As a matter of fact "there is absolutely no expression in the constitutions or statutes given by the Holy See to the University of Ottawa which could give the idea that His Holiness wished to make of it an English university. It is always called only a Catholie university. It is nowhere said. either in the Brief or in the constitutions, that the language of instruction shall be one rather than the other. The Holy See was pleased to give constitutions suited to the faculties of philosophy, theology and canon law, but it left to the university authorities the regulation of the details of the courses of studies to be followed both in the classical and the commercial courses."

Here then is the truth: His Holiness, Pope Leo XIII, raised Ottawa College to the dignity of a Catholic University; this university was erected for the ecclesiastical province of Ottawa.
