University Commission Report

Finally Presented to the Legislature

Covers a Very Broad Field

Defects of Present System Due to Unsatisfactory Manner in Which Crown Has Exercised Its Powers—Nine Outstanding Recommendations for Future Government.

OUTLINE OF SUGGESTED RECONSTRUCTION.

1. The powers of the crown in respect to the control and management of the university should be vested in a board of governors, chosen by the lieutenant-governor-in-council, and subject to the approval of appointment and by the regulation of their proceedings, and to the perpetual authority of the state.
2. The senate, with its legislative and executive powers and based upon the principle of representation of the federated and affiliated institutions and the faculties and graduates, should direct the academic interests of the university.
3. The School of Practical Science should be united with the university as its faculty of applied science and engineering, and the same intimate connection should, as far as practicable, apply to the relations of the faculty of medicine to the university.
4. University College should continue as now constituted, with a principal, faculty council and registrar of its own, its administration being under the direction of its faculty council, subject to the control of the board of governors, and appointing and dismissing staff being made on the recommendation of the president of the university.
5. There should be created a council of the faculty of arts composed of the faculties of all the arts colleges and representatives of the federated colleges, and a council for each faculty.
6. There should be created a caput or advisory committee, having authority in certain matters of university discipline, which may act as advisory to the president.
7. The office of chancellor should be retained, its occupant to be elected by the graduates and to preside over the convocation and confer degrees.
8. The office of vice-chancellor should no longer exist, its functions and duties being transferred, in certain respects, to the president.
9. The office of president should be clothed with additional powers, making its occupant in fact as well as in name, chief executive officer of the university.

The report of the royal commission appointed by the Ontario government on Oct. 3, 1905, to enquire into the present condition and needs of the Toronto University was laid on the table of the legislature by the provincial secretary yesterday. It is a comprehensive document, comprising sixty printed pages. In addition to the report, a draft bill, embodying suggested improvements in the system of university management and if the report meets with the approval of the cabinet the bill will be given to the house in the shape of a government measure. The commission issued in October last authorized J. W. Flavelle, Dr. Goldwin Smith, Sir W. R. Meredith, B. E. Walker, Rev. Canon Cody, Rev. D. B. Macdonald and A. H. U. Colquhoun (secretary) to report upon:

A scheme for the management and government of the university; a scheme for the management and government of the university colleges; the advisability of the incorporation of the School of Practical Science with the University of Toronto; such changes as should be brought about in the relations between the said University of Toronto and the several colleges affiliated or federated therewith, having regard to the provisions of the Education Act; such suggestions and recommendations arising out of any of the subjects thus indicated.

Defects of System.
The commission deals with the defects found in the university system and makes nine recommendations. This is what the commission says of the defects in the present system:

"The situation with which the commission is appointed to deal presents for the reasons here indicated a mass of perplexities and anomalies. The scheme of government now in existence would never have been deliberately created if it had not come from a situation of anarchy and confusion of the university had been solely kept in view by the changes of 1827, modified by the changes of 1853, modified by the changes of 1873, which self-imperfect. The adoption of federation in 1887, by which the university became a teaching body with provision for the grouping of arts colleges around it was a complete reversal of the conditions under which the University of London was selected as the model constitution. The various governing bodies have thus been partly a reflex of the British and partly of the American models. The university has a chancellor, a vice-chancellor, and a president, each with vaguely defined functions. As a means of perpetuating a divided control, no better method can be conceived. Instead of central responsibility, we have had divided authority. Upon the effect of this on the prestige of the university, on the strength and coherency of its policy, and on the discipline of its students there is no need to dwell. The office of chancellor has possessed few of the attributes of real power. The office of vice-chancellor has been occupied by some of the most in-

PART POLITICS HAS PLAYED.

Dealing with the board of governors, the commission observes that the history of the provincial university has demonstrated the disadvantage of direct political control. "Despite the zealous efforts of statesmen and educationists, the university became on many occasions in times past the sport of acrimonious party disputes. Its interests were inextricably confused in the popular mind with party politics, although with it had in reality little concern. The various ministries which at different times since 1839 had tried to reconstruct the system of administration, instead of handing over to the authorities of the university the carrying on of its affairs, reserving to the state the power of controlling and resuming the trust if conditions rendered the proceeding advisable, burdened themselves with a responsibility which in many respects they were unfitted to discharge. The fruits of this policy have been a gradual decline of public sympathy with the pecuniary needs of the university and an element of uncertainty and impotence in its internal management. The progress of the university has been due to its situation in the richest province of the Dominion, to the prestige of connection with the state, to the talents of the professoriate and the too often unappreciated labors of its governing bodies. Under circumstances that were at times discouraging and subject to influences that tended to disintegration rather than development, a task demanding unity of aim and concentration of energy has been sustained with difficulty. A complete change is imperative if the university is to fulfil the high purposes which modern educational conditions have made essential to the well-being of the country."

FLOW OF VESUVIUS LAVA IS MENACE TO VILLAGERS

Churches Are Crowded With Panic-Stricken People—Main Stream 2000 Feet Wide.

Naples, April 6.—The inhabitants of the villages in the vicinity of Mount Vesuvius are in a condition bordering on panic. Many homes have been abandoned for the open air, altho there has been a thick fog all day, and the atmosphere has been dense with volcanic ashes and the fumes of subterranean fires. The churches are crowded day and night with persons praying for deliverance from the fearful pestilence which is being spread by the volcanic activity. The eruption has been particularly violent, and the main stream of lava, which is now 2000 feet wide, is advancing at the rate of 21 feet a minute, the intense heat destroying the vegetation before the stream reaches it. The peasants of Forlici, at the west foot of Vesuvius, cleared their grounds of vineyards and trees in the effort to lessen the danger from fire, and resisted the progress of the lava to their utmost. The population of Boscoreale, at the southern declivity of the mountain, has sought safety in flight, and Boscoreale, to the eastward of this is threatened. Women of this village, weeping with fright, carried a statue of St. Anne as near as they could go to the flowing lava, hoping thereby to stay the advance of the consuming stream.

The cemetery at Boscoreale has been invaded by lava. "The night is one of mingled grandeur and horror, as from the summit of Vesuvius there leaps a column of fire fully 1000 feet in height and the lava, lighting the sky and sea for many miles. Occasionally great masses of white hot stone, some weighing as much as a ton, are ejected from the crater. The eruption has been particularly violent, and the main stream of lava, which is now 2000 feet wide, is advancing at the rate of 21 feet a minute, the intense heat destroying the vegetation before the stream reaches it. The peasants of Forlici, at the west foot of Vesuvius, cleared their grounds of vineyards and trees in the effort to lessen the danger from fire, and resisted the progress of the lava to their utmost. The population of Boscoreale, at the southern declivity of the mountain, has sought safety in flight, and Boscoreale, to the eastward of this is threatened. Women of this village, weeping with fright, carried a statue of St. Anne as near as they could go to the flowing lava, hoping thereby to stay the advance of the consuming stream.

PRINCE MAY PASS WINNIPEG IF STRIKE ISN'T SETTLED

One Reason Why Council is Anxious—Wm. Mackenzie Puts It Off Till Monday.

Winnipeg, April 6.—(Special.)—Continuation or termination of the strike now depends entirely upon Wm. Mackenzie, and a telegram was anxiously expected from him all day which would either settle matters or mean the strike would go on, but nothing was heard. Mayor Sharp received word today from Hon. Robert Rogers, saying that he had interviewed Mr. Mackenzie on behalf of the government and told him the strike must be settled one way or another immediately. The strike authorities are endeavoring to get the strike settled before Prince Arthur reaches here on Monday, as there are many threats of trouble. If the trouble is not settled the prince may pass the city by. Numerous letters have been received by the police commissioners, threatening to riddle with bullets several of the police who have been especially obnoxious in quelling riots. Everything between the men and the company has been settled by the ministers who acted as mediators except the question of wages, and this depends upon an answer from Toronto.

ARRESTED FOR MURDER.
Former inmate of Ahern Household Suspected of Assaulting Girl.
Montreal, April 6.—(Special.)—Ruel Bradley, a former inmate of the Ahern household, but who was sent away because he failed to pay his board, was arrested this evening, charged with the murder of little Ida Ahern. The victim's father says Bradley acted strange at all times. He had been drinking hard, and his appearance tallies with the man seen with the child the day of the murder. The prisoner refused to look Ahern in the face when the latter went into the cell. Medical evidence at the inquest shows that the infant had not been killed by the body as was at first supposed, but that she died from fright and nervous shock or from exposure.

ARRESTED FOR THEFT.
Contractor Locked Up by Shareholders of Roller Brass Co.
Thomas Crutenden, contractor, 287 Sumach-street, was arrested at 12:30 this morning by Detective Guthrie, charged with theft.

The allegation is said to be the outcome of some shareholders' dissatisfaction with the way in which a quantity of brass and copper belonging to the Canada Brass Rolling Mills Co., late of Mimico, was disposed of when that company quit business. The specific charge against Crutenden is the theft of \$1000 worth of brass fittings, etc.

HOUSEHOLD MOVING.
Forsythe Storage & Carriage Company 543 Yonge Street. Phone North 923.

The entertainment of the season—the last "At Home"—Caledonian Society, April 10.

A Sprig of Royalty About to Arrive. Torontonians will shortly be entertaining Prince Arthur of Connaught, and no doubt lavish functions will be provided by generous entertainers. They will do well to remember that royalty in the person of the Prince of Wales has signified in a practical manner its approval of Canada's great water, radiator. The prince had it forwarded to him for use all through India. On these grounds, those who entertain Prince Arthur should not neglect to have a plentiful supply of radiator on hand.

W. Harper, Customs Broker, 5 Melinda. If Not Why Not? Have your accident and sickness policy. See Walter H. Blight, Confederation Life Building, Phone M. 2770.

Baincoat, extra long, lined full length, from Fawns or Grays, to order, \$10.50, Hoberlin's, 158 Yonge.

CAMPAGN OF EDUCATION ON POWER ISSUE

SAYS VICE-CHAIRMAN ELLIS OF MUNICIPAL COMMISSION

PROBLEM SHOULD BE FACED WITHOUT DELAY

More Municipalities That Enter the Better For All—Recommendations Should Be Acted Upon at Present Session—Board of Trade President Speaks Support.

P. W. Ellis of Toronto, vice-chairman of the municipal power committee, gave an address at a board of trade luncheon yesterday before a large and interested gathering. Pelag Howland presided, and in the course of a few opening remarks said that the board of trade would support any good measure for the solution of the power problem. The greatest difficulties perhaps arose from the fact that there were "franchises" already granted. Those corporations that had these franchises would have to be dealt with fairly. But he believed the problem was capable of solution and that it should be tackled without delay.

Mr. Ellis spoke in optimistic vein. He incidentally paid tribute to the initiative power of Frank Spence, the chairman of the electrical committee of the city council, at the time the scheme was mooted, and also of the Mayor Urquhart and the members of the board of control.

Commercial success, not to speak of commercial supremacy, depended, said Mr. Ellis, upon controlling to the utter the cost of every element that entered into the production and distribution of commercial power. He hoped that the initial interest would be followed by a well-organized, educative campaign, designed to insure that the question be thoroughly elucidated, by free and full discussion, to the public at large.

The cardinal facts of the present situation he described as simple but important. Seven municipalities had subscribed a sum of \$5,000 to pay the cost of an enquiry. After exhaustive investigation the commissioners had reported, indicating that great and unexpected benefits will be derived from an independent municipal development of power.

Upon the recommendations were based the perception of two governing facts. "First, power may be delivered to consumers at cheaper prices under an independent municipal development than obtained otherwise. If the provincial government had undertaken to carry out a new and independent power generation, transmission and distribution scheme, there was no reason to suppose that the resultant level of prices would not be quite as low as those which the commissioners report possible.

ELECTRIC COS. IN COMBINE SPLIT UP TO WATER STOCK

Hon. Adam Beck Explains the Reason for Opposition to Municipalities' Plans.

London, April 6.—(Special.)—About 150 representative citizens assembled at the city hall to-night to hear Hon. Adam Beck deliver an address on Niagara power. Altho the audience was small, it consisted of the more solid element. Mayor Judd presided and introduced the speaker.

The whole power question was covered by Mr. Beck, but his only new point was in the nature of a reply to the criticisms that have been made of him, and the power problem by representatives of electric corporations.

He declared that all the electric companies of the Dominion were under one head, and that the London Electric was intended to be one of the distributing companies of this combine. This, he intimated, was the real significance of the opposition that had been aroused by the power commission report.

Why was the combine split up into so many companies? So as to facilitate the watering of stock.

"They will not water the stock; they will seek it," said Mr. Beck. He was frequently applauded, and closed with an exhortation for London and other municipalities to get together.

Several visitors from outlying towns were present. You can afford a Motor Boat, but not the usual kind. See the right kind at Nichols Brothers, Limited, 400 York Street Bridge.

GALT IS SOLID.

Hon. Adam Beck Explains the Reason for Opposition to Municipalities' Plans.

About May 20 we will occupy our new premises, 5 West King-street. Just now we are offering great values in pipes and smokers' goods at 49 King West. A. Clubb & Sons.

BIRTHS.
JAFFRAY—On April 5, at 74 Grenville-st., to Mr. and Mrs. William G. Jaffray, a son.

CATTLE EMBARGO DEBATE WAS UNSATISFACTORY CONCLUSION

Talked Out Without Division and Several Reasons Are Given for Speaker's Refusal for Closure.

(Canadian Associated Press Cable.)
London, April 7.—In the house of commons Friday Mr. Cairns, M.P. for Newcastle, moving the second reading of the Diseased Animals Act Amendment bill, sketched the history of the act since 1896, and the continued hostility that had been shown to it by reason of the fact that under its provisions foreign and especially Canadian cattle, could not be landed alive at our home ports. This bill did not affect Ireland; yet the Nationalists had renounced their intention of opposing it. It was eminently desirable to remove the embargo on Canadian cattle. The Canadian government habitually complained of the restriction, inasmuch as Canada was free from disease. If there was any risk, he would be the last to express himself in favor of the measure.

Cattle Healthy.
During the last ten years 1,250,000 Canadian cattle landed here, not one suffering from foot or mouth disease or anthrax. For every one of the Canadian cattle killed for suffering from tuberculosis there were 101 from cattle destroyed. He argued that the sooner we had these healthy animals among the home herds the better. Mr. Price, M.P., seconding said the quality of stock had gone down under operation of the act of 1896. It was not suggested that any risk of disease be taken. Canada was free from disease.
Mr. Courtney, M.P., said it was a matter between farmers and not the concern of the rest of the public at all. He moved the rejection of the bill, and denied that it would benefit the farmer, laborer or consumer. It was not the case that the embargo had increased the price of store cattle. He believed nine out of ten farmers in this country were in favor of the bill. Nobody could call this a free trade bill; it gave a preference to Canada against all other countries in the world.

Premier's Position.
W. O'Brien, M.P., said if the bill passed 200,000 holdings in Ireland would be rendered unworkable. Premier Campbell-Bannerman said personally he preferred the old system by which matters of this kind were left to the discretion of responsible ministers.

DOWIE SPECULATED.
And Lost, 'Tis Said, Over Millox in Wall Street.

Chicago, April 6.—Officials of the Christian Catholic Church at Zion City declared to-day that it was believed that John Alexander Dowie had lost sums aggregating close to \$1,200,000 in speculation in Wall-street. It is declared he opened accounts with four stock exchange houses, and that three of them went out of existence soon after he had deposited margins for the protection of his deals. The greatest part of the money, it is said, was lost by Dowie during the slump of 1903.

Get One of These Hats. Dineen's store will be open until 10 o'clock Saturday evening. Two new styles of hats, each for three dollar hats, have better style, unflattering colors and substantial shape. Dineen's, corner Yonge and Temperance-streets.

importance to them, of cheap power, and had given consideration to the possibility of obtaining it by united action. He will know, also, that the heads of these municipalities have not been slumbering while their commissioners have been working, and that their qualifications for forming a stable judgment upon the situation have not all arisen since the report was published a few days ago.

The publication of the commission's recommendations merely provides the occasion for declaring what nearly all thinking men have had passing thru their minds for many, many months. The enthusiasm which has become active in Western Ontario is only the gathering together of forces which have been steadily increasing in volume and confidence.

Possibly Mr. Whitney and his colleagues may discover that the information on the subject possessed by the average business man, who has the faintest glimmering of public spirit is even greater than the average of information on the subject possessed by cabinet ministers. It has often happened that ministers of the crown, immersed in departmental work had not sufficient opportunity to notice the general trend of popular knowledge and sentiment upon questions which are vital to the commercial and political prosperity of a province or a dominion.

