## PROFESSOR ELLIOTT IN BIG UNDERTAKING

Former Annapolis County Boy Engineer  
Chosen to Reclaim 300,000  
Acres of Salt Marshes in  
North Carolina.

Faced with the problem of con-  
verting 300,000 acres of North Caroli-  
na salt marshes into salable real  
estate and flowering garden plots,  
engineers from the southland turned  
to Minnesota for its solution, and  
announced last night that they  
have hired a Duluth dredging com-  
pany and a Minneapolis reclamation  
engineer of national reputation to  
carry out the nation's biggest undertak-  
ing in land reclamation.  
Preparing for a real estate boom  
which they say will eclipse the soaring  
Florida market, North Carolina  
land men are preparing to make a  
track garden and real estate project  
out of the "open grounds" district on  
the Beaufort peninsula.

Searching scientific records dealing  
with land reclamation, they discovered  
what Minnesota has done to make  
its peat bogs into profitable invest-  
ments, and obtained the name of G. R.  
B. Elliott, former professor of archi-  
tectural engineering at the Universi-  
ty of Minnesota, now a drainage  
engineer expert. They hired him,  
and then gave the contract for dredg-  
ing to the Union Dredging Company  
of Duluth.

The great tract has a soil and cli-  
mate admirably suited to heavy truck  
farming, Professor Elliott said. It is  
a peat marsh, similar in composition  
to the one near Albert Lea, where  
experts made potatoes grow where  
nothing grew before, and to the  
Mather Lake development project,  
just south of Minneapolis.

Professor Elliott faces the problem  
of taking the water out of that 300,  
000 acres of waste land. This he  
proposes to do with a network of ditches  
which will cut the peninsula into 200  
acre tracts. Available water trans-  
portation will make the region the  
most unique of its kind ever proposed  
as a truck farming region, Professor  
Elliott said.

Application has been made for gov-  
ernment aid on the project, and a  
senate committee has been investi-  
gating the situation.

The Professor Elliott named above  
graduated from the Lawrentown  
High School of which O. P. Goucher,  
M. P. P. was then Principal. He after-  
wards took courses at Dalhousie  
University, Halifax, and at Columbia  
University, New York City; then  
went West, establishing in Vancouver  
a drainage business which reclaimed  
some lands about the mouth of the  
Fraser River. Later, he prospectored  
for gold and molybdenum in British  
Columbia, from whence to the Uni-  
versity of Wisconsin, and later to  
that of Minnesota, as a drainage ex-  
pert, attached to the Agricultural  
facilities of those institutions. Some  
months ago he was called to North  
Carolina to give expert advice in the  
matter set forth by the Journal,  
which has now, apparently, borne  
fruit.

Professor Elliott is the son of the  
late J. R. Elliott of this Province,  
and the nephew of Leonard W.  
Elliott of Clarence and of the late  
Edwin J. Elliott of the same locality.  
(M. Monitor.)

Some men do it this way, too.  
Husband has wife shift's around;  
That reminds me, I must stop at the  
boller factory on the way home.

## NEWSY NOTES FROM ANNAPOLIS

Social and Personal Notes Concern-  
ing Well Known People.—  
Funeral of Mr. Simon  
Riley.— Other Items

Annapolis Royal.—The funeral of  
the late Simon Riley, whose death  
took place at Oakland, California, on  
July 4th, was held here on Tuesday  
afternoon at St. George's United  
Church and very largely attended.  
Rev. R. B. Thomas of Granville Ferry  
officiated and preached the sermon,  
and Rev. T. C. Mellor offered prayer.  
The hymns "Peace, perfect Peace"  
and "Asleep in Jesus" were rendered  
by the choir, and a quartette com-  
prising Mrs. F. M. Dargie, Miss Ber-  
nice Crowe, Mr. L. Robertson and Dr.  
A. B. Crowe, sang "Crossing the Bar."  
The service at Woodlawn Cemetery  
was conducted by Annapolis Royal  
Lodge, A. F. and A. M., No. 33, with  
Messrs. Albert Cole, Charles A. Ritchie,  
William Johnson, and Samuel W.  
Pickup, acting as pall bearers.

The late Mr. Riley was born at An-  
napolis Royal, sixty-eight years ago,  
and was one of the best known engi-  
neers on the D. A. R. He retired a  
few years ago, and has since spent  
his winters in California, where sev-  
eral of his children reside. Some  
weeks ago he was seized with the ill-  
ness which proved fatal, and his re-  
mains were accompanied home by  
his wife and oldest son. He is surviv-  
ed by his widow, formerly Miss Mary  
Linnehan, of New Ross, Kings Co.,  
four daughters—Mrs. Scott Saunders,  
of California, Mrs. A. McLeod, of  
Ontario; Mrs. A. Kirkpatrick, of  
Hantsport; Mrs. W. Horner, of Bos-  
ton; and two sons, William, of Los  
Angeles, Cal., and Cecil of Oakland,  
Cal. He also leaves seven grand  
children, and three sisters—Mrs. B.  
Nickerson; Mrs. E. Anderson and Mrs.  
H. Burnham, all at present in Cam-  
bridge, Mass.

