GIRL KILLED BY CAR FOOT CAUGHT IN RAIL

Fatal Accident to Violet Norton, Aged 12, on Hamilton and Dundas Railway.

HAMILTON, Nov. 19.—(Special.)—An appalling accident occurred at Dundas this evening, resulting in the death of Violet Norton, a 12-year-old girl, thru being run over by a Hamilton & Dundas car. The accident happened about 5 o'clock and the girl died at 10 o'clock to-night. Her foot caught between the rail and the planking of one of the crossings near the canal, and when the car approached from the city the girl was pinned between the motor man and the car. He did not realize her predicament and believing that she merely wanted the car to stop so that she could get on, allowed the car to run past her. The girl threw her body away from the track, but the wheel crushed her leg as far as the knee. It was the intention to bring her to the city hospital, but her condition was too serious owing to shock and loss of blood, and she passed away at her home. She was the daughter of Edward Norton, Planter-street, Dundas. Coroner Rickart will open an inquest in Dundas to-morrow morning.

Wm. Cornell was arrested to-night because a man named Barnard, who went his bail after he was committed for trial on a charge of perjury, thought he was going to leave the city. Cornell was arrested with a number of other young men in a room at the corner of King and Catharine-street in July, 1906, and charged with gambling with several others who denied that they gambled in the room, and the perjury charge arose out of this. The cases were to have been taken up at the sessions next month, and it is said that Barnard learned that Cornell intended going to British Columbia to get work. He became anxious and had a warrant issued for Cornell's arrest. The prisoner denies that he had any intention of leaving the city.

The board of works consulted with representatives of Barton Township and Wentworth County this afternoon with relation to the building of a permanent sidewalk on Barton-street from Sherman-avenue to near the Jockey Club. The deputation wanted the city to take over the road, but this was not satisfactory to the aldermen. They wanted the county to agree to the payment of 40 per cent of the cost of construction, and the city to take over the road, but this was not satisfactory to the aldermen. They wanted the county to agree to the payment of 40 per cent of the cost of construction, and the city to take over the road, but this was not satisfactory to the aldermen.

Ray Goes Back. Roy Voelker, who ran away from the industrial school at industry, N.Y., and who succeeded in eluding the officers who had papers for his extradition to the United States, consented before Judge Silder to-day to go back and finish his term.

Banquet to Hon. J. M. Gibson. All arrangements have been completed for the complimentary banquet to be tendered by the citizens to Lt.-Gov. Gibson, in the Royal Hotel, on Dec. 1. Miss Ella Richardson, of the Clatsop, who are on the bill at Bennett's Theatre this week, had a narrow escape from serious injury last evening when an auto which was being driven by a driver from the Jolley Club was overturned by the breaking of the steering gear.

REV. DR. CREWS APPOINTED. Successor to Rev. Dr. Withrow as Editor of Methodist Publications.

The Methodist Book Room committee yesterday appointed Rev. Dr. Crews, general secretary of Sunday schools and Epworth Leagues, to the editorship of the Methodist publications, in succession to the late Rev. Dr. Withrow.

PROF. BELL'S HOMESTEAD TO PROVIDE A MEMORIAL. BRANTFORD, Nov. 19.—The sites committee of the Bell Memorial Association announced to-day that the former homestead of Alexander Graham Bell, inventor of this telephone, on Telegraph Heights, near this city, where the telephone was invented, will be acquired as part of the memorial scheme. In addition, a \$25,000 monument will be erected in the city and unveiled probably in the summer of 1910.

Trainer Committed. CHATHAM, Nov. 19.—(Special.)—Ernie Crummer, well-known on the track as a trainer and driver, against whom a charge of perjury was preferred by Fred H. Brisco, was sent up for trial by Judge Houston to-day. Crummer was released on \$600 bail. He formerly drove Brisco's racehorse, Goldie Brisco.

### OF INTEREST TO WOMEN

**DEATH AT MORNING.**  
She died when dawn was sweeping o'er the land, When morning glories lit the gleaming wall; And one who watched her, holding her pale hand, Whispered, "Alas! that she should miss it all."  
The early sun, risen from his dark night, Flamed his great banners when she went away; And one said, "Lo! at coming of the light She has gone forth, and lost the beautiful day."  
But she, from her poor mortal house of pain Gladly released, went singing to God's place, And cried, "Dear Lord, after the bleak world-rain, I cannot bear the brightness of Thy face!"  
Charles Hanson Towne.

