

ENGINEER URGES CITY TO GO SLOW

Advises Against Snap Judgment in Allowing C. N. R. Entrance to Hamilton.

REPORT IS ADOPTED

Railway Engineer Says Company Could Not Come to C.T.R. Level.

Hamilton, Ont., Wednesday, Feb. 21.—The works committee deputed by the council to consider the application of the Canadian Northern Railway Company for permission to come through Hamilton on its purchased route through the north end of the city declined to give its immediate endorsement last evening. E. R. Gray, city engineer, in a long and comprehensive report which covered every possible angle, urged that snap judgment be avoided and that no action be taken until a competent consulting engineer had been secured to report on the feasibility of a common entrance with the Grand Trunk Company. He was not satisfied, he said, with the company engineer's claims that a common entrance with the Grand Trunk was not feasible.

The outcome of the meeting was that the following resolution was carried: "Whereas it is the opinion of this committee that the city desires the Canadian Northern Railway Company to come to Hamilton and this board desires to expedite matters as much as possible, but must consider the city's interest, and in view of that would recommend that the city engineer's report be approved and filed, and that as a preliminary step his recommendation be adopted by a competent engineer engaged, satisfactory to the city engineer, to report on the feasibility of a common entrance with the Grand Trunk Company, and that the report be reported back to the works committee at the earliest possible moment. Also, it might be referred to the city solicitor for his opinion. Ernest Oliver, Canadian Northern engineer, replied to Engineer Gray's report at length. He said it was unreasonable to expect the Canadian Northern to drop to the Grand Trunk level. The suggestion that the company come in on the Grand Trunk track was not feasible, because of the congestion of traffic on those tracks now. Coming in on the Grand Trunk line the company would be unable to reach the industrial part of the city, he claimed. It would also be impossible to swing along on the other side of the Grand Trunk because of the industries constructed so close to those tracks. The fact that the Canadian Northern was the most advisable was evidenced by the fact that the hydro radian's commission had chosen the same route, he said. Reply to Gray, Lang, Engineer Oliver said that the company would be willing to enter into an agreement with the city, but the latter would not be held responsible for any expenses that deviation from the purchased route might incur.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED (Continued From Page 1.)

agree with historical fact. In previous great wars, as the Napoleonic and the American civil war, the national armies set out to impose their wills on the other national armies; in this present great war whole nations have set out to impose their will on certain other nations. "The allies will win victory either by the continuance of the present siege war, or by open actions, following the break-up of the siege lines, which they reduce the German forces in the field to a condition in which they will find it no longer worth while to continue the struggle.

On the western front the British under the German trenches in eight raids east of Armentieres and east of Ypres, and they did considerable damage to the foe defences. With telling effect British batteries shelled German trenches about Wytschaete, La Bassée and Sully-Sallière. The Germans, assisted by burning liquid projectors, captured some of the small British advanced posts south of Le Transloy. The heavy preliminary bombardment had completely destroyed the British trench attacked and strong German detachments made the rush to the position. Bad weather prevented greater infantry activity. The Germans mention British attacks, which they say they defeated. These were certainly raids.

The French official communication last night contains, as usual, little information. As usual, the Verdun region furnishes nearly all the news, that French batteries shattered German trenches northwest of Hill 604. South of Cerisy, French anti-aircraft guns brought down a German aeroplane. The Belgians repulsed two German attempts against their outposts south of Steenstraete in the previous night.

An official communication issued at London last night reports a revival of British activity against the Turks in Palestine. By a surprise attack they captured 20 Turkish posts on the Sinai Peninsula. At the same time, re-established at Bir el Hassana, the British surprised and captured the entire garrison of three officers and twenty-one men; at the other post, at Nekhi, garrisoned by a like number of men, the Turks fled, not without losing some of their number as prisoners.

The United States has served a demand on Austria-Hungary that the Vienna government define its attitude towards submarine warfare. Failure to give a satisfactory answer to the American question the government at Washington, it is expected, will send the Austrian ambassador home. The Turkish and Bulgarian diplomatic corps will probably follow the Austrian ambassador out of the country. The United States will also take more stringent measures against spies and espionage.

