### The Debate on the Budget Dragging Along.

### MR. McMULLEN RESUMED IT

And, of course, Saw An Era of Pros-  
perity Ahead Under Liberal Rule.

Before the Debate Was Resumed a Num-  
ber of Questions Were Asked and  
Answered—The Dismissal of Mr. Mc-  
Mullen, Postmaster of Northfield, B.C.,  
Brought Out a Pretty Hot Discussion  
in Which Mr. Davin Took a Promi-  
nent Part—Mr. Mulock Asked a Brutal  
Flippancy in Connection With the  
Case.

On Tuesday April 28—(Special.)—In the  
House today the Premier, answering  
Mr. Davin, said the Government was  
at present investigating the out-  
standing accounts in connection with  
the Postmaster-General's case.

Mr. Davin said that he knew Mr. Mc-  
Mullen when she lived at the  
Appelle and kept a temperance hotel  
there, where she sold good whiskey.  
She was a kind and generous woman,  
very respectable character. [Hon. ch.]  
Mr. Quinn said it was evident from the  
statements of the witness that the  
speaker that this matter was a ques-  
tion of politics. He felt bound to raise  
the matter in order to get the truth  
before the House.

### Public Amusements.

THE FOLI CONCERT.  
The subscribers list for the Foli concert  
opened yesterday morning at Messrs. Mulock  
Hall, and that the public appreciate the  
entire of this great honor is evident by  
the numerous signatures already on the  
list. As the number of more expensive  
seats is limited, those desiring to obtain  
them should sign the list without delay, as  
seats will be allotted in the order of the  
signature of the renewed list. What  
Stanley is to baritone, what Lloyd is to  
soprano, and what the other vocalists  
are to do, will be decided on the night of  
the concert. The concert will be given  
at the Folio Hall, on Friday evening, at  
8 o'clock. The program is as follows:  
1. "The Song of the Lark," by Lloyd.  
2. "The Song of the Lark," by Lloyd.  
3. "The Song of the Lark," by Lloyd.  
4. "The Song of the Lark," by Lloyd.  
5. "The Song of the Lark," by Lloyd.

MR. SMILY'S RECITAL.  
Toronto is not absolutely free from the  
"Prophet" is not without honor, proverb,  
but apparently an Englishman. He read from  
the case of Mr. Owen A. Smily, whose  
recital takes place at the Folio Hall, on  
Friday evening, at 8 o'clock. The program  
is as follows:  
1. "The Song of the Lark," by Lloyd.  
2. "The Song of the Lark," by Lloyd.  
3. "The Song of the Lark," by Lloyd.  
4. "The Song of the Lark," by Lloyd.  
5. "The Song of the Lark," by Lloyd.

NO INCREASE IN PRICES.  
The Madison Square Opera Company was  
not organized to play at popular prices, but  
in deference to the public opinion, the man-  
agement of the Toronto Opera House, whose  
policy is to never change the regular house  
price, Manager Tullih consented to ad-  
just the customary schedule, although he  
claims that the suggestion here is the  
only one ever made to him. It is a  
goodly list of names, and the program  
is as follows:  
1. "The Song of the Lark," by Lloyd.  
2. "The Song of the Lark," by Lloyd.  
3. "The Song of the Lark," by Lloyd.

### Red River Flood.

To Danger in Winnipeg and Signs of Res-  
toration at Emerson and Morris.  
The River.

Winnipeg, April 28—(Special.)—The water  
of the Red River at Winnipeg has now  
been stationary for two days, and to-night  
shows a tendency to fall. There is no fur-  
ther anxiety of a flood. At Morris the  
water is stationary, and at Emerson and  
other points is receding. At Morris and  
Emerson, where the flood was the worst,  
local settlers have suffered a good deal.

MR. LAURIER HELD OFF-DOWN

Rather Than See the Liberal Government Defeated.

MR. FIELDING WILL LEAD

Provided the School Question is Not Approved by the Pope.

