sider Gas Machines.

There was a great deal of talk on Saturday in circles interested in the motor truck business, to the effect that some of the larger cartage firms in the city are about to abandon horse cartage and do all their business by means of motors. The strike of the teamsters has brought a matter which has been under consideration for some time past, to a definite head. It is pointed out that motor trucks are built for both heavy and light freight, that the drivers' wages are settled by a trade union scale and that the transportation of freight could be more speedily undertaken with motor traction than horse hauling. The relative costs of the two sarvices are being worked out and a seturned soldier living at 236 Euclid avenue, was found dead in bed at his home on Saturday evening after he had committed suicide by cutting his throat with a razor. Mr. Fowler left a note to his wife and child, who were away on a holiday, in which he bade them good-bye, and hoped that God would forgive him. The epistle was signed "Daddy."

The neighbors had missed Mr. Dewart as leader, for the leadership largely determines to the character of the party for the time being at least.

Mr. Dewart was not only opposed to the formation of the vigorous prosecution of the war and the support of the men overseas, but in co-operation with mr. Murphy he led all the diverse elements in our population in Ontario hostile to Union government and Canada's war policy, and put fortil his utmost efforts to defeat both. It is true his efforts in Ontario hopelessly failed and only eight members were returned to support in whole or in part the policy he advocated.

# ROWELL DISCUSSES LIBERAL CHIEFS AND PARTY CONVENTIONS

vation of Dewart as Ontario Leader.

## SAYS PROHIBITIONISTS

Cannot Follow Provincial Head of Opposition.

Ottawa, July 13 .- In answer to enquiries from his constituents in Durviews on the recent Liberal convention in Ontario and the Liberal convention in Ontario and the Liberal convention to be held in Ottawa in August, Hon. N. W. Rowell, president of the privy council, has made public a letter he has written to Mr. W. J. B. Davison, one of the leading Liberals of Port Hope. The letter reads as follows:

Ottawa, July 11, 1919.

Dear Mr. Davison—You have asked my opinion as to what the Liberal-Unionists in Ontario should do in view

of the hostile attitude shown at the recent provincial Liberal convention in Toronto toward the Liberal Union-ists and the choice by that convention of Mr. Dewart as leader.

In the fall of 1917 the Liverals of Canada were acutely divided over a great national issue, involving the future of our country and the support of our gallant defenders overseas, but this division did not extend to provincial politics in Ontario. Both sections tions of the party co-operated under the temporary leadership of Mr. Proudfoot, whose sound Liberalism, integrity, courage and unselfish pa-triotism must be appreciated by all

Surprised by Convention.

Prior to the meetins of the Toronto convention I confidently antic.pated that this co-operation would continue and that the policies for which the Liberal party had fought for so many years would be supported by a united provincial party. The convention has changed the whole situation. The ill-liberal and intolerant attitude of one continue of the party apparently largely Cartage Firms Affected by Leaves Note to Family on Mr. Proudfoot and other Unionist L.beral, shows that co-operation at the present time is impossible in provin-cial politics. No one will question the right of Mr. Dewart to entertain such views or his right to the support which such views will bring to him, but it is inconceivable that the men and women who demanded the inclusion of a prohibition platform and the tens of thou sands of Liberals thruout Ontario whose views they represented can whose views they represented, can ever follow an anti-prohibition leader, London, July 13.—Seldom has any much the higher price of coal will in-people received such a swift and vivid lesson in practical economics as the lesson in practical economics as the

and toward the continuance of Union government, and you have intimated that the Liberals who supported me in the last election are anxious for an indication of my views at this time. In reference to the proposed convention in August, as you are aware, it was not called by the Liberal members of the house of commons, but by Mr. McKenzie, as the leader of that section of the Liberals opposed to Union government. As you are no doubt aware, of the 132 Liberals elected to the house of commons, fifty were elected as supporters of the Union government and \$2 opposed; and of the 69 Liberals elected to the house of commons outside of the province of Quebec, 49 were supporters of the Union government and 20 opposed; the Union government and 20 opposed; of the 52 Liberals elected west of the Ottawa River, 42 were supporters of the Union government and ten op-

While, no doubt, some Liberals who supported the Union government will attend, the convention will not be in a position to represent or speak for the Liberals who supported Union gov-

The Liberal Unionists must decide for themselves, irrespective of the action of the August convention, the course they should pursue in the light of the same high considerations of national duty which guided them when joined in forming and support-

ing Union government.

