TWO PRISONERS MAKE ESCAPE FROM CLAREMONT ST. STATION NOT DAUNTED BY BARS OF STEEL

William Goodman and John Gallagher, Both Well Known to Police, Spring Surprise by Making Exit From Cage, Forcing Bars and Dropping Twenty Feet to Ground.

Working so quietly that none of the other prisoners heard them, two notorious criminals forced a steel bar off the jail window at the new Claremont street police station last night, and dropping 20 feet to the ground below, made their escape. Altho the station police were after them almost before they had left the yard, the crooks managed to elude their pursuers and vanished in the darkness.

Both men are well known to the police and detectives in Toronto. They were registered on the slate as William Goodman, aged 23, 521 Dufferin street, and John Gallagher, aged 35, 156 Strachan avenue. The twain showed surprising skill in the manner they broke jail, evidently possessing a lot of knowledge thru detention in almost every station in the city. Detectives were scouring the city for tracing of them at an early hour this morning, but so far they have not been recaptured.

On Minor Charges.
Altho Goodman and Gallagher are men with records they were not held on serious charges. Goodman was arrested yesterday afternoon at 1.45 for frequenting a disorderly resort. Gallagher was arrested on a charge of vagrancy at 5.30, which means that he

is suspected of something more serious. They were taken to the station and after being searched were placed in the "cage." This is a large steel structure in which men held on light charges are placed. Probably as many as twelve are often together at the same time and there are bunks on the walls which they may sleep.

The "cage" at Claremont street police station is shaped like a half-square, one part running in behind the regular cells. Consequently a man might move over this corner and could not be readily seen until the guard had passed around the cells and looked in from the other end of the cage.

Well Ventilated.
Over the top of the cage and about twelve feet from the floor are placed the window ventilators. These are constructed of small windows, and all work together by means of a steel device operated by a handle from the outside. The windows can all be opened by the guard without passing into the cage. The glass on the ventilators is interwoven with fine wire and protected again by steel bars which form spaces about five inches wide and seven inches long. On the

BULGARS FORCED BY POWERS TO MAKE PEACE

Balkan Settlement Proves Big Disappointment to King Ferdinand, But Threats of Occupation of Sofia Enforced Submission—Bulgaria Helpless.

BUCHAREST, Aug. 6.—(Can. Press.)—Peace was concluded tonight between the Balkan States and the preliminary treaty will be signed tomorrow by the delegates of Serbia, Greece, Montenegro, Roumania and Bulgaria. The agreement was arrived at after another exhibition of the utter helplessness of Bulgaria to face her ring of enemies.

Wednesday the discussion in the peace conference threatened to become interminable, but M. Majoresco, the Roumanian premier, and president of the conference, clinched matters by threatening that unless Bulgaria accepted the modified frontier proposed by the allies, Roumania's army would occupy Sofia next Saturday. This threat had the desired effect, and an agreement was arrived at today after numerous private consultations between the delegates and a four hours' sitting of the conference.

The new frontier as agreed to, starts at a point on the old frontier, west of the Struma River, follows the water shed to west of the town of Strumitza, thence runs almost thru the Pitoma valley to the Balesh Mountains, and thence easterly in almost a straight line to the Lesia River, thus leaving the town of Strumitza, the Port of Lagos and Kanishi to Greece. The new frontier is a deep disappointment to the Bulgarians who still nurse hopes for its eventual revision by the powers. It is believed that an agreement for the demobilization of the various armies will be signed tomorrow. The news that peace had been arranged, caused great rejoicings here.

AIRSHIP MAKER SPENT RIOTOUSLY

Depirdussen Said to Have Diverted Millions of Dollars to His Own Uses.

Special Cable to The World. Copyrighted by The Toronto World and N. Y. World.
PARIS, Aug. 6.—The sensation caused by the arrest yesterday of Armand Depirdussen, a widely-known builder of aeroplanes, was considerably heightened today by the statement that out of \$6,000,000 advanced to him by the Comptoir Industriel et Colonial, his chief backer, it is alleged that only \$900,000 was utilized in actual aeroplane construction.

