PREFACE

The response made to the call of duty by thousands of those who have been connected with the University as graduates, undergraduates, former students or members of the staff has been so spontaneous, unceasing and abundant, that a tradition of enduring vitality has been created which will always be associated with this period of the University's life. No such splendid years have been hers in the past, and we cannot expect that any more inspiring await her in the future. It is only just and fitting that honour should be paid to those who have done so much to confer this glory upon the University, and at the conclusion of the war a visible and substantial memorial of them will be established within her borders. In the meantime, however, this ROLL OF SERVICE has been prepared. Since the outbreak of war many have willingly spent their labour upon keeping the record complete; and when it seemed opportune, as the struggle has been lengthened out, to issue a preliminary list, Professor G. O. Smith was appointed to edit it. He has given minute and devoted care to its preparation overcoming many difficulties. This roll will be followed, when the war is over, by a book which will contain a full record of the work done by the University during these eventful years. Herewith we present the names of those of whom it may be said in the words of Pericles—"Deeming that they could fall in no nobler cause . . . when the moment came they were minded to resist and suffer. . . . They ran away from the word of dishonour, but on the battlefield their feet stood fast, and in an instant, at the height of their fortune [some of them] passed away from the scene, not of their fear, but of their glory".

R. A. FALCONER.

EDITOR'S PREFACE

This edition is provisional and preparatory to a fuller account of the services rendered by members of the University of Toronto in connection with the war. The present list is confined to those who are technically on Active Service, naval or military, and does not record the work, important and valuable though it is, of those who have been engaged in civilian war-service.

The term "On Active Service" is used to include all members of the Imperial Forces, and of the C.E.F. This latter term now includes those members of the Canadian Militia in Canada who have been engaged permanently in Home Defence, Administration and Instruction. Occasional services rendered by members of the Militia are not recorded.

It has been necessary to modify the original plan of this Roll in two respects.

1. It was found impracticable to include those members of the connected Colleges who were not at the same time officially registered in the University or (in the case of federated units) holding equivalent standing. For the Ontario Agricultural College, The Ontario Veterinary College, and the Ontario College of Pharmacy, only those holding the degrees of B.S.A., B.V.S., Phm.B. respectively are included, with a few others who may have been registered as occasional students in the University as taking special courses preparatory to these degrees. St. Michael's College was federated as a constituent Arts College within the University only a few years ago; so that most of its former and some of its present members on Active Service are excluded. A few members of the other Colleges are excluded on the same principle. Consequently for these institutions this Roll does not profess to be a complete record, and those who are interested are referred to the compilers of the particular College lists.

2. The regulations regarding the publication of particular military units, etc., have become stricter during the past year, and are applicable to Rolls of Service as well as to the daily Press. Consequently the Editor, acting under official advice, has reduced the statements of military service in the fighting troops to a very brief form, and for the sake of uniformity has applied the same general principle to those cases also where a fuller record might be permitted. This brevity may disappoint many readers, especially those who have been kind enough to send detailed information in response to the circular issued by the Editor. This information, however, is of great value, as it provides a record for reference in the University, available for private enquirers,

and also gives the material from which a fuller edition may be prepared for publication at a later date. The Editor wishes to thank all those who have sent replies to his enquiries and asks them to continue sending information. If their replies have been misinterpreted by him in some details, will they kindly send corrections. An attempt will again be made to reach those who may not have received the circular of enquiry, or who have not replied. Meanwhile in such cases the information is published subject to emendation.

Attention is drawn to two additional lists on pages 203 and 209. The first contains names that were received after the main list had been prepared for the press. Letters will be sent shortly to those concerned asking for the verification of details. The second list contains the names of some who have been reported as on Active Service, but without adequate information as to unit, rank, etc. The Editor will be grateful to any who can supply details regarding these cases.

Copies of this edition will be sent free of charge to any applicant as long as the supply lasts. It is proposed to issue a short supplement after a few months, giving additions and corrections to date. (Except for some casualties and honours, this edition is dated August 15th). Readers are asked to inform the Editor of omissions and errors as soon as possible. The supplement will be sent to all those who have applied for the original edition.

The preparation of the supplement will begin as soon as this edition has been issued. All new names should be sent in at the earliest possible date, with the fullest information available, including the date of enlistment. Until the supplement is published additions will be recorded in the *University Monthly*.

It should be noted that this Roll is distinct from the *Varsity Illustrated Supplement*, which is issued by the Students' Council. This will appear shortly, giving photographs of those whose portraits were not published last year. The lists given in that volume will be based on this official Roll, with the addition of a few names of those who are not included in the University's official register, as explained above, yet have standing as voters for representatives in relation to the Students' Council.

The Editor's chief task has been to collate and prepare for publication the lists that have been compiled in the offices of the University Registrar and of the particular Faculties and Colleges. He wishes to acknowledge here the valuable services rendered by the compilers of these lists, without whose helpful labours this work could not have been carried out.

