 About Sunday.

SHOULD OPEN MUSEUMS
 Lord's Day Alliance Upheld
 by Slim Majority of
 Synod.

High explosives against Sabbatarian
 tyranny went off with a bang, and
 caused a record-breaking furor at the
 Anglican synod yesterday afternoon.
 The question of keeping the
 museums and libraries shut up on
 Sundays. The excitement and furor
 which broke out at the synod, was
 the result of the Lord's Day Alliance,
 which was president of the synod,
 combined to make the fight for liberal
 Sundays the record-breaking feature of
 the synod. The incidents were dramatic
 and emotional.

Rev. Dr. Cotton set off the fire-
 works by stating his reputation as a
 genius professor upon the declara-
 tion that the traditional interpretation
 placed upon the ten commandments
 was not in accord with modern
 scholarship, and that there was no sin
 in performing essential labor or en-
 joying intellectual or physical recrea-
 tion on Sundays.

**BURLINGTON WINS

 Senate's Action Safeguards Com-
 mutation Rate on Round Trip
 to Hamilton.

Ottawa, June 6.—The Dominion
 senate today threw out an amendment
 which recently passed the house in
 connection with the bill to amend and
 consolidate the railway act. The
 amendment gave the Dominion Rail-
 way Commission power to fix rates on
 railroads under federal jurisdic-
 tion notwithstanding any agreement
 made by any railway with a municipa-
 lity in respect to rates even though
 such agreement had been ratified by
 parliament.

A FINE SUGGESTION.
 "Our policy should be directed to en-
 suring, so far as practicable, the com-
 pletion within Canada, in Canadian
 shops and mills, of manufacturing pro-
 cesses, in order that we may obtain
 the benefit of the greater value of
 finished products, as compared with
 that of raw materials or partly-manu-
 factured articles." This is good sense,
 and good advice. If the people follow
 it they will readily absorb the \$300,-
 000,000 or \$350,000,000 loan which is to
 be floated in the domestic market in
 the near future.—Toronto Times,
 June 6.

Good advice, that—good at any time,
 but particularly good now. So, why not
 let one World reader suggest, start ma-
 nufacturing our raw nickel at home?

ULTIMATUM OF ALLES SAYS SIGN TERMS NOW

Germans Are Given About Four Days in Which
 to Make Up Their Minds as to What
 They Will Do.

Paris, June 6.—There are still many loose ends to the determinations which must be made before the reply of the allies to the German counter proposals can be submitted to Count von Brockdorff-Rantzau, head of the German plenipotentiaries, and even the question of principle regarding changes in the treaty has not been definitely settled. Nevertheless the members of the commissions of experts profess confidence that they will be able to complete their reports to the council of four by Monday or Tuesday, and the members of the council themselves seem sure that they will be able to present the allied reply on Thursday or Friday.

The reply will be submitted as an ultimatum with a short time limit, probably about four days, in which Germany will have either to take or leave the conditions as offered them. The most important modification under consideration, namely, the question of reparations, probably will not involve any material changes in the treaty as originally presented. The concessions will, instead, be presented in the form of a supplementary agreement, defining the procedure for the reparations commission and prescribing certain instructions for that body which, according to the original draft of the treaty, was given a most comprehensive power of action, subject only to the instructions of the

CRERAR AND BORDEN LETTERS ARE READ

Minister of Agriculture States He
 is Not in Accord With
 the Budget.

Ottawa, June 6.—Sir Robert Borden, in the house of commons this afternoon, announced the resignation of Hon. T. A. Crerar, minister of agriculture, in correspondence with Sir Robert Borden, Mr. Crerar takes the definite stand that he cannot support the budget. "As you are aware," Mr. Crerar wrote to Sir Robert on June 4, "in regard to the budget, I am not in accord with it, and, therefore, cannot support it, either in the house or in the country. Having reached this decision, there is only one course for me to follow, and I therefore tender you herewith my resignation as a member of the government." The reasons for my decision will be given more fully when the subject is under discussion in the house.

Sir Robert replied the same day, expressing his "deep and unfeigned regret" at Mr. Crerar's resignation, adding, "but I entirely appreciate the sincerity of the convictions which have impelled you to take that course."

The text of Mr. Crerar's letter to Sir Robert reads: "My Dear Sir Robert—The government in its consideration of the budget to be placed before parliament tomorrow, has reached, I take it, definite and final conclusions as to the form it will take. As you are aware, I am not in accord with it, and, therefore, cannot support it either in the house or in the country. TEN BARRELS FOUND IN LITTLE GREY HOME

Would-Be Honeymoon Period
 Spent in Cells by
 Bootleggers.

A "little grey home in Weston" proved to contain all the essentials of an old-fashioned good time, when inspected by Constable William Campbell the other night. It would seem that the constant suspicion was aroused by the regular but very brief visits of a young man and a woman who invariably came from Toronto in a car and collecting each time sundry small parcels returned with all speed to the city. After considerable watching the constable decided that Thursday night was the night and followed the couple to Toronto. They were arrested in the city and the man presented the key of the country house to the inquisitive arm of the law. On returning to Weston Mr. Campbell searched the shack, which, peculiarly enough, is on the old rectory lane, and found ten barrels of assorted liquor.

Forty Bottles Went.
 The case came before Major Brunton in the county police court yesterday morning and a fine of \$355.50 was imposed. The man, whose name is William Douglas, Argyle street, stated that while he was in the cells about forty bottles of the "stuff" disappeared.

The Weston shack is owned by J. Jenkins, who is at present in Dawson City, and was rented to Douglas some time ago. It is stated that the man and the young woman were to have been married yesterday afternoon, and certain of the Weston officials are still wondering if the law has inter-ferred too much with Hymen.

This is the first seizure in the town since the introduction of the O.T.A.

ROLY HARRIS SHIVERS AT MOUNT PLEASANT STREET CARS.

Commissioner of Works Harris has the floor street viaduct on his credit; that he is afraid to finish it by completing the roadway at its western and greater end. He is waiting for the mudbank to ripen.

And he is still more "skered" about building the Mount Pleasant street car line—a project that will do as much for the town east of Yonge as the viaduct is doing for over the Don. You'd think that the Metropolitan radial or the Canadian Pacific was Roy's boss. This street car line would make Toronto less dependent on the radial and give the city another great railway yard with workshops at Leaside.

Come now, Mr. Harris, buck up and build the Mount Pleasant road and repair your viaduct record. Toronto is entitled to get north as well as east. If you don't, a lot of factories that would like to come here will go where they can get street car service.

Special trains from Halifax, bearing 75th and 102nd Battalions are due at North Toronto Station on Sunday afternoon. For definite information phone Parkdale 7480-7485 after 7:30 a.m. Sunday. Names will be found on Page 2.

CURTAIN PERMITS TO ALLIED OFFICERS

Berlin, June 6.—The German government has curtailed the privileges extended to allied officers and commissions traveling in Germany, explaining this in correspondence with Sir Robert Borden, Mr. Crerar takes the definite stand that he cannot support the budget. "As you are aware," Mr. Crerar wrote to Sir Robert on June 4, "in regard to the budget, I am not in accord with it, and, therefore, cannot support it, either in the house or in the country. BRIDGES DESTROYED, MILL DAM BURST

Cloudburst Drowns Cattle, Up-
 roots Trees and Forms
 Lake.