It is alleged that the balance of the money was recklessly squandered in other directions and the newspapers contain stories of sensational expenditure on pleasure. It is further alleged that Depirdussen tried to obtain financial assistance by presenting a forged order for a large number of aeroplanes.

Before a magistrate yesterday he confessed to many of the charges against him, but estimated his assets as \$4,000,000 against \$8,000,000 liabilities.

Business to Go On.
In an interview this afternoon the director of the Depirdussen aeroplane enterprise stated the business will be in no way affected by the arrest, neither will the affair have any detrimental effect on carrying out the contract which the firm had on hand for the French army. Ample financial assistance has already been secured.

The Depirdussen aeroplanes have been among the most successful, Belgians having used them in many of his recent flights. Depirdussen has been considered the foremost patron of aviation in France, which earned him membership in the Legion of Honor.

Powerful Steel Dredge Completed at Polson Shipyards for Dominion Government.

OCEANS FLOWING OVER ONE-TIME CONTINENTS

United States Geologist Says Waves of Indian Ocean Now Cover Lamuria, While Submerged Ledge of Rock in Atlantic Marks Former Continent of Atlantis.

"It is now pretty generally accepted among scientists that large portions of the world's surface that are now submerged were once islands and continents," stated Prof. G. A. J. Cole of the Royal Irish Academy, Dublin, in conversation with The World last night. Prof. Cole, who is director of the Irish Geological Survey, is in Toronto as a delegate to the International Geological Congress, which opens today at the university.

"The earth's crust is continually changing shape," he continued. "It is only a myth and if you draw a cross-section of the earth on a sheet of paper it is as thin as the thinnest pencil line."
"What of the inside of the earth, then?" the professor was asked. "Is it molten or solid?"
"That is still a disputed point," averred the geologist. "But the evidence of earthquake shocks seems to indicate that there are at any rate no gases in the centre, and there can hardly be fire without gases. It has been shown that earthquake shocks

Can't Blame Hydro

The theory of an evening paper that a hitch in the hydro-electric service was responsible for the inadequate water pressure which hampered the efforts of the firemen at the height of the Green factory fire on Saturday, is rather upset by a statement of Engineer Consens to The World last night.

"There was an interruption of about fifteen minutes' duration on the transmission lines," he said, "but it did not occur until 2.45 p.m., by which time the fire was practically out, and by 4 p.m. the service was restored."

MEXICANS DO NOT WELCOME LIND

Question Personal Fitness of Special Representative From United States.

Special to The Toronto World.
MEXICO CITY, Aug. 6.—Unfavorable comments appearing in Mexican papers today relative to the sending here of ex-Gov. John Lind as special representative of the United States are based more on the question of the personal fitness of Lind than the motive of the president in assigning him to come to Mexico. Doubt is expressed that any real good can be accomplished by his presence. It is also said that friends here of William Hays believe he should have been allowed to continue his mission under the same credentials that have been accorded Mr. Lind.

Washington dispatches printed in Mexican papers today held to have manifested do an injustice to ex-Gov. Lind's standing and attainments.

That Mr. Lind will begin his work in Mexico under a heavy handicap.

HUGE STEEL DREDGE NOW READY FOR PORT NELSON HARBOR WORK

Construction Has Been Rushed Night and Day at Local Shipyards and Government Dredge, Largest and Strongest Built in Canada, Will Soon Start For Hudson Bay.

An important step towards the fulfilment of the Dominion Government's great plans for the creation of a deep water harbor at Port Nelson, on big Hudson Bay, will be the departure from Toronto in a few days of the biggest and strongest steel hydraulic dredge of its kind ever built in Canada, the Port Nelson.

The new vessel, the contract price of which was \$270,000, was built at the yards of the Polson Iron Works here, and the whole undertaking from start to finish was accomplished in exactly a hundred days. This probably establishes a Canadian record for the building of a vessel of such size.