The Ministers Feel That Home Will Not Accept the School Settlement and are Preparing for Emergencies—Mr. Tarte's Idea of a Dislocation May be Carried out if the English-Speaking Bishops Cast in Their Lot With Their French Colleagues—Station Agent Bourdais Has Got Himself into a Bad Mess—Montreal News.

Montreal, April 28.—(Special.)—Laurier will step down from the Premiership and Mr. Fielding will lead rather than allow the school question to destroy the Liberal party. He states that the Ministers feel that Home will condemn the school question as far as Catholics are concerned, and that Quebec will slip away from Laurier. This however, would not be fatal to Mr. Laurier, and Mr. Tarte's idea of a dislocation might be carried out if it were supported by the Roman Catholic bishops of the English-speaking provinces would cast in their lot with the French-speaking Canada. But the Government do not seem to be in a hurry to do this, and consequently this gentleman contends that if the papers are published, Laurier will return and Mr. Fielding will take command of the Ministerial forces.

Other Montreal News. The other day Station Agent A. J. Bourdais, at St. Jovite, on the Canadian Pacific, wired his superiors that his office had been broken into and some \$1000 taken away. Chief Detective Carter went out to investigate and found that the agent himself was the robber, and true enough, Bourdais soon confessed that he also was the author of the crime. He now awaits sentence after giving up all the money he had on hand.

KICKING AT LAURIER

British Columbia Object to a Blanket Lease of Yukon Territory—They are Also Afraid of Monopolies and Slags.

Vancouver, B.C., April 28.—(Special.)—The Laurier Government is offering to lease 100 miles of the Stewart River in the Yukon country for gold dredging. This policy is strongly opposed by British Columbia. The Board of Trade and other representative bodies, who urge that no such monopoly should be conferred. While under the terms of the advertisement the tenders there is no line for the bidders to be of Yukon to apply to Ottawa, many think there is a "major in the woods" somewhere, and the proposal will do the Laurier Government no good. There is, moreover, strong opinion expressed by the workers of British Columbia at the Government's refusal to withdraw the offer. The Government will not take the Canadian Government without taking proper notice of the necessary to cause trouble. This breach of pledge and the fact that the Government is already the miners' and slagger's ally in the Yukon are causing a great deal of trouble in the Yukon. The reports of the numerous gold discoveries here, in conjunction with the attacks of a mild climate and the absence of taxes of Monarchs to British Columbia unless there be restrictive laws.

EAT A DEAD COMRADE.

The Horrible Story of Cannibalism Which Came From St. John's, Newfoundland.

St. John's, Nfld., April 28.—Details are given to-day of the loss of the French fishing vessel Vailliant, which was struck an iceberg and foundered on the 15th inst. on the Grand Banks. She had on board 28 men, and only one of the boats, only one of which has been heard from. When this boat left the vessel her complement was seven men. The awful experience of the seven is told in a special to the New York World from St. John's: "Worm with freezing cold and hunger and suffering from thirst, the seven men looked out all day for a sail, but could see no further than their own noses, and might fall again. The weather cleared on the morning, and this gave more chance of seeing some ship or rescuer, but nothing came in sight, and another day was gone. On the second night two of the men died, and by day after their bodies were thrown overboard. Next morning a young man named Felix died, and by day after his body was given to the fishes if his companions had strength enough to lift the body, but they had not, and so the corpse lay in the bottom of the sea. The four remaining men sat on the side seats and waited for that which had come to young Felix. As long as they had any strength the four men did not give way to the longings that possessed them to forget everything and satisfy their hunger by taking the flesh of their dead comrade. The fifth day creased beyond all doubt, they accepted the last frightful resort of men in their condition and ate their friend. Then they became delirious. It was on the 12th day of their shipwreck that the lookout of the fishing schooner Victor Eugene, bound for St. Pierre, saw a far-off speck upon the ocean, which later proved to be the dory of the Vailliant with the four miserable men still aboard, raving ideas. They were rescued and tenderly cared for, and as soon as the Eugene arrived in port to-day they were removed to a hospital. The bodies of the men they had been hoisted aboard the schooner, scathed in blankets, their lives were despaired of.

