# FOR SKITTS TO PAMPER THE CAPITALISTS' WORK

## Ontario Power Co. Gave Low Rate to City of Niagara Falls, N. Y. for Franchise, But Fellows Know How to Eventually Win Out.

Niagara Falls, N. Y., Sept. 15.—(Special.)—There is food for reflection (and the people of St. Catharines, Brantford and other cities who are being asked to hand out valuable franchises to the electrical combine should ponder over it) in the proceedings of the Niagara Falls Board of Aldermen concerning the right and privileges of the power magnates. It all goes to show, and what The World's Service of the citizens and aldermen confirms the view, that the corporations seeking privileges are willing to pay for those privileges if the members of the council have sufficient backbone to insist on a quid pro quo.

The City of Niagara Falls gave a franchise to the Ontario Power Transmission Company three years ago, and the quid pro quo was an offer of power for municipal purposes at \$10 per horsepower. This was not considered too good a return for what the city was granting the transmission company.

Last year, however, the company saw its way clear to get a more advantageous franchise. Influences had been at work for two or three years, and the election of a pliable board of aldermen and the Ontario Power Transmission Company were the result. The company applied to the city council for a franchise. It was introduced on the 19th last, and after three readings in one night, contrary to the wishes of the citizens, and only by the aid of the aldermen, it was passed. The franchise was granted to the Ontario Power Transmission Company, and in its place there was created the Niagara, Lake Ontario and Ontario Power Co. The franchise was granted to the Ontario Power Transmission Company, and in its place there was created the Niagara, Lake Ontario and Ontario Power Co.

## Some Company Gives Ontario City a Rate of 5 Cents Per Kilowatt Hour, But Falls From Window.

Niagara Falls, Ont., Sept. 15.—(Special.)—This city holds an agreement with the Ontario Power Co. (Payco) by which electrical energy is available for the use of the municipality at \$10 a horsepower.

The city will furnish this power to manufacturers at cost price.

By an old agreement with the Canadian-Niagara Power Co. (Rankine) the company is bound to deliver power to the municipalities at \$18 per horsepower.

The Electrical Development Company of Ontario (Mackenzie-Nichols-Pellatt) has made no agreement with the city, asking for no concessions and receiving none.

The concession of the Ontario Power Co. is certain to the corporation in return for a period of ten years, so far as the agreement holds until the year 1914, and if the citizens of Niagara Falls so choose it is renewable for another ten years.

The terms of the agreement are duly set forth in chap. 68, statutes of Ontario, 1903. The agreement was ratified by a town bylaw and this in turn controlled by the same individuals. This company's obligations it says: "As soon as its plant is ready for operation and continuously thereafter for a period of ten years, so far as due diligence enables it to do so, to furnish continuously to the corporation, if so required by it at the present rate, three phase alternating electric current, approximately 25 cycles at a pressure of not less than one thousand electrical horsepower."

In consideration whereof the Town of Niagara Falls agrees as follows: "The company shall maintain absolutely the corporation, or hereafter to be acquired by it, shall be exempt from taxation on the land, buildings, machinery, and all other real and personal property now owned or hereafter to be acquired by it, hereof up to and including the thirty-first day of December, 1914, to the extent of all taxes in the valuation of the lands now owned or hereafter at any time owned or occupied by the said company or its successors, in proportion to the assessed value of the said lands, according to the assessment roll of said corporation for the year 1902."

## WOMAN FROM BROKEN NECK STAYS IN SLIPS, YOUTH FALLS

### Weak Ankle Causes Miss McCormack to Trip on Stairs—Man Falls From Window.

A weak ankle is blamed for the death of a Miss McCormack, who died last night from the results of a fall down stairs at 129 Jarvis-street. She was about 30 years of age, and was but slightly known to Mrs. J. L. and Mrs. J. L. McCormack.

About half past eight last night as Mrs. Bell was sitting in her parlor on the ground floor of the house she heard a fall on the stairs. On investigating she found Miss McCormack, to whom she rented a room above a week before, on the floor at the foot of the stairs. She started for the stairs, and only utterance the injured woman gave was a groan. She did not speak or make any sign of recognition.

Being placed on the sofa she breathed heavily once or twice and then expired. The accident, which was practically instantaneous, and that the woman had not been conscious after her fall, her husband was notified.

For the first time since her arrival in the house Miss McCormack attempted to come down stairs without a lamp. It is thought that her ankle, which she told Mrs. Bell was weak, following an attack of blood poisoning, turned on her she started for the stairs, and was precipitated from the first to the ground floor.