While the finishing touches were being made to the boat yesterday a party of about fifty shipping men and marine engineers inspected the vessel at the invitation of the Polson Company. The men afterwards stated that the new steel dredge more than came up to expectations.

Worked Day and Night.
"We have had night and day gangs of workers engaged on the construc-

tion of the dredge twenty-four hours a day and without a let-up in order to bring it to completion within the one hundred days," said Manager A. J. Jefferies. "But we did what we set out to do, and the boat will leave here on the date set for the departure," he added.

The inspection was made with Wm. Newman, works manager of the Polson Iron Works, who furnished the designs from which the vessel was built, acting as the guide.

Completely equipped, the dredge will weigh 1200 tons and is a double-decked structure. It is 180 by 43 feet, with a moulded depth of 11 feet, and a draught of 61.2 feet, is steel thru-out and fitted with five bulkheads, dividing it into six watertight compartments.

A 24-inch suction pipe is located in the forward end of the hold, directly connected with a 14 by 22 by 26 hp 21-inch triple expansion engine, obtaining steam from two 13 by 12 foot Scotch boilers, also located in the hold to the engines.

The operation of the dredge will be out of the ordinary, it not being of the

NEW CANAL WIPES OUT VALUABLE FRUIT FARMS

Hundreds of Acres of Best Land in Niagara Peninsula Required For New Welland Canal—Landmarks and Valuable Buildings Will Be Torn Down.

(Special to The World.)

ST. CATHARINES, Aug. 6.—Acres upon acres of the finest fruit growing land in the Niagara peninsula will have to be abandoned and turned over to the government for the new Welland and Ship Canal, according to the plan just registered in the Lincoln County office. Among the properties already or about to be expropriated for the big work between the border of Lake Ontario and the escarpment at Thorold, is the valuable fruit farm of Robert Thompson, president of the Niagara Peninsula Fruit Growers' Association, one of the finest in the district, just east of St. Catharines, as well as another section 600 feet in length, all bearing apples. Still another property owned by Mr. Thompson in the fifth concession laden with peach trees, grapes and other tender fruit will be required.

Course Half a Mile Wide.

The right-of-way at some points is half a mile in width, and at no place is it less than 800 feet wide. At the lake front 1500 feet out in the lake is claimed for harbor purposes. A few hundred feet of J. Becker's and H. Thomas' farms, a large slice of P. Aldie's property, now covered with peaches and grapes, Mrs. Griffith's apple orchard and raspberry patches are expropriated. The course leads thru the centre of the big farm of ex-Rev. Arbuthnot of Grantham, next taking the Hodgkinson farm and proceeding thru the Hodgkinson burying ground. The cutting cuts a jagged course thru A. R. Parnell's grape, peach and pear orchards, crossing the farm of Charles Hack, where the modern house, barn and other buildings must be wiped.

Wipes Out Many Landmarks.

The Powell farm, with its grapes, berries and high-grade orchards, is all but wiped out. Thru the Secord, Travers and James farms, the Hamlet of Homer is reached, where a number of the old landmarks and buildings will be removed. The outline just misses the new Anglican Church now in course of erection. Here the width of the right of way extends to one-half mile, owing to the location of a

BERMUDA MAY BE NAVAL BASE

Reported Intentions of Britain Give Hint to United States, Says Former Secretary of Navy.

BERLIN, Aug. 6.—Ex-Secretary of the Navy Meyer arrived in Berlin last night from Kinsington, where he had been taking the cure, accompanied by his wife and daughter. He refused to talk about affairs in Mexico, Panama and Nicaragua, but gave The World correspondent this written statement:

"In regard to Bermuda, if England should decide to send a division of four cruisers it would not necessarily make Bermuda an important naval base, but it does demonstrate the possibilities. Irrespective of England's action our government should be alive to the importance of developing Guantanamo as a naval base instead of further developing unimportant bases on the Atlantic coast, which are of no strategic value and only serve to gratify the constituents of some congressman or senator."