Governments fall, indeed, partly because they lose the virtue which waxed strong in them under the cool shades of opposition, and partly because, being governments, they lose touch with public opinion and ignore what they should assiduously respect. The wise statesman is he who retains his ability to take comprehensive views of what is going on among the people generally.

The sentiment for cheap Niagara power, which is an entirely new factor in the affairs of this province, is all the stronger because Mr. Whitney's predecessors chose for several years to keep the people out of their own heritage in the Falls. It will, by the most natural evolution, crystallize itself into a political force of some kind, because the corporation interests will do their best to destroy it. In short, it will be the incentive to the biggest fight for public rights which has been seen in our time. He who fights on the public side fights well. He who fights at the beginning fights better. If the Ontario government doesn't get on the front seat of the chariot it will presently find itself ineffectively chasing the vehicle.

INARTISTIC OPPOSITION.

There is a bewildered air about the electrical corporationist who has been reading the municipal power commission's report. He is looking over his prices; and wondering whether it would have been better to be not quite so hard on the consumer. He will soon dislike his contracts as much as the consumer does. He is beginning to think that electrical development is not so difficult to understand, after all. "Kilowatt" is a word which can wake people up as well as make them doze. So some hostile voltage—perhaps that is not the right word, but it carries a right meaning—must be injected into the public mind along with the commission's report.

The corporationist when he is really annoyed does the clumsiest things. When he ought to incorporate he does something else. For example, Mr. Richmond Smith lately delivered an address in Toronto, in which he whispred a benediction of public ownership in principle, and lustily damned it in practice. Mr. Smith is the most convenient implement with which to try to cut the ground from under the feet of "this man Mr. Beck," and he is promptly brought into action.

The corporationists should have exploited Mr. Richmond Smith with a little of the skill with which they create watered stock. They should have joined a "Taxpayers' Protection League" or an "Association for the Prevention of Municipal Cruelties," and over the names of a patriotic and philanthropic president, and a self-denying secretary, should have circulated Mr. Richmond Smith's deliverance as that of a First Apostle of civic sanity.

But they appear to have employed just a plain every day advertising agent, who distributes Mr. Richmond Smith thru the post, as tho he were a sample of patent medicine. It is really too crude—too inartistic. It is making too little of Mr. Richmond Smith. He should have been capitalized and sent round at a premium.

PERIL IN NATAL.

There are no definite indications that the Kaffir rebellion in Natal will spread. The general conditions in the British colonies south of the Zambesi are such that the whole of South Africa might quickly be aflame, if there were widespread discontent among the natives. Natal has long been recognized as the danger spot. The blacks there are in a majority of about one to one, and when whites in the colony, two-thirds are in the towns of Durban, Pietermaritzburg and Ladysmith, you realize the extent to which the safety of the scattered European population depends upon

on their prestige and upon aboriginal content. The native problem through the country is of such immense complexity that the shrewdest observers of it are the least inclined to prophesy how it will work itself out. The blacks are virtually in a servile position, even tho in their kraals they live a comparatively innocent, barbaric life. The men are in the habit of going to the towns to work half the year, where they are docile and efficient servants. But they are the children of Ham all the same, and the doctrine of brotherhood is not sedulously preached to them when they are earning their wages.

Their inferiority is so obvious as to need no exposition, the comparative wealth which their toll has given them—a wealth which produces more wives, cattle and sensual indulgence to the one-time laborers—ministers to their vanity, and many of them, especially since the war, have become imbued with the notion that they are not so far behind the white man after all.

For instance, you could hear negro ox-drivers during the war openly vaunting their superiority over Tommy Atkins on the ground that, whereas he was only paid twenty pence a day for risking his life every hour, they were receiving, from a discriminating government, sixty pence a day for teaming in comparative safety.

The rebellion in Natal, altho the British laager had to be abandoned, and Greytown is in a posture of defence, may perhaps be confined to narrow limits without difficulty; but those who have been in that country will be more nervous, than ever as to the ultimate relation of the white and black races. There is just enough education among a very small minority of the Kaffirs to make them realize more poignantly than could be the case in a state of mental darkness, the invidiousness of their position. If at some time there arises a leader of the natural capacity of Moshesh, the great king, who built up the powerful Basuto nation out of the remnants of tribes which had been scattered by their enemies, the position of the white minority might be precarious at any time.

It was this potential contingency which gave to many experienced men their most anxious fears during the Boer war. They felt that it was essential for the future peace of a sub-continent that the white people should not be seen by their inferiors playing the disastrous game of destroying one another.

In a peculiarly heavy sense the black man is the white man's burden in South Africa. The immediate issue of the present trouble in Natal, as well as the future raising of the Kaffir to a higher level of civilization, will be watched with sympathy and hope by all other parts of the King's dominions.

THE UNIVERSITY REPORT.

As was only to be expected from the composition of the royal commission appointed in October last to enquire into the management and government of the University of Toronto, its general relations with affiliated colleges and other cognate matters, the report published to-day is of the most exhaustive nature and characterized by a thorough grasp of the situation and great breadth of view. The commission was fortunate in possessing in Prof. Goldwin Smith a member familiar with the constitution and administration of the English universities, and it collected by oral and written testimony and visitation of the leading universities of this continent, much valuable material, which has gone to build up the weighty contribution now offered towards the solution of the provincial university problem.

The salient feature of the report is its full recognition that a university to meet the needs of Ontario—indeed of Canada—must not only be prepared to equip its students for practical work, but to produce in them a high standard of general culture. The pursuit of knowledge for its own sake is after all the most praiseworthy part of higher education, and no university which falls in this can be considered as fulfilling its true functions. This aspect of the problem, is too apt to be overlooked in the period of vast material development. Yet the teaching of history, the grounded judgment of the best authorities and the requirements of modern civilization all concur that nothing can supply the deficiency resulting from the neglect of these branches of learning which may have been too exclusively provided for in the universities of the old world, but whose place cannot be filled nor their influence on mind and character duplicated by any form of specialization, however accurate and profound.

In the statement of the existing situation and historical retrospect with which the report opens the commis-

ioners indicate very clearly the weakness of the present constitution and its causes. Starting with the postulate that the university is and must remain a state institution, they recognize that direct control by a representative body has in the past made it "the sport of acrimonious party disputes." Its organization has been based on definite principle, but follows partly British, partly American, models. The question the commissioners set themselves to solve was "to provide at once a strong central authority and ultimate state control. Thus they proposed to effect the creation of a board of governors of 15 members, all of whom save the chancellor and the president, who will sit ex-officio, shall be appointed and removable by the lieutenant-governor in council. To the board will be delegated all the powers now exercised by the crown and the commissioners anticipate it will be frequently recruited by the government from representative men of the province, who are in touch with the latest phases of university opinion or possess other desirable qualities.

While the governors will possess the general oversight and financial control now vested in the state, to the senate is relegated the direction of the academic work and policy. The commissioners do not suggest any serious alteration in this branch of the executive, but it is enlarged by the introduction of representatives to be appointed by the collegiate institute and high school teachers, and it is recommended that members of the teaching staff shall no longer be eligible as candidates for the graduate vote.

Next to the constitution of the governing board the most important change proposed by the commissioners is that which affects the status of the president. They deprecate the autocratic presidency favored in several of the United States universities, but at the same time declare that as the head of a great university, to be influential he must have wide powers, tho he need not be supreme. The suggestions they make as to his duties and powers will have the effect of making him the "natural adviser of the governing body," and appointments are made conditional upon his nomination. Other material reforms are embodied in the suggestions relative to the creation of faculty councils, and of a disciplinary committee to be known as the "Caput." This latter recommendation is designed to promote effective co-operation in university matters.

In the subsequent portion of their report the commissioners deal with numerous matters of great and general importance. Their recommendations are marked by keen appreciation of the immediate requirements of a Canadian community and warm sympathy for the future of the university as a state institution. Special stress is laid on instruction in forestry as a matter of peculiar importance to a province possessing rich areas of timber. While the commissioners evidently favor the establishment of a complete school of forestry they will be content meantime with a beginning. But the government can well afford to take a broader view and establish a system of instruction worthy of a province possessing the timber resources of Ontario.

PEOPLE STILL WATCHING.

Orangeville Sun: The salary grab deal is a little quiet just now, but W. F. Maclean and Dr. Barr should not get the thing so by default. The people are still watching.

With all his faults one of the most useful men in the house of commons is W. F. Maclean, M. P. for South York. He has been the father of a great deal of good legislation, but it generally has come years after he advocated it. If there were a few more Macleans in the house it would be of immense advantage to the people.

U.S. TARIFF REVISION SHOULD BE LONG DELAYED

So Argues Speaker Cannon and Gives Reasons of His Reasons Why.

Washington, D.C., April 6.—Speaker Cannon to-day made an explanation of a letter recently written by him to a friend in East Liverpool, Ohio, regarding the tariff. The letter was published and seemed to indicate that tariff revision would probably come in the future. The statement of the speaker to-day follows:

"I was not aware that I was writing a letter for publication, altho I have no objection to its publication. There are many people in the country who believe that a single schedule or a few schedules of the tariff may be amended. This is entirely impracticable, for while an amendment to a single schedule might please a single interest, it could not command enough votes to enact it.

"In my judgment nothing can be done except by a complete revision of the tariff, which would be a compromise that would command a majority vote of the 388 members of the house and the 90 senators.

"The enactment of such revision and the time necessary to adjust it to conditions would halt production, consumption and commerce for at least 12 months, and when the compromise is enacted, as a whole, it will probably not be an improvement on existing law. I do not believe a majority of the people at this time desire to interfere with the present conditions, which are the most prosperous conditions we have had in the republic to the laborer, farmer, to the capitalist, to the producer and to the consumer.

"That the time will come when a general revision will be entered upon I have no doubt, but for the general interest of the whole country the revision should be postponed as long as possible. Congress reflects the will of the people, and the house of representatives is chosen every two years. There will be a general congressional election next November. Our friends, the enemy, insist on an immediate revision of the tariff. If a majority of the people demand immediate general revision, they will elect a majority of the members of this house in favor of immediate general revision."

MEREDITH IS NOT ALONE.

Editor World: Why do you criticize Sir William Meredith and say nothing about other judicial offenders? What about Mr. Yukon Commissioner Britton, who was a few days ago re-elected director of the Mutual Life Insurance Company of Waterloo, and accepted promotion to the vice-presidency? Judge McMahon, with proper regard to the obligations of his position declined re-election to the board of the National Trust Company. But not so Mr. ex-Political Union. He holds to the job—and the fees.

Chancellor Boyd, Judge McMahon, Judge Snyder of Hamilton, Judge Elliott of London, and Judge Hughes of St. Thomas have retired from the boards of which they were members, and shown an example of ready obedience to law.

Toronto, April 6, 1906.

PRaises UNION LIFE.

Editor World: The letter in your today's issue, signed "Policyholder," is certainly unfair, not only to the officers of the Union Life, but also to the policyholders. It is quite misleading, and the Union Life is deserving of praise rather than censure, because so much expense is incurred in furnishing an insurance within the reach of the working man. That letter contains some expressions, which seem to me were overlooked when it passed thru your office, otherwise I am sure it would not have been inserted without being cut into by the censor.

On enquiring of the company, I find that the \$28,000 paid to have been paid for salaries includes the pay of over forty employees at the head office for a year, which surely is not a very large sum.

The royal commission is certainly doing good work, which will, I believe, result in strengthening and advancing the Union Life, rather than otherwise.

Another Policyholder.

Toronto, April 5.

A GRAND OPPORTUNITY.

Orangeville Sun: The Ontario government has been doing excellent work since Premier Whitney and his colleagues assumed power, and the people of this province are getting better government than they ever got before. But now a very important matter faces the people and we are sure the government have thrown out sufficient feelers to know exactly what the people want. We refer to the Niagara Falls power. If the people want power at reasonable rates all they have to do is to say so and the government will grant their request, but if they keep mum the power companies will squeeze them for every cent they can, which will be about three times as much as they should. Hon. Adam Beck and the power commission have made an exhaustive report on the question and it should be read by everyone in Ontario. The commission finds that power can be delivered at Toronto for about 15¢ per horse power per year for 24 hours per day, but monopolists who are trying to control Niagara Falls want \$35 for it. Every newspaper and every public body should inform the government what the people want, a public power plant and we should support the government in this matter. It is a cold-blooded business proposition and should not be mixed with party politics.

T. EATON CO. LIMITED

—STORE CLOSES DAILY AT 5 P.M.—

DEPENDABLE HARNESS

COME HERE FOR GOOD HARNESS—FOR FINE APPEARANCE AND FAIR PRICE.

Experience in horse-goods tends to keep the Eaton Horse-goods Store in a class by itself. The best possible investment in harness is to be made here.

Unlike other manufacturers, who make for a hundred and one stores, the productions of our workrooms are all sold direct to you, over our own counters. They are made just as we have found you want them, made to

Afford You Every Satisfaction,

And to reflect credit upon us.

Our customers include many of the leading horsemen in Canada, who find here many things not to be had elsewhere.

You can't find a \$14 buggy harness elsewhere, of the quality of ours. Because only one profit here (as we make our own harness)—drygoods profit on harness—that's all.

You can't find a \$22.50 carriage harness elsewhere that will begin to compare with this one of ours. Look around and see for yourself.

It pays to buy harness at Eaton's.

OUR SPECIAL CARRIAGE HARNESS

Bridles, ¼ inch—Strap traces, 1½ inch, with 4 holes in end, with O. S. hames—Lines 2 inch checks with 1 inch hand parts—Martingales, ¼ inch—Breast straps, 1½ inch—Collars plain leather—Back straps ¾ inch, flax stuffed crupper dock, made up of No 1 stock, 22.50

SINGLE AND STITCHED BUGGY HARNESS

We call this our "Farm Special," being made especially for our farm patron.

To Ask F. M. G. to Shorten the Hours of Postmen. When President Edmunds called the Liberals of ward one to order in Dingsman's Hall last night at the regular monthly meeting, less than a dozen members responded to the call.

Savannah, Ga., April 6.—Judge Spear today overruled a motion made by the defence to direct a verdict of not guilty.

Household Economics Association. The regular monthly meeting of the Canadian Household Economic Association will be held in the theatre of the Normal School, on Tuesday, at 3 p. m.

Samarita Stopped His Drinking A London Lady cures her husband permanently of the drink habit and without his knowledge.

"How glad I am that I overcame my habit about writing you for a sample of Samarita. At that time my husband was drinking very hard, and I was in despair. The effect of your treatment was immediate, and now our home is entirely free from the drink curse. I gave my husband the tablets in his tea, and he never knew. As the fastidious liquor left him, his general health improved and is now splendid—many, many thanks. I will be glad if you will tell others of my experience."

Free Package and pamphlet giving full particulars, testimonials and price sent in plain sealed envelope. Correspondence strictly confidential. Address: THE SAMARITA REMEDY CO., Chamberlain Jordan St., Toronto, Canada.

For Easter Souvenir Spoons. As artistically designed Souvenir Spoons as are shown for Easter this year, would be difficult indeed to find—except at Diamond Hall.

AUTO DEALERS WON'T SAY HOW BUSINESS WAS AT GRANITE SHOW

Some Reports Have It That Sales Were Most Extensive—No Statements Will Be Issued Until Show is Over.

Several prominent parties, figuring in an official or interested capacity at the Granite Rink Auto Show, made their appearance there last night wearing felt and cloth caps. Hitherto they had worn becoming silks, but apart from this diminution of lustre, the occasion last evening was in no way different from the preceding sessions.

Now that the show is nearing the last lap, the question asked is: "How hath it profited?" To the casual enquirer this matter is a closed secret. The automobile traders are banded together in friendly rivalry to conduct a show for the common good, and one of the stipulations of the general compact evidently governs the amount of hot air that may be vented in a boastful spirit.

GAYNOR-GREENE TRIAL.

Savannah, Ga., April 6.—Judge Spear today overruled a motion made by the defence to direct a verdict of not guilty in the Greene and Gaynor case.

When Mr. T. A. Russell, general manager of the Canada Cycle and Motor Co., was told the Ford man had said that forty Ford cars had been sold.

"Well," he said, "if you want to say something in a general way I may assure you that the show has been a success, and there will be another one in the same place, probably next year." "How many cars has your company sold? Have you sold thirteen?" It is said to have been thirteen cars.

NOT SO SERIOUS. Semi-Official Russian Statement as to Far East.