Chief Coroner Johnson was notified, but it is not likely an inquest will be held.

Just one month before he was to have been married to a girl in old London, Albert Bracey fell from a window in the Imperial Hotel yesterday afternoon and broke his neck. Two hours later he died in the emergency hospital.

Bracey had only been in Canada for a few months. He came from Portsmouth, England, and was a mere 21 years of age. His arrival, his employment as porter at the Imperial Hotel, King and York streets. He was better than his job, and became a clerk, retaining, however some of his old habits.

Yesterday he undertook to clean some windows on the second floor. While standing on the sill he lost his hold and fell head first. He was hurled to the hospital, where it was found that his neck had been broken on the back of his head.

Bracey had not found Canada the El Dorado he had expected. He decided to bring to Canada his wife and child. His only reason for staying in Canada was to earn his passage money home.

## ACTUAL CUT EXCEEDS ESTIMATE FIFTY BUSH. TO ACRE TOP YIELD

### Returns of Threshing Could Not Be More Satisfactory—Reports From Few Widely Scattered Points.

Winnipeg, Sept. 15.—(Special.)—Returns during the past two days have delayed threshing somewhat, but returns to hand could not possibly be more satisfactory. Everywhere the same tale is told of the actual returns exceeding estimated yields, and even pessimists are beginning to concede that the general average will be away above the official estimate of 22.8 bushels per acre. Here are a few actual returns from widely scattered points.

Portage la Prairie: All cutting is done and about 25 per cent. of threshing finished. Few farmers have completed stacking, but mostly are stooked. Wheat is turning out much better than expected, and average for the plains will be between 25 and 30 bushels. Two remarkable wheat yields are reported here. James McCann, Treherne, Man., reports from different parts of the district as to yield per acre from 22 to 30 bushels and under mostly No. 1 hard and No. 2 northern. Some farmers confidently expect their crop of wheat will yield 35 or 40 bushels per acre.

Esterhazy, Sask.—Threshing has started around here, but will be delayed for a short time on account of the heavy rain last night. Anything that has been threshed so far has turned out better than expected. The grade will be good.

Carman, Man.—James Riddell of Roseburg, Sask., reports from 40 acres of wheat, which averaged 44 bushels per acre. This yield is credited to Mr. Taylor, the thrasher.

Carlyle, Sask.—E. Wallace yesterday threshed on his farm near here 35 bushels of wheat per acre. He has 200 acres that will give about the yield.

Graytown, Sask.—Cutting is drawing to a close, and thrashers are beginning to move; farmers are preparing grain room for such crop that was never known before.

Deliveries of wheat to the Canadian Pacific Railway yesterday were somewhat less than on Wednesday of this week, owing to rain. There is, however, no comparison between the amount received yesterday and the amount received on the corresponding day of last year. On Sept. 14, 1904, there were delivered to the company for shipment 18,000 bushels; yesterday there were received 214,000 bushels. A year ago on the same date there were loaded ten cars. Yesterday 196 cars were shipped. Comparison of total amount received up to date with amount received on corresponding period of 1904 shows a similar gain this year. In the first two weeks of September last season there were shipped 4,000 bushels. Up to the close of business yesterday there had been received 1,346,000 bushels. Last year, fifty-eight cars had been shipped at the close of Sept. 14. This year 560 cars were shipped in the corresponding period.

No grain of any consequence has yet been shipped from any point west of Portage la Prairie. The only thing has yet been done in the territories. Manitoba has done all the business, grain coming from almost every point in the province.

The shipment of wheat has now fairly begun, and there will be an cessation or diminution until the close of navigation in November.

## CONVENTION IN TORONTO TO ORGANIZE A NEW PARTY

### Hon. Joseph Martin's Speech Talk of Politicians and May Result in Action.

Winnipeg, Sept. 15.—(Special.)—There was a good deal of talk around the political clubs to-day regarding Hon. Joseph Martin's speech last night. Third party propositions have proved signal failures in the past, but it is generally realized that conditions now are ripe for such a movement, and the political clubs to-day are generally in favor of a party to be organized in Toronto in the not distant future.

There is good reason for supposing that the men behind the movement will announce a third party convention in Toronto in the not distant future, and the movement will be given such concrete direction as will result in placing candidates in the field at various strategic points.

From Southampton, Sept. 15, 1905. To Toronto: "Plant owned by private company. House-light, all night service, 25 cents per month, 15 candles. A. E. Belcher, Mayor."

