### Regular Session Supreme Court

The May session of the Supreme Court opened here Tuesday morning with a docket of eight cases, seven civil and one criminal. His Honor Judge Barry presiding. The following grand jurymen were present: Albert McLellan, Louis Hoffman, Wm. Goslin, LeRoy White, Robert Irving, Michael Jardine, Edward Morris, W. J. Connors, A. McCabe.

Judge Barry spoke of the lack of interest shown in the administration of justice by the three absent jurymen. Following is the docket—  
Criminal—King vs. John LeBlanc.  
Civil

Levina O'Brien, executrix of John O'Brien deceased, vs. Lonsbury Company, Ltd.

Julia Arnburg vs Archibald Alcorn. E. P. Williston for plaintiff, R. Murray for defendant.

James R. Kingston vs. William Hyland. R. Murray for plaintiff.

Edward Dalton vs Earl Ashford. J. A. Creaghan for plaintiff. A. A. Davidson for defendant.

Town of Chatham vs. H. A. Frank, London Guarantee and Accident Co. Ltd., and Jas. Robinson. Murray and Baxter for plaintiff. Teed for defendant.

Jas. C. McElwee vs. Amelia Arbeau for possession of lands in the Parish of Ludlow, stood over until June 26th Gregory & Winslow for plaintiff, McDade for defendant.

Donald Morrison vs. Charles Fortter. E. P. Williston for plaintiff, J. A. Creaghan defendant.

The O'Brien vs. Lonsbury Co., Arnburg vs. Arbeau; and Dalton vs. Ashford are jury cases. The remainder are non jury.

The petit jurymen empaneled were: Daniel Hogan, Edward McKinnon, Stafford Lindon, Michael Burns, Stanford McGibbon, E. A. Weldon, Walter Amy, Martin Fox, George Bethune, John Nugent, Herbert Fair, Robert Bremmer, James H. Vye, Wm. Whalen, Keary Brooks, Gillis Swezey, John Buteau, Howard Irving, Joseph Mitchell, John Wallace, J. Graham McKnight.

The first case before the court was that of the King vs. John LeBlanc, charged with assaulting, beating, and occasioning bodily harm to Melina LeBlanc of Neguac, on April 29th, 1919. E. P. Williston appeared on behalf of the crown and the prisoner was represented by G. M. McDade. The accused pleaded not guilty. The complainant Mrs. Joseph LeBlanc, was the chief witness of the crown, she gave evidence to show that the accused, her father-in-law, had attacked her bruising and otherwise injuring her, until she, with the aid of her sister, had been able to drive him off. Her sister, Mary Robichaud, corroborated this evidence.

The accused gave evidence on his own behalf, claiming that the two women were the aggressors, causing him the loss of a large amount of blood and rendering him in a very weak condition, necessitating the attendance of a doctor. His wife and the clerk in his store, Clara Savoy, gave evidence as to his condition after the fracas. After retiring for a short time the jury returned a verdict of not guilty.

The case of the town of Chatham vs. H. A. Frank, London Guarantee and Accident Co., Ltd., and James Robinson was stood over until Thursday, June 26th.

The first civil case was that of Dalton vs. Ashford. This is a suit to recover payment of over seven hundred dollars, claimed by the plaintiff to be owing him for a Ford Car accessories and supplies. Defence was made on a counter claim of over twelve hundred dollars claimed by defendant for labor, etc.

Order for directions in the case of Morrison vs. Hollahan, an action for damages for trespassing and cutting lumber, was decided upon by the Judge. McDade for the plaintiff and Williston for the defendant.

The case of James MacElwee vs. Amelia Arbeau, for possession of lands in the parish of Ludlow, stands until June 26th. Gregory & Winslow for the plaintiff and Mr. McDade for the defendant.

The case of O'Brien vs. Lonsbury Co., an action for the return of purchase money paid the company for the price of an auto, a case which has been standing for some years, was settled out of court. Mr. Teed, K. C., appearing for the plaintiff, announced to the court that the matter had been adjusted. A. A. Davidson, K. C., for the defendant.

### G. W. V. A. Hold Regular Meeting

Newcastle, May 23—Newcastle Branch of the G. W. V. A. met last night in regular semi-monthly session (second and fourth Thursdays), the president, Andrew Platt in the chair, John P. Ryder, secretary.

The secretary reported the membership up-to-date of last meeting 42 the district being the Western part of the country from Douglastown and Nelson to the boundaries of York Co. Receipts had been \$192.55, expenditures \$61.96, leaving a balance of \$130.59 on hand.

Two new members were received Pte. A. H. Morrell and Gunner Bert McLean.

J. Garfield Troy reported from the Provincial G. W. V. A. meeting which he and J. Cleo Demers attended last week as delegates.

The delegates had determined to ask the government for a gratuity of \$2,500 each, as the unemployment question was serious here, more serious in Ontario, and worse in the Middle West.

It was reported that the committee recently in charge of the Y. M. C. A. campaign had some \$300 left over, which they were desirous of dividing between the two Northumberland commands of the G. W. V. A.

The secretary was instructed to write the chairman of the police committee demanding an explanation.

It was reported that Hon. Mr. Veniot and the Dominion Department of Marine were using the returned soldiers.

We Are As Full of Deadly Poisons As A Germ Laboratory.

### AUTO-INTOXICATION OR SELF-POISONING

"FRUIT-A-TIVES" Absolutely Prevents This Dangerous Condition.

The chief cause of poor health is our neglect of the bowels. Waste matter, instead of passing from the lower intestine regularly every day, is allowed to remain there, generating poisons which are absorbed by the blood.

In other words, a person who is habitually constipated, is poisoning himself. We know now that Auto-intoxication, due to non-action of the bowels, is directly responsible for serious Kidney and Bladder Troubles; that it upsets the Stomach, causes Indigestion, Loss of Appetite and Sleeplessness; that chronic Rheumatism, Gout, Pain In The Back, are relieved as soon as the bowels become regular; and that Pimples, Rash, Eczema and other Skin Affections disappear when "Fruit-a-tives" are taken to correct Constipation.

