Every Effort to Increase Power Supply Before Next Winter, Says Sir Adam Beck, Just Home

Was Given a Hearty Welcome by London Friends—Tells of Hydro Prospects—More Power by Next Year Via Queenston-Chippawa Scheme.

LONDON, Ont., March 15.—Completely recovered from his recent serious illness, Sir Adam Beck returned to London yesterday after an absence of three months in England, whither he went because of the serious condition of Lady Beck. Sir Adam himself was attacked there by double pneumonia. Lady Beck is doing splendidly following her operation, but it will be two or three months before she will be able to sail for Canada.

A party of prominent Londoners, composed of members of the City Council, London Railway Commission, the utilities commission, the Chamber of Commerce, the Rotary Club and others went to St. Thomas and met the Power Chief when he returned from the Michigan Central Express. The Mayor and other dignitaries were escorted back to this city and a luncheon at the Terraces House. Sir Adam and the party being

the guests of Philip Pocock, Vice-Chairman of the Railway Commission and Thos. W. McFarland, Chairman of the Utilities Commission.

In regard to the power situation in Ontario, Sir Adam said that every effort will be made to increase the supply before next winter. It is thought that a small block can be secured, and with the Commission following the policy of accepting no new customers for a time, he thinks this addition will make it possible to carry on satisfactorily over another winter.

In the summer or autumn of 1921 the Chippawa scheme will begin to give results and the shortage will thus be brought to an end.

In conclusion, Sir Adam said that he expects the interests will make a vigorous battle against the Hydro-radial scheme, as they have been very antagonistic since Hydro invaded the field that is to be served by the Guelph radial lines.

Big Meeting Sunday Afternoon Hears About the Gratuity Of the Great War Vets

Resolutions Passed Protesting Against the Cutting Down of Pensions to Widowed Mothers—Dr. Wilson, Head of the G.W.V.A., Gives Address

Dr. Wilson, President of the G. W. V. A. yesterday afternoon explained the gratuity question plan of his organization at a large meeting in the Grand Opera House made up chiefly of returned soldiers.

Mayor Lovelace presided and had with him on the platform besides Dr. Wilson, Aldermen, Graves, Dakers, Wood and Riffer, Rev. H. A. Priest, Lt. Col. McCordick, Major E. H. Lancaster, Ben Mesler, W. B. Burgoyne and others. The orchestra supplied good music.

Secretary Cunningham of the G. W. V. A. before the speaking commenced extended an invitation to President Harry Flynn of the United Veterans League and President J. E. Ball, of the St. Catharines branch, whom he understood were in the audience, to come onto the platform. President Ball accepted the invitation, Mr. Flynn not being present.

Mayor Lovelace in opening remarks said the presence of so many soldiers was evidence that they had not forgotten the gratuity question and it is certain that whether they were disappointed or not in getting the gratuity they could go on through life holding their heads high feeling sure they had done their duty. The Mayor made a plea for unity among the soldiers. There is no point in having three organizations. If they hoped to accomplish anything they must stick together.

Secretary Cunningham who spoke briefly, said the Mayor was right, the only way for the returned men to get anywhere is through united action, and speaking of the U. V. L.'s scheme of \$1,000, \$15,000 and \$2,000, Mr. Cunningham said it was unfair to give the young farmer \$1,000 who had been in the army a week or two by the M. S. A. The men who fought in France deserves a great deal more consideration than the man who was forced into the army at the last minute after perhaps making a lot of money out of munitions. He spoke of the many things accomplished by the G. W. V. A. working on a conservative and reasonable basis. "Some plan which will go over the top is what we must

decide on," said Mr. Cunningham.

He referred to the action of the government in reducing the pensions of widowed mothers owning their home from \$48 to \$30.

He moved a resolution protesting against this, which resolution the meeting passed with enthusiasm. It is as follows:—

Moved by G. Atkins seconded by W. Grenville, whereas it has been brought to the notice of the citizens and ex-service men here assembled that the Government, through the Board of Pension Commissioners, Ottawa, in their wisdom have issued an order in council whereby the pension awarded to a widowed mother may be reduced from \$48 to whatever the Board of Pension Commissioners may deem advisable.

And whereas it has been brought to not possible for a widowed mother to pension had been reduced from \$48 to \$30 because she owns her home.

And whereas in our opinion, it is not possible for a widowed mother to secure a home and support herself on a pension of \$46 per month, especially with the present high cost of living.

And whereas it is obvious in our minds that the widowed mother's who own their home obtained same before their son's enlistment, or through other channels than that which is supplied by the Government in the form of pensions.

Therefore be it resolved that we the citizens and ex-service men here assembled do go on record as protesting against the action of the Government in authorizing the reduction of pensions awarded to widowed mothers for the loss of their main or sole support, and we respectfully inform the Government that this action is regarded by us as an attempt on their part to "Break faith with those who sleep in Flanders fields."

And we further resolve that we do herewith request the government to immediately issue instructions to the Board of Pension Commissioners to discontinue the reductions in widowed mother's whose pensions have

IS HOME AGAIN

SIR ADAM BECK

THE WEATHER

TORONTO, Mar. 15.—A pronounced disturbance is centered this morning over the Northwest states and snow has fallen throughout Saskatchewan and Alberta, accompanied by strong northerly winds. The weather is fair and moderately cold from the Ottawa valley to the Maritime provinces.

FORECASTS—Winds increasing to gales from south and southwest becoming warmer, showers late tonight or on Tuesday but mostly fair.

Facts Point to Ex-Crown Prince

SHOWS EFFORTS BEING MADE TO SPIRIT HIS WAY FROM WEIRINGEN.

THE HAGUE, Mar. 15.—Despite semi-official Dutch assurance that neither the ex-kaiser nor the former crown prince had anything to do with the German military revolt, facts which have just come to light point strongly to a well organized effort on the part of the uncrowned spirit Friedrich Wilhelm away from his retreat on the island of Weiringen with the view to putting him on the throne of a restored German monarchy.

A Zeppelin airship and a hydroplane of mysterious ownership and purpose, which have been at Amsterdam for some days, made sudden signs of getting ready to depart yesterday. The Dutch government's secret agents who are closely watching these airships and their crews, immediately reported this and a few minutes later a Dutch officer with a small squad of soldiers arrived on the scene and forbade any move on the part of the Zeppelin and aircraft. Guards were stationed about the airship, which is understood from a well informed source that the Netherlands government feared the aircraft would make an attempt to carry off the ex-crown prince.

T. C. Robinette, K.C., died early yesterday morning as result of a stroke.

Mrs. G. H. Smith of This City And Others Officers of the I. O. D. E. Handed in Resignations

LOUTH COUNCIL

Louth Council met pursuant to adjournment at Frank's Hall, Jordan on Monday, March 8, 1920 at 10 a.m. with all the members present.

On motion of Mrs. G. H. Smith and S. C. Houseberger a by-law was introduced authorizing the borrowing of ten thousand dollars during the year if required.

On motion of W. Leidens and Wm. Scull the said by-law was read a second and third time.

On motion of Mm. Scull and Jno. G. Smith, the Reeve and Clerk were authorized to sign and submit to the Department of Public Highways of the Province of Ontario, the statement of the Corporation of the Township of Louth showing that during the period from 1st of May 1919 to 31st of January 1920 there has been paid as salary to the Road Overseer appointed under By-law No. 655 the sum of \$540 and requesting the grant as provided by the Ontario Highways Act 1915.

On motion of W. Leidens and Jno. G. Smith the clerk was authorized to draw a lease of the Municipal buildings for one year to Fark Hanigan for the sum of \$100 for the year 1920, rent to be paid quarterly, all necessary repairs to be executed by the municipality. Said municipal building being on west side of Main street in the Village of Jordan.

On motion of S. C. Houseberger and Mm. Scull that a committee consisting of the whole council be appointed to investigate the request of Mr. J. N. Smith regarding opening road.

On motion of Wm. Scull and Jno. G. Smith the Collector was relieved from collecting the sum of twelve hundred and twelve dollars as per statement.

On motion of Jno. G. Smith and Wm. Scull the Reeve and Clerk were authorized to sign and submit to the Department of Public Highways of Ontario the statement of the Corporation of the Township of Louth showing that during the period from January 1st, 1919 to March 1919 there has been paid as salary to the Road Overseer appointed under By-law No. 631 the sum of \$125 and requesting the grant as provided by the Ontario Highways Act 1915.

