**Mothproof—  
A Destructive Pest is  
Defeated At Last!**

**M**ILLIONS of dollars are lost yearly to Canadian families through the destructive activities of the house moth. With the introduction of Snyder's "Sani-bilt" Guaranteed Mothproof Upholstered Furniture, the moth is banished from upholstered furniture, one of its favorite breeding grounds.

Moths cannot live or breed in the fillings or coverings of Snyder's "Sani-bilt" Mothproof Furniture. We stand behind this statement in the sweeping guarantee here reproduced.

"Sani-bilt" Furniture is made mothproof by a remarkable scientific process. We believe that the preparation used in this process is the only mothproof solution that contains no arsenic or bichloride of mercury. It is, also, colorless, odorless and will not evaporate.

All materials used in making "Sani-bilt" Furniture are brand new (not renovated), are clean, fresh and sanitary. The construction is strong and of such excellence that it ensures comfort of the permanent kind.

Wouldn't you like to drive the destructive moth from your home? Begin right. Purchase a guaranteed mothproof "Sani-bilt" suite of upholstered furniture. The prices are moderate and cover a wide range of furniture suitable for the most modest or the most luxurious home. Every suite of genuine "Sani-bilt" is well built, has brand new fillings, is comfortable and is guaranteed mothproof. Now sold by the leading stores throughout Canada. Look for the trade mark under the cushion.

While we can magnify the size of the moth, we cannot magnify the colossal extent of the yearly damage created by this pest.

ST. JOHN, N. B., MAY 14, 1924

THE NEW POSITION.

A feature that stands out conspicuously in the cablegram concerning the overturn in France is the very outspoken expression of relief in British circles over the defeat of Poincare, a feeling that was held much in abeyance while he wielded what seemed to be unchallenged power.

place an export duty on goods going to the United States. It will be hoped that the day will never come when such an expedient will be unavoidable, but that the Government and the public railway system together will develop a transportation policy giving to the Maritime harbors the volume of traffic which should pass through them, particularly during the winter, because of the great advantages they offer for such traffic and also because the railways which are Canadian property should serve Canadian ports first.

The Baldwin want of confidence motion met expected defeat yesterday in the British Commons. One result is to draw the line between the parties more sharply on the fiscal issue. Another will be to speed up a reciprocal tariff arrangement between Canada and Australia.

Press Comment

THE DEFINITE OBJECTIVE.

(Vancouver Sun) The only reason a political machine is more powerful than the people is because it knows what it wants.

A NEW MAY DAY SPIRIT.

(Kingston Whig) There is something hopeful in this new May Day spirit. It is like the dawning of a new day when the Socialists who have for years been seeking every opportunity to wage war with the capitalist classes forget their enmities and hatreds and put forward a plea for universal peace.

GRAY'S CHURCH IN DANGER.

(Toronto Globe) Stoke Poges Church, famous among the English-speaking people of the world as the resting place of Gray, and the adjoining churchyard, traditional scene of the "Elegy" is only 20 miles distant, and buildings are already encroaching upon the meadow, while the church, especially the once "ivy-mantled" tower, is sadly in need of repair.

INDUSTRY HELPS ALL ROUND.

There is too little understanding, particularly when tariff matters are under discussion, as to how industrial and agricultural interests help each other, how success in the industries helps the rural districts, just as a healthy agriculture in turn helps the cities, gives the industries a larger home market for their products, and has a direct beneficial effect upon general prosperity.

(The Irish Statesman)

High Spanish galleons, carved, silken-sailed, manned by high adventurers, sailing from Seeking Eldorado; Long Moroccan galleys, rowed by dark Ethiopians, hiding along the rocky coast of Lesbos, lying in wait for the Venetian merchantmen; And little boats, like butterflies on some Italian lake.

These are all gone, the high adventurous days are gone. The Spanish galleon and the gallant Don. The seas are charted, Eldorado mapped. Venice is but a tale; and the dark sea has trapped The Arab pirate and his swarthy slave into one grave.

The steamship conquers everywhere. The ferryboats are dreams, smoke in the air.

Keep The Home Fires Burning But Do It With The Least Labor

Have you ever considered the great utility of gas in the home?

How quickly it does the cooking?

What a fine heat it gives on a sharp day?

How it does away with the eternal building of fires?

What it saves in labor, in fuel, in the dumping of ashes—in money?

A turn of the tap and you have it. It is always at your service. When you don't need it, it is not burning your dollars away.

Efficient, certain, dependable, cheap. The most in service for the least money.

And then, of course, if you have thought of these things, perhaps you may have concluded that the cost of a gas range, the installation of pipes, etc., would make it prohibitive.

Such might have been the case in the past. But not so today.

As a Serve The Public industry we have figured out a plan whereby every house in St. John, situated on streets where our gas mains run, may have the very latest in gas service.

We will instal everything and you may purchase it on easy instalments, or rent the entire outfit on a yearly basis.

Our commercial department has it all figured down to the very lowest margin and will be glad to talk it over with you. That's what this department is for—to serve you.

Let our experts figure out your problem.

MORE OF MISTER GULLIVER

Mister Gulliver was telling about his adventures once upon a time when he was shipwrecked. "Where did you go after you left the Country of Lilliputians?" asked Nick. "I went to the Land of the Giants," said Mister Gulliver. "It was really called the Land of Brobdingnag, a queer name, indeed, but then it was a queer place."

ing down out of the air, began to swim on top of the water to hunt for fish. He let go of my cage and I floated for some time and was picked up finally by a ship and taken to my own country, where I lived happily ever after. "Did you have any other adventures?" asked Nancy. "Not today, thank you, Mister Gulliver," said Mister Gulliver. "Once I visited the Land of Horses, and another time the Yahoos. But I see Mister Muggs looking at his watch, so I suppose I won't have time to tell you any more."

Women of Middle Age

THE critical stage of a woman's life usually comes between the years of 45 and 55, and is often beset with annoying symptoms such as nervousness, irritability, melancholia, heat flashes which produce headache and dizziness, and a sense of suffocation. Guard your health carefully, for if this period be passed over safely, many years of perfect health may be enjoyed.