St. Petersburg, April 6.—The position of affairs in the far east, according to a semi-official statement published to-day, is far less menacing than has been painted by certain papers. The Japanese evacuation of southern Manchuria is proceeding actively and in good faith, but the statement avoids reference to Chinese relations or the possibility of trouble in this quarter.

WILL HAVE LIBRARY. Burlington, April 6.—The Village of Burlington carried a by-law to-day with only two opposition votes in favor of purchasing a site for a public library.

BACK TO BICYCLE Thousands of old time riders are coming back to their old love the bicycle. The lull in wheeling is being followed by a keen appreciation of the bicycle as an economical vehicle of practical utility and health. Canon Sanson's Daughter Dies. Orillia, April 6.—After a short illness, Mrs. Green, wife of Rev. Canon Greene, died last night. Mrs. Greene was a daughter of the late Canon Sanson, Toronto.

FIELDS TO CLEAR HIMSELF TRUSTEES GIVEN WARNING

Declares He Never Gave a Bribe and "House of Mirth" Stories Are Gross Libels.

New York, April 6.—Charges similar to those recently made against the directors of the New York Life Insurance Co. by Andrew Hamilton were made today against the trustees of the Mutual Life Insurance Co. by Andrew C. Fields. The former legislative agent of the Mutual now is in seclusion at his home at Dobbs Ferry. He is said to be seriously ill, and has denied himself to all callers. The charges against the Mutual trustees were made in a formal statement which Fields issued thru his physician, Dr. C. D. Judson.

"In the first place," he says, "I never gave a bribe to any one in the whole course of my career. I have come completely prepared to vindicate myself. In doing so I shall tell the truth, which I shall speak, fall upon whom it may. All of these trustees of the Mutual, who are now pointing the finger of scorn at me, were aware of all I was doing in connection with legislative work for the Mutual, and when they say that they were ignorant of the character of my work they are saying what is untrue. I am here to challenge them in every such statement they may make or may have made.

To Vindicate Himself.
"I am not an old man like Mr. Richard A. McCurdy, whose age is so great that he could not defend himself. While my bodily strength is not what it might be, I am mentally as strong as ever I was, and I am determined to vindicate myself in the eyes of the public. I have to laugh when I read the statements of the trustees to the effect that a portion of the records of the supply department of the Mutual is missing or was destroyed. I will say now that it is absurd to say that a single book or record in the supply department—of which I was head—has been taken from the company's office. The story simply amuses me—nothing more. These trustees will have all the records of the supply department when they want them. They are not missing."

Can Give Details.
"As to the payments by Robert Oilphant, chairman of the expenditure committee, of amounts ranging from \$25,000 upward and aggregating in all about \$500,000, paid to me, I will say that I can furnish a complete and complete explanation of exactly what was done with this money and can show that every payment was fully authorized. I saved for the Mutual by my work at Albany hundreds of thousands of dollars, and in doing so never committed a dishonest act. I do not propose that the men associated with me in the Mutual shall destroy my reputation to further their own private ends."

A Gross Libel.
"The story about the so-called house of mirth in Albany was a gross libel. Nothing ever took place in the house, which was simply my Albany residence, of which I or any other god-fearing man need be ashamed. I am prepared to tell the truth, no matter whom it may hurt, be his position high or low."
Dr. Judson said Mr. Fields is suffering from an incurable disease, but by careful treatment his life may be prolonged for years.

FEWER LICENSES IN LINCOLN.
St. Catharines, April 6.—(Special).—During the past license year there were twenty-three licensed taverns and one shop in the County of Lincoln, but owing to local opinion having come into force in several municipalities, there are forthcoming applications for but sixteen taverns and one shop. Port Dalhousie at present has five licenses, and there is an application for an eighth one, while the council has requested the commission to reduce the number already in existence.
Local opinion has cancelled two licenses in Grimsby, two in Smithville and two in Beamsville.

LIMIT OF HUMAN AGONY
Is often reached with corns. Foolish, because Putnam's Corn Extractor cures in 24 hours. Don't put off—get "Putnam's" today—fifty years in use—patented and sure.

No Reciprocity for Us.
London, April 6.—(Special).—Thomas Shaughnessy, president of the C.P.R., at an interview today declared that Canada does not want reciprocity.

Too Many Wanted Service.
Kingston, April 6.—The authorities say that the electric service given to the Church of the Good Thief from the power house at Rockwood Asylum, was cut off because the Methodists and Anglicans of Portsmouth were seeking similar service, and the asylum plant could not supply all the churches.

HE TOOK HIS WIFE'S ADVICE

Dodd's Dyspepsia Tablets Cured the Stomach Trouble That Confined Henry A. Coles to His Bed.

One of the unpleasant features of Indigestion and Dyspepsia is that it always keeps getting worse. Take the case of Henry A. Coles, of St. Mary's River, Guysboro Co., N.S. He says:
"I had Stomach Trouble for about five years more or less, and at last I was taken to my bed and the doctor called in. He did me no good. I was suffering a great deal and did not know what to do."

Everyone must admit Mr. Coles was in a bad way. But that's what Indigestion leads to if you neglect it. But if Mr. Coles did not know what to do, his wife did. She said, "Try Dodd's Dyspepsia Tablets." Like a wise man he took his wife's advice, and the result he says:
"I took seven boxes, and I have not felt any of the trouble since. I heartily recommend Dodd's Dyspepsia Tablets to any sufferer from Stomach Trouble. They cured me."

SMUGGLING OLD CLOTHES.

Detroiters Wear Back New Togs From Windsor. It Is Alleged.

Detroit, April 6.—In the arrest at the Windsor Ferry dock here of a Windsor colored man named Pierce, charged with smuggling, the United States customs officials believe they have unearthed a big smuggling game being carried on between Windsor and Detroit.
Pierce had a lot of men's and women's clothing wrapped around his body, hidden by a large raincoat. The clothing had all been worn. The customs officers declare that Detroiters have been purchasing new clothing in Windsor, putting it on there, and that the dealers agreed to deliver their old clothing to them in Detroit without cost.

Pierce gave the name of a prominent Windsor clothing dealer, by whom he claimed to have been hired to take the clothing to a Detroit store, but the Windsor tailor denies all knowledge of Pierce or of his dealings.
It is intimated that a warrant is out for a more important factor in the game than Pierce.

BLOOD WILL TELL.

Rich, Pure Blood Will Drive Out the Most Obsolete Case of Rheumatism.

Growing pains, aching joints, stiffened muscles, tender, swollen limbs—that's rheumatism—a blood disease that causes ceaseless agony and cripples thousands. It is held in the blood that causes rheumatism. Liniments may ease the pain temporarily—but they never cure. To cure rheumatism you must remove the acid in the impure blood. Dr. Williams' Pink Pills positively cure rheumatism, acute or chronic. They act directly on the blood, driving the acid out. They make new, warm, pure blood, and send it throbbing through the heart and lungs and limbs. This new blood banishes every ache and pain—brings good health and full activity.
Dr. T. H. Smith, Caladonia, Ont., says: "For a number of years I was badly troubled with rheumatism, and was so crippled up I could scarcely do any work. I tried quite a number of medicines, but they did not help me. Then I saw Dr. Williams' Pink Pills advertised for this trouble, and I got a number of boxes. Before the third box was used I found myself improving. I continued to use the pills throughout the winter, and they have completely cured me. I got so that I could work on the coldest day without a coat and not feel a twinge of the trouble. I have told quite a few of my neighbors about the pills and they are a popular medicine here."
It is because Dr. Williams' Pink Pills make new, pure, warm blood that they drive such great power to cure disease. They positively cure rheumatism, sciatica, neuralgia, St. Vitus dance, partial paralysis, kidney and liver troubles, anaemia and the ailments which women alone suffer from. The purchaser must be careful to see that the full name, "Dr. Williams' Pink Pills for Pale People," is printed on the wrapper around each box. Sold by all medicine dealers or sent by mail at 50c a box, or six boxes for \$2.50, by writing the Dr. Williams Medicine Company, Brockville, Ont.

WELLAND CANAL OPENING.

Navigation to Begin April 10—Repairs Being Made.

St. Catharines, April 6.—(Special).—The Welland Canal will reopen for navigation on Easter Monday, April 16, official notice to that effect having been forwarded by J. L. Weller, the superintendent engineer, to all the Canadian steamship transportation companies.
At present the water is out of the canal, and some extensive repairs are being made to the main channel, to the wasteways and to the railways, and also the various manufacturing plants situated along the canal and dependent upon it for power.

IS A CONSUL NOW.

The new consul for Switzerland is R. Burger, of the Yonge-street confectioneer, who received the official notification of his appointment from the Swiss government yesterday.

Another Investigation.

Washington, D.C., April 6.—The first hearing of the interstate commerce commission in its coal and oil investigation will be held in Philadelphia on April 10.

LAST DAY AT GRANITE RINK.

Toronto's First Auto Show Will Close in a Blaze of Glory.

The Toronto Club Automobile Show closes today.
Thousands of people have already visited the splendid exhibition, and it is expected that the largest crowd of the week will attend Granite Rink this afternoon and evening.

Band concerts will be given, and those who have not seen the show will get a chance today.

Great credit is due the management for the interesting week's program. Toronto's first auto show has been successful beyond all expectation.

The "Chapman."

The Chapman Double Ball Bearing Company have an extensive exhibit of their bearings as applied to automobiles, carriages, wagons and shafting. Their shaft bearings have now been on the Canadian market about two years, and have been adopted by the leading manufacturers throughout the country.

This bearing is particularly well adapted to all classes of vehicle work. It is clean and noiseless, and the fact that no lubrication is required will appeal strongly to all who have had anything to do with the oiling of a carriage. The draft on the horse is reduced by from 50 per cent. to 75 per cent., and a hot-box is an impossibility.

Occupying a prominent position on the wall is the diploma which was presented to the inventor of this bearing, Mr. C. H. Chapman, by the Superior and International Jury of Awards at the St. Louis Exposition, as one of six of the world's greatest inventions.

The Last Washington Excursion This Season.

Via Lehigh Valley Railroad Friday, April 13. Tickets only \$10 for the round trip from Suspension Bridge. Stop-over allowed at Baltimore and Philadelphia on return trip. Tickets good ten days. Slide trip to Atlantic City \$1.75. Just the time of year to visit Washington and Atlantic City. Call at L.V.R. office, 10 East King-street, for rates, guides and particulars. Phone Main 1888.

HAVEN'T SETTLED IT YET.

Squabble Over Kakabeka Water-power Still Goes On.

The struggle over the respective right to use Kakabeka Falls water-power was resumed before the private bill committee of the legislature yesterday. E. B. Ryckman spoke in opposition to the bill of the Kakabeka Falls Land & Electric Co., Limited, claiming the company had never really owned the water-power. The matter will come up again on Tuesday.

Without Colds No Lung Trouble

Prevent and Cure the Colds and There Will Be No Consumption or Pneumonia.

Did you ever hear of a case of consumption which did not begin with a cold and cough?
A person may be predisposed by heredity; he may be in unsanitary surroundings; he may breathe impure air, but the beginning is always a neglected cold.
In thousands of Canadian homes Dr. Chase's Syrup of Linseed and Turpentine is kept at hand as a protection against diseases of the lungs. It has long since proven its right to first place as a cure for croup, bronchitis, whooping cough, asthmas, throat irritations, coughs and colds.
People who realize the danger which lurks in a neglected cold have learned to trust to the extraordinary curative powers of this great medicine.
Dr. Chase's Syrup of Linseed and Turpentine, 25 cents a bottle, family size 60 cents, at all dealers, or Edman-son, Bates & Co., Toronto.

THE STEELE, BRIGGS SEED CO., Limited
HAMILTON, ONT.

Plain Facts About STEELE, BRIGGS' SEEDS

"Government Standard" GRADING AND MILLING

All the care which long experience can suggest in selecting the best seed obtainable, together with the most modern and up-to-date machinery, is used to bring our seeds up to the highest possible standard of purity.

TESTING

To complete our equipment, we have added a Seed Laboratory, where all our seed is tested, as well as by the Department of Agriculture at Ottawa.

All our grades are prepared to comply with the Seed Control Act, and are shipped in sealed bags only.

LEADING MERCHANTS SELL OUR BRANDS

INTERNATIONAL AUTO SHOW

Biggest of Its Kind and Ahead of New York's.

For the first time in Canada, the International Automobile Show, under the auspices of the Canada Automobile & Motor Exhibition, will open on Monday at Mutual-street Rink. The biggest display of automobiles, electric carriages, motor cycles and marine engines ever shown outside of London and Paris will be seen.

Car-loads of automobiles and accessories have been arriving all week and Toronto people will have an opportunity to see an exhibition which has not yet been presented in New York City.

No American cars will be on exhibition, but the best samples of new ideas direct from English and French manufacturers.

NOW RESTS WITH PEOPLE.

Length of Municipal Term to Be So Decided.

It will be for the people of a municipality to decide whether or not to fix a term for municipal office of two years.

This was the outcome of consideration yesterday by the municipal committee of the legislature, the decision being in line with a bill presented by the Ontario Municipal Association and introduced by Mr. Carscallen of Hamilton.

Mr. Pender presented a bill for Kingston, asking a three-year term, one-third of the aldermen to be elected each year.

Mayor Coatsworth claimed that the present term was too short to allow reforms to be made. A longer term would mean less politics in elections.

By a close vote of 13 to 11, Mr. Carscallen's bill was reported. The Kingston bill stands over.

BUILDING 782 MILES.

Much Railway Mileage Under Way by Official Report.

Last year \$178,312 was spent on colonization roads in Ontario by the official statement of the provincial minister of public works. About ninety-eight new miles of road is being opened and 707 miles repaired.

The total outlay for public buildings and works, colonization and mining roads, and aids to railways was \$386,424 last year. Since 1868, \$24,669,905 has been spent in this way.

While not many miles of new railway were completed last year, much double-tracking was done. There are 782 miles under construction, and fourteen miles of electric railway, of which the present mileage is 573.74.

110 - Easter Washington Excursion - \$10.

Friday, April 13, via Lehigh Valley Railway, from Suspension Bridge. Tickets only \$10 round trip, good ten days; stop-over allowed at Baltimore and Philadelphia returning. Slide trip to Atlantic City, \$1.75. Last Washington excursion this season. For particulars call at L. V. R. city passenger office, 10 King-street East.

For Easter Brooches of Pearls

"In season and out of season" the Pearl has its pleasure-giving charm. But at Easter-tide its purity and beauty seem especially appropriate.

Pearl Brooches, in special designs, are among our choicest articles for Easter gift-making.

One consisting of two hearts surmounted by a royal crown—composed in all of about 50 pearls—sells for \$12.00.

See reference elsewhere in paper to Easter Spoons and Collarettes.

PIANO.

ON the files of this house are letters of famous singers of fifty years, who have, after personal investigation, voluntarily and freely expressed their distinctive preference for a Heintzman & Co. Piano. For an entire half-century this one house has given character and distinction to the name of "Heintzman," founders of the name "Heintzman."

"Excels any Piano I have ever used."—Albani.

PIANO SALON:
115-117 King Street West, TORONTO, CAN.

SILVER LEAF MINE.

An Example of the New Spirit in Conducting Mining Operations.

In view of the increased excitement and speculation in mining shares, and the regrettable lack of development operations which so often accompanies such a "boom," it is refreshing to see a tendency towards business-like mining in the Cobalt field.

In spite of the warning note from the Ontario government, dozens of companies have been formed whose principal activity consists in selling stock, but here and there are notable exceptions which show that the new idea of business-like mining is gaining in the Ontario province.

The Silver Leaf Mine, operated by Douglas, Lacey & Co., an American firm, is a good example of this new spirit in mining operations. Though the claim was taken up only two months ago, and all the stock necessary to cover development expenses has not been sold as yet, everything possible is being done toward active and systematic development. Machinery has been ordered and delivered ready for installation, as soon as the development work shows the best location for the main shaft.

The Silver Leaf Mine, operated by Douglas, Lacey & Co., an American firm, is a good example of this new spirit in mining operations. Though the claim was taken up only two months ago, and all the stock necessary to cover development expenses has not been sold as yet, everything possible is being done toward active and systematic development. Machinery has been ordered and delivered ready for installation, as soon as the development work shows the best location for the main shaft.

Not only so, but every promising lead and stringer is being actively explored by a large gang of men, and night and day shifts are at work consecutively from Monday morning to Saturday night carrying on the work in an orderly and systematic manner. The men are well housed and well fed, and the best sanitary conditions maintained. Everything presents a thrifty and bustling appearance, as if the operators "mean business."

