Red Cross Catechism

Question I. What is the Red Cross Society?

Answer: It is an International Society which helps the Medical Departments of each Army and Navy to look after the sick and wounded and prisoners of war.

Question II. How does the Red Cross Society help the sick and wounded men?

Answer: By providing the Army Medical Department with additional hospital stores of all kinds, from ambulances to drugs and bandages; by sending out extra nurses, orderlies and volunteer assistants; by equipping, wholly or in part, hospitals, hospital ships and trains.

Question III. Why does not the Government do all this work?

Answer: Because, in common with all other nations, the Empire recognizes the value of voluntary effort for the care of the wounded as permitted by the International Convention of Geneva 1864.

Red Cross work thus relieves the taxes, and allows people to give instead of only paying; and provides a properly organized channel for personal service to the suffering men.

Question IV. Why should I give my money to the Red Cross Society?

Answer: Because, if I stay at home, I can help the men who fight, through this Society, when they need help most.

Question V. What will happen if everybody in Canada subscribes generously to the Red Cross?

Answer: Unnecessary suffering will be saved by a sufficient supply of all hospital stores and drugs; men will be returned to the ranks, instead of being invalided and others who might never have seen home again will be returned to the arms of their families.

FARMERS LEAVE OTTAWA DIS- APPOINTED—BUT WILL "DO THEIR BIT" ON THEIR FARMS

Ottawa, May 15—Having been informed by Hon. A. L. Sifton, Minister of Customs, at the House of Commons, tonight, that the government had said its final word on the question of conscription of farmer's sons, and that it did not desire to hear them further, the two thousand odd delegates returned to the Arena skating rink where they were addressed by Mr. Arthur Hawke of Toronto. Afterwards they adopted a resolution which was presented to the House, if they had been given the opportunity to the effect that they disapproved of government by Order-In-Council and were strong for the more democratic form. While a few of the farmers expressed disapproval of the reply given them by Sir Robert Borden, the majority took the turn-down in good spirit, a number of them expressing the view that it was up to them to go home and "do their bit" by producing the maximum crops their farms should yield.

ANOTHER NOVA SCOTIAN PRESIDENT OF A COLLEGE.

Brunswick, Maine, May 15— Kenneth C. M. Sills was elected President of Bowdoin College at a meeting of the Board of trustees and overseers last night. He has been acting president since the death nearly a year ago of Mr. William Dewitt Hyde. President Sills was born in Halifax, N. S. in 1879.

WANTED TOTAL PROHIBITION DURING THE WAR.

Washington, May 15—Complete prohibition of the manufacture and sale of alcoholic beverages during the war was asked of President Wilson at Congress yesterday in a memorial signed by the national service and war commissions of twenty Protestant denominations and six inter-denominational agencies.

GERMANS AWAY GERMAN HOPES TO NEWSPAPER.

Copenhagen, May 15—The Germans are still of the belief that they will be able to reach the English Channel coast and bombard southern England and that then it will be easy to begin peace negotiations, according to an interview the Politician has had with a prominent German politician a member of the Reichstag, who requested that his name be not used. He added that the German offensive thus far had proved a failure owing to losses and the German command was waiting to obtain more artillery. Germany had lost in killed, wounded and made prisoners three million men, added.

GERMAN POWER IN SOUTH RUSSIA ALARMS PETROGRAD AND MOSCOW.

Moscow, May 15—(Delayed)—Thru the capture of Rostov on the Don the Germans have gained control of the Caucasus grain districts in the Don basin and the coal, iron, and oil fields. Northern Russia is now cut off from the Caucasus, excepting for a single railroad running thru Tzaritsin, in the southern part of the government of Saratov, which the Germans are now threatening. Coupled with the fall of Sebastopol, and the overthrow of the Ukraine Rada and the establishment in Ukraine of a Bourgeois government wholly under German domination, the capture of Rostov had created great uneasiness in Moscow and Petrograd.

GERMAN CAVALRY RELEASED FROM ROUMANIA NOW IN THE WEST.

