The enemy used his artillery against his own trenches and against his own retreating regiments. Prisoners state that their troops were ordered to take Vladimir-Volynsk and the recently organized Russian Guards were again for the third time sacrificed, but all sacrifices were in vain. The Russians were everywhere repulsed, and our position remained intact. The enemy suffered a heavy defeat. The number of prisoners taken in the last few days south of Brody were 41 officers, including a colonel, and 2,578 men. Campaign Growing Against
the German Chancellor

Retirement of Bethmann-Hollweg Is Demanded By Opponents of Peace Faction in Germany.
By Courier Leased Wire.
Berlin, Oct. 3.—Via London, Oct. 4.—The campaign against Chancellor Von Bethmann-Hollweg is daily assuming a more tangible form. One of the latest developments is a circular demanding the retirement of the chancellor, which has been sent by a vociferous group of his opponents to such members of the Reichstag as are considered open to the arguments. The indictment covers almost everything in the chancellor's conduct of foreign affairs before and during the war. Attempts to reach an agreement with England, his first attitude toward Belgian neutrality and naturally his policy in the submarine issue. Another factor which is disturbing the political situation is a breach of the political truce proclaimed at the outset of the war, which has been made by the Saxon Socialists. This prospect that an agreement will be reached which will avoid the open discussion of issues before the Reichstag vacated by the death of the Con-

Invasion of Bulgaria is
a Threat to Mackensen

Signifies Confidence of Entente Forces and Abundance of
Men and Munitions for Such an Undertaking.

By Courier Leased Wire.
New York, Oct. 4.—A New York Times cable from London this morning says:
The surprise sprung upon Bulgaria and her Teutonic allies by the Roumanian crossing of the Danube between Rutchuk and Tutraikan is hailed here as a stroke of such daring character that it would not have been attempted except in strong force. It is regarded as a distinct threat to Mackensen's communications through the difficult Dobrudja swamps, where there are no railways and few roads and it, as is believed here, the Roumanian invasion of Bulgaria is in strength and if it is pushed successfully, the famous German "thrust" will be forced to make an extremely difficult retreat to man or sacrifice the bulk of his army. Mackensen's advance in Dobrudja, which the Kaiser hailed as a decisive victory, already is described by some experts here as a Pyrrhic triumph. He failed to gain the railway bridge before the Danube at Carnavoda that spans the relatively slow concentration of the Russian forces for the assistance of the Roumanians in this district was completed, and when it was completed Mackensen was driven ten miles south. No doubt is expressed here that preparations have been going on for an offensive move against Mackensen by the Russian and Roumanian forces which has held the Danube bridgehead during the recent period of apparent stagnation. It takes time to assemble an army which carries a single transport on a bridge. Equally a single line of communication, the Roumanian crossing of the Danube between Rutchuk and the Tutraikan was timed to coincide with an offensive movement by the Russians on Dobrudja front. Marcel Hutin says the operations which General Basile Zetton, the new chief of the Roumanian general headquarters staff, has not begun in accordance with Allied plans in the Balkans. Athens reports that once the danger of a stab in the back is removed, General Sarrail will be free to move. The so-called "mystery" of Sarrail's long inactivity has been prolific source of rumors. Sarrail's position is lucidly explained in a Saloniki despatch to The Manchester Guardian. The army, under his supreme command, is in composition the most extraordinary army ever united under a single general. The only precedent is the international expedition to China, under command of Field Marshal Walderssee, but the difference between that force and the one under Sarrail is that the former had absolutely no homogeneity. Every section regarded the others with distrust to such an extent that the field marshal never issued an order without first ascertaining himself privately that it met with the approval of the commanders of the various units, whereas the army of the east has blind confidence in its commander and obeys his slightest order with prompt enthusiasm. In the complicated problem that faced Sarrail, the first of the difficulties he had to confront was the international character of his forces, which consist of British, French, Italian, Russian, Serbian and Albanians. Such a force must be disbanded in sections, each holding a certain part of the line. They cannot be mixed without reviving Babel, and the confusion of tongues.

BRITISH HAVE
TAKEN TOWN

Eaucourt L'Abbaye Now in
Their Hands After Heavy
Fighting.

By Courier Leased Wire.
London, Oct. 4.—The war office announced to-day that the town of Eaucourt L'Abbaye, on the Somme front, for the possession of which heavy fighting has been in progress for several days, is now entirely in the hands of the British. The announcement follows: "Eaucourt L'Abbaye has been cleared of the enemy and is entirely in our hands. "During the night there was considerable shelling on our front south of the Ancre. Otherwise there was no change. A heavy rain has fallen since morning."

HONORS FOR TWO
BRITISH AIRMEN

Lts. Sowrey and Brandon, R.
F. C., Both Receive
D.S.O.

By Courier Leased Wire.
London, Oct. 4.—King George, it was officially announced to-day, has appointed Second Lieutenant Frederick Sowrey and Lieutenant Alfred De Bath Brandon, both officers of the royal flying corps, to be Companions of the Distinguished Service Order, "in connection with their successful attacks upon enemy airships." Lieut. Brandon took part in the defensive operations against Zeppelin airships, which raided London on the night of April 2 of this year, and was reported in despatches to have dropped, with effect, several bombs upon one of the raiders, after mounting to a height of 9,000 feet. The Zeppelin L-15 came down in the Thames estuary after this air raid and sunk while it was being towed in by British vessels, but it was said to be definitely established whether this was the airship Lieutenant Brandon attacked. Lieut. Brandon, a native of Wellington, New Zealand, is 32 years old. He joined the flying corps in July, 1915. The name of Lieut. Sowrey has not been mentioned in despatches received here regarding British aerial activities.

Hun Claim Many
Ship are Sunk

Berlin, Oct. 4, via Sayville wireless.—Thirty-five vessels of countries at war with Germany, with a total tonnage of 14,600, were sunk by German submarines in the North Sea German submarines in the North Sea English Channel between September 20 and September 29, it is semi-officially announced. This is in addition to 11 British fishing steamers already sunk. The British fishing steamer already has been reported. Twenty-seven of the 35 were fishing steamers. Thirty-one prisoners were brought in by the submarines.

GERMAN AGENTS NOW OFFER
DEFINITE TERMS FOR PEACE

Would Agree to Evacuation of Belgium
and Serbia, and Restoration of Lor-
raine to France

By Courier Leased Wire.
New York, Oct. 4.—The London correspondent of the Tribune cables as follows:
German agents, acting through King Albert of the Belgians suggested definite terms to the allies regarding Belgium, Serbia and Lorraine. This is received from excellent authority. The proposal included the withdrawal of the Germans from Belgium, the payment of an indemnity for destruction due to military occupation, the retirement of the Kaiser's forces from Serbia with out an indemnity, and the return of Lorraine to France. Although the offer can hardly be considered a formal one, it is of an official character, and is more definite than previous overtures. King Albert has been approached several times by German agents. Last spring the most ambitious of these efforts was made. But the Belgian king spurned these offers repeatedly, despite the fact that considerable pressure was brought to bear by the Ger-

Sofia, Oct. 3, via London, Oct. 4.—The Roumanians who have crossed the Danube and invaded Bulgaria are described as "considerable units of troops" in an official statement issued by the War Office to-day, which, however, does not report any clash between the Bulgarians and the invaders. The text of the statement follows: "Macedonian front: "East and west of Florina there is lively artillery activity without any infantry action. In the Moglenica valley there was artillery, infantry and machine gun fire. On both sides of the Vardar there was weak artillery activity which became more violent south Lake Doiran. At the foot of Balaschitsa Mountain there was quiet. On the Struma front there was violent artillery fire on both sides and the fighting near Karadjakoi continues with stubbornness. "Danube front: We occupied the Island of Malalafat on the Danube, opposite Vidin. We bombarded with success the post and barracks at Kalafat, near the village of Guidich and dispersed by artillery fire a detachment which was preparing to entrench. Near the village of Rahovo, the enemy succeeded in throwing a bridge over the river by which he was able to convey across considerable units of troops. Austrian mortars destroyed the bridge at the Dobrudja side. "In the Dobrudja the enemy's offensive on the Reshul-Amaztia-Perveti line was stopped by our fire. Counter-attacks on the right wing ended in the repulse of the enemy, who was driven back to his former positions. An enemy battalion was practically annihilated and two officers and one hundred men were captured were taken prisoner. "Black Sea coast: A hostile boat unsuccessfully bombarded the town of Mangalia on Sunday."