Mr. and Mrs. Leslie Wiltshire of  
Hortonville, Kings Co., accompanied  
by Miss Helen Wiltshire, were guests  
of Mr. and Mrs. A. E. Atlee, on Tues-  
day and Wednesday.

The Misses Maud and Vilah Hall,  
former Annapolis girls, were guests  
at the home of their cousin, Mr. F. W.  
Harris, this week.

Miss Judith Piers, of Halifax, who  
spent her vacation in town last sum-  
mer, is spending two weeks at the  
Millford House.

Rev. and Mrs. M. H. Macintosh and  
family, who have been on a vacation  
trip to Prince Edward Island, return-  
ed on Friday.

Word was received on Friday after-  
noon of the results of the Grade XII  
examinations. Miss Elizabeth Braine,  
Miss Margaret Banks, Douglas Mac-  
intosh and John Covert of Karsdale  
were all successful, and as Miss  
Helen Beeler is in Bridgetown, her  
marks were not available.

Mrs. Fred Bishop of Bear River, is  
the guest of Mr. and Mrs. W. H.  
Ritchie.

Mrs. Fannie Harris of Halifax, and  
Mrs. A. Murray and her daughter,  
Miss Florence, of Fredericton, are  
guests of Mrs. Wilmer Horstall.

Mr. William Bent, of Granville  
Ferry, a member of the local staff of  
the Bank of Nova Scotia, is enjoying  
his annual vacation.

Mrs. John F. Whitman, of Clemen-  
tsport, and Mrs. Agnes Shaw, of  
Windsor, are visiting friends in town.

Miss Louise Harris, of the Prepara-  
tory Department of the Academy, has  
been the guest of her sister, Mrs.  
John Jackson, at Paradise, N. S., and  
will later spend two weeks in Yar-  
mouth.

Miss Margaret Robertson and Miss  
Dorothy Braine, motored to Yar-  
mouth with friends on Saturday.

Miss Jean Langille is in Halifax,  
having had to undergo an operation  
for throat trouble.

Mrs. James King of Olivet, Mich.,  
with her little son, is the guest of her  
sister, Mrs. L. B. Braine. Her husband  
Dr. King, Dean of the College at  
Olivet, is expected on Monday, with  
his other son.

The death of Lorenzo Morgan, of  
this town, occurred at the Nova Scotia  
Hospital, on Friday, and the remains  
were brought through on Saturday,  
and interred at Bear River. The late  
Mr. Morgan, who was fifty-six years  
of age, was the son of Mr. and Mrs.

NEW TREATY WITH WEST INDIES WILL BENEFIT N. S.

Moncton, N. B.—The Trade agreement with the West Indies which was signed last week at Ottawa at the close of a conference of delegates from the islands and the Dominion is the greatest treaty so far as the Maritime Provinces are concerned, that ever has been entered into by Canada since confederation.

The agreement brought to an end the 50 year old struggle of the Maritime Provinces to compete with the manufacturers of Ontario in their home market and the markets farther west.

Mr. Logan also expressed the opinion that the agreement was but the start in the export trade and that the expansion of industry to fill the wants of the islands there should be a further searching out of markets in countries similarly situated and which have not the same natural resources so easily made available here.

CONSUMERS ADVISED TO PURCHASE COAL

Seldom has Fuel Outlook Seemed so Threatening, Says C. A. McGrath

Ottawa.—The Canadian consumer will be well advised to get in a sufficient supply of whatever fuel he proposes to use next winter without loss of time.

"Seldom has the fuel outlook seemed so threatening as at the present time," says Mr. McGrath in a statement issued today. He points out that coal miners are on strike in Eastern and Western Canada, that there is possibility of a bitter fight in the Pennsylvania coal region at the end of next month.

"No one knows just what will happen should the operators and miners come to grips, states Mr. McGrath. Every ton of coal placed in the cellar between now and August 31st, is assurance against embarrassment during the critical winter period, and will help avoid a recurrence of the critical conditions which have prevailed in the past, of which the Canadian public have a vivid recollection."

Here and There

The popularity of the Nova Scotia apple is rapidly growing in Europe. 1,103,880 barrels and 8,693 boxes were shipped in 1924-25 to ports in England, Scotland and Germany. Shipments also went to Newfoundland, West Indies, Central Canada and the United States.

Production of sugar beets in Canada during 1925 amounted to 159,200 tons, valued at \$1,922,668, and grown on 17,941 acres, according to the Bureau of Statistics. 6,000 acres have been planted to beets this year in Southern Alberta, due to the establishment of a sugar beet factory.

Milton Sills, the well-known movie actor, with a company of 32 other screen artists, passed through Montreal recently to take scenes in "The Come Back" in which he is featured. The party went to Beaucehene, in Northern Quebec. Travelling by another train was a mother skunk and five kitten skunks which will also figure in the picture.