Under the old order of things, not a stroke would be made on the Silver Leaf mine, or any other, until the promoters were assured, but this seems to be a new spirit in mining promotion which "rings true." The old attitude may be exemplified by a remark once made by a mining promoter, who was asked why he was selling promoters' shares instead of treasury stock for development purposes, and his reply was: "I was so good that the development shares will sell themselves," was the easy reply.

The Silver Leaf is one of the older claims in the district, and some of the best specimens found have been taken from the surface workings. There are two main shafts at the present time.

Does Your FOOD Digest Well?

When the food is imperfectly digested the full benefit is not derived from it by the body and the purpose of eating is defeated; no matter how good the food or how carefully adapted to the wants of the body it may be.

Thus the dyspeptic often becomes thin, weak and debilitated, energy is lacking, brightness, snap and vim are lost, and in their place come dullness, loss of appetite, depression and languor. It takes no great knowledge to know when one has indigestion, some of the following symptoms generally exist, viz: constipation, sour stomach, variable appetite, headache, heartburn, gas in the stomach, etc.

The great point is to cure it, to get back bounding health and vigor.

BURDOCK BLOOD BITTERS

It constantly effecting cures of dyspepsia because it acts in a natural yet effective way upon all the organs involved in the process of digestion, removing all clogging impurities and making easy the work of digestion and assimilation.

Mr. R. G. Harvey, Ameliaburg, Ont., writes: "I have been troubled with dyspepsia for several years and after using three bottles of Burdock Blood Bitters I was completely cured. I cannot praise B.B.B. enough for what it has done for me. I have not had a sign of dyspepsia since."

Do not accept a substitute for B.B.B. There is nothing "just as good."

SHAREHOLDERS MUST PROVE THEY ARE NOT TRUSTEES

Injunction Issued by York Loan Liquidators Against Toronto Life Shareholders.

The holdings of the Hudson girls and numerous other ladies, Joseph Phillips and a couple of the male shareholders of the Toronto Life Company are tied up till Easter Monday by an injunction granted yesterday by Justice Mabey, to the National Trust Company, liquidators of the York County Loan and Savings Company.

Yesterday the National Trust Company issued a writ against the following shareholders in the Toronto Life Insurance Company:

Lillie Daw, 76 shares.
Agnes Coughlin, 50 shares.
Mrs. M. J. Hassard, 100 shares.
Lillian Hudson, 181 shares.
Georgina Hudson, 141 shares.
Annie Lee, 50 shares.
Fred Lee, 50 shares.
Joan McCann, 530 shares.
Joseph Phillips, 125 shares.
Annie Robb, 125 shares.
Emma Souter, 255 shares.
Maggie Ventress, 50 shares.
Ella Watnough, 50 shares.
E. J. Burt, 21 shares.

By the writ the liquidators asked for a declaration that the shares of stock of the Toronto Life on the names of the defendants are held by the defendants as trustees for the plaintiffs, and that the plaintiffs are the rightful owners. Also for an order that the defendants do transfer and assign the shares to the plaintiff and for an injunction restraining the defendants from transferring, assigning, permitting assignment, or in any way dealing with the shares until the action is finally disposed of.

Acting for the liquidators, C. D. Scott, solicitor, obtained from Mr. Justice Mabey, at Osgoode Hall, an interim injunction against the defendants, returnable Monday, 16th inst.

Mr. White, manager of the National Trust, stated with regard to the Toronto Life and the List Piano Company, the liquidators had already taken such steps as to protect the interests of the York County Loan shareholders and are satisfied with the present position.

"What steps have you taken?" The World asked.

"I can't very well tell you," replied Mr. White.

Speaking of Crown Attorney Curry's investigation, Mr. White said it had been of the greatest possible advantage to the shareholders of the York County Loan Company. By the dragnet of the York County Loan shareholders and the subsidiary companies had been exposed, and light thrown upon what could not possibly be known from books of the York County Loan.

CHARGED FOR CAR TICKETS.

Theodore Prince, a plumber, sued in the division court yesterday before Judge Morson, on a bill of \$23.29 for plumbing done in the house of Sydney J. Stocks, who claimed that the bill should be only \$5.87.

"How much did you charge this man?" enquired the judge.

"Sixty-five cents an hour."

"If he hadn't things gone up? Did you charge for car tickets?"

"Yes, I charged for car tickets, and the job."

As defendant did not appear to testify judgment was awarded plaintiff.

READY ON THE SHELF.

That's where you find "Nerviline" in every well-regulated household.

So pleasant to take that even little children don't object to its use; so certain to cure coughs, sudden colds and tight chest that thousands of bottles are used every day.

Folklore says that it does prevent illness; it does ease pain and inflammation, and by being handy will save worry and keep down the doctor bills.

Large bottles sold for a quarter at all dealers.

SAILORS' HOLIDAY.

(Canadian Associated Press Cable.) London, April 6.—The Newfoundland officers and sailors arrived at London Bridge at noon, and subsequently drove to the customs office, where in the quadrangle they formed four lines, Lord Tweedmouth, on behalf of the admiralty, expressed regret that their stay was so short. The visitors were entertained at luncheon at the Piccadilly Restaurant, and left at midnight for Liverpool, sailing for Newfoundland to-morrow.

HE FEELS AS YOUNG AS EVER

Mr. Chester Loomis Took Dodd's Kidney Pills.

And From a Used-Up Man He Became as Smart as a Boy.

Orlando, Ont., April 6.—(Special.)—Mr. Chester Loomis, an old and respected farmer living in this section, is spreading broadcast the good news that Dodd's Kidney Pills are a sure cure for the Lame Back and Kidney Disease among old people.

Mr. Loomis says:

"I am 76 years of age and smart and active as a boy, and I give Dodd's Kidney Pills all the credit for it."

"Before I started to use Dodd's Kidney Pills I was so used up I could hardly ride in a buggy, and I could do no work of any kind. Everybody thought I would not live long. Dodd's Kidney Pills are a wonderful remedy."

The kidneys of the young may be wrong, but the kidneys of the old must be wrong. Dodd's Kidney Pills make all wrong kidneys right. That is why they are the old folks' greatest friend."

the power into Toronto cheaper than they could do by Niagara Falls power and so beat all those companies out.

The way the company was formed was the subject of investigation, Mr. and Mrs. Barrett were paid \$351 in cash for their property in Erinvale and in addition were to be given \$295,000 in paid-up capital stock of the company. The whole stock amounted to \$500,000, divided into 4000 shares.

A Still-Born Co.

"How much did the Southern Light and Power Company get from the York Loan Company?" asked Mr. Curry.

"About \$217,000 was paid to Mr. Hicks, the treasurer."

"What was he before?"

"An employee of the York Loan Company."

"What security had the York Loan?"

"We gave a mortgage for \$200,000 in July, 1904. In August this mortgage was retired, and bonds issued for \$300,000, of which \$200,000 worth were assigned to the York Loan."

"What have you got now to show for this \$217,000?"

"Our land, plant, etc."

"Yes, a still-born child," remarked the crown attorney.

"Did you ever get more money besides that?"

"I tried to get my salary for over six months."

"I see now why you raised the president's salary."

"We were thinking of one time of running an electric railway from Collingwood to Port Credit."

"I notice a carload of poles arriving every day now, then," said Mr. Curry looking up from the books. "Did you get a rakeoff on all the poles?"

"Certainly."

"How much would it amount to altogether?"

"Perhaps \$400."

"It looks more like \$1000 from the way I find things."

"But you were acting as a trustee, protested Magistrate Denison. "You were supposed to buy them at the lowest price."

"The company paid what any other company would under the circumstances," said Mr. Curry.

"You had the underground passage," remarked Mr. Curry smiling.

A Loan of \$6000.

E. J. Burt, vice-president of the York Loan Co., was again on the stand to give evidence on the copy of his bank book. He was told also to get a bank book of his wife's.

"About this loan of \$6000 you lent to some one," asked Mr. Curry. "Where did you keep it?"

"In the bank."

"Are you sure Mr. Phillips did not lend you it?"

"Quite. It was paid thru my brother for stock in a hardware business."

"What was the purchase price of the stock?"

"\$6000."

"Who purchased the building?"

"Mrs. Foster, a relative of my wife."

Mr. Burt, however, acknowledged that the building belonged to his wife.

The \$17,000 he earned from the Toronto Life Co. was not all he earned. He had earned also money from the York County Loan, but never got commissions on sales from outsiders to the York County Loan.

"Do you remember being mulcted in damages for scaring someone's horses?"

"Yes."

"Who paid those damages?"

"The York County Loan paid them."

"How did they do that?"

"I don't remember."

"You were there at the trial and ought to know," said Mr. Curry. "How much was the amount paid?"

"I couldn't say."

"Burt was unable to say if a resolution of the board of directors ever authorized the payment of these damages, but the payment was not sanctioned by the shareholders. Director Sanderson was also mulcted in damages and these were also paid by the York Loan Co."

Georgina Hudson, who was called

next, was asked what she had to do with Phillips' private bank account.

"I made some deposits," she said.

"And the others were made by whom?"

"By my sister, I suppose."

"Which deposit slips are yours?" asked Mr. Curry handing out a bunch.

"I can't always tell my sister's handwriting from mine," remarked Miss Hudson after looking over them for some moments.

"We write very much the same."

"How is she?"

"In bed."

"When will she be able to be here?"

"Perhaps in a week."

"Do you know where Miss Robb is?"

"No, I haven't seen her for a week."

"I haven't seen her."

"Or Mrs. Hassard?"

"I saw her on Monday."

"Where is Mr. Stacey?"

"He is in the city."

"Where did you see him?"

"At the corner of Wright-avenue and Queen."

A Director's Knowledge.

William Paine, one of the directors of the York Loan, said that he was elected in April, 1905, to fill the place left vacant by the resignation of A. T. Hamilton. At the same time he was made a director of the Toronto Life Insurance Co. For the former he was paid \$15 a week and the same for the Toronto Life.

Previous to that time he was employed as an insurance agent at \$15 a week for the York Loan. Then he was raised to an inspectorship at \$20 a week. He kept track of the agents in other Ontario. "I occasionally wrote business for terminating stock," he said.

"The agents of the York Loan were paid \$4 for writing up a share, paying 25 cents a week. Then if they wrote four of those shares they were given \$3 extra."

"Did most of them get the bonus?"

"Yes."

The same agent admitted the witness asked for the Toronto Life, the National Monthly and the List Piano Co. Returns were often made to the York Loan office on York Loan Co. bills.

"What proportion of the people that went in withdrew their money?"

"I can't say. A number of them went in again."

"And the agents collected their commissions?"

"Yes."

"About this loan to the Southern Power Co. in July, did you know that company was owned by Mr. Phillips?"

"No."

"Did you know it was the York Loan's money that started the Toronto Life?"

"No."

"But you knew that the president gave instructions to the employees of the York Loan to take stock in the Toronto Life?"

"Yes."

"Did you know anything about the setting apart of \$500,000 for the purposes of the List Piano?"

"No, that was before my time."

Don't Snuff!

NIAGARA DISTRICT ALONE ENTITLED TO FALLS POWER

That's Attitude Which Deputation Will Assume—"Their Heritage" the Cry.

Niagara Falls, April 6.—A public meeting was held this evening in the city hall...

Mr. Broder (Dundas) said that he had thoroughly examined the wreck. It was a miracle the tower had not fallen before now.

Mr. Clements (Kent) stated that he also had visited the tower with Mr. Broder. Apparently no cement had been used, but only sand.

Mr. Wright (Muskoka) regretted to say that builders were growing dishonest. Dr. Sproule (E. Grey) said a sudden catastrophe was sometimes the only way to cure an evil.

Mr. Bennett (E. Simcoe) made a violent attack upon the reign of graft now prevalent at Ottawa. Mr. Fisher, the minister of agriculture, he said, was owner of The Montreal Herald.

Mr. Bennett claimed Mr. Connée (Rainy River) was interested in dredging contracts with the government. In fact, the evening session was quite orderly, with largely devoid of personalities between Messrs. Bennett and Connée.

Mr. Bureau (Three Rivers) deprecated the extremely violent language used late on the floor of the house. He thought it very improper to say that many honorable members ought to be in the penitentiary.

A resolution was carried to-day that the house adjourn on Wednesday, April 11, to Tuesday, April 17.

Leave was granted Mr. Fitzpatrick to introduce a bill to amend the indemnity bill of last session. It provides for the case of a member who is taken ill during the session.

LOTS OF FARM CRITICISM SUGGESTED TO METHODS

Collapse of Laurier Tower in Nature of an "Expose" on Contractors' Ways.

Ottawa, April 6.—(Special).—The opposition was in fine fettle to-day. The fall of the Laurier tower furnished a splendid opportunity.

Mr. Broder (Dundas) said that he had thoroughly examined the wreck. It was a miracle the tower had not fallen before now.

Mr. Wright (Muskoka) regretted to say that builders were growing dishonest. Dr. Sproule (E. Grey) said a sudden catastrophe was sometimes the only way to cure an evil.

Mr. Bennett (E. Simcoe) made a violent attack upon the reign of graft now prevalent at Ottawa. Mr. Fisher, the minister of agriculture, he said, was owner of The Montreal Herald.

Mr. Bennett claimed Mr. Connée (Rainy River) was interested in dredging contracts with the government. In fact, the evening session was quite orderly, with largely devoid of personalities between Messrs. Bennett and Connée.

Mr. Bureau (Three Rivers) deprecated the extremely violent language used late on the floor of the house. He thought it very improper to say that many honorable members ought to be in the penitentiary.

A resolution was carried to-day that the house adjourn on Wednesday, April 11, to Tuesday, April 17.

Leave was granted Mr. Fitzpatrick to introduce a bill to amend the indemnity bill of last session. It provides for the case of a member who is taken ill during the session.

Edmonton, Alta., April 6.—Prince Arthur and his party received a hearty welcome to Alberta's capital to-day.

A RECIPROCAL RETURN SUGGESTED TO PILGRIMS

Earl Grey's Presentation Humorously Referred to at British Society Reunion.

London, April 6.—The Pilgrims' Society to-night gave a banquet at the Savoy to Lord Curzon of Kedleston, in honor of the conclusion of his services as Viceroy of India.

Lord Roberts proposed the toast to the guests and Lord Amherst of Avebury, which was enthusiastically received.

In his speech, Mr. Justice Darling said he was glad to learn that the British people were planning to return to the United States a picture of Benjamin Franklin, which was captured during the war of independence.

Regina, Sask., April 6.—The opposition there a boisterous one. The government camp this afternoon when they took the unusual course of moving what is to all intents and purposes an amendment to a bill in reply to the speech from the throne.

The offer of the soft coal operators' arbitration, except where the term bituminous is used, is not a concession, with the one President Mitchell presented to the hard coal operators here yesterday.

New York, April 6.—Interest in the labor troubles in the anthracite regions was overshadowed to-day by the proposition that came out of the west for the arbitration of differences existing between the coal operators, who have not yet agreed to the 1905 scale, and their miners.

The offer of the soft coal operators' arbitration, except where the term bituminous is used, is not a concession, with the one President Mitchell presented to the hard coal operators here yesterday.

CATTLE EMBARGO DEBATE

Continued From Page 1. had no desire to exercise influence. He would leave this an open question.

Explains. The fate of the cattle embargo will be the subject of a general discussion this morning. The Chronicle says the conclusion is disappointment, and says the debate was killed by too much chatter.

The debate was a great argument for shorter speeches. So intense was the feeling that the speaker thought with excited members, suggested a full debate on some vital political issue.

The Times, while strongly opposing the bill on the ground that the risk of disease is too great, severely censures the course of the premier and declares that the act is a piece of protectionist legislation for one trade and incidentally a slap in the face for one of the great colonies.

LOCAL TOPICS. One of the largest freighters in service on the upper lakes will be put in commission by the Canadian Lake and Ocean Navigation Company. The boat is named "Scott-Hero," and will be into service early this summer.

HIGHWAYS FOR THE PEOPLE MUST REMAIN SO FOREVER

Premier Whitney Strongly Declares Against Perpetual Franchises to Railways.

A strong, clear-cut announcement of the hostility of the Ontario government towards allowing municipalities to give electric or other railways perpetual running right over a public highway, was made by Premier Whitney in the legislature yesterday while the government railway bill was being passed through committee.

"The highways are the property of the people, and must remain so forever. When it is considered that municipal councils may be elected one year and turned out of office the next, we should go slow in giving them power to make agreements for all time to come. The government will not take the responsibility under any circumstances of giving the power to grant any perpetual franchises."

