelted by Crowd Ten Thousand Strong.

London, March 16.—A mob of 10,000, principally men and boys, mobbed the suffragette speakers in Hyde Park today. Armed with trumpets, mouth-organs and bells, they prevented the speakers from talking, and when they descended from the platforms, mobbed them.

The trouble began when "General" Mrs. Flora Drummond mounted a wagon and started to speak to the great assemblage. Her appearance at the front of the platform was the signal for an outburst of deafening noise and a bombardment of missiles. She had hardly uttered a word when a clod of turf struck her on the mouth.

Mrs. Drummond maintained her good nature, smiled at her tormentors and continued her speech amid a veritable tornado of abuse, catcalls, ragtime choruses and cries of "Go home to your children."

For half an hour the crowds shouted, sang and pelted the suffragette commander-in-chief, whose clothes were a mass of mud. At last, Mrs. Drummond's speech, of which not a word was audible, came to an end, and a younger woman took her place. She fared no better and the police, realizing the danger the women were in, called upon the chairman to close the meeting.

A large force of police, mounted and on foot, drew in about the suffragette wagon, and under this escort the women were led out of the park, followed by a jeering crowd, which continued to pelt them with missiles over the heads and through the lines of constables.

The police endeavored to pilot the women to the tube station, but the crowd brushed them aside and dragged the women up and down the street. In the melee one woman had her eye blackened and all of them had their clothes torn and discolored.

Struggle With Police.
The police, after half an hour's struggle, got the upper hand, and succeeded in getting the badly-molested women into the tube, from which all men were barred until order had been restored. The attack on the suffragettes was prearranged long before their wagon entered the park. Hundreds of boys had assembled for mischief and they created a scene when the women arrived, such as is seldom witnessed in a London park.

Freedom of speech is accorded the adherents of every propaganda. The disorder continued despite the efforts of a particularly strong force of police. As soon as the wagon appeared the police surrounded it with a view to protecting the suffragettes, who were there to incite their followers to break the law.

But the crowd outnumbered them a hundred to one, and it was impossible to prevent men from throwing their often well-aimed missiles at the harassed women.

One of the speakers, a Miss Rogers, whose clothes were bespattered with

mud and eggs, collapsed as she was being escorted from the park, and her clothes were on the point of being torn from her when the police succeeded in rescuing the woman.

It was a regular stand-up fight between the police and the crowds, the former struggling out right and left, and endeavoring to arrest the ringleaders. Others among the rioters, however, would come to the aid of those seized by the police, and forcibly take them out of their hands.

Suddenly the cry would go up: "Here's one!" and the police would fight their way to a fainting woman wearing the unpopular badge of the Women's Social and Political Union. Every woman thus adorned was greeted with cries of "In-cend-i-ary!" "Shopbreaker!" "Take her to the 'serpentine'" (an artificial lake in the park), while the crowd sang "Oh, You Beautiful Doll" and other rag-time melodies.

Blamed All On Police.
Mrs. Drummond, speaking of the Hyde Park affair this evening, said it began by some boys shouting, "Hello, here's Mother Drummond." She declared that the crowd had shown no hostility, and that the trouble was caused by the police interfering with free speech and in their officious manner trying to escort the suffragettes from the park.

Mrs. Drummond concluded by saying: "We didn't want an escort, and we don't fear the mob, and because we trusted the mob and refused an escort, the police assaulted us."

PURCHASED TWO ACRES EAST OF INTERSWITCHING

Dr. Mugan Buys Another Tract of Land, Which He Will Cut Up Into Building Lots.

Dr. P. J. Mugan made arrangements Saturday afternoon to purchase two acres of land belonging to Mrs. Steele, which is located east of the Empire Manufacturing Company.

He intends to cut it up into building lots, and will likely have them on the market in a short time.

The sale of property in East London during the past week has been wonderful, said Dr. Mugan, "and I don't think that the real boom has struck the city yet."

HELD UNIQUE PARTY

Mrs. T. B. Richardson Entertains Friends to a Progressive Peanut Dig.