Montreal Students Figure
in Anti-Recruiting Riot

Posters Torn Down and Resistance Offered the Police—
Students Numbered over 300

By Courier Leased Wire.
Montreal, Oct. 4.—Six Laval students were arrested following an anti-recruiting riot in the streets of Montreal this morning. The students to the number of three or four hundred attended mass at St. James Cathedral. On their way to the cathedral they tore down recruiting posters on Phillips square and wrecked the stand of the Fifth pioneers on St. Catharine street. The police were called out and fifty constables in patrol wagons were rushed to the cathedral. The word was given to the students that the police were going to arrest some of them, and they prepared to resist. They pulled up stones in the courtyard leading to the cathedral and broke them into small pieces, which they put in their pockets. When the police arrived at the cathedral the students had just come out from the mass. The officers rushed into the crowd amid a hail of stones and a free fight ensued inside and outside the cathedral. A number of the students were injured and six taken into custody. The police then charged the young men and three policemen were slightly injured in the melee. A number of the students repaired to the city hall where they demanded to see the mayor. Mayor Martin received a delegation of the young men in the council chamber and examined their bloody heads and hands. The students insisted that the affair should be investigated and this the mayor promised to do. One of the students told how the police rushed them right into the cathedral and Bishop Gauthier had to come down from the altar where he was officiating at mass to plead with the officers to leave the sacred building. Mayor Martin suspended the captain who took the police up to the cathedral in the patrol wagon pending the result of the investigation that will be held. The young men detained were released on bail. By Courier Leased Wire. Montreal, Oct. 4.—The men finally held by the police were: Emile Gasse, Arthur Grenier, Albert Bressard and Romeo Laforde. They were charged with disturbing the peace and damaging property. Primeau Dugal, a student, was admitted to Notre Dame Hospital, suffering from an injured skull. He was hit by a constable's baton. Constable Belec is in the General Hospital with abdominal injuries caused by a stone. A number of private citizens who joined in the fracas outside the cathedral were treated for cuts and bruises at the various hospitals.

# Annual Fairs in Schools of the City and Vicinity

### Prize Lists Show Large Number and High Quality of the Exhibits Entered.

The second annual fair of the Echo Place School was held on Friday, Sept 29th, and in spite of unfavorable weather, a most enjoyable time was spent by all. The decorations were carried out in the school colors—purple and gold—and were very effective. The exhibit, though small, was very good, there being some splendid specimens of fruit and vegetables. Among other exhibits were flowers, sewing, cooking, drawing, insect collections, leaf collections, bird houses and cages for pets. The Echo Place team defeated the Cainsville school team in baseball, the score being 10 to 5. Another feature of the afternoon was the speech-making by the pupils of the school, when excellent talent for public speaking, was shown. After the races, refreshments were served, under the supervision of the teachers. The Echo Place Women's Institute had a booth at which ice cream and home-made cooking were sold, and the ladies realized \$25 towards the motor ambulance for the 215th battalion. The success of the fair was due to the untiring efforts of the trustees, H. C. Thomas, M. Myers and J. L. Barnes, and the teachers, Miss R. Neelands, Miss M. Walton and Miss A. Graham.

## THE FAIRY FOREST

Jan was brave. For all the frights he'd had with that opera glass elf, still another time, if you'll believe it, he unscrewed the lens from his mother's opera glasses and let the elf out, though he knew the minute he did it, the opera glasses would grow and grow, or seem to. Jan couldn't make out what really happened.

Sure enough the glasses began to grow the minute the elf was out and Jan and he ran through the goblin tunnel to the window, lens at the end.

Now the elf didn't tell Jan that the window lens was open. Not he! And Jan rushed up to it and through it before he knew what he was doing. Bang! he fell with a dreadful thump into the fairy forest at the end of the opera glass.

Where upon the elf gave a dreadful laugh of triumph and banged the lens closed and there was Jan in the fairy forest!

Terrified he looked about him; and now for the first time he realized how tall the forest was. Up, up, up it spread above him like white, petalled umbrellas. Yes, sir, the top of that forest queerly enough was white—not green—and the trunks looked like giant stems without branches, only here and there a leaf. And then, coming toward him, Jan saw the Purple Emperor. He knew it was the Purple Emperor because fairy heralds were crying it through trumpet flowers.

Now at first Jan thought the Purple Emperor was a butterfly as big as an aeroplane, but presently he saw between his purple outspread wings—a giant king clad royally in jewels and purple velvet.

"Everything is so big!" sobbed Jan, now really frightened, for the King's sword was big enough to behead a giant, but the King laughed. "Nonsense!" he said kindly. "It's because you're so little. That opera glass elf pucks you up with his magic eyes until you're no bigger than a fly."

Jan gasped.

"What's more," continued the Purple Emperor, "you're in a forest of daisies and if you were your usual size, they'd no more than come to your knee. Why, I myself am only butterfly size!"

Jan stared. Green fairy air, and green fairy shadows and sure enough tall daisy stems and flowers, towering tall above him!

"How am I to get back?" he faltered.

The Purple Emperor took a handful of green air, squeezed it into a fairy emerald and flung it straight at the window lens behind which the elf was grinning. It broke into bits.

"Now," he said, "run for your life through the golden tunnel. The minute you reach your mother's room you'll grow to your proper size."

And so, thanks to the Purple Emperor Jan got safely out of the fairy forest in which the elf had shut him in—but do you know, he longed to go back again!

## BUBBLI Baron Sha

**BARON SHAUGHNESSY**  
While in Vancouver, the Canadian Pacific way, gave a most interesting dress lasting almost half an hour to the members of the Vancouver Board of Trade. During the several hundred members of Board of Trade as well as prominent business men not completely referred to what his party had done for Vancouver Victoria, to the position of the Board of Trade after the war, the immigration and the duty of the Board of Vancouver as well as the entire Dominion in furthering the interests of this country.

Prefacing his address with references to the gentlemen who accompanied him on the trip coast, Lord Shaughnessy alluded to the Vancouver of twenty-five years ago.

"When you look around," he said, "and see the changes that have taken place at that period, you do not doubt as we all feel that you are all entitled to a great credit for the present conditions. You have your splendid waterfront your large ocean-going to your magnificent streets and your blocks, and if I might be permitted to say it, probably the best hotel on the continent."

"I think, too, that you will have had little differences with what had from time to time during all these years your partner, the C.P.R., has been negotiating for many hours across the gulf in the city of Victoria, where at business is not as brisk as it is, a situation that we are in many localities of the continent, but I think that which has made such progress and has been so prosperous in recent years, is the testimony to the ear with which your partner in forwarding all their goods to the market at other points by the company's lines has been of creation and improvement of times probably we have seen the market and have anticipated future, but we did it with a little while to wait when things would grow to what has been providing for in Vancouver. The last three years have been years of depression in business, not in Vancouver, but throughout the country, but this may be attributed to some extent to over-speculation."

**New Millinery**

This is the season of arrivals of the Millinery Department and on every table and case there is something new to show. Many of the smartest of the new hats are on display, including many New York and French models.

Notable additions to our stock are the new Velour Hats, Sport Styles, Large Sailor shapes, and medium sizes for motoring. All are trimmed with ribbon bands, etc. Millinery for young and older women is now being shown.

BUBBLING WITH OPTIMISM
Baron Shaughnessy Strikes Hopeful Note

Baron Shaughnessy said that there was evidence on which his banking friends would bear him out, of decided improvement in trade conditions on the Pacific coast.

"This is not the time to undertake major improvements, not a time indeed to take anything in hand or to say anything in the nature of a promise of important works, but it is clear to me that for the future requirements of the port it will be necessary to spend a very large sum on money in providing additional jetty for which steps have already been taken.