#### Mrs. Astor's Will.

NEW YORK, Nov. 19.—By the will of Mrs. William Astor, probated today, most of her estate goes to her daughters, Mrs. Charlotte A. Halg, and Mrs. Caroline S. Wilson. To her son John Jacob Astor are bequeathed some family heirlooms and jewelry, the will stating that his not sharing more largely in the estate is because of the ample provision made for him by his father, and not because of any lack of affection. The Asylum for Destitute Blind receives \$5000 and a butler the same amount. The estate is to revert to William Vincent Astor, her grandson, and son of John Jacob Astor, if there are no descendants of her daughters.

**Suffrage Meeting.**  
A public meeting of the Canadian Suffrage Association will be held in the Normal School Theatre Thursday afternoon at 8 o'clock. Hon. Thos. Crawford in the chair. The program is: Mrs. O'Hara Craigie, legislative chairwoman for the State of New York; Mrs. Miriam Brown's report; delegate to International Suffrage Alliance, Amsterdam; Mrs. Flora MacD. Denison (report), United States National Suffrage Convention; Dr. Augusta Stowe Gullen, president C.S.A., "Suffrage Movement of the World."

#### Women Can Vote.

MELBOURNE, Australia, Nov. 19.—The Victoria Legislative Council has passed the bill empowering women to vote at state elections. This bill previously has been rejected several times. The women throughout Australia have now won the right of suffrage in both commonwealth and state elections.

#### DON'T YOU WANT TO HELP?

In reference to the appeal in yesterday's World, asking for assistance toward securing the release from the Quebec quarantine of a woman and three children en route to her husband in Toronto, a telegram was received yesterday that the medical expenses incurred there total \$75. Two \$1 subscriptions were received yesterday by The World.

#### In Society.

Baseball War and Rumors

NOTE AND COMMENT

Fred Coleman, whose death came unexpectedly at St. Michael's Hospital yesterday, was well-known locally 15 to 20 years ago. He was a business partner of the late C. J. Smith, whose mammoth proportions were also familiar to the downtown resorts in those days.

Mr. Coleman was one of the original directors of the York Riding Club that was incorporated by the late Mr. Keatchie and Fred Haskins, also deceased.

The presence of Gov. Hughes in Massey Hall will surely be incomplete without the presence of the quiet, which could be considerably improved by the addition to the dope editor of the "Hiss Whiskers" if he could sing.

In his annual address to the shareholders of the Ontario Jockey Club yesterday, President J. E. Seaman pointed with pride to the splendid year that had been enjoyed at Woodbine Park.

A well informed mechanical engineer, returned from abroad, where he spent the principal automobile factories of England and France, and inspected the new models of the leading German and Italian makes, observes that two tendencies in construction stand out prominently above all others.

The first is the wide adoption of the shaft drive among makers who have heretofore produced none but chain-driven cars, and the other is the abandonment of ball bearings for crank-shafts, in favor of plain bearings.

There are indications, says The Rochester Herald, that the Royal Canadian Yacht Club will not take part in a race for the Canada's Cup next summer, provided the local club should decide to re-purchase the trophy from Skipper Hanan again.

BIG MINORS DEMANDS

The following are the concessions to be asked for from the National Baseball Association and the American League:

(1) Separate class for the American Association and the Eastern League, which shall provide for a working agreement between the major leagues and National Association clubs.

(2) American Association and Eastern League to be allowed to draft one man from class A clubs and two from class B clubs (unless class B clubs prefer to draft unlimited).

(3) American Association and Eastern League to be allowed the privilege of drafting from National Association clubs at the same time as the major leagues and at the same prices.

Toronto For New Major League Promoted by the Bolting Minors

Pat Tebeau Tries to Entrench Himself by Purchase of Franchise in Buffalo—Waiting for New York Meeting.

NEW YORK, Nov. 19.—As further evidence that there is a scheme on foot to organize a new major league to include Toronto, made up of the leading promoters of the American Association and the Eastern League, it was learned on excellent authority yesterday that for a week past George Tebeau, owner of the Kansas City and Louisville clubs in the American League, has been trying hard to buy the franchise of the Buffalo Eastern League Club.

Tebeau recently tried to sell his Kansas City Club to Clark Griffith and Chas. Thorpe of this city, the plan, it is said, being to shift that franchise to New York, but the deal was not closed.

Chauncey Olect in "Ragged Robin," a romance of the south of Ireland in 1800 will be the attraction at the Princess Theatre, beginning Monday evening next. The play will have much interest for students of the Celtic folk-lore, as it introduces many delightful bits of fairy superstition, incidental to the primary story.

Italian grand opera by a company of 150 people comes to the Princess Theatre next week, Nov. 26, 27 and 28. In the New York Sunday Telegraph Mr. Brennan (the critic) spoke of the closing performance of the Abrahamson Opera Company's season as follows: "The house was crowded at the evening-performance, and there reigned an Italian enthusiasm. The season has been prosperous and so encouraging to Ivan Abrahamson himself that he will attempt to leave or build a theatre and place popular opera on a sound and established footing."