From Campbellford, Sept. 15, 1905. To Toronto: "Under private ownership incandescent lamps are \$3 a year each; under municipal ownership from \$1.50 to \$2.50, depending on location. No meters used. Mayor."

Under private ownership incandescent lamps are \$3 a year each; under municipal ownership from \$1.50 to \$2.50, depending on location. No meters used. Mayor.

## NEW YORK LIFE'S CLUE TO REPUBLICAN CAMPAIGN

### THE DIFFERENCE. Gave \$48,000 in 1904 to Morgan to Assist in Defeat of Democrats—Contributions to Same Fund in 1896 and 1900

New York, Sept. 15.—George W. Perkins, member of the firm of J. P. Morgan & Co., and first vice-president of the New York Life Insurance Co., was the principal witness at to-day's session of the special legislative committee which is probing the insurance companies. His testimony was replete with details regarding the development of finance as applied by insurance companies. The climax of the day came when Mr. Perkins was asked concerning the special legislative committee "Ordered paid by the president."

Mr. Randolph, treasurer of the New York Life Insurance Co., who had been standing earlier in the day, had been sharply questioned to the purpose of this entry, but he was unable to explain it. He thought no one but the president could. Mr. Perkins had been called to testify as to some other transactions, and after the recess he was asked to produce the check which had been made out as payable to J. P. Morgan & Co. Mr. Perkins frankly stated that it was a contribution to the National Republican campaign fund, which had been considered an ordinary contribution to the campaign fund. It was paid by the New York Life Insurance Co. and was not a Democratic subscription.

Mr. Perkins said contributions were also made in 1900 and 1896. As an illustration of the first contribution made in 1896 was made in 1896 by President McCall, who is a Democrat. He contributed \$100,000 to the campaign fund, and voted for McKinley because he felt it was in the best interests of the policyholders of the New York Life Insurance Co. This statement caused a murmur through the room, which was crowded with spectators. Mr. Perkins was asked to explain this statement, and he said that it was a contribution to the campaign fund, and was not a Democratic subscription.

Mr. Perkins was asked to explain this statement, and he said that it was a contribution to the campaign fund, and was not a Democratic subscription.

## MAYOR NOT SATISFIED

Price Offered St. Catharines for Street Lights Too High.

St. Catharines, Sept. 15.—Messrs. Sutherland and Levy of the Ontario Power Co. are here endeavoring to reach some settlement with the city council regarding clause 10 of the franchise relating to power prices which was discussed last Monday night. Mayor Sweet said this morning that Messrs. Levy and Sutherland agreed that St. Catharines will have power 10 per cent. cheaper than anybody else in the Deering in Hamilton, who have a special agreement, and they see ready to reach an agreement with the city council. The mayor said that the prevailing one of \$72.50 per lamp for street lights. The mayor would not let that price be reduced, but he said it was not sufficient reduction and he expects to have it made lower.

## ROOSEVELT'S DENIAL NOT FINAL

Paris, Sept. 15.—The Petit Parisien will say to-morrow regarding President Roosevelt's denial of an alleged interview with its correspondent on the president's efforts to end the Russo-Japanese war.

"Our correspondent is crossing the ocean with M. Witte. Until he arrives we shall maintain absolutely the correctness of the interview in question."

M. Lagarde, our correspondent at Port-au-Prince, continues: "In a trial, we shall have the greatest confidence in him until we have a real reason to doubt it. I think the correspondent was not understood by President Roosevelt. In any case we must wait until we inform the president of an apologetic mood on our part."

## DISGRACE TO CIVILIZATION

In Maintenance of Turkish Power in Europe, Says Carnegie.

London, Sept. 14.—A deputation from the Slavonic Society of Moscow called on Andrew Carnegie at his home at 5, St. James's Park, and presented to him a diploma of honor and an ancient silver cup in recognition of his philanthropy and of his being the founder of the Temple of Peace at the Hague.

The president of the society, Colonel Spiridovich, entreated Mr. Carnegie's moral assistance to prevent another massacre in Macedonia. Mr. Carnegie promised to examine the appeal, and declared that the maintenance of Turkish power in Europe is a disgrace to civilization.

## PLACED OBSTACLE IN ROAD GRAND JURY CLEARS FARMER

Was Charged With Attempt to Wreck Auto—Young Man's Serious Offence.

In the sessions before Judge Morgan, William Wilson was found guilty on the charge of seducing Alma Ellis, who is under 15 years of age. The girl's story was that she and her sister went to Munro Park on Dominion Day. There they met two young fellows, who took them to their tent, called it "hotels," and they remained there until they were taken to a rooming house. They lived in the tent for a week with their friends, and had them arrested as vagrants.

