

Weekly Monitor

ANNO DOMINI MDCCLXXXVIII. SALUS POPULI SUPREMA LEX EST.

VOL. 8.

BRIDGETOWN, N. S., WEDNESDAY, DECEMBER 29, 1880.

NO. 37.

THE ANNAPOLIS ORGAN COMPANY,

MANUFACTURERS OF Parlor and Church Organs.

For Power and Quality of Tone, Rapidity of Action, and Promptness to Respond, they are Unsurpassed.

A careful examination of the instruments will convince the public that both interior and exterior are honestly made. The beauty and elegance of case they far exceed any Organ manufactured in the Maritime Provinces. They are AS LOW IN PRICE as is consistent with first-class workmanship, and are

FULLY WARRANTED. Parties Desiring a FIRST-CLASS INSTRUMENT, will find it their advantage to correspond with THE ANNAPOLIS ORGAN COMPANY, or visit their Warehouse, George St., Annapolis.

MANHOOD: HOW LOST, HOW RESTORED!

We have recently published a new edition of Dr. Culverwell's celebrated Essay on the radical and permanent cure (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from excessive Indulgence in the pleasures of the Flesh. Price, in a sealed envelope, only 6 cents, or two postage stamps.

SPECIAL NOTICE!

In order to meet the demands of our numerous customers, we beg to announce that we have added to our

THE BEST REMEDY

for Diseases of the Throat and Lungs. In diseases of the pulmonary organs a safe and reliable remedy is invaluable. AYER'S CHERRY PECTORAL is such a remedy, and is so well known to all who have used it, that it needs no commendation.

THE CULVERWELL MEDICAL CO.

For Sale, or To Let. A SMALL PLACE CONTAINING FOUR ACRES OF LAND, with comfortable HOUSE AND BARN.

MECHANICAL AND OPERATIVE DENTISTRY.

W. HALLIBURTON, DENTIST. BRIDGEWATER AND LAWRENCESTOWN.

MONEY TO LEND!

The Annapolis Building Society. LOANS MONEY ON REAL ESTATE SECURITY AT INTEREST 6 per cent. Send stamp for circular and form of application.

GREAT BARGAIN!

His Beautiful Residence LOWER MIDDLETON. The house contains 11 rooms, all in thorough repair.

THE BEST PAPER! TRY IT!

Beautifully Illustrated. 80th Year. The Scientific American. THE SCIENTIFIC AMERICAN is a large, well-known, and reliable paper.

DENTAL NOTICE

Men's Ulsters' Youth's Ulsters' Men's Over Coats' Ulsters

Splendid Assortment of FALL SUITS. Pants and Vests, Also, 1 Doz. Very Fine Buffalo Robes.

Encyclopedia Britannica.

Subscriptions will be taken at this office. Payments are made very easy and extend over a period of five or six years, enabling a person of very moderate means to secure this invaluable work.

Poetry.

ZLOBANE.

As sweetest in the summer wind The crocus and the daisy grain, So merrily the Zlobane shielded As if for money could exercise himself, frequent and lively, I'd say Simpson's Bar; but for a young man with a large family depending on his exertions, I don't pay.

The white shield of the husband, Who bath twice weekly, I'd say, The black shield of the young Chief, Who bath twice weekly, I'd say.

Unreeling harm, the British lay, Secure as if they slept, Who bath twice weekly, I'd say, The live black crescent erp, Who bath twice weekly, I'd say.

They bared their wild and frightful cry Upon the British sea, With whirl of bullets, grain of shrapnel, And with a shout and a cheer, They gathered as a cloud, swift rolled, They thickened as a mist, and summer seas, They gathered as a cloud, swift rolled, They thickened as a mist, and summer seas, They gathered as a cloud, swift rolled, They thickened as a mist, and summer seas.

Up rose the British; in the shock They fell, and with a shout, Shoulder to shoulder, faced the foe, And met their death like men.

But none were there whose heart was torn In a more awful strife; For the full of youth, but not very powerful sympathy, with a chameleon-like aptitude for taking on the shade and color of contiguous moods and feelings. He had evidently just left some hilarious companions, and did not at first notice the gravity of the group, but clapped the shoulder of the nearest man jocularly, and threw himself into a vacant chair.