The show that gets away from the old field and cuts out a new line is put up by C. B. Arnold's Novelators, who are booked for next week at the Gayety. The big comedy comedians in "The County Fair" and "In the Justice's Court" are the features. Bob Van Osten, the funny little fellow, with the comedy nose, is the best known member of the company. Every Thursday night the chorus girls give their version of vaudeville, and on Friday the amateurs appear.

"GIVE US YOUR SONS' GRAY OF KNOX COLLEGE"

Impressive Inauguration of Principal Gandier at Toronto University Convocation Hall.

The inauguration of Rev. Dr. Gandier as principal of Knox College was marked by a notable academic and public function in convocation hall last night. Sir Wm. Mortimer Clark presided. The platform was occupied by a large proportion of the members of the faculties of the federated colleges of Toronto University. The audience filled the spacious edifice and included a large contingent of Knox College students, who enlivened the proceedings by college choruses of tributes to the retiring principal, Rev. Dr. MacLaren, and of welcome to the new principal.

The chairman said that in the appointment of the new principal the board of Knox College had introduced a marked change. It was not intended that the new principal should be called upon to do much teaching, but rather devote himself to the administrative work, and to placing the needs of the college before the church. The church membership had, he believed, failed to recognize the importance of the theological colleges. An educational ministry is the foundation of the progress of the Christian Church. Presbyterianism has a very strong theological faculty. At no time was this of quite so great importance as at present, when the Dominion is being settled by newcomers from all parts of the world.

It would not do for the Presbyterian Church to send out half-educated ministers. There would be little danger of this if the Presbyterian colleges of Canada were adequately supported. With confidence he commended Principal Gandier to the loyal and cordial support of the Presbyterian churches of Toronto and the Dominion.

Rev. Dr. MacLaren received an ovation. The retiring principal briefly expressed his faith that the strong evangelical teachings of Knox College would be continued under his new head.

New Principal. Principal Gandier was welcomed with prolonged applause. He was from lack of recognition of the importance of the work of ministry as a Christian pastor, that he had accepted the principalship of Knox College, but because it was a call to serve the whole church. It was a high honor to be called to follow with a college and to carry on a tradition of a fine evangelical fervor of missionary spirit.

The time had arrived when Knox must come into closer connection with the educational and social life of the students of Toronto University. The board of management had already secured the best possible site for the new building, a little northwest from convocation hall, facing on the campus. It was too much to expect that Gandier had accepted the principalship of this city and province provide a structure worthy of that suburb situation? A study of the history of Knox College for the ministry an accuracy of statement and power of observation, and often special access to some element of the past, and the new minister should also seek to have at least a working knowledge of the languages in which the scriptures were originally written, and of Greek philosophy.

There were to-day a large number of crude thinkers, ready to settle questions which crions of a distinct special character by shortcut methods. Theological students might with advantage study social science and history. They should train themselves to receive in their work. He trusted that Knox College would be increasingly a vitalizing center of missionary spirit.

Knox College had two great things to ask from the Presbyterian Church. First, the direct interest of the membership. For nearly thirty years Knox had asked the church for no real effort on its behalf. Its modesty in this respect had led some to think that Knox College was "in a going concern." He came from a college which was not guilty of that sort of thing. Queen's almost died, her alumni white in demands on her loyalty.

Call for Men. The second call of Knox College upon the church was for men for the Christian ministry. Most earnestly he would beg the parents within the Presbyterian Church in Canada to bear in mind the fact that Knox at this hour of need of the laymen's movement for missions. This cry is "Give us your sons."

Honorary Degrees. The following were presented for the degrees of D.D., viz., Prof. Kilpatrick, Rev. Frederick B. Duval, moderator of the assembly; Rev. Daniel M. Gordon, principal Queen's University; Rev. Daniel J. Fraser, Montreal; Rev. J. D. Fleming, Manitoba College; Rev. Donald McMillan, Shanghai, China; in absentia; Rev. Wm. Farquharson, Durham, Que.; Rev. Wm. J. Clark, Westmount, Que.; Rev. J. McD. Duncan, Toronto.

Rev. W. J. Clark, D.D., congratulated the convocation on behalf of the Alumni Association of Knox upon the auspicious installation of their new principal.

From Sister Colleges. Rev. Principal Gordon, Queen's tendered greetings from the sister Presbyterian colleges of Canada. Dr. Gandier had, he said, long been in training for the position he has just attained. It began in a home where learning was valued; it proceeded in college, and continued in his successful ministry and he has won the implicit confidence of the ministry of the whole church.