Lydia E. Pinkham's Vegetable Compound is especially adapted to help women through this crisis. It exercises a restorative influence, tones and strengthens the system, and assists nature in the long weeks and months covering this period. It is prepared from medicinal roots and herbs, and contains no harmful drugs or narcotics. Its value is proven by many such letters as these:

Vancouver, B.C.—"Before I took your wonderful medicine I was sick and ailing all the time. I happened to be speaking to a friend and she said, 'Why don't you try Pinkham's?' I am on my fourth bottle and can truthfully say I never felt better. I had tried all kinds of medicines but none seemed to do me much good. I urgently plead with those who are sick to try it. I was always cranky and had headaches but now life is altogether different. What the Vegetable Compound has done for me it will do for others."—Mrs. T. W. PLURO, 557 Richard St., Vancouver, B.C.

**Felt Hats**  
A very stunning hat of brick red felt is trimmed with small yellow and green apples.

**Shorter Skirts**  
SKIRTS get shorter as the days lengthen. From ten to twelve inches from the floor is now the correct length for tailored and sport things from eight to ten for formal gowns.

**Dishwashing Device**  
A small rubber hose connected with the water faucet over the kitchen sink makes a convenient dishwashing device.

**Plant Disinfectant**  
Clean soapy water is a good disinfectant and if poured on plants or around the roots often keeps a plant free from objectionable insects.

**Hair Often Ruined  
By Careless Washing**

If you want to keep your hair looking its best, be careful what you wash it with. Do not use prepared shampoos or anything else that contains too much free alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is Mulified coconut oil shampoo, which is pure and greaseless, and is better than anything else you can use.

Two or three teaspoons of Mulified is sufficient to cleanse one hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy, wavy, and easy to manage.

You can get Mulified coconut oil shampoo at any drug store. It is inexpensive, and a few ounces will supply every member of the family for months. Be sure your druggist gives you Mulified. Beware of imitations. Look for the name Watkins on the package.

**PINEAPPLE BOB FOR THE OLD-FASHIONED GIRL**

The slightly old-fashioned girl who wants curls and the suggestion of much hair and yet wants to be bobbed, chooses the pineapple bob, illustrated here by Mary Jayne musical comedy actress. Sort of a camouflaged bob.

**Black and White**

Nowhere is the combination of black and white more effective than on lingerie. Some of the most delicate and fragile lingerie of silk and linen is embroidered in black.

**Wide Bands**  
Wide bands of embroidery with small designs and borders of plain color are being used instead of fur on the new coats.

**Crepe Linings**  
Printed crepe linings, particularly those on a white ground with figures in red and white, are much liked for coats.

**Linen Dresses**  
Linen dresses with pleats and cutouts for trimming frequently have white organdy collars and cuffs with edgings of Irish lace.

**Crystal Beads**  
Crystal beads on pink georgette are a combination that fashion is powerless to put out of business. For young women particularly there is a charm to such frocks that is quite irresistible.

**HIGH KICKER**

This is one of the ways Lina Basquette of Ziegfeld's Folies keeps in dancing trim. Every day she goes through a set of limbering-up exercises something like this. And if you think they are so easy, just try them some time.

**UNUSUAL MEMORY**

Lucille Joy, hostess of a Los Angeles cafe, has the reputation of never forgetting a patron, whether the visit occurred weeks or years ago. In this manner she always makes folks feel at home. "It isn't a system," says she, "just an unusual memory."

**FABLES ON HEALTH  
Taking the First Steps**

"How you carry that child—Look out—Don't sit her down that way!" Mrs. Mann was constantly interrupting Mr. Mann's parades with the firstborn.

And well she might keep a careful eye, for the posture of the child is most important. For several months the baby should remain lying. If it has properly developed by the third month it should be able to hold the head up without aid. Its back and head should always be supported by the person holding the child. By the end of the sixth month the child should be able to sit up without support.

About this time the child will already indicate a desire to creep and, if normal, will have started doing so. By the ninth month it should be trying to stand up and before the end of a year should be able to take some steps. Many babies are walking within a year, while others take up to 18 months.

It is unwise to encourage the baby to walk without some mechanical contrivance to aid while the bones are gaining their proper strength. Also, the posture it chooses and should not be encouraged to assume any particular position, or to walk before it shows a desire to.

It is easy to digest and deserves a prominent place on the spring menu. A tree bearing oil which can be used in paints is grown successfully in Florida.

**OAK HALL'S Bargain Basement**  
Quality at a Price

**Announces For Thursday, Friday, Saturday, Great Bargain Celebration**  
Thousands of Dollars Worth of Bargains To Make Hundreds of New Customers

St. John people know that the Oak Hall Basement is different from ordinary stores but MANY do not know exactly what the difference is. In 1922 the Oak Hall Basement was started to reduce the cost of merchandise. It is operated entirely independent of the upstairs stores. It has its own buyer who makes numerous trips to the large manufacturing centres. He buys in large quantities, always at prices considerably under the market value; if he can't get his price he doesn't buy—so every article is a bargain; this is the first step in lowered prices. When the goods arrive they are sold for cash, there are no refunds, no charges, no returns, all this brings down the cost of doing business which is directly reflected in still lower prices. New goods continually arriving, bought under the market price, sold on a smaller mark-up than usual. That's why today and every day the Oak Hall Bargain Basement is able to provide hundreds of bargains like these below:—

RECEIVED PAY FOR GETTING DEPOSITS

Toronto Ex-Controller Paid \$13,500 by the Home Bank.