The 286 passengers on the Canadian Pacific S.S. Empress of France completed their 30,000-mile tour of the world on Saturday, May 23, when the vessel docked at New York. At their last stop at Havana, President Machado de Cuba invited the passengers to attend his official inauguration and to witness the unveiling of a statue to the preceding President.

Another aristocratic rancher recently passed through Montreal on a return visit to the ancestral estates in Transylvania, Hungary. This was Baron Josef Casavosy who, with his brother Andre, took over a 1,600-acre ranch last March near Cochrane, Alberta, on the Bow River. Incidentally the Baron was a passenger on the Trans-Canada on its first return trip of the season from Vancouver.

The Indian Day Celebration at Banff, it is announced, will take place as usual this year on the third Thursday and Friday in July. Preparations are already under way for this event, which enjoys an enviable reputation as an Indian show. The Stoney Indians arrive in large numbers from their reservation to take part in the ceremonies, which are the 23rd annual celebration of the function.

Edward G. Taylor, one of the best known game fishermen on the continent is authority for the statement that New Brunswick is losing none of its lure as a fisherman's paradise. Just back from a trip to the Cains River, N.B., Mr. Taylor said salmon were steadily increasing in numbers and size in the province. He added that he had caught on this trip a salmon 42 inches long and weighing 24 lbs. In the autumn such a fish would likely weigh up to fifty pounds.

The following story is told of Sir Wm Van Horne, first president of the Canadian Pacific Railway and a Major Rogers, who was in charge of the supplies for men working along the track. Van Horne said: "Look here, Major, I hear you men won't stay with you, they say you starve them." "Taint so, Van." "Well, I'm told you feed 'em on soup made out of water flavored with old nam canvas cover." "Taint so, Van, I can't never have no name." "From 'Canada's Great Highway,'" by J. H. E. Secreten.

The Western railways of the United States comprising 67 roads serving Chicago and the West, have petitioned the Inter-State Commerce Commission for permission to advance rates. They state that for the years 1921 to 1924 inclusive, the average rate of return on capital was 3.55 per cent, which they claim is so small as to render it impossible for them to secure working capital for extensions and improvement of service by the sale of stock or issue of bonds at reasonable terms. They ask for rates that would give them a net return of 5 1/2 per cent, which is generally admitted is what railways should have.

PROVINCE LAGS IN POULTRY EXPORTS

Eye Imports Were 87 Carloads, and Only Two Carloads Were Exported in Year 1924.

MIDDLETON.—At the last meeting of the Middleton egg circle, A. F. Curran, District Inspector said that Nova Scotia has behind the other provinces in her poultry industry. Organization is necessary for development, and best breeds should be purchased for production, he said.

In 1924, 72 car loads of eggs were imported from Western Canada into Nova Scotia, 15 car loads from the United States, and only two car loads exported. The grading and inspection circle has largely increased the confidence of the consuming public to the extent that the per capita consumption in Canada in 1921 was only 15 dozen, but had increased to 26 dozen in 1924.

The inspection circle has portended the Nova Scotia consumers, in which several car loads of eggs, unfit for consumption, were returned to their shippers. But the imported variety is improving in quality all the time. This service has also assisted the producers to develop domestic and export trade by building up the confidence of the consumer, owing to the sale of graded eggs.

In the following article, Mr. Gold, who is manager of the Lawrencetown Fruitgrowers' Limited, quotes various reports indicating that the best interests of Nova Scotia apple shippers are not served by the existing arrangements for marketing in London, and suggests that the United Fruit Companies of Nova Scotia have indirectly caused their members a loss of \$250,000 within the past two years, by not adopting the recommendations made for remedying the situation which is commented on.

Ontario's Many Summer ON BEAUTIFUL GEORGIAN BAY A QUARTET OF BIG BASS Every summer tens of thousands of visitors seek rest and recreation, health and happiness in the fascinating hinterland of Ontario, where woods and waters abound on every hand, each with its special charm. A fascinating retreat for fishermen in this part of Ontario, is the French River district. Since the erection of a comfortable, commodious bungalow camp which opened in 1923, visitors have flocked there in numbers that have taxed its capacity. Fighting bass, grown strong in the swift waters of the river, and huge muskellunge are caught in large numbers. Other species are plentiful too. Most of the Ontario places are easily reached from Toronto. The Muskoka and Kawartha chains of lakes are the annual haven of many visiting families who occupy cottages, camps and hotels of varying degrees of comfort and luxury. All enjoy the dry, pine-scented air that is a sure remedy for hay fever. Many motorists use special chains...

MARKETING THE NOVA SCOTIA APPLE CROP

(By A. M. O. Gold.)

In the following article, Mr. Gold, who is manager of the Lawrenceton Fruit Growers' Limited, quotes various reports indicating that the best interests of Nova Scotia apple shippers are not served by the existing arrangements for marketing in London, and suggests that the United Fruit Companies of Nova Scotia have indirectly caused their members a loss of \$250,000 within the past two years, by not adopting the recommendations made for remedying the situation which is commented on.