November 30th, 1917.

EXPLANATORY NOTES

The chief items are separated by semicolons*.

In the first line are given:

(a) *The Academic status.* The usual initials for the degrees are given.

For undergraduates the Faculties other than Arts are indicated by the abbreviations—Med., App. Sc., For., Ed., Dent., etc.

In the Faculty of Arts the Colleges are indicated—Univ., Vic., Trin., St. Mich.

Membership in one of the attached theological Colleges also is shown by the addition—Knox, or Wycl.

The date of a second degree in the same Faculty, e.g., M.A., is not given.

In the case of former students who did not graduate the "graduation year" is given. Thus a student attending from 1908 to 1910 is designated 1912, unless registered as an occasional student, in which case the form 1908-10 is used.

Present students are designated by their graduation year.

(b) *The Home, as far as is known.* Where no place name is given the circular asking for information has been returned undelivered and the present address is unknown.

The places named are usually in Ontario unless otherwise indicated.

(c) The letters C.O.T.C. indicate membership in the University of Toronto Contingent of the Officers Training Corps, which was organised in October 1914. In this way a partial record of the Corps as a Militia unit is given. It is only partial, as included in its membership have been students of attached Colleges, and of McMaster University, and citizens of Toronto who are not members of the University of Toronto and consequently are not included in this Roll.

In the second and following lines the services rendered in the present war are indicated:†

(a) (i) *The branch or arm of the Service.* The names of the Imperial Army Regiments are given, but not the Battalion numbers. Owing to censorship rules it is not possible to give the numbers of the Canadian Battalions, etc. Recently these units have been grouped into Territorial and Provincial Regiments, which may be published, but this change happened too late for publication in this issue.

The various sub-divisions of the Engineers are not shown except the Divisional Signal Companies, in which many members of the University have enlisted.

In most cases it is assumed that the service is on the Western front or in Great Britain. Service overseas elsewhere is briefly shown when known. Service in Canada is shown by reference to Military Districts. Thus *M.D. 1* = London area, *M.D. 2* = Toronto area, *M.D. 3* = Kingston area, *M.D. 10* = Winnipeg area, etc.

In the case of Medical and some other units it has not been possible to give here full details, even when permissible. The nature of the service, however, is briefly indicated, when known, by an addition, usually after the statement of rank. Thus—*F.A., C.C.S., Fr.; Hosp., Eng.* means service, first in a Field Ambulance and a Casualty Clearing Station in France, and then in one or more Hospitals in England. Service as Medical Officer of a Battalion is shown thus—*Bn. M.O.* or *M.O. Bn.*

(a) (ii) *Successive ranks.* These are the ranks held in the C.E.F. and are not always identical with those held in the Canadian Militia.

*A dash (—) indicates a note to a previous item rather than a new item.

†Military Services rendered before this war are not mentioned in this edition, except in the C.O.T.C.

Some instances of "stepping down" will be noted, showing that the holder of the higher rank has voluntarily reverted to the lower in order to reach the front.

If no statement of rank follows after the mention of a change to another arm of the Service, the previously mentioned rank is retained.

The qualifications 'Brevet', 'Temporary', 'Honorary' are omitted.

(b) *Casualties*. The dates are given approximately by the month. The day is not usually given unless definite information has been received in answer to the circular of enquiry. Cases of illness are not usually mentioned, unless it appears that it involved inability to return to front line service.

The general term *Discharged* is used for all cases of "Struck off strength as medically unfit."

The names of those who are missing are not printed in Black-face type unless they have been officially reported as "Believed killed or presumed to have died". The Editor wishes to express his regret if any error has been made in prematurely listing a name among the killed.

(c) *Honours*. "Mentioned in Despatches" is abbreviated to *Despatches*.

Probably reference to this Honour should occur more frequently, as the award of a decoration has in many instances been preceded by a Mention in Despatches, but the fact has not been known here.

"Mentioned for valuable services rendered in connection with the war" is shown by the form *Ment'd, Services*.

Decorations are mentioned only if actually awarded. Recommendations are not published in this issue, but the Editor will be glad to know of such cases.

It will be noted that by this arrangement events are not always recorded in the actual order of time. Thus the award of an honour may precede a casualty, or a casualty precede a promotion or transfer, but a certain uniformity is secured by the method here adopted.

A summary is given on the last page. Except where otherwise shewn, it is dated August 15, 1917. Since then there have been several more enlistments and many additional honours awarded.

ABBREVIATIONS, ETC.

A. (Capt., etc.)—Acting.	C.A.M.C.—Canadian Army Medical Corps.
A.A.—Anti-Aircraft.	C.A.P.C.—Canadian Army Pay Corps.
A.D.M.S.—Assistant Director of Medical Services.	C.A.V.C.—Canadian Army Veterinary Corps.