Not for himself, his little son, Scarce thirteen summers born, Shouldered lightly to the ground, And met their death like men.

With that he turned to the young Chief, And laid his hand on his brow, Like a kiss of the corn.

And lips yet curled in that sweet pout Shaped by the mother's breast, And then he had but time to utter, "Father, I'll die with you!"

The horse stood still; the father beamed And looked the boy aside, "Farwell!" he cried, "and for thy life, That way, my darling, ride!"

Scarcely touched the saddle ere the boy sprang to his feet, and with a shout, And snote the horse upon its flank, That with a quivering bound

It sprang and galloped for the hills. With one anxious sigh; And then he had but time to utter, "Father, I'll die with you!"

So, shod with fear, fed like the wind, From where he came, he fled, And then he had but time to utter, "Father, I'll die with you!"

Still gazed the father's heart, his eye Bright with undimmed fear, Five miles he had in death, By his unshrinking aid.

Then covered with uncounted wounds, And then he had but time to utter, "Father, I'll die with you!"

LAND, Situate, lying and being in the township of Wilton, in the County of Annapolis, bounded and described as follows: Beginning at the east corner of land owned by Kinsman Nelly, and running easterly the course of the line of the said Kinsman Nelly, and thence southerly to a certain point, and thence westerly to a certain point, and thence northerly to the place of beginning, containing one hundred and twenty acres, more or less, together with the buildings and appurtenances, taving and accepting one and a half acres, owned and occupied by JAMES G. PARKER.

SATURDAY, the 6th of January, next. P. BONNETT, Sheriff.

Dr. E. N. Payzant, Physician, Surgeon & Dentist, Middleton, N. S.

How Santa Claus came to Simpson's Bar. BY BERT BARR. It had been raining in the valley of the Sacramento. The North Fork had overflowed its banks, and the water had done much damage.

WEDNESDAY, DECEMBER 29th, 1880.

A Reminiscence of the Halifax Police.

In the year 1841—the police of the City of Halifax was composed of a less numerous body of men than now; but there were several quite active and able officers on the force. Among them the most able was a young man by the name of James Auld, a native of the County of Annapolis. To a casual observer Auld appeared to be rather slightly built, and a stranger would not have been willing to bet much on him as a fighting man, but although he was tall and spare, he was of great breadth between the shoulders, and great depth of chest, and as he possessed extraordinary activity and courage, he was more than a match for any ordinary man. At the time of which we are writing there was a laborer employed on Canard's wharf, a man who had formerly been a man-of-war sailor, and had been the bully of the crew of every ship in which he had sailed. Having married a Halifax girl he determined to quit the sea and find employment on shore, which he had no difficulty in doing as Halifax was then prosperous, and stout able men were in demand. But our sailor friend was quarrelsome, and he was not long in the employ of Mr. Canard (afterwards Sir Samuel Canard) before he beat one of his fellow workmen very severely. A complaint was lodged at the Police office, a warrant was issued for his apprehension, and Mr. Clarke the then police clerk sent an officer to capture the offender, but in an hour he returned pretty badly beaten. Two men were then dispatched to take the man, but they also failed; the fellow actually beat them both, and drove them off the wharf. Mr. Edward Canard who witnessed the affair from the office window, went down on the wharf and told the man that he had better go and surrender himself to the mayor, but he refused to do so. Mr. C. then told him that there was no escape for him, for if the Police could not take him, a guard of soldiers would be sent to do it. This had no effect, for the man declared he could fight a whole company of the "4—d lobsters." In the mean time the two policemen returned to the office and reported to Mr. Clarke, who was furious and said he would take the man himself. Just at that moment Auld made his appearance, and Mr. Clarke asked him if he thought he could fight the offender. "I'll try," said Auld, and went out. When he got to the wharf the man saw him coming and he said, "You're after me, but I've whipped three of your best men to-day, and I can fight a dozen like you, so come on." He then squared off for a fight, but on the instant lightning-like stroke from Auld's fist struck him fairly between the eyes, and he dropped like a bullock. Before he could recover Auld had the bracelets on him. He then picked him up by the back of the neck and with his trousers, threw him over his shoulder, and carried him all the way to the Police office a distance of a quarter of a mile. Mr. Auld was on the force he was the hero of many a similar adventure. He afterwards became sergeant or captain of Police in the island of Barbados.

