Nomination Day

Forty Candidates Nominated in Nova Scotia

Tuesday was Nomination Day throughout Canada and over 600 candidates were nominated for the 235 seats in the House of Commons, which is ample evidence that in every province there will be arduous fighting. The two older parties ran closely in the number of candidates nominated. In the Dominion as a whole, the Government has 211 candidates nominated, and the Liberals 202. The Progressives, who, at the outset of the campaign, announced their intention of running around 130 candidates, actually nominated 144. Labor and independent candidates numbered no less than 74. Four women candidates were nominated—two in Ontario, one in Montreal and one in Winnipeg.

In Nova Scotia 14 Government candidates were nominated, 16 Liberal and 10 Farmer-Labor candidates as follows:

Antigonish-Gusborne
Walter McNeill, Government
C. F. McIsaac, Liberal
Dr. D. A. McIsaac, Progressive
Cape Breton North-Victoria
D. D. McKenzie, Liberal
M. A. McKenzie, Progressive
Cape Breton South-Richmond

R. M. Reid, Progressive
Shelburne-Queens
W. L. Hall, Government
Hon. W. S. Fielding, Liberal
Yarmouth-Clare
Hon. E. K. Spinney, Government
P. L. Hatfield, Liberal

Nomination day in Kentville was celebrated by an immense gathering of people, showing that Kings County was wide-awake to the importance of the issues in the coming election. Strand Theatre, where the speeches were held, was filled to overflowing, a number being unable to gain admittance. As the standard bearers of the two parties, H. W. Phinney, representing the National Liberal-Conservatives, and E. W. Robinson, the Liberals, wended their way to the platform cheers rose on every side and the people arose to do honor to the two candidates. C. A. Campbell, warden of the county of Kings, presided. Mr. Phinney opened with a 30 minute address, followed by Mr. Robinson in a 40 minute address, Mr. Phinney closing in a 15 minute speech. Both speakers were given a good hearing.

REDEDICATION SERVICE AT WATERVILLE

The Baptists of Waterville have recently remodelled their church and now have one of the finest country churches in the Valley. The building has been thoroughly renovated and redecored, electric lights have been installed, choir chancel enlarged and remodelled, two comfortable class rooms added, a fine baptistry and a new heating system purchased.

The improvements having been completed the church was rededicated last Sunday and large congregations attended both services. The pastor, H. B. Camp, was assisted by Rev. H. T. DeWolfe, B.A., B.D., who preached two most helpful sermons. Special music was rendered by the choir assisted by the Acadia Male Quartette, composed of Messrs. G. S. Vincent, E. C. Prime, F. S. Crossman, H. L. Parsons, and Miss Evelyn Duncanson, Soprano, Miss Myra Alcorn, Violinist.

A Few Observations

At the risk of being termed what Mayor Fitch would probably call a "knocker at the door" permit me to say that in my humble opinion the town of Wolfville has no surplus funds to expend in sewer pipe across private property to drain the cellar of any citizen. I am led to make this suggestion on reading the report of the Town Council in your last issue. In the opinion of many citizens the town should not have taken over Highland Place, so called, except on the condition that it be continued to connect Highland and Central avenues. Already too much public money has been expended in this section to warrant any further expenditure to cover up blunders on the part of those who had the work in hand. His worship might remember that calling hard names is poor argument when his administration is under criticism.

Every patriotic citizen of Wolfville must have felt sincerely thankful to the Give Service Girls for their laudable endeavour to provide suitable recognition of Armistice Day in Wolfville. Without their action the day would have passed practically unnoticed. The proclamation of its worship the Mayor calling citizens to observe two minutes of inactivity was practically disregarded. I noticed that the signal calling attention of citizens to the fact that the proposed time had arrived received very little notice. Activity on our streets in most cases went on as usual and the workman's hammer was heard on every hand. Armistice Day is an anniversary that we cannot afford to ignore and the Give Service Girls is an organization which ought not to be permitted to discontinue its activities. During the war wonderful things were accomplished through their initiative, and Nov. 11th illustrated that they still have a work to do for the community which they so worthily represent.

Without wishing to be thought a fanatic on the temperance question may I say that in my opinion there is entirely too much laxity these days in connection with the enforcement of the law in this regard. The other day it is true one still was located and broken up but according to common report there are many others yet in existence in this locality. Evidence of the existence of booze in our own town is not wanting. True Wolfville is no worse

than other towns. If we permit the present state of things to go on the time will come when citizens will regret their inactivity along this line. The authorities should get busy and see that the law, which might easily be enforced, is not allowed to become a dead letter.

The proposal to form a "city club" in Wolfville appeals to me a rather ambitious one for a small community. Possibly those who advocate such an enterprise are not aware how much it actually costs to carry on a well conducted club. Some place of recreation for the young men and boys of the town is greatly needed and a movement to establish and maintain a reading room during the winter months would deserve and probably receive public support. May I suggest that if our prosperous business men and others are seeking a channel for their generosity that an athletic field would be a very worthy objective. Now would be a good time to start a fund towards procuring such an institution for use next summer. What do you think of it gentlemen?

I thank you

WOLFVILLE'S NEW STORE

While the new building on Main street which during the past few months has been under construction by the Wolfville Fruit Co. is not yet completed the work has sufficiently advanced to indicate that it will be an ornament to the town and a decided addition to Wolfville's business places. The lower floor contains two stores, the one which the company will itself occupy being on the west side. This was opened for business on Wednesday of this week and has since been a scene of much activity. The store is most commodious and presents a fine appearance. It is handsomely finished and well lighted and is equipped with all the latest appliances for carrying on a modern store. The staff includes Mr. Stanley A. Robinson, manager; Mr. Frank H. Welsh, of Advocate Harbor, as chief salesman; Mr. Alex. Peters, formerly with Mr. W. O. Pulsifer, as deliveryman, and Miss Redden, in the office. A representative of THE ACADIAN who called at the store during opening day was greatly pleased with the light and cheery appearance and the scrupulously neat and clean appearance. The manager reports a splendid start so far as business is concerned.

Asilent man's words are never repeated in court.

