YOUNG MAN'S TROUBLES.

Flew to Paris for Drink, Using Worthless Checks.

Paris, Sept. 9.—How a young Englishman flew to Paris by airplane from London to have a drink was told in a Paris police court today when Cyril Lincoln, aged, of a good family in London, appeared to answer the charge of passing worthless checks. Having stayed at the Place Vendome Hotel, Reed paid his bill with a check while having no money in the bank and borrowed 1,000 francs from a waiter.

Some days later he again turned up in Paris, arriving by air, after paying for the passage with a worthless check at Croydon Airfield.

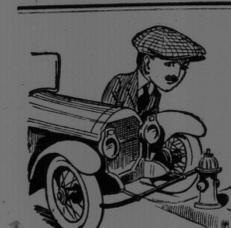

"I had been turned out of every bar in London. After twenty-four hours I became so thirsty that I simply had to fly to Paris in order to be able to drink peacefully."

The young man is now locked up in Sante Prison pending further inquiries.

TENDERED BOGUS CHECK

IN PAYMENT OF JEWELRY

(Mail and Empire, Toronto). Playing for high stakes was Albert Elliston, Verrall avenue, who, the police allege, visited Kent's jewelry store, Temperance and Yonge's streets, yesterday afternoon, and, presenting a check for \$8,200, sought to purchase jewelry to the value of \$7,000. As a result of his incursion into the ranks of high finance, Elliston was taken into custody by Detective-Sergeant Stewart on a charge of attempted fraud. The check, the police say, is bogus. Elliston had selected some of the articles he wished to buy when the salesman became suspicious of Elliston's ability to pay, and asked to see the money. Whereupon Elliston tendered his check, the largeness of which, compared with the man's poor appearance, strengthened the salesman's suspicions and led to Elliston's arrest.

ENROL FOR STUDY OF JOURNALISM

Many Women Among Those Taking Short Course at University.

(Toronto Mail and Empire.) With an enrolment of 116, the University of Toronto's first short course in journalism got away to a successful start yesterday afternoon. The series of lectures, twenty-five in all, is the first of its kind ever attempted in Canada, and the curriculum is a comprehensive one, touching on all the more important phases of the work of producing a modern newspaper. The students registered come from points as widely separated as Ottawa and Petrolia. Of forty-nine men, a big proportion are editors of weekly newspapers, with a smaller number of reporters and a few magazine-writers. A notable feature is the registration of sixty-eight women. The majority of them are not what might be termed "club reporters," but alert, intelligent women of more mature years. One mother, who is taking the course

accompanied by her grown-up daughter. There are about a dozen Toronto women enrolled, and there are others from Ottawa, Peterboro, Brantford, Owen Sound, Guelph, Clinton, Bothwell, Waterloo, Listowel, Mount Forest, Deseronto and many other towns. The subjects on which lectures are being given include editorial writing, news-gathering, English literature and composition, Canadian constitutional history, public health and hygiene and newspaper jurisprudence. The staff of specialists is composed of men well known in both the newspaper and academic worlds. J. E. Atkinson of the Toronto Star, J. C. Ross of the Farmers' Sun, and J. R. Bone, also of the Star, are lecturing on the practical side of newspaper work, while the academic has been left in the hands of Prof. G. M. Wrong, Prof. W. J. Alexander, Dr. J. G. Fitzgerald, Dr. G. D. Porter, Dr. J. J. Middleton and A. R. Clute. The course has been organized under the direction of W. J. Dunlop, director of the University Extension Department. The course concludes on Saturday at noon.

To Free Your Arms of Hair or Fuss

(Boudoir Secrets.) No toilet table is complete without a small package of deLoraine, for with it hair or fuss can be quickly banished from the skin. To remove hairs you merely mix into a paste enough of the powder and water to cover the objectionable hairs. This should be left on the skin about 2 minutes, then rubbed off and the skin washed, when it will be found free from hair or bluish. Be sure you get genuine deLoraine. Central Baptist Wms.

The annual meeting of the Women's Missionary Aid of the Central Baptist church was held yesterday afternoon. Miss Allen, the president, presided. Satisfactory reports of the year's work were presented. Mrs. Colwell, the secretary, in her report, told of eleven meetings and a Crusade Day held. The sum of \$262.30 was received during the year. The officers except corresponding secretary, were re-elected by acclamation. Mrs. Stevens was elected corresponding secretary. The convenors of the new committees are: Programme, Mrs. Gillis; social, Mrs. Allwood; look out, Miss Allen.

STYLE! Why does one man appear better groomed than another, though their clothes may be of equally good fabric? The difference is STYLE, the all-important thing in clothes. The fabric may be of the best, but without style the effect is lost. If you have never worn "GILMOUR CLOTHES" try on a suit and see the well groomed effect it gives you. New Fall lines now opening. \$10,000 FOR FIRE FIGHTING. Warden Allen in conversation with the Amherst News stated that a special session of the county council will be held on the twenty-second of this month to consider bills against the county in connection with forest fire fighting.

These bills, stated the warden, amount to about ten thousand dollars. Total payments for city water rates this year, made before the expiration of the discount period which ended on Tuesday, amounted to \$187,590.67. These figures show a slight increase over those for last year, the total payments for 1920 being \$187,167.68.

A BRIGHTER OUTLOOK While there are no very tangible evidences of improved conditions in trade and commerce, the feeling grows that we have passed the worst in Canada.

UNIONISM IS DEAD. Conservative leaders would like to make the country believe there is still a Unionist party. They would like to entrap some Liberals in that way.

Today's despatches tell us that the wheat crop of Canada this year may even exceed the great crop of 1916. If so, the west will have a great deal of money in circulation, and the movement of the grain and the trade which it will create will benefit the east as well as the west.

There is no Unionist government, and there is no Unionist party. There is no occasion calling for a merger of the two parties, still less for an absorption of any element of Liberalism into Toryism.

TIDAL ENERGY. A very interesting reference to the possible use of tidal power for hydro-electric purposes was made last week in an address by Dr. Arthur D. Little, a prominent industrial chemist, at the international meeting of the American Chemical Society in New York.

From the very start the hands of the Austrian government were tied. No troops were put at our disposal, neither were we permitted to use our own military forces in the occupation of West Hungary.

THESE NATURAL RESOURCES. A Montreal paper says: "The ownership of the natural resources of the three prairie provinces is being introduced into the election campaign as an issue."

The American farmers were led to believe that a duty on Canadian wheat would help them. The Wall Street Journal shows that at no time since the emergency tariff was adopted has wheat sold higher in the United States than in Canada.

POISONED BY WIFE OR SELF? Orangeville, Ont., Sept. 15.—Testifying before the coroner's jury which is investigating the death of Robert Lee, a laborer, in Mulmur Township, on August 23, Rev. G. Gray, an Anglican minister, said Lee, just before his death, had accused his wife of poisoning him.

CHARMING PLAY IS "FRENCH LEAVE" Hit of Wartime London Gets Good Reception at Imperial—Bright, Catchy Lines and Amusing Situations Delight Late Audience.

LIGHTER VEIN. Papa—Why did you permit young Gaybird to kiss you in the parlor last night? Daughter—Because I was afraid he'd catch cold in the hall.

