

METHODIST CONFERENCE

Rev. Thomas Marshall of St. John Elected President.

Address by Rev. Dr. Carman, General Superintendent of the Methodist Church of Canada.

List of the Standing Committees Appointed—Much Routine Business Transacted—Public Missionary Meeting in the Evening.

When the Annual Report Was Read by Rev. Dr. Evans.

(Continued from page three.)

The Methodist conference of New Brunswick and Prince Edward Island opened its annual session in Queen Square church on Thursday morning, with about 120 clerical and lay delegates present.

Rev. Thos. Marshall was elected president on the first ballot, receiving 64 out of the 117 votes cast, and Rev. Geo. Steele was elected secretary, getting 52 out of a total of 114. Rev. Messrs. Fisher and McConnell were appointed journal secretaries.

Conference hours were fixed as follows: 9 to 12, 2.30 to 5.30 p. m., with evening session opening at 7.30.

Rev. C. H. Paisley was granted leave of absence, to enable him to proceed to Halifax, whence he sails for Newfoundland this week on connexional business.

The feature of the morning session was the address of Rev. Dr. Carman, general superintendent, who conveyed the greetings of the western churches.

God, he said, had given Canadians a blessed heritage, over much of which he had travelled during the past year.

Referring to his trip to the Simpson district, a journey of 1,200 miles through land locked waters that reached from Victoria to Sitka, he said it seemed as if Omnipotence had dispersed itself in making such a country. There was wealth in its seas as well as on the land, for great wealth had God hidden in the bosoms of the mountains.

We were a plurimur race, who left our successors to take care of themselves, but a kind Providence had buried vast mineral riches there, where they could not be dug out for centuries.

But he found the Simpson district ablaze with religious zeal, and the notion that the Indians were a dying race was there knocked out of his head, for it was a Hibel on the gospel.

It was a crime and a sin to neglect that if any race accepted it, it would not save them, soul and body.

When the Indian organized the Christian home, instead of perishing, the children, in the words of Jeremiah, were playing in the streets. We had so confined, almost confined, the gospel as to deprive it of its social, moral, political power. It was a terrible mistake to stop with saving a man's soul.

The Anglo-Saxon race could not go through any way, God or no God, The Indians were just like us Britons—a poor, miserable, perishing race, when without the gospel. It was a crime and a sin to neglect that if any race accepted it, it would not save them, soul and body.

giving an account of his labors during the year on behalf of the pulpnumery fund. The subscriptions and collections amounted to over \$13,000, of which he had collected nearly \$6,000.

This year's collection of \$13,000 was exclusively of collections by Sunday schools and leaguers. Legacies were coming in more freely, and several people had promised to remember the fund in their wills.

He urged clerical brethren to urge collections in leaguers and Sunday schools that could not be reached by the agent.

He returned thanks to the brethren for assistance kindly rendered. If work were allowed to keep up as it has been conducted in the past twelve months, it would be possible to raise the contemplated \$25,000 in five years.

After referring memorials from district boards to the proper committees, and transacting considerable routine business, conference adjourned at 5 o'clock to enable committees to sit.

EVENING SESSION. Missions was the theme discussed at the evening session, in the presence of a large audience.

Rev. Dr. Carman spoke at some length on missions among the Indians on the Pacific coast, giving a most interesting account of the zeal they display in their work.

Afternoon Session. Rev. Dr. Carman read the finding of the superintendent's court of appeal in the case of Stewart versus the N. B. and P. E. I. conference, and it was in effect that conference had no power to add to or alter the sheets of the stationing committee; that this committee could only deal with ministers and recognized probationers, and that therefore there was no authority for the names of local preachers appearing in the station sheets.

In answer to Rev. Mr. Thomas, Dr. Carman said no appeal had been received protesting against the conference having set Rev. Dr. Paisley apart to labor exclusively for the superannuated fund. He said the court of appeal, like the gates of heaven, was open night and day.

The treasurer of the union church relief fund reported receipts of \$122.97, and disbursements of \$122.11 with 80 cents for postage, etc. Rev. Mr. Paisley was re-appointed secretary of the board.

Rev. Job Shenton submitted his report of the general conference fund, showing total receipts from districts of \$233.20. Rev. Mr. S. was re-appointed treasurer, and it was ordered that the collection be taken up the first Sabbath in August and paid to the financial secretary at the annual district meeting, and by the secretary forwarded to the treasurer of conference.

The first report of the nominating committee was adopted, thereby constituting the following committees: Contingent fund committee—Revs. Job Shenton, J. Parkins, Geo. Steel, A. B. LePage, Chas. Comben, H. R. Baker, Richard O'Neil, and Messrs. J. W. Smith, Dr. Inch, Dr. Wilson, A. Lladay, G. S. Wall, Jas. Howard, Jr., and Albert Pickering.

Educational committee—President of conference, Rev. Dr. Sprague, Dr. Stewart, Jos. Sellar, Samuel Edward, and Messrs. J. L. Black, Dr. Inch, J. M. Palmer and A. A. Stockton. (Dr. Allison is treasurer and Rev. C. H. Paisley secretary of this committee.)

Memorial and miscellaneous resolutions—Revs. Wm. Penna, J. K. Kink, Frank Frizle, J. W. McConnell, W. E. Johnson, Isaac Howie, C. C. Turner, R. W. Weddell, and Messrs. C. H. Hutchings, M. E. A. Burpee, F. E. Frupp, Ezra Geneser, J. M. Palmer, J. D. Chipman, G. Frank Beer and S. E. Reid.

Temperance committee—Revs. Thos. Marshall, B. W. J. Clemens, G. A. Sellar, Jas. Crisp, Geo. F. Dawson, R. Knight, G. M. Campbell, G. W. Fisher, J. C. Berrie and Messrs. J. R. Woodburn, A. McN. Shaw, W. T. Baird, R. B. Bennett, J. L. Black, S. T.

The duties of his office are numerous and important, and he has been followed by due and proper performance, abilities of a special character, and these Dr. Carman possesses in an eminent degree. He is a man of tremendous physical energy, and a reach for his mission stations in British Columbia, attending the conference in Manitoba, and when through here passes on to Nova Scotia. His capacity for work is something amazing, and unless the unexpected happens, the church may yet count on many years of service from him.

ALBERT CO. Hopewell Hill, June 15. Squire John Stevens died at his home in Baltimore, A. Co., on Friday in the 79th year of his age. He leaves a grown up family. The deceased was highly esteemed by all his friends and acquaintances.

Miss Grace McGorman of this place returned today from Fredericton, where she has been attending the provincial normal school.

The intelligence was received here today of the death at Middle Musquodobit, N. S., of Mrs. Edwin Little, formerly of this place. The deceased lady was the eldest daughter of the late John R. Russell of Hopewell, and was in the 49th year of her age. For many years she was an efficient teacher in the public schools of this province, and was known as a woman of superior intelligence and attainments. Her death will be very greatly regretted by her many friends in this country. She leaves a husband and two daughters; also a mother, three brothers and two sisters, who are residents of Hopewell, and a sister, Miss Ada Russell, who resides in St. John.

It is generally considered the grass on the Shepody marshes is exceptionally good, seldom known as far along at this time of the season. Fine crops are looked for.

Barth H. Whyte sailed today from Grandstone Island, dead isden.

The track on the athletic grounds is now open for riders, and several of the racing men have begun training. The track is said to be much faster than last year, and now that there is some prospect of the club retaining Mr. Edmunds as trainer for the summer months, there is no reason why St. John should not carry off a large number of firsts. Percy Holman has returned to the race track, and is said to be going great guns.

AGRO THE BAY.

E. E. Hewson and Miss Laura Morehouse United in Marriage.

Exports From Bear River to American Ports—Extensive Improvements Going on at Weymouth.

Digby, June 17.—The residence of Capt. Henry Morehouse, Sandy Cove, was the scene of a gay event at nine o'clock this morning, when his daughter, Laura, was united in marriage to E. E. Hewson, a rising young barrister of Amherst. The bride is a popular young lady and a graduate of Mount Allison. The presents were numerous and costly. Mr. Church, III, with his handsome span of greys, drove the wedding party to Digby in time for the happy couple to take the Prince Rupert for St. John on their way to Amherst, where they will reside.

Charles Armstrong, one of Digby's best known young men, was married this morning to Lillian, daughter of Edward M. Baskin, one of the wealthiest farmers of the Ridge. They took the Yarmouth train on a short honeymoon trip to Boston and other New England cities. Mr. Baskin's son William was married to Miss Fannie Adams, a popular young lady of that place.

A social party arrived last night from Campbell with a lot of lobster bait, and several boxes of fish traps.

The exports from Bear River to American ports last week were valued at \$2,000, viz: 200 cords pulp wood, 181 cords hard wood, 19,300 feet piling, 11,928 feet lumber and plank. The shippers were Clarke Bros., A. Harris and J. D. Vroom.

Burton Foster of Clementsvale, working here in Goldsmith's mill, met with a painful accident this morning, losing two fingers by his right hand coming in contact with the saw.

The Prince Rupert had fifty passengers on board when she left for St. John. E. C. Bowers, ex-M. P., and Angus Gidney, M. P. P., are in town.