A WAR WIDOW TO THE LIBERAL PARTY

To the Editor of THE ACADIAN:
Dear Sir: Lorimer Ilsley made a very remarkable statement on the political platform at Wolfville on Friday afternoon last. He stated that the Liberal Party are in every respect just as patriotic as the Conservative Party. I ask you Mr. Editor, what did the Liberal party do in 1917 when my husband and the husbands and sons of thousands of Canadian women were standing with their backs to the wall in France and Flanders, when the call was coming back to Canada for more men and still more men. What did they do then?

When the Conservative party asked for permission to put through the Military Service Act in order to send our conscripts to help save the day, the Liberal party said, "Oh No! We must go to the Country first and get the opinion of the people." Did they do this from any patriotic standpoint? They did not. It was done for two reasons. First—The Liberal Party felt with the majority of the best men overseas those at home in order to save themselves would support non-conscription. Secondly—The Liberal party knew that the French-Canadians in Quebec would not sanction conscription. Why should good French-Canadians go overseas and be killed when there were British Canadians for the purpose. In other words the Liberal Party at that time made political capital of the boys standing between them and the fiends of Germany. Instead of the boys getting help at once they had to wait for a general election. God alone knows how many of our Kings County boys owe their death to this cowardly delay.

I ask you, did the Liberals show themselves over patriotic at that time? Of course, Sir, I do not state or insinuate that all Liberals are not patriotic. Mr. Ilsley evidently was as he now tells that "worn thread-bare little yarn" that he himself supported Union Government. You possibly know the war record of his family.

I ask you, also, what about one of the Liberal Leaders in Wolfville, before he called himself a Conservative, during that eventful time he fopped around in the Grits, if the Conservatives would protect him perhaps they would

cross to which my thoughts ever return. Under that twisted stick lies all that remains on this earth of one of the best men who ever lived. He gave his life in the struggle "to hold on" until the general election in 1917 was over and recruits could be forwarded.

On December 6th I plead with the women of Kings County to remember this cross and support the Government which so loyally stood by our boys overseas and not to support the party whose Leaders retarded the progress of recruiting in 1917 by forcing the Country to a General Election when every minute threatened overwhelming defeat to our lads.

If Mr. Ilsley considers the Liberal administration of 1917 as being patriotic I most emphatically do not.

WAR WIDOW.

THOSE SPOT-LIGHTS

To the Editor of THE ACADIAN
Dear Editor:—I should like through your columns to recite an incident that happened a few days ago.

It was a stormy evening, snowing, and I was a few miles out of Wolfville driving my car homeward. I could not see well through the snow, but by driving slowly, a little under fifteen miles per hour, I got on very well, and passed horses, one or two pedestrians and one or two cars safely and, I trust, without annoying those other wayfarers. I got on very well—until I met a car driving with a spot light turned on. That spot-light blinded me. Incidentally, the road turned slightly to the right ahead of me at that point, and my car was in the ditch before I knew that the other car was past me.

I may not be an expert driver, to go into the ditch simply because I was blinded by a spot-light, but the Motor Vehicle Act does not require any driver to be able to keep the road in the face of a spot-light. Probably I should have proved my own carelessness by stopping altogether before the spot-light, blinded me. Probably I will next time, in time to get the number of the car carrying it. Hereafter I shall report any car whose number I can secure that I see using a spot-light while driving along a public highway.

I wish to thank a resident of the vicinity, and the occupants of another car which arrived some time after, and stopped, for the kindly and efficient assistance they gave me, getting my car out of the ditch.

Seniors Win Bulmer Relay Race—Freshman Defeat Sophomores in Debate

One of the great athletic events at Acadia was the eight mile relay race for the Bulmer Cup. This event took place Saturday afternoon and was won by the Seniors. Wetmore making one of the most sensational finishes witnessed in the history of the campus. Soon after the start, Clark of the Sophomores, had the lead, steadily increasing his lead until the advent of Corey, the sixth man, who appreciably gained for the Seniors, for whom also Thurston contributed progress, but when Wetmore started in Coates was still a long way behind. The Senior, however, by a series of catches up with his leader, one yard at a time, and finally, both exhausted, but sprinted neck and neck, the Seniors falling ten feet from the feet of Wetmore falling on it, amidst the excitement. Wetmore's mile time was 4:56, which, considering the nature of the track, was pronounced a feat.

The teams were:
Seniors—Read, Thurber, Vincent, Brinson, Corey, Thurston and H. H. Wetmore, Jr.

Sophomores—McCready, Goodwin, Dobson, Thomson, Kendrick, Thompson, Anderson and Phinney.

Freshman—Spidell, A. Brown, Clark, Robinson, Estey, Marshall, Chipman and Coates.

Women—Moffatt, Bartheaux, Cook, and Cox, Peck, McMillan and

Acadia Academy—V. Schofield, Chambers, Woodworth, McPritchard, Pushie and Culliton.

Wetmore, of Winnipeg, who donated the trophy for competition between these classes and the Academy, was a graduate of the Academy, which he won five times out of ten events, and was consequently. It has to be won three times consecutively before becoming the property of the winners. The previous record on this track is 4:49, set by the best intercollegiate record on the track in 4:47, so that in view of the fact that the track on Saturday, Wetmore's record was most favorably.

The Senior-Sophomore debate was held on the subject under consideration. Resolved, That it is better to be a member of the Farmers or Progressive Party, were in control at Ottawa." The Freshman had the negative and won the debate. The Freshman team was composed of Warren, Rafuse, and Corkum, and the Sophomores were Spidell, McLean and Estey. The judges were Drs. Hill, Thompson and Rhodenizer.

ACADIA SUBMITS SUBJECT FOR DEBATE

In connection with the Intercollegiate Debate between Acadia and Mt. Allison debating teams to be held in Sackville, Acadia has submitted the following subject for debate:

"Resolved that it would be more beneficial to Canada for the Government General in Council by his power under the present Immigration Law to admit south Eastern Europeans for the next twenty-five years even up to the yearly limit reached in 1913 rather than totally exclude them."

It is for Mr. Allison University to decide whether it will support the resolution or take the negative side.

Wolfville Authors

The Editor of THE ACADIAN.