MORE GOLD NEEDED, SAYS GAMEY HENCE HE STEPS INTO BREACH

"Bob" Gamey, M.L.A., is taking his own method of relieving the money tightness.

"Gold is what is wanted," said Mr. Gamey to The World, "and I am doing my part to produce it." Here the speaker produced two gold bricks which he had just brought down from his mine near Port Arthur.

"I am depositing these in the bank," he said, "and will get along some more as fast as the mill will turn them out. Canada is all right, but we need more money to take care of the pressing development, and New Ontario will do its share in providing the yellow metal."

THIRD WAR IN BALKANS FEARED

Terms of Peace Unsatisfactory, Save Possibly to Roumania—Bulgaria Deeply Resentful.

LONDON, Aug. 6.—(Can. Press.)
The second Balkan peace conference having concluded peace on a basis of compromise, which is unsatisfactory to all the states concerned, except possibly Roumania, the question is being asked how soon before a third Balkan war will break out.

Bulgaria has obtained under the agreement arrived at in Bucharest today, a considerable portion of northern Macedonia—much more than the allies were at first inclined to give her—and also about sixty miles of the Aegean seaboard, which will enable her to build her projected railway from Philippolis to the Aegean.

Bulgaria, however, deeply resents being deprived of Kavala, a port on Kavala Bay, which goes to Greece under the agreement. Also she is confronted with the task of expelling the Turks from Adrianople, it being clear that the powers will do nothing in this direction.

ALEX. M'COWAN, M.L.A., TO BE APPOINTED SHERIFF OF YORK?

Definite Action Reported to Have Been Taken at Cabinet Meeting Yesterday—East York By-Election Will Be Brought on Without Loss of Time.

A well defined rumor around the Parliament buildings was to the effect that at a cabinet meeting yesterday, at which Sir James Whitney, Hon. J. Foy, Hon. W. J. Hanna and Alex. McCowan, M.L.A., for East York were present, it was decided that Mr. McCowan should succeed to the sheriffalty of York, made vacant by the recent death of Sheriff Daville. It was also decided according to rumor, that a writ for the election in East York should issue almost immediately.

George Henry, former reeve of York Township and a prominent farmer of Crook, who has been active politically in the conservative interest, is mentioned as a probable nominee of the party in the event of Mr. McCowan's retirement.

In legislature eight years. Mr. McCowan has represented East York in the legislature since the general election of 1905, when the riding, a traditional Liberal stronghold, was reformed. Mr. McCowan having a comfortable majority over Walter Scott of Markham the Liberal candidate in 1908. W. Curry, K.C., M.P., successfully contested the seat and in 1909, Rev. Annis of Markham was Mr. McCowan's opponent. The seat is now regarded as a safe one by the Conservatives.

MYSTERY SOON TO BE CLEARED

Police Hopeful of Making Speedy Arrest of Hassan's Assailant—Accident Theory Disputed.

There is no doubt now in the minds of the county police that Hugh Hassan, the aged man who was found terribly injured in the Humber woods on Tuesday afternoon, came to his injuries as the result of foul play. Hassan lies in the Western Hospital in the same condition as when he entered it, and he cannot recover, it is stated. A new clue has been found by the county authorities, which it is hoped may prove of assistance in tracing the crime to the guilty parties.

Accompanied by the son of the unfortunate man, County Constable Geo. Simpson yesterday afternoon went to the lonely bush on the eastern side of the river, near Bloor street, and again examined the tent and the surrounding scrub. Hidden in a bush not far from the officer found a suit case with 12 empty beer bottles. These were all moist, showing that they had not been empty long.

Just One Application And the Hairs Are Gone (Toilet Talks.) The disconcerting hairy growths on lip or cheek vanish following the application of a paste made by mixing enough powdered delatone and water to cover the objectionable hairs. The paste is rubbed off after two or three minutes and with it comes every trace of hair. The skin should then be washed to remove the remaining delatone and it will be firm and free from spot or blemish. No pain attends this method and rarely is more than one application necessary. Rubbing pyroxin on eyebrows makes them come in thick and glossy, and short eyelashes will grow long and curly if a little pyroxin be applied at the hair-roots with thumb and forefinger. Be careful and don't get any pyroxin where no hair is wanted.