Rev. Dr. Duval, moderator of the Presbyterian General Assembly, Winnipeg, had come over fourteen hundred miles to offer to Principal Gandier the congratulations of his body. Ministers who went to the wild west where people are thought to be "woolly" must go there prepared to give a reason for the faith that is in them. That was what Knox College was for.

Mrs. Emma Calve, who began her American tour early in October, had been received everywhere with the most enthusiastic acclaim. The great French-Spanish diva has grown more slender and her hair is to wear nothing but black or white. Her evening gowns are pure white satin untrifled even by a dash of lilac. She will be assisted by two eminent artists, in Karl Klein, violinist, and Brahms Van den Berg, pianist. The sale of seats for next Tuesday's concert is now on at Massey Hall.

BORDEN MISSED CHANCE TO SWEEP THE COUNTRY

Author of "Duty of the Hour" Tells Conservatives Autonomy Issue Was It.

Controller Hooken was one of the speakers at the First Ward Conservative Association meeting last night. He expressed the view that if R. L. Borden had gone to the country on the autonomy bills he would have been returned at the head of the government.

This assertion was received with tremendous applause. Various speakers expressed the hope that the issue opened up in the old association by the defection of the independents would be closed up again. The speakers wanted to see the defeat of the Conservative bill, and from the way the references were received it looked as though the parent body would be ready and willing to kill the fatted calf for them and accept them with open arms.

Frequent references were made to the commencement of work on the people's power initiative, and the speakers were unanimous in the opinion that the great undertaking when completed would be looked upon by future generations as a great single act of any government in Ontario.

The Officers. John Maxwell was elected president; R. H. Greer, 1st vice-president; John A. Ferguson, second vice-president; George Stog, third vice-president; Geo. E. Barnes, secretary; J. D. Leroy, treasurer; E. A. Forster and E. G. Ryat, auditors.

The president-elect, who is a city hall official, and who received considerable support from the Conservatives, assured his hearers that he had been a Conservative long before he had gone to the city hall, and that his holding the job was not influential in his doing his duty by the association. He believed with James A. Macdonald, K. C., that there should be more choice than there is of the candidates.

Hon. Dr. Fyne never felt so proud as he did on Wednesday when it was Mrs. MacLaren's birthday. He was a member of the party and his colleague, Adam Beck, at the great occasion in Exhibition Park. He thought that if Toronto and the Province of Ontario were to be united in one province, the other provinces it would be by electric power it would be done. He had heard gentlemen who were not allied with the party say they thought they would never see the day when the great transmission line would be built. They had always looked upon the proposition as simply being a fad of the party, and thought that the electrons were over the big issue would be lost sight of entirely. The minister had taken great pleasure in telling these people that the Winnipeg government had never promised to do a thing, and then forgot all about it. He at least would disdain to get into power on a lie.

Cheap Books. Speaking of cheap school books, this reform had been going on steadily since June last. Copy books, which formerly cost 35 cents for a set of five, could now be got for 10 cents a set. High school algebra costing a dollar and a half, had been reduced to 50 cents, and it was a better book. A similar cut had been made in the junior Latin grammar, and he hoped that the committee would announce similar cuts in readers.

Sir Wilfrid's Support. A. E. Kemp, ex-M.P., took the opportunity to thank his friends for their support and hoped there never would be a similar condition of affairs in the east riding as in the last election. He pointed out that although Sir Wilfrid Laurier had been returned to power it had been done by the vote of his fellow-countrymen, and that the Conservatives had a majority of 12 west of the Ottawa River. He alluded to the fact that the investigation carried on by Justice Casels at Quebec should have been done by the public accounts committee at Ottawa, but that every obstacle had been thrown in the way of that committee to keep them from getting at the facts. He deplored the present financial condition at Ottawa, and said that the public debt in a few years would reach the grand total of \$600,000,000.

Gooderham hoped that the cause of James Munro, and his lessons learned by the last election in East Toronto would draw the party closer together and result in the Conservatives being a happy family once more.

T. R. Whiteside, M.L.A., J. A. Macdonald, K.C., and the elected officers also spoke.

High Broken by Sign. GALT, Nov. 19.—(Special)—Percy, the young son of James Munro, met with a painful accident here to-day, by which he sustained a broken thigh and several painful bruises. The lad was sitting in the doorway of his home when the scaffolding collapsed, pinning the unfortunate boy to the pavement.

Harper, Customs Broker, McKinnon Building, Toronto. The annual visit of the Kneisel Quartet to Toronto is a contribution to the cause of chamber music by the Women's Musical Club that is very greatly appreciated by the lover of music. They will be heard at Conservatory Hall, on Friday evening next week, Nov. 27. Reserved seats will be on sale at Nordheimer's on and after Thursday, Nov. 26.