An amusing picture of some of the side-lights of the war with the crash of armaments eliminated and "French Leave" a three-act English comedy from the pen of Reginald Berkeley, which caused London to rock with mirth in the escapist days and proved a delightful panacea for many a "fed up" warrior during his brief respite in the world's biggest village.

Getting No Better Fast. The old gardener's wife had been very ill, and on seeing him I asked him about her. "Oh, ma'am," the old man replied sorrowfully, "the doctor don't give us no encouragement either way."

Madge Surtees undertook the dual role of Mrs. Glenister and Miss Juliette in the charming play. Particularly good was her French impersonation, which fooled even the brigade of interpreters.

There Never Was a Time When the Need Was so Great for Liability and Collision Auto Insurance. C. E. L. JARVIS & SON GENERAL AGENTS

TWO IMPORTANT SPEECHES COMING. Paris, Sept. 15.—Premier Briand announced yesterday that the French parliament would resume work on October 18, so it is said by newspapers here. The premier will make an important political address at St. Nazaire, on October 9, and on the same day former Premier Clemenceau will make what is expected to be a significant speech at St. Hermine Vendee, where a monument erected in honor of Mr. Clemenceau, will be unveiled.

turned out by dozens by hand. Incidentally one effect was that when the government standardized the price of bread at a point at which the small men could make it pay, the big men simply coined money. Sir William (as he became after he had been lord provost of Glasgow for a couple of years) was a lifelong total abstainer, a keen worker in church affairs, and a zealous servant of the public in the municipal sphere for twenty-five years. There was a certain narrowness in his outlook, but he was personally one of the most genial and likable of men.

SAYS BLACKSMITHS DISPLACE DOCTORS

Dr. Emerson Charges That Veterans' Bureau is Dominated by Politics.

Columbus, O., Sept. 15.—Charges of Dr. Haven Emerson, medical adviser of the Veterans' Bureau at Washington, that the bureau is dominated by politics, made last night in an address before the Mississippi Valley Conference on Tuberculosis, will not likely bring forth action on the part of the conference, leaders said today.

Dr. Emerson, who yesterday announced his resignation as medical adviser of the bureau, effective Sept. 15, said that politics is interfering with the workings of the bureau for the care of tuberculous soldiers.

"Blacksmiths and policemen," he declared, "are taking the place of scientific men."

Dr. Allen K. Krause of Baltimore, editor of the American Review of Tuberculosis, and Dr. James Alexander, president of the National Tuberculosis Association, addressed the conference last night.

Artificial pneumothorax or lung compression as a means of treating pulmonary tuberculosis promises to be a topic of lively debate before the Mississippi Valley Sanatorium Association, which meets today at the State Tuberculosis Sanatorium at Mt. Vernon, O.

A Rotary Club luncheon at noon today, to be attended by visiting physicians, and a health pageant tonight are features of the second day's session of the conference.

Miss Elizabeth Quilty, while nursing at the home of T. Heenan, Morris street, Fairville, tripped over a broom in her hands at the head of the stairs and fell a considerable distance. After a medical examination, she was removed to the hospital, last evening, where she is now suffering from a fractured tibia.

A wedding of much interest took place at Hillsboro on Monday morning, when Miss Margaret Wallace, daughter of Mrs. Mary Wallace, of Hopewell Cape, was united in marriage to Dr. William F. Gillespie of Moncton, Rev. Fr. Walker of Riverside officiated with nuptial mass. The couple will reside in Moncton, where the groom is a dentist.

Longmire-Buckler. A pretty wedding took place at Bridgetown, yesterday, when Paul Warren Longmire, son of Captain W. R. Longmire, and Miss Annie Maude Buckler, daughter of Mr. and Mrs. Milne Buckler, were united in marriage. Rev. E. Underwood performed the ceremony. Mr. and Mrs. Longmire left on a wedding trip to Boston and other New England cities, and on their return will reside in Bridgetown.

MORNING NEWS

OVER THE WIRES

Adeste Soucie, of Caribou, was drowned in the Green River on Saturday evening, when the car in which he was a passenger, went over a bank and overturned. The car was driven by Silve Belanger, and his wife was also an occupant. They were badly bruised and shaken up. Mr. Soucie leaves a wife.

Fire yesterday at Londonderry, N. S., destroyed the post office building, the meat store of James Daley and several homes. The loss is estimated at \$50,000.

Charles Boyd and George Milton, of New Salem, who were found guilty of destroying mill property of C. T. White & Son at Apple River, were sentenced at Amherst yesterday to four years each in Dorchester penitentiary. A sentence of two years in Dorchester was imposed on Fred McDonald, of Farmington, on a charge of assault.

Yesterday afternoon a delegation of mine owners in the Minto coal district waited upon the government, and asked for the construction of a branch of rail for the construction of a branch of the C. N. R. to the Minto field. The line suggested would be about four miles in length. It was decided to send an engineer to the district to choose the best route. A delegation from the Fredericton city council asked that a further grant of \$50,000 be made under the housing act for the purpose of erecting additional houses in Fredericton. The request was granted.

An unknown motorist in Presque Isle, Me., attempted recently to kidnap a young girl. She was passing along the street when she was forced into a motor car and taken about a mile out of the town. Here she succeeded in making her escape and hurried back to town. In the meantime her absence had been noticed and the fire department was called out and volunteers organized for the search. In consequence of this, warnings have been sent out to authorities in towns and villages along the New Brunswick-Maine border to be on guard against such people traveling in automobiles.

From Ottawa comes word that R. B. Bennett, K. C., has announced that he would not accept a portfolio in the Meighen cabinet. He will probably run if he gets the nomination in West Calgary. The present member, T. W. Tweedie, will be made a justice of the supreme court of Alberta.

At Hopewell Hill, Albert county, yesterday, judgment was given in the case of Carter against Bablik, a breach of promise case. The amount sued for was \$1,200. The amount recovered was \$200. James Capson of Moncton, who had pleaded guilty to burglary, was sentenced to five years in the penitentiary. Judge Barry was the judge.

WANTS CHURCHES OPENED AT NIGHTS FOR JOBLESS

New York, Sept. 15.—New York's churches should be thrown open at night as sleeping quarters for the unemployed men now slumbering in the parks, in the opinion of the Rev. J. H. Lockwood, pastor of the South Third street Methodist church, Brooklyn.

"It will be to the everlasting shame of the churches and synagogues of this great city if they refuse to help the men who are without employment to suffer for a place to sleep," he said in a sermon last night.

"There may be some who think their church buildings too sacred to be used as temporary sleeping places for this army of homeless men. In that case let them provide their share of places elsewhere. As for me, I would count it an honor to see my church used to shelter these homeless brothers of ours."

"A new cushion makes a more comfortable bed than a park bench, and I am going to attempt to raise funds to make some changes in this church necessary to care for at least fifty men."

"Would the church of the Carpenter of Nazareth refuse Him a night's lodging should He seek one today in workman's garb?"

CUTICURA HEALS SISTER'S ECZEMA

In Rash All Over Body. Burned And Itched, Could Not Rest.

"My little sister had eczema all over her body. It came like a rash, and was burning and itching. She could get no rest, and we would have to wet her clothing to take it off. She was cross and irritable, and the breaking out caused disfigurement. "She had the eczema about five months when we tried Cuticura Soap and Ointment. We could see she was getting relief, and we just used one cake of Cuticura Soap and one box of Cuticura Ointment when she was healed." (Signed) Miss Jessie Campbell, Sunny Brae, Nova Scotia, January 16, 1919.