The Sun correspondent while in Weymouth Sunday noticed several defects in the appearance of the Bridge, which will greatly improve the general appearance of that locality. Henry E. Oakes, one of the sutifers by the late fire, has a handsome building to be erected on the site of the late residence of the late Mr. Oakes, and it is expected that the building will be completed. A large building to be occupied by Joseph Ethier, the tinsmith, for a store and residence is also nearing completion. That popular hostelry, the Grand Hotel, got a severe scorching by the recent fire, but the general proprietor lost no time in getting carpenters and painters to work, and to-day the house is in a better position than ever. The new residence of the late Mr. Oakes, and it is expected that the building will be completed. A large building to be occupied by Joseph Ethier, the tinsmith, for a store and residence is also nearing completion. That popular hostelry, the Grand Hotel, got a severe scorching by the recent fire, but the general proprietor lost no time in getting carpenters and painters to work, and to-day the house is in a better position than ever. The new residence of the late Mr. Oakes, and it is expected that the building will be completed. A large building to be occupied by Joseph Ethier, the tinsmith, for a store and residence is also nearing completion. MONCTON.

Rev. Father Meahan Given a Warm Welcome Home From His European Tour.

Addresses Presented to the Rev. Gentleman in Both English and French.

Moncton, June 15.—Rev. Father Meahan of St. Bernard's R. C. church, who has been on a European tour for the benefit of his health, returned home on Saturday and received a warm welcome from his parishioners yesterday.

The large church was packed to the doors last evening. At the close of the service the Te Deum was sung in thanksgiving for the pastor's safe return and addresses were presented in French and English. The English address, read by John Sutton on behalf of the parishioners, was as follows:

Moncton, N. B., June 14, '96. Rev. H. A. Meahan, pastor St. Bernard's Church, Moncton, N. B.: We thank you very much for your loving and faithful children have assembled today to welcome you back to your parish after an extended trip on the continent.

We thank Almighty God for his kindness in watching over you and sending you us with improved health. It was with mingled feelings of sorrow and gladness that we met our favorite one some weeks ago, sorrow because of the fact that you were leaving us, and glad because so many years and had by your kind and loving nature endeavored yourself to our hearts.

We also realized that in taking a journey such as the one which you had started, you exposed yourself to the risk of accidents by land and by sea, which are incident to all journeys, but this we had felt to believe, strengthened by our prayers, that the good God who holds the universe in the hollow of His hand, and who is ever mindful of even the smallest part of His creation, would not permit harm to befall his faithful servant.

Feelings of gladness took the place of our sorrow, however, because we hoped that the rest from parish labor and the change which your trip would afford you would all probably restore your failing health.

We were glad also because we know you had in contemplation a visit to the Grand City, with the hope of having audience with our city Father, and to be able to see him.

We rejoice in knowing that our hopes, and yours as well, have been realized, in part at least, and we pray that your health may continue to improve until fully restored.

The privilege of enjoying the presence of being present during the celebration of mass by the Holy Father was a precious one to us. How your heart must have burned within you as you assisted in offering up the holy sacrifices with him, and what a joy must have filled your mind as you beheld the illustrious Sovereign Pontiff who has by word and example done so much for the holy church, and for humanity as well.

If you had had some of the privileges which the Holy Father, we trust you did not fail to bear testimony to our love of him, and to our loyalty to our Holy Father.

While thanking our Heavenly Father for again permitting us to look into your kind and benevolent face, and also to grasp the hand that is ever ready to be extended in a good cause, we beg to assure you that during your absence our spiritual concerns have not been neglected. Father Leliane has not spared himself in any way, but has been constant in his ministrations both day and night.

We beg that you will accept the accompanying purse, the contents of which, we trust, will go far towards paying the expenses of your journey.

We do not ask you to accept the money as a favor from us, but as something which we do you, because we are forced to acknowledge that you have never been sufficiently remunerated for your labors in this city. Trusting that God may bless you and that you may impart to your strength both spiritual and physical, so that you may be able to do more for the interests of his kingdom than you have done in your most recent pastorate.

We beg to subscribe ourselves, dear father, your loyal and faithful children.

The French address, read by M. L. N. Bourque, was couched in similar terms. The purse, containing \$700, was presented by Simon Melanson. Father Meahan was very happy in his reply, expressing the pleasure he felt in being home again, and giving a brief description of his travels and his visit to the Holy Father.

Rev. E. H. Hooper preached to about 100 Protestants in St. George's church yesterday.

Rev. John Read, who goes to Centenary church, St. John, will preach his farewell sermon here on Sunday next.

YORK CIRCUIT COURT.

Chief Justice Tuck Presented With an Address by the Grand Jury.

Fredericton, June 18.—Nisi prius sittings of the York circuit court opened this morning. Chief Justice Tuck presided.

In the Gunter v. Randolph et al. an application to have the case postponed until the 25th was granted.

Boyd v. Urquhart and Gosman v. Urquhart were entered by Wm. Wilson and will be tried without a jury when the court again convenes. H. B. Rainford acted as clerk.

The grand jury presented his honor with the following address:

Hon. W. H. Tuck, Chief Justice Supreme Court of New Brunswick: May it please your honor—We, the grand inquest of the county of York, take this opportunity of congratulating your honor upon your elevation to the office of chief justice of the supreme court of this province. We trust that you may be spared many years to occupy this position, and we feel sure, considering your past career, that you will always fill this high position to the satisfaction of the people of this province.

While we regret the circumstances which have led to the retirement of your eminent predecessor, we cannot but congratulate ourselves that the office has been handed on to one so well qualified to fill it as yourself.

As C. FRED CHESTNUT, Foreman.

His honor replied as follows: Gentlemen of the Grand Jury: I thank you very sincerely for the hearty and graceful address with which you have presented me. Long ago it was my great fortune to reside in the county of York, and perhaps those years were the happiest of my life. The office of chief justice is one of which any man might be proud; an office which any man might be proud to perform, and I am glad to perform the duties according to the best of my ability. His honor then spoke in very feelingly of his predecessor, Sir

KING'S COLLEGE.

Miss Barker of St. John Among the Prize Winners.

The Centennial of the Birth of Judge Halliburton Honored—The Annual Concert.

Windsor, N. S., June 16.—The town is crowded today with visitors attending the closing exercises at Edgemoor, the old graduates arriving for the meeting of the Alumni association tomorrow and encoenia Thursday, in addition to those attending nomination proceedings this morning. The distribution of prizes was held in the new assembly hall, a valuable addition to the school.

Miss Barker of St. John, Mrs. Judge Theobald, Miss Florrie Schofield, Archdeacon Brigstocke, J. R. Campbell and H. E. Pickett. Interesting addresses were made by Dr. Hind, Dean Partridge, Rev. J. H. Hamilton, John Hamilton and Archdeacon Brigstocke. The prizes were distributed by the Bishop of Nova Scotia and Archdeacon Brigstocke. The school has been unusually successful this year and has a very large number of prize-winners.

Madeline Barker of St. John took prizes for knowledge of history of the Church of England; also German, and also on the motion of P. Barnhill, the bill was taken pro confesso for want of an appearance against defendant, Theobalds Hopper, and on proof of the public interest against the infant defendant. This case was heard by the foreclosed and sale of land in the parish of Elgin, Albert county, belonging to the wife and children of Stephen Hopper, deceased. The amount due was assessed at \$823 up to March 22 last, and the usual order was made with leave for all parties to bid.

The STEARNS BICYCLE. The Rev. Canon Walsh, who has just been appointed special agent for the following letter, which will be read with much interest by persons familiar with the requirements of the St. John's Bicycling Club.

Hotel De Paris, Monte Carlo, Saturday, May 23rd, 1896.

Dear Mr. Smith—it is not necessary to say to you so far have had a magnificent trip, the weather being perfect. We left Liverpool on Sunday, April 25th, crossing over to Birkenhead, starting out on our journey to Chester, via the Wirral, and to the north, which we did in 10 hours and ten minutes. Crossing over the ferry our yellow fellows attracted much attention, and brought us in down near Ushant with three hundred and fifty persons on board. Two men were picked up by fishermen, and it is feared that very many lives have been lost. The Drummond Castle was of about 2,250 tons register.

Officials of the Castle line of steamships have issued a statement saying that the Drummond Castle had been wrecked by striking on some rocks off Ushant, and not by being caught in a collision with an unknown steamer as at first reported from Ushant.

It is added that she must have slid over the rocks while in this fearfully damaged condition and have sunk at right angles in the deep water on the other side of them, all her watertight compartments having been torn open while passing over the ledge. This is the only explanation which can be furnished here of the almost unprecedented short time in which the steamship sank.

This also accounts for the few people saved, as the majority of those on board must have been asleep in their berths at the time the vessel struck. It is believed that the passenger list included a number of additional witnesses who have been called upon to testify at the approaching trial of Dr. Jameson and his filibustering companions in England, and also on board were a number of men, some of them having their families with them, who were connected with the recent events in the Transvaal and others were mining men of note.

As the day wore on hope of rescuing any great number of survivors of the Drummond Castle began to disappear, and when a despatch from Ushant was received, announcing that the steamship did not sink as the result of a collision with an unknown vessel, but through running on a sunken rock while hugging the French coast closely after heading towards the British channel from the Bay of Biscay. Ushant is an important light-house and signal station on a small island of that name off the coast of Brittany, and about twenty-six miles northwest of this port. Near it are a number of small islands. These islands are being searched for survivors, but there is not much hope of finding many, if any, of the passengers or crew alive.

Only two boats, it appears, were launched from the steamship owing to the rapidity with which she filled, and one of these is believed to have capsized.