As to the continuance of Union government a brief review of the present situation will, I think, be the best answer to your inquiry. In the election in December, 1917, 153 members were elected as supporters of the Union government, and \$2 as supporters of the Opposition. Of the Union were elected as supporters of the Union government, and \$2 as supporters of the Opposition. Of the Union government, 103 were Conservatives and 50 Liberals. There can be no question that the present parliament was clear to to support a Union government side, and a party government side and a party government side and a party government of the country for the remainder of the present parliamentary term. If the Union government must be dissolved, there approved a country for the remainder of the present parliamentary term. If the Union government must carry on a government of the country for the remainder of the present parliamentary term. If the Union government must carry on or we must have a general election. So far as I am aware neither the friends nor the opponents of the government with the government with the approval of both sides of the house, did not proceed with a general franchise act in force upon which a general election of the council of five process this view that the government with the approval of both sides of the house, did not proceed with a general franchise act in force upon which a general election of the council of five in Paris, repeated that the government with the approval of both sides of the house, did not proceed with a general franchise act in force upon which a general election of the council of five in Paris, repeated that the government with the capporal of both sides of the house, did not proceed with a general franchise act in force upon which a general election of the council of five in Paris, repeated the process of the process of the paris of the process of the paris of the process of the paris of the pa

The report of the industrial commission appointed by the present government is now before the government for consideration, and the government has promised to call a conference, including provincial and federal authorities, employers and employes, to consider this report, and the action which should be taken thereon, in order to establish better and more permanent relations between employer, and employe and capital and labor in Canada.

It is quite clear, therefore, that the task for which the Union government was formed and the platform on which it was elected has not yet been carried into effect.

If it is the duty of the government to carry on it can only do so by the support of the Liberal Unionists in the house. #### GERMAN PROPAGANDA WORKING IN CANADA

Cyril Maude, upon his return England, according to The London Times, June 27, says he has done his share to formulate a rightful feeling in the United States and Canada for the old country. There is, Mr. Maude says, a vast amount of propaganda work still awaiting us (England) in Canada as well as the United States. He was astonished at the under-ground and effective work done in

France as a lieutenant in the aviation corps, was shot dead in sight of a large crowd leaving a baseball park here today.

Jos. Mumteterto, alleged to have fired the shot, was roughly handled by the crowd, and was taken to police with first degree murder. He said that Squires had jostled him as they were leaving the park. Squires was getting into an automobile with his fiancee when he was shot.

Preserving the Art of Informality and Ease, This Willow Furniture is Ideal for the Verandah

XTRAORDINARY the effect upon one's wellbeing in these dog days of a cool-looking, secluded retreat, which offers restful chairs and dispenses hospitality! A table holding books and magazines, and the tea-tray at the appointed hour, low reed chairs, softly cushioned in chintz, a fernery reminding one of the cool, mossy depths of the woodsand behold the verandah has become a veritable bower of luxury, and all through the magic aid of this furniture of reed and willow.

In that soft French grey finish which is so restful there are chairs and settees of fine reed. Fine, sweeping curves are characteristic of these beautiful pieces, and they are cushioned in the new chintz, striped in black, with stiff little posies. Deep side-pockets for magazines appeal to all book lovers, and an old ivory finish vies with the grey for your approval. Prics are as follows: Settee, \$69.50; arm chairs, \$45.00 each; table, \$28.50. The chintz cushions, with Marshall springs, are priced \$34,50 for the three.

The day couch, in its lines recalling the Empire, may be found in old ivory enamelled fibre, closely twisted so that the surface is very even. Birds of strange plumage and blue roses mingle on its cushions,

We watched and eavesdropped shamelessly the other day in Jubilee Park, and truly it was a delight to see mothers and children of all ages and sizes sitting down under the trees in pure enjoyment of their surroundings.

Feet and hands keep time to the music, and songs—especially the old favorites—are listened to with breathless attention, "Rocked in the Cradle of the Deep," sung in the deep, mellow tones of Mr. Ruthven Macdonald, wins all hearts, while tears are furtively wiped away after "Loch Lomond" or "I Love a Laddie."

Then there are happy

Lomond" or "I Love a Laddie."