—George Elliot, (Marion Evans) the author of "Middlemarch," "The Mill on the Floss," "Adam Bede," "Daniel Deronda," &c., &c., is dead. She was one of the most attractive and brilliant writers of fiction of the day, and by her death the world of literature has suffered a great loss. It seems somewhat singular that a woman of the refined and delicate taste her writings proved her to be, should have been willing to brave public opinion by living with her first husband, Mr. Lewes, up to the time of his death, without the legal form of marriage having been gone through with. Yet she did so, and society winked at it. It is said that Mr. Lewes' ideas, which were mainly philo-sophical, and though giving evidence of exhaustive reading and research, were somewhat heavy and dry in their tenor to the general reader, largely influenced her writings. This phase is strongly marked in "Daniel Deronda," or else it must have been her joint work. After Mr. Lewes' death, she became the wife of Mr. Cross—the ceremony being duly performed by a Church of England clergyman. Aside from her literary reputation, George Elliot possessed many estimable qualities of heart and mind, and both in her public and private life her death will be deeply regretted.

—L. Delap, Esq., of Annapolis, has requested us to give in full the excellent article by the Rev. A. W. Nicholson, which appears in the Journal of the 25th inst., on the steamboat project. After a careful perusal of this paper, we find it direct to the point—and recommend our readers to give it their closest attention.

We trust our farmers are fully alive to the benefits that will accrue to this County, if this steamboat project can be successfully carried through. This is not a matter of any standing amongst us but what an effort to take at least one share—the risk comparatively nothing, as a reference to the Act of Incorporation will show (see Mr. Nicholson's letter). As first, we confessedly have felt some what doubtful of the success of the scheme; but the statistics that have been brought forward at the different meetings, leave us no room for doubt; that the enterprise is a more than possible one.

Our Clergy.—We have not been able to present our readers with the paper in its original form in quite the shape, typographically speaking, that we hope to do in the course of a few weeks, owing to an error appearing on the hand of one of our printers, and the halting manner in which the paper has been printed. We trust, therefore, that whatever shortcomings may be looked upon with lenient eyes.

Phretharian Witness, one of the welcome weekly exchanges, has a thirty-third year last week. An extraordinary year it has not, but the Providence, and in addition to its religious intelligence, it contains a fully compiled summary of the current news of the week.

—The following is a report of sales of apples in London, as per letter handed us by Messrs. Runciman, Randolph & Co.:

110 Cannon St., London, Dec 23rd, 1880.

Dear Sir:—

The sales of apples here this week have been very quiet, and the market is dull.

Some of the fruit was landed in poorer condition than previous weeks; sound fruit has maintained its value with good demand.

Prices for sound parcels have ranged as follows, viz:

Newton Pippins—fair quality, 14s. @ 17s., a few fine 28s. @ 35s.

Baldwins—fair quality, 12s. @ 14s., best 15s. @ 16s.

Boxbury Russets—13s. @ 14s., Golden 14s. @ 15s.

—ordinary 12s. @ 14s., and a few very choice 17s. @ 23s. 6d.

Sundry kinds—Northern Spys, 12s. @ 14s., @ 14s. @ 15s., Spitzenberg 14s. @ 15s., @ 17s., Swarts, 12s. @ 14s., 13s. @ 14s., @ 15s., Kings 14s.

Yours truly,

JOHN S. TOWNSEND & Co.