Sir:—At the meeting in the Library last Sunday afternoon for the display of Canadian books and the discussion of Canadian authors and their work, it was suggested that I submit to you from time to time, for publication in your paper, lists of new Canadian books for general reading, with publisher and price. This, certainly, with your permission I shall have great pleasure in doing. But Wolfville itself is a town that has no mean literary record. Since patriotic instincts combined with sound business sense resulted in the campaign of Canadian Authors' Week, I suggest that we of Wolfville invoke that same combination to promote the interests, during the week following of the writers in this town. In another column we have reviewed Miss Archibald's new book, "The King's English Drill." That is a book well worth buying by all who would master their mother tongue.

But the average book buyer usually wishes fiction among his other purchases. I have on my desk a copy of Mr. John Frederic Herbin's new novel, "Jen of the Marshes." I say unhesitatingly that anyone who would enjoy a charming romance, rich with the aroma of our own dear land, will be perfectly satisfied with this delightful book, and need look no farther. Let every person in Wolfville buy a copy. After reading it he will like novel reading better, he will have a more wholesome look upon life, he will love this region as he never has done.

A few days ago we received a new book, "Historical Sketch of the United Baptist Woman's Missionary Union of the Maritime Provinces," of which our own Mrs. C. H. Martell is the compiler. In the same volume are sketches of the Free Baptist Woman's Missionary Society of New Brunswick, by Miss Clara R. Fullerton, and of the Golden Jubilee Campaign and Convention by Mrs. David Hutchinson. I am not sure that this book is on sale in our bookstores, but it is invaluable to all interested in Baptist development. It is illustrated with portraits, and the work itself shows careful selection of facts, and a most admirable feeling for literary values in their necessarily brief chronicle.

The above are the new books and therefore merit our attention as such just now. But Wolfville writers have figured well in almost every field of literary endeavour. We need not go far afield

to find that Mr. Trotter, we should remember was a former citizen of Wolfville. Some time ago an inquiry came to me concerning President George B. Cutten's works on Psychology. Where could they be bought? Let there be many such inquiries next week, so many, indeed, that the publishers will be obliged to issue another edition. And what of the late Professor Haycock's unique work on our local geology? Cannot we soon collect his scattered pamphlets and manuscripts, edit them, and issue them in book form? Our fellow citizen, Mr. Robie Tufts, has written concerning the birds of Nova Scotia. I trust his pamphlet is on sale at our bookstores.

Greenwich Wedding

An interesting social event took place on Thursday evening of last week at the home of Mr. and Mrs. T. A. Pearson, Greenwich, when their second daughter, Charlena Christine, was united in marriage to Brenton Leigh Merry, of Maitland, Annapolis county.

The parlors were beautifully decorated for the occasion, the ceremony being performed by Rev. O. N. Chipman under a large bell. The bride entered the parlor on the arm of her father and passed through an aisle of white ribbons held by her immediate friends. She was gownned in white duchesse satin with the conventional veil and orange blossoms, and carried a bouquet of white roses, lilies of the valley and maiden hair fern, tied with white ribbon and chiffon. Little Miss Evelyn Mason, of Wolfville, acting as train bearer, was dressed in white silk trimmed with satin ribbon. The bridesmaid was Miss Esther Pearson, sister of the bride, who wore Alice blueorgette and carried a bouquet of pink and white carnations and maiden hair fern, tied with large bow of white satin ribbon. The groom was supported by Mr. B. C. Silver, of Wolfville. Miss Thelma Gates, of Port Williams, played the wedding march.

During the ceremony "Oh Promise Me" was finely sung by Miss Annie Pearson, youngest sister of the bride, and at the close of the ceremony Mr. A. J. Mason sang "For You Alone" with violin obligato by Mr. Robert Bishop.

The bride received many useful and pretty gifts. The grooms gift to the bride was a cheque, to the bridesmaid a pendant set with pearls and emeralds, to the pianist a gold bar pin set with pearls, to the trainbearer a small pendant set with pearls and chipped pearl drops, and to the groomsman gold cuff links. Those assisting with the music also received gifts: Miss Annie Pearson a gold and emerald pendant, Mr. Mason and Mr. Bishop gold cuff links with monogram.

The happy couple left immediately after the ceremony on a trip to points in the United States. The bride's going away gown was of taupe broadcloth trimmed with soutache braid, with coat of taupe velour trimmed with beaver collar and cuffs. She wore a hat of black, faced with new blue and trimmed with black feathers.

The bride, who is a niece of Hon. S.N. Shaffner of Winnipeg, will be greatly

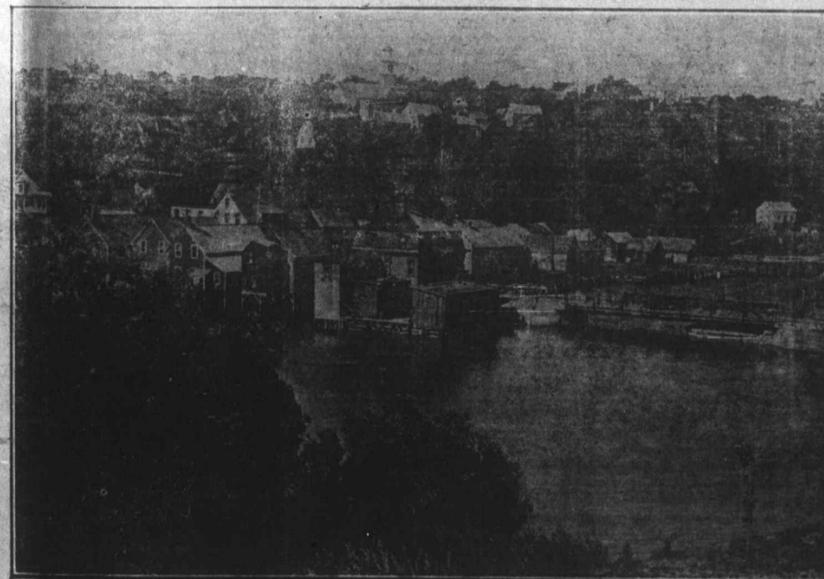

pleased to hear of the happiness of Mrs. Merry every happiness.