(Canadian Press Despatch.)  
Toronto, May 13—More light was thrown today on the manner in which payments totalling \$13,500 came to be paid by the Home Bank to Fred H. Richardson, a former city controller, for his efforts to obtain city deposits for the bank. Mr. Richardson appeared before Charles Garrow, K. C., official referee for examination at the instigation of the liquidator. Examined by A. W. Anglin, K. C., for the liquidator, G. T. Clarkson, Mr. Richardson admitted that a series of eight payments, ranging between \$3,000 and \$1,000 and covering a period from March 20, 1921, to July 4, 1923, had been made to him by the bank, and stated that the payments represented a one per cent. commission on deposits he had been instrumental in securing from the city.

Mr. Richardson said that he approached Controller C. A. Maguire, then vice-chairman of the Board of Control and urged upon him the fairness of increasing the Home Bank deposits to an equality with city deposits in other banks. He had several interviews with Controller Maguire, and the latter promised that he would advise the course suggested. As the deposits were increased, considerably, Mr. Richardson said he understood that this advice had been given.

He denied that he had split his commission of \$13,500 with any person. Asked whether he had done anything for the \$13,500 besides interview Controller Maguire, Mr. Richardson said: "The Home Bank got deposits averaging over half a million. If that is not good service, I don't know."

It is intimated that the liquidator is considering the question of taking legal action to recover the \$13,500 from Mr. Richardson for the bank.

CARLETON COUNTY HOUSES BURN.

Two houses were destroyed by fire yesterday at Grafton, Carleton County, and only the strenuous efforts of the Woodstock fire brigade saved two other houses which were near by. The houses destroyed were owned by Miss Amanda Brown and Horace Bull. The fire started in the latter and had gained considerable headway before it was discovered, as Mr. and Mrs. Bull were not at home, having left in the morning for a trip to Bangor. The loss is estimated at \$6,000, partially covered by insurance.

JUDGMENT RESERVED.

Before Chief Justice Hazen, yesterday afternoon, argument of counsel in the fixing of the amount of damages to be assessed against the steamer Perene was heard, and His Honor reserved judgment. Dr. F. R. Taylor, K. C., appeared for the schooner Maid of Scotland, the owners of the coal cargo, and A. N. Carter, for the owners of the Perene.

HAD NARROW ESCAPE.

Walter McAllister of Upper Gagetown had a narrow escape from drowning yesterday morning when the canoe in which he was paddling was upset near Swan Creek and he was two hours in the water before being rescued. The first to hear his cries for help was Miss Blanch Peters, school teacher, and she

sent one of the pupils to investigate. A son of Fred McCready took a canoe and succeeded in bringing the other canoe, with young McAllister clinging to it, to shore. He was taken to the home of William Meed and Dr. Jenkins summoned. Last evening the young man was recovering from his experience and no ill effects are looked for.

Floating Specks Before the Eyes Means Liver Trouble

When specks start to float before the eyes, when everything seems to turn black for a few seconds and you feel as if you were going to faint, you can rest assured that your liver is not working properly.  
The essential thing to do in all cases where the liver is slow, lazy or torpid, is to stir it up by the use of Milburn's Lax-Liver Pills and clear away the accumulated mass of waste and poisonous matter from the system.  
Mr. Chas. Aylard, Frankville, Ont., writes: "I used to be awfully bothered with floating specks before my eyes, headaches and sick to my stomach. I took just half a vial of your Milburn's Lax-Liver Pills and ever since I have felt as well as I ever did. Now I always keep them on hand."  
Milburn's Lax-Liver Pills are 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

AN UNPARALLELED UNDER-PRICING EVENT THAT WILL BE ON THE TIPS OF TONGUES OF THOUSANDS OF PEOPLE IN ST. JOHN AND FOR A RADIUS OF 50 MILES—A SELLING EVENT RICH IN SCOPE WITH SPARKLING VALUES FOR ALL

# Giant Price-Splintering Sale!

A BARGAIN LANDSLIDE FOR TEN DAYS

Mr. A. Fine Says :

THE PRICE REDUCTIONS ARE THROUGH!

Here are the real facts about this sale. Mr. A. Fine says: Throughout the entire period of my business career, my policy has always been "satisfactory merchandise," and in this my first real sale, I am more determined than ever that this policy shall be carried out to the letter. I have enjoyed a fine business, but like a good many other merchants I find I have entirely too much stock on hand. I got into a bad habit when merchandise was scarce, buying too large quantities, in my desire to accommodate the public without delay.

It means a tremendous amount of money tied up in a stock, half of which is idle, not even earning common bank interest. I am determined to put it to work and I am going to give the public the most stupendous bargain event ever staged in St. John. Price is no object now. Immediate disposal of half this \$35,000 stock is necessary, and while I am at it I intend to make a darn good job of it. Remember the date—Thursday, May 15, at 9.30 a.m. (Signed) A. FINE

Every thrifty person will hail with delight the summons of the season's greatest event. The values you and your neighbors will obtain at this sale will stand unchallenged for many days and perhaps many years to come. The goods are here, the bargains are at fever heat. You will find an air of bustle throughout the store, everything moving in rapid-fire order, a greatly augmented sales force at attention thoroughly systematized to handle the greatest crowds St. John has ever seen.

One of the main reasons for this special bargain event is to cement the friendship of my old customers closer, and gain the patronage of hundreds of new ones. Therefore in the event of anything arising whereby you desire to exchange your merchandise, I will gladly serve you with courtesy and promptness. That is the policy of this store, and it is embodied with every transaction during this sale. Exchanges will be made till 11 o'clock every morning and during the evenings except on Saturday, when, owing to crush of business, we will be unable to make them.

Ontario and Quebec Coal Importations. Coal Situation. The Coal Question in 1931.

The Coal Question in 1931

TAKING the figures of population and coal consumption mined in Canada and imported, F. W. Gray, in evidence before the Fuel Committee at Ottawa, forecasts that in seven years from now, 1931, Canada will be consuming 46,700,000 tons of coal.

These are encouraging figures because, while Mr. Gray forecasts nearly double the production of coal in Canada, the increase in importation will be only about 30 per cent, with but practically no increase in our exports.

Ontario and Quebec hold the key to this situation because these two provinces import over 95 per cent of all our coal imports.