Special to The Toronto World.
 Newmarket, June 6.—The biggest flood in the history of the town occurred last night, when seven bridges in the district were swept away like so much matchwood. Uprooted trees, cattle and debris on the ground were carried along on the crest of the roaring nine-foot high wave, and only the steep banks of the creek in Newmarket saved incalculable damage to property near the water. According to conservative estimates made by certain of the municipal authorities, the amount of damage to bridges alone will be about \$50,000.

Bogartown, situated a mile and a quarter southeast of Newmarket, experienced a severe cloudburst, and the water rose to a height of 100 feet above the mill dam used to provide power for a grist mill. Fred Hoover, owner of the mill, did not have time to open the dam before the overpowering weight of water found its own outlet.

A wave, nine feet high, went roaring down the river bed, overflew the banks on either side, and swept every obstacle before it. Telephone wiring of the happening was sent to Mayor Eves, who was presiding over a meeting of ratepayers in the town hall, and all residents along the creek were also warned. First the bridge at Gorham street was brushed aside, and in quick succession the other two bridges, Prospect avenue and down to the county bridge were demolished by the wave. The county bridge, built two years ago, was the main artery between Toronto and Lake Simcoe, held and dammed the water, which spread over the flats near the Office Specialty bank at certain points. It flows into Newmarket and Holland Landing canal, and that waterway is now filled and incapable of carrying away all the water. If the county bridge at Huron street had not held, all traffic would have been suspended.

URGES CANADIAN U. S. AMBASSADOR

Questions Put to Bonar Law in
 British House of
 Commons.

Reuter Cable
 London, June 6.—In the house of commons today, Gratton Doyle asked: "Before the appointment of a new ambassador to Washington is determined will the government consider whether in view of Canada's geographical position as regards the United States, her interests at Washington and her loyalty to and sacrifices for the British Empire, the time is now opportune to appoint a Canadian statesman to that position in order to represent imperial interests as a whole on the North American continent?"

Bonar Law replied that he could add nothing to the answer which he had given to the honorable member on May 22.

"It is not likely then that Canada will make her appointment before a British ambassador is appointed," enquired Mr. Doyle.

"They really have no connection," Mr. Law replied.

MT. PLEASANT LINE MEETS DISAPPROVAL HARRIS' REPORT

Would Impose Impossible
 Burden Upon Ratepayers,
 Says Commissioner.

HEAVY ANNUAL LOSS
 \$80,000 Deficit Contemplated
 Carrying 5000 Passen-
 gers Daily.

Commissioner Harris presented yesterday to the committee of works a lengthy report on the proposed Mount Pleasant public car line. On the suggestion of Controller McBride the consideration of the report was deferred until Monday next when a special meeting will be held to discuss it. In the meantime a copy of Mr. Harris' report is to be forwarded to every member of the council.

In his report Mr. Harris says in part: "I have classified the estimates under the head of 'permanent' and 'temporary' construction, respectively—the former comprising our standard track construction with permanent bridges, the latter comprehending, in the main, ballast track and wooden trestle construction for car line purposes only, in lieu of permanent permanent bridges. I desire to emphasize this fact, as if the project be proceeded with, it will be necessary, at future date, to acquire additional lands to construct permanent bridges of full street width for the accommodation of street railway, vehicular and pedestrian traffic.

Estimate No. 1—Permanent Construction
 This covers removal, widening and renewal of the existing pavement on Shaftesbury street from Yonge street to Summerhill avenue; the building of a bridge over the Reservoir Park ravine; the acquisition and grading of a street from the easterly end of Shaftesbury avenue, thence easterly along the line named thence to the easterly limit of the Reservoir park street thence westerly along a new street to be acquired and opened to the south and of Clifton road, thence northerly to St. Clair avenue, and easterly along that thoroughfare to Mount Pleasant road, thence northerly to a point near the north city limit.

Estimated cost, \$2,284,184, of which \$127,000 is for interest, leaving a remainder of \$1,210,484.

Estimate No. 1 A
 Temporary construction with the exception of the bridge over the Reservoir.

Bigger Business Starting.
 The partial settlement of the tariff issue by Sir Thomas White's budget speech will strengthen the growing volume of business.

The World believes that we are entering on a great era of prosperity, accompanied by inflation, even higher prices for a time in some directions, a great increase in production, many new factories, a great demand for skilled labor, a famine in workmen's homes and a severe but necessary increase of taxation to meet the expenses of the nation. And we are likely to have some strikes. But also much more business.

INTENDED MURDER TO TAKE OVER SHIP

Captain Makes Statement Regarding
 Saviors Who Prefer
 Murder Charge.

New York, June 6.—Captain Adolph C. Pedersen, skipper of the Barque the Puako, who is charged with the murder of one of his crew on a voyage from Victoria, B.C., to Capetown, took the stand in his own behalf in federal court late today. He followed his 18-year-old son, who was second mate on the ghastly voyage on which two seamen ended their lives by leaping into the sea. Young Pedersen was indicted jointly with his father.

The skipper, who belongs to the old school, and who has followed the sea for 38 years, testified in a voice so low it could scarcely be heard by the jury. He said he had been a master for 16 years, all but four of them in command of the Puako. It took him seven weeks, he said, to recruit the crew for the voyage to Capetown.

He told in detail of statements signed by members of the crew that they intended to mutiny, kill the officers and take over the ship. He said they swore to the statement by kissing the bible. The sailors, who preferred the charge of murder, assert the statement, were obtained at the point of a revolver, and that one man was clubbed into submission before he would sign the statement.

Captain Pedersen declared in other conditions made it impossible to rescue Axel Hansen, the sailor whose murder he and his son are charged, after he leaped overboard. He asserted that after his son had ordered the barque turned about so that the crew could be picked up, a signal came up suddenly and that the masts would have been snipped off if he had not ordered the ship put back on its course.

In this contention the Pedersen were sustained by Lieut. Chas. Brown, U.S.N., formerly master of a tug ship of the Puako, who testified that up weather conditions were as they described them, the barque would have been swamped if she had not been put back in her course.

Before he left the stand, the younger Pedersen admitted he and his father had snipped the cabin boy because the lad served them with soup condensed milk for breakfast. He asserted it was a gentle sip, although the boy later was put in irons for insubordination.

WINNIPEG MOBILIZES RETURNED SOLDIERS IN EMERGENCY FORCE

MAY NOW DEPORT
 CREATORS OF RIOT

Both Houses, in Twenty
 Minutes, Pass Drastic
 Dominion Measure.

Ottawa, June 6.—Royal assent was given to 65 bills this afternoon. There was one which went thru both houses and received assent in the record time of 20 minutes. It was a bill to amend the immigration act, passed earlier in the present session. The bill extends the provision of the act in regard to prohibited classes.

The classes now include not only those who advocate the overthrowing of the government, but also those who, by violence of constituted authority, but also those who "in Canada, defend or suggest the unlawful destruction of property, or by word, or by act, create or attempt to create any riot or public disorder in Canada, or who, without lawful authority, assume any powers of government in Canada or in any part thereof, who, by common repute, belong to or are suspected of belonging to any secret society or organization which extorts money from or in any way attempt to control any resident of Canada by force or by threat of bodily harm, or by blackmail."