This was the statement made by Mr. Whitney in reference to the clause of the bill fixing twenty-five years as the limit of a franchise.

The premier stated that there was no desire or intention to block the progress of electric railways, whose extension, it was recognized, was needed, but in his opinion the time had not come when public sentiment would approve a decision of the legislature that certain highways could be used forever. In some cases it was absolutely necessary that the building of railways should go on, and he believed every reasonable liberty should be given; "but," he added, "I don't see the way clear to consenting to give to any corporation of any description, or a railway, whether steam or electric, the right to use forever the highways of the province."

No Friends in House. G. P. Graham spoke for the opposition in concurrence with the views of the premier. He didn't believe any member of the house would care to pass legislation giving a perpetual franchise. It had been truly said that it became the duty of a legislature to protect municipalities against themselves. The question was how far they might go without retarding railway enterprise.

Future Must Tell. The premier, in commenting on the fact that the Sunday regulations regarding electrical railways were unchanged in the act, made the following statement: "It is impossible to foreshadow what the situation may be in four years from today. In case the future should prove that electrical railways will be doing the same amount of work, and extend-

for Easter Collarettes

Among the attractive—and certainly not expensive—adornments for this Easter are Diamond Hall's new Collarettes.

These consist of Amethysts and Aquamarines, set in Sterling Silver—antique or French grey finish—\$6.50 to \$20.00.

One, with Aquamarines at \$9.50, is notable for beauty of design.

Ryrie Bros Limited
134-136 Yonge St.

ENGLISH FIRMS ANXIOUS.

Lord Strathcona Cables Government re Cobalt Mines.

The provincial treasurer yesterday received the following telegram from Lord Strathcona: "It is reported here that it is the intention of your government to let Cobalt mines, by prospectors. Am requested by English firms to request full particulars. Kindly cable." An answer will be sent by cable.

REGISTRATION NO MORE.

Bill to Repeal Act. Introduced by Premier Whitney.

In the legislature yesterday the premier introduced a bill to repeal the Manitoba Suffrage Registration Act. This will do away with the necessity of registering Manitoba voters in cities and county towns.

"It is an inconvenience and a nuisance," said the premier.

CARRIAGE AND SADDLE HORSES.

Great Special Sale to Be Held at The Repository on Wednesday.

There certainly never was a time in the history of the city when the horse interests of Canada were so well centered in Toronto as they are now. Every sale brings people from all over the country to attend it and present prices are in excess of anything that has been known for years past. One of the events of the season will be the great extra sale of carriage, saddle and roadster horses which is to be held at The Repository on Simcoe-street on Wednesday next. Entries already to hand number something over a hundred, the majority of exceptional calibre. At this season of the year good carriage and saddle horses are somewhat hard to get, but Messrs. Burns and Sheppard have had buyers out for some time past beyond the ordinary limits with the result that they have picked up some of more than ordinary value, and that having been educated are now admirably fit, either for carriage or saddle purposes. In addition to these a number of gentlemen who are giving up riding or driving have entered some superior animals. So that altogether the sale promises to be in the higher class of saddle and carriage horses of an exceptional character. In roadster it bids fair also to be very strong. Among the extra speedy horses to be disposed of and one of the best and speediest to be offered for sale is the great Looking Glass, the queen of matinee and ice-racers.

KAY'S FINE FURNITURE

Pedestal Dining Tables.

Notable among our assortment of Dining Tables is a splendid line in mahogany with pedestal bases. The majority of them are reproductions of old Colonial designs, and if the originals equalled these modern examples in workmanship and finish and in beauty of wood they were very fine tables, indeed.

The above cut will serve to illustrate features common to nearly all—a heavy centre pillar resting on a broad base supports a square or circular top, measuring from 54 to 60 inches across, and which can be extended by leaves to any length up to 10 or 12 feet.

Our stock just now embraces twelve different designs at prices ranging from \$76 to \$150.00.

We shall be pleased to forward cuts or blue prints illustrating this line to out-of-town residents. Orders by mail will receive our most careful attention.

JOHN KAY, SON & CO., LIMITED,
36 AND 38 KING STREET WEST.

60 DAYS FOR BIGAMY.

Scotchman Was Recommended to Mercy by Both Wives.

Alex. Cockburn was yesterday given 60 days for bigamy. While coming from the old country last August he made the acquaintance of Alice Jeffrey, aged 25, and married her in October. The arrival from Scotland of his first wife with five children placed him in the hands of the police. Both women asked that Cockburn be liberated and when sentence was passed the wronged woman fainted in the witness box.

An Expropriation Award.

Judgment was yesterday handed out by Judge Mabey in the appeal of the Canada Northern Railway from the award of arbitrators in the expropriation of land at Port Arthur belonging to Rutland & Diefenbach.

The arbitrators set a price of \$4500 on lots A and B, allowing \$4000 to the owners for improvements, which consist of rails, ties, water tank, turn table and building.

DR. WALLACE MEMORIAL FUND.

The treasurer, Dr. J. F. W. Ross, 481 Sherbourne-street, reports the following subscriptions: Previously acknowledged \$8963, Hon. G. A. Cox \$50, Major Coatsworth \$25, E. R. Wood \$25, Dr. D. C. Meyers \$25, Regan & McKimley \$25, E. G. Gooderham \$25, H. S. Mars \$10, Rev. J. Walsh \$10, Fred Beach \$10, Joseph Wright \$10, A. Chaffer \$5, A. Friend \$5, A. Friend, Grimsby, \$5, Gregory & Gooderham, \$5; Mrs. Lewis Lukes, \$5; Michael Malone \$5, Fedley's Pharmacy \$5, A. Friend, L. F. \$5; Jas. O'Brien \$2, A. Silverthorn \$2, W. C. Lee \$1.50, T. F. A. \$1, C. J. Regan \$1, R. J. Longhead \$1, J. W. Ross \$1, J. F. Davis \$1; total \$9250.50.

Canadian Institute.

The members of the Canadian Institute will hold their annual public meeting at the library, 198 Collingwood-street, this evening at eight o'clock. Professor I. Galbraith is expected to read a paper entitled "The Microscopic Structure of Iron and Steel," with lantern illustrations.

DO YOU LACK STRENGTH?

CURED.
NERVOUS AND RUN DOWN.
TORONTO, ONT.
Dr. McLaughlin: Dear Sir,—I have used one of your Belts at intervals during the past year, and can testify to its wonderful stimulating properties for persons whose nervous system is debilitated or run down in any way. Yours truly,
SAMUEL JACOBS, 241 Gladstone avenue.

CURED.
GALT, Ont.
Dr. McLaughlin: Dear Sir,—I received your Belt, and am well pleased with it. I wore it steadily for a month, and it has given me perfect satisfaction. All the aches and pains have disappeared, and I find it invaluable for any sprain, as we often spin our legs in jumping out cars. I remain, yours truly,
H. T. SIMPSON.

TO those whose vitality is exhausted and who find themselves, young in years, broken-down wrecks of what they ought to be, the Dr. McLaughlin Electric Belt is full of encouragement. It is the success of the age in elevating the condition of those suffering from a loss of vitality.

Are you a weak person? Are you nervous, fretful and gloomy? Is your sleep broken? Have you pains and aches in different parts of your body? Is your back weak and painful? Have you lost the vigor of youth? Are you rheumatic or gouty? Have you varicocoe? Does your back ache? These are the results of the waste of vital force. The gentle stream of electricity from

DR. McLAUGHLIN'S ELECTRIC BELT

going into the nerves and weak parts for hours every night soon replaces all energy and makes every organ perfect. It cures permanently in every case. It is worn while you sleep, and pours a steady stream of electricity into the nerve centre, saturating the weakened tissues and organs with its life. This is strength. From it come the vim, the energy, the fire of perfect physical and mental action. It removes health and happiness.

My Belt, with special Electric attachment, will restore your vigor. It will check all loss of vitality, and affects every organ of the body. It cures Nervous Debility, Varicocoe, Rheumatism, Lame Back, Lumbago, Sciatica, any case of Kidney Disease that has not gone as far as Bright's Disease, Stomach Trouble, Constipation. If you haven't confidence in electricity, let me treat you at my risk. I will give you the Belt on trial, without one cent of risk to yourself. Give me reasonable security and I will take your case, and you can

PAY WHEN CURED.
GET SOME LIFE INTO YOU.

What's the use of dragging your legs about like a wooden man? Feel like a man of spirit. Away with your pains and aches. Off with this wretched feeling as if you were seventy years old and had one foot in the grave. Ginger up! Feel young and full of life. That's the way a man ought to feel. Come and let me put life into your nerves. Let me give you a new supply of youthful energy. Let me make you feel like throwing your chest out, your head up, and saying to yourself, "I'M A MAN!" Let me give you back the old feeling of youthful fire, vim and courage. I can do it so that in two months you will wonder that you ever felt as slow and poky as you do.

REMARKABLE ORE VALUES SHOWN ON GOREGEY GROUP

Manhattan Nevada Gold Mines Co. Property Richest in Manhattan—Work on Stamp Mill to Be Rushed.

From The Manhattan News of March 3.

A large vein traverses the entire length of Goregey No. 1, passing out at the southwest corner into Goregey No. 5, and running the entire length of this property, passing out at the south. This vein is the strongest and most continuous of any of the veins so far discovered in Manhattan. There are six leases actively at work on the property. On lease No. 3 of Goregey No. 1, the southern end of the ore chute has already been encountered. The ore is a hard black quartz, through which numerous small seams are running, carrying strong iron sulphides and some tellurides. This ore pans very little to the eye, yet the assays disclose very high values, and it is of a No. 1 grade of ore. Several assays of rock that ran but little show assays of over \$200 and up to \$600 per ton in gold. This ore is of that character of rock which in all other camps has always gone down in the earth. The general strike of the vein is northerly and southerly. Applications for leases are coming in every day. Some very prominent and practical mining men have made application for leases on the property.

No camp has ever shown as many ledges of pay ore in the two and one-half months of work as have been shown in that time in the Manhattan district. The district is more or less covered with timber, and on the north hillsides the ground is covered with snow, so that prospecting at present is almost impossible. Yet within that time, and underneath the snow, nearly all the bodies of pay ore in the numerous leases about Manhattan have been discovered. We predict that within sixty days after the snow has entirely disappeared, an immense number of ore bodies known at present will have been discovered.

Taking the camp as a whole, the ore bodies are all extensive and of high value; in fact, no other field is known, not even the Cripple Creek district, where the ore bodies are so uniformly rich in this camp. See advertisement.

"Vigilant" Getting Ready.

Walked April 6.—The Canadian cruiser, Vigilant, which wintered here, has been taken to the plant of the Denair Shipbuilding Company for an overhaul. Particular attention will be paid to her machinery in order to give her the greatest speed possible.

Palm Sunday.
At the Church of St. Mary Magdalen to-morrow, Palm Sunday, will be observed as usual by a procession with palms and the story of the cross will be read. Rev. L. W. B. Broughall will be the preacher at 11 a.m.

Canadian Club.
The next luncheon of the Canadian Club will be addressed by Dr. George I. Fisher of New York on "The Relation of Physical Training to Modern Civilization," at McCleney's on Monday next.

School Attendance.
The school attendance figures for March showed 25,000 out of an attendance of 28,523.

Damp Spring Weather Ruinous to Health

Causes Weakness, Headaches and Peeling of the Face; the Cure is Simple.

That peculiar weakness so common in the spring, demoralizing to body and mind alike.

Stupid, absent-minded and dull—you feel the need of a stimulating tonic. To impart quickness and great vitality to the entire system nothing acts like Ferrozone.

In a short time it makes you feel fit and fine, creates a feeling of youth and strength that's surprising.

Ferrozone revives and braces the sickly because it nourishes and builds up the organs that are weak. As a spring tonic, appetizer and blood-strengthening it is unequalled.

A well-known resident of Utopia, Ont., Mr. E. H. Postle, writes: "From long experience I am convinced that everyone requires medicine in the spring. As a rule the blood is thin and impure and the whole system is congested with poisons that should be carried off. I use Ferrozone because it clears up the system, gives you an appetite and makes you sleep well. One winter I had serious palpitation of the heart, nervous headaches and an extreme tired feeling. Sleep was not restful and by spring I was in bad shape. I took six boxes of Ferrozone and was made the picture of health."

Ferrozone makes permanent cures. Absolutely safe because it is purely vegetable and contains no alcohol. Concentrated cure in tablet form—that's Ferrozone, 50c per box or six boxes for \$2.50. Dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Boy Kicked by Horse.
Cornwall, April 6.—(Special.)—Evan Williams, the 12-year-old son of Thos. Williams of Summerstown, while leading a horse to water, was kicked in the head. The skull was fractured so as to expose the brain.

Glider Placed at Last.
Guelph, April 6.—(Special.)—The glider for the Grand River bridge on the Guelph & Goderich Railway which played an important part in two recent accidents, was successfully placed in position this afternoon.

TALK OF AN 18 MILL RATE DRAFT SHOWS NINETEEN

Controllers on the Estimates—Industries Making Enquiries—Our Fame Abroad.

The city treasurer's staff are on the draft of the estimates after the first revision by the board of control. The board has been holding many secret sessions, at which heads of departments have been repeatedly called upon to attend. The draft will probably show a 15 mill rate, but there are optimists who believe that the final revision might make it as low as 13 mills. The controllers hope to have the draft ready for revision by next Wednesday.

New Industries.
There is a firm of iron-mongers in Tottenham, Eng., who contemplate branching out in this country, and they wrote Assessment Commissioner Forman, asking him what inducements this city would offer if they would locate here. Mr. Forman sent a lengthy reply yesterday.

Another firm that wants to locate in Canada will manufacture finest handkerchiefs, lace, etc. Their headquarters are in Dublin, Ireland, and they have notified Mr. Forman that their representatives will be in Toronto in May, or early in June.

Ashbridge's Bay Spur.
City Engineer Rust favors placing the proposed railway spur line to Ashbridge's Bay, along the 59th street way on the north shore of the bay. At the request of Controller Ward, the city solicitor will give his opinion as to the chances of securing an order from the railway commission for permission to have C.P.R. and G.T.R. cars run over the Grand Trunk bridge over the Don, south of Eastern-avenue.

The city engineer says that 475 water services have been put in this year, as against 200 for the same period last year.

Rotten Pavements.
Dr. Sheard says it is hard to keep the streets clean, owing to the condition of the surface of the pavements. There are hundreds of deep crevices, particularly in the track allowances on King and Queen-streets. Owing to the lack of snow during the past winter the pavements have been subjected to a lot more than the usual wear and tear.

Mayor Coatsworth, commenting upon a resolution passed by the Niagara Falls Council, calls it "gross selfishness." The resolution advises that before the province undertakes the development of electric power, the city should first experiment with the telegraph, telephone and railway monopolies.

Our Fame Abroad.
Our reputation as strapholders has extended to Chicago. Fred A. Stowe of the Chicago Chronicle was a visitor at the city hall yesterday. Chicago has just voted for municipal ownership of street railways, but not for civic operation. Those who believe with Mayor Dunne that the city should operate its lines have been pointing to Toronto as a place that failed to get good street railway service by allowing a company to run them, and Mr. Stowe came on to investigate. City Engineer Rust spent considerable time showing that Toronto did not own the street railway lines, and explaining where the company failed to give a satisfactory service. Mr. Stowe will also get the views of prominent citizens on the subject.

City Hall Briefs.
Ald. W. T. Stewart has returned from Florida.
If you have a horse to sell, see Ald. Dunn. He is looking for one for City Messenger McIntyre.
Tree planting was commenced by Park Commissioner Chambers' men on several streets yesterday.
The city architect's department has issued a permit for \$20,000 worth of alterations to the premises at 130 and 132 Yonge-street, which will be occupied by Huylers, the American chocolate firm.

Oldest Resident Dead.
Niagara Falls, April 6.—Dennis Lynch, the oldest man in Niagara Falls, is dead at the age of 92 years. He was born in County Cork, Ireland, and came to this place when the Great Western Railway was built over fifty years ago.

MAN PAY WHEN CURED

So many men have been cheated out of their hard earned money by quacks and false promises that the Medical College of the City of Toronto has secured a large number of strong guarantees in order to protect the public. The college is now offering a course of treatment for men suffering from various ailments, such as rheumatism, sciatica, neuralgia, etc. The course is so arranged that the patient is paid when cured, and the treatment is guaranteed to be successful. The college is located at 100 St. George Street, Toronto.

Man Medicine does what you want it to do.

SUBJECTS FOR A CONFERENCE
Topics Which Chambers of Commerce Will Discuss.