Ample supplies of Nova Scotia coal can be developed to be laid down profitably in Montreal at a price which will be no more than the cost of extraction of American coal, plus freight and duty.

Why should not Ontario and western Quebec burn the same kind of coal that most of New Brunswick, Nova Scotia and Cape Breton burn?

Why should these two provinces snatch a hundred and nineteen million dollars in one year from circulation in Canada—from the working men, the business interests, the railways of Canada?

You will find the answer to that question in an interesting booklet on "Coal, The Big Factor in Canadian Economics," which we will gladly mail you upon receipt of this coupon.

SPORT NEWS GLEANED FROM WORLD'S CENTRES

JACK DELANEY WILL MEET GREB

Predict Their Championship Bout Will be a Real Thriller.

(By Henry L. Farrell.) New York, May 14.—(United Press.)—When Harry Greb, world's middleweight champion, meets Jack Delaney, the slim Bridgeport challenger, at the Yankee Stadium in June, many of the experts believe the title-holder will be in for the warmest time of his career. Some think he will be stopped. Greb has been scheduled for the warmest time in his career so many times that he should have been burnt to a crisp by this time, if there were good reasons for believing that he did have a hot time of it. The champion is, without a doubt, one of the most individual types that has ever held a title. With the possible exception of Johnny Dundee, the greatest freak of the ring, Greb has fought more, and in more classes, than any fighter of the present day at least. He has been given little credit for a record that is really remarkable. The certainties say that he can't hit, that he is slapper, that he doesn't know how to box, that he has to use rough tactics and that he hasn't a single attribute of a great fighter. In spite of this, Greb goes out and beats any fighter that he really wants to beat. He was the light heavyweight champion twice, and he lost the title twice to Gene Tunney on two of the peculiar decisions. He then turned around and won the middleweight championship and announced, with all sincerity, that he was willing to fight Dempsey. It is told about ring circles that Greb once made Jack Dempsey look not so good when he boxed him several years ago while Dempsey was in training for the Brennan fight, and it is more or less known that Dempsey declined to accept the services of Greb when the Pittsburgher volunteered to help him get in shape for Carpenter. Greb's greatest assets are the heart of a lion, the confidence of a champion and the possession of enough energy to go fifteen rounds with the speed of a shadow-boxing flyweight. Greb took Tom Gibbons, when the St. Paul light heavyweight was in his prime, and gave him a lacing in Madison Square Garden. Gibbons said later that he was not in shape, and it is known that he was just out of the flu, but that does not show in the records. For several years Greb has been the opinion of the experts that Greb would go along to a natural end unless someone discovered a strong legitimate middleweight, one with speed and a snappy punch who would not be bothered by the necessity of making weight. Delaney is just such a fighter. He is tall, rangy, young French-Canadian, with a good punch, with a lot of clever boxing in him and with plenty of experience. If Greb is as poor as he has been said to be, Delaney ought to win the championship. If Greb finally has begun to feel the results of his activity in the ring and his weight-making, Delaney has a fine chance to win the title. Last year Delaney was regarded as one of the best prospects in the class, but the wise boys whispered around that he didn't have much of a heart and that he had a china right hand. Accepting the words of the wise men, Dan Hickey picked him out of a dozen or more fighters when the boxing commission said that Dan's protégé, the sensational Paul Berenbach, would have to abandon the horizontal class in picking his opponents. In the first two rounds of the fight with Berenbach, Delaney looked like he was hunting for a bicycle, and he seemed to be in a bad fright. He coaxed Berenbach into a rush attack and caught him on the jaw with a well-directed right-hand punch that temporarily stopped the sensational rise of the former Olympic wrestler. Delaney's victory over Berenbach proved that if he is not game, he is not handled with fright and that he will fight back. The fight also could not help but give Delaney a lot of confidence in himself, and when he fights a light puncher like Greb, he certainly should have no inclination to step back. Delaney will have a lot of size and reach, and he is a much better boxer. Greb slaps and mauls around the ring, while Delaney boxes and hits with a snap and a punch. There are plenty of reasons to figure that Greb is at the end of his string, but the same reasons could be found before in many of his previous fights. Perhaps there were no good reasons in the past why Greb should have won any of his fights, but he went out and won them. The Olympic baseball team accepts the challenge of the Red Wings to a game of ball, to be played Thursday night on the King George diamond at 6 o'clock.

INKERMAN WINNER OF CHESTER VASE

M'GRAW ENTHUSED OVER YOUNG DEAN

Giants' Manager Says He Was Greatly Impressed By His Work.

New York, May 14.—"The most impressive game I have ever seen a recruit pitcher work." So remarked Manager John McGraw of the New York Giants after Pitcher Wayland Dean had beaten Brooklyn 9 to 2 in 10 innings, in his National League debut. It is questionable if any rookie pitcher ever turned in a more remarkable ball game in his first major league appearance. In the first inning he was batted for two home runs, clean, hard drives into the left and right field bleachers at the Polo grounds. Such a greeting is enough to throw even a veteran star off his poise. It didn't seem to disturb Dean in the least. After a poor getaway he settled down, and for nine innings blanked the intercollegiate competitors. At his English seat of learning his latest achievement in the world of sport was the winning of the quarter mile intervariety race between Oxford and Cambridge in which event he defeated Stevenson, a crack United States runner of repute. After this race Alfred Shrubbs, famous coach and middle distance runner, said: "I consider Johnson one of the greatest quarter-milers in the world." As it would interfere with his studies to bring him back to Canada to compete in the trials, the Canadian Olympic committee agreed to place him on the track team and he could join their contingent in England. "Billy" Maynes first sprang into prominence in 1920 by winning the Maritime 440-yard event on the East End grounds in St. John. He was a dark horse in that race and defeated several well known runners of that day, among them Grant Holmes. From then on, Maynes turned in an unbroken string of victories in meets in 1921 and 1922. Last summer, he was one of the outstanding performers at the provincial track and field championships at Sussex, winning the 440 and 880 in handy fashion. At the Maritime meet, he also cleaned up. At the Dominion meet at Halifax last September, Maynes' finish in the 440 after being set back 6 feet is history. Although beaten at the start and badly pocketed near the finish, Maynes made a marvelous finish that landed him in second place, a scant inch behind Johnson. Johnson was badly winded at the end, while Maynes finished quite strong. Among those who were at the finish tape was P. J. Mulqueen, chairman of the Canadian Olympic committee. Mr. Mulqueen was so strongly impressed with Maynes' ability that he made a special trip to St. John on his way from Europe to tell St. John people that Maynes was a sure future for the Canadian team. Maynes is a graduate of the St. John High School, matriculating to St. Francis Xavier University, where he now is in his final year.