"Fruit-a-tives" will protect you against Auto-intoxication because this wonderful fruit medicine acts directly on all the eliminating organs.

50c. a box, 6 for \$2.50, trial size 25c.

### Chatham Man Dies Suddenly

Chatham, N. B. May 25—Citizens of Chatham were deeply grieved on Saturday to learn that Allan W. Watters, who has been connected with the railway interests in this town for thirty-four years, or almost from their inception, had passed away after a brief illness of barely twenty-four hours duration.

The late Mr. Watters was one of the most highly respected citizens of the community. The deceased had followed railroading practically all his life and there was no better known railway man on the whole North Shore. Born sixty-two years ago at Westfield, Kings County, on March 28, 1857, he first entered the railway service forty-five years ago, being connected with Consolidated European and North American Railway as early as 1874, and for three years, from 1874 to 1877, was operator at Grand Falls. He grew up with the railway development in New Brunswick. From 1877 to 1881 he was agent of the New Brunswick Railway, also in the upper west end of the province, and for four years, 1881 to 1885, was connected with the Western Telegraph Co. The opening of the Chatham branch line from this town to connect with the main line of the International, one of the late Hon. J. B. Snowball's enterprises, rendered an expert railroad man necessary here, and Mr. Watters, came as agent and later was made traveling freight agent and superintendent of the Canada Eastern when that railway was built through to Fredericton.

Mr. Watters was of Empire Loyalist descent and was a member of the Oddfellows order. He leaves besides his wife and family of five children, Signal A. Watters, of Chatham; Earl, in Chicago; Carl, in Dauphin (Man.); Bruce, of Chatham, and Gwendoline at home. His aged mother, Mrs. Phoebe Watters, also survives, living in Clinton, Ohio, where also one brother, Byron, and a sister, Mrs. Finley Morrison, reside. Another brother, Harry, is living in Oregon.

The funeral took place Monday afternoon.

### Blissfield Parish Contribution To

The "Union Advocate" has been requested to re-print the following letter:

(To the Editor of the World) Would you kindly give me space in your valuable paper to give an account of the money collected in the Parish of Blissfield on account of the Salvation Army Million Dollar Fund.

Perhaps I should explain why I am so late with this report. On the 25th of Feb. last I was in Newcastle and paid what money I had to Mr. J. H. Troy, the treasurer. He told me there were several collectors who had not made returns yet, so I might collect on and settle in March when I expected to be in town again. I was in Newcastle on the 10th of March, but Mr. Troy was sick and I was unable to see him. Then I expected to go to Newcastle to attend County Court, first of April, when I would settle up this fund, but that trip was called off and about that time Mr. Troy unfortunately died suddenly. Then I had to correspond with Mr. Burchill to learn who I would remit balance to and he advised me to Mr. Perley Russell. Hence the delay.

Memo of amounts collected in Parish of Blissfield and how it was paid over: Collected in—

### Date Set For World Peace

Paris, May 29—(By the Associated Press).—June fifteenth is the earliest possible date on which the German treaty can be signed if no obstructions are encountered, but June 29 is the more probable date for its signature, according to a member of the peace delegation who discussed the situation with the correspondent today.

The German counter-proposals have been received with the greatest interest by the members of the peace conference, especially the claims for immediate membership in the League of Nations, for a plibiscite to decide the disposition of Galicia, and for the fixing of a definite sum for reparations.

If the fortune teller tells you something bad, you worry about it. If good you can't believe it.

### THE VALUE OF A CLOVER SOD FOR THE CORN CROP

(Experimental Farms Note.)

Ideal soil conditions for the corn crop are represented by a well-drained, medium loam plentifully provided with decayed vegetable matter (humus). That the successful growth of corn is closely associated with abundant soil humus will be clearly apparent on a brief consideration of its functions as related to the needs of corn.

Humus is the most important soil constituent and imparts that highly desirable, mellow physical condition, denoting warmth and life, to both light (sandy) and heavy (clay) soils. The practice of manuring is based on this fact. Humus is the medium which supports the favourable bacterial life of the soil and is the chief source of the valuable nitrogen which these organisms release, along with the mineral constituents of humus, for the nourishment of the growing crop. Furthermore, the acids produced during the decomposition of humus exert a solvent action on the mineral soil compounds, liberating phosphoric acid, potash, etc., in assimilable forms. Humus acts like a sponge, absorbing and retaining moisture: it is the upper-soil reservoir of water which it yields up gradually to the feeding roots and will thus enable a corn crop to withstand or more rapidly recover from the effect of a prolonged period of drought.

For its favourable germination, corn demands a warm seed bed, and to lack of this essential condition many failures are due. Corn makes a rapid, succulent growth and, like all leafy crops imbibes and transpires water freely, requiring therewith a bountiful supply of nitrogen and mineral for the building up of its tissues. A good crop of red clover (cut for hay) is an ideal fertilizer of corn; the decaying residues of clover stems, leaves and roots furnish a large amount of humus rich in nitrogen. Clover, alfalfa and other legumes possess the unique faculty of assimilating atmospheric nitrogen and thus of enriching the soil in that valuable element. Furthermore, their deeply rooting roots draw mineral plant food, in solution from the subsoil and in their subsequent decay, liberate this mineral matter in zones accessible to the roots of corn.

A sod carrying a heavy aftermath of clover or alfalfa may furnish such an abundance of humus forming material as to dispense with the necessity for the addition of barnyard manure. Investigations made by the Division of Chemistry, in connection with experiments conducted at the Central Experimental Farm, Ottawa, have shown that a vigorous crop of clover will contain, at a moderate estimate, in its foliage and roots, from 100 to 150 pounds of nitrogen, 30 to 40 pounds of phosphoric acid and 85 to 115 pounds of potash per acre, approximately equal, in fertilizing value, to ten tons of good barnyard manure. Further investigations showed that the clover residues ordinarily remaining after removing the crop, collected immediately before spring ploughing, contained from 60 to 80 pounds of nitrogen, 20 to 30 pounds of phosphoric acid and 50 to 70 pounds of potash per acre or the approximate equivalent, in fertilizing value, of six tons of the best barnyard manure.