Germany's attempts at inducing the Poles to enlist under her banner as a national Polish army have failed. Von Hindenburg expected to derive a million and a quarter of recruits from Poland, Courland and Volhovia, the occupied provinces of Russia. The Russian declaration for a united, autonomous Poland, with her old boundaries restored, killed the German scheme. Germany may now compel the Poles to serve with her colors, but in that event they would, like the Austrian Slavs, desert by wholesale on the first opportunity.

Splendidly Arranged Program Enthusiastically Received by Brilliant Audience.

The Women's Musical Club, the cause of the Red Cross and the presence of the two distinguished artists, Anna Case, the soprano, of the Metropolitan Opera, and Guiomar Novaes, the Brazilian pianist, were the powerful combination which drew the largest audience to Massey Hall, has been gathered there during the past two years. The only other event that might be compared with it was the patriotic concert given by Meiba and, as on that occasion, the entire undertaking was a brilliant success.

GERMAN SOUVENIR EXPLODES IN CAMP

Enemy Bomb Sent Home by Toronto Officer, Causes Accident.

NAVY ENLISTMENTS

Already Over One Thousand Canadians Have Been Enrolled.

While Sergt.-Major T. A. Hutchinson was attending an Exhibition German rifle grenade at Exhibition Camp it exploded in his hands, inflicting very painful cuts and burns, but not injuring him very seriously. The bomb was one of several sent by an officer of the 84th Battalion from overseas to his father in Toronto. The father had sent them to the Exhibition Camp bombing school for expert examination. Capt. N. P. Kelley, officer in charge of bombing instruction, investigated several more of the German bombs and discovered that they were all fully charged with explosive. The bombs are all of a large size. A number of small bombs sent to Toronto by overseas soldiers as souvenirs are likely now in city homes, and the possessors unknowingly treasuring a "menace."

Canada has so far enlisted 1053 men for service with the British Navy. Over half of them have been signed on in Ontario, Toronto being the recruiting centre. At the Toronto depot 495 men have been accepted for overseas naval service and 20 for service with the Atlantic patrol. Seventeen others are awaiting entry. A total of 235 naval recruits have been rejected. In the boys' department 64 have been enrolled, with ten others on the waiting list. All will be trained on the Nile.

New With Forestry Unit. Lieut. J. N. Wilkinson, 19th Regiment, St. Catharines, who has served two and one-half years in the Westland Canal force, has been taken on as second lieutenant of No. 2 forestry group; also J. X. Skelly of Winona, who is a Hellenist and civil engineer, but joins the forestry unit with rank of sergeant.

The forestry draft has a special demand for 10 foremen sawyers, 30 machine sawyers, 20 drivers for stationary engines, 20 saw-filers, 20 fitters, 5 millwrights, 3 blacksmiths and 12 steamfitters. It is pointed out that in the past forestry men have been serving with forestry units, each recruit now coming forward for these units releases a combatant for front line service.

A district military boxing competition is to be held on March 28 under army rules. On March 23 the Toronto City Institute and the 17th and 132nd Battalion contestants are to meet here for the semi-finals. The Hamilton units and the 17th and 215th Battalions hold a preliminary meeting on March 21. The winners of the finals are to receive cash prizes and medals. The competition will be held under the auspices of the Ontario Fighting and Physical Training School, and direction of Capt. Lou Scholes and Capt. W. Conover.

The 26th March Battalion held a final round match Toronto yesterday. At the city hall the unit was photographed. The 67th University Battalion Exhibition Camp, had a successful live shell gunnery practice yesterday, firing rounds at targets placed on the western point of the island. The firing was directed by Lieut. J. W. Wright. Lieuts. H. D. Wallace and E. McCollough were section commanders. The 15 pounds were fired in 30 minutes. Lieut. J. Elliott was observing officer at the island. Lt.-Col. E. C. Arnold, brigade commander, witnessed the firing and commented favorably upon it.

The officers of the 23rd Battalion relating to the trouble arising over its movements with some members who were also professional rock-throwers are now being dealt with direct by the Ottawa authorities. It is possible that the commander may attend an enquiry to be held at the capital.

Of 41 Toronto men offering for enlistment yesterday 18 were accepted. These were obtained by 12 units, as follows: Artillery, 4; Signallers, 2; 25th Battalion Construction Battalion, Skilled Railwaymen, Forestry Draft, each 2; 19th Battalion, 20th Battalion, 19th Regiment, Draft, 20th Battalion, Special Services Company, each one. Thirty-four recruits from Central Ontario points were also at the armories depot for final medical approval. Thirty-two were for the 56th Battalion and two for the 21st Battalion.