Then there are happy family parties sitting round the tables — father and mother, aurite, sister and the littlest one—all enjoying Jubilee ice cream. Over by the lagoon stands a crowd all a-gazing, while anxious mothers wait on the bank watching the children bravely sail about in bright cances. They need have no fear, however, for that friendly gentleman, Mr. Bruce Ridpath, is an expert canceist, and the children are safe in his hands. Best of all, perhaps, the other day was the piper. One might well call him the "Pied Piper," though his kilts were of tartan, for at his heels followed everywhere a string of urchins, solemn and serious, intent on the music and the march. Do you wonder, then, that people love to find their way to this wonderful park? The concerts take place from 10 to 12 a.m. and from 1 to 5 p.m., and at any time you may order iced drinks, sundaes and cake.

There are small kewpies gambolling together round and round the lamp, or bigger members of the family eye one

roguishly as they uphold the light, or sit lost in meditation.

The little "slaves of the lamp" are all color ed in white

and faintest pink. Some are garlanded with flowers, and to descend to prosaic details, they have cords covered in white silk, and are priced at \$6.75, \$9.00, \$10.75, \$13.00 and \$14.00, according to size and the degree of

"Perplexed."—Hearty approval of your fancy for blue in that tall dining-room—blue cutains and blue rug against a warm-toned grey wall. A large patterned fabric would be best, considering the height to which the windows tower. There are two or three glorious chintzes in which the blue is enlivened with big shaggy purple petals. Price, \$1.50 a yard, 30 inches wide. One of them shows as well a few dashes of Indian red and all three have lots of green foliage and touches of golden brown. If the seats of the chairs are also done in the chintz—might have little loose pinafores of it covering the backs as well—the general effect could not help being charming. Your delft blue rug and walnut furniture would be in keeping with the general scheme. A grey paper can be had in oatmeal, stippled, plaster or painted effects, priced from 17 cents to \$2.00 a roll. The popular stippled papers are 80 cents and \$1.50 a roll, and run 30 inches wide. How nice to have the old-fashioned chimney-piece!

"Boscobei."—Bewaling a high ceiling—you and "Perplexed" are brothers in affliction. A "drop" ceiling should improve matters, the white paper carried down about two feet and finished off there with a picture moulding. # CITY AND COUNTY HOUSING METHODS

One Too Complicated for, Buyers—Other Simplicity Itself.

Builder Says Houses Under Act Not Comparable With Others.

The old saying, "Who goeth a borrowing, goeth a sorrowing," is as true today as when the copy book heading was coined many generations past. It is aptly iliustrated at the present time in the case of the Toronto Housing Commission and the industrious citizen making application for a loan

Presenting himself at the palatial offices in the Temple Building, corner of Bay and Richmond streets, he is taken in hand by one of the several satisfied as to his bona fides and that the applicant is a British subject, prehim with an application form containing four pages of printed mat-ter which he is instructed to read carefully and fill in and swear that "the within instrument and duplicate were duly signed and executed" before a magistrate of the city of Toronto in the county of York.

The intending borrower agrees to, among other things, "repay to the said commission the total amount of the advance required with interest at the rate of five per cent. per annum computed from the date when the last advance shall have been made, in 240 equal monthly instalments of princl2 pal and interest combined and when required by the commission to execute and deliver to the commission. an agreement for the repayment of the said loan and interest in monthly instalments, and for the purchase of said property in such form and con-taining such terms, conditions and covenants in all respects as the said tended. commission shall require and failing. neglecting or refusing to execute and deliver the said agreements mentioned in above clause, on demand, the said lands and buildings erected thereon if any, may be forfeited to the commission and the commission may retain said lands, buildings and premises as its absolute property and treat the applicant as wrongfully in possession of the said land and prem-

charge. "Applications for sites from the Totonto Housing Commission are not as gratifying as they might be," said a prominent official connected with the commission who points out that some have already withdrawn their applications.

In sharp contrast to the Toronto Housing Commission's scheme, the housing commission of the township of York is simplicity itself. The resident of York township making application for a loan at the York township offices is handed a simple form which can be filled in and handed to secretary, J. A. Martin, on the pation of applicant, if a British subwith a few other particulars is neceseary with his signature.

# PARIS COMMENCES PEACE CELEBRATION

Soldiers and Civilians Dance Thru Night in Public Squares.

Paris, July 13.—Celebration of the coming of peace, which will reach its climax in the victory parade of allied soldiers on Monday, the national holiday of France, began last night. Soldiers and civilians participated in open-air dancing thruout the night in the public squares, edecked for the victory fete.