A Tenement House Fire in Brooklyn Which Was Attended by Some Very Distressing Features.

New York, April 28.—A fire completely destroyed a tenement house at 64th-street and Third-avenue, South Brooklyn, this morning. Four persons lost their lives, and Mrs. Julia Newell and her two children, and Mrs. Celia Barnett, aged 70 years, were killed. The fire broke out at 10 o'clock, and spread with great rapidity through the building, completely cutting off the escape of the Newell family, who occupied the top floor.

WINDSOR NOTES.

Veterinary Inspector McEachern Orders a Great Slaughtering of Hogs—A Banquet Postponed. Windsor, April 28.—Veterinary Inspector McEachern has killed 40 hogs belonging to Byron Wigle, 20 belonging to Alex. Augustine and 10 belonging to George Washington, all of Kingsville, hog cholera having broken out among these hogs. It is believed that every hog in the vicinity will have to be slaughtered. The body of the murderer and suicide, J. A. Dittman, was last night shipped to the Toronto Medical College. It will be placed on the dissecting table. The medical board will go from Windsor to Fort William to-morrow night and will make regular trips thereafter to the members of the local bar had arranged to banquet Mr. Justice Meredith at the Manning House to-night. This is the custom when a judge makes his first trip to hold court in his appointment to the bench. It is also his first trip there, after being knighted in a message from the Earl of Lady Meredith at Toronto stating that she had received a letter in a fall from her convalescent and the judge had returned to Toronto. He said that he would try to come to Windsor to hold the Fall Assize Court and the banquet was adjourned. The Nonjury sitting at the Sandwich Assize Court closed at noon to-day, after having disposed of a fairly large civil docket.

troubled them once to them at about midnight in impenetrable darkness and fog. The recipient of the blows crashed through without warning in opaque darkness of night, the impact crushing in the vessel from her bow to the foremast, and opening the hold to a rush of water that awakened the likely sleeping men and sent them scampering half-dressed, to the deck. The men turned at once to the lifeboats, only four in number, and more dories, capable of carrying not more than a dozen men each. Men forgot their brotherhood in the mad struggle to secure a place in one of the poor little boats, and no heed was ever paid to a dozen crew more of the company who lay dead and dying in the debris, remaining from the collision.

It is certain only that one boat escaped the whirlpool caused by the sinking of the brigantine. The three other dories may have gone down, or they may now be floating about upon the bosom of the ocean, freighted with the dead.

NIAGARA FALLS NOTES.

Opposition to the New Electric Road Scheme—Three Youths in Trouble—Spraying Fruit Trees.

Niagara Falls, Ont., April 28.—(Special.)—The new electric road scheme is receiving opposition already. A petition is being circulated and receiving a number of signatures asking the Town Council to refuse the Lundy's Lane Railroad Company a franchise on any street. The petition is in the interests of the horse-car line, and that line is now looking to the council for a franchise. They will ask a 10 years' extension on this line, and will pay electricity as a motive power. Under the present agreement with the town, six months' notice has to be given the horse-car line before another road can build on any of the streets, and if the old company extend that line along that street within the six months, it shuts out the new company. Those who are at the back of the Lundy's Lane Railroad Company have had legal advice on the subject, and claim the horse-car company have forfeited their franchise, and if it does not carry the point to the courts, they will build a road within 90 days.