Marsicano pleaded guilty to assaulting William Wilson.

Ellis, 14 years of age, who escaped from the reform school at Penitentiary, pleaded guilty to a charge of housebreaking and another of theft. He was committed to the industrial school at Blantyre for an indefinite period, which means he can be kept there until 21 years of age.

The jury decided Samuel Medoff, who was charged with stealing a bottle of wine, and as his honor remained about never have reached the sessions.

It will be good news to the farmers that the charge against George Arisek, the Sutton farmer, was thrown out by the grand jury. He was charged with placing an obstacle on the highway, and the original charge of injuring automobiles. The original charges of theft against Roy Miller, were also thrown out.

## GIRL DROWNS IN HUMBER CANOE UPSET WITH THREE

Only Daughter of Daniel W. Clarke, of Borden Street, Sinks, Tho Aid Was Near.

Humber Bay yelled another victim yesterday afternoon when Miss Clarke of 125 Borden-street, was drowned. The young girl, who is only 11 years of age, left the mouth of the river with three companions in a canoe about the middle of the afternoon. When about half a mile from shore the canoe upset. Her companions, knowing that she could not swim, attempted to catch her as she sank beneath the waves. They missed their grasp on each of the three occasions she rose to the surface.

The accident was seen by people on the shore and a boat was put out. The girls were holding to the keel of the overturned canoe, nearly exhausted from the buffeting they had received from the waves. When hauled on board the boat they could not give a clear account of what happened.

Charles Cuce on hearing of the accident immediately commenced grappling for the body. He could not place the spot where the accident occurred with any accuracy and the weeds proved to be a great nuisance.

The prongs of the grappling hooks dug before ten feet of the bottom had been reached. It is a late hour, and the dead girl was an only daughter. She was a great favorite among her schoolmates.

## MAN'S JAW CUT OPEN

Careless Operation on Telemus Victim Whose Face Was Solidified.

New York, Sept. 15.—An interesting operation was performed last evening at St. Gregory's Hospital by Dr. A. L. Nelson, upon William Case of Ontario, N. Y.

Case is 29 years old, married and works in a cannery factory. Thirty years ago he met with an accident from which lockjaw resulted. His teeth were "knocked" so that they would not grow together again while he was in the hospital. He was kept in the hospital for many months, but finally a small aperture was cut between the front teeth, through which he ate chopped food.

The operation consisted of cutting apart the jaw, and the jaw was split as the jaw as an even and natural location. Then the incised parts were "knocked" so that they would grow together again while he was in the hospital. He was kept in the hospital for many months, but finally a small aperture was cut between the front teeth, through which he ate chopped food.

## FOUND AT LAST

Jenkins Trolley Fender Endorsed by the Government.

The Ontario government have authorized the Jenkins fender for street cars. It has been tested on the Hamilton Street Railway for five months, and the Ontario government, Fairbairn and Mechanical Superintendent Quina have inspected it there.

The fender is made of steel, and is supported by two steel catches. On either side of the fender is a strong flat steel spring, which together have a downward strain of over one hundred and fifty pounds, all of which is supported on the above mentioned steel catches. The fender is made of 3-inch steel, and is 34-inch high, the ends of which are turned in and come in contact with the steel catches which hold up the fender against the downward action of the springs, so that the fender will not be thrown back on the track the above mentioned bar is the first to come in contact with it, and the fender will be thrown back on the fender, when the springs at once force the fender to the road before it reaches the object struck.

## DEATH OF EDWARD BLAKE

Second Son of Hon. Edward Blake Passes Away.

After only a short illness Edward F. Blake, second son of Hon. Edward Blake, died at his home at 449 Jarvis-street yesterday morning.

Deceased was 46 years of age. For some time he had suffered from anaemia and recently was taken to his bed. He had not worked since the beginning of September he returned to his law office intending to start work. He leaves a wife and four children. The funeral will be private.

Edwards, Morgan & Company, Chartered Accountants, 36 Wellington Street East. Phone Main 1105.

## MISTAKES MAN FOR BADGER

Hunter Fires at Another Who Was Lying Under Haystack.

Winnipeg, Sept. 15.—(Special.)—The shooting accident of the afternoon took place at Neobitt, Man., this afternoon. A young man named O'Hagan, recently returned from England, went out for a little sport, and game being scarce, he lay down under a haystack to read. While there another hunter named Swain, from Wawanesa, came along, and thinking he had caught sight of a badger, fired point blank and the whole charge lodged in O'Hagan's shoulder and face, which was horribly disfigured. If he does not die he will lose his sight.