The 220th York County Battalion will carry out field training manoeuvres in High Park today, reaching the Howard House at 9.30 a.m. The following officers and N. C. O.'s qualified in trench warfare at the recent exercises: Capt. J. W. Arndt, Colour-Sergt.-Major E. G. McPherson and Sergt. G. F. Snell, 164th Battalion; Lieut. D. C. Wille, 176th Battalion; Lieut. C. H. Mitchell and Sergt. J. L. Oull, 177th Battalion; Lieut. F. G. H. Wallis, 182nd Battalion; Lieut. G. H. Rochester, Corp. C. J. Callaghan and Corp. A. E. Freckleton, 204th Battalion; Lieut. E. E. SAFETY AT ANY SPEED

In both Series "18" FOUR and Series "18" SIX, Studebaker has concentrated in refining, perfecting, and strengthening one of the best full-floating axle systems ever put under a car, regardless of price.

In qualities of steels; in development of design; in accuracy of manufacture, Studebaker could not improve on its construction, even if it manufactured a car to sell for \$5000.00.

The weight of the car; the strain of stopping, starting and driving the car; the strain of side-thrust in turning corners at high speed, are all absorbed by the giant strong axle housing, and all of these strains and the weight of the car, are carried on this housing on big Timken bearings.

NORTHERN RATEPAYERS REGISTER OBJECTION

Will Send Deputation to Board of Works on Matter of Duplex Avenue Scheme.

That some party or parties were influential enough with the city council to get the Duplex avenue scheme revived and re-introduced after it had apparently received its quietus time and again was the charge made at a well-attended meeting of the North Toronto ratepayers' executive, held last night. The executive did not mince matters but pointed out the fact that the whole northern section of the city was opposed to the prosecution of the work beyond Chaplin crescent, and strongly endorsed the report of the board of works, which proposed to cut it off at the point. It was pointed out that Ald. H. H. Ball had done everything in his power to carry out the wishes of executive and citizens generally in stopping it at Chaplin crescent, and had strongly supported Ald. Ramsden's committee in the matter. Last night's meeting also condemned the waste in allowing the big water pipes to be exposed for years on the streets to the detriment of the city. A strong deputation will go down before the board of works on Friday.

LAND SURVEYORS MEET; ANNUAL CONVENTION

Appoint Committee to Discuss Finances and Hear Addresses.

Discussion of the financial condition of the organization and the appointment of a committee to recommend means of overcoming the deficit in the treasury featured the first session of the twenty-fifth annual convention of the Association of Ontario Land Surveyors in the lecture room of the Engineers' Club, 90 West King street, yesterday afternoon.

The association is at present not self-sustaining because it is carrying 35 members who are in military service; the cost of publication of the reports, which are distributed in the United States and Canada, has been increased and other expenses have advanced.

The deficit amounts to several hundred dollars. It was suggested that the annual fee be raised from \$4 to \$5, to which no objection was offered. It was also recommended that the rate of admission to the association through examination be increased. The candidate is now charged \$10 when he applies and \$25 after he succeeds in passing the examination. The committee appointed to consider these possibilities and other ideas looking to a solution of the problem consists of Vice-President James J. McKay, Secretary-treasurer L. V. Rorke and J. Doble. Active members number 262.

In the absence of President C. J. Murphy, Mr. McKay presided. The president's address was read by Mr. Rorke, and in the following business meeting the reports of the secretary, treasurer, committee on publication, committee on topographical survey and legislation were considered. John Dalton read a paper written by J. T. Rennie, D.T.S., on "A Few Thoughts on Geodesy."

Arrangements are being made for lectures on laboratory work in civics, botany, zoology and household science. Details regarding this work may be obtained by application to the laboratory buildings. In the university college, practically all the work in the departments of Greek, Latin, ancient history, Hebrew, English, German, French and ethics is proceeding as in normal times. The management yesterday was unable to predict when normal conditions would be restored.