CANADA IS BANKING ON THESE RUNNERS TO WIN OLYMPIC HONORS

These are the two sensational quarter-mile runners that Canada is banking on to win honors at the Olympic races, which are to be held in Paris in July. Dave Johnson is of Lachine, Quebec, and matriculated from Lachine High School to McGill University. It was while at the latter that he developed into a track runner and cleaned up in all of the shorter distances in the intercollegiate competitions. At his English seat of learning his latest achievement in the world of sport was the winning of the quarter mile intervariety race between Oxford and Cambridge in which event he defeated Stevenson, a crack United States runner of repute. After this race Alfred Shrubbs, famous coach and middle distance runner, said: "I consider Johnson one of the greatest quarter-milers in the world." SIKI OUT OF RING FOR THREE WEEKS

Omaha, Neb., May 13.—Severe bruises and a fractured rib received yesterday when the automobile in which he was riding to training quarters collided with a truck, will keep Battling Siki, Senegalese boxer, out of the ring for at least three weeks, physicians asserted after an X-ray examination at the hospital.

EPINARD WILL COME TO CANADA

Great French Four-year-old to Land at Port of Montreal.

William Littauer, who has just returned to the States from France, is authority for the statement that Epinard, the great French four-year-old who will meet the best of our horses in a series of three races at Belmont Park, Aqueduct and Latonia next autumn, will come to America by way of Canada. H. Eugene Leigh, the American trainer of Epinard, told Littauer two weeks ago that he was pursuing this course because of the cooler weather prevailing over the northern trans-Atlantic route. From Montreal, Epinard will be brought to Saratoga by way of Roule's Point. The present intention is to ship Epinard after his engagement at Ascot in June and he should be safe in his special quarters at Saratoga by early July. According to present plans Epinard will take part in only two races before going to the post at Belmont Park on Labor Day in the first of the American series. His only start in France will be in the match against Sir Galahad 8d, winner of the Lincolnshire Handicap, on May 19 at St. Cloud. That M. Wertheimer is a sportsman, and that he believes thoroughly in the supremacy of his horse is shown by the concessions he has made in connection with the match. Epinard is to carry 130 pounds, while the impost of Sir Galahad will be 119. In the matter of the wager between the owners Mr. Wertheimer gives Jefferson Davis Cohn odds at the rate of 5 to 8. The outcome of this contest will be awaited with eager interest in this country. In connection with the Epinard series it is gratifying to note the growing strength of the field from which the competitors of the invader must come. Zer and his three-year-old stable companion Mad Play, by their splendid effort in the Kings County Handicap at Jamaica have joined St. Jam as the leaders to make of the Eastern circuit that may be expected to meet the French champion, while Chalcoet has taken her place beside In Memoriam, Wethermore and probably Westmore as the defenders of the West.

Ball Problems By Billy Evans

QUESTIONS

1. If a batsman, after missing the third strike, starts for his bench and goes about 15 feet in that direction, then discovers the catcher has missed the ball, what are the batsman's rights? In this case the batsman touches home plate and runs to first base, which he reaches before the catcher can throw the ball to the first baseman. Would he be out or safe?—K. D. B.

ANSWERS

1. Such a play often comes up in a major league game. It is not necessary that the runner return and touch the ball. Major league umpires do not regard that he has run out of line in first starting for the bench, but simply make the distance to first that much longer. In the case cited the runner was safe. 2. It is impossible to make a balk without any runners on the bases. An illegal delivery can be made, which would be called a balk even though it passed over the plate at the proper height. If the batter elected to hit such a delivered ball whatever happened would be regarded as legal.

OFFER \$5,000 STAKES

St. Stephen, N. B., May 13.—Five thousand dollars will be paid in early closing stakes for the St. Stephen Exhibition, Sept. 9, 10, 11 and 12. The title to the track committee of St. Stephen Exhibition announced today and are sending out their entry blanks, probably the biggest amount of stakes for horse races ever offered in Maritime Provinces or down east, it is said. The 225 mixed, 210 mixed, 218 trot, 216 mixed and 213 mixed are the classes and there is \$1,000 purse for each class.

PITCHES FIFTEEN OPENERS.

Walter Johnson for 15 years has pitched the opening game at Washington and been victorious in a majority of the battles. Johnson, who is in his 18th year in fast company, intends to retire from big league ball if he is able to buy a Pacific Coast League franchise.

In the Commercial tournament last evening on the Imperial alleys, the Workers' Compensation Board defeated McAvity's Ltd. by the score of 1341-1240 and the Post Office team defeated the biggest amount from Sims by a score of 1354-1307.

WORK ON ROOKIES' WEAKNESS AT BAT

Major League Pitchers are Clannish and Study Promising Recruits.