OTHERS CANADA'S GREAT INDUSTRIAL FAIR

Directors Meet and Arrange for the Proposed Jubilee Year's Show. President Whitlow took the chair yesterday afternoon in the office of the Exhibition Association on King-street east, when a very largely attended meeting of the directors was held. After the minutes had been adopted, Alderman Sheppard reported that the estimates submitted to them in their capacity as directors of the proposed fair, the sale estimates including \$500 for a new horse-car line, and grants for new stables and new pig pens. There was a considerable amount of discussion on the subject of the fair, and the directors voted last night for the improvement of the Agricultural Building. Mr. Whitlow expressed the opinion that the fair would be a success, and that the directors would be glad to give the proposed electrical display, extending over the whole of the fair, and that the fair would be a success.

HE CHOSE THE LAKE.

Banker Sheldon of Sheldon, Ill., Got a Lot of People and Himself into Serious Trouble. Chicago, April 28.—It is disgrace and the penitentiary or the lake—I have chosen the latter, wrote John Sheldon, the leading banker of Sheldon, Ill., to his confidential friend and attorney, J. Moffet. The receipt of the letter yesterday was followed by the closing of the leading bank of Loda, the abandonment of four leading business firms and the individual assignment of as many as 100 of the town's business men. Sheldon's financial trouble involved the funds belonging to the school trustees of Loda township, and that trust estates, involving between \$200,000 and \$250,000, went down in the general crash.

FOUR PEOPLE KILLED.

A Tenement House Fire in Brooklyn Which Was Attended by Some Very Distressing Features.

New York, April 28.—A fire completely destroyed a tenement house at 64th-street and Third-avenue, South Brooklyn, this morning. Four persons lost their lives, and Mrs. Julia Newell and her two children, and Mrs. Celia Barnett, aged 70 years, were killed. The fire broke out at 10 o'clock, and spread with great rapidity through the building, completely cutting off the escape of the Newell family, who occupied the top floor.

TROLLEY GOT THE WORST OF IT.

While the Motorcar Was Collecting Fares It Carried a Railroad Train. Tampa, Fla., April 27.—An electric street car filled with passengers was on the outside of this city, and one person killed, two fatally injured and three seriously hurt. The street car was without a conductor and the motorman was taking fares. A Cuban refused to pay, and when an attempt was made to eject him he was rescued by three other Cubans, who assaulted the motorman, holding him down on the rear platform while the car ran down grade to the crossing.

New Who Is Lying?

San Francisco, Cal., April 28.—In the suit of the Fair board and administrators against Mrs. Craven to disprove the genuineness of certain deeds purported to have been signed by ex-Senator Fair, the testimony given by the witnesses so far has been conflicting. J. J. Schneider and Henry Craven testified that on September 23, 1894, the date on which the deeds in question were signed, they were in San Rafael, where Mrs. Craven was really at that time. Fair testified that he was in San Rafael on Sept. 19 to Sept. 23. On the other hand, Mrs. Craven deposed that Fair was in San Rafael on Sept. 24 in her house.

Death Dealing Hurricane.

St. Louis, April 28.—A special despatch from San Luis Potosi, Mexico, to the effect that a terrible storm which has not only ruined the growing crops, but caused great loss of life, reports that Fair was in San Rafael on Sept. 24 in her house.

The Queen Starts for England.

Nice, April 28.—Queen Victoria started at noon to-day on her journey from Cannes to England.

VICTORIAN ERA EXPOSITION

AN ORIGINAL MEN'S SHOE STORE.

A Place Where They Can Rest and Meet Friends, Inside The City and Out. Fitted for Fine Footwear.

One hears a good deal about the convenience of the modern store for women shoppers, but where this has not been neglected, it is a store for men. The Clapp Shoe Company, the big shoe men of 212 Yonge-street, they have planned something unique for the men. The whole of one large floor has been given over to men's goods and handily fitted up, with carpeted floors, plenty of seating capacity, and the surroundings altogether convenient. Where it would not do for a woman to be permitted in a section open to men and women shoppers in the men's section, separate from the other section, this is allowable. The current newspapers are full of reports of gentlemen waiting for friends; and at times to make the waiting more pleasant, music is supplied.