(Canadian Associated Press Cable.)
London, April 6.—Among the subjects for discussion at the congress of the Chambers of Commerce of the Empire here July 10 to 13 will be "British Capital in the Colonies," "British Commercial Agents," "Cable Communication," "Canadian Bankruptcy Law," "Commercial Relations Between the Mother Country and Her Colonies," "Defence of the Empire," "Emigration," "Fast Steamship Services," "Food Supply," "Imperial Penny Postage," "Most-favored-National Treatment with British Colonies," "National Indemnity in Time of War," and "Shipping Bounties."

REVISING HOUSE RULES PREMIER LIKES ENGLISH

Ottawa, April 6.—The special committee to revise the rules of the house met this morning and elected Sir Wilfrid Laurier chairman. Sir Wilfrid said that he generally approved of the rules of the English house, except that which provided for the application of the closure. He and Hon. Mr. Brodeur also thought the present rules in regard to debate on motion to adjourn were rather too lax, but Mr. Borden considered that latitude to discuss more than one subject should be allowed on that motion. The clerk of the house will prepare a synopical digest of the English and Canadian houses to indicate the differences between them.

SHORTHAND UP TO DATE

We have received from Isaac Pitman & Sons, a handy little book entitled, "Short Course in Shorthand." It is a comprehensive series of short graded lessons, designed for use in business colleges, high schools and for self-instruction.
Those desirous of acquiring a mastery of shorthand writing will find it an excellent tutor.
The book is published in Toronto by The Commercial Text Book Co. and The Copp, Clark Co., Limited.

A PARK APPOINTMENT

Niagara Falls, Ont., April 6.—J. Harrison Pew of Lundy's Lane has been appointed assistant superintendent of the Queen Victoria Niagara Falls Park. The position has just been created by the Ontario government.

Immigrants Are in Demand.
Yesterday, when the immigrant train arrived at 10 o'clock in the morning, there were a number of M.L.A.'s lying in wait at the office, including Messrs. Tucker, Gallagher, Hyslop and Kohler. Hugh Clark was down in the afternoon dispatching a party of forty to Bruce County, who had been sent out at the expense of the Leith Town Council. Of the 200 who arrived in the morning there were very few left by 5 o'clock. The department have still 1000 applications on file.

Body Guards' Night Out

The two city squadrons of the G.G. B.G. had a theatre party at the Grand on Thursday evening, followed by supper at the Temple Building. There was a large turnout. The feast list included "The King"; "The Empire," responded to by Major Geo. T. Denton, Jr., "Regiment," by Lieut.-Col. Meritt and Major Thompson; "Our Guests," by Geo. Little; "The Ladies," by Lieut. Leach, Capt. Smith, "A" Squadron, presided.

Railway Fireman Killed.
Woodstock, April 6.—Nineteen-year-old Alfred Norwood, a Grand Trunk fireman of Saratoga, was instantly killed last night in the G.T.R. yards. He had completed raking out the ashes from the engine, and was crawling from beneath his engine, not noticing the limited, running at about thirty miles an hour, on the adjacent track. The steps of the engine struck and instantly killed him. Norwood had been firing for about three months.

\$10 — Washington Easter Excursion—\$10
via Lehigh Valley Railway from Suspension Bridge, Friday, April 13. The last Washington excursion this season. Tickets good ten days. Stop-over allowed at Baltimore and Philadelphia returning. Side trip to Atlantic City only \$1.75. For further particulars, call at L.V.R. passenger office, 10 King-street east.

Preist Dies Suddenly.
Rome, N.Y., April 6.—Rev. Aloysius Murphy, aged 69, for the past thirty years pastor of St. Peter's Church in this city, died early this morning from angina pectoris. The new St. Peter's Church, which was built under his personal supervision, is the handsomest edifice in Central New York, costing about \$150,000.

Sir Wyke Balls Dead.
London, April 6.—Sir Wyke Balls, president of the Royal Society of British Artists since 1888, died here suddenly during the night of heart disease. He was born in 1835.

There are Wheat Foods and Wheat Foods, but only one Pure **SURET**.
It is made in Canada of the choicest Ontario Wheat, steam-cooked, drawn into fine strands and baked. Better than porridge for breakfast — good for any meal with fruit or vegetables.
Said for the "Vital Question Cook Book," postpaid CANADIAN SHREDDED WHEAT CO. Limited, Niagara Falls, Ont. Toronto Office, 32 Church St.

FOR GOVERNMENT TO DO

Brantford Opinion on the Niagara Power Problem.

Brantford, April 6.—(Special.)—The report of the government power commission has awakened great interest, but the opinion prevails that as far as Brantford is concerned the scheme would involve too great an outlay. Brantford's share would be \$371,000.

D. E. Wood, chairman of the electric energy committee of the board of trade, thought it would not be possible to raise this amount by vote of the ratepayers. He presented to the municipalities an agreement with the Western County Power Company, granting a twenty-five-year franchise, which provides that this city be supplied with 400 horsepower at one-half cent per horsepower per hour.

The prevailing opinion is that the commission should report to the government in favor of the government taking control of the development, transmission and distribution of electric power from Niagara, and the fact that the government commission, after submitting their report to the representatives of the various municipalities at Toronto, were present when the municipalities passed a resolution to the effect that the government should assume control, is taken to indicate, on the part of the municipalities, that they would rather have the government do it than the municipalities.

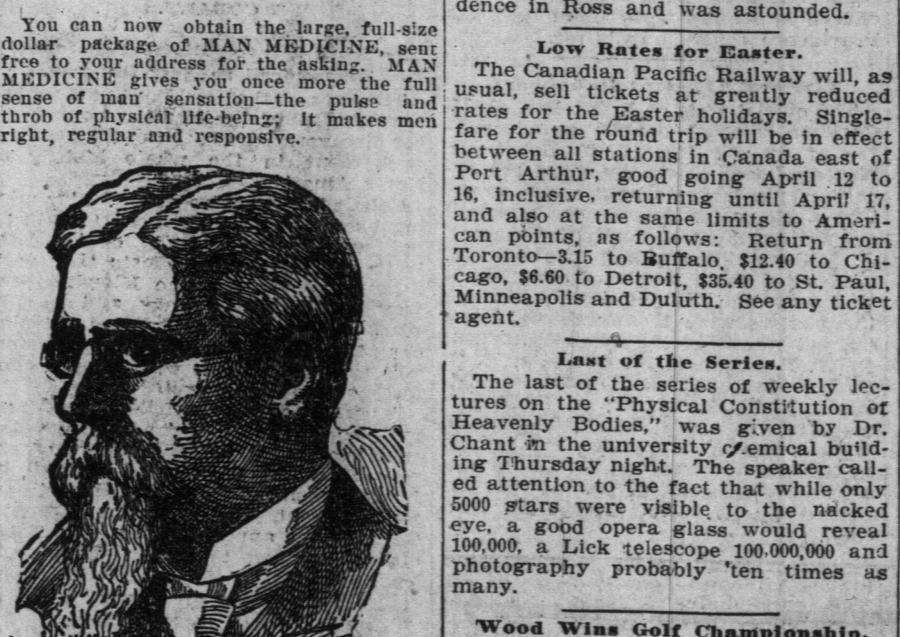

ARMY'S GOOD WORK

The Salvation Army prison, enquiry and free labor bureau's report for March shows: Prisoners prayed with 1791; interviewed, 1731; given employment, 56; met on discharge, from prison, 69; meetings held in prison, 105; prisoners professed conversion, 118; number of nights lodgings given to discharged prisoners, 110; meals given, 213; farms paid, 33; articles of clothing given, 143; missing persons found, 14; poor men found employment for, 63.

ASTOUNDS EMPLOYER

Alex. Ross, late of Brandon, in Trouble at Detroit.
Detroit, April 6.—Alexander Ross, 33 years of age, who claims Brandon, Man., as his home, is locked up on the charge of robbing his employer, O. N. Benson, a drygoods merchant, of about one thousand dollars' worth of goods.
Ross is said to have been in the drygoods business in Brandon until last fall, when he went to Toronto. He came to Detroit about the first of this year. Benson had the greatest confidence in Ross and was astounded.

FREE Full Size Dollar Package Man Medicine Free.

This free Dollar Package is the proof of what Man Medicine will do for man. We send it to you in a plain wrapper, sealed, prepaid, delivered. Your name and address brings it. Interstate Realty Co., 294 Louis Bldg., Detroit, Mich.

TO ADJOURN OVER EASTER BRIEF REST FOR MEMBERS

Two Education Bills Will Be Brought Down Next Week—Routine Work.

The legislature will adjourn on Thursday next till Tuesday of the following week to enable the members to spend the Easter holidays at home.

The premier informed Mr. Ross just before the house adjourned yesterday that the bills respecting public schools and the education department were ready and would be brought down next week. The other government bills to come, he said, were the university bill, the railway taxation bill and the mines bill.

Mr. Cameron asked the unanimous consent of the house to introduce a bill respecting the Ontario and Lake Shore Electric Railway, the bill having been thrown out by the standing orders committee owing to a technicality. This was granted.

Cheaper School Books.
Hon. Dr. Fyde informed Mr. Daulton that the question of cheaper, more modern and uniform text books for the schools was under consideration, and a statement would be made before the end of the session.

The attorney-general replied to Mr. Gane that the government was aware of the Joseph Phillips, president of the Toronto Life, was a prisoner on a charge of misusing funds. He had, however, since resigned the presidency. The government was inquiring into these statements, but two other directors of the company have discredited themselves in giving their evidence at the trial. That clerks have shown absent-mindedness and forgetfulness quite incompatible with competent work. Was the government thought of appointing some reliable and competent person to take charge of the company's affairs?

The attorney-general told Mr. Munro that one police magistrate had been appointed for Manulifin, namely, W. L. Fries, at \$1000 a year. He formerly edited The Gore Bay Conservator. Four provincial constables for the district were now in the employ of the province.

Protection of Reserve.
To Mr. Ross, Hon. Mr. Cochrane said 65,000 pieces of pine, besides pulp and other cordwood, was (estimated) some quantity of timber on the land, on each side of the T. & N. O. Railway, which the government proposed to cut down for the protection of the Temagami reserve. There has been no estimate of the cost of the work. About 142 men were employed with James Thompson of Redwater Station in charge.

Temporary Help.
Col. Atkinson obtained an order for a return showing the number of stenographers, temporary clerks, messengers and other temporary help employed since Jan. 25, 1905, in the various public buildings in the City of Toronto. The premier stipulating that the return also show the number employed in 1904.

Mr. Graham obtained an order for correspondence with reference to the granting of a license at Petawawa.

Second Readings.
The following bills were given a second reading:
Hon. Mr. Ross: To amend the Ontario Mining Co's Incorporation Act.
Mr. Cameron: To amend the act respecting companies for supplying steam, heat, electricity or natural gas, for heat, light or power.
Mr. Cameron: To amend the act respecting joint stock companies for supplying cities, towns and villages with gas and water.
Mr. Craig: To amend the high Schools Act.

The Last Washington Excursion This Season
Via Lehigh Valley Railroad Friday, April 13. Tickets only \$10 for the round trip from Suspension Bridge. Stop-over allowed at Baltimore and Philadelphia on return trip. Tickets good ten days. Side trip to Atlantic City \$1.75. Just the time of year to visit Washington and Atlantic City. Call at L.V.R. office, 10 East King-street, for maps, guides and particulars. Phone Main 1558.

Forty-Nine Were Killed.
Nagold, Black Forest, Germany, April 6.—A revised list of the casualties resulting from the collapse of the Hotel Zum Hirschen (Stag Hotel) yesterday, shows that forty-nine persons lost their lives and that fifty were severely injured.

The hope is that they will be able to revolutionize Toronto traffic into something like the way that London metropolitan traffic is conducted.

CAMPAIGN OF EDUCATION.

Continued From Page 1.

A STRANGE POWER!

Strictly Used by Many Prominent Men and Women.
To influence the minds of others...
Professor F. T. McIntyre, a well-known scientist of this city, has created a sensation in the hypnotic world.

Professor F. T. McIntyre, a well-known scientist of this city, has created a sensation in the hypnotic world. Through delving down in the realms of nature's mysteries he has discovered a delicate but powerful system that seems destined to revolutionize the theories of the most noted authorities on Mind Forces. Some people look upon him as a man possessing a strange power, for he has told them how to influence people far and near and to heal themselves and others of their ills as if by magic. He tells them how to project their thoughts, develop a powerful mentality and build up the mechanism of the body and brain.

Mr. Chas. S. Ointment...
A. S. Ointment...
I have been doing work he was told not to do.

an adequate development, the resultant rates would be considerably lower than those attached to a development based on the needs of the seven. No government work of this kind could be carried out on twenty-four hours' notice. Neither a government independent development, nor a government expropriation, nor a municipal independent development, nor any other large scheme, could be carried out except under the pressure of a great and effective body of public opinion, which is necessary to accomplish such a result, must rest upon a clear and intelligent perception of the wisdom of the course proposed to be taken, and of the value of the ends proposed to be accomplished. If it represented merely a wave of passing enthusiasm, uninformed as to the foundations and fruits of the scheme, it would not stand the test of the delays involved in overcoming inevitable obstacles.

"Municipalities," said Mr. Ellis, "are already endowed by a law with the power to carry out the scheme, but amendments to the act should be made, and these could easily be made during the present session."
"In my opinion the recommendations of the municipal power commissioners should be adopted as representing a sober, practical plan of conferring upon the power and light consumers the right of the cheapest power and light it is possible to procure. If the boards of trade in the different places affected would take up the advocacy of the commissioners' plans and in this way support and strengthen whatever sentiment already exists amongst the various municipal councils in favour of the commissioners' recommendations, they would help very materially to expedite the favorable public decision."

It was coincidentally believed that the resultant benefits would far exceed those which would be realized if the plan were adopted. He believed if the commissioners had erred they had erred on the side of ultra conservatism, having meant to carry a heavy burden of views or imaginations of the future, but having brought every recommendation and every possible course to the attention of the public, it is only of business analysis.
Contracts Tied Up.
Ex-Controller Frank Spence said that four years ago a proposal was made to the city council to authorize the investigation of what the report of this commission now recommends. It was impossible to do it then, because they were without the backing of the public, an important thing, public opinion. But the proposal was practically the same. Although the difficulties had increased, the matter was likely to be looked upon much more favorably, and he considered that there was room for all the development. He was afraid, however, that the only building built there, but that the industries of this country had been tied up with permanent contracts and there would not be any room for electrical energy outside the existing enterprise there would have been at that time.
Nevertheless these difficulties did not prevent the municipalities which lay behind the movement, and which might give the municipalities more cause to buy out existing undertakings.

KNOW TO REMOVE.

Board Decides to Abandon Historic Site for the Park.
Knox College is to be removed to a site near Toronto University.
At a meeting of the board Thursday it was decided that larger and more modern buildings should immediately replace the present buildings on Spadina-avenue, and that the site should be changed.

COMPANY PLANS MUSEUM TO ADVERTISE CANADA

Ottawa, April 6.—A large deputation that included several senators and a number of members of parliament was received by the premier to-day. The object being to call the government's attention to the work of the Canadian General Service & Colonization Co. of Montreal. Its objects, as explained by its general manager, are to assist in securing a desirable class of immigrants, settlers and investors for Canada, to advertise the Dominion abroad, to assist in promoting the export trade of Canada, and to render such general services as will be of benefit to the country.
It proposes to establish a permanent exhibition hall and commercial museum in New York, where a display of the products and manufactures of Canada may be installed.

SIR ALGERNON'S LUCK.

Honest New York Cabman Returned His Wallet With \$2700. Therein.
New York, April 6.—The World this morning says: Sir Algernon Charles Cooke, Premier Baronet of Ireland, has gone away from here with a high opinion of the honesty of one New York cabman.
The baronet was driven to Barling, Magoun & Company's, in Wall-street, where he converted a draft into \$2700 cash. He stuffed the bills into a wallet and dropped the wallet into a pocket of the overcoat, which he carried on his arm.
Arriving back at the hotel, the baronet dismissed the cabman and was about to enter the elevator to go to his room when he discovered that the wallet was gone from his overcoat. He quickly stepped to the desk, and was announcing his loss when in came Gerald Burns from the street on the quick step.
"Here's a pocketbook," he said. "I found it on the seat of my cab. Hurry up, or the gent will get away."
Sir Algernon wheeled and thanked the cabby, praised his honesty and rewarded him with \$20 and a cigar.

A SOLDIER'S INFAMY.