Persons in the prohibited classes are liable to deportation except those who are British subjects either by reason of birth or by reason of naturalization in Canada. Further, if a person by act or word at any time since 1910 has done the things enumerated then, he would prima facie be deemed to be in the prohibited classes.

PARADES FORBIDDEN

Mayor Gray Deputizes Three
 Thousand Men to Deal
 With Situation—General
 Ketchen Says Militia Will
 Act Swiftly to End At-
 tempt to Overthrow Gov-
 ernment.

Winnipeg, June 6.—Union leaders and members of the citizens committee predicted tonight that the end of the strike seemed approaching. Whether the end would come by collapse of the strike, or by partial compromise of the original union demands, was still uncertain.

Opposition of the returned soldiers seemed to have decided the struggle. Delegations of union men announced that if the strike leaders rejected any "fair offers" they were willing to go, they intended to "go back to their jobs." More than a score of telegraphers announced tonight that they would be working Monday, rain or shine.

Labor leaders, however, declined to state definitely whether they were prepared to call off the sympathetic strike prior to final conciliation of any industrial disputes. One of the union leaders said that forms have been prepared to ascertain whether employers are willing to talk back with men and women who participated in the general strike. It was pointed out at the city hall that the federal government has refused to reinstate postal employees who left the service and that the city has taken the same attitude regarding the firemen on strike.

Winnipeg, June 6.—More than 1300 soldier-constables and a cavalry unit of 100 war veterans today patrolled Winnipeg's streets, ready to enforce Mayor Charles F. Gray's proclamation, forbidding all public parades. Mayor Gray's stand was endorsed by nearly every faction involved in the general strike, and only one effort was made today to continue the demonstrations of the last three days.

Strikers, following a mass meeting, attempted to force the city hall to rescind the mayor's proclamation, but the demonstration was broken up by the police.

The newly deputized constables made several arrests of strikers and strike sympathizers during the day and all were arraigned and fined. Mayor Gray announced that the city plans to send 3000 returned soldiers on its emergency police force.

Brig.-Gen. H. D. B. Ketchen, Manitoba district military commander, today addressed a mass meeting of returned soldiers and declared that the Winnipeg strike could no longer be considered a union labor protest, but that it is an attempt to overthrow the government.

"I am sorry, men, that I cannot tell you all I would like to tell you at the present time," General Ketchen said. "But rest assured that the Dominion government and the military are not idle. When the government acts in connection with the Winnipeg upheaval, I am sure you soldiers will agree that when I intimated today that action was impending to deal with the situation and Bolshevism, I did not tell you all."

Parades Forbidden.
 In a formal proclamation published this morning, Mayor Charles F. Gray ordered the stoppage of all parades and forbade the congregation of crowds on the city streets.

Mayor Gray said he acted in the interest of law and order and with the hope of preventing bloodshed. It is understood the mayor learned of a clash between parades of strikers and of returned soldiers was considered inevitable.

"Shortly after the soldiers' mass meeting adjourned strikers and strike sympathizers began a parade in the business district in defiance of the proclamation of Mayor Gray. Strike leaders declared his proclamation was illegal. The parade started in the direction of the city hall, where scores of returned soldiers were registering as special constables.

The strikers' parade, which marched from Victoria Park, proceeded to within a block of the city hall. Here policemen formed a line across the street and halted the demonstrators. The strikers then sent a delegation to the city hall to ask Mayor Gray if their parade might not continue. Gray said "no." The marchers then disbanded. There was no trouble.

Increased Police Force.
 Acting upon reports that the radical element involved in the Winnipeg general strike was threatening to launch a campaign of terrorism, the Winnipeg city government today decided to increase its special constable force to 2000 men, mostly returned soldiers. One thousand constables have been sworn in. It was announced. The city's constable force was increased today by a unit of more than 100 mounted men, all veteran Canadian cavalrymen. This unit will be commanded by Capt. D. M. Dunwoody, who won the Distinguished Service Medal while in France.

Men Want to Work.
 Officials at the city hall and executives of the Winnipeg citizens' committee commented upon the action of local strike leaders in sending a notification call for men prominently identified with the "one big union" movement to come to Winnipeg.

"Scores of men have come to my office, and hundreds have told various city officials that they are anxious to return to work, but that they

HARRIS IS AGAINST EXTENDING TRACKS

In regard to the application for permission to extend the Parliament street car tracks to Bloor street, Commissioner Harris reported as follows: "I am of opinion that the Winchester street service should not be operated as a stub from Parliament street eastward, and feel assured that a stub-line service on Parliament street, from Winchester street to Howard street, would not prove satisfactory. Having regard for this and the fact that the Toronto railway franchise expires in 1921, I do not deem it wise to construct a car line over which the Toronto Railway Company would be permitted to operate. I think the service to this section of the city should be dealt with in the consideration of the larger problem, including the acquisition of the Toronto railway as provided for by the terms of the agreement in that behalf."

KEEN TO CONSOLIDATE ALL INTERNATIONALS

James Duncan of Seattle, who was intimately connected with the Seattle strike, was in Toronto yesterday. He stated that the public was misinformed on many points respecting the Winnipeg strike. Mr. Duncan is a strong advocate of a proposal to effect consolidation of all international unions into approximately twelve units, as follows: amusement trades, building trades, clothing and textile trades, culinary and provision trades, marine and transport workers, metal trades, mine workers, postal and federal office employees, printing trades, railway workers, telegraph and telephone workers and timber workers.

REFUSE WAREHOUSE PERMIT

At yesterday's meeting of the works committee, the Northern Aluminum Company, who propose to erect a new ten-story warehouse and offices on Sterling road, asked permission to extend the foundations of the wall six feet over the street line. Altho Commissioner McBride moved a resolution that the permission be given, the committee, on the advice of Commissioner Harris, declined to accede to the request.

SHOULD MANUFACTURERS GET CHEAPER WATER?

Are manufacturers to get a cheaper rate for their supply of city water than the ordinary householder is? A question just now agitating city officials. It is stated that the present rate of 12 1/2 per thousand gallons to manufacturers is a deciding factor in determining factory owners, who are considering Toronto as a site for the establishment of an industry.

DEPUTATIONS CLAIM CELLARS INUNDED

The works committee of the city council had many deputations wait upon them yesterday, complaining that during the rainstorm on Thursday evening streets had become flooded, sewers had overflowed, and cellars had been inundated. The majority of the complainants came from the Rose-dale district. Commissioner Harris said the storm of rain on the night in question was the heaviest Toronto had ever experienced. He promised to long the matter of the "overtow" enquired into at once.

MANY WITHOUT WORK

During the month of May 653 men were found employment by the civic labor bureau, which is a great increase over April, when 476 were found jobs. It had not been for the present industrial crisis, Commissioner Chisholm remarked that the returns for last month would have been much greater. At the present time gardening is providing temporary employment for a great number, but the applications are far in excess of the positions available. Preference is being shown to returned men both for city work and also work obtained thru the bureau. A large proportion of the work secured was permanent.

The Merchants Bank of Canada

Proceedings of the Fifty-Sixth Annual Meeting of Shareholders on June 4th, 1919.

The Fifty-sixth Annual Meeting of the Shareholders of The Merchants Bank of Canada was held Wednesday, June 4th, in the Board Room at the Bank's Head Office at Montreal. The meeting was called to order at 12 o'clock noon.