According to seafaring men here the Drummond Castle, while going at full speed, must have struck on a ledge of rocks which extended seaward a short distance from Ushant, and the blow must have been severe enough to rip open the greater part of her bottom.

When a remedy is needed for rheumatism, it is very much needed—and quickly. William Pease, of Norwood, Ont., was nearly doubled up with rheumatism and suffered intensely. This was in 1893. He took three bottles of South American Rheumatic Cure, and now says: "I have had neither aches nor pains from rheumatism since that time."

When disease affects the digestive organs and general debility takes hold of the system, these cannot be removed unless the medicine taken gets at the root of the trouble. South American Nervine owes its success to the fact that it works directly on the nerve centers, and removes the trouble there it rids the system of disease. Banker John Boyer, of Kincardine, who suffered from indigestion for years, was permanently cured by the use of South American Nervine. He says: "I have no hesitation in proclaiming the virtues of this great remedy."

THE CYCLISTS' POINT OF VIEW. "Tole Bob, what is a pedestrian?" "Why, he is a fellow who makes a row when a bicycle runs over him."

WESTMORLAND CO.

Petticoat, June 11.—Miss Florence Jones, daughter of G. G. Jones, left here on Wednesday last on a visit to her aunt, Mrs. Sapprell, at Richmond, Ontario, where she intends to remain for a year or more. A large number of her friends bade her good by at the depot.

Rev. Mr. Brown, the Baptist clergyman of Campbellton, who has been confined to his house here on account of a severe cold, is able to be out again, and left here this morning for his new home.

A number of the I. C. R. men of Moncton have been here about a week repairing the freight house. The depot is also being repaired. New floors have been put in the sitting rooms and offices. The whole seems to have been repainted, papered and generally repaired. Every season Mr. Price, our station master, does something to enhance the beauty of the depot grounds. This spring he has fenced in and ploughed a vacant piece of land belonging to the railway, opposite the freight house. After he has sowed and leveled it, he planted a large number of young trees on it, so that in a few years he will have it as attractive as any of the other railway grounds here.

On Friday last George Magee had quite an encounter with an angry cow. It seems that he undertook to milk her, and she was attacked by a dog, which made her mad. She attacked Magee, threw him down, trampled upon and injured him, so that he was laid up till Wednesday last with a sore side and swollen leg.

In consequence of the late rains, Humphreys & Trites have started a crew of men driving logs for them in the North River.

THE CIRCUIT COURT.

The circuit court opened at 10 o'clock on the morning of the 16th inst. at the house, Judge Barker presiding in the absence of Judge Hanington. There was a fair attendance of both grand and petit jurors. The grand jurors elected by the court yesterday were: J. H. Hamilton, J. R. Campbell and H. E. Pickett. They were allowed to go. Judge Barker adjourned his court until 10 a. m. July 7.

The docket was made up as follows: BREWSTER'S Jury Cases.

McGuffan v. Fullman Car Co.—Quigley & Mullin. Starick v. P. R.—Hazen & Allen. McGuffan v. Fullman Car Co.—Weldon & McGuffan.

Troop v. Everett—C. A. Palmer. Sinclair v. Wallace—A. W. Macrae. Golden Rule Alliance v. Bank of N. B. A.—W. Pugsley. Bank v. Stewart—Weldon & McGuffan. Bank of Nova Scotia v. Fish—G. C. & C. J. O'Connell.

Burpee v. Johnson—A. L. Trueman. Sutherland-Johns Co. v. Fowler—G. C. & C. J. O'Connell. Merchants' Bank v. Callaghan—G. C. & C. J. O'Connell. Seligson v. Cobham—A. W. Macrae. Gibbon v. Quinn et al.—M. McDonald.

NEW DOCKET. Jury Cases.

McLeod v. Central Ins. Co.—A. F. Barnhill. DeForest v. Currie—G. C. & C. J. O'Connell. Robinson v. Shore Line Railway—C. N. Skinner. Hazen v. Clark—C. N. Skinner. Wason v. Western Ins. Co.—W. Pugsley.

Non-Jury Cases.

Henderson v. Ward—H. A. McKewen. Ward v. Henderson—C. A. Palmer. DeLois v. Epps et al.—H. F. Puddington. Babco v. Gen. Public Hospital—C. A. Palmer.

Daniel Mullin read the naturalization papers of Michael and Jas. E. Brown, and of McDonald—that of Donald A. McDonald.

C. P. R. EARNINGS.

Montreal, June 17.—The earnings of the Canadian Pacific railway for the week ending June 14 were \$73,000, as compared with \$53,000 for the corresponding period of last year; an increase of \$20,000.

TO COMPEL THE ADMINISTRATOR OF THE ESTATE OF MAURICE WALSH TO ACCOUNT FOR LEGACIES WHICH THE EXECUTOR NEVER PAID AS SHE ALLEGES. THE DEFENDANT CLAIMS THAT THE ESTATE WAS FULLY ADMINISTERED BY MARGARET WALSH, THE EXECUTRIX, AND MOREOVER THAT THE TESTATOR, MAURICE WALSH, OWED THE EXECUTRIX LARGE SUMS OF MONEY FOR ADVANCES DURING HIS LIFETIME AND ALSO THAT THE LEGACIES WERE PAID TO THE LEGATEES BY SUPPORT AND MAINTENANCE OF THE LEGATEES BY THE EXECUTRIX, MARGARET WALSH.

R. W. Hanington with C. A. Palmer, Q. C., appear for the plaintiff and D. Mullin for the defendant.

Auer Incandescent Light Manufacturing Co. v. Kitchen and Shea of Fredericton. An injunction was granted restraining the defendant from handling in any way the Drexel light, which is an infringement on the Auer light. The real defendants are the Drexel Medical company of Montreal, who are the aggressors, but the result of this suit will prevent any further infringing on the Auer light here.

The recent decision of Justice Wilts of the High Court of Justice, Queen's bench division, sustains the entire Auer patents completely prevented any kind of a defense being made in the above case.

In the case of Moore v. Hopper et al. on the motion of P. Barnhill, the bill was taken pro confesso for want of an appearance against defendant, Theobalds Hopper, and on proof of the public interest against the infant defendant. This case was heard by the foreclosed and sale of land in the parish of Elgin, Albert county, belonging to the wife and children of Stephen Hopper, deceased. The amount due was assessed at \$823 up to March 22 last, and the usual order was made with leave for all parties to bid.

THE STEARNS BICYCLE. The Rev. Canon Walsh, who has just been appointed special agent for the following letter, which will be read with much interest by persons familiar with the requirements of the St. John's Bicycling Club.

Hotel De Paris, Monte Carlo, Saturday, May 23rd, 1896.

Dear Mr. Smith—it is not necessary to say to you so far have had a magnificent trip, the weather being perfect. We left Liverpool on Sunday, April 25th, crossing over to Birkenhead, starting out on our journey to Chester, via the Wirral, and to the north, which we did in 10 hours and ten minutes. Crossing over the ferry our yellow fellows attracted much attention, and brought us in down near Ushant with three hundred and fifty persons on board. Two men were picked up by fishermen, and it is feared that very many lives have been lost. The Drummond Castle was of about 2,250 tons register.

THE CYCLISTS' POINT OF VIEW. "Tole Bob, what is a pedestrian?" "Why, he is a fellow who makes a row when a bicycle runs over him."

HARD AT WORK EVERY DAY!

Paine's Celery Compound Renewed His Life.

Farmer Smye says: "I Am a Living Witness."

Mr. George J. Smye, farmer of Sheffield, Ont., writes as follows:

"It is with great pleasure that I testify to the value of your great medicine, Paine's Celery Compound. For nearly two years I suffered from indigestion, kidney and liver troubles. After trying several medicines that did not effect a cure, I decided to try your Compound. Before using it I was so low in health that I could not eat or sleep. I could not lie in bed owing to pain in the back; it was only by resting on elbows and knees I was enabled to obtain a slight degree of ease. Before I had fully taken one bottle of your medicine I began to improve. I have now taken in all fourteen bottles with grand results. I am a farmer and am now working every day. Any one may refer to me in regard to these statements, or to any of my neighbors around Sheffield, where I am well known. I am a living witness to the worth of Paine's Celery Compound."

The proprietors of Paine's Celery Compound have on file thousands of such strong and convincing testimonials from the best people in Canada.

No other medicine in the world could have met the requirements of Mr. Smye. Paine's Celery Compound did. Sufferings which Mr. Smye endured are not conquered by the common sar-

aparillas, nervines and pills that are presented to the public for all the ills of life. Mr. Smye had made a trial of the majority of these advertised remedies before he heard of Paine's Celery Compound, and they failed to cure him. The moral taught by Mr. Smye's experience and the past testimony of thousands of other people is that kidney and liver troubles and indigestion can only be cured effectually by Paine's Celery Compound.

The great medicine, Paine's Celery Compound, is as far apart from the quack remedies advertised as black is from white. In the judgment of able physicians the great medicine is the triumph of the century. They prescribe it for their patients, and carry it home to their own families.

Paine's Celery Compound is an able medical scientist's prescription; it is a preparation that combines all the most approved ingredients that are so necessary for the making of pure and healthy blood and strong nerves. It keeps up perfect digestive action and vigor, thereby giving continued good health and strength of body.

If you are convinced that your condition of health demands the use of Paine's Celery Compound avoid substitutes and the "something just as good" that many dealers recommend for the sake of profit.

