ANNOUNCEMENT

Changes Which are in Progress in Connection With the Courier—An Editor Selected For Social Department.

In connection with the fact that this paper has passed into the hands of "The Brantford Courier, Limited" with a strong list of stockholders, and Board of Directors, and also greatly increased capital, it is the intention to make many improvements.

The paper will be enlarged as to number of pages, the all-round machinery facilities greatly increased, the editorial and reportorial staffs and other departments more heavily manned, and so on.

The leased wire service will of course be maintained and other special features be introduced.

All that is proposed cannot of course be accomplished with care and efficiency in a few days, but matters are progressing as rapidly as possible and it will be for the public to judge the outcome.

Meanwhile the indulgence of a little time is asked, and will, no doubt be readily given.

The board are pleased to announce that Miss Nellie VanNorman has accepted a position on the permanent staff. She will have a separate office on the editorial floor, at which she will be in daily attendance for those having matters of concern in connection with her department—society and personal items, the reporting of theatrical shows, concerts and so on.

Miss VanNorman has done much of this class of work in spare time, in other years, and is thoroughly capable. The fact that she is to hold such a post, will be generally pleasing, and especially so to the fair sex.

All letters or phones with regard to her branch of staff, should in future be addressed to "Society" editor.

Those sending such are asked to sign their names, not for publication, but as an evidence of good faith.

The editorial floor and the rooms thereon will be rearranged, and made more convenient, alike for members of the staff and those of the public having business with them, and other internal improvements will be inaugurated immediately.

The Board of Directors hope to shortly make some other important announcements, and they ask for the hearty co-operation of the residents of the city and of the county.

THE TURKS

Make an Important Advance Towards Meeting the Demands of the Allies—The Latest News From Peace Conference.

(Courier Leased Wire)
LONDON, Jan. 6.—An important advance has been made by the Turks toward meeting the demands of the Balkan allies, according to the opinion expressed by the representatives of Bulgaria in regard to the new Ottoman proposals as to the future frontier between Bulgaria and Turkey. The Ottoman delegates are expected to present a definite project during today's sitting of the peace conference, suggesting that the western frontier of Turkey should follow the course of the rivers Maritsa and Tundje, the Turks to retain the fortress of Adrianople, but to abandon Kirk-Kiliseh.

The allies declare that if this proposal is put forward, they will consider it as affording sufficient reason for the withdrawal of their threats to break off negotiations, and will continue the discussions in London in the hope of obtaining further concessions from Turkey. At the same time they anticipate the early capitulation of the beleaguered garrison of Adrianople, and this is calculated to alter radically the Ottoman point of view. The convert of Dr. S. Danef, the Bulgarian peace delegation, and M. Jonescu, the Romanian minister of the interior, have assumed a rather serious character. The Roumanian statesman insists that Roumania must receive immediate satisfaction by the grant of compensation, which was promised in return for her neutrality during the war. Otherwise, he says, it will be impossible to control the feeling of the Roumanian people, who demand from the Government prompt and adequate action.

Dr. S. Danef, in reply, repeated the vague promises already made to the Roumanian Government during his sojourn at Bucharest before he came to London, but M. Jonescu insisted on an explicit answer and Dr. Danef thereupon telegraphed to the Bulgarian Government at Sofia for definite instructions on the subject. The Turkish delegates are very indignant over the attitude of the European powers toward the Ottoman Empire. They remark that when the Turks are defeated nothing is done to moderate their enemies' pretensions, but when the Turks are victorious, they are also prevented by the powers from reaping the fruits of their efforts. They cite the war of 1907 in which Greece was utterly defeated by Turkey at Domakos and the Greek army was compelled to withdraw on Thermopylae and to conclude an armistice. Five days later, however, a collective note was sent by the European powers to the Porte in which the conditions of peace were practically drafted and the annexation of Thessaly was prevented, although it had been occupied by the Turkish troops. The payment of Greece of a war indemnity was also stopped by the powers. Thus Turkey gained nothing by her victories in that war, but now that Turkey has been defeated by the allied forces of Bulgaria, Greece, Montenegro and Serbia, the allies are supported by the powers in their demands for that which they have not even conquered.

ANOTHER BOON

Is Secured For the City of Brantford by Mr. Cockshutt M. P.—Will be of Special Interest to Old Country Residents Here.

Another improvement is announced in connection with the Brantford Post Office, and it will prove of especial interest and gratification to many Old Country people now residing in this community.

