THE NOVA-SCOTIA ALMANAC.

ADVERTISEMENT.—The unprecedented success which the publication of a CHEAP NEWSPAPER (The Morning Herald) has met with in this province, encourages the publisher in attempting another experiment, viz. to make this little annual a CHEAP ALMANAC. He has therefore made arrangements to effect this object by enlarging the size of the pages; and by this alteration he is enabled to give the Calendar in twelve pages, and to reduce the number of those which contain the various lists, without diminishing the usual variety of information. Consequently, the NOVA SCOTIA ALMANAC will be sold at the low price of 5d. per single copy, or 4s. per dozen.—The weather has been hitherto inserted in the Calendar pages, with but one exception, in all the preceding numbers; although disapproved of by many; but as by the greater number desire its continuance, and to evince a respect for the opinions of all, the publisher, by availing himself of the services of a Correspondent, has at length hit upon a plan by which this objection is removed from the Calendar, and those who desire its insertion, by referring to the Index, will be directed to a SEPARATE TABLE OF THE WEATHER for every day in the year.

Another opportunity is here presented for the publisher to thank his friends in various parts of the Province for their assistance, in furnishing the requisite information, and to request a continuance of their valuable services. The reputation which the Almanac has always sustained for utility and correctness, renders it unnecessary to offer any further recommendations than to state, that the same care as heretofore has been taken to make it worthy of the extensive patronage it receives. The general improvements in this Number will doubtless be observed without being particularised.

TO REVIYE OLD WRITING.—Immerse the writing in water in which copperas has been dissolved ; if the writing is suffered to dry, the copperas will make it reappear with as much freshness as if it were new.

BAITS FOR CATCHING FISH.—Fish are wonderfully attracted by strong smelling substances, as camphor, assafœtida, &c. Artificial insects are much used in catching fish, especially trout ; they are made of different colours, according to the hours of the day, in order that they may imitate the natural objects which appear at these different periods. Those who fish in fresh water, employ cheese sometimes as a bait, and prefer that which emits the strongest smell.

JANUARY.

— Dread Winter spreads his latent gloom,
 And reigns tremendous o'er the conquer'd year.
 How dead the vegetable kingdom lies !
 How dumb the tuneful ! horror wide extends
 His desolate domain. Behold, fond man !
 See here thy pictur'd life; pass some few years,
 Thy flowering Spring, thy Summer's ardent strength,
 Thy sober Autumn fading into age,
 And pale concluding Winter comes at last,
 And shuts the scene.

F E B R U A R Y.

How fair is the snow-flake, earthward falling,
As its lingering leaves the realms of air;
How gentle and still is its downward motion,
From its home of clouds, so pure and fair !

Where the ice gems spangle the pliant boughs,
How the tall tree bends 'neath its snowy crest !
The snow with a plume each branch hath deck'd,
As it pass'd from its airy course to rest ;

Mountain and valley it robes in white,
To charm the eye by pale moonlight !
While the giant trees their shadows throw
In thousand shapes on the fallen snow.

MARCH.

Winter in his dread array,
Fiercely howls through all the plain,
Dimming Sol's effulgent ray,
While he holds his icy reign!

Bleak and dreary is the scene,
Though returning Spring draws nigh;
Fields will soon resume their green,
And refresh the weary eye.

A P R I L.

Say who is this all decked with smiles,
Comes she from the Indian Isles,
Where swift the sunny streamlets flow,
O'er diamond sands that gleam below?
She comes,—she comes o'er land and main,
She breaks old Winter's icy chain;
Then haste ye maidens, chaplets bring,
Ay,—trip it in the mazy ring,
And welome bright returning Spring!

Ah! this is Spring, the bright and gay,
 Her reign is welcomed by the lay
 Of thousand warblers, from the steep
 Of mountain high and valley deep!
 Ah! this is Spring, she treads the skies,
 And brightens the cerulian dyes,
 She spreads o'er earth her magic wing,
 Then quickly shouts each living thing
 To welcome bright returning Spring.

JUNE.

Sweet Summer is coming,
 How gaily sings the birds at morn,
 The wild bee is humming
 Around the flowery thorn ;
 What charming wild music in grove and in vale ;
 Aye, Summer, thou art coming,
 I feel the inspiring gale :
 Aye, Summer, thou art coming,
 Thou mildest, fairest, hail !

JULY.

Serene and mild we view the evening air,
The pleasing picture of the smiling fair,
A thousand charms our sev'ral senses meet,
Cooling the breeze with fragrant odors sweet;

But sudden if the sable clouds deform
The azure sky, and threat the coming storm,
Hasty we flee ere yet the thunders roar,
And dread what we so much admired before.

AUGUST.

Grateful is the summer shower,
To the dry and thirsty ground;
Smiling looks the verdant bower,
And the landscape all around.

Feather'd choirs their matin song
Raise triumphant through the grove;
Lovely flowers spring up along
Near the pathway where we rove.

SEPTEMBER.

Orchards and the fruitful fields,
Teeming with their rich supplies,
Their accustomed portion yields,
Truly precious in our eyes.

Ye whom Heaven has largely blest,
With a bounteous store of good,
See that sorrow's sons, distressed,
Famish not for want of food.

OCTOBER.

In Summer's cool shade how delightful to sit ;
 In Winter how social when few friends are met ;
 In Autumn ripe fruit our palates regale ;
 In Spring we delight in the blossom'd sweet vale.

Each season has pleasure and blessing in store ;
 Be content, and be cheerful, and wish for no more :
 For know, the best time to be happy and sing,
 Is Winter—is Autumn—is Summer—is Spring.

NOVEMBER.

See ! the desolating frost
Withers every tender flower ;
Nature mourns her beauty lost,
Short-lived beauty of an hour.

Swiftly rolls away the year,
And its transient joys decay,
Others in their place appear,
In their turn to pass away.

D E C E M B E R.

Cold sweeps the blast from hill and moor,
Through the rough hovels of the poor,
While swift the snowy drift is piled,
Like pigmy mountains, drear and wild.

Now evening with unusual haste,
Spreads deeper shadows o'er the waste,
And over every out-door form
Falls the white mantle of the storm.

THE WEATHER.—A correspondent has furnished the preceding table, which he assures us is founded on an approved theory. We thank him for the pains he has thus taken in our behalf, and hope his expectations may be realized with regard to the discovery; but without questioning his intelligence, we would here intimate, that should his calculations turn out *contrary to what he expects*, he may console himself with the reflection, that when such great men as Sir W. Herschel, and Dr. Adam Clark were disappointed in the results of a similar table, *his has not been the only failure.*

NO! YE RED HEADS AND GRAY! PHENOMENON IN CHEMISTRY.

EAST INDIA HAIR DYE,

Colors the Hair and will not the Skin!!!

THIS dye is in form of a powder which in plain matter of fact may be applied to the hair every night, the first night turning the lightest red or grey hair to a dark brown, and by repeating a second or third night, to a bright jet black. Any person may, therefore, with the least possible trouble, keep his hair any dark shade or a perfect black; with a positive assurance that the powder, if applied to the skin, will not color it. There is no trouble in removing it from the hair, as in all powders before made. By an occasional application, a person turning grey will never be known to have a grey hair! Directions complete with the article. There is no coloring in this statement, as one may easily test.

These facts are warranted by the gentleman who manufactures it, who is the celebrated chemist, Dr. Comstock, author of Comstock's Chemistry, Philosophy, and many other works well known and widely celebrated by the public.

This Dye is sold only by COMSTOCK & CO, 71 Maiden Lane, New-York.

For sale by nearly every Shopkeeper in the province; in Halifax by HUMPHREY & Co., and the other Druggists.

Human Hair.

Cleanliness of the Head and Hair.

STRANGE it is that persons who attend strictly to personal cleanliness, baths, &c. should neglect the Head—the Hair—the most essential—the most exposed—perfectly free may it be kept of dandriff or scurf with a certainty that the hair cannot fall out, by the use of the Balm of Columbia. Ladies, will you make your toilet without this article? I answer fearlessly, No, if you have once tried and experienced its purifying effects—its sweet perfume.

A hundred articles have been put forth on the credit of this—the only first—the only really valuable article. A mass of testimony from all classes to these facts. **LOOK OUT**—Counterfeits are abroad; look always for the name of **COMSTOCK & CO.** on the splendid wrappers, and never buy it without that name. For sale by nearly every shopkeeper in the province; in Halifax by **HUMPHREY & Co.**, and the other Druggists. Comstock & Co., New York. Halifax, November, 1841.

ONE HUNDRED DOLLARS REWARD has been offered for months, to any one who will use a bottle of **HAYS' LINIMENT** for the Piles without being cured. Of thousands sold, in no one instance has it failed of a cure. Proof overwhelming to be seen where it is sold. It is also a certain cure in nearly every case. (Externally) in the following complaints.—For the Piles, for all Dropsy, Tender Feet, Sore Throat by cancers or ulcers, Croup, Whooping Cough, Scald Head; Tightness of the chest, especially in children; Foul Ulcers of the legs, or other fungus sores, however obstinate or long standing; Fresh Wounds; Chilblains, &c. **LOOK OUT**—Some Swindlers have counterfeited this article and put it up with various devices. Do not be imposed upon. One thing only will protect you—it is the name of **COMSTOCK & CO;** that name must be always on the wrapper, or you are cheated. Do not forget it. Take the direction with you, and test by that, or never buy it; for it is impossible for any other to be true or genuine. **MR. BURTON'S,
Real Japan, Paste and Liquid Blacking.**

MR BURTON, begs respectfully to call the attention of the Public, to his valuable Blacking, which has upheld its character for several years; being now pronounced by Her Majesty's Troops, superior to any they have used. It supersedes all others now in use, as it not only combines the best materials found in Blacking—but produces a remarkable emolliency and durable jet polish, which must give general satisfaction.

Much time and labor will be saved in the use of this Blacking, and the general complaint which has been made, against many other Blackings, which harden and destroy the leather, be removed; in the use of Burton's Blacking! The atmosphere having no effect on its brilliancy, or lustre; which it will retain a length of time, owing to the strength of body of which it is composed.

BRASS FOUNDRY,

Irish Town, opposite Richardson's Wharf.

JAMES WILLIAMSON, having commenced business in the above line, respectfully announces to the public, that he is prepared to execute orders of all descriptions of Castings of BRASS WORK, Lamps cleaned and repaired, Copper Pans tinned &c &c.

J. W., having had a long experience in the above line in Edinburgh, flatters himself to give general satisfaction to those who may favor him with their patronage.

Orders for Patent Spikes and Rutherford Hinges for Ship Building, which have been found to answer equal to Copper; and orders from the Country punctually attended to.

Halifax, Nov 1841.

☞ The new things that are continually offering, which shrewd and ingenious men invent for profit, are endless in variety, and many of them novel in a degree that is truly amusing. Messrs Bessonet & Brown, Hardware dealer, in upper water street; have on hand some Temperance Knives and Razors; the former of course to remind enthusiasts on the subject of drinks, that Temperance in eating, is also a virtue; and the latter, we presume, are so eminently superior, as to be quite unsafe for those to use whose unsteady hands, make incisions more than doubtful, even in the use of ordinary blades.