On motion of S. C. Houseberger and Wm. Scull leave was given to introduce a by-law to stop up and convey to Mary Ann Walter Corbett part of the unopened allowance for road between the townships of Grantham and Louth.

On motion of S. C. Houseberger and W. Leidens a number of accounts were paid.

On motion of Wm. Scull and W. Leidens the council adjourned to meet again at Frank's Hall, Jordan, on Monday April 5th, 1920 at 10 a.m.

At a mass meeting held yesterday the combined executives of the G.A.C. and U.V.L. selected Major G. W. Stoddard as their candidate for the coming by-election in Northeast Toronto.

A jury under Coroner R. H. Fleming pronounced the shooting tragedy which resulted in the death of eleven year old Elsie Dunn in Tolmorden, on Friday, to have been accidental.

Montreal Express From Boston Hits Freight; 6 Perish

TWO ENGINEERS, ONE FIREMAN AND TWO BRAKEMEN DIE IN CRASH.

BELLOWS FALLS, VT., Mar. 15.—Six men were killed, four were severely injured and several suffered lesser injuries in a head-on collision late today between the Boston and Montreal express, northbound, and a freight on the Rutland railroad four miles north of here. They died were the engineers, one passenger, one fireman and two brakemen. So far as is known no passengers were severely injured. The express left Boston yesterday morning and was late. How the accident happened is not known. The road is double tracked.

Four of the bodies were still under the wreckage last night. The dead engineers were Thomas Sullivan of Bellows Falls, in charge of the passenger train, and George Cady of Rutland, in charge of the freight. The injured were removed to hospitals. The wreckage was broken up tracks.

F. S. Kent of Rockingham, a passenger, who was taken to a hospital, died early last night bringing the death list to six. Other passengers taken to the hospital were G. A. Simonds of Portland, Maine, and Enoch Dulosh of Ludlow. Their condition is said to be serious.

The Diocese of Niagara Stands Third in List of 25 in Forward Giving

Dr. Clark, Lord Bishop of Niagara, who was in the city yesterday, congratulating classes at the Anglican Churches warmly complimented the churches on their record in the Forward Movement givings.

He said that the little Diocese of Niagara, wedged in as it is, between two other great dioceses, had stood third in the list of dioceses of the Anglican churches in Canada.

This diocese was asked for \$180,000 and you responded with over \$300,000, a splendid record," said the Bishop.

He referred to the splendid work of

the Anglican Church generally, in Canada in the Forward Movement givings. Not a parish rural or city had fallen below its allotment and many far over-reached it.

He said the splendid givings of the Protestant Churches in this Forward Movement was an excellent sign of the strength of Christianity and the loyalty of Canadians to the Christian religion.

His Lordship preached at St. Thomas Church in the morning, confirming a class of about fifty, and in the evening at St. George's where he confirmed thirty young people.

Part of Rockaway Beach, N.Y., after the great storm which smashed four hotels and several iron piers, doing about \$2,000,000 damage.

Dissentions in the Ranks of the Imperial Daughters of the Empire Dates Back Some Time, Charges Having Been Made Against Administration by Lady Kingsmill

Announcement was made last night that Mrs. A. E. Gooderham, who for some ten years has been president of the Imperial Order Daughters of the Empire has resigned from the executive and from the War Memorial Committee. It was also announced that Mrs. Geo. H. Smith, of St. Catharines, National Educational Secretary of the Order who for the past five years has been active in the work, particularly latterly in connection with the War Memorial, has also resigned, a third resignation sent in is that of Mrs. Donald McGillivray, National Secretary. No official reasons for the resignation could be obtained from members of the executive last night, the only information given out by the press committee being that the letter of resignation from Mrs. Gooderham stated it was impossible for her to remain on the executive under present conditions, but that she still retains her position as honorary vice-president, and retains her membership in the order.

Mrs. Smith said this morning that she did not care to make any statement. Her resignation has not been accepted.

The discussion which has led to the resignations, it was learned, dates back to the last annual meeting when Lady Kingsmill made certain charges against the presidents administration of the affairs of the Order. Although denied by Mrs. Gooderham at the time, the charges appeared in the official publication of the Order, and her resignation, accompanied by a statement refuting the charges, sent to all secretaries of Chapters, is the outcome. In this statement Mrs. Gooderham says in part:—"In spite of my repeated denials the charges have not been withdrawn, but have been reiterated and Lady Kingsmill continues to enjoy the confidence of the Order and of the National Executive. Under these circumstances, I cannot continue to hold responsible positions in the Order, and I have therefore resigned from the National Executive and the War Memorial Committee."

The communication then goes on to review the controversy in detail Mrs. Gooderham placing all the detail from the minutes of meetings, and other documents, before the secretaries so that members throughout Canada may judge for themselves the question at issue. "If they will do so," the statement proceeds, "I am content to leave it to their judgment and intelligence whether the administration of

the affairs of the Order under my presidency were not "open" "fair" and "calculated to ensure harmony." Mrs. Gooderham then goes on to point out that she is not entering into a controversy for personal reasons, and concludes. "I am deeply interested in the future of the Order, but if members are prepared to accept without inquiry unsupported attacks upon its officers and to continue their confidence in those who make them, I do not see how responsible people are to be found willing to administer the affairs of the Order or when found, are to carry on its work successfully."

The main charge of Lady Kingsmill is based on her contention that in some cases important resolutions were not communicated to the councilors who were absent from the meetings as provided for in a resolution passed by the National Executive. Meeting this charge Mrs. Gooderham shows by extracts from the actual records that what was provided for were synopses of the minutes of the meetings, but in order to give even fuller information to absent councilors, important resolutions were communicated to them immediately after being discussed at executive meetings. She shows from chapter and verse of the minutes the proof of her statement, and adds that all it would have been perfectly apparent to Lady Kingsmill if she had taken the trouble before making her statement to compare the minutes with the synopses and circular letters sent to chapters and councilors.

Another charge made by Lady Kingsmill concerns the allocation of funds raised for "French relief," which were to be distributed through the Red Cross, Lady Kingsmill charging that the national executive merely made a cloak of the Red Cross to get funds for the Military Hospitals Committee (Postes de Secours) in answer to this Mrs. Gooderham gives copies of the correspondence to the Canadian Red Cross Commissioner, Col. Blaycock, asking whether the funds could not be used to establish depots like the French Postes de Secours, to be known as the "Daughters of the Empire Postes de Secours." The correspondence shows that the money was distributed through the Red Cross for French relief work.

A fourth charge is of a personal nature, Lady Kingsmill complaining that she could not see some documents she wished while in Toronto; and fourth charges the Toronto members of the committee with high handedness in regard to the War Memorial.

Prisoner in Police Court Tells Magistrate That He Bought Scotch For \$3

Peter Adair was dragged in police court today with being drunk and assaulting an officer who was arresting him. He admitted both charges. He had bought two bottles of whiskey from a stranger. He paid \$3 for a bottle of scotch.

"That's pretty cheap," observed Crown Attorney Brennan. "You can make money getting Scotch at that price."

Adair also pleaded guilty to assaulting P. C. Kellem, who arrested him, though he said he did not remember anything about it.

"I told the officer this morning I was very sorry," said the prisoner.

P. C. Kellem said he saw Adair on James Street Sunday noon under the influence of liquor. He went over to arrest him whereupon Adair made a

pass at him with his fist. The officer got him down and Adair kicked him. Adair offered no evidence and was fined \$46, including costs.

A lad 16, charged with stealing loaf sugar from Young's Chinese restaurant said he wasn't guilty. The sugar was found in his overcoat.

The magistrate let him go on suspended sentence but with a severe warning of to try it again.

Peter Largort and Frank Neal pleaded guilty to being drunk and disorderly on a local line car going to Merriton Saturday night and were fined \$20 each.

Sir Oliver Lodge addressed a large audience at Massy Hall on "The Evidence for Survival."

GERMANY'S PLIGHT
The sudden turn of events in Germany indicates a change of the tide toward a monarchy. Such a happening is not wholly unexpected. That it may be thwarted is more than probable but the movement has begun and will perhaps gain considerable headway.