In 1923, S. B. Moomaw, England, issued a report on marketing conditions in the United Kingdom and the Continental Europe. The following are extracts from Mr. Moomaw's report:

Greater supervision in the interest of owners of our fruit is necessary. At auctions the "Rules of Sales" provide that bulk is not sold according to samples on display in the sales room. Adjustments are made with the greatest frequency, the buyers having the option of rejecting any parcel purchased at the auction, generally within twenty-four hours after the sale. This right of rejection is the buyers leverage to procure adjustments. Thus the auction sales, while public, are not publicly completed. Completion is a matter of private arrangement between the buyer and broker in many cases. In fact, as often as suits the interest of buyer, in these adjustments, it is to be observed, the owner is not present, unless in the person of a representative.

"Heads," Buyer Wins; "Tails," Seller Loses.

In the ordinary course of auction selling, if the bulk purchased happens to be better than the sales room samples, nothing of course is said by the

buyer. If, on the other hand, there is any excuse for claiming that the bulk is inferior to samples, the buyer will naturally claim for adjustment with a threat of rejection. Thus it is a case of "heads" the shipper loses, "tails" the buyer wins, unless the shipper is personally represented.

There are gilt-edge firms that have been in business, whose words are as good as their bonds, and who are really anxious to secure the largest possible return for the producer and shipper. Unfortunately there are, however, other firms whose carelessness in picking samples for the auction; in putting the fruit up for sale when conditions on the market do not warrant it; in throwing the produce on any market so that "they" can pocket their commission; and even in making private sales at their own convenience, is often the cause of heavy losses.

There is, under the present system, no way of checking these dishonest firms since they can easily say that the fruit arrived out of condition, and that the prices obtained were due to that cause.

Fruit Should Be Reconsign.

Again, fruit is quite often thrown on one market in a period of depression, when it really should have been reconsigned to another. Thus the Glasgow market will be up, and the London market down, the London dealer, however, will throw the produce on the London market at a low price and get his commission, rather than tranship and get a good price for shipper in Glasgow and get no commission.

It is sometimes said by port brokers or salesmen that shippers should not consign to ports without knowing beforehand, that there will not be an excess supply when it arrives, as low prices will result. Shippers who wish to escape the consequences of such consignments can do so only by maintaining a representative, who can hold up sale prices for them at any and all ports, and reship as required. Such a

representative, Mr. experienced in marketing fruits, will be able to remove all or part of any shipment to any other market and obtain better prices for shippers' account, instead of leaving his work to be done by the speculators at their profit.

If most competing American and Canadian fruits were consigned to, and placed for sale by, one spot representative in this way, no glut could occur in any port market, no matter how large might be the arrivals.

Frequently prices for the same class and grade of fruit in two port markets will differ materially in the same week, sometimes by as much as \$1.50 for barrels, and \$1.00 for boxes. It is of almost daily occurrence that in one market or another, an advantage of from twenty to fifty cents can be gained for the shipper by holding up the price or removing his fruit from the port of arrival to another port or principal inland market.

Scandinavian Markets.

Belgium, Holland and the three Scandinavian countries have been taking very little America's exports direct, until after the New Year. In addition to these direct shipments, after the New Year, large quantities are exported from the British markets by speculative buyers, and at the time this report is being written Australian apples realizing in the British markets only 8s to 11s, are being sold in the Scandinavian markets at from 15s to 20s per box. The excellent mail, telegraph and telephone services connecting these markets with the United Kingdom makes those markets highly important when handled in conjunction with the British markets, to relieve the latter from glut. But the shippers should have the benefits of these markets instead of the speculators.

Shippers Loss 25c to 75c Per Package

In view of the condition which have grown up in the British Fruit Trade

it is safe to say that many shippers have been receiving from 25 to 75 cents per package less for all their fruits than would have been received if they had had the services of a representative, and controlling the disposition and sale of their fruit on the spot.

Shippers Should Control Distribution. Mr. Forsyth Smith concludes his report with the following recommendation:

It is therefore recommended that the Canadian apple industry should co-operate to establish a representative organization in the United Kingdom to act as controllers of distribution on this side, and that pending the attainment of such a degree of Dominion-wide unity as would make this possible, any fruit shipping organization controlling sufficient tonnage to warrant this expense should employ a representative in this country to exercise the functions detailed above, with the fullest control over the fruit consigned.

These reports should be in the hands of every fruit grower in N. S., and most decidedly the officials of the various fruit-organizations in N. S. should have enough initiative to procure them and be guided by their recommendations to improve the marketing conditions. B. S. Moomaw's report can be had free from his representative here, Mr. J. B. Barret, Avonport, N. S., and Mr. Forsyth Smith's report, also free, from the Department of Trade and Commerce, Ottawa.

Buyers' Influence Predominates.