### Hawker and Grieve Rescued

London, May 25.—Missing for six days and virtually given up for lost, Harry G. Hawker and his navigator, Lieutenant Commander MacKenzie Grieve, the British aviator, who essayed a flight across the Atlantic ocean without protection against disaster save what their frail airplanes afforded, are safe tonight, although a British warship off the Orkneys tomorrow they will reach the mainland and will proceed to London where they will be proclaimed as men returned to life.

Some 1,100 miles out from Newfoundland and eight hundred from the Irish coast on Monday, May 19, the lone aviators, making the best of an engine which was falling to pieces, were forced to alight on the water. The little British steamer, Mary, bound from New Orleans and Norfolk for Aarhus, Denmark, picked the wayfarers up and continued on her northward voyage.

The Mary carried no wireless outfit. Looking for assistance, the aviators were obliged to withhold the great bulk of the message until they were within sight of London, where the information was relayed by means of cables that Hawker and Grieve were rescued last night.

Immediately word was flashed to the British admiralty, which sent out a destroyer, and a British battleship, the York, to meet the aviators. The two vessels took the aviators on board and later transferred them to the flagship, the York.

From the king's landing Hawker sent a message to the admiralty that he and Grieve were safe and that they were being taken to the hospital.

The country stirred by the good news that the aviators were safe. The difficulties of communication some time must have, before the full details of one of the most remarkable voyages ever undertaken are known.

The one person in England who had always held hope was Mrs. Hawker. She always maintained that Providence would protect her man and, though she received condolences from all classes of people, including the king, she said today that she had never ceased to believe that some time and in some way her husband would come back.

Hawker's Story of His Flight.  
The Daily Mail today prints a despatch from Thurso, Scotland, giving the simple narrative of Harry G. Hawker, the British aviator, regarding the unsuccessful attempt to fly across the Atlantic, made by himself and Lieutenant Commander MacKenzie Grieve.

After Effects of Influenza  
Often as Serious as the Disease Itself—How to get New Health  
There are few homes in Canada that were not touched by the Spanish influenza epidemic. Estimates of the loss of life caused by this epidemic show that it was almost as great as the losses caused by the war, and these take no account of the general after-effects which are sometimes as fatal as the disease itself.

Victims of the disease are generally left with impoverished blood and a weakened system. In this condition they are exposed to many dangers unless precautions are taken to enrich the blood and strengthen the nerves. The debility that invariably follows influenza is not a disease of itself. It is a general condition of unfitness. It must be met by a remedy where good results will be quickly felt throughout the entire system. In this condition Dr. Williams' Pink Pills will be found of invaluable service.

The mission of this medicine is to enrich the blood, and this new, red blood carries renewed health and strength to every part of the body. The case of Mrs. George Louder, Hamilton, Ont., proves the value of Dr. Williams' Pink Pills in cases of this kind. Mrs. Louder says: "I had a very severe attack of Spanish influenza which left me pale and very weak. My appetite completely failed me and the least noise would startle me and make me cry. I was under a doctor's care and finally he advised me to take Dr. Williams' Pink Pills, and I had not been taking them long before I could tell they were helping me. I used altogether nine or ten boxes and am now feeling as well as ever I did in my life. I believe it had not been for these pills I would have been a chronic invalid."

Such proof as this must be interesting to influenza, and who still feel in any way weakened as the result of the trouble. It points the way to new health and strength, and if you are one of the sufferers you should avail yourself of this medicine at once. You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### Story of Great Cruelty Of the Turkish Soldiers To British Taken at Kut

The report on the treatment of the British prisoners of war by Turkey relates in detail the experiences and vicissitudes undergone by the Sixth Division. This division, under Gen. Townshend, was besieged in Kut-el-Amara from December 4, 1915, and, reduced by starvation, surrendered on April 29, 1916. The whole force was by that time naturally very much weakened by long privation. About 1,100 of the worst cases—British and Indian—with four officers, were sent down the Tigris for repatriation forthwith. They alone escaped the experience of becoming "as Buzuk Fasha" properly expressed it in the Turkish language, "the bones of the Turkish Government."

The entry of the Turkish forces into Kut took place in the morning. Within a very short time they were busily employed in dividing the men of the town. The kits of both officers and men were systematically rifled, especially for boots and water bottles. Sixty officers made their way into the hospital and soiled what attracted them. Some of their colleagues made unsuccessful attempts to stop their plundering, but were driven back. One held up the fingers of a British officer with a revolver and collected the money and property of many officers who were seen carrying their money and valuables. This went on until midnight, when the dispersed prisoners had to organize a guard for their own protection, as sent they might.

During the night and the following day the greater part of the British force officers and men were placed about eight miles up the river to Samsat, where they were to remain until they could be sent on to Bagdad. It is not a pleasant proposition for them to be at Samsat, only a few hours' ride from the desert region. Turkish soldiers were sent to guard the men for about a week. The men for about a week. The men for about a week. The men for about a week.

Their state of chronic confusion in all matters of supply and transport was a familiar story, but, a long, all necessities had to be demanded and redemanded, argued about, insisted on, and more especially waited for. But over and above all this there appeared one sign after another that the help which the British officers themselves could give was to be hampered and largely rejected. On May 3, when the column of prisoners was to set out on the 100-mile march to Bagdad, these officers learned to their consternation that they were to be separated from their men, by this time they well understood what the consequences would be. They did what they could by urging upon the Turkish commanding officer's condition, by stipulating that they should not be required to come more than eight miles a day, and by setting aside the large number who were unable to make the journey at all except by boat. This number was much reduced, but the limit of the day's march was expressly agreed to. Thus the officers had to leave the men with whom they had shared the long hardships of the siege, and for all it was a deeply trying moment. They recorded how great was the contrast, even in the wretchedness of the camp at Samsat, between the men's disciplined bearing and that of the Turkish soldiers around.