The Clapp Shoe Company inaugurate the opening of their men's shoe section on Friday by the purchase of 1000 pairs of finest men's shoes, all at \$2, \$3, \$4 and \$5, and the price for Friday, as inauguration day, is the offering of one pair for every two pairs of men's shoes. Those who reside in the city will be especially interested in seeing the growth of the Clapp Shoe Company business in this way. It is an illustration of the possibilities of development in one of the most important branches of the retail and enterprise unite together.

FLOOD IN OKLAHOMA.

A Score of Persons Drowned by an Overflow of the Cottonwood River Yesterday Morning.

Guthrie, Oklahoma, April 28.—A terrible flood in the Cotton Wood River yesterday morning resulted in the drowning of a score of persons. The main cause of the disaster was the heavy rain which fell on the night of the 26th and 27th inst. The river was already full. No great amount of rain fell on the night of the 28th, but it was enough to raise the water to a high enough level to sweep away the people who were in the river. The water was so high that it was impossible for the people to get out of the river. Many of the people were drowned. The bodies of the drowned were found in the river. The water was so high that it was impossible for the people to get out of the river. Many of the people were drowned. The bodies of the drowned were found in the river.

AN ORIGINAL MEN'S SHOE STORE.

A Place Where They Can Rest and Meet Friends, Inside The City and Out. Fitted for Fine Footwear.

One hears a good deal about the convenience of the modern store for women shoppers, but where this has not been neglected, it is a store for men. The Clapp Shoe Company, the big shoe men of 212 Yonge-street, they have planned something unique for the men. The whole of one large floor has been given over to men's goods and handily fitted up, with carpeted floors, plenty of seating capacity, and the surroundings altogether convenient. Where it would not do for a woman to be permitted in a section open to men and women shoppers in the men's section, separate from the other section, this is allowable. The current newspapers are full of reports of gentlemen waiting for friends; and at times to make the waiting more pleasant, music is supplied.

NICKY AND FRANK JOSEPH

Met at the Festive Board in St. Petersburg.

THEY TOASTED EACH OTHER

And in Flattering Words Told of Their Mutual Admiration.

The Czar was greatly pleased to see His Majesty of Austria among the Russians, and of course Franz Joseph was deeply touched by the warm reception accorded him—both see any amount of proofs of friendship—and they both spoke in French.

St. Petersburg, April 23.—The Emperor Francis Joseph of Austria-Hungary has conferred high decorations upon several Russian Grand Dukes and Ministers of State. He has appointed the Grand Duke Nicholas, honorary commander of a Hungarian regiment. Last evening the Czar received Count Goltchowski, the Austro-Hungarian Foreign Minister, who had previously conferred with Count Muraviev, the Russian Foreign Minister, and M. Dewitte, the Russian Minister of Finance.

The Czar, in visiting the Emperor Francis Joseph, said: "We are greatly rejoiced at the presence of your Majesty among us, and we are glad to thank you for this fresh proof of the sincere friendship which exists between our two countries, and which is the basis of our common policy and the basis of our mutual respect."

Both speeches were delivered in French. All the guests who were the recipients of newly conferred orders wore the decorations. Count Goltchowski, who was accompanied by his wife, and Count Muraviev, who was accompanied by his wife and daughter, were seated at the banquet.

The two Emperors conversed with animation while the function was in progress. The reception followed at the Court House, where the Emperor and Empress were met by the Count Goltchowski with Baron Beck. The Emperor and Empress continued to converse with the Count Muraviev and the other Russian Ministers.

The York County Commissioners, composed of Messrs. Woodcock and Messrs. Woodcock and Messrs. Woodcock, awarded the contract for the York Mills bridge to Messrs. Gombosi and Co., Toronto, the bridge to be erected on the site of the present one.

AT THE CIVIL ASSIZES.

Cost Occupied All Day with the Suit of Bateyman Birrell vs. Farmer Wood. The case of Charles Birrell, the North Toronto dairyman, who is suing George Wood, farmer and stock dealer of York Mills, for \$2000, for damages done to his cow by Birrell's cow, which he had carried the scale for 30 miles without having it move from its position.