London, May 15—Reports from Liege say that one cavalry Division from Rumania has past the Liege westward and more troops from Rumania are expected on the Belgian front. Orders have been given for other traffic on the railways to stop in order to allow these troops to pass. It is impossible probable that the cavalry referred to by the correspondent belong to the German Forces, which were operating in Rumania and have been released from that front thru the signing of the peace treaty between Rumania and the Central Powers.

GREAT INCREASE IN ARTILLERY WORK TODAY.

London, May 15—The German artillery fire increase this morning near Morlandcourt south of Albert, and in Flanders north of Kemmel the war office reports.

OBITUARY.

Mrs. R. Morland—Niece of Late A. C. McElhinney, Glenholme.

The death of Mrs. R. Morland took place at the home of her sister, East Toronto, on May 5. Mrs. Moreland, formerly Miss May Wilks, was the niece of the late A. C. McElhinney, Glenholme, where she lived for a number of years; then Mr. Wilks and family moved to Cold Brook, N. B.

After her marriage to Mr. Morland of St. John, they settled on his ranch near Settler, Ala., but in a few years failing health compelled her to seek the medical advice of specialists; but medical skill proved of no avail.

Besides a sorrowing husband she leaves to mourn her father, Mr. James Wilks, now in Toronto; one sister, Mrs. A. L. Barrie, (Maud) of East Toronto; three brothers, John, in Toronto, Truman, of Settler, Alta., and Harry in the Royal Aviation Corps.

WHY THE HUN TORPEDOES NEUTRAL VESSELS.

Under the commercial agreement between the United States and Spain, not only will General Pershing get the supplies from Spain which he desires for his troops, but a French credit in Spain in arranged and the Spanish government permits free exports to the allies of pyrites, minerals and manufactured wool.

Many of these products are carried in Spanish bottoms, and this is the reason we are constantly reading of Spanish vessels torpedoed by Hun submarines.

CANADA FOOD BOARD EDUCATIONAL DIVISION.

With the aid of vegetables it is quite possible to have an entire dinner in one dish—a dinner that is wholesome, nutritious and very palatable. How many people are familiar with, fish chowder? Here is the recipe; it is enough for a family of five;

1-2 pounds fish use moderate-price varieties such as cod, haddock or flat-fish

9 potatoes, peeled and cut in small pieces.

1 onion, sliced.

2 cups carrots cut in pieces.

3 cups milk.

Pepper.

1 tablespoon fat.

1-2 tablespoons cornstarch.

Cook vegetables until tender. Add fat-mix cornstarch with one-half cup of the cold milk and stir in the liquid in the pot to thicken. Add the rest of the milk and the fish which has been removed from the bone and cut in small pieces. Cook until the fish is tender, about 10 minutes. Serve hot.

GRAVE OUTLOOK FOR UNIVERSITY OF NEW BRUNSWICK.
Owing to conditions arising out of the war it is expected that the number of young men who will enter the above college next fall will be away below the average, and that the institution on the hill will have to look to the young ladies of the province to keep the freshman class at anything up to the average number, which is somewhere between thirty-five and forty students. It is also said that the call to the colors is bound to make inroads on the engineering and forestry classs, and making allowance for those who are of military age, that these classes may be reduced to one graduate each when the convocaion of 1919 comes around. It may also be necessary, according to the same authority, to reduce the members of the faculty and to amalgamate the work done by one or two of the professors.—Fredericton Gleaner.