Major league pitchers are a clannish lot, says Billy Evans. If some star rookie making his major league debut has a weakness at the plate it soon becomes common gossip. The pitchers pass it around. Major league pitchers hold more private conferences than big-time politicians. Soon the east and the west will be clashing in the two major league circuits. Within the next month there is going to be many an exchange of opinions between the pitchers. The pitcher regards the good batsman as the common enemy who must be stopped. When some minor league star with a batting reputation breaks in, opposing pitchers work on him in an effort to ascertain any weakness he may have in his style. A great many of the rookies have some grievous fault. Often it is hastily corrected. However, it is never overlooked by the opposing twirlers. Recently, while sitting on the bench of the home club prior to the start of the game, I overheard the following conversation about two highly touted recruits: "The two pitchers, regarded among the best in the American League, were discussing a third club, which both had recently pitched against. So as not to divulge any secrets I will not mention the names of the players discussed. "The big fellow can't hit low-ball pitching," confided one of the twirlers. "He's a sucker on a curve ball broken over the outside of the plate at the knee. "He hits a fast ball delivered above the waistline hard, and simply murders it if you get it inside. Never again will I pitch high and inside on him. "He's a fast ball hitter, pure and simple. Mix in the curve, keep it low and slow up on him and I don't think he will hit his weight." "The other pitcher concurred in the opinion expressed. "The conversation then shifted to another likely youngster, with the pitcher who had been listening doing the orating. "The other fellow is tough to figure. He's one of those free swingers who looks bad on a ball and then hits the same kind of a ball out of the lot the next time you throw it. "I have worked on him from every angle and he looks like a pretty good hitter to me. "I have pitched on the inside that ball out of the lot and I always try to get it over for a strike. Then I start working on him. "He hits them much better on the inside than the outside of the plate. A curve ball doesn't trouble him much unless you all but waste it. I found a half-speed ball was most effective because he takes such a long swing. "The bell rang for the start of the game and the conference ended. However, it is apparent that the bush league recruit is working here at present has a weakness at the plate. Once the pitchers get wise they tell the world.

SOME NEW FACES FOR VETS LINE-UP

Only 5 of Last Year's Regulars are Assured of Berths This Year.

Only five of last year's regulars on the W. V. A. team in the defunct Two-L League will return to the line-up this year for the Vets in the N. B. Professional League, according to present plans. These five are Gene Tippetts, pitcher and infielder; Eddie Ramsay, second base; Johnny MacGowan, shortstop; Dick O'Leary, in the base, and C. M. outfielder. Gilfillan, who caught the majority of games for the Vets in the second series last year, is not expected back, and his place will be taken by a catcher highly recommended by Tippetts. If this catcher can make good, he will be given a trial as playing manager. At first base, the Vets will lose "Quig" Clark, a local product, and one of the most consistent performers in the league last year. Clark was not only a good fielder but a timely hitter. He finds his contracting business requires all his attention at present and his place will be filled by Gillespie. The latter is working here at present has had extended experience in Montreal leagues. He is rated pretty high. Second base, shortstop and third base will be filled this year by the players of last year's team, namely, Eddie Ramsay, MacGowan and O'Regan, with Tippetts filling in on odd games when not working in the box. Young Moore, who started great last year in the batting line but who fell off toward the last, will be back at the outfield job. This boy is not out of his teens yet, and big things are expected of him this year. Moore was hitting them all right toward the tag end of the season, but was usually playing them in the fielders' mitts. Neil McKinnon, who played left field for the Vets last year, will be back at the plate and his place will be taken by a Maine player by the name of Toile. He comes with good recommendations. The slab artists for the Vets last year included Tippetts, McElroy, Kirkpatrick, and others. Tippetts is the only sure one so far for this year's campaign. CHAMPIONS HIT, BUT SOX WIN OUT

Snappy Fielding and Heavy Stick Work—Babe Gets Eighth.

New York, May 14.—The champion Yankees broke a winning streak of five games by losing yesterday's game to Chicago by 7 to 5. Babe Ruth hit his eighth homer and his mates outdid the Sox, but the latter, with Eddie Collins in scintillating form, reinforced ordinary box work with sharp fielding that included five double plays. Bib Falk, a substitute outfielder, accounted for four Sox scores with two home runs. The Browns, with Dave Danforth winning his fourth straight start, beat Boston, 5 to 3. Cincinnati took a one and one-half contest lead in the National by winning a 4 to 3 game against Philadelphia. Pittsburgh hit behind Cooper and defeated Boston, 5 to 1. The Athletics lost their twelfth straight game when Shaute edged Harris in a pitchers' battle. Cleveland won, 3 to 2. Magridge outpitched three Detroit pitchers and Washington beat the Tigers, 6 to 3.

FAVORS CLOSING GROUNDS

The resolution passed by the St. John Playgrounds Association as regards the closing of the Allison grounds to permit grass to grow on them, continues to meet with approval. In Monday's edition of the Telegraph-Journal the opinions of several of those prominent in local athletic circles were expressed and now H. T. C. Hutton, physical director of the local Y. M. C. A., and W. B. Golding, manager of the Trojans Athletic Club, announce that they are strongly in favor of the decision.

The first general practice of the Portland baseball team in the City Amateur League will be held this evening and the management hope that as many members as possible will attend. ## HUGHES DECLARES AGAINST FLY-BY-NIGHT REVOLUTIONS

States the Duty of the U. S. Toward Smaller Latin-American Republics.

Washington, May 14.—(United Press.)—Probably the strongest Latin-American policy since the establishment of the Monroe Doctrine is seen here in the opposition being directed by Secretary of State Hughes against revolutionary movements in Cuba and Mexico. Especially significant is Hughes' decisive action against the Cuban revolutionists because they publicly announced that they would carry out all of the Hughes reform programme for Cuba if they could get into power by revolution, instead of trusting their political fate to the ballot box.

### Now for fun!

School's out, and now for romping play!

But in the course of play, young hands touch many things—sometimes dirty grime-laden, and germ-covered. Disease germs lurk in all dirt and are carried from hands to face, to mouth and food.

### What mothers must do

You cannot keep children from this ever-present disease-dirt. But you can, and should, do everything possible to prevent its serious effects.

Children need the rich, purifying lather of Lifebuoy with its wonderful health ingredient to go down deep into the pores and combat the germs ever present in dirt.

The health odour of Lifebuoy proves its antiseptic power.

### WHAT'S THIS?

Only an ostrich would wear a sock on its head. But that's the only way to handle the bird. Otherwise no one could steer the plume bearer. The photo shows how an ostrich is unloaded from a steamer.