Next week at Ehea's Theatre a great bill will be headed by Maude Nugent, the dainty singing comedienne. Other big names on the bill are Harry Davis and Company, presenting "Fairy Swarty and Jerome, the Three Wives, Hoey and Lee, Cooke and Clinton, Brothers Artels and the Kinetograph.

No. 9—The Mighty Monarch of the Modern Highway.

Stop It! Upon what do you depend to stop this train, which when controlled is a chariot of state, and when uncontrolled a Juggernaut of fate?

Upon one brave man—the engineer in his cab—with strained eyes on the track ahead, with nerves alert and muscles tense, ready to grasp the throttle and brake valve at any moment.

He alone stands between you and destiny.

Suppose he fails to act at the crucial moment. Suppose he is stricken at his post—what then in the presence of danger will Stop It?

But one thing—the Price Device.

The Price system of automatic controlling and stopping for railways is the only mechanical appliance that acts absolutely independently of human agency.

We are showing it (actually working) in our demonstration rooms.

Universal Signal Co., Ltd. 12-14 Wellington St. East Toronto

Committed on Serious Charge. Reginald Ross and Patrick Connolly were committed for trial in police court yesterday morning. They are charged with rape upon Mrs. Ruby Henson at Woodbine Park a week ago. Mrs. Henson said that she was walking home from Simpson's factory, opposite the Union Station, where she is employed, and was accompanied by her brother, James Henson, who was walking into the stable, and when she refused his dragged her across. She was too frightened to scream, as some time ago she had suffered paralysis of the vocal chords.

Wanted in Chicago. David Goldstein, alias Golsom, for two months manager of the Standard Cap Company, Eron-street, was arrested by Detectives Mackle and Murray for the Chicago police, who want him for obtaining \$1500 by false pretenses in Chicago in 1907. The local authorities learned that the man was wanted and notified Chicago of his presence and received a request for his arrest in Chicago in 1907. The man was taken before Judge Winchester and waived extradition. An officer has left to take him to Chicago.

NOT A MINING PROPOSITION WILLLOW RIVER TIMBER CO. Limited Incorporated under the Companies Act of Canada. NON-ASSESSABLE Authorized Capital \$250,000 NO SALARIED OFFICIALS DIRECTORS: Pres. J. H. SPENCE, Barrister at Law, Toronto; Vice-Pres. W. H. MERRITT, M.D., Director Imperial Bank, Rodman Hall, St. Catharines, Ont.; Sec.-Treas. JOHN W. GORDON, Insurance Broker, St. Catharines, Ont.

This Company Holds 22 Timber Berths, Aggregating 52 sq. miles (33,280 Acres), All Carefully Selected, Containing Over 800,000,000 Feet of Finest Timber, Bought by this Company at the Exceptionally Low Figure of 26c per 1000 Feet.

All of this timber is located in the Willow River District on solid level ground, lies close beside good water for logging, and is mostly White Spruce of a superior quality. It averages 30 inches in diameter and ranges from 90 to 180 feet high. The limbs commence half way up. There is some good tall Pine and Balsam. The Grand Trunk Pacific and the Canadian Northern surveys both cross the Willow River lower down than our limits.

The limits were cruised by James A. Anderson, of Sutton West, an Ex-Crown Timber Agent, and the company has on file at its office a number of letters from some of the most prominent business men in Canada in recommendation of his capability and integrity, and from settlers in the Cariboo District verifying his report of the timber.

The company has also issued in pamphlet form the report (dated Oct. 31, 1908), of Mr. H. P. BELL, M.I.C.E., member Am. Soc. C. E., at present the Superintending Engineer on the Government Staff on the Trent Valley Canal at Campbellford, Ont., who was employed by the British Columbia Government in 1914-5-6 to make a survey up the Willow River Valley for the proposed route of the British Pacific Railway, and who cut the Government Pack-trails through the Willow River District in 1885. His report substantiates Mr. Anderson's in every detail, and in view of Mr. Bell's pre-eminence among the Civil Engineers of America, among whom there is no higher authority on the topography of the Cariboo District, his report will be universally accepted as being entirely correct. Mr. Bell was recommended to this company by Mr. Collingwood Schreiber, Consulting Engineer to the Dominion Government and Chief Engineer of the Western Division of the National Transcontinental Railway.

GOOD TIMBER well located, is the safest and best investment in the world to-day. This is not exaggeration; \$2.00 per thousand for good timber is a ridiculously low price. In Ontario Spruce is now worth from \$7. to \$9. per thousand feet on the stump and is rapidly increasing in value. Each \$100 Invested To-day Will Bring a Return of \$859.42. This is not exaggeration; \$2.00 per thousand for good timber is a ridiculously low price. In Ontario Spruce is now worth from \$7. to \$9. per thousand feet on the stump and is rapidly increasing in value. \$100 Per Share, with 20% Stock Bonus. On All Subscriptions Mailed Not Later Than November 23rd.