Advertisement for 'The Secret Kingdom' by Louis Joseph Vance. Includes images of Dorothy Kelly, Charles Richman, and Arline Pretty. Text: 'Come to Alania TODAY. You have read of these little monarchies in which turbulent revolutions perpetually make peace a myth and life a continual round of adventure. Alania isn't on the map—but it exists in your favorite motion picture theatre today. Alania is a fiction, but the story of its disturbances tells of actual royal entanglements in actual little nations. A king is killed. His son, a boy, is carried off—to the United States! Simon, a Richelieu type of prime minister, usurps the throne. Philip, the boy, and Julia, his sweetheart, the centre of a panoramic vista of adventure in all parts of the world—never knew of the royal right they enjoy—until one day, Philip learns he is a King. But of what land, where? That is the motif of The Secret Kingdom by Louis Joseph Vance. It has been produced in idealistic pictures by the GREATER VITAGRAPH. The settings are of splendid magnificence and in keeping with the virile, fascinating story. A cast of unusual strength portrays the various characters in this amazing plot against a throne. Heading it are Dorothy Kelly Charles Richman Arline Pretty. Go to your theatre today and you will see the first part of the Secret Kingdom, you will come to love Philip and Julia, Barreto and Juan—and to hate Ramon and Simon and the other intriguers. The story, which makes the pleasure two-fold, APPEARS IN THE TORONTO SUNDAY WORLD -- IN -- THE SECRET KINGDOM IS NOW SHOWING AT THE REGENT.

POTATOES SCARCE AND PRICES HIGH

Prospects Favor Continued Lack of Supplies for Next Few Months.

CROPS WERE LIGHT Toronto Prices Not So High as at Most Other Points.

That potatoes will continue high in price and will not be readily obtainable for the next four or five months is the consensus of opinion of Toronto dealers and large buyers who keep in touch with the markets.

Florida Crop Destroyed. Mr. George Wright, of the Walker House, said that while there was doubtless a great quantity of potatoes stored in pits that could not be opened until the spring, the Florida crop had been almost totally destroyed by frost.

WOULD SEEK GUARANTY AS TO MISSION FUNDS

Presbyterian Association Advises Contributors to See That Funds Are Spent on Missions.

The executive committee of the Presbyterian Association has adopted the following resolution: That it is the judgment of this executive committee, based on the desire and purpose to preserve if possible the integrity and unity of the Presbyterian Church in Canada, that all contributions to the mission funds thereof should continue their support as heretofore, upon the assurance, however, that if it should be determined by the board of control that the said mission funds have been or in the future they should be devoted for the purpose of meeting unlawful expenditures incurred by the said mission committee, or otherwise for the purpose of promoting the proposed union with other churches, the association at the proper time to hold to account those responsible for applying the mission funds of the church to such unlawful purposes.

The foregoing resolution has been adopted as the result of complaints received by the management. It is pointed out that the expenses of the mission committee of the general assembly of the Presbyterian Church are met out of the budget. This budget is composed of contributions of church members to various mission schemes. Those who are opposed to union feel somewhat aggrieved that when they send in their contributions to the various mission funds, part of these contributions are used for a purpose of which they do not approve.

Was Member of Association About Sixty Years—Chaplain of Black Knights.

Rev. Charles E. Perry, one of the oldest members of the Orange Order in Toronto, died at his home, 116 Roncesvalles avenue, last evening, in his 81st year. He was born in the Township of Clarke, Mar. 9, 1836, and entered the Methodist ministry in 1859, having his first charge at Orange, and continued in the work at Calabogie, Walters' Falls, Hanover, Fisherton, Penzance, Meaford, Angus, Loydtown, Davenport and Mimico in succession. He came to Toronto in 1890 and took charge of North Parkdale Church, where he remained until he was superannuated about 12 years ago.

The late Mr. Perry had been a member of the Orange body for upwards of 60 years and connected with Canoner Lodge, 613, as chaplain for almost 25 years. Last year he was elected chaplain of the Black Knights of Ireland in the city of Toronto. He leaves a widow and one daughter, Mrs. Harold J. Partridge of Toronto. The funeral will take place Thursday at Mount Pleasant Cemetery at 2 o'clock tomorrow afternoon.

TEACHER FOR ALLAN SCHOOL.