AWARDED \$1,000 SCHOLARSHIP

The many friends of Mr. Alan Gordon Dustan will be interested in hearing that he has been awarded a scholarship of \$1,000 from the Dominion Government in recognition of important research work on entomological lines. The research work accomplished by Mr. Dustan has been of great value to Canada, and the Scholarship is designed to give him a post graduate course, which will enable him to do even better work in the future. Mr. Dustan is a son of the late Rev. John Dustan, of Halifax, and spent the past summer in Wolfville while carrying on his research work.

EXTRACTS FROM A WOMAN'S LETTER TO THE MONTREAL WITNESS

(To the Editor of the "Witness")
 Sir,—As one of those women who, having had greatness thrust upon them in the form of the suffrage, are now for the first time confronted by the duty of voting in a Federal Election.
 I never asked for the franchise and never wanted it. Now that the privilege is mine, what am I to do about it?
 We want—we women want—good men to vote for—
 "Men with "strong minds, pure hearts, true faith and ready hands";
 Men whom the lust of office cannot kill;
 Men whom the spoils of office may not buy;
 Men who possess opinions and a will;
 Men who have honor, and who dare not lie;
 Men who can stand before a demagogue
 And scorn his treacherous logic without shrinking."
 No leader, no matter how high his character or how excellent his platform, can save Canada, unless he has good men to support him. And no leader, no matter how low his character or how vile his policy, can injure Canada if there are enough men of sound principle and sound sense in Parliament to defy party and stand fast for righteousness.
 Canada's great need is strong-minded, pure-hearted, independent men to go to Parliament and place God and their country above any political party.
 N. E. M.

THE EDITOR'S COMMENTS ON LETTER

In a most interesting letter one of the new voters sets forth the problem that comes before a conscientious woman called upon to vote for the first time. She sets forcefully forth the inner problem of democracy. She is seeking to live for the Kingdom of God. To that end she wants to vote, not for a party, but for a man who is above all parties, and who will vote right in spite of all party cajolery. That is what is assumed in parliamentary rule. It is rightly assumed that the electors for the most part will not be able to grasp the right and the wrong of every measure on which their representatives will have to vote, and that what the people have to do is to choose such men as they can trust, and leave it to these to deliberate and decide. That is ideal as regards a large part of legisla-

tion which the voters must dimly follow. We are not, however, likely to have parliaments filled with such men until the Kingdom comes. But parliaments are meant to be representative bodies, and representatives are apt, and that rightly, to be like the people they represent. And until the good time comes the people will not be all holy. But the time has come when the people are able to have minds of their own on many subjects, and want to be represented by men who will uphold their views, claims and demands. This is altogether wholesome. However badly used, it marks an advance in self-government, in each one taking personal responsibility for the condition of society. It lays on each voter a responsibility for the good of the community which he, or in this case, she, cannot escape by gently brushing great questions aside as muddles in which they have no interest. Society was so made by God that no one, however holy, can rightly draw his garments aside from touching his fellowmen or from taking part in their struggles for betterment. Those who, like our correspondent, wish to pray, "Thy Kingdom come," cannot say they are not members of the community and have no responsibility with regard to its well-being. Nothing human is foreign to us. Every interest of the social life about us is our own, and we are bound to exercise our part therein to the best of our powers.

EGG YIELD FOR EACH MONTH

On the basis of an egg yield of 160 eggs for the year, which is a good average for the profitable flock, the production each month for each hen should be as follows, which figures are compiled by the Connecticut Experimental Station from data covering eight years' work with thousands of hens in various breeds:
 December.....7 June.....18
 January.....9 July.....17
 February.....12 August.....15
 March.....18 September.....13
 April.....19 October.....7
 May.....20 November.....5
 A great many small flocks which receive special care and attention will do better than this; some of the commercial plants which are given to painstaking methods of selection will do better; but the poultry industry as a whole will fall way short of an average of 160 eggs. It is doubtful if the average American farm hen will produce seven dozen eggs a year, which is six dozen short of a profitable standard that will yield a worthwhile income.
 It takes a genius, indeed, to derive a profit from the eighty-four-egg hen. That is why so many persons have a grievance against the poultry business. Either they haven't the right sort of hens or they have not applied the right sort of management.
 If you can't have what you like try to like what you have.

Wife Robust Again; Clergyman Thanks Internal Bathing

From grateful women in all parts of America come letters telling of the benefits derived from Internal Bathing with the J. B. L. Cascade.
 Thousands of other women, if they could see these letters, would quickly discard the medicine bottle and look to the real cause of their troubles. Ninety five per cent. of human ills are attributable to accumulated waste in the colon or lower intestine. Warm water, properly used with the J. B. L. Cascade, will remove the cause of your troubles.
 A Winnipeg clergyman writes: "My wife is naturally sensitive having her name appear in public print, yet is anxious that others should know what the J. B. L. Cascade has done for her. It has really given her a new lease of life. For years she had been doctoring for constipation, which became worse each year. Since using the J. B. L. Cascade, first about four years ago, she has not been sick a day, and has become robust and strong again. Should any person wish this letter confirmed, you are at liberty to give my name in private."
 The J. B. L. Cascade is an invention for internal bathing, perfected by Dr. Charles A. Tyrrell of New York. It is shown and explained at A. V. Rands', Druggist, Wolfville.
 Ask for booklet explaining all about Internal Bathing and what it has done for others. It is free, or write to Tyrrell Hygienic Institute, 163 College Street, Toronto.

LEST HE FORGET

(From the Boston Transcript.)
 His young wife had handed him a sealed letter which he was not to read until he reached his office. With forebodings of trouble he tore open the envelope. "I am obliged," the missive began, "to tell you something that may give you pain, but there is no help for it. For the past week I have felt it must come to this, but I have waited until the last extremity and can remain silent no longer."
 Cold perspiration stood in thick drops on his brow as he turned the page, prepared for the worst. "Our coal is all gone," he read on. "Please order a ton to be sent this afternoon. I thought you might forget for the seventh time and therefore wrote you this letter."
 But he didn't forget that time.