San Francisco, April 6.—The U. S. transport Sheridan, which arrived from Manila last night, had on board Sidney S. Burbank, formerly a lieutenant in the Sixth Infantry, who was court-martialled and sentenced to be dismissed from the service, and to serve 15 months in the military prison at Fort Leavenworth, Kansas. He married a Filipino woman, and after reaching the main land renounced her and reported to the war department that he was a single man.
COBALT.
The Rich Silver District Recently Discovered in New Ontario.
The eyes of the world are now turned towards Ontario, where the newest silver discoveries are creating the maddest excitement in the whole history of North America.
Cobalt is the centre of a greater mining boom than was Dawson City in its palmy days. Instead of the hard trails and strenuous efforts that were necessary to reach the Klondike, the way to Cobalt is easy and can be reached direct in a Pullman sleeping car. The Grand Trunk Railway System will carry you there with all the comforts of modern travel.
A postal card to the following address will bring you a comprehensive and complete illustrated description of the new Eldorado, with maps and all information. J. D. McDonald, district passenger agent, Union Station, Toronto, Ont., or on application at city ticket office, northwest corner King and Yonge-streets.

WONDERFUL GAINS

OF THE
Natural Life Insurance Co. OF CANADA.
Shown by the Annual Report for 1905.
The Mutual Life of Canada is simply jumping ahead. The Canadian people have unbounded confidence in the financial strength and wise management of this purely mutual company—and they are taking out more and larger policies than ever before.
The report for 1905 shows some remarkable gains in every branch.
The increase in income amounted to \$231,210.01.
Assets were \$1,075,560.70 MORE in the past year than in 1904.
The surplus was augmented by \$179,228.25.
And \$6,014,676 new insurance was written.
"Take your policy out in a company in which every policyholder is an owner and shares in the profits."
HEAD OFFICE: Waterloo, Ont.
Will Visit the Automobile Show.
In order that the 400 employees of the Canada Cycle & Motor Co.'s factory at Toronto Junction might have the opportunity of visiting the Automobile Show at the Granite Rink, and seeing the cars on exhibition there, as well as the Russian exhibitors, a particularly interested company have given tickets to each man. This is very much appreciated by the men, who naturally take a great pride in the popularity of the Russell.
NOT GUILTY.
Belleville, April 6.—(Special).—After one hour's consideration the jury returned a verdict of not guilty in the case against Adam Lloyd, charged with wife murder.
Norwegian Post Dead.
Bergen, Norway, April 6.—Alexander Lange Kjeland, Norwegian poet and author, died today of paralysis of the heart. He was born in 1846.

McDONALD'S RHEUMATISM CURE

Has CURED 90 per cent. of the Worst Cases of Rheumatism, and CURES Every Case of LUMBAGO.
\$20 Reward for a Case of Lumbago that it will Not Cure in 30 Minutes.
I have hundreds of testimonials, of which the following is a sample:
This is to certify that I have used McDonald's Liniment and found it to be good. It cured me of rheumatism entirely.
J. G. Marshall, Midland, N. B.—See fresh testimonial six weeks.
Ask your Druggist for McDonald's Rheumatism Cure. Price, \$1.00 per Bottle.
If he has not the remedy in stock, send the price to the manufacturer, it will be sent by mail securely packed.
John McDonald, Sole Proprietor McDonald's Rheumatism Cure, MIDLAND, ONT.

LOOSE-LEAF SUIT.

Writ Issued by the Copeland-Chatertown Co. Against Drug Co.
Among the writs issued by Osgood Hall yesterday was one by the Copeland-Chatertown Co., Limited, against Lyman Bros. & Co., for infringement of patents for use in loose leaf ledger binders.
IT CHOKED HIM.
Mr. J. P. Taylor of Dymont, Ont., had a serious time with bronchitis, but he knew just what to do and got well quickly.
"This is what he says of Catarhazone, the remedy that does cure:
"I must tell you how much Catarhazone has been to me. I was so bad with bronchitis that I sometimes thought it would soon be over with me. A spell of coughing would come on that fairly choked me, and I was always left prostrated and weak."
"Since using Catarhazone I have had no trouble at all. It strengthened my throat, stopped the cough, gave me free breathing and entirely cured."
Why not cure yourself? Why not get well for all time to come? Buy the large "Catarhazone." It costs \$1 and always eradicates every trace of the trouble. All dealers or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A. or Kingston, Ont.

Low Rates to New York.

New York Central Railroad announce an excursion to New York for Easter time. Rate \$10.25 for the round trip from Suspension Bridge or Buffalo; tickets good for return in ten days. Remember the date, April 12.
For further particulars call on or write Louis Drago, Canadian passenger agent, 69-122 Yonge-street, Toronto. Telephone Main 4351.
New York Artist Dies.
New York, April 6.—Eastman Johnson, the painter, died suddenly at his home here last night in his 82nd year. He made his reputation as a delineator of American domestic and negro character.
The Bank of Hochelaga will locate a branch at Edmonton.

People in the Country

and small towns have got to consider fire—and take every precaution in building homes. Fireproof is an attractive feature
Metal Walls and Ceilings
If the stove explodes, or lamp overturns, or curtains blaze up—the fire is confined to the room where it starts. Because the Metal Walls and Ceilings are absolutely fireproof, and prevent fire from spreading.

COBALT.

Visitors' Night at Rehoboth.
The official visit of R. W. Bro. E. M. Carleton, district deputy grand master of district No. 11, to Rehoboth Masonic Lodge Thursday night of the week. The banquet room of the craft, packed with a large number of the work of the first degree was well exemplified by the worshipful master, J. Webber Payne, and the officers, and called forth words of commendation from the district deputy. Among the visitors were the worshipful master and officers of the following lodges: R. W. F. Brennan, St. George's; E. O. Barber, Zeas; E. R. Dransfield, Zeas; Ed Mack, Orient; A. E. Hagerman, St. Andrew's; M. P. Thompson, Wilson; and W. R. Howse, P.D.D.G.M. In the banquet room an attractive musical program was given. It was arranged by W. Bro. George H. Mitchell.
One Year.
Guelph, April 6.—John B. Madill, who was last night found guilty of attempting to defraud the insurance companies in connection with the Hillsburg creamery, was to-day sentenced to a year's imprisonment.

Coal Men in New York.

Noel Marshall of the Standard Fuel Co. went to Buffalo last night and will probably attend Monday's meeting of coal magnates at New York. Elias Rogers is already there.
Sudden Strike.
Twenty-four hours after being seized with a fit, F. H. Sharpe, of Sharpe & Co., photo supplies, died yesterday at his home, 20 Admiral-road. He was 46 years of age.
Losses Case.
Joseph Smith, who sued the Gurney Co. for \$1500 for the loss of four fingers, was non-suited. He had been doing work he was told not to do.

Supreme Court Judgments.

Ottawa, April 6.—In the supreme court to-day judgments were given in the following Ontario cases: Gibb vs. McMahan, appeal dismissed with costs; International Harvester Co. v. Graham, appeal dismissed with costs; James Bay Railway Co. v. Grand Trunk Railway Co., appeal dismissed with costs. Argument continued in the case of the City of Toronto v. Metallic Roofing Co.

Heart, Throat, Liver and Skin
DR. AGNEW'S FOUR FAMOUS SPECIFICS CURE COMPLETELY THE WORST DISEASES OF THESE PARTS—DREADFUL HEART DISEASE RELIEVED IN THIRTY MINUTES.
Heart disease will affect people differently, but in all cases it must be viewed with great alarm. Dr. Agnew's Cure for the Heart is the one remedy that can be safely depended upon in times of trouble. It will give relief in thirty minutes.
Mr. Thomas Peiry, of Aylmer, Que., was troubled with severe heart complaint for five years, the pain, at times, being so severe that he could not attend to business. Every other remedy failed until he tried Dr. Agnew's Cure for the Heart, which gave immediate relief, and his words are these: "I have now taken out four bottles of the remedy and am entirely free from every symptom of heart disease."
A cold in the head need not be trifled with, for it is catarrh in an incipient condition, and catarrh is not to be trifled with. Dr. Agnew's Catarrhal Powder, as scores of clergymen, members of parliament, and prominent citizens in the Dominion have borne testimony, drives away a cold in the head like magic, and where this has assumed the shape of aggravated catarrh, producing deafness and throat trouble, it effects a permanent cure.
It is not always safe to take pills for liver trouble. They not unfrequently create other troubles that are serious. Dr. Agnew's Liver Pills, whilst thoroughly certain of removing all liver trouble, give no difficulty either at the time or afterwards. They are pleasant to take and cost only 10 cents.
The faculty that Dr. Agnew displayed in getting at the seat of trouble is manifested in his Ointment, as in the other three remedies. This contains the elements that give speedy and permanent relief in all skin diseases and its peculiarity effective in curing piles. 35 cents.

DR. AGNEW'S FOUR FAMOUS SPECIFICS CURE COMPLETELY THE WORST DISEASES OF THESE PARTS—DREADFUL HEART DISEASE RELIEVED IN THIRTY MINUTES.

Grandfather's Cure for Constipation

They don't flush out your Bowels and Intestines with a costly waste of Digestive Juice...

Two hours a day sawing wood will keep anyone's Bowels regular.

But, if you will take your Exercise in an Easy Chair, there's only one way to do that, and make a Success of it.

REACTION ON WALL ST.
 WITH EASIER MONETARY RATES
 Prices Show More Firmness After Early Pressure—No Change at Toronto Markets.

World Office, Friday Evening, April 6.
 The character of the Toronto stock market from a trading standpoint underwent no change to-day. Business was equally as dull as yesterday with an entire absence of bullish demonstration. The underside of prices evinced tentative support in the leading specialties and allayed any expectations of inherent weakness, which may or may not be present. Except for extreme prices for call money at New York, there was no factor sufficient to have any decided influence on prices. Some talk of local money tightness reached the street, but that was a disinclination to believe that actual circumstances warranted it, though it is now. It was also rumored that Canadian funds were finding an outlet on Wall Street, attracted by the high rates. The steadiness in stock quotations was easily accomplished with the limited offerings. There is no disposition to think that these will be increased without some further incentive to liquidation. The only two speculative shares to evince any snap were Dominion Securities and E. J. Mackay. Both shares have fallen into insignificance as trading issues of late. To-day, Commerce brought a lower price, and two others that were dealt in made no change.

WE OFFER
SHORT TERM DEBENTURES OF THE CITY OF TORONTO
 AT A 4% RATE
 PARTICULARS ON REQUEST.

DOMINION SECURITIES CORPORATION LIMITED
 26 KING STREET EAST TORONTO

Ernie & Stoppard, Kninn Building, report the close on Cona, Lake Superior stock, 20 to 21, do, 52 to 53; Grand Copper, 18 to 19; Mackay common, 4 1/2 to 5; do, preferred, 7 1/2 to 7 3/4.

General London market dull and rather heavy.

Present month expected to show larger receipts in untiled business in steel.

Believed anthracite operators unwilling to accept Mitchell's arbitration proposals.

Early ease in call money rate expected by bankers.

U.S. rubber declines regular quarterly 2 per cent, after 10-cent and 1 1/2 per cent. on second preferred.

Small demand for stocks in the loan crowd.

One hundred and forty million dollars new German and Prussian loans announced in Berlin, being less than had been expected.

Banks lost \$5,105,000 to sub-treasury since last Friday.

Gold imports will be announced early next week and the totals run up to \$10,000,000—Dow Jones.

National Lead earnings for the year ended Dec. 31, net \$2,062,632, increase \$486,920. Previous surplus, increase \$652,413; total surplus, increase \$1,089,332.

Prussian government publishes bill for railway construction and double tracking to cost \$54,000,000.

Washington—Reports are persistent in this city, also no confirmation has yet been obtainable, that an early announcement of increased deposits of government funds in the National Banks will shortly be made by Secretary Shaw.

The banks show this week up to 20 cents of business on Thursday a net loss in cash of \$7,331,800, after paying for \$1,150,000 gold coin imported by the National City Bank, which does not show in the sub-treasury record. This week's loss of \$280,800, was to the interior and \$5,105,000 to sub-treasury.

Joseph says: There is excellent buying of steel. Do not be afraid to take these. Hold Pennsylvania and B. & O. Speculatives: Coalers will be well supported. Buy M. K. & T. preferred, keep long of Erie.

Philadelphia: At offices of Philadelphia & Reading Coal & Iron company here this morning it was practically admitted that all of the anthracite operators had been sounded regarding the mine workers' arbitration proposition and that the operators would absolutely decline to submit any of the questions at issue to arbitration.

It is curious to note that a number of houses who have been exceedingly bullish in the purchase of Reading and Union Pacific was advised on Wednesday, Sunday, St. Paul, Rock Island, S. P., Erie, Steel, Pennsylvania, S. R. Car Foundry in good position to advance and would take them at concessions wherever offered. We are not bullish on M.P. As stated yesterday we are not bullish on C.P. & I., which should hold on all strong speculatives. A.C.P. called yesterday from the low opening figures and a little stock, so that it may be a little lower before advancing again. The same may be said of R.R. in which information is bullish.

 Victoria..... \$977,446; increase, 116.9.

On Wall Street.
 Marshall, Spader & Co. wired J. G. Beatty (King Edward Hotel), at the close of the market, which was uneasy during the early trading and transactions reflected the nervous tension, which prevails regarding the monetary situation.

Moderate pressure was noted after the close of the market, and the announcement of a dividend of 2 1/2 cents on the Union Pacific, which was followed by a decline in the market. The market was more active, as a result of a rally in the coal and iron stocks, and a better showing in the steel market. The market was followed through the day, and a better showing in the coal and iron stocks, and a better showing in the steel market. The market was followed through the day, and a better showing in the coal and iron stocks, and a better showing in the steel market.

London, April 6.—According to a Russian loan of \$50,000,000 will be issued immediately after Easter in New York, London, Paris and St. Petersburg. The first two annual crops probably taking between \$250,000,000 and \$300,000,000 each, and Paris \$250,000,000. The report that Germany has definitely decided not to participate in the loan is confirmed in London financial circles.

The specific position of the general list is very little changed from yesterday morning, when the purchase of Reading and Union Pacific was advised on Reuters. We reiterate our belief that Smelting, Sugar, St. Paul, Rock Island, S.P., Erie, Steel, Pennsylvania, S.R. Car Foundry in good position to advance and would take them at concessions wherever offered. We are not bullish on M.P. As stated yesterday we are not bullish on C.P. & I., which should hold on all strong speculatives. A.C.P. called yesterday from the low opening figures and a little stock, so that it may be a little lower before advancing again. The same may be said of R.R. in which information is bullish.

Price movements in the stock market to-day were governed largely by the course of the call money market, which continued to occupy the bulk of attention. In the early loan market there was a rush to secure accommodations and the bulk of the borrowing was effected at 4 1/2 per cent. rate, with some loans being made as high as 5 1/2 per cent., as a result, there appeared to be an actual scarcity of funds, and this had the effect of causing considerable speculative liquidation through the list, which, combined with some aggressive short selling, caused general declines. Nothing approaching acute weakness developed, however, and there appeared to be very good buying on the decline. Towards midday the supply of funds became more plentiful and the call rate gradually eased off. It was stated that arrangements had been completed for the import of a large amount of gold from London, which is now in transit from South Africa and which is expected to arrive on Monday next. This had a cheering effect upon sentiment and a short covering movement set in which caused general recoveries, prices advancing easily on a moderate volume of buying, which developed a scarcity of offerings. Advice from the west as to the agricultural outlook were of a cheerful character and discussion of the anthracite coal situation developed the belief that the operators were disposed to accept the arbitration proposal.

In the afternoon, Pennsylvania was of strong feature and the general tone continued firm. Reports were current that an early announcement of increase in deposits of government funds would be made. The closing, tho dull, was about the best.

Money Markets.

Bank of England discount rate 4 1/4 per cent. Money 2 1/2 to 3 1/2 per cent. Short bills, 2 1/2 to 3 1/2 per cent. New York call money, highest 3 1/2 per cent., lowest 2 per cent., closed 2 1/2 per cent. Call money at Toronto, 5 to 5 1/2 per cent.

Price of Silver.
 Bar silver in New York, 64 1/2¢ per oz. Bar silver in London, 29 1/2¢ per oz. Mexican dollars, 49 1/2¢.