The question of a male or female teacher for Allan School, (the Boys' Home) will be decided at the meeting of the management committee of the board of education today. INCREASES IN WAGES AND SUPERANNUATION

Board of Education Finance Committee Recommends Largely Augmented Expenditures.

A lengthy discussion took place at yesterday's meeting of the finance committee of the board of education regarding increasing the superannuation fund of those teachers who retired before the present scheme came into force. Chairman Trustee C. A. De Brown suggested that to the fund of \$11,375 be added the sum of \$1000, but Trustee McTaggart was strongly opposed to this. "It is simply being liberal with other people's money," he contended. Finally it was decided that the sum of \$50 be placed opposite the name of each superannuated teacher where it is thought to be required. Dr. Minna, chief medical officer, was granted an increase of \$200.

The salary for caretaking for the administration building was passed at \$27.00, less \$120 for rent, fuel and water. The recommendation that the caretakers' salaries for collegiate institutes, high and public schools, be increased on the basis of five per cent. of the present salary was also passed. The painters' wages, employed by the board of education, will also be increased from March 1 from \$7 1/2 to 45c per hour. Superintendent Bishop was praised for the saving he had effected, and it was decided that his salary be increased from \$4500 to \$5000. The total estimates for 1917, including the recommended increase are \$150,150.21, as against that of \$136,523.73 for 1916. On the estimates of the advisory committee, \$200 was struck off. This was in reference to a \$200 increase to Principal R. H. Eldon of the commercial high school. A compromise was effected by passing \$200 for Mr. Eldon and only \$100 for Principal W. Ward.

Croft, G. E. Bulley and V. W. Bro. R. E. Segg. At the subsequent meeting of the board of directors R. W. Bro. G. H. Smith was elected president; W. Bro. J. O'Connor, 1st vice-president; J. McMaster, 2nd vice-president; J. McKnight, treasurer and Bro. H. W. Best, secretary.

A Worth-While Hobby for Men

It is a man's hobby that balances his life—that offsets the blows of adversity. It may be books, billiards, bugs, business—any one of a thousand things. But it relieves a strain. It helps him grow and expand healthfully.

So we offer men the greatest hobby—a hobby that brings out depths of inspiration unthought-of. We offer music—the making, not the hearing—soul-satisfying, mind-gratifying music—through the medium of the Gourlay-Angelus.

Gourlay-Angelus Player-Piano

Few men have the time to learn piano playing. Men's work takes out of fingers the suppleness and finesse necessary. But there lies hidden in every man's inmost being a craving to make music. This the Gourlay-Angelus enables you to do.

The Gourlay-Angelus is not a machine. It is an instrument for self-expression. True, it enables you to play the world's greatest music masterpieces even though unskilled at the piano. But you play as you feel—tremendously, charmingly, daintily, softly, thunderously. And it teaches you music by allowing you to play yourself.

The Gourlay-Angelus combines the superior features of the pioneer player with the artistic perfection of the Gourlay Piano.

If you are one of those men who have longed for music, let us show you the Gourlay-Angelus.

Gourlay, Winter & Leeming, Limited 188 Yonge Street Toronto

War time demands call for simplicity, elegance and a measure of economy in style. We have two or three Gourlay-Angelus players in more costly and elaborate cases which we have decided to discontinue. These we are offering at prices that represent unusual opportunities. They can be seen at our showrooms.

The Marguerite Clarke Fund

Over the thousand dollar mark, and The World feels proud, not of itself, but of the people of Toronto who have answered our appeal for the little blind girl, Marguerite Clarke. As we have already stated, the aim we have is two thousand, but we have over half that amount now, and we feel that when so much has been done the appeal will not fail of its objective, and that the little girl who lost her eyesight thru the negligence of someone who left a dynamite cartridge out in the open will have an assurance of some provision, educational and otherwise, for her future.

In today's contributions we have ten dollars from the girl employes of Wm. Croft & Sons, who sometime ago opened a tea room for themselves, and now contribute the amount out of the proceeds. Then we have a dollar, the same being the weekly spending money of the little "guns" of the Cannon family, Gananoque. Other contributions are all in the same beautiful spirit.

Table listing names and amounts contributed to the Marguerite Clarke Fund, including S. M. B., Pat and Terry, Girl Employes of Wm. Croft & Sons, etc.