A STEAMER GOES DOWN

And Over Three Hundred Persons are Believed to Have Been Lost.

The Drummond Castle Lost With Many Wives in the Dr. Jameson Case.

London, June 17.—A despatch received here by Lloyd's of Ushant, near Brest, France, says that a steamship, supposed to be the Drummond Castle, British, of London, has gone down near Ushant with three hundred and fifty persons on board. Two men were picked up by fishermen, and it is feared that very many lives have been lost. The Drummond Castle was of about 2,250 tons register.

Officials of the Castle line of steamships have issued a statement saying that the Drummond Castle had been wrecked by striking on some rocks off Ushant, and not by being caught in a collision with an unknown steamer as at first reported from Ushant.

It is added that she must have slid over the rocks while in this fearfully damaged condition and have sunk at right angles in the deep water on the other side of them, all her watertight compartments having been torn open while passing over the ledge. This is the only explanation which can be furnished here of the almost unprecedented short time in which the steamship sank.

This also accounts for the few people saved, as the majority of those on board must have been asleep in their berths at the time the vessel struck. It is believed that the passenger list included a number of additional witnesses who have been called upon to testify at the approaching trial of Dr. Jameson and his filibustering companions in England, and also on board were a number of men, some of them having their families with them, who were connected with the recent events in the Transvaal and others were mining men of note.

As the day wore on hope of rescuing any great number of survivors of the Drummond Castle began to disappear, and when a despatch from Ushant was received, announcing that the steamship did not sink as the result of a collision with an unknown vessel, but through running on a sunken rock while hugging the French coast closely after heading towards the British channel from the Bay of Biscay. Ushant is an important light-house and signal station on a small island of that name off the coast of Brittany, and about twenty-six miles northwest of this port. Near it are a number of small islands. These islands are being searched for survivors, but there is not much hope of finding many, if any, of the passengers or crew alive.

Only two boats, it appears, were launched from the steamship owing to the rapidity with which she filled, and one of these is believed to have capsized.

According to seafaring men here the Drummond Castle, while going at full speed, must have struck on a ledge of rocks which extended seaward a short distance from Ushant, and the blow must have been severe enough to rip open the greater part of her bottom.

When a remedy is needed for rheumatism, it is very much needed—and quickly. William Pease, of Norwood, Ont., was nearly doubled up with rheumatism and suffered intensely. This was in 1893. He took three bottles of South American Rheumatic Cure, and now says: "I have had neither aches nor pains from rheumatism since that time."

When disease affects the digestive organs and general debility takes hold of the system, these cannot be removed unless the medicine taken gets at the root of the trouble. South American Nervine owes its success to the fact that it works directly on the nerve centers, and removes the trouble there it rids the system of disease. Banker John Boyer, of Kincardine, who suffered from indigestion for years, was permanently cured by the use of South American Nervine. He says: "I have no hesitation in proclaiming the virtues of this great remedy."

RECENT DEATHS.

News has been received here of the death on the 15th of Madame Letitia Doherty, a religious of the Sacred Heart. Madame Doherty was a native of St. John, a daughter of the late Wm. Doherty and sister of Wm. Doherty, S. J., now conducting a mission in Carleton. Death was due to pneumonia. Madame Doherty's funeral took place at St. John's on Saturday last and was attended by a large number of the faithful.

The death occurred on the 15th morning, after a brief illness, of Mrs. W. Jordan. The deceased lady was stricken with paralysis on Saturday last and sank rapidly, passing peacefully away about 7 a. m. Mrs. Jordan was a daughter of the late John Sandall, and sister of the chamberlain, and of Messrs. O'Neil and Sandall of the customs. She was about 59 years of age and had always enjoyed excellent health. Her husband, three daughters—Mrs. J. T. Purdon, Halifax; Mrs. H. G. Bodin of New York, and Miss K. Jordan of this city—and two sons survive her. The sad news was heard with regret by Mrs. Jordan's many friends. She was a most estimable woman and enjoyed the esteem of all who knew her.

LEVEE MEMORIAL HALL.

The laying of the corner stone of the Levee memorial hall will take place on Wednesday, July 8th, and will be attended with imposing ceremonies. A grand picnic and bazaar, lasting two days, will be held in connection with the corner stone laying, and excursions will be run from Quebec, St. John, Halifax, Charlottetown and all intermediate points. Preparations are being made for a concourse of four or five thousand people, and all those who attend are sure to receive every accommodation. Speeches will be delivered by distinguished orators, and an attractive programme of sports will be carried out in the afternoon. The evening will be celebrated by a magnificent display of fireworks. The C. M. E. A. branches in St. John have interested themselves in the project, and hope to obtain at least fifteen hundred excursionists from that city. Excursionists from St. John may return home on the evening of the 8th or 9th, as they choose.

THE LIBERALS WIN.

St. John Elects Ellis and Tucker by Good Majorities.

The Liberal Conservatives Win Charlotte and Carleton Counties.

The "People's Candidates", Messrs. Pugsley and McLaughlin, Lose Their Deposits.

Dickey Defeated in Cumberland and Three Ministers in Quebec.

(From Wednesday's Daily Sun.)

The election proceeded quietly all day in St. John. The liberals were very confident from the start. They declared that they had more money than in any election for many years, had the best organization they ever had, and were sure of victory. They knew the independents would cut down the conservative vote, and were confident their own party would not suffer from that cause. In this the figures show they were right. Messrs. Ellis and Tucker have great cause to thank the independents. The liberal conservatives flocked to the Mechanics Institute to learn the result of the battle. For some time it appeared that though Mr. Chesley was defeated there was no possibility of Mr. Hazen's election, but returns from the county showed that liberal "influence" and "independence" in the parishes had proved too strong. When it was apparent that the vote was lost in this constituency Mr. Hazen stepped to the front of the platform. The crowd greeted him with loud cheers.

Mr. Hazen said he wished to thank his friends for the splendid work they had done for him during the day. His defeat was not due to the work of the liberal party. Under the circumstances he had good reason to be satisfied with the result so far as the city vote was concerned. No man had a right to find fault if the electors did not accept him as their representative, but he had come out of the city with a majority, in the most trying contest a liberal conservative had ever faced here, and but for unfair canvasses and influences used against him he would have won. (Cheers.) Mr. W. Frank Hatheway and those associated with him must have great cause to rejoice in a result that lost their candidates their deposit. They must also be proud to have defeated a man who had done his utmost and freed his mind and influence, sacrificed domestic comfort and spent his own money in an endeavor to serve his constituents faithfully, and to have elected a man who had never displayed any interest in anything that was for the benefit of the constituency. (Cheers.) For the liberals he had no hard word. They worked hard for victory and he had no personal regret. There were men, however, who had great reason to be grateful to the government and to himself, who had acted in a traitorous and treacherous manner to elect Mr. Ellis. He would like to mention more about them, however, but would again thank his loyal friends for their support, believing that even those who had been misguided, now would again return to their allegiance to the old party, the old flag, and the old policy.

At the conclusion of his speech, Mr. Hazen was given three cheers and a tiger, the crowd rising to their feet and cheering again and again.

Mr. Chesley was greeted with great cheering as he stepped to the front. He thanked his friends for the loyal support they had given him. Defeat was due to the independent party, who drew votes from the conservatives for two men who had no chance of election from the start. In a fair fight between the old party, there would have been no doubt as to the result. (Cheers.) He could not congratulate the city on the election of Mr. Ellis. It was no honor to be represented by a man whose utterances had been so often disloyal, and who had done so much to discourage and dishearten the people. And in a square party fight Mr. Ellis would have been defeated. Mr. Chesley again expressed his thanks and was given three rousing cheers by the crowd. The meeting then dispersed and went to other places to learn the general result over the county.

At the Opera house last night the liberals assembled and received the returns. Great enthusiasm prevailed while the city returns came in, but in the closer fight in the county a spirit of doubt prevailed. The outside returns were also received with applause and silence according as they went. Speeches were made, praising the election by Messrs. Ellis and Tucker, Col. Donville, and prominent workers of the liberal party in this district.

The Sun as usual received its returns over a direct C. P. R. wire, the day, as in 1895, being manipulated by Mr. J. Morris. The C. P. R. wire was

all that could be desired, the returns being received promptly and in the best shape.

The following are the returns from the city and county:

TOUCHES THE SPOT. Woodhouse's Tonic Horse Powder. Always touches the spot of disease in poor horses. No matter how deep rooted it removes the cause of disease and gives renewed health, strength and life. You want this medicine because it is prepared by men who have made a special study of disease of the horse and the medicine that will cure such diseases, in fact you want the best and be sure you make your dose give to you, do not be put off with an inferior powder. Sold by Druggists and Merchants. J. W. MANCHESTER & CO. 25 COLBY, and SUMMIT, N. B.

the custom for this county to elect one Catholic and one Protestant. Today two Protestants have been elected, Borden and the latter's majority over Kelly being 348, while so far as heard from, Borden leads Russell by 193. Keefe is at the foot of the poll. A notice to the conservative party is in the paper in Annapolis by over thirty majority.

The government was given a majority in Prince Edward Island, where three conservatives are returned to two liberals. McDonald is elected in Kings, Hackett in West Prince, and Martin in East Queens. Yoe from East Prince and Davies from West Queens are the two liberals elected.