Some time ago it was pointed out at a Board of Trade meeting, that British mails for Brantford were held over at Hamilton, to be re-sorted for this city, thus causing a delay in delivery here for some hours. Nothing came of the request then for a change. After Mr. W. F. Cockshutt, M. P., went back to Ottawa he at once took the matter up and as the outcome Mr. W. G. Raymond has received the following letter:

Ottawa, Dec. 19.
Post Office Department, Canada.
The postmaster general is informed that this department is in receipt of a letter from the General Post Office, London, England, dated Dec. 16th, stating that the Business Exchange Offices, which make up mails for Hamilton, have been instructed to include therein labelled bundles of letters and postcards for Brantford in all cases where this course is practicable and is justified by the amount of correspondence. This will insure the promptest possible forwarding from Hamilton of correspondence from Great Britain addressed to Brantford.

P. O. Department.

THE REVISION

Of the U. S. Tariff by the Democrats Has Actually Commenced—Some of the Features of the Situation.

(Courier Leased Wire).

WASHINGTON, Jan. 6.—Democratic revision of the tariff actually got under way to-day when the House Ways and Means Committee began hearings which will be the basis of the new tariff bill of the next congress, to repeal the Payne-Aldrich law. To-day's hearing was on schedule "A," the chemical schedule. The committee plans to go down through the list taking a new schedule every other day until all have been covered.

With the full membership of the committee sitting in the big hall in the House Building, the first hearing of a month-long series, looking to the preparation of a law to carry out the Democratic party pledge of an "immediate downward revision," and "tariff for revenue only" was begun. Most of the Democratic majority of the present Ways and Means committee will go into the next congress, which is to convene in extra session probably between March 15 and early April. When the tariff hearings are ended, Democrats of the committee will devote themselves in daily executive sessions to the formulation of the tentative tariff legislation which they hope to have ready by March 15, if not earlier.

The concrete result of their deliberations, the new tariff rates, from acids and zinc, the expansions

of the free list and so on, will be formally passed upon at a caucus of the representatives of the new house to be called soon after the opening of the extra session. This caucus will determine whether the new tariff legislation shall be in the form of a single measure or in separate bills, schedule by schedule along the lines of the tariff procedure of the last session, when chemical wool, cotton, iron and steel, and free list bills, went through both houses, but met presidential veto. Chairman Underwood, of the Ways and Means committee and his associates are inclined to favor the same course as that of last session. By that procedure it is urged by its advocates, "log rolling" or trading on rates on various articles could be avoided. The chemical schedule is one of three or four that command the greatest interest. Democratic committee men claim revision along the lines embodied in the chemical bill of last year would save American consumers \$77,000,000 by reducing the prices of all chemicals and at the same time increasing the revenue to the government. The plan of the committee is to levy low rates of duty upon non-competitive articles produced in this country, especially the chemicals used in the textile industry and chemicals and drugs used for medicines.

THE BIG COST

Of Running United Kingdom For the Next Year—A Total of One Billion Dollars is Announced.

(Courier Leased Wire).

NEW YORK, Jan. 6.—A cable to The Tribune from London says: The cost of running the United Kingdom for the next twelve months will amount to the colossal sum of \$1,000,000,000. The navy estimates alone will reach an aggregate of almost \$250,000,000. This increase of upward of \$20,000,000 is due to many causes, but chiefly to the higher cost of ship-building.

All contracts that have been lately placed and that will have to be placed in the near future reflect this movement. The calculated cost of

constructing an ordinary merchant vessel has advanced more than 300 per cent, in the last two years and in the case of warships the difference is proving not less remarkable. Everything required by the admiralty, guns, torpedoes, ships' plates, all show advances. The period of cheap ship-building from which the country gained an immense advantage has come to an end. The army estimates will also show an increase, and there will be heavy charges in civil service estimates for old age pensions, labor bureau and insurance.

HAMILTON ELECTIONS.

(Courier Leased Wire)
HAMILTON, Ont., Jan. 6.—Interest in the municipal elections here today centres in the by-law to cut off 27 tavern and five shop licenses and the mayoralty battle between Controller John Allan and Controller

William G. Bailey. Both candidates have already been defeated once while seeking the mayor's chair. Although sleek was falling this morning and there was a covering of slush on the streets, the vote will probably be heavy, as the mayoralty candidates and the hotelmen have strong organizations. There is a warm aldermanic contest in every ward, and eleven aspirants for the board of control are in the battle.

TAFT

Now Makes the Statement That He Favors Arbitration Regarding the Panama Canal.

NEW YORK, Jan. 5.—President Taft on Saturday declared himself unequivocally in favor of arbitrating the dispute between the United States and Great Britain over the Panama Canal tolls in the event of the impending negotiations failing to bring about a settlement. This was the first public declaration of the President of his attitude toward the question. He was speaking at a luncheon given in his honor by the International Peace Forum.