It was arranged that the officers and the absolutely unfit should be sent to Bagdad by river, and on May 9 and May 11 they embarked in two heavily-loaded boats. Everyone was gradually relieved of more and more of his possessions. On the day of the departure the generous weight of his allowance had been granted to each officer; this was reduced by successive stages, from 200 pounds to 100, and then again to 50, and at each stage the surplus disappeared, to be seen no more. The river journey was long and crowded, particularly for one of the boats, which was stranded for several days through shortage of fuel.

The Turkish commandant had kept his promise about the length of the day's march for one day. On the second the men were made to march 18 miles, and afterward 12 to 15 miles daily, lying at night on the open ground. They were herded like sheep by mounted Arab troopers, who freely used sticks and whips to flog forward the stragglers. Foot was very short, the heat was intense, the clouds of dust perpetual, and a great number of the men had now neither boots nor water bottles. Their escort stripped them still further; by the time of their arrival at Bagdad most of the Arab guard were dressed in odds and ends of British uniforms, stolen during the march. There was little or no control by the Turkish officers, who usually rode at the head of the column. So, after nine days' march, the column arrived at Bagdad on May 15, and were marched for three or four hours through crowded streets before being taken to the place where they were to camp.

Meanwhile, the boatload of officers had already reached the city, and had likewise been exhibited to the crowd, which received them in unimpassioned silence. There remains to be told what had happened to the main mass of the prisoners, those who had been judged capable of the journey up country.

### This is Better Than Laxatives

One NR Tablet Each Night For a Week Will Govern Your Constipation and Make Constant Dosing Unnecessary. Try It.  
Poor digestion and assimilation mean a poorly nourished body and low vitality. Poor elimination, a clogged bowel, fermentation, putrefaction and the formation of poisonous gases which are absorbed by the blood and carried through the body.  
The result is weakness, neurasthenia, disease, coated tongue, irritable bowels, indigestion, loss of energy, nervousness, poor appetite, impure blood, skin eruptions, pimples, skin diseases, and often times serious ailments.  
Ordinary laxatives, purges and cathartics—sals, oils, calomel and the like—may relieve for a few hours, but such lasting benefit can only come through use of medicine that cleans up and strengthens the digestive as well as the eliminative organs.  
Get a 25c box of Nature's Remedy (NR Tablets) and take one tablet each night for a week. Relief will come the very first dose, but a few days will elapse before you feel and realize the fullest benefit. When you get straightened out and feel just right again you need not take medicine every day—an occasional NR Tablet will then keep your system in good condition and you will always feel your best. Remember, keeping well is easier and cheaper than getting well. Nature's Remedy (NR Tablets) are sold, guaranteed and recognized by your druggist.

### LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers.  
Doesn't hurt a bit! Drop a little Frezzone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!  
A tiny bottle of Frezzone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation. Frezzone is the sensational discovery of a Cincinnati genius. It is wonderful.

**GLASS HOUSES**

"WITHIN ten years people in this country will be building houses of glass which will excel in sanitary appointments, beauty and durability and also low cost of maintenance any type of structure of the present time. In other words, the American people within ten years will be living in glass houses. They will thenceforth be unable to throw stones."

This was the interesting declaration made recently by Rodger S. Pease, one of the oldest glassmakers in the United States, a man who has taken an active part in all the improvements that have set the glass world face to face with new conditions and placed it in line for the greatest development in its long history. By glass houses Mr. Pease said he meant just what he said—foundations of concrete which are now recognized as standard; the walls of wired glass and the floors of tile, covered with a light sheeting of wood. Such a building will prove practically indestructible, can be made of any set of colors desired and requires no painting, no papering inside, will be sound proof, moisture proof and fire-proof.

Mr. Pease has planned a house that will be composed of glass and is going to have it finished in some color that will make it attractive, and such colors will be permanent.

The moment this idea is started, Mr. Pease declared, the public will be quick to see the value of the material. Its cheapness and reliability are understood. Glass, he said, is the most honest and most easily understood material in the world. It is not mysterious, and people will not have to employ experts to see that the quality is right. The glass for the walls of houses need not be transparent, but dense, like slate or stone. It will, however, be hard and durable.

The roofs can be of the same character of glass. It withstands heat and cold alike, and whatever patents may interfere with the cheapness of the material now are so nearly expired that it will be but a short time before these will be eliminated as a cost factor.—Pittsburg Gazette-Times

**THE FOREIGN ELEMENT.**

The war caused Canada to scrutinize more carefully its foreign population, and the recent strike troubles have led to a further analysis of citizenship, particularly in the western provinces. In the days before the war there was little discrimination in the matter of immigration, and when the testing time came this country found that it had within its borders not only a great number of enemy aliens but also many people from other countries who were unwilling to fight for Canada, who had not learned English, and who had no appreciation of the nature or value of free institutions.

Coming down to present day conditions, recent statistics show that in Manitoba there are 170,000 men above the age of sixteen years. Of these 110,000 are of British or Canadian stock, 29,000 are naturalized foreigners, and 30,000 are aliens who never have been naturalized. In other words, 68,000 of the men of Manitoba, about two-fifths of the whole, are of foreign origin; a great many of them live in the cities, and their presence there has greatly complicated the labor troubles.

Canada's new immigration law will lead to the exclusion of many such foreigners in coming years, but in the meantime it may be necessary to

**COPENHAGEN CHEWING TOBACCO**

Copenhagen is used differently from ordinary chewing tobacco.

Take a small piece, for a start, and put it between the lower lip and gum, in the centre.

Afterwards you can increase the size of the piece to suit the strength of the chew you desire.

Copenhagen is strong, because the tobacco of which it is made is cut into fine grains which makes it impart its strength thoroughly and quickly.