Ottawa, June 23.—The vote of race has predominated over creed in the province of Quebec, and thanks to his compatriots, W. Laurier will be the first premier of Canada of French origin. The province returned to him in his office in the state department, to which the Canadian Pacific had run a special wire. Your correspondent saw him shortly before midnight, when it was definitely known that the fate of the ministry was sealed. Sir Charles was as cheerful as of yore, but said he would prefer not to say anything for publication until all returns were in. It is expected that he will promptly tender his resignation to his Majesty. It is now morally certain that if parliament meets on July 10th, it can only be to adjourn immediately, as the new ministers could not be re-elected by that date. The stipidity of the liberals in not allowing the supplies to be voted last session is now manifest. On July first not a cent of money will be available for the public services of the country, and unless means are devised to overcome the difficulty great inconvenience will result.

Toronto, June 23.—Hugh John Macdonald has one hundred and thirty-five majority over Martin in Winnipeg. All the Ontario ministers have been re-elected.

THE GENERAL RESULT. Nova Scotia: 5 Conservatives, 5 Liberals, 111 Progressives. New Brunswick: 3 Conservatives, 2 Liberals, 111 Progressives. Ontario: 16 Conservatives, 16 Liberals, 16 Progressives. Manitoba: 4 Conservatives, 1 Liberal, 1 Progressives. British Columbia: 2 Conservatives, 1 Liberal, 1 Progressives. The Northwest: 2 Conservatives, 1 Liberal, 1 Progressives.

In addition to the above there are four M.C.O. members in parliament. Some places are yet to be heard from.

KOOTENAY, A SUBI URE. Her Cup Overflows with God's Mercy. Wonderful Story Told by a Truly Thankful Woman. No more remarkable proof of the great virtues of Ryckman's Kootenay Cure could be imagined than one which has just been furnished in Hamilton. Miss Ferguson, who resides in rear of No. 88 James street, South, the first door south of James street Baptist church, after an illness of over twenty years, has been cured of complications of paralysis, which followed a stroke of paralysis. Her letter, which follows, is worth careful consideration:

Hamilton, October 31, 1895. S. S. Ryckman, Esq., Proprietor Ryckman's Kootenay Cure. Dear Sir—Having been an invalid for many years, and having given up all hope of ever being anything else, I feel that it is my duty, as well as my great privilege, to let the public know that I have been made an entirely new woman solely by the use of your Kootenay remedy. At the age of five years I was smitten with paralysis, which affected the whole of my right side, and for more than twenty years my life has been one long affliction. The pains in my head have been very severe, and I have been subject to dizziness and fainting spells which came upon me so suddenly that I might be pretty well one moment and apparently at death's door the next. So bad were these pains that I feared I would lose my reason. At almost all times I had excruciating internal pains; in fact my whole system was full of pains. Sometimes for days I could not retain one morsel of the food eaten, and at last grew so bad that I felt my time on earth must be very short. A few months ago I began taking Ryckman's Cure, and now I am better than I have ever been in all my life; so much better that I thank the Lord every day on my knees for the good your medicine has done me. I feel that Ryckman's Cure means in God's hands of bringing about the great change. It came to me in God's appointed time, and I cannot thank Him and you too much for the deliverance. My family physician had doctored me for many long years, giving only temporary relief, and I have consulted, I am sure, at least a dozen other doctors, who thought me hopeless, but I feel that Ryckman's Cure will cause the most contented Ever since confederation it has been

to make me comfortable for the time being. It is so different now that I have been given new life by your medicine. My cup is running over with God's mercy. The warmth of life I can feel coming into my arm, which so long has been cold as if dead. All the pains have left my head, my back and my body. I have no more dizziness or fainting. The indignation which troubled me is gone, and I can now eat and enjoy my food, and I have gained in strength and weight. Your medicine has done for me what other human agencies failed to do. With the best of wishes for you and the success of your medicine, I remain, most thankfully yours, (Signed) ANNIE FERGUSON.

BRITISH LUMBER MARKET. (Times News, June 13.) Liverpool—There appears to have been a lifting off in the demand since Walsenburg, and the volume of trade done is not near so large as we would expect for the time of the year. Spruce is the only wood for which there is much inquiry, and anything offered at a reasonable rate is soon snapped up. Prices are exceedingly firm, and if any change occurs during the next two or three months it will probably be in the direction of an advance.

Manchester—Business at the docks has this week been brisk. The arrivals are now following each other in rapid succession, and a good deal of business is being done with a swing. Between 30 and 40 vessels are at present reported as being on passage or about to start. It will probably be in the direction of an advance.

Quebec—Business at the docks has this week been brisk. The arrivals are now following each other in rapid succession, and a good deal of business is being done with a swing. Between 30 and 40 vessels are at present reported as being on passage or about to start. It will probably be in the direction of an advance.

METHODIST CONFERENCE

The Final Draft of the Station Sheet.

Presenting the Claims of the Wesleyan and Halifax Book Room.

Report of the Stationary Fund Committee and an interesting Address by Rev. Mr. Goldsmith, Secretary of the Committee.

Conference met Friday morning at nine o'clock.

In the children's fund assessment rebates of \$20 each were made to the Courtenay bay and city mission circuit...

It was run on the one dollar basis.

The account showed a deficit of almost \$150, but its circulation had increased somewhat. The present circulation was 3,750...

Rev. Geo. J. Bond, editor of the Wesleyan...

He did not believe in running a namby-pamby sheet, and had not, therefore, tried to please everybody.

Rev. W. W. Brewer was added to the contingent committee.

Following special committee was appointed to enquire into the decline of missionary income during the year.

Under suspension of the rules, a portion of the report of the superannuation fund committee...

St. John \$316 16, Fredericton 167 65, Woodstock 100 15, Miramichi 100 15, etc.

Ministers' subscriptions paid at district.

Total \$377 80. Rev. E. Evans read the report of the superannuation committee...

total increase of \$301.73. By districts the receipts were.

St. John, \$421.73; Fredericton, \$236; Woodstock, \$123; Miramichi, \$146; etc.

The increases were: St. John, \$61; Miramichi, \$42; etc.

The decreases were: Fredericton, \$9; Woodstock, \$5; St. Stephen, \$12; etc.

The Ladies' Sustainment Aid society of St. John contributed \$15 to the fund...

The total net amount available for distribution was \$2,200, the largest contribution ever made to the fund.

combined, and if the plan is carried out, it will be a good advertisement for the Yarmouth line.

Yarmouth on Tuesday night. The committee on church property was presented at the morning session and final consideration continued in the afternoon.

The committee recommended that the trustees of the Middle Simonds church site, on the Florence circuit, be granted permission to sell the same to the best advantage and apply the proceeds to church purposes not foreign to the trust; that the request of the chairman of the Fredericton district to give the trustees of St. Paul's church property permission to dispose of a portion of the same and apply the proceeds to the purchase of a more eligible and suitable site be granted; and that the trustees of Dorchester church site, on the Andover mission, have permission to dispose of the same and apply the proceeds towards building a new church, and in final consideration continued in the afternoon.

The trustees remit the whole amount of the legacy. The recommendations were all concurred in by the conference.

A consecration service, conducted by the Rev. W. W. Brewer, was held in the Sunday school room of the church in the evening.

In memory of the Rev. John M. Simonds, a public figure, who was celebrated at Montreal, N. B. on May 20, 1896.

Dear Brother Prince, for fifty years your faithful servant has been serving in His glory there.

And amidst faith's blissful scene, Like Enoch, walking with thy God, A man of prayer, of faith and love, Who lived in the world, but was not of it, And emulating saints above.

Blot with a zeal which ever glowed, With holy love—a pure flame— Great was the power through Jesus' name.

The word of Christ by thee proclaimed, Rich with the Holy Spirit's dower, Was blent to those with whom he named, And realized its saving power.

Great were the numbers who believed In Christ their Lord, and sought His face; His word the glory that was theirs, Blent with a multitude of grace.

Among the number one I knew, Robt in the grace of Jesus given, Who kept the word of truth, and loved, 'Till earthly scenes were changed for heaven.

That sainted spirit passed on high, For ever numbered with the blest, Has found his home beyond the sky, Has found in Christ eternal rest.

My Jesus blest thy jubilee, Of memory shall with Him be sweet, Proofs of His love thou still shalt see, Until thy earthly course is run.

Like John, here leaning on His breast, Commune shall with Him be sweet, A "prince in Israel," thou art blest, Made for thy Saviour's service meet.

Thy God will bless each passing scene, Of duty, toil, and duty's love, To dim thy path or damp thy love.

May 30th, 1896.

BOSTON LETTER.

Fred G. J. Knowlton of St. John Speaks at a Family Reunion.

No Great Change Reported in the Lumber Market, but an Improvement Looked For Soon—The Mackerel and Lobster Trade.

(From Our Own Correspondent.) Boston, June 20.—Triune Assembly, Sons & Daughters of the Maritime Provinces, has decided to charge an admission to all those who attend association hall next Tuesday night to hear the election returns from Canada. The proceeds will be devoted to the Joseph Howe memorial fund.

The Knowlton family, which numbers thousands in this country and Canada, held a reunion here Thursday. The official Knowltons landed in Nova Scotia in 1632. Frederick G. J. Knowlton of St. John, who at the banquet responded to the toast, "Our Canadian Cousins," was elected one of the vice presidents of the family association.

Harry Berry, a New Brunswicker, has been missing from Yarmouth for some time. He was a plumber and served in the Riel rebellion, was a comrade in arms of Prince Napoleon, who was killed in Zululand, and had quite a military reputation. He left a wife and three children behind him.