Soldiers were very popular as dancing partners, and, despite the inclement weather, joined with the girls of Paris in the intricacies of tango steps on the wet asphalt pavement of the Place De La Bourse, the Place De La Republique, and the Place De La Madeleine until the early hours Sunday. The dance music varied from string orchestras to noisy, plebian jazz bands. Most of the cafes were closed because of the strike of waiters. In Memory of Dead.

There was one spot in the city, however, where there was no dancing. In the shadow of the Arc De Triomphe, sadyed and black-garbed widows and orphans gathered to watch the workmen inish the erection of the cenotaph in nemory of those who died fighting in the war.

Returned men figured largely in the procession thru the streets and some of the banners were a reminder of the part members had played to defend "the grand old flag." One lodge came along with the declaration that one in every four had been overseas, and when the E. F. Clarke contingent and when the E. F. Clarke contingent marched along preceded by a soldier bearing aloft a Union Jack and a tastefully decorated automobile with the representation of a lady in the front part holding the red, white and blue colors, it was announced that 70 volunteers from this body had responded to the call. The artistic display which had been arranged for the latter lodge evoked cheers from the thou-sands who lined the streets.

proached, the weather, which had been threatening all morning, was none too promising, but this did not deter a big turnout, and the spirits of the brethren were not in any way dampened by the gloomy portents. By ten o'clock quite a crowd had gathered near the corner of Grosvenor street and Queen's Park, and with the advertised hour of 10.30 close at hand the Orangemen, with their scarfs and sashes, brass, fife and drum bands playing, and the strains of the bagpipes also heard, had converted the strains of the bagpipes also heard, had converted the strains of the bagpipes also heard, had converted industrial, commercial and social training. To this is added the quickened sense of Divine Guidance and protection now so general among right-thinking people, chastened and purified nationally as never before and our highest hopes for future advance rest upon a foundation incapable of being shaken."

"There is not a lodge in the Orange order that has not a large honor roll able to the veterans with the spirit which can never be subdued on a Twelfth. About 80 Toronto lodges were represented, and among others from "At the present time of the present time of the present time of the present time of the present time."

Mayor Was on Hand.

A good deal of interest was manifested in the appearance of Mayor Church, on account of the prominence which had been given during the week to his omission from the speaker's list at the Exhibition. Those who had charge of the speaking arrangements may have forgotten, or passed over, the chief magistrate, who is a member of the order, but he did not forget the Twelfth. Spotlessly dressed, and with a countenance indicative of his being in the best of spirits, the mayor was in the days go by, people generally will fear that, as the days go by, people generally will forget the sacrifices these men in the sacrifices these men in all wars that the returned soldier's life of returned here is a very short one. # Prepare for the Peace Celebration

The coming of Peace is an occasion of sober thankfulness. The almost intolerable relief that the signing of the armistice brought might find expression in wild excesses, but with peace itself it is different. It is a long-anticipated and confidently-expected event, and the possibility is that we may look on it coldly and fail to give expression to any rejoicing. Yet more truly than any previous event in our national history does it call for the display of the national colors and the Empire's flag. The last five years have given it a new meaning and a deepened significance, so fly the old flag on peace day for the sake of what it has stood for during this time, beside the emblems of our brave allies. But as we Even the Ontario license comm said before, if Great Britain can break the price, and has the ships to move the wheat from other quarters, she will try to do so. The business men and the governments of the day are

watching wheat. As for Canada, the grain growers of our western provinces passed a resolution in Winnipeg on Friday last, which practically is a request, or rather a demand, on the Dominion government that they too fix the price of wheat. While it is veiled in another way to regulate the marketing of wheat it really means to make the price the same as in the United States. The Canadian farmers have good reason for believing that the American market will be closed to Canadian wheat as long as the American government are guaranteoing the price of \$2.26. The Canadian price, therefore, will be watched with the greatest interest, and one of the encouraging things is that the crop conditions thruout our western provinces have improved very considerably within the last few days owing to rains followed by favorable growing weather. It did look a few days ago that we would have rather a small wheat crop, and at the very best we can only expect an average one. Labor Unions' Demand.

The question agitating the country, particularly politicians, is whether the government proposes to adopt the demand of labor unions for nationalization. Winston Spencer Churchill, secretary for war, told his constituents in Dundee during an address in the last election campaign that the government had decided to nationalize the railways. Conservative members of the Lloyd George coalition cabinet opposed this bitterly and appear to have carried the day. Andrew Bonar Law, government leader in the house of commons, said in the house on Wednesday:

"It is utterly impossible that an industry like coal should be subsidized out of the taxpayers' pockets."