Owing to the Predominating influence of the buyers, a system of classifying barrel apples has been adopted at these ports which is certainly unduly rigid, and scarcely fair to the shipper. The final test of a slack barrel is the tapping of the barrel head, a hollow sound definitely relegating the barrel to the slack class, and automatically causing a drop in price from 2 to 3 shilling per barrel. A fair proportion of the barrels thus stigmatized by the very doubtful tap test are as sound as the rights and would be sold as tight on the Glasgow market, where the buyers' influence is less effective. Spanish shippers who are directly represented in this country, have repeatedly proved, notably by securing concessions as regards classification, and as regards facilitating the admission of additional members to the salesroom, that united shippers on the spot can and do, secure consideration not yet accorded to the unorganized apple exporters.

Profits Go To British Buyers.

Apples are sold on the Scandinavian markets, through agents, direct to importers, on a cash sale basis. The whole situation strongly reinforces the suggestion made elsewhere, that business with the Scandinavian should be carried on by re-export by the shippers representative from the U. K., and thus the profits now going largely to British buyers should accrue to the shipper. No risk attaches to such trans-shipment, as selection, delivery and condition can be assured.

A number of important considerations which have been dealt with all seem to indicate that, in order to secure the best results from the marketing of Canadian apples exported to the U. K., and the Continent, it is desirable to develop a system of direct representation of the shippers on the market.

Referring to the Scandinavian and Continental markets the report states that the best way of utilizing these markets is to re-export from the U. K. The brokers practically never do this, such business being left to the wholesale buyers, who purchase from the auctions and re-export to their own profit. The intervention of a shippers' representative service in this connection would serve two purposes: It would relieve a loaded market to the extent of re-distribution, and it would secure the wholesale buyers profit for the shipper.

How Spanish Exporters Do It.

At auctions, the first sale (i.e. the turn of the first broker on a list of three to seven) is sparsely attended, as the full force of inland town buyers have not yet arrived. Similarly the sales that take place at a late hour are made to a dwindling room, the outside buyers having made their purchases and taken train for home.

It is distinctly to the disadvantage of fruit to be sold at such sparsely attended times. The Spanish exporters, in general, have their representatives on the spot, ready to insist that their fruit shall be offered at the most favorable time, and it is only human nature for the broker to regulate the offerings of the far off, unrepresented shipper to the least favorable times, when dwindling competition results in low prices. A shippers' representative service, controlling an important output, could always insist that his fruit should have every reasonable advantage of this nature.

In cases such as those of sales on the London market, where the fruit is removed from the docks before sale, a representative of the shippers should be able to effect

considerable economies in such matters as cartage, and possibly to reduce handling charges to actual out-of-pocket expenses.

Shippers Should Control Distribution. Mr. Forsyth Smith concludes his report with the following recommendation:

It is therefore recommended that the Canadian apple industry should co-operate to establish a representative organization in the United Kingdom to act as controllers of distribution on this side, and that pending the attainment of such a degree of Dominion-wide unity as would make this possible, any fruit shipping organization controlling sufficient tonnage to warrant this expense should employ a representative in this country to exercise the functions detailed above, with the fullest control over the fruit consigned.

These reports should be in the hands of every fruit grower in N. S., and most decidedly the officials of the various fruit-organizations in N. S. should have enough initiative to procure them and be guided by their recommendations to improve the marketing conditions. B. S. Moomaw's report can be had free from his representative here, Mr. J. B. Barret, Avonport, N. S., and Mr. Forsyth Smith's report, also free, from the Department of Trade and Commerce, Ottawa.

Shippers Lose \$250,000.

If Mr. Moomaw's report is correct, the management of the United Fruit Co.'s of Nova Scotia, has, indirectly, by not adopting and following these recommendations, caused their members a loss of at least a quarter million dollars in the last two years. These three reports from widely different sources are undoubtedly correct, but if not, they should be challenged and proven wrong. However, the sad state of affairs is that only a minority of the members see the drifting backwards of the co-operative movement, while the compact majority as per usual, is blind. This leaves the minority two alternatives only—either to weaken or break the organization by seceding and forming a new organization, or appeal to reason. The latter alternative proved fruitless at the last annual meeting in Kentville.

The writer is as strong a believer in co-operation as any man in Nova Scotia, but co-operation, as effective, must be run on businesslike lines. Every facility for improving marketing conditions must be utilized, but judging from the above mentioned reports, this is not being done, and the mere fact that the membership of the U. F. C. has not increased in the last few years, though only 50 per cent of the Valley fruit growers are members now, is evidence of a standstill, and a standstill is equivalent to a backward movement in this connection.

This backward movement could easily be turned forward if up-to-date business methods, advertising salesmanship and representation on the market was brought into effect. A good deal of credit is due the past organizers of this co-operative organization and especially to the President, Mr. F. Bishop, who has the well deserved confidence of every member of the U. F. C. (Morning Chronicle).

FREAK CHICK MEETS DEATH.

Hen Steps on Strange Bit of Poultry, Crushing Out Its Life.

Charles Dale, the well known shoe repair man, who lives at Bible Hill and has a shop at 939 Prince St., is the possessor of a poultry freak—a chicken with two bills and three eyes.