Hence, a little "pinch" goes a long way, showing that Copenhagen is not only an unusually economical chew, but also one of the finest quality, being made of the best, old, rich, high-flavored tobacco.

send back to the country of their origin the more objectionable of those who have already settled in Canada. There should be no hesitation in the cases of any who preach or attempt to practice revolutionary doctrine. This country cannot afford to show tenderness toward those who are the enemies of the constituted authorities, or who wish to introduce here the schemes and principles which have been such a curse in other lands, notably Russia. Nor should Canada hesitate about expelling men of British birth if they preach anarchy or seek to upset the free institutions under which we live. We have in this country orderly and legal methods for bringing about reforms. These are not necessarily slow. By combined action at the polls a majority may always impose its will upon the government of the day, civic, provincial, or national, or elect a new government representing its ideas. There are men who are not content with these orderly and constitutional methods, but who believe that a minority should by force seize upon power and use it to their own advantage. All such need a lesson from the majority of Canadians who are law abiding and who do not propose to tolerate revolutionary methods. The constituted authorities always make a mistake when they temporize with sedition or violence.

**MUSICAL TREAT FOR NEWCASTLE**

Lovers of Music are to be given a musical treat, as is seldom given in towns of this size. Paul Dufault, Canada's Greatest Tenor, who has been applauded all over the world, is making a tour from Halifax to Vancouver, and the management of the Newcastle Opera House, has made arrangements for him to appear at the Opera House, on Wednesday, June 11th.

This is an opportunity of a life time and should be taken advantage of by all lovers of music.

The Regular Prices charged in large centres where Paul Dufault has appeared, ranges from \$2.00 to \$5.00 a seat, but on account of the trans-continental tour which he is now

PAUL DUFAULT

making, in smaller places such as Newcastle, he has consented to allow seats to be sold at 50c, 75c, and \$1.00, which enables music lovers of small towns to enjoy some of the good music which is enjoyed by larger cities.

These prices are within reach of one and all, and the management of the Opera House should be given the support due them, in procuring talent of this high standard.

A Heavy Cash Guarantee has been given in order to secure this wonderful artist and Newcastle should show their appreciation of this class of entertainment by filling the Opera House on Wednesday evening June 11th, and at the same time listen to music, which is seldom Newcastle's good fortune to hear.

Paul Dufault is accompanied by a Pianist and Violinist, who are also eminent artists, and all previous concert records for attendance should be broken on this occasion.

**MONTREAL:**

(The Gazette)—Paul Dufault is essentially a singer of charm, using his beautiful voice in a faultless manner and infusing his melody with a magnetic quality that delights his audience.

**TORONTO:**

(The Globe)—Paul Dufault won a pronounced triumph. His pure lyric tenor voice is of exquisite sweetness, and backed by great dramatic expression.

**QUEBEC:**

(The Chronicle)—Paul Dufault was the triumph of the evening. His voice is of extraordinary power, and beauty, and in addition he possesses a personality which at once puts him into accord with his audience.

### Weekly Agricultural Report

Weekly Report Agricultural Conditions in New Brunswick, as reported by District Representatives of Dept. of Agriculture.

Reports from Westmorland, Albert and Kent state that seeding operations are being rapidly finished, some of early sown grain already coming up. Rains have delayed seeding operations somewhat, but are causing a rapid growth of meadows.

Northumberland, Gloucester and Restigouche reports state that seeding of wheat has been finished, with an average about thirty per cent less than last year. Clover has wintered well and meadows are looking good.

Horses are generally reported in pretty fair condition for the spring work. The condition of the cattle is, generally speaking, not so good.

Many are coming out of winter quarters in thin flesh, owing to shortage of hay. Dairy cows are selling at from \$75.00 to \$100.00. The price of dairy products is none too high, considering the very high price of feeds of all kinds.

Northumberland reports farmers feeding their cattle better and the average milk production per cow increasing from year to year.

Farm labor is scarce and wages average from \$40.00 to \$60.00 per month, with board.

### Hawker Puts Himself Right

London, May 30—Harry G. Hawker, in an interview in the Evening Globe regarding American press comments on the speech he made at a luncheon to newspaper men, Wednesday, said:

"The Americans misunderstood my point. I was not criticizing their attempt. It is impossible to compare the two flights. We did not wish to have battleships supplied by the government along the route.

"My remarks were intended for those who were criticizing the government for not supplying them. I wish the Americans the very best of luck. Their flights have been beautifully organized jobs from beginning to end.

"I am very sorry, indeed, that the American press has misunderstood me. Nothing was farther from my mind than to criticize the Americans."

#### AMHERST STRIKE SETTLED

The Robb Engineering Works Ltd., and the employees of that concern have arrived at an amiable agreement concerning hours of work and the rates of pay. A committee of the men held a number of meetings with Mr. D. W. Ross, vice-president and general manager of the firm, and an agreement was eventually reached.

By this step the Robb Engineering Works Ltd. are one of the first concerns in the Dominion of Canada to adopt an eight hour day.

Men and management met half way, both sides giving concessions and without any difficulty a satisfactory solution was presented.

One can buy ten cents' worth of most anything now for thirty cents.

### Kings County Will Get The Colors Carried By The 26th

St. John, N. B., May 28.—Arrangements for depositing the New Brunswick colors carried by the 26th Battalion through France, Belgium and Germany, in Trinity Church on next Sunday morning are off. An unfortunate situation has arisen. The colors have been claimed by representatives of Kings County and the 26th Battalion superintendent.

When the franchise was signed the carrying of colors was permitted but the 26th had never except a set stored in a bank vault here. When this information was called home Senator George W. Fox or former C. O. of the 26th Battalion called an order of the 26th colors when they were in London. An order was sent to secure them and on their triumphal march into Germany the colors were carried

at the head of the New Brunswick Battalion. As the colors actually carried by the 26th they were entitled to receive the inscription of the battle honors won by that unit.

When news of these plans reached Mayor McKenna, of Sussex, he telegraphed to Senator Fowler, protesting that these colors had been provided by money contributed by Kings County people on the understanding that after the war they were to be deposited in the vault here at Hamilton and asking that this programme should be carried out. Senator Fowler has wired in reply that this statement of facts was correct and that if it were the wishes of donors the original plans must be followed. Kings County apparently will get the colors.

### Black as Dirt About the Eyes

Liver Was All Upset and There Was Pain Under the Shoulder-blade — Two Interesting Letters.

So many people suffer from troubles of the liver that we feel sure these two reports, just recently received, will prove interesting reading and valuable information to many readers of this paper.