Sir Eric Geddes, speaking on the transport bill, said:

# English Jockey Club's Ban Against Germany Likely to Be Followed By France and U.S.

Likely to be followed by France and U.S.

C. J. Fitzgerald in a letter from New York emphasized the opinion that the decision of the English and Belgian Jockey clubs to bar from participation in racing and the refusal to accept for registration in the English Stud Book any allen enemy horses will be a crusling blow to the horse preeding activities of Germany, Austro-Hungary, Bulgaria and Turkey.

Thorobred sires, most of them of Engreat army and a vacing studs developed by Germany and Austria-Hungary. The best were none too good in the establishment of a type of general purpose horse. The English Derby winners Ard Patrick and Galtee More each cost \$110,-600. The Thousand Guineas winner Kirk Convelled and Study General purpose to let the enemy reap any benefit from the thorobreds. any alien enemy horses will be a crushing blow to the horse preeding activities of Germany, Austro-Hungary, Bulgaria and Turkey.

Thorobred sires, most of them of English lineage, were the foundation of the great army and racing studs developed by Germany and Austria-Hungary. The best were none too good in the establishment of a type of general purpose horse. The English Derby winners Ard Patrick and Galtee More each cost \$110,-000. The Thousand Guineas winner Kirk Connell and St. Maclou, the grand sire of Harry Payne Whitney's Vindex, were among the other fine sires that were available to farmers and breeders at a security of the sires and the security of the sires that were available to farmers and breeders at a security of the sires and the security of the sires that were available to farmers and breeders at a security of the sires that were a sire of the sires that the

seem to be that the allied turf authorities do not propose to let the enemy reap any benefit from the thorobreds they pilfered during the war, and also the fact is driven home with cruel force that they lack the sportsmanlike qualities so essential on the turf.

When Gerald L. Stead was in this country two years ago he said that his father, the noted New Zealand breeder of thorobreds would not have a market. conneil and St. Maclou, the grand sire of Harry Payne Whitney's Vindex, were among the other fine sires that were available to farmers and breaders at a nominal fee. The Russian government originally purchased Galtee More, and he was subsequently acquired by Germany chiefly on the recommendation of Count Lehndorf, who had charge of the great Prussian stud at Graditz.

The records of the English Stud Book show that for the twenty years prior to the outbreak of the war 2250 entire thorobreds—some of which were foals at the time and were subsequently gelded—were imported from Great Britain by Germany. During the same period there were approximately 2000 fillies taken from England for German account. It is reasonable to assume that during the same time heavy drains were made upon French and Belgian studs.

The French Jockey Club has not as yet taken any formal action regarding allen owned horses, but they may confidently be expected to follow the lead of their allied and neighbors. England's great turf events are open to the world, but France has with few exceptions no big turf prizes for horses foaled outside of the republic. Spain, which has within the past few years, taken great strides in racing and breeding, chiefly due to the active sympathy and participation of King Alfonso, whose norm de course is Duke of Toledo, will probably furnish an asylum for German turf-

Day at Yonkers-Rider Suspended.

New York July 12.—The summer meet-James Butler's Yonkers track was inaugurated this afternoon with the runding of the Empire City Handicap of \$5000, and five other evenly balanced and attractive events. The handicap was won by George D. Widener's imported son of Llangibby, Lantus, with C. M. Garrison's 3-year-old, Be Frank, second and J. E. Griffith's Spur, third. Loftus gave the Llangibby gelding perfect handling and his clever work was chiefly responsible for the victory by a neck, as Be Frank finished with a terrific burst of speed after meeting early interference and turning wide for home. In the Katonah Highweight Handicap, at about three-quarters of a mile, S. C. Hildreth's Peter Pan gelding, Out the Way, found' the distance and track to his liking and scored a rather handy victory over the speedy field that opposed him. Quietude dropped into second place, while Bill McCloy took the third division of the 2.10 pace, won in three straight heats. Summaries:

Vorkshire Society C.C. and West Indians met on Saturday at Trinity College in their C. and M. League game. Yorkshire won the toss and decided to bat. Greenwood and Dyson opened for Yorkshire, with Tunbridge and Gittens bowling, Greenwood had made nine when he was very cleverly caught by Ross off Gittens. Yorkshire could not do much with the bowling, six wickets falling for 32 runs. Geldard and Pickard played very nicely together, Geldard making 16 before he was bowled by Gitters. Pickard was run out when he had got nicely set, having made 12, the inning closing for 79. Greenldge and Barton opened for West Indians, but they could do nothing with Marsden and Murray, Gittens 13, Tunbridge 5, Salisbury and Collins 4 each, being the only scorers, all the side being out for 45, For Yorkshire, Marsden took five wickets for 16, and Murray five for 21. ### Albions C.C. Win From Grace Church

The Albion C.C., having completed their Montreal tour, returned to meet Grace Church C.C. in their league game on Saturday at Vaisity. Their tour was one of real enjoyment and satisfaction to every memoer of the team, they having won two games out of three, losing to McGill's picked eleven and winning from Westmount and Vickers. The visitors were well entertained by the home cluos, and hope before long to have them visit Toronto.

THE "ST. LAWRENCE ROUTE" VIA MONTREAL—QUEBEC-LIVERPOOL Megantic .....July 15, Aug. 16, Sept. 20 Canada .....Aug. 6, Sept. 6

The Alexandra Yacht Club held a race for 16-foot skiffs over the bay course on Saturday. Barnes Bros'. Zephyr was over the line first, lapped by J. Gordon's Topsy, closely followed by J. Gordon's Topsy, closely followed by J. Orange's Stroller. At the finish of the first round the Zephyr ha da lead of one minute and 25 seconds on the Stroller, and the Topsy was third 4 minutes and 15 seconds behind the leader. In the second time round the wind died out, and John McAuliffe (so it is rumored) gave a great exhibition of kow a lady's fan should be used, while Capt. Jas. Batt of the Zephyr was busy watching the "chickens" aboard the steamer Jarmine, enabled the Stroller to pass the Zephyr. In the meantime the crew of Topsy decided they would like some fresh caught fish for supper, so put out their drag net, which held them back.

The First Victory The story that he has to tell is a simple one n September, 1908, he entered a saloon under the impression that it was a real estate office, and there he met a girl. He attempted to then left and went to his hotel across the street. On turning around the girl was beside him with tears streaming down her face. "You have shown me the light; I am going back to nother. I will never sin again." She at that time was going by tismal name of David Kidd.

The girl kept her promise, and later he received letters from the father, who resided in Florida and also held vast properties in Australia, Brazil and Mexico, and was adopted by Mr. Bryne with the proviso that his name be added to Mr. Kidd's. "I "I was to share his cotate," said Mr. Bryne

# RICHEST MINES IN WORLD IN SUDBURY-PORCUPINE BELT

Nickel, Gold and Silver Deposits of Creighton, Hollinger and Miller Lake---O'Brien Mines Are Pre-eminent---Lack of Roads Has Held Back Silver Belt.

In the rich mineral belt between many failures in the Gowganda-Elk Sudbury and Porcupine we have the Lake silver belt. The contact zones sudbury and Porcupine we have the greatest nickel, the greatest gold, and the greatest silver mines in the world. The Creighton nickel and the Hollinger Consolidated gold mines are well is rich in the white metal. The Creighton nickel and the Hollin-632 ger Consolidated gold mines are well known, but the Miller-Lake-O'Brien. Northern Ontario is, in fact, more 116 in Gowganda, is comparatively new to fully endowed with mineral wealth fame. As a producer of silver alone it has now no rival in the western in the world. With railways to its misphere. It has more of the white metal in sight than any two mines at colors, the ore is just 000. We want the railways. They Cobalt, and, moreover, the ore is just as rich, and, besides, it gives every vidence of extension to great depths.

There are many occurrences of siler in the Gowganda-Elk-Lake disrict, but there have been many failures in attempting to obtain the metal in quantity. This is because the operators were unable to distinguish between mere cooling or shrinkage cracks in the diabase and real veins,

geological conditions are unequaled in Ontario. The metal has come by direct segregation from an igneous magma, in which there were many active mineralizing. in which the metal is found is very soft, being about one-half secondary calcite. This, with the unusual size of the deposits, will greatly reduce

Then in the great mineral belt already referred to, 60 miles south of Porcupine and 30 miles southwest of Matachewan, is the now well-known gold camp of West Shining Tree. If conditions for exploration had been favorable it would now be a real rival of Porcupine. Kirkland Leke with mining costs.