"The port in its present stage of development would be a matter of surprise to almost any person who had not followed the history of Vancouver. When the first Empress came here in 1890, we hoped to secure traffic enough to feed these three Empresses on the coast.

"When you look around," he said, "and see the changes that have taken place at that period, you are no doubt as we all feel that we are all entitled to a great deal of credit for the present conditions here.

"I think, too, that you will admit whatever little differences we may have had from time to time that during all these years your working partner, the C.P.R., has neither been niggardly nor narrow. I think too, that if our friends and neighbors across the gulf in the older city of Victoria, where at present business is not as brisk as it might be, a situation that we are experiencing in many localities on the continent, but I think that Victoria, which has made such marked progress and has been so exceedingly prosperous in recent years, will as with which your partner assisted in forwarding all their good works.

"The policy of the Company in Victoria and at other points on the coast by the company's line has been one of creation and improvement.

"Indeed, there are those of us who think that the end is not far off. But whether it be this year or next year or the year after, we must be prepared to take advantage of such opportunities as may offer. Canada has made tremendous sacrifices in money and men, giving direct aid to the Mother Country and loyalty to the Empire. The fact that we have taken such a strong position, and that we have done so much to help our allies, and to the extent that those nations can be of service in forwarding large industrial and com-

mercial and agricultural interests, operation. But to not like the idea of depending too much on the goodwill of others. We must endeavor to do the right thing ourselves. It is quite useless, to my mind, to imagine that because of the animosities arising from the war, that the Germans and Austrians are to be shut out from all civilized countries and that our relations in their own countries and with each other.

"Those feelings of animosity are rapidly dissipating and look after a commercial advantage in forgetting that either as a very important influence in determining the policy we are going to make. We must try to frame our own policy and we must try to carry it out vigorously, receiving, of course, such advantages as may properly come to us. But our own capacity for business, our own organization, our own energy are the factors that will determine what is exactly the amount of progress we are going to make.

"At the bottom of everything is immigration. We must have more people, not only on the prairies where there is grain, but here in British Columbia, where almost everything can be grown, where there is such room for the development of our fisheries and timber and mines, where the fruit industry can be made one of such vast importance. The question is, where are we going to get these people? Possibly the patriotic desire to see that the returned soldier is cared for may induce the country and others to place soldiers on the land, but I do not know that the soldiers may care to go on the land, at least for some time after they return from their experiences on the battlefield.

"To the extent, however, that they can be induced to take up land to provide homes for themselves and families, they should be given the cheerful co-operation of every interested party. Lord Shaughnessy issued a warning against allowing undesirable immigrants to the country after the war, as had been done on former occasions, and suggested that such an organization as the board of trade, an organization of business men, would be the right people to see to it. To the extent, however, that they can be induced to take up land to provide homes for themselves and families, they should be given the cheerful co-operation of every interested party.

"About the future we have no doubt whatever. If we continue as we are, conserving our resources, avoiding the needless expenditure until we can afford it better, if we conclude that our success is going to be dependent entirely on our own efforts and that any assistance from other causes must be considered extraneous and not essential, if we make up our minds that we are going to be able to do it, we have not a doubt that our ability to do things there is no question, there will be no doubt as to the position of Canada in the future. I have not a doubt that there are in this room many young men who will see this country with a population trebled at least, and even larger figures might not be far off. A hearty vote of thanks was accorded to Lord Shaughnessy on the motion of Mayor Pemberton, seconded by Sir Charles Hibbert Tupper.

THE SITUATION

The eastern front of war continues to hold to-day the interest of all students of the war, the Roumanian invasion of Bulgaria probably attracting most attention. Such a move as this one is properly interpreted as indicating not only a source of danger to Von Mackensen's food supplies, but also the confidence felt by the Entente forces, and the abundance of their men and munitions.

Against the Bulgars, the Serbians also continue to make gains, while in Transylvania the battle continues fiercely, the Austrians claiming reverses for the Russian forces, to which only a certain amount of credence may be attached.

Aroused at last to the ever tightening noose being drawn about them, the Germans are at last commencing to broach the subject of peace terms, according to information received this morning over The Courier's leased wire. They offer tentatively the evacuation of Serbia and Belgium, with payment of an indemnity for damages done the latter country, and the restoration of Lorraine to France. If this information be authoritative, assuredly, the enemy is commencing to come down; the fact remains nevertheless that he has a goodly descent yet before him, if he would offer peace terms which the Allies would consider. The detaining rests with them, and them alone.

TARIFF AFTER THE WAR

It is pretty generally recognized, even in Free Trade England, that after the war the countries of the world will be ensconced still behind tariff walls.

The London Chamber of Commerce, at a recent meeting, suggested that the classification should be:

1. Allies of the British Empire.
  2. Friendly neutrals.
  3. Unfriendly neutrals and enemy countries.
- All parts of the British Empire and its Allies would pay the minimum duties. Friendly neutrals, which allow the United Kingdom the most favored treatment, would pay twice as much. Other neutrals, giving preferences to other Powers and including neutrals which might be swung into the Teutonic commercial system, would pay a still greater surtax; and all "enemy" countries would pay the maximum duties, running up as high as 30 per cent. Roughly, it is estimated in the report that this change from free trade to protection would net a yearly revenue of about \$275,000,000.

Every precaution is urged in the report to assuage neutral nations to prevent them from making commercial alliances with enemy countries after the war to the detriment of the British Empire and the Allies. The difficulties are spoken of as follows: "It must also be remembered that our Allies have tariff arrangements still in force with other foreign countries which it is assumed must be abrogated before any preferential trade arrangements can be made with the British Empire as a whole. In addition, the United Kingdom has 'most favored nation' clauses with certain foreign countries, including the United States. These, it is assumed, would have to be terminated, with or without compensatory advantages."

In addition to the discriminatory tariffs, subjects of countries now at war with Great Britain would not be allowed to live, or trade in England, except under license.

The whole thing looks like a very large order, but that something of the kind will eventually does not admit of very much question.

As the Courier has before pointed out the United States is one of the countries which is bound to suffer under the revised order of things. Most of our neighbors have been tickled to death over the fact that their country has been kept out of the war, while able to enjoy the exceptional prosperity which said war has brought them. However, thinking men across the border fully realize that Uncle Sam will be hard hit when preferential trade arrangements go into force between the na-

tions who have freely poured out their men and their treasure on behalf of human liberty. And by the same token Uncle Sam will have no legitimate reason to sneer when he finds himself in the cold.

As far as Canada is concerned, she stands to benefit immensely. After hostilities are closed she will receive an influx of British settlers, British capital and British, Russian and French trade preferences which will make for very great prosperity indeed.

NOTES AND COMMENTS.

It is said that there are six hundred and seventy-two volcanoes in the world, of which two hundred and seventy are active. Then of course, there is that Toronto Alderman who talks five hours at a session.

A recent census has shown that there are many women sailors among the Finns and Norwegians. No doubt they are Dabsters when it comes to getting a vessel in stays.

Magnificent day of course—Brantford Fair. In the old days when Brantford held the Southern ditto, the elements as soon as they caught sight of the posters, used to pass the word around for a deluge on the dates named.

Great Britain, after developing an uncanny armored car as a little surprise for the Huns on land, has now evolved a British war plane which will fly two and three quarter miles per minute. John Bull can always match and then beat the best when he gets his coat off.

The Teutons have been expecting to do big things on the Balkan front, but the Allies are doing some balking on their own account.

It is announced that the allotment of the Dominion war loan will give the preference to the subscribers for the smaller amounts. That's the idea; let the big fellows be kept in reserve.

See to it that you do your share in the Y. M. C. A. membership campaign.