The home of Mrs. T. B. Richardson, 552 York street, was the scene of a unique party on Friday evening, when a number of her friends were entertained to a progressive peanut dig.

Part of the evening was spent in music and songs, and at the close of the party, Mr. W. Smith was the winner of the first prize and Miss Gladys Andrews carried off the booty prize.

SMALLPOX SCARE

No Churches Were Open at Exeter Sunday and Schools Are Closed.

[Special to The Advertiser.]
Exeter, March 17.—The smallpox scare has subsided here. All those who were affected are progressing favorably, and many of the quarantine cards have been taken down. The school has been thoroughly fumigated but will not reopen until after the Easter holidays. The local churches were not open yesterday.

Easter Exhibit of Fashionable Wearing Apparel

Classy Spring Suits at \$15 and \$18

A wonderful collection of classy Spring Suits for women who want style and perfect-fitting garments at popular prices. The cloths comprise imported serges and tweeds, all thoroughly shrunk and well-tailored. The colors are navy and black, also tan, brown and gray mixed tweeds; sizes 34 to 42 bust. Special at \$15 and \$18

Spring Coats

Made from imported French serge in shades of navy, tan and gray, trimmed with buttons; has belt across back and well tailored; sizes 34 to 40. Special at \$10.00

Imported Whipcord Suitings at \$1

The latest material for spring suits in Plain and Two-Tone Whipcords, in shades of tan, brown, Copenhagen, navy and black, 52 inches wide. Special at \$1.00

Easter Millinery

This year, more than ever perhaps, the success of your spring costume will depend upon the selection of just the right Hat, and that is an all-sufficient reason why you should see the new creations in the Millinery Section before deciding. Have your order placed early this week to be sure of getting your Hat for Easter.

Imported Tweed Suiting at 50c

500 yards of Imported Tweed Suitings, 42 inches wide, in gray and tan mixed effects. Special, the yard 50c

65c All-Wool Serge for 39c

All Pure Wool Serge, 42 inches wide, in navy and black only. Regular 65c value, Tuesday only 39c

AGENTS FOR BUTTERICK PATTERNS.

Tenders For Alterations to Court House and Jail

Sealed proposals, addressed to Capt. T. Robson, Clerk of the County of Middlesex, will be received at his office until 12 o'clock noon, on Tuesday, March 25, 1913, for alterations to the Court House and Jail.

Each tender must be accompanied by a marked check for 10 per cent of the amount of the bid.
Each tender must be made on the form furnished by Mr. H. C. McBride, architect.
Specifications and plans covering the above work may be seen at the office of Mr. H. C. McBride, Edge block, city. The city reserves the right to reject any or all bids, and to accept any bid.
S. BAKER, City Clerk.

Parisian Sage

Imitations of This Great Hair Invigorator Are Abroad in the Land—Look for the Girl With the Auburn Hair on Every Package.

PARISIAN Sage—ask for it by name when you want the real hair grower and dandruff cure.

This is a picture of the carton in which each bottle of PARISIAN Sage is packed. PARISIAN Sage will banish dandruff, stop falling hair and itching scalp, and promote the growth of hair if the hair root is not dead. It is a clean tonic and contains no poisonous lead or other dangerous substance. It will put radiant beauty into dull, faded, lifeless hair, and as a dainty hair dressing for women it cannot be matched.

Get a 50-cent bottle of PARISIAN Sage today. If it doesn't give complete satisfaction, your money will be returned. Sold by all druggists and toilet goods counters everywhere.

Taxicabs and Carriages for every occasion. Hutton's Livery.

LONDON AND DISTRICT

Permit For Dwelling.—A building permit for a \$2,500 brick dwelling was issued Saturday to W. H. Leeson.

Buried at Mount Pleasant.—The funeral of Mrs. Mary Jane Lee, widow of James Lee, was held from her late residence, 82 Byron avenue, on Friday afternoon. Rev. W. H. Harvey conducted the services, and interment was made in Mount Pleasant Cemetery.