## TO JOIN TWO COLONIES

Britain Proposes Union of Grenada and St. Vincent.

Kingston, Island of St. Vincent, Sept. 15.—The British government has issued a notice proposing a measure to unite the colonies of Grenada and St. Vincent to form a single colony. The proposal has met with strong opposition locally. Any attempt to force a bill to this effect through the legislature will cause serious dissatisfaction. A similar attempt in 1891 caused a disturbance, necessitating the presence of a British gunboat to restore order.

## ABOLISH MARRIAGE LAW

Tokio, Sept. 15.—(5.30 p.m.)—The committee of the lower house of the diet which has been investigating the recent disturbances with the industrialists, Premier Katsura to-morrow, on which occasion the committee will demand the abolition of marriage law and will organize a special committee of inquiry into police outrages.

## PATIENT HANGS HIMSELF

Victim of Acute Melancholia Takes His Own Life.

As the result of acute melancholia, which has kept him in Toronto Asylum for many years, Levi Shackleton, once a well-known and well connected farmer in York County, hanged himself in his room on Thursday morning. It was not Shackleton's first attempt at self-destruction. He was his first mental mania which first made him a prisoner in Toronto Asylum.

Since that time he has been perhaps the most closely watched of all the patients. On Thursday morning at 3 o'clock, the night attendant assigned to Shackleton's corridor looked in and found him apparently asleep in bed. He did not have occasion to pass along that way until 5 o'clock when he found the man hanging from the upper window sash by a sheet which he had knotted around his neck. The sheet was tied so loosely that it was marvellous how Shackleton had managed to kill himself.

Shackleton was 51 years of age, and of late years his mania has been so intense that his relatives have been compelled to keep him in the asylum.

## SUCCEEDS SIR HENRI JOLY

Government House at Victoria for George Riley, M.P.

Victoria, B.C., Sept. 15.—By some politicians it is said that George Riley, M.P. for Victoria, will succeed Sir Henri Joly as lieutenant-governor of British Columbia. Mr. Riley is a former resident of Ontario, and broke into politics by defeating E. G. Prior in by-election three years ago.

## DR. WALLACE AT HOME

Dr. M. Wallace, who was reported to be so ill in the St. Michael's Hospital a few days ago, operated on for tumor yesterday and left for his home later in the evening. His recovery, in spite of the operation, is doubtful, and his life will be missed very largely. Dr. Wallace's work among the poor in the case and was one of the features of his life.

## IRISH PARTY MEETS

London, Sept. 15.—The Irish members of the house of commons endorsed the policy and action of the party for the house of commons during the last session. The meeting pledged their full support to the Nationalists in the future. Resolutions were passed thanking the Irish people for their support of their continued support.

## ROBBERY OF JEWELRY

St. Louis, Sept. 15.—William Torchiana, publisher, Philadelphia Business Directory, returning from Directory conference at the Hotel Marlborough, Toronto, was robbed of seven hundred and fifty dollars worth of jewelry on the train.

## SECTION FOREMAN KILLED

Paris, Sept. 15.—Bloxon, a section foreman, was instantly killed last evening. Along with his section crew Bloxon was proceeding on the Jigger when the section was struck by a train. The section gang all jumped but Bloxon, who apparently did not see the approaching danger as quickly as his fellows. The flyer, going nearly 50 miles an hour, struck the unfortunate fellow, hurling him thru the air, death coming almost instantly.

## CHILD FALLS 200 FEET

New York, Sept. 15.—While picking wild flowers in West Hoboken yesterday morning little Florence Buchanan slipped at the edge of the Palisades and fell 200 feet. She was removed to a rocky ledge. She was removed to Christ's Hospital, but it is feared she has sustained internal injuries which will prove fatal.

## YELLOW FEVER RECORD

New Orleans, Sept. 15.—The yellow fever report to 6 p.m. follows: New cases 43, total cases to date 2565, deaths to date 2, total 33, new disease centres 6, cases under treatment 320, cases discharged 1544.

### MAKING A MINE

Developments on the Property of the Homestake Extension Mining Company Proving the Ground to Be Rich and Valuable.

Splendid Management of a Promising proposition—Work Done on a Small Expenditure of Money—Brings Surprising Results.

Eleven months ago there was formed for the purpose of exploiting and developing mining property a company composed of Illinois, New York and Canadian gentlemen and they selected the Black Hills as the place in which they would invest their money.