"Within the Law" THE SUNDAY WORLD has made arrangements with The McClure Newspaper Syndicate of New York, for the publication of a fascinating serial story, "Within the Law," by Marvin Dana, from the play of Bayard Veiller. Publication will begin this week. The story deals with a clerk in a department store who was wrongfully convicted of theft, and who, on the expiration of his prison term, planned only to wreak the happiness of the heartless employer. A great sociological problem is dealt with in a way to make the book one of the best produced in recent years. "Within the Law" created a sensation in England and the United States recently. It will be published for the first time in Canada by The Sunday World. Get the opening chapters, and you will be interested till "Finis" is written.

WOMEN'S SECTION

The NURSERY A CONDUCTED BY Elmo Murray Fearlessness in Children Moral as well as physical courage is due to home influences. It is quite possible to make children untruthful by your method of "finding out" things. If you "jump" on a child half the time he will answer your question with a falsehood. At all events, he will be afraid to tell the whole truth. It is a good plan to tell your child, that in half-an-hour or at bedtime, or some other time that is suitable, you are going to ask for a full account of some misdemeanor. You do this, you may explain, so that they can have their answers ready and forget no detail. If you can gain your children's confidence to that degree where they will criticize and condemn themselves you have advanced them far on the road-way of moral courage. Keep your child truthful while he is small, helpless and fearful, and you need not fear his future in that respect. To develop this courage in small children, you must keep them absolutely fearless of their parents. Fear of his father or mother is the cowardice most harmful to a child. All this training in courage tends to make children reliable and self-confident; and gives them confidence in their own expression of opinion—not conceit, mind, for that is vastly different. And a child who has this moral foundation is well equipped to acquire the greatest courage—namely, the courage to fight life's battles. Small discouragements, or better, big misfortunes, will not utterly cast them down they can conquer all things and achieve greatness thru tribulation.

7911 Loose Coat, 34 to 44 bust. WITH CUTAWAY OR STRAIGHT FRONTS, WITH OR WITHOUT BELT THAT CAN BE MADE FULL LENGTH OR ADJUSTED OVER THE BACK ONLY.

The loose or "sport" coat is in great demand this season and is so practical and useful as well as attractive that it has assumed popularity. The illustration shows it at its best. In one view, the front is cutaway and there is a belt and the belt is omitted, and the two treatments are equally good. Nothing could be better for motoring, for traveling and for general utility wear, and there are a great many appropriate materials. Wool serge and cheviot suggest themselves once more. The coat is good for the duster as well as the coat of warm and pongee, mohair and linen all can be made in this way. There are just front and back portions and there are darts from the shoulder edges of the fronts that achieve all necessary fitting. The sleeves are the regulation two-piece sort with rolled over cuffs. PAID SCANT HEED TO STARVED SON

Father of Emaciated Six-Year-Old Boy Rebuked by Judge Starr. The cautious attitude that Albert Fleming displayed yesterday afternoon in the juvenile court when he appeared to answer a charge of neglect and non-support of his six-year-old son, brought forth a heated reprimand from Commissioner Starr, by the side of whom stood the little chap, pale and emaciated from his recent experience and bearing obvious signs of the slow starvation to which he had been subjected. In the father's story it appeared obvious that he wanted to lay the blame of the child's condition on the mother, who left her husband some time ago and is now supposed to be in New Ontario. Fleming stated that as he had no person to keep house for him and as he was working, he didn't want the boy or his wife after him. He was remanded until the 20th on his own bail of \$500, and in the meantime the Children's Aid Society will look after the boy. The police are following up a clue that the expect will enable them to locate the mother of the child.