The World's Convention Committee met at headquarters last night for the purpose of making a preliminary report on the progress of the convention. The committee was composed of Messrs. W. C. T. U. at work.

St. Thomas.

Our reporter visited Miss Bertha Bowman at 41 Yarwood-street, St. Thomas. Miss Bowman spoke of the nervous troubles and debility from which she had suffered until recently, and said: "I have taken Milburn's Heart and Nerve Pills for nervous and general debility. My system was run down, and I felt tired almost all the time until I commenced taking these wonderful pills. They have made my nerves strong, thereby banishing the nervousness and weakness. In addition they have given me a healthy circulation of the blood, which has invigorated my entire system, making me feel well and strong. I can truly say that I never felt better in my life than I do now."

Milburn's Heart and Nerve Pills

Mrs. L. Tufford has for years been a great sufferer from nervous troubles, shortness of breath, morbid mental condition, etc. She says: "I thought that everything was going wrong, and so I could hardly sleep. When I would lie down, I would often gasp for breath, and always thought my time had come when in fact conditions were not so serious. The doctors that I consulted seemed to be unable to do anything for me, and I was very much frightened, when I providentially heard of Milburn's Heart and Nerve Pills. I bought a box, and after taking them I noticed a great change for the better, and now an end to my troubles. My complete cure has been made in my case. I sleep well, and feel better than I have for years. The change has been so rapid that I am to-day wondering what I had been sick at all. I am so completely restored."

THE LOVERS' DILEMMA.

An extraordinary adventure of a lover is related in a French newspaper. A young man named Louis was in love with his neighbor, a young girl named Marie. They were both poor and had no money. Louis decided to take Marie to his home, but his father would not allow it. Louis was in a dilemma, and he decided to take Marie to his home. He took Marie to his home, and they lived together for some time. Louis's father found out about it, and he was angry. Louis decided to leave Marie and go back to his father's home. CHURCHES IN CUBA.

Guerrilla Leader Diaz Took Werley's Orders and Shot People Down. New York, April 23.—A Sun special from Havana gives horrible details from Sancti Spiritus of the total destruction of a small village 10 miles from there, in the middle of the month. The village contained about 150 people. It was a peaceful village, and the people were engaged in their usual occupations. The guerrilla leader Diaz took Werley's orders and shot people down. The people were killed, and the village was destroyed. The people were very poor, and they had no money. The guerrilla leader Diaz took Werley's orders and shot people down. CHARGE OF PERJURY DISMISSED.

Judge McLaughlin Says That a Man is Not Inwardly Conscious of His Lie. William H. Munshaw of Schomberg was up before Judge McLaughlin yesterday, charged with perjury in obtaining a marriage license, when he falsely swore he was over 21 years of age. The charge was laid by his wife, who recently failed in a suit against her husband for non-support. The judge dismissed the case, observing that a man was not inwardly conscious of his lie, and that he spoke only from hearsay.

The Rowdy Murder Case.

At the Assize Court yesterday the trial of Samuel Rowdy for the murder of Agnes Rowdy, who died from the effects of a revolver shot at the General Hospital a short time ago, was fixed for this morning at 10 o'clock. Mr. Barron, Q. C., and Mr. Dewar will prosecute, and Mr. King, Q. C., and Mr. W. R. P. Parker will defend the prisoner. The case will probably occupy the whole day.

Rossland's twelve regular shipping mites are making a good showing. The ore shipments from the camp for the week ending Saturday, April 27, were: Le Roi, 800 tons; War Eagle, 200; Mask, 75; O.K., 32; total, 1307. The O. K. mill last week treated 113 tons. These shipments bring the amount for the year to 17,103 tons, of which the Le Roi has contributed 12,612 tons, the War Eagle 231 tons, Columbia and Kootenay, 1,850 tons; Iron Mask, 93; Junco, 91; Josie, 126; Cliff, 61; Red Mountain, 56; O.K., consistent, 118; Evening Star, 21; Giant, 21; I.X.L., 12.