The Manhattan Nevada Gold Mines Co.
 owns some of the largest, richest and most valuable mining properties and leases in this marvelous mining district. They are splendidly located in the midst of the best mines and leases. They are traversed by great gold-bearing veins. Assays of the ore show values running high into the thousands. Development work is in progress—shipments of rich ore now being made. Arrangements are being completed for the erection of a large mill. The Company plans to develop these properties into

Big Dividend Paying Mines

In Manhattan the showing and possibilities are greater than in any of the other camps. Manhattan Consolidated stock has advanced 30 days from 20 cents to 1 1/2; the Manhattan Dexter, owing the Union No. 9 claim, has advanced from 25 to 60 cents in less time; Manhattan Stray Dog cannot be had at any price. The Manhattan Nevada Gold Mines property has just as advantageous a location as any of the properties named. This stock can now be bought for 12 1/2 cents per share. It is producing ore and the price should advance rapidly. Manhattan Nevada Gold Mines stock is absolutely certain to advance in price. The company owns some of the most valuable properties and leases in the entire Manhattan district. In a very few days ore will be treated at the local mills now being rushed forward to completion. The stock sold of gold values developed in Manhattan mines appear almost incredible. On one lease of the April Fool claim ore found in streaks gives assays as high as \$40,000 to the ton. A knocking is going on night and day.

At Tonopah, where to-day \$200,000 worth of ore is blocked out, shares that are now worth from \$3 to \$20 each, sold three, four or five years ago for 25 or 50 cents. Why not profit by this record and purchase Manhattan Nevada Gold Mines stock while it is low? Price advances to 15 cents April 20th.

TWO DELEGATES RULED OUT

Declared Unfit for Election Because Under Indictment.

St. Petersburg, April 6.—The elections by the constitutional democrats of the St. Petersburg district of Professor Paul M. Mikuloff and M. Hecson as delegates to the provincial convention have been annulled by the election commission on the ground that they are under indictment in connection with the suspension of the Svo Bodanarov, of which paper they are the editors. The commission has replaced them by conservative candidates, who received scarcely a tenth of the vote.

The rigorous press regulations announced yesterday have been supplemented by a sweeping repressive measure making it a prison offence to spread false reports about government officials or troops, or to produce public excitement. The penalty is multiplied if such report result in actual rioting.

The chief of police of St. Petersburg, after various tests, is equipping the police and gendarmes with coats of mail to be worn under their uniforms. Father Gapon has formally applied to the holy synod to withdraw the ban, which forbids him as an unordained priest to live in St. Petersburg for seven years.

Prisoners Starve Themselves.

Moscow, April 6.—The political prisoners with whom the local jails are crowded have declared a "hunger strike," refusing to partake of food, to compel the authorities either to bring them to immediate trial or order their release. Many of the prisoners have been three months in jail without being confronted with the charges against them.

Executed.

Mitau, Courland, Russia, April 6.—Florinich, chief of the revolutionary band which pronounced death sentences against the reactionary officials during the recent revolutionary disturbances here, was executed to-day.

TRINITY COLLEGE CORPORATION.

The Trinity College Corporation met yesterday and discussed the proposition of moving nearer to Queen's Park. No definite conclusion was arrived at. The feeling was that in consideration of the importance of the step they should proceed slowly.

HIGHLANDERS' PARADE.

The Highlanders' parade last night was the second in command. The regiment was in kits, 467 strong. Major Robertson was in command.

YORK COUNTY AND SUBURBS WANT PUMPING PLANT AND WEIR

Application Made to Attorney-General in East Toronto's Affairs.

Toronto Junction, April 6.—Miss Mary Tunnah, a teacher in the Carlton School, lost her pocketbook this morning, containing a quantity of small change and her cheque for March.

The Junction will have several good baseball teams this year. Both the St. Cecilia and Night Owls have organized, and there is talk of one or two more. There is some probability of a town league.

A special meeting of the executive committee of the town council will likely be held next Thursday on the salary question.

The Weston-road bridge will be closed for several weeks while the approaches are being filled in with earth.

The Young Shamrocks will play in the Interassociation Lacrosse League this year, instead of the Junior City League.

Several members of Stoney Lodge, A.F. & A.M., visited the Woodbridge Masonic Lodge to-night.

E. B. Wright has been elected secretary-treasurer of the Interassociation Lacrosse League.

A. Downey of St. Catharines is spending several days in town.

Thomas Mead, Cooper-avenue, was overcome with gas Saturday. He is recovering slowly at his home.

EMPIRE HOTEL.
336 Yonge-street, most modern and up-to-date hotel in Toronto. Rates \$1.50 to \$2.00 per day. J. Newton, proprietor. Phone Main 2255.

North Toronto.
Benjamin Logie of Erskine-avenue is suffering from an attack of pneumonia.

John J. Tibb of the Eglington Presbyterian Church was laid up last week with influenza, but is able to attend again.

The Misses Nichols of Albertson-avenue have bought a lot on Stephenson-avenue, to build a handsome residence.

Mr. Frost, janitor of Upper Canada College, is starting to build a house on a lot adjacent to the college.

John F. Wright, a former resident, but now of Cookstown, is spending a few weeks here.

An enjoyable time was spent Thursday night by a large number of members of the Presbyterian Church at the final Young People's social, held at B. Wilson's residence, Castletield.

Bracondale.
Mrs. J. Stevens of Murray-street, who had been sick for a long while, but was thought to be out of danger, took suddenly worse again and died yesterday morning.

The supreme offices of the S. O. E. will be opened up next Thursday evening in the new quarters in the old Canadian Institute building, Richmond-street, Toronto.

Mr. F. J. Bracondale, expects to be largely represented.

The event of the season took place Thursday night at Wychwood Presbyterian Church, where a social was given. The program was rendered by home talent.

East Toronto.
East Toronto, April 6.—Solicitor Grant has received notice of the application by the town of East Toronto to compel the pumping plant from the strip of beach-avenue. Mr. Snowy's application is successful, will add greatly to the cost of the plant.

The residents of Ward One are said to be, with the exception of Mr. Snowy, favourable to the retention of the plant in its present position.

Mr. Rofey, head gardener on the Glen Stewart estate, is already actively engaged in preparing the grounds for the coming visit of Earl Grey in May. His excellency will be accompanied by the Earl's staff.

Mr. Stewart's official residence during the Earl's visit is in Toronto.

H. N. Nimschke reports that the sale of school debentures amounting to \$32,500, realized the handsome sum of \$35,152, a premium of nearly \$3000. The debentures are issued for 30 years, bearing interest at 5 per cent.

The general health of the town was never better than at present.

The town council will meet on Monday night.

A meeting of the Riverdale Businessmen's Association was held in the Bank of Commerce building last night.

A. B. Clarke presided. In addition to the executive there were present: Ald. Christholer and Mrs. Menagh.

In addition to the committee formed last night, the committee formulated a long list of suggested improvements which will be further submitted to a full meeting of the members and rates at a public meeting to be held on April 19.

Chester.
Danforth Hall was filled, Wednesday evening on the occasion of the presentation of the sacred cantata, "The Pillar of Fire," under the direction of Mrs. Menagh, organist of St. Barnabas' Church.

The cantata, in 35 numbers, is descriptive of the bondage, deliverance, hopes and fears, misadventures, journeyings in the wilderness, and the triumphant return to Canaan of the children of Israel.

The choruses were admirably rendered by nearly 70 voices. The solos and parts were taken by Mrs. Robert, Mrs. M. M. Molester, Mrs. Vipond, Miss J. Hackett and Miss L. Hackett and Messrs. F. C. Broomhall, George Kimber, F. Coombes, A. Edmeades, J. Filades, Hogarth, Herb, Woods and J. Langstone.

At the conclusion a little tot in the chorus, Miss Annie Grange, handed to Mrs. Menagh a handsome bouquet of roses. They were presented by a Toronto gentleman, who, as a boy, was a member of St. Paul's choir, Toronto, over a quarter of a century ago, when Mrs. Menagh was organist of that church.

Rev. Frank Vipond, rector of St. Barnabas, is endeavoring to erect a mission in the northeast of the parish, to bring the services of the church within reach of a score of families living to the east of Pape-avenue and north of Gambia-avenue. The proceeds of the cantata will be devoted to that purpose.

Green River.
The Shamrock football team have re-organized. The following officers were elected: Hon. president, A. E. Labam; president, Wm. Hooper; vice-president, W. J. Mitchell; secretary, J. A. Nigwaner; captain, Charles White; managing committee, Will Cowie, Dave Wage, Oscar Dabevi, Frattice, Tuesdays and Saturdays. Correspondence solicited for matches.

Size of Milk Cans.
Ottawa, April 6.—Evidence was taken to-day at the agricultural committee in regard to the adoption of Archibald Campbell's bill stipulating that when milk is sold by the can, the can should be considered as equivalent to eight gallons. Delegations from Montreal and Toronto were heard in favor of the bill. The Toronto City Dairy opposed it.

Mr. Blair (Free) suggested that the dealers and producers, if possible, agree on a measure and arranged for a meeting with that in view.

A B. C. FLOTATION.
Montreal, April 6.—(Special.)—Sir A. P. Caron, just returned from London, reports the successful flotation of the transcontinental exploration syndicate, holding large coal areas in British Columbia, with a capital of \$300,000.

How ABOUT YOUR CLOTHES?

A MAN'S LOOKS COUNT FOR A LOT!

WE CAN HELP YOU LOOK YOUR BEST!

We know we have what's correct in style—because we have what leading fashioners say is correct—

Hart-Schaffner and Marx for instance—a fashion

moulders of high repute—and we sell their goods—

Besides that we have perfected some ideas of our own along the line of ready-to-wear garments for men—so that to-day some of the leading clothing manufacturers in Canada are making overcoats and suits for us—the best ever produced in Canada—

You say—"that's all talk!"

Maybe!—but it's all truth—all the same!

New Spring Suits

We haven't left the custom tailor man a "pin" to stand on in any argument he might try to put up against the ready-to-wear idea—

Everybody is coming 'round to the ready-to-wear notion—

Suits—15.00—18.00—20.00—22.00 and 25.00—

New Spring Overcoats

Style goes a little farther afield this season in variety—and that has made us all the more keen to create a little more sentiment for the uncommon—and get you out of the rut—

Overcoat prices—15.00—18.00—20.00—22.00—25.00—27.00 and 30.00—

New Spring Hats

Custom and habit are very arbitrary—and a man buys a new hat at Easter time as a matter of course—

In the matter of price we put a man within the reach of just what he wants to pay—

And the most for his money in quality and style—

New Soft Hats—2.00 to 6.00—

New Derbys—2.50 to 5.00—

New Silk Hats—5.00—6.00 and 8.00—

New Furnishings

It's only a case of cause and effect that trade has grown in the men's furnishings department as it has—

Easter novelties in new neckwear at 50c—75c and 1.00—

Easter brightness in new fancy vests from London and New York—2.00 to 5.00—

Easter change from the stiff bosom to the soft bosom shirts—1.00 to 5.00—

Easter half-hose—in Den's 1.00 walking gloves—and dressy grey suede at 1.50—

Easter hat hose—and underwear—new collars—cuffs handkerchiefs—suspenders and other things to add to Easter comfort—

J. W. T. FAIRWEATHER AND CO
84-86 YONGE STREET.

LOCATED IN NEW YORK. In New York by Sgt.-Detective Duncan of Edgar Jeffery, a 14-year-old messenger in his employ, said that the bank had no object beyond finding out the whereabouts of the youngster.

HYDRO-ELECTRIC REPORT.

Now in Government's Hands—Will Cover Much Ground.

The first report of the hydro-electric power commission was presented to the government yesterday afternoon by Chairman Hon. Adam Beck.

The commission has, it is generally believed, been most thorough in its work, and while the report will not be given out for a few days, it will undoubtedly cover with minuteness the question of power distribution in the wide area that can be served by Niagara Falls.

The second report will deal with power supplied to the western portion of the province by the Trent River falls.

In view of the publication of the report of the municipal commission dealing with the cost of generating and transmitting power, the estimates to be given by the government commission will be awaited with interest. Speculation is afoot as to how they will compare. It is thought probable that the government commissioners will report on a higher cost of generating power, and a lesser cost of transmitting.

COMPROMISE ENDS IT.

Fourteen Months of Controversy in Hungarian Politics Is Over.

Vienna, April 6.—After fourteen months of controversy between the throne and the coalition parties, the Hungarian crisis finally has been settled. Both sides express satisfaction with the result obtained, which appears to be in the nature of a compromise.

The news of peace is received with rejoicing in both halves of the monarchy, everyone being heartily tired of the struggle, which had had such a disastrous effect on the financial and economic situation in Hungary.

The compromise was chiefly due to the efforts of the coalition, who feared at the last moment the advent of a period of absolutism, which was inevitable if the elections were not held before April 8, as prescribed by the constitution. The February cabinet welcomed the overtures of the coalition, and thus an agreement was speedily reached.

Hungary can now return to her normal political existence. The elections will be held within the proper time, and parliamentary government re-established; the crown will get the recruits wanted; the army funds for military service will be voted, and the customs tariff and commercial treaties will be ratified by the Hungarian parliament.

The commercial union with Austria is assured until 1910.

ZULU A PRIZE ORATOR.

Prince Ka Isaka Seme Captures Honor at Columbia University.

New York, April 6.—A Zulu, full-blooded and of the race of Cetewayo has won the George William Curtis gold medal, the highest oratorical honor conferred by Columbia University.

Plicy Ka Isaka Seme entered Columbia in 1902 and will be graduated this year. Mr. Seme, as he is called, is not the typical Zulu in appearance. He is only five feet six inches tall and doesn't weigh more than 140 pounds, but his face bears the characteristics of the African of the higher order.

He is the son of a chieftain in Zululand, and when he returns to his home expects to become attorney-general for his people. To prepare himself for the post he went to Oxford University, England, and took a four years' course in British law.

Mr. Seme was brought here by a Zulu named John Dube, who was educated at Oberlin, O., and returning to his native land established an institution of learning modelled on the plans of Booker T. Washington's schools at Tuskegee, Ala. The young Zulu lived in Brooklyn for several months studying English, then went to Dwight L. Moody's school at Northfield, Mass., to prepare for college. His first intention was to become a missionary, then he decided to be a physician and finally a lawyer.

Soon after entering Columbia he began to show an interest in the debates, and finally entered into the oratorical contests with a view to winning the Curtis medal.

"It is easy for me to learn," he said, "and I can do anything I make up my mind to do."

Mr. Seme's subject in the contest was "The Regeneration of Africa." He predicted a higher civilization for the "Dark Continent."

POSTAL CONGRESS IN SESSION.

Rome, April 6.—The delegates to the international postal congress met in formally to-day in the celebrated picture gallery of the Palazzo Colonna.

A motion introduced by Saba Pasha, the postmaster-general of Egypt, to admit a delegate from Tunis was rejected, congress fearing to give offence to France, which has a protectorate over Tunis.

The British delegates presented a proposition to have the Cape Colony, the Transvaal colony and the Orange River colony, each of which sent delegates, represented by Great Britain, which was agreed to.

FOR ST. GEORGE'S BANQUET.

The report of the banquet committee was presented at the monthly meeting of St. George's Society last night. Speakers secured for the occasion are: Hon. G. E. Foster, J. P. Downey, M.L.A., and Lieut.-Col. Septimus Doolson. Rev. Lawrence Skay, vicar of St. Anne's, has been requested to preach to the society on Sunday, 22nd inst.

Stop That Headache

Foolish to Suffer When a Simple Remedy Will Prevent and Cure.

Ever stop to think what caused your headaches? Probably not. Then look to the bowels and stomach, and you'll find plenty of cause. Chances are you'll find constipation, liver is sluggish, stomach overburdened with half-digested food.

No wonder you are dull, tired, restless day and night. You need the cleansing influence of Dr. Hamilton's Pills, which cure your condition in short order.

Being composed of natural vegetable remedies, Dr. Hamilton's Pills possess great power, yet they are harmless. They aid all organs connected with the stomach, liver and bowels. In consequence food is properly digested, the blood is pure and nourishing, the body is kept strong and resists disease.

Headaches are never known to those who use Dr. Hamilton's Pills, and this fact is vouched for by the assistant manager of The Poultry Success Magazine of Springfield, Ohio, Mr. J. H. Callander, who writes: "No better medicine than Dr. Hamilton's Pills. We use them regularly and know of marvelous cures that resisted everything else. They cleanse the whole system, act as a tonic on the blood, enliven digestion, help the stomach and make you feel strong and well. For headaches, indigestion and stomach disorders I am confident that the one prescription is Dr. Hamilton's Pills."

You can rely on Dr. Hamilton's Pills with implicit confidence; their effect is wonderful. Sold by all dealers. Price 25c per box, five boxes for \$1.00, by mail from N. C. Folsom & Co., Kingston, Ont., and Hartford, Conn., U.S.A.