THE ENGLISH.
An American engineer, Franklyn C. Murdock, who reached New York, a few days ago after thirteen months in Holland, where he had opportunity to discuss the war with many representatives of all the warring nations, is convinced that Germany is most anxious for peace, but he sees little prospect of an early peace. His impression of Germany is that of a people "being slowly beaten, dissatisfied, sick at heart of war." He speaks of them as "discontented, restless; sometimes openly clamorous" but the military party still hold the upper hand. A hoe propaganda to keep the people pacified is succeeding so well that Mr. Murdock entertains no hopes of a revolution during the war. Mr. Murdock paid the English this fine compliment: I have talked with every one I could get to talk to me, but I tell you, he added with a laugh, you have to be mighty close to an Englishman to get much ideal of what he is doing. The English are a people that do a lot of work and mighty little talking about it—I've found that out in this last year. They are better fighters than I ever dreamed. I went over to Europe filled up with these tales about the English putting the Canadians and Australians in the front ranks and the hard spots and taking things easy themselves—well, I found out how utterly untrue that was. And I found out, too, that it's always the other fellow that the Englishman praises; he is always giving credit to some one else. Why, even in their own papers the details are always about how well the French fought, or the Canadians, or the Australians. Some of the best fighting of this war has been done by the English and covered up in dry official reports. You've got to be right over there on the spot to know about it?

Alex McQueen, 19 years of age, was wks kild at the Steel Plant in Sydney a few days ago. In trying to secure a belt in the nail mill, he was caught and had both arms and legs severed from his body.

LIEUT. JAMES A. MEISSNER, BORN AT LONDONDERRY, DOWNS A HUN AIRPLANE, IN LOFTY FIGHT.

Crashes With Enemy As He Pours In Fire—German Machine Falls In Flames.
(From Cable to New York Herald)

With the American Army in France, Thursday.
The brilliant manoeuvring of a Brooklyn Flatbush youth, Lieutenant James A. Meissner, brought him victory over a German swift Albatross aeroplane over the Hun line edge of the American sector Meissner is a graduate of Cornell, 1918 class. He is the most modest of all the flyers and almost skilful. He was complimented on his cleverness by such veterans as Lufbery.

French and American soldiers who saw the daring attack and his wonderful escape from a situation which would have tried the mettle and skill of the oldest aviator cheered him and later gave him a warm reception.

The Meissner boy caught the Hun at a trick the Boche had been using to play on the sportsmanship of Americans and the French. When pursued they explode a smoke bomb, which is entirely new, then flutter down, expecting the foe to start home, when they make a quick attack on the sympathetic aviator.

Meissner was ready for this. The Boche fired a smoke bomb and fluttered down, a thousand feet, giving the impressions that his machines was wrecked and crashing earthward, but the young Cornell man swooped after, firing 200 shots as he went. The Hun righted in a slant and attacked. The airplanes were so close that their wings crashed together. Meissner never stopped during the firing, but kept at it till he saw the Boche machine break in flames and genuinely start earthward.

The plunge was complete and the wreck fell just inside the German line. By skilful work Meissner guided his machine with one wing almost gone, to his own lines. I saw him half an hour later and found the blushing boy proud of his achievement.

"The Hun was tricky. That's all. The American has it on him. There are plenty of boys in Flatbush who could lick him on the ground with fists or bayonets."

A veteran flier, listening, said: "Your's a great kid," then turning to the others, the veteran said as the Flatbush youth blushed: "He's a great kid, boys. 'Call him the rat', because he's a sticker, twenty-one and afraid of nothing that ever flew."

"GOOD FOR THE BOY" SAYS MR. MEISSNER.

"Good for the boy," said Charles A. Meissner, father of First Lieutenant James A. Meissner, mentioned in cable despatches as having brought down another German airplane. The father was seen at his home, No. 46 Lenox road, Flatbush, last night and was keen to learn all the details of the boy's work.

Young Meissner was attending Cornell University, but had another year to go before graduation when he with nine others volunteered and were picked for aviation duty overseas. He left this country in July last and went into training in France. He received his commission as First Lieutenant in January last.

The father is in business at No. 71 Broadway, Manhattan.

Editorial Note of Truro News.