PARISHIONERS HONOR THIS BRIDE

Marriage of Miss Nellie Corbett Is Marked by Special Ceremony. In recognition of her valuable services in the choir and in the general work of the parish, the marriage of Miss Nellie Corbett to Mr. Ernest J. Malone, which took place yesterday morning in St. Francis' Church, was marked by the celebration of a solemn nuptial high mass, the first in the history of the parish. A special pre-dieu draped in scarlet cloth was placed for the bridal party in the sanctuary, and the altar was radiant with many flowers and fragrant blossoms. Tall vases of gladioli were also placed at the open gate of the chancel. Rev. W. A. McManis, pastor of St. Francis', officiated, and sang the mass. He was assisted by Rev. Wm. Fraser, as deacon, and Rev. Father Culane as subdeacon. Rev. J. Minahan was also in the sanctuary. The bride entered with her father, wearing a traveling suit of white whip-cord cloth, with hat to match, and a corsage bouquet of lily of the valley, the only note of color being the pale blue ribbon of the sash of which she was a member. The bridesmaid was Miss Vera Corbett, sister, dressed in pale blue crepe-de-chine, and carrying a sheaf of pink sweet-peas. Mr. Percy Kennedy, a cousin, supported the groom. During the ceremony, Gouin's Ave Maria was sung by Miss Marie Corbett, sister of the bride, and Miss Genevieve Kelly sang Miliar's Ave Verum and presided at the organ. So popular was the bride, that the pastor, departing from the usual custom, addressed the large congregation after the ceremony, referring to the exceptional work done by Miss Corbett, since her childhood up for not conceit, mind, for that is vastly different. And a child who has this moral foundation is well equipped to acquire the greatest courage—namely, the courage to fight life's battles. Small discouragements, or better, big misfortunes, will not utterly cast them down they can conquer all things and achieve greatness thru tribulation.

REV. DR. YOUNG MAY BE CHOSEN

Broadway Tabernacle Pastor Likely to Succeed Rev. T. E. Shore. Rev. Dr. Young of Broadway Methodist Tabernacle is the most-talked-of probability for appointment to the position of general secretary of the Methodist Foreign Mission Board. Rev. Dr. T. E. Shore's resignation will take effect in October, when the board will make the appointment. Rev. Dr. Young was a prominent member of the Montreal Conference until last June, when he came to the Broadway Tabernacle pastorate. He possesses a strong personality and is an impressive preacher and speaker. Rev. Dr. Endicot, one of the mission board field secretaries, is also favorably spoken of for the general secretaryship.

ORANGE FILLING A delicious filling for a layer cake is this: Mix the juice of an orange with a tablespoonful of grated rind, a tablespoonful of lemon juice and half a cupful of cold water, and let it boil for two minutes. Then strain. Mix together a tablespoonful of cornstarch, a pinch of salt and pour the boiling orange mixture over it and cook for seven minutes in a double boiler. Beat up an egg, add to the mixture in the double boiler and cook for two minutes longer. Then add a tablespoonful of butter, remove from the fire and let it get cool before using. This is an excellent filling, too, for cream puffs.

LONG SHOT LANDS FORT ERIE FEATURE

Flora Fina Wins the Dominion Handicap Cleverly on Opening Day.

FORT ERIE, Aug. 6.—The second and final meeting opened here today with a large attendance, tho' the weather was threatening. The feature event, the Dominion Handicap, went to the long shot, J. W. Johnson's four-year-old brown filly, Flora Fina, who came to the Canadian circuit from Kentucky. Robert Davies' First Night, the two-to-one favorite, was unplaced, and at no stage of the race could he get to the leaders. Flora Fina, who was 12 to 1 in the betting, had an inside position, took the lead after going the first quarter, and led the race, and saved ground all the way. Donora, Flabbergast and Hamilton were always in close attendance, tho' the Buxton had a rough passage on the latter in the stretch. Flora Fina pulled away to a rather handy victory, while Donora, Flabbergast and Hamilton placed money. Hamilton, 3 1/2, finished a head behind Flabbergast. Summary:

FIRST RACE—Purse \$500, three-year-olds and up, selling, 4 furlongs:

OLD DUCKY HOLMES BEATS FORMER BOSS

Bisons Held to Five Hits by Former Buffalo Pitcher and Indians Win.