In Sunday's World we credited "A.R." 1998 with five dollars. The number should have been 7998. The initials mean "applied, rejected" but the boy who sent the money believes in doing his "bit" in one way if he can't in another.

RETURNED MEN ENTERTAINED.

Under the auspices of the Lady Orange Association of East End Unity Lodge, No. 80, gave its first banquet and social evening, to returned soldiers, in Armstrong Hall, Pape avenue, last evening. Over 75 returned men enjoyed a splendid evening, prepared by W.M. Slater Scott, as her energetic committee of women workers. The hall was gaily decorated with flags and bunting. Two private cars were given by the city. Among those present were: Controller Foster, Canon Dixon, Rev. F. E. Powell and P. M. Frisdenbox. A hearty vote of thanks was tendered by the soldiers to the Lady Orange Association.

Hair Often Ruined By Careless Washing

If you want to keep your hair looking its best, be careful what you wash it with. Don't use prepared shampoos or anything else that contains too much alkali. This dries the scalp, makes the hair brittle and ruins it. The best thing for steady use is just ordinary mulsified coconut oil (which is pure and greaseless), and is better than anything else you can use. One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft and the hair fine and silky to the touch. Lustrous, and easy to manage. You can get mulsified coconut oil at any pharmacy. It's very cheap, and a few ounces will supply every member of the family for months.

The Toronto World

FOUNDED 1826. A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited.

The Ontario Department of Agriculture

There was a good deal of ground for Mr. Rowell's attack on the government handling of the department of agriculture, but as usual in party debates there was a good deal to be said on both sides.

We are inclined to regard Dr. Creelman and his newly appointed assistant, Mr. Reek, as the virtual or acting minister and acting deputy minister, respectively, and this is an arrangement with which, for want of a better, Mr. Rowell should not be disposed to quarrel.

Metropolitan Expropriation

When the city members of the legislature, one of whom is provincial secretary, are united on a local policy, and when the attorney-general who resides in Toronto and understands the conditions, acquiesces in a certain policy, it would seem reasonable to suppose that the government would take care to give effect to that policy, especially as it concerned no one else but the city.

These conditions apply to the case of the proposed expropriation of the Metropolitan Railway, a policy for which Mayor Church takes credit. The city council has just decided to take a vote of the ratifiers on the question of taking over the street railway in September, 1921.

North Toronto is particularly interested in questions of transportation and efficient, regular and constant communication with the city, and no other method but the expropriation of the Metropolitan appears to be capable of solving the difficulty.

German Labor and the War

There is evidently the usual falsification of the position taken by the entente allies going on in Germany, but it is discouraging to those who hoped that the labor classes of the German people would understand what were the aims of the civilized world, to learn that President Karl Legelin, of the German Federation of Trades Unions, in replying to President Samuel Gompers of the American Federation of Labor, speaks of "the open confession of our enemies that their war aim is the annihilation of Germany."

This means that either Legelin is a tool of the Kaiser or else that he has swallowed the government distortions of the allied representations. There is no more desire to destroy Germany than there was desire to destroy France when Europe undertook to destroy Napoleon.

It is difficult to believe that Herr Legelin does not know that Germany made the great war, insisted upon it, against all the pleadings and entreaties of the other powers. The assertion that Germany was threatened or attacked has been refuted again and

again. If Herr Legelin with full knowledge of the facts prefers to think that Germany was attacked, we can only regret his obtuseness.

He speaks also of the refusal of the enemy to consider the sincere German peace offer. Here, of course, the allies are unable to follow him. We cannot regard the Kaiser's offers as sincere, when practically the only offer made was for a cessation of the fighting, without any reparation for all the evil that Germany has wrought, but a demand instead for an indemnity.

Herr Legelin also objects to the siege methods by which the allied navies have brought about a state of famine in Germany. The Prussians had no compunctions about reducing Paris by starvation in 1870, and siege and hunger has been a recognized means of warfare in all ages.

Nevertheless, it has been stated again and again by Mr. Asquith, by Mr. Balfour, by Mr. Lloyd George, officially and otherwise, that it is not the German people, but the Kaiser's militarist and Prussian system that must be abrogated. When Germany is ready to govern herself in relation to the rest of the world, let us say, as the United States does, there will be no need for war to establish peace in Europe.