Following wars and insurrections which result in the removal of one kind of a government to set up another, there has usually been according to history, a considerable period of unrest and petty revolution. It happens also on occasion that the bureaucracy set up is as ruthless and tyrannical as the one torn down.

Things have not been going well in Hunland. The spirit of revolt is abroad. Civil war may be the only way of settling the score. It seems as though today one part of the population is bent on restoring monarchical government while the other part is equally determined to resist it. Verily the way of the transgressor is hard.

BUILDING BY-LAW
With such an insistent demand in the city for many more houses of the medium price type it would seem that the City Council might assist the situation by lessening some of the restrictions and reducing some of the civic charges that are imposed against those who undertake to build. It would be an easy and a practical way of helping the workers of the city to help themselves.

To The Journal it has long seemed that there are clauses in the building by-law that while wise in their purpose, have a restrictive influence. Builders are better able to determine this than is a newspaper, but from them, and also those offered by persistent complaints made by some of the citizens it might be well to put the by-law under scrutiny and see if it could be amended here and there to help an acute house shortage condition.

NERVOUS PROSTRATION
May be Overcome by Lydia E. Finkham's Vegetable Compound - This Letter Proves It.

West Philadelphia, Pa. - "During the thirty years I have been married, I have been in bad health and had several attacks of nervous prostration until it seemed as if the organs in my whole body were worn out. I was finally persuaded to try Lydia E. Finkham's Vegetable Compound and it made a well woman of me. I can now do all my housework and advise all young women to try Lydia E. Finkham's Vegetable Compound and I will guarantee they will derive great benefit from it." - Mrs. FRANK FITZGERALD, 25 N. 41st Street, West Philadelphia, Pa.
There are thousands of women everywhere in Mrs. Fitzgerald's condition, suffering from nervousness, backaches, headaches, and other symptoms of a functional derangement. It was a grateful spirit for health restored which led her to write this letter so that other women may benefit from her experience and find health as she has done.
For suggestions in regard to your condition write Lydia E. Finkham, Medicine Co., Lynn, Mass. The result of their 40 years experience is at your service.

Wives and Mothers of Canada

Stratford, Ont. - "I am very enthusiastic in praise of Dr. Pierce's Favorite Prescription as a tonic for expectant mothers. I have had experience both with the 'Prescription' and without it, and am in a position to know that there is a vast difference. I was never nauseated or sick at all with my 'Prescription' babies but I was extremely uncomfortable with the others and my suffering was greater when I had not taken the 'Favorite Prescription'. I shall always take pleasure in recommending it to expectant mothers."
- MRS. DEOTAMM PEPPER, 114 Grange St.

COULD NOT SLEEP
Hallax, N.B. - "I was in a run-down, nervous condition for over two years, had been treated by several doctors and only found temporary relief. I could not sleep at night my heart palpitated so, and I was almost afraid to close my eyes. Being persuaded I wrote and stated my opinions to the Medical Dept. of Dr. Pierce's Favorite Prescription and the Pleasant Pellets. I did so with the very best results. I could sleep and became my natural self again. I certainly recommend Dr. Pierce's medicine to all sufferers, for they have done for me what doctors failed to do and thereby have saved me doctor bills, too."
- MRS. JOHN HOMANS, Cham Harbor.

Toronto, Ont. - "For over thirty years I have been a user of Dr. Pierce's Pleasant Pellets. I have taken them for indigestion, constipation, and sick-headaches and they always gave me the relief wanted. I am sure the 'Pleasant Pellets' have saved me many a sick spell. I can highly recommend them."
- MRS. HANNAH BOWNE, 88, 60 Stranace St.

ANTWERP, Mar. 15 - Twenty-four nations already have officially accepted Belgium's invitation to participate in the coming Olympic games and the Belgian committee charged with the preparations is going ahead with the preparations in readiness in August.

15,000,000 THEFTS FROM CARS SHOWN.

Wholesale loss of merchandise in transit on the railroads of the United States caused a loss of approximately \$45,000,000 in 1919, according to United States Railroad Administration statistics made public recently.

This is estimated to be more than double the losses sustained in any re-war year, but it is pointed out that the increased cost of the commodities stolen, roughly estimated to average 85 per cent. must be taken into consideration when comparing the losses in the days of low prices with losses now. Nevertheless there has been a striking increase in the number of packages stolen, and the organization combatting the thieves are met an increased ingenuity in diverting goods from their owners.

A technique of robbery has been developed so highly that the methods of "master thieves" are similar in the United States, England, France, Italy and Argentina, according to a recent report of the United States Chamber of Commerce in Argentina. Detectives, however, are inclined to discredit that organization's belief that a "widespread international organization" is at work stealing merchandise.

Substitution for the usual method used by the thieves. Sometimes boxes supposed to contain valuables are found at their destination to be filled with cloth or other cheaper grades of cloth, but as a rule, waste paper is found. These are referred to as "concealed losses" by railway men and are especially difficult to trace. The shipment leaves and arrives apparently in good condition and it is almost impossible to discover at that point the theft occurred. The silk industry has been one of the most severely hit in the last year, and so great has the risk become that the Railroad Administration has been considering excluding saw silks from the privilege of freight transportation by rail. The Merchants' Association of New York, through its traffic bureau, has protested against such a ruling, and is advocating some less radical measure to minimize or prevent the theft of silk in transit.

Dividends upon the Preferred issue accrue from April 1st, 1920.
This Cumulative Preferred Stock is preferred both as to assets and dividends, and at the option of the Company is callable in whole or in part at 115 per cent. and accumulated dividends. No bonds may be issued nor mortgage nor lien given on the fixed assets except by the consent of the holders of 75 per cent. of the Preferred Stock.
REGISTRAR AND TRANSFER AGENT:
TORONTO GENERAL TRUSTS CORPORATION, TORONTO
CAPITALIZATION
Preferred Stock \$1,000,000.00
Common Stock \$1,000,000.00
(No Bonds)
The following information is summarized from a letter from Mr. S. Messer, President of the Company:-
1. The Continental Oil Company, Limited, of Canada, the business and assets of which have been acquired by the North Star Oil & Refining Company, Limited, a Canadian corporation, has been in successful operation in the Prairie Provinces for the past eleven years.
2. The Company has no bond issue or other funded indebtedness outstanding nor any floating debt other than current accounts payable.
3. Earnings after the completion of a refinery for the production of refined oil, gasoline and lubricating oil, at Winnipeg, which refinery is expected to begin operations about the middle of the year, are estimated to be initially at the rate of \$120,000 to \$160,000 annually, or equal to over twice the dividend upon the Preferred Stock. With the completion of other refineries, earnings are expected to materially increase.
4. The Company has affiliations with large and responsible producers in the United States which should ensure a continuous and constant supply of crude oil. In the event of the development of crude oil in commercial quantities in the Canadian West, the Company, with refineries at Winnipeg, Saskatoon and Calgary, will be in an advantageous position to manufacture from this crude, refined oil, gasoline and other petroleum products for the Western trade.
Applications, which should be accompanied with cheque for full payment, will be received only on the understanding that the right is reserved by us to allot all, a portion only, or none of the amount applied for. In the event of a partial allotment the balance, and if none be allotted the full amount forwarded, will be returned to the applicant.
Interim Certificates will be issued pending engraving of definitive certificates.
It is intended that application be made to list these issues on the Toronto, Montreal and Winnipeg Stock Exchanges.
Price: Par (\$5.00 per share), carrying a Bonus of 40% in Common Stock.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drosc and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

THE CENTAUR COMPANY, NEW YORK CITY

COMMISSIONER HIGGINS

HERE TO CONFER ON SALVATION ARMY MATTERS
Com. W. J. Richards, head of the Salvation Army in Eastern Canada and Col. John McHillan, Chief Secretary are conferring with Commissioner Higgins, Chief of Staff and Second in Command of the Salvation

Army for the work who arrived in Boston from London, England, recently. Com. Higgins came to America to discuss matters pertaining to Salvation Army affairs in Canada and the United States, with Commander Eva Booth, head of the Salvation Army in the United States and with the Canadian officials. He was for many years Chief Secretary of the United States and recently succeeded Com. Howard as Chief of Staff and Second in Command. Many matters having any important bearing upon the future policy of the Salvation Army, and its reconstruction work are to be taken up at this meeting and it is expected that on his return Com. Richards will have something to say in regard to the questions affecting the policies to be followed in Canada.