Then in the great mineral belt alof Porcupine. Kirkland Lake, with good transportation facilities, is in

tween mere cooling or shrinkage cracks in the diabase and real veins, and the the bureau of mines failed to give any information. But the distribution of silver is general over a wide area, and anyone with even an average knowledge of ore deposits can easily keep clear of the mistakes which have wrecked so many mining companies in the past.

For our future supplies of silver. Ontario must look to this section. It is the most promising in the province. Cobalt has seen its best days. Its deposits are largely superficial.

Matachewan Gold Area.

The Matachewan gold area is on the north side of this silver belt. Mining men now believe that it will probably give to Omtario additional world-beaters in the way of gold mines. The Mining Corporation of Can. 5 371 377 pounds.

good transportation facilities, is in second place, but a long way behind. In fact, the great weight of mineralization in northern Ontario seems to be well west of the T. & N. O. Railway, and much of it along the Montreal river and its tributaries. But the district has been poorly served in the matter of transportat.

Wagon Road layed.

The government have been for years tinkering with a wagon road into the silver belt, but the work of one season has been largely undone by the elements before the next season arrived. To get into Shining Tree they, in a measure, improvised two utterly inadequate water routes. Dams were erected, all low-lying lands flooded, and much valuable timber destroyed.

measure, improvised two utterly inadequate water routes. Dams were
erected. all low-lying lands flooded
and much valuable timber destroyed.
Then attention was turned to a wagon
road. All the money should have been
applied to this in the first place, for
the country from the railway to Shining Tree is favorable for road-making
or for railway construction.

But all the work heretofore is a mere
makeshift; a pure waste of money.
Depreciation is 75 per cent. per year.
Then there is no revenue to meet this
annual charge, and, besides, wagon
roads make very little difference in
mining costs.

What these great mining regions
want is a railway brinsing them into
touch with existing system, so that
machinery and supplies could be delivered at the mines without transshipment.

In the absence of railways into the
lost. Unfortunately, we have a government without any initiative or policy. It waits on public opinion. Conscription in Britain and here was thus
delayed, notwithstanding the appalling
sacrifice involved.

Lack of Transportation.

So our great mining regions
our great mining regions
in the world were found in Ontario by
chance. But their success is beyond
peradventure. The T. & N. O. Railmines, but it was cheerfully assumed
by a former government in order

Gain by B. C. Fishing and Heavy Trading in Iron Other Features.

Montreal, July 13 .- Wayagamack's recovery of two points in active trading, the strength and activity of B. C. Fishing, the heavy trading in Iron, the continued active demand for the Ames-Holden stocks, and the general tendency to take profits over the week-end, were the outstanding fea-Stock Exchange on Saturday.

# SHARP ADVANCE BY B. C. FISHING

Canadian Locomotive Is Also Decidedly Strong-Spanish River Active, But Easier.

New York, July 12.—Starting at a moderate pace, today's brief session of the took market soon became active on reserved buying of speculative shares, specially tobaccos and motor accessories.

The more properties the chief feature is a gain of virtually five points.

U. S. Steel was variable at the outset, but developed marked sirength toward the close, gaining almost two points, willo Crucible Steel made a sudden rise of six points.

Coppers were not vory responsive to the in-dent price quoted for the refined metal, silbs Anaconda. Utah and American smelting hardened with the general list in the sweeping uprush at the end.

The more prominent reatures were american and Lorillard Tobacco, United Clars, Ajax Rubber, Kelly-Springfield and Keystone Tides, U. S. Rubber, Mexican and Pan-American Petroleums, Guir States Steel, Central Foundry, Penna Seaboard Steel and several of the food saues. Sales amounted to \$25,000 shares.

The bank statement presented no noteworthy changes, actual loans showing only a nominal increase, despite the week's active stock dealings, while an increase of about \$25,650.000 in reserves represented only a partial recovery of the preceding week's large contraction.

Trading in bonds lacked special feature, but Liberty issues and underlying bonds of secondary transportations were steady to firm. Total sales, par value, aggregated \$4,375,000.

KERR LAKE HAS PLAN TO REDUCE CAPITAL

New York, July 12.-Kerr Lake Mining Company directors have devised a plan to make a capital distribued a plan to make a capital distribu-tion of \$1 a share, thereby reducing the capitalization from \$3,000,000, or 600.000 shares of \$5 par. to \$2,400,-000, or 600,000 shares of \$4 par. In all probability a special stock-holders' meeting will be called for Aug. 1 to ratify the distribution (which vir-

tually amounts to four quarterly dividends of 25c each) and approve the reduction in capitalization.

