REDUCED RATES OF PREMIUM—HALF CREDIT RATES OF PREMIUM.

THE greet and decided success which has attended this Institution has induced the Directors to REDUCE the RATES originally required in British North America to the ordinary European Rates. The result of such Reduction is to enable parties to avait themselves of the important benefits of Life Assurance at much lower Rates of Premium than those of any other Assurance Company transacting business in Canada. The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by see or land, to other parts of North America without affecting their Interest in their respective Policies.