### LONDON HAS NEW FORTUNE THEATRE

Playwright-Owner Names It After Old House Used by Shakespeare.

London, May 14.—Laurence Cowen, playwright, has built a new West End theatre, the first theatre erected in this country since August, 1914, and revived Shakespearean memories by calling it "The Fortune." The original Fortune Theatre, in which Shakespeare sometimes acted, was built exactly 324 years ago, in Golden Lane, Cripplegate, by a "cillizen and carpenter" called Peter Streete, contracts for the building of which are still extant in the Dulwich College archives.

The Fortune Theatre has another distinction. It is the first theatre in this country built of ferro-concrete. Its style, and its interior decoration, with invisible lighting effects, is admirable. It seats 700 people, and cost £150,000. Playgoers will wish it a long life, and a merry one.

**DENIES THAT ANY SHOTS WERE FIRED**

**Allegation is Made in Complaint Over an Automobile Matter.**

Alleging that he had been assaulted and that two shots were fired after him by Edward A. Farren, a complaint was lodged by George Thomas with Detective Saunders last night. This morning the complainant appeared at police headquarters and told his story to Sergeant Detective Power and Chief of Police Smith. The former said he could not give out any of the facts at this stage, but that it would come before the court tomorrow afternoon.

A Times reporter learned some details of the story and went to Chief of Police Smith for confirmation of the facts. The chief said that Thomas had told of going to Loch Lomond with Mr. Farren's son and that in returning to the city they ditched the car. He said that he had sent to the city for another automobile to tow them in and on a request from Edward Farren, Junior, he had taken the automobile to the garage in Barker street. He alleged that while he was about to put the car in, Mr. Farren appeared and struck him a couple of blows, and that as he (Thomas) was running away, the former fired two shots after him. No further details could be had from the police.

**Denies Shots.**

Mr. Farren, in conversation with a Times reporter this afternoon, made the following statement:—  
 "My car was missing last night, and when I heard it coming in towards the garage I went out and saw a strange man in it. I tried to see who it was and then tried to grab hold of him. He jumped and ran away."  
 "Asked if it was true that he had fired two shots after the man, as alleged, he absolutely denied having done so, and having a gun of any kind. He said members of his family were present and could swear to this."

**JACK MARCUS IS ON A LONG HIKE**

**St. John Young Man Walking From Montreal to Los Angeles.**

Friends in St. John will be interested to learn that Jack Marcus has developed into a "globe trotter" and is now hiking from Montreal to Los Angeles, Cal. He is not to take a ride of any kind but is to continue his merry little jaunt on foot. He left Montreal towards the latter part of April and according to a report from Kingston, Ont., passed through that city on April 28. He has been averaging from 30 to 40 miles a day. The report said that he was dressed in light attire, soft shies, khaki trousers, cap and gaiters and is carrying a kit, a blanket and other necessities. He wears heavy woolen socks, which he changes twice daily, his chief concern being for his feet. The total journey is approximately 3,400 miles and he expects to arrive in Los Angeles about the latter part of July or early in August. He carries a sign on his back which reads: "Montreal to Los Angeles. Positively no rides."

Mr. Marcus' object in taking this long hike is purely for pleasure and his health. He is not selling any souvenirs but is paying his own way. From Windsor he was to cross over to Detroit and from there planned on going to Indianapolis where he will strike the Lincoln highway, which runs right through to Los Angeles.

Mr. Marcus is a veteran of the World War having joined the D. A. C. in this city in 1915 and going overseas on the S. S. Caledonia. In France he was transferred to the trench mortars and while in that branch of the service was shell shocked, gassed and buried alive. On his return from France his health was impaired and while resting with his mother he was frequently on long hikes which he considered highly beneficial. He is the son of Mrs. Ethel Marcus. Many friends in this city will watch his progress with interest as he is well known and popular.

**ARE AT WORK FOR THE EXHIBITION**

**Directors Had Meeting Last Evening - Prize List Ready Soon.**

Preliminary arrangements for the St. John Exhibition this fall were well advanced at a meeting of the directors held last evening with the president, F. A. Dykeman, in the chair.

It was reported that the prize list was in the hands of the printer and would be ready for distribution soon. Advertising had been arranged for and some matter had been received and distributed, including some 300,000 envelopes. An enquiry was received today from an Ottawa man who had received a communication in one of the envelopes, asking for information and indicating that he was a possible exhibitor.

The industrial exhibits committee reported several applications for space. Only six of last year's exhibitors had expressed their decision not to take space this year.

Several applications for concessions were received and were referred to a committee handling these matters. A delegation from the N. B. Kennel club discussed conditions for holding a show in connection with the exhibition as usual.

The committee on dairy exhibits reported that they planned making this year's an outstanding one.

After the business session a social hour was very pleasantly spent in games and music. Delicious refreshments were served by the hostess, who was assisted by Mrs. S. E. Stackhouse and Miss M. Owens.

**STREET LIGHTING.**

That it was expected the entire street lighting of the city would be taken over on June 1 was said this morning at the office of the Civic Power Commission. When this has been done, it was said, the commission would have a revenue of about \$40,000 a year from the street lights.

**IS IMPROVING.**

Friends of Jeremiah Stout of Fairville will be pleased to know that he is making a satisfactory recovery after a serious operation undergone by him at the General Public Hospital recently.

**WILL ATTEND FROM HERE.**

At the Encenia exercises at the University of New Brunswick, Fredericton, several St. John people are planning to attend. Graduates of the Law School here will receive their degrees of B. C. L. for the first time at Fredericton. Proceedings will open tomorrow afternoon with the academic procession to the main building. Distribution of prizes and addresses by Professor B. Claridge, A. Leslie Booth, Charles E. Neill and Professor Cunningham will comprise the programme.