Minard's Liniment used by Veterinaries

HOUSEHOLD HINTS

Iron embroidered yokes, bonnets, etc., on Turkish towels, wrong side up. Do not use too hot an iron on colored garments.
 Before putting clothes away, mend newly discovered worn places. Sew on buttons, put tape in necks of garments, etc. Sort stockings and mend. When all garments are thoroughly dry, put in the drawer carefully and they are all ready for the children as they are needed.
 Place all garbage in paper bags before putting in the garbage can. The can lasts much longer and is easier to keep clean.
 To soften a paint brush that has been allowed to harden, boil for half an hour in a vessel containing vinegar to cover. The brush will come out like new.
 When sewing up the seams of a sweater, if first a rib of one side and then a rib of the other side is picked up, thus weaving the two sides together, a flat seam will be formed instead of the ugly seam that is made by sewing the two sides together over and over.
 When the sweater is faded, if sewed up with seams flat, it may be turned wrong side out without ripping seams. If desired, a fresh collar and any other trimmings may be added, thus getting a sweater as good as new with much less work.

What is the largest amount of advertising ever carried by an American publication? So far as we have been able to ascertain the record is held by the Ladies Home Journal of Philadelphia, which in the October number of 1919 contained \$1,000,000 worth. Several popular magazines have printed \$500,000 worth in a single issue. Of the weekly magazines the Saturday Evening Post easily leads its contemporaries with a record of over \$500,000 in each issue for four successive issues in 1920.

MARITIME RUGBY UNION FORMED

Efforts Will Be Made to Hold a Maritime Elimination Series

TRURO, Nov. 17.—At a representative meeting of the Maritime football clubs held in Stanley House this morning it was decided that a Maritime Rugby Union be formed, affiliated with the Rugby Union of Great Britain, which means that the English game will be adhered to. An amendment moved by Haslam of Dalhousie that the Maritime Union be affiliated with the Canadian Rugby Union was lost although supported by St. John delegates. Delegates were present from all the Maritime Rugby Clubs and colleges and details as to administration and constitution were discussed.

Officers were elected as follows:
C. R. Chipman, Wanderers, President;
McVicar, Cape Breton, Vice President;
W. W. Murray, Secretary-Treasurer.

Executive:—Mont Haslam, Halifax City League; J. MacDonald, St. F. X., Inter-Collegiate League; Mike Dryden, New Aberdeen, Cape Breton League; Pictou County League, Dr. MacDonald, New Glasgow. New Brunswick League, J. MacBeth, Moncton; Prince Edward Island League, Dr. Yeo, Charlottetown. A committee to draw up the constitution which will be submitted to the various clubs were selected as follows:

J. W. Allen, C. R. Chipman, and A. R. Lilly, all of Halifax.

Mr. R. R. Murray, convener of the meeting, occupied the chair with Rev. G. W. Bullock, of Pictou Academy, as secretary pro tem. The delegates present were Rev. G. W. Bullock, Pictou; Dr. MacDonald, Antigonish; J. MacDonald, St. F. X.; H. H. Trimble, U. N. B.; C. MacVicar, Caledonia; E. A. Ferguson, Mt. A.; F. Williams, Moncton; W. B. Morehouse, Kings; C. R. Chipman, Wanderers; R. D. Wigmore, Acadia; J. S. Fraser, New Glasgow; W. R. Walsh, St. John; J. W. Allen (proxy), Port Morien; J. E. Aheren, Crescents.

Besides the actual constitution and election of officers many other matters were discussed. It was decided to attempt to have a Maritime elimination series yearly for the Championship of the Maritime Provinces. Inter-section games would be staged to decide this and in addition exhibition games between representative teams of the different leagues would be arranged for early in the season. Executive members of the different leagues were asked to arrange their schedules early so that the central body would have a chance to arrange inter-association games. It was hoped in this way to develop real league rivalry and elevate the standard of play. In case of dispute there would be a central body to refer to.

W. V. Walsh, of St. John, Mont Haslam, of Dalhousie and J. MacDonald, of St. F. X., all spoke in favor of the introduction of the Canadian system of Rugby. The former suggested that the play in vogue in the Upper Provinces was not only more scientific but more interesting from the viewpoint of the average spectator. It would draw better. But the tenor of the meeting was plainly against innovation and the vote was decidedly in favor of continuing under the English system.

WHAT MOTHER EARNS

A contemporary carries the following story in its current issue and declares that every newspaper in the land should print it. We agree, and here it is:

"She never earned any money—she lives on an Ohio farm, but she lives on almost every other farm. She is somebody's mother, maybe your own. She has earned nothing. No, but during her thirty working years she has served 432,983 meals; she has made 3,123 garments, 32,000 loaves of bread, 5,390 cakes, 7,932 pies, 1,500 gallons of lard; she has grown 1,432 bushels of vegetables, and has raised 7,660 chickens; churned 5,430 pounds of butter; put up 3,625 jars of preserves; scrubbed 177,725 articles of laundry; and she has put in 35,839 hours of sweeping and washing and scrubbing. At accepted prices for this work it is worth \$115,480.50. She can't retire on her savings—she has to keep on. Not earning! No. How do you define the ordinary woman's contributions to her family wealth?—Collier's Weekly.

THE ROCK'NG CHAIR

The rocking-chair has never appealed to the taste of people in Europe. Over there they call it an "American chair", and admit their failure to understand why anybody should wish to take exercise while sitting down. We, of course, could hardly get along without rockers. In every farmhouse one finds at least one rocking-chair; and in this connection it seems worth while to call attention to the novel idea of Moses W. Carden, of Opelika, Ala. He has constructed a chair which makes it practicable for the farmer's wife to churn her cream for butter by the mere performance of rocking. Fastened to the side of the chair is a box-shaped churn which, for additional support, is upheld by two uprights resting upon a third and supplementary rocker. As the farmer's wife rocks the cream in the churn is agitated. The final result is butter. When the butter is made the churn can be detached.

HUGE PRODUCTION

Montreal.—Newsprint manufacturing in Canada has reached a production of 1,000,000 tons a year, according to A. L. Dawe, secretary of the Canadian Pulp and Paper Association, in an address before the Inland Daily Press Association at Chicago. He further stated that consumption in the United States was two and a half million tons annually.

GREENWICH NOTES

It is reported the United Fruit Company will, in the spring, build about 150 feet on to their ware-house at the station here, using a part as a store, carrying flour, feed, etc., which will make it very convenient to the public.