More careful packing is still called for—every care should be taken against the possibility of apples being bruised—by ample allowance being made for handling and shrinkage. The thorough ventilation that the subject was given by the Press last Autumn, has good effect, but there is still room for improvement. The following clipping, made from a United States paper, may recommend itself to our farmers:—

"A prominent buyer says the correct way to pack apples is as follows:—Place layers of straw, evenly, over the apples, and the bottom of the barrel. Then put them in as they come, after having sorted them thoroughly. Do not discuss them. After the barrel has been filled press them down gently with a screw press. Then they will not chafe or bruise if the barrel gets shaken on the road. The barrels at the bottom. Then they will look bright and even, with stems up, and make a good impression. Apples packed in this way are worth 25 @ 30c. more on a barrel than apples packed carelessly, or not at all. Shippers, who buy apples packed loosely in barrels, always have to re-pack them, and must take their trouble of the price."

AMBER SUGAR CANE.—Solomon Drew, Esq., of Niagara Falls, some three weeks ago, brought us in a sample of the syrup, made from the Amber Sugar Cane—the quality of which we have noted before as being much superior to molasses. From Mr. Drew we gathered a few statistics of his experience in the cultivation of this cane. No more cultivation or care is required than for common Indian corn, and the yield is immensely productive—stalks growing 12 feet high. It ripens about a fortnight later than corn. Cattle will eat it greedily—and for fodder purposes it is far above of corn. From some 125 gallons of the juice, as extracted by a very inferior apparatus, Mr. Drew informs us that he obtained 19 gallons of very thick and heavy syrup. There seems to be no doubt in the minds of all those who have made experiments with the cane that there is every opportunity for a most profitable enterprise in its cultivation, and after mature reflection into sugar if only the right kind of encouragement is given.

A SINGULAR CIRCUMSTANCE.—The following item has been contributed by a subscriber of undoubted veracity. We neglected to inquire the date of the occurrence, but presume it must have been some time during last autumn.

SWISS SCISSORS.—A farmer, named Mr. Wm. Wilson, living at Kingston in the adjoining County, was aroused during the night by a great rumbling among the cattle in the barn. Dressing himself he went out, but found everything apparently all right, with the exception of one cow, which was acting as if very much frightened; but no thing could be found the account for it. In the morning, however, on going out to the barn, he found a snake lying stretched out on a window sill. He grasped a stick and killed the reptile. The blow broke through the skin, out of which came about a pint of milk, thus explaining the cause of the cow's terror. His snakebite was said to be about four feet in length—one of the largest ever seen in this County.

—Christmas day proved to be very fine. Services were held in the morning, in Providence and St. James' churches, the latter being tastefully decorated, as is customary during this season of the year.

During the afternoon, the streets presented a lively appearance—the sleighing being fair, and many turns out being in requisition in consequence. Those who did not possess teams gathered around the head of Queen Street, which commands an extended view of Granville St., transformed for the nonce into a driving park, and watched the flying trotters, with tail over the dash board, getting over the ground in—well, say a six minute gait,—and envied the fortunate possessors of such redoubtable steeds.

DONATIONS AT MARGARETVILLE.—On the evening of the 14th inst., the friends of the Rev. Wm. Hill, (Baptist) assembled at the residence of Mr. Thos. Mapplebeck, and presented him with the sum of \$100.00, principally in cash; and one week later, the friends of the Rev. Jos. Guets (Methodist) met at the residence of Capt. John Roy, and presented him with the handsome sum of \$155.00 in cash. One thing worthy of notice in this donation visit, is that members of the Baptist, Methodist and Presbyterian churches met together, and nobly aided in the support of each other's ministers, by their liberal contributions.

—A Jew was crucified at Morocco recently, for loaning money with usury. That was pretty rough on that particular Jew; but we have heard of cases where usury to such an exorbitant amount has been extorted from borrowers, and under conditions that would render it almost execrable to make as terrible an example of the usurer as in the case above.

STEAR-SHIP COMMUNICATION.—A meeting is to be held in the Court-House, in this town, on New Year's eve, at seven o'clock. We trust our farmers and business men will be alive to their interests, and show their zeal by attending in force, and thoroughly ventilating the subject.

A meeting takes place at Lawrence-town this evening.

GLANCE AT OUR BUSINESS ESTABLISHMENTS.