Mrs. Alex Hayes and Mrs. Peter Grondinn were smothered in a fire at the formers' home cause by a coal oil stove exploding.

What Makes a Good Hardware Store?

Not alone the large plate glass windows on the main street, nor the fine showcases inside, nor even the genial, friendly proprietor.

The QUALITY OF THE GOODS sold is what really tells, and brings you back again next time.

That's just the case with the famous Hobbs Gold Medal Lines. The store that carries goods bearing this mark is a good store to trade at.

Look for the Gold Medal label on Harvest Tools, Garden Tools, Lawn Mowers, Sewing Machines, Washers and Wringers, Refrigerators, Cutlery, Binder Twine, Roofing, Safes, Sporting Goods, etc.

ABOUT THE SEED DRILL

What is Considered to be the Most Efficient Type.

The Feeding Device is the Heart of the Drill—Seed Should Be Dropped Directly Under the Axle of the Disc—Give the Bearings Careful Inspection.

(Contributed by Ontario Department of Agriculture, Toronto.)

As the drill sows, so shall the farmer reap, is no fallacy. It is as true in its content as the maxim "As a man sows so shall he reap." Given the right kind of a grain drill, the seed is all planted at a uniform depth, evenly covered; the earth compacted just enough to retain the moisture around it. These conditions mean that the young-plants will all come up at the same time, that the roots will be well protected, and that the grain will ripen uniformly. As the grain is planted, so will it grow and ripen. If some of the seed is planted too shallow, and some too deep, the seed that comes up first, ripens first. Thus it is that some of the grain is ready to harvest while other patches are still in the milk stage.

The feeding device is the heart of the grain drill. Upon its reliability depends the accuracy of sowing the seed. The drill scale is computed for the average sized seeds, and therefore cannot always be depended upon when the size of them varies from the normal. If the grain is oversized or undersized the required amount per acre may be saved by setting the feed lever at a point slightly greater or slightly less than shown on the indicator. There are, in common use, two different forms of feeding devices. The fixed-cylinder-force feed, and the double-run-force feed. The amount of seed sown by the fixed-cylinder-force feed may be regulated by a lever which changes the size of the outlet, but it does not always handle all classes of seed without breaking them, as can be done with the double-run-force feed, which necessarily requires a disc wheel, or a cog wheel with from nine to fifteen sets of cogs that make as many speeds or feeds.

In the most efficient type of grain drill the seed should be driven in a disc wheel, or a cog wheel with from nine to fifteen sets of cogs that make as many speeds or feeds. In this method the disc is not run deeper than the seed is deposited, thus the draft is reduced to a minimum. If the seed is deposited in the rear of the centre of the axle, the rotation of the disc tends to carry earth and seed up with it, causing the seed to be unevenly deposited. In operation, a properly angled disc opens a trench about two inches wide. The falling seed strikes the concave side of the shield and the convex side of the disc, and is thus scattered evenly over the entire width of the trench.

Grain seed drills are divided into four kinds, according to the type of furrow opener—the open delivery single disc and the closed delivery single disc, the double disc, the shoe, and the hoe drills. The open delivery single disc furrow opener deposits the seed between the shield and the convex side of the disc. The space is open from the end of the boot between the disc and shield to the bottom or lower end of the shield. The shield prevents the falling seed from becoming mixed with the loose earth and surface trash and insures its free passage to the bottom of the trench made by the disc. It will also do excellent work in highly cultivated soil that is free from trash.

The closed delivery single disc furrow opener has a closed boot, similar to a hoe furrow opener, which comes down at the rear edge of the disc and deposits the seed about two inches back of the disc. It does not plant the seed at as even a depth as either the open delivery single disc or the double disc, but does plant it eight inches in rear of the disc hub, and wherever it meets with an obstruction, rock or hard frozen soil the disc rises up and carries the boot with it, broadcasting the seed on the surface.

There are many styles of double discs, but the one that plants the seed under or slightly back of the disc axle, or hub, is the one to use, for that point is the deepest part of the furrow. The furrow opener that shoots the grain forward of this centre is to be avoided, for the reason that the seed reaches the ground before the furrow is fully formed, and it is, therefore, mixed with the soil as the seed trench is being made, causing what is termed "chattering". The double disc type of opener tends to spread out the seed more than other kinds, so that each seed has a somewhat greater area from which to draw moisture.

The hoe furrow opener or shovel opener does not penetrate the ground readily and clogs easier than any of the other types. The shoe opener does no better work, and rather than clog will run over trash and thus plant the seed at varying depths. In selecting a drill the bearings should be given careful inspection. They should be dust proof. The hand roller must be considered superior to all others for this kind of work, as the oil can be forced into the bearing from the centre, and as it works out it carries all the dirt with it. It should have a well-braced seed box with steel hopper bottom to allow the seed to pass freely into the cups; strong frame and substantial wheels are important features. The distance between the furrow opener varies to some extent but six inches is the usual spacing. The seed tubes may be of rubber or of steel ribbon. The rubber tubes give good satisfaction, but are not durable if exposed to the weather. The steel ribbon tubes serve the purpose well, and if painted will last as long as the drill.—Jno. Evans, O. A. College, Guelph.

The cold and blustering weather kept the farmers away from the market today and there was a small attendance.

Nothing Like It For Bronchitis And Weak Throat

Remarkable Cures in the Worst Cases Reported Daily

CURES WITHOUT USING DRUGS

Doctors now advocate an entirely new method for treating bronchitis and irritable throat. Stomach doing is no longer necessary.

The most approved treatment consists of a healing vapor resembling the pure air of the Adirondacks.

This soothing vapor is full of germ-destroying substances, and at the same time is a powerful healing agent. It is sent to the bronchial tubes and lungs through a skillfully devised in haler that can be carried in the vest pocket. Simplicity itself is the keynote of this treatment.

CATTARHOZONE is the name of this wonderful in-vention that is daily curing chronic cases of weak throat, bronchitis and catarrh. Every breath through the inhaler is laden with soothing, healing substances that destroy all diseased conditions in the breathing organs, it can't fail to cure because it goes where the trouble really exists, and doesn't attempt to cure an illness in the head or throat by means of medicine taken into the stomach. Cattarhozone is a direct breathing scientific cure.

There is no sufferer from a grippy cold or any winter ill, that won't find a cure in Cattarhozone, which is employed by physicians, ministers, lawyers and public men throughout many foreign lands. Large size lasts two months and costs \$1.00 and is guaranteed; small size 50c., sample size 25c. all storekeepers and druggists, or the Cattarhozone Co., Kingston, Canada.

St. Joseph's Roman Catholic church at Buckingham, Que., was destroyed by fire.

John Whyte, President of the Whyte Packing Co. and the Stratford Brass Co., died at his home in Stratford.

Sir Adam Beck returned to London after three months' absence in England and was tendered a warm public welcome.

Growth Shows Desire To Extend Army Work

Commissioner W. J. Richards, chief of the Salvation Army in Eastern Canada, has completed his fifth year in that capacity. During that time the Army has seen one of its greatest periods of usefulness. This period takes in the "war years." The great war had been under way since August and new problems presented themselves to the organization when he assumed command. These problems required a large measure of initiative to overcome. The task of rendering the highest and most efficient service was shouldered and Canada paid tribute to the success which attended those efforts by over subscribing the amount asked for during the Red Shield Drive.

Commissioner Richards is a forceful man. He is a man of few words. He believes in doing things. During the five years, more than 11,000 persons are recorded as having sought salvation. Notwithstanding the losses due to war, there are today nearly 2,000 more names on the Membership Roll than there were in this territory five years ago.

In July, 1915, Canada East was separated from Canada West, the dividing line being Port Arthur. Even in view of this, there are now only forty-one fewer officers in active service in the Eastern territory alone than there were in the combined territories five years ago.

In the Field Report two very striking indications of financial growth are given. In 1914, the Self-Denial

HER CASE SEEMED HOPELESS

But "Fruit-a-lives" Brought Health and Strength

29 St. Ross St., Montreal.

"I am writing you to tell you that I owe my life to 'Fruit-a-lives'. This medicine relieved me when I had given up hope of ever being well."