You may rely on Cuticura Soap and Ointment to cure your skin. Soap 25c, Ointment 25c and 50c. Sold throughout the Dominion. Canadian Depot: Lyman's Pharmacy, Montreal. Cuticura Soap shaves without razor.

BEARS MANY STABS, BUT MAY RECOVER

Detroit Man Attacked by Burglar is Slashed With Long Knife.

Detroit, Mich., Sept. 15.—Slashed and stabbed nearly a dozen times with a long knife in the hands of a burglar who attacked him as he slept, Ralph Ishphording, 634 Warren avenue west, stands a good chance for his life.

"Awakening from sleep, Ishphording felt a man's fingers tighten about his windpipe. He grasped his assailant about the waist and in the darkness the two men struggled silently for a full minute. Then the thug, quickly releasing his hold on his victim's throat, drew his knife and stabbed and slashed him until the room resembled a shambles. Ishphording was found soon after and hurried to the hospital, where the doctors found the knife had penetrated no vital spot. He, however, lost a considerable quantity of blood."

FRENCH SALT AGED 84, FOUND DEAD IN CHICAGO ATTIC, WORTH \$100,000

Chicago, Sept. 15.—"French Salt," eighty-four years old, who died in a dreary little attic, was found to have \$100,000 in stocks hidden in her room. For years she begged from the well to do near her home and dispensed philanthropy to the poor. Her identity is not known.

THROW AWAY FLOWERS.

St. Thomas, Sept. 15.—So strict is the government quarantine in connection with the European corn-borer that international travelers on the Michigan Central Railway are being required to throw away any flowers they may have with them before entering Canada or re-entering the United States. The local train officials have received instructions to request passengers boarding trains to leave their bouquets behind.

LEAGUE OF NATIONS
ELECTS 11 JUDGES
FOR JUSTICE COURT

John Bassett Moore Represents United States and Will Accept — No Interference in Mandates Question.

(Canadian Press Cable.) Geneva, Sept. 14.—The eleven judges of the permanent international court of justice were elected by the assembly of the League of Nations today and were confirmed by the council of the league, which met simultaneously with the assembly.

The bench of the court chosen consists of John Bassett Moore of the United States; Viscount Finlay, of Great Britain; Dr. Yorozu Oda, of Japan; Dr. Andre Weiss, of France; Commendatore Dionizio Anzilotti, of Italy; Dr. Itay Barbosa, of Brazil; Dr. B. C. T. Loder, of Holland; Dr. Antonio S. De Bustamante, of Cuba; Judge D. Niyholm, of Denmark; Dr. Max Huber, of Switzerland; and Dr. Rafael Altamira Y. Crevea, of Spain.

Moore Will Accept. New York, Sept. 14.—John Bassett Moore announced at his residence here today that he would accept election to the international court of justice. He is in his sixty-first year. Elhu Root, who had declined election because of age, is seventy-six.

Mr. Moore has been professor of international law and diplomacy at Columbia University for twenty years and has had a varied public service involving international relations. He had held various important offices in the United States state department, and has been a member of the permanent court at The Hague since 1914. He has written many books dealing with international relations.

Hold Aloof on Mandate Issue. Geneva, Sept. 14.—A decision not to intervene in the mandates question pending the principal mandatory powers and the United States over this question, was reached today by the special commission of the League of Nations recently named in connection with resolution presented to the league assembly by Lord Robert Cecil, representative of the union of South Africa. Lord Robert's motion expressed the desire that the two principal classes of mandates for former German colonies be immediately defined and expressed regret for the delay in their definition.

When the commission met, Herbert Fisher, of Great Britain, told the members that negotiations were at the moment in progress between the chief mandatory powers and the Washington government and that it would therefore be inopportune for the commission to intervene before the negotiations had been concluded. The commission decided that the result of the negotiations be awaited.

TO SHIP PERIODICALS BY MAIL INSTEAD OF FREIGHT. Washington, Sept. 15.—Postmaster-General Hays announced today that on Oct. 1, 1921, the Postoffice Department will re-establish the practice of shipping all monthly, semi-monthly and bi-weekly periodicals by mail instead of by freight. This will speed up the delivery of these periodicals to subscribers, he said, by handling these periodicals in the regular space with the regular force and equipment approximately \$200,000 can be saved in force, rent and drayage, Mr. Hays explained.

SAW MUCH LIQUOR CONSUMED IN THE U. S. AND DOMINION

Gaston Monnet, the French Distiller, Declares He Found More Drunkenness in America Than in Any Other Part of World.

(Canadian Press Despatch.) New York, Sept. 14.—Gaston Monnet, owner and representative of one of the largest French distillery companies, who has been touring Canada, investigating the effects of prohibition enforcement, declared today that he found more drunkenness in the dominion and the United States than in any other part of the world.

He called for France today on the S. S. Paris. As an example, Mr. Monnet said in "allegedly dry Manitoba," at the golf tournament in Winnipeg three weeks ago he had seen between 600 and 600 bottles of whiskey produced immediately after the games with the result that the windup of the tournament was more suggestive of a drinking bout than a golf match.

Despite this the French distiller gave it as his opinion that if prohibition were put to the vote in the dominion the law would be upheld and that it is only reasonable to suppose that eventually the whole country will become prohibition territory. He did not think that the present system would continue, but thought the dominion would have some system of control such as the Swedish law or the liquor control laws of the province of Quebec.

"Taken as a whole," he said, "it is safe to say prohibition does not prohibit but that government control is fairly successful."

HAS NOTABLE RECORD.

J. Burgen Bickersteth, M. C., recently appointed warden of Hart House in the University of Toronto, left London for Canada last week. Mr. Bickersteth (a son of Dr. Bickersteth, Canon of Canterbury) was educated at Charterhouse and Christ Church Oxford, and got his blue for association football. He played three years for the University, being captain in 1910-11. He joined for two years the archbishop's mission of Western Canada, and subsequently published his experiences in the far northwest under the title of "The Land of Open Doors." During the war he served with the Royal Dragoons, being awarded the Military Cross and the British War Medal for a forward to his book, "The History of the 6th Cavalry Brigade."

HELPING WIVES OF SOLDIER SETTLERS

Mrs. Jean Muldrew, of Ottawa, director of the home branch of the Soldiers' Settlement Board arrived in the city yesterday to attend a meeting of the field supervisors and home branch directors of the board in the maritime provinces. Major John Barnett, president of the board, presided at the meeting which was held in the Commercial Club rooms. Major Barnett outlined the policy of the board. About twenty-five were in attendance. Mrs. Muldrew's department devoted its energies chiefly to making the soldier settler a success by helping his wife to solve the problem of the home, she said last evening. Personal visits were made to the homes by the district supervisors who were Mrs. Mabel Marvin of New Brunswick and Miss Miriam Cox in Nova Scotia.