"I am willing, and indeed I would be ashamed not to be willing," said the President, "to arbitrate any question with Great Britain in the construction of a treaty when we reach the exact issue which there is between the two nations."

DOING THINGS

Since Conservatives have to power at Ottawa, many things have been done for Brantford; which before were neglected.

From 1866 to 1911—fifty a Liberal Government held the Capital.

What did Brantford County get from them?

Outside of a "Grant" for the mortal, and an enlargement drill hall, the rest of the intentions for the city were for the County nothing at Brantford a greatly needed building was ignored, for more help in the Post-side, tracked, the same with the Customs and so on.

What has happened, the efforts of Mr. Cockshutt aided by other Conservatives, Borden Ministry arrived—

FOR QUICK SALE

1—A site purchased for public building.

2—Tenders are asked for some structure thereon.

3—Customs staff from state of numerical office.

4—Post Office clerks carriers increased to meet it.

5—In the interest of the well wishers of the City, a Government building is being erected on the Lake Erie and Eastern Railway.

6—Rural mail delivery of all portions of the Ribint.

In North Brant, Mr. J. I. M.P., although only a member over a year, has likewise interest of his constituents recognized.

1—He was a big factor of the Eric and North, which will mean so much to 2—He specifically had 3—He has been successful on behalf of rural mail delivery.

DOING THINGS

Since Conservatives have come into power at Ottawa, and Toronto, things have been done for the two Brants which before were absolutely neglected.

From 1884 to 1911—fifteen years—a Liberal Government held office at the Capital.

What did Brantford or Brant County get from them?

Outside of a grant for the Bell Memorial, and an enlargement of the drill hall, the rest of the needed attentions for the city were nil, and for the County nothing at all.

For Brantford a greatly needed new public building was ignored, the need for more help in the Post Office was side-tracked. The same was true of the Customs and so on.

What has happened, through the efforts of Mr. Gockshutt, M.P., backed by other Conservatives, since the Borden Ministry arrived?

- 1.—A site purchased for a new public building.
- 2.—Tenders now asked for a handsome structure thereon.
- 3.—Customs staff brought to a state of numerical efficiency.
- 4.—Post Office clerks and letter carriers increased to meet needs.
- 5.—In the interest of the County, as well as the City, a Government subsidy to the Lake Erie and Northern Railway.
- 6.—Rural mail delivery ordered for all portions of the Riding.

In North Brant, Mr. J. H. Fisher, M.P., although only a member for a little over a year, has likewise had the interests of his constituents suitably recognized.

- 1.—He was a big factor on behalf of the Erie and Northern grant, which will mean so much to Paris.
- 2.—He speedily had Post Office improvements inaugurated.
- 3.—He has been successfully active on behalf of rural mail delivery, and

so on.

How about the Ontario House? For over a quarter of a century Liberals held office there, and during nearly the whole period two Liberals were returned from the Brants.

How much did they do; didn't even stop London from securing legislation to take the Grand Trunk car shops from this city.

What in two sessions has been the record of the Whitney Government on representations from Mr. W. S. Brewster, M.P.P.?

- 1.—Increased buildings at the Ontario Institution for the Blind.
- 2.—The prevention of Hamilton making a proposed raid on natural gas at the expense of Brantford.
- 3.—Putting through a new constitution for the Brantford Hospital.
- 4.—A labor bureau in the city.
- 5.—The establishment of a fish hatchery in the County and the stocking of the Grand River with bass.

Mr. Brewster was also one of the Lake Erie and Northern deputation to Ottawa.

Mr. Jack Westbrook, the youthful member for North Brant, has not been long in the Ontario House, but since his advent, there is an agricultural representative for the County of Brant, with headquarters at Paris.

It will thus be seen that under Conservative auspices the people in the two Brants have had their interests properly, yes handsomely, looked after, when, under Liberal regimes, they could not even secure scant justice.

THE ANTIQUITY OF SHORTHAND

In connection with the centennial celebration of Sir Isaac Pitman, the father of modern shorthand, it is pointed out by a well known authority on the subject in the London Strand, that shorthand is now so well known and so widely practised that we are apt to think of it merely as a product of our own bustling times. Nevertheless, the history of the art of shorthand writing extends over a period of some thousands of years, and its origin, in spite of much discussion and the production of an enormous amount of literature on the subject, is obscured in the mists of antiquity. It is a history filled with humour, with romance, and even with tragedy.