I was a terrible sufferer from Dyspepsia—had suffered for years; and nothing I took did me any good. I read about "Fruit-a-lives" and tried them. After taking a few boxes of this wonderful medicine made from fruit juices, I am now entirely well!"

Madame ROSINA FOISIZ.
50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

total for the combined territories was \$43,726. In 1919, for Canada East alone, it was \$75,591. Harvest Festival returns have been doubled.

Shows Solid Growth.
In all the various departments the same rate of growth has been recorded. This shows that as often as humanly possible every opportunity has been seized for the advancement of every branch of the organization. Inasmuch as every act of service means the welfare of somebody, the position which the Salvation Army occupies today indicates tremendously increased service to the community.

This service has been rendered under the leadership of Commissioner W. J. Richards. His five years in Canada have been five big years for the Salvation Army in Canada, and give great promise for the future.

Two-party lines for residence telephones will be the general rule hereafter in portions of Ottawa and other parts of Canada.

PRESIDENT BEATTY ON Y. M. C. A. WORK

In a foreword to an attractive little pamphlet issued by the Railway Y.M.C.A. of Canada, Mr. E. W. Beatty, President of the C.P.R., pays a tribute to the work of this association.

"The high value of the work," says Mr. Beatty, "of the Young Men's Christian Association in the interests of men and boys has come to be generally and properly recognized, particularly on account of its efforts and accomplishments on behalf of our soldiers during the recent world war."

"Among the various spheres of the Association's activities not the least valuable is the work of the Railway Branches which minister to the intellectual, the social, the moral and the physical needs of railway men irrespective of race or creed."

"The inception of this work on the Canadian Pacific Railway dates back to 1906 when the building at Revelstoke, B.C., was erected, and so well satisfied were the Company's officers with the experiment tried there that 2 additional branch associations have since been established. These provide home start-up and comforts for men in train service which away from home and to many employees located at outlying points they afford the only home facilities that are available to them."

"It is not only that good meals and clean beds and baths are provided, but the educational advantages, the recreational facilities and the opportunities for social intercourse amidst wholesome surroundings must necessarily contribute to the well-being of the men and benefit the community in which they live, and the Company with which they are employed."

"The eminently satisfactory results of this work on the Canadian Pacific lines in the past for which I desire to express my appreciation and appreciation, have without doubt been achieved through the earnest and cordial co-operation of the Company's employees with the Association's officers and staffs, and with the continuance of their united efforts the future success of the work can, I feel sure, be confidently entrusted to them."

The Railway Y.M.C.A. provided 140,000 beds to railway men and served 325,000 meals in 1919. Its buildings are valued at \$880,000.

WE ARE Ford Dealers in this district and have formed an estimate of the number of cars we will require to meet the needs of this territory. We cannot get enough cars to fill that estimate because there are not enough cars being made to fill all dealers' estimates throughout Canada.

The number of cars we can get depends upon the number of orders we send in and the early date at which we send them in, as the Ford Shipping Department follows the principle, "First Come, First Served."

Cars ordered now will not be delivered until March, and deliveries will be uncertain throughout the year. If you do not want to wait for summer or autumn delivery, come in and reserve your car by signing an order today.

LINCOLN MOTORS - DEALERS - ST. CATHARINES

Group of the famous "Perfect 88" singing and dancing chorus in John Cort's famous big musical furore "Flo Flo" at the Grand tonight.

MUSIC AND DRAMA

AT THE KING GEORGE

"The Glorious Lady" in which Olive Thomas the charming Seznick star is appearing at the King George Theatre Monday and Tuesday paints a vivid picture of English society life and tells the tale of a love that knew no barriers.

The opening "punch" in the play concerns a "point to point" race, the English equivalent of four American steeplechase, in which the principal contenders are the Duke of Loame—Matt Moore in this part is as "if to

the manor born—and Ivis Benson, a charming peasant girl of ancient but plebeian lineage. In this role Miss Thomas has far exceeded any of her previous performances.

Ivis sacrifices her prospects of winning the race to save the Duke who has been thrown from his horse and in so doing is herself injured. During the convalescence the Duke is a constant visitor and soon the flame of love burns brightly in both their hearts. But many obstacles stand between the young people and their

the Duke's mother, a grande dame of the old school, whose god is tradition.

How the barriers of tradition are overturned and the lovers find ultimate happiness is shown in one of the finest stories of the star's career. Interest is sustained right to the very end when the play finishes with a novel and gripping climax that will be sure to please all who see it.

"FLO-FLO" TONIGHT

A beautiful corset model whose intentions are vampirish, but whose heart compels her to give up the Oshkosh hero she has ensnared to the girl he loves lends her name to "Flo-Flo" that rhythmic, sparkling musical comedy which John Cort will present at the Grand Opera House tonight.

"Flo-Flo" was one of the few musical comedy attractions that remained an entire season in New York and is claimed to be the most expensively gowned production in America. It comes to this city following a successful Boston run.

Numbering among the fun-making features of Mr. Cort's "war-bride" show are two irresistible funny teams, a beautiful chorus and two interna-

OUR NATIONAL ECONOMIC PROBLEM.

The following interesting extract from an article by Mr. E. W. Beatty, president of the C. P. R., appeared recently in the Montreal Gazette:—"So much for the manner in which the transportation machinery of the country is carrying out its obligations to the Canadian producer. Other aspects of the transportation problem are less satisfactory. There are many people who look upon Canadian Railways as custodians of magic fortunes which cannot be exhausted. That bookkeeping should be as simple and inexorable in its tale of losses and vanished profits to a railway as it may be to a corner grocer, is to these people unthinkable. It apparently does not occur to them that no public is more important than the Canadian public that the good reputation of its railway securities in the world of thrift and investment should be carefully guarded. To those, however, who understand these things clearly and who view the matter from the standpoint of broad public interest, it is at once apparent that the Canadian public pays a very low rate for the quality of services rendered, and that a time is rapidly approaching when, if Canadian railway securities are not to be made less desirable to investors than almost any other kind of industrial security, railway rates will either have to go up, or railway operating costs go down. Such persons recognize that it is not because the situation of the railways is an easy one that certain companies have been able to show net earnings—very low net earnings compared to the actual cash invested in the industry—but because in the last the shareholders of such companies have shown, as they are to-day, courageous persons willing to supply the means for constructive enterprises in which no one but themselves had faith, and because, too, their officers have been skilled, resourceful and loyal business men, assisted by staffs filled with the spirit of pride and devotion to their work. This, indeed, is the thing which has made it possible for Canada's railroads to function successfully during the war without making anything like the demands that foreign roads—less efficient in serving their community, yet earning the same rates and paying the same wages—have made up their public exchequers. I do not believe that this strain upon the railways and this tendency to weaken the general reputation of Canadian Railway securities should continue. The servant, after all, is worthy of his hire, and railway capital is not less worthy a servant than other forms of capital whose earnings have not been so consistently depressed.

The net earnings during the war years, of those companies which showed net earnings, would have been much lower had the Canadian railroads been making expenditures for maintenance which circumstances would have justified, but which conditions prevented during that period. These arrears have now to be made up. During 1919 the Canadian Pacific laid 70,000 tons of steel rail. In place of, say, 2,000,000 ties, worth 44c in 1914, the Canadian Pacific laid 4,434,000 ties at 85c per tie. This sensational advance in the rate of railway wages is well-known. Further advance may be necessary within the very near future, as indicated by discussions in the United States. The price of coal for locomotives was \$3.09 in 1913. Now it is \$4.77. The cost of hauling an average train (freight or passenger) one mile has risen from \$1.64 in 1913 to \$2.494 in 1918. It is higher to-day. The operating expenses of one mile of line in 1915 were \$4.152; in 1918, \$7.046, and to-day they are even greater. On the other hand, railway rates, taking all classes of revenue together, have advanced scarcely 25 per cent. A venture to say no other industry in the Dominion can show such moderation."

tionally famous eccentric dancers, a cast of stars of established reputation including Hazel Alger, W. J. McCarthy, Carl George, Eddie Lloyd, Augustus Buell, Rher Norton, Elinor McCune, Marie Dantes, Robert Dale, Frank Masters and Frank Hodgins and a wonderful fashion parade which cost the producer thousands of dollars.