Mrs. F. L. Harris, Kentley, P.O., Seale, writes: "I was suffering from liver trouble—had a heavy pain under one shoulder blade all the time, and was nearly as black as dirt round the eyes, so I concluded to try some of Dr. Chase's Kidney-Liver Pills. I did so, and before I had taken one 25c box the pain had left me and I commenced to gain in flesh, and by the time I had taken two boxes I was completely cured and felt like a new person. My trouble was caused by heavy work out-of-doors, and, of course, heavy eating and drinking. I would advise anyone suffering from liver or liver trouble to give Dr. Chase's Pills a try."

Mrs. Charles Terry, Teased, Ont., writes: "Before I was married I was troubled with enlargement of the liver. My liver became so enlarged that you could detect the two lumps on either side and it was only with difficulty that I could get my clothes on. A friend advised me to get Dr. Chase's Kidney-Liver Pills and take them. I commenced the treatment and had good results, which cured me of that trouble. Soon about two or three years after that I was troubled with liver trouble and my doctor advised me to get Dr. Chase's Kidney-Liver Pills and take them. I secured a box and took them and in fact any of the ailments which we have mentioned were cured."

### Methodist Church Quarterly Board Meeting

The fourth meeting of the Newcastle Methodist Quarterly Board was held last Tuesday evening, Rev. F. B. Bertram in the chair, H. D. Atkinson, secretary. Others present, John H. Ashford, Mrs. John H. Pollans, A. E. Pettit, H. H. Stuart, H. Williston, John S. Allison, J. Robinson Allison and Rev. Geo. Steele.

Rev. Dr. Steele referred to the fact that Newcastle was the first church after his ordination.

The membership of the church was found to be 130.

The Sunday School report was submitted by Assistant Superintendent H. H. Stuart and W. M. S. and the Ladies Aid Society reports were given by Mrs. T. J. S. S.

Following were elected Stewards for 1919: John H. Ashford, John R. Allison, J. Robinson Allison, A. E. Pettit, H. D. Atkinson, H. Williston and Joseph Sobey.

H. D. Atkinson was re-elected Recording Steward.

Additional members of the Quarterly Board for the quarter of three will be elected from the congregation at the first prayer meeting after conference.

Rev. F. B. Bertram was unanimously invited to remain another year in the pastorate, and accepted.

A communication received from the Newcastle Baptist Church regarding their plan to purchase the building which stands on the corner of the street was discussed.

The suggestion was accepted and arranged to refer to Rev. F. B. Bertram and J. H. Ashford.

Following were elected District Visitors: J. H. Ashford, John R. Allison and A. E. Pettit.

Following were elected additional members of the S. S. Board of Missions: J. H. Ashford, J. Robinson Allison and H. Williston.

It was resolved to receive the report of the Newcastle League later.

The meeting was then addressed by Rev. Dr. Steele.

Dr. Steele said that ministers on Missions will be paid \$1200 a year plus \$150 for horse keep. The semi-independent circuits are not so well off. It was hoped that that class of circuits would disappear, becoming independent or being put into the mission class.

It was resolved to have a printed financial statement for the past year. J. H. Ashford, H. D. Atkinson and H. Williston were appointed a special financial committee.

Following were appointed a committee to visit Maple Glen to confer re. services there: J. H. Ashford, H. H. Stuart and H. Williston.

It was decided that an appeal on the last Sunday of June be made for the Miramichi hospital.

Adjourned.

### Prorogation May Come first Week in July

(Canadian Press) Ottawa, May 27.—With the return of the House of Commons to the capital the date of prorogation has become a matter of speculation. The majority of opinion is that the House should adjourn for the summer vacation at the end of the first week in July. Prorogation of the House is expected to occur in the first week of July.

At the Happy Hour Thursday.

### 57,948 Brought From Overseas During May

London, May 29 (C. A. P.)—The Empress of Britain sailed on Wednesday for Quebec carrying 133 officers, four nurses and 2,559 other ranks.

Ottawa, May 29.—The total number of troops and dependents moved from overseas to Canada during the month of May, according to practically complete figures available at the Militia Department was 57,948. This movement constitutes a record.

Of the 57,948 brought across this month 55,735 were troops and the remaining 2,215 dependents.

The Department states that there are approximately 84,000 troops still to be brought over. This figure includes those now in hospitals. If nothing unforeseen occurs, all Canadian soldiers should be in Canada by the middle of July.

### Willard Leaves Toledo To-Day

Los Angeles, May 27.—Richard Willard need not worry about his being in hand, according to Jess Willard, champion heavyweight boxer, here today, when he learned of a statement in Toledo, Ohio, by Rickard, promoter of the championship bout to be held there July fourth, between Willard and Jack Dempsey, to the effect that Willard had not left here as soon as he should. Willard said he would leave for Toledo tomorrow.

"I agreed to be in Toledo a month before the battle, or June fourth. I'll be there," said Willard. The champion has been training here for several weeks. He boxed several fast rounds early today with Walter Hemple, one of his sparring partners.

### Change of Time On C. N. R. Lines

Summer Schedules Effective on June 1st.

The change of the time schedules on the C. N. R. Lines effective June 1st will not greatly effect the train service here. No. 3 Maritime Express from Halifax will arrive at 12:35 a. m. daily except Monday, No. 199, Ocean Limited, at 4:40 p. m. daily. No. 4 Maritime, will leave for Halifax at 6:10 a. m., daily except Sunday and No. 200 Ocean Limited, at 1:45 p. m. daily.

There is no change in the time of No. 25 and No. 26 between here and Campbellton.

### Big Purse For Free-For-All

The entry blanks for the opening meeting of the Maritime Circuit at Moncton on July 1st and 2nd have been received. The feature event of the programme is the free-for-all for \$1,000, the largest purse ever offered in the Maritime Provinces, but, as the conditions call for seven to enter and five to start, there is some question as to whether it will come off as advertised.

There are four other events on the programme, as follows:

First day, July 1—2:15 class, trot and pace, purse \$300; 2:17 trot, purse \$300; 2:25 trot and pace, purse \$300.