MURDOCH'S TANNERY.—A visit to this establishment shows a growing business. At present five hands are employed, and they find it impossible to keep up with the work, as the proprietor, Geo. Murdoch, Esq., informs us that he has orders for almost all the time. The quality of leather turned out at this establishment is of a first-class quality, and orders are daily filled to go to all parts of this Province, and also into many parts of the adjoining provinces. In the spring he intends to put in a new boiler, change the engine, and put improved machinery in, in order to give him increased facilities for doing a much larger business. Mr. Murdoch is one of our most prominent men, and has done a great deal by his building and business operations to improve the appearance of the town. He employs, in addition to his tannery establishment, three men in his boot-making establishment. The good quality of the work done here, is too well known to require any comment from us. Three men are also constantly employed by him in making all kinds of boots and shoes.

J. B. REED.—Furniture Manufacturer. This is by far the largest manufacturing industry of the town. Some eighteen hands are employed, and the buildings comprise a Factory, Paint and Upholstering Shop, and the Ware-room. The factory is thoroughly fitted up with a first-class engine and boiler, planing machine, circular saw, and cutting off saws, lathes, moulding machines, etc., and the proprietor informs us that he has just ordered some new machinery to meet the increasing demands of his trade, which he says is "booming—never better."

In eight weeks he estimates he sold \$2500 worth of furniture. He has a large outside trade, which speaks well for the excellent reputation of his furniture. Periods patronizing this establishment may depend on satisfaction. The proprietor is a sound business man and employs good workmen.

W. A. CRAIG.—Iron Foundry. This has been for several years one of our soundly established industries. The proprietor is a "square" man, and does a "square" business. Ten men are employed in foundry and blacksmith shop. A large number of stores of improved patterns are turned out during the year in addition to general castings. A specialty is made of plows which the proprietor informs us he sold some 150 last spring. He is now engaged in getting out a root cutter, which will doubtless have a good sale. An excellent bay cutter, of which some 50 within the last two months have been sold, and the disc harrow, which took special prize at the Halifax exhibition, are made at this establishment. The proprietor intends adding a new boiler next spring, and expects to otherwise increase his facilities for work.

FALCONER & WHITMAN.—Monuments, head-stones, etc. This firm are doing an excellent business— plenty of work from all over the province. The workmanship will compare favorably with that of similar establishments, and their prices are very reasonable. It is too large a subject, however, to wish them too good a word.

RECKMAN, RAWSON & Co.—Specialty Dry Goods, Ready-Made Clothing, Flour and Meal, but a large general store is also attached. This firm is the oldest in the town, and their reputation for honesty and fair dealing is soundly established. The senior partner, Mr. Radolph, runs two large lumber mills on the "Cove," and gives employment to a large number of men in running the mill and treating the lumber. This, of course, adds greatly to the general business of the firm, making it, we think, the largest done in the town. Their new store, finished within the year, is a handsome structure, standing at the head of Queen Street, and sitting on Granville Street. It is well fitted up, and has improved "Thorne's Corsets" wonderfully.

JOHN LOCKETT.—Specialty Dry Goods and ready-made clothing, but in addition, a large stock of well assorted Groceries, Flour and Meal, etc., will be found in his store. Mr. Lockett has now been established in this town a number of years, and has won a good reputation, and is doing a fair trade. He always keeps his stock well up, and customers may depend on getting good value and courteous attention. During this year Mr. Lockett purchased the large and handsome dwelling house adjoining his store, built by the late Joseph Wheelock, Esq., and is now living there with his family.

AMERICAN GROCERIES, Hardware, Boots and Shoes, etc. This firm does a large country and town trade. The business has been established for a number of years. The head of the firm is Mr. John Murdoch son of the tannery proprietor. One clerk is employed, and those patronizing the establishment may be sure of having their wants attended to in a satisfactory manner.

J. E. SANCTON.—Jewelry, Silver Ware, etc. Mr. Sancton keeps a well assorted stock of Silver Ware, Jewelry and Fancy Goods. Mr. Sancton has been doing business in this town for the last twenty-three years. He does a large amount of repair work, and is employed by the W. & A. Railway to take charge of all clocks on the line. He attends morning to the store in the Post Office building shortly, which is being tastefully fitted up in order to better carry on his business.