THE ANNUAL REPORT

I beg to submit on behalf of the Directors of the Fifty-sixth Annual Meeting of The Merchants Bank of Canada as at the close of business on the evening of the 30th April, 1919, together with a Statement of the Profits covering the relative period.

THE GENERAL MANAGER'S ADDRESS

The General Manager, Mr. D. C. Macarow, in addressing the meeting, said: "MR. MACAROW.—In the first place I would like to express my speaking on behalf of the Executive Officers of the Bank, indeed on behalf of the staff at large, my sincere thanks to you for having Mr. Montagu Allan again amongst us and to extend to him our most cordial welcome."

Statement of the Result of the Business of the Bank for the Year Ended 30th April, 1919.

The Net Profits of the year, after payment of charges, rebate on discounts, interest on deposits, and making full provision for bad and doubtful debts, have amounted to \$1,383,869.40. The balance brought forward from 30th April, 1918, was \$1,383,869.40. Making a total of \$2,767,738.80.

LABOR NEWS

HEARST PUTS IT UP TO DOMINION GOVERNMENT

Prime Minister Replies to Labor Deputation Who Sought Legislation.

Sir William Hearst stated yesterday to the labor delegation which interviewed him on behalf of the metal trades in their fight for a 44-hour week and the principle of collective bargaining that it was inconceivable to him that the British North America Act should have delegated to the provinces exclusive authority to deal with matters affecting national trade and commerce. The position of Ottawa, he said, was that legislation of the character demanded was not within the power of the Dominion cabinet, but legal opinion was not in agreement.

"If, however, the Dominion house will pass legislation giving effect to the findings of the peace conference with regard to labor this government will undertake to introduce any legislation that may be thought proper for the part of the province to implement Dominion legislation and place its validity beyond doubt," said Sir William.

Touching upon the principle of collective bargaining the premier contended that the term "collective" might be susceptible to many interpretations and that when the matter came up for debate in the provincial house it might prove a hard nut to crack. "However," he concluded, "Sir William, I beg to assure that these fundamental problems will be the subject of our most earnest and thoughtful consideration."

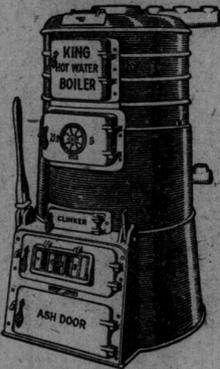

The delegation, which was a large one, comprised twenty members. R. C. Brown leading. Some among them were not exactly set at ease by the tenor of the premier's remarks and suggested that as Ottawa was only a couple of hundred miles away the provincial cabinet could well afford to visit the Ottawa cabinet and settle the question of jurisdiction. The premier did not agree with this opinion.

REFUSE TO DISCUSS COMING SKYSCRAPER

Imperial Bank Officials Say Story of 28-Storey Building Premature.

Officials of the Imperial Bank are very reticent regarding the proposed building to be erected by them at the northwest corner of King and Yonge streets, and very little information on the subject was forthcoming in that direction last night. When asked regarding the proposed building, Wm. Moffat, general manager, stated that one could not believe all one heard, and was extremely brief in his discussion on the matter. He refused to either affirm or deny the report. Feleg Howland, president, and A. E. Phipps, superintendent, were both equally vague, altho the latter admitted that the report was "premat-ure." "I don't know where they got the information from," he said, referring to the report in an evening paper.

In the meantime it is understood that negotiations are under way for the purchase of the corner, and that the sale of the buildings and land are expected to follow shortly. The present property, containing offices and stores, is five storeys high, with a frontage of 90 feet on Yonge and 60 feet on King street. It is being turned over by the Toronto Realty Company, a subsidiary company of the Dominion Bond Company. The consideration is \$850,000.

Leaseholders Approached. It is also known that the leaseholders have been approached, and the firm of Fairweathers is preparing to vacate by September 1. Other tenants are the Ocean Accident and Guarantee Corporation, who have about four years to go, and the Grand Trunk, about two years. The building to be erected on the

MASTEN REMANDED

Katherine Masten, the female prisoner who escaped with Vera de Lavelle from the jail, appeared in the police court yesterday morning and was remanded for one week.

POSTAL CLERKS' POSITION.

The Toronto-branch of the Dominion Postal Clerks' Association has passed a resolution requesting the government to make provision (immediate) for the adjustment of all grievances by a board of arbitration and conciliation. The secretary, R. Elzasa, yesterday afternoon stated that the reason the association had withdrawn from the Civil Service Federation was because many of the officers of the federation had expressed their own views in such a way as to make it appear that they spoke for their respective organizations within the federation. This action, said Mr. Elzasa, had caused considerable embarrassment to the rank and file of the membership at a time when it was important that the views of that membership should not be in any way misrepresented.

The secretary stated in conclusion: "The calling together at Ottawa of the executive of the Dominion Postal Clerks' Association is due to several causes, one of the principal reasons being to discuss the present state of unrest in the industrial world and effect produced in the postal service of the country. In this connection, it might be well to state that this association is absolutely opposed to sympathetic strikes and also believes that any strike in the postal service is detrimental to the best interests of this organization, and realizes to the fullest extent the disastrous effects of such a strike on all kinds of industrial activity."

THE NEW ERA.

O. B. U., otherwise known as the One Big Union, is not on the best of terms with the Labor Temple, and yesterday a pamphlet advertising the various virtues and vices of the new cult in labor was "burnt at the stake." William Fordham, caretaker of the temple, officiating as chief inquisitor. While several thousand friends of the cult were thus disposed of many thousands more still await the mandate of the executive of the One Big Union. In this connection International Organizer Harry Harper of the machinists disavowed any connection with the principles of the new type of unionism. The facts of the occasion have not come to hand, but apparently the champion of the movement, Bible in hand, vouchsafed information that on July 31, 1920, the workers of Canada would be emancipated, that the existing laws would be cast out and that the country would be ruled by love, good-will and strike committees.

It was learned late last night that the distributor of the cards was acting against the authority of his local No. 48, I. A. M. and that steps had already been taken to prevent further distribution.

STREET CAR MEN FIRM

The conference between the officials of the Street Railwaymen's Union and General Manager R. J. Fleming of the Toronto Railway Company proved abortive yesterday, and the situation has developed into an ultimatum delivery by the union, the proposed strike to go into effect on Monday, June 16. Manager Fleming stated yesterday that figures were of little value, the fact being that the company was not in a position to pay the increases demanded.

DOUBLE STRIKE PAY

The pay of striking machinists has been doubled by the grand executive of the association according to information received yesterday. This will bring it up to \$14 to \$18 a week, it is understood. The average pay of a good mechanic is said to be not less than \$24 a week.

CALLED HERSELF VERA

Alleged to have "represented herself as Vera de Lavelle," the young woman who escaped from the jail, Lillian Smith of Barrie was arrested last night by Acting Detective Tuft. It is reported that the girl went to a number of rooming-houses, and in a gaging a room, would steal clothing and money from other roomers' apartments. In one house the girl is recently said by the police to have stolen a dress and left a note in the room bearing the signature of "Vera de Lavelle."

FORMING MOTOR COMPANY.