Second day, July 2—2:30 trot and pace, purse \$300; free-for-all trot and pace (Hotel Brunswick and Merchants' purse), \$1,000.

The complete list of dates for the Maritime Circuit are also announced for the first time, viz: Moncton, July 1 and 2; Chatham, July 9 and 10; Springhill, July 19; Sackville, July 25 and 26; Sussex, Aug. 1 and 2; St. John, Aug. 8 and 9; Moncton, Aug. 15 and 16; Springhill, Sept. 1 and 2; St. Stephen, Sept. 9 to 13; Fredericton, Sept. 15 to 18; Chatham, Sept. 24 to 26.

## HALIFAX DEFEATS MAYOR HAWKINS

Halifax, May 28—(U. P.) (14) elected Mayor J. S. Parker in the 1919 election for the municipality of 422. The figures were: Parker 2,343; Hawkins 1,921. The defeat of Hawkins by a comparatively unknown man is remarkable and is the result of the tremendous amount of criticism on account of bad arrests, great dust and general backward state of city affairs. The revolt of the aldermen, who nearly all resigned on account of Hawkins' eight months ago is another contributory cause.

## Allies Have Reply Of Germans

New York, May 29—The Associated Press tonight issues the following: The representatives of the Allied and Associated Powers at last have before them the answer of Germany to the terms of the peace treaty. Under the procedure adopted by the Peace Congress the reply of the Germans to the various clauses of the treaty, consisting mainly of counter-proposals seeking to lessen the severity of the Allied terms, the members of the Council of Four will digest the view of the enemy and report back their decision as quickly as possible. This decision will be final, and Germany then will be compelled either to sign or reject the treaty.

## THIS WEAK, NERVOUS MOTHER

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Philadelphia, Pa.—"I was very weak, always tired, my back ached, and I felt sickly most of the time. I went to a doctor and he said I had nervous indigestion, which added to my weak condition kept me worrying most of the time—and he said if I could not stop that, I could not get well. I heard something about Lydia E. Pinkham's Vegetable Compound and I took it for a week and felt a little better. I kept it up for three months, and I feel fine and can eat anything now without distress or nervousness."—Mrs. J. WORTHLING, 2842 North Taylor St., Philadelphia, Pa.

## Growing Tomatoes in Alberta

The production of tomatoes in large quantities on the prairie does not appear to have been a success in the past, but prairie people are of a type who are forever doing something which was never done before. Messrs. G. O. Kerr and J. E. Terrill, of Lethbridge, Alberta, have observed for some years that tomatoes in small quantities were matured in the Lethbridge district and decided that there was no reason why the experiment should not be made on a commercial scale. As a result about two acres of tomatoes were set out last summer on land farmed by Mr. Kerr, a few miles east of Lethbridge. The plants were started with slips in Lethbridge and set out on June 7, 7, and 8, at which time they were from 6 to 8 inches in height. Three thousand five hundred plants were set in the plot, some of them three feet apart and some four feet apart. The experience of the season seems to indicate that the four foot plant is preferable. The soil secured was an old pasture which had since been in alfalfa and is protected by a wind break of trees on the western side. It is a very rich loam with a gentle south slope and, of course, is irrigated. The land was cultivated in the ordinary way and irrigated before planted and three times afterwards.

Gathering Tomatoes in Alberta.

The first of the ripe fruit was available seven weeks after setting out the plants, or about the end of July. During the month of August from five to six hundred pounds of beautiful ripe fruit was taken off the plot each day and this rate of production continued into September. The total yield of the plot is estimated at 25,000 pounds and a ready market was found for the product in the city of Lethbridge, the early ripe tomatoes bringing twenty-five cents a pound and the latter crop fifteen cents a pound. The gross price of \$5,250. According to Mr. Kerr, no difficulties were experienced in the production of this crop. The vines were trimmed early in July for the purpose of producing heavier fruit and also admitting more sunshine which ripened it very rapidly. The tomatoes were as large and as well developed as the best imported stock from British Columbia or Washington and, being local grown, they, of

course, reached the consumer in better condition. The crop was so heavy that in many cases the support stakes which had been put in for the vines to climb on were broken down. One vine was noted which had eighty-three tomatoes on it. Up to the middle of September no damage had been experienced from frost, although as a precautionary measure flat straw had been dumped about the plot, so that smudges could be started if necessary. Mr. Kerr points out that the essential thing in the production of this crop was the irrigation, which not only increased the amount of fruit but by affording ample moisture at the right time resulted in early ripening. Without irrigation it is doubtful if the experiment would have been at all successful, and while it is not suggested that

## U. S. Gets German Ships

Washington, May 26—Official advice reached Washington to-day that a full understanding had been reached by the council of four at Paris by which the United States will keep all the German ships seized in American ports when this country entered war. Great Britain had proposed that the 700,000 tons of German shipping seized in this country, as well as German ships seized in other countries, be placed in a common pool and allotted on the basis of tonnage lost through action of enemy submarines. The United States had refused to accede to this plan.

## Will Ring Bells On Peace Day

London, May 27—The famous peal of bells in St. Clement's church, in the Strand, near the American Eagle Hut, will be heard again on Peace Day, after a silence of seven years. The bells are notable for their chiming the old rhyme "Oranges and Lemons," to which tune the children of England still play one of their favorite games. This tune is said to originate from the time when servants in the neighborhood visited all the lawyers' offices and rooms in Clement's Inn and presented oranges and lemons to the tenants while the bells were ringing. St. Clement's possesses a clock which strikes the hour twice, first on the tenor bell, and, after a pause, on the Sanctus bell, which was cast in 1588.

A CORRECTION. At the dedication service at a country church the pastor found it necessary to make the following announcement: "The collections today will be devoted to the arch fund, not, as was erroneously printed in the morning paper, to the archfund."