ORGANIZING FOR FAIR IN AID OF ORPHANAGES

Every fraternal society in the city and West St. John was well represented at the largely attended meeting held in the Orange Hall, Germain street, last evening to arrange for holding a fair in aid of all the Protestant orphanages in the city. The meeting was an enthusiastic one and augured well for the success of the fair. W. M. Campbell presided. After much discussion, it was decided to hold the fair about the middle of October and to have it run for ten days. Every detail in connection with it was thoroughly gone into and many new and most acceptable suggestions were brought forward. Committees were appointed to take charge of every department of the venture and the officers elected were—First vice-chairman, George D. Ellis was appointed chairman of the fair committee, and other officers elected were—First vice-chairman, W. M. Campbell; second vice-chairman, Dr. A. D. Smith; secretary, J. E. Arthur; chairman of finance committee, W. Donohoe.

The committees and members chosen were as follows—Building committee, W. Fisher; J. A. Maxwell, A. B. Edwards, A. J. Green and I. Mercer; advertising committee, W. M. Campbell, chairman; D. Hipwell, J. E. Arthur, W. H. Gardner, ticket committee, A. E. Fleming, chairman; music committee, D. Hipwell, chairman; D. S. Smeaton; games committee, J. W. Fillmore, chairman; Percy Gibbons, W. V. McKinney, chairman; refreshments committee, I. Mercer; purveyors, J. E. Arthur, J. A. Maxwell, J. E. Arthur, J. W. Campbell, James McKinney, D. Hipwell, Dr. A. D. Smith, J. E. Arthur, F. H. Gardner.

RESOLUTION OF REGRET

At the last monthly meeting of the board of management of the Children's Aid Society, a resolution expressing the regret of the members because of the death of their treasurer, James Patterson, was unanimously passed. The secretary was instructed to incorporate it in the minutes and forward a copy to his son, Charles Patterson, Halifax. Following is the text of the resolution: "Whereas the members of the board of management of the Children's Aid Society of the City and County of St. John have learned with sincere regret of the death of their treasurer, James Patterson, and whereas the late Mr. Patterson had filled the said office since the inception of the work of the society, therefore, be it resolved that we the members of the board of management hereby express our deep sense of loss in the passing of such an efficient and faithful official and one who in every way deserved the words of high commendation heard everywhere in the community for his life of blameless rectitude."

A NOVA SCOTIA CAPTAIN.

The Imperial Oil Tanker Victrolite which arrived in Halifax Saturday is commanded by a Nova Scotian, Captain Samuel Purdy of Yarmouth. Captain Purdy years ago commanded ships owned by the old Yarmouth and St. John shipping firms. He was at one time master of the Bertie Biglow owned by William A. Lovitt of Yarmouth. For the past six years, Captain Purdy has been with the Standard Oil Company. The Victrolite is a British oil tanker and one of the largest, if not the largest tanker in existence. This is her maiden voyage. Mrs. Purdy, who now resides in New York, joined her husband at Halifax on Saturday. She sailed with him for many years, but restrictions recently placed against captains having their wives with them, has necessitated her remaining ashore, so she took up her permanent residence in New York and joins him whenever he is in northern waters. Mrs. Purdy who is also from Yarmouth, revisits her native home almost every year. The Victrolite is about ten thousand tons, and has at present a cargo of 115,000 barrels of crude oil, coming to Halifax from Baton Rouge. A check signed by J. Penimore Cooper, drawn on the Overseas County Bank of Cooperstown, New York, has come into the possession of the State Historical Society of South Dakota. It bears the date of March 1, 1846.

JUBILEE CONCERT. Mrs. Kate Johnson Donegan, jubilee singer, of Halifax, was the special attraction at a concert in St. Philip's A. M. E. church, last evening, before an enthusiastic audience that filled the edifice. Her programme consisted mainly of jubilee pieces and her accompanist was Mrs. Lucas. The jubilee troupe of the local church was heard in several renditions of Mrs. Donegan. Mrs. Johnson pleased her hearers so well that arrangements will be made for a return concert by her in the future. The proceeds from last night's affair will go towards church purposes.

DR. BORDEN IN BERMUDA. The Mid-Ocean, a Bermuda paper, prints the following: "Taking advantage of the brief visit of the Rev. B. C. Borden, D. D., President of Mount Allison University, Sackville, N. B., the former students residing in Bermuda held a rally in the lecture room of Wesley Church on the evening of August 17th, with a good attendance of former students and friends of Mt. Allison. Mr. Henry M. Hallett, the chairman, referred to the fact that none of his family name had been students at Mount Allison. He spoke strongly of the good work done there and the respect which the institutions at Sackville should be sustained. The Rev. Benjamin Hills, a fellow student of Dr. Borden's, gave an address of welcome and spoke of the lengthy and successful service Dr. Borden had given first as principal of the Ladies' College and then as President of the University. Dr. Borden was heartily greeted and was heard with great interest and delight. Mrs. Borden was also present and received warm greetings from a host of friends."

DANTE'S 600TH ANNIVERSARY

Celebrated in Catholic World Yesterday—"The Greatest Singer of Christian Truth," Says Pope.

Rome, Sept. 15.—Catholics throughout the world yesterday especially in their schools, colleges and universities, commemorated the 600th anniversary of the death of Dante Alighieri, the great Florentine poet and "father of the Italian language," in accordance with the encyclical of Pope Benedict issued last May.

The Pontiff in his address quoted many passages from Dante as confirming the Catholic doctrine and as showing how profound was his respect for the teachings of the church and its authority. In concluding he proclaimed Dante as "the greatest singer of the Christian truth" and invited all scholars to study his works "in the same Christian spirit as they were written. The divine poet of Christianity," he said, "sang in divine accents those Christian ideals which he admired in all the vigor of his beauty."

In anticipation of the six-centenary of Dante's death the government of Italy recently authorized the expenditure of 400,000 lire for the publication of a new edition of his works and for the restoration of the Baptistery of Florence. For a number of months Catholics choirs have been renewing their acquaintance with "The Divine Comedy," "Vita Nuova," "De Monarchia," "Convito," "de Vulgari Eloquencia," "Elegies," "de Aqua et Terra," and his letters.

Dante, in Italy, is almost a national deity. So far as this adoration carried that, some years ago, when Sir Henry Irving gave his drama which had Dante's life as its theme, the Italian people protested against the desecration of his ideal. In the historic house and over which the Count Anguillara built the 16th century and which was frequented by Dante, lectures by famous students of the great poet's life and works have been given in recent years.

ENTUCKY COUPLE JUST MARRIED FOR THE THIRD TIME

Blackey, Ky., Sept. 15.—That love rings eternal in the human breast is paraphrased of an old saying, but it is proved by the fact that J. M. Taylor, 61, and Rebecca Brewer, 55, were married for the third time yesterday.

Taylor and Miss Brewer first married when she was a slip of a girl. Years of sorrow followed. The trouble arose and they were divorced. They tried single for a time, found they could not be happy apart, each made concessions and they were married again. This romance went upon the rocks in a couple of years. A second divorce followed. After a time Taylor married another woman, who died after a few years. His first and second wife in one still at her mountain home. The day he called on her, wooed her and a third wedding was agreed to.

Three times bride of the same man, a firm set to her lips, commencing with the first, she said, "There will be no more divorces in this family," and she looked as if she meant it.

IGHTS UPON HEAD IS INSTANTLY KILLED

St. Evans Falls 20 Feet at Agricultural Building in Paris, Ont.