Mr. Hazen Bishop recently sold his herd of fine cows to Mr. Harold Norton, Town Plot. Mr. Bishop for some time has been sending a large quantity of milk daily to Halifax, using a milking machine, which he ran by electricity.

Mr. James Robertson, has joined his family here, arriving home one day last week from the Canadian West.

Mr. Charles Fenwick, who went out West on one of the Harvest Excursions, returned home last Saturday. In spite of last Thursday evening proving to be rather stormy a one about fifty or more guests assembled at the home of Mr. and Mrs. T. Andrew Pearson to witness the marriage of their daughter Charlena, to Mr. Brenton Merry. After which a reception was enjoyed and the disagreeable weather was forgotten for a time.

Mrs. L. Merry and little son, of Mahone Bay, attended the Merry-Pearson wedding, being guests of Mrs. Pearson a couple of days. Mrs. Charles Shaffner, of Annapolis County, also attended the wedding.

Several from here have attended political meeting held in Wolfville recently.

EXPORTING CATTLE

Calgary, Alta.—A total of 4189 head of cattle, valued at nearly \$120,000, have been sent to United States markets from this district since October 1st, according to S. G. Reat, U. S. consul, here. Some large consignments have been made from Cayley, about a hundred miles south, one ranch having sent 779 head of cattle, valued at \$22,000, from this station to Chicago recently.

WEEKLY PAPERS AGAIN GET IT IN THE NECK

Canadian publishers are being reminded by official circulars, issued by the Ottawa Post Office Department that a further 50 per cent. increase in the rate of postage on newspapers will become effective on Jan. 1, 1922. This rate will make a total increase of 500 per cent. in newspaper postage since January, 1921.

PROMINENT VALLEY ORCHARDIST DIES

A. E. Adams, for Years Secretary of the United Fruit Companies, Passes Away at Annapolis.

ANNAPOLIS ROYAL, Nov. 21—A. E. Adams, one of the best known apple growers of the valley and for years secretary of the United Fruit Companies of Nova Scotia, Ltd., died at his home yesterday morning. The deceased was ill for some time and death was due to an abscess of the brain. Several months ago he went to Montreal for treatment. He is survived by widow, a son and three daughters and the funeral will take place tomorrow. The late Mr. Adams was a Mason and will be laid to rest with Masonic rites.

The late Mr. Adams came to Canada from England about 1906, and settled in Berwick, where he started in the apple business for S. B. Chute. Several years after he became secretary of the United Fruit Company when this company of apple growers was formed in 1909 and remained with them for nine years. In 1918 he formed an apple shipping company with S. B. Chute and Fred Parker, but it did not survive and he went to Annapolis and purchased an orchard which he had been peorating for the past few years.

During the time that he was secretary of the United Fruit Companies he made several trips to Ottawa, being a member of delegations of farmers and apple growers sent to confer with the Government.

NEW BRIDGE AT ANNAPOLIS

ANNAPOLIS, Nov. 18.—The new highway bridge connecting Annapolis and Granville, was officially opened yesterday afternoon by Hon. H. H. Wickwire. The bridge is 2,273 feet in length, the longest in Nova Scotia, and cost \$317,000.

DAVIDSON BROS., Printers and Publishers

Members of the Canadian Weekly Newspaper Association.

Subscription Rates—In British Empire, in advance, \$2.00 per year. To U. S. A. and other countries \$2.50 per year.

Advertising Rate Cards and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Weekly Newspaper Association.

Advertisers must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

Correspondence—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

Editorial Notes

That the policy of THE ACADIAN with regard to the discussion of public matters and the presentation of real news, while it is news, is meeting with public approval is amply apparent by the constant increase in the subscription list of the paper. During recent weeks THE ACADIAN has added many new readers to whom we extend a cordial welcome. Our aim is to make the paper a credit to Wolfville and Kings county and if we may judge by the many flattering comments which come to us our endeavour in this direction is meeting with abundant success. However we are not yet satisfied. We have plans for still further improvements and ask the co-operation of our readers in carrying these out. We want more correspondents in every section who will keep us informed on all matters of public interest. If you are pleased with the paper and find it well worth the subscription price, bring it to the attention of your neighbours and friends and seek that they may also become patrons.

Readers of THE ACADIAN will note that correspondents find it a convenient medium through which to bring to the attention of the public their views concerning matters of public interest. These views may not always be in accord with the opinion of the editor. However, THE ACADIAN believes in free speech and that the columns of the local paper should be open for a free discussion of public issues. We invite our readers to make use of the paper for this purpose, only asking that the discussion be in the public interest and not calculated to arouse animosity or bad feeling.

PRETTY AT HOME

The following from the Halifax Evening Mail of Nov. 17th will be read with interest by Mrs. Bristol's many friends in Wolfville and vicinity:

Yesterday afternoon for the first time since her marriage, Mrs. W. M. Bristol (Alice Stairs), 71 Chestnut street, was at home to her friends, her pretty drawing room being thronged and the flowers used in decoration of the rooms and table being chrysanthemums of the exquisite tones of bronze which have been so much admired this fall. Mrs. Bristol looked very lovely in a gown of opal green taffeta, was assisted in receiving by Mrs. Herbert Stairs, of Wolfville, and Mrs. Gavin Stairs, both of whom wore smart gowns of black. Miss Edith Stairs introduced the guests. Tea was poured by Mrs. Gordon Stairs, who wore a pretty gown of black with touches of blue. Mrs. R. Cyril Smith, in a blue gown, pouring coffee, while the group who served was made up of the bride's associates on the staff of the S. C. R.—Miss Bryson, Miss Woodman and Miss Black.