Comrade S. P. Stratton, late secretary of Riverdale G. W. V. A., who saw seventeen months' service in the trenches, is forming an automobile company in the east end of Toronto. He is an old 75th Battalion man.

ANOTHER PRISONER STROLLS FROM JAIL

Lango Enters Lavatory by Front Door, Leaves by Back.

Seven days of prison labor in the east on the Don Flats proved enough for Alfonso Lango, a Russian serving a 30-day sentence for trespass, and yesterday afternoon he strolled away from the other prisoners and at a late hour last night had not been captured. Lango, along with other

short-term prisoners, was working on the banks of the Don in Riverdale Park, when at 2 o'clock Lango told the guard he was going into a nearby lavatory. The guard watched the prisoner enter the front door, and when he did not return to work the guard entered the lavatory and found that Lango had left the building.

The detectives were notified, and a description of the escaped prisoner was read to the policemen in the various stations.

DRIVER ARRESTED

Gibson, 175 Gladstone avenue, was arrested last night by Detectives Mitchell and Wickett, charged with theft. Gibson was employed as a driver for the Gutta Percha Rubber Company, and it is alleged that he stole a motor car tire and sold it for \$18.

"How I wish I could, but I cannot control my feelings. It seems that I am all the time in dread of something."
"Well, I am going to get you some of Dr. Chase's Nerve Food and we shall see what that will do for you."
"You get the Nerve Food on your way home at noon and I must try to control my nerves in the meantime."
"I will bring the Nerve Food all right and it will be a great blessing to us if it only makes you well."

"You never used to be like that."
"Until I had that operation I was all right. But since then I have always been so nervous and irritable, and never seem to feel like I did before."
"I guess the shock was too much for the nervous system."
"I suppose it was, for my nerves have all gone to pieces. I get so discouraged and downhearted sometimes that I cannot help but cry. Oh, if I could only get something to make me well."
"Some of the boys at the shop have been talking about Dr. Chase's Nerve Food. Why not try it?"

mergers all they wish to charge him for what he wants to eat.

This attitude also affects the present labor and strike situation, for the living wage and the theory of collective bargaining as practised by the mergers does not commend itself to the labor men.

The statement of the case, we take occasion to say, is not a Bolshevikian one, but a determination among unruly men to practise the merger theory in the reverse direction.

We do not believe in it any more in one direction than we do in the other. We think the theory, which is the old theory of all the traffic can bear, is all wrong.

It is not based on a fair and honest sense of exchange values, but on the necessities of men taken at an advantage. It is not a benevolent plan, and the government that sanctions and countenances it is not benevolent in doing so.

A government which is not benevolent cannot survive indefinitely. These fundamental principles are being overlooked by mergers and by governments.

Could the merger not act benevolently? Certainly could. If it acted honestly its benevolence would be unexcelled. The economies possible through merger methods should cheapen the prices of all kinds of food products, and does cheapen them.

But the public never gets the advantage of that. By inflated and watered stock enormous profits are absorbed in the payment of dividends. If capital were honest and were satisfied with a moderate 20 per cent. on its actual investment, prices would come to a level which would make the present scale of wages seem bountiful.

It is not the wages a man gets, but what he gets for his wages that is important. If his wages, or if the price of food, leaves him a margin he is well off. If his wages are all absorbed by the price of food and other commodities which he finds necessary in order to live, then there is bound to be trouble.

The principle is wrong and brought trouble in France at the end of the eighteenth century. It has been making more or less trouble all through the industrial development of the nineteenth century. In our twentieth century the non-benevolent (we shall not say the malicious) character of the corporation, the combine, the merger, is bringing about its inevitable result. There is no possibility of escaping trouble when selfish forces crystallize themselves into active entities.

Everything that tends to adjust the difficulties between labor and capital is benevolent, because unselfish, considerate of the other party involved. The more consideration, the more benevolence, the less friction, and in the long run the better results for all, the higher profits. This part of the education of the average political economist has been neglected.

METROPOLITAN DEAL NEARS ADJUSTMENT. Mayor's Conference With T.Y.R. Leads to Mutual Understanding.

The mayor, assisted by Finance Commissioner Bradshaw, yesterday conferred both morning and afternoon with W. H. Moore, general manager of the T. and Y. railway, and Assistant Manager G. Wilson.

The two meetings were productive of great progress towards a settlement, and the mayor said last night the company and the city were very near together.

The mayor had put a proposition before the company, but nothing definite will be settled until Sir Adam Beck has been called into conference. With Sir Adam's assistance the mayor hopes to put before the board of control next week a scheme that may settle all difficulties and be satisfactory to both the company and the city.

The whole matter, said the mayor, can be adjusted most satisfactorily, and the city being fully protected.

FOURTH DIVISION MEN ARRIVE IN TORONTO. The first men from the 4th Division to reach Toronto, having been ordered to the Empress of Britain.

The train was met at the station by Col. Gibson and his staff. The Garrison Battalion band played the veterans to the transportation building, where they were served with refreshments and met their friends and relatives.

The men were immediately demobilized and quickly transported to their homes in waiting motor cars, supplied by the voluntary aid.

A "STRIKE" AT RED RIVER

SOAP BOX RATO. The Toronto-Niagara Power Company's franchise bill is the subject of a meeting held in the house of commons.

The senate today without discussion refused to concur in several important amendments made by the house to the government's bill to amend and consolidate the railway act.

One amendment, carried after a long debate in the house last Wednesday night, restored to the city of Toronto complete control over her own streets, and to that extent abrogated the franchise granted by parliament to the Toronto-Niagara Power Company.

Another amendment required the Bell Telephone Company to give independent companies access to its long distance lines upon payment of the usual tolls, instead of exacting a surcharge of 25 per cent. as now often happens.

A third amendment made by the Armstrong committee which slipped thru the house without discussion, gave ordinary powers to the railway commission to fix railway rates, notwithstanding any special contract for rates which any particular company might have made with the Dominion government.

The old dispute between the two houses of parliament over the Toronto-Niagara Power Company's franchise is fresh in the public memory. The house on more than one occasion has said that this franchise must be restricted, while the senate on as many other occasions has said that it shall not be material, provided the franchise is first time the house declared its policy, it did so with the approval of the government.

There was a government bill standing in the name of Hon. Frank Cochrane, and Mr. Cochrane spoke for the government. Nevertheless the senate balked and Sir James A. Macpherson, the government leader of the senate, made no serious effort to put it thru.

Then it was decided to pass the railway bill without the clause respecting the Toronto-Niagara Power Company, it being understood that the government would bring down a separate bill to deal with the situation. The senate, however, insisted upon a clause going in which practically gave the power company the right to sell and distribute their electricity in any part of the province, subject only to the supervision of the Dominion Railway Commission.

The house reversed the senate and struck to its first position, but it did so against the protest of the government. Both Hon. J. D. Reid and Hon. F. B. Cochrane accepted the provision which was only a few years ago, in the senate, accepted on behalf of the government.

It is not likely that the senate will back-water. The bill to amend and consolidate the railway act, which has five years ago, in the house, been again at this session of the house will have to confess itself beaten.

Apparently the government has been forced to do so, rendered a service to the sturdy little town of Burlington. The town, it will be remembered, had a Hamilton Electric Railway Company. This agreement went into the senate heap with some of the more important amendments mentioned when the bill finally passed the house. It is reviewed and remains in full force by the action of the senate.