Paris, Ont., Sept. 15.—Fred S. Evans is engaged in replacing broken windows in the Agricultural Building, and some manner must have overbalanced himself, for he fell to the cement floor, seventy feet below, striking upon his head. Death must have been instantaneous, as he never moved from the spot here his head struck the floor.

He was the oldest son of ex-Mayor Evans, and Mrs. Evans, and for years had conducted a painting and papering business here.

Tender bones need tender treatment.

STIFF, unyielding shoes—shoes that chafe and rub—shoes that cramp and crowd the toes—will injure your child's feet. The little toes are tender—the bones soft. They must be protected.

HURLBUT Shoes for Children

with their soft pliable uppers, soft flexible cushion soles and broad nature-shaped toes protect the growing feet. They give room to grow for every toe. Made on scientific lines to aid the foot to correct growth.

PAYING LITTLE HONOR TO HEROIC DEAD

Bodies of Soldiers Brought From France Treated as "So Much Lumber."

Hoboken, N. J., Sept. 15.—Removal of soldier dead from the piers at Hoboken has become "fatigue duty." If not by army order, at least by practice. Numerous complaints against the "irreverent manner" in which the bodies of A. E. F. dead are handled, after their return from overseas, led to an unofficial investigation which revealed that little care is shown in the handling of the coffins after they reach the army piers.

Fatigue duty is non-military labor, frequently inflicted as a punishment, and which the soldiers usually do in "fatigue uniform" of blue denim or with shirt and jacket unbuttoned. It is an assignment of the "K. P." variety, not awarded as an honor.

At the army piers, crowded with coffins of soldier dead, there is no military guard in evidence, and no other honor to the dead than the flag covering each coffin box. An electric truck trundles the coffins to a loading stage, where a group of army trucks back up to the loading platform. Beside it a civilian in shirt sleeves checks off the coffins in the same manner that a shipping clerk checks off boxes of merchandise.

Outspoken Preacher.

"Surely those of us who are Christians are looking for happier days than this," declared Rev. Dr. Shields during his sermon last Sunday night in Jarvis street church, Toronto. Lawlessness could be detected in pleasure, politics, business and religion, he said, and at times he thought that he could almost hear the rumbblings of hell.

ABANDON "SPUDS;" JOIN GOLD SEARCH

Discovery on New Hampshire Farm Rouses Neighborhood for Miles Around.

Boston, Mass., Sept. 15.—Farmers within a radius of many miles of this vicinity have deserted their farms and equipped themselves with pickaxes, shovels, dynamite and optimism to search for gold.

The same anxious eyes that have been watching the skies for weeks past, eagerly seeking signs of rain are now on the ground. Here and there the ledges of a hillside are suddenly and feverishly assaulted with picks and frantic digging is begun.

Meantime there is everywhere much rushing about, and at the railroad station here strange machinery is arriving by freight. It is a drive digging machine of a type distinctly alien to these parts, and certainly not designed for the potato trade or farming purposes.

In the center of the spotlight is the cause of all this excitement, one Curtis Tilton, a farmer of the little town of Hill, near Franklin. He has started to tear a portion of his land to pieces. The cause of this is a letter he has received from the assay office in Washington, stating that "nine dollars' worth of gold and two dollars' worth of silver per 1,100 pounds of ore."

Experts have decreed this percentage gives ground for optimism and predict that the New Hampshire farm may prove a second Klondike if there is enough gold-bearing rock to warrant installation of stamps and concentrating plants.

For many years it has been known that gold and silver existed in the ledges in certain sections of this state, and from time to time a gold fever has appeared and disappeared. The report of the present find is unusually optimistic. The search has not been limited to the Tilton farm, for scores of land owners in the neighborhood have asked themselves: "If on Tilton's land, why not on mine?"

For years the hill on which ore has been discovered has been known as "Klondike Mountain."

JITNEY MEN FORM UNION AT HAMILTON

Will Seek to Oppose Legislation Driving Them Out of Business.

Hamilton, Ont., Sept. 15.—Threatened legislation, which will drive the jitney owners out of business, it is alleged, was responsible for a meeting this afternoon of the jitney drivers, held in the Veterans' clubrooms, 1055, on the corner of Cannon street. There were sixty drivers present, out of about 150 who hold licenses here.

The city, through a recommendation of the Traffic Committee, is considering keeping the men off the corner of King and James streets, to remedy the congested condition of traffic there and, according to the men, the nearest they are to be allowed to the centre of the city is Rebecca and John streets. They would lose the cream of the business if this law was put into force, it was stated.

To protect their business the men agreed to form an organization and apply for a charter. The plan is to affiliate with the Trades and Labor Council and gain the support of this body.

JITNEYS RULED OUT OF PORTLAND.

Maine cities conclude that the competition of 'busses with electric railways is undesirable. Jitneys have been ruled out of the streets of Portland, Saco and Old Orchard, Maine, where the conclusion has recently been reached that the 'busses that compete with the electric railway are a nuisance and should be restrained. These cities were introduced to the jitneys, or the jitneys were introduced to the cities, during the spread of the jitney idea following the unemployment period at the start of the war. Like most other cities, Portland and the other places mentioned hesitated at the start as to what was best to be done about regulation. In 1915 Portland passed a law that all licenses to operate motor vehicles as common carriers must be filed with the city clerk showing the route and schedule to be maintained, and also to be accompanied by a bond depending upon the size of the car. The bond requirement was \$200 for a five-passenger car and \$5,000 for cars of greater seating capacity. License fee was \$20 for small cars and \$30 a year for larger cars. The street railway increased its fares, and this encouraged a number more of 'busses to come on without a license. These unlicensed drivers were arrested and prosecuted. Later on, in 1915, the board of aldermen of Portland refused to grant any more licenses, and the city came to the conclusion that there was not room enough in Portland for two forms of transportation, and that in as much as the railway was already on the ground it should have the sole right to transport passengers.

In Saco, Maine, a similar ordinance had been passed and became effective in 1919. The town of Scarborough, Maine,

QUINCY MAN TAKES OUT HIS GLASS EYE BEFORE HE STARTS IN TO FIGHT

Quincy, Sept. 15.—"Discretion is the better part of valor" even when it comes to taking your own eye out of your head to save it from possible injury.

This, according to the police, was the theory on which Warren H. Tobey proceeded last night when he got into a fight with Joseph F. Drohan. Tobey was the first Quincy soldier to go to the front after war was declared and was the last to come home. During the war

he lost an eye and has been wearing a glass substitute ever since.

The police say that when he and Drohan got into a fight last night on Hancock street, Tobey took out his glass eye and put it in one of his pockets so it wouldn't get injured.

The two men were arrested by Patrolman Sullivan and were arraigned in court today on charges of assault and battery on each other. They pleaded not guilty and the cases were continued till Sept. 24.

BOOZE FLOWS FREELY IN THE PACIFIC PROVINCE

Vancouver and Victoria Now Swarm With American Tourists, Some of whom Certainly Like a Drink.

(Special Cor. Toronto Telegram.) Vancouver, Sept. 4.—To her giant trees, her snow-capped mountains, her sea-level shores and current premium on the Yankee dollar British Columbia adds a further attraction this year—that of boozers. Greater than ever in the history of the Pacific province has been the stream of visitors pouring in from the United States by train, by boat, by motor car.