Rev. Frank Lawrence Vernon of St. John and Miss Esther Alice Eaton were united in marriage at Lynn, Wednesday evening.

It is announced here that Henry M. Whitney, president of the Dominion Coal Co., will start a new daily paper here in the interest of Nova Scotia coal and cheaper gas and fuel.

A big excursion of newspaper men and women will leave here Monday, June 24th, for a tour of Nova Scotia and New Brunswick. The affair will be conducted by the New England and Massachusetts Press associations combined, and if the profession counts for anything, those provinces may be sure of a good advertising. The party will number about 125, and will leave by the Yarmouth line. They will reach Yarmouth on Tuesday, and proceed to St. John via the Digby and Bay of Fundy Steamship Co., arriving there that evening. After a thorough inspection of St. John, the members will go up the river to Fredericton. They will return next day and will spend half a day in St. John, leaving for home by the International line.

Mrs. Robert Backley, daughter of Daniel Desmond of St. John, died in this city a few days ago.

The committee in charge of next week's Sunday school convention expect a large delegation from the provinces as well as a small army from other parts of Canada. About forty delegates and as many more of their friends are expected from the maritime provinces.

Nova Scotians on Gloucester fishing vessels have been particularly untucky during the past few weeks, as many as nine or ten men having been lost. The Massachusetts Agricultural college at Amherst is feeling the effects of the hard times. The number of students enrolled this year is much smaller than at any time during the last few years.

F. H. Nippot and E. C. Miller of St. John were in town this week; likewise half a dozen newly married couples from the provinces.

There is no great change in the lumber trade this week, although it is generally conceded that market will improve after this month. Reports say that the British and French markets are in better shape now than the American. A lively fall trade is expected in provincial cargo lumber later in the season, owing to the expected re-impediment of the duties next summer. Spruce clapboards are in good demand at present, and are the feature. Quotations of the most active classes will be: Spruce frames by car, \$14 to 14.50; spruce lumber, \$12 to 12.50; extra spruce clapboards, \$24 clear, \$23; second clear, \$22 to 23; shingles, \$1.50; extra cedar shingles, \$2.75 to 2.85; second clear, \$1.75 to 1.85; hemlock, \$1.50 to 1.60; planed one side, \$1.00.

The mackerel importations are still the feature of the fish market. Dealers are inclined to lower prices gradually owing to prospects of a big season's catch. The sardine trade is still improving and lobsters are in strong demand and scarce. Prices are: P. E. I. mackerel, No. 1, \$20 to 22 per barrel; No. 2, \$16 to 17; N. S. sardines, \$2.50; live lobsters, 10c; boiled, 12c; canned do, \$2.25 up; native sardines, quarter fish, \$2.70 to 2.75; three-quarter mackerel, \$2.30 to 2.40; fresh mackerel, 10 to 12c per lb.

The State of Trade. New York, June 19.—R. G. Dun & Co.'s weekly review of trade: There are continued signs that a gain in business has begun. Stocks have gone higher than they were before the artificial break ten days ago; wheat and cotton are in better demand; there is more confidence in monetary circles, and the tendency towards shrinkage in large industries seems in some measure, at least, to be checked. Including spring wheat, the best authorities consider the outlook very promising. The advance in cotton, also, has no visible cause in crop prospects or movement, though receipts at ports have been light.

The boot and shoe trade holds its place as the most prosperous of the great industries, but reports some gain both in orders and in prices. Most works have orders for some weeks ahead, and a considerable proportion, especially in women's light and men's cheap goods, are receiving orders exceeding current production. Hides are in better demand at Chicago, and have risen to the average. Shipments of boots and shoes from the east for the month are about five per cent smaller than last year in a number of cases, and as much larger than in 1894, but purchases are mainly of low priced kinds. Textile manufacturers do not gain and the assignment of a large world-wide trade is thought due to special causes rather than to the general influences which curtail or temporarily

STOP PRODUCTION OF MANY OTHERS.

There is rather more hopefulness, which is felt in arrest of the decline in wool; prices averaged no lower than June 1, and sales do not decrease, being 3,094,000 pounds for the week, and for three weeks \$3,175,000, of which 2,527,700 were domestic, against 13,516,065 last year, of which \$3,843,365 were domestic. The only change in cottons is a reduction in bleached shirtings in standards to the lowest price ever reached.

The failures for the week have been 276 in the United States, against 220 last year and 23 in Canada, against 31 last year.

THE LATE REV. DR. MCKENZIE.

Some Particulars of His Early Religious Life in Nova Scotia. (Special Correspondence of The Sun.) I have just read from your notice of the death of Dr. McKenzie, that noble, devoted servant of Christ, and send you some additional incidents in his life that may help to give his many friends among your readers a clearer idea of the man.

When a youth, Rev. John Chase was assisting in special meetings with the Baptist church at Liverpool, N. S. He was one of the young men who were in the habit of dropping into the meetings a little late, more for amusement than anything else. One evening as young McKenzie entered the door Mr. Chase was repeating his text, Eccl. 11:3: "Rejoice, O young man, in thy youth; and let thy heart cheer thee in the days of thy youth, and walk in the ways of thine heart, and in the light of thine eyes; but know thou, that for all these things God will bring thee into judgment." It went to his heart. He did not think of it being a text, but though the preacher had paused to make that remark to him, it led to his regeneration and a desire for an education to enable him to tell others of this great salvation. He tied up his clothes in a little bundle, put up a lunch and started through the woods for Acadia college.

Among his other pastors was Providence, R. I., where his health failed him and he tendered his resignation, but the church declined to accept it and in lieu offered leave of absence and money sufficient to meet the expense of a trip abroad. He declined to accept this and stated that his purpose was to return to his native land and its invigorating, health-giving climate; take a mission for a year in one of the country stations and rough it, which he did. Soon after he entered his work Zelma street church was pastorless and gave him a call. He accepted on condition that they would allow him to finish his mission, which they did. While engaged in this pastorate he received a call to visit one of the leading Baptist churches in New England, with a view to a call, but his reply was: "I am engaged in a great work and cannot come down; I could give you money but know your space is fully occupied."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

A DAY OF DAYS.

Within the calendar of life of every human heart, there glides a day with beauty, that stands alone, apart from other times and tides. The rose-crowned day, With Memory it ever abides, A rose-crowned, perfect day, No matter if fast fades the gold of other morn to gray, And aged hands may not have roiled The stone of grief away— Bright shining through the fog of regret, Through cloud and air, Love's golden sun has never set Upon that day.

—Clarence E. Urmey. SOME GOOD 'UNS. A Budget of Lately Reported Wit From Harper's Round Table.

Pat was an Irishman, and he was trying to fix a bicycle. "The pecky wheel," as he put it, wouldn't stay straight, but wriggled this way and that, every now and then landing him in a heap on the road. A number of people suddenly saw the fun. At last, however, he got started fairly well, and was moving along smoothly, when the wheel gave a lurch, and in attempting to recover himself he made a desperate lunge, and over he went, hitting the curb stone in his downfall. A policeman ran up, and after straightening him out, demanded that he get them volunteers "by force, sir."

There had been a lack of men joining the ranks, and the colonel was visiting a recruiting station, inspecting the workings of his recruiting sergeant, and the door burst open, showing a red-faced, perspiring little sergeant pushing, hauling and tugging at a big country lad. The latter was doing his best to escape the firm grip of the soldier.

"Halt!" cried the colonel. "How is this, sir?" he said to the sergeant. "Is this the way you secure recruits by force, sir?" The red-faced sergeant looked up and down, then at the colonel, and blurted out: "Sure, sir, the only way to get them volunteers is by force, sir."

It was a battered war-scarred veteran that ambled into the office one day last week, and slowly approaching the clerk of the office, asked a quivering voice, where he could get a pension.

"In what company did you serve?" "Company G, of the Sixth Volunteer Infantry."

"Ever injured in battle?" The veteran drew himself up to his full height, which was distressingly little, and exclaimed, in as loud a voice as he could muster: "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

"Dear me!" said the clerk, smiling. "You're a wonderful veteran. Where do you lie, and how do you manage to keep alive your many pieces?" "Yes, sir; I was hit by a shell in the battle of Bull Run, and knocked all to pieces."

AN OLD GEOGRAPHY—1716.

It Shows Above All the Changes of the Anglo-Saxon and the English Colonies. The book says: "In the English colonies no tax can be imposed without the consent of the assembly, which which it would have been given by George III. remembered, that the chief prevailed in Pennsylvania, that country being situated under a more liberal constitution than that of the other colonies. The book says: 'The colonies were not habitable were that distinctive bird less rare.' As for Jamaica, which was then, perhaps, our wealthiest colony, the recent terrible earthquake of 1692 is ascribed 'rather to natural causes, on account of the abominations of the inhabitants calling for judgment from heaven.' The colonies are solemnly warned to care for the despised souls of their negro slaves, and not to believe and be frightened by the tales of their baptism of slaves means giving them freedom. We are assured, on the authority of eyewitnesses, 'that the crocodile of Hayti, before lying in wait to catch prey, swallows several hundredweight of pebbles, by which additional weight he can the sooner dive with his victim.' The geographer appends a very clear table of the great central empires of 1716, namely, the Spanish, English, French, Dutch and Portuguese. It is impossible to glance at this old book without being struck by the striking coincidences of the revolutions which have taken place in the last two centuries through scientific progress, geographical discovery and political changes. In 1716 Sweden, Holland and Turkey were still regarded as mighty factors in European wars and complications; the Great Mogul was still considered one of the most powerful monarchs of the world; and the empire of the King of Spain might still be described as one on which the sun never set. Australia, New Zealand and almost the whole interior of Africa and the continent of the gigantic republic of America undreamed of by the most ardent imagination. But the most striking fact of all is, whether under the union jack or the stars and stripes, the stupendous march of the Anglo-Saxon race.—Chambers' Journal.