The New York Herald has a picture of Lieut. Meissner and also of a younger brother, Pte. Harold Meissner, now driving an ambulance in France. These brave lads are sons of Mr. and Mrs. Charles A. Meissner, so well known in Truro, Londonderry, Sydney, Halifax, and other parts of Nova Scotia. This young hero of the air was born in this county of Colchester, when his father was Manager of the Iron Works at Londonderry. Mr. Meissner was afterwards connected with the Dominion Iron and Steel Works in Sydney. He was born in Germany, but he is one of well-informed wide-awake natives of the Fatherland opposed to military autocracy and has, ever since the war began, been an active supporter of the fight for Human Liberty and a World's Democracy, we congratulate the family on the great honor the soldier boy has gained and Lieut. "Jimmy" on his heroic and brilliant work in the air against the Hun.

CHARLIE CHAPLAIN'S DOG, MUTT HAS DIED OF HEART BREAK AT LOS ANGELES.

Los Angeles, May 6—Charlie Chaplin's dog, Mutt, died here from an ailment diagnosed by the doctors as a broken heart. His master is absent on a tour of the country to aid in the Liberty Loan Drive.

Mutt, is the famous dog who made millions laugh when he appeared with the screen comedian in "A Dog's Life."

BRITISH PRESS ON—THE PREMIER'S GREAT VICTORY.

London, May 10—The action of the House of Commons, in turning down the Asquith motion by a large majority generally accords with the view of various newspapers expressed previously to the Premier's statement in the House. The staunch supporters of Premier Lloyd George accept his statement without question and regard it as a complete refutation of the charges made by Major General Maurice.

These papers, which urged an inquiry treat the speech as having a restricted value and as being an ex-parte statement, tho they admit it was a good effort.

Among the former papers is the Daily Mail which says that not a rag of General Maurice's pretentious indictment is left and asks who again will ever pay the least attention to anything he says. It declares that former Premier Asquith was out-generalled and out-fought.

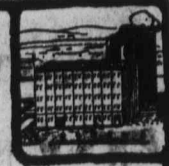

The premier's answer, says the Daily Telegraph, was complete and overwhelming and showed that General Maurice had not a shadow of justification for any of his charges.

The Daily Chronicle, voicing the second view, says the issues were left in the same mischievous obscurity as before the Premier spoke; because of the uncertainty in the mind of the public it declares that the Premier's statement does not remove the serious disquiet from the mind of the army.

The Daily News refers to the Premier's withdrawal of the plan of a judicial inquiry as political juggling and says he burked the inquiry, into charges affecting British honor and the honor of parliament. The Daily News adds—"Major General Maurice's charges remain unaffected by this melodrama and the public is left to laugh or weep, according to its humor at the latest achievement of political wizardry."

Premier Lloyd George, says the Morning Post sought to substantiate one series of one sided and unsupported statements by another series.

"Because the House of Commons chose to be satisfied with Mr. Lloyd George's statement" it adds, "it does not follow that the people of outside the House will be equally pliable. In this matter, as in other, the Commons has ceased to represent the nation. The government survives another emergency, but under existing conditions it must recur and each successive crisis, leaves it weaker and more discredited."

A BLUENOSE AT ZEEBRUGGE BATTLE.

A graduate of the University of New Brunswick, James McDonald Gilchrist, B. A., Class of 1905 is one of the heroes to have taken part in the naval engagement at Zeebrugge. Mr. Gilchrist, who is a member of the Engineers Society at Montreal, entered the navy at the opening of war, and is now Sub-Lieutenant. He is a native of the city of Fredericton.

The Times, apparently, converted from some of its previously expressed views by the Premier's speech, drops its contention in favor of an inquiry. It refers to the Premier's "Staggering and Startling revelations", with reference to the statements of Major General Maurice "whose whole case" it says, "goes by default". It adds that it is charitable to assume that General Maurice was made the instrument of more able and less honorable men, and thinks it hardly surprising that the house of Commons should have refused so decisively to hear any more of him.

FRUIT BY THE POUND.

At a meeting of the Grocers' Section of the St. John branch of the Retail Merchants' Association, held on Tuesday evening, a resolution was passed in favor of adopting the selling of bananas and other fruit by the pound, and a further resolution was passed that this way of selling bananas, etc., be recommended to all fellow-grocers. A further resolution was passed in favor of the adoption of standard sized packages for vegetables.