Hotels are jammed with people from the south, and quite 90 per cent. of the travelers come from the Land of the Free. "It is said that 17,000 American autos had entered B. C. this year up to July 4th. And naturally Americans have contributed their quota of custom to the government vendors' shops, which in almost every B. C. town of any importance dispense wines and spirits and malt liquors to all and sundry. It will be recalled that B. C. went "wet" last election by a majority of 40,000.

Many Declare Seives British Columbians. "Oh, it's surprising the number of people who declare themselves residents of British Columbia these days," remarked an official in one of the Government dispensaries to The Telegram. "A permit to buy liquor costs British Columbian less than outsiders. A resident pays about 40 cents for a single temporary permit which always allows him to buy two imperial quarts of spirits or one dozen quarts of ale. A resident can get a beer license for \$2, good for the balance of the year, or he can for \$5 get a general permit to buy any kind of liquor for the balance of the year.

up, and there is a very severe penalty for falsifying." In Old Bar-Rooms. Appropriately lodged in the tile-fronted former abode of hotel bars are the dispensaries of Vancouver and Victoria. One sees the shelves and counters as of yore. In fact, the brass rail is about all that is missing. Over in Shipy old Victoria the dispensary is the busiest place in town, doing a lively trade from 9 till 12 and from 1 to 4 in the afternoon. As The Telegram looked in customers were filling through the doorway. Included among the customers was a sailor from one of the United States warships, who, with an assistant, went out for real beer for a couple of dozen of Uncle Sam's Jackies.

Can't Stop Importation. At present the prices asked by the Government vendors are from 50 to 75 cents above those for which liquor can still be legally imported into the province through private dealers. The Provincial Government's effort to stop this importation has not yet succeeded. Before a Government vendor's store can be opened in any town a majority of the citizens of that town must express their desire to have it. One or two places have refused to permit the establishment of a store.

Strangers who purchase liquor may take it to their hotels and consume it in their rooms, but they are not authorized to treat friends. Residents of the province may take intoxicants to their own homes for their own use, and are not supposed to give it to visitors. Needless to say, however, alcoholic refreshment is freely offered to guests at parties in private homes here, just as it is in Toronto.

DYE THAT FADED DRESS YOURSELF

"Diamond Dyes" add years of wear to worn, faded skirts, waists, coats, stockings, sweaters, coverings, hangings, draperies, everything. Every package contains directions so simple any woman can put new, rich, fadeless colors in her worn garments or draperies even if she has never dyed before. Just buy Diamond Dyes—no other kind—then your material will come out right, because Diamond Dyes are guaranteed not to streak, spot, fade, or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods.

Paul Rantall, a Swede, was before Magistrate Allingham yesterday afternoon on a charge of assaulting Edward Fleet and his wife, South Bay. He was remanded. J. J. Merryfield, a former liquor inspector, made the arrest at the request of the Fairville police.

WOULD SIMPLIFY HOSPITAL METHODS

Dr. Smith Doubts Curative Efficiency of Much of the "Ritual"—In Lap of Luxury.

(Toronto Mail and Empire.) The curative efficiency of much of the "ritual" that has become inseparably associated in the mind of the public with proper hospital treatment was strongly questioned by Lieut.-Col. Henry Smith, C. I. S., I. M. S., the noted eye specialist of India, who addressed the members of the Academy of Medicine at their meeting last evening in the Mining Building of Toronto University. Colonel Smith suggested that the lay of public was becoming unduly impressed by the "mysteries" of medicine and was regarding the constant processes of sterilization with which they were surrounded in the hospitals as essential to their recovery.

"You in Canada and the British Isles live in the lap of luxury in regard to your hospitals," the Doctor continued, detailing them in support of his main contention the success which he had achieved in India in a hospital of rudimentary equipment.

His allowance for running the institution, he stated, had been only \$3,000 per year, out of which sum he was required to maintain accommodation for 600 surgical cases for four months of the year and for 200 for the remaining eight months. In the interests of economy he had dispensed first with the cook-house that had been a fruitful source of graft for its superintendent. Bedding, hospital uniforms and highly medicated dressings had next been discarded for the bedding and clothing that the patients would bring with them and for raw cotton purchased at two cents per pound.

"My patients never did better," Dr. Smith emphasized, commenting on the results that had attended this failure to observe hospital refinements, and adding: "An increase in ritual does not improve efficiency in the treatment of disease, and I have little doubt that this will be the cry of tomorrow."

The speaker cautioned his audience, however, against advocating his doctrines in this country. Public opinion, he stated, would denounce them as unprofessional. In the remainder of his address, Dr. Smith took the medical men over a large area of the field of modern medicine, instructing them in the technicalities connected with many of the more important operations.

FORGOT GAS MASKS AND NEARLY DIED

Two Peterboro Men Nearly Asphyxiated Entering Manhole

Peterboro, Ont., Sept. 15.—Failure to put on their gas masks before entering a manhole to adjust gas governor nearly cost the lives of Melville Dobson and William Sharp here. They had been sent out to adjust a governor in the manhole by which the supply of gas to the southwest end of the city is regulated. They were accompanied by Charles Sharp, brother of one of the nearly-asphyxiated men.

After lifting the lid off the manhole, William Sharp started to descend. Before he had reached the bottom he called out that there seemed to be a strong odor of gas. Almost immediately he collapsed, and Dobson, following closely after him, started to pull him out, but was himself overcome. Charles Sharp, quickly obtaining help, set about the task of lifting the unconscious men through the narrow hole to the street level. By the use of straps they were quickly pulled up to the open.

AFTER LONG PURSUIT DETECTIVES GET MAN

Traveled Under Many Names, and Finally is Found at Race Track.

(Toronto Globe.) Pursued in the United States and Canada for six weeks by private detectives, Vivian Davies, alias W. B. Davies and Edward Gerrard, was arrested at Dufferin race track yesterday by Detectives Nichols and Todd on charges of robbery, forgery and theft. Davies consented to return to Minooa, Long Island, N. Y., for trial, and yesterday afternoon he started on his journey, in custody of Sheriff Morse.

Davies was visiting a relative who was housekeeper for Edward Gerrard, a wealthy broker. During his visit he is alleged to have stolen a note for \$5,200, a check for \$1,000 and some bank books belonging to Mr. Gerrard. From here it is charged, he went to Philadelphia where he posed as Mr. Gerrard and issued checks on his account. After robbing the house, he is then said by the authorities to have gone to Washington, and from there to Toronto, where he was later traced to the police. Liberty bonds stolen from the Gerrard home, and bank books, as well as the missing notes, are said to have been found in the prisoner's possession at the time of his arrest.

NEW YORK EXPERIENCING GREAT BUILDING BOOM

New York, Sept. 15.—New York is experiencing one of the greatest building booms in its history, especially of residences, the demand for building trade workers at good wages is great and hopes of lower rents are high. Compilation of statistics today by the City Building Department revealed that in four of the five boroughs of the city construction work this year up to August 31 had exceeded that for all of last year. It is believed that all records will be broken by the end of the year.

ESQUIMAUX IN AUTO HUNT SPIRIT MOTOR

Seattle, Sept. 15.—Six Siberian natives of the remote Tsukstij tribe, on the Arctic Circle, had the time of their lives today, when as guests of Captain Board Amundsen, the polar explorer, they were taken on a tour of this city, their first view of civilization. The machine had not gone two blocks, however, until they demanded that it be stopped, and then they crowded under it to look for the spirit which made it go. Captain Amundsen finally allayed their alarm and they continued their trip.