The first system of which we have definite knowledge has itself a romantic story. It is the system of Marcus Tullius Tiro, originally a slave of the immortal Cicero. Whether Tiro was the inventor of the method he used, whether it was devised by Cicero, or whether the system was much older than either, are points upon which historians have squabbled for centuries, but the fact remains that Tiro became so proficient in the art (if it had not been for this gifted slave many of the famous orator's most treasured speeches would never have been recorded) and so useful to his master that he was given his freedom by Cicero, becoming his private secretary and staunch friend.

This is romance. There are both humour and tragedy in the fate of Cassianus, who was a teacher of shorthand at Imla during the fourth century. Whether it was the fault of the teacher or the system we are not told, but the class one day became so exasperated that they attacked and killed the unfortunate Cassianus with their styles. The system he used was that of Tiro, which survived for many centuries, and though extremely useful in the absence of any better method, it did not always lead to that accuracy which could be desired.

Scholars are in doubt whether it was the system of Bright or Willis which was used for taking down Shakespeare's plays. For, little was we prone to reflect upon it. Shakespeare's plays were first taken down in shorthand, and it is from the reporter's transcripts that the plays were, for the most part, printed in

the poet's lifetime. Samuel Peps, the writer of the famous diary during Charles Second's reign wrote all of it in shorthand; Dickens also was first of all a shorthand writer after reaching his teens and many other famous men have started in that profession.

A SOUR, GASSY, UPSET STOMACH

"Pape's Diapiesin" overcomes your Indigestion in five minutes.

Wonder what upset your stomach—what portion of the food did the damage—do you? Well, don't bother.

If your stomach is in revolt; if sour, gassy, and upset, and what you just ate has fermented into stubborn lumps; your head dizzy and aches; belch gases and acids and eructate ungested food; breath foul, tongue coated—just take a little Diapiesin and in five minutes you truly will wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapiesin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion, if your food is a damage instead of a help, remember the "quickest, surest, most harmless relief is Pape's Diapiesin which costs only fifty cents for a large case at drug stores.

It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.

Neuralgia, Asthma, Female Diseases, and the various Diseases of the Stomach, Liver and Kidneys.

As all the motor and sensory powers are transmitted through nerves, it is plain to be seen that the nerves should be free from all abnormal pressure. Strange, but true, all the nerves of the body may be freed by adjusting the spinal vertebrae with the hands.

Removing the Cause. Chiropractors have remarkable success in removing the cause of Appendicitis, Deafness, Asthma, Rheumatism, Lumbago, Lamé Back, Constipation, Piles, Female Diseases, Stomach and Kidney Trouble, Nervous Prostration and Pneumonia.

NO LOCAL EXAMINATIONS used, as they are unnecessary.

Lady Patients. In no line of disease do we have better success than in the ailments which afflict womanhood. Benefits are promptly shown without the annoyance which they are subjected to under the drug treatment. The proper nerve supply being restored, the normal functions are quickly re-established.

PARIS
(From our own correspondent.)
PARIS, Jan. 6.—Mr. Francis Graham died Sunday morning at two o'clock from injuries receiving by falling downstairs. Mr. Graham was one of our oldest citizens and for many years conducted a merchant tailoring business in town. He was an elder in the Presbyterian church and won the respect of all who knew him. He leaves a grown up family, but his wife pre-deceased him by many years.

Rev. Mr. Reid, Baptist minister and Rev. Mr. Macdonald of the Presbyterian church, exchanged pulpits on Sunday evening.

The churches have inaugurated a Week of Prayer this week, Tuesday evening in the Presbyterian church by Rev. Mr. Heyworth; Wednesday evening in the Congregational church by Miss Margaret Elliott returned from the Baptist church by Rev. Mr. Kerriush and Friday evening in the Methodist church by Rev. Mr. Pugh.

Miss Margaret Elliott returned from a visit to her home in Woodstock on Saturday.

Thomas J. O'Brien has returned from the West.

What is Chiropractic? Chiropractic (Kie-ro-prak-tik) is a word coined from two Greek words Chieir and Praxis (in combination Chiro-practic which means hand doing or hand practice, one who adjusts by hand any subluxated articulations of the human skeleton frame, especially the 33 bones of the spinal column for the purpose of restoring the normal flow of currents through nerves that were formerly hindered by impingement caused by the subluxation of the bones.

All movements whether normal or abnormal, or in the body are but the personifications of mental equivalents—mental functions guided by Innate Intelligence, creating physical expression.

Diseases are caused by a lack of current of Innate Mental impulses. This is produced by a constricting force placed around nerves by vertebral displacements brought about by muscular contraction or concussion of forces.