**WAS 97 YEARS OLD.**

Many friends in this city will regret to learn of the death of Mrs. Frances M. Botsford, which occurred at the home of her daughter, Mrs. C. S. Skinner, 223 King street east, last night. She was the widow of George Botsford of Fredericton, and was 97 years of age. Despite her advanced years, she retained the faculties and her family and took an interest in the happenings of the present day. She was born in Fredericton, where she had resided for the greater part of her life. Besides her daughter, she is survived by one son, George A. Botsford of Boston. A funeral service was held this afternoon and her body will be taken to Fredericton tomorrow for interment.

**Miss Meiklejohn Tells Red Cross Some \$250 More Required.**

The local Red Cross, at a meeting this morning in their new quarters in Prince William street, heard a report from Miss Meiklejohn, superintendent of the health centre, on the distribution of the Red Cross fund raised for the Mahaney quadruplets. She reported that all the money except 90 cents, now on hand, had been spent under her supervision. She estimated that about \$250 more would be required.

**FINE IS IMPOSED**

**Stamp Must be Affixed When a Receipt is Given.**

A case against Miss Elizabeth Graham, who was charged with violating the stamp act, was concluded in the police court this morning before Magistrate Henderson. When the case was heard the defendant acknowledged giving a receipt without affixing the excise stamp. Mr. Davidson, who appeared on her behalf, explained that her act had resulted from ignorance of the law and inexperience in business dealings. He asked that if a fine was struck the circumstances be taken into consideration.

**E. J. Henneberry, who appeared on behalf of the Federal Department, explained that he had received two telegrams from the department in connection with the prosecution of the case and the authorities were willing to leave the matter to the discretion of the Magistrate. The maximum fine is \$100, but Magistrate Henderson announced that he would take into consideration the facts of the case and make the fine \$10.**

**NEW HOTEL AND CONVENTIONS**

**Large Gatherings New Enterprise Will Attract—Big Stride Forward.**

St. John's next long stride forward will be the building of the new hotel. It will give this city at once a new and higher rank in Canada and beyond the Dominion's borders. And it will bring not only prestige but business. The more the plan is examined the more it appeals to St. John's spirit of pride and enterprise.

Every year, both winter and summer, scores of organizations in Canada hold national conventions and a strong bid is made by the representatives of all cities to have the meetings held in their respective home towns. The bringing of large numbers of prominent business and professional men and women from all over the country cannot but be rebound to the benefit of any city. The more of these conventions that are brought to St. Andrews, where the benefit will that community derive in the way of publicity, to say nothing of the actual money which each one of these gatherings must bring, and that is a large factor.

**ST. JOHN HAS NOT BEEN IN A POSITION TO CARE FOR THE LARGE INFUX OF PEOPLE THAT RESULTS FROM SUCH MEETINGS IN A MANNER WHICH SCORES OF THE OTHER PLACES.**

The city has been up against strong competition, particularly from the standpoint of concentrated hotel accommodation. Many of the conventions held in the east in recent years have gone to St. Andrews, where the Algonquin is able to house all the delegates and provide them with sufficient accommodation to carry out the business and social features of the programme under one roof.

St. John has not had a big hotel to bring such conventions, but the Beatty will supply that need, among many others. According to the plans of St. John's new hostelry, the house will afford sleeping accommodation for a great number of its commodious public rooms will provide the necessary space for the holding of large meetings, and the banquet, which is usually an outstanding feature of all such occasions, can easily be taken care of in the large banquet room which is planned. Through the instrumentality of national conventions, much can be done, and the success of the Admiral Beatty will go a long way towards achieving this end.

**HAMPTON WRITER HAS WON PLACE**

The Saginaw, Michigan, News Courier of May 6 contains this reference to a former resident of Hampton, N. B.

"Two readers of The News Courier have won their way into the Fun Shop, the new humor column that is appearing daily on the editorial page of this paper, as well as in about 80 other daily newspapers in this country, and within the next few days will experience the thrill of their names appearing in the 'colym' contributors when they see their lines in print. They already have experienced the preliminary thrill in the form of Fun Shop checks—of this humor column is unusual in many ways, one of which is that it pays its contributors. The contributions, literally thousands of them, are sent by the various papers to the Fun Shop headquarters in New York city, where the selections are made by a board of judges.

The two who have "made" the Fun Shop column with their contributions are Mrs. Muriel Alden, 507 Genesee avenue, and LeRoy Whitney of Farwell, Clare county."

Mrs. Alden was formerly Miss A. Muriel de Mille of Hampton.

**BRITISH LUMBER REPORT.**

H. W. Lighthorne & Co. of Liverpool report that on April 30 the quantity of N. B. and N. S. spruce and pine lumber in Manchester and Liverpool was 9,120 standards. Compared with \$920 standards a year before and 4,650 standards two years before. On April 30, 1921, the stock was 25,710 standards and in 1920, 26,380 standards. It will be seen, while the stock on hand is now larger than it was two years ago, it is very much smaller than in 1920 and 1921. The largest stocks on April 30 were in Manchester, being 6,340 standards, compared with 2,780 standards in Liverpool. Stocks of birch logs at the two ports were 560 loads, compared with 720 a year before and the stock of birch planks was 860 standards, compared with 1,024.

**As Hiram Sees It**

"Hiram," said The Times reporter to Mr. Hiram Hornbeam, "I heard a lady last evening teach an audience of Christian children, and men and women and honor and service from an exhibit of a little Japanese girl's collection of piggy bank dolls. She took us to Japan, and gave us most engaging glimpses of a life so foreign to our own, and yet of a human nature so very like that we could easily detect ourselves about ourselves in that environment."

"Hiram, the world is small." "Yes, sir," said Hiram, "an' with these here flyin' fellers turnin' days into minutes it's gittin' smaller all the time. I s'pose it won't be long till they'll be makin' daily calls on the Grand Lama—an' sendin' us radio stories about what he had for breakfast. An' the more we mix the more we'll find out human nature is just about the same everywheres. An' when we get where we kin figger out that even the heathen has his good p'ints mebbe we'll hev a little more respect fer him an' not quite so much conceit about ourselves an' what the Good Lord thinks about some of our doin's."