SAVE DAD'S LIFE GET IT FOR HIM

SAYS IT IS SUICIDE TO CUT CORNS AND TELLS HOW THEY LIFT RIGHT OUT.

You simply say to the drug store man, "Give me a quarter of an ounce of Freezeone." This will cost very little but is sufficient to remove every hard or soft corn from one's feet.

A few drops applied directly upon a tender, aching corn should relieve the soreness instantly, and soon the entire corn, root and all, can be lifted out with the fingers without pain.

This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that while freezeone is sticky it dries in a moment, and seems to simply shrivel up the corn without inflaming or even irritating the surrounding tissue or skin.

Don't let father die of infection or lockjaw from whitening at his corns, but cut this out and make him try it.

The Telephone Situation

Serving As Many As Possible

In communities in which telephone development is greatest there is very general use of two-party line service. Four-party service for residence purposes is also widely used.

We are recommending two-party service at this time because of the world shortage of telephone material. We wish to serve as many applicants as possible with the cable and central office facilities available. The general use of two-party service will mean double the number of installations that would be possible if we devoted all our facilities to individual line connections. Similar conditions of material shortage are being met everywhere. It is one of the inevitable results of the colossal waste of war.

In extending two-party development we are endeavouring to meet a trying situation in a manner that will prove the convenience of telephone connection to the maximum number of applicants.

The Bell Telephone Company OF CANADA

New Triplex Springs Iron Out the Wrinkles of the Rough Roads

THE wrinkles of rough roads seem smoothed out completely by the wonderful springs of Overland 4.

These springs hold the wheels to the road, while the passengers ride in even comfort. The astonishing qualities of these diagonally attached Triplex Springs have created an utterly new conception of light car riding ease.

Best of all, this heavy car kind of comfort is now obtainable with economy in fuel and tires and remarkably low upkeep cost.

Overland 4 is started and lighted by two-unit electric starting and lighting system. It has rain-vision windshield and unit power plant. It is equipped with all the latest car essentials and conveniences.

NOBBY TREAD

A DOMINION Tire

A Bit of Advice

Don't wait until you are ready to drive your car before ordering new Dominion Tires.

Go to your dealer NOW and select the "Royal Cord," "Nobby," "Chain," "Dominion," "Grooved" or "Plain" Tread you will need so everything will be ready for the first spin.

Thousands of motorists will re-equip their cars this year with Dominion Tires because they know by experience that Dominion Tires mean the certainty of satisfactory service under all conditions of road and weather and the first signs of Spring will bring an avalanche of orders for Dominion Tires. Get ahead of the rush. Order your tires NOW.

DOMINION INNER TUBES

When you go to the trouble of getting the tires best suited to your car, get also the Inner Tubes made expressly for these Tires. Order Dominion Inner Tubes and thus ensure perfectly balanced tires.

DOMINION TIRE ACCESSORIES

It pays to care for your tires—pays in the saving of time, trouble and mileage, so keep a supply of these prolongers of tire life.

Notice to Contractors

Pursuant to the requirements of the
Canada Highways Act, sealed tenders
marked "Tenders for work in the
Township of Niagara" will be re-
ceived by the undersigned until twelve
o'clock noon on Wednesday, April 7th,
1920, for the earth-work and other
necessary work on the Provincial
Highway in the Township of Niagara.
Plans, specifications, and forms of
tender may be seen on and after Wed-
nesday, March 17th 1920, at the office
of the Resident Engineer, Beamsville,
Ont., and at the office of the City
Engineer, St. Catharines; and at the
office of the undersigned.

A marked cheque for \$500.00 pay-
able to the Minister of Public Works
and Highways for Ontario must ac-
company each tender.

A Guaranty Company's bond for
10% of the amount of the tender will
be required when the contract is sig-
ned.
The lowest or any tender not neces-
sarily accepted.
W. A. McLEAN,
Deputy-Minister of Highways,
Department of Public Highways,
Toronto, 12th March, 1920. Mar. 16th.

GREAT MUSICIANS SAY SO

You accept the advice of a first-
class lawyer because he knows law.
You can with equal safety buy a
Heintzman & Co. piano endorsed by
world-wide artists like Albani, Mel-
Tetrazini, Friedheim, Cherniavsky
Brothers and many others who know
the instrument, have used it and in
many cases own one. This is termed
by the great artists the world's great-
est piano. See them at 68 St. Paul
street, St. Catharines, Ont.

STARTING BEEKEEPING

Suggested Outfit for the Apiary
Novice.

Start With the Right Hive—The
10-Frame Langstroth is Regarded
as the Best—How to Prevent
Swarming—Care of Freshening
Cov.

(Contributed by Ontario Department of
Agriculture, Toronto.)
EXTRACTED honey production
is the most satisfactory for
beginners. Start with three
colonies and sufficient up-to-
date equipment and then make the
bees pay their way. One colony does
not give the beginner an opportunity
to right mistakes or accidents profit-
ably. Three colonies can be managed
by devoting one evening weekly to
the apiary.

Avoid many troublesome pitfalls
by starting with the right hive. The
10-frame Langstroth has given
the best satisfaction in Ontario. All
beekeepers supply houses carry this
hive and its parts in their regular
stock. Buy your first hives from a
good manufacturer. It is very neces-
sary to have all hive parts inter-
changeable so that they may be used
in any colony in the apiary. Uniform-
ity and accurate workmanship alone
can ensure this need.

One complete 10 fr. Langstroth
hive consists of:
1. A bottomboard.
2. A hive-body with self spacing
frames and wire.
3. A telescoping metal roof cover.

In addition the beginner should
provide for each colony one queen ex-
cluder; two extra hive-bodies com-
plete with frames; and 7 lbs. of Me-
dium Brood Foundation which runs
six sheets to the pound, to fill the
frames with a gauge with foundation
for the future combs. All hive ma-
terial should be mailed, wired and
packed before the opening of the
spring-run.

It is advisable to commence with a
2-lb. package of bees and queen; a
swarm or a nucleus. Less danger
from disease attends the buying of
found packages than the buying of
swarms and nuclei. Found packages
may be secured for delivery from
May 1st to June 30th. Early pack-
ages will yield a surplus if carefully
handled. Enquire of the Provincial
Apiarist re disease in your locality
before buying swarms, nuclei or col-
onies. A small colony of bees is much
less vindictive than a full colony and
thus offers a better opportunity for
the beginner to grow with his bees.

The necessary equipment for the
beginner should consist of:
1. A veil of black cotton tulle.
2. A standard bee smoker.
3. A hive tool.
4. A spur wheel wire embedder.
5. An uncapping knife.
6. A capping box.
7. A complete set of Department
Literature, Bulletin 213, 223 and
256, and a good reference bee book.
8. A small honey extractor.
9. The necessary net of Department
Literature, Bulletin No. 6 and
8 it is advisable to acquire the ma-
terial needed from a supply firm at
once. The uncapping box can be
made at home, and the beginner could
probably co-operate with another bee-
keeper in securing the use of an ex-
tractor. With the increase of col-
onies to ten, it would then be advis-
able to purchase a net. The net is in-
valuable in handling the crop. W. A. Weir,
O. A. College, Guelph.

To Prevent Swarming of Bees...

June is the swarming month and
time of supering for the main honey
flow which begins between the 1st
and the 20th of the month, depend-
ing on the season and the latitude.
Be sure to give supers enough to
avoid any crowding which may cause
the bees to become discouraged, quit
work and swarm excessively. It
should be the beekeeper's aim to pre-
vent swarming as much as possible.
This is done by keeping young
queens, giving plenty of room and a
systematic examination of brood-
chambers to detect colonies which
are preparing to swarm. When queen
cells are found far advanced they
should all be destroyed and the queen
herself removed. After the colony
has been queenless one week the
combs should again be examined and
all cells except one removed. This
one will provide them with a queen
and if only one is left they will not
swarm again. When an improvement
of stock is desired the new queen
may be given instead of leaving one
queen cell.