Hon. Charles R. Mitchell, M. P. P., of Edmonton, arrived in the city yesterday and left this morning for Newcastle, his former home.

WRAPPED IN FLAMES OF BURNING VARNISH

Montreal, Sept. 15.—Thomas Rankin, 38, a foreman employed by R. C. Jamieson & Co., Ltd., was so badly injured by an explosion on the company's premises yesterday that he is not expected to survive. R. C. Jamieson, president, said Rankin was working alone in a "tank" room, where a great quantity of varnish was kept. "Rankin," Mr. Jamieson said, "must have lighted a match, thus causing one of the tubs to explode. I can think of no other explanation." When the explosion occurred the victim was enveloped by the flaming liquid. The fire caused by the blast was not serious.

DISLOCATION OF SPINE IN FALL FROM WINDOW

Sydney, N. S., Sept. 15.—"Death due to a dislocation of the spine, sustained through a fall" was the verdict returned by a coroner's jury inquiring into the death of John McLennan, chief engineer of the Acadia Coal Company at New Glasgow, who was found dead on West street here early on Tuesday morning. He is believed to have walked through a bedroom window to the veranda roof and fallen to the street, a distance of fourteen feet.

VETERAN OF MANY BATTLES ON HIKE

(Toronto Globe.) John Francis Marten, a veteran of the great war and other British campaigns, reached Toronto yesterday from Montreal on his way to Winnipeg. Mr. Marten has travelled on foot from Montreal and will walk to his home in Winnipeg, unless the Red Cross Society, the Militia Department or other organizations come to his assistance.

Parts With Medals.

Taken from a lodging house in London by a policeman several weeks ago, after he had made his case known through the press of London, Mr. Marten was placed aboard a tramp steamer called "The Bollingbrook," which departed two weeks ago at Montreal. The captain gave him \$5 when he landed. He has spent this on his journey from Montreal as well as \$5 which he secured from a man named Gregory in Smith's Falls, who bought five medals from him through compulsion.

Mr. Marten's war record is as follows: Born in Canada he enlisted in 1895 in India, being discharged from his regiment in 1907, after serving in the Tirah and Boer campaigns. He was in Texas when war broke out and, paying his own expenses to England, enlisted through the British mission in that state. He joined the Middlesex Regiment and was discharged as medically unfit in May, 1916, re-enlisting two weeks later in another British regiment which went to the Saloniki front.

Is Buried Alive.

Here he was buried alive in a trench and remained in hospital from his injuries for a year and 122 days, later being sent to Dykebar lunatic asylum on the advice of hospital doctors. He was released from the asylum in January, 1921, and was wandering about British Columbia endeavoring to secure assistance to obtain a passage to Canada and his family, until he was taken aboard the tramp steamer. His family reside at 74 Gordon street, Winnipeg.

FINDS MOTHER'S GRAVE

AFTER 38 YEARS SEARCH Syracuse, Sept. 15.—Dr. Charles Austin Hirschberg, head of the advertising counselor firm of that name at 160 Nassau street, New York City, yesterday found the grave of his mother, in a small cemetery near here. At the same time he cleared up indistinct parts of his ancestry.

Dr. Hirschberg came here a few weeks ago and asked help to find his mother's grave. He enlisted the aid of a rabbi, but no one could remember the family. A few years ago an aged woman to whom the story had been told said she knew some of the facts and sent for the New York man. He came here at once, and through the woman's story was able to trace his family record and locate his mother's grave.

His parents lived here more than forty years ago, but on the death of his mother his father moved to Chicago, taking the boy with him, and remarried. When young Hirschberg was five years old his father and stepmother died. He found a home in Cleveland, worked his way up and was graduated from Case Scientific School. From there he went to Denver as a mechanical engineer, where he became the editor of an engineering magazine. Later he went to New York and established the firm that bears his name. During the war he was vice-president of the Liberty Loan Committee in the Second Federal Reserve district.

heats before 25,000 people and reduced
the pacing record of the Maritime prov-
inces to 2:07 1/4. The Million Mare
was the favorite in the betting owing to
her victory last week at Presque Isle.
Other winners yesterday were, Donald
Kerr in the 2.20 trot and pace, purse
\$500, with best time being 2:15 3/4 and
Daniel Durando who made it three
straight in the 2.25 trot, purse \$400, best
time being 2:20 1/4.

ATHLETIC.
May Restore Duffy's Record.
Boston, Sept. 15.—The record of 9 3-5
seconds for 100 yards, made by Arthur
Duffy of Georgetown University at the
intercollegiate championships games in
1920, which stood as the amateur record
until it was expunged in 1908, may be
restored to the official books. The regis-
tration committee of the New England
A. A. U., to which the national body re-
ferred for investigation a proposal to
put it back, will hold a special meeting
tonight to act on the matter.

Duffy was charged in 1908 with hav-
ing admitted professionalism in a series
of articles which appeared under his
name. The report of the New England
registration committee will be made to
the A. A. U. convention at Chicago in
November.

NON-TIPPER WHO "GETS HER GOAT"

Waitresses Bear With Loss of Tips, But Resent Sneaky Methods. (Montreal Herald)

The past year or so has not been a period of free spending; and it is quite to be expected that one of the first things to be economized on would be waiters and others who serve. The waitresses of the downtown and up-town regions understand the feeling and do not grumble much at the reduced gratuities; but one of them stated plainly to The Herald today that while she could put up with small tips or no tips she resented the sneaky methods often resorted to by those who wished to save their small change.

"If a fellow is broke or doesn't want to give me a tip for some reason or other," she said, "I can manage to worry along without it. And he'll get just as good service from me the next time he comes. What gets me, though, is the guy who spends half his meal trying to figure out a way to sneak a nickel or two out of my pocket. I don't mind his sneaking a nickel or two out of my pocket, but I don't mind his sneaking a nickel or two out of my pocket."

"If you're trying to get away with something you generally pick a time when no one's looking, don't you?" "Sure! Well, this guy what I'm telling you about has the bright idea of asking for his check as soon as he puts in his order. He don't want me to be in at the death of his demi tasse — not him! He plans it in advance and then times his dessert so I'll be in the kitchen or some place when he's ready to leave. One day, when I had plenty of time, I laid for him right next his table, and what do you think? It took him almost twenty minutes to drink his coffee. By that time I was waiting on another customer."

MIKE MCTIGUE IS AFTER GREB

(New York Times) Harry Greb, Pittsburgh light-heavyweight, who has decided himself capable of training down to the middleweight limit and boxing in the smaller class, is confronted with a challenge from Mike McTigue, Irish middleweight, for a bout at 160 pounds, eight hours before entering the ring. McTigue's manager, Joe Jacobs, yesterday visited Madison Square Garden and there informed Promoter Tex Richard he was prepared to accept a match against Greb at the recognized middleweight limit. As an evidence of his sincerity, Jacobs flashed a certified check for \$75,000, which he said was willing to post as a forfeit to bind a McTigue-Greb contest.