New York Sun:—"There is an aspect of the Franco-British offensive that one hears nothing about, and that is the complete harmony of the armies of the Allies in their field operations. Never before in history, we believe, have two nations fought side by side in a great war without friction, confusion, cross-purposes and heart-burnings. There have been mistakes and badly timed movements in the great campaign in France, but nothing was said about them except by the critics at the rear, who were more concerned about claiming credit for France or for England, as the case might be, than in doing justice to the commanders and to the spirit of their men. Have men of one race ever gone into battle with more singleness of purpose and high courage than the soldiers of France and of the British Empire? It has been an inspiring spectacle, and surely the world would never have beheld it if the traditional enemies did not believe their cause was just and that the consequence of failure would be disaster irreparable.

Several automobilists who left their cars standing in front of Sydenham St. church last evening while attending the festivities there, were greatly annoyed on coming out to find that their cars had been tampered with. One brand new car required the services of the garage before being able to start. It is understood that this is not the first

time cars have been misused on the hill, and it is just possible that prosecutions will follow. The miscreants' names are known, and an example ought to be made of such indiscretion.

Mayor Addresses Another Letter to L. E. & N. Railway.

The following letter has been sent by His Worship Mayor Bowly to the L. E. & N. Railway:  
Brantford, Oct. 5, 1916.  
Martin L. Todd, Esq., General Manager, The Lake Erie and Northern Railway Co., Galt, Ontario.

Dear Sir:—I am in receipt of your letter of the 30th ulto., referring to the railway's attitude in reference to the city by-laws and the Railway Clauses, Consolidation Act. You are right in your presumption of this move, to the railways and not to the Corporation of the City of Brantford. Hence my letter to you of the 25th ulto., in reference to the protection of a dangerous crossing on the Holmesdale, recommending your consideration, Thomas Slattery, and asking in such letter that your railway would take action in the appointment of this man as its present mayor, that is myself, by the Board of Directors, and that the accidental circumstances of life, happens to be a lawyer, and therefore could not be excused for ignorance of the respective liabilities of your corporation and the city council. I do not believe in the statement that you choose to make that my notice relieves your company from all responsibility, when an accident is caused by not giving warning. In fact, I am perfectly aware, that the city corporation has no responsibility in the premises whatsoever. Your company must protect your trains by such devices as you may see fit to make, and the imagination that the Corporation of the City of Brantford is responsible for any accident that you may cause, is an absurdity. Having the kindest feelings towards your railway and to all the railways coming into the City of Brantford, I make this statement, that you may govern yourself accordingly. I have the honor to remain, Yours very truly,  
J. W. BOWLBY, Mayor.

**FRENCH FLAG.**  
At noon to-day the French flag floated over the Y. M. C. A. building, in significance of the fact that the team represented by that banner was leading in the membership campaign. The team is captained by Dr. C. A. Jarvis, and belongs to Division Two of the canvassers. The race is very close throughout, and the results achieved of the most satisfactory nature, both with regard to memberships and financial subscriptions.

**CHOIR BANQUET.**  
The official board of the Calborne Street Church, with their wives, entertained the members of the choir and their friends last evening to a most elaborate banquet in the lecture room of the church. About one hundred and fifty partook of the sumptuous menu supplied by the ladies which was appreciated by all. The usual Toast List interspersed with music was in charge of Rev. Dr. Linscott, Chairman of the music committee. Musical numbers were given by Mrs. Leeming, Miss Mildred Sanderson, Miss Gladys Garvin, and Mr. G. N. Crooker, and a reading by Miss N. Berry. A very pleasant evening was brought to a close by all joining in singing "Blest be the tie that binds."

Miss Edna Quillie has returned to Newburgh, N.Y.

A party consisting of His Honor Judge Hardy, Sheriff J. W. Westbrook, Mr. and Mrs. Turnell, Mrs. (Rev.) Strong, Mrs. J. V. Brown and Miss Brown, motored to Oshkosh this morning in order to attend the presentation of colors to the 114th battalion there.

Golf Club House Narrow Escape

About twenty minutes to eleven this morning the firemen received a call for assistance from the links of the Brantford Golf Club. The new truck and five men were dispatched, and upon their arrival found a frame structure, used for storage purposes, literally a mass of flames. As there was no large supply of water available, no attempt was made to save the building, but the chemicals were sparingly used to keep it from spreading, and by the strenuous efforts of the men, the club house, the driving shed and a hay stack were saved. The task, however, was rendered exceedingly difficult as the blazing building was joined to the club house by fences and other buildings, and as it was, the frame kitchen in the rear, did become ignited two or three times.

Had the arrival of the truck been delayed the building would undoubtedly have been lost, but the run was made in between two and a half and three minutes.

The Brantford club are playing out of the city to-day and being short one player, phoned the caretaker, who was at the time engaged in burning a pile of brush, to secure one in his place. On his return from answering the phone, he found the storehouse in flames, and immediately got into communication with the fire station.

NEWS FROM SIMCOE

Milk There to Be Analyzed; Meeting for Red Cross Purposes.

(From our own correspondent.) Simcoe, Oct. 4.—The Board of Health bought pint bottles of milk from all local vendors yesterday and sent the collection to Toronto for analysis.

At a mass meeting held last evening to discuss the British Red Cross appeal, a strong committee was named as collectors. These will meet on Thursday evening to appoint canvassers. The subscriptions raised will support a grant by council as follows: £100.00.

A resolution was passed requesting the council to make this year's grant \$6,000 instead of \$1,000 as of last year. The Daughters of the Empire are struggling with the problem of some form of entertainment for the boys of the 133rd. While home on last leave, it is recognized that the men will be scattered throughout the country on arrival, and that they will wish to spend most of their time at their several homes. Some of them arrived last evening and they will drift in, some on every train and car, for Toronto, Fenelon Falls and other points. On their return from their honeymoon, they will reside in Brantford.

## More Nurses are Decided Upon For the Hospital

Many Matters Taken Up by Governors at Their Meeting  
Public Ward Charges to Remain the Same Although Other Places Are Raising the Figure.

The regular meeting of the Hospital Governors took place yesterday afternoon. Present, Messrs. C. H. Wateris (President) Mayor Bowley, K. Bunnell, Dr. Secord, H. Syme, R. Sanderson, Geo. Watt, D. McDeville.

**Additional Nurses.**  
The House committee reported that after consultation with Miss Forde, Supt., and under the power to act conferred by the Board they had decided that four additional nurses were absolutely necessary in order to adequately look after the patients. Also that a graduate nurse at \$50 per month be placed in charge of the new wing. As the Nurses Home is crowded, other accommodation had been provided for said additional nurses in the original building. With the four additional nurses the total number of pupil nurses will be 37. The number of beds for patients is 125.

The report was adopted.

**Matter of Rates.**  
The above committee also submitted the rate schedule for the new wards. They recommended that all public ward rates remain as at present, 70 cents a day. There was some discussion on this point, Hamilton, and other hospitals, in view of the high cost of living, having raised the figure to \$1.00. However it was decided to stick to the old figure for the Brantford institution.

**Superintendent's Report.**  
The manner in which the work is growing was abundantly demonstrated by the report of Miss Forde for September from which the following extracts are taken:

Admissions	156
Discharges	123
Deaths	7
Births	2
Isolation (scarlet fever)	8
Total	296

Number of patients in residence, 87  
Improvements Nearing Completion.  
The many improvements which the Board have had in progress during the Summer months in the Main Hospital, both inside and out, are nearing completion. The old water tank in attic, always a source of anxiety, has been replaced; the antiquated plumbing replaced by modern fixtures; three bathrooms added on second floor, and stationary stands with hot and cold running water in many of the rooms. The lighting is both adequate and attractive. All rooms and halls in three floors have been replastered (where needed), and decorated. Many of the rooms are scarcely recognizable.

**RUSSIANS DEFEATED**  
By Courier Leased Wire.  
Berlin, Oct. 4, via London.—The Russians continued yesterday their heavy assaults on the Austro-German lines. To-day's official announcement reports the defeat of the Russians by the troops of Prince Leopold.

**Room 18.** furnished by the Women's Hospital Aid as a memorial to Mrs. Julius Waterson, magnificent work in the Association, is a very beautiful room, as is also number 18 furnished by the Women's Institute of Brantford.