TERMS—Cash: 5 per cent. discount on one-half the amount subscribed; Time: 25 per cent. cash, 25 per cent. on December 10, 1908, balance by May 10, 1909. Copies of Prospectus, containing Maps of the District and disposition of the berths and report of Gov. Engineer H. P. Bell supplied on application. ## PRICES SHOW A RECOVERY WITH A FEW EXCEPTIONS

### Trading Becomes Less Active But Substantial Buying is in the Market For All the Favorites.

World Office, Thursday Evening, Nov. 13. The local mining exchanges were a shade stronger to-day with general closing indications of further advancements.

While there were some irregular movements noticeable, the days transactions were satisfactory to most of the interested public.

There were no sensational upward movements of mining slides downward. The tone is steady and appears to be just as firm and firmer than some time ago, when prices were being influenced by profit-taking.

LaRose behaved very well on the second day of its listing on the Toronto Exchange.

Some 700 shares were dealt in at \$7, and this price was maintained throughout the day on the curb.

Nipissing was a popular buy on the Toronto Exchange. It was bid at 11 1/2-11 1/4, and at 13 1/4 on a thirty-day option.

During the morning 2225 shares were traded in and 860 during the afternoon, making a total of 3185 shares.

Nova Scotia was exceedingly active on a slight advance and the rally in Temiskaming had a further extension.

Trethewey experienced a bigger demand than yesterday, and Otisase figured well during the day's transactions at \$9 1/2-10 and 10.

One of the big brokerage houses in town bought up 5000 shares at \$9. It is said that some important news concerning Otisase will be on hand in a few days.

Little Nip was active all day, but did not reach out to any extent. It sold around \$9 and at \$9 1/4.

Crown Reserve was rather a drag on the market, having a quiet time of it, and losing 8 points during the day.

Buyers of this stock are scarce and little interest locally is taken in the stock.

The New York curb was lively in the amount of shares dealt in. These totaled nearly 40,000, and of that Cobalt Central had 20,000 to its credit at \$8.

In Montreal stocks were bid for with encouraging enthusiasm. The first direct wire from Cobalt to Montreal has been installed, and a noticeable increase in business is expected.

This wire is connected with Messrs. Redpath and Company, members of the Montreal Stock Exchange. It speaks the well for the progressive spirit of the firm, and should act as an impulse to Cobalt.

Nancy Helen was listed on the Toronto curb to-day, and sold at \$10 1/2-10 1/4. Some 1400 shares were traded in at the above price.

The stock is "closely held" by officers of leading Banks, Insurance, Paper, Pulp, Electric, Locomotive, Steam Fire Engine, Steamship, Exporting, Importing Companies and private capitalists, as private investment. The company has no indebtedness whatever, and will be honestly and prudently managed in the interest of the stockholders. No stock has been offered, nor is any now offered, by the company. The policy has been adopted of operating as a holding company, making short-term leases to thoroughly responsible parties, upon terms requiring very large monthly expenditures in development. Leases are now in force upon 70 acres—in three leases—on five-year terms, and other leases are under negotiation. Under these leases (including that of 40 acres adjoining the Badger, Shamrock and Fisher-Epitt properties) to the owners of the Shamrock Mine, and that upon the "fraction" adjoining the Rothchild and Silver Hill Mines, to strong parties, from 50 to 60 men are actively engaged in developing ten promising veins, sinking shafts, etc.

**We offer a limited amount of the stock at 30 cents per share.**

### 717 CARS CITY WARDS BULK COMMON TO WHEAT

#### Sheep and Lambs Firmer—Calves and Hogs Steady—Receipts Largest of Season.

The railways again report another heavy run of live stock for the week ending Thursday, consisting of 1000 cattle, 550 hogs, 134 sheep and lambs, and 93 calves.

The bulk of the cattle offered as usual for Thursday, was of common to medium quality, which was slow of sale at lower prices.

None were offered and none were wanted, owing to there being no shipping space.

Butchers. We heard of 14 out of 157 cattle that sold over \$40 and \$50 per cwt.

There were a few calves sold at \$30 to \$35, and a few sheep at \$15 to \$20.

Receipts of milkers and springers during the week were liberal.

Prices were quoted at \$3 to \$4 per cwt for calves, and \$3 to \$4 for hogs.

Export sheep are in demand. Ewes sold at \$3.25 to \$3.50, rams, \$2 to \$2.50, lambs, \$1 to \$1.50 per cwt.