PATRIOTIC PRIEST URGES HIS FLOCK TO ENLIST.

Montreal, P.Q. May 3—On Sunday Rev. Father Comtois, P.P., of Terrebonne, speaking of the military situation, said, "My brethren, we are at war. England and France are fighting side by side while duty commands us to come to their support. At the last election conscription was established as a result of the verdict at the polls, and, tho, the law is hard, it is the law of the land, and must be obeyed. The authority dictated to us by the Government comes from God and we must bow to its decrees. To-day we have agents of the federal police in our midst, and you must receive them well when they visit your houses. Use moderation, as they are doing their duty. There must be no anger in your dealings with them, and thus do honor to your parish."

A MESSAGE FOR YOU

The need of the country to save wheat at the present time is so urgent that His Honour the Lieutenant Governor of Nova Scotia has requested the clergy of the Province to preach a sermon especially devoted to wheat conservation, on (May 19th), Sunday next.

Will you be sure to be on hand to hear what your clergyman says.

Health for all the Family

MODERN, artificial methods of life make it absolutely necessary to use medicines occasionally to ensure the regular and healthful action of the liver, kidneys and bowels.

In the great majority of homes Dr. Chase's Kidney-Liver Pills are recognized as the most satisfactory regulating medicine for all the members of the family.

This medicine is not in any sense a cure-all, but its use occasionally, as required, ensures the activity of the liver, kidneys and bowels, the cleansing of the system, and the purifying of the blood.

For this reason you can depend on Dr. Chase's Kidney-Liver Pills to prevent and cure constipation, torpid liver, indigestion, kidney derangements and resulting painful ailments, such as backache, rheumatism and lumbago.

Dr. Chase's Kidney-Liver Pills are so universally used that you can obtain them at any store where medicines are sold.

MISS MARY COOPER TATAMAGOUCHE, COL. CO., PAST AWAY, APRIL 28.

There took place at Tatamagouche, Col. Co., April 28, the death of Miss Mary Cooper, at the advanced age of 72 years.

The deceased had been in poor health for some years and during the two weeks previous to her passing away her strength failed rapidly until the end came.

Miss Cooper was the daughter of the late Robert Cooper, Tatamagouche Col. Co. She is survived by two brothers, Mr. Robert Cooper, Springhill, Cumb., Co., and Mr. George Cooper in the Western States; also by two sisters, Mrs. A. V. Cameron, Springhill, Cumb. Co., and Mrs. Clifford Drysdale, Wallace Station, Cumb. Co.

Mr. Herbert Drysdale of Tatamagouche, Col. Co., is a nephew and with whom Miss Cooper made her home.

The funeral services were held April 30th, at two o'clock from the home residence.

Interment was at the Sunny Brae Cemetery, Pictou Co.

Rev. William Forbes officiated.

Mr. Herbert Drysdale is grateful to friends and neighbors for their sympathy and assistance rendered during the illness of his beloved aunt.

SERVES THREE YEARS AT FRONT.

Archibald Munro, a Former North Sydney Man back from war.

North Sydney, May 6—Among the visitors in town last week was Private Archibald Munro, a former North Sydney man who's on his way to his home in British Columbia after having served three years at the front in France.

Private Munro enlisted with a British Columbia cavalry unit shortly after the war broke out in 1914 and went overseas in 1915. He was three times wounded and was only recently released from an English hospital, where he had been under treatment for gas poisoning and a broken leg. Private Munro is an old time North Sydney printer. While in town he was the guest of his sister Mrs. R. P. Scott, Pleasant Street, where many of his old friends called to see him. He left this morning for his home in the west and will spend a day in Truro with his niece Miss Katie Scott, who is a student at the Provincial Normal College there.

MAKE THE HUN PAY ONE LITTLE ACCOUNT OF \$16,393,872.00.

In 1870 Germany defeated France and collected a war indemnity of \$1,000,000,000. This sum, with interest thereon, should be included in the indemnities, which the Huns will be asked to pay at the close of the present war.