Health is restored by completing the mental and physical circuit, the method of which is unique and original and does not in any way inconvenience or prohibit the patient from the ordinary duties of life.

A New Science—The Curative Powers Are Within the Body Itself.

The Chiropractic method is a new science of adjusting the cause of disease without drugs, based on correct knowledge of anatomy, and especially the nervous system. With this knowledge of the cause of disease and our unique method of adjusting the cause, we have learned beyond question, that the curative powers are within the patient from the ordinary duties of life.

Is Based on These Two Principles:
1. Sub-Luxation (partial displacement) of Bones causes Pressure on Nerves.
2. PRESSURE ON NERVES causes disease.

The cause of disease has been and is yet mysterious to the great mass of humanity, but the mystery has been solved by the Chiropractor (spine adjuster).

My business is to adjust the cause, to RELEASE THE PRESSURE on the nerves and to restore normal action—therefore normal functions and perfect health. I do not rub, massage, knead, manipulate or treat disease.

I ADJUST CAUSE. My philosophy of taking off the pressure has the more rational claim upon all sufferers. I give a logical reason for the cause of disease.

Acute Cases. Acute cases are often relieved in one or two adjustments. In cases of long standing the vertebrae have their forms changed by long continued pressure and time is required to get them back to normal position and to restore the freedom of nerves. That this can be done has been proven beyond the shadow of a doubt in 90 per cent of the cases adjusted.

Marvelous results follow our system of Spinal Adjustments, and we stand ready to give you abundant testimony of persons who have been restored to permanent health by our Spinal Adjustments. If you have any of the following ailments stop taking drugs. Go to a competent Chiropractor and have him take off the pressure, and health will be the result: Appendicitis, hysteria, blood diseases, heart troubles, insomnia, Bright's Disease, kidney diseases, childbed fever, lumbago, constipation, Locomotor Ataxia, consumption, (1st stages), liver diseases, bladder trouble, indigestion, bowel trouble, Lung Trouble, Diabetes, Meningitis, Dyspepsia, Nervous Debility, Female Diseases, Pneumonia, Gall Stones, Pleurisy, Grippe, Rheumatism, Sciatica, Spinal Diseases, Stomach Trouble, St. Vitus Dance, Shortness of Breath, Tumors.

If your ailment is not mentioned, do not become discouraged; my space is limited.

I make it possible for nature to restore health WITHOUT drugs or knife.

This means YOUR DISEASE. With Interrupted Nerve Force Health Is Impossible.

Without nerve force the blood cannot circulate properly. The lack of circulation means strangulation, and strangulation causes many diseases, such as dropsy, tumors, running sores and various so-called skin diseases.

Chiropractic—Nature's Method. Frees the circulation, thereby permitting the refuse to be thrown out of the body through the natural channels.

Pressure upon Nerves causes such diseases as Paralysis, Rheumatism,

Why Am I All Stirred Up After Taking Spinal Adjustments?
Disease is a perversion of the normal law. To get well requires time that it is necessary to rebuild these abnormal tissues. To accomplish this means that all diseases must retrace their steps. Sometimes this process seems uncalled for, but it is all for the best; it is these that you should grip tightly and remain by your chiropractor, and in a few days you will generally see good results.

Motherhood Made Easy. Motherhood should not be as painful and dangerous as it is, an if nature had its own way it would not be so, but it is in a great majority of cases, there are some of the nerves impinged through which nature controls the organs of generation and in that way makes them inactive. This would not be so if all nerves were freed to work in harmony. This has been proved by great many ladies who have taken Chiropractic spinal adjustments.

People Are Sleepless. When anything new in the light of a radical departure from what people have been educated to believe is brought before them, it is human nature to be skeptical. The man who invented the telegraph, the man who discovered the circulation of the blood, were at first looked upon as lunatics or fakirs. But nothing can down truth. Many other great discoveries which at first met only with scepticism, have been recognized as blessings by scores of years.

The science of Chiropractic but a few years ago was unknown. To-day it is known only in communities where it has accomplished seemingly marvelous results in the banishment of disease. People must believe the evidence of their senses. If a person comes to a Chiropractor with a disease which doctors have failed to cure, and that person is completely restored to health, he must believe. He is not tangled up with long technicalities; he only knows he is sick. The Chiropractor tells him why he is sick, and proves that he is correct by giving the patient adjustments that allow nature to restore him to health.

Chiropractic gives nature a chance to make you well.