It is reported that the North Star mine near Fort Steele in the East Kootenay district has been sold to an English syndicate. The North Star is said to consist of a regular dyke or mass of mineral rather than of a mere vein or lode. This mine produced and shipped during 1894 nearly 4000 tons of ore, which had a valuation of \$25,000. At the present time the company have 3000 tons of rich carbonate and garnet ore on hand, and are expected to ship 2000 tons more during the present season. The mine would become the largest producer in the province.

Ernest Grant Govan and British Columbia's Future in Minerals. The Colonies and India of London, Eng., in a recent issue contained the following: What Cecil Rhodes has done for South Africa, what Whitaker Wright and others have done for Australia, Ernest Grant Govan intends to do for British Columbia. The founder of a gigantic company, which has just met with such a large measure of success in London's market, is a man of indomitable perseverance, audacious in the colonial sphere, and a man of great energy whose footsteps have up to the present always trodden the path of success. Of a race of financiers, Mr. Grant Govan has while in his "thirties" succeeded in accumulating a fortune of men may envy. After several months' sojourn in British Columbia, he expressed unqualified confidence in that country, and predicts that it will not only rival but will excel all other goldfields which have yet been discovered.

Placer Gold Near Trail. The city of Trail had a small placer excitement the other day. The sensation was occasioned by the discovery of an interest in McGinnis bar, opposite the mouth of Stony Creek, a mile and a half north of the town. Some of the McGinnis bar is well known. It was about 20 years ago that James McGinnis and a party of miners discovered in a prospect hole a reef of bed rock which was supposed to be very rich. They worked this reef out, and took out about \$20 a day per man when it was abandoned in 1882. The McGinnis worked all summer working over about 20 acres.

Mr. Glover Denies It. Rev. T. W. Glover writes The World from Vancouver, B. C., that he has published a statement that he has made \$10,000 out of a gold-mining deal. He says that he has never invested any money in the Kootenay.

B. C. Mines in London. During March eight British Columbia companies were registered in London, with an aggregate capital of \$2,825,000. The London & Globe Finance, Ltd., with a capital of \$1,000,000, is included in this list, although it is not in the attention of British Columbia. The British Colonies Investment Co., Ltd., has a capital of \$1,000,000, and the name of a mining journal that has just appeared in London, Eng.

A Smith's Falls Man. According to The Record, M. Healy of Smith's Falls, Ont., is in Rowan and says he has purchased the Waters Meet and Golden Plate mining claims, situated in the Kootenay district, in the Vernon area, although it is largely a bluff, assaying \$3.20 in gold. It is the purpose of Mr. Healy to commence active development work on his property as soon as the snow goes off sufficiently to permit the provisions can be gotten to the mine.

Marvelous Wealth. Tremendously Rich Lands Reported to Have Been Found Near Vernon. Vernon is in a state of suppressed excitement almost too deep for expression. Gold is the cause, and gold in such quantities that the wonderment and excitement is very pardonable. So says a Vernon correspondent. Assays of rock in every direction are being obtained that would make Croesus' teeth water. On the Sarah, one of the Morning Glory group, gold is visible to the naked eye right on the surface of the claim, and in such substantial quantities that the owners have found it necessary to put a notice in the Vernon News to prevent the stealing of the rock. Some of the rock assays over \$200.000. On the Blue Jay and Falcon, two miles from town, assays have gone \$150.00 and \$200.00 in gold, and on the Zion, a property in the same vicinity, very satisfactory assays have been obtained. Some of these properties have as yet been unworked, and it is believed that the surface indications certainly are the best ever found in British Columbia.