Inspection Back-Yards.—Inspector Lutman, of the health department, has commenced his annual spring inspection of backyards, lanes and alleys. He reports that the conditions are not much better and not much worse than in other years.

Broke Eccentric Pin.—The breaking of the eccentric pin in the engine resulted in the delay of the regular passenger train due from Detroit at 6 o'clock on Thursday evening for more than two hours. The mishap occurred about three miles west of the city.

Burial of Mrs. Pigot.—Mrs. Mary Pigot's funeral was held at 10:30 o'clock Saturday from the undertaking parlors of John Ferguson & Son to Woodland Cemetery, where interment was made. Rev. G. P. B. Doherty conducted the services at 10 o'clock. The pallbearers were Messrs. Henry Plaster, William Dear, Richard Taylor, J. Johnson and Christopher Taylor.

Plan Phone Conference.—The conference between the city council and the Bell Telephone Company to arrange terms in regard to a renewal of the company's franchise has been delayed by the absence from the city of District Manager Richmond. The conference will be held this week.

Brought to Jail.—John H. Roberts, of Denver, Col., and Alfred Williams, of Stratford, were brought to the county jail late Friday night by County Constable Corbett, to serve a day sentence. The two men, who are 19 and 20 years old and were sentenced by Judge J. N. Currie, of Glenora, after being warned to leave that village.

Death of William Stewart.—William George Stewart, aged 20, whose mother, Mrs. W. J. Kenny, and sister, Miss Mabel, reside at 75 Evergreen avenue, this city, died suddenly at the home of his brother, Mr. Allen Hewitt, of Bogalusa, Louisiana, on Thursday. Besides the above-mentioned members of the family, there survives a brother, Herbert, of Brantford.

Burial of Mrs. Henry Gregory.—The funeral of Mrs. Henry Gregory, held from J. Ferguson & Son's parlors on King street on Saturday at three o'clock. The services were conducted at 2:30 o'clock by the Rev. G. A. McKenzie. The pallbearers were Arthur Drake, Wm. Richmond, John Taggart, Richard Burch, John Taggart, and Christopher Taylor.

Burial of Mrs. McLachlan.—The funeral of Mrs. Veda McLachlan, wife of James McLachlan, was held Saturday from her residence, lot 10, concession 8, Westminster Township, and was largely attended. Rev. Dr. McCrene officiated at the services. Interment was made in the Pond Mills Cemetery at 2:30 o'clock.

Bringing Servants.—Major McGillivray, of the local staff of the Salvation Army, who left on a trip to the British Isles two months ago, is expected in London today or Tuesday with a party of domestic servants. While Major McGillivray brought a number of farm servants to Canada, some of these will be brought to this city. Since the departure of Major McGillivray a large number of applications for domestics have been received at the local office of the Salvation Army. Those who enjoy a literary treat should not fail to hear the two remaining lectures of the course.

ACCIDENTALLY DROWNED.

[Special To The Advertiser.]
Berlin, March 15.—Arthur Kellerborn, 11 years of age, son of George

and Margaret Kellerborn, was drowned in two feet of water on Saturday morning. He was watching the ice floating down the stream, and becoming excited, he stepped on the ice, which broke, and he was drowned.

BELTZ & CO.

TO FORECLOSE BIG
MORTGAGE ON P. M.

This Is the Latest Report Coming From New York During the Investigation.

Detroit, March 17.—While Senator W. M. Smith, of the special legislative committee was questioning Frederick W. Stevens about the affairs of the Pere Marquette today in the presence of the receivers who have been trying to put the road on its feet it was reported that alleged steps were being taken in New York to foreclose a mortgage on the road and sell it to the highest bidder.

The contemplated action is said to be by the holders of the \$8,000,000 outstanding collateral gold notes, for which J. P. Morgan & Co. furnished the company with \$7,500,000 in cash, and which were sold to the Guaranty Trust Company, which holds, as trustee, \$16,000,000 improvement and general refunding bonds as collateral therefor. The road defaulted in interest on the \$8,000,000 bonds on Sept. 1, 1912, and none has been paid since.