A GOOD GINGER BREAD Place in bowl one-half cup molasses, one-half cup brown sugar, four tablespoons shortening, one egg, two cups sifted flour, one-half cup sour milk, one level teaspoon ginger, one-half teaspoonful allspice, two teaspoons cinnamon. Beat to mix, pour in well greased and floured loaf-shaped pan and bake thirty minutes in moderate oven.

**NEWCASTLE CONCERT BAND**  
The Newcastle Concert Band held practice last evening in the Town Hall, and a large number of members were in attendance. There is a good opportunity to have an up-to-date Band organization in town, now that a number of the boys have returned from overseas and who were former members of the band. With a little assistance, the members could re-organize, and in a very short time provide the town with Band Music, which would be greatly enjoyed by all.

A Tag Day might be held, whereby a good sum could be realized to purchase the necessities required for the organization.

**PUBLIC NUISANCE**  
A number of young men, who apparently have nothing else to do, have contracted the habit of going about the streets late at night, yelling and screaming at the top of their voices, and using most profane language. Peaceable citizens should not be annoyed by such practices, and the night watchman, should have no difficulty in ascertaining who the offenders are.

**44TH BATTALION COMING**  
The 44th Battalion, one of the battalions which made up the New Brunswick regiment, sailed on May 23th on the Empress of Britain and is expected to reach Quebec in a few days. The 44th will come direct to St. John for dispersal and will be the second infantry unit to come to that city intact.

This battalion was originally a Winnipeg unit, but was gradually filled up with drafts of New Brunswick men and eventually made a part of the New Brunswick regiment, the 29th being the original battalion of that regiment.

**MR. ERNEST DOIRON, OF SHEDIAC, TO LOCATE AT CHATHAM**  
Shediac, N. B., May 27.—(Special)—Mr. Ernest Doiron, son of Mr. J. D. Doiron, of this town, who returned a few weeks ago from service at the front, has decided to open an office in Chatham for the purpose of carrying on the legal profession. Mr. Doiron who was a member of the well known 6th Battery served many months in the front line, being among the fortunate few who escaped the Hun bullets. Mr. Doiron, who is a graduate in law, of Dalhousie University has the distinction of being the first Shediac student who has been awarded the Rhodes Scholarship. His friends here wish him every success in the career he has chosen.

**ANOTHER NEW INDUSTRY**  
Newcastle town, many of whose public spirited citizens are actively engaged in making it a booming commercial centre, is to have yet another new industry, a wholesale and retail produce store. Its Manager will be Mr. John Russell, who has been for the past five years, manager for the Maritime Hide Co., Ltd., for the Maritime Provinces, with the Head Office at Newcastle. They have two flourishing branches in Halifax and Summerside. The Maritime Hide Co's business has grown very rapidly, extending into every town and village of importance throughout the Maritime Provinces, and their business connections are calling for an enlargement of their business to cover the grain, feed and fruit lines. Hence the formation of the new Maritime Produce Company to handle the above goods wholesale and retail. This Company is prepared now to quote both buying and selling prices to both purchasers and consumers. The Maritime Hide Co. have been paying the highest market prices in hides, catfish, wool, furs, etc., so will they do in the produce line. It will pay our traders to give them a call. Prospective customers can get the information by telegraphing or telephoning at the Company's expense. The Head Office of the Maritime Produce Company will be on Castle street, Newcastle, in the same building as the office of the Maritime Hide Co., which still continues under the same management. Post Office box 156, phone 33-31. Mr. Russell has had a long and honorable business career and we confidently predict for him the same measure of success in the future as in the past.

**BRIDGE CONTRACT AWARDED.**  
The New Brunswick Public Works Department announces that the contract for the construction of the Parker's Brook Mouth Bridge, Parish of North Esk, Northumberland County, has been awarded to Gerald F. Creighton, of Newcastle. The price is about \$3,900.

**BASEBALL**  
A fast game of baseball was played last evening between a picked team from Chatham and a team from Newcastle composed of returned soldiers. The "Vets", proved too fast for the Chatham boys and won out by a score of 8-3.

**ENGAGEMENT ANNOUNCED**  
The engagement is announced of Miss Etta G. Simpson, Chatham, to Harold Lefore Rand. The bride-elect is the daughter of Mr. and Mrs. George H. Simpson of Chatham and the prospective groom is an employee of the Independent-Reporter, Skawbehan, Maine.

**MOST POPULAR LUMBERJACK CONTEST**  
The names of the candidates in this contest, being held by Messrs. A. D. Farrar & Co., are published in this week's Advocate on the front page. The race between the contestants is very close, and there is only a short time left for the taking of votes. The contest is going with a swing and a large number of ballots have already been cast.

A discussion regarding the term "Lumberjack", having arisen, we wish to point out, that the word "Lumberjack" is a western phrase, synonym to the eastern phrase "Woodman."

By this is meant, any person who is connected with the Lumbering Industry, insofar as the actual woods work is concerned.

A thorough "Lumberjack" is one who is competent of going into the lumber woods, and performing any work connected with a logging operation.

**ENJOYABLE EVENING SPENT**  
On Wednesday evening of last week a very pleasant affair took place at the home of Mrs. James W. Vye, Nelson, in honor of Messrs. Montgomery Vye who has recently graduated in Engineering at Mount Allison University, Ray Platt of Robb Engineering Co., Halifax and Rev. Dr. Drilon who expects shortly to leave for Fredericton to take a course in Engineering. About 30 young people were present who spent an enjoyable time with games and music. The house was very artistically decorated for the occasion with potted plants and cut flowers. Mrs. Vye who was assisted by her sister Mrs. Gaudin was dressed in white tulle. Mrs. Gaudin wore pink silk and received the guests. About 12 o'clock a sumptuous repast was served consisting of sandwiches, brown and white bread, tea, ice cream and a great variety of cake, candy and nuts, after which the guests were conveyed to their respective homes in automobiles, after a thoroughly enjoyable evening.

**MISSION BAND CONCERT**  
The Mission Band of St. Mark's Presbyterian church, Douglastown, held a most successful concert in St. Mark's Church Wednesday evening, Rev. A. Firth presiding. Along with the gate box opening, \$19.35 was realized, for Mission purposes.  
The program was as follows:
