## Just Between Ourselves (It's about Corsets)

Always in a retail store there are certain departments that outshine others.

In a woman's store particular attention should be directed to those articles that are most generally in demand, the staples.

Foremost in a women's wardrobe come corsets; not only are they an essential to good dressing, but doctors reccommend their use as a support for the bodily organs.

Our Corset Department is one of the 'live wires' of our business. We have aimed to make it so, and we have succeded.

Our corsets are the leading corsets in construction, fit, materials and work-manship. Every pair is carefully made, well finished and daintily trimmed.

They at once appeal to a woman's eye, meet all the demands of fashion, comfort and health. Whatever your figure-slender, stout, short, tall, medium, there is in our Corset Department a model for you that will mould the form in comfortable harmony with the prevailing modes in drags nodes in dress.

We have a new model—an exclusive model—"La Reine"—the queen of corsets. Made of fine quality batiste, ventex, broche; low, medium and high busts, ex-tremely long skirt; "no break" automatic side steels; boned with duplex wire; six have supporter; buttons hose supporters; supporter buttons made of white wood.

There appears to be a decline in good old-fashioned social entertainm among the people at their homes, how-swar much there may be outside, which is comparatively artificial. The young people complain that there are not mearly so many invitations as there used to be to evening parties at minate houses as there are of homes private houses, as they hear of being n vogue in years gone-by. It was at uch that enjoyable acquaintanceships

such that enjoyable acquaintanceships were formed; and many a father and mother of to-day met first in the house of some mutual friend to pass way a few | hours of an evening. The old folks were that there is no such thing now as dropping-in for a cup of tea, or sending word that they were coming on such and such an evening, when a few others would be invited to be with them and the hostess. Enjoyable oc-casions they were ! sions they were

Several reasons are alleged for this decadence. First, indolence. People won't "put themselves out," as they mont, "put themselves out," as they style it. The community has grown very selfish, and shuts itself up more than any other in the provinces apparently. "What's the use of putting yourself out?" is the moto. They read of social events elsewhere, where the young and old are entertained by friends, in large and small parties, and they say: "What fools they be." They keep their families even from communication withmuch that is good and improving, and instead of making the young lads, growing to be young men, acquainted in their own: set, and with those that they might well fraternise with, they leave them to their own resources, and the four of pretty music heart, indicating your thill enjoyment.

Then again, there has grown up such exaggerated ideas of entertainment. Would you believe it that thirty or orty years ago, a cup of tea, some oast, and preserves, and biscuit baked in the house, were considered a sump-tuous repast, with "thick ginger-bread," and thin bread? Lies than a dollar would cover the whole extra expense for a party of a dozen. Now, it is considered not the correct thing unless the latest seasonable delicacies are provided, often not eaten and mank unless the latest seasonable delicacies are provided, often not eaten ou firank with anything like zest, but still ex-pensive. These were the days of the sanded kitchen, and the painted floor dining-room, and the "settle" soft, straight-backed and sides; while the living room was destitute of anything but what was essential, and every-thing had its use. Then it was that you could "sit down anywhere;" and on the kind of chairs that are now sold at about 20c. a piece, the guests crowded together. I don't believe they could manage to make those kind of chairs endurable now.

As a rule she has no par-ticular female friends, like her möther had. There are some that she may be more pleased to see than others; but there do not appear to be the warm friendships, lasting even from life unto death, that pseualed among women a generation or two back, when the churches were only open Sundays, and the meetings thereat were like a family gathering, with hand-shakings and fracternal greetings, and the clergy-man felt himself quite the head of his flock. There was then unpremedi-tated calling on each other, and tak-ing "pot-luck." Stiltedness has taken the place of this unreservedness; the latch-string always out has given place to " not a home," and neighborhoods live in ignorance of each other in a social sense.