A. D. CAMERON.—Dry Goods, Groceries, Boots and Shoes, Flour and Meal, and general goods of all kinds. Mr. Cameron opened store here some forty years ago, and has been doing a steadily increasing business ever since. He keeps a large and complete stock of excellent goods, and he and his clerk will always be found ready and willing to promptly attend to the wants of customers.

JOHN FISHER.—Merchant Tailor. Mr. Fisher does a large and growing business, which is constantly widening as the excellent quality of his work, in fit and materials becomes known. He employs some four or five hands, and his cost maker, as well as a good workman, as can be found anywhere.

W. M. TUPPER.—Dry Goods, Groceries, Hardware, Flour and Meal, and general assortment. The proprietor is the son of Miner Tupper, Esq., and the business he is now doing is a continuation of his father's business. Mr. Tupper is a young man who has won for himself a creditable reputation among his customers. He has good business qualifications, having been a member of a city firm for several years. A 5, 10 and 25 cent counter, which explains itself, has been instituted in this establishment.

COX BROTHERS.—This is a good firm, well established and doing a good trade in honest work. Cheese Factory apparatus is a specialty with them.

Mrs. MILLER'S, Mrs. FRASER'S, Miss LOCKETT'S and Mrs. GAY'S MILLINERY ESTABLISHMENTS are all well furnished with goods in their line and doing a fair share of business.

J. W. BROWNE.—Staple, Groceries, Flour and Meal, Boots and Shoes, etc. In addition, a well assorted stock of Dry Goods. This is a new store just opened in our midst, by Mr. J. W. Beckwith, who is well known as the proprietor of a well appointed livery stable, which he still continues. In his new business he has we believe every prospect of good trade. His motto appears to be "Small Profits and Quick Sales," judging by the liberal offers he has made in our advertising columns. One clerk is employed.

E. C. LOCKETT.—Groceries and Provisions. This is another new store, started a short time ago, by a brother of John Lockett's, Esq. The proprietor informs us that he is well satisfied with the amount of business that he is doing—and that his trade is increasing. He keeps quite a good stock and his prices are reasonable.

Jas. McLeod.—Watchmaker, Jewelry, Silver Ware, etc.—This is an establishment recently started in the town, being a continuation of the same business formerly conducted by Mr. E. C. Lockett. Our notice of a new concern must necessarily be brief. We will say, however, that Mr. McLeod, has done and is doing a large amount of repair work, which certainly indicates that he is earning a good name as a workman.

JOHN BERT.—Undertaker, and Cabinet Maker. Bert has a good reputation for honesty and fair dealing. He keeps on hand a good assortment of Caskets, and Coffins, and has an imported bears of modern style, and other appointments of this branch of his business to enable him to conduct it successfully. He also has on hand a good assortment of Furniture—specially upholstered—which he sells at reasonable rates.

J. W. ROSS.—Harness, Trunk, and Valise maker. Another new business started within the year. The proprietor is a young man, steady and industrious, and is doing, we believe, a satisfactory business. Flour and Groceries, Flour and Meal, Crockeryware, Glass Ware, Hardware, etc., etc. This is a heavily stocked miscellaneous store, and has a large trade. The business has increased from a small beginning to its present proportions. The proprietor is a man well liked in his business capacity. He keeps on hand a number of buildings he has built in the town during the past few years.

Wm. HART.—Carriages and Sleighs. The proprietor of this establishment thoroughly understands his business, and all parties patronizing him may depend on receiving good service.

Mrs. L. C. WHEELOCK.—Dry Goods, Groceries, Confectionery, etc., D. P. A. by est. This is a branch of a well established and reliable business at Lawrence-town. The store here carries not a large, but well selected stock, is conducted on a fair and liberal plan.

MASS SERRA.—General Groceries and Fancy Goods, continuation of the business of the late Wm. Shipley, Esq. A fair stock, and doing a respectable share of business.

ASBURY FOSTER and THOMAS EASTON—Woolen and woollen goods, with most of excellent quality. The former also keeps on hand a good stock of geese, turkeys, ducks, fowls and vegetables in season.