Finally, the senate, in its action today has deprived the province of a number of important agreements made by governments in bygone days with railway companies having for their purpose the reduction of rates. For example, it relieved the Canadian Pacific Railway Company from the burden of the Crow's Nest Pass agreement. It also deprived the province of a number of other agreements which had been made in the past.

It is also interesting to note that the minister of agriculture, and there is no doubt that the speculation respecting the budget debate, the Liberal Unionists are frankly dissatisfied with the budget, and many of them will be back-water. The bill to amend and consolidate the railway act, which has five years ago, in the house, been again at this session of the house will have to confess itself beaten.

TEN COMMANDMENTS ARE RE-INTERPRETED

(Continued From Page 1). pelled to receive their callers, in many cases, males, in their bedrooms on Sunday afternoons because the museums and libraries and similar institutions were closed.

Bishop Sweeney endeavored to get the discussion dropped. He declared himself opposed to the Sunday opening of museums "in spite of the fact that the opening of museums and art galleries would encourage the people to move picture shows and theatre parties to agitate similar privileges.

The Entering Wedge. F. Nordheimer considered the opening of museums would be like the first starting of church service ferry boats from the Toronto Island, but the entering wedge for the secularization of the Lord's Day.

Dr. N. W. Hoopes protested against the opening of museums on Sunday, as he declared it was the same thing over and over again.

J. Beck charged the Lord's Day Alliance would encourage the people to move picture shows and theatre parties to agitate similar privileges.

The report, as adopted by the small majority of four, was moved by Archbishop Warren and read as follows: "The clergy and laity of the church should carefully consider and preach the due use and value of the Lord's day, as in principle powerfully witnessed by revelation in our churches, commandment read in our churches, and should govern themselves accordingly, resisting by example all temptations to the secularizing of the day.

"Because the opening of museums, picture galleries and public libraries would entail the employment of certain persons, and thus deprive a few others of their livelihood, and of their full Sunday freedom for rest and worship, and would probably prove to be the opening of the door to places of entertainment and perhaps of business, this synod of the Church of England cannot heartily concur in any such measure.

Not to Dictate. "The Lord's Day Alliance is deserving of the sympathy and support of all for all a weekly day of rest, the Lord's day, if possible, and to safeguard that day against the intrusion of unnecessary business and labor; in its policy to 'educate,' not 'dictate,' to persuade, not coerce; and in its vigilance and unwearied battle to preserve for future generations the day which in principle has the authority of divine revelation, and was for us consecrated by the resurrection of our Lord Jesus Christ in His glorious risen life.

"We are glad to note that among the claims proposed to the peace conference by the commission on international labor legislation, an adopted policy to 'educate,' not 'dictate,' to persuade, not coerce; and in its vigilance and unwearied battle to preserve for future generations the day which in principle has the authority of divine revelation, and was for us consecrated by the resurrection of our Lord Jesus Christ in His glorious risen life.

per ton. It was found impossible, however, to fix any total sum for all categories, since the cost of recon- struction and restoration of the devas- tated regions cannot be estimated until after an extensive survey, and the only general estimate on which the French are willing to act would bring the total to such a high figure, namely, 250,000,000,000 francs, as the experts were quite generally agreed was beyond Germany's power to pay.

Assurance to Germany. In addition to learning at once the definite instructions on which the permanent commission will act, the Germans will also be assured that a certain amount of working capital will be left them, including probably tonnage to conduct overseas trade, without which their progress inabil- ity to make the required reparations.

It is understood that the question of a plebiscite in upper Silesia prac- tically has been decided affirmatively. No change with regard to responsi- bilities, punishment of the former em- peror or the disposition of the Ger- man colonies is regarded as probable. The changes in reparations probably will delay presentation of the repara- tions claims in the Austrian treaty, which will be made to conform to the German proviso under the principle of joint and several responsibility and administration by the same permanent commission.

Advocates Signing. Copenhagen, June 6.—Mathias Erz- berger, head of the German armistice commission, according to the Deutsches Tages Zeitung, of Berlin, is preparing a memorandum which, after discuss- ing the peace terms in all their as- pects, advocates signing the treaty.

Austrian Delegation. Basel, June 6.—The conference at Feldkirch between representatives of the Austrian government and Dr. Renner and Herr Schuller of the Aus- trian peace delegation, will end today and the members of the peace delega- tion will start immediately for Paris, according to a telegram from Vienna. The commission appointed by the Austrian national assembly to discuss the peace terms, was to hold a meet- ing in Vienna today, while on Satur- day the national assembly will hear a report from Foreign Minister Bauer on his conference with Dr. Renner.

French Socialist View. Paris, June 6.—The socialist group met in the chamber of deputies today and adopted the following resolution: "This motion expresses the hope that the allied governments will bring ameliorations to the peace treaty, giving it a character more in con- formity with the conditions of a just and lasting peace, and furthermore, that the situation of Germany and the peoples not forming part of the society of nations be defined more clearly and in a favorable sense."

Germans More Hopeful. Berlin, Thursday, June 5.—While German correspondents at Versailles continue to take a gloomy view of the forthcoming answer to the Ger- man counter proposals, official circles in Berlin, judged wholly by surface indications, appear more hopeful re- garding the further trend of events. Suspicion prevails in some quarters in the Wilhelmstrasse that the en- tire treaty probably will avail itself of neutral intervention by way of break- ing the ice.

Political observers here believe that Count von Brockdorff-Rantzau at present holds a slight strategic ad- vantage for reasons outside those that might be contained in his coun- ter proposals. The trace of optimism which has been asserting itself in the past forty-eight hours is explained by events which it is believed here will ultimately work out to Count von Brockdorff-Rantzau's advantage. These factors are to be found in the Paris strike, fresh Polish agrardment, French machinations in Rhein- land Prussia, and the reported British-American opposition to the pre- sent terms, all of which it is be- lieved in Berlin, are conspiring to bring the entente's alleged adamant front into immediate jeopardy, leav- ing it bereft of the prestige of unity which would enable it to remain un- relenting in the face of its original

SCENE OF HORROR IN EAST TURKEY

Rome, June 4.—A large number of photographs taken in Armenia, show- ing piles of skulls and skeletons, and pictures of deformed children and tortured women were shown a cor- respondent by Rev. Samuel T. Bartlett of Toronto, Canada, a member of a relief committee that penetrated in- to Eastern Turkey and arrived in Rome today.

"At Ouria," Rev. Mr. Bartlett said, "I saw a deep well filled with skulls of dead Armenians. There must have been several thousand of them. At Malatee there is a pit containing thousands of skeletons. A little girl at Sivras told us the Turks had taken her father and other men, killed and tortured them, and then killed them."

CANADIAN COMMENT ON WHITE'S BUDGET

Premier Martin Greatly Dissatisfied—Most of the Newspapers Criticize.

"PLEASE EVERYBODY"

Brantford Expositor Claims Attempt is Unsuccessful—Montreal Star's Opinion.

Montreal, June 6.—The Montreal Star says: "In the budget speech by Sir Thomas White, the citizens of Canada have more food for reflection than they are likely to digest in a long time. The people are prepared for taxation, but not for waste on government-owned railways."