Some number of Canadian people have an interest in this mine, and several prominent citizens of Winnipeg have made a personal investigation.

### JULY ASSAULTS DECEMBER

Aged Husband is Beaten by His Two Months Bride.

Mr. Ben Durant, 76, of the Johns Daly, has got the reputation of being a husband-beater. As a result life is not of the happiest in the cellar of 133 Jarvis-street, where the couple make their home.

The union of this pair is the result of a mistake. Durant was due to get married a certain day in July last. The bride did not turn up. Johanna, decked in her best, was on the spot.

Last night Johanna was under the influence of liquor. She commenced her regularistic tactics. Durant's screams reached the ear of P. C. Gordon, who arrested her for assault.

### IN HONOR OF ROOSEVELT

New York, Sept. 15.—The public square of the Canton of Novio, in the province of Trentino, Italy, has been named in honor of Mr. Roosevelt, by order of the Canton's legislative body, in admiration of Mr. Roosevelt's share in concluding the peace treaty between Russia and Japan.

### COMING TO CANADA

(Canadian Associated Press Cable.) London, Sept. 15.—John A. Hobson, the well-known writer on economic conditions, sailed in the Bavarian on Monday for Toronto, to discuss the economic conditions of Canada.

Wedded at Penzance. A pretty wedding was solemnized in the Methodist Church, Penzance, England, on Sept. 14, by the Rev. Mr. and Mrs. L. A. Hall, was married to Dr. R. Y. Parry, B.A., Hamilton, the Rev. James Parry and Rev. J. M. Hugh Johnson officiating.

The bride was given away by her father. Her cousin, Miss Hall of Baggins, was maid of honor, and Miss Brothaupt of Berlin, and Miss Spohn were bridesmaids. The groom was supported by his brother, Dr. John R. Parry, B.A., Hamilton, and the ushers were C. A. Hall, E. K. Hall, E. F. Pacer and M. L. Parry. While the register was being signed Miss Davidson sang.

Torontonians who desire to see the football game at Galt today will reach there in plenty of time by taking the P. M. Grand Trunk train. Price of \$1.85 for round trip will be in effect.

## NATURE'S REMEDY.

Try a 50c Package.

For sale by all Druggists, or LYMAN BROTHERS CO., Toronto.

NATURE'S REMEDY is sold in 50c and \$1.00 packages by Messrs. Monro Bros. Parkdale; Hooper & Co., 45 King St. West; E. G. Lemaitre, 256 Queen St. West; J. R. Low, Queen and St. George St.; W. H. Cox, 786 Yonge St.; J. W. Wood, 770 Queen St. E.

### WATER OF TORONTO'S HARBOR

High Time It Was Realized

Noel Marshall Gives Pointer at Yesterday's Session of Waterway Commission—Lake in Danger.

The question of damming Lake Erie was discussed yesterday at the opening session of the international waterways commission at the city hall. An array of Toronto civic authorities and business men were on hand to defend the interests of this city in view of the threatened lowering of the water in Lake Ontario if the scheme were carried out, and the resulting ruinous effect upon Toronto harbor.

The chairman of the Canadian commission is J. P. Harker, M. P., and J. H. Ernst of Washington, D.C., president over the American section. The American commissioners present yesterday were George Clinton and Louis C. Sabu of Buffalo, S. Y. Wismer of Detroit was absent on account of illness.

On behalf of Toronto's interests there were also present Controllers Hubbard and Spence, Messrs. Feig, Lowland, R. C. Steele and F. G. Morley of the board of trade, Harbormaster Posthwaite, Noel Marshall and J. P. Elias. The question of building a dam at the head of the Niagara River to regulate lake levels is an American idea, broached by the American deep waterways commission.

The commission made thorough surveys and recommended the construction of a "regulating" works at the outlet of Lake Erie for the purpose of preserving the mean level of Lake Erie and the other lakes. When the commission considered their report, it was not acted upon because it was deemed necessary that more data should be obtained.

Not an Ordinary Dam. If the scheme is finally considered advisable in the interest of both nations, the engineers will be instructed to draw up plans and the schemes will be placed before the two powers.

"There is no intention of building a dam in the ordinary sense of the term. The works would rather be intended to regulate lake levels. There is no intention to raise the level of Lake Erie, the object being to preserve it at the present level."

"What would the effect upon Lake Ontario be?" was asked. "I am not at liberty to express an opinion," said the colonel.

