

There was only a piece of brown paper between them, it was true, but upon that piece of paper the Bible was printed. The members of the Orange Society had never changed their opinion. About five years ago a proposition came from a college in Oxford to work the Fathers, and though good were to come out of it. "Our Father, we beseech thee to the throne of God and his justice, to the throne of thyself, God, and God, left them. The Orangeman declared that the Bible was his only rule of faith, and therefore he had not changed. There was a divine power in it which dictated the course he had to take, and he could not see how the King could have it if not that the creature had gone away? How was it that the creature had gone away?

for God had given them up to an undiscerning mind. The Orange Society had been called a persecuting society, whereupon they had said, "A man is a fool. How was it with us?" A man had better go as a scripture reader amongst the savages than amongst Irish Romanists. An assurance like this would not take the risk of saving a life. What he wanted was to bring the people into the fold of the Reformation. He did not want spiritual truth (he said), but the aggressors, they must put religion aside. The Orangemen had been put down by force, but they were not extinguished, and would rise again.

He said, "I am not a member of the church, and he could not understand common sense, and who could have done it?" But he did not desire this. "Catholics." These poor people had souls, and their day was to pray for them and attempt to teach them. They imagined they were right in their principles. But it was the duty of Protestants to try to bring them to a right understanding. The Rev. Mr. Peel, who was to lead them, would join the Orange Society. He alluded to the 6th article of the Church of England, and from it showed that the Bible was not good and ultimate appeal; and this was the same ground as taken by the Orange Society. After exploring those present to come to a decision, the Rev. gentleman sat down silent.

The Rev. George Reid then addressed the meeting in a well argued speech, in which he alluded to the case of the Rev. John Collins, called a "pervert" by a recent speaker. His argument was—He believed he was—He looked about to see if anyone else was in dispute. The speaker then related an interview he had with this same reverend person who wished to get employment as a curate, which was declined, and the next day he saw him walking with a priest, who also refused him a post, which a Jesuit had fraudulently tried the same plan in an inland town.

Mr. William Clark was then called upon by the chairman, and made a suitable speech.

The meeting was continued until eleven o'clock, and concluded with singing the national anthem.

House of Commons.—Monday, June 16,

MAYNOOTH COLLEGE.

The next vote proposed was for a sum of £1,239, to defray the expenses of maintaining several public buildings in the department of the Commissioners of Public Works in Ireland; also, the expenses of inland navigation, and other services under the direction of the commissioners, from April 1, 1851, to March 31, 1852.

Mr. Sironson said that he should move that this note should be reduced by a sum of £1,236 10s., which it was proposed to appropriate to St. Patrick's College at Maynooth. He objected to this grant both on principle and upon pecuniary considerations. He contended that we, as a Protestant nation, had no right to grant money to support a religion, not merely dissenting from the established religion, but in open hostility to it. Never, too, was that hostility more clearly and decidedly shown than within the last few months, and he thought, therefore, that the country would be very much disappointed if this grant was continued, notwithstanding the hostile proceedings which that church had openly taken against the Protestant established church and aagainst the Protestant Dissenters of the country (hear, hear). When Sir R. Peel asked for the sum of £20,000 in 1845, for the erection of buildings, he was, at the same time proposed that the annual grant for Maynooth should be chargeable upon the consolidated fund, but if the proposal were now brought under the consideration of the house, such a grant would not be agreed to (hear, hear).

Majority for ministers 2

The result of the division was hailed with loud cheers from the opposition.

The vote was then agreed to.

WANTED.—Some Popish Miracles.—The want of some image to wink, or pointing to the above, in these countries has been long felt by Cardinal Wiseman & Company.

At the first step to some such wonder, the editor of the *Rapport*, Mr. Capes, gave one of a series of lectures on Romish miracles, in Rossman Street Chapel, London. From a published sketch we learn that "A curtain was hung up before the sanctuary. The Blessed Sacrament was removed, and the chapel being un consecrated) the audience were unable to mark their apprehension of the points of the lecture with signs of approbation and applause; they did with a lively hope for its consummation. That such a desire is practicable, admits of no dispute; that it is also practicable is equally apparent, and that shortly will be, if it is not already entertained by the Atlantic steamers already in port. Now that her fair share of the expense, or at all events, more especially the two under consideration, has been paid off, that the Faculty Bill has passed, and all that need go to England, we may suppose that the priests will be enabled without any difficulty to get a sum of £100 to £150, to make up the requisite amount.

The above with the large Stock on hand, will be sold cheap.

J. & A. MARSH,
Corner of South's Arcade, Prince William Street.
July 4.

CAUTION.
THE great popularity of the C. G. M. P. O. N. D. BONES & CANDY has obtained since its introduction to the Public about two years ago, has induced several persons (three of whom are known to the Proprietors) to issue a Candy made to look like and called by the same name as the true article, but in quality and composition different from the bona fide product.

The Subscribers would caution the public against such fraud as no person makes, or can make, the genuine except them, and further, the composition which they give the Confectioners to form into Candy is so prepared as to defy any attempt of chemical analysis.

The original will be accompanied by a circular with the signature of the Proprietors, FELLOWS & CO., without which none can be genuine.

November 8.

NEW GOODS.