La Presse says: "To please everyone, a little, seems to be the object of the proposals in the preparation of the federal budget estimates for 1919-20. Car farmers will find themselves on the same footing as the American farmers. Will this concession to the free-traders have been a result of the former attachment of the western members to the Unionist cause? Some think yes, others no. With regard to commercial relations between our Dominion and Great Britain they can only be benefited by the tariff reductions."

The Patrie, commenting upon the budget speech, says that it emphasizes to the people of Canada that the enormous pecuniary sacrifices they have made by participating in the war have not ended with the closing of hostilities. La Patrie finds it peculiar that a portion of the permanent expenditures of the Dominion has been added to the national debt, but remarks that in the circumstances it is impossible to give entire satisfaction to all parties. The modifications in regard to the tariff proposed by Sir Thomas White are in the nature of a compromise, but it finds the most important feature of the budget to be the discontinuance of the five per cent surtax on products. It questions whether agriculturists will find in the reductions of duty on farming implements, tea, coffee, etc., and the partial abolition of the war tax, an adequate reply to their demands.

Protectionist A to Z Regina, Sask., June 6.—The Morning Leader says editorially, this morning: "The people of western Canada have experienced disappointments in past years, in the budget announcements made at Ottawa, but never was one quite so disappointing and unsatisfactory as that which Sir Thomas White brought down yesterday. The wonder is that the Liberal ministers besides Mr. Crear have not resigned also."

"The budget is high protectionist from A to Z."

Martin Dissatisfied Regina, June 6.—Premier Martin, Latta, express great dissatisfaction with the budget proposals, Mr. Martin declaring that the western members in the house should vote against the government. "The reductions mean practically nothing at all to the west, and they certainly will not be satisfactory to the people of this country."

Won First Round Vancouver, June 6.—The World says: "The prairie west has won the first round of the tariff battle and as to the victors belong the spoils, the eastern manufacturer must pay thru the nose in the income tax he concedes the farmers' demands and it makes the wealthy classes pay as they have never before paid."

Satisfied Manufacturers Brantford, June 6.—Commenting on the budget of Sir Thomas White, The Expositor says: "The tariff cut is out of the bag, and it is pretty much the kind of Angola that had been promised."

"Summed up, the finance minister has attempted to carry out his prom-

153 Papineau Ave., Montreal. For three years I suffered great pain in the lower part of my body, with swelling or bloating. I saw a specialist, who carefully examined me and gave me several tonics to take, which did not help me. Then he told me I must undergo an operation. This I refused to permit.

I heard about "Fruit-a-tives" and the wonderful results it was giving, because this medicine is made from fruit juices, so decided to try it.

The first box gave great relief and I continued the treatment, taking six boxes more. Now my health is excellent, I am free of pain and swelling and I give "Fruit-a-tives" my warmest thanks.

ise to introduce a budget to 'please everybody', and, as is customary with such attempts, he has not succeeded. He has probably satisfied the manufacturers of the east who are assured of 'adequate protection', but he has certainly failed to satisfy the demands of the west, and as a result we may expect the resignation from the government of Hon. T. A. Crear, the minister of agriculture, while the names of many other Unionists from the west are given as being certain to oppose the tariff proposals, if not to go on the 'cross benches.'"

Montreal Views Montreal, June 6.—Importers and business men generally today were not yet in a state to declare with a degree of certitude what effect the changes in the tariff, as announced by Sir Thomas White yesterday, would have on prices and conditions of the articles affected. They declare that the changes will require careful study and that the real effect would only be known when the changes had had time to make themselves felt in the markets from which the articles were imported.

In regard to tea and coffee, importers said that they expected that the reductions in tariff would have some change, but not a great deal.

Relief in Brantford Brantford, Ont., June 6.—A sigh of relief that the radical tariff reductions threatened by the western farmers had not come about, and that the implement industry could carry on for a time on a stabilized basis, went up here today when the local implement manufacturers checked over the tariff.

The general feeling was that a compromise arrangement had been made, which would not benefit nor greatly hurt the industry, the Col. Harry Cockshutt of the industry had been a sacrifice offered for others. Even yet the reduction on finished products, with a full land of raw

PRESIDENT OF C. P. R. PREDICTS LARGE CROPS

Saskatoon, Sask., June 6.—"Perhaps the most interesting message I can give to the people of western Canada is to tell them of some of the plans the Canadian Pacific has for early construction of branch lines of railroad," said President Beatty of the C.P.R., in Saskatoon yesterday. The president is on a tour of inspection since his elevation to the presidency of Canada's greatest business organization. The added cares of his new and very responsible position have made no inroads upon the youthful appearance of the Canadian Pacific's chief executive.

"I believe we are going to have magnificent crops on the whole continent, this year," said Beatty. "The conditions will right themselves in all of Canada. In fact, I am very sanguine about the future."

C.P.R. TRANS-CANADA TRAIN REACHES COAST

Vancouver, B.C., June 6.—Sharp on the hour of ten, the first C. P. R. trans-Canada train came into the Vancouver station, 98 hours and 20 minutes running time from Montreal. The splendid new train left Montreal at 3.30 Sunday afternoon, with nearly a hundred passengers on board, and picked up others at stations en route. The highest number of passengers was 125. There were but three C.P.R. officials on board, Mr. George Ham of Montreal, Mr. C. McPherson of Winnipeg and Mr. F. W. Fox of Montreal.

Will a Slaughter of Jews Be Next European Horror?

While the sporadic persecutions and massacres of Jews in Russia, Poland, Roumania, and the Ukraine, already reported, are disturbing in themselves, they are but scattered sparks compared to the conflagration some observers foresee. Thus William G. Shepherd, in a Paris dispatch to the New York Evening Post says that not only leading Jews in France, but even notable Russian authorities, including Kerensky, "admit the possibility that the next Russian horror will consist of attacks on Jews." In the course of a dispatch from Paris a correspondent to the New York Day, a Jewish paper, says regarding the massacres in the Ukraine that "the purpose is apparently to exterminate the entire Jewish population."

Regarding the reported persecution of Jews in Poland, Rev. Dr. H. Pereira Mendes, of New York, declares that that country "is now at the bar of the world's judgment, for the world has to choose between Turkish atrocities in Armenia, German atrocities in Belgium, and Polish atrocities in Poland."

Poles in New York, and the new Polish Premier, Paderewski, deny that pogroms have occurred in Poland, and characterize these charges as anti-Polish and pro-German propaganda. To substantiate these denials the Polish Information Bureau cites Dr. Vernon Kellogg, recently returned to New York from Poland, who in an interview published in the New York Times stated that while "there were constant rumors of difficulties of one kind and another between the Jews and the Poles," he did not find evidence of any widespread massacres.

An Investor Need Not Be a Capitalist

Many people think it is necessary to have a lot of money in order to invest in high interest-bearing securities.

They envy the Capitalist because he has money to buy bonds and shares that earn him more money without further effort.

But to-day the humblest wage earner can be an investor and get big returns.

War Savings Stamps have made it possible.

You can get a War Savings Stamp for \$4.00. It is a Government Bond, bearing interest at over 4 1/2%, and in 1924 will be redeemed for \$5.00.

Thrift Stamps help you to save up the \$4.00 necessary to get one of these Bonds. A Thrift Stamp costs 25 cents, and sixteen of them can be exchanged for a War Savings Stamp.