THE PEOPLE HAVE CONFIDENCE

In reviewing the present political situation The Canadian Magazine says:

"There are three political leaders before the country and there are wide and acute differences of opinion as to the validity of the arguments which they advance and the policies which they represent. But fortunately in the integrity of all three the people have confidence. Few persons could be convinced that any one of the three would engage in a doubtful transaction or use public office improperly for his private advantage. As much can be said of every leader of a national party in Canada since Confederation. Sir John Macdonald was fiercely attacked but no one now questions his personal honesty. There never was a more incorruptible public man than Hon. Alexander Mackenzie. As much can be said for Sir John Thompson and Sir Mackenzie Bowell. It is inconceivable that Sir Wilfrid Laurier or Sir Robert Borden could have been tempted to use public position for private profit. Is it not also true that there is less trickery and bribery in elections? So there is far less interference by corporations in political affairs. It is still fashionable to denounce "plutocracy" and "Big Business" but generally in this kind of fury there is nothing but wind and sheet lightning. It would be difficult now to force a genuine "gerrymander" through Parliament. We passed through four years of war without any legacy of serious scandal. Democratic government in Canada as elsewhere may have developed new faults and follies, there is much of feeble, trivial and emotional appeal from many platforms, there is often want of candor and courage in political debate; but the coarser forms of corruption have not persisted and there are few men in public life who are not clean-handed. We seem to be growing in grace even if it is not so certain that we are growing in wisdom."

ORCHARD NEEDS POULTRY FLOCK

Supplies Valuable Fertilizer—Is as Important as Bees or Other Insects

Poultry manure is, by far, the most valuable animal fertilizer commonly produced and has been comparatively little understood. In fact, much of it has been thrown away or carelessly wasted. It contains more than twice as much ammonia and phosphate as sheep manure, and more than four times as much as horse manure. It can be kept in good condition more easily than any other manure with very little labor or attention.

Some who have used poultry manure complain that it burns the crop, and on that account condemn its use. Others have obtained marvellous results. The burning that results from the use of poultry manure is due to the manure being so very rich in quickly soluble nitrates, that its lavish use produces too concentrated a solution of the soluble parts. When the manure is thinly scattered over the soil, it can be used with perfect safety, and with wonderful results.

On fruit farms where land is intensively cultivated, flocks of poultry have been found very profitable as producers of fertilizer to say nothing of the greater value that comes from their eggs, and meat. Poultry raising is almost as important a side-line in the fruit business as bees.

IT ISN'T YOUR TOWN—IT'S YOU

"If you want to live in the kind of a town Like the kind of a town you like You needn't slip you clothes in a grip And start on a long long hike. You'll only find what you left behind For there's nothing that's really new. It's a knock at yourself, when you knock your town.

"Real towns are not made by men afraid, Lest somebody else gets ahead When everybody works and nobody shirks. You can raise a town from the dead. And if when you make your personal stake Your neighbor can make one too, Your town will be what you want to see It isn't your town it's you."

Which part of the tree is most polite? The bow (bough).

THE KING'S ENGLISH DRILL

By Rosamond M. Archibald, M. A.

A REVIEW

I can find no better description of this useful book than that given in its subtitle: "A practical aid to spoken English in everyday use." It is a carefully compiled series of exercises, or drills, as the author calls them, of the correct forms in our usual speech where the average person finds himself in doubt. While primarily intended for the class room, it can be used with profit and also with the keenest pleasure in the family, at children's parties, and even at social gatherings of older people who welcome a merry hour testing their knowledge of the forms of correct speech. For this reason it should be an ideal Christmas gift for young or old. There are thirty-eight drills in all. A certain military feeling comes to us as we take up the book, patriotically resolving that we will capture the difficult redoubt of perfect speech and this is strengthened by the Khaki cover. On the desk of the business man or woman the "K. E. D." should always find a place. Very few of us are so sure of our mastery of English that we can afford to do without standard aids, and the tired person will welcome Miss Archibald's book because of the recreative character of the exercises. Five minutes a day for a month devoted to these drills will put a person beyond the reach of criticism in his everyday speech, I am quite sure. Though this admirable little work came from the press a very short time ago it is already being introduced into various universities, high schools, normal and business schools, and also into primary schools throughout the whole Dominion. It is published by McClelland & Stewart, Toronto, Canada; price \$.50 net.

MARY KINLEY INGRAHAM, Librarian, Acadia University, November 22, 1921.

One of the best agents for filling the poor house is a charge account. Paying cash puts a constant check on buying while a charge account encourages reckless purchases. It's so easy to buy and "have it charged", but when the day of reckoning comes it is not so easy to settle the bill, and many a conscientious merchant is accused of adding to the bill simply because the customer cannot realize all his moments of past foolishness.

BUYING AT HOME

Every dollar that is sent out of this town means a dollar less in circulation so far as the people of this town are concerned.

It is good for you and good for us all to keep the money right where it is going to do all of us the most good.

We hold that it is the right of every man to spend his money how, and where he pleases. We have no "kick" against any man buying where he can get the best value for his dollar, but we do say that the local merchants give better service in every way than it is possible for any out-of-town store to give.

In your home town stores, when you want an article you can personally choose it—you can see it is exactly the right kind of thing you wanted, you can examine it for flaws, test it in any way you please and see whether or not it is value at the price.

And then if you are satisfied you take it away and have the article just when you want it—no waiting, no taking chances that it will not be what you ordered.

Merchandise bought from your home town stores is dependable in every way because they have a reputation to maintain. They are with you always and realize that they can only succeed by giving you service and by selling you goods that quality considered are equal to any you can purchase out of town.

When finally fame does come to the average man it has to rest on his monument.

Every woman knows how to manage her daughter's husband.

Halifax, N. S.

Minard's Liniment Co., Ltd. Gentlemen—I have used Minard's Liniment and have found it a good remedy. After the explosion I was pretty well shaken up having quite a number of bruises and cuts, but thanks to Minard's Liniment I am my old self again. It healed the sores and bruises and gave me much relief. It is true to its name as the King of Pain, for it stopped the pain almost at once. I first noticed the ad in the Montreal Standard and decided to invest in a bottle, for which I am not sorry, but can say with truth that I am thankful for it having done all it claimed to do, and in may case much more, and a satisfied customer is the best ad one can possibly find. That is my view of it and I think you will agree with me too.

Yours very truly, (Signed) ALFRED BLAIN, 184 Agricola St., Halifax, N. S.

WILL POUR INTO CANADA

Washington, Nov. 2.—Increased immigration into western Canada from the agricultural population of the middle west and northwest states of this country is expected to be marked in the next year or two and, perhaps, for a longer period. This is the view of officials and others who are familiar with conditions as between the U. S. and Canada.