It was killed within an hour or so of its birth by a hen stepping on it, and it is now preserved in a bottle of alcohol.

The chicken is of normal size, white in color, and its two bills are equal in size and about half an inch apart. One of the three eyes is between the bills. (Truro Citizen).

BIG CUT IN DOLE

Scandalous Abuse of Unemployment Benefit in England to be Dealt With.

London—There is going to be a cut of six and a half million pounds in the unemployment dole under the new government bill and Labor is furiously attacking the government.

The minister of Labor under this measure will regain his power of discretion to allow or to disallow benefits already extended by which it is hoped to check the scandalous abuses and the glaring cases of married women drawing the dole and yet being unwilling to work.

The effect of the bill will be to reduce the number of men and women on the dole and to encourage emigration which is today being seriously handicapped under the dole system.

Ontario's Many Summer Resorts Afford Varied Pleasures

ON BEAUTIFUL GEORGIAN BAY. A QUARTET OF BIG BASS.

COZY FRENCH RIVER BUNGALOW.

Every summer tens of thousands of visitors seek rest and recreation, health and happiness in the fascinating hinterland of Ontario, where woods and waters abound on every hand, each with its special charm.

A fascinating retreat for fishermen in this part of Ontario, is the French River district. Since the erection of a comfortable, commodious bungalow camp which opened in 1923, visitors have flocked there in numbers that have taxed its capacity. Fighting bass, grown strong in the swift waters of the river, and huge muskellunge are caught in large numbers. Other species are plentiful too.

men; others delight in sailing and paddling canoes. The summers are all too brief to satisfy these lovers of Ontario's out-of-doors. Camps hidden miles deep, away from the railway lines, yield exceptionally good fishing and wholesome food. Such a one is Billy Burke's log camp on Trout Lake, reached by an 8-mile launch ride from Paget station. Ka-Wig-A-Mog Lodge, hidden away from civilization, is about 8 miles from Palesley, and transportation is via the Key Valley Railway, owned by a Milwaukee lumber concern, which operates a railway bus, mounted on railway car trucks, and fitted with a Ford motor for power. At the sawmill town, this mode of locomotion is exchanged for a motor launch that carries guests to Ka-Wig-A-Mog Lodge, an attractive structure devoted to dining and social affairs. In addition to the Lodge, there are a number of cottages built about an eighth of a mile apart, on both sides of the long, narrow lake, thus insuring privacy. Most fishing is good here, and in the lake there are 100 miles.

### OBITUARY

#### Mrs. Albert E. Amberman

After eight years of declining health from diabetes, Mrs. Albert E. Amberman passed rather unexpectedly away on Friday morning, July 19th, at her home in Granville Perry. The development of bronchial asthma the week before her death was too much for her weakened condition of health to stand. On Tuesday last she became seriously ill; the three days of her illness were ones of much suffering, which was borne with Christian fortitude.

The deceased was, before her marriage, Sallie Ann (Minnie) only daughter of the late Israel L. and Adeline (Welsh) Troop of this village, where she was born on June 5th, 1857, being, therefore, at the time of her death sixty-eight years of age. Her only brother, Wallace O. Troop, passed away in 1917.

Mr. and Mrs. Amberman were married in 1882 by the Rev. James Strothard, their first home having been that now owned by Capt. and Mrs. Merriam. Mrs. Amberman was preceded by Mr. Amberman, who passed away suddenly on Dec. 26th, 1924.

Both Mr. and Mrs. Amberman were very highly respected and esteemed citizens whose passing away is a great loss to the village, in which they associated themselves with and worked for that which made for its best welfare. The United (Methodist) Church in particular regrets the passing of Mr. and Mrs. Amberman, who had been from youth loyal members and faithful workers. At the fortieth anniversary of the church a few years ago among the former members who again occupied the choir were Mr. and Mrs. Amberman.

Two sons survive, Harold T., who succeeded his father in the old established business, and Arthur W., at present at home, also five grandchildren, Dorothy, Margaret, Edith, Harold and Inez Amberman. Mrs. Amberman's bright and cheerful disposition and altogether likeable personality won for her many friends, who greatly regret her passing.

The funeral which was largely attended was conducted at the home Sunday afternoon by the Rev. R. B. Thomas. The hymns sung were: "Asleep in Jesus," "Will Your Anchor Hold?" and "Lead Kindly Light." The floral offerings were many and beautiful and include a handsome pillow from the sons bearing the words "Mother." The underbearers were Alfred Troop, Frank Troop, Bamford Miller and Sam Pickup. Interment was made in Wadeville Cemetery.

In less than fifteen months, death has claimed four members of the Amberman family, namely: William Amberman, Mrs. Harold Amberman, Albert E. Amberman and Mrs. Albert E. Amberman. It is a somewhat unusual coincidence that each of the four deaths occurred on a Friday, the funeral having been conducted on a Sunday. (Specialist.)