Thus you can start being an investor as soon as you have \$4.00, and build up as big an investment as you choose.

In June W.S.S. Cost \$4.05

War Savings Stamps can be bought wherever this sign is displayed.

VANCOUVER STRIKE NOW MORE SERIOUS

Street Railway Men, Leave Work—Orientals Join in Walk-Out.

Ottawa, June 6.—Advice received at the labor department today that the strike situation in Vancouver is not improving. The department is advised the street railwaymen are now out on strike. Oriental labor is taking an active interest in the strike, and a number of this class have joined the strikers. The mayor of Vancouver communicated with Sir Robert Borden yesterday in an effort to prevent the street car men from joining the strikers, and the prime minister telegraphed to him the government's attitude with regard to collective bargaining. The department has no word as to the situation in Winnipeg. Reports from other strike centres seem to indicate that the situation is about the same, or slightly improved.

TORONTO TO NEW YORK CITY

A through train service from Toronto to New York City, leaving Toronto 8.45 p.m. daily, was inaugurated by the Grand Trunk Railway on May 4th. This train carries through coaches and sleeping cars, and arrives at New York at the Pennsylvania terminal, 33rd street and 7th avenue. Also train leaving Toronto 4.00 p.m. daily runs through to Buffalo, making direct connections at Buffalo for New York coaches and parlor-litrary-buffet car Toronto to Buffalo, sleeping cars Buffalo to New York and Philadelphia. The Pennsylvania station is so centrally located that it is a great convenience to the visitor to New York, and is in easy reach of some of the latest hotels, also the shopping and theatre districts. There is also direct tube service to and from Brooklyn.

The board of education will name the new East Ward school after the only trustee who enlisted and made the supreme sacrifice.

SPLENDID SHOWING BY RIDLEY CADETS

Special to The Toronto World. St. Catharines, Ont., June 6.—In inspecting the Ridley College cadets, Lieut. Col. Barker of Toronto stated that the corps is unquestionably the finest in his district and undoubtedly in Ontario. The inspection was concluded by an attack of the cadets on a target. This was very interesting and exciting to the spectators. The smoke screen with the cadets advancing thru it being splendid. The imitation artillery fire, bombs and machine gun fire seemed almost a real thing. It is expected that a team representing the Ridley cadets is to be sent to the Toronto exhibition to compete with cadets all over the British empire.

Philadelphia, June 6.—The champion Holstein cow, Rolie Mercena De Kol, was sold today for \$26,000 at an auction of pedigreed cattle in connection with the annual convention of the Holstein-Friesian Association here. The cow is six years old and weighs 1300 pounds. Her record is 51 93-100 pounds of butter and 138 pounds of milk in seven days, and 201 17-100 pounds of butter and 2320 60-100 pounds of milk in 30 days. She was sold by J. B. Harmer of Norwich, Ont., to the Coldstream Farms, Lexington, Ky. A daughter, Glenotter Rolie De Kol, brought \$7100.

Oxford County Council Refuses War-Work Grants

Woodstock, June 6.—At a special session of the Oxford county council, held tonight, the finance committee recommended that no grant be made to the Y.M.C.A. or the Navy League. The "Y" asked for \$15,000 and the Navy League request was for \$5,000. The council adopted the recommendation.

J. H. Marshall, Former M.P., Dies Suddenly at London, Ont.

London, Ont., June 6.—Joseph Henry Marshall, registrar of the County of Middlesex and an ex-member of parliament for East Middlesex in the Conservative interest, died at an early hour this morning at his home, Cedar Terrace, in London Township, as a result of a sudden attack of acute indigestion. He was 66 years of age. Besides his widow, Mr. Marshall is survived by two sons, Athol of Toronto and Harry, who returned from overseas last week, and one daughter, Mrs. E. M. Hawkins, of this city.

I, Patrick Lyons, of the City of Toronto, in the County of York, hereby give you notice that I demand payment of the sum of \$1047.57, made up as follows: \$850.00 for principal, \$97.57 for interest, and \$100.00 for costs, together with interest at the rate of six per cent. per annum on the principal and interest hereinbefore mentioned, from the 15th day of May, 1918, to the date of payment due to me, the said Patrick Lyons, upon a certain indenture of mortgage, dated the 15th day of January, 1918, and which mortgage was registered in the Registry Office for the Registry Division of East Toronto, on the 27th day of January, 1918, as Number 5872-P, expressed to be made by you, the said Baker Construction Company Limited, to Henry Baker, which said mortgage was assigned to the said Patrick Lyons for securing the repayment of the sum of eleven hundred dollars and interest thereon as therein mentioned, and costs and expenses, hereunder, on the following property, namely:

All that certain parcel or tract of land and premises, situate, lying and being in the City of Toronto, in the County of York, and being composed of parts of Lots numbered 55 and 56, according to plan filed in the Registry Office for the Registry Division of East Toronto, which said parcel is more particularly described in the instrument Number 5872-P, and upon which is erected a dwelling house known as Number 24 Richards Avenue in the City of Toronto.

And take notice that unless payment of the said mortgage money be made to me, the said Patrick Lyons, within two months from the time of the date hereof, I, the said Patrick Lyons, will proceed with or without any consent or concurrence of you, the said Baker Construction Company Limited, to sell, without any further notice to you, to enter into possession of the said mortgaged premises, and receive and take the rents and profits thereof and whether in or out of possession of the same to make any lease or leases of the same, or any part or parts thereof, as I, the said Patrick Lyons, shall see fit, and to sell and absolutely dispose of the said lands and premises, either at public auction or private sale, or partly by public auction and partly by private sale, as I, the said Patrick Lyons, may deem proper, for cash or upon such terms of credit as I, the said Patrick Lyons, may think proper, and to convey and assure the same when so sold unto the purchaser or purchasers thereof as he or they shall direct or appoint.

Dated at Toronto, this 15th day of May, A. D. 1919. PATRICK LYONS, By Day, Ferguson & Co., 26 Adelaide St. West, his solicitors.

MILLIONS OF PENCILS ARE USED EACH YEAR

The world's product of lead pencils probably amounts to nearly two thousand millions a year, half of which are made from American-grown cedar. The United States makes about seven hundred and fifty millions a year or more than eight pencils for each of its inhabitants.

Several British women have been granted the privilege to visit foreign countries and decorations conferred on them for war service by the heads of the various countries affiliated with the Allies.

Confidence is Shown That Labor Disputes Will Soon Be Adjusted.

Mining stocks continued to mark time yesterday, and no disposition to break out of the rut is likely to be shown until the labor situation in the north is more definitely cleared up.

WAR BONDS SELL AT RECORD PRICES

Increase in Income Taxation Has Natural Effect—Little Change in Stocks.

Practically the only effect exercised upon the Toronto market by the budget speech was the stimulation of the demand for war bonds, the increase in income taxation having a natural result of turning the minds of investors toward the tax-free securities.

The Baldwin a Near Producer

The shaft on the BALDWIN has passed the 300-foot level. It should reach a depth of 300 feet in the near future, and a separate contract has been let for considerable cross-cutting at the 300-foot level.

By 1st of July, our big ore body should be proved at the 300-foot level, and a cross-cut should open it up at the 300-foot level.