This one billion dollars at 6 per cent for 48 years will amount to \$16,393,872.00 every cent of which the Hun should be forced to pay to the French nation.

FIGHT THE LAST DITCH THE BEST.

Chicago, Evening Post.—Trust the batteline of England the Indomitable! Of all the peoples of history, none more than the English have shown the strength that comes in the fight with back to the wall. The last ditch is where England fights best, and there she will fight best to-day if forced to it the most tremendous military pressure the world has ever known. Thank God our boys are fighting at her side, even if it be but a few of them! May they carry to her the assurance of our faith and glory in her. May they sweep aside the ancient prejudices that have made us grudge England her fair meed of trust and honor.

HAD A VERY BAD COLD and COUGH

DR. WOOD'S NORWAY PINE SYRUP CURED HER.

Mrs. C. Dresser, Bayfield, Ont., writes:—"I want to tell you of the benefit I got from your medicine."

Last winter I had a very bad cold and cough, but after taking two bottles of Dr. Wood's Norway Pine Syrup I was cured. I think it is about one of the best cough syrups that I know of. I always keep a bottle of it in the house so I can have it when I want it.

The other week I told an old lady about "Dr. Wood's." She had been sick for three weeks with bronchitis, and had been getting medicine from the doctor, but did not seem to be getting much better. She got one bottle of Dr. Wood's Norway Pine Syrup, and she says it has done her more good than all the doctor's medicine she had been taking."

Dr. Wood's Norway Pine Syrup is rich in the lung healing virtues of the Norway pine tree, and this makes it the best remedy for coughs and colds.

The genuine is put up in a yellow wrapper; 3 pine trees the trade mark; price 25c, and 50c; manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Would you like to "see" your house in its new coat of paint, before you paint it? You can. The Brandram-Henderson "Color Scheme Adviser" enables you to try out different color combinations before deciding on the color scheme most pleasing to your eye.

This unique device consists of a transparent outline of a house, behind which you place color cards of every known shade—one color for the walls and another color for the roof. With the transparent sheet, there comes a set of 40 cards each of a different color. First you try a white card on the walls, in combination with a green card for the roof. Then you try a brown card behind the wall section of the transparency, along with a red card for the roof. And so on, until you have exhausted the possibilities of every known color combination.

We have one of these "Color Scheme Advisers" and will be pleased to let you experiment with it before you select your

OLD TIME BRITISH PLUCK AT OSTEND—A DARE-DEVIL EXPLOIT SUCCESSFUL.

London, May 11—The old cruiser Vindictive went to her last berth 150 to 200 yards within the Piers, forming the entrance to harbor of Ostend, one of the German submarines bases on the Belgian coast, under a terrific fire from the German naval guns and machine guns on the shore.

Preparatory to the raid into Ostend the naval air force bombarded the town and dropt bombs continuously on the harbor works, causing fires.

For the second time in a month a smoke screen was used successfully. About two o'clock in the morning a large force of destroyers and coastal motor boats steamed up toward the shore, the motor boats going along side it.

NOVA SCOTIA MINING SOCIETY

The Mining Society of Nova Scotia in Sydney was well attended and some of the most learned mining experts in the Province took part in the discussion of many subjects.

Mr. D. H. McDougall, general manager of the Dominion Steel and Coal Company, President of the Society, gave a five address on the coal question and its place in the prosecution of the war, and on the local labor problem.

L. R. Hayes of the Dominion Geological Survey gave a most practical speech on war minerals. He illustrated his talk with mineral specimens, that he had brought with him from Ottawa.

Dr. Hayes will have many of these specimens in Sydney for the local Society.

He spoke of talc, which has lately been found at Whycocomagh and Garbarus.

This is used medicinally as well as for war materials and has gone away up in price since the outbreak of the war. Graphite is another which has been found in small quantities near Benacadie Pond.

Magnesite was recently discovered at Orangedale. The man who made the discovery wrote to the department that he had discovered a lead mine and asked that a man be sent down to investigate it.