Miss Mary Baxter, of Sydney, is visiting her parents, Mr. and Mrs. South Baxter at Baxter's cabins, Kegonakoo Lake. Major George Hawkesworth, of Annapolis Royal, was also a week end guest at Baxter's cabins.

Miss Mollie Cable, of Halifax, is visiting her cousin, Miss Clara Carter.

Mrs. W. R. Rowler and daughter, Etta, spent Monday and Tuesday in Bridgewater.

Congratulations to Mr. Archie Martin, one of our enterprising young men, who is soon to join the ranks of the benefactors. The bride to be is Miss Annie Rawling, R. N., daughter of Mr. and Mrs. J. W. Rawling, of Northfield, Queens Co.

The Maitland Lumber Co.'s mill has closed down operations for a few weeks in order that the men employed may be able to do their holiday shopping. Needless to say all are improving the beautiful weather.

Miss Edna Minard, who has been teaching school at Upper Clements, returned home last Sunday and is spending her vacation with her parents, Mr. and Mrs. Alonzo Minard.

Mrs. Ernest Cardis, of Baltimore, Maryland, and Mr. Clayton Ringer, of Boston, are visiting their sister, Mrs. Samuel Dukeshire.

Mr. Alonzo Minard went to Halifax Tuesday where he will remain a few weeks, while taking medical treatment at Camp Hill Hospital.

The ladies of the Methodist Sewing Circle, met on Tuesday, at the home of Mrs. Melissa Rector.

The ladies of the Baptist Church will meet on Thursday afternoon at the home of Mrs. E. A. Ringer.

Mr. and Mrs. C. H. Ford and the Misses, Thelma, Lillian and Roxie Ford, motored to Lake Munro on Monday evening, and were entertained by Mr. and Mrs. Lawrence Munro.

Mr. and Mrs. Frank Cushing, Roy Patterson and Clinton Dukeshire, of Caledonia, Mr. B. Dukeshire, of Clementsville and Lloyd Sandford, Bear River, were calling on friends here on Sunday.

Mrs. Isiah Munro, of Lake Munro, spent Tuesday with her daughter, Mrs. Walter Dukeshire.

### OBITUARY

#### Mrs. Etta E. Zwickler

This estimable lady, the youngest daughter of the late John and Sophia Stoddard, was born at Stoddardville, Annapolis, on July 2nd, 1865, and passed on to the Higher Life, June 28th, 1925, in the 61st year of her age.

Death came not as a sudden shock, but by unceasing process of tubercular trouble that gradually weakened her fairly strong constitution. Our sister was cut down and yielded to the inevitable call of Heavly, through hopes and interest in life's duties until the end came.

She united with her home church in her youth and was married to the late Benjamin Zwickler of The Dalrymple, Annapolis, on July 2nd, 1890. They resided until about six years ago, when she and one step-son, George, came to Torbrook Mines, neither of them being in normal health, they were somewhat deprived of entering into any public work, but were very hospitable in their home to all.

Her husband predeceased her some twelve years.

Besides George at home, she is survived by two sisters, Mrs. Annie Ward and Mrs. Isaac Darling, Lawrencetown, and three brothers, Charles and Robert, Lawrencetown, and William of California.

The funeral services were held from the church here. Appropriate hymns were sung, and her former minister, Rev. John Hoekin, delivered a suitable address. Loving relatives and friends banded her casket with beautiful flowers and laid her remains to rest in the cemetery beside her sister, who predeceased her six years.

We extend deepest sympathy to the bereaved ones, and especially to the one left alone in the home.

### MAITLAND BRIDGE

### TOURIST TRAVEL IS AHEAD OF LAST YEAR

Digby Camping Grounds and Other Entertainment Facilities Well Patronized.

Digby—The tourist travel in Digby is ahead of last year at this date. The number of American cars far exceeds that of any previous year and every day many new cars make their appearance. The camping grounds in Digby are being well patronized, and every effort is being made to make the visitors feel at home. The tourist boats are doing a good business, and fishing parties are taken out daily.

With the exceptionally fine weather of the past few days, there have been scores of family excursions to the beauty spots within a few miles of the town and on the mountain sides and beaches. All the local garages report good business, and it might be interesting to state that the rush was so heavy Tuesday morning that one service station handled thirty six cars in thirty minutes, which is undoubtedly a record that is hard to beat.

WEST INGLISVILLE

The men in this place are very busy on the roads at present, when completed, there will be a great improvement. The immense hay crop is soon to be gathered in. The farmers are wishing for good weather to make the hay crops.

Mr. and Mrs. Vernon Beals and Miss Hilda Marshall, of St. John, were recent visitors at the home of Isaac Durling, of Inglisville. Miss Hilda Banks is visiting her cousin, Mrs. Douglas Doherty, and other friends at Tremont, Greenwood and Kingston Village. Miss Eva Banks is staying with her aunt, Mrs. John Banks, who we are sorry to say is confined to her bed at time of writing. Mrs. Milton McGill and daughter Muriel, of Paradise, visited friends in this place on Sunday.