According to a director, this action is due to the realization that the mine is being rapidly depleted. If, he added, another ore body of substantial proportions should be developed later on, this might result in the resump-tion of quarterly dividends.

# RAISING BLOCKADE STRENGTHENS CORN

Fear of Crop Damage by Hot Winds Another Bullish Factor.

Chicago, July 13.—Corn advanced rapidly today, owing to the broadened speculative demand which followed raising of the blockade against Germany. The market closed nervous at 2½c to 5½c net advance, with September \$1.95½ to \$1.95¾, and December \$1.64% to \$1.64%. Oats gained 2c to 2¾c, and provisions 20c to

gained 2c to 2%c, and provisions 20c to 50c.

Most of the corn trading was in the December delivery, which ascended to a new high level for the season. Sentiment favoring an upturn on the ground of renewed trade with Germany was based largely on opinion that packing-house products and other foodstuffs, including grain, would be in keener export demand. In this connection, the fact that new high price records had again been reached in the hog market formed a decided element of strength. Besides, abnormally high temperatures southwest tended to arouse fear of crop damage by hot winds, and it was urged that the December option had been pressed altogether too low as compared with September. Under such circumstances, even radical bears evinced little desire to sell short.

Oats climbed to the topmost price on record for the September delivery. Adverse crop reports were mainly responsible.

Provisions were lifted by the strength

#### TRADE IN TORONTO

Toronto reports to Bradstreet's that retail business is very good, but wholesale houses are in the midst of summer dullness. Retail trade has wholesale houses are in the midst of summer dullness. Retail trade has been improved thru the resumption of the street car service. Thousands of rural people kept away from the city for ten days or so thru the lack of transportation. In the wholesale houses the dulness is attributed chiefly houses the dulness is attributed chiefly to the travelers taking vacations. The fek travelers covering Ontario territory still report very good business and good prospects for fall trade. Delivery of fall lines continues very favorably, tho some of the drygoods houses report that they have not secured sufficient woolens to enable them to fill all orders and that only a percentage of certain lines is being forwarded. Wholesalers and manufacturers are handicapped thru a strike of four hundred railway teamsters. Goods are not being delivered and most of the shipments leaving town are conveyed from the warehouses to are conveyed from the warehouses to the stations by means of private

# THE SECRET

portieres-splendid rugs, and what a wonderful davenport!" So remarked Miss Blanch Bronson to her flance as they strolled home one summer evening after a visit to the home of her friend, Bessie Glendenning, recently a bride. "Yes," answered Bert Bradwin, "But I cannot understand how Giendenning managed to pay for it all." These were plain remarks in a casual conversation, and did not indicate curiosity on the financial affairs of their friends. But just now it was a very interesting question for this young couple, because they contemplated going housekeeping themselves as soon as Bert could conveniently furnish a little home. Bert had a good position and had been earning a creditable salary for some years, but his present bank account was not sufficient for all their plans. Their idea was to buy a little home, pay something on it and have enough left over for furniture and the thousand and one other little things which new homekeepers require.

A few days later in the afternoon Blanch was enjoying a cup of tea in her friend's home. Suddenly Bessie with a tone of direct enquiry said, "Blanch, why don't you and Bert get married"? "Well, we intend to, Bersie, just as soon as Bert adds a little more to his bank account," replied Blanch. "Oh, that's the cause of the delay. I understand your position, because Glen and I were in the same difemma for a long time ourselves. But one day

Explaining their convenient plan of selling home furnishings. of the Home-Lovers' Club the next day. We bought all our house furnishings on the club plan and paid exactly the same price as if we had paid spot cash But we saved" (here she paused and looked wistfully at her friend) "many long, long, months of wait-Blanch listened attentively as Bessie explained how the and Glen had managed and how splendidly it had all worked out. On her way home she had much to think about and when Bert called to see her that evening, she told him the whole story. After carefully considering the proposition, they came to the conclusion that buying furniture on the Simpson plan was just like putting money in the bank, only much easier in their case.

So, another wedding was announced much sooner than it might otherwise, have been. Of course, as the proverbial story ends, Blanch and Bert were married and lived happily ever after-