Dear Sir—I am very much pleased to inform you that in the draft started at 35 feet in the shaft and which was extended 150 feet, we have encountered some very fine ore, better than any we have had before, and now becoming solid, with every indication of it being a permanent body of ore. I am sorry to say we have been compelled to close down for a few weeks on account of the flow of surface water into our shaft. On account of the large quantity of snow this winter all the mines which are not equipped with machinery are in the same fix.

The latest assay I have made runs \$122.50 to the ton in gold, and we have lots of the same kind of ore in the drift. We have as pretty quartz as I have ever seen, and it is a fine concentrating ore. Fred C. Johnson, Supt. Wyatt & Co. are the brokers here.

ON THE SEABOARD. First-Class Reports From the Mining Regions of the Pacific Coast. Victoria, B.C., April 28.—(Special.)—A critical report has arrived in the history of British Columbia mining. It is the time when the tide may be taken at the flood and lead on to fame and fortune. The Railway bill is passing through its different stages in the Provincial Legislature to enable the British Columbia Government to acquire the United States citizens to take out naturalization papers before they can operate in the British Columbia mining country. These two measures are all important to the interior, and may decide the fate of the whole West coast mining area of the Province.

THE DIVING ROD.

Is it a Fake When Used in Detecting Mineral Veins?

While down in Hastings County the other day I ran across a "diving rod" man, who claimed to be able with his forked hazel twig, tipped with a mysterious-looking looking of wood, to detect a lead of gold wherever it lay beneath the surface of the earth. I was very much interested in his "instrument." When he held the two ends of the fork in his hands and walked through the field in the neighborhood of the Benbowick mine it would from time to time seem to twist in his grasp and point toward the earth, whereupon he averred that at such points leads would be found. I am sorry to say we have been compelled to close down for a few weeks on account of the flow of surface water into our shaft. On account of the large quantity of snow this winter all the mines which are not equipped with machinery are in the same fix.

The latest assay I have made runs \$122.50 to the ton in gold, and we have lots of the same kind of ore in the drift. We have as pretty quartz as I have ever seen, and it is a fine concentrating ore. Fred C. Johnson, Supt. Wyatt & Co. are the brokers here.

ON THE SEABOARD. First-Class Reports From the Mining Regions of the Pacific Coast. Victoria, B.C., April 28.—(Special.)—A critical report has arrived in the history of British Columbia mining. It is the time when the tide may be taken at the flood and lead on to fame and fortune. The Railway bill is passing through its different stages in the Provincial Legislature to enable the British Columbia Government to acquire the United States citizens to take out naturalization papers before they can operate in the British Columbia mining country. These two measures are all important to the interior, and may decide the fate of the whole West coast mining area of the Province.

Dear Sir—I am very much pleased to inform you that in the draft started at 35 feet in the shaft and which was extended 150 feet, we have encountered some very fine ore, better than any we have had before, and now becoming solid, with every indication of it being a permanent body of ore. I am sorry to say we have been compelled to close down for a few weeks on account of the flow of surface water into our shaft. E. R. C. CLARKSON, ASSIGNEE, ONTARIO BANK CHAMBERS, Scott-Street, Toronto. Established 1864. Henry A. King & Co., 12 King-street East, received the following despatch to-day from Chicago: There was a disastrous setback in the speculative grain markets to-day. The enthusiasm of the bulls disappeared. Wheat was not touched on the news recently, and yet when the despatches foreboded an end of the fight the price was quickly swept from under the market. Again the Chicago had to follow the lead of English markets. Liverpool, Berlin and Paris were lower. Such were the foreign features to dishearten holders here and cause the break in prices. The Russian shipments were reported as 1,875,000 bushels. All the big commission houses had wheat to sell. The smaller brokers were selling out for their own account or for customers. It was the broker that Kaufman of St. Louis was helped along the break. Yet the break surprised everybody in the pit. There was more break than was expected. Minneapolis reported selling ground in spring wheat about 10c. The market was a little better for the past week or ten days was anything but flattering. No doubt the market will be better.