We had an idea that with four extra private rooms, the congestion

would be relieved, but apparently we are just where we were. Ward 25, in which we placed four beds last winter in case of an over-flow of soldiers, are now part of our regular equipment as a semi-private.

We would like to thank the patients and their friends for the way in which they accepted the noise and confusion necessarily entailed in the doing over of the hospital.

The House Committee and Women's Hospital Aid resumed their regular Monthly Meetings the last Tuesday in the month, when many matters came up for discussion. At the close, the regular meeting of the House Committee took place, a report of visitors for the month from the Women's Hospital Aid, were Mrs. Hurley, Mrs. McPherson and Mrs. Mitchell, who brought an abundance of fruit and magazines for the public ward patients' use.

The Visiting Governors for the month—Mr. Geo. Kippax and Mr. R. Sanderson. The visiting physician, Dr. W. H. Nichol.

**All Paid.**  
Secretary Bunnell reported that the balance due on Schultz Bros contract had been paid off.

**Appointed.**  
On recommendation of Miss Forde, Miss Tink was appointed in charge of the new wing.

After passing of accounts and other routine business, the board adjourned.

**NINETEEN BODIES.**  
By Courier Leased Wire.  
London, Oct. 4.—Official evidence presented at the death of the members of the German crew of the Zepplin which was destroyed near Potters' Bar on the night of October 1, showed that nineteen bodies were recovered. The jury's verdict was that death had been caused by injuries received while travelling in a hostile airship which was brought down by the anti-aircraft organization.

### OUTLOOK IS SATISFACTORY

Further Progress Made by Franco-British on Somme Front—Further Progress in the East.

By Courier Leased Wire.  
London, Oct. 4.—The French on the Somme front are continuing their thrust northward on the Peronne-Bapaume road, and have captured a strong line of German defences between Morval and the St. Pierre Vaast wood, Paris announces to-day.

The British, after stubborn fighting, have managed to expel the Germans from the town of Baucourt L'Abbaye, near the Pozieres-Bapaume road, where their drive towards Bapaume is now within 3 1/2 miles of its objective. London to-day reports Baucourt L'Abbaye entirely in British possession.

Mystery still surrounds the numbers and movements of the Roumanian forces which have crossed the Danube into Bulgaria, near Rahovo, in an evident effort to outflank the Bulgarian left wing and compel the retreat of Field Marshal Von Mackensen from the line south of the Constantza-Tchernavoda railroad. So far, in its current announcement, mentions these forces as comprising "considerable units," but records no contact between them and their Bulgarian foe.

Berlin's assertion that the pontoon bridge on which the Roumanians crossed, was destroyed, is supplemented by Sofia's statement that the bridge was put out of commission at the Dobrudja side, by Austro-Roumanian forces. "What dispositions the Roumanians are making to keep up the communications of this force are not known. Bucharest has not alluded to the movement in its official statements.

On their part, the Bulgarians apparently are either engaged in frustrating another Roumanian movement to cross the Danube, or are attempting an operation of this sort on their own account. They report the occupation by their troops of the

# Life in and Around the Bramshott Camp

## Another Interesting Letter from Corporal Cutmore.

(By Corp. V. Cutmore)

There's not a great deal to relate of life here in Camp, only it's quite a joke to see some of the boys, and how they appreciate the English discipline. No dirty buttons or shoes, clean shaven and smart appearance, and proper saluting at all times. I did tell you, didn't I, how we put the day in, and our hours of drilling, and once or sometimes twice a week, we got out after supper, doing our post duty, that is, the sentry, the remaining part take up a position and form up in proper formation, viz: the main body in rear, then the supports, then the pickets, then a sentry group, which in turn send out sentries. Thus, we're all spread around and get in touch with one another. After we're all set the supposed enemy tries to get through our lines, and believe me its interesting work. The country is just adapted for such work, so hilly and fairly covered with bush and great ferns. Your old chum, Bert O'Hara, was on the opposing side last week and was one of the first to be caught, but I think he made a greater noise than he need have done, just to attract our attention to him, and thus enable some of his other fellows to get by us. I was stationed with the pickets that night, but its really surprising how interesting it is. We grumble when we know we have to turn out, and yet you never saw a happier bunch when we are out, in fact any time of course you'd smile if you could hear some of our little ditties, such as:

"When this awful war is over  
Oh how happy I shall be,  
When I got my evening clothes  
on  
No more soldiering for me.  
It's the harmony and number of  
voices that counts, though Gee we're  
an awful bunch. We had a field day  
last week: first of the kind we've had,  
had to walk to some fine private park  
that a big bug has given for our use  
on such occasions. Took the field  
kitchen, had a little drill till noon,  
then a hot dinner, and after that we  
certainly had a good line of sports;  
all kinds of racing 3-legged, wheel-  
barrow, and many others, football.

## WOMEN'S INSTITUTE

The October meeting of the Calneville Women's Institute was held last Tuesday afternoon, September 26th at the home of the president Mrs. Rose. It being a beautiful Autumn day there was a good attendance of forty being present. The vice-president Mrs. H. The meeting was opened by singing a verse of "Help Somebody Today" in unison. The roll call was answered by each having their dues for Red Cross purposes and the Aunty-balance Fund, a very encouraging amount was received.

Two papers were read, Mrs. H.

baseball, and had a real good time. A Co. did very well, although I went in for several races, I did not win anything, but while speaking of A Co. I must admit its not what it was in Brantford, and the reason is some old, that is, our leader is missing. Ah, some men used to say, Major Shultis was strict, but I'll bet anything there's not a man who doesn't miss him in the whole battalion.

May as well be happy while we can, and as I've said before, we're better situated for pleasure than we were at Borden. Villages all around us, and such pretty scenery and walks, and a picture show and stories right in the camp. All kinds of soldier's huts and Y. M. C. A. huts with games and writing material all free; so we have plenty to occupy our minds and spare time.

One thing I'm hoping, is that I keep in good health. This is just a Canadian camp, and all those who are turned down and put together and do a lot of fatigue work all the time. We all call them the Charlie Chaplin bunch or the bone yard. Ha, some bunch to get in, eh?

Well, Gus, I'm afraid the war will last till Xmas 12-month anyway, but I guess England is prepared for it alright, only these darn Zepps cause such damage. I did not see anything of the one they fetched down. Those at home did, and say it was a sight indeed. The whole battalion having had their four days' leave, we started on week-end passes, and I was lucky to get nine the first week. They allow 10 per cent. to go each week, and if all want to go that means ten weeks before I can go again, but it's only from 11 o'clock a.m. Saturday till 9.30 p.m. Sunday.

So living is still going up over here. But be thankful you are where you are. You've got to go some to get like what things here. I'm sure it's a corker how some people manage, yet you never hear any grumbling. Guess you are busy at the post office. There always seems a lot of letter writing going on, and some of them get so down hearted if they don't receive any.

Do please remember me to all friends and I hope they're all well. Many thanks for your kind offers and inquiries, but no, I don't need anything, especially food. I get lots of that. I also get lots of reading matter from home. This is all for the present, I think.

## EVEN CROSS, SICK CHILDREN LOVE SYRUP OF FIGS

Don't scold your fretful peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, has stomach-ache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given to-day saves a sick child to-morrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies and children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.

**THE CASE OF COL. ELKINGTON**  
London Telegraph: The tale of Colonel Elkington's cashiering and reinstatement is one in which the nation may take some pride. We are fighting in the cause of justice—justice to the small nations. The principles we preach we practice. This officer's case passed through the ordeal of courage to receive again, with the approval of his Sovereign, those marks of respect and authority of which he was deprived less than two years ago. There his military record, owing to the honorable wounds received in face of the foe, may, it seems likely, close. But the narrative of his rise and fall and subsequent reinstatement will serve as a beacon of hope to others in like case.

Christian Scientists May Heal Disease Without That Formality.

## DECISION OF NEW YORK COURTS

Albany, N.Y., Oct. 4.—Rights of Christian Scientists to treat persons afflicted with disease without obtaining a license to practice medicine are clearly set forth as a principle of state law in a decision rendered by the court of appeals yesterday.