NEWARK, Aug. 6.—(Special.)—Harry Smith of the Indians sent Ducky Holmes to the box for today's session with Buffalo, from whom he had obtained the pitcher only the day before, and Holmes held his former mates to five hits, the Indians winning out in the tenth, 2 to 1. A double by Higgins, an infield out of Holmes and a safety by Collins produced the victory. Score: Indians, 2; Bisons, 1.

MARKET HAS NOW STRUCK STEADY GAIT

Investors Are Beginning to Look For Bargains in Canadian List.

UNDERTONE B U O YANT

High Grade Issues Lead in Movement to Higher Level.

For the first time in a long while the Toronto Stock Exchange seemed to strike a steady gait, yesterday, a really buoyant market developing under the influence of a sustained demand for the high-grade issues.

The present low range of values affords a chance for profitable investment such as has not been offered in years past. Numerous of the old-established securities, with a great deal of merit behind them, have been depressed to levels where handsome yields are afforded, and the public now seem to be waking up to that fact.

Brokers have taken great pains to call the attention of their clients to the great opportunities now presented, and while there is no likelihood of any spectacular movement, everything points to a continued gradual appreciation.

The best showing was made by such issues as Toronto Railway, which rose another fraction to 139 1/2, its best price in two months.

Other securities which advanced were the highest since June, Twin City, which advanced to 105, its best in considerable time, and other stocks of the merit.

LONDON MARKET IS FEELING THE HEAT

Usual Slack Speculation Marks Summer Period—C. P. R. Shows Weak Tone.

LONDON, Aug. 6.—Money was plentiful and discount rate presented a cheerful tone, general slackness prevailed. Consols advanced to 107 1/2, the highest since June, 1912.

BUSINESS ACTIVE ON NEW YORK CURB

Toronto brokers may complain about the paucity of business these days, but there should be no kick coming from the New York curb.

Bank of England discount rate, 4 1/2 per cent. Open market discount rate in London for short bills, 3 1/2 per cent.

WILL PASS THE DIVIDEND.

BOSTON, Aug. 6.—It may be definitely stated that Boston and Maine semi-annual preferred dividend of \$3, due Sept. 1, will not be paid.

Advance in Corn Prices Weakens Stocks in Late Dealings.

NEW YORK, Aug. 6.—The outstanding feature of today's professional and frequently stagnant stock market was a temporary further rise in the Union Pacific shares, based on gossip that some distribution in the form of cash or stock may follow the company's sale of its Southern Pacific holdings.

RAILWAY EARNINGS SHOW SMALLER GAINS

United States Systems Report Larger Increases Than Our Own Lines.

Railway earnings in Canada this month are not maintaining the splendid record of early in the year, as the falling off in the C. P. R. weekly traffic returns indicates.

The United States systems are making a slightly better showing, the gain for July (three weeks) being 4.8 per cent., compared with 7 in June, 8.2 in May, 2.7 in April, 5.5 in March, 4.1 in February, and 13.9 in January.

MILLIONS LOST IN OIL COMPANY SHARES

LONDON, Aug. 6.—The oil share market is proving very disappointing to those who invested in haste during the recent boom.

COST OF LIVING IS LOWER IN BRITAIN

LONDON, Aug. 6.—The cost of living decreased slightly during the month of July, according to the Statist.

U. S. FAILURE LIST FOR MONTH OF JULY

Commercial failures in the United States during July were greater in number than those of June, but fewer than any other month of this year.

STEEL PRICES ARE NOW ON DOWN GRADE

NEW YORK, Aug. 6.—Steel prices appear calmer. In east sales of steel plates have been made at \$1.09 a ton below recent quotations.

BIG CROP IN SIGHT IN SASKATCHEWAN

REGINA, Sask., Aug. 6.—With harvest only two weeks away the following is the estimate of Agriculture for the 1913 wheat crop.