Here Are Your Gem and Flower. January—The garnet and emerald, symbolic of constancy, true friendship, fidelity and purity. February—The amethyst and prunella; sincerity, freedom from care and strife. March—The bloodstone and violet; strength, wisdom, bravery and love. April—The diamond and daisy; innocence, purity and peace. May—The emerald and hawthorn; immortality and a happy domestic life. June—The agate and honeysuckle; health, wealth, a long and happy life. July—The ruby and water lily; charity, dignity and faith in love. August—The sardonyx, poppy, conjugal love and good fortune. September—Sapphire and morning glory; equality and peace of mind; protection against envy and treachery. October—The opal and hops; hope, purity and courage. November—The topaz and chrysanthemum; fidelity in friendship and love. December—Turquoise and ivy; prosperity, success, fortune and fame.

WEEKLY SUN \$1.00 a year.

THIRTY THOUSAND DOLLARS IN CLOTHING.

A GIGANTIC SALE.

MARVELOUSLY LOW PRICES.

\$30,000 WORTH OF STRICTLY HIGH GRADE MEN'S AND YOUTHS' CLOTHING

WILL BE SOLD AT LESS THAN

50 CENTS ON THE DOLLAR.

This enormous stock is the over-production of E. A. SMALL & CO., the largest wholesale manufacturers of Ready-made Clothing in Canada, and will be retailed by us at less than the cost of production. Now is your chance to select from a stock of over 4,000 men's and boys suits.

MEN'S SUITS:

\$3 is the price of fine Blue Serge Suits, well made and trimmed throughout, never were sold less than \$5.

\$4 Single and double breasted, all-wool, fine brown pin check Tweed Suits. The wholesale price of these suits was \$5.50; our sale price is \$4.

\$4.50 Heavy black Serge Suits, in single and double breasted. Regular retail price was \$7; our sale price is \$4.50.

\$5 for plain, light grey, all-wool Business or Office Suits, all single breasted sack suits, extra value.

\$5.50 is the sale price of all-wool, brown check, Canadian Tweed Suits. You will marvel at this low price when you see these suits, \$5.50.

Over two hundred all-wool Tweed Suits, in greys, slate, brown and blue; a great variety. The price should be \$10, but they must go at \$6.

\$7 We have put in this lot over five hundred suits in all kinds of light and dark tweed, some single-breasted, some double breasted, but the price is the same—\$7.

\$8 These suits are sure to sell quickly. They are single and double breasted, all-wool tweeds and chevits. A great assortment. Full range of sizes. \$8.

\$10 It will make you smile when you see this great load of over 1,000 in one lot at \$10.

Business men, professional men, sporting men, you all want to see them. Fine West of England tweeds and chevits, never before sold in this or any other city less than \$15 to \$17 a suit. Our price is \$10.

\$10 Another lot of over two hundred suits of fine Black Worsted and Clay Diagonal; regular \$14 and \$15 suits. Sacks or cutaways for dress or Sunday. Sale price, \$10.

50 Men's Bicycle Suits, in plaids, mixtures and plain greys; will sell at \$6.50 \$7 and \$7.50.

150 Men's navy blue serge, unlined office coats, some \$7.75, some \$2.

YOUTHS' SUITS:

Youths' single and double breasted suits, light grey and fawn twill and pin check tweed and blue serge suits, all wool. Regular \$5 suits; the sale price is \$3.

\$3.50 is the reduced price of seventy-five suits, assorted tweeds, in plain and fine mixtures, p'oids and greys. Suits of certain \$6 value are now \$3.50.

All-wool dark grey and brown, small check tweed suits, all one pattern. Regular \$7 suits; sale price \$4.

\$4.50 buys your choice of an assorted lot of all-wool Tweed Suits, greys, browns and plaids. Regular price \$8; our sale price is \$4.50.

One hundred and twenty-five single and double breasted suits, in brown, plaids and fine hair-line stripes. Regular \$8.50 suits; your choice for \$5.

One special lot of very fine Summer Suits, dark brown, light grey and fawn, only fifty suits. Regular price \$9, sale price but \$5.50.

\$5.50 is the price of another lot of seventy-five suits, single and double breasted, medium brown and small fine check. Regular price was \$9; sale price \$5.50.

\$6 will give you a choice of one hundred single breasted suits, in blue, grey, medium brown plaids and dark grey plaids. These suits could not be sold for less than \$10 in the regular way. They are sure to go quickly at \$6.

All-wool, light fawn and grey check Scotch Tweed Suits, very fine goods, well worth \$12. We will sell them at \$6.50.

\$7.50 All-wool black or blue cheviot and all-wool Scotch tweeds, in small checks and pretty mixtures. Regular price \$14 a suit; sale price \$7 and \$7.50.

BOYS' THREE-PIECE SUITS:

\$3 will give you a choice from a lot of about 50 suits, assorted single or double breasted, pretty patterns in tweeds, pin checks and chevits.

\$3.75 Very natty suits that cannot be equalled either for style, wear, work or material at less than \$5, are here for \$3.75.

\$4 You will wonder how it is possible to sell such good suits at this price. Both single and double breasted suits in this lot; assortment of colors, in neat patterns of tweeds.

\$5 for all-wool tweed, cheviot or serge suits, single or double breasted. Every suit is worth \$8, but they will go at \$5.

CHILDREN'S SUITS:

\$1.50 Two hundred and fifty children's suits will be placed on our counters—grey, brown and light tweeds and blue serges, sizes 3 to 10 years; regular prices \$2.50 and \$3; your choice for \$1.50.

\$2 You will find a choice lot of 300 suits on first table down stairs for children 3 to 10 years, in fine black worsteds, blue twills, all-wool tweeds and chevits, regular \$3 to \$4 suits, will be sold at \$2.

\$2.25 We can't help it, but they must be sold at this low price. We have about 400 suits, nicely pleated, grey, fawn and brown twill tweed, sizes 3 to 10 years, only \$2.25.

\$3 One lot of about 200 suits. Some of the best suits we have are in this lot, former prices as high as 5, your choice \$3—sizes 3 to 10 years.

Boys' odd pants, in all shades of tweeds and serges—200 pairs in this lot. Price 50c. a pair; other lots at 65c., 75c. and 90c. sizes 3 to 15 years.

MEN'S PANTS:

95c. per pair is the price of one hundred pairs of grey and brown stripe working pants, always considered very cheap at \$1.50.

\$1.25 will buy a pair of all-wool grey Oxford pants, never sold for less than \$2, now only \$1.25.

\$1.50 is the price for a pair of heavy grey and brown stripe, all-wool Canadian tweed pants. Pants like these have been sold here for \$2.25. We are able to offer 75 pairs at \$1.50 per pair.

Several hundred pairs of all-wool pants—and when we say all-wool there's not a cotton fibre in the cloth—which were sold by us of late at \$3, at \$2.50.

\$2.50 for your choice of one hundred pairs of grey and black stripe pants, extra value at \$4, but only \$2.50.

\$3 We have over 300 pairs of fine pants, very neat and dressy, suitable for business or professional men, go well with a back coat and vest; price \$6.

BOYS AND MEN'S FURNISHINGS.

17c for Boy's and Men's flannel shirts. We have but 75 dozen and cannot get anymore after this lot is gone, first day will probably clear them out.

30c is the price for Boy's and Men's striped heavy twill flannel shirts, only 50 dozen to sell.

75 Dozen Men's all wool twill plain and twill flannel shirts, price, \$1.25 a pair, sold only in pairs.

75c a lot of 100 dozen men's navy blue, grey and grey and plaid all wool flannel shirts usually sold at \$1.00 to \$1.50 our price for Saturday, only is 75 cents.

Clark and Hodley V. Edgecombe's dry sail for England in about on business and pleasure.

Mr. Gregory, of Stanley, has property and residence in... Mr. McGill, Dr. Tupper has...

Douglas, whose serious illness mentioned yesterday, died at his home in Stanley...

Mr. Gregory, of Stanley, has property and residence in... Mr. McGill, Dr. Tupper has...

The price of wool declined 47.8 per cent in five years, what was never so low for centuries.

The cotton factories show a reduction of one-third in their output, and yet the accumulation of stocks is a burden to the manufacturer and a menace to the world.

In the iron trade the output declined about 1,600,000 tons per annum, and yet the stocks in sight accumulated and are still accumulating.

The above does not include the enormous losses by damage to property by fire and by military service entailed by the huge strikes, notably the Chicago strike.

Monday, besides the regular amusements of the day, arrangements will be made for teachers to pass the time profitably.

WARNING TO WORKMEN.

Effect of the Advent of Revenue Tariff Party Into Power.

How the People Suffered in the United States at the Time.

Idleness, Reduced Wages, Half-Time Employment and Men Paid in L. O. U.'s.

(Special to The Sun.)

New York, June 20.—It may interest newspaper readers in Canada at this time to get an idea of the magnitude of the crash in the United States which began on the advent to power of the revenue tariff party.