Mrs. Isaac Durling and children, spent Sunday with her mother, Mrs. Amanda Beals, of Inglisville. The closing exercises of the public school took place on Thursday, June 25th. A very interesting programme was carried out--consisting of dialogues, recitations and drills. At the close Mrs. Duffels gave prizes and gifts to all the children and furnished a very nice treat of different kinds of home made candy. We hope that both teacher and pupils will enjoy their well earned vacation. Mr. Edward Whitman was a recent visitor at the home of his daughter, Mrs. Elmer McGill. Mrs. Gibson and three children are spending a few weeks at Mahone Bay and Springfield. Mrs. Margaret Bartheaux is spending a few weeks with her brother, Fred and niece Celeste.

DALHOUSIE WEST

The quarterly meetings took place July 12th and 14th, ministers from different parts of the county were present. Some of the ladies of the Aid Society also were present. A very pleasant time was spent and we are looking forward to have those dear friends with us another year. Miss Ruby and Gladys Swift are visiting their grandparents, Mr. and Mrs. Deliver MacGowan, Carlton Corner, and other friends. Our pastor, Rev. P. R. Hayden, is holding two weeks of special meetings here. Mrs. Carmon Mills of Bridgetown, and family are visiting her parents, Mr. and Mrs. Norman Buckler. Mr. Carmon Mills and Mr. Ronald Longmire were the Sunday guests at the same home.

AGED 101, "AUNT BETTY" GOES FOR FIRST AUTO RIDE

Sydney—Mrs. David Lewis, of Edwardsville, aged 101 years, and familiarly known as "Aunt Betty" to her large circle of friends, was treated to her first automobile ride on Sunday, when Captain Irving Lewis of the Electronic called for her at her home in Edwardsville and took her on a two hour sight seeing trip over the Westmount and North Sydney Road.

Mrs. Lewis was not the least bit fatigued and expressed herself as having enjoyed the drive immensely. She was accompanied by her nephew, William Daley and her granddaughter Catherine.

The local tennis club are finishing up a tournament open to their own members.

### FROM WHENCE DID THIS "RED EYE" ARISE?

Once upon a time (not long ago) we hear, one of our citizens accompanied by friends in quest of a suitable place to entertain some of the younger ones sought the assistance of a vehicle from one of his friends. The journey down the river, we are told, was made in good time and without mishap, but although the distance travelled was not great, we note that the greater part of the day was consumed to effect their return, it being well toward sundown before the vehicle was left reposing in the back yard of its home.

The thanks of the party were fittingly expressed to the owner of the vehicle, the only comment being that the sod pan had become so weakened that it required the assistance of "the farmer's friend" (Viz. Haywire) a few days later the owner of the vehicle requiring to make some minor adjustments to the motor, lifted the hood and there, to his HOLY horror he found peacefully reposing on the now famous sodpan a full quart bottle of "the spirit of 47".

This of course explains the roughness of the road home and the time required to make the home port. ATTENTION N. S. T. An inspection in future watch for weakened sodpans requiring the assistance of hay wire.

We have no positive information at present as to whether any jokers had access to the car between this period of the trip and the time when an examination was made by the owner. COM.

### ROBERT EARLY'S HOUSE DESTROYED BY FIRE AT MARGARETVILLE

The house owned and occupied by Robert Early at Margaretville was burned to the ground at an early hour on Thursday morning. The fire started about 5.30 the evening previous and water from a nearby hydrant was turned on and the blaze apparently put out entirely after a good deal of damage had been done. The occupants saved their furniture.

The building was worth perhaps a thousand dollars and had we understood around half that amount in insurance. The cause of fire was apparently a defective chimney.

### THE BASEBALL SITUATION

Baseball has been played a little more than usual here and in vicinity the past week or so. On Wednesday last the locals locked horns twice with the Halifax Senators, in the afternoon game losing out 8-4.

In the evening, the game was called on account of darkness with the Halifaxians in a long lead. The next game was in Middleton, when the local team won 2-1. Attendance here was very small but there is only one solution for that—consistent work and practice between matches. Our local boys last year looked good,

Closely Contested Ball Game in Which Bridgetown Boys Came Out Victors By an Innings And One Run.—Public Interest Increasing in Baseball

Bridgetown Baseball team nosed out a winner by one run and an innings to spare in a well played match here with Middleton on Wednesday last, the tally standing 4 to 3 at the finish.

Taken as a whole the game was very interesting, being characterized by sharp snappy fielding, while a number of long flies and spectacular work in the outfield kept the spectators keenly interested throughout.

The local boys tallied their first run in the second innings and outside that neither team scored except in the sixth when honors went easy each rolling up three runs. With so narrow a lead and the possibility of a break coming in air tight ball, the result remained in doubt till Middleton was retired in the ninth innings.

The boys all round showed great improvement in play. They have the goods all right, all right, and if they don't show their wares it is their own fault.

Attendance at the games is looking up. Good clean consistent work will win the crowd and bring the good old game completely into its own. As usual the work of Mr. Joseph Burke at the plate was gilt edged.

Below is box score and details.