CHURCH NOTES

THE FIRST BAPTIST.
All the services of the church yesterday were well attended. In the morning the attendance at the communion service was large and six new members were added to the roll. There were 307 present in the Sunday school. The report for 1912 showed an average increase of 82 per Sunday over 1911. At the evening service the church was crowded. The pastor preached on "How much do you weigh?" basing his remarks upon Daniel 5: 25: "Thou art weighed in the balances and found wanting." Different scales in which people weigh themselves and are weighed in turn by their fellows, were referred to, but the attention of all was called to the scales of divine judgment in which all are weighed. The ritualist, the moralist and the atheist each in turn were weighed by the pastor. It is the Christian who takes Christ into the scale with him, who alone will escape the verdict, "found wanting" by the judge of all the earth.

WELLINGTON STREET
Large audiences were present at all the services yesterday. The pastor, Rev. R. D. Hamilton delivered two very eloquent and inspiring sermons. His morning sermon was "The Holy Spirit for Service" and his evening topic "A New Year's Message." A feature of his work for the day was his morning sermonette to the boys and girls. The choir under Mr. Darwin rendered excellent music. Mr. Russell T. Collins, tenor, of London, sang a solo morning and evening and his fine work was greatly appreciated. The male quartet by Messrs. Stubbins, Easterbrook, Burton and Houghton

was much enjoyed. At the Sunday School Miss Carson sang a solo very acceptably.

CONGREGATIONAL CHURCH

At the morning service, after an impressive sermon by the Rev. M. Kelly the Communion was observed and a number of members added to the membership, an appropriate anthem being rendered by the choir. The evening service being an election sermon, subject "Our treatment of our public men." was ably handled by the pastor. During the sermon two points were discussed: "What we expected of our public men." (2) "What treatment they expected from us." The picture as given of a public man in Exodus 18:21, where he is represented as able, God fearing, truthful and hating covetousness. This, said the preacher, was what we might expect of our public men. But suppose some public man possessed qualities, how will you treat him? was asked. Instances of abuse which has been hurled at our leaders, were given. Men sometimes speak as though public men were paid to stand that kind of thing, or as though it were a light matter, but it was pointed out that it was just such abuse and misrepresentation that led to the attempted assassination of ex-President Roosevelt. Mr. Kelly pointed out that we are apt to glorify the men who lived in the past, while we hardly give the men of the present a chance to do their work, and he read an extract from a paper, which was published when Lincoln was President to show that while he would now reserve Lincoln as a great man while he was President of the United States, he was charged with treason, burglary, perjury, embezzlement and twelve other charges. No wonder an easily inflamed assassin was found to murder him. The speaker pointed out that unless we treat our public men with greater fairness, there will soon be a dearth of them and that will work out badly for popular government—either municipal or federal. Criticism is needed and public men are prepared for it, but if a man is honorable, no one is warranted in hurrying at him abuse and slander simply because he does not agree with him. The times are rich, mammon is everywhere being worshipped and there is little in the way of public spirit.

Obituary.

The death occurred yesterday of Amasa B. White, one of the oldest residents of the city, he having resided here for the last 60 years. He was in his 81st year and was born in Nova Scotia. He retired many years ago and had since resided with his son O. A. White, 19 Murray street. He was a sterling citizen and fond husband and father. He leaves to mourn his great loss, seven children: Mrs. S. Sayles, Brant County; O. A. White, city, E. J. White, Hamilton; Mrs. F. Bowman, California; A. T. White, Mexico; Mrs. F. Grummet, Seattle, Wash.; H. D. White, St. Catharines.

HULL-DALLEY.

Very quietly on New Year's eve the marriage took place of Christine Gertrude Louise, second daughter of Mr. Richard Dalley of Toronto, ex-conductor of Ordnance Stores, to Arthur Wellesley, second son of Mr. and Mrs. Wm. Hull of this city, formerly of Brantford. The Rev. R. Hamilton officiated. The bride, who was unattended, wore a tailored suit of navy blue serge and white picture hat, and corsage bouquet of pink and white carnations. After the ceremony the happy couple drove to 112 Amelia street where they will reside.

WALLEY FINED FIFTY

Charles Walley, charged with being a member of an unlawful assembly, was fined \$50 or two months by His Honor Judge Hardy in the County Court this afternoon. Through his counsel, Mr. Geo. Heyd, Walley pleaded guilty. No evidence was taken on the case, but Mr. Heyd put several prominent citizens on the stand who testified as to Walley's good character. Crown Attorney Wilkes, in summing up, stated that he hoped His Honor would be lenient Judge Hardy before passing sentence, said he felt sorry for the accused man, but stated that he would treat all cases as they came to him. A friend paid the shot.

PERSONAL

Mr. Frank Levee, Toronto, is visiting friends in the city.

Mr. Walter E. James of Toronto is renewing old acquaintances in town.