Mr. Harris reported prices unchanged during the week.

George Rowntree was the heaviest buyer on the market, having bought 200 cwt of No. 2 wheat.

Prices for No. 2 wheat were 89 to 91. Prices for No. 3 wheat were 89 to 91.

Prices for No. 4 wheat were 89 to 91. Prices for No. 5 wheat were 89 to 91.

Prices for No. 6 wheat were 89 to 91. Prices for No. 7 wheat were 89 to 91.

# Shoes That Command Immediate Interest

We've been at it again, buying thousands more shoes and surprising even ourselves with the extent of our good fortune. After cleaning up all the special lots of the leading Canadian factories, the shoe buyer made a quick trip to the States and made a number of important purchases before the prosperity wave began to be felt. The mild weather of September and October hurt the wholesale business everywhere, and we were able to buy some of the best shoes at our own prices. That's the why and wherefore of these striking values, which are the advance guard of the most important shoe selling in our experience.

### DR. GANDIER INDUCTED NEW PRINCIPAL OF KNOX

#### Rev. Dr. MacLaren Deplores Shortage of Theological Students — Impressive Ceremony.

The induction of Rev. Dr. Gandier into the principalship of Knox College took place yesterday afternoon at St. James' Square Presbyterian Church.

Rev. James Murray, moderator of Toronto Presbytery, presided. Rev. Dr. Gray preached from the text, Proverbs xxxi, 18: "Where there is no vision the people perish." The religious leaders from the earliest time to the present had been men of vision, and this was true in a marked degree of the late Principal Curzon.

Rev. Dr. Somerville offered the induction prayer. Rev. Dr. Gandier in answer to the formal questions of the moderator announced his belief in the divinity of the scriptures, acceptance of the Westminster confession of faith and the teachings of the Shuter Catechism.

The moderator upon this clasped Dr. Gandier's hand and announced his induction into the principalship.

Rev. Dr. Carmichael, of Kings, a member of Queen's University faculty at the time of Dr. Gandier's student days there, gave the charge to the new principal. It would be the duty of the new principal of Knox College, he said, to sharpen the church. If a man to do the work of the church, if a small way it might be his duty also to keep an eye on the professors to keep them from wandering off into the wilderness to charge windmills. It was the duty of a college

principal to put the students on their guard against spurious issues. As one colleague said, "You've got to denounce them, whether you know what they are or not."

Above all it would be Dr. Gandier's work to make loyal-hearted men of the students with souls on fire with love for their fellow men. There was no danger that the future would cast any shadow upon the past history of Knox.

The students should be inspired with an intense love of the good old English Bible. With confidence he thanked Dr. Gandier God speed into his new field of labor.

The retiring principal, Rev. Dr. MacLaren, said that the congregation present was representative both of the Presbyterian Church in Canada and of Knox College. The relationship of the principal and professor of a theological college to the church at large was vague and indefinite. It could not be bridged by the principal going from the college to the people, but must be a matter of intelligent appreciation. The laymen's movement for missions had set the great task before the churches of the Dominion to evangelize forty millions of the heathen world within this generation. This would mean that thousands must be sent where one or two had been in the past. They must be missionaries properly qualified by educational training. How was this to be accomplished while there is a great lack of students for the department of theology in the colleges? The only answer that he knew of was by prayer for more laborers to be sent into the vineyard.

**Mounted Policeman Suicides.**

REGINA, Sask., Nov. 19.—(Special.)—Staff-Sergeant Bates of the R.N.W.M.P. suicided this morning by shooting himself. He was orderly sergeant in the hospital, and had just called the day orderly to relieve him. Despondency was the cause. He joined the force twenty-three years ago, and went thru the rebellion and the South African war.

### WOULD TAKE IN CHESTER WITH YORK TOWNSHIP

#### Board of Control Hasn't Changed Attitude Toward Annexation — City Hall Matters.

A resolution in favor of annexing the entire portion of York Township between East Toronto and Toronto, including Chester Village, was passed by the board of control yesterday afternoon.

Controller Harrison moved the following resolution: "That the board expedient that the portion of the Township of York west of East Toronto, to 200 feet north of Danforth-avenue as far as Leslie-street, and thence north 1000 feet, to take in the Village of Chester, be included. No special terms, are to be given to the section in question."

Among the visitors who advocated this course were Mayor McMillan of East Toronto, A. F. Lobb, K.C., R. C. Steele and Rev. D. W. Christie of Reid-avenue Presbyterian Church.

Mr. Lobb asked the board to give the number of people desiring annexation the right which they have been denied by the Ontario Railway and Municipal Board on a technicality, and to prepare a bylaw defining the boundaries so as to take in the old parish of Chester.