The foregoing will give some idea of the business done in this town, and we think it will be brought home to our readers with greater force, when we inform them that the wages paid out per year in Murdoch's tannery, Reckman, Rawson & Co.'s, Craig's Foundry, and Reed's Manufactory, amount to the very respectable sum of \$100,000 on a rough estimate.

We intend to give a notice of the stores in Paradise, Lawrence-town, and Middleton at an early date, but would feel obliged to any person living in these localities who would furnish us with the names of the proprietors.

—Hall's Journal of Health has reached the January number of its twenty-seventh year. Its table of contents indicates how useful it can be made in every household of every community. The contributors embrace the following: Nani Carter; Moulton and Sarslet Fever; Diptheria; Egyptian Moles, Warts and Birth-marks; The Coming Man Physically; A Remarkable Man; The Late General Mayer; The Signal Service; Poetry; Life Insurance; Group; Taxes; Taken Down; Seizure; Goethe and Schiller; Can Animals talk; How a Man Goes to Bed; The Pronunciation of "U"; Fish and Cure; Removal of Stains and Spots; Roses; The William Gott; Book Notes; Perils of Flatulency; Mother and Infant; High Pressure Steam; Fever and Ague; Diseases of the Spine; Colds; Are Metals Volatile; Baking Powders; Constipation. H. Gibbs, A. M., M. D., is the editor. The publication house is in New York.

AM AMERICAN PRODUCT OF MERRILL, CAL WAREHOUSE.—And just here comes in the contrast of the position of the Englishman with that of his kinsman on this side of the Atlantic. He has no Webster; no book of an all-satisfying requirement, no one reference work in which he will find all the facts he may be in quest of, no single query that will yield him every one of his demands require the inspection of—such as he may find in the mammoth "U. S. abridged Webster." As a publishing enterprise, having regard to its issues, its thoroughness, its compactness, and its price, it is an amazing product of the skill and mechanical workman-ship.—The Canada Educational Monthly.

A watch night service will be held in Providence church on Friday night, to begin at 10.30 o'clock.

DONATION.—The friends and parishioners of the Rev. Mr. Blakey, at Port Lorne, intend making him a donation visit, on Tuesday, the 11th day of January. Should the day prove stormy—the next fine day after.

—T. W. Chesley's letter, in the last Monitor, we consider entirely unprovoked as far as we are concerned. If we made an error in report of County Court on our weekly causes, it could easily have been corrected, by a simple statement, without his finding fault with us in his ridiculous style.

—Nearly 6,000,000 feet of pine lumber has been shipped from Bear River to the West Indies this year, and 7,000 cords of wood to the American market. Numbering operations will be carried on more extensively than for some years past.

—Notice is hereby given that a light-house, erected by the Government of Canada on Sand Spit, Shelburne, Nova Scotia, to replace that on Sand Point, burnt down in 1875, will be put in operation on the 15th inst.

The light will be fixed red catoptric, elevated 47 feet above high water mark, and in clear weather should be seen 10 miles from all points seaward.

This structure consists of a square wooden tower, 41 feet high from its base to the rane on the lantern, standing upon a timber pier and painted white. The pier is about 240 feet from the extremity of the Spit.

ANAPOLIS, Dec. 27.—The building at Moore River, owned and occupied by Mr. McNab, a dwelling house and shop, was discovered to be on fire about one o'clock last night. The furniture was partly saved.

Mr. McNab was insured in the Western Insurance Company for \$500. Mr. S. Potter's shop, which adjoined the burning building, was saved with great difficulty. The stock was partially damaged by removal; also insured in the Western—Chronicle.

—The large Alburns arrived at Queenston on the 16th inst.

It is the testimony of all men who have tried it that "Myrtle Navy" tobacco has the most delicious flavor of any tobacco in the market, and that it leaves none of the unpleasant effects in the mouth which most tobaccos do. The reason for this is the high and pure quality of the leaf, which is the finest known in Virginia, and the absence of all deleterious matter in the manufacture.

BARRIE COLLEGE.—Workmen employed by the Vancouver Coal Company running a drift between Chase and Nanaima rivers, have struck a good seam of hard coal five feet thick. The annual export of coal from British Columbia ports to San Francisco exceeds 100,000 tons.