Miss Nellie Reeveley of Guelph, is spending a few days with her sister, Mrs. Millard, Emily street.

Aches and Pains of rheumatism are not permanently, but only temporarily, relieved by external remedies. Why not use an internal remedy—Hood's Sarsaparilla, which corrects the acidity of the blood on which rheumatism depends and cures the disease.

"My nerves were very bad, and I control my arms and legs," writes Mrs. Robert Bustard, Maxwell, N.B. "Dr. Chase's Nerve Food cured me of what I believe was the early stage of locomotor ataxia or paralysis. I cannot describe what I suffered, but now I am entirely cured."

PULLING OF STRAWS DECIDES MAYORLTY.

DURHAM, Jan. 5.—Unique was the manner in which the local mayoralty contest was decided, those nominated for the office were examined by Mayor William Black and Mr. A. Cotton. Mr. Laidlaw withdrew and the other two aspirants, close personal friends, settled the matter the day after nomination in true schoolboy fashion by pulling straws.

Music and Drama

"The Gamblers" comes to the Grand Thursday, Jan. 9th. This most recent great play by Charles Klein has to do with present day problems. A technical point in the banking laws seems likely to send a technically innocent man to jail, and his son cheats at cards to save his father and open the way for his own conviction.

"A Butterfly on the Wheel"

Having met with unprecedented success in London, New York and Boston, "A Butterfly on the Wheel," played by an all-star English company which Messrs Shubert and Walker have imported for a special tour of America, will appear at the Grand on Wednesday, Jan. 8th.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube.

HOUSEHOLD SALE

A WOMAN'S GOOD LOOKS

Depend on her general health and freedom from pain. Many a woman looks old before her time because of those irregularities which are essentially feminine. Starting from early womanhood, she suffers from frequently recurring derangements that upset her womanly health.

Mrs. HARKLEY E. PIERCE, of 244 Bright Street, Sarnia, Ont., writes: "I am now a well woman after suffering for three years and doctoring with several different doctors, each one saying it was something different, and the last one, after putting me through a thorough examination, said I was suffering from a growth, which, in time, would result in cancer, and said I would not live more than two years if not operated upon right away."

A new car for the new year! Why not get along with old, cumbersome "limbs on wheels"? A substantial portion of our produce for the new year will go to those who have tired of the expense and trouble of a heavy, unhandy car.

Every third car is a Ford. Nearly \$50,000 have been sold and delivered. New prices—runabout \$675—touring car \$750—delivery car \$775—town car \$1000—with all equipment, f. o. b. Walkerville Ont. Slush-proof Shoes

Now is the time you shop men need waterproof footwear. Never were we better prepared to meet than right now. Come in and have a look at our large stock of Farm and Foundry Shoes—the largest in Brant County.

Rubbers—First Grade Only

This sure is rubber weather. It is almost impossible to have dry feet just now. No amount of shovelling or sweeping will make the walks passable for those with light footwear—but there's another remedy—put on a pair of our first-grade rubbers and have warm, dry feet during the "slush" period.

PRESENTATION

A very pleasant event took place in the Tool Room of the Cocksbutt Plow Co., on Saturday afternoon when Mr. Fred Jones, who is leaving the firm was presented with a set of microamperes by his fellow workmen, accompanied by the following address:

Mr. Fred Jones, City. Dear Fred—It is with feelings of deep regret we have learned of your intention of leaving the employ of the Company, and we cannot allow the opportunity to pass without showing in some way the esteem in which you are held by us and of the warm spot in the hearts of your fellow employees of the Cocksbutt Plow Company Limited, Tool Room. We ask you to accept this little token as a daily reminder of our appreciation of your many good qualities. Wishing you every success in your new position.

Signed—A. R. Gibson, Frank Castle, H. V. Green, H. C. Bowden, Mas. Kay, Harold Sleith, Fred G. Marlett, W. S. Wilson, Frank Scatgergood, A. E. Davis, S. J. Wilson, Jas Muir, Jos Edwards, H. C. Kopsch

SLIPPERY STREETS. Everybody who had to venture out in Brantford today walked in slippery places, and then some. All the walks were a veritable sheet of glass and several figures of eight stunts were performed by hitherto dignified people. It was a case of one step forward and then two back so that rearward heading was the sensible thing for those who wished to reach anywhere. There were several tumbles, some of them with serious results. One old lady fell, and broke her arm. In front of Harp's grocery Mrs. Luther of Brockville, a visitor in the city, fell and badly hurt her hip. Dr. Gamble was summoned and requested her to go to the hospital. The doctor could not tell until examination whether the lady's hip was fractured or broken. A Miss Campbell fell, and was also badly hurt. Mr. W. Shackell in a tumble he had dislocated his shoulder. He is 84 years of age. There should be an ordinance for sprinkling ashes on walks when in the condition of to-day.