The Standard Tonic

And why? Because although formulated years ago, it has not been improved upon. Of one thing, however, you must be sure, and that is—purity of contents. Even a good formula must be filled with good ingredients, or else all is at naught. In our Beef, Iron and Wine we put the best beef extract, the finest sherry wine, and the purest citrate of iron that can be obtained. As a tonic for spring you will find it excellent, and one that will bring your health and strength up to the standard.

HEREDITARY DEFECTS ARE ALL PHYSICAL

No Child Born Moral or Immoral, But Unmoral.

"I certainly don't believe in corporal punishment," said W. L. Scott, president of the Ottawa Children's Aid Society, in addressing the Canadian Club at a luncheon at the Teacum House Saturday night on "The Child Problem."

"Anyone who tries to govern children with his hands, makes the mistake that he has put the head to do it. Corporal punishment belongs to an age that is past, an age when it was thought necessary for the training of wives and servants. Nowadays it is not even in vogue for the training of dogs and horses."

In his address Mr. Scott referred to the high standing and good work of the Ottawa Children's Aid Society. He pointed out the great expense incurred in punishing crime as compared with the cost of preventing it. Criminals are made, not born, he said.

"Children are like plastic putty. They take shape from whatever touches them and harden in time. Heredity has no direct influence. Heredity has no direct influence on character, but it does influence the physical defects. Delinquency is sometimes due to physical defects. Adenoids and eye strain rob the child of nerve strength."

"Ninety to 95 per cent of our delinquents are produced by environment. If every child were sensibly handled, the crime problem of the next generation would practically disappear."

"The Children's Aid Societies are doing much for neglected children, but very little for delinquents. The juvenile court appreciates the value of the child, recognizes the fact that the child's delinquency is the result of circumstances, and abandons entirely the idea of retributive justice."

A Last Resort.
"The industrial school or reformatory should be the last resort. In the best regulated industrial schools evils arise from segregation, and there is always an artificial atmosphere. It is better, however, to send a boy to the industrial school than to allow him to go entirely to the bad."

Senator Smith, who acted as cross-examiner today for the committee, questioned Mr. Stevens with a view of showing whether the stock of the Pere Marquette issued in 1900 to pay for the constituent companies was water, but Mr. Stevens would not admit this, declaring that in some cases he was not in a position to pass an opinion on that point.

Senator Smith also wanted to know whether the witness thought it just that dividends be paid on stock that when issued was pure "water." Mr. Stevens refused to answer this question, saying that stock issued for the purpose of buying other lines was not throwing away money, that such purchased roads had a value as part of a new system that they never had when standing by themselves.

The inquirer also asked about the Grand Rapids, Kalkaska and Southwestern road in which Senator and Senator Smith were interested, and which was sold to the Pere Marquette. He wanted to know if William Alden Smith at that time was not a law partner of Mr. Stevens. The latter said he was not.

The session ended at noon and will be continued next Friday morning.

Settlers' Excursions to Alberta and Saskatchewan.

Commencing March 17th and continuing every TUESDAY thereafter, until APRIL 29th inclusive, the Grand Trunk Pacific Railway will issue one-way Settlers' tickets from stations in Ontario, Peterboro, Port Hope, and west to points in Alberta and Saskatchewan at exceptionally low rates. \$1,194 Profit from 6½ Acres in Grapes

THIS is the experience of one man in Placer County, California. He gathered 2,985 crates of "Flaming Tokays", which he sold at 75c a crate, of which 40c was clear profit. Another cleared \$3,685 from 12 acres of peaches. Another received \$540.00 from one acre in Loganberries. This is only a few of the many profitable pursuits one may take up in California.

Why not go to California this Spring and get a piece of land? The soil is prolific, and will produce almost anything that grows. Let us help you to decide what line of endeavor you will undertake.

Effective March 15th, the fare is reduced to

\$46.05 From London