The number of men withdrawn from useful labor in defence of the union was scarcely at the most in excess of one million at any time, while the number of those thrown out of employment and ultimately more or less on the support of the nation is now placed at the same figure.

For weeks at a time the country was, as regards currency, placed in a worse position than the confederate states.

The manufacturers paid their workmen with L. O. U.'s, which were received by traders at an enormous discount.

The less to the working men of the country, caused by idleness, reduced wages, and half time employment, to say nothing of the discounts on such payments, is placed at quite \$700,000,000, or twice as much as was expended to keep the northern army in the field.

The decreased revenues of the nation, the increase of \$262,000,000 in the interest bearing debt, would bring the total up to nearly the cost of the war.

The injury to homes and private interests has been more in the commercial war than in the rebellion.

There were few deaths, but, on the other hand, while in actual warfare it is only the homes in the immediate track of the armies that suffer in this revenue tariff attack on the country.

There was not a home on the Atlantic to the Pacific, nor from the Gulf of Mexico to the great lakes, that was not riddled.

The failures in 1892 were \$114,044,000, in 1893 they were \$346,779,000, in 1894, \$172,992,000, and in 1895, \$173,196,000, total excess over the average of 1892 amounting to \$337,000,000 for the three years.

The producers, whether farmers or manufacturers, who are situated in his circumstances that his commodities had to be thrown on the market, reducing the price the world over.

ANOTHER GREAT TRIUMPH.

THE BOWMANVILLE NEWS INTER-VIEWS MR. JOHN HAWKINS.

And is Given Particulars of a Nine Year's Suffering from Asthma, From Which He Has Been Restored to Health When His Case Was Looked Upon as Hopeless.

(From the News, Bowmanville.)

During the past five years the Dr. Williams' Pink Pills have developed into a household word, and from several cases that have come under our personal observation there is not the least doubt in our minds but that they are a boon to mankind, and in scores of instances have saved life, when everything else had failed.

Mr. Sharp, whose case we published some time ago, was one of the most remarkable that we have heard of. Today he is as well as ever he was in his life, and is daily knocking about in all weathers attending to his farm duties.

THE ADVANCE OF MEDICAL SCIENCE.

Dr. Agnew's Successful Experiments in Heart Disease and Catarrhal Trouble.

The world has been of the opinion that where medical science can master such dread diseases as diphtheria and hydrophobia, the heart is not affected there is no hope for the patient save such as may come from easing his condition.

Dr. Agnew has proven once again the truth of the national motto, "The possibilities of science in its treatment of disease—even heart disease."

In what is known as Dr. Agnew's Cure for the Heart is found a remedy that has practically given back life to those who were supposed to be beyond hope of recovery from heart trouble.

One of the virtues of this medicine is its instantaneous effect upon the patient. It will not be worth anything otherwise for with heart disease prompt action is an absolute necessity.

Mr. Aaron Nichols, of Peterboro, Ont., writes this of Dr. Agnew's Cure for the Heart: "My wife was troubled for two years with heart disease. From the first few doses of Dr. Agnew's Cure for the Heart she obtained relief, and continuing it she has had more benefit from it than from all the doctors she ever did."

With everyone a catarrh is a most unpleasant trouble, and this is especially the case with those whose duties bring them before the public as speakers or lecturers. Among the strongest evidence produced, telling of the peculiarly successful character of Dr. Agnew's Catarrhal Powder is that which has come from prominent clergymen.

The court of I. O. F. at Cole's Island intend holding an excursion to Fredericton by steamer Star on Tuesday, 30th. The Star will leave her wharf, Indianopolis on her regular run on Monday, taking up the Temple of Honor band, which is to accompany the excursion.

The causes of death reported at the board of health office for the week ending June 20 were: Croup; 1; paralysis; 1; pneumonia; 1; cancer of liver; 1; septicaemia; 1; tubercular meningitis; 1; inflammation of brain; 1; cerebral hemorrhage and erysipelas; 1; total, 11.

Sir Leonard Tilley came in from Rothney Thursday afternoon on the fast express and had to be carried from the train to his coach, being unable to use his right foot, which he injured some little time ago.

The funeral of the late Mrs. W. W. Jordan took place Thursday afternoon from her residence, Paradise row, and many friends of the deceased lady and of her family attended. There were abundant evidences of sympathy in the form of floral tributes sent by relatives and personal friends.

PERSIA'S NEW SHAH.

PERSONALITY OF THE NOTABLE ORIENTAL SOON TO BE CROWNED.

Popular in the Province He Has Ruled Since Boyhood, Great Things are Predicted for Him in His Wider Sphere—A Notable Monarch.

Mozaffer-ed-Din-Shah, Persia's new ruler, in 46 years of age, born at Teheran, he was sent in his tenth year to Tauris in charge of the Sardar Aziz Khan, who was then Governor-General of the Province of Azerbaidjan, which is an appanage of the royal princes of Persia.

At attaining his majority Prince Mozaffer himself became Governor of his province, and by his many good qualities, and especially by his strong sense of justice, he soon became very popular, not only among his own subjects, but also throughout the entire country.

Mozaffer enjoys good health, and is very fond of bodily exercise. Like his father, he is a great hunter, and spends much of his time killing the tigers, panthers, leopards and bears which abound in the mountains of Tauris.

Though a true Oriental, Mozaffer has much of the western spirit of curiosity, and though his father would never allow him to visit Europe, he has taken pains to make himself thoroughly acquainted with the leading factors of European civilization.

He is a good French scholar, an expert photographer, and a lover of modern music. At heart, however, he is a true namad, and likes nothing better than to spend whole days in the open country, lying in his tent or galloping after wild game.

A firm believer in the faith of his fathers is Mozaffer. Some claim that he is more of a recluse than a statesman or ruler. He is certainly devout, and from the Persian point of view he has a respectable life.

He has only one wife, who is also his cousin, and there are not many women in his harem. He has had several children by his wife, but only two daughters are living.

By his consorts he has three sons, who are now respectively 20, 14 and 9 years of age. By the advice of Mr. Bernay, who was for a long time Persian Consul at Paris, and who enjoyed Mozaffer's confidence, the education of these young princes has been entrusted to a French teacher, and as a result, they speak French very well and have acquired other European accomplishments.

A French governess has also been placed in charge of Mozaffer's young daughters. The new Shah's appearance is striking. He dresses, as a rule, very plainly, and wears no insignia of rank. He is well built, his features are regular, his eyes are large and more brown than black, and his eyebrows are heavy and his mouth is mobile and half concealed by a long black mustache.

His face generally wears a kindly expression and always impresses one with its calmness and imperturbability. That Mozaffer's succession will be disputed is by no means improbable.

True, the new Shah is very popular, and the only one of his fathers who could make any headway against him is universally hated. The eldest brother, Lelle Sultan, Governor of Isfahan, is at a great distance from the capital and is not considered a dangerous rival.

Quite different is the case with the other brother, Nalb-el-Saitaneh, who is a quantity of jewels, which are also hidden in a secret room in the palace. Among them are diamonds, rubies, emeralds, pearls and other precious stones, the most splendid of all being a magnificent diamond, which is known as the "sea of light."

But the chief gem of this royal treasure is a large terrestrial globe of massive gold. From the North to the South Pole this globe is studded with jewels, and the Persian letters forming the names of the capital cities are also mounted in brilliant, India is represented by splendid amethysts, Africa is composed of rubies, England is fashioned of diamonds of the finest water, and the oceans are made of emeralds.

Besides this, there is a portable marble throne, which is surrounded by a great golden sun and is copiously studded with diamonds. Beneath this sun's rays stand stately birds, whose plumage glitters with precious stones. The covering and the cushions on this throne are beautifully embroidered and fringed with large, fine pearls.

THE BIBLE BY HEART.

A Preacher Who Can Recite Every Line of It Except the Psalms.

The Rev. William Cullen Hicks is conducting a series of religious services in Columbia, the capital of Adair County, Kentucky, and is creating something of a sensation in church circles, not only on account of his phenomenal familiarity with the Scriptures, but also because of his unique and singularly forcible style of preaching.

Mr. Hicks is only 28 years of age, having been born on December 22, 1867, but he has had a varied experience for one of his years. He was born in the hills of Pulaski County, Ky., of humble parents, both of whom received only meagre educational advantages.

Hicks has always been of a religious turn of mind, and while attending a protracted meeting of "Rock Lick—Missionary Baptist Church" in the backwoods of Pulaski County, years ago, he became "converted" and connected himself with that congregation. He then commenced the close and intense study of the Bible, which has resulted in his extraordinary acquisitions in that particular.

Mr. Hicks claims, and can satisfy anyone of the truth of the allegations, that he can repeat absolutely every chapter of the New Testament and all of the Old Testament with the exception of the first chapter and go through with every one of the books, in correct consecutive order, or can commence at the last chapter and repeat them backward without missing a single sentence, skipping the Psalms, or he can commence in the middle of the book and go either way. He is willing at all times to give exhibitions of his capabilities in this line, and has been put to test so often that he has about satisfied even the most incredulous about Columbia and throughout Adair County. Ask him to recite any chapter, simply giving him the book and the number of the chapter, and he goes to work upon it at once, without halting or hesitating, and completes it, word for word. His performance is amazing.

Below is a reproduction of the hickory tree at Amber, Pa., which was last week perished by a rafter from Mr. Knight's house, driven by the terrific force of the tornado which scattered that gentleman's dwelling to the four winds.