The ruling is considered the most important and far-reaching victory believers in the Christian Science faith have ever won in this state. The only qualification to unlimited latitude is that Christian Science practitioners in the treatment of bodily ailments must conform to the tenets of the Christian Science Church.

The decision even goes so far as to say that the provision of the state law which was interpreted as legalizing the almost unrestricted treatment by Christian scientists is stronger than the provision of the constitution of this state which permits the free exercise and worship of religious profession and worship without discrimination or preference.

## PRICES RISE IN NEW YORK

Restaurants There Increase the Price of Practically All Food.

By Courier Leased Wire.

New York, Oct. 4.—The rising cost of food, was impressed upon thousands of citizens to-day by the action of the largest daily restaurant here in advancing prices. This corporation, which owns a chain of lunch rooms in New York and other cities added five cents to the prices of all the staple dishes.  
Bacon and eggs and ham and eggs now cost 30 cents instead of 25; a small steak is 30 cents, instead of 25; plain omelette has jumped from 15 cents to 20 cents from 15 cents to 20.  
Eggs are five cents an order higher, no matter how prepared. All pies from now on are ten cents a cent. The wholesale price of sugar advanced from 6-4 cents to seven cents a pound to-day and the retail price from seven to eight cents. The increased demand resulting from the war was given as the reason.

## Phillies Lost Fatal Two

Philadelphia, Oct. 4.—Philadelphia's last chance for the National League pennant this year faded when Boston twice defeated the team yesterday, 6 to 3, and 6 to 1, while Brooklyn was winning from New York. Bad fielding was responsible for the home team's defeat in each game.

The teams put up a hard battle in the opening contest until two men were out in the seventh inning. Then A. J. Greig, Philadelphia's pitcher, was hit by Philadelphia leading by two runs to one and Rudolph on second base. A Stock fumbled Fitzpatrick's grounder and Packer also fumbled the ball. Rudolph scoring. Doubles by Konetzky and Magee, and a wild throw by Byrne followed, and Boston got five runs for the inning. Rudolph held Philadelphia safe in the closing inning.

In the second game, errors cost both of the runs made off Mayer, while Bender was hit hard in the 8th inning when the visitors piled up four runs and clinched the victory. The scores:

## M'Graw is Very Much Peeved

His Men Did Not Play According to Orders, He Declares.

New York, Oct. 4.—"I am not accusing anyone of anything wrong," but I will not stand for that sort of ball playing," declared John J. McGraw, manager of the New York Giants, yesterday afternoon, explaining his action in retiring from the field during the game with the Brooklyn club at Ebbets Field in Flatbush.

It was a game which sporting writers generally describe as a "farical exhibition" and was won by the Brooklyn club. The score was 9 to 6. As the Philadelphia club lost two games to the Boston Braves in Philadelphia yesterday, the Brooklyn victory gives the National League pennant to the Flatbush crew, and it will meet the Boston Red Sox in the world's series.

After getting away to a three-run lead in the first inning, the Giants played poorly and listlessly, if not indifferently.  
McGraw watched the proceedings for a time, then at the close of the fifth inning he arose from the bench of the Giants, assigned command of the club to Charley Herzog, the fielding captain, and marched off the field. He was bristling with indignation.

After the game he met the New York baseball writers and gave out the statement which has caused a terrific sensation in the world of sport.

McGraw Lost His Patience. "I do not believe that any of my players deliberately favored Brooklyn, but they did not play my kind of baseball," said McGraw. "They did not obey my orders. When Pettit took a wind-up with a man on first, permitting the runner to steal second, I lost my patience, and quit the bench. I'm through with baseball for the year. I have worked too hard this summer to tolerate that sort of thing."

Wilbert Robinson, manager of the Brooklyn Club, scoffed at the idea.

ALL IN READINESS FOR BIG SERIES

Red Sox Get First Two First Home Games—Officials Named.

PLAYERS ELIGIBLE.

New York, Oct. 4.—The first game of the world's series, between the Boston Red Sox and Brooklyn Nationals, will be played on the National League field at Boston on next Saturday, October 7, according to arrangements completed here yesterday afternoon by the National Baseball Commission.

The teams will rest in Boston on Sunday, and the second game will be played in that city on Monday, Oct. 9. The scene will then switch to Brooklyn, where games will be played on October 10 and 11. If more games are necessary to a decision the fifth will be played at Boston on October 12, and the sixth at Brooklyn on October 13. Should a seventh game be required, the field will be decided on by tossing a coin. Rain will not affect this schedule.

The meeting of the National Commission was attended by President B. B. Johnson, of the American League; President John K. Tener, of the National League; Garry Herrmann, secretary of the board; J. J. Lannin, president of the Boston-American League Club; C. H. Ebbets, of the Philadelphia-Nationals. At the time the meeting convened the result of the National League pennant race was still uncertain, and arrangements to cover a possible victory by the Philadelphia club were also made. These, of course, go into the discard.

First Game to Boston Instead of tossing a coin, as in former years, to decide where the first game of the series shall be played, the commission accepted the proposal of President Lannin, the opening be held in Boston, owing to the great seating capacity of the National field, which the American National League has obtained for the series. It was also pointed out that the several days will be required for the Brooklyn management to erect overflow stands, and that playing the first two games at Boston would be to the benefit of the Brooklyn club.

A proposal by Mr. Baker of the Philadelphia club, that the series begin on Monday next, instead of Saturday, was voted down, as was the suggestion that Friday be made the day of the start. The first, unnecessary delay, would cause the second week of the National League contender to leave the time to rest after the gruelling grind of the pennant race, and proposal to play in the American and National League, although the committee decided that if more than four games were required for a decision the fifth and sixth should be played, one in each city.

Umpires Selected The commission adjourned without making public the names of the umpires who will officiate in the series, but it is believed that the list, however, after it had been made certain that Brooklyn was the pennant winner, it was announced that William Dineen and Thomas Connolly would represent the American League and Hank O'Day and Quigley the National.

The Commission will meet in Boston on Friday, Oct. 6, to arrange final details. Before adjourning the officials gave out a list of players eligible to compete in the series, set a scale of prices for seats and appointed G. C. Taylor Spink, of St. Louis as official scorer. The Boston and Brooklyn chapters of the Baseball Writers Association were authorized to each select a member to act as assistant scorer in his home city.

Players Eligible The following players were declared eligible to play in the series:—Boston Americans—W. F. Carrigan, manager, Agnew, Barry, Cady, impossible for the New York club to have deliberately lost the game with Brooklyn yesterday, but said that McGraw was thorough yarioused by the indifference of his men. Most of those who heard McGraw's anger, say that he did not accuse his players of dishonesty, but of disregarding his signals, and that he would not stand for that kind of baseball.

JOCKEY LAWRENCE INKE. Most promising apprentice rider developed on the Canadian race tracks this year, and one of the best lightweights in recent years.

Mara, Pfeffer, Rucker, Smith, Stengel and Wheat. The admission prices follow:—At Braves' Field, Boston:—Box seats, \$5; grand stand, reserved, \$5; first base pavilion, reserved, \$2; 3rd base pavilion, \$1; bleachers 50c. At Ebbets Field, Brooklyn:—Box seats, \$5; grand stand, upper and lower sections, \$5 and \$4, according to location; pavilion, \$2; bleachers \$1.

Pennant Won, Red Sox Rest

Dropped Two Final Games of the Season to the Lowly Athletics.

THE AMERICAN LEAGUE SCORES.

Boston, Oct. 4.—The Red Sox closed the season with a double defeat by Philadelphia yesterday, 5 to 3 and 7 to 5. Supposedly tuning up for the world's series, Red Sox pitchers were hit hard by the Athletics. Foster, who had not pitched previously for weeks, was hit exceptionally hard, seven hits for sixteen bases being counted against him in four innings. Ruth was almost similarly treated, and Mays lacked his usual effectiveness, but Manager Carrigan took the edge of any disappointment. Boston supporters might have felt by the statement: "The boys are going to take it easy now. We've just finished a hard campaign and we're almost into another."

Carrigan switched his players frequently. The scores: First game—R.H.E. Philadelphia . . . 001021001—5 12 0 Boston . . . 000101100—3 8 9 Batteries—Parnham, Lindstrom and Schang; Mays, Foster and Thomas, Agnew. Second game—R.H.E. Philadelphia . . . 010300012—7 15 3 Boston . . . 000011030—5 11 3 Batteries—Myers, Nabors and Pleinich; Ruth, Wyckoff and Thomas, Agnew. At New York—New York and Washington staged a baseball burlesque here yesterday, which ended in a 9-3 eleven-inning tie. The scores: R.H.E. Wash'n . . . 41002002000—9 13 2 New York . . . 00020300200—9 12 3 Batteries—Gallia, Ayres and Henry; Cullop, Buckles, Love, Marfidge and Walters. Called, darkness.

BROOKLYN IS THE WINNER

Defeated Giants Again While Braves Put Phillies Out of Running.

Brooklyn, Oct. 4.—Brooklyn clinched the National League pennant yesterday by defeating New York 9 to 6. The Brooklyn victory gave the leaders an advantage of 2½ games. They can lose the remaining games and Philadelphia can win the two it has yet to play without changing the position of Brooklyn. The game was a heavy hitting contest. Poor fielding by Pitcher Sherrod Smith at the start gave New York a three-run lead. Brooklyn came back in the third and bunched five hits off Benton and Perritt for four runs. Profier relieved Smith in the fourth, and although New York tied the score in the fifth, he held his hitters in check while Brooklyn batters were pounding Perritt and Geo. Smith.

The batting and fielding of Mowrey were features of the victory of the pennant winners. Robertson led in batting for New York with four hits in as many times at bat. The score: R.H.E. New York . . . 301010001—6 11 2 Brooklyn . . . 014011111—9 13 4 Batteries—Perritt, G. Smith and Rariden; S. Smith, Pfeffer and Miller.

Annual Harvest Home Supper

The annual Harvest Home Supper and entertainment, held under the auspices of the Ladies' Aid of Sydenham Street Methodist church last evening and was a splendid success. It is not saying too much to intimate that both the supper and the program have never been surpassed in the long list of these events given by Sydenham St. Ladies. The service and arrangements were excellent and everything went off on schedule time. When Mr. J. W. Westbrook, took the chair he was greeted with a full house, and the genial sheriff made an ideal chairman. The program while lengthy was a capital one. Readings were given by Mrs. Ed. A. Isaac, Miss Evelyn Hazlewood and Miss Ursula Willis, and each of these young ladies excelled themselves. A charming duet was given by the little Misses Ariel Savage and Marjorie Hammond, Solos by Messrs. W. Byers, Pickering and Burrill, and several really fine selections by the First Baptist male quartette. Piano selections were artistically given by Miss Arnold and Mrs. J. Laing. The accompanists were Mrs. Savage, Miss Arnold and Mr. J. T. Schofield and their work was greatly appreciated. Addresses were given by Rev. W. E. Baker, Rev. Dr. Henderson and Rev. Mr. Smythe. Rev. Mr. Seifley was also a guest of the evening. The whole affair was excellently managed and much credit is due all connected with its management.

While There's Life There's Hope

# SISTERS THREE

(From Tuesday's Daily)

Last week they had sold some fine limbs, which had taken top price in the market. Two calves were to be sold to-day. It rather hurt Gipsy to feel that these charming incoherent young things were doomed to be bought by the butcher—at least, this was the probability of the case; but she was learning to steel herself to the inevitable in matters of this kind. Farming existed for the purpose of supplying the community with food. If the young things which gambolled and frisked in the meadows had only a short life to enjoy, it was certainly a merry one, and, for the rest, the wants of the nation must be supplied.

So she was vastly proud of such "stock" as they possessed, and they sold away fat lambs from their stretch of downland they bought in small and thin ones which would soon repay the care of Pennyquick and prove to be a profitable investment. Gipsy was quite eager to make their farming pay, and already her poultry account showed a pleasant balance on the credit side. Egg-selling had no draw backs, and on market-days eggs were easily disposed of. So Gipsy had begun to look forward to this weekly jaunt and to feel quite a nice little excitement as to the result of the sale of their surplus home produce.

When they had little to sell she had hidden the old mare into the town, but if she was wanted for the cart, then the girl had walked. To-day, however she intended to ride the Viking, which had taken kindly to the sidesaddle, and was now not quite a stranger either to streets or motor-cars. These last were numerous out in this far West Country, and agricultural engines scarcely amounted to a danger. All the same, Gipsy felt a thrill of pleasurable excitement in the prospect of riding Viking into the market, and was not entirely sure that she might not have trouble with him. But the girl rather enjoyed the excitement of a battle when she was sure of ultimate victory; and, without being eager after display or vain of her really fine horsemanship, she was pre-eminently aware that she looked her best when battling with a spirited steed and that she was certain in the end to triumph.

The little town of Rockho was pleasantly situated about four miles inland, and was intersected by the stream which found its way to the sea in the bay which Sunset Crag guarded on its eastern side. The road from Rockhoaven to Rockho was pleasantly shaded by the willows which fringed the side of the stream, and there was a bridle-path through lush meadows that Gipsy generally took, less on account of its being short cut, than because she thus avoided the traffic of the roads.

"After all, perhaps it's a good thing that Audrey likes Mrs. Lebreton and Gaston's Keep. It isn't her fault about things. And she is on our side about the right of way."

might like her myself if only I knew her. Perhaps if Audrey has her to tea some day I would stroll in and see what I think. I don't mind sampling the old lady. I'm not narrow-minded, I hope!"

Three days later it was market-day in Rockho. Gipsy had amused herself more than once by walking or riding into the little town on these weekly occasions, for there was a good deal to interest her in what she saw. Old Pennyquick had sometimes buyings or sellings to manage himself, and, as Gipsy was in nominal charge of the outdoor effects, the stock and the farm and garden implements, she was much interested to watch the old servant at his bargaining, taking vast pride in his shrewd wit and knowing ways, and being always content with the result.

She also avoided by this route, seeing certain posters which adorned the walls by the roadside, and which advertised the presence in Rockho of a travelling menagerie. Strange and flamboyant representations were given of tawny lions, striped tigers, snarling wolves, and elephants of huge bulk. Even had Gipsy seen these posters, it might not have occurred to her that there would be any reason for her to turn back. The market would go on just the same, and the menagerie would be camped out in the meadows beyond, far enough away from the high road or the little township. Horses were wont to feel fear at the scent of wild beasts or at the sounds they made, but Gipsy was by nature fearless, and, as it happened, she had no idea as to the presence of the menagerie.

The show, however, counted for an extra full market, as the wives and families of the farmers had come in to attend the performance of the beasts in the afternoon. Gipsy was aware, as she approached the market square, of an unwonted tumult of sound, and Viking pricked his ears and changed his walk into a sort of dance, but, though excited and all on springs he was not restive or frightened, and as Gipsy approached the square along a little used street, narrow and cool, she only heard a somewhat unwonted tumult of sound and was not in the least aware of what was actually happening.

But just as she turned into the square round a bend a terrific clamor arose—shouts, yells, screams, the stampeding of terrified animals breaking loose from their halters and fleeing helter skelter.

The next instant Gipsy saw the cause, and her face blanched with horror at the sight. A great gray wolf was at large. It had first come slinking along unobserved; then with a bound it had leaped into the square and fastened its fangs in the throat of a dog which was kicking and struggling in its last agony at the moment when Vik-

## Start Tomorrow and Keep It Up Every Morning

Get in the habit of drinking a glass of hot water before breakfast.

We're not here long, so let's make our stay agreeable. Let us live well, eat well, digest well, work well, sleep well, and look well, what a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath. Everyone, whether ailing, sick or well, should each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity, and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of inside bathing before breakfast.

(To be continued)

light—a man in a terrific struggle with a great infuriated beast. Gaston Lebreton had his gloved hands round the throat of the wolf and was grappling the struggling creature with a strength as of a giant.

How had he come there? Later Gipsy understood. There was a gunsmith's shop close by in the square. Young Lebreton had dashed in thither to obtain a loaded weapon while the wolf was tearing out the life of the hapless dog. Before he could load his piece shrieks and cries had brought him leaping out just in time to seize the crouching, snarling, maddened creature before the spring for which Gipsy had felt herself helpless as she sat on her horse, motionless with terror.

Now that she saw this awful struggle all her courage, her power, her presence of mind returned. Also she saw something more than the two struggling creatures. She saw a bent old man coming out of his shop with a loaded gun in his hands.

Instantly she was out of the saddle.

"Hold the horse!" she shouted to a man who was close at the side, flinging the reins into his grasp.

The next instant she was beside the old man.

"Can you shoot?" she asked.

"I'm afeared to try! Mappen I should hit the man and not the brute!"

"Give me the gun!"

A crack and a flash caused another yell and shriek to rise from the throats of a hundred terrified, fascinated spectators; another and a wilder burst of sound followed—cheer, triumph, ringing, exultant, triumphant—for upon the ground lay the quivering carcass of the wolf, and in the centre of a ring of wildly applauding men and sobbing, excited women stood Gipsy, with the bent old man smoking a pipe in her hands, and Gaston, his face still grim and white from the awful tension through which he had passed.

It was the girl who spoke first, with a little gasp.

"Let us get out of this! Take the gun!"

She was trembling now; she did not know why, for she was so frightened, only everything was so strange, the place seemed whirling round her and there was such a noise.

ing came prancing around the corner full into view.

There had been a rush to the opposite direction from man and beast alike. As Gipsy appeared voices shrieked to her to fly—to run—to get out of the way; but Viking stood rooted, frozen with that deathly fear which will catch hold of horses when in deadly peril and hold them rigid and motionless before fire or some like horror.

Gipsy closed her eyes; the whole world seemed to reel about her; she tried to pray; she felt that for all her life she had been waiting for the awful feeling of the great brute's fangs in her throat.

Then a perfect tornado of shouts, yells cries, and cheers broke upon her ears and she opened her eyes once more.

London, Oct. 4.—A new national cabinet for Greece under the present premier, M. Kalogropoulos, is the plan of the king and political leaders, according to advices from Athens to-day. The present cabinet is declared to be practically out of office. The resignation of each member is before King Constantine, with the exception of the Premier and Foreign Minister.

Victory for the Venizelists is now believed to be only a matter of days, and the result of such a victory would almost certainly be a new number of followers of the former premier are to be offered portfolios in the new Ministry.

Meanwhile M. Venizelos is preparing to leave Crete for Mytilene, where he will establish the capital of the revolutionary government. Admiral Coundouriotis, co-ruler with Venizelos of the new government, will establish headquarters at Salonica.

DR. JOHNSON AND ZEPPELINS  
London Chronicle: A pretty problem for members of a literary society might be propounded in the question, "What Did Dr. Johnson Think of Zepplins?" And the reply might be furnished from a passage in "Rasselas," in which the Doctor wrote, in 1759: "I should with great alacrity teach them to fly. But what would be the security of the good if the bad could at pleasure invade them from the sky? Against an army sailing through the clouds, neither walls, mountains, nor seas would afford security. A flight of northern savages might hover in the wind and light with irresistible violence upon the capital of a fruitful region."

## DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If Your Back Is Aching or Bladder Bothers, Drink Lots of Water and Eat Less Meat.

When your kidneys hurt and your back feels sore don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 gallons of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acids of grapes and lemon juice, combined with lithia and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

## The Bell Telephone Co. of Canada

Telephone Courtesies is Growing in Favor.

Newspapers and periodicals, which reflect so well the trend of public opinion, are continually urging the practice of telephone courtesies. Progressive merchants are studying its relation to their sales. Employers are being trained to treat telephone callers with the same degree of courtesy and consideration that obtains in a face-to-face conversation. And the result for those who practice telephone courtesies faithfully is a constantly growing volume of telephone trade and good will.

The encouragement you give to your employees in developing pleasing telephone manners will bear fruit in the promotion of good-will amongst your customers.

### HUNS CONCEDE SUPERIORITY

Of British Forces—Morale of German Army Weak, and Ammunition Wasted

By Courier Leased Wire. London, Oct. 4.—(New York World cable)—A despatch to the Daily Mail from the Somme front says:

The following order, signed by a German colonel, has been found: "The demand for our artillery

barrage fire and the nervous firing of our rifles, before an unseen bomber throws a few hand grenades, reveals a state of great excitement. We waste an enormous quantity of ammunition, and when we want it, it is gone. Secondly we damage ourselves in the eyes of the enemy. "I have the impression that a few Englishmen throwing grenades from their trenches, can thoroughly frighten a crowd of Bavarians. This is why we always silently acknowledge the superiority of the enemy without reason. This fright on the Somme front must be dispelled, and calm must take its place."

### MAID OF THE MIST WAS DISABLED

Niagara Falls, N. Y., Oct. 4.—The "Maid of the Mist" broke its propeller shaft when the little craft was within a few yards of the very foot of the Horseshoe Fall on the steamer's last trip of the day, shortly after 5 o'clock yesterday afternoon. Twenty-six passengers were taken off in life boats and landed on the lower bank of Goat Island. A majority of the crew of seven, with Captain Richard F. Carter, remained on the boat throughout the night. The little steamer is in no danger. It is anchored about 200 feet from the shore of Goat Island off Tindale Rock, where it will likely remain till a new shaft is put in.

### NEW PRINCIPAL OF NIGHT SCHOOL

Mr. Gee, of Collegiate Technical Staff Receives that Appointment.

A joint meeting of the commercial and industrial committees of the Board of Education was held Monday evening to complete arrangements for the opening of the evening schools on the 11th inst. There were present of the industrial committee Messrs. Lahey, Armstrong, Adams, Brandon, Harris, Powell; of the commercial committee, Messrs. Shepherson, Lane and Stedman. Mr. Gee, principal, and Mr. Burt were also present.

Dr. Pandeno, the provincial organizer and inspector of agricultural classes in the schools of the province, who was visiting this neighborhood, was given an opportunity to present the claims of this work could be introduced without cost to the locality, and that it formed a most useful and attractive part of the science work of the schools. Moreover, it presented to those whose tastes led them to incline that way, an inducement to select some form of agricultural work as their calling and thus helped to correct a too academic trend in our educational system. Various members of the committee expressed hearty concurrence with the views he presented, and gratification at the fact that they had an opportunity to hear him.

It was decided, on a motion by Mr. Clement, seconded by Mr. Armstrong, that Mr. Gee should be appointed principal of the industrial evening classes at a salary of \$4.00 per night.

The question of charging a fee, to defray the cost of the classes, was referred to the commercial industrial committee, and that the members of the committee agreed that, according to the rule adopted by the industrial committee, no class should be formed with a minimum of less than 10 pupils at a time for each teacher engaged, and that that minimum fell to 5.

A draft of the proposed syllabus, which is to be issued shortly in the form of a prospectus, was read by Mr. Gee and Mr. Shultis, and adopted. The question of the engagement of teachers for the evening industrial classes was left to the sub-committee of Messrs. Lahey, Adams and Gee. For the commercial classes, it was proposed by Mr. Shultis that he himself should teach book-keeping and commercial arithmetic. Miss Shultis, typewriting, Miss Dickson, senior stenography and Miss Buskard junior stenography. He was instructed to write to the Department of Education to find whether they would sanction this arrangement.

Advertising, in the form of brief notes in the newspaper, calling attention to the classes was authorized. Mr. Lahey requested that as many members of the committees as possible should be at the school on the nights set apart for the registration of pupils, 11th, 12th and 13th inst.

Mr. Powell reintroduced the question of providing a building for vocational work, urging that the time is opportune, since a National Trade and Commerce Convention is shortly to be held at Ottawa, and that industrial education will form an important matter for consideration, and the decisions reached which may include recommendations for Government assistance, will be based upon the reports required from the various sections of the Dominion.