The agricultural depression in this country has fallen with an especially heavy hand on the tenant farmer and the farmer who owes a heavy mortgage. Many a farmer bought high priced land in the boom in the middle west some months ago and now, with prices of products flat, finds himself unable to meet interest and taxes.

One might suppose that the result would already be a heavy movement of immigration into the new lands of Canada. This movement is on to some extent, but what is interfering with it as an actual fact is that many men on U. S. farms who have gone broke in the after-the-war slump in prices and credit, are too poor to move themselves and their families to Canada. A large number of U. S. farmers and farm laborers who want farm land of their own will be found an indefinite time to come working at whatever they can find to do in order to accumulate enough to pay railroad fare and set out for Canada.

Thinking officials and authorities on agriculture in this country regret to see competent farmers and farm workers leaving the U. S. but they declare large migration into the dominion is something inevitable.

Friendship—Yes! But—

"The Bill will not let in Canadian wheat, but will save to the American farmer the right to raise a bushel of wheat instead of transferring that right to Canada." Mr. Fordney, in introducing the Fordney Emergency Tariff Bill which has shut millions of dollars worth of Canadian foodstuffs out of the United States market.

"If we are to build up a self-sustaining agriculture here at home, the farmer must be protected from unfair competition from those countries where agriculture is still being exploited." President Harding. The very spot chosen to deliver this speech—Minnesota—shows that Harding had the Canadian North-West in mind.

WHILE ties of friendship unite Canada and the United States, the attitude of Uncle Sam is that of "Business First", and Canada cannot and should not hope for any consideration from the United States where the interests of the farmers and business people of that country are involved.

Uncle Sam has built the Fordney Tariff directly against Canadian agriculture, and new additional Tariff proposals are now under consideration to shut out from the United States Canadian goods of every kind.

These measures are due to the insistence of the American farmer that the United States market shall be retained exclusively for him and that the influx of Canadian farm products into that country must cease. They are also due to a like insistence of United States manufacturers and workers, who have seen their country develop tremendously and grow rich under a Protective Tariff, and who believe that a still further increase in Tariff is the only means of assuring continued prosperity.

CONTRAST THE ATTITUDE OF THE UNITED STATES LEADERS WITH THAT OF CANADA'S WOULD-BE LEADERS, CRERAR AND KING.

Crerar proposes to allow American goods to enter the Canadian market free of duty.

King proposes that the present reasonable Tariff on the products of the American factory and farm shall be greatly reduced, and that the home market of the Canadian farmer and manufacturer alike shall be thrown open to our Southern neighbour, in the face of the United States Emergency tariff, which practically shuts out Canadian farm products from these markets, and also in the face of the permanent tariff now under consideration at Washington, which gives every promise of being even more drastic than the Emergency Tariff so far as our products are concerned.

In view of the attitude of the United States, what folly it is for Crerar and King to propose throwing open the Canadian market to a flood

of both agricultural and manufactured products of the United States when there is not the slightest possibility of any compensative advantage to Canada.

Does any sane Canadian believe that Crerar or King, hat in hand, could persuade the United States Government to completely reverse its Tariff policies and agree to reciprocal trade in face of American public demand for a high protective Tariff?

The people of the United States conduct their affairs and protect themselves by the principle that "Business is business." Why should Canada do otherwise?

Unlike Crerar or King, MEIGHEN stands firm for a reasonable Tariff to protect all our industries — those of the farm, the sea, the mine, the forest, the factory, and for the building up of a bigger and better Canada through the full development of the home market.

FRIENDSHIP WITH THE UNITED STATES? YES, BY ALL MEANS!

BUT—

let us defend our home market, our industries, our farms, our workmen, our homes by the same methods as are used so effectively against us.

Let us work out our own destiny—that of a strong, self-contained nation within the British Empire group of Nations, courageous, masterful, self-reliant.

PAYING THE PIPER

(From the Fredericton Mail.) A negro preacher after a sermon on "Salvation Free" proceeded to announce a collection. A colored brother took him to task after the service for not practicing as he preached. "Patience, brudder, patience," said the parson. "S'pose yo' was thirsty an' come to a ribber. Yo' could kneel right down and drink yo' fill, couldn't yo'? An' it wouldn't cost yo' 'nothing, would it?" "Ob co'se not, Dat's jes' de berry t'ing." Well, s'posin' you was to hab dat water piped to yo' house yo'd hab to pay, wouldn't yo'?" "Yassur, but"—"Wall, brudder, so it is in dis case. Salvation am free. It's de habin' it piped to yo' dat yo' got to pay for."

HIS FIRST CHANCE

"What do you know of women's work?" he only queried the lady orator. "Is there a man here," she continued, holding her arms, "who has, day after day, got up in the morning, gone quietly downstairs, made the fire, cooked his own breakfast, sewed the missing buttons on the children's clothes, cleaned the pots and kettles and swept the kitchen? If there is such a man in the audience let him rise up, I should like to see him." In the rear of the hall a mild looking man in spectacles timidly arose. He was the husband of the eloquent speaker. This was the first chance he had ever had to assert himself.

The home town paper reflects the imperfections of the home town people as perfectly as it chronicles their advancements.

GASPEREAU NOTES

CANADA SECOND IN WHEAT PRODUCTION

Canada is now the second wheat producing country in the world, according to 1921 statistics. We produce about half as much wheat as the United States, but, they, it must be remembered, have ten inhabitants to our one. Russia, at one time an important factor in this fundamental industry, has apparently fallen by the wayside, for she does not appear in the 1921 list. The C. N. R. has carried this season—September 1st to November 13th—41,320 cars or approximately nine and three-quarters million bushels. For the similar period in 1920 the number of cars handled was 21,858.

The first real snow fall of the season occurred last night when about six inches of snow fell, and sleighs were seen on our streets to-day. The past few days and nights have been very cold, the temperature dropping as low as 16 degrees.

One of the surprises of this campaign is Mr. Phinney's development into a sound campaign speaker of the clear, rational lucid type of argument that appeals to the thinking man. He is proving himself a splendid organizer and campaign worker, bringing into play his well known efficient and thorough-going business ability and is receiving by his sterling worth and proved and sound qualities of mind and spirit, the support of many liberals as well as conservatives throughout the county.