HAS MADE NO IMPROVEMENT (Courier Leased Wire)

LONDON, Jan. 6.—Man has showed no improvement either in intellect or morals from the days of the earliest Egyptians and Sphynx down to the keel-laying of the latest Dreadnought, according to a survey which Dr. Alfred Russel Wallace, known as the grand old man of science, has completed on the eve of his 80th birthday next Wednesday. In his survey in 'The Daily News' today he declares that for 7,000 years morals and intellect have been stationary. "There has been of course, a great accumulation of human knowledge, but for all that we are no cleverer than the ancients," he declared. "There is still most abominable vice going on everywhere, and cruelty to the poor and children, adulteration everywhere in every commodity and lies everywhere. The average of mankind will remain the same until natural selection steps in to raise it."

Dr. Wallace qualifies his gloomy remarks with the belief that there is no cause for worry for the future, however, as "the outlook is hopeful."

SERIOUS CHARGES

In Connection With Aviation Machines--It is Alleged That Some Were Tampered With to Cause Murder in the Air.

(Courier Leased Wire). NEW YORK, Jan 6—A cable from London to The Tribune says: The Royal Aero Club is investigating what The Daily Express says is probably the first attempt at murder in mid-air, Lawrence Santoni, managing director of the British Dependable Aeroplane Company, has published allegations of the gravest nature. He states that on three separate occasions attempts have been made to damage the engines of certain military aeroplanes that they would break down while in flight. The outrages, he says, were obviously the work of experts, who they were how they obtained entrance to the machines for long enough to tamper with them, and what their motives were, whether animosity against particular pilots or

possible passengers, the jealousy of particular aeroplane makers or possibly a settled design against the British army of the air are questions which will have to be thrashed out by the Royal Aero Club and possibly by the police. A BIT DIFFERENT Widely famous as the Chateau Laurier, has become already in its short career, the recent publication issued by the Grand Trunk, dealing with its salient features, has served to win for it a host of new friends. One of these is of a prominent business man from New England whose experience of hotel conditions has been both wide and varied, who has written to one of the Company's representatives as follows. "I have just received the Chateau Laurier booklet which you kindly sent to us as promised and I am very glad indeed to hand it along to some friends of mine who are thinking of a trip to Canada. My wife and I went to Ottawa for no other reason at all but to stay a few days at the new hotel about which we have heard so much, and it may interest you to know that we were delighted with the house, the efficiency of its service and the cordiality of management. The hotel is indeed beautiful and I have no doubt will quickly become a Mecca for tourists who are looking for something "a bit different."

ALDERS

S. P. Pitcher and List in Their Reservations the Council

The municipal contest in Brantford this year was the quietest on record. There was no contest for Mayor. Aldermanic fights only took place two wards, but they were quite a thing in Ward 2. Mr. S. P. Pitcher headed the poll in handsome and Mr. J. Broadbent did a stunt in Ward 5. Both are new and so also are Mr. Gillingwater, Mr. T. Quinlan, the last name whom had previously tried to get the goods more than once. Mr. Gillingwater, who runs a grocery, is one of the fine class of English who have been coming to Brantford in recent years. Ald. elect Pitcher and Ald. Broadbent are two capable men the Council welcomes them to council conferences. Only one of last year's council who defected—Ald. Briggs—and he has been missed. The Details Mayor—C. Hartman, by acclamation.

HYDRO

Wins Out in Majority People Know When

TORONTO, Jan. 7.—Voting Hydro-Electric by-laws in the province of Ontario no longer contain an element of doubt. The success of the people's power system has now convinced the municipalities so markedly that the submission of power by-laws to the province for approval has come to be something formal procedure. The result is interesting from the point of view how little opposition there is to municipal power.

Returns were received yesterday from fourteen municipalities that had voted upon power by-laws, and in every case the system that Hon. Adam E. and his colleagues on the Hydro Electric Power Commission had built up was endorsed in strict fashion. In some municipalities, opposition was expressed in but one or four votes, while in Peterborough the private power interest has been well entrenched for years the majority in favor of Hydro-Electric was in the neighborhood of 500.

Proposal to Reduce Milton Defeated

HAMILTON, Jan. 7.—Most of excitement of the day centered in by-laws for the reduction of tax licenses from 57 to 30, and for cutting off five special licenses. Both by-laws were badly defeated. The liquor interests had having put a great fight against the carrying