Natural swarms should be hived
on the old stand after removing the
parent colony to one side. The
swarms should be given the supers
from the old colony. New swarms
work in the same way because they
have no brood to care for during the
first week. Colonies held together
without swarming gather more honey
than those which swarm. It is the
duty of the beekeeper to reduce
the cost of honey production and thus
increase the quantity he is called to
produce as greatly as possible. They
also cause the beekeeper less trouble
at unexpected times. This may be
done more by swarm prevention than
in any other way. Bulletin 233 takes
this matter up thoroughly and should
be carefully studied by all bee-
keepers. By mastering the methods
described it is quite possible to man-
age the many apiaries as there are
days in the week, during Sunday
and rainy days.—W. A. Weir, O. A.
College, Guelph.

Care of the Freshening Cow.
The first of the month when a large
number of cows freshen. Both fresh
cows and newly-born calves should
receive special attention. Cows ex-
pected to freshen should be placed
in a box stall for a few days before
and after freshening. Many valuable
cows and calves are lost by neglecting
to provide box stall accommodation.
This should be found in every dairy
stable. Box stalls have a special bar
for the purpose.

The Montreal Tenants Protective
Association plans to build apartment
house on a co-operative basis.

WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash poisons and toxins from
system before putting
food into stomach.

Wash yourself on the inside be-
fore breakfast like you do on the
outside. This is vastly more impor-
tant because the skin pores do not
absorb impurities in the blood,
causing illness, while the bowel
pores do.
For every ounce of food taken into
the stomach, nearly an ounce
of waste material must be carried
out of the body. If this waste is
not eliminated day by day it quick-
ly ferments and generates poisons,
gases and toxins which are absorb-
ed or sucked into the blood stream,
through the lymph ducts which
should suck only nourishment.

A splendid health measure is to
drink, before breakfast each day, a
glass of hot water with a teaspoon-
ful of limestone phosphate in it,
which is a harmless way to wash
these poisons from the stomach,
liver, kidneys and bowels, thus
cleansing, sweetening and freshen-
ing the alimentary canal before eat-
ing more food.
A quarter pound of limestone
phosphate costs but very little at
the drug store, but is sufficient to
make anyone an enthusiast on in-
side bathing.

CONVALESCING FROM INFLUENZA

The bracing atmosphere found in
Algonquin Park is just what is need-
ed for those convalescing from influ-
enza or those who are in need of a
rest and recuperation. The Highland
Inn offers comfortable accommodation
at reasonable rates. Apply any Grand
Trunk Agent for descriptive booklet
or write Mr. N. T. Clarke, Manager,
Highland Inn, Algonquin Park Sta-
tion, Ont.

"The Servant in the House," at the Grand Opera House on Thursday, March 18
under the management of the Trans-Canada Theatres Limited of Montreal

DOCTOR WARD, The Specialist

**SPECIALIST IN THE TREATMENT OF NERVOUS CONDITIONS, NERVE EXHAUSTION,
BACKACHE, LUMBAGO, RHEUMATISM, STOMACH AND LIVER TROUBLES, ACNE, SKIN DIS-
EASES, CATARRH, ASTHMA, RECTAL TROUBLES, PILES, FISTULA AND BLOOD CONDITIONS.**
The knowledge gained from many years' experience in treating diseases just like yours is of much benefit
to you and assures the ailing man of prompt relief. When a man knows that he is again feeling well—that
he is rid of his ailment—he feels that a heavy load has been lifted from his shoulders. I give every patient
the benefit of the knowledge acquired through the long experience of a graduated, licensed and registered
specialist, in order to bring about the most satisfactory results in the shortest possible time.

NERVE EXHAUSTION

**A CONDITION AFFECTING MANY MEN—THE GREAT AM-
ERICAN DISEASE— IT IS BROUGHT ON BY OUR MAN-
NER OF LIVING—OUR WORRY AND HURRY— AMERI-
CANS EXHAUST MORE NERVOUS ENERGY THAN ANY
OTHER RACE OF PEOPLE.**
There are a great many men who need treatment for their
nervous system. These men do not know what is the reason they
don't feel right—why they can't work like they used to—why they
tire so easily and why they are irritable, nervous, despondent,
weak, pale and lack ambition. These conditions require the ex-
pert knowledge and treatment of a specialist who has had many
years' experience in just such ailments. A specialist learns by
experience to know just the right treatment at the right time so
that the patient can be dismissed at the earliest possible time. Men
affected with nervous exhaustion have no endurance—no ambition
—everything they attempt is an effort. Life to them appears as a
long, gloomy future. Their appetite is poor and variable—they be-
come irritable, cross and discouraged. They have pains and aches
in various parts of the body and there is often indigestion and
pains in the stomach. Sleepless, wakeful and restless nights fol-
low.

RHEUMATIC AILMENTS

**SCIATICA AND OTHER FORMS OF RHEUMATISM, LUMBA-
GO, PAINS IN BACK, SWELLING, ACHING, PAINFUL
CONDITIONS IN ANY PART OF THE BODY—INFLAMED
AND SWOLLEN JOINTS OF LEGS AND ARMS— MANY
OTHER SYMPTOMS.**
Hundreds of men are suffering with some form of Rheumat-
ism. Many of these men go from day to day suffering untold agon-
ies thinking they cannot be cured. They have tried liniments, rub-
bing, massage, salts and other treatments without experiencing
any relief, and they are now going through life thinking they
are martyrs to that burden called Rheumatism. If these men could
only know how easy it is to get rid of many rheumatic conditions
I know they would not suffer another single day. Then all suf-
ferers of rheumatism would be strong and healthy if they could
get rid of the condition. Rheumatic patients are nearly all strong
and robust before being attacked by this ailment, and therefore
it is so hard for the man to understand why he should suffer the
agonies of such a condition. When a man gets rid of such a condi-
tion he feels that a heavy burden has been lifted from his life, and
he starts right out to make up for lost time both in money and
pleasure. When a man comes to my office suffering with the
above condition he is given a most careful examination, and he is
given treatment that he feels is giving him great benefit.

Quick and Lasting Results Assured the Ailing Man

There were no fines over the weekend.

Dr. C. K. Clark, medical director of the Canadian National Committee on Mental Hygiene will address the Women's Canadian Club at the Welland Tuesday, March 16th at 4.15. Subject "Mental Hygiene." Mar. 12, 13, 15

Thomas Cowper Robinette, K.C., one of the outstanding criminal lawyers of the Dominion, passed away at his home, 60 Spadina Road, Toronto early Sunday morning following a stroke of heart failure. As counsel in criminal cases it is doubtful if Mr. Robinette had his equal in Canada. No Canadian counsel has ever appeared in so many important criminal cases. His murder trials numbered at least one hundred and fifty.

The funeral of the late Andrew Fletsher took place from Grobb Brothers Chapel on Saturday afternoon, and was largely attended by sympathizing friends. The service was conducted by Rev. E. J. Harper, rector of St. Barnabas church, who took his text from 1st Cor. 15 Chapter, 14 Verse, "If Christ be not risen then is our preaching at an end." The remains were placed on the 125 train and taken to Grimsby for burial in the family plot.

A large number of sympathizing friends gathered at Grobb Brothers chapel on Sunday morning to attend the funeral of the late Burness Albert and Lela May Robins. The service was conducted by Rev. George Honey, who spoke in a very comforting manner to the relatives taking his text from the 23rd Psalm, "Though I walk in the valley of the shadow of death, I will fear no evil." After the service was over the caskets were on an N.S. & T. car and taken to Fonthill for burial in the family plot. The service at the graveside was conducted by Rev. F. L. Austin, pastor of the Church of God, and the bearers were Harold Chin, William Dean, Harry Stevens, Albert Slingerland, Herbert Jordan and Roland M. Logan. There were many beautiful flowers among which was a magnificent wreath from the Whitman & Barnes Company, where the late Mr. Robins was employed.

GRANTS ANNUAL PASSES.

C. P. R. Encourages Loyalty in Service.

The C.P.R. to encourage loyalty in service, and recognize the principle of co-operation has, through the president, Mr. E. W. Beatty, announced a new departure which will, doubtless, be much appreciated. This is the annual passes granted to officers and employees and their wives under the following classifications:

Employee on a general superintendent's district, who has had continuous service for a period of not less than ten years, will be granted an annual pass good over district on which employed.

Such employee, who has had continuous service for twenty years and over, will be allowed annual pass good over eastern or western lines whichever he employed. Employee of any other department of the service will enjoy the same privileges as above, stating the territory over which pass is desired.