"A period of low water," said Controller Spence yesterday when the commission opened "is a very serious inconvenience to us. If the dam would lower the water in our harbor it would be an incalculable disaster to Toronto, and we would have to offer the most serious opposition. This harbor is the most important port of refuge on Lake Erie."

### Must Keep the Depth.

Harbormaster Posthwaite said that he was of the opinion that the harbor should be kept open for vessels drawing 14 feet of water. The harbor was already laboring at a low stage.

"The Don freshets carry down an area of five acres, 5 feet deep, of material every year according to an engineer's estimate.

"This has to be dredged every year. It was estimated that the lowering of Lake Ontario's level would increase our difficulties," said he. "The resources of the harbor would be exhausted long before we could cope with the difficulties."

"If Lake Erie, larger in area, is raised 2 feet the result will be that Lake Ontario's level will be reduced by 2 feet 9 inches," he said. "The water level will be restored when the water reaches the top of the dam, but there will be no way of getting it back to the feet 9 inches. If we could build a breakwater across the St. Lawrence we could prevent this, but that cannot be done."

Mr. Coste "Have you ever any trouble with the water in your harbor?" "That is a local matter. We have had it 47 inches above zero. Sometimes the water is high, and it is superior, while we have low water here, and vice versa. In this respect each harbor is independent of the others," answered the harbormaster.

Mr. Coste asked if the problem would be solved by giving Lake Erie an extra foot of low water and take away a foot at high water.

Mr. Mabee interposed, "Just a word to correct any possible misunderstanding. The proposition is not that the mean level of Lake Erie should be raised two feet, but that it should be preserved, and to prevent the abnormally low water occurring there at regular intervals."

Engineer Rust thought that the lake level would not be affected except in very dry weather, when the excessive evaporation would make a difference.

The power companies at Niagara were protesting, and Mr. Coste raised the question that anything hurting the power companies would hurt Toronto, because the city was dependent on the great deal of power from the falls.

Benefits the Other Fellow. J. F. Ellis believed that Lakes Erie and Ontario being so closely connected, low water in one meant the same in the other. Lake Erie could not be raised without a corresponding lowering of water in Lake Ontario.

"The benefits will largely accrue to the American ports on Lake Erie," said Mr. Howland. Canadian ports on the north side would not gain by it.

Noel Marshall referred to Toronto harbor as an invaluable possession, which had not been properly appreciated. In the matter of coal alone it was worth half a million to the city. The raising of this question would be a good thing for the harbor, and it would make the people realize the value of the harbor.

Mr. Mabee said the commission was appointed in the business interests of the two countries. It was only naturally that it should assist the American interests without hurting her own and was a matter of good business judgment.

Toured the Harbor. Yesterday afternoon the Island Queen was chartered and the commission was taken around the bay and out in the lake in charge of Engineer Rust.

### HE FEELS AS YOUNG AS EVER

Mr. Chester Loomis Took Dodd's Kidney Pills.

And from a Used up Man He Became as Smart as a Boy.

Orlando, Ont., Sept. 15.—(Special.)—Mr. Chester Loomis, an old and respected farmer living in this section, is expressing his appreciation of the good news that Dodd's Kidney Pills are a sure cure for the Lame Back and Kidney Disease so common among old people. Mr. Loomis says: "I am 76 years of age and smart and active as a boy and I give Dodd's Kidney Pills all the credit for it."

"Before I started to use Dodd's Kidney Pills I was so used up I could hardly get on my feet, and I could not do any work of any kind. Everybody thought I would not live long. Dodd's Kidney Pills are a wonderful remedy. The kidneys of the young may be wrong, but the kidneys of the old must be wrong. Dodd's Kidney Pills make all wrong Kidneys right. That is why they are the old folks' greatest friend."

TRAMP'S LOVE FOR A DOG.

Altho Perhaps Fatally Hurt, Thought of His Pet.

Waterbury, Conn.—Patrick Ryan, very ragged, not overclean and in every way a thorough representative of the tramp type, tried to steal a ride to Bristol on a Highland division freight train yesterday.

"Oh, let me and the pup ride," pleaded Ryan from the bumpers when the brakeman discovered the pair. "We're mighty tired and the pup ain't feeling right."

The brakeman let them alone. Half way to Bristol the motion of the train made the terrier ill. He licked Ryan's grimy hand and whined pitifully.

"All right, doggies," said Ryan; "if you can't stand it we'll get off." Ryan edged his way out to the end of the brake-beam, holding the terrier carefully in his arms.

"It's all right, my comin'," cried Ryan, and leaped. His foot slipped, caught in the brake ladder, and he pitched under the wheels. When they picked Ryan up his right arm was out of his left leg crushed and his head a mass of bruises.

GETTING INFORMATION OUT OF PA. My pa, he didn't go downtown. Last evening after tea, But got a book an' settled down As comin' as could be, I'll tell you 's was outful glad To have my pa about me.

And why the wind come back? And why does water stay in wells And why do June bugs hum And why do I hear in shells And when will Christmas come? And why the grass is always green, Instead of sometimes blue? And why a bean will grow a bean, And not an apple, too?

And why a horse can't learn to moo And why a cow can't neigh And why the fairies live on dew And what makes hair grow grey? And then my pa got up an' said, "The awful words he said, I hadn't done a thing, but he said I'd sent me off to bed."

FOR RACE WEEK FASHIONABLE OVERCOATS The paddock is one of the essentials in the wardrobes of particular dressers.

We have the finest fabrics—made to your order in distinctive fall styles. Special price \$35.00

YOUNG MEN'S AND BOYS' CLOTHING!

To merit the good opinion of young men and boys during those years when they are most critical in the matter of dress is the aim of this department. Its steadily increasing business is the best indication of success. The theory is that what we have well hold. The good opinion of the younger generation will crystallize into good steady business when boys become men.

Take these examples from our Fall showing: 45 Boys' and Youths' Raincoats, olive, Oxford grey and fawn cover coats; also grey and black checked tweed effects, made up in the long single-breasted Chesterfield style; lined or unlined; sizes 24 to 31; regular 6.50, 7.00 and 7.50. While they last Monday...

Boys' New Fall Two-piece School Suits, made up in the latest single-breasted Norfolk jacket styles, with shoulder straps and belt, in a dark blue or English tweed, with colored overplaid, good Italian cloth linings and strongly sewn; sizes 24 to 28. Monday... 3.00

Boys' Fine Imported English Tweed Two-piece Norfolk Suits, new Fall weights, in a dark grey stripe with colored overplaid, loose box plait style, with self belt; sizes 24 to 28. Monday... 3.50

Boys' Dark Navy Blue and Black Serge Three-piece Suits, made up in single and double-breasted styles, good Italian cloth linings and splendid fitting; sizes 28 to 34. Monday... 4.50

Youths' Fine English Tweed Long Pant Suits, in a neat grey and black check with colored overplaid; coat made single-breasted, with good interlinings and body linings; pants cut medium width in legs; sizes 33 to 35. Monday... 7.00

Strong Boots for Strong Boys These are Boots that will see any boy through the Winter, no matter how bad his "boot record" may be. They are made of heavy black Canadian leather, with solid soles and heels. In spite of the advance in shoe prices lately announced from Montreal, we will sell these shoes on Monday—sizes 11, 12 and 13—for 99c. 250 pairs Boys' Boots, heavy black Canadian leather, heavy soles, solid leather heels—maker's new advanced schedule makes it impossible to continue these at less than 1.25—this lot, only 11 to 13. Monday... 99c

Our Dollar Hat "Can't be equalled at the price in the Dominion for quality and style," so says the hat man. Come Monday, or any other day convenient to you, and judge for yourself. We take a special pride in showing this particular hat.

Men's Derbys and Soft Hats, made in latest styles of the most popular shapes worn for Fall and Winter of 1905, pure quality English fur felt, in colors black or tabac brown, in six different styles. Our special 1.00 price.

New Underwear for Men Since the Summer made so hurried an exit, you've probably been thinking about Underwear. Some people will want to get right into their Winter flannels, so we've provided for them the best there is in the heavy weight class. Others who like to make a more gradual change will find new Fall weights at less than half the marked price. In the same way we have provided for the passing of the negligee shirt and the resumption of starch.

Men's English-Natural Wool Shirts and Drawers, Winter weight, double-breast, ribbed skirt, cuffs and ankles, full fashioned, fine and soft; sizes 34 to 44; regular price 1.50 per garment. Monday, 1.25 per garment. Any garment shrunk in washing will be replaced.

Men's Fine French Balbrinigan and Merino Underwear, broken lines from our regular stock, in plain pink, blue and natural shades, small, medium and large sizes; regular 75c and 1.00 per garment. Monday... 39c

300 Men's White Laundered Shirts, full dress, open front, and short bosom, open back—a manufacturer's clearing lot—all perfect goods, every size except 15—there's the reason, regular price 1.00 and 1.25. Monday... 55c