Canada has anything to say in the final settlements of the peace negotiations, it should be to insist upon this, to put an end to kaiserism in Europe, and to establish representative government in the fullest sense among the nations which now serve autocrats and war lords.

Putting Up the Bars. Both houses of congress recently passed, over President Wilson's veto, the bill excluding illiterate immigrants from the United States.

Twenty-five years ago President Harrison, addressing some newly-arrived immigrants, spoke of Castle Garden "whose gates never fly outward." But a few months later came the panic of '93, and more people left the United States for Europe than came from Europe to the United States.

The army of labor becomes every year more mobile, and laborers from southern Europe pass part of the year working on this continent, and the other part in more sunny and congenial surroundings; at least they did before the war made Europe so uncomfortable a place to live in.

Whichever way the competition ever more intense as immigration pours into the United States, and they demand that after the war labor, as well as capital, be protected from the unfair competition of excessive importation.

There is also the feeling that the cosmopolitan population of the United States should have a chance to assimilate into a more complete and sympathetic nationality before millions more from all quarters of the earth join the community.

Similar sentiments will be heard in Canada if there is anything like the rush of immigration after the war which many of us anticipate. So far as we know there is no literacy test in our Immigration Act, and probably none, for a time at least, is needed.

Some who know how to write and speak English, who do so too much, are bothering us considerably more than the illiterate immigrants just now.

"Fixing" the Price of Paper

New York Morning Telegraph: We cannot share the elation of some of our contemporaries over the "victory" achieved in principle of the commission that it fix a maximum price for the output of publishing interest at Washington last Friday.

As a result of this acceptance prosecutions will be called off—while consumers will save \$30,000,000 a year. We have nothing and have had nothing but condemnation for the effort of some of the mills to bleed the publishing industry white so that a few private fortunes might be increased, but we undertake to say that a saving of \$30,000,000 a year to that industry, of which a part is a poor return to the American people for the surrender of one of the fundamental principles of our government, which is that the government should have nothing to do with the private dealings of citizens except to see that contracts are drawn in honesty and with due regard to law.

The manufacturers are either guilty of a combination in restraint of trade, or they are not. If they are, the law to reach them is not by compromise, but by prosecution; if they are not, it is unjust to prescribe for them a maximum price for their product.

ROWELL'S MOTION OUT OF ORDER

His Votes for Women Amendment to Reply Defeated on Division.

ON TECHNICALITY

Another Bill on Order Paper Ahead—Speaker's Ruling Upheld.

On division the house yesterday supported by 68 to 27 the ruling of the Speaker that N. W. Rowell's amendment to the motion for consideration of the speech from the throne was out of order.

Sir William Hearst raised the point that Mr. Rowell was out of order in that he had by his amendment introduced a matter already on the order paper, and further, that the amendment was improper as suggesting legislation to his majesty. After a great deal of technical discussion and invocation of parliamentary rules, the Speaker said he could not see any other course open to him than to declare the amendment out of order on the first of these points.

Mr. Rowell replied that there was no foundation for Sir William's point, and it was unprecedented. Messrs. Proudfoot, Elliott, Strohmeier, and Dewar supported the Liberal leader. The premier's point was an afterthought, they said. It would bottle debate if the Speaker ruled the amendment out.

Hon. G. Howard Ferguson supported the premier. Mr. Johnson repeated the suggestion that he had ulterior motives in giving notice of his bill.

MUNICIPAL BRANCH BILL IS INTRODUCED

Provincial Secretary Explains Promised Measure—Not Enough, Says Rowell.

The government's municipal bill was introduced in the house by Hon. W. D. McPherson yesterday.

It provides for a "bureau of municipal affairs" under a director who, for the purposes of the Public Service and Audit Acts, shall rank as a deputy minister. The provincial municipal auditor, the drainage referee and official arbitrator are to be attached to the bureau.

The bureau is to be given superintendence over public utilities, except the hydro, the health department and the railway board. The duties of the bureau include the issuing of ordinances on municipal affairs, collection of statistics, examination of municipal legislation in other countries, the recommendation of such legislation for this, and to perform such other duties as the lieutenant-governor in council may see fit.

N. W. Rowell said this did not go as far as the municipalities wanted to go. They wanted a separate department. Mr. McPherson said it went as far as it was wise to go at present.

IN AID OF THE CHILDREN.