Head office employees who have had fifteen years' service will receive annual passes over eastern or western lines where employed. Women employees are to be treated the same as men in this connection. This action expresses the policy of the C. P. R. to aim at the contentment and loyalty of the employees of whom there is an army of 90,000 at present, including all classes.

The Pension Fund, a free gift of the company, was the thought of Lord Shaftesbury. The employees contribute nothing. Already the operation of the fund has wrought great benefit. The effect of it has been to increase the contentment and loyalty of the employees, to give the sense of mutual co-operation, and to stimulate the general purpose and interest of the company. There are many all over the system on the Pension Fund, which offers protection in declining years. Millions of dollars are involved in the operation of the fund since its inception.

Many Cases of Rheumatism Now

SAYS WE MUST KEEP FEET DRY, AVOID EXPOSURES AND EAT LESS MEAT

Stay off the damp ground, avoid exposure, keep feet dry, eat less meat drink lots of water and above all take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin called uric acid which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints, and muscles causing stiffness and soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia, and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant effervescent lithia-water drink which overcomes uric acid and is beneficial to pour kidneys as well.

WOOD'S PHOSPHODINE.
The Great English Preparation. Tones and invigorates the whole nervous system, makes new Blood in old veins. Used for Nervous Debility, Mental and Brain Worry, Dizziness, Loss of Energy, Palpitation of the Heart, Failing Memory. Price 31 per box, six for \$5. Sold by all druggists, or mailed in plain pkg. on receipt of price. New pamphlet mailed free. THE WOOD MEDICINE CO., TORONTO, ONT.

Mrs. G. H. Smith And Others Resign

(Continued from page 1)

been reduced under the aforementioned order, the amount deducted from And we do further resolve that a copy of this resolution be forwarded to the Dominion Convention about to assemble at Montreal for their endorsement and action.

Miss Hookins here sang a solo after which the orchestra played a selection Captain Lovelace then announced that Sergt. Maor McNamara had been unable to get there so he called upon President J. E. Ball of the United Veterans League to address the meeting.

He spoke briefly stating that he favored the \$2,000 gratuity. "So do we," called a soldier in the audience, and there was great handclapping.

President Ball said President Flynn would be here next Sunday and Dr. Wilson was quite at liberty to accept his resignation in the Evening Telegram.

Dr. Wilson said though it was a G. W. V. A. meeting they were glad to

Cure Fatigue Build Up! Get Fat!

ONCE YOU START USING THE NEW BLOOD-FOOD REMEDY YOU'LL GET WELL QUICKLY.

Your nervous and uneasy. Appetite is poor. Sleep is hard to get. Still worse you are thin and fagged out.

Work must be done, but where is the strength to come from? Make your blood nutritious and you'll have lots of strength. Your only hope is Ferrazone, an instant blood-maker, blood-purifier, blood-enricher. It brings keen appetite, digests food and supplies nutrition for building up all the bodily tissues.

Ferrazone makes muscle and nerve-fibre, increases your weight, instils a reserve of energy into the blood that defies weariness or exhaustion from any cause.

For men who toil and labor, for the office man, the minister, the teacher—to these will Ferrazone bring a new life of spirits and robust health.

For growing girls, women of all ages—no tonic is more certain. Sold in 50c. boxes by all dealers, or direct by mail from The Catarhozone Co., Kingston, Ont.

have had President Ball's statement. He was a soldier who had fought in France and he was entitled to speak and express his own personal views.

Mrs. Church sang a solo and then Dr. Wilson, President of the G. W. V. A. explained the G. W. V. A. gratuity plan which is based on a sliding scale according to service and assistance to soldiers.

He said they were desirous of coming to an understanding on a scheme which is reasonable and just and which can be put across.

"There is no sense in soldiers flying at each others throats," said he. He thought there would be no trouble in coming to a understanding because all soldiers organizations are working to the one end.

Dr. Wilson said he was originally a supporter of the Calgary \$2,000 resolution because at that time it was the only proposition to give justice to soldiers. It was aimed to re-establish the soldier in private life and was not meant as a recompense for services in France or other war theatres.

"This gratuity was the baby of the G. W. V. A.," said the speaker, "but we found the Calgary proposition not practicable. They have decided to concentrate on something more practicable in the way of reestablishing the on a plan which will mean an amount the country is able and willing to pay. A plan which will meet with the support of their private fellow citizens.

"We ask for a gratuity governed by what the country is able to pay," said Dr. Wilson, "that is the only difference between our position and the Calgary resolution, the amount is deducted.

Dr. Wilson pointed out that as the G. W. V. A. has a vast membership practically including all the returned men, it was the best instrument to bring the Canadian Government to time. He didn't think divided forces and wild statements made on the platform were likely to accomplish anything. He made a resume of the G. W. V. A. plan one item of which was the payment \$500 each returned soldier last November to carry him through the winter. Physical mental and commercial disability were things the G. W. V. A. wants attention paid to by Parliament. Reports showed 91 per cent of the enlistments were not provided for and this matter was brought before the government, likewise the fact that the pensions are totally inadequate in view of the cost of living.

The government has absolutely refused to grant a gratuity and Dr. Wilson said it was up to the soldiers to make that an issue at the next election and force the hands of parliament.

He said that country is well able to pay the soldiers and he would like to ask the member of Lincoln whether iron and steel is of more value than human lives.

He read over in detail the G. W. V. A. plan which he said is fair to the soldiers insofar as it is possible and is likely to meet with the approval of the private citizens.

Dr. Wilson said he was quite ready to meet comrade Flynn but his dates

Watch Your Child's Tongue!

Constipated Children Gladly Take "California Syrup of Figs"

Full directions and dose for babies and children of all ages who are constipated, bilious, feverish, tongue-coated, or full of cold, are plainly printed on the bottle. Look for the name "California" and accept no other "Fig Syrup."—Beware!

were all taken up for some time to come.

In closing the meeting Mayor Lovelace made another plea for united action by the soldiers. The Canadian people he said are the best in the world but unfortunately suffer from

short memories. For that reason it behooves the soldiers to keep up their organization present a united front and they can be a force in public affairs.

The meeting closed with the National Anthem.

Hon. C. Beck Sta Tak

He Says the Hydro With the Federal Ownership of necessary Dupli

LONDON, ONT., March 14.—Though he sees no reason why construction should not be undertaken as soon as possible to carry out expressed wishes of the people, Hydro Radial on the Toronto Eastern, Toronto Hamilton and Niagara lines, Sir Adam Beck tonight said an attitude of highness on the part of the Electric Power Commission has been and shall not be assumed.

Sir Adam referred to a statement attributed to him concerning his intention to immediately Hydro-Radial construction.

"That statement would be high-handedness, and that is my impression that I wished to convey," Sir Adam said. "It is the wish of the Hydro Electric Power Commission to work in friendly co-operation with the Federal Government, and to avoid unnecessary duplication by agencies which Dominion Cabinet Ministers have said are inadvisable to the Hydro through negotiations."

Little however, can be done until the railway is taken over, Sir Adam hears that may occur on April 1. In respect the Provincial Government, Sir stated that many preliminary arrangements must be made and the sanction of the government is before such work as he should be proceeded with can be finally undertaken.

Votes Yet-To Be Taken

On the Guelph line, votes have to be taken in two or three municipalities, while in all cases municipalities must sign the contract for the Hydro Electric Power Commission and issue their debentures at a later. The authority of the

NIAGARA FALLS, N. Y., Sergeant Robert J. Fowler, 44 old, of the New York Central road special police, was arrested yesterday afternoon on a warrant issued by Police Judge Piper, charging perjury. Solomon Mokhiber complainant.

Last June Mokhiber and H. Shear, who were employed on New York Central, were arrested on charges of petit larceny. Mokhiber claimed that they were connected with the theft of underwear from cars in the north end yards. They were discharged by Police Judge Piper, but lost their position on the railroad and were unable to get back.

An organization of railroad men took up the cudgels in behalf of two men in an effort to have reinstated. A week ago William Herman Grose, a former detective under Fowler, testified at a John Doe proceeding before Judge Piper that Fowler framed Mokhiber and Shear. Piper reserved decision in the