Frank Hodgins, K.C., on behalf of owners of property north of the G.T.R. tracks, opposed the annexation of this territory, claiming that Gerrard-street was the natural route for street cars, not Danforth-avenue. He asked that the section between Greenwood-avenue and East Toronto be not taken in, even if Chester were annexed. Delegations from Wychwood, Bracondale, Davenport and Earlscourt will appear before the board next Wednesday morning with reference to the proposed annexation of those sections.

Back to the Ward. School supporters elected by wards, two from each ward, to have sole control of public school matters? This is a question upon which the electors will vote on Jan. 1, if the recommendation of the civic legislation committee is approved by the city council.

The motion submitted by Ald. J. J. Graham would leave it to the legislature to decide how the high schools

and the technical school should be managed.

Controller Spence sought to controvert the alderman's assertion that expenditure had increased unduly. He said that added expense was unavoidable owing to the increase in the price of land required for school purposes, and the adoption of a policy of larger playgrounds, while the schools were better equipped. The controller and the mayor objected to adding another ballot to the already general list, while Ald. McMurrich said that under the old system there was a tendency among trustees to try to get all they could for their wards. The recommendation went through for it being

Ald. Graham, Church, Chisholm and Keeler and the mayor, Controller Spence and Ald. McMurrich against. Ex-Controller P. H. Richardson, representing Scarborough Beach Amusement Co., complained that the company, thru being made to pay a \$20

license for each of its attractions, had paid under protest \$600. He declared that the bylaw was one ten years' old and not intended to apply to conditions existing. The city treasurer will report on the amount the company should pay.

**Are Stands safer?** Ald. Church, at yesterday's meeting of the civic directors and light committee, had a resolution passed asking the city architect to give a report showing what the regulations are regarding the control of grandstands in athletic fields, rinks and other buildings, how often they are inspected, whether they are safe and have ample exits; also what are the regulations regarding the granting of permits.

Ald. Church thinks a bylaw should be passed requiring such stands or buildings to take out permits and come under the control of the city architect's department.

Ald. McEneaney suggested that, as in United States cities, fire chiefs are required to wear distinctive headgear. Chief Thompson should be asked to do likewise. Owing to the absence of the chief, no action was taken.

Mr. Robert Howe, the engineer of the Fire Underwriters' Association, will make a test of the high pressure fire system upon his return from Vancouver in a few days.

**Killed at Port Elgin.** PORT ELGIN, Nov. 19.—Edward Williams lost his life in the Dominion Pressed Steel Works this morning while he and other helpers were moving a riveting machine. It overbalanced and struck a pinch bar, which was in his hand, and he was killed by a wrist, causing immediate death. Mr. Williams came here from Pittsburgh as welder.

**Republican Campaign Fund.** NEW YORK, Nov. 19.—A campaign fund of \$1,500,000, contributed to the national Republican committee in the recent campaign, will be shown when the list of contributors is filed at Albany next Monday, according to The New York Evening Sun. It was said that there are 15,000 names on the list.

**Balloons' Flight.** TIGER, Ga., Nov. 19.—The balloon Yankee landed here this morning. The aeronaut says he is from St. Louis and he rode all night over forest fires in Tennessee.

**Tests Next Week.** Inspector Howe of the Canadian Underwriters' Association is expected back from the west about Monday, when the engineering tests of the high pressure system will be gone on with.

**LETTERS WERE PRODUCED.** But Not Before Judge Read Lecture to Lawyer.

John Jennings, counsel for the Bank of Hamilton, and Mr. Justice Clute in the non-jury assize court yesterday afternoon had a stiff argument over the lawyer's persistent refusal to comply with the request of the bench, that certain correspondence relating to the case be produced in court.

The action was brought by the bank against Eleanor, wife of E. J. May of Weston, Ont., to recover \$573.84 on a guarantee. Wm. May and son of Weston applied to the Bank of Hamilton for a line of credit for \$2000, \$1000 on the firm's endorsement, and \$1000 on trade bills. This was granted after Mrs. May, who owns considerable property, attached her signature to a guaranteed. Considerable correspondence passed between the bank and the Mrs. May, before the request was granted, however, and it was in a correspondence the justice wanted produced. W. E. Ramey, K.C., counsel for Mrs. May, was examining William Halliday, clerk of the branch of the bank at West Toronto, when the deadlock occurred.

Mr. Jennings contended that he could not see what connection the correspondence had with the case, but the judge remained obdurate and absolutely refused to go on with the case until the papers were produced.

"About half the time of this court is taken up by the refusal of counsel to lay the full facts of cases before the court, not only in this, but in other cases," said the judge.

There were five letters in all, and