His efforts for the match but expressed confidence in McTigue's been unable to drag Harry into the ring for another battle. In their last bout, McTigue beat Greb two years ago, said Jacobs, "and ever since Mike has been unable to drag Harry into the ring for another battle. In their last bout, McTigue beat Greb two years ago,"

Torrington ELECTRIC VACUUM CLEANER

BIG BRUSH—POWERFUL SUCTION

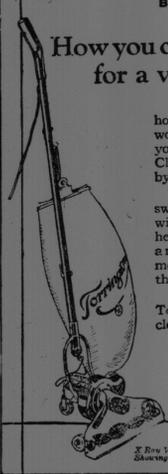

How you can save the money for a vacuum cleaner

If in addition to your regular housework, you have a "cleaning woman" come in once a week to help you, a Torrington Electric Vacuum Cleaner would actually pay for itself by saving this added expense.

The Torrington, with its carpet-sweeper brush and powerful suction, will cut in half your need for outside help, and the money you would pay a maid for these one or two days each month would easily take care of the payments on a Torrington.

Let us demonstrate to you that a Torrington Cleaner means cleaner cleaning and less fatigue.

As she bid them good-bye, some kindly left money in her hand. The Salvation Army No. III band was in attendance. Miss Steeves was a member. The band played several selections before the train left, and as the train pulled out, God Be With You Till We Meet Again.

SEIZE LIQUOR ON NEREPEIS SIDING

Big Haul Made in Car of "Lumber" Bound for Massachusetts.

A midnight run in an automobile from St. John to Nerepis, Kings county, last evening by liquor inspectors Alexander Crawford and Samuel Thomson and Provincial Constable Thomas Gibbons resulted in an important seizure of liquor valued, according to the inspectors, at between \$1,500 and \$2,000. The liquor was seized in a freight car on the siding at Nerepis and was marked "lumber". The car was billed through Nerepis to West Medford, Mass.

The inspectors received a tip yesterday that the car was on the siding at Nerepis and waiting for the cover of darkness last evening. As she bid them good-bye, some kindly left money in her hand. The Salvation Army No. III band was in attendance. Miss Steeves was a member. The band played several selections before the train left, and as the train pulled out, God Be With You Till We Meet Again.

J. S. FLAGLOR IS POSTMASTER

On the first of August, 1870, J. S. Flaglor entered the civil service. Today he received word from the Civil Service Commission that he had been appointed postmaster of St. John, to date from August 1, 1921. Fifty-one years to a day from his entry into the service he received this appointment. He had been acting postmaster since the retirement of Mr. Sears.

Currency was given to a rumor that this appointment might go to a politician, but it has gone by promotion to a man than whom there was none more faithful in the discharge of his duties. The promotion is received with great satisfaction by the staff, since it is an assurance that the post office is in capable hands and that merit is to be recognized. Mr. Flaglor is receiving hearty congratulations on every hand.

WOULD SAFEGUARD WATER SUPPLY IN CASE OF ACCIDENT

City Council Discusses East and West Side Connection

Decides to Dismantle Little River Pumping Station—Tenders for West Side Shed Painting—Reception for Warships Left to Mayor and Mr. Bullock.

Discussion of possible measures to be taken by the city to ensure an adequate supply of water in the event of the two mains from Loch Lomond failing took up the major portion of this morning's committee meeting of the common council. It was decided to dismantle the old pumping station at Silver Falls. Further consideration was given to the proposed connection of the east and west side systems by a pipe under the provincial highway bridge. The matter was stood over again until Monday.

The mayor read a letter from the marine department advising that the Canadian squadron would be in St. John September 21 to 25, and the ships would be open for inspection at stated times. Mr. Bullock said the intention was to berth the vessels at the Sand Point slips, West St. John. On motion of Commissioner Thornton the matter of a civic reception was left to the mayor and Commissioner Bullock with power to act.

Painting Tenders.

Tenders for painting 5 and 6 and the potato sheds at West St. John:

E. J. Mooney (Chapel 86)	\$485.00	\$485.00
G. H. Clark	477.00	1,080.65
H. J. Sheffield	480.00	960.00
Jas. Huey	289.00	699.00
Jas. H. Patten	350.00	700.00
J. T. McGowan	475.00	1,250.00
Edw. J. Hartshorn	250.00	950.00
John A. Adams	400.00	800.00
Wm. D. McLennan	460.80	948.72
Henry Baynton	500.00	500.00
Currier, Ferris & Smith	344.00	828.00
Geo. H. West	237.55	488.00

The tenders were referred to the commissioner of harbors and city engineer for report.

Commissioner Thornton, asked about lighting rates, said that in Halifax the rate was \$80 a light. He was obtaining the rate in other cities. The rate here is \$93.75. The Halifax rate given by the power company said to be \$120.

Commissioner Bullock asked if the matter of cleaning the lights had been taken up with the power company. Mr. Thornton said it had been and he would look into the matter again.

Water Matters.

Regarding the pumping station at Silver Falls, Commissioner Jones re-read a recent recommendation that the plant be dismantled. He moved that the recommendation be approved and carried out.

Commissioner Frink asked for an explanation of the fact that some of the belting and machinery had been removed from the station. He thought that the watchman should have made a report of the theft.

Commissioner Jones said the place was under the charge of Carelaker Douglas but he had received no report on the breaking and stealing.

G. G. Hare, city engineer, said that without connection with the west side, if the line between Silver Falls and Latimer Lake went out, the high levels of the city would be deprived of water. A pump at Little River would supply the high levels for a time. None of the equipment at present in the pumping station was of any use, but the building might be used to house a larger pump. He said the cost would be at least \$25,000 for a 350 horse power pump. The motion to dismantle the old pump was carried.

Connection at Bridge.

Mr. Jones then brought up the matter of connection of the east and west side water systems across the highway bridge.

The city engineer said that if the west side system was shut off, 3,000,000 to 4,000,000 gallons a day would flow from the west to the east side.

Mr. Jones said the estimated cost of the proposed connection was \$27,500.

Boston Expert's Report.

Mr. Jones read a report from F. A. McGinnis, engineer in charge of the Boston water works, who was for a time acting superintendent of the water department here. Mr. McGinnis said that the project to connect the two systems did not appeal to him, and that two systems should remain as at present. He said it was impossible to get an adequate fire supply on the east side from the Spruce Lake system as the lake was too low. There was also danger of freezing at the bridge.

To remedy the conditions in Lancaster Heights, he suggested the erection of a stand-pipe to be served by a small electric pump and on the east side a new main to replace No. 2, which was in bad condition.

He was of the opinion that pressure in the city could be increased by doing away with the sources of waste now existing and in this connection he would recommend the metering of all services. He said the experience of Boston was a great argument for meters, as most of the householders were able to get sufficient water at less cost than before the meters were installed.

Commissioner Frink said the idea was to have the west side water as a reserve in case of emergency for the east side, and not to supply the west side from Loch Lomond as suggested in Mr. McGinnis' letter. He thought if the work was to be done it could better be done now while several bridge workers were in the city.

Commissioner Bullock said the city could not be too well protected as to its water supply, and both the bridge connection and the new pump at Silver Falls were favored by him if they would guarantee a supply at all times.

The mayor said he was of the opinion that Mr. McGinnis did not have the full details of what was intended.

Mr. Jones said he would bring down all the correspondence in the matter later.

Mr. Jones was asked to bring in another report on the matter on Monday, which he agreed to do.
